COME AND SEE

Only once during the last seven years has this store put on a big general sale, and now when we put one on we mean business.

Before October 19th this immense stock must be reduced \$25,000.00, and to make the accomplishment of this certain we have made liberal reductions in every department.

Included in this sale is our \$20,000.00 worth of goods just arrived for our Autumn trade, but everything must contribute to the success of this big sale.

It is gratifying to have such a hearty response to our advertisements as came to us the last three days --- it proves that we hold your confidence firmly and that you know we do just what we advertise.

SUCCESSFUL EVENNT

One of the most attractive exhibits at the Peninsular Fair was the display of photographs from the Westlake Art Studio, Doubtless it received more attention than any other exhibit in the place. This firm has taken the highest honors in the last five years at the exhibition here, and the directors were so thoroughly pleased with their fine display, and their efforts to make things more attractive, that instead of giving the regular prize as in former years, they saw tilt to award them a beautiful gold medal, to which they were certainly duly entitled.

Among the group of some two hundred or more pictures exhibited, the The C. M. B. A., No. 157, of Fletchor, held a very successful "At
Home" last Thursday evening in
their stall adjoining St. Patrick's
Church, on Con. 9, Raleigh.

A supper was provided by the fadies of the parish and the program
was provided for by the members
of the Association Rev. Fr. Liberty
seted as chairman.

Solos were given by Dr. Oliver, of
Merlin, and Mr. Hazelwood of
Fletcher.

Pilfered Mrs. Snell's House Richmond St., In Broad Daylight

Threshing Outfit Com-pletely Destroyed—

Claiming that his name was Frank E. Brown, of New York City, a dapper, well dressed young man, called at Mrs. Snell's boarding house on Richmond street yesterday afternoon, and asked for a room, saying that he would probably be a permanent boarder. Mrs. Snell thought the young man looked all right, so she showed him a room upstairs, which he accepted. He said that he was tired and that he thought he would lie down for awhile and rest. Shortly afterwards Mrs. Snell heard peculiar noises upstairs, much like those of someone prowling around among the rooms. She was afraid to go upstairs herself, but a young man from one of the neighbor's houses volunteered to go up and see what the stranger was doing.

"Mr. Brown" was found prowling around in the rooms, when the party went upstairs in search of him, so he was detained until some of the other boarders came home, and after a search had been made it was thought that nothing had been stolen. "Brown" was then allowed to go.

"I didn't think that a nice look." and asked for a room, saying that

F. E. Brown of New York, Serious Fire in Dover Township Yesterday Morning

Caught from Engine

A fire, which resulted in the destruction of a threshing machine belonging to Mesers T. Myers and John David, of Pain Court, caused considerable interest to the farmers in that district yesterday marning. The threshers were moving from one farm to another on the 5th concession, Dover township, when they were aimazed to find that their machine was on fire. The engine was attached to it and was used as a means of transportation, and from which, it is thought, the fire got its source.

The fire was unnoticed by the men on the engine until a neighbor running towards them drew their attention to it. They immediately stopped, and with the water from the tank tried to extinguish the flames. A deep ditch was along side them and with pails they helped to quench the conflagration. The inside of the brachine was completely burned and the flames had pierced through the walls ppof the separator before the fire was put out. The machine was completely destroyed. A fire, which resulted in the de

MR. GRAHAM'S PLEDGES.

The new Minister of Railways started out with a beautiful program. He says that the Intercolonial must be made free from political control and operated on business principles. There are to be no more political appointments, no more political and party consideration in railway contracts, or railway freight rates or in the improvements and operations of the line. The same announcement came from Mr. Emmerson when he took office, and in the next election year he producad a deficit of nearly two million dollars made by campaign expenditures on the railway. The business management of Mr. Graham's essor involved the Moncton land deal, the Truro land deal, the Halifax land deal, the Eastern Supply purchases, the oil contracts, and other transactions which savor more of politics and of graft than of straight railway business.

Mr. Graham may intend to do better, but he is not beginning well, for in the very week when he is promising a business management his colleague, Mr. Pugsley, is running an election in St. John in the same old manner, promising revised railway rattes, increased accommodation at stations, more suburban trains, more warehouses, increases of railway men's pay and all sorts of concessions with which Mr. Pugsley as Minister of Public Works has nothing whatever to do. Mr. Graham makes himself a party to this political use of the railway by allowing it to go on, thus showing that his pledges are vain and that he is following the same old path.

THE COUNTRYMAN'S TURN.

The man in the country has large share in Mr. Borden's Halifax platform. He has a right to it, for recent legislation has paid less attention to the majority who live on the farm than to the minority who dwell in the towns. The Opposition Steamship project, but gives more attention to quick and safe carriage to the home and foreign market of the perishable and other products of the farm, the dairy and the fishery.

There were 427 deaths in New Police is a small pominion Day was first observed on July 1, 1867. This issue states that after all Dominion Day was very generally observed throughout the province of New Brunswick. leader supports the "All Red" Fast the farm, the dairy and the fishery. While the Conservative party assists in the promotion of new trunk railway and ranal systems it proposes to give special attention to the rates and fares in local and through traffic on lines already established. The country is pushing Government telegraph systems into the Yukon and other remote places. It has expensively promoted wireless telegraphy and has given great telephone franchises. Mr. Borden asks that something now be done to secure to the people at large the benefits of telephone and telegraph service at reasonable prices.

By Government ownership of thes great public utilities, where that is necessary and possible, by public supervision in any case. Mr. Borden roposes that the people shall get back for themselves a larger share of the advantages which these utilities create. Here again it is proposed to make life on the farm more attractive and to check the rush of the young people from the land to the cities. Cheap and universal telephone service throughout the country districts, cheaper telegraph communication, rural mail delivery, cheap, swift and safe transportation of farm products to market and of supplies to the farm will go far to amend the conditions of country life.

Again it is in the interest of the genuine settler on the land that the Conservative party is fighting against the system of plunder of the public domain that is going on in the West. The fand for the settler, and not for the political speculator and middleman is the policy. The area of a kingdom has been thrown to political favorites under the form of Saskatchewan land grants, grazing and irrigation conces For this same land the farmer will pay high prices to the political beneficiary. Nothing has been done to protect the Western settler from the extortion of the land grabber, the holder of timber leases, the coal mine owner and the various other monopolists who have been favored by the Government. Mr. Borden hinks that it is time to consider the man who does the work in the country, the original producer of all, the principal taxpayer, the great consumer of imports, the man for who the railways carry, the man who pays the postage, who owns or ought to own the public franchises and the public domain.

At noon on Saturday last a man, while working on the new brick building opposite the market, drop-ped down to the ground as a re-sult of sun stroke. Dr. Sivewright was called, and after working with him for some time succeeded in re-storing him to life.

on Saturday, 27th ult., a serious accident happened to the wife of Mr. Anderson, of the North American Hotel, Duart, who was in the act of forcing the kitchen fire to burn by means or 'coal oil, which she poured from a can for that purpose. The flame followed the stream of fluid and exploded the can, setting fire to Mrs. Anderson's clothes, and she was so badly burned that on Tuesday, when our informant left Duart, she was not expected to live any length of time. It is later whated that she died from her injuries.

Ludwig, who killed his wife after being married to her only eleven days, was hanged in Salisbury, N. C., on the 25th of June. He went to the scaffold smoking a cigar, but when the officers offered to put the noose around his neck he resisted violently and a desperate struggle ensued, ten of the deputies attempting to overpower him. The noose was finally placed around his neck and he was swung off with a muttered curse for his parting word.

CONFESSED HIS CRIME

But Police Thought It Was Only a Delusion.

David Glass Under Agrest at Washington Says He Burned Two Barne and Tried to Murder His Cousin Escaped From Jail at St. Johns Four Years Ago-Joined the Unit-

Four Years Ago—Joined the United States Army.

Washington, D.C., Sept. 20.—Daniel Glass, a former resident of Canada and member of the United States Hospital Corps, who was locked up on Monday by Detective Weedon and Detective Boriney, after he had confessed that he burned two barns belonging to his cousin, Frank Miller, and had attempted to murder him, while living near Roxhsm, Que., was re-arrested Wednesday night upon the request of the police. Additional messages from Canadian authorities had been received, requesting that he be taken into custody.

The story told by Glass of his crimes near Roxham, Quebec, and of his subsequent escape from jail at St. Johns four years ago, was not credited by the police. They believed the young man, who had suffered from attacks of nervounness, imagined he had committed the crimes alleged, but a message from Canadian officials give information that he had told the truth. The same message also stated that the authorities would not stand the expense of returning him there for trial, and he was released.

The Canadian authorities, however, seem to have changed their minds in the matter of his return, two messages received by Inspector Boardman Wednesday night indicating that he is wanted there, and that an officer will come for him.

Upon receipt of the messages, Inspector Boardman sent word to the barracks to have the military authorities detain him. Capt. Ashford had arranged for the formal discharge of the Canadian, saying he wanted nobody in his command who was under such charges, but the discharge papers had not arrived, and Glass was still in the service. It was expected that Glass would be turned over to the police authorities yesterday, but when Detective Weeden went to get him he was informed that an enlisted man could not be extradited until he had been discharge in about a week or ten days, and the police will then take him into custody. Meanwhile he is being kept under guard at the barracks.

FOR TO-MORROW.

The Death of Moses-Deut. 34, 1-12. Read Deut. 31-34.

Golden Text-Precious in the sight of the Lord is the death of His Saints.-Psl. 116-15.

At God's command—see Deut. 32, 49-50—Moses ascends Mount Nebo to de, although his eye was not dim nor his natural force abated. Why is this penalty visited and exacted from such a devoted servant of God't In the wilderness of Zin the people of Israel murmured against Moses and Aaron and against God, who was leading them by the pillar of cloud and fire—because there was no water. God directed both these leaders to gather the people before a great rock and to command or speak to the rock before the eyes of all Israel, that it give forth its water. See Num. 20, 8. Instead of doing so they addressed the people and said, Here, now ,ye rebels, shall we bring you forth water out of this rock? And Moses smote the rock with his rod twice, and the water came abundantly.

It was not righteous indignation on Moses' part; not the fruit of the Spirit, but the fruit of the flesh and the carnal mind, and prevented a God-designed type of the Rock Christ Jesus, once for all stricken on Calvary for our sin, and to d'e no more, but now exalted a Prince and a Saviour to give the Holy Spirit to them that ask. Moses' and Aaron's presumption dishonored God in the eyes of Israel and spoiled the double type of Jesus on the cross and Jesus on the right hand of God for us—The Rock of Ages.

This is a grand end of a great life. At last the wilderness is past, the hot dry sands, the fiery serpents, the weary marches, the desert graves, the slow, sad schoolings and mutitered grumblings, all past; and here before Moses, in full view is the promised land flowing with milk and honey. He could not sing, "Tve reached the land of corn and wine," but he could sing, "Nearer my God to Thee, e'en though it be a cross that raiseth me."

Moses committed Israel's hosts to Joshua, who was full of the spirit of wisdom; yet "There arose—V. 10—not a prophet since in Israel like unto Mosejs!

Grand Old Mosejs! At God's command-see Deut. 32,

Labor Congress Indignant at Sir Wilfrid Laurier's Supineness.

Winnipeg, Sept. 20.—The refusal of Premier Laurier to answer the urgent memorial of the Labor Congress on the question of having the Japanese treaty abrogated has stirred the labor delegates now assembled in Winnipeg.

While the convention understands that it is a matter for Imperial authority alone, they feel that the situation is so critical in the Canadian west that Sir Wilfrid could at least forecast "sympathetic" discussion. His silence has mystified the delegates and they are displaying their resentment by placing an order for to-day's executive session for the consideration of united political action by labor interests.

This means possible the formation

of united political action by labor interests.

This means, possible the formation of a third party and is of special interest in view of the fact that a Dominion election is approaching.

TORTURE AGED WOMAN

Chicago, Sept. 21.—Five persons, members of the sect of parhamites, are under arrest in Zion City, accused of tortaring to death Mrs. Letitia Greenhaulgh, 64 years old. They are Waiter and Jennie Greenhaulgh, son and daughter of the woman; Harold Mitchell, Mrs. Harold Mitchell, and Mrs. Smith. All of them are accused of manslaughter.

Mrs. Greenhaulgh had been for twenty years an invalid, suffering from paralysis and rheumatism. Her condition convinced the five persons mentioned that she must be possessed of the devil, and they determined to exorcise the evil spirit. The five linelt by the bedside, and after prayers, jerked and twisted Mrs. Greenhaulgh's rheumatic arms and neck until the victim screamed in ageny. She died shortly afterward, whereupon an attempt was made to resurrect her.

FATHER'S REVOLTING CRIME.

Drawns Children to Revenge Himself on His Wife.

Paris, Sept. 31.—The public indignation at the appalling growth of crimes and violence, which manifested itself over the commutation of the death sentence passed upon Soleilland for the stroctous murder of a little girl has been aroused again by the revolting crime of a drunken gardener, who, to avenge himself on his wife for refusing to live with him, drawned his two children in the most of the fortifications.

A problem clearly stated is part-ly solved.

Writing under date of New York, Sept. 14, to a friend in the Maple City, Dr. J. P. Sivewright says:

"Friday, 11 a. m. — "I was one of many going to Lower Bay to escort the Luscitania into snug harbor. Hundreds of boats were out, flags galore. She made the trip across the ocean in five days and 49 minutes; was drawing 29 1-2 feet of water, is nearly 61 feet high, and 785 feet long, with 68,000 H. P.

PASSEP

ECHOES OF THE FIRE

Nothing but praise for the firemen's prompt work at the Drader dire yesterday, was heard on all sides this morning. The brigade are certainly deserving of all the credit they are receiving. The firemen are quite modest about it all.

"We did our bast," was all Act in the Chef Johnson had to say.

A number of leaks were sprung in some of the water mains and private butcher are vice yesterday by the increased pressure. They are being repaired to-day.

The S. Hadley Lumber Company but later was commenced this morning.

PASSEP The S. Hadley Lumber Company should be commended on a generous act of theirs yesterday. It is not generally known that this company, as soon as they learned of the big fire, allowed all of their workmen off with instructions to do what they could to assist the firemen and the volunteers who were fighting the flames. This action on the part of a competitive firm is one that is deserving of the highest lyraise.

W. M. Drader has not yet returned home, and has yet he destruction of his planing mill by fire. Telegrams were sent to him to Datroit, but he could not have received them: Word was reseived to-day that he was at Orchard Lake, M chigan. His nephew, Basil Markin, has been trying to get bim by t i sphone to-day, but as yet has not been able to get into communication with him.

Mr. George Lister, who was one of the pioneers of Dover, and a man highly respected by all who knew him, passed peacefully away yesterday at the residence of his son, C. E. Lister, of this city.

The late Mr. Lister was born in Torkey, Lincolnshire, England, and was 78 years and two months old. He came to Chatham with his wife in 1858 and settled down in Dover on a 200 acre farm on the River Road, Dover, where the English church now stands.

MR. McKAY IS LEADER

Toronto, Sept. 21.—The Hon. A. G. MacKay was the unanimous choice of the representatives of the Liberal party in the Provincial Legislature yesterday at the office of the Referm Association of Ontario, to elect a successor to the Hon. George P. Graham, as leader of the party in Ontario.

Mr. Graham, in tendering his resignation, expressed his regret at the necessity for the action, but he had felt that Sir Wilfred Laurier's call was one that could not be denied. Though he was leaving the provincial House, he would still be in the party, and heped to be able to render good services to the party.

The nomination having been enthasiastically tendered to him, the Hon. A. G. Mackay accepted it. He said that he was aware that whoever undertook to lead the Liberal party in Ontario would have to give up his whole life to it and the interests of the party, and this he hoped, within a few weeks, to be in a position to do.

Mr. MacKay also said he wished it

in convention assembled or otherwise.

Mr. Alexander Grant MacKay, who has been elected to lead the little band of Liberals in the Legislature, was born in Sydenham, Grey County, in 1860, of Highland Scotch parents. He was educated at the Collegiate Institute at Owen Sound, and the University of Toronto. He was graduated in 1883, and for four years was principal of Port Rowan High School. During the next four years he sindled law, and was called to the bar in 1891. In 1894 he was appointed Crown Attorney for Grey, and held that office until his entry into politics in 1901. He was elected to the Legislature in May, 1902, and two years later, in November, 1904, was appointed Commissioner of Crown Lands at the last re-organization of the Ross Cabinet.

CALLED TO THE BAR

A. A. Fraser, of the legal firm of Wilson, Pike & Company, was yesterday called to the bar, by Mr. Justice Magee, in Osgoode Hall. Seven other young gentlemen were also called, as well as Miss Robinson, of St. Thomas, who is Ontario's third young lady barrister.

Mr. Fraser returned to Chatham yesterday afternoon.

SAD DEATH

James Duncan, youngest son of Duncan Neilson, lot 17, concession 12, Harwich, died this morning, aged ten years. The deceased is survived by both his parents, two sisters and one brother.

The little fellow was quite well and able to attend school on Tuess day last, when he was afflicted with a pain in his side, which was discovered to be the symptoms of acute appendicitis.

appendicitis.

The funeral will take place at one o'clock, Monday afternoon, to Maple Leaf Cometery, Rev. Dr. Cowan officiating.

POLICE COURT CASES

Corey Purser has laid an information at Police Court against Reginald McLean and Garfield Seeley, who are charged with wilfully breaking a glass window in John Edmondson's butcher shop, St. Clair street, valued at \$8. The case will probably come up later on.

Fred. Wilson, of Chicago, on a jumboree, hit Chatham yesterday, plus a beautiful jag. He woke up in the police cells, and to the realization that he had been pinched.

Smith's Falls, Sept. 20.—Peter Shields, one of the wealthiest farmers of this section, was killed by a bull yesterday. He sold the animal by a drover, who left Mr. Shields in the field. A few minutes later a neighbor working in an adjoining field saw the bull attack Mr. Shields. With the aid of a dog he succeeded in driving it off, but he was too late to save Mr. Shield's life. He had been trampled to death.

A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebed body whose organs are weary with over work. Start with the stomach and allied organs of disestion and nutrition. Put work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, however, the secretions of the block-medical control of the stomach, increases the secretions of the blood-making glands, cleanes the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by

Sonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

If you have bitter or bad taste in the morning, poor or aviable appetite, coated tongue, feel weak, easily tired, espondent, requent headches, pain at distress of "small of back," snawing or distressed feeling in stomach, perhaps nause. Which who we will "risings" in throat after eating, and kinded symptoms of weak stomach and torpid lives no medicine will relieve you more prompily tr cure you more premanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or billiousness and weak stomach. A void all hot bread and biscuits, griddle cakes and other indirectible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

The "Discovery" is non-secret, non-alcoholic, is a glyesric extract of native medicinal roots with a full list of its ingredients printed on each bottle-wrapper and attested under eath. Its ingredients are endorsed and extelled by the most emineur medical writers of the age and are recommended to cure the diseases for which it is advised.

Don't accept a substitute of unknown composition for this non-secret medicinal OF KNOWN COMPOSITION.

Besi Monopoly in Manitoba.

Strong evidence has been given before the commission engaged in the investigation of the alleged beef combine in Manitoba of large railway rebates on heavy consignments in carloads to the east. In this and in other ways large dealers have established practically a monopoly, squeezing out the small dealers and causing high prices in the province. The railway commission may therefore be expected to take up the question of railway rebates and deal with it on the same principle of equalizing the

railway commission may therefore be expected to take up the question of railway rebates and deal with it on the same principle of equalizing the conditions that they have applied to discriminations in general freight rates over the Canadian roads from western points to the ocean shipping ports in the east. In regard to the lumber combine in the northwest, which has caused such hardships to settlers desiring to establish themselves and build homes of their own in the new provinces, the Government of Alberta has taken the matter in hand and has ordered legal proceedings to be taken against the members of the combine.

Notice of appeal having been given by the Grand Trunk Railway against the order of the railway commission for a 2-cent passenger rate between Montreal and Toronto, the new schedule cannot go into force until the appeal is decided by the Supreme Court of Canada. If the decision of that court goes against the company leave to carry the case to the final tribunal of the empire, the judicial committee of the privy council in London will be asked for and granted, as the Government also desires the fudgment of and permanent settlement of the question. The appeal is of importance for the reason that it the Grand Trunk is forced to carry passengers between the two points named the Canadian Pacific must in self-defence do the same, and public opinion will demand the application of a similar rate to other companies and generally throughout Canada and will make it imperative.

The Nordheimer

Permanency

As a rule when a person buys a piano it is not with the intention of replacing it with a new one next month, next year or within five years. It is regarded as a permanent fixture in the home, and the most important feature next to the cwners themselves.

It is evident that great care should be taken to select a piano which will retain its original bri lancy, power and quality of tone for years and ears and years. And such a piano is the "Nordheimer."

It has a lasting, permanent tone, as you can prove for yourself if you play on one which has been in the home of a friend for ten, fifteen, twenty years or more.

The "Nordheimer" is perfectly constructed by experts from the finest grade of materials procurable. It is built with the idea of not only satisfying the most critical ear for tone-quality when new, but for retaining its original superb tone, so that it will still satisfy the critical ear in years to come.

Those who own a "Nordheimer" are the only ones who can really appreciate to the fullest seuse the wonderful, pure, sweet, briliiant, yet powerful tone of the peerless "Nordheimer" piano. May we not have the pleasure of a talk with you, with the object in view of placing "Nordheimer" in your home?

Our Mr, R. V. Carter will visit Chatham frequently in our interest and will be pleased to furnish you with any information you may desire. Correspondence addressed to him in care of the Garner House will receive careful attention.

pays to break one of God's laws. And I also want you to know that some of the trials and troubles of life of which you are now complaining are yet to be the keynotes which are to sound forth your most glorious and happy songs of praise.

But there is one word in reference to my text to which I want to draw your attention. It is the last word: "Thy statutes have been my song in the house of my pilgrimage." Now, what is the pilgrimage? "Oh," you answer, "a pilgrimage is a journey; it is a long tramp; it is a long, wearlsome, tiresome trip." Is that your definition of a pilgrimage? Then, my friend, it is a wrong definition, for you have only told me half the truth. Tis true, a pilgrimage is a journey. But it is distinctly a journey to a shrine. Now, what was the sacred place toward which the pilgrimage of David was heading? Why, there is only one rational answer: It is the sacred place of heaven. It was toward the sacred place where Christ and all David's dear ones were to greet him. It was not a pilgrimage which began at the cradle and ended at the great white throme of God. Oh, was it not a glorious destiny toward which the ancient Psalmist was heading? It was to enter the presence of the God whose statutes had become songs to him. That is the man who will enjoy heaven. Not the man to whom the laws of God are burdensome and painful, but he whose delight it is to obey and serve God. To him, even in this world, there come echoes of the songs of heaven. His ears acquire a miraculous power. Why, as he listens he can hear all the redeemed of heaven singing their songs of triumph. Yes, the statutes of the law have been his songs of the heavenly lands.

How's your Roof?

Is it Lightning-proof, Fire-proof, Water-proof?

If not, you should learn all about our "Safe Lock" Galvasized Steel Shiegks,
They are proof against every element.
The lock, on all four sides, makes it impossible for rain or snow to back up under the shingles and rust the nail holes and raw edges. This feature has been imitated, but is found in its perfection only in

Our "Safe Lock" Shingles.

Don't use wood shingles. Nowadays, they are expensive and very inferior. They catch deposits of dust and dirt, which soon rot the shingles. Then the roof begins to leak. Patch all you like, you can't keep ahead of the leaks. There's no economy in a wooden roof.

Users everywhere are delighted with "Safe Lock" Shingles. Talk to them about the roofing question. We'll send you names of users in your own vicinity, if you drop us a card.

The same secrecy observed throughout the negotiations is still maintained regarding the provisions of the Franco-Canadian treaty, which, it is intended, will not be made known until officially communicated to the Canadian Parliament. If the negotiations have been anusually protracted, it is not owing to any particular divergence of views so much as to the minute attention of the Canadian representatives to details and precautions they had taken to prevent any chance of a future misunderstanding or misinterpretation.

Both Canadian and French delegates are much pleased at the result, which is hailed as a commercial success.

MEETING A CROCODILE.

The Animal and the Hunters Were All

Taken by Surprise.

While looking for a hippopotamus it was the fortune of the author of "Uganda to Khartum" to encounter a organia to knartum to encounter a crocodile under somewhat unusual circumstances. He was following a fresh track leading through the dense undergrowth from the lake inland. Two men accompanied him, one carrying his camera and the other his second sun, while he shouldered his site.

his camera and the other his second gun, while he shouldered his rirle.
Suddenly I heard a rustling noise in front of me and realized that some creature was approaching, but what? It could not be the hippo, because there was no thunderous tread, but I had no time to think, for the creature, whatever it might be, was upon me in a second.

At two yards I discovered what it was an immense crocodile more than twelve feet long. I was right in its path, and there was

no possible escape on either side, so I stood still with my rifle at shoulder and waited. The "crock" did not wait, however, and in some remarkable way it hustled me to one side, almost knocked me over, and endeavored to make his ways to the water.

ed me over, and endeavored to make his way to the water.

To dispute his right of way would have been folly. I realized only a horrible, soft, wriggling mass pressing against my legs in a most sickening way. Why he did not bite me I do not know. At first I thought he had done so as he brushed against my leg, but I found it was only his horny scales that scraped my shin. And he was more taken by surprise than I was and forgot all about his huge jaw and the lasting impression he might have made upon my legs.

after he had passed I turned to see how the men would fare. One had got back to the shore and so was no longer in view. The other man with the camera was the funniest sight. His head was stuck fast in the thick brambles, and his legs were in the air, the camera of course in the mud beside him.

I do not think the "crock" could have seen him, for he had literally taken a header into the bush, and his legs were far above the crocodile's jaws.

### THE SNEEZE

In Past Ages It Played a Very Important Part In Life.

Many odd notions still exist as to sneezing, and some persons may be heard to exclaim "Bless, my soul, once!" "Bless my soul, twice!" and so on after each sneeze. But in next on after each sneeze. But in past ages the sneeze really played a very important part.

In ancient Greece the people saluted each other whenever any one present each other whenever any one present chanced to sneeze. As Xenophon was addressing the Greek army in a moment of defeat on a historical occasion a soldier sneezed. The lines of battle were formed at once, for the sneeze was deemed a good omen, and the Greeks were successful.

Among the Hebrews when a person sneezed the bystanders would say, "Tobinz challm"—"A long life to you."

"Tobins chailm"—"A long life to you." In India crimhals on the rack of torture have saved their own lives by sneezing accidentally.

A humorous story about sneezing is told in that wonderful collection of oddities, "The Arabian Nights." A schoolmaster was particular in teaching his pupils the value of politeness. He also told them that whenever he sneezed they should clap their hands and say, "Long live our noble master." sneezed they should clap their hands and say, "Long live our noble master."
One day master and pupils went out for a stroll. The air was hot, and all soon grew very thirsty. Great was their joy at last to find a well. But the bucket was at the bottom of the well, and so the schoolmaster went down to bring it up. The boys seized the rope and tugged for dear life. Just as the schoolmaster reached the top of the well he sneezed. The boys let go the rope and clapped their hands, shouting, "Long live our noble master!"

As for the poor schoolmaster, he fell

to the bottom of the well, where he may be to this day, for all one knows.

Swords Bent Double to Test Them.
If you have an opportunity at any time of examining a sword such as is used in naval and military services you may notice that just below the hitt, an inch or two down the blade, there is a small disk of brass welded into the blade. The meaning of this brass might well escape any one not possessed of a well developed sense of curlosity. Swords are subjected to very severe tests before being issued, and this brass piece indicates that one of the tests to which the sword was subjected was to have its point bent right back until it touched the hilt at the brass spot. Swords that have snecessfully withstood this severe test are trustworthy.—London Chronicle.

Tested it.

"Willie," said the boy's mother, who was preparing to go out, "you mustn't eat that cake in the pantry while I'm gone. It will make you sick."

Three hours later when she returned Willie said: "You didn't know what you were talking about, mamma. That cake didn't make me sick a bit."

Too Willing.
Old Lady (in tears, to chemist)—Wiwill you poison my dear lit-liftle Fido?
He's in such—such agony. Chemist (politely—With pleasure, madam. Old Lady (indignantly)—With pleasure, you nasty, unfeeling man! Then you shan't do it!—London Answers.

A Fast Train.

### FATHER AND SON DROWNED.

Bodies Feund Tightly Clasped Tegether In Embrace of Death.
Clark's Harbor, N. S., Sept. 20.—
Wednesday evening Jason Mickerson and his 10-year-old son were drewned by the capsizing of a boat in this harbor.

bor.

Nickerson, who was employed in building the Government whart there, went after supper to the wharf in his skiff to get some log ends and took his little boy with him. Not returning in the morning, search began, and in a short time both bodies were discovered in about five feet of water. Father and son were brought to the surface clasped so tightly in each other's arms that it took quite an effort to separate them.

It is supposed the boat tipped over while taking in log ends alongside the wharf.

The readers of this paper will be pleased to learn that there is at least on, dreaded disease that science has been able to cure in all its stages, and able to cure in all its atages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the midical fraternity. Catarrh being a coastitutional disease, requires a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient straight by building up the constitution and assisting nature in doing its work. ## ARMED TO THE TEETH

Continued from Page 1 ing young man with such a frank open face would steal anything," re-

open face would steal anything," remarked one of the neighbor women. "He has an honest face."

"Brown" had departed but a few moments, however, when the boarders came to quite different conclusions. First R. C. Kelly reported a new stiff hat missing, then Mrs. Shell found that her gold watch had been lifted. Another boarder discovered that a little over a dollar in change had been taken out of his pockets. By this time "honest Mr. Brown" was well on his way for discant parts. The police were at one motified, and Officer Dodson got on the trail. A few moments after the stealing had been reported, Dodson mabbed his man. The stranger was

stuff in order to get enough money to leave the city. He gave his ad-

dress as Frank E. Brown, of New York City, but his accent was much more like that of faraway Yorkshire, England. His mannerisms are decidedly not those of an American or Canadian. His case was remanded till a week from Monday. The prisoner was found to be wearing Mr. Kelly's hat. Mr. Kelly called at Police Court this morning, and got the headplece.

### LOST HIS WATCH

Eugene Caron of Pain Court, came into the city this morning to lay an information against Wm. Bordeau, of the same place, whom, he alleges, stole a lady's gold watch belonging to him. Caron first notified the police of the stealing some days ago, and Officer MicGregor went out to Pain Court yesterday, and managed to get the watch, but Bordeau could not be arrested until a warrant was issued.

Caron says that Bordeau came into his house and lifted the time-piece.

the trail. A few moments after the stealing had been reported, Dodson mabbed his man. The stranger was making along William street, when the saw the officer coming. He dedged into the Merrill Hotel, but this pursuer was too quick for him. The man turned out to be a walking areanal. After his arrest, the following articles were found on his merson, a belt with two thirty-two cartridges, a policeman's whistle, a return "ticket from Detroit, as set of ouff and collar buttons, several knives, surgeon's scissors, two godd watches, a couple of Londer street car tickets, pool tickets, and a lot of other small articles which he possibly picked up somewhere. Among other things was a small dictionary, containing the following addresses, "Mr. McIntee, box 57, St. Catharines, Ca." "Frank Rawson, Newark, N. J.," and "43 Market estreet, Stratford." A photo of two rather good looking young women was also found in his pockets. The photographer's name and address swere not on the picture.

On an information laid by Wm. McWhirter, of the News staff, one of Mrs. Snell's boarders, who was "touched," the stranger was arraigned before Judge Houston in Police Conrt this morning. He pleaded guilty, and said that he stole the setuff in order to get enough money to leave the city. He gave his ad-

## THE LOCAL MAIL SERVICE

People of Chatham Complain That Morning Mail Is Late

Petition Should be Made to Get a Better Train Service

For some time past bankers, business men and others, have made frequent complaints because of the late hour at which they receive morning mail from the east. Of late, these complaints have become more pronounced. The delay in receiving mail is cited as a great drawback to business, and valuable time is often lost in this way.

Relative to recent complaints, a Planet reporter called on Postmaster Sam. Barboot yesterday afternoon, and inquired as to the cause.

"The mail is sorted just as promptly as we can get it," said Mr. Barfoot in reply. "There are two morning mail trains—one at 8.30 and another at 8.37. The mail carrier has to await the arrival of both these trains before he can bring the mail to the post office. Supposing that these trains arrive on time—which is not a regular happening—and you allow ten minutes for the carrier to bring the mail to the post office, and for the clerks to get it in chape for distribution, it would then be 8.47. This, you can see, does not allow very much time for our staff to get it all sorted and in the boxes before nine o'clock.

"The norning mail is the heaviest mail we have to handle during the entire staff is called into requisition, and everyone husties their portion of the work up as promptly as possible. We endeavor to get this mail up with the fastest possible speed. Doing our very best, it would be impossible for us to get that mail all up and in readiness for the public before 9.30, even supposing that the trains were always on time.

"We make it a point to put up the bankers and business men's mail first."

It will be seen from this that the only possible remedy for the late morning mails would be a better

first."

It will be seen from this that the only possible remedy for the late morning mails would be a better mail-train service into Chatham. As most people will admit, Postmaster Barloot and his staff are all quite efficient and thorough in their work, and they make their best efforts to give entire satisfaction.

THE FIREWORKS.

THE FIREWORKS.

Large crowds attended the fireworks at the Fair Grounds in the evening. This portion of the program was most satisfactory, and was greatly enjoyed by all who witnessed it.

A great variety of fireworks was shown. Scenes and figures were shown and the air was continually filled with rockets. Everyone present voted this portion of the performance as an excellent and satisfying evening's entertainment.
