RG 4, B 28

QUEBEC, LOWER CANADA, CANADA EAST: Applications for Licences, Bonds and Certificates 1763-1867

Volumes 1-138 c. 8.5 m

The Provincial Secretary and Registrar had particular responsibilities in the issuance of licences, including the preparation (engrossing) of the documents for the signature of the Governor and the registration of bonds posted by candidates for certain offices. The documents found in this series reflect those varied responsibilities and the changing manner in which the licensing function was documented over a century. Petitions, correspondence, reports and schedules related to licences were frequently included with bonds, certificates and other documents submitted by the applicants for licences or by the officials who examined an applicant's qualifications.

Related records are to be found, notably the entrybooks and registers kept by the Provincial Secretary in his capacity as Registrar (see RG 68). Correspondence relating to individual cases after 1841 is frequently found in RG 4, C 1. Applications from notaries and advocates form as a separate series: RG 4, B 8. Records of licences to pilots are found in RG 42 (Marine) as well as in MG 8, A 18 (transcriptions of Trinity House records).

The **arrangement** of the records is by type of licence applied for (auctioneer, timber culler, tavernkeeper), and those sub-series are shelved in an alphabetic sequence as can be seen from the headings of the Shelf List which follows this inventory entry. In some cases, general correspondence on the licensing function is arranged in a separate sub-series (as for the marriage bonds, volumes 29-41A, and the marriage licence correspondence, volumes 42-46). Within each sub-series, the arrangement of bonds or applications is generally chronological, but the order within the year may be alphabetical by name of applicant or numerical. The number may reflect the date of receipt for an application or may relate to an annual schedule of licences issued. The distinction between Shop and Tavern licences is not clear and the sorting of those sub-series appears quite inconsistent; supporting documentation may be filed in one sub-series and the application in the other. Their order is alphabetic by applicant.

Three sub-series have been microfilmed: the marriage bonds (volumes 29-41A) and the fur trade licences (volumes 110-115) in 1981 and the medical licences (volumes 47-55) in 1986. The fur trade licences were reorganized in 1978, in preparation for filming, to restore the original numerical sequence of the documents. Severe deterioration necessitated some restoration treatment. Items with unusual postal markings or seals are now in the vault. **Access** to the original documents in the three sub-series which have been microfilmed has been limited for conservation purposes.

RESEARCHERS MUST USE THE MICROFILM ...2

Archives staff produced, over more than half a century, a number of nominal **indexes** for these records. Each indexing project appears to have had unique guidelines, quite unlike modern standards. The card index for the old "S Series", from which RG 4 was formed, contains references to many types of licences and bonds. Unfortunately, the coverage is neither systematic nor complete. Cross-referencing is quite inconsistent -- see for examples such names as Gauthier dit Laframboise. Some cards are filed by type of licence sought, others by name of applicant.

Several sub-series have been indexed in more recent times. These indexes are available in the Reference Room:

Marriage Bonds	(volumes 29-41A)	filed separately; also available on microfilm, reels H-1125 and H-1126
Medical Licences	(volumes 47-55)	in the General Index
Bonds	(volumes 133-138)	in the General Index

Photocopying will be carried out from the microfilm where possible, to minimize the risks of damage to the original documents. For publication or exhibition purposes, however, photographs from the originals can be supplied at the standard charge for such copies. When requesting photocopies, researchers should use the form of citation recommended below.

When consulting the series through interlibrary loan of the microfilm, researchers may request photocopies through the borrowing institution. Where that institution has the necessary equipment, no further authorization is required from the Public Archives before photocopies of individual documents are produced. Requests for certified copies, photographs from the originals or copies of complete reels must be referred to the Public Archives of Canada.

Citations in publications and in requests for photocopies should follow the examples given below. Where the documents do not bear page numbers, particular attention should be given to providing the date and applicant's name or other specific clues to ensure accurate identification of the document.

PAC, RG 4, B 28, vol. 29, bond 20; marriage bond of Peter Shepherd, 1818 (microfilm reel H-1129).

PAC, RG 4, B 28, vol. 50, p. 861. (Applications for medical licences can be found by volume and page number alone.)

PAC, RG 4, B 28, vol. 61; bond 239 from Joseph Marchand and certificate of his good character, for a licence to operate a tavern (4 pages).

PAC, RG 4, B 28, vol. 111, pp 417-422; application for a fur trade licence and bond submitted by Peter Bartie & Co., 1769 (microfilm reel H-1096).

PAC, RG 4, B 28, vol. 133, bond 337; surety offered for the office of bailiff by Joseph Dorion, 1843 (2 pages).

Satisfies his Case out of the Provisions
of the Provincial Ordinance (28. Geo: III. c. 8)
being these "Provided That nothing in this
"Act shall extend to the Subjecting such persons

To his Excellency Sir James Henry Craig Knight of the most Honorable Order of the Bath Captain General and Governor in Chief in and over the Province of Lower Canada, Upper Canada Nova Scotia, New Brunswick and their several dependencies, Vice Admiral of the same General and Commander in Chief of all his Majesty's Forces in the said Provinces of Lower Canada and Upper Canada Nova Scotia and New Brunswick and their several dependencies and in the Island of Newfoundland &c: &c: &c: —

The Petition of Jacques Jean Charles, Chevalier de St. Felix.

Humbly sheweth

That your Petitioner is the Son of Pierre de Felix Marquis de Gramand Sieur de Fontenac and other places, That he hath gone thro' a regular course of Studies in Medicine and Surgery in France and hath served an apprenticeship of five Years to Goulard professor Royal of Surgery and Anatomy at the Medical College, and Member of the Royal Academies, of Montpellier. That your Petitioner hath received his degree from the Medical College at Montpellier and was appointed Surgeon to the Royal Corsican Regiment of Cavalry Afterwards Surgeon & inspector to the military hospital at Toulon.

That previous to the Conquest Your Petitioner came to this Province where he has almost constantly resided since; and has been generally employed in the practice of Physic, for the last year in the parish of St. Jacques, in this district, and for the ten Years preceding in the Parish of St. Thomas below Quebec.

That residing principally in the country he was for some time uninformed of an Ordinance made in the twenty eighth Year of his Majesty's Reign to remedy inconveniences arising from unskilful

unskilful persons practising Physic and Surgery and that even after he was made acquainted with it he never imagined its application could extend to him inasmuch as he had received his degree from the University of Montpellier and had served by commission in the armies of the King of France in a high medical Capacity; but that he has lately been informed that he is not exempt from the Provisions of the Ordinance aforesaid, and having lately instituted a suit at Montreal finds that he cannot even collect the debts which have become due to him in the course of his long practice and that he is also liable to a pecuniary penalty for practising without a licence.

Wherefore your Petitioner most humbly prays that Your Excellency taking the hardship of his Case into Your Excellency's benevolent consideration will be graciously pleased, upon examination of the documents accompanying this petition and establishing the truth of the facts therein stated, to grant to him a licence for the practise of Physic and Surgery in this Province.

And your Petitioner as in duty

Mr. Michael Andrews from Saratoga Co. State of New York, hath to my knowledge used the utmost diligence in endeavouring to procure an examination by the Board to which his Petition to his Honor the President praying for a licence to practice Physick Surgery &c in this Province was referred; and that he has at various times been disappointed, owing, as I am informed, to the difficulty of getting together a sufficient number of Medical examiners to constitute a Board agreable to law.

Despairing of being able to procure an examination here he has been ordered to present himself to the medical Board at Quebec.

I have personally known the said Mr. M. Andrews for some years, and consider him a man of strict principle, and upright moral character.

The Memorial of Michael Andrews,
of the City of Montreal,

Humbly Sheweth,

That Your Excellency's Memo-
rialist, on the fifth day of August last
past, presented a Petition to the Honorable
Thomas Dunn, then President of the said
Province of Lower Canada, setting forth,
that Your Excellency's Memorialist had
served a regular apprenticeship in differ^t
Universities, in the United States of
America, to qualify him for the practice
of Physic, and humbly praying that
his Honor the President, would be pleased
to refer him for examination, to the Com-
missioners, appointed in the City of
Montreal, for the examination of persons
applying for to Licence to practice Physic
Surgery, and Midwifery; and upon the
certificate of the said Commissioners,
in favor of Your Excellency's Memorialist,

That his Honor, the President
was pleased on the tenth day of august
last, to grant to your Excellency's memorialist
a reference to the board in Montreal, for
examination, and report, concerning the
character, fitness and capacity of Your
Excellency's memorialist.—

That Your Excellency's Me-
morialist, in consequence of the said
reference, made repeated applications
to the said Commissioners to meet, for
the purpose of examining Your Memorial-
ist, but without effect, and particularly
on the sixteenth and twenty sixth of
the said month of August, now last
past; as appears by the affidavit of
Jacob Marston, and the certificate of
Doctor Grant Powell, of the said City of
Montreal, hereunto annexed; to which
Your Excellency's Memorialist, begs
leave, to refer Your Excellency.—

Wherefore Your Excellency's
Memorialist, despairing of being able
to procure an examination in Montreal,
after so many unavailing attempts,
has been under the necessity of coming
to this City, and humbly prays, that
Your Excellency may be pleased to

Nous les soussignés résidents dans les Seigneuries de Kamouraska, de la Rivière du Loup, de la Rivière Ouelle et autres lieux, dans le District de Quebec dans la Province du Bas Canada certifions à tous qu'il appartiendra que nous connoissons le Docteur Fay demeurant au Kamouraska depuis huit à neuf mois pour une personne de très bonnes mœurs. Que depuis sa résidence au Kamouraska il a été d'une très grande utilité publique tant aux habitans des Kamouraska qu'à ceux de ses environs en leur administrant des remèdes et les traitant avec succès dans leurs maladies causées par des fièvres contagieuses qui ont prévalu dans le Comté Cornwallis. — Nous certifions de plus que le dit Docteur Cyprien Fay a fait à nos connoissances des cures et des opérations qui auroient fait honneur aux meilleurs praticiens. Ainsi comme nous considérons que ce seroit vraiment une perte pour nous et le Comté Cornwallis si nous étions privé de son assistance à défaut d'une licence

to His Honor Major General Glasgow, then
administering the Civil Government of
this Province, in the absence of Your —
Excellency, praying, for reasons therein
stated, which is herewith presented to Your
Excellency, to be permitted to be examined
by the Board of Physicians in Montreal
for that purpose appointed, for the purpose
of obtaining a licence or licences for practising
the various branches of Physic, Surgery,
Midwifery, &c. &c. &c.

And in consequence
of his application as aforesaid he was referred
to the Board at Montreal agreeable to
custom in such cases; And whereas Your
Petioner has been on the eleventh day of
this present month of March before the
said Board accordingly, and obtained from
it certain Testimonials of his capacity

Sir

Permit me to acquaint you for the information of His Excellency the Commander of the Forces, that the Bearers of this Letter Doctors Joshua B. Bartlett, and John Weston of the Eastern Townships (viz) Compton and Hatley, are Gentlemen with whom I have been well acquainted ever since their first residence in this Province, the former for more than thirteen years, and the latter for upwards of four years next preceeding the present period.

These Gentlemen are regular bred Physicians and Surgeons, and are solicitous of obtaining Licence at Montreal to practice in those Professions, in that part of the Country where they reside. — They sustain in society irreproachable Characters; and their loyalty and attachment to His Majestys Government having been manifested upon all occasions is unquestionable: and as such I beg to be permitted to re=

Sir

I have to acknowledge the receipt of your favor of the 1st Inst. which should have been sooner answered, but could not, nor have we yet been able to get any satisfactory information relative to the Gentlemen who have petitioned His Excellency further than that Mr. Parker resides at St. Jacques, and is supposed to practise there: Mr. Gilbert's residence we have not found, but have been informed that he applies some time to Doctor Arnoldi for permission to attend his shop, under the idea that a few months practice would qualify him for examination, this Mr. Arnoldi declined. — I am inclined to think they are both Americans, as neither of their names appear in our Register as having taken the oath of Allegiance, and consequently they have come into the Province since the Peace. I apprehend there are many such Characters in the Country. — I have the Honor to be,

To His Grace The Duke of Richmond, Knight of the Most Noble Order of the Garter, Captain General and Governor in Chief in and over His Majesty's dominions in North America, Vice Admiral of the same, &c – &c – &c –

The Petition of Abigence W. Robinson humbly Sheweth,

That your Grace's petitioner is a native of Argyle in the State of New York, one of the United States of America, and has been regularly educated and instructed in the Profession of Physic and Surgery, and hath passed an examination before the Censors of the Washington Medical Society, a certificate of which is herewith respectfully submitted.

That Your Grace's Petitioner, about two years since, moved into this Province with a view to practice his said profession therein.

That Your Grace's petitioner, in the month of August last, petitioned Your Grace for an order of Reference to the Medical Board in Montreal, for the examination of your petitioner as to his fitness and capacity to practice

The Petitioner accompanies his Petition with the following certificate of his regular Education &c &c

Physic and Surgery in this Province,

That Your Grace was then graciously pleased to grant your petitioner such order of Reference, but a sitting of that Board could not be obtained untill a short time since, when Your Grace's petitioner, previous to presenting himself for examination, made application to the Police Magistrates at Montreal, to take the oath of allegiance to His Majesty, when the said Magistrates informed your petitioner that they were not authorised to administer the oath of allegiance, without a special permission from Your Grace to that effect.

That Your Grace's petitioner hath herewith laid before Your Grace a certificate, signed by a number of very respectable inhabitants of the District of Montreal, to whom your petitioner hath been known since his residence in this Province.

Your Grace's petitioner therefore humbly prays that Your Grace may be graciously pleased to admit your petitioner to take the Oath of Allegiance, and to grant your petitioner an Order of Reference de novo to the said Medical Board for examination, and that on the report

Sir

The Board of Medical Examiners having assembled and your Letter of the 26th Inst. with an accompanying enclosure from Messrs. Bourdages & Fortier laid before us; We beg leave to submit the following Statement for His Excellency's information — That the above named two Gentlemen appeared this day for the third time before this Board, & positively refused to undergo any examinations, in consequence of their having each, a Diploma from the University of New York, and claim exemption from Examination by this Board, touching their Medical fitness, by virtue of an Ordonance of this Province to that effect

We do not as examiners, conceive

that we have any thing further to do
with the legal interpretation of the
Ordonnance en question = than to pay
that respect to the Spirit of it, which
we not only feel inclined, but consider
it our Duty to do. — . Under this
impression, we think that it would
be acting an inconsistent part, and
a dereliction of our duty, were we to
take it for granted (without the least
examination) that the mere possession
of a Diploma confers Medical knowledge, unless the Student possessing
one, has duly qualified himself by
a regular course of Study, to entitle him
to practice his profession

It is our opinion that Medical
knowledge is neither intuitive or hereditary & that Six Months only at any
University is insufficient to entitle
any Candidate to be considered exempt
from examination altho a Degree may
have been obtained

Qu'il plaise à Votre Excellence,

Nous les soussignés, gradués en l'Université de la Nouvelle York Docteurs en Médecine, prenons la respectueuse liberté de nous adresser de nouveau à Votre Excellence pour lui exposer que, depuis qu'ils eurent l'honneur de vous présenter requête vous suppliant humblement d'ordonner que licence leur fut octroyée pour pratiquer en cette Province comme Docteurs en Médecine au désir de la loi & aux termes de leurs Diplômes, ils n'ont pu jusqu'à ce moment obtenir les fins de leur requête, parceque des difficultés élevées, d'abord par le Président des Examinateurs auquel il avoit plu à Votre Excellence de référer leur requête, sur ce que la référence ne répondoit pas à la demande des Suppliants, vû qu'elle ordonnoit aux Examinateurs de s'enquérir non seulement sur les mœurs & le caractère de vos Suppliants, mais encore leur ordonnant de leur faire subir

l'examen, ainsi qu'il est d'usage pour un Candidat qui n'a pas antérieurement obtenu des Diplômes de quelques Universités, mettant par là, absolument de côté, toutes considérations & égards à leurs Diplômes. Ils ne pouvoient, disent-ils, s'abstenir d'obéir strictement à ce que la référence ordonnoit.

Sur telle objection vos Supplians eurent recours à Votre Excellence pour qu'il lui plût, en sa sagesse, rescinder le dit ordre de référence, & ordonner qu'il fût procédé pour Docteurs comme il avoit plu à Votre Excellence d'ordonner à l'égard des Docteurs gradués en Médecine Boutillier, Charlebois & Bower, qui sans objections ni difficultés ont obtenu leur licence au désir de la loi, sans subir examen.

Après bien des délais & des allées & venues auprès du Secrétaire Civil de la Province, vos Supplians eurent enfin de lui réponse que Votre Excellence daigneroit prendre en considération dans le Conseil Exécutif la demande des Supplians. Qu'ils attendent depuis plus d'un mois pour obtenir la fin de leur requête, sans avoir pu encore rien obtenir. Que désespérés, par les dépenses occasionnées par le long laps de temps sans rien gagner, ils se sont addressés au Greffier du Conseil Exécutif duquel vos Supplians viennent d'apprendre

Il ne reste plus aux requérans que de supplier Votre Excellence de vouloir bien leur accorder licence pour pratiquer comme Docteurs en Médecine étant duement gradués comme tels par l'Université de la Nouvelle York, étant prêts à prouver à Votre Excellence qu'ils sont sujets nés Anglois, & donner toutes preuves requises sur leur caractère, sur leurs mœurs & leur loyauté,

The Opinion of the Attorney General upon the Case of R. P. Bondages and Thomas Porter two Candidates for Licenses to practice Physic and Surgery

1st "Whether Foreign Universities come at all "within the purview of the 2d Geo. 3. C. 8 "(Provincial Ordinances) by a Clause of which "an exemption from Examination is allowed to "any Candidate for a License who shall "have a degree in a University"

I am of Opinion Foreign Universities come within the purview of the Act because the words of the Act are not restrictive but speak generally of "any University" as the Ordinance is a positive Rule it is safer to adopt that which the Legislature has actually said, than to suppose what it meant to say. My Lord Mansfield has said that all privileges, granted by Statutes to the Universities, were confined to the English Universities, and did not extend to Scotland, or other foreign Universities, but the words used by the Provincial Ordinance "any University" comprehends more than the Term "the Universities" and do in my Opinion extend over all institutions Actually universities

2nd "Whether the institution at New York
"being merely for medical Science can be
"considered a University"

I am of opinion an Institution
merely for medical Science cannot be
considered a University. A University is
a Corporation where all the Arts and Fa-
culties are taught and studied, in
every University there are four faculties
Viz Theology, Law, Physic and the
Arts and Sciences comprehending Mathe-
matics natural and moral Philosophy
&c. An Institution merely for medical
Science cannot be considered a
University and is not in my opinion
within the purview of the Act

As to the Third Point I am
of Opinion that the ordinance is not
imperative on the Governor to grant a
License to a Candidate, but that
a License being required implies a
Discretionary power to withhold it should
His Excellency think proper so to do

To His Excellency Lieutenant
General Sir John Colpe
Sherbrooke Knight Grand
Cross of the Most Military
Order of the Bath &c &c.

May it please Your Excellency,

I have the Honor to submit
to Your Excellency my opinion on the
subject referred to the Attorney General
and myself by Mr Cochran's letter of
the 13th instant; - viz. the rights of
exemption which Messrs. Bourdages
and Fortier claim, from examination
by the medical Board. -

As I have the misfortune to differ
from the Attorney General on this subject,
I shall, I fear, be obliged to trouble
Your Excellency more at length than
would otherwise perhaps have been
necessary.

The first and most general
question proposed for our opinion is,
"whether foreign Universities come at the
"within the purview of the Ordinance
28th

"28th Geo. 3, C. 8, sect. 3"; - and after the most mature consideration that I have been able to give the subject, I am of opinion that they do not. I admit, - as indeed it would be impossible to deny it, - that the words "any "university" are, in themselves, as large and comprehensive as could be found; but so general and loose an expression must be considered with reference to the intention of the legislature, and to the evil which it was proposed to remedy. The object of the ordinance, as appears from the preamble, was to prevent unskilful persons from practising physic or surgery in this Province; and for that purpose it requires that all candidates for licences shall previously undergo an examination, by certain learned persons, to be appointed by the Governor for the time being. The ordinance then proceeds to exempt from the necessity of examination those who have <u>taken a degree</u> at a university, - presuming that every necessary examination has been undergone, before the candidate was allowed to graduate. Taking this simply as a mark of deference to the Learning and Vigilance of certain scientific institutions, I cannot suppose that the same compliment was intended to be paid to those of foreign

contains:— But there appear to be very substantial reasons against this extended construction. We know the mode of education in our own universities; we know that there are professors of every science, qualified not only to instruct, but to decide upon the merits of those who become candidates for degrees in the respective branches. But what can the board, which is to grant or refuse licences in this Province, know of any foreign university? — of the skill of its professors? — of the course of medical education which may be pursued there? or of the mode in which degrees or certificates may be granted? — And here I must not omit to notice the expression made use of in the exceptive clause, which is, "such persons as shall have taken a degree "in any university." It is scarcely necessary to remind Your Excellency of the difference between a degree obtained by close application and long residence at the seat of learning, and that which is conferred by the magical and instantaneous operation of a diploma; — or to observe upon the inconsistency, I had almost said absurdity, of supposing that an ordinance, shaped expressly for the purpose of preventing any but skilful and experienced men from practising, should have contemplated the imaginary skill and

experience, with which any one may invest himself at the price of a few guineas /a/:- And yet I cannot see how the medical board can inquire into the means by which a diploma from any foreign university has been acquired. Another very strong objection to this claim appears to me, that if this exemption be granted, however respectable may be the pretensions of the present claimants, and I have no doubt that they are highly so, every person who has obtained a certificate from any association or body, calling itself an university, will be entitled to the same privilege; otherwise, this consequence will follow, - that the medical board must resolve itself into a jury, to try the existence of the body as an university, its competency to grant diplomas, and the validity and formal legality of the diploma itself. The definitions of "University," which I have been able to find, are extremely vague, and, if I may be allowed the contradictory expression, indefinite. In "Bacon's Abridgment of the Law," universities, in general, are said to be "those seminaries of learning, "where youth are sent to finish their educa-"tion, & to be instructed in the liberal sci-"ences;- with us, they more particularly "denote those two learned bodies of Oxford & "Cambridge, which are invested with several "peculiar privileges."- Jacob, in his Law dictionary, Defines "University" to be "a

place

/a/ In D.r Bonham's case, 8 Coke's Rep: 116, 117, L.d Coke treats incidentally upon this subject, with his usual quaintness, but with great truth & energy. -

"place where all kinds of Literature are
"universally taught"; he adds, "it is likewise
"used by civilians, for any corporation or body
"politic." Without putting an extreme case, of
a degree conferred by an university at Pekin
or Bagdad, (though I cannot see where the
line is to be drawn) there must be many
foreign institutions nearer home, which would
fall under the above definitions, and which
take upon themselves to confer degrees in
medicine upon men, to whom the legislature
would be very cautious of entrusting the
health of his Majesty's subjects. — There
is another consideration, which, though I
do not consider it as affecting the legal
interpretation of the ordinance, ought not
to be altogether overlooked; viz. that this
limited construction would not act as an
exclusion from the liberty of practising,
which might still be obtained by undergoing
the customary examination. — I am much
confirmed in the view which I have taken
of this subject, by a case which was decided
in the court of King's Bench in 1785, of
Jones v. Swart, 1 Term Reports 44; though the
question there was not exactly the same as
that which is now under consideration. In that
case, Lord Mansfield said "he had no doubt
"that all privileges granted by the statutes to
"the universities were confined to our own,

"and did not extend to Scotland or other foreign
"universities, which were governed by their own
"particular laws and customs". - And his
Lordship's reasoning in a subsequent part
of the case appears to me to sanction very
forcibly the opinion which I have with great
humility been offering to Your Excellency.

With respect to the second part of
the question submitted to us, "whether the
"institution at New York, being merely for
"medical science, can be considered an
"university; - and whether its existence can
"in any way be legally ascertained and
"recognized", - I should conceive that no
institution for the study of any one
particular science can be considered
as an "university", either within the
general acceptation of the word, or
under the definitions which I have had the
Honor of stating to Your Excellency: - Nor
do I see any way in which its existence,
or that of any other foreign university, can
be recognized by Your Excellency, or the
medical board, - at least so far as
regards the right to confer degrees.

The third and last question proposed
is, "whether the ordinance be in any case
"imperative on the Governor to grant a

"license to a candidate; or whether any
"discretion be left to him on this head."
It is a rule, as to the construction of a
statute, that where it says that a thing,
for the public benefit, may be done, it
shall be construed that it must be done;
and I should therefore incline to think that
when a person has obtained his certificate
from the board appointed to inquire into
his skill and knowledge, he is entitled
to his license, as far at least as
the question of his qualification to
practice is concerned.

discretion left to the Governor to grant
Licences, – I have the Honor to state to
Your Excellency that, as the Ordinance
only provides that the Licence shall not be
granted without the certificate, & does not
proceed to make it absolutely imperative on
the Governor to grant it provided the certifi-
cate be obtained, a discretionary power
does, I conceive, exist, whether the Governor
will refer the candidate to the medical
Board for examination. When such
reference has been made, the candidate is in
the hands of the board as far as regards his
professional qualifications; though the
Governor, I apprehend, would still have
the power of rejecting for any objection
to the conduct or character of the
individual. –

Sir,

We have the honor to inform you that in Consequence of the reference made to us on the 18th. of December last by Order of His Grace the Governor in Chief upon the Petition of Jacob Peck, Junr. praying for a Licence to practice Physic and Surgery in this Province, we did assemble on the 30th. instant for the purpose of examining the said Jacob Peck, as to his character fitness and capacity as required of us by the said Reference, and beg leave to State for the information of His Grace that upon certain preliminary questions having been proposed to the Petitioner it appeared by his answers thereto that he was a natural born subject of the United States of America in which he had been educated and hath always Resided until two years now last past during which he has been in Canada, that he is a native of the State of Connecticut and born since the declaration of independence of the said States he being now only twenty seven years of age - As none of these facts were set forth in the Petition presented to His Grace we have considered it our duty to submit the same for His Grace's consideration previous to any further examination of the Petitioner to the

end

A tous ceux qui ces présentes verront, Salut.

Nous soussignés Curé, Juge de paix, &c, de St. Constant, certifions connaître Jacob Peck depuis vingt six mois environ, dont il en a demeuré vingt deux parmi nous, sans interruption dans notre voisinage. Nous avons cru & croyons encore sans aucun doute qu'il était Citoyen des Etats-Unis d'Amérique, avant qu'il vint en ce pays. Nous n'avons connu, et ne connaissons dans sa conduite & son caractère moral, rien qui nous ait porté à douter qu'il fut un bon Sujet & un membre utile de la Société. En un mot, sa conduite nous a paru être celle d'un gentilhomme.

May it please your Honor

I sometime ago addressed a petition to your Honor thro' the secretary; but having received no official answer, I beg leave, with all suitable respect, to address your Honor personally.

The object of my petition was to solicit a reference to the Medical Board at Montreal for an examination; and it was accompanied with a certificate from Sir John Johnson Bart. & others attesting the justness of my pretensions as a regular practitioner and the propriety of my conduct as a man and a subject.

I have resided in this Province more than three years, formed connexions, and obtained some fixed property, of which I cannot dispose except at such disadvantage as would be seriously calamitous to my family, and I have hitherto been prevented from obtaining my license by difficulties which I could neither foresee nor prevent. When I say that I have received no official answer, I do not mean to deny that I have been informed that a rule has lately been adopted, not to admit to the practice of Physic, any who are not either native British subjects, or naturalized by a residence of seven years. - In reference to this I can only assure your Honor, that I have given, and am ready to give, all possible pledges of fidelity to the Government under which I live; that my father and my ancestors, so far as

I have any knowledge of them were native British subjects; and so, I may add, are my own offspring, for whom I am desirous of securing if possible the privileges connected with that character, & who, if I may not exercise my profession in this Province must be expatriated.

From these considerations, I humbly trust, Your Honor will be pleased to grant the prayer of Your petitioner and order the petition which now lies in the Secretarys office, together with the papers which accompanies it, to be returned without delay.

May it please Your Honor

L'humble supplique D'Alexandre Lusignan

Aßistant Chirurgien du ci devant corps des Volligeurs canadiens;

Représente Respectueusement:—

Que depuis l'année 1812 à l'année 1815, il aurait suivi comme Clerc ou apprentiß Chirurgien sous le Dr. Painchaud le 1er. Battaillon de Milice Elite & Incorporé, ainsi qu'aßisté à l'Hopital Militaire de cette Ville, sous la direction des Docteurs Wright & Grafset.

Qu'après un cours régulier d'étude dans la profession, et un service continu et régulier au susdit Battaillon et Hopital; se croyant en état de subir un examen, et de mériter d'être admis à la pratique, il se serait addreßé à Son Excellence Le Chevalier George Prevost, Gouverneur Général en cette Province, pour obtenir l'honneur de sa réference, pour être examiné, et sur le rapport de sa capacité et bonnes mœurs, être admis à pratiquer comme Chirurgien.

*Président.

Qu'en conséquence il subit son examen, et que sur le rapport favorable qui fut fait, il plût à son Excellence le Gouverneur et Commandant en chef, de le commissionner assistant Chirurgien du ci-devant Corps des Voltigeurs Canadien.

Qu'il joignit le dit corps, y fit le service en qualité de Chirurgien, fut réformé avec le dit Corps, et jouit des bienfaits de sa Majesté par la demie paye accordée au Corps.

Qu'à la paix il passa dans les Etats. Unis, et suivit pendant environ une année, le cours de Médecine de la Cité de New-York; qu'il est membre honoraire d'une Société de Médecine de la dite Cité.

Que depuis 1817, il a constamment résidé en cette ville, assistant par devoir un père respectable et des plus âgés, et pratiquant son art occasionellement.

Que désirant s'adonner plus particulièrement à cet art, devenir Utile au Public, il serait déterminé à aller s'établir en Campagne.

Que par l'ordonnance provinciale en force, il lui suffit (à ce qu'il présume, et soumet respectueusement aux lumières de votre Honneur) de tenir une commission de Chirurgien dans l'armée, sans être obligé d'obtenir une License expresse pour l'autoriser à pratiquer son art dans la Province; mais craignant que le défaut de license provinciale ne lui nuise dans l'opinion du Public, avec lequel il veut s'habituer; il s'adresse respectueusement et avec la plus intime confiance à votre Honneur;

Most humbly Sheweth,

That your Excellencies Petitioner obtained a License to practise as an Accoucheur, and as an Apothecary, bearing date the 29th day of October 1819. That afterwards he received a reference to practise Physic and Surgery; and that before Petitioner could obtain a Medical Board to sit for his examination in order to procure the necessary License, He was enviously and maliciously prosecuted by a Medical Gentleman of the same Village, and fined in the penalty of Twenty Pounds.

Petitioner takes the liberty of enclosing for the satisfaction of your Excellency, documents sufficient to obtain the regular License, and humbly begs that your Excellency will be graciously pleased to order that the Government proportion of the Fine may be reduced, and your Excellencies Petitioner shall ever pray

I have had the honour of receiving your letter of the 15th instant and beg leave to mention that when I came to this country two years ago I petitioned Sir John Cope Shelbrook that he might be pleased to grant me a reprieve to the medical board for to obtain leave to practice as an Apothecary and Surgeon which reprieve I got and also obtained leave. But being the laws of the country will not allow me to practice in all the branches of the Medical Profession under such leave I was advised by the Gentlemen belonging to the Medical Board to petition for Physick & Surgery which is the usual mode of petitioning. Inclosed I send my documents and the leave obtained on my former petition which I hope will be sufficient proof that I am a British Subject and to allow me a reference for Physick & Surgery

Copy of a letter to
Mr Sullivan Esq

Quebec, Decr 23d 1820.

I have just received your communication of the 20th Inst. and avail myself of the kind offer of your friend Stuart to be the bearer of an answer to it. I have great pleasure in assuring you that your young friend evinced nothing like a want of natural capacity in the course of his examination before the Medical-Board at Quebec; on the contrary, his answers were highly creditable to him, considering the short time and limited opportunity which he had had of acquiring professional knowledge. I intend nothing by this, disrespectful to the Gentlemen with whom he studied, because it is my opinion, that the private practice of no individual can afford adequate means of instruction to a Medical Student.

Although it may be true, that we cannot in this country, expect to have Surgeons as skilful, or Physicians as deeply learned as they are in London or Paris, yet I think that the inhabitants of Canada ought to be at least as well Physicked, as those of York or Devonshire. A Candidate for Medical Practice in either of these or any other country in England, presenting himself before any of the authorities at home, would be asked the following questions, viz: Where did you attend Lectures? or what Hospital did you attend? These not being satisfactorily answered, no other would be put. This ought to be the rule at Quebec, because it is easy to conceive

that a young man of good memory, and of extensive reading, might be able to make very pertinent replies to questions about diseases. without possessing the power, to nice points, of discriminating between one disease and another at the sick bedside. It is upon the possession of this power, that any thing depends in Medicine; and it is a power which cannot be acquired within the limits of a few years, unless some part of those years be passed in attendance upon Lectures, Hospital practice and Dissections, where a great number, and various descriptions of cases are constantly treated under the eye, and partly by the hands of the student.

This was distinctly stated to Mr. Nelson at the close of the examination, with due regard to his feelings in the manner of doing so; it was further stated to him, that if he would devote six months more to the study of his profession at any Medical School where he would enjoy the advantages above alluded to, the Board would have no hesitation, considering the progress he had already made, to grant him, after that, the requisite Certificate, without further application to, or reference from, the Governor — and I do think that liberality could not have been extended further, consistently with the honour of the Profession, and the real interests of the individual. The time and money it would cost him to follow up these views, would be infinitely more than compensated by his future feelings as a Practitioner, and the increased confidence his patients would naturally (I had almost said necessarily) repose in his skill and learning. I think I may venture to anticipate your concurrence in these sentiments, and hope also for that of Dr. Nelson, the honour of whose acquaintance, I should be proud to possess.

Yours, &c.

The Memorial of John Dies Nelson

Most humbly sheweth

That your Memorialist is extremely pained to find himself under the necessity of appearing again before your Excellency, the more especially has he is compelled to come in contradiction to the assertions in the Letter addressed to the Hon. J. Ready, by Drs. Holmes & Hacket of the 25 Jan. last in answer to the Petition of your Memorialist of the 21st. of the same month.

your Memorialist most humbly begs to remark that "the whole "tenor" of his Petition to your Excellency is correct. your Memorialist has served a regular Apprenticeship to the Medical Profession, as is proved by the Certificates of the Medical Gentlemen under whom he studied.

That at your Memorialist's first interview with Dr Holmes he was told "It was a folly in any young man to attempt to pass "their Board who had not been at a University". — Dr Holmes then passed some very high encomiums on the American Universities and said "there were none better, not even Edinburgh, & that "in no country in the world was a medical education to be had "with less trouble & expense than in Canada, by reason of the proximity "of the American Universities".

That your Memorialist has a right to say he answered in a satisfactory manner every question proposed to him to the President's approbation.

That your Memorialist has a Letter in his possession from Dr Holmes to his nephew Dr Park, in which he says "Mr Nelson's answers to the several questions were very creditable to him considering his opportunities".

RG 4, B 28, vol. 49 (pages 558-860)
MEDICAL LICENCE applications, Quebec and Lower Canada

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

That your Memorialist presumes, with safety, to say, that his opportunities for acquiring a knowledge of the profession have been surpassed by none, and equalled by very few, of the young men who have studied in Canada. That the President observed to your Memorialist, "that any young man of a good memory who had access "to good books might get questions & answers off by heart", which expression your Memorialist takes to be a proof of the soundness of his answers.

That after the Examination was over, your Memorialist was ordered to retire; a few minutes after which he was met by Dr Holmes who communicated to him the determination of the Board. They then returned to the examination room where Dr Lloyd was alone Dr Hacket having left the house while Dr Holmes and your Memorialist were together. Dr Holmes then repeated to Dr Lloyd what he had said, which was, that your Memorialist "was to repair "for six months to an American University, after which your Memori- "alist was to return to Quebec when he would immediately obtain his "Certificate" for the truth of which your Memorialist appeals to Dr Lloyd.

That the Law Officers of the Crown having settled this question in the negative is no proof that he was not ordered to an American University; which your Memorialist would humbly beg leave to remark, also, that the Medical Boards of this Province have not the power of ordering a Candidate to any University, your Memorialist takes to be granted by the Act that was passed under the government of Lord Dorchester in 1788 which was intended merely for those who had studied in Canada. The Medical Board of Quebec has passed several young men who had never been out of this Country; that the Last, your Memorialist presumes is Mr Gamelin Gaucher of St. Ours, whose Certificate is annexed, and whose period of Study was by no means so long as that of your Memorialist.

That your Memorialist begs to be understood, that had the President merely ordered him to resume his Studies for six months, he would have complied; but the President observed, that they had come to a Resolution of admitting none who had not been to a University.

That your Memorialist cannot refrain expressing his grief at the very disadvantageous light in which he is placed before your Excellency. Were your Memorialist vile enough to assert the thing that is not, yet it would have been impossible for him to have been bold, or wicked enough to have attempted to obtrude a falsehood on your Excellency! your Memorialist hopes — confidently hopes that —

your Excellency will be graciously pleased to take his case into your consideration, and to grant, and order, him that Justice which shall seem to your Excellency to be due to him, having asserted in his Petition, and in this Memorial nothing but what is perfectly consistent with truth

And your Memorialist, as in Duty bound will ever pray, &c

The Petition of John Dies Nelson

Most humbly sheweth,

That your Petitioner having served a regular Apprenticeship to the Medical Profession, had the honour of obtaining from your Lordship a Reference to the Medical Board at Quebec, where he underwent an Examination, and answered all the questions put to him in a satisfactory manner, which has been acknowledged, but the Members observed, That they had come to a resolution of admitting no Candidate to pass their Board who had not been at a University; and therefore "Advised" your Petitioner to repair for "Six months" to one of the American Universities, after which they would instantly grant him the necessary Certificate by which he was to obtain his Lincence.

Your Petitioner most humbly begs to remark, that the Medical Boards of this Province have not the power of sending a Candidate to any University for as much as in the year 1788, an Act was passed by which those who had obtained a Degree from any University were not obliged to undergo an Examination here; and your Petitioner would further beg to remark, that this is the First instance where the Medical Board of Quebec has come to this determination — a determination equally unjust & unnecessary; to comply with which would subject your Petitioner to a very great inconveniency as well as to a heavy expense: Your Petitioner therefore most humbly craves your Lordship will be pleased to order the Medical Board at Quebec to issue the necessary Certificate when it is humbly hoped your Lordship will instantly grant him a Licence to practise his Profession,

Sir,

In reply to Mr Robins memorial relative to his having been unfairly dealt with by the Medical Board here, we have to state that the whole tenor of his memorial is untrue, his ability fitting him to practice was not acknowledged, he was not advised to go to one of the American Universities.

In reply to a Petition, sent by John D. Nelson, to His Excellency, the Governor in Chief, dated Jany 21 1821. Doctors Holmes and Hackett

State,

1st That in reply to Mr Nelsons Memorial relative to his having been unfairly dealt with by the Medical Board here, we state, that the whole tenor is untrue

2d His ability fitting him to practice was not acknowledged.

3d That he was not advised to go to one of the American Universities

The whole tenor of Mr Nelsons Petition, to His Excellency of the 21st Jany: 1821. is proved to be true, by the evidence given in to His Excellency, the Governor in Chief.

His ability fitting him to practice was acknowledged, as is proved by letters from Doctors Holmes and Sloyd. Dr. Sloyd states, "It was distinctly stated to Mr Nelson, the Board would have no hesitation, considering the progress he had already made, to grant him after that the requisite certificate, without further application to, or Reference from, the Governor."

He was advised to go to one of the American Universities, which is proved by the above letters, and can be further substantiated, by expressions to that effect from Dr. Sloyd, who further observed, he would be guarding severe on Mr Nelson at his subsequent examination, from having addressed His Excellency on the subject. And it is presumptively proved, by the ambiguous expression of, "the University"

RG 4, B 28, vol. 49 (pages 558-860)
MEDICAL LICENCE applications, Quebec and Lower Canada

ARCHIVES PUBLIQUES
CANADA

4th The Board acknowledged this gentlemans progress in the Elements of his Profession, as far as his opportunities of acquiring it went.

5th But finding his progress not such as to entitle him to a Licence, he was by the Board advised to resume his studies for six months more; and for that purpose should proceed to the University, never contemplating one of those of the United States.

It only remains to be proved, that his opportunities of acquiring that knowledge was equal to that of any Candidate who ever passed this Board.

He studied under men, who spared no pains to advance his instruction — Men, whose knowledge of the Profession has never been doubted — Men who have exercised the functions of their Profession in a manner that has never been surpassed, perhaps not equalled, in Canada. Consequently it results, that his opportunities of acquiring knowledge, have been superior to those of the Gentlemen under whom he studied.

The progress he has made in his Profession & knowledge in the Letters above referred to. It may be asked, is there but one University ("the University"). Could he go to a British University and return in the space of "six months"? Was he to go to a British University, he would have no occasion to appear before the Medical Board at Quebec: inasmuch as a Diploma from a British University would entitle him to Practice in any of His Majesty's dominions. Hence it appears, without doubt that the Board did "contemplate" an American University

Q. 5th. Was the question mooted or first started by the Law Officers of the Crown, about two years back?

A doubt on the subject could never have been entertained, inasmuch as the Act passed in 1788. is clear on that subject.

In a Petition to His Excellency
the Governor in Chief, dated St.
Denis, the 21st Jany. 1821.
John D. Nelson, States:

1st That, he served a regular Apprenticeship to the Medical Profession

2d That, he had obtained a Reference from His Excellency the Governor in Chief to the Medical Board of Quebec.

3d That he underwent an Examination and answered the Questions satisfactorily

4th That the Members observed that they had come to a resolution of admitting no Candidate to pass their Board who had not been at a University.

5th That he was advised to repair to an American University

6th That, after which the M. Board would grant the necessary Certificate, by which he is to obtain his Licence.

Which is proved by two Certificates signed by Robert, and Wolfred Nelson.

Which is proved by a Reference signed D. Neady, dated Quebec 6th Oct. 1820.

Which is proved by a letter written by Dr. Holmes, dated Quebec, Nov. 6th 1820. Which letter states that he was examined, and "that his answers "to the several Questions were such credi-"table to him, considering his opportunities" His opportunities have been equal to those of any Candidate who has been passed the Medical Board.

Which is proved by the above mentioned letter of Dr. Holmes, the President, and also by another written by Dr. Sloyd, which can be produced if required.

Which is proved by the following expression of Dr. Holmes "That not far off "there was a College; the shortest "road to which is to be taken at Three "Rivers." Dartmouth College is here implied.

This was distinctly stated to him at the close of the Examination by Dr. Holmes, and is proved by the above mentioned letter of Dr. Sloyd.

7th That, he remarked, that the Medical Board had not the power of ordering a Candidate to any University.

8th That, he remarked that this is the first instance in which the Medical Board had come to this determination.

9th That it is a determination unjust and unnecessary, and that it would subject him to great expense and inconvenience.

Which is proved by the Act of 1788. purposely framed for Canadian Students.

Which is proved to be true, for as much as Seventeen individuals have been admitted to practice, within these last two years, and out of that number eight have been admitted since May 1st. 1820, and Six since Nov. 2nd. 1820.

It is unjust, for as much as it requires Legislative authority, to change the Act now in force; and it is unnecessary, because the native practitioners equal the European, as is proved by daily experience. Would subject him to great inconvenience and expense, because his funds are expended.

Humbly Sheweth

That your Memorialist in the Month of
March 1822 had the honor of petitioning your
Excellency for a reference to the Medical Board for
examination. — Your Excellency, was pleased to
reply, that it would be necessary to make it appear that
your Memorialist had resided a sufficient length of
time in Canada to entitle him to the privileges of a
subject, and for that reason required him to make
out a Statement of the time he had resided in the
Province at different periods. — His Statement was
accordingly made out and transmitted to your Excellency
who was pleased to state in reply that your Memorialist
had not by his own Statement resided long enough in
Canada to entitle him to a subjects privileges and
therefore the prayer of his Petition could not then be granted

In the Month of July last before your Lordships
return to this Country, your Memorialist having resided
in Canada the length of time required by Law, and having
on the Twenty fifth day of July taken the necessary oath
of Allegiance before His Honor Judge Pike, trans-
mitted a Petition to His Excellency Sir Francis Nathanal
Burton, praying that a reference for his examination
by the Board might be issued. — a month having elapsed
without any reply being made to his petition. Your

Memorialist went to Quebec, and had a personal interview with Sir Francis, who was pleased to say that he had been given to understand your Memorialist had not yet resided a sufficient length of time in the Province to entitle him to the reference prayed for. — Your Memorialist then begged that the matter might be allowed to rest undecided until Your Excellencys return from Scotland, as the first application had been made to your Excellency accompanied by Certificates and recommendations from various respectable individuals in and about Montreal, and your Excellency being in possession of these, was well acquainted with his Character & pretensions

To this request His Excellency Sr Francis Nathaniel Burton was pleased to accede. —

Since then your Memorialist has learned that a private Letter had been written by Doctor Dusnel of Lacadie containing among other matter prejudicial to your Memorialists interest, an assertion that he had not resided Seven years in Canada

Your Excellency will perceive by the accompanying Affidavits of Mr James Young Merchant of Montreal and Mr Thomas M Caren, that Your Memorialist has bona fide resided in Canada upwards of Seven Years, and for further particulars regarding his Respectability & Connexions he would beg to refer your Excellency to his first Petition & documents, dated 4th March 1822, as well as to the Bearer of this Memorial

Your Memorialist conceives that he has peculiar claims on His Majesty's Government for the privileges of a Subject, his Father being an Englishman by birth, education & feelings and all his Mothers family having expatriated themselves from the place of their birth (now the United States of America) and lost their whole worldly wealth for their attachment to their King & Government; — they and their families are now, and have been settled in this Country ever since the Revolution and in the bosom of their circle Your Memorialist now resides having a wife & Children all British Subjects by birth. — Your Memorialist would therefore feel it hard that the accidental circumstance of being born

born in the United States of America should make him an Alien to all his Kindred, even to his own Sister (who was born in Lower Canada) and compel him to drop the principles of attachment and affection for the British Government which have been instilled into, and cherished by him from his infancy till now

While many individuals who had sacrificed little or nothing to their attachment for His Majesty's Government were receiving liberal remunerations — no Member of your Memorialists family ever applied for or received a single farthing, although it is notorious that they had lost all by the Revolution

Under all these circumstances your Memorialist has strong hopes that Your Excellency will be pleased to grant him a reference to the Medical Board, for examination, so that he may attend to his profession under the benign influence of the British Government among his family & Kindred

All which is humbly submitted &c &c &c

My Dear Sir

I have made enquiry respecting the Petition of Mr Walmsley which you put into my hands I find that very strong and insuperable objections remain to his admission into this Province to reside and practice

1st That he quitted the Province and served with General Jackson in the United States which was included in the period he claims as residence

2d That he served in the American Army in the late war with that County I cannot therefore entertain his Claim

Yours truly

Sir

I have had the honor to receive your Note of this Morning and regret much it is not in my power to afford any satisfactory information to His Excellency Sir James Kempt respecting Mr Walmsley, or his claim to be admitted to practice Physic in this Province, for of the Certificate alluded to in Dr Robertson's Letter I have no recollection tho' I must take it for granted that some Certificate does exist and was obtained from me: I cannot however suppose from the facts other of the Case that the Certificate could have gone the length to say that Mr Walmsley had been naturalized according to Law inasmuch as it would appear that at the period when such Certificate

must have been granted he had not been seven
years resident in the Province, I should therefore
rather suppose that he may have appeared before
me and have taken the oath of allegiance and
obtained my certificate of that fact, nor do I
know that a Judge is authorised to grant any
such Certificate as is said to have been obtained
indeed if my recollection is correct the British
Statute requires that the oath should be taken
and recorded in Court. The Petition of Mr
Walmsley states nothing of his right now to claim
the privileges of a British subject and as the
other papers you did me the honor to enclose
clearly point him out as an Alien that is a natural
born subject of the United States, it would have
been more correct and perhaps incumbent on him

RG 4, B 28, vol. 50 (pages 861-1132)

to have candidly stated his true situation and to have shewn to His Excellency that he had complied with those terms upon which alone he could be entitled to the priviledges of a British Subject in this Colony, on this account His Excellency may probably consider it expedient to require from Mr Walmsley the necessary Evidence to establish his Naturalisation before granting any Order to authorise the examination of Mr Walmsley as to his professional Qualifications.

I have the honor to be
with great respect

Sir

I am directed by the Medical Board of Examiners to acknowledge the receipt of your letter of the 13th Inst in which his Excellency the Lieut Governor requests the Board to make particular enquiry into some facts contained in a letter from Mr Jonathan Russell of Lacadie concerning the petition & circumstances of the case of Mr A McGinnis Walmsley to be admitted to an examination of his medical knowledge in order to obtain a license to Practice Physic & Surgery in this Province —

Upon enquiry we find that Mr Walmsley is the Son of an Englishman who came to Canada in 1782 or 83 & married a Miss McGinnis Daughter of a Loyalist who left new York upon its being evacuated by the British Troops, after residing there for some time Mr Walmsley went to the United States & lived there for some years during which the petitioner was born. he afterwards returned

to Canada with his family & settled in business as
a merchant in Montreal, but not succeeding to
his expectations, he went back to the States and
lived there afterwards, when his Son was elected
entered in the American Army & became an
Surgeon in one of their Regiments; he resigned
some years ago, came immediately to this Province
& married his Cousin the daughter of Mr
McGinnis of Lacadie, where he has since
resided, When Mr Walmsley arrived in
the country he applied to the Governor for a return
to the Medical Board at Montreal, accompanying
his petition a certificate with a certificate
signed by several of the most respectable of the
old Inhabitants of this place (of whom knowledge
of his Father having been respectable merchant
in Montreal about the period above mentioned
Each Ready in his answer informed the petitioner
that he must complete the seven years residence
in this Province before he could be admitted
to take the oath of allegiance, and it appears
from Judge Pyke's certificate that he has been
naturalized according to law,
Mr Walmsley never received any Commission in
the American army, & upon enquiry as well
as from the personal knowledge of some of the
members of the Board, there is nothing against

With the View of advancing the prosperity
of his Family Went to the United States
in order to recover if possible property in
the Right of his Wife Which had been
Confiscated on her parents abandoning the
United States and Joining the Loyalists
and as much time and expence Would
Necessarily attend such a Business, his Father
Judged it most advisable to remove his
Family from Montreal to Schanectady
in the Vicinity of Albany in the State of
New York making it a temporary Residence
Shortly after this Period Your Petitioner
having been left With Relatives in
Montreal followed his parents to Schanectady

Sir

I had the honour to receive from your Hig Excellency The Governor in Chief's answer to my Petition praying for a reference to the Medical Board. The requirements Hig Excellency has been pleased to make as to the length of time I have resided in Canada at the different periods alluded to in my Petition and also the length of time I have resided in the united States, I have conscientiously stated in the following; which though drawn up merely from the recollection of myself and friends due regard has been paid to keep within the facts. In 1796 I had been three years and some months in Montreal at School, and then went to the city of Schenectady (united States) where I completed my Education. In 1809. I returned to montreal and remained Six Months, and in 1810. I went again to the United States, and remained there, with the exception of three years in Spain, in July 1821 I returned to the district of Montreal (Lacadie) making Nine Months since my last return; at which place I mean to reside, —

I have the honour to be

Dr. Wm. Dunlop

Surgeon 24th Regt.

Dated 14 May 1823.

Referred to the Provincial Secretary

Dr. Dunlop is a Graduate of Edinburgh and has practised as a Physician & Surgeon in Canada for the last 3 years. He has a certificate from the Governor of Nova Scotia of his having passed a satisfactory examination before the Medical Board of that Province, and appears to be a respectable character.

I beg leave to recommend him to your favourable consideration.

To all whom it may concern—

Mr William Lyman of this place, having applied to me to certify as to the length of time he has resided in this Country, as also to his moral character— According to the best of my recollection and belief, I have known him as a Resident in this Province, and principally in this Town, between eight and nine years: during which period I have had good opportunities of knowing his general character, pursuits and habits: and I have uniformly found him an industrious, sober, quiet, peacable, well-disposed young man— and such an one as I am sure will prove himself a good and loyal subject to the Government, under which he lives— His Parents and other Connexions of this Place, are also known to me, as being respectable, pious, good characters.

To his Excellency, the Earl of Dalhousie

The petition of William Lyman humbly
Sheweth, that your petitioner is desirous of pursuing
the busines of an Apothecary and Druggist in
Montreal in all its essential branches; and by
an institute of the Province, he is restricted to
the genral principles of commerce, and deprived
of the advantages of retailing medicines.

Your petitioner has resided in this Country
during the last nine years, has regularly served
the apprenticeship of an apothecary with Mr. Lewis
Lyman in Montreal. Your petitioner therefore
humbly solicits that your Excellency will be
pleased to grant the dispensation of allowing
his examination before his Majesty's board of
Surgeons and Physicians in Montreal to the
intent that he may ultimately receive from your
Excellency a licence for retailing drugs and
medicines — And as in duty bound will ever pray

Sir,

Being desirous to pursue the Practice of Medicine, in this city, I find that, notwithstanding a service of ten years as Surgeon, & Assistant Surgeon in the Royal Navy, and a graduate of one of the Scotch Universities, it is necessary to have a Licence, to enable me to follow my professional occupations in this place.

I have therefore to request, you will be pleased to move His Excellency, Sir Francis Burton, to give the necessary directions to the Board of Examinators of this place to perform their usual duties in similar cases.

I have the honor to be,
Your Humble S.t,
Alex.r M.cNaughton. M.D.

To His Excellency The Honorable Sir Francis Nathaniel Burton, Knight Grand Cross of the Royal Hanoverian Guelphic Order, Lieutenant Governor in and over the province of Lower Canada &c. &c. &c.

The petition of Abigence Waldo Robinson, of the parish of St Vincent de Paul, in the County of Effingham, humbly sheweth,

That your Excellency's petitioner is a native of the United States of America, and is of the medical profession. That he came to this province in the year 1817, and applied in the following year to His Grace the late Duke of Richmond for a reference to the Medical Board with a view of obtaining permission to practise his profession in this province, but was informed it was absolutely necessary that a foreigner should reside seven years before he could claim the privileges of a British subject. That your Excellency's petitioner has now resided more than seven years in this province, and has taken the oath of allegiance to His Majesty.

He therefore humbly begs that Your Excellency will be pleased to order his examination, and, if found qualified, to grant

Sheweth; humbly, that
your Excellency's petitioner, twenty nine
years of age, was born & bred in this
Province, & is a loyal & faithful subject
of His British Majesty;

that your Excellency's
petitioner has been engaged, since several

especially at the medical Institutions of Vermont & New hamshire States, there being, at the time of his departure for the united States, no medical Institution in this Province;

That on the fourteenth of December, 1824, your Excellency's petitioner, has received from the conjoint authority of the Vermont Academy of Medicine & Middlebury College, the degree of Doctor in Medicine, as it appears by the diploma which accompanies the present;

That your Excellency's Petitioner, now returned in this Province, his native country, & desiring much to establish himself, & practise, therein, Medicine in its various branches, is under the necessity to have recourse to your Excellency to obtain the permission or licence to authorize him so to do;

That, by the laws of this Province, & especially by an act or ordonnance of the legislative council of the 28th. year of His Majesty, George the third, chapter 8th., it is statuated that those who shall have received their medical degrees at any legal medical university, shall not be submitted to any examination, before, & for obtaining the permission or licence necessary to authorize them to practise Medicine in this Province;
