CHIEF OF POLICE CLARK ON THE STAND TODAY SWEARS DOWN HE ADMITTED HIS GUILT TO HIM

"I Don't Know How I Came to do It, but I Am Going to Tell About It," Said Prisoner in Cells—Dr. G. A. B. Addy Swears that Downie Could Not Have Been Choked Unconscious Without Leaving Marks on His Neck and None Were Found

The Downie case was continued in the police court this morning, when two witnesses were examined, Dr. G. A. B. Addy and Chief of Police W. W. Clark. The evidence of both proved of much importance, as in reply to a direct question from Judge Ritchie Dr. Addy expressed his belief that Downie could not have been choked into unconsciousness, as there were no marks to indicate it on the neck, and as to choke a man in such a violent manner as the prisoner had described, had occurred to him, there would of necessity have been marks on the neck for some time afterwards.

Dr. G. A. B. Addy Makes Important Statement. Dr. G. A. B. Addy, sworn, said he was called at dinner hour on Friday week to Simms' break factory. He received the call from Mr. Reid. A number of officers were there. He was ushered into the enclosure behind the counter, where Downie was. The latter was in a chair with his coat off, also his collar off.

A NEW POLICEMAN

Joseph Leonard Jones is the name of the man who fills the position on the police force made vacant by the resignation of Matthew T. Cavanaugh.

MONTRAL STOCKS

Montreal, March 2.—(Special)—Stocks were quiet and mostly steady. The Toronto Railway rose from 121 to 122 1/2. Dominion Steel preferred, 104 1/2. Bonds 82 1/2. Two City 107, Amherst 80.

Cross-examined by Mr. McInerney, the witness said that he was at the factory about 1.30. To a further question, he repeated that not finding marks on the neck of the prisoner, his opinion would be that he was not choked into unconsciousness.

In reply to a further question by Mr. McInerney, witness said that it was possible that such a blow in the abdomen might result in making the prisoner nervous that he might at the time neglect to speak of being struck.

A Mysterious Disappearance
By Gordon Holmes

A Great Detective Story

(Continued.)

A first-class sensation was in full swing and threatened to reach the question stage in the House of Commons when Bruce took hold of affairs.

He went to Sir Charles Dyke's solicitors and induced them to send out the following authoritative communication to press:

"Much unnecessary pain is being caused to Sir Charles Dyke and to the relatives of his late wife by the comments which have appeared in many newspapers regarding Lady Dyke's death. Her ladyship left her home on November 6th to pay a visit to her sister at Richmond, and since that date has not been seen or heard of. There was no possible reason for her disappearance. After a long and agonizing search, her husband and relatives have come to the conclusion that she has met with some accident on the date named, with the result that her identity was not established and she was probably buried from some hospital or other institution long before her friends seriously entertained the thought that she was dead. Every such case of accidental death followed by the interment of unknown persons by the authorities, occurring on or about November 6th, has since been rigidly investigated but no definite trace of the missing Lady Sir Charles Dyke determined to take the public step of announcing his wife's death in the hope that any hitherto undiscovered clue might thereby open to light. But there are no grounds to suppose that any other explanation of the occurrence than that given will be forthcoming. The investigation has been in the hands of Scotland Yard throughout, so no good purpose can be served by further discussion in the press of what is now, and threatens to remain a mystery rendered more complex by the simplicity of its leading facts.

Several newspapers, of course, pointed out that they were helping forward the inquiry by nothing but forwarding the investigation paragraphs ceased, being eclipsed in interest by the revelation of a great divorce case in which there were no less than six titled correspondents.

One man was much puzzled by the original obituary notice and the semi-official statement supplied by the solicitors.

"Mr. White did not know what to make of them. He guessed that Bruce had invited that 'explanation' and he read the concluding sentences nippy tipsy.

"It threatens to remain a mystery, does it not?" he murmured, just as Mr. Bruce, until I lay my hands on Corbett. Clever as you are, I think I will show you that I can find out what happened to the better of your theories. Anyway, Corbett will have to be very explicit about his movements before I am satisfied that he knows nothing about this business."

He had written to the Chief of Police at Chesham, and something definite would soon come to hand.

Nevertheless, he felt somewhat shaken in his diagnosis of the crime. Myoming was a long way from London, and the letter from Corbett, which he had in his possession, did not exactly confirm his suspicion that the man was concerned in the murder of Lady Dyke.

He quickly became aware of Mrs. Hillmer's departure, and at once jumped to the conclusion that she had recently left England for the United States. A close scrutiny of the passenger list at Liverpool and Southampton did not help him much, and he ultimately resolved to call on Bruce, in the hope that a chance exclamation might reveal the harrier's opinion of the situation.

Clude was not at a loss to account for Mr. White's presence.

"I expected you," he said.

"Really now, may I ask why?"

"Because you have missed Mrs. Hillmer, and you want me to help you find where she has gone, and why."

The detective smiled.

"I won't say that you are wrong, sir," he cried. "In these affairs it is always well to keep an eye on the woman, you know."

"When did Mrs. Hillmer leave Raleigh Mansions?"

"On the 9th."

"It is now February 3. Four days ago, eh?"

"That is the time. She might have left by the American line from Southampton or the Cunard from Liverpool on Wednesday but she did not, and no one answering her description is booked by the White Star tomorrow."

"Southampton? Liverpool? Do you think she has gone to America?"

PRESIDENT TAFT WILL GET A SALARY RAISE OF \$25,000

(From Our Regular Correspondent.)

On the evening preceding the twenty-second of February, Washington's birthday, congress adjourned until the twenty-third instant, and went by steamer, special and regular trains and automobiles, to Old Point Comfort, to witness the naval pageant of the incoming fleet, which by arrangement completed its round the world cruise on this national holiday.

Our correspondent accompanied a large party, composed of the members of the house of representatives, and arriving at Hampton Roads early in the morning of the twenty-second, he boarded the excursion steamer and sailed down the harbor, some fifteen miles below the president's boat the Mayflower, which soon dropped anchor at the "Connecticut" flag ship, here in sight, passing the president's yacht with the boom of cannon, followed by twenty powerful ironclads, each of which fired salutes, as they passed the president's yacht. The spectacle was quite impressive to those cognizant of the great money cost of these immense modern ironclads and of the great expense of keeping them afloat. To those who looked on without a hint of interest, the procession of slowly moving ships, at a distance of six hundred feet apart, one looking very much like the other, the misty atmosphere, the little motionless fifteen of the vessels were painted white, and had anything but a war-warrior and storm-beaten appearance. Seven of them had not been around the world but had only gone on the Atlantic to meet and escort these vessels home, were of a dark grey color. At a given signal the ships dropped anchor in the deep waters of Hampton Roads, in front of Chamberlain's Hotel of the village of Old Point Comfort. At this moment two scores of steam vessels, excursion boats, tugs and barges, opened the throats of their whistles, and for fifteen minutes there was such a din as only a chorus of fog horns can make a little every direction, lighting the sea and land sky and demonstrating how difficult they could make it for a torpedo boat or other lurking enemy to approach without detection.

FLOUR MILL AT NORTON BURNED

Harmer's Mill, That Cost \$10,000 a Short Time Ago, Destroyed With Much Grain.

Norton, N. B., March 1.—Harmer's flour, cornmeal and feed mill caught fire last night about 10 o'clock and in two hours was in ashes.

The mill and first class equipment was a total loss. The plant cost between \$8,000 and \$10,000 a short time ago. The insurance was \$10,000.

A car load of buckwheat from the J. D. Irving of Buctouche, which was shipped five days before he was burned out, was stored in the mill as well as large quantities of barley, corn and oats.

The mill was a well manufactured goods were on the ground floor ready for shipment.

The engineer, Fred Leonard, was in the mill about 5 o'clock last night and everything was as usual. There was no night watchman. The origin is a mystery.

CITY'S FUNDED DEBT

At Present it is More Than \$5,000,000—City Lived Within Its Income in 1908

The chamberlain's annual report was submitted yesterday to the council. He announces that during 1908 the city lived within its income and that over-expenditures in some accounts amounting to \$8,860.18 were more than balanced by balances of \$35,228.48 in others, leaving a net credit balance of \$26,368.30. Bonds of the extent of \$307,000 were issued. The only bonds maturing amounted to \$1,300.

The bonded debt on Dec. 31, 1908, was \$4,822,633.51, which, with the capital expenditure for the year not yet bonded, total deposits in investment account. The capital expenditure for the year was \$122,031.18. The receipts for the year exceeded the returns for 1907, nearly all the accounts showing an increase. The tax receipts, however, he reports as below what should be collected and suggests drastic measures to bring them up to the proper standing. A large increase was noticeable in collections.

Mr. Chamberlain expresses the opinion that the houses owned by the city at or near Fairville should be sold as they do not bring in much revenue, that the market should be brought in a much larger amount than is received. He reports the clerical staff as very heavy and recommends that Cooper, who has been relieving the clerks for six months, should be permanently retained. All accounts presented to Dec. 31 were paid and the city began the new year with a clean sheet as far as the departments were concerned.

REV. MR. JACKSON BACK IN THE FOLD

Toronto, March 1.—The Methodist Ministerial Association held one of the longest meetings in its history in the Methodist office this morning, it being expected that the Carman-Jackson controversy would be discussed.

Rev. Geo. Jackson arrived prepared to make a statement regarding his recent utterances, which have given offence to the general superintendent, Rev. Dr. Carman, using in Smith's Falls, could not attend, but the matter was taken up in private session. The following resolution was unanimously adopted:

"That whereas the Toronto Methodist ministerial meeting having heard the explanation of Rev. Geo. Jackson denying any imputation of cowardice to his ministerial brethren in the matter of Biblical teaching and stating that he was thus misrepresented in the public press, we accept heartily the said explanation as not impugning our course and our honesty."

AN AGED WOMAN FROZEN TO DEATH

Annapolis, N. S., March 1.—A gruesome discovery was made by the neighbors of Mrs. Sarah Devaney, who, on entering her house this morning, found her dead and her body in an advanced state of decomposition.

Mrs. Devaney, who lived alone, and was upwards of eighty years of age, was last seen out before the severe cold last week. The neighbors, at last becoming anxious, forced an entrance and found her dead, frozen to death, it is supposed.

The house in which she lived was in a very dilapidated condition and everything bespoke great poverty. Mrs. Devaney has lived alone for several years and was credited with the power of second sight. She was frequently discovered at night on the top of a hill, gazing at the stars by which she claimed to be able to foretell events and as a result she was held in great awe by many of the superstitiously inclined. An inquest will be held.

SMALLPOX IN YARMOUTH

Halifax, March 1.—The churches and Sunday schools of Yarmouth were all closed yesterday on account of the existence of smallpox, of which there are several cases in town, but of a mild type. Along with this disease is an outbreak of diphtheria.

Smallpox of a mild form is general over the whole province, and while not dangerous is very annoying from the necessity of quarantine, and is costing the board of health a large sum of money.

Y. M. C. A. BOYS HOME

Frank Smith, Willis Jones, Donald Skinner, Philip Simms, Grant Smith, and H. Lovell, delegates from the St. John Y. M. C. A. to the conference at Lunenburg, returned to the city yesterday morning.

The officers chosen by the conference were: Frank Smith, chairman of the St. John boys' cabinet; Mr. McEvan, Charlottetown, 1st vice-president; Howard Dawson, 2nd vice-president; Harry Gorbell, Moncton, secretary.

Everything She Ate SEEMED A BURDEN TO CARRY. HAD STOMACH TROUBLE FOUR YEARS.

When your food has not been properly digested, your body has not received the benefit it should. The digestive tract is as important as any other part of the body, and it is essential that it should be kept in good working order. Purdock Blood Bitters regulates the bowels, promotes perfect digestion, makes pure blood, tones the stomach, and restores perfect health and strength to the debilitated system.

Mr. D. A. Franconi, Roseland, B.C., writes: "I was suffering from stomach trouble of the worst kind for about four years. Everything I ate seemed a burden to carry. I always arose in the morning with a sickening and feverish taste in my mouth and was also troubled with swellings in my hands and feet which my physician said was due to the disordered state of my stomach. I tried everything that was purchasable, and also consulted two or three physicians, but could find no relief until one of my neighbors told me of a wonderful cure by Purdock Blood Bitters. I used altogether ten bottles and am now perfectly cured. My blood is now pure and my stomach is as strong as ever. I am able to do my usual work as I was."

HALIFAX IS AFRAID OF ST. JOHN COMPETITION

Halifax, March 1.—A meeting of merchants engaged in the wholesale trade held at the board of trade rooms today to consider the withdrawal of the steamer Seneca from the St. John-Halifax route along the south shore of Nova Scotia. Announcement was made that parties were ready to put on a new boat without asking for the support of Halifax capital, if the subsidies from the dominion and New Brunswick were forthcoming. The meeting, however, only wants a boat from Halifax to Yarmouth, and a resolution to that effect was adopted. A committee was appointed to look into the matter and report.

The offer of the parties mentioned as ready to proceed does not cover the Halifax-Yarmouth service. The Halifax & South Western agent said the absence of the Seneca from the route would not mean any rise in rates. The dominion subsidy is \$10,000; New Brunswick, \$4,500, and Nova Scotia gives nothing.

DID DUBOIS BURN COIN IN MONTREAL?

Man Answering Description of Missing G. T. P. Contractor Reported to Have Had a High Old Time in Montreal Hotels.

(Montreal tele.)

Has the swindling contractor John Dubois, been in Montreal, had a high time, and burnt his money in a third class Chamille Square Hotel, eluded the pursuing special detectives and got clean away again? Such is the interesting problem which is agitating local police circles. A special detachment from Fredericton, N. B., to the Star today, announces the fact that Dubois, who has operated for some time in the vicinity of Fredericton, as a subcontractor on the new Transcontinental Railway, made a sudden and sensational disappearance a few days ago. After dispatching the large gang of men over which he was "boss" at the construction camp, he is alleged to have concluded a long and his business books, and fled the district, and it is supposed booked for Montreal, leaving about \$8,000 worth of unpaid bills behind. From information gleaned by a Star reporter today around the various labor supply bureaus in the city, it appears that several of them have supplied railway construction men to the Fredericton district camps, but not directly to Dubois, who appears to have been a subcontractor, or "gang-boss," in the employment of a larger contracting agent.

The rules under which such contracts are made by the railway companies, however, ensure that the poor laborers will not suffer financially as a result of the sudden desertion of the "boss," as their wages are assured under a law which provides that 10 per cent. of the total value of all contracts is held by the railway companies to cover such cases of defaulting contractors. It is almost certain that Dubois authorities believe he has relatives in the city, but up till now no reliable clue as to the fugitive's whereabouts has been gained by the detectives at work in the case.

From investigation today it was learned that a man in many respects answering the description of the missing swindler, put up for two nights at one of the third class hotels in the vicinity of Chamille Square. The husky stranger was flush of cash, burned a wad of bills, and gave certain mysterious hints of having pulled off a big "score" in a construction camp in the Maritime Provinces. Today he has disappeared as suddenly as he came, the suspicion being that he has proceeded west. The question is, was he the missing man, and could he have called at Montreal in passing, had his little piece of money, the very nose of the detective, and got clean away without molestation?

CIVIC FINANCES Aid: Baxter's review of the chamberlain's annual report is a concise statement setting forth with admirable clearness the financial position of the city. The amount of the funded debt is shown, and while it is large the chairman of the treasury board observes that on the whole the city has good assets for all of its bonded debt incurred since the union. He further says: 'While the funded debt of the city is large in proportion to the assessable real estate it must be remembered that nearly two millions represented expenditures for water service and the winter port. The rest of the debt is not large for a city such as St. John though it will be necessary to proceed with extreme care in making further additions. During the year the council adopted a resolution by which before any work can be undertaken which will require to be paid for by bond issue, there must be a two-thirds vote of all the members in its favor. This will do much to check rash expenditure and it may be well that this provision should be enforced by legislation. Another alternative would be to limit the bonding powers of the city to a definite proportion of the value of the assessed real estate.'

BAND AND CLUB If it had been the rule of the city council to exact rent from the band which has been using rooms in the west side city hall there might be some semblance of excuse for its action in regard to the proposed Every Day Club on that side of the harbor. As a matter of fact, however, the council has been more than generous in its treatment of the band. The proper thing to have been done in the present case, would have been for the band to identify itself with the new club, and the council give the club the use of the hall at a nominal figure. Then the band could have been in a position, with the club at its back, to conduct entertainments and raise funds for itself, and at the same time aid in a work that makes for better citizenship. The Every Day Club must raise funds for furniture and running expenses. Those who will be behind it must give freely of their time and money to keep it in active operation. The council's action has caused further delay in getting the work started. That is surely an important civic work which seeks to give back to his family and to productive industry the man who is down and almost out, and which further aims to arouse among men a deeper interest in the welfare of their fellows. The city chamberlain fears that drastic measures must be taken to collect the taxes. There would be more money to pay taxes if the spirit of the Every Day Club prevailed more largely among the men who spend in dissipation that which should go to support those dependent upon them, and to pay those very taxes of which the chamberlain speaks. It is to be hoped that the parties will get together, and that the safety board, which has power to act, will act promptly, and give the new club an opportunity to organize without delay.

TURNED DOWN The Hazen government, which, to the regret of his friends includes among its members the Hon. Robert Maxwell, has definitely allied itself with the liquor interests. Of course there will be the customary talk about honest differences of opinion, and professions of belief that really it is much better to move slowly in this matter; but the people are not deceived. Premier Hazen knew when he and his colleagues met the temperance delegation that his answer to them would be, and the long delay in answering has had for its chief object the confusion of the temperance forces, to the end that the session of the legislature would be upon them before they could properly formulate a new programme. The government still clings to the fallacy that what is termed the liquor vote is worth striving for, although Mr. Maxwell could have told his colleagues that in the constituency where the liquor interests are most strongly entrenched he got along very comfortably without their aid. That was when he was a prohibitionist. If he is to remain a prohibitionist his resignation will doubtless be placed shortly in the premier's hands. The government, in its reply to the prohibitionists, endeavors to show that the comparatively small number of signatures to the petitions indicate a lack of interest on the part of temperance people. As a matter of fact, those petitions were called in last fall, when it was expected that they would be presented, but Mr. Hazen did not give the temperance federation a chance to present them. The work of securing signatures lagged somewhat after this; but, after all, the government are only looking for an excuse. Were a systematic effort made to secure signatures all over the province, the members of the government know that an overwhelming majority would petition for prohibition, just as a great majority would vote for prohibition today in St. John if they were not given the opportunity.

THE SCOTT ACT In commending the Scott Act, the government commends a law which it knows is not as capable of enforcement as one which would have behind it the legal machinery of a determined provincial government. Hon. Mr. Maxwell has publicly expressed the conviction that the Scott Act could be carried in St. John. So, then, could prohibition be carried in St. John. In the course he has pursued, therefore, he has run counter to the wishes of those who elected him. The promise is made that the House law will be amended, and the statement gravely made that the government desires the license law enforced. The latter statement, in view of the notoriously common violation of the law in St. John city and county, is not impressive. The government has made no real attempt at rigid enforcement. The same old machinery operates in the same old way. When the temperance federation wanted to show what could be done it set a detective at work for a few days, and ample proof of violation of the law was at once forthcoming. But Mr. Hazen is not looking for trouble with his supporters in the trade. With regard to the amendment of the license law, the government will be asked to make such amendments as will make it possible for the majority to rule in St. John. At present the minority occupy the seats of the majority, and the representatives of the majority, hat in hand, must humbly go from door to door with petitions begging an opportunity to be heard in regard to the making of the laws which govern them. The government has shown its hand. It is now the turn of the opposition. The government goes upon the theory that a prohibitionist is a Hazen man first and a prohibitionist afterward. Assured of the support of the liquor interests, the premier believes "soft sapper" and party feeling will give him enough of the temperance vote to make the straddle serve his turn. If the opposition leaders show that they have more faith in the sincerity of the people, they will not go unwarded. In the meantime St. John demands that the license law be amended and a secret ballot taken this year in the four wards in which petitions were circulated in December. The heresy hunt in Toronto has ended in a handshaking, but the St. John keeps other people's consciences are said to be furnishing up their armor. Perhaps if, instead of asking a man on pain of excommunication to tell what he believes, he were asked to show what he is doing with what he does believe, to help his fellowman, the final result would be quite satisfactory.

DREAMING AWAY THE WEATHER Dreaming away the weather, gloom isn't doom to me. For on the roses are raining down under the dreamland tree: The tinkle of silver fiddles, and oh, for an elfin air! Sweaters together in all sorts of weather. Windy, or rainy, or fair! Dreaming away the weather: why, back And don't hinder the hearts whose under gas struck and is striking true: The laughter of lilted people in fairied and frosted dell. All tenderly clinging These bluebirds are singing. Adrift in the dreamland spell: Dreaming away the weather, and what is the rain for those Who dance where the rivers of silver run and the rain is raining the roses: The singing of sweetheart spirits in valleys of blossom blue. Sweaters together Love and the April dew. Dreaming away the weather: what do we care what they say, dreaming dear Here in the valleys, the dream of May? Light are the veils of morning sweet are the lips of gleam. Singing and dancing, dancing and dashing, Sleep, and the shores of dreamland. —Baltimore Sun.

MIKE TOOK THE HINT The lawyer told Mike Dolan, his client, that he had a splendid case. Mike mused and mused and then said, tentatively, 'Do you think it would do any good to send his lawyer a couple of dollars?' 'No,' replied the lawyer; 'I know him too well. If you did that he would decide the case against you, sure as fate.' 'Two days afterward the case was heard and Mike went in and out. So he called on his lawyer and said, 'I've heard of settling up affairs remarked: 'Well, you see, sir, it's just as well. I sent his Honor those ducks.' 'What?' exclaimed the astonished counsel 'you sent the ducks after what I said?' 'Yes, indeed. We have to have the gas-ometer of the night now, Cleveland Leader.

SUDDEN DEATH OF SPEAKER OF THE P.E.I. HOUSE Hon. Matthew Smith Passed Away Yesterday—His Death Reduces Liberal Majority to Three. Charlottetown, P. E. I., March 1.—(Special)—Hon. Matthew Smith, speaker of the provincial legislature, died this afternoon from pneumonia. He was in his place when the house adjourned on Saturday at noon, but was suffering from a severe cold. He had been ailing since the general elections in December last. His death reduces the Liberal members to sixteen in a house of thirty, the government having had a majority of three, exclusive of the speaker. Mr. Smith was sixty years of age and represented the first district of Queens since 1903 and was a member of the government without portfolio for four years. He was a prominent farmer and proprietor of the Sea View Hotel, a summer resort at Hampton Beach. Within a year the Liberals have lost two speakers, Dr. Douglas having died at the close of the legislature last April. The new speaker will likely be John A. H. Robertson, or Dr. Warburton, of Charlottetown.

TO INLAND AUSTRALIA FOR YOUR HEALTH ROUND TRIP ONLY \$1.00 If you are a catarrh, asthma or hay fever sufferer, what would you say if the above offer was made to you? How would you like to go to the mountainous forests of pine and eucalyptus, where catarrh and asthma do not exist? Where people do not have to hawk every morning, to spit out the lump of disgusting mucus? Where the healing, antiseptic balsams purify the air and kill all germs? You can't go to this ideal spot, of course. You haven't time, and possibly not money. Ask Chas. Wasson, druggist, 100 King street, about Hyomeo, the Australian dry air cure. Get an outfit, which includes inhaler, for \$1, breathe the same air that you would find in Australia, and if it does not heal the raw membrane and cure you of catarrh, sniffles, cough, cold or asthma, you can have your money back. Miss Ethel Pidgeon Miss Ethel Pidgeon, daughter of Robert and the late Mary Anne Pidgeon, died in the hospital Monday. She had been sick since Christmas with a complication of diseases. The family formerly belonged to Windsor (N. S.), and a few years ago Miss Pidgeon moved to this city, while her father, with five of her sisters, went to Vancouver. Besides her father, she leaves six sisters and two brothers. They are: Mrs. Harriet, in Windsor; Elena, Mimie, Nellie, Pearl and Ina, in Vancouver; Harry, in Quebec, and Claude, in Saskatoon. The body was taken to Windsor Tuesday morning for burial.

Rev. Father Morrissey Take Father Morrissey's 'No. 10' (Lung Tonic) And Be Sure that it will cure your cough, cold or lung troubles. It is the very same medicine which the priest-physician himself prescribed so often and so successfully during his lifetime, and thousands are the cases it has cured. Take it—or give it to the children—with confidence, because it is absolutely free from opium, morphine or any other harmful drug. Many cough medicines are loaded with these dangerous ingredients, but Father Morrissey would not use anything that was not perfectly safe even for a baby. 'No. 10' contains nothing but Nature's own remedies—Herbs, Roots and Balsams—combined as only Father Morrissey knew how to combine them. THE DETAILED SCHEME FOR AN IMPERIAL ARMY The London Standard Gives Particulars of the War Office Proposal, to Which a Reply from the Oversea States is Awaited. (London Standard, February 10.) In these columns last year attention was drawn to the government plans for consolidating the forces of the Empire into a common army on definite scientific lines, and this month official reference has been made to the subject by Mr. Haldane and Lord Lucas. It is understood that most of the Oversea States have agreed that a better war plan than that which existed at the outbreak of the South African war is necessary, in view of any future occasion when an imperial field force may be called into action under one commanding head. In short, machinery is to be provided for methodically utilizing the services, on a pre-arranged plan, of men who volunteer in war time. As will have been seen by our Canadian and Australian colleagues of recent date, the War Office proposals have been received by the various governments concerned, and are now having full attention with a view to the framing of definite replies. The home proposals, framed on colonial suggestions largely, aim at a consolidation both for peace and war. For the former it is suggested that each state should organize its units on the lines of the regular army plan, instead of having a military empire, whilst each colony would be self-contained, in addition, and this would ensure an absence of confusion when colonial contingents are thrown together with regular troops in war time. This plan would provide regular model divisions, made up as follows: A COLONIAL DIVISION. 3 Infantry Brigades of 12 battalions. 12 Batteries of Field Artillery. 4 Field, etc., companies of Engineers. 3 A. S. C. companies. 3 Field Ambulances. General hospital and army troops. 1 Mounted Regiment. This would be the home defence organization, and in war time it is proposed that such units as are required should be taken to make up complete brigades and divisions for service under their own trained leaders. Thus, if England and India put in the field fifteen regular divisions, Australia, Canada, New Zealand, and South Africa might supply one each, made up entirely of men who offer their services for war. Service would be purely voluntary, as follows: Pains of women, head pains, or any pain stopped in 20 minutes sure with Dr. Shoop's Pink Pain Tablets. See full formula on 25c. box. Sold by all druggists.

The Value and Economy of Bovril

BOVRIL is a very concentrated preparation and contains all the stimulating and flavoring qualities of beef plus the Fibrin and Albumen.

The Fibrin and Albumen of beef are the elements which give to "BOVRIL" its high nutritive value and make it entirely different from other extracts of meat.

BOVRIL is so rich in food value and its nourishment is so easily absorbed that, when used in making soups, preparing stews, ragouts, etc., it renders the use of a large quantity of meat unnecessary, at the same time building up a reserve of health and strength in the system.

A 1 lb bottle of BOVRIL will make 50 portions of good nourishing soup at a cost of 3 1/2 cts. a portion.

For giving strength and vitality to the system and warding off colds, grip and other ailments BOVRIL is without an equal.

Order from your dealer. The 1 lb bottle is the most economical.

CIVIC RE-ORGANIZATION KILLED IN THE COUNCIL

Despite Fact That Re-Organization Committee Has Not Yet Reported Director Wisely is Appointed for Another Year—Baxter, Lewis, Scully and Frink Opposed It on Principle and Kelley Refused to Vote.

Although the report of the re-organization committee has not been presented, the majority of the council yesterday decided to reappoint Robert Wisely director of public works for the balance of the year, one of the arguments put forward being that Mr. Wisely wanted to know where he stood. Ald. Frink said the newspapers claimed they had good reason to criticize the council and had certainly a reason. William Murdoch and Hurd Peters were reappointed until April 1.

The recommendations in Chief Kerr's annual report, which had been adopted at a specially called meeting of the safety board, were all referred back for further consideration. The recommendation to give the Every Day Club the large room in Carleton City Hall, rent free for a year, was also turned down.

Ald. Baxter read an interesting statement explanatory of the report of the chamberlain. A bill to be introduced by the local government relieving the commission of their powers in connection with the abode and providing for repairs being made by the city, was referred to the bills and by-laws committee. The council adjourned to meet this afternoon, when the report of the harbor facilities committee and the report of the C. P. R. for the exchange of the properties in Carleton will be the first order of business.

The reports of the board of works and treasury boards were adopted. The majority of the sections in the safety board's report were referred back. In a supplementary report, the board recommended that an application from the Every Day Club for use of the large room in Carleton public hall free of rent be granted for one year.

Ald. Kelley said the Carleton Cornet Band, who were also applying, had brought a charge against one of the city's officials with reference to the rent they had paid in the past. The matter ought to be straightened out. He understood the band offered \$100 for the room, and while he supposed strongly in favor of giving the room to the Every Day Club, on the ground that it would be a benefit to the community, he asked who would be responsible for the band's offer, considering they had paid only \$40 in eight years.

After further discussion, on motion of Ald. Kelley, the report was referred back with power to act. Ald. Sprad in the name of Vanwert, Holder, Lewis and Ekin voted nay; Ald. Christie, Baxter, Kelley, Rowan, Frink, McInnis, Scully, Willet, McGowan and Hamer, aye.

The chamberlain's annual report was received and ordered printed. Ald. Baxter in reviewing the report, made the following statement: The funded debt of the city at the close of the year 1908 was \$1,738,227.70 and at 31 Dec. 1908, \$1,714,077.81. Showing an increase of \$24,149.89.

FRUIT—THE GREAT PHYSICIAN

Wonderful Medicinal Value of Apples, Oranges, Figs and Prunes.

How many people realize what remarkable curative principles are contained in fruit juices. There are two—the bitter and the sweet. There is about ten times as much of the sweet as of the bitter, though the bitter principle is the one which has the curative effect on disease.

It was a theory of a physician in Ottawa, that if the amount of bitter principle in fruit juice could be doubled, the curative property would be increased, not twice but many times. After many tests, this physician succeeded in forcing into the combined fruit juices an additional amount of bitter principle, and in doing so formed an entirely new compound. To the combined juices were added valuable tonics and antiseptics and the whole made into tablets.

These are "Fruit-tives"—the only remedy known to science that is made of fruit. The wonderful cures in cases of Stomach Trouble, Biliousness, Constipation, Rheumatism, Chronic Headache and Neuralgia, Kidney, Liver and Skin Diseases are due solely to the fact that "Fruit-tives" contain the medicinal properties of fruit. 50c. a box, 6 for \$2.50, or trial box, 25c. Ferry steamer account—The revenue has been \$30,888.88 from tariff, etc., and \$7,241.92 from assessment, while the expenditures have amounted to \$30,885.12, leaving a debit of \$74.32. It should be remembered that \$2,925.45 was spent on a fog alarm, the patent right of which is the property of Ald. McDowen, who has kindly permitted the city to use it without royalty, and has also given a great deal of time and attention to its installation. It is hoped soon to have the apparatus in running order.

Licenses—Licenses, exclusive of liquor licenses, yielded \$70,823. Liquor licenses contributed \$15,336.67 to general revenue account. Lamps department—This department spent \$2,095.77 less than was received for it. Market—The market paid its way and put \$1,901.93 to the sinking fund, but one would like better results from a building which cost \$120,000.

Police department—This department spent \$280.80 more than was received for it, but this is perhaps accounted for by a new ambulance which cost \$700. Street account—There was a total receipt on this account of \$78,887.37, of which \$6,238.58 remains unexpended. This ensures that the assessment of streets need not be increased during the coming year.

Why Am I Ill? HOW TO TELL. Does every cold affect your back, and cause a feeling of chilliness, followed by disturbance of the kidney action. Does the use of spirits, tea or beer excite the kidneys? Are you easily worried and annoyed over trifles? Are the feet and hands cold? Circulation bad? Do the feet and legs swell? Is there puffiness under the eyes? Do you have rheumatism, poor erections, headaches and backaches? Is there gravel or any unnatural action of the kidneys?

If you have any of the above symptoms your kidneys are either weak or diseased, serious troubles to follow: Bright's Disease, Diabetes or Dropsy. Whatever you do, whatever you think your disease is, look well to your kidneys at the first sign of anything wrong. Give them just the aid they require in Doan's Kidney Pills, the Great Quaker Kidney Medicine, and see how well and fit you feel after even a few doses. Mrs. O. Warren, Radisson, Sask., writes: "I was troubled with very severe pains in my back for years. I tried everything I could think of but they did me no good. A friend told me about Doan's Kidney Pills and after taking two boxes, I have not been troubled since." Price 50 cents per box, or 3 boxes for \$1.25, at all dealers or The T. Milburn Co. Limited, Toronto. In ordering specify "Doan's."

YESTERDAY'S FINE WEATHER WAS GREAT CHANGE FOR BABY

Many Parents Took Advantage of the Day to Have Baby's Picture Taken for the Times Contest — Here is Miss Geneva—How Do You Like Her?

Miss Geneva Bayntun—A Leap Year Baby Entered in Borden Contest

Yesterday's weather was baby weather. It was a clear, bracing day and many little ones and their mammae took advantage of the opportunity to journey to Erb's studio, Charlotte street, and have baby's picture taken free of charge, for entrance in the Borden baby contest now being conducted through the Times. So many entries have been received and they are all so good, that the judges will have no light task to select the winners. Would you not consider it a proud distinction of your baby, won by tangible, impartial judges, pronounced the very finest specimen of baby kind in all St. John. This honor may perhaps be yours if you send in baby's photo to the Times office and comply with the very simple conditions which are printed on another page of this issue.

A NEW COMPANY

Jess F. Hinkley secretary of the Farmers' Friend Sales Company, of Minneapolis, Minn., has been in the city for some days and is organizing a company to manufacture farm scales for which his company has a patent. The scales are attached to the side of any farm wagon in a few minutes, and the load weighed. It can also be converted into a platform scale. Mr. Hinkley has arranged with a number of local business men to take an interest in the enterprise and the scales will be manufactured here by a local concern.

THE EVERY DAY CLUB

Rev. H. R. Reid and C. W. Brown of the west side visited the Every Day Club last evening and were present at its regular business meeting. In response to a request they spoke briefly, expressing their appreciation of the work of the club and their determination to work for the organization of such a club in Carleton. The president of the club stated that Mrs. George Watters, who presented the playgrounds with a flag last summer, and in other ways gave the club much valuable aid, had offered to present them with fifteen volumes of Dickens, as the nucleus of a circulating library for members. It was pointed out that others would add books, and it was decided to accept the offer and extend the thanks of the club to Mrs. Watters. E. S. Edgercombe offered the club a large bookcase to contain the books, and his offer was gladly accepted. The building committee were authorized to provide suitable screens for the stage, which will make it possible to convert the stage into a committee room, and also for band practice. The minstrel circle had their first practice last evening for the performance to be given in a few weeks.

PERSONALS

Mrs. J. Silver and child, have left St. John to join Mr. Silver, who preceded them a short time ago, to Manchester, Eng. Mrs. Silver was called back to St. John on important business from Halifax. She was accompanied by her father, W. B. Edwards.
S. C. Webb, in the employ of Hiram Webb, electrical contractor in this city, has recently received a diploma from the American School of Correspondence, Chicago, on the completion of an electrical engineering course.

A SAD CASE

Among the passengers arriving on the Boston train today was a family of six, father, mother and four children. The father, a comparatively young man, minus one hand, was very drunk, and the mother had her hands full to look after the children, the eldest being not over ten years, and to keep the husband and father from going after more liquor. The family left on the 12:40 train going east. Scenes such as this are not uncommon in the depot.

There are about thirty numbers on the programme of the dime concert in the Every Day Club this evening, and some of the best city talent will be heard in instrumental and vocal music, readings, etc.
