ROBBERS ENTER VESTRY DURING CHURCH SERVICE

Two minor robberies took place in the city last night. When Mrs. King of 208 William street returned home after attending church she found a side door had been forced open, and she suspected that some one had entered the premises. She has not, however, discovered that anything is missing. The other case of felonious entry took place in a church. Whilst the Rev. C. E. Jenkins was conducting services at St. Jude's Anglican Church last night robbers entered the vestry and stole cash amounting to 50 cents and some fruit. Beyond this they stole nothing.

AT COLBORNE STREET The various gatherings at Colborne St. Church yesterday were all large. The Brotherhood was addressed by Rev. J. J. At the open session in the afternoon, an illustrated story of "Given" from Ralph Connor's Skypilot, was given by the Superintendent, Mr. C. F. Verity. Several numbers on the Victrola, illustrated by lantern slides, were very effective. It was a delightful occasion.

SUNDAY IN THE LOCAL CHURCHES

Inspiring Services Throughout City—Helpful Sermons.

WELLINGTON STREET. At Wellington Street Church Sunday the Brotherhood speaker was Mr. A. Chrysler, who spoke on "The Relation of Music to the Church." The address was excellent and much appreciated by the men. "Evil" was the pastor's (Rev. R. D. Hamilton's) theme. This is the 8th discourse on The Lord's Prayer. A large audience was present. Messrs. J. W. Stubbins and W. G. Darwin assisted the choir in the anthem. The morning soloist was Mr. Frank Houghton, whose song "Jerusalem" (Rodney) was beautifully rendered. The Sunday School took up a Quarterly Review. Miss McIntosh played a fine piano solo for a prelude. The collection was much larger than usual. After the lesson Mr. Ranton gave a brief, but very interesting talk on "Neesima." The report read by Mr. F. J. Waterson was great. Mr. Standing was absent owing to an injured knee. A most powerful sermon was delivered in the evening, by Rev. D. W. Snider, Toronto Secretary of The Lord's Day Alliance. The address revealed the magnitude of the work that this splendid organization is doing. It was closely followed by a large and appreciative congregation. The choir under Mr. Thomas Darwin, excelled themselves. The singing of "Unfold ye Portals" (Gounod's Redemption) was magnificent. Miss Ruby Cann, the popular contralto, sang a pleasing solo. Mrs. A. T. Whitaker, Mrs. (Dr.) Cooper, Messrs. Stubbins and Houghton assisted in the hymn-antiphony. The Darwin Orchestra gave a recital before the service and assisted the choir all through the evening.

MARLBORO ST. CHURCH. Two very interesting services were held in Marlboro street Church yesterday. In the afternoon 154 scholars and visitors attended the Sabbath School which is growing in interest and numbers and speaks well for the teachers and officers of the school. In the evening, Mr. John Greet occupied the pulpit and gave a splendid address on the need of a revival. The speaker took for his text Acts 2:41, "Then they that gladly received his word were baptized, and the same day there were added unto them about three thousand souls. Rivalry are the first present day needs owing to the spiritual condition of the world to-day, even as matters stand, with all the advantages which we possess, which have come to us through the preached gospel. Some of the results of a great revival would be a successful Church in winning souls for the Kingdom of Christ and as a power in bringing men and women in touch with God's Holy Spirit and higher ideals of living, as a result. Mr. Packham sang a gospel song very pleasingly and the music given by the choir was very appropriate for the occasion.

WESLEY CHURCH. Rev. T. E. Helling of Colborne street church preached at the morning service in Wesley church yesterday, taking as his text the words found in John 4: 1: "And I will pray the Father and he shall give you another Comforter that he may abide with you forever." The preacher took especially the word "Comforter," showing from its derivation from the Greek at many shades of meaning contained in the word; not only does it mean as in our English language "to comfort," but "a bearer of burdens, an intercessor," and that our hope of advocacy is based on the clear words of the Bible, that we have an advocate with the Father making intercession for us. Miss Corinne Chave sang very sweetly, "To Thee I Come" (ostea.)

AT BELLE VIEW The first religious services held in Belle View school house on the Cockshutt road took place last night. The attendance was beyond the most sanguine expectation of the most enthusiastic member of the congregation who overheard saying to another, "I was just saying to my wife that we shall very soon have to put up a church down here." The gospel singing by the congregation was very earnest and inspiring. Dr. Linscott preached a forceful and characteristic sermon, demonstrating that the greatest delusion of the devil was to persuade people that while religion was a necessary thing to have in dying, that it was too doubtful and pessimistic to live with. The speaker said that the devil had deluded the majority of people to believe that religion was like a bitter dose of medicine which the patient took to save himself from a worse thing, but that no person would take the medicine until he was compelled to do so. In his elaboration of the text, "Her ways are ways of pleasantness and all her paths are peace," he effectually exploded this almost universal delusion, showing that the religion of Jesus was not only necessary at death, but that it made life more worth living, and that true Christians are necessarily a happy and an optimistic people.

At the conclusion of the service there was a unanimous vote of the congregation for Dr. Linscott to continue these services.

A Canadian Luncheon At the Y.W.C.A.

(By Cona.)

What a pretty picture greets one, as you entered the club room at the Y. W. C. A. Saturday afternoon. Seated at many tables bright with flowers, the Canadian luncheon is about to be served. The motto on the pretty menu card, with the maple leaf on the cover, was appropriate. Anticipation is the oil that feeds the flame of life—amerion.

We had anticipated much and were certainly not disappointed. At the head table were seated, Mrs. Philip Buck, who with a charming and easy manner introduced the guest of honor, Mrs. Scott Raif. First of all the National Anthem was sung and then a vocal solo by Miss Cleghorn was rendered very feelingly. Mrs. Scott Raif responded to The Drama. Her pleasing personality and presence is attractive and the gifted speaker sketched vividly the power for good of the drama from its early Greek inception until to-day. What impressed one favorably, was the clever response, to their various toasts given by our teachers of whom we are justly proud. Women of ideals; women of intellect; women whose responsible life work in moulding the lives of many is a great and noble task. The various toasts and their mottoes were as follows: A pleasing feature was the various songs rendered so sweetly. Mrs. Adams of Burford sang with much sympathy and acceptance; Miss Marovic Sweet won laurels by her rendering, with culture and sweetness Patience Johnson's songs, set so cleverly to music by Mr. Henri K. Jordan, who played her accompaniments. Mrs. W. C. Livingstone in response to "Our Club" was in a happy vein of humor, as she told a funny story that amused everyone. Miss Hollinrake, Miss Carlyle, Miss Perley, Miss Raymond and

Mrs. S. W. Secord spoke, the latter two giving very patriotic and clever talks on Canada. Miss Hollinrake's clever bouque of literature still lingers its perfume, like the rose is lasting. We congratulate the executive of the Literary Club on giving its members and others such a rare treat, "a feast of reason and a flow of soul," well long to be remembered by those present. Later they adjourned upstairs, when Mrs. Scott-Raif finished her season's talk on the "King and the Book." She gave her many admirers an insight into the obscure and great poems of Browning that they could not otherwise have had.

AT BELLE VIEW The first religious services held in Belle View school house on the Cockshutt road took place last night. The attendance was beyond the most sanguine expectation of the most enthusiastic member of the congregation who overheard saying to another, "I was just saying to my wife that we shall very soon have to put up a church down here." The gospel singing by the congregation was very earnest and inspiring. Dr. Linscott preached a forceful and characteristic sermon, demonstrating that the greatest delusion of the devil was to persuade people that while religion was a necessary thing to have in dying, that it was too doubtful and pessimistic to live with. The speaker said that the devil had deluded the majority of people to believe that religion was like a bitter dose of medicine which the patient took to save himself from a worse thing, but that no person would take the medicine until he was compelled to do so. In his elaboration of the text, "Her ways are ways of pleasantness and all her paths are peace," he effectually exploded this almost universal delusion, showing that the religion of Jesus was not only necessary at death, but that it made life more worth living, and that true Christians are necessarily a happy and an optimistic people.

At the conclusion of the service there was a unanimous vote of the congregation for Dr. Linscott to continue these services.

A WONDERFUL COLD CURE.
Just think of it, a cold cured in ten minutes—that's what happens when you use "Catarrhoxone." You inhale its soothing balsams and out goes the cold—sniffles are cured—headache is cured—symptoms of catarrh and grippe disappear at once. It's the healing pine essences and powerful antiseptics in Catarrhoxone that enable it to act so quickly. In disease of the nose, for irritable throat, bronchitis, coughs and catarrh it's a marvel. Safe even for children. 25c and \$1.00 sizes at all dealers.

Unimpeachable—If you were to see the unequalled volume of unimpeachable testimonials in favor of Hood's Sarsaparilla, you would upbraid yourself for so long delaying to take this effective medicine for that blood disease from which you are suffering.

FIRST LORD MADE FACTS INTERESTING

(Continued from Page One)

Attached to the flying squad altogether 105 officers and 500 men, and he predicted that the numbers would reach 180 officers and 1,400 or 1,500 men before the end of the year. When he came to the admiralty two and a half years ago there were nine machines. Five stations were being equipped along the coast with full arrangements for housing machines and quarters for officers and men, and two more are under construction. Special sea-plane vessels are being built which can accompany a fleet and carry several machines. "Of course the heavy sea-planes which we are developing now," the first lord said, "will carry formidable explosives which could be dropped on transports. They carry wireless telegraphy which enables them to signal 120 miles effectually, and they have been quite able even to receive a message while in the air."

Oil as Fuel.

On the vital topic of the British navy's steps to introduce oil as fuel for warships and to secure sufficient supplies thereof, the first lord's explanations were noteworthy, principally for what he asserted regarding the oil reserves. The government maintains the greatest secrecy concerning the location of the oil reserves as well as the sources of supply. The sum of \$7,500,000 was asked as an appropriation for the oil reserves, but the first lord explained that with the cost of tanks and pipe lines to deliver oil to the jetties much more is being spent. "Oil in quantities" has been purchased in this country, and large quantities will reach us during the period covered by the new estimates," was the most explicit information he consented to give. "The great exertion has been made. There is no difficulty in obtaining," he said. Opposition newspapers have hinted strongly at scandals in connection with oil contracts, and accused the government of favoring capitalists who are its friends. Rupert Gyne, M.P., pressed Mr. Churchill to publish the contracts, and particularly wanted to know whether the Mexican Eagle Company, of which Lord Cowdray is the head, was among the favored ones. The first lord issued a memorandum from the royal commission, which investigated the question of oil fuel, asserting that secrecy regarding naval supplies was necessary. He refused to give the names of contractors, and would say only that Mexico is one of the countries from which oil is being obtained. Some news of the campaign for oil did drop out in the speech. The admiralty has been building a fleet of oil tank steamers very quietly. Four are already in use and ten more are under way. Large ships of this type are in the line of battle during war and will continue to depend on coal, but the Cardiff product has become obsolete already, he said, for light cruisers of the latest types, all of which are equipped with oil consuming engines. Torpedo boat destroyers and the small craft generally are consuming oil. The newest smaller ships are being equipped with the torrey type. The radius of action of a fleet with oil burning engines would be increased forty per cent and the fighting strength of a fleet would be increased 25 per cent because of the greater facility of re-fuelling at sea in all weathers, so that ships would not be obliged to return to their base for coaling. The reduction of the stock-hold force would be 55 per cent. Oil would give the advantage of a very rapid increase of steam production and would eliminate the variations of steam pressure necessary for the cleaning of coal burning furnaces.

SIR LYMAN JONES.

The formal announcement of Sir Melvin Lyman-Jones, president of the Massey-Harris Company, and Senator, that he has left the Liberal party, or, rather, that the Liberal party has left him, will not occasion any surprise to those who appreciate his qualities.

His whole successful career has demonstrated that he is an exceedingly far-sighted man. When, therefore, he expresses the view that a moderate amount of protection is necessary in Canada for revenue and as a safeguard against the huge combines across the border, he is stating something which every man who gives the matter thoughtful consideration must realize to be true.

The Senator knows right well what it would mean to the factories and the men in Brantford and other centres if agricultural implements should be placed on the free list, and he is followed in this view by thousands of other Liberals, the members of the Brantford executive included.

He has been a lifelong adherent of his former side, and a tower of strength, not alone personally, but also in the matter of meeting the calls which are necessary for the organizations of the parties on both sides. That the step which he has felt bound to take is possessed of a deep significance even the most casual cannot fail to realize.

THE HIGH COMMISSIONER-SHIP.

Certain Liberal papers are still affecting to be much concerned with regard to the appointment of a successor to Lord Strathcona as Canadian High Commissioner in the Old Land. They affirm that there is much trouble with reference to filling the post and that the members of the Cabinet cannot decide whether it shall be Premier Borden, Hon. Robt. Rogers or somebody else. Hon. Mr. Graham is also greatly concerned about the matter and depicts the administration "as shivering on the brink."

What brink? The position is one of too great importance to be filled in any rash manner. Laurier was more than glad to ask Strathcona to continue in same because of the great financial demand which the post involves. The salary has never hitherto been adequate for the upkeep, and has involved demands upon private resources, and it is not every man who can go into his own pocket in this supplemental manner. That there is any crisis is absolute unbecome and the claim is simply one more illustration of how hard the Liberals are put to it these days in a wild effort to get some party ammunition. Without question Mr. Borden and his colleagues will see to it that a suitable appointment is ultimately made.

VISIT OF THE DUKE.

The announcement that the Duke of Connaught, Governor General of Canada, will pay an official visit to Brantford, on Saturday, April 16th, next will be received with pleasure by the residents of the City and County alike. Not only has he made abundantly good as the occupant of Rideau Hall and displayed much tact and urbanity, but as the only surviving son of "Victoria the Good," he will be doubly welcome. His Royal Highness is in his sixty-fourth year and will be the third member of the reigning house to pay an official visit to this community.

The first was the late King Edward who as Prince of Wales made a tour of the Dominion in 1860. His trip to Brantford occurred on Friday, Feb. 14th, of that year and there were great preparations. Ordnance were placed on Terrace Hill to thunder forth a welcome as soon as the train reached the depot, and arches of evergreens and appropriate devices were placed across the track at the station, and others crossed the streets at intervals along the whole route to be traversed by the Royal party. Union Jacks and patriotic mottoes floated from public buildings and many windows and a clear cool day added to the zest of the celebration. It is estimated that twenty thousand people assembled within the gates of the Town as it then was. After addresses

and the singing of the National Anthem by school children, a procession was formed of various official bodies societies and so on, and under a reception canopy, more addresses were presented to each of which the Prince made suitable replies. Later, there was a notable luncheon at the Kerby House.

The next Royal pair to come here were the Prince and Princess of Wales, now the King and Queen. Their stay was very brief, comprising a short program on a platform erected outside the Gand Trunk depot. On this occasion, among other things, there was the presentation from the city of a silver telephone. The enthusiasm from first to last was most marked.

That the Duke will also be received with equal cordiality, does not admit of any question, not alone, as before mentioned because of his own sake, but also for that of his revered mother.

THE ANNUAL SPRING FRESHET MENACE.

The following editorial is from the Toronto Globe: "Present appearances indicate that some centres of population in this Province which have been chronic sufferers from destructive spring freshets for half a century will get out of this year with very little loss. The reason that some adequate system of preventive works should be planned at once and constructed by degrees is none the less impressive because the worst has not happened this time; mere sense of relief should be as potent a warning as actual disaster.

As usual the dreaded freshets have been heard from all over the Province, but most significantly so from the western peninsula. The Grand River has always a bad re-epidemic, the Thames being a good second. The causes of dangerous spring floods in the cases of these two rivers are not merely similar but typical; in a great measure less degree they are operative all over the peninsula, and are obvious enough to all who care to give their attention to them. The peninsula is a plateau with sloping sides completely around it. The rivers rising on this plateau run to Lakes Erie, St. Clair, Huron and Ontario. The chief rivers are the Grand, the Thames, the Maitland, the Saugeen, the Beaver, the Nottawasaga, the Holland, the Huron, and the Credit. The central plateau, an oblong from southwest to northeast, was down to fifty years ago largely covered with primeval forest, including extensive swamps, the modern form of ancient lakes; now it is a wind-swept, deforested expanse, artificially drained, and otherwise artificially prepared to get rid as speedily and completely as possible of the stored-up rainfall of winter and spring. If the snow is not too deep, or if it goes off slowly through the advance of the season, all disaster may be avoided; if the snow is deep, and it goes off with heavy and frequent rain, this has been an on-again in trouble, but next year may be the worst in the history of the Province.

The physiographic facts being known, it is easy to suggest the fitting precaution: the water that rushes away in a few days must be detained by artificial obstructions, and thus retained where it is beneficial, instead of being allowed to hasten to where it is destructive. When the country was covered with forest the swamps were receptacles of water, and the streams were obstructed by fallen trees and beaver dams. By drainage the swamps have been converted into farming land, the beaver dams have been opened up, and the water-logged timber has been taken out. In consequence of these "improvements" the spring freshets, instead of being prolonged for weeks, pass away in a few days. To make them more potent for mischief the ice on the upper and more swift-flowing portions of the rivers generally breaks up before the ice lower down, and when this happens the freshet water is piled up higher than would otherwise be the case. The obvious remedy is to construct storage dams where the streams are small and hydrographic conditions are locally favorable. One incidental advantage resulting from the storage of water on the plateau and its sloping sides would be an improvement of the climatic conditions; another would be an enormous increase in the availability of water-power for the development of hydro-electric energy.

NOTES AND COMMENTS.

A rev. gentleman named Styles has just been appointed to an Ontario parish. He ought to attract the fair sex.

General "Pancho" Villa did not get into the city of Torreon after all. To the contrary, it would seem as if he and his followers got something like a spanking.

The Toronto Globe pretends that the Borden Government is worried "about the public." The chief worry with the Laurierites is that they can't get the public, and are not likely to do so for many years.

Melli Besse, Germany's noted woman aviator, has decided to enter into the competition to fly across the Atlantic. She ought to take the Pankhursts along, for they have proved themselves to be expert air artists.

Christabel Pankhurst says that after women get the vote households will be kitchenless, as the lady of the family will be so busy regarding public affairs that she and hubby, and the kiddies will dine at restaurants. If Christabel would give the public a rest with regard to some of her stunts, that would be more to the purpose.

The Danish Senate has refused to ratify a treaty entered into by the Government, the Canadian Senate is all the time pole-axing useful legislation of the Borden Administration, and the U. S. Senate is fighting to have Uncle Sam break his pledged word regarding Panama Canal tolls. Taking one consideration with another, Senates everywhere seem to be not only pesky, but also pestiferous.

The deaths from typhoid fever in the city of Ottawa for the last eleven years (figures taken from the official returns of the Registrar-General for Ontario), are as follows:

1902	19
1903	6
1904	13
1905	14
1906	25
1907	25
1908	25
1909	20
1910	24
1911	27
1912	28
Total	369

And this is the awful toll which the people of the Capital City paid because of the lack of a pure water supply.

THE SILVER LINING.

Last summer when the hot winds blew, and willed things on every hand, and when the sun, in skies of blue, shone down and blistered all the land, we mortals raised a bitter wail, and cried: "In this there is no sense, for all our cherished crops will fail! Oh drouth disastrous, get thee hence!" Had any moral high-browed guys attempted to convince us then that back of all was purpose wise, we should have jeered and jeered again. But now that theory is fulfilled, for we're informed ten thousand scores Ben Davis apple-trees were killed, by that fierce drouth to bear no more. Ben Davis trees are standing dead throughout this glad and fertile land, and we regret the things we said because we did not understand. So let's be patient after this when trouble dogs us, close behind, for sorrow's but a cloak for bliss, and threatening clouds are silver-lined.

WALT MASON.

To The Editor

SHOULD BRANTFORD HAVE A ROLLER RINK ON ALFRED STREET.

To the Editor of the Courier:

Sir—This is a question agitating the minds of a large number of people just now, especially the younger ones, who I think should be especially considered in the matter.

I read with some surprise the account of the Council meeting last Tuesday and the attitude of the members on that occasion. A few property owners in the immediate vicinity of the rink are trying to prevent a license from being issued, and from their point of view are entitled to be considered. But are they justified in their contention that the rink has depreciated property? Previous to the rink being built the land on the west side of Alfred street was useless for any residential building purpose. It lies in a hole and the city sewers ran across the property. The view is a flat of waste land, railway yards and factories and the lots themselves a wilderness of weeds and wares bottles. Mr. Trench has spent a large sum of money redeeming the land and has built (not a root house as one of the members called it), but one of the finest skating rinks in Canada. If the 700 cubic yards of concrete contained in the walls (averaging over twenty feet high), were on the ground level and blocked off in the regular way, you would agree with me it was an ornament to the town.

Now, Mr. Trench has spent a large sum of money, and paying a large revenue towards our taxes, and is it fair that his property be closed for eight or nine months each year.

As I said before the young people are entitled to consideration and it is well known that numbers go, through the summer months to Hamilton for roller skating. If there is no accommodation in their home town for them the young people will go where they can get sport. When they get away from home influence they throw away (very largely), all sense of restraint and we wonder why they get into trouble.

Roller skating is a clean sport and a healthy exercise and run under proper conditions and management should help to keep our young people at home here the parents have a chance to watch over them.

Birthdays of Note

MONDAY, MARCH THIRTIETH

The Rev. R. E. Knowles, of Galt, one of Canada's best known novelists and the author of several entertaining books, was born forty-six years ago to-day in the village of Maxwell, Ontario. He says that one of the most amusing incidents in his life occurred one day when a man and woman came to his house to be married. With his wife as one of the witnesses, Mr. Knowles went through the ceremony, and according to his custom, closed the performance by kneeling down and asking the Divine blessing on the couple, with a special petition that the man might be abundantly blessed in his business. As the two were leaving, he incidentally asked the groom what calling he followed and was somewhat dismayed to find that he was a saloonkeeper. "Well," said he to Mrs. Knowles, after the door had closed, "I'll just have to tell God, that that petition about prospering the fellow's business is one that he needsn't fulfil."

Samuel Palin, for many years a resident of Hamilton, died yesterday. He was 89 years old.

AN ATTACK MADE

When the leaders of the various parties are summoned to Buckingham Palace the King's efforts are always directed to making opponents come together in agreement. He urged Sir Edward Carson to do this in the present case. He pointed out that the King is constitutionally obliged to sign the Home Rule Bill if it goes through the House of Commons and is presented to him. Sir Edward Carson replied in effect: "If you sign the bill you will sign away the monarchy," which is practically what Queen-Mother Alexandra said about the Parliament Bill.

Army Crisis Acute.

Again, when the army crisis was acute, and it has been and is even more acute than what has been published would indicate, the King really supported the Government. As was said in a recent despatch, a crisis such as the present army and navy affairs most nearly concerns the sovereign, whether the army and navy are technical forces of Parliament or not, phrases such as "the King's commission," "H. M. S. Dreadnought," meaning "His" or "Her Majesty's"

Dreadnought," songs such as "Soldiers of the Queen," and a thousand other things show that the links between the crown and the fighting forces is the strongest link the monarchy in this country has with its subjects.

To Preserve the Throne.

Yet even here the King uses his influence undoubtedly in behalf of his Ministers. To one great General from Aldershot, who was for paralyzing the Government on even stronger lines than the officers at the Curragh did, the King said: "General you seem to wish to establish an oligarchy in this country." The General, who like many other Englishmen, considers Cabinet rule as already an oligarchy, replied, just as Sir Edward Carson did: "We wish to preserve the throne."

The influence of the King prevented wholesale resignations at Aldershot and prevailed on the officers from the Curragh to make terms with the government, and the sovereign cannot be blamed for the incredible weakness and double dealing with which the Cabinet and Secretary for War Seely brought about the acceptance of the terms.

For these reasons, if the ministers had told the whole truth, the cry of "The King and the army against the people," which is the election cry on which many extremists in the Radical

partly are willing to go to the country at once, would have to be changed so as to omit the name of the King.

The so-called wicked attempt of the Tories to use the army for political purposes and the wicked attempt of the Radicals to make the nation believe such a wicked lie are the subjects of fiery articles in the newspapers of the respective parties. The wicked attempt of the government to provoke the men of Ulster to bloodshed and the wicked lie that the government had attempted any such thing are the topics of other furious rival creeds.

The new Radical cry of "The Army erus the People," on which it is hoped to win the next election, is to be formally blessed at a special meeting of the National Liberal Federation on April 3.

MR. ASQUITH FOOLS 'EM ONCE MORE

(Continued from Page 1)

The Premier said that after full consideration, Field Marshal French and Adjutant-General Ewart had persisted in their desire to be relieved of their offices and in the public interest he deeply deplored the decision of these gallant officers and I cannot speak too warmly or gratefully of the ability, loyalty and devotion with which they have served the state and the army, and will, I hope, continue to serve.

The Premier told the House that Col. Seely had informed him to his great regret that he felt bound to take the same course and resign from the secretaryship for war.

Mr. Asquith then sprang his sensation on the House. He said: "In the circumstances and after much consideration I have felt it my duty to assume the office of secretary of state for war, although I have taken the step only with the greatest reluctance in what I believe to be a great public emergency."

That the Premier's announcement was a complete surprise was evident on every hand. The members on the ministerial side of the House were momentarily struck dumb, but then they jumped onto the seats and broke out in wild hurrahs.

Premier Asquith added that Sir Jons French and Sir John Ewart had asked him to say they were in entire accord with the statement he had made to the House of Commons on Friday.

Premier Resigns In announcing that King George had signified his approval of his assumption of the War portfolio, Premier Asquith concluded: "I have taken the law to the highest legal authorities to obtain their opinion and all the lawyers are agreed that I must resign from the House of Commons. I, therefore, in accordance with the law retire from the House

until my constituents shall have given their approval of my acceptance of this office.

In a brief personal statement Col. Seely told the House there was no difference between himself and his colleagues in the cabinet on any point of policy or principle. He said he had pressed his resignation because there appeared, although such was not his intention, to have been a bargain with the army officers regarding the service they should render the crown. Neither had Sir John French nor Sir John Ewart the intention of making such a bargain.

Col. Seely said he did not wonder, however, that the house had resented the idea that there should have been such a bargain. These two officers had in these peculiarly ironical circumstances felt it to be their duty to resign, and it was clearly the duty of the secretary for war to do the same in order that it might never appear that a minister of the crown had made a bargain with crown servants regarding what should be done.

Andrew Bonar Law, leader of the Opposition, thought it would be impossible to proceed with the Irish Home Rule bill in the absence of the Prime Minister, but Premier Asquith remarked that he would be at hand if advice was wanted, and then left the House, of which Reginald McKenna, the home secretary, assumed the leadership. The resignation of Viscount Morley of Blackburn, as president of the council, is generally expected to follow that of Col. Seely with whom he was associated in drawing up the offending paragraphs of the memorandum to the officers.

Premier Asquith has decided that he will take only one salary instead of the two, which he is entitled as premier and secretary for war. The bye-election in East Fife will probably take place on April 13, and if the Unionists should decide to contest the seat, Colonel A. Sprout will again be their candidate.

In the course of his speech Col. Seely said: "Grave issues have been raised which may mean that the whole army system may have to be re-cast." Ministerial cheers greeted the re-

mark, which was interpreted as suggesting that of democratization of the army.

Viscount Morley, in replying to a question put by Lord Curzon in the House of Lords, admitted that he had offered "against a cabinet rule. Asked how it happened that the government felt compelled to withdraw the paragraphs and Col. Seely to resign, we still have the good fortune of seeing Viscount Morley still in charge of this House," the president of the council replied: "I will answer that question more or less satisfactorily to-morrow, perhaps."

G. T. R. SECTION MEN GET INCREASE ASKED FOR

Award Made by the Railway Commission to Men Last Fall Accepted by the Company.

The pay envelopes of the section men working on the Grand Trunk system all over Canada will contain the increased awarded last fall as a result of the acceptance of the new schedule by the company and its being put in force at the first of the month this year.

The decision was reached shortly after a series of conferences had taken place between the company's chief operating officials, Vice-President Kelly, Chief Engineer Safford, the general superintendent and Chairman J. Mainbois.

It believed the increase will be more than satisfactory to the sectionmen, who were prepared at our time last fall to go to any lengths to obtain what they believed to be their rights.

The award as first given made the C. P. R. rates, which were the highest in Canada if not in the United States, the standard rate for the Grand Trunk also. At the same time they maintain the rate for yards or snowplows in cases where they were higher than those of the C. P. R. or any other corresponding service.

The settlement of the rates followed concessions previously given, such as working conditions, giving overtime at the rate of time and one-half to foremen and men, promotion by seniority where a man is qualified, investigation and reinstatement in cases of suspension or dismissal where the investigation showed the discipline had not been fair and as good transportation privileges as any craft in the Grand Trunk service. The rules giving overtime went into effect on October 1, 1913.

Many Permits Issued To-day

The building inspector is having a busy time of it these days issuing permits for new buildings. Contrary to the expectations of some of the contractors there are a number of new residences going up throughout the city. Since Jan. 1st until noon today 48 permits have been issued to various property owners and of these a majority of them have been for residences. The prevailing style of house seems to be the 1-1-2, 1-1-4 storey brick bungalow, which is becoming very popular.

This morning Inspector George Bennett issued the following permits. To O. Church, 44 Wellington Street, for a 1-3-4 storey brick dwelling to cost \$1,700.

Thomas Keenan, 29 Wells avenue, for a 1-1-2 storey brick house to cost \$1,000.

A Sad Death

Stanley Snelling, Formerly of Brantford, Killed at Sudbury.

News has just reached this city that Stanley Snelling, a young man of 23, who was well known and very popular in the city has been killed in Sudbury. It is said that he with a companion, was riding in an auto, which unfortunately collided with another vehicle and the occupants were thrown heavily to the ground. When picked up, Snelling was found to be dead. The late young man, formerly ran the Temple Cafe, with his brother. He was, for some time, a steward in the Brantford Club and left this city for a good berth in the town where he was killed. He came out from the Old Country about four or five years ago and after a little wandering, settled in Brantford, where he became well and widely known. His untimely end will be greatly regretted by his many local friends.

No Sign of Buggy

It has since transpired that the buggy is missing, although the horse has wandered back. The horse was let loose and found in the Burford road and soon it was returned to the owner. No trace has been found of the buggy, and search has failed to reveal it, and the man is now being looked for.

FIRE EPIDEMIC

BRACEBRIDGE, Ont., March 30.—An epidemic of fires has occurred here within the last two or three days. On Friday night fire destroyed three boat houses on the waterfront. About 1 o'clock Sunday morning fire broke out in a vacant stable belonging to John McMillan, partially destroying it, and about 1 o'clock Sunday a fire caused by the explosion of a gasoline lamp completely gutted the laundry of Young Wood. The tailor shop of James Palmer, next door, and the offices of Dr. McMillan upstairs were damaged by smoke and water.

Real Estaters

Will Have to Pay

Mayor Spence to-day received protests against the operation of what are alleged to be itinerant real estate vendors dropping into Brantford and disposing of foreign real estate in chunks. The Mayor was asked if the transient traders' by-law, which imposes a fee of \$100, was not operative. "If it doesn't operate, it should," said his Worship, who promised to take the matter up immediately. He said that he had heard many objections to the law allowing, without charge or fee, the continuance of the operations of outside real estaters. In other cities a heavy tax was imposed, and a similar by-law should be enforced here.

A "Little Man's" Horse Won the Greatest of Cross-Country Races

Friday's winner of the Liverpool Grand National steeplechase found himself in quite unusual company when he was running for a stake of 4,000 sovereigns. Sunloch's racing career has been confined to humble spheres, and events worth from £55 up to twice that amount have claimed most of his attention. In that class he was a consistent performer, but his winning of four 'chases in eight starts this season, besides being the man's score, and his success in the greatest event of the world of cross-country racing exemplifies the possibilities of fortune, which is one of the greatest factors in the permanence of the sport. So long as an obscure animal may come from winning a farmers' hurdle race to capturing a good horse so long will the spirit that offers such possibility remain strong in public support.

Owned, trained and ridden by T. Tyler, a professional steeplechase jockey, Sunloch performed all winter at meetings under National Hunt rules. Last April he won a farmers' hurdle race at Croxton Park and during the present season he won four cheap events across country, including a hunters' handicap over a three-mile course at Derby. Twice he was second, once third, and once he fell. Sunloch's pedigree is as humble as was his career until yesterday. He is an eight-year-old gelding by Sundown-Gralloch, Sundown being by Colorado, and Gralloch by Trayles—breeding which is by no means suggestive of superlative merit. The winner carried only 133 pounds, the lowest weight allowed in a handicap, while the French horses that finished second and third carried 163 and 174 pounds. They were the real heroes of the race.

The King and Queen did not make their State visit on account of the Cabinet crisis, and because of their absence the King's horse, Twelfth Lancer, was scratched. There had been a doubt of his ability to stay the trying Antree course but the opportunity to test that question was not afforded. The turf is a democratic institution, and "the little man's" horse would have beaten the King's champion just as he did the others.

AWARDED DAMAGES

TORONTO, March 30—Geo. Weston, Middlesex farmer, was awarded \$2,000 damages against the county of Middlesex following upsetting of his cutter, through a pit of gravel on the roadside. The county's appeal against this award was dismissed at Osgoode Hall this morning.

Arthur J. Slevin, aged 26, who is said to be a graduate of St. Francis College, Montreal, was yesterday found murdered in the cellar of a New York saloon, where he was employed. He had been choked to death with a belt. Slevin was said to be the son of the owner of a chain of barber shops in Boston.

NO UNDERSTANDING

Sir Edward Grey Sets Wild Rumors at Rest in the House To-day

[By Special Wire to the Courier]
LONDON, March 30—Sir Edward Grey, British Foreign Secretary, in the House of Commons to-day denied the published allegations that the action of President Wilson in regard to the question of Panama canal tolls was the result of an understanding between the Governments of the United States and Great Britain. It had been asserted, he said, that under the terms of the understanding Great Britain had undertaken to assist President Wilson's policy in regard to Mexico. He added: "There is no foundation whatever for those reports, and I am glad to be able to take as early an opportunity as possible for saying so."

GUILTY BUT LET GO

LONDON, Ont., March 30.—Wilfred Tregenzo and Mrs. John McNornie were to-day found guilty of abducting fifteen year old May Evedland and were discharged on suspended sentence. Magistrate Judd, before whom the case was heard, said after careful inquiry, he had reached the conclusion that there was no intention of immorality or marriage on the part of the man or woman. In arranging to have the girl go with Tregenzo to Detroit, from which place they were brought back by the authorities, they thought they were acting in the best interests of the girl, whose life here, it is said, was not a happy one.

"Liverpool 2, Aston Villa 0." Followers of the game scarcely counted upon this turn-up in the semi-final round of the English Cup. combined exposition. The replay will take place at Everton, probably on Wednesday, and it is quite possible that Burnley may carve a niche for themselves on the pillar of soccer glory.

The Scottish cup semi-finals were not marked by any such surprises. Celtic easily accounted for Third Lanark and Hibernians for St. Mirren. Thus two Irish clubs—that is if the sporting of green jerseys counts for anything nowadays—will participate in the final bout of the cup tourney at Hampden on April 11.

Canadian League Notes

Ottawa Journal: It's Chatham for the Senators on April 20. Shag has 20 players ready to move in on opening day, including Rauss, the Detroit "shenoi."

Manager Blount of the Peterboro team has signed Catcher Muly Miller of Youngstown. Ambrose Zeliski, a pitcher from Hubbard, Mich., has also been landed by the Peterboro pilot.

"Red" Fisher, the Tiger catcher, has a phenom for Manager Yates. They catch a phenom in Hamilton about three times a day until the season opens.

Ottawa Free Press: We're not predicting any hard luck for Dunlap, the London shortstop, sold to the Cleveland Americans, but a man who can only hit the Canadian League pitchers for .249 will find it difficult to get close to those figures when facing Johnson, Wood, Walsh and those fellows.

Billy Wright who will be seen in the Erie outfield this season, hit for a total of 231 bases last year. His extra base punches included 19 doubles, 15 triples and 10 home runs.

Hamilton pectator: Arthur Dolan, one of the candidates for the first base position on the Hamilton Ball Club, is a brother of Cosy Dolan, the Ottawa first bagger. Dolan, the Ottawa first is said to be a pretty good ball player, and Cosy is of the opinion that he will fill the bill, for he is young and fast.

SNYDER NOW SAID TO BE OUTFIELDER

LONDON, March 30—According to a local fan whose business takes him to Michigan at odd times during the summer, Snyder, the Saginaw player, who was traded to the London club for Chubby Coose, the former Brantford pitcher, is an outfielder and not a catcher, as Manager Reising was led to believe.

The London manager believes that Snyder got all the best of the deal, as he has seen both Coose and Snyder in action, and he thinks Coose is by far the better player.

The records show that Snyder played 95 games for Saginaw in the outfield last season. He batted .271 and fielded .951, only fair averages.

Coose, a pitcher, who was used occasionally in the outfield and also at shortstop, batted .261 in 88 games and fielded .963. In the matter of averages Snyder showed up a trifle better than the former Red Sox player. The records do not say anything about Snyder as a catcher, and it is apparent that he did little backstopping for the Saginaw team last season.

LEACH TO PLAY THIRD BASE FOR THE CUBS

"TOMMY" LEACH

Captain "Tommy" Leach will get back his old place at third base and Heinie Zimmerman will play shortstop when the Chicago Nationals take the field next month, according to an announcement made of the team's makeup.

Lightweight Champion Agrees to Terms to Meet Chicago Aspirant to Title.

CHICAGO, March 30.—Willie Ritchie, lightweight boxer, to-day agreed to meet Charlie White, a local aspirant for a ten round bout, in Milwaukee, May 8. Ritchie will get \$10,000 guarantee, or 40 per cent of the gross receipts, while White will get 25 per cent, according to Ritchie's manager, who said the champion had promised to sign his agreement early this week. The subject of weights, it was said, was not settled.

Cricket is the great summer game of England, and international matches are frequent. In all England and Australia have played 94 test matches. England has been represented by 110 players and Australia by 103, making a total of 213 participants in these classical contests. Only on three occasions has a 200 score been registered by players in these competitions.

GRAVEN WILL TRADE HURLERS

St. Thomas Leader Will Make Overtures to Manager Reising.

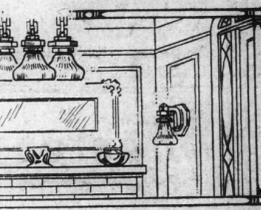

ST. THOMAS, March 30—Being strong in his pitching department, with more heavies than what he knows what to do with, and shy a first baseman, Manager "Midge" Craven stands ready to make a trade of some of his pitching staff with the London club for a first sacker.

Former Manager Ort, of the St. Thomas club, just returned from Toronto where he was tendered a contract by President Kerwin of the Toronto Canadian League club, and indications at the present time point to George Ort playing with the Queen City outfit this season.

Billy Wright Hitting. Billy Wright who was purchased from President George O'Neil of the Erie Club this winter by Buffalo, is making good in the spring training with the Bison club of the International League. Just Saturday he hammered out a two-bagger and two singles in four trips to the plate. His hits were responsible for the majority of the runs scored by Buffalo of Pitchers Ruelbach and Aitchison of the Brooklyn National League club.

Frank Dolan Ottawa first baseman, has a brother who will tryout with Hamilton at the same station.

Boston Athletic association's 18th annual 25-mile marathon race will be decided on Monday, April 20.

Cival Overall, the ex-Cub pitcher, may try his hand as a catcher this year with the Pacific Coast league team.

Harvard University football candidates who look promising after the spring work outs will be given football practice during the summer.

Columbus and Cornell each won 8 and lost 2 in the Eastern Intercollegiate Basketball league series. The tie is the first which occurred in the league's history. The tie will not be played off.

The Argonaut Rowing club of Toronto will not send an eight-oared shell crew to the Royal English Henley regatta this year. The Canadian champions will endeavor to win the Dominion and American rowing classics this year instead of again trying to lift the Grand Challenge Cup.

The Kentucky Futurity for foals of 1914 is announced. The value is \$20,000.

Shortstop Roy Chapman of the Naps said he would learn a new hook slide or break a leg, and he did—break a leg. He will be out for a couple of months and the accident is a harder blow to the Naps hopes than all the damage done by the Federals.

It is estimated that the 15 clubs in the American and National baseball leagues will spend not less than \$80,000 for training expenses before the season begins on April 14.

Bill Bradley's Brooklyn Feds will play the University of South Carolina Thursday and Friday afternoons this week. Bradley still hopes to get Scaton from the Chicago Feds.

Joe Jackson, the Naps star outfielder and slugger, announced that he would confer with an agent of the Federal League at Atlanta, Ga., on March 31. He is signed with the Naps for three years.

Manager Dooin is in sore straits for a successor to Otto Knabe. He is watching the efforts of four men—Reed, Murphy, Irelan and Curry—but so far has not gone into ecstasies over their work.

A. G. Mills, once president of the National League, and a leading baseball historian, makes the interesting statement that the original demand for the reserve rule came from the players.

Joe Birmingham, manager of the Naps, would feel a whole lot better if he was as well fortified in the pitching department as at the initial sack. He has five trying out at first base. Johnson is first choice with Olson second.

Ottawa are negotiating for two of Cleveland's young pitchers to bolster up their staff. McManus is coming back and they have closed with an Indian shortstop named Cafalu. He was with the Cleveland Federals last summer.

Roy Hartzell, Yankee outfielder, reports himself in the best of condition and is out for a strenuous season. Roy has a habit of, as a rule, slowing up around the 4th of July, but he expects to overcome said habit the ensuing campaign.

From present indications it is evident that infielder Boone of the Yankees has made a favorable impression on Manager Chance to date. Boone seemingly fits in nicely around both second and third, the peerless leader failing to find any fault so far.

President Gilmore of the Federal League said that he would direct the league's counsel to apply for an injunction against Pitcher Blanding of the Cleveland Americans. Blanding is claimed by the Kansas City Federals. The proceedings will be instituted at Grand Rapids, Mich. Blanding resides at Birmingham, of that state.

Nick Cullop of the Naps is broken hearted and ill because Pitcher Earl Moseley of the Red Sox jumped to the Feds. Some one broke the news to Nick and he refused to be consoled.

"I would have willingly paid him enough to keep him in the American league," says Nick. "I want to tell you fellows, it's pretty tough to have the only pitcher you ever made two hits off in one game jump. What chance have I?"

Knoble, the Pennsylvania semi-professional ball player signed by Midge Craven, last year succeeded in winning 16 games out of the 17 in which he participated. At this rate he will be a valuable addition to the hurling staff. He was recommended to the Saints by a Providence catcher who is a friend of Midge's and was communicated with by Craven. He is a young fellow and has the weight and speed behind his curves. He is very optimistic, and says he hopes to have as long a string of victories this year as last.

Secretary James E. Sullivan of the Amateur Athletic Union, who is to have charge of the track and field games at the Panama-Pacific exposition, to be held in San Francisco 1915 inspected the grounds where the event will be run off and said, after looking at the site of the cinder path: "It is well sheltered and the wind should not bother the athletes. With a 40-yard straightway for both the quarter-mile and the mile relay, there will certainly be some great competition. The construction should start right away and doubtless will. There is only one drawback and that is that the sight is far out, but I am sure there will be ample accommodations for those who want to see the world's greatest athletes run."

Sport in Review

(From the Free Press)

As we read the despatches, the chief stumbling block to Battling Levinsky's ambition to be the champion pug is his nose, showing that it is most essential that one should exercise care in selecting his parents.

This Jimmy Callahan is a nice fellow, but he's too gabby. Here he goes and says that Buck Weaver will have the best year of his career with the White Sox, and then Buck comes back with the threat to jump. Them words will cost J. Callahan many hard seeds before autumn. And then Jim Scott gets the fever, too. Jimmy thinks them as interesting as trick fleas.

Jimmy Clabby has paid that \$1,000 for hitting a policeman, but this is probably the last time that he will

fight without gate receipts. We also aver that it is a good thing that cop did not stop one of Sam Langford's punches, or the damage would have been \$1,345,678, as Clabby has no punch, 'tis said.

May Richardson, the picture-carving suffragette, says that England is dead or asleep, and we believe it, or they would put that bunch of Pankhurst Hellraisers in limbo for a good long time.

Bill Bryan's llama is being sent to England, so it should not be hard to find a goat in this crisis. We have learned that Hank O'Day once played ball in Bay City, Mich., so we can understand why he did not fear taking charge of the Cubs. Have you ever been in Bay City?

We read that the tank champion got his start early in life. Most of the tanks we know got going quite young, all right.

Mlle. Dormy, clothed in a glad smile, made a great hit on the stage

in the play in Paris, but when she appeared before the footlights robed in the spotlight the crowd hooted her. Which proves that they want some excuse for seeing what they see, as it were.

Battling Levinsky claims that he took ill from drinking water in Milwaukee, which is an effort, we suspect, to increase the demand for the stuff that made Milwaukee famous.

Ty Cobb addressed the Mississippi Legislature, but as the text of his speech has not been forwarded to us, we take it for granted that he discussed the various forms of advertising. He had a sympathetic audience.

A baseball catcher in Frisco by the name of Sepulveda is said to be a millionaire, which is a reasonable compensation for wearing a monaker like that.

Governor Tener says he is going to clean the Cubs up right, but we suspect that there will be a little cleaning up to do this fall by the White Sox.

Sir Wilfrid's 'Best Friend' Is Not Wanted In The Conservative Party Fold

OTTAWA, March 29.—The statement of Sir Lyman Melvin Jones, that the Liberal party has left him on the question of free agricultural implements, and that in consequence there is a break between him and his party has aroused absolutely no interest here.

He will not be annexed by the Government party, and it does not appear that his action is causing any regret in the Liberal ranks. The Opposition is to-day about to preach free trade theories to its heart's content and welcomes the statements of Sir Wilfrid's millionaire friend, which all through the West is being given prominence by Liberal newspapers.

"The best friend of the Liberal party," is the way one Liberal member characterized Sir Lyman last night.

As far as the Conservative party is concerned, his action is simply being ignored.

MAIL SORTERS OBJECT TO FISH IN PARCELS POST

Ayr Post Office Staff Has Had Unpleasant Experience With Meats in Mails.

AYR, March 30.—There are one or two parties in town that are not as enthusiastic over the new parcels post as they were at first when it came into force. When it happens that this party, who is a mail clerk, has to handle fish and meats that come through the mail, he would like to draw the line. The fish seem to be of good quality, but he would like to know that they cannot stand the warm air of the post office and hereby wishes it known that the parties to whom they are consigned would call for them before they reach a soft state. It is not known yet whether these fish affect the high cost of eating or not, but the clerk adds that the fish themselves seem to be scented high at any rate.

Magistrate In Lenient Mood

Lets South Norwich Thieves Go on Suspended Sentence—A Chance to Reform.

WOODSTOCK, March 30.—Before Police Magistrate Ball on Saturday, John and Walter Brown and Louis Fournier were let off on suspended sentence. The boys promised to give up their lives of crime and promised to make restitution to the people of South Norwich from whom they had stolen. They were also ordered to pay the costs of the court, which will amount to something short of \$100.

Mrs. Eva Andrew was charged with stealing 190 pounds of butter from the Little Lake Cheese factory, to which she pleaded guilty. Her case was a sad one. Her husband is in jail on a charge of theft, and she is the sole support of six small children. Magistrate Ball took all these things into consideration and suspended sentence on the unfortunate woman.

The prisoners were all given a severe lecture by the magistrate, and were told that if they ever come before him again they would receive heavy sentences.

Louis Fournier has secured a position with a farmer through the influence of Constable Hill.

This instrument received the only award in England and in Spain, producing results without surgery, harmful injections, treatments or prescriptions." Mr. Seecley has documents from the United States Government, Washington, D. C., for inspection. All charity cases without charge, or if any interested call, he will be glad to show same without charge or fit them if desired. Any one ruptured should remember the date and take advantage of this opportunity.

The QUICK action of Adler-i-ka is astonishing.

GRANDMA NEVER LET HER HAIR GET GRAY

Kept her locks youthful, dark, glossy and thick with common garden Sage and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger. Agent T. George Bowles.

Tarzan of The Apes

By EDGAR RICE BURROUGHS

Copyright, 1912, by the Frank A. Munsey Company.

Professor Porter had recovered his sly silt hat, which he had brushed carefully upon the sleeve of his coat and replaced upon his head. When he saw Mr. Philander pointing to something behind him he turned to behold a giant naked but for a loin cloth and a few metal ornaments, standing motionless before him.

"Good evening, sir," said the professor, lifting his hat.

For reply the giant motioned them to follow him and set off up the beach

"Good evening, sir," said the professor.

In the direction from which they had recently come.

"I think it the part of discretion to follow him," said Mr. Philander.

"Tut, tut, Mr. Philander," returned the professor. "A short time since you were advancing most logical argument in substantiation of your theory that camp lay directly south of us. I was skeptical, but you finally convinced me, so now I am positive that toward the south we must travel to reach our friends. Therefore I shall continue south."

Further argument was interrupted by Tarzan, who, seeing that these strange men were not following him, had returned to their side.

Again he motioned them to follow him, but still they stood in argument.

Presently the ape man lost patience with their stupid ignorance. He grasped the frightened Mr. Philander by the shoulder, and before that worthy gentleman knew whether he was being killed or merely maimed for life Tarzan had tied one end of his rope securely about Mr. Philander's neck.

"Tut, tut, Mr. Philander," remonstrated Professor Porter. "It is most unbecoming in you to submit to such indignities."

But scarcely were the words out of his mouth ere he, too, had been seized and securely bound by the neck with the same rope. Then Tarzan set off toward the north, leading the now thoroughly frightened professor and his secretary.

In deathly silence they proceeded for what seemed hours to the two tired and hopeless old men, but presently, as they topped a little rise of ground, they were overjoyed to see the cabin lying before them, not a hundred yards distant.

Here Tarzan released them and, pointing toward the little building, vanished into the jungle beside them.

It was a "true" relieved party of castaways that found itself once more united. Dawn discovered them still recounting their various adventures and speculating upon the identity of the strange guardian and protector they had found on this savage shore.

CHAPTER XII. Burials.

AS it was now quite light the party, none of whom had eaten or slept since the previous morning, began to bestir themselves to prepare food.

The mutineers of the Arrow had landed a small supply of dried meats, canned soups, and vegetables, crackers, flour, tea and coffee for the five they had marooned, and these were hurriedly drawn upon to satisfy the ravings of long famished appetites.

The next task was to make the cabin habitable, and to this end it was first decided to remove the grewsome relics of the tragedy which had taken place here on some bygone day.

Professor Porter and Mr. Philander were deeply interested in examining the skeletons. The larger two they stated to have belonged to a male and female of one of the higher white races.

The smallest skeleton was given but passing attention, as its location in the crib left no doubt as to its having been the infant offspring of this unhappy couple.

As they were preparing the skeleton of the man for burial Clayton discovered a massive ring which had evidently encircled the man's finger at the time of his death, for one of the slender bones of the hand still lay within the golden bauble.

As Mr. Philander was placing the frail bones of the infant in a bit of sailcloth he examined the skull minutely. Then he called Professor Porter to his side, and the two argued in low tones for several minutes.

"Most remarkable, most remarkable," said Professor Porter.

"Bliss met!" said Mr. Philander. "We must acquaint Mr. Clayton with our discovery at once."

"Tut, tut, Mr. Philander; tut, tut!" remonstrated Professor Archimedes Q. Porter. "Let the dead past bury its dead."
