

EUROPEAN INTELLIGENCE.

By the arrival at New York, on Wednesday the 25th ult. of the Belgian steamship British Queen, Capt. Eyckholt, London dates to the morning of the 10th instant, and Antwerp of the 7th have been received.

The disturbances in the manufacturing and mining districts of England were slowly subsiding—more slowly in the latter than the former. A considerable number of mills had resumed work, but there was still many standing idle, the employers and operatives not being able to agree upon terms. Many of the miners still hold out.

Multitudes of the parties, arrested at various places, have been tried, convicted, and sentenced to divers grades of punishment. At York there was an 159 brought up at once for sentence.

The indications in the money and trade markets do not show any material change in either since our previous advices. Full reports will be found under the appropriate heads.

Nothing had occurred to detract from the previous gratifying prospects of the harvest, which is abundant, and has for the most part gathered in perfect order.

Queen Victoria had not returned from Scotland. At the last accounts, she was at Dalrymple, near Perth. She has signified her intention of visiting Ireland during the next summer.

While her Majesty was passing through the streets of Edinburgh, a high stand which had been erected for the accommodation of spectators in the East Princes street gardens broke down, and about 70 persons were more or less injured, some of them very severely, but no lives were lost.

There was a report current in England that the King of Hanover had died. This report, however, turned out to be premature. He was dangerously ill, but not dead.

Carter, the lion tamer, was badly bitten in the hand by one of his lions at the English opera house, London, on the night of the 6th inst.

FRANCE.

A Paris correspondent of the London Morning Post says that the Princess Clementine, the only unmarried daughter of Louis Philippe, having been sought in marriage by a Prince of Saxe Coburg, asked three months for consideration, at the end of which, recently, she returned an answer in the negative.

A Havre circular of Sept. 6, says: "Our markets have been very active during the week; a great deal of business has been done in some of the principal articles of commerce."

"Right of Search."—We extract the following from the *Figaro* of Oct. 1: "A young and fair Florentine lady, bearing the celebrated name of America Vespucci, arrived at St. Malo on Sunday, in the Southampton packet. The noble Signora having declared to the customs officer that she would not submit to the ignominious search to which he wished to subject her, the officer replied, that he had a right to require that a female should, by visiting her person, ascertain if she was not the bearer of contraband goods; and that force should be resorted to if she resisted. The lady drew out a pair of pistols, and repeated her declaration, adding that she would return to England sooner than undergo that degradation. The Signora America Vespucci then called for pen and ink, and in the absence of the Director of the Customs, she wrote to the Sub Prefect, reminding him of her historical name, and of the regards which were due to a woman. The magistrate consented to go on board, but having no power to interfere with the regulations of the Customs, and the fair Florentine persisting in her refusal, she returned to England without quitting the steamer."

I would appear that the secret societies in Paris are still meditating insane projects. On Sunday Sept. 3d, several sectionaries went out to St. Maur, a village five miles distant from that capital, to make a trial of a new infernal machine. They placed it under one of the arches of the bridge, and having set fire to it, by means of a long match, it produced a tremendous explosion, but its destructive effects did not come up to their expectations. Several of the party were arrested on Monday.

SPAIN.

Senor Arguelles, the guardian of the Queen, was said to be dangerously ill. The Barcelona journals, which have reached us down to the 30th ult., continue to be filled with distressing accounts of the ravages occasioned by inundations in Catalonia. It appears that rain fell 24th, when the Llobregat and Fera overflowed of water. The districts Ignellada, La Pobla de Charamunt, Capellades, Vallbona, San Quintin, San Pedro de Riude Vilelles, Monistrol, and others, were entirely laid waste: many of the inhabitants, surprised by the floods, were drowned, and the damages caused in that quarter only, were calculated to amount to 4,000,000 pias-tres. The waters of the Llobregat had not risen to so great a height since the year 1740.

GERMANY.

The total amount of contributions received at Hamburg up to the 5th of July, was \$265,800.

Atenborg, August 29.—The Crown Prince of Hanover is expected here; but it is said that his marriage with our amiable Princess Mary will not take place till January or February next year. The estates of the Duchy, in the assembly, last week, voted a pension of \$30,000 dollars to the bride.

Chemnitz, Sept. 1.—(From the Leipzig Gazette.) We have just received the melancholy intelligence that the town of Sayda was this morning burnt to the ground, with the exception of twenty houses. A report states that Tetschen is in flames, and several hundred acres of forest. They affirm at Dresden

that they clearly saw the fire in the forest.—Hamburg papers, Sept. 6.

ITALY.

Accounts from Rome of the 25th ult. announce that the three steamers built in England for the Papal Government had at last reached that capital, they had already given proof of the solidity of their construction, having in the space of a few hours towed three heavily laden vessels from the mouth of the Tiber to Rome. The banks of the river were lined with an immense crowd of people, curious to witness a spectacle so novel to them. Cardinal Fieschi, the Pope's Treasurer, and several other prelates, were present at the arrival of the steamers.

On opening a vase lately discovered in the ruins of Herculaneum, the learned Abbe Faccioli found an orange preserved in vinegar. It appears the Romans pickled oranges as we do cherries.

RUSSIA AND PRUSSIA.

The Constitutionnel publishes a long letter from Berlin, dated 26th ult., the object of which is to show that a serious misunderstanding has arisen between the King of Prussia and the Emperor of Russia. According to the correspondent of the Constitutionnel the chief causes of this reported difference are the refusal of the Emperor to comply with a proposition made by Frederick William, for a general amnesty to the Poles, and for a modification of the prohibitive system in Russia as regards Germany—refusals which are attributed to the influence of the Russian nobility on the mind of the Emperor.

The St. Petersburg journals of the 23d ult. publish an imperial ukase, containing the changes introduced in the commercial treaty between Russia and Prussia. The Prussian merchant vessels are hereafter to enjoy, with regard to the payment of duties, the same privileges as Russian vessels.

Warsaw, Aug. 30.—On the 20th of this month the town of Ciechanow was destroyed by fire; 114 houses and 24 of the large establishments are reduced to ashes; 300 families have lost everything. The value of the furniture destroyed is a million of Polish dollars (167,000 rix dollars). The harvest is over in almost the whole kingdom; it is very abundant. Oats less so than other kinds of grain. We have not yet had any oppressive heat.—Prussian State Gazette, September 4.

THE EAST.

We find in the Munich Political Gazette of the 2d inst. a letter from Athens of the 12th ultimo, stating that the Turks were continuing their military preparation along the frontiers of Greece, and that a large body of troops was concentrated in Bitolia.

London, Sept. 6.—A letter from Vienna of the 28th of August states, under date Constantinople the 16th, in confirmation of what we had all along asserted, that accounts from Erzroum had reached there, which positively announced that hostilities had ceased between the Turks and Persians, and that a suspension of arms had been agreed upon. The Shah had suspended his armaments, and given orders to his troops to withdraw from the frontiers.

This satisfactory change of affairs was due to the powerful intervention of England. The merchandise detained at Erzroum at the commencement of hostilities had already been sent on to Persia.

MOROCCO.

The Paris Commerce announces that the squadron in the Mediterranean had been reinforced by a 36 gun frigate, the Congress, lately arrived at Mahon. It was not expected in Tunis that the misunderstanding which had arisen between the United States and Morocco would be amicably adjusted. The envoy sent by the commodore to the Emperor had not been received, and had returned to Tangiers. The Commodore was awaiting precise orders from his government to commence hostilities with the naval forces under his command.

UNITED STATES.

BOSTON.

We copy the following article on Boston that City of wealth and enterprise, from the New York Journal of Commerce:

The condition of Boston is well worthy the contemplation of political economists and men of business. She has, by the combined efforts of her citizens, projected and accomplished vast works of internal improvement, with comparatively little aid from the State. The Bostonians have subscribed to these works with a liberality which in other places have been followed by general exhaustion; but no such exhaustion has ever been felt there. For three years past, Boston has done a good and prosperous business, while all the other Atlantic cities, and almost the whole country, have been embarrassed. At this moment real estate is dearer in Boston than ever before, and its income larger. The whole mechanic force is busily engaged in building new stores and dwellings, and yet it is impossible to keep pace with the demands of new occupants. The citizens of Boston have not only gone straight forward with their own great works in the worst of times, but have found spare capital with which to buy the stock of the Reading Railroad in Pennsylvania, and various other works. Every one of the Railroads built in Massachusetts is good property, and in complete operation. Philadelphia has attempted to accomplish the same ends as Boston, viz., to make all things centre in herself, but how entirely opposite are the results in the two States! Yet the position of Philadelphia would seem to be quite as favorable for accomplishing that design as the position of Boston. In both cities there is a concentrated dovetailing of the interests of the city, which is in many respects alike in its characteristics in both places.

In Massachusetts there has been no log-

rolling about internal improvements. Nothing has been undertaken but on its own merits. The new Merchants' Exchange in Boston stands in remarkable contrast with ours, though planned by the same architect. Our building has one really magnificent room in it, and that is used one hour in each day. A sad proportion of the whole building is entirely waste room. In the Boston edifice the Exchange room is in the rear, situated like the American Exchange Bank in Wall street. In front are four banks, two in each of the first and second stories, and that there may be not an inch of space unoccupied, there is a hotel in the extreme rear, with an entrance from the front. The dining room is under the Exchange room, and the upper stories of the whole building are dormitories. A million of dollars capital invested in our Exchange is as good as sunk, while the Bostonians will have an annual return from theirs of seven, probably eight per cent. Even the Exchange room they have let for \$3,500 to Harnden for a news room, the entire to be an Exchange, the exterior of the circle to be filled with desks.

Dreadful Accident.—On the 21st ultimo a dreadful accident occurred at Keesville, Essex County, N. Y. A company of Militia were doing training had to march over a Bridge in doing which they were followed by a vast concourse of boys—the Company had arrived at the centre of the Bridge when the supports gave away, and melancholy to relate, the bridge fell and precipitated a great number of them into the river, when the force of the current took them over the dam. The precise number drowned is not known; thirteen persons, chiefly boys are missing, and a Mr. Millar also found a watery grave in attempting to save the lives of those who were struggling in the water.

Extraordinary.—A Mr. Sumrall, writing to Mr. Gurnea, Representative in Congress, from Mississippi, gives the following account of a poisoning spring in the unsettled part of Arkansas:—

"One report that I have of said spring, is horrible, viz.—Some hunters, on arriving at the place, being thirsty, some of them drank of the water and were immediately affected, and in a few hours died; upon which the rest became alarmed, and refrain from drinking; and on examination, they found the earth for a mile or two around the spring strewn with the bones of birds, beasts and some human."

A New Measure.—Some months since there was an article in the N. Y. Journal of Commerce, giving an account of the surprising qualities of a new measure, from the Coast of Peru, called Guano, or Humo, (the gin Spanish having the sound of the gatur h.) The effects of this most singular substance on various plants cultivated under the directions of Mr. Teschemacher, at the Botanic Garden, may now be seen at the annual exhibition of the Massachusetts Horticultural Society; and from the general appearance of the plants, it is certainly not astonishing that there should be, at the present moment, a large fleet of English vessels on that Coast, having with Guano for the use of English Agriculture.

An Exploit.—On Tuesday of last week a son of Mr. Alexander Clark of East Falmouth while sailing in a boat in Great Pond, observed a deer making for the middle of the pond, as the animal is frequently in the habit of doing when pursued. Although he was alone in the boat and nobody within hail young Clark formed the resolution to capture the deer. The wind was blowing very hard at the time, yet he managed to get near enough to throw the light of the boat-rope over the animal's horns, and by this means towed him ashore and despatched him. He then called a person to his assistance who just then 'hove in sight,' and the two immediately dressed the deer and carried him home. The deer weighed after being dressed, nearly 100 pounds.—Yarmouth Register.

Important Decision.—Judge Grier, of Pittsburgh lately decided in a case where an alien life estate in his wife's property was exposed to sale, on an execution in favor of one of his creditors, that an alien could not obtain a title to real estate in Pennsylvania, by operation of law or in any way except by purchase. The case having been taken to the Supreme Court, now in session in that city, will soon be decided. The decision will be of vast importance to those who hold property which they have obtained from foreigners, who have not been naturalized.

Sudden Fall of Stock.—On Tuesday last as a drove of fifty head of cattle were crossing the toll bridge at Haverhill, it broke down, and the whole herd fell among the rocks in the bed of the river. Ten were killed and wounded, and the rest were able to be driven hence to the place of execution.—Concord Statesman.

On Tuesday Judge Kent of N. Y. pronounced the sentence of death on John C. Colt for the murder of Samuel Adams in Sept. of last year. Judge K. read a paper handed to him by the prisoner, complaining of the Jury and alluding to an appeal to the Court of Errors, terminating as follows:—

"As this consequence is not to be the end of this business, I desire that the Court will spare me the pain of all unnecessary powers of sentence, especially the accompanying comment."

The Crops in Maine, the Bangor Courier says, are larger this year than ever before. The crop fell below the average, but the later crops are so plentiful, particularly Indian corn, that the increased fodder will more than compensate for the deficiency in hay.

A Great Cargo.—A Whaler arrived a few days since at New Bedford with forty seven hundred barrels of Oil. Four hundred of Sprm, and forty five thousand pounds of bone. She had been absent twenty six months. This is the most valuable cargo ever drawn from the "east deep," and has been productive of more clear profit than all the timber shipped from this port in a season. We

are pleased to find that our own vessels in the same trade, belonging to the Mechanic's Whale Fishing Company have and continue to be profitable to the proprietors. The Whale Fishing is with us as yet in its infancy, but promises to be eventually more lucrative than any other trade in which we embark.

COMMUNICATION.

To the Editor of the Standard.
"Music the Sirens, grief can charm,
"And fate's severest rage divert;
"Music can often pain to ease,
"And make despair and madness cease:
"Our joys below it can improve,
"And antidote the bliss above."
Pope.

Sir,
On Monday evening last I attended the Concert given by the St. Andrews Amateur Band, more with a view of contributing my mite to promote the Company, than from an expectation of being gratified. I was however somewhat disappointed, and in the most agreeable way. Whether it appear like bombast or fulsome flattery to the Band I care not, but I cannot help saying, that I never felt greater delight in listening to any musical performance whatever, and all around me seemed equally to enjoy the pleasure. The number and variety of the tunes, played in good time and harmony, and frequently with brilliant execution, speak volumes for the talent and industry of the performers, and their well qualified teacher, when it is considered how recently they commenced their musical instruction. The scenery too, executed by one of the Band, was in very good taste and reflects much credit on the artist.

During the performance, I could not avoid occasionally contrasting the laudable employment in which those young men were engaged, and the pursuit of brutal and criminal pleasures, in which youth is too often misled. How much better employed in the study and practice of music, that science which elevates and ennobles the mind, purifies the affections and soothes the passions, than to squander time in idleness, dissipation, or vice. He who is fond of music, can scarcely have a bad heart. The cultivation of musical taste has a powerful and beneficial influence on the mind and character, and should be attended to with the nicest care. "There are few, who have not in some degree felt the charms of this science, acknowledged its expressions to be intelligible to the heart; it breathes to the ear the clearest and most affecting strains, and is a language of energetic and delightful sensations far more eloquent than words." Those who practise it may be assured, that they are achieving a real good, as well as furnishing themselves and others with a delightful and innocent amusement.

To the Members of the Band, I say 'go on and prosper,' and may you soon afford us another rational and pleasant entertainment.

ARRIVAL OF THE COLUMBIA.

The Steamship Columbia, arrived at Halifax, on Sunday last in 11 days and 21 hours from Liverpool which port she left on the 20th September. We have inserted the most important items of news, in our Columns this morning.

Nothing of consequence had occurred since the departure of the British Queen.

The Queen and Prince Albert have returned to England.

The Britannia arrived in England in 10 days, she carried the news confirmatory of the Boundary settlement. The treaty gave general satisfaction to the people of England. Some of the journals as a matter of course, turned up their noses.

Trade was still in a depressed state, although people were living in hopes of a speedy revival.

There is nothing new from India or China.

THE MONEY MARKET.—"Since our last publication the London Money Market has presented no future of striking importance, if

we except the effect produced by the receipt of the treaty settling the Northeastern Boundary and other questions between England and America. Immediately on its being known in the city that the United States Senate had ratified the treaty, Consols advanced one fourth and other kinds of stocks in a corresponding ratio."

THE SHIPPING INTEREST.—We hear loud complaints of the depression which this interest, in common with the other great interests connected with trade, is now suffering. Freight from foreign ports, besides being scarce, are lower than they have ever been known before; while at home, freights are not only low, but cargoes with difficulty made up. So scarce, indeed, is employment for shipping, even at rates which will scarcely pay freight and charges, the number of ships laid up in Liverpool alone is beyond all experience. In most of the docks there are unemployed vessels and vessels on sale, but the Brunswick Dock, large as it is, has, if not two-thirds, certainly more than half of its space occupied by ships of large tonnage with brooms, the sign of being on sale, at their mast-heads. The west side is wholly filled with tiers of vessels on sale, and on the adjoining quay all traffic has ceased. We have heard it mentioned that one firm alone had from ten to twelve thousand tons thus laid up.

M. Thiers was on a visit in Holland, and was employed in Amsterdam in examining the collection of paintings, and the system of banking and draining.

A project has been brought forward for the establishment of an Anglo Spanish Bank, with a capital of £2,000,000.

The dignity of Viscount of the United Kingdom has been granted to General Rowland Barre Hill, late Commander-in-Chief, by the title of Viscount Hill.

Sir S. Canning was conferring with the Divan, about Persia, and Servia is growing rebellious.

The Prussian State Gazette officially announces that the King of Prussia, on his visit to St. Petersburg, could not obtain from the Czar any material change in the prohibitive system of Russia, thereby destroying the hopes that might be found of the late Russian ukase being the opening of a fairer state of things. There is even a tone of complaint in the Prussian official article, natural enough when it is considered that Prussia possesses the sea ports and the mouths of the rivers which run from the north of the country with the sea. Such a state of things cannot last. Either Russia must succeed in destroying the Polish tongue and name and nation, or Prussia, by re-asserting all their vital parts of Polish existence, will pave the way for the resurrection of a Polish empire. The sovereigns and governments of these countries may remain on terms of friendship, but the nature of things tends to a feud, and a feud to ulterior consequences.

TIMBER MARKETS.

PRICE.—As the period is now fast approaching when the alteration in duties will take place—all business seems to be partially suspended. Several vessels have arrived the past week; but the importers generally seem disposed to keep their cargoes in the vessels until after the 10th October, and very little is likely to be done until that time.

DEALS.—Both Quebec and New Brunswick Deals are being put into bond, as they arrive, and it is not likely any sales of consequence will be made before the alteration in duties takes place.

MELANCHOLY.—We are informed that an interesting little boy, son of Thomas Masses Esq. Deputy Treasurer, West Isles, while amusing himself with his little brother on Tuesday, near the edge of a steep precipice directly in front of his father's residence, lost his balance and fell among the rocks beneath, and we are sorry to say, was killed instantly. His father and brothers being at St. Andrews that day no assistance was procured for some time. We sincerely sympathize with the bereaved parents and family on their severe loss.

THE AMARANTH for October was received on Monday last, the contents are entirely original. This interesting Miscellany continues to receive contributions from several talented authors, who are favorably known to the public. The proprietor and conductor, Mr. Shires displays much taste and judgement in his selection of the various articles which enrich its pages.

MIRAMICHI GLEANER.—We are glad to find that this well-conducted periodical is still to be continued under the management of Mr. Pierce, in compliance with the wishes and promises of support from a numerous and respectable meeting of his patrons. The first number of the new series came to hand by Mail yesterday.

We observe that His Excellency the Lieut. Governor, has been pleased to appoint the Hon. H. Hatch, Commissioner of Bankrupts for this County. This selection is both judicious and satisfactory and we learn meets the approbation of the inhabitants of Charlotte.

EMIGRANTS.—Alexander's Messenger says, that over 11,000 Emigrants have arrived in Canada this season, and that Her Majesty's Emigrant Agent has great difficulty in getting them to take employment at moderate wages, they having been imbibed at home, with representations that they could obtain a dollar per day and board, immediately on their arrival on this side the water. Thus clearly showing that it is not the government in many instances that causes the distress we so frequently read of among the working

classes, but it is unreasonably demanded at, that by people of British North lack both labor life, as well as always that it at moderate w

peopled countries, but in any part of the
British North American Colonies, none need
lack both labor, and all the necessities of
life, as well as many of its luxuries, provided
always that they are not too lazy to earn it,
at moderate wages.

SUPERFINE FLOUR was selling in Boston
last week from \$4, 83 to 4, 87-2 and in N.
York at \$4, 62.

BANKRUPT COMMISSIONERS.—We under-
stand that His Excellency the Lieutenant-Gov-
ernor has been pleased to appoint the fol-
lowing gentlemen to be Commissioners under
the Act relating to Bankruptcy, passed at the
last Session of the Provincial Legislature,
and recently confirmed by Her Majesty in
Council:—Robert F. Hazen, Esquire, Saint
John; Honorable Harris Hatch, Charlotte
County; D. Ludlow Robinson, Esquire,
York County; A. Street, Esquire County of
Northumberland, and B. C. Beardsley, Es-
quire, County of Carleton.

PROVINCIAL BANK.—It is said that the
plan of a Provincial Bank has been submitted
by some of our eldest financiers for the con-
sideration of His Excellency the Lieutenant-
Governor. Such an Institution, if properly
managed, would doubtless be beneficial to
the trade of the Province. It is there-
fore worthy of consideration, and will no
doubt receive due attention from the Execu-
tive.

The Government Surveying Steamer *Col-
umbia*, Lieut. Kortright, arrived at Halifax
on Wednesday last, from Campo Bello, the
residence of Capt. W. F. W. Owen, R. N.,
under whose directions and control the steam-
er has been placed for the purpose of com-
pleting a survey of the coast of Nova-Scotia
and New Brunswick.

A NEW COAL MINE.—We learn from a
gentleman by the name of Shearing, (an
Agent for the Boston Company,) that he has
been for the last three weeks past engaged in
sinking a shaft in Hillsborough, N. S., for
the purpose of obtaining coal. We have
seen a specimen of the article, it is of the
very first quality, and stated to us, by Mr.
Shearing, to contain seventy five per cent
more bituminous matter than the best English
Coal. Should it be discovered in
quantities of sufficient thickness to warrant its
being worked, there is little doubt of its pro-
viding a profitable investment of capital, as well
as a source of wealth to this country.—*Saint
John Herald.*

P. E. ISLAND.—In anticipation of the be-
nefits likely to accrue from the fishing com-
pany about to be established at Cascaduque,
the inhabitants of Charlottetown are all in a
state of much activity. From the large
tract of land purchased as a location, the
capital invested cannot fall short of £200,000,
and nearly equal to what is employed in
the whole fisheries of our province. Build-
ings are in the course of erection, estimated
at £37,000, so that the capital of this thriving
colony is assuming quite an imposing
appearance.—*Hal. Recorder.*

CATTLE FAIR.—On Thursday last the
Monthly Cattle Fair took place on King's
Square in this City, when, considering the
infancy of its establishment, it might be con-
sidered well attended. The most spirited
part of the market, of sales, was in Milch
Cows and Heifers, for stores. The Pigs were
of a first rate kind, and weighed from three
to four cwt. There were but few Sheep on
the ground, but these were good. Horses
were sold low; but indeed all kinds of stock
has depreciated in value, owing to the non-
circulation of money and the stagnation of
trade. The town and country are, however,
much indebted to our patriotic Agricultural
Society for the establishment of regular Mar-
kets.

During the morning the Agricultural Board
met at the Emigrant Office—the Hon. Chas.
Simonds in the Chair;—when some highly
creditable samples of produce were there ex-
hibited. Among these were Oats of the
short kind, raised on Mr. Tisdale's farm,
weighing thirty-nine pounds per bushel; also
some Wheat of good quality, with Early Blue
Potatoes of a Superior description. Mr.
Sheriff White had a sample of Oats of a first
rate weight—viz. forty-five pounds per bush-
el.—All these were raised within one mile of
the City, and afforded a gratifying considera-
tion to us, and upon which we congratulate
our neighbours, that judicious cultivation of
the soil will yield most abundant crops.

At the meeting of the Board, Mr. Wedder-
burn introduced some excellent tables of the
relative weight between Oats and Meal, as
calculated by the best Scotch Farmers and
Millers, which it is hoped will soon be pub-
lished for general information.

Mr. Wedderburn also reported that in the
market there were exhibited for sale—96
Cows, 10 Heifers, 16 Oxen, 7 Bulls, and 1
Calf—Total, 130; 49 Horses and 9 Colts;
45 Hogs of all ages; 3 Sheep, Tups, and
Wagons with different kinds of Produce,
New Brunswick of Thursday.

On Friday last the inhabitants
of Carleton were honored with a visit from
the ancient inhabitants of the forest, a lady
bear and her two cubs. They located them-
selves between the fort and the town, very
much to the terror of all the old ladies and
little boys on that side of the harbour. One
of the cubs took the water and was killed by

persons who pursued it in a boat. The old
lady and her offspring made good their retreat
to the woods, after suffering much punish-
ment. We since hear the whole family have
been captured. This circumstance we much
regret, as we had intended to invite our con-
temporary of the New Brunswick, whose
legs are admirably fitted for the purpose, to
join us in the chase. He is a dead shot with
a paper gun, and it was our wish to have as-
certained if he were not equally skilful with
amore substantial one.—*Herald.*

FAILURE OF THE AMERICAN FUR COMPA-
NY.—This great Company which has done
business to a vast amount, and employed a
great number of persons in the collection
and purchase of peltry have failed for a sum
of £300,000. The failure is attributed to
bad debts, a depreciation of the article in the
market and a large unsaleable stock of Furs
on hand.

TAIL WALKING.—A Dublin paper relates
a recent feat of "tail walking" which would
seem to indicate that "Buffs" will not be
without competitors when he goes to Eng-
land for his "country's" good. The Dub-
lin papers says:—"Last week a person named
Mullin, walked 100 miles in 24 hours, near
Newlyn. When he came to the last lap the
pace astounding, the mile was perfected in
eight minutes and a half. He was loudly
cheered in coming in. During the evening
he walked through the town apparently not
much fatigued.

Railroad Accident.—We learn from the
New York Com. Advertiser that the down-
ward train of passenger cars on the Norwich
and Worcester railroad met with an accident
on Tuesday evening, at about 8 o'clock, just
after passing the Plainfield depot, involving
much life, but luckily not human life. The
engine came in contact with a drove of cat-
tle which had quietly placed themselves in a
narrow passage between two banks of sand,
and after killing 5 of them ran into the bank
and was smashed to atoms. The tender, bag-
gage and express cars, &c., were either over-
turned or turned over upon each other. It
happily neither the engineer nor fireman
were much injured and none of the passen-
gers were injured in the least. A hand-car
was sent to Norwich, and another train went
up and took of the passengers. Several of
the rails were torn up.—*Am. paper.*

On the 19th September, 1841—Lord Sy-
denham died at Kingston: on the 19th Sep-
tember, 1842—one short year after—it was
publicly known in Montreal that the men
who were his official advisers and had as
such assisted him in carrying out his great
measures, had sold themselves to his oppo-
nents, and had, in all probability, agreed to
undo or to make ineffectual, all the impor-
tant boasts that he conferred on this Pro-
vince.—*Morning Courier.*

It was stated at Kingston on Saturday,
that Mr. WALKER, of this city, had accepted
the office of Solicitor General for Canada
East; and that Mr. PRICE or Mr. BOSWELL
would be appointed to the same office in Can-
ada West.—*Id.*

tre of the light 96 feet, and can be seen in
clear weather 21 miles.

The Iron Light House.—At the entrance
to the harbour of St. Jago de Cuba is a cast
iron tower of the octagon form, seventeen
feet in height, and may be seen in a clear
night at the distance of 21 miles, performing
its evolutions in two minutes, and will be one
minute visible, the other invisible. The light
is 244 feet above the level of the sea, and
stands nearly 600 Spanish yards to the east-
ward of the centre of the channel which
forms the entrance to the harbour.

Genuine Medicines.

For sale by Dr. W. C. McStay St. Andrews.

HEADACHE. CERTAIN CURE FOR SICK HEADACHE, which has been used in families, every member of which has had sick headache from infancy, as a constitutional family complaint, and has cured effectively in every instance yet known, amounting to many hundreds. It is not unpleasant to the taste, and does not prevent the daily avocations of one using it. It must be persevered in, and the cure is gradual, but certain and permanent. Instances are constantly multiplying where this distressing complaint is completely relieved and cured although of years standing. One decided preference is its pleasantness, having none of the nauseating effect of common drugs.

It is so perfectly satisfactory, that the proprietor has given directions for his agent to refund the price to any one who is not pleased with, and even cured by it. He hopes also that this may secure great benefits to the distressed sufferers who are labouring under headache.

From the New York Herald.

MYSTERIOUS.

A gentleman belonging to one of the most ancient and wealthy families of this city, who must be well known to numerous friends, having since the year 1818 up to recently, been bent nearly double, and for several years confined to his bed, has been restored to good health—he has regained his natural erect position—he has quitted his carriage, and now walks with ease. We believe that the gentleman's own description as near as possible, and there is no exaggeration in it. We will give inquiries his address, and doubt not his humane feelings will excuse his liberty, so that any one doubting may know these facts—though he requests his name may not appear in print. Among other similar instances, Mr. James G. Reynolds, 144 Officiate street, has been restored, and will give personal assurances of the facts of his case. Both were Rheumatism, and contracted agues & afevers. How has this been done?

Answer—By the Indian Vegetable Elixir internally, and House Verde and Bone Liniment externally. Sold only by COMSTOCK & CO., 71 Maiden Lane, New York.

\$100 REWARD.

ONE Hundred Dollars Reward has been offered for months, to any one who will use a bottle of Hay's Liniment for the Piles without being cured. Of thousands sold, in no one instance has it failed to cure. Proof overwhelming to be had where it is sold. It is also a certain cure in nearly every case.

(externally) in the following complaints: For the Piles, Tightness of the chest, especially in children, For all Dropsy, Four Ulcers of the legs, Tender Feet, or other fungus sores, Sore throat by cancers or ulcers, Groin, Fresh Wounds, Whooping cough, Chills, &c. &c.

LOOK OUT.

Some scoundrels have counterfeited this article and put it up with various demerits. Do not be imposed upon. One thing only will protect you—it is the name of COMSTOCK & CO. that name must always be on the wrapper, or you are cheated. Do not forget to take the direction with you, and test by that, or never buy it, for it is impossible for any other to be true or genuine. Sold by Comstock & Co., 71 Maiden Lane, New York.

Double the Quantity and Better Quality than any other for the same price!!! Remember this.

DR. LIN'S

TEMPERANCE LIFE-BITTERS,

AND

CHINESE BLOOD-PILLS.

The greatest Secret discovered!

PURGE—purge—purge—has been the cry for the last few years. This has been effectually answered, and yet sufferers have multiplied—and divide and why? Not because purging was not necessary, but too much has been done without the tonic—because they purify the blood. The Chinese Blood Pills—so called because they work upon and cleanse the blood—are the standard remedy—these pills will do it, and the Temperance Bitters, taken as directed, will strengthen the system and prevent the accumulation of the base humors which taint the blood, and which only increase by purges unless the bitters are taken after. Buy, then, these pills and bitters. Take weekly the pills and daily the bitters, and if you are or have been invalid for days, weeks, months or years, you will find the sickly humors drawn off, and prevented from returning, and the pale yellow hue of sickness change to the bright glowing glow of health & youthful buoyancy.

There are cases so numerous of these brilliant effects, that time and space forbid an attempt to put them down. Buy and use these medicines, and see no other, and health and strength shall be yours. See wrapper and directions that come with them.

FRAUDULENT COUNTERFEITS

will be attempted. Buy no remedy of the kind unless it has my name—O. C. LIN, M. D.—on the wrapper, and also the notice as follows:—

Entered according to Act of Congress, A.D. 1841 by Thomas Connel, in the Clerk's Office of the District Court of the United States, for the Southern District of New York.

Warned the only genuine.

Messrs. Comstock & Co. New York, are the sole wholesale agents for the United States and all neighboring countries.

DOCTOR O. C. LIN.

TO THE OLD AND YOUNG.

HO! YE RED HEADS & GREY!

PHENOMENON IN CHEMISTRY.

EAST INDIA HAIR DYE.

Colors the Hair, and will not the Skin!!! THIS dye is in form of a powder which in plain matter of fact may be applied to the hair over night, the first night turning the lightest red or grey hair to a dark brown, and by repeating a second or third night, to a bright jet black. Any person may, therefore, with the least possible trouble, keep his hair any dark shade or a perfect black, with a positive assurance that the powder, if applied to the skin, will not color it. There is no trouble in removing it from the hair, as in all powders before made. By an occasional application, a person turning grey will never be known to have a grey hair! Directions complete with the article. There is no coloring in this statement, as one can easily test.

These facts are warranted by the gentleman, who manufactures it who is the celebrated chemist, Dr. Comstock, author of Comstock's Chemistry, Philosophy, and many other works well known and widely celebrated by the public.

This dye is sold only by COMSTOCK & CO. 71 Maiden Lane, New York.

OLDRIDG'S

BALM OF COLUMBIA.

THIS article was first introduced into New York market by Messrs. Comstock, and has since that time superior virtues in reproducing hair when it had fallen out, keeping the head free from dandruff, (a most loathsome article on a gentleman's coat collar) and giving a softness and beautiful gloss to the hair, has induced some persons to set up and advertise many other articles for the same purpose, none of which stand the test of trial, promising as most of them do, to be Oils of various kinds, and of which are readily injurious to the human hair. Let none be deceived, no other article will make the hair grow rapidly and of a good quality but the Balm of Columbia, and no article purporting to be the Balm of Columbia in genuine name of COMSTOCK & CO. on the wrapper, before you purchase, and get none but the genuine. Don't be deceived with the assurance that any amount that name is made in the same way, and is just as good, all such pretensions are false, and known to be so by the counterfeits.

DR. TAYLOR'S BALSAM OF LIVERWORT, FOR CONSUMPTION AND LIVER COMPLAINT.

Every Youth's Gazette

Illustrated by Elegant Engravings.

TO BE PUBLISHED EVERY SATURDAY.

ON Saturday the 22nd day of January, will be commenced the editing and publishing of a new weekly paper, which will be called "EVERY YOUTH'S GAZETTE." It will be of the quarto form, containing eight pages similar to the New York Mirror. It will be published by the late and celebrated BEAUTIFUL PICTURES.

of an instructive and pleasing character. The contents will be for the most part original, and adapted to the wants and capacities of youthful readers. Not only so, but the exclusive services of an accomplished Editor be given to the work, but the talents of many popular writers will be enlisted in its support.

All the new popular works for children which appear in England will be obtained; and from these the best articles will be chosen and published entire in the columns of the Gazette, together with the engravings by which they may be illustrated. Thus, in our catalogue of contributors, there will be many names, dear and familiar to the young—Miss Edgeworth, Mrs. Holland, Mary Howitt, Miss Martineau, Mrs. Marshall, Miss Milford, Mrs. S. C. Hall, Joanna Bailin, Mrs. Southey, Miss Coleridge, and others. Thus, at a price for less than that for which such works could be reprinted in the shape of books in this country, will the most excellent treatises and stories for the young be presented.

Arrangements will also be made to obtain original articles by favorite American authors, a pure moral tone will pervade every sentence of the new periodical. Every thing like sectarian, political or party bias will be sedulously avoided. In fine, the Journal will be adapted to the tastes and capacities of all children, and thus merit the warmest patronage of the young.

EVERY YOUTH'S GAZETTE will, on and after the 22d of January, be issued on Saturday mornings, at the office of the New World 30 Ann street, New York.

Terms.—To place Every Youth's Gazette within the means of all the girls and boys in the country, it will be sold to subscribers at the following low rates:—For one copy, sent to any part of North America, \$3 a year, for 2 copies \$5, for four copies \$8, for ten copies \$10—always to be paid in advance. When 4 copies for \$5, or 10 copies for \$10 are ordered, the remittance must be made in current money, of New York or New England—and the papers directed to one address.

Letters on business, and all communications to be addressed to "The Editor of the Youth's Gazette" 30 Ann street, New York; franked or post paid.
