He said, the Resolution was a hold one, and contained a statement of grievances, which every true lover of humanity should complain of; and it there was ample scope for two dozen Lectures. He illustrated the various points, in a peculiarly happy style, by very pleasing anecdotes, apparently to the gratification of the vast number of persons present, who, after he had spaken for an hour, and was about to conclude, seemed reluctant to part with such an ietellectual Temperance feast. It is very plain that the unrestricted extension of ecclesiastical power, which Mr. Roundell Paimer, the mouth-piece of the Puscyitas, nicknames facetiously "religious liberty," is nothing but full-blown Popery now in a state of chrysalis. The erawling things which have been engendered from the Oxford Tracts, are only waiting their appointed time before they show themselves in their true gaudy colors, and will soon burst forth as true Popish butterflies, in all their meretricious splender, the ephenoral creatures of a single day. Surely Oxford will never permit such an insult to her loyalty and faith as to be any longer misrepresented by such a versatile politician as Mr. Gladstone. LIVERPOOL CORN MARKET.

March 29th.—Increased firmness on the part of holders. At our Corn Exchange, on Toesday, prices were generally sustained, and in many instances, Wheat was 2i per 70 lbs, and Flour 6d to 91 per barrel dearer than that day week. Indian Corn in fair demand, and a shade dearer. Business at our market this morning was very moderate. Wheat and Flour supported the rates of Tuesday. The principal demand was in Indian Corn, at 4d advance. The best American Yellow touched 31s per 480 lbs. Cotton has advanced ithe sales of the week, 47,000 bales. The advance was caused by the continued belief, that the crop in America will prove very deficient.

CRADIT RATES OF PREMIUM.

THE great and decided success which has attended the Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to combie parties to avail themselves of the important benefits to Life Assurance at much louer Rates of Premium than those of any other Assurance Company 1 assuring business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by see or land, to other parts of North America without affecting their Interest in their respective Policies.
