IMMIGRATION OF HUTTERITES PROHIBITED; RIOTS FOLLOW MAY DAY DEMONSTRATIONS; BILL TO BAR UNDESIRABLES PASSES COMMITTEE

RIOTS, BLOODSHED, DEATH FOLLOW IN THE WAKE OF MAY DAY DEMONSTRATIONS

At Paris All Activities Were Stopped and the Military Exercised a Strong Hand in Putting Down Banned Demonstrations—There Were Many Clashes Between the Military and the Citizens—In the United States Riots in Several Cities Resulted in Bloodshed, as Police Clashed With Marchers Displaying the Red Flag.

Paris, May 1.—(Havas)—During the course of the day eighty policemen were wounded in the riots, and fifty arrests were made. Among those slightly injured were Leo Joupoux, General Secretary of the Federation of Labor, and Deputy Poncelet. A young man was killed in the opera district.

Fifteen persons were wounded, several of them seriously in the neighborhood of the Garde de L'Est, when crowds stoned the cavalry, and many shots were fired. There were numerous clashes in the boulevard de Mascotte, where barriers were erected and the troops fired upon.

Several persons were slightly injured in clashes with troops resisting the passage of crowds towards the Place de la Concorde during attempts at May Day demonstrations here, this afternoon. No shots were fired, but a few individuals in the crowd were slashed with swords.

The troops had their greatest difficulty in keeping the Place de la Concorde clear. After one attempt to invade the area had been only temporarily successful, the cavalry and the police herding the crowds back into the side streets near the square, the effort was renewed.

The crowds formed again in the Boulevard and Place de Madeleine, and swept back again towards the Place de la Concorde. The cavalry, several ranks deep, with fixed bayonets and the passing of the people met resistance. A general scuffle ensued, and it was then that the few who were hurt received their injuries.

Shortly afterwards the crowd got together again in front of the Madeleine and red flags began to appear, when firemen turned their hose upon the massed people, gradually dispelling them.

The newspaper *Voix du Peuple*, the organ of the Central Labor Federation was distributed to the crowds in the streets, but the police and military seized every copy they could get hold of.

Reports from the provinces say that activities were at a complete standstill. No manifestations were reported from outside Paris.

Despatches from Brest, Rouen, Limoges, Toulouse and other provincial points say that quiet prevailed during the morning, though a general strike was in progress.

United States Has Riots. The main entrance of Madison Square Garden where thousands of workers were assembled to take part in a May Day labor demonstration, was stormed by about 150 soldiers and sailors in uniform this afternoon, while a provost marshal's guard formed a barrier.

The service men, who had declared their object was to "make the Bolshevik sing the Star Spangled Banner," were addressed by the police authorities and consented to disperse in the Roxbury district.

Boston, May 1.—Reports of rioting in the Roxbury district reached the city today and reserves were ordered out from several stations.

The trouble started when a police officer sought to take a red flag away from a man leading a parade of 50 or 75 persons. One person was reported to have been shot.

Chicago, May 1.—Police of the Maxwell street district responding to a riot call this afternoon arrested a score or more of alleged radicals believed to have been attempting to form a parade which had been forbidden.

Cleveland, O., May 1.—One man is dead, three policemen were shot and probably two hundred persons were badly injured, a score or more of whom are in hospitals, and more than one hundred persons were arrested, to three o'clock this afternoon, as the result of a Socialist W. W. May Day demonstration, which ended in a dozen different riots in the downtown section.

The dead man was a bystander, who was killed by an officer's bullet, when the patrolman fired at a riotous marcher.

RIVAL FLIERS AGAIN FAIL TO GET A HOP OFF

Stood by Their Machines Patiently Watching for the First Signs of a Fair Breeze for a Start.

REPORTS FAVORABLE FOR START TODAY

Navigators Have Worked Out An Elaborate System for Communication With Ships in Emergencies.

St. John's Nfld., May 1.—Conditions at sea were favorable during most of the day, and both Harry Hawker, Australian, and Captain Frederick P. Raynham, British, hovered over their machines constantly watching for the signs of a fair breeze for a "hop off."

A sharp wind finally swept down late in the afternoon and killed all hope for a start on a trans-Atlantic airplane flight.

Late reports by wireless from ships in mid-ocean, left open the possibility for departure tomorrow, however, and orders to keep both Hawker's sloop and Raynham's Martinique planes in constant readiness, were renewed tonight.

All afternoon Raynham tested the air drifts, while Hawker kept himself informed of his rival's operations with the announced intention of starting if Raynham did. Conditions were not ideal, locally, but both aviators were ready to take advantage of the slightest favorable breeze to make the "big hop" with the hope of reaching better weather at sea.

Captain Charles W. F. Morgan, Raynham's navigator, spent the day trying out smoke bombs and a signal pistol for use in case of emergency during the day, and for one day, and the other for night. These were announced as the only signalling devices available for Raynham's machine, as it will carry no wireless sending apparatus.

Raynham and Morgan have installed a navigator's aid device, to show the seaplane's drift, as she flies on her course, so that the pilot can make his course as nearly as possible the straight line from the island of San Miguel, also in the Azores, 1,250 miles from Newfoundland. The cruise to Portugal would cover 800 miles, completing the ocean trip and leaving only the flight to Plymouth to round out the proposed flight of heavier bomber machines from America to England.

In his official announcement, Commander Towers gave distances in nautical miles, which are equal to 1.15 statute miles. In the latter measurement, the projected cruise extends over 3,600 miles, 2,472 of which lie in the route mapped out from Newfoundland to Portugal.

Immigration Bill Successfully Piloted Through Committee Stage

Special to The Standard. Ottawa, May 1.—Hon. J. A. Calder had little difficulty in piloting the Immigration Bill through Committee stage today. It was only the second day for the measure, and by adjournment all but a few clauses were passed. The threatened opposition of the members to the left failed to materialize, and the minister secured most sympathetic support from his followers, who are in hearty accord with the principles of the measure. The only clause which the opposition challenged was that calling for a literary test. Mr. D. D. MacKenzie called it unworkable, and finally Mr. S. W. Jacobs, who had already announced himself in favor of the wide open door, moved that it be struck out. Mr. Calder pointed out that the United States had had a similar provision in their law for the past two years, and there had been no difficulty in administration. With the American law so strict, it would mean that Canada would become the dumping ground for the world if we did not enact a rigid act. The amendment was defeated by 75 to 37. Finally, on the suggestion of a number of members, the Minister was given discretionary powers so that desirable immigrants from Great Britain, who might not be able to read, could be admitted to Canada.

American Navy To Start Flight Next Week

The 3,000 Mile Flight from New York to Plymouth, England, to be Made in Four Stages, According to Plans Announced.

New York, May 1.—Three giant hydro-airplanes of the American navy will start on a date yet to be announced, probably early next week, on a 3,225 mile flight, in four stages, to the British Isles. The actual trans-Atlantic venture, details of which were announced today by Commander John H. Towers in charge of the projected American and European expedition, is a contemplated cruise, in two stages, aggregating 2,150 miles from Trepassey Bay, Newfoundland, to Lisbon, Portugal, while the second and longest European coastal "legs" extend from Rockaway Point, Long Island, home station of the planes, to Trepassey and from Lisbon to Plymouth, England.

"Flying an estimated average speed of 75 miles (65 nautical miles) per hour, the squadron, driven by Liberty motors, expects to cover from Rockaway to Halifax without a stop, Commander Towers said. The planes then will proceed to Trepassey on the southeastern tip of Newfoundland, where the planes will be moored at the base already established, and given a week's "tuning up" before undertaking the trans-Atlantic flight.

The second and longest European coastal "legs" extend from Rockaway Point, Long Island, home station of the planes, to Trepassey and from Lisbon to Plymouth, England.

In his official announcement, Commander Towers gave distances in nautical miles, which are equal to 1.15 statute miles. In the latter measurement, the projected cruise extends over 3,600 miles, 2,472 of which lie in the route mapped out from Newfoundland to Portugal.

The Empress of Britain sailed on Saturday for Quebec with 137 officers and 3,000 others from Bramshott Camp.

EMPERESS OF BRITAIN SAILS FOR QUEBEC

London, May 1.—(C. A. P. Cable)—The Empress of Britain sailed on Saturday for Quebec with 137 officers and 3,000 others from Bramshott Camp, including the Eighth Battalion, under Colonel Saunders, consisting of 29 officers and 500 others. Also on board was the 16th Battalion, under Colonel Scroggie, with 26 officers and 472 men, both battalions are for Winnipeg. The first battalion of machine guns, consisting of 48 officers and 733 others, bound for Toronto, 2nd Field Company, Engineers, under Colonel McKenzie.

Colonel Canon Scott, Chaplain of the First Division is also on board.

In manner the Foster Government permitted in its Year Book a most unfair and unfounded attack being made upon the location of the Transcontinental. Its procedure in this respect is not based upon political common sense, let the government support if it will building a connecting link with St. John, but why allow its new Year Book to condemn the linking of the Transcontinental with Moncton?

"The Provincial Government should remember that it represents the whole province and not merely the interests of a section, which would seemingly deny similar rights to this section of the province.

"The Provincial Government should correct or withdraw its Year Book."

DANIELS TALKS TO LONDONERS ABOUT HIS NAVY

Emphasized What He Considered the Absolute Necessity for Big American Navy Should League Fail.

SAYS CONGRESS CAN CHANGE WHOLE PLAN

If the League of Nations Functions Properly, He Says America's Building Plan Will be Smothered.

London, May 1.—In a conference with newspaper correspondents today, and in a speech at a joint luncheon of the Anglo-American Society at the Sulgrave Institute, United States Secretary of the Navy Daniels emphasized what he considered the absolute necessity for a big American navy, should the League of Nations fail to function.

To pointed questions of British correspondents, regarding the extensive American building programme, the Secretary explained that the action of Congress could be changed by the President should the covenant of the League provide for smaller armaments.

At the luncheon Mr. Daniels recalled the co-operation of Admiral Chester and Admiral Dewey, at Manila Bay, of which this day was the twenty-first anniversary. He confidently predicted that the co-operation of the British and American navies would continue. Without the League of Nations, Britons must realize that the United States has problems similar to those of Great Britain.

"We have a foreign trade," the Secretary continued, "which is bound to grow, and a carrying trade that is bound to grow with it. We also have obligations growing out of the League of Nations covenant. The United States does not aspire to possess such strength that we can impose our decrees arbitrarily upon free peoples. But, if the evolution of the League of Nations is not such as its friends and devotees in Europe and America hope, if competitions in armaments must continue, as in the past, then, regrettable as it will be to the American people, it will be essential for the delegates at elementary national interest that they shall build and maintain a fleet commensurate with the needs of national defence and international obligations."

ITALIAN TROOPS RUSHED TO ZARA

Copenhagen, May 1.—Italian troops and war material are being landed at Sebenico and Zara, on the eastern coast of the Adriatic, according to advices from Spalato. The troops are advancing eastward, and the Italians are bringing up reinforcements to the debarkation line.

1,500 MEN STRIKE AT HALIFAX

The Men Are Connected With the Building Trades Unions—Strikers Want Uniform Wage of Seventy-five Cents an Hour.

Halifax, N.S., May 1.—Fifteen hundred men in the building trades of Halifax have been out on strike all day for a uniform wage of seventy-five cents an hour, the employers offering sixty cents to carpenters, and sixty-five cents to the other trades, and upon further orders, immigration of Donkohobers, Hutterites and Menonites is prohibited. An order-in-council to this effect was signed by the governor general this afternoon. It was passed under the provisions of the existing immigration act which gives authority to this end.

The order recites that "owing to conditions prevailing as a result of the war, a widespread feeling exists throughout the Dominion, and more particularly in Western Canada, that there should be taken to prevent the entry into Canada of all persons who may be regarded as undesirable because of their peculiar customs, habits, modes of living and methods of holding property, they are not likely to become readily assimilated, or to assume the duties and responsibilities of Canadian citizenship within a reasonable time."

The order adds that numerous representations have been received that Donkohobers, Hutterites and Menonites are of this class and character.

VERSAILLES PEACE CONGRESS FORMALLY BEGAN SESSIONS YESTERDAY AFTERNOON

First Preliminaries Were Carried Over the Green Base Table Which Probably Will Mean the Return to Peace in the Not Far Distant Future—Exchange of Sentiments Was the First Act, Requiring Five Minutes—Formality of Addresses Were Dispensed With.

New York, May 1.—The Associated Press, tonight, issues the following: The peace congress at Versailles has formally begun its sessions. The eventful day, which the world has awaited since the signing of the armistice on November 11 last year, has at last arrived.

The German peace delegates have met the representatives of the Allied and associated powers, and across the green base table have carried out the first preliminary which probably will mean a return to actual peace in the not far distant future.

This preliminary was the handing to the representatives of the Allied and associated powers by the German delegates of their credentials, certifying their right to act for Germany in accepting the peace treaty, which later is to be given them, outlining the terms with the peace conference in Paris has decreed Germany shall meet in order to secure that peace, and a return of normal conditions which Germany has professed she desires so ardently. Similar credentials of the Allied and associated representatives were handed to the Germans.

Handled Quickly. Scarcely five minutes were taken up with the procedure. The formality of addresses was entirely dispensed with. When the brief ceremony ended, the Germans immediately left the "Trianon Hotel for their places of residence.

Premier David Lloyd George did not attend the function. Neither did President Wilson, who were represented, respectively, by Jules Cambon and Henry White. Lord Harding represented Great Britain.

An appeal has been made by the Hungarians for a cessation of hostilities with the Rumanians, who recently have been making their way rapidly towards Budapest. A similar proposal has been made to the Japanese with an offer of territorial concessions for acquiescence.

Both houses of the Chinese parliament have protested against the award of Kiaochow to the Japanese, and requested unconditional return of this strategic seaport to China, and likewise the abrogation of concessions on the Shantung Peninsula. China's delegates to the peace conference have asked for an official statement of the Kiaochow decision by the council of three.

Chinese Protest. An appeal has been made by the Hungarians for a cessation of hostilities with the Rumanians, who recently have been making their way rapidly towards Budapest. A similar proposal has been made to the Japanese with an offer of territorial concessions for acquiescence.

Head of British Columbia Sugar Refinery Doesn't Believe in the System of Councils for Cooperative Control.

Vancouver, B. C., May 1.—A dissenting voice on industrial councils was heard by the Mathers Commission today. B. D. Rogers, president of the British Columbia Sugar Refinery, told the commissioners that he saw nothing to be gained through the institution of a system of councils for co-operative control by employers and employees of industrial establishments. He held that unless real representation would be established, the settlement of grievances would become more complicated, and he preferred personal conferences between the employer and his men.

Mr. Rogers thought that present unrest was due to fear of unemployment and there was no ground for such fear.

Believe All Bombs Have Been Found By P. O. Inspectors

Revealed That the Sending of Bombs Through U. S. Mails Was Part of an Anarchist May Day Plot Against Lives of Public Men.

Washington, May 1.—Belief was expressed by post office officials tonight that most, if not all, the bombs mailed from New York, as part of an anarchist May Day plot against the lives of public men, had been found.

Checking of reports from postal inspectors in various parts of the country showed that one of the infernal machines, addressed to Senator Lee Overman, of North Carolina, got through during the past 24 hours, although press despatches, however, said two bombs, addressed to Senator William H. King, of Utah, and Frank K. Nobaker, an attorney, had been intercepted in the Salt Lake City post office. The department tonight had received no report from Salt Lake City.

Officials here were greatly relieved upon learning late today that there was no foundation for reports of the seizure of fourteen bombs in post offices along the Pacific coast. All delinquent inspectors, it was stated, had been instructed to forward prompt reports of bomb finds, and while some may have been delayed, there was a more hopeful feeling that the greatest danger was over, and that any bombs still in the mails would fall into the hands of operatives detailed to get them.

Dramatic Appeal Before The Mathers Royal Commission

The Only Woman to Appear Before That Body Pleads Eloquently for the Soldiers.

Vancouver, B.C., May 1.—An eloquent appeal for work for the soldiers was made before the Mathers Royal Commission today, by Mrs. Walter Crossfield, the only woman to appear before it during the Vancouver hearings.

"Our boys are walking the streets without work," she said, "many are living on their gratuities, and when these expire there is going to be something on your hands which you cannot handle." She denounced profiteering and high food prices, and urged immediate action to secure relief and work.

The afternoon and evening sessions were devoted exclusively to the case of the worker, and at its conclusion, the commission left for Calgary.

Characterizing The Foster Gov't

Moncton Transcript Uses Words of "Unwise," "Unfair," and Says it is Lacking "Political Common Sense."

Characterizing the Foster Government as "unwise," "unfair," and lacking in "political common sense," the Moncton Transcript has been editorially much excited because the Provincial Government has issued a Year Book which gives official sanction to the criticism formerly made by the Conservative Party with respect to the Laurier Government's transcontinental railway policy. However, Mr. Hawke himself is constrained to make the ironical reflection that the local government's condemnation of the Dominion Liberal is not beside the mark in so far as the contention that the Transcontinental should be connected up with St. John is concerned. The Transcript says: "The New Brunswick Year Book just issued by the Provincial Government is unworthy of the province because of its unfairness in the matter of the 'Transcontinental' construction across the centre of the province. It circulates a partisan attack upon the Liberals, based upon sectional and not national interests. It is incorrect because it ignores the great service rendered to the Empire by the early years of the war. The provincial government permitted the author of the Year Book to be sectional rather than provincial and local rather than national.

"The Provincial Government is patently liberal in politics, and it permits in its name a scandalous assertion to be made and circulated by it, condemning a railway policy adopted in the best interests of Canada, and which should be made with St. John, it is true, and no objection opposes such being done, but why condemn the connection through the centre of the province to other points?"

"The most extraordinary fact in this connection, is that it was a majority of the very constituencies interested in the Transcontinental connecting with Moncton, which called the present provincial government into being. Yet, in the most unwise

CANADA'S REPUDIATION OF TITLES AS VIEWED BY BRITISH PRESS

Manchester Guardian Says There Has Been in the Last Generation a Mutual Invasion of British and Canadian Public Life—Discusses the Wisdom of the Reciprocity.

London, May 1.—(By Can. Press Cable.)—Discussing Canada's repudiation of hereditary titles, the Manchester Guardian says there has been in the last generation, something like a mutual invasion of British and Canadian public life. The British invasion of Canada has taken the form of a pretty lavish distribution of titles of which Canadian opinion seems to have approved neither the quantity nor the quality, while there has been feeling that it tended to produce in Canada a social tradition alien to the spirit of its democracy.

The Canadian invasion of England has taken the form of a group of men who though quite small in numbers and not familiar to the general public, have exercised considerable influence in recent years. Canada evidently does not think the exchange profitable to her.

The Guardian concludes with the remark that it is a new thing to suppose a peerage in the name of democracy, but it might not always be a bad thing.

The order adds that numerous representations have been received that Donkohobers, Hutterites and Menonites are of this class and character.

SPORTING GOSSIP

Big League Baseball Games

NATIONAL LEAGUE. Cincinnati 6; St. Louis 3. St. Louis, May 1.—Hard consecutive hitting in the second inning enabled Cincinnati to win from St. Louis today 6 to 3. Goodwin replaced Shorrel in the second and pitched good ball, but it was too late to stop the visitors. The score: Cincinnati, 040010010—6 10 1 St. Louis, 000021000—3 12 1 Batteries—Elliott and Rariden; Shorrel, Goodwin, Thero and Snyder, Clemons.

Postponed Games. At Philadelphia—Philadelphia-Washington postponed, wet grounds. At Brooklyn—Brooklyn-Boston postponed, rain. At Pittsburgh—Pittsburgh-Chicago postponed, rain.

AMERICAN LEAGUE. Detroit 8; Cleveland 1. Cleveland, O., May 1.—Detroit defeated Cleveland 8 to 1 in the opening game here today. Coveleski who also led the opening contest at Detroit, was hit very hard in the first two innings. Pitches Fitzmann and Phillips, who succeeded him, were more effective. Boland pitched well throughout and was brilliantly supported. Nath fell the last three innings. The score: Detroit, 02010001—8 14 Cleveland, 00000000—1 4 Batteries—Boland and Stanagan; Coveleski, Fitzmann, Phillips and O'Neill, Numamaker.

New York 7; Boston 3. Boston, May 1.—Boston lost its home opening game to New York 7 to 3 at Fenway Park today. Loose pitching by Maye and indifferent support were factors in the visitors' triumph. Feeling between the teams was intense. Phip was expelled from the game for disputing with Umpire Connolly, and Maye and Pratt were separated by players before they came to blows. Morrigan filled the bases with non-outs in the eighth with his team leading 2 to 1. Quinn then relieved Morrigan and Boston tied the score, only to see the visitors score two out in the ninth, make four runs on a double, a single, three errors, a wild pitch and two bases on balls. The score: New York, 02000100—7 9 1 Boston, 010000020—3 9 2 Batteries—Morrigan, Quinn and Pratt; Maye and Schanz.

Postponed Games. At New York—New York-Philadelphia postponed, rain. At Chicago—Chicago-St. Louis, postponed, wet grounds.

INTERNATIONAL LEAGUE. All Games Postponed. At Jersey City—Jersey City-Duluth postponed, rain. At Newark—Newark-Toronto, postponed, rain. At Baltimore—Baltimore-Rochester postponed, wet grounds. At Reading—Reading-Binghampton postponed, rain.

BOWLING ON BLACKS' ALLEYS. A double header was rolled in the Commercial League last evening. The McAvity team won four points from the Simms quintette, and three more points from the A. A. L. Tonight the G. E. Barbour and Emerson and Fisher teams will perform, and the league will come to a close on Saturday night.

WAS HELD UP BY THE INSPECTOR. Chatham World Says St. John Will be Shunned by Everybody if Arrivals Are to be Subjected to Indignities.

Chief Inspector Wilson and others have been indignantly denying the report that a New Brunswick professional gentleman was recently held up at the St. John station, by an inspector who wanted to search his grip, and here if another opportunity for them. Mr. Geo. M. McEade landed in St. John on Thursday, on legal business, and, as he walked through the front door of the railway station, he was followed and stopped by Inspector McEade, escorted by a number of persons who wanted to see the performance, and held up till his grip was searched. Just at that time the St. John Board of Trade, or the Tourist Association to get busy for the protection of visitors to St. John. The place will be shunned by everybody who doesn't have to go there if arrivals are to be subjected to indignities of this kind.—Chatham World.

Tanlac Elements Are From Remote Parts of Globe

Famous Medicine Draws Ingredients from Many Far Away Points—Noted Chemist Directs Laboratory—Opening Day of Sale in St. John Proves Splendid Success.

The ingredients or medicinal elements which make Tanlac come from many remote sections of the earth—West Indies, Mexico, Peru, Central America, the Alps, the Pyrenees, Africa, Russian Asia, Arabia, Persia, and our own Rocky Mountain sections, are among the points from which the principal parts of the preparation are obtained.

In the laboratory of the Cooper Medicine, Inc., in Dayton, Ohio, and Walkerville, Ont., under the efficient direction of a celebrated chemist, these medicinal roots, herbs and barks are assembled in the rough and painstakingly developed so as to obtain that high standard of efficiency shown by the uniform preparation, Tanlac. In sterilized bottles, made expressly for the purpose, Tanlac is placed, labeled and cartoned; the preparation is inspected again and then crated, ready for shipment to points over the world where the demand requires.

Many called throughout the day yesterday at The Ross Drug Co. and F. W. Munro's Drug Store to find out just how the famous medicine Tanlac was sold, how it was prepared, and what the preparation actually looked like.

In commenting upon the wonderful amount of interest shown, the Tanlac representative said: "The success of the opening day of the introductory sale of Tanlac has far exceeded my expectations. I have been greatly surprised by the knowledge the public seems to have of the preparation. While many came merely to see what the medicine actually looked like, equally as many came prepared to obtain the preparation. These people simply asked for Tanlac, and the facility with which the medicine was distributed throughout the day proved somewhat of a revelation to the management of our local agencies.

"I am, indeed, gratified," he continued, "to see such marked enthusiasm and I now feel justified in predicting that Tanlac will prove just as successful in St. John as it has in the larger cities of the east, middle west and Pacific coast. I do not believe that I am overestimating the success of the medicine when I state that I am confident that from a thousand to fifteen hundred people will call and obtain Tanlac during the next ten days."

Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro under the personal direction of a special Tanlac representative. (Advertisement.)

No One But the Powerful Katrinka Could Ever Draw a Crowd By Simply Trying on a Pair of Gloves.

WHY DOESN'T HE PROPOSE?

During the week just past eleven girls have written me on the subject of Rouge, and whether or not I consider it detrimental to a girl's chances with the right sort of man. Their letters are so interesting I would like to use them all, but as that is impossible a few sentences will suffice: Ruth R. writes: "I have noticed that most of the engaged girls I know use rouge in one form or another, do you suppose it matters to a man? The man I go with has made several remarks on the subject that I have taken personally. Do you think he intended them for me?"

A girl from Toronto says: "My mother is forever telling me that no man will ever take me seriously because I paint and like a good time. All the girls here do. And lots of them get married. I am willing to give up rouging, but do not see any harm in it, do you?"

None of us see any "harm" in it. My dear Ruth, for there isn't any. Painting your face is like bleaching your hair or eating onions. It is only a question of good taste—or bad. And from time beyond memory it has been conceded that all three together with a few other things were not done by the right sort of people.

It is not positive indication of moral bankruptcy. Yet your mother is precisely right when she tells you that men do not take a painted girl seriously. Why should they? Really serious girls do not wear "pink paint" as the men call it—and it is a joke with men when girls color their faces. However, many girls very worthy of men's love and devotion do use Rouge. But, such girls win that love and devotion in spite of the Rouge—not because of it. Each and every girl wears a barricade between herself and The Man's Trust when she takes to the Lip Stick. Men more than dislike it, they tremble before it. The masculine mind does not see able sons-in-law at sight of a woman of his own household made up. And that is the answer.

Oh, after all, Ruth, isn't that the thing that counts. And in that man's words, What a plea to all girls. "Coming back to find it just a dream." Coming back to painted faces and lips whose scarlet makes even the welcoming smile look counterfeit.

I looked about the room at the girls pretty, but painted girls, who had been glancing full of interest at the poor hero and his empty sleeve. How little they knew that his closed eyes meant treasured memory of a Woman who was paying tribute to that crimson girl whose pink-rimmed face had told him she was just what God meant woman to be.

Oh, after all, Ruth, isn't that the thing that counts. And in that man's words, What a plea to all girls. "Coming back to find it just a dream." Coming back to painted faces and lips whose scarlet makes even the welcoming smile look counterfeit.

Recent reports from Central America have been that the Costa Rican government had sent several thousand troops to the northern frontier to protect it against probable incursions by the Costa Rican exiles.

GENERAL STRIKE IN PARIS TODAY

Paris, April 30.—The General Labor Federation today distributed placards and cards giving the reasons for the general strike of May 1. The cards, which are being sent to all members of labor unions for signature read: "May 1, 1919. Strike to demand, first, the eight hour day; second, total amnesty; third, rapid demobilization; and fourth, a just peace and disarmament. I strike to protest against first, intervention in Russia; second, income taxes on wages; third, martial law, and fourth, the censorship."

UNEMPLOYMENT NOT VERY SERIOUS

Statistics Show That Greater Portion of Demobilized Soldiers Have Been Placed.

London, April 30.—In defending the government's policy of donations to the unemployed, Sir Robert Stevenson Horan, the minister of labor, in the House of Commons today, said it was unnecessary to take a gloomy view of the unemployment question. Since the armistice, he said, four million persons have been demobilized from the army and naval forces and from civilian employment and one million remain unemployed. Eighty per cent. of the demobilized soldiers, fifty-five per cent. of the civilian males and forty-five per cent. of the civilian women have been absorbed by peacetime industries.

This, the minister added, was a remarkable achievement when it was remembered that the central empires and Russia, which before the war had taken one-fourth of the British exports, were still closed to trade and that China, Japan and New Zealand, which used to take another quarter, were virtually cut off owing to shipping difficulties.

GERMAN MEMOIRS TO BE PUBLISHED

Berlin, Tuesday, April 29. (By The A. P.)—The spring book lists continue to feature memoirs by former governmental, political and military leaders, the newest acquisition being two comprehensive volumes written by former Imperial Chancellor Dr. Von Bethmann-Hollweg. The first volume deals with political developments preceding the outbreak of the war. Another work soon to appear will be by Gottlieb von Jagow, former Minister of Foreign Affairs, which is reported to be a plain defence of Germany's pre-war policies.

German publishers are apparently putting an extraordinary appraisal on the foreign interest in these books, as they are demanding fat royalties for British and American editions. A Leipzig firm is offering the foreign rights on a combination work by Admiral von Tirpitz, former Minister of the Navy; Lieut-General von Stein, former Prussian Minister of War and State, and Colonel von Lettow-Vorbeck, commander of German troops in German East Africa, for \$250,000.

MARKET TOOK ANOTHER WEAK TURN

U. S. Steel Made Break and the Reaction Spread to Others on the List.

New York, April 30.—The market had another weak spell in the early afternoon, in which U. S. Steel broke through the morning's low price. The reaction spread to other sections of the list, but did not affect all issues, and it brought out more widely distributed support than the morning reactions. The Motors and Rubbers were among the exceptions. U. S. Rubber making a conspicuous advance, while the rest of the market was weakest and continuing to gain gradually up to the close. The general list recovered more or less in the last hour. It was announced that the Steel companies had proposed to the railroad administration to re-open the question of steel prices and the prediction was made in official quarters that the railroad administration would undoubtedly accept this offer. It cannot be doubted that both sides of this controversy are anxious to arrange a settlement which will open the way to ordering the large requirements for the railroads for this year. Sales 1,742,500.

ST. MARTINS

St. Martins, April 28.—The ship on the stocks is nearing completion and is certainly a credit to all who assisted in the work.

Easter services were observed in all the churches, and appropriate music sung.

Rev. Mr. Wetmore of Alma, the newly appointed pastor of the Baptist Church, arrived with Mrs. Wetmore and family, and have taken up their residence in the parsonage.

Mrs. Wetmore, Rev. Mr. Wetmore's mother, is visiting at the parsonage. Among the teachers home for Easter holidays were: Misses Clara and Beatrice Smith, and Dorothy Smith and Miss Vail.

Misses Prescott Skillen and Otto Miller came from U. N. B. and Normal schools, respectively.

Miss Rommel of Alma, spent a few days here last week.

EXILED COSTA RICANS GATHERING IN FORCE

San Juan Del Sur, Nicaragua, May 1.—Citizens of Costa Rica, who have been in exile since the Lincoo government came into control there, according to reports reaching here, are gathering forces in the southern and eastern end of the Lake Nicaragua and points on the San Juan river.

The situation on the Costa Rican border, it is declared, may result in fighting.

ARREST BOLSHIEV PROPAGANDIST IN NEW YORK

New York, May 1.—A police court magistrate turned over to the federal authorities today for investigation a youth of nineteen years, Nathan Abramowitz, arrested last night on a charge of distributing Bolshiev literature on the street and in restaurants in Harlem. Pamphlets seized by the police quoted Bolshiev propaganda circulated among American and allied troops at Archangel and also urged "a general amnesty or general strike" in connection with the conviction of Debs and Haywood.

ANGLICAN SYNOD SESSIONS WERE RESUMED YESTERDAY

Protestant Orphanage Movement Taken up and Approved of by Members—Matter of Bible Reading in the Schools—Clergyman's Stipend—Numerous Committees Were Appointed—Votes of Thanks Passed.

The morning session of the Anglican synod was devoted largely to the election of standing committees, etc. This was completed with the exception of the choice of delegates for the provincial synod which meets in Montreal, for which nominations were received.

The synod adopted a resolution expressing sympathy with the movement to secure additional accommodation for Protestant orphans of the province.

There was a lengthy discussion regarding the decision that the increased minimum stipends for clergy should be effective from January 1, but on assurances being given by laymen that the full amount could be raised, a motion for reconsideration was rejected.

The session continues at 2.30 o'clock this afternoon and it is expected that the business will be completed today.

The report of the nominating committee was taken up and committees were elected as follows:

That is the proportion of medicine contained in Zam-Buk, and that is why Zam-Buk's healing powers are so superior to ordinary ointments which contain about 5 per cent. medicine and the balance animal fat.

Zam-Buk contains absolutely no animal fat or harsh mineral drugs, but is composed exclusively of extracts of medicinal plants and herbs and vegetable oils. These are so blended, refined and concentrated that they contain the maximum amount of soothing, antiseptic and healing power.

In addition to this, Zam-Buk has marvellous powers of penetration. It thus reaches and destroys all germs in the underlying tissues, leaving no trace of disease to break out again.

Zam-Buk is best for all skin diseases, ulcers, blood-poisoning, and piles. All dealers, 7c. box.

Bible Reading in Public Schools—Very Rev. Dean Neales, Rev. G. A. Kuhring, Rev. W. R. Hibbard, Archdeacon Crowfoot, Charles Coster, J. K. Scammell, David Hipwell.

Bishop Richardson said that he thought it absolutely useless to appoint a committee on Bible reading in the public schools. Last year they had received assurance of support from the Presbyterian and Methodist churches and the Orange Grand Lodge but their work had been blocked by the refusal of the Baptist church to co-operate.

Rev. Mr. Kuhring urged that the committee be appointed and the fight continued.

David Hipwell, as chairman of the Orange Grand Lodge committee, said that they were instructed to keep battling away and he hoped the synod would do so.

It was agreed to continue the committee.

Nominations. Nominations for delegates for the provincial synod to be held in Montreal on November 5 were made as follows:

Rev. Canon Armstrong, Canon Daniel, Archdeacon Forsyth, Canon Smithers, Rev. Thomas Parker, Canon Siam, Rev. G. A. Kuhring, Dean Neales, Rev. J. A. Cooper, Rev. W. H. Sampson, Rev. R. P. McKim, Rev. Nichols, Archdeacon Newham.

Canon delegates—Hon. J. P. Burchill, S. G. Bishop, J. H. A. L. Fairweather, M. G. Teed, H. Usher Miller, Dr. T. C. Allan, Charles Coster, C. S. E. Robertson, J. R. Armstrong, Col. E. T. Sturdee, F. C. L. Ketchum, H. F. Puddington, J. K. Scammell, Dr. Thomas Walker, G. W. Ellis, F. del. Clements, J. B. H. Storer, Dr. W. S. Carter, David Hipwell, H. W. Smith, H. B. Schofield, A. C. Skelton, R. W. Hewson, H. A. Porter, W. L. Harding.

The halling for the election of the delegates took place yesterday afternoon.

Orphans' Home. David Hipwell, seconded by Canon Armstrong, presented a resolution as follows:

"We, the members of the Church of England synod at annual session convened in St. John, N. B., on May 1, 1919, do hereby express our approval of the movement now under way for the purpose of enlarging the St. John Protestant Orphanage and the purchase of the site of a new building to be erected on the site of the old building to have a provincial status. We the members of the said synod, pledge our support to the movement."

Mr. Hipwell recited the facts which made a new orphanage or increased accommodation necessary and made an eloquent appeal for support.

Rev. Mr. Follet also spoke earnestly in support of the movement.

Rev. G. A. Kuhring told of the progress made by a committee which has been securing information regarding the erection of a large building, the adoption of the cottage system, or the securing of a temporary building.

The motion was adopted unanimously.

The laymen's committee on increased stipends for the clergy was also convened as follows—H. A. Porter, L. P. D. Tilley, H. Usher Miller, D. Hipwell, J. H. A. L. Fairweather, F. del. Clements, J. B. Storer and Dr. M. G.

The bishop announced that the increase in stipends for clergy involved an increased outlay of about \$9,000, involving fourteen parishes. Owing to the financial arrangements for the year having been completed, he suggested that the increase this year be provided as a bonus. It also would avoid the possibility of depriving parishes, which could not raise the amounts, of their status as self-supporting parishes. In order to care for the arrears on account of this bonus it would be necessary for the committee appointed to secure cash for the purpose was taken by representatives of parishes affected to the action in making the increase effective from January 1, 1921.

Mr. Miller said that he understood it was not the intention of the committee to secure cash contributions, but to conduct a campaign to increase in regular contributions through the duplex envelope system.

His Lordship asked how the arrears would be provided for and Mr. Miller said that was not in the hands of the committee.

Canon Armstrong favored making the increase effective only from July 1, with the understanding that if funds were available, a bonus should be provided for the first six months of the year.

Mr. Fairweather said, with regard to self-supporting parishes, the first half of the year should not be included except as a recommendation, but he thought the laymen could provide the money.

J. S. Armstrong suggested that the matter be referred back to the committee.

The bishop said that the adoption of the recommendation would place upon the home mission board the obligation to see that clergy in independent parishes should be granted a bonus if their parish did not provide the entire amount of the increase.

George Raymond moved for reconsideration of the laymen's committee's report, but the motion was lost, and the matter was dropped.

The report of the committee on mobilization of spiritual resources was presented by the bishop, who reported that efforts to arrange for a retreat for the clergy had failed.

The report of the Pickert Memorial Fund, for the care of clergy during illness, was presented. Canon Neales said he had been informed that the objective of \$10,000 had been reached, but the objective had been advanced to \$12,000.

Reports were submitted by the secretary on the offering of the seal of the synod, the Diocesan registrar, the auditor, the treasurer of the Board of Education, the Bishop Medley memorial fund. The latter committee reported that sufficient funds had been raised to erect in the cathedral a beautiful cenotaph with the remains of the late Bishop Medley, enshrined in white Carrara, resting upon an

Not Guilty of Murder Charge

John Sterling, Ahmed Abdurman and Sultan Chabud With Killing Sahaid Hassan Were Acquitted by the Jury Yesterday.

John Sterling, Ahmed Abdurman and Sultan Chabud were acquitted by a jury yesterday afternoon of the charge of murdering Sahaid Hassan. The jury returned its verdict after a trial of five days and the accused were released on their own recognizance.

The trial began on Monday morning, December 28th, 1918, at a young man while crossing the Courtenay Hill in West St. John discovered the body of Sahaid Hassan lying in the snow. The unfortunate man was a shipmate of the three accused men on a Manchester liner then lying at one of the West End wharves. The police were notified, and on examination they found that the East Indian had his throat cut, and near the body was found a razor with its blade stained with blood. The three shipmates, one a colored man, and the other two East Indians were placed under arrest. The preliminary hearing took up a long time owing to the court having to await witnesses who were on board the ships plying between this port and England. The murdered man had considerable money on his person the Saturday evening before his death and this was missing when the body was found. Sterling had quite a large sum of money when arrested, but he accounted for being the owner of the same. Blood stains were found on the clothing of one of the other accused. The case attracted considerable attention.

Chief Justice McKeown, in addressing the jury yesterday paid a glowing and most fitting tribute to the work of Private William Williamson, the interpreter, who so ably assisted and expedited the trial of the three. He reminded the gallant soldier, who is a veteran of many battles, of his noble duties, filled by one who had accomplished great work, and who, was most deserving of commendation, as he had made it possible for the two East Indians to understand the proceedings, word for word, question and answer carrying, as it did, the gravity of the Canadian law on a charge such as they were arraigned on. As a soldier he paid him fitting tribute, who had so nobly done his duty, and yet willing to undergo greater sacrifice.

Pte. Williamson is a member of the Canadian Military Police Corps of the city.

COMMON COUNCIL MET IN COMMITTEE

Douglas Avenue Paving Proposition Voted Down—Bathing Facilities Matter Laid Over—Holidays for City Employees.

The Common Council met in committee yesterday morning, and the paving problem took up considerable time. A motion that Douglas Avenue be paved was defeated. On motion, employees of all city departments were granted a fortnight's holidays with pay.

James Connelly, of the City Cornet Band, requested that the King Edward band stand of King Square be lowered two and a half feet; that it be painted white and gold, and that the paint be removed from the copper roof.

The matter was referred to the Public Works Department.

The question of bathing facilities in the North and West End was discussed and left over to be taken up on Tuesday next with the playgrounds matter.

The City Engineer's report that had been engaged as city draftsman at \$100 per month, was confirmed.

On motion of Commissioner Bullock it was decided unanimously to pay for the curbing by bond issue and that the curbing should be laid wherever the Commissioner of Public Works recommends.

DRESS WARM AND KEEP FEET DRY

Tells Rheumatism Sufferers to Take Salts and Get Rid of Uric Acid.

Rheumatism is no respecter of age, sex, color or rank. It is not the most dangerous of human afflictions. It is one of the most painful. Those subject to rheumatism should eat less meat, dress as warmly as possible, avoid any undue exposure and, above all, drink lots of pure water.

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of its impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work.

This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

JUVENILE COURT.

Two boys appeared in the juvenile court yesterday morning charged with the theft of tobacco, etc., from Dick's drug store some time ago, and with stealing two bicycles the property of Dr. L. M. Curran. They were remanded.

REG. SERGT. MAJOR JOHN NUTTALL

Young St. John Hero Has Returned After Spending Forty-five Months Overseas—Wounded and Decorated for Bravery.

Regimental Sergeant-Major John Nuttall, who reached home a few days ago, was seen at his home 140 City Road, last evening by a reporter of The Standard.

Asked relative to his life overseas as a member of the Canadian Expeditionary Force, the gallant soldier preferred to remain reticent, although thanking the press for their kind consideration in remembering him. He bears home with him a German drum picked up by himself at Cambrai. Its resonant sounds when slightly touched satisfy one that it is a beauty. The drum is made of solid metal, yet the frame is near as light as the kettle drums used by the Canadian armies.

Sergeant Major Nuttall spent forty-five months overseas, was wounded and twice decorated for bravery, but like a white hero preferred to live again.

The young hero is a son of John T. Nuttall, a superintendent in the Cornwall cotton mill, and is well known in the city as a musician, having performed at the Grand Opera House and Imperial Theatre. At the commencement of the war he was with a travelling minstrel show in the United States and when there was a call for recruits for Canada's first army the young St. John man lost no time in tendering his resignation to the company manager and hastened to Montreal where he signed up and was soon in Camp Valcartier. Here he was surprised to meet his younger brother, Gordon, who had enlisted in St. John, and the brothers were unaware that each had joined the colors.

From the rank of private Jack Nuttall, like his father before him, was a good soldier, and he quickly rose in the ranks until finally he was promoted to regimental sergeant major of the unit he was connected with.

His hundred hours was invalidated home a couple of years ago and is now in the postal service.

Mr. Nuttall has not made any decided plans as yet, he is quite satisfied to enjoy the privilege of being home with his mother and father for a time and is longing to enjoy some good trout fishing before he makes up his mind just what he will do in his return to civil life.

RESOLUTION WAS PASSED AT SYNOD

Matter of Formation of a Social Organization Among Men of Church of England to be Dealt With Later.

At the last hours of the Synod yesterday afternoon a resolution regarding the formation of a social organization among the men of the Church of England to interest in church work as well as social and moral reform, was moved by J. S. Armstrong and seconded by the Rev. R. A. Robinson.

This resolution was apparently carried by a majority of one but it was pointed out that it was hardly fair to commit the Synod to so important a measure with barely a quorum present.

The original resolution was therefore withdrawn and J. S. Armstrong moved, seconded by Col. E. T. Sturdee, a resolution to the effect that a committee be appointed to draw a plan regarding the matter which will be submitted at the next meeting of the Synod.

The committee chosen with R. S. Armstrong as convener, is composed of His Lordship the Bishop, Rev. R. M. Fenton, Rev. R. A. Robinson, J. S. Armstrong, Frank Clements, W. R. Belyea and P. J. Legg.

Delivered An Able Address

Rev. Dr. S. H. Gould in St. John's (Stone) Church Last Evening Took for Subject, 'Great Forward Movement.'

The Rev. Dr. S. H. Gould, General Secretary of the Mission Society of the Anglican Church, addressed a very large audience at the St. John (Stone) Church, last evening.

His subject, which was the "Great Forward Movement," is the first shot in a great campaign to be launched this coming autumn.

Referring to the Great War, he stated that the capitulation of the enemy found the country spiritually benumbed, but it is the outstanding duty to see that the issues fought for are preserved in the peace settlement terms and the duties to be recognized by the victors.

It has been stated that the only difference between the Titanic struggle and a wholesale butchery was the magnitude of the moral issues involved. His attention had been attracted by an item in a New York newspaper signed by "Second Bench, City Hall Park," which stated that each shell fired cost \$500, 100 barrels of flour, 20,000 loaves of bread, and caused hunger to a million men.

It was estimated that among the Russians alone, over one million who had been liberated from the prison camps died from the want of bread before they reached their homes. The world is looking for a living, he stated, and demands bread instead of the stones of the past.

The spiritual issues of the war, he said, are best exemplified by Britain's activities in the war. The issues rest upon British traditions, the moral uplift depends upon British traditions, and if that fails, despite the cost of winning, the outlook is gloomy in the extreme.

The great world issue now is to re-ignite the world and for the first time in the history of the human race, nations from the far east to nations from the far west are gathered together around a common bond, with the Western Hemisphere as senior partner at the tribunal.

He placed the characteristics of the British Empire as first, the theory and practice of nationality, and second, position and influence of women in the Empire. In this connection he made an eloquent appeal to service through the stirring call from the martyr grave of Edith Cavell. The issue of the war, he declared, was permanently described by the history of the women of the warring nations.

There are in India, he declared, one hundred million women with only fifty women doctors, and in China there are two hundred million women with only ninety-seven women doctors.

The third characteristic of the British Empire, he stated, is the influence of the English language. He had knowledge of a secret German document drawn up in the spring of 1914, which dealt with a Pan-German programme outlined in Shanghai for the capture of the Chinese markets.

The programme covered practically everything, and was to start with an appropriation of \$2,700,000 and \$1,200,000 to be subscribed yearly. The main success of this plan, however, was recognized by the German Association at Shanghai as a successful fight against the popularity of the English language.

A comparison of figures for the past century shows that though French has gained twenty-three million tongues, and German fifty-four millions, the English language is now spoken by over one hundred and ten million more people than the end of the last century, an increase of 60 per cent.

"It will be," he stated, "the universal language of human thought. It is the language of the peace congress and there are now two hundred million who speak it or have knowledge of the language."

At the last session of the general Synod, when it was thought that there would be another winter of hardship and another summer of bloodshed, the Synod of the Church of England brought forward the plan of the great Forward Movement of the church, and in recognition, a committee of laymen from every diocese was given the organization of the movement.

The movement embraces the needs of the Church of England in Canada, and aims to take such steps as are deemed necessary for growth, development and maintenance.

In this connection the laymen are working with the clergy and the missionary society is used as the organizing agent.

There are three funds—General, Beneficial and Missionary, and the work covers every activity from the parish to the primate and the general Synod.

The last great hymnal and the new prayer book, he stated, had been financed by the publishers, and to make such an arrangement unnecessary in the future, it is required that an endowment fund of \$100,000 be raised for the general Synod.

During the last session, when it was required to bring the primate from Winnipeg to Toronto, there were no funds at the general Synod to pay His Lordship's travelling expenses. To meet needs such as this and other contingencies it had been decided to raise a fund of \$50,000 for expenses in connection with the primate's office. So that the church may be able to follow in the footsteps of His Lordship in the way of common men, and also that the Sunday School programme be made comprehensive and adequate, a sum of \$50,000 is required for social service work and for the Sunday School Commission.

There are scores of English clergymen, he stated, who receive small salaries of \$700 and slightly more. For these, in their old age, and for their widows and orphans when they fall on the wayside, it had been decided that the sum of \$750,000 be in-

Provincial Gov't Met Yesterday

Delegations Received from City Council, Board of Trade, Tourist Association, and One Regarding School Buildings.

The Provincial Government at its meeting yesterday afternoon received a delegation from the City Council, which wanted information about the loan which the Dominion Government proposes to make through the medium of the provincial authorities for the erection of new houses. The City Fathers wanted to know whether they would have to take a lump sum, or whether they would be able to borrow small sums as required. They said they had received a lot of enquiries from citizens who talked of building new homes and taking advantage of the loan but they did not know just how much money would be required. The Government said that they had not yet received from the Dominion authorities and definite information as to how the money was to be allotted, but would let the council know as soon as they found out.

A delegation from the Board of Trade appeared and asked the Government for a subsidy for the steamer Keith Cann, running from St. John to Yarmouth. Consideration was proposed.

Another delegation from the Tourists' Association urged the Government to change the rule of the road, claiming that it would have a good effect upon automobile tourist traffic from the United States. The Government said there was a good deal of opposition to the proposal in the country districts, but they were considering the matter. They did not know that it would be advisable to take action till Nova Scotia made the change.

In the morning the Government met as the Board of Education, and heard Dr. H. S. Bridges and A. M. Belding respecting the use of school buildings for other than school purposes. It was intimated that some arrangement might be authorized. The usual grant was made to the Reading Camp Association, and Miss Iva Yerc was allowed to count her time in South Africa as pension time.

A petition of the Art Students of the U. N. B. for a reduction of the requirements for a Grammar school license was refused, and the chief inspector was ordered not to purchase new school books. The bill prices were more reasonable. After June 1st, 1920, the minimum age for admission to the Normal School will again be seventeen years. The matter of a four year high school course and local commercial and industrial courses was laid over for further consideration.

MILITARY NOTES.
Major K. H. McCrimmon, D. S. O., assistant director of supply and transport for M. D. No. 7, has tendered his resignation and will return to civil life in his home, Toronto.

The appointment of Captain C. McSteeves as assistant to Captain Blanchard, Engineers, M. D. No. 7, has been approved of, military headquarters announced yesterday. Captain McSteeves recently returned from overseas.

At the end of the coming year, which covers the entire world, the sum of \$400,000 is needed by the board of management of the women's auxiliary.

In all the activities of the Anglican church in the forward field will embrace a cost of \$2,350,000. The Presbyterian church, he stated, is considering expenses of \$4,000,000, and the programme of the Methodist church is much larger.

The services in connection with the address were under the direction of His Lordship the Bishop of Fredericton, assisted by the Rev. G. A. Kuehring, pastor of the church.

HEAVY BUSINESS TRANSACTED ON STOCK MARKET

Shippings, Oils and Motors Furnished a Large Percentage of the Day's Business.

New York, May 1.—For the seventh consecutive full session, transactions on the Stock Exchange today ran considerably over the million share mark, with a preponderance of gains in numerous speculative issues.

Shippings, oils and motors, including subsidiaries of the latter group, furnished a very large percentage of the day's business, Atlantic Gulf leading at the new high record of 151.

Accumulation of food shares was another prominent feature. Best Sugar, United States Food Products, Corn Products, Cotton Oil and Wilson Company registering extreme gains of 1 to 3 points.

Chemicals, fertilizers, paper preferred, Ohio Gas and General Cigars, the latter at an eight point gain, contributed measurably to the higher price average, but coppers and American Telephone sagged.

Basis held back until the final hour when buying of the Pacifics, Reading, Atchafalaya and low-priced issues, notable St. Louis and San Francisco and Kansas City Southern, returned in net gains of 1 to 2 points.

Trust advanced six points. Sales amounted to 1,500,000 shares. Bonds derived the best strength of the rise in secondary rails, liberty and international issues showing firmness.

Total sales, par value, aggregated \$14,275,000. United States bonds were unaltered on call.

MONTREAL TALKING STEEL AMALGAMATION

(McDougall and Cowans.) Montreal, May 1.—From the information we can gather, it looks to us as if the amalgamation of Dominion Steel and Nova Scotia Steel was getting pretty close.

Laurentide Paper was strong, also Spanish River Pfd. In the paper business today, the companies manufacturing newsprint are the ones that are making the money. Other lines of paper, we believe, are dull, and these two companies are making newsprint almost entirely.

Shawinigan was in good demand, holding most of its gains for the day. The effect of the declaration of the U. S. Steel dividend seems to be wearing off. The stock had to stand considerable pressure again today. Some specialties showed good gains, in the U. S. Steel dividend, Royal Dutch and Francisco, Southern Pacific and Reading had some gain.

Otherwise the Stock Market Showed Average Strength.

(McDougall and Cowans.) New York, May 1.—The market was strong in the early afternoon except that steel remained a soft spot. A number of the railroads moved up and the shipping and some of the oil stocks sold a point or two above the general level. The market gained strength in the last hour. Steel recovering somewhat. Gains for the day of one to two points were made by various Tobacco, Machinery, Rubber, Sugars and Chemical stocks. It was a peculiar feature of the market that the weakness of the past two days in steel, which would ordinarily exert a decided influence upon the rest of the list, has this time not seriously interfered with the upward trend in a large number of industrial specialties. BREAK EXPECTED IN BERLIN GOVERNMENT

Erzberger and Rantzau at Log-gerheads and Trouble Will Follow.

Berlin, May 1.—(French Wireless Service)—Serious differences have arisen between the members of the National German government, and a change may be expected shortly, according to telegrams from Brussels. The conflict between Matthias Erzberger, head of the armistice commission, and Count von Brockdorff-Rantzau, foreign minister, and head of the peace delegation is said to have reached the breaking point. Erzberger, it is declared, will do his utmost to make difficult the work of the foreign minister whatever the attitude he adopts at the Versailles peace congress.

ERZBERGER BECOMES ALARMED OVER POLISH MOVES

Berlin, May 1.—Matthias Erzberger, chief of the German armistice commission, in a note to Marshal Foch, made public in Berlin, says that Germany has reliable information that the Poles are planning the next few days an advance with large forces against German territory in Posen and East Prussia. He adds that, therefore, it is impossible for the German government to guarantee that the armistice between Germany and Poland will be maintained, if the Poles attack German territory. After such an attack the German government could not permit the further passage through Germany from France of the Polish troops of General Halter, he says.

On the first appearance of a cold do not neglect it, but if it at once before it has a chance to grow worse, and gets settled in the lungs, causing bronchitis, pneumonia and other serious lung troubles. Dr. Wood's Norway Pine will cure the cough or cold first incepted, and perhaps a year's suffering. Mr. G. F. Strachuk, Canora writes: "Last winter I took severe cold on my lungs and coughing up phlegm and blood of the time. I had the cough for two months and took many different medicines, but found relief from them. At last a friend advised me to take Dr. Wood's Norway Pine Syrup, which I did, and I got great relief in a very short time and today I am enjoying good again. The marvelous results this Norway Pine Syrup achieved in its cure of my cold has caused many a "pine" preparation to be put on the market, which do not contain pine whatever. See that you get the genuine when you ask for it. Put up in a yellow wrapper, pine trees the trade mark, price and free. Manufactured only by T. Millburn Co., Limited, Toronto."

DIED IN DORCHESTER, MASS.
Louis A. Griffiths, died at his residence, Burgess street, Dorchester, Mass., after a lingering illness, on Monday, April 28th. Mr. Griffiths was for many years in the employ of Daniel & Boyd, on Market Square, and later with the London House Co., Ltd. On this firm retiring from business he removed to Boston. Mr. Griffiths was an Englishman by birth, coming to this country a few years previous to the great fire of 1877.

When in St. John he was associated with St. John Lodge of P. and A. M. and Court La Tour, I. O. Foresters. The remains were brought to St. John yesterday on the Boston express, and interment was in Cedar Hill cemetery, the Rev. D. H. Loweth of Trinity church officiating, of which church the deceased was formerly a member. Mrs. Griffiths, who is the daughter of the late Henry Card, survives.

Canada's Future depends on BOYS

Help the "Y" Construct the Manhood that will Reconstruct Canada

OVER three hundred thousand teen-age boys are growing up to replace the wastage of Canada's man-power in the war, and to "carry on" as her future citizens. What work of reconstruction—financial, industrial, or commercial—is so vital to the nation as the reconstruction of Canada's Manhood!

Canada lost 60,383 men in the great war, and 156,799 men were wounded. More than ever it is important that the growing boys of this country be efficient, manly and be inspired with true ideals of Canadian Citizenship. Literally it is true that Canada's future depends upon her boys.

Red Triangle Campaign

Nation-Wide Appeal \$1,100,000 May 5th to 9th

In co-operation with the Churches the Young Men's Christian Association is extending its service to Canadian boys. The Y.M.C.A. is essentially an institution for boys, and a large proportion of its work since its first establishment has been with boys.

What the Y.M.C.A. is Doing for Boys

There are four phases to human development—physical, intellectual, spiritual and social. The Y.M.C.A., in close co-operation with churches and Sunday schools systematizes the development of boys in each of these four phases by what is called "The Canadian Standard Efficiency Training." A boy is "charted" and his development is noted periodically. His record helps the Y.M.C.A. to supply the training he needs most to bring him up to the efficiency standard. With his record chart before him the boy is inspired to improve the faculties wherein he is deficient and to make himself a "four-square man."

Y.M.C.A. wants to reach out to these boys by way of athletic meets, week-end camps and social work in the industries, the shops, and factories. Problems such as gambling, industrial relationships, thrift, home relationship, sex education, etc., will thus be dealt with.

What Makes the Four-Square Man

PHYSICAL TRAINING of boys includes camp craft, health education, swimming, running, jumping, throwing, basket ball and other team and group games.

Red Triangle in Rural Life

The Y.M.C.A., in co-operation with the churches and other social organizations, is carrying the Red Triangle to the boys on the farm, the boys in the villages and small towns which lack Y.M.C.A. buildings and equipment. The Y.M.C.A. organizes these Church groups and others to carry on active work to interest, entertain, instruct and develop boys; trains their leaders and stimulates and supervises.

Intellectual Training

Intellectual training includes supplementary school or college work, direction of home reading, educational lectures, practice in public speaking, sex education, craftsmanship and woodcraft training.

Helps Boys to Choose Vocation

The "Find Yourself" campaign of the Y.M.C.A. has helped many a boy to analyze his natural abilities and circumstances so as to make the most of himself and his opportunities. A boy is examined and advised what he is fitted for and what amount of education, time and expense is necessary to attain vocations for which he may be suited. In that way he is helped to make an intelligent choice.

Spiritual Training

Spiritual training supplements and supports the work of churches and other religious bodies; it spreads the ideal of daily prayer and scripture readings among boys; it inspires interest in nature, in music, in things artistic.

For Canada's Girlhood

The Dominion Council of the Young Women's Christian Association has to do with the supervision, promotion and stimulation of all the varied national and local activities of the Y.W.C.A., including the work of caring for the soldiers' wives and dependents coming to Canada from overseas. The Y.W.C.A. budget for Dominion Council purposes this year amounts to \$175,000, and it is planned to set aside that amount from the total objective of the Red Triangle Campaign for the purposes of developing Y.W.C.A. work for Canada's girlhood along somewhat similar lines to those followed for boys.

The "Y" in High Schools

The Y.M.C.A. recognizes the great field for reaching teen-age boys found in the high schools, and is promoting the establishment of activities in that field. In the High Schools committees and "Boys' Cabinets" are organized and programmes put into operation to stimulate scholarship, inspire purpose, encourage clean speech, clean sport, and clean habits, to direct towards their true vocation in life boys who are "drifting," and to develop manliness and character.

Helps Boys to Choose Vocation

The "Find Yourself" campaign of the Y.M.C.A. has helped many a boy to analyze his natural abilities and circumstances so as to make the most of himself and his opportunities. A boy is examined and advised what he is fitted for and what amount of education, time and expense is necessary to attain vocations for which he may be suited. In that way he is helped to make an intelligent choice.

Help the "Y" complete its work for soldiers; help extend "Y" service to Canadian boys; help bring the Red Triangle to the Army of Industry and to Rural Canadian Life.

STRONG INDICTMENT AGAINST SOCIALISM AND BOLSHEVISM DELIVERED BY DR. MURRAY BUTLER

Points Out the Fraud and Viciousness of Socialism, But Believes the Intelligence of the American People Will Save Them from the Evils Now Sweeping Over Europe—Turbulence, He Says, in the World of Ideas as Well as in the World of Events.

(New York Herald.) Nicholas Murray Butler, president of Columbia University, speaking before the Commercial club in Cincinnati Saturday night, delivered the strongest indictment against socialism and its resultant Bolshevism that has ever been heard in the middle west. Speaking on the topic, "Is America Worth Saving?" Dr. Butler discussed the main tremendous happenings of the times with their influence on civilization and especially their effect on American political and industrial life. After pointing out the fraud and the viciousness of socialism, he made his main argument that the intelligence of the American people will save them from the evils now sweeping over Europe.

"There is turbulence not only in the world of events, but in the world of ideas," said Dr. Butler. "Loud and angry voices are raised on every hand urging the overthrow of the foundations of society and of the marvellous civilization it has taken 3,000 years to build. Ugly thinking accompanies unconsidered and hysterical action. Forces, either military, economic or political, and not reasonableness or justice, is everywhere appealed to as the arbiter of differences. It is probable that the world is now further removed from peace and order than it was on Nov. 11 when hostilities ceased."

Victims of Tricky Talk. The president of Columbia aroused hearty applause and also caused a good deal of laughing when he said that we are victims of an orgy of crooked thinking and of the false and tricky use of language, words being twisted from their true meanings and used to mislead the public.

"It is now the fashion," said Dr. Butler, "to describe a doctrine as an idealist; to call a liberal a Tory; and to wear the splendid term liberal to cover the nakedness of the revolutionist. It is high time to attempt to dissipate the fog in which we are living and to get back to first principles and straight thinking along the lines of hard and practical common sense and human experience."

All American life, Dr. Butler said, is based on the civil liberty of the individual. Under this system the country has prospered mightily. While there has been and is inequality, it is also true, he argued, that where there is individual opportunity there is always inequality. It can only be prevented by substituting tyranny for liberty. He continued:

"Men of Ohio, this is the first long and dangerous step on the path toward autocracy and militarism. Once a State becomes all powerful it easily thinks of itself as unable to do wrong, and so becomes the unnatural state of which Prussia and the German Empire have been the most perfect types. The all powerful and immoral state can see nothing higher than itself."

False Traits in Socialism. "Socialism, in the strict and scientific sense of the word, is, however, something quite different from this. Socialism involves not social reform but political and social revolution. It is the name for a definite public policy which rests upon certain historical and economic assumptions, all of which have been proved to be false, and it proceeds to very drastic and far-reaching conclusions, all of which are in flat contradiction to American policy and American faith. The assumptions of socialism are these:

"First, that all of man's efforts, both past and present, are to be interpreted and explained in terms of his desire for wealth, and of the processes which lead to the satisfaction of that desire. This assumption includes all moral, religious, and unselfish considerations from history and from life and makes of man nothing but a gain-seeking animal preying upon his kind wherever he can lay hands upon him. There have been, and there doubtless are, many individuals of this type; but to suppose that the whole human race can be brought under such a description is an outrageous travesty on history, on morals and on religion. This assumption would reduce all human history to the record of blind gain-seeking forces and would exclude from it both moral effort and moral purposes. Under such a theory no man would make any sacrifice of liberty or for love, but only for gain. All human experience contradicts so cruel and so heartless an assumption.

"Second, that in the struggle for wealth men are divided into permanent classes—those who employ and those who labor—and that between these classes there is and should be a class struggle, or class war to be carried to the bitter end.

Assets of Democracy. "It is the extreme form of the doctrine of Karl Marx which Lenin and Trotsky have been applying in Russia for a year and a half past, with such terrible results. In consequence, that once great country of boundless possibilities is now as helpless as a child, and it lies, for the moment in social, economic and moral ruin and is relapsing into barbarism. Its re-

organized schools now devote part of each day to instruction in atheism and to removing any lingering traces of what used to be proudly called civilization."

Thereupon, turning to a survey of the great assets acquired by America under democracy, in an enumeration of the details of prosperity, Dr. Butler named these items:

"Ours is a land in which more than 20,000,000 of men, women and children have just now subscribed to Liberty Bonds.

"It is a land with more than 18,000,000 dwellings occupied by about 21,000,000 families.

"It is a land in which fully 6,000,000 families own their own homes subject to mortgage.

"It is a land in which more than 12,000,000 persons are depositors in mutual, stocks or postal savings banks with total deposits amounting to more than \$6,500,000,000.

"It is a land in which there are nearly 6,000,000 farms having a value, including their buildings and equipment, of more than \$41,000,000,000, and yielding an annual product of a value of more than \$8,000,000,000.

"It is a land with more than 266,000 miles of railway in operation, carrying in a year more than 1,000,000,000 individual passengers and more than 2,325,000,000 tons of freight.

"It is a land in which schools for the people are maintained at a total expenditure of nearly \$650,000,000 with an attendance of more than 20,000,000 children.

"It is a land in which there are more than 3,000 public libraries, having on their shelves more than 75,000,000 volumes for the instruction and inspiration of the people.

"It is a land whose total wealth is now not less than \$225,000,000,000."

He asked if a people as intelligent as ours would be likely to ruin this prosperity by turning the country over to Socialist revolutionists, especially after the example Russia has furnished to the world. He contended that the Socialist party, always in particular antagonistic to the courts, is of necessary unpatriotic and un-American. He stated that it definitely challenges the very existence of the republic.

Recognition Plan Uncovered. He complimented such Socialists as Russell Spargo, Walling and Montague for denouncing the unpatriotic character of their former associates and for remaining good Americans themselves. Then Dr. Butler pronounced this significant idea:

"Signs are not wanting that the advocates of Socialism think it will be easier and quicker to gain ground in the United States by the indirect method of involving us in a false international policy than by the direct control of the machinery of government through the suffrage. This explains why Socialists and those who at heart sympathize with them will not openly assume their name, are so anxious that Lenin and Trotsky shall be formerly recognized as heads of a government the German people should, so far as possible, be saved from the consequences of their public crime and their military defeat. If

Americans could only be led to give up their historic patriotism for a sentimental humanitarianism the battle of the Socialists would be half won. This is why it behooves us to watch with anxious care each step that our Government proposes to take in relation to international policy.

"It is proposed to build a world of strong, independent, self-conscious nations with close and friendly international relations for the preservation of the world's peace, well and good. But if it is proposed to weaken or destroy nations in order to build a world in which historic nations shall play but an insignificant part, and in which patriotism and love of country shall disappear, then Americans should oppose such a policy at every step and with the utmost vigor.

"Upon all this the progressive builds a new and consistent structure to meet the needs of today in the light of the experience of yesterday. He does not, and it is necessary to burn his own fingers in order to ascertain whether fire is hot.

"American will be saved, not by those who have only contempt and despite for her founders and her history, but by those who look with respect and reverence upon the great series of happenings extending from the voyage of the Mayflower to the achievements of the American armies on the soil of France, and upon that long succession of statesmen, orators, men of letters and men of affairs who have themselves been both the product and the highest promise of American life and American opportunity.

The Declaration of Independence rings as true today as it did in 1776. The Constitution remains the surest and safest foundation for a free government that the wit of man has yet devised. Faithful adherence to these strong and enduring foundations and a high purpose to apply the funda-

mental principles of American life with sympathy and open-mindedness to each new problem that presents itself, will give us a people increasingly happy and increasingly secure.

"Just as soon as the American people, with their quick intelligence and alert apprehension, understand the difference between social reform and political socialism, and the distinction between an internationalism that is false and destructive of patriotism and an internationalism that is true and full of appeal to every patriot, they will stamp political socialism, together with all its subtle and half-conscious approximations and imitations, under foot as something abhorrent to our free American life. They will prefer to save America."

Depot Battalion Canteen Muddle

Following instructions from Ottawa Yesterday Seven Well Known Officers Were Placed Under Arrest—The Facts of the Case.

Following instructions received yesterday morning from Ottawa, the General Officer Commanding this district yesterday placed under arrest the following officers: Lt.-Col. James L. McAvity, Major Frank H. Rowe, (66th, Moncton), Captain G. Earle Logan, Assistant Judge Advocate General, Captain R. Ingleton, Clearing Services, Lt. Stockwell Simms, Pay Department, Lt. J. H. Belyea, 1st Depot Battalion, Comp. Sergt. Major Wm. Rawlings. Of the above Lieut. Belyea and Sergeant Rawlings have been under arrest for some time.

This action is the outcome of enquiries into matters affecting the administration of the Depot Canteen to which previous reference has been made in St. John papers. It is felt very generally that the action which the military authorities at Ottawa have felt compelled to adopt is unfortunate from the standpoint of this district which in the past has been ably treated by the Militia Department and that as regards the men involved it will in no degree deprive them of any part of the esteem in which they are held by their fellow citizens.

Those concerned are now under detention either at their homes, or at the armories, with the exception of Major Rowe, who is in Fredericton and who will be brought to St. John at once.

The arrest of these officers is, as stated, the outcome of enquiries covering a period of some months. In brief, the facts of the case are as follows: The Depot Battalion operated a canteen in St. John and in Sussex, which canteen was supposed to be under control of a canteen committee. This committee through stress of work did not operate in accordance with regulations and the management of affairs was left to a large extent in the hands of the canteen officer, who in this case, was Lieut. Belyea. He was responsible for the buying and selling and for the keeping of accounts. These accounts should have been overseen by the committee which, however, because of the desire to get men overseas as rapidly as possible, and because of stress of other work did not attend to these duties as prescribed by Ottawa regulations. There should have been an audit of the canteen books every month by an auditor from Ottawa, but it is stated that this system was not followed with regularity. However, as a result of unpaid bills for supplies being presented to Lieut. Col. McAvity as commanding officer, a committee of officers from the battalion was appointed to audit the books. This committee found, and so reported, that the books were not kept according to Ottawa regulations and that there was a shortage in the accounts of several thousands of dollars. To make matters right, it is stated that Lieut. Col. McAvity got up several thousands of dollars to meet the unpaid bills—\$5,500 to be absolutely correct, which amount is still due him. But the report of the audit of the canteen books, which was a report of enquiry in which Major Rowe was president, and Capt. Ingleton and Lieut. Simms were members. This report of enquiry was submitted to the canteen committee, but added that inasmuch as the commanding officer of the battalion had undertaken to pay liabilities and that as Col. Deacon's department was supposed to carry on a monthly audit, Lieut. Col. McAvity was entitled to know the exact status of canteen accounts. Following this report a further audit was made, this time of a confidential nature, it being conducted by Major Rowe and Captain Campbell of Ottawa, assisted by Mr. Payne. That report went to Ottawa and resulted in a further court of enquiry, which concluded its findings a few weeks ago. The last court consisted of Brig. Gen. Cruikshank and Helmer, Lieut. Col. Barnes and LeFanne, assisted by Col. Deacon in charge of canteen affairs. The arrests made yesterday are the result of the report made by that court.

From what The Standard is able to learn, the depot canteen was managed exactly in accordance with regulations, this being due largely to the fact that officers in responsible positions here were more concerned in getting men overseas and in providing for their comfort than in attending to a lot of detail work. It is stated that the canteen was expended in comforts for the men and that these, while not showing directly in the canteen accounts, are accounted for by those entrusted with their disbursement. At the same time it is understood that the books of the canteen were not properly kept and that there are shortages in the funds which will require further explanation. Yet in view of the past records of the men involved, an impression prevails that when the time comes and full explanations are made it will be found that in so far as at least some of the men are concerned, there will be little ground for the charges which have now been preferred.

Of the officers under arrest it is understood that fourteen charges of embezzlement are made against Lt. Col. McAvity, a condition which those who have followed his career and know his record will regard as ridiculous. That in the case of Capt. Logan, charged with failing to volunteer evidence against his commanding officer, his attitude will in this instance lead to a recognition of the fact that he placed friendship before military duty and is more or less a victim of circumstances. That Lieut. Belyea as the responsible officer in charge of the canteen will be required to explain his methods of accounting and reply to the charges of embezzlement against him. That the other three commissioned officers as members of a board of enquiry suppressed evidence. And that Sergt. Rawlings committed perjury according to the charge now standing against him. It is also learned that ar-

AN ALLEGED BLACKMAIL AND TWO LIQUOR CASES IN POLICE COURT

Dr. E. J. Broderick Complainant Against Two Supposed Inspectors for Demanding and Receiving Two Hundred Dollar Cheque—Third Man Charged With Having Liquor in Possession—The Doctor is Being Tried on the Charge of Selling Liquor Illegally.

A sensation was sprung in the police court yesterday when J. Hamilton Catty, alias Charles O'Hara, was charged with getting money under false pretenses; Charles O'Reilly, conspiring with him, and Arthur Blizard, with having liquor in his possession other than in his private dwelling. The whole case turns on an alleged matter of blackmail with Dr. E. J. Broderick of Union street being the victim.

Two bottles of liquor were procured from the doctor by the alleged conspirators on Wednesday afternoon followed by a demand of "hush" money, and the doctor claiming to have been previously assisted in this was to be "planted," worked into the hands of the trio, and after consultation with his solicitor, gave a cheque for the amount of \$200, on account, then notified Sergeant Detective Power and the arrest of the three men was made.

Following the arrest of the three Dr. Broderick was yesterday charged by Inspector Saunders for unlawfully selling liquor on April 30th. The doctor pleaded not guilty in the police court, evidence was taken, and this case was postponed for further hearing, the doctor placing a deposit of \$200 for his appearance, while O'Reilly, O'Hara and Blizard were remanded to jail pending further examination in their case. O'Reilly and O'Hara were posing as inspectors under the prohibition act, and Blizard was being used as a "stool pigeon" for them. Chief Inspector Rev. W. D. Wilson admits having had a conversation with O'Reilly and O'Hara who offered their services, and although they were not employed directly they were told that they were to be paid, providing they worked straight.

Detective Power located the men in the Royal Hotel where he made the arrests, which case is being tried about the city yesterday and it is expected that other developments may crop out before the matter is ended.

When the doctor opened yesterday morning Dr. E. J. Broderick was the first witness called. He testified that Blizard called at his office Wednesday afternoon shortly after three o'clock. A half hour later Blizard called again and was accompanied by O'Reilly, and in another half hour O'Hara called at the office and asked witness why he gave two bottles of liquor to his (O'Hara's) two operators. The doctor said that he was taken by surprise and asked O'Hara what he meant, and who he was, and in reply O'Hara said that he was manager of a detective agency and had been ordered to investigate the prohibition people and was here to get convictions under the Intoxicating Liquor Act, but not against politicians and prominent men, and he thought the matter could be fixed up.

The doctor said he asked him how it could be fixed up and that the deal was by paying \$200 to him, for if it went to court it would cost him that anyway. The doctor said he told him that he had no money, but he would agree to the terms, but suggested that a hundred would do, but the alleged detective told him he was going to make it \$200 instead, saying that Donald Fraser would give \$500 to get him. The doctor said he then asked the accused what guarantee he would have of his good faith, and the accused said the doctor's good faith would have the doctor's good faith word of honor.

At the suggestion of the accused, the doctor's solicitor was consulted, and the doctor gave the accused a check for \$200 on deposit. The accused, he said, did not want to take a check, but wanted the cash, but as the bank was closed he had to have the check, and the doctor said he then immediately telephoned the police, and as the transaction was completed at the Royal Hotel, Detective Power arrested the three accused there.

Afternoon Session. When the case was resumed in the afternoon Dr. Broderick was recalled to the stand. Questioned by O'Hara, witness denied that he had asked O'Hara if he could be fixed up without having to go to court. Continuing witness said that when O'Hara visited his office after the other two, and while they were dickering about the price to be paid, O'Hara said: "I'll have to consult with my partner regarding the figure." Witness said that he showed O'Hara the telephone and O'Hara spoke over the phone as follows: "Operation will be expensive; you had better come up to the doctor's office." In the meantime a patient having come in, the doctor said he told O'Hara to sit in the outer office until the patient was treated. O'Hara replied that he would get out of doors and have a smoke. O'Hara then spoke over the phone a short time afterwards witness said that he observed O'Hara and O'Reilly consulting with each other a short distance from the office towards the corner of Union and Germain streets. When the two returned to the office witness said O'Hara asked O'Reilly: "What is your price?" and O'Reilly replied: "Not a damned cent less than \$150." Witness then said he told O'Reilly not to fool with a "long bow," as he (witness) and the boss had already set a price of \$200.

Continuing Doctor Broderick stated to the court that he was informed by him that he got directly from Chief Inspector Wilson that the chief said Donald Fraser would give five hundred dollars to get Dr. Broderick and O'Hara admitted that he did not receive the same information direct from Fraser. Witness said that he then gave the cheque for \$200, O'Hara and Blizard were being made for the arrangements of a court martial in St. John on Monday next, although this may possibly be postponed until Thursday. The court will be composed of officers from Ottawa.

was anxious to get money and not a cheque but as the banks were closed he seemed quite content. On the return from the Royal Hotel to the doctor's office, witness said that O'Reilly stated: "Well, I suppose I'll have to give the stool pigeon something," and O'Reilly further hinted that he wanted money before supper as he would be very busy in the evening.

Questioned by O'Reilly, witness said that he never set the price, and further that no intimation had been made that O'Reilly could purchase a case of liquor from him the next day. O'Reilly had asked witness concerning it but witness said that they could talk the matter over the next day. When asked what he had received from O'Reilly for the bottle of liquor witness replied he got five dollars, the charge being \$4.00, but he had no change. O'Reilly—"I was out fifty cents as was my companion."

O'Reilly—"Did you not say in the office that you would pay any price which I might ask?" Witness—"I suggested \$100." O'Reilly—"Furthermore did you not state that you would not care to get Inspector Wilson or the Judge on you as they were suckers?" To Detective Power witness said that when O'Hara fixed the \$200 in the office witness thought that it looked suspicious and asked if the case did not look like blackmail, and O'Hara in return replied: "Well, just as you look at it; it all depends on how you look at it." The case was postponed until this morning at ten o'clock.

Their Records. The police records show O'Hara, alias Catty, as belonging to Scotland and Boston; O'Reilly or Riley as hailing from New Glasgow, N. S. When arrested the two carried cards with the words printed on them, "City and O'Reilly, representatives of the London Evening Times."

O'Reilly is of short build while his companion is taller and dark complexioned. Blizard, who was being used as a tool, is a returned soldier and has been residing in West St. John since he returned from the front.

Inspector Wilson Talks. Immediately after the court adjourned Chief Inspector Wilson was seen in his office and in answer to questions stated that the two alleged inspectors were not "authoritatively" members of his department, although he, Inspectors Mann and Saunders had in turn conversed with the two. Inspector Wilson added he had told them that if they did not work straight and did not wish any crooked work. The two at the time promised they would do his and his force's strength, and were out for honest work. Asked point blank if the two drew salary from the department the inspector replied they drew no salary, but were in reality legalized men. He knew apparently of their workings, but never dreamed of such as happened.

It is said that the inspectors, named around the Royal Hotel on Wednesday afternoon with the explicit purpose of selling Blizard whom they then suspected they were not as they were not in reality legalized men. He knew apparently of their workings, but never dreamed of such as happened.

The Doctor Charged. After the postponement of the case and Inspector Wilson entered a charge against Dr. Broderick of illegally selling liquor. The doctor pleaded not guilty. Evidence was given by Arthur Blizard, who told of seeing the doctor's office in the morning and getting a prescription from the doctor for some liquor. In the afternoon he returned five Power purchased a bottle from Dr. Broderick.

Gerald O'Reilly took the stand and swore that he is in company with Blizard went to the doctor's office on Wednesday afternoon. Blizard went in first. When he came out, witness went in and procured a bottle of liquor. Blizard when cross-examined by Wm. M. Ryan, appearing for Dr. Broderick, stated that he met the two about a week ago, he did not know of their being inspectors until Wednesday afternoon, when O'Hara said he was an officer. Further he did not see O'Hara drink any time while in his presence. O'Reilly drank out of witness's bottle in the hotel room.

Doctor Broderick took the stand and swore relative to last Tuesday evening when he received an anonymous telephone message, saying: "You will be planted, and the plant will spring through Blizard." Witness was informed he had already met Blizard. Hence, added the doctor, "the supply of the two with liquor was for an end, and the evolution of the case on the whole."
