The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

St. Lawrence Hall,

Situated on GREAT ST. JAMES STREET,

MONTREAL.

HOGAN & PENN, . . . PROPRIETORS.

This first class hotel, (the largest in Montreal,) is situated on Great St. James Street, in front of the French Cathedral, or Church Ville Maria, Notre Dame Street, immediately adjacent to the Post Office, Place d'Armes, and Banks; is only one minute's walk from the Grey or Black Nunneries, New Court House, Reading Rooms, Champ de Mars, where the troops are reviewed, Mechanics' Institute, Nelson's Monument, Canadian Institute, Bonsecour's Market, and the Fashionable Stores. The new Theatre Royal is directly in the rear of the house, and several of the best boxes in the Theatre are regularly reserved for the guests at *St. Lawrence Hall*.

ST. LAWRENCE HALL

Is now regarded as the oldest and most fashionable hotel in Montreal. It has been under the charge of

its present proprietors for upwards of six years. The building presents a front of some 300 feet on St. James Street, with a depth of near 250 feet, and was originally designed for over 150 apartments, conveniently divided into halls, dining-rooms, public parlors, suites of rooms for families and parties, with commodious rooms for gentlemen. Within the past year additions to the extent of over 75 rooms have been made, the house has been entirely re-furnished and put in complete order, and now presents superior attractions to its old customers, and new ones will find all that comfort and attention for which its proprietors have been so distinguished.

Travellers' Guide.

CITY OF MONTREAL.

THE CITY of MONTREAL is one of the largest and most populous cities in British North America. It was founded by M. de Maissonneure, in 1642, on the site of an Indian village, named Hochelaga, and dedicated to the Virgin Mary as its patroness and protector, and for a long period bore the name of *Ville Marie*. It is laid out in the form of a parallelogram, and contains some two hundred streets, with a population of about 70,000.

The traveller, in approaching the city from the river, is struck with the peculiar beauty of the large cut stone buildings which front the majestic river St. Lawrence, on whose banks they are reared, resembling in their solid masonry and elegance the buildings of European cities. The wharves and streets, unlike the cities of the States, are always clean, and the atmosphere pure and healthful.

The Island of Montreal is, in fact, most properly

regarded as the garden of Canada. The city being at the head of ship navigation, her local advantages for trade and commerce are unsurpassed. The completion of the various railroads, as lately celebrated, with those already in successful operation, will greatly augment her business resources and facilities, and afford strong inducements to capitalists for investing their funds for the future.

Places of Interest to the Traveller.

PUBLIC BUILDINGS.

Among the many substantial and elegant edifices in the city, of recent completion, may be mentioned :

THE NEW COURT HOUSE, on Notre Dame Street, and directly opposite to Nelson's Monument, is of elegant cut stone, in the Grecian Ionic style. The ground plan is 300 by 125 feet; height, 76 feet.

THE NEW POST OFFICE, on Great St. James Street, opposite *St. Lawrence Hall*, is a beautiful cut stone building. J. B. MEILLEUR, LL.D., is Post Master.

THE MERCHANTS' EXCHANGE, situated on St. Sacramento Street. Several Telegraph and Insurance Offices are in this building, as also the Reading-Room.

THE MECHANICS' INSTITUTE, a very fine building, situated on Great St. James Street, of cut stone, three stories high, built in the Italian style. The

Lecture Room is sixty by eighty feet, height eighteen feet, neatly and tastefully finished.

THE MERCANTILE LIBRARY ASSOCIATION, Odd Fellows' Hall, opposite the above.

THE BANK OF MONTREAL, Place d'Armes, St. James Street, opposite the Cathedral, an elegant cut stone building of the Corinthian order.

THE CITY BANK, next to the above, in the Grecian style, of cut stone, and worthy of note.

THE BANK OF BRITISH NORTH AMERICA, Great St. James Street, next the Post Office, is a handsome building, of cut stone, and built in the composite style of architecture.

THE BONSECOUR'S MARKET, on St. Paul and Water Streets, is a magnificent edifice in the Grecian and Doric style; cost about \$300,000; has a front of three stories on Water Street, and two stories on St. Paul. The upper part of the building is occupied by the various officers of the city. The City Council Room is fitted up in the most elegant style. In the east wing of the building is a large Hall or Concert Room, capable of seating 4000 persons.

THE ST. ANN'S MARKET, opposite the Grey Nunnery, although not built in the style or at the expense of the former, is still a building that speaks well for the

height eighteen public spirit which governs the city, in the erection of their public buildings.

tion, Odd Fellows, St. James

The MCGILL COLLEGE. This is an institution of very high repute. It was founded by the Hon. James McGill, who bequeathed a valuable estate and £10,000 for its endowment. The buildings for the Faculty of Arts are delightfully situated at the base of the mountain, and command an extensive view.

The MUSEUM OF THE NATURAL HISTORY OF MONTREAL, is situated in Little St. James Street, and is free to strangers.

Nunnery,
expense of
ell for the
THE NEW CITY WATER WORKS. Among the many enterprises there are none which promise more general and useful advantages to the city, than the new

works for supplying the city with water. One of the greatest blessings is health, and nothing is more conducive to this than good pure water. This has now been secured by the erection of these works, which tap the St. Lawrence at the Lachine Rapids, some six miles above the city. These works will cost the city, when fully completed, nearly \$1,000,000. The two receiving reservoirs for supplying the city are about 200 feet above the level of the river, and hold twenty millions of gallons.

THE JAIL. This is a substantial stone building, surrounded by a high wall, and is worthy of a visit. It has recently been erected, at an expense of \$120,000.

THE GENERAL HOSPITAL, on Dorchester Street, is a fine cut stone building, and is one of the many prominent institutions of the city.

THE ST. PATRICK'S HOSPITAL, at the west end of the same street, is an elegant structure, and occupies a commanding position.

THE PROTESTANT ORPHAN ASYLUM, situated in Catherine Street, is a well-conducted charity, sustained by the benevolence of private individuals.

THE LADIES' BENEVOLENT INSTITUTION, for the relief of widows and half orphans, is a large three-story building in Berthelet Street. It is managed solely by a committee of ladies.

water. One of the THE THEATRE ROYAL, Cote Street, in rear of the nothing is more con-*St. Lawrence Hall*, is a fine brick building, and capacity. This has now of accommodating about 1,500 persons. Under these works, which its present management, it has become quite popular the Rapids, some six with the lovers of the drama.

will cost the city, NELSON'S MONUMENT, Jacques Cartier Square, Notre 00,000. The two Dame Street.

he city are about THE WHARVES of this city are unsurpassed by any and hold twenty on the American Continent. They are built of solid masonry, and are about two miles in extent.

ne building, sur- THE LACHINE CANAL is among the public works y of a visit. It particularly worthy of note, and of which the city se of \$120,000. may well feel proud. We doubt whether there is on the Continent, when taken in connection with its locks and basins, so permanent and beautiful a structure; its massive masonry commanding universal attention.

VICTORIA BRIDGE.

the west end of This splendid structure, now in progress, to cross re, and occu- the St. Lawrence, will be, when completed, one of ated in Cath- the most stupendous structures in North America, ty, sustained and materially aid the business of Montreal, cross- s. ing the river from Point St. Charles to the opposite or the relief shore. It is to be built on the tubular principle, the three-story same as the Britannia Bridge, at the Menai Straits, aged solely and will have a track for railway cars in the centre, while on the outside of the tube there will be a bal-

cony on each side for foot passengers. The bridge will rest on twenty-four firm piers, and it will be sixty feet high, from summer level. The entire cost of the work is estimated at \$7,500,000.

MOUNT ROYAL CEMETERY, is situated on the east side of the Mountain, about two miles from the city. Judgment and taste have been displayed in the selection and management of the grounds; it is much visited by strangers.

THE CHAMP DE MARS. This is a favorite promenade for citizens and strangers, being the general parade and review grounds of the military, and is frequently enlivened during summer evenings by music from the fine bands of the regiments.

PLACE D'ARMES is a handsome square, between Notre Dame and Great St. James Streets, opposite the French Cathedral. It is surrounded by a neat iron railing, and tastefully laid out and planted with shade trees. In the centre of the square is a fountain.

As a place of beauty and pleasure, the ride from the city to MOUNT ROYAL will attract the traveller at all times. The distance around it is nine miles, commanding one of the finest views of beautiful landscape to be found in North America; and in returning, entering the city, a view of the St. Lawrence and of Montreal, both comprehensive and extended, that well repays the time and expense.

ive and ex-
ense.

Next to the drive around the Mountain is that on the Lachine road, leading to the village of that name, nine miles from the city. The road is directly along the banks of the river, presenting scenery of unsurpassed beauty and grandeur. It is a lovely drive. If the proper hour is selected, a view may be had of the descent of the steamer over the rapids.

Another favorite drive in the immediate vicinity, is to Longue Pointe, being in an opposite direction from the last and down along the banks of the river.

It would be useless to undertake an enumeration of all the places of interest in and about Montreal, for we believe that there are but few places on the American Continent where can be found so much of interest to the traveller, whether in pursuit of health or pleasure, as in this city.

The Churches of the City.

ROMAN CATHOLIC.

X L'EGLISE DE NOTRE DAME, or THE FRENCH PARISH Church, is situated in Place d'Armes, and forms one of the most prominent attractions to the stranger. The corner stone of this Church was laid in 1824, and it was opened for worship in 1829. It contains one thousand two hundred and forty-four pews, and will seat over eight thousand persons. The towers of the Church are two hundred and ninety feet in height. In the north-east tower is a chime of bells, while the north-west contains the monster bell, the largest in America, weighing twenty-four thousand pounds. This tower is always open to the public by payment of a small fee; from the top is presented a splendid panoramic view of the island of Montreal, which well repays the fatigue of the ascent. The Church contains a variety of paintings, which, with the splendor of the altars, renders it interesting.
