LIBERATION OF BELGIUM CONTINUES

AS ENEMY FLEES BEFORE THE ALLIES

Entente Forces Have To-Day Reached a Point Only Ten Miles Distant From Ghent—British and American Troops Advanced Thirteen Miles in Six Days' Fighting East of Le Cateau.

By Courier Leased Wire.

NEW YORK, Oct. 21.—The Associated Press this morning issued the following:

In spite of the efforts to check the advance of the Allies in Belgium, the British, French and Belgians continue their sweeping march from Tournai to the Dutch frontier. Official reports show that they have reached points within ten miles of Ghent.

The Belgians are along the Deynze-Eechloo canal, which runs northward from the Lys river to Zebrugg, and have taken a number of important points near that waterway. Further south, the French have crossed the Lys, and have established bridgeheads at various points. Along the Lys the British second army has moved swiftly toward the Scheldt river, and are at Pecq, on the west bank of the river.

In this sector of the battle line the Allies are moving toward the northeast, and it seems they will be able to reach Ghent with their main forces in a very short time. The Germans have flooded some of the country, but this has failed to interfere with the progress of the Allies.

British and American troops are fighting their way ahead along a ten-mile front east of Le Cateau. During the past day they have advanced a mile on this line, and appear to have reached a point from which they seriously threaten the railroad running toward Avesnes and Bertanemont. This road is the principal avenue of communication between the German armies north and south of the wedge being driven into their lines by the Allies. If it is cut, or if it is taken under artillery fire, the enemy will be

seriously embarrassed in keeping the two wings of his armies in touch with each other.

The bad weather that has prevailed in France during the past few days has not checked the advance of the French along the Oise and Serre rivers, where successes are reported. On the southern side of the Lys salient the French have cut a deep notch into the German lines by reaching the heights to the west of Grandloup.

Through the Champagne sector there has been no change in the line, but just west of the Argonne forest the French have moved ahead once more. They have reached the outskirts of the village of Terron-sur-Aisne, north of Vouziers. This seems to be a stroke at Le Chesne, to the northeast of the Argonne forest. The village of Le Chesne is an important highway centre, and is on a line of railroad which runs southward to Buzancy, behind the front where the Germans are striving to stop the American drive on the line from the Argonne to the Meuse. If Le Chesne should be occupied by the French, the event would be almost certain to bring about a German withdrawal east of the forest.

American forces are apparently meeting with desperate resistance along the front west of the Meuse. No significant progress has been reported there during the past couple of days. This front is so important to the enemy that he is making a great effort to hold it firmly. He apparently has succeeded for the time being at least in holding up the Amer-

FRENCH CITIES CELEBRATED DELIVERANCE FROM GERMANS

By Courier Leased Wire.

With the British Army in France, Sunday, Oct. 20.—(By the Associated Press)—Roubaix and Tournai to-day celebrated their deliverance from the enemy, and it was like a Christmas, New Year's Eve and Fourth of July all rolled into one. Tears of joy intermingled with shouts of laughter while the population sang and danced and waved flags.

The two cities went completely wild with emotional joy. There were kisses, hugs and handshakes for every British soldier. On their wings doves home-wives had pasted pictures of French and British military celebrities torn from magazines.

There was good reason for Roubaix and Tournai to celebrate the end of four long years of hardship, privation and oppression. The swabbing Germans had gone, leaving in their wake as much ruin as they could do. Nearly every home in the city had been sacked, and things that could not be carried away were destroyed.

The Germans were piqued at being forced to leave the towns, and they went to extreme lengths to demolish, destroy and steal. Roubaix and Tournai were systematically burglarized, Roubaix suffering the most. In Roubaix the Germans cut fine leather seats from chairs, ripped pictures from their frames, and even took the cloth coverings off mattresses. Apparently they went through the fine old homes of the city with the idea of destroying completely what they could not carry away. In many places the Germans seemed to go into a house and deliberately break everything they could lay their hands on.

For miles around Roubaix and Tournai the countryside has been singed and scorched by the red heat of war. Broken cannon, rusted rifles, pieces of shell, barbed wire and the bayonets and other equipment of soldiers are scattered all about. There are miles of mangled fields, where the shell craters are so thick that it is impossible to tell where one begins and the other leaves off. Here and there are old machine gun mounds of stone, concrete and dirt. The trees are leafless, and many have been chewed to pieces by flying shells and bullets.

Touching Scenes at Bruges.
London, Oct. 21.—Scenes of happiness at Bruges eclipsed those at Lille, following the liberation of the two cities, according to the correspondent of The Daily Mail. During the occupation of Bruges by the Germans, the people there were not allowed to receive news from the outer world or from their friends inside the German lines unless the news was handled by the German officers.

Bruges was fined enormous sums on various occasions, the correspondent says, and everything made of metal was taken away. The city was searched four times for copper. The works at Bruges were robbed of every scrap of machinery. The German raid for nothing except food and drink and then only in paper money. The town itself is intact and the old bells and the front of the Hotel De Ville are unharmed. Most of the pictures remained in the gallery and Bruges seems to be as restful as in the old days, except that all the bridges are gone. German mines completed the work done by British torpedoes which were launched at the submarine base at Bruges.

Desolation in Douai.
With the British Armies in France, Sunday, Oct. 20.—(Havas Agency).—Douai in its waste and desolation is a sad sight. Moving pictures of the city should be taken so that the world could see for itself sights

Merchants Agree Upon Action to Check 'Flu. HELP CITY.

Need For Nurses Is Still Most Urgent.

The need of more trained nurses at the Emergency Hospital is an urgent necessity. Applications should be made to K. V. Bunnell, secretary, phone 262. People donating soups and jellies will kindly send same to diet kitchen, Collegiate institute. Volunteer workers must apply to Mrs. George Watt, Dufferin avenue, or 512 Patriotic Rooms.

Curtailed of business hours for both stores and factories as a measure to check the spread of the influenza epidemic is a course of action that has been practically decided on to-day. A meeting of the merchants of the city was held this morning, at which a special committee was appointed to confer with the Board of Health on the steps to be taken. The committee, in conjunction with the Board of Health, later passed a resolution calling upon all merchants to fumigate their stores, and upon banks and merchants to fumigate money passing through their hands. The committee meets again this afternoon, and will probably recommend that all stores open at nine o'clock, as during the fuel shortage last winter, and close at five, groceries to remain open until six. A meeting of the manufacturers of the city has been called by the Mayor for this afternoon, when a proposal for shorter hours will likely be submitted to them also.

The urgent need of nurses, particularly those with experience, continues to be the dominant feature of the situation to-day. Volunteers are coming forward nobly, and are readily qualifying to cope with milder cases of the disease, but experience is an essential factor in the care of patients who are in a critical condition. There are over 130 beds at the Emergency Hospital to-day, additional beds having been rushed to that building on Saturday to meet the increasing demand. The mortality rate shows no signs of abatement, but on the contrary increased over the week-end, when thirty deaths were recorded. Physicians and civic authorities are still hopeful, however, that a turn for the better in the situation is imminent, and that with proper efforts the epidemic will soon be under control.

The city passed the second churchless Sunday of its history, yesterday, and to-day enters on its second week with schools and theatres closed. The members of the Ministerial Association held a private service of intercession yesterday morning, offering up prayer for relief from the present crisis.

The Emergency Hospital is exceedingly grateful for the timely donations of linens sent in on Sunday.

GERMAN REPLY

By Courier Leased Wire.

London, Oct. 21.—The German reply to President Wilson's note, the text of which was received here to-day by wireless, says Germany hopes the United States will approve of no demand which would be irreconcilable with the honor of the German people, and with opening the way to a peace of justice.

Germany protests against the reference of President Wilson to illegal and inhuman acts. Denial is made that the German navy purposely destroyed lifeboats with passengers. The German Government proposes that the facts be cleared up by neutral commissions. Germany has dispatched orders to submarine commanders precluding the torpedoing of passenger ships.

The 'Flu' Outlook This Week—Nurses are Still Needed

AN URGENT APPEAL

From Our Own Correspondent. Simcoe, Oct. 21.—Lt. Graham W. Curtis of the Royal Air Force, who has recently been decorated with the medal for valor by King Victor Emanuel, personally, hails from Montreal. He is a nephew of F. E. Curtis and Geo. A. Curtis of Simcoe, both of whom had personal advice of his distinction by letter, a few days ago. Simcoians in general are proud of the record of this product of Simcoe loyalty.

Capt. M. McMahon Wins Military Cross
Capt. Thos. W. McMahon, who was enjoying a good veterinary practice here in his home town, left early to join the veterinary corps overseas. He found life too quiet in this branch and transferred to the cavalry. McMahon is a Windham township boy, and he must have been enjoying himself during the last month for on August 14th he wrote home as follows:
Somewhere in France.
My Dear Mother,—We are out of action, so I will be able to write you a few lines in quietness. The last letter to you was from the battlefield, and really I would not have missed it for anything, however dangerous it was. We had a real good show, and galloped down a good many Huns. You perhaps have read in the papers what the cavalry did. To see cavalry, infantry, tanks, artillery and aeroplanes after the Hun is a most wonderful sight. I shall never forget it—one great day for us. We have been having very warm weather, and the uniform we have is not very cool. I think the Hun will soon give in. We gave him one in the ribs he will never forget. The Canadians did splendidly, and are praised by everyone. They are wonderful boys.
I am as fit as a fiddle, so don't worry, I will be home soon, etc.
Two weeks later he mentioned the honor bestowed upon him "Military Cross" for services in the recent battle on the Somme.

Captain McMahon has a younger brother, E. J. McMahon, in the officers' training camp, Toronto.

THE "FLU" IN SIMCOE DISTRICT

From reports coming in from the country, it is judged that the epidemic in quite as bad outside as in town. Several threshing outfits have ceased operations because help could not be obtained. The same condition prevails with regard to the filling of silos.

There have, however, been few deaths reported. Yesterday before mid-day, two patients had died at the emergency hospital. The oldest of the Medal family died early in the morning, a young lady of about 19 summers. This family came from Middleton, and had been in town only a few months.

Eric Carter, who, with his whole family was brought in on the opening day, died about 10 o'clock. He was working with the Norfolk Milling Co. till a very few days ago.

Carter's wife and children are all in the emergency hospital. His sister, Mrs. A. Pendergast, is too ill to be advised of her brother's demise, and his mother, who lives a short distance out of town on the homestead from which the funeral will be held, is also quite ill.

The Stegmur family on Pond St. are apparently recovering nicely. It was given out yesterday that three patients will leave the hospital tomorrow well.

There were twenty-four patients under treatment yesterday afternoon. Mr. Barr, Colborne street south, quit his milk route yesterday and went to bed.

Dr. Grassett was able to sit up yesterday. John Harper was yesterday continuing to put up a strenuous fight with the balance wavering slightly across the horizontal.

Douglas Jackson is still severely ill. **A DIRECT APPEAL**
Nurses and Help Scarce

A member of the hospital board commanded this office at 6 o'clock last night, and directed that the town be combed for help, as many more patients who should be transferred to the hospital for proper care and medical attention, could not be accepted till more help is available.

Here is the situation: Of some twenty school teachers who were relieved from their professional duties by the closure of the schools, only the principals, to our knowledge, have been able to give assistance or advice. Many of the staff are all some out of town, others with ill-needs in their families, so we have passed this over.

The willing I. O. O. E. workers have enough to do to look after the wants of the men overseas—though some of them are already in the work. We abstain from asking anything further from this organization.

It has been observed that almost all of the afflicted are well below the meridian of life, most of them below 50. After conference with several gentlemen, and after failing to get results from various ladies who used their phones last evening to comb the town by districts, the writer has decided to make an appeal to older married ladies with no family ties.

living alone or with their husbands, and to urge that they volunteer for day work at least, in order to relieve for night duty those who are young, fit, and are already on the work.

A perusal of the voters' list shows that the town is bristling with this class on almost every street. And we are assured that many of them are not aware that they are capable of helping or they would be on the job now.

Some three or four years ago our men were asked to enlist, and go abroad. To this class of women, the appeal is now made, enlist to stamp out the disease at home. Perhaps your neighbor does not take the Courier. Kindly pass the invitation on if it applies.

Mrs. J. McNally has been doing splendid work for the past ten days outside the hospital. Must we still say that patients are denied admission to the hospital because women do not know that they are needed? Surely none are indifferent to the call.

Any who can help will please phone 390, from 9 a. m. to say 12 p. m., and the time to go on duty will be arranged. Those who cannot assist continuously for either night or day work, might form small relay units among themselves. Advise us at once.

SAD FUNERAL AT SIMCOE ON SUNDAY
Brantford Man Laid at Rest in the Oakwood Cemetery

(From our own Correspondent) Simcoe, Oct. 21.—All that was mortal of the late Roy Coates, son of Mr. and Mrs. Joseph Coates, was tenderly returned to earth at Oakwood yesterday afternoon.

Deceased was in his 26th year and up to a few days before his death, was conducting a business of his own in Brantford. The short service at the home was conducted by Rev. W. S. Fulton, of St. Paul's, assisted by Dr. W. J. Dey, former pastor.

The scripture reading was given from the 96th Psalm, "Lord thou hast been our dwelling place. . . . Establish thou it."
Then followed the singing of "Unto the Hills," Ps. sel. 97, and prayer for faith to see the Master's guidance and love in all his plans.

Dr. Dey spoke of his memory of the little lad in Sunday school years ago, and his disappearance from his observation till during his sickness. He commended his industry and integrity, and touched on the natural centering of his affection upon a Christian young lady at present too ill to be present, and of the assurance the young man had of his need and acceptance of the Saviour. To a young man who called upon him after he knew he must pass away, he said: "There is not a straw in the way. I am ready." The short service closed with verses from "What a Friend we have in Jesus." The brother of the deceased, Flight Lt. Clarence Coates was able to leave his military hospital in Toronto to attend the funeral.

One child in every 10 in the Windsor schools has defective teeth. Menomones in the Morden district, Manitoba, have decided to conform to the school attendance law of the province.

What are Canada's Victory Bonds

CANADA'S Victory Bonds are the solemn promise of the Dominion of Canada to the holders that Canada will repay, at the time stipulated in the bonds, their full face value in money, and will pay interest at the rate stated in the bonds, every six months.

As a financial investment Canada's Victory Bonds are in the first rank of the world's investments because:

- the security of the principal and interest is certain as anything human can be, being nothing less than the entire assets of Canada, the pledged honor of the people of Canada and all the assets of all the people of Canada,
 - they are the most "liquid" form of investment; they can be promptly turned into cash at any time,
 - they bear interest which, if saved and compounded, at ordinary bank interest rates would double the amount of the original investment in about fourteen years.
- They are also free from Dominion taxation, present or future.

FOR the investment of estate funds, trust funds, sinking funds and all other funds which by law or other necessity must be invested in unquestioned securities, Canada's Victory Bonds are the premier investment.

Executors, trustees, municipalities and public service corporations and all others with trust or sinking funds to invest, can render to Canada valuable patriotic service by investing their funds in Canada's Victory Bonds.

AND because of the high rate of interest they bear, coupled with their supreme security, there is every reason to expect that Canada's Victory Bonds 1918 will increase in value, when peace is declared—already in the open market Victory Bonds 1917 are quoted at an increase over the issue price.

BUT Canada's Victory Bonds are much more than merely a sound money investment; they are Canada's renewed pledge to fight the war to a finish, till victory is with the Allies and lasting peace is secured to the world.

Every one of Canada's Victory Bonds bought by you is a new assurance to every Canadian soldier that Canada stands behind him ready to send him food and munitions, and to care for those he has left in Canada.

Canada's Victory Bonds guarantee that Canada will keep on producing the food, the munitions and machines to bring victory to the Canadian soldiers in France, and that Canada will keep the home fires burning for their loved ones while they are fighting for our freedom.

SO when you buy Canada's Victory Bonds you help Canada finance the war,—you help to maintain the production of food, munitions and supplies which our soldiers must have.

—and the money paid for these products helps to maintain business and industrial conditions by which the productive efficiency of Canada can be kept at high pressure.

Your investment in Canada's Victory Bonds will be a link in the complete chain of helping our soldiers, helping the country, and thereby also helping yourself.

Investment in Canada's Victory Bonds is sound business patriotism

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada

THE WIFE.

BY JANE PHELPS, AUTHOR OF "MARGARET GARRETT'S HUSBAND," AND OTHER NOTABLE STORIES.

CHAPTER LIII
 Brian admitted lunching with Mollie. Although Ruth is home, "When did you see Miss King last?" Ruth asked, trying not to let too much anxiety appear in her voice. "Why—when?" Brian stammered, then, as always when he was embarrassed, he commenced to bluster. "Who told you I had seen her at all? People are in great business. Why can't they let a fellow alone?" "No one told me. You told it yourself."
 "Me—I—what do you mean?"
 In spite of her jealousy, Ruth's sense of humor made her laugh. He was so genuinely fussed.
 "Why to-night when Mrs. Curtis elaborated upon my kindness in letting Miss King enjoy your society to such an extent, she also said that Mollie King had told her that I knew you spent the evenings I was away with her. Now, as I had not told Mrs. Curtis anything about it, very evidently Miss King had. And how could she know I knew and?" Ruth had been about to add a sarcastic "approval," but she said "didn't object," instead, "unless she had been told."
 "She and Mollie are thick as two peas in a pod," Brian grumbled.
 "You haven't answered me, Brian. When did you see her?"
 "Oh, a day or two ago."
 "At luncheon?"
 "Yes. She wanted my advice, as a lawyer, and telephoned me. It was about luncheon time, so I took her to lunch and we talked then. We both had to eat and it saved her a trip to my office."
 "My, what an elaborate explanation!" Ruth said ironically, then at once plunged into another subject. Now she was glad she had not told

Brian about her Delmonico luncheon. Had she, he would have blamed her for his not wanting to lunch alone. Brian, evidently relieved, was willing to follow her lead, and was pleasantly chatty both then and the following morning. He had to tell the truth, he was a little uneasy over Ruth's reception of his having lunched with Mollie. He had not relished her tone when she spoke of his "elaborate explanation." Was she going to be nasty about Mollie? He hoped not! Mollie was such a good little pal. A fellow was so comfortable with her. Of course if Ruth objected he would have to keep away from her when Ruth was in town. When she was away, that was another matter. He had told Ruth how he stood on that point.
 After he had left for his office, Ruth thought very seriously about him and Mollie King. Big tears welling up into her eyes as she thought that perhaps he was sorry he had married her instead of Mollie. The very feminine trick of making herself miserable even before she was sure there was anything to be miserable about, had not passed Ruth by, even though she were a business woman. Business had in no way robbed Ruth of her femininity; nor of her womanly, or her womanish traits. So she pictured herself neglected, forlorn, because of Mollie King.
 When she reported for work, Arthur Mandel quickly sensed something wrong. She looked troubled, and there was a suspicious redness about her eyes.
 "What's the matter?" he asked, just exactly what Arthur Mandel intended her to think.
 To be Continued

language, in his thoughts. "It's a darn shame," he resumed, yet could not get a feeling of pleasure that it would emphasize his own attitude toward her.
 "You are not looking up to the mark," he said to her. "Take it easy to-day. Really, if you like, you may go home at noon. I shall be too busy to do anything about that western matter and nothing else is at all pressing."
 At first Ruth started to say she didn't care to go home. Then there rushed over her a desire to spend the afternoon in her own apartment. She would let Crawford go, and would meet Brian somewhere for dinner. She longed to be alone. So she thanked Mr. Mandel and said if nothing came up between then and the noon hour to cause him to change his mind, she would be glad to go home.
 "I have a number of little things yet to do in my apartment. I shall be glad of the chance," she said, then added rather shyly, "she had not yet become accustomed to being in the position of employee," "thank you very much, Mr. Mandel."
 "Don't thank me, I'd—be flushed and caught himself. He had almost said more than he knew to be wise at this time. But he wanted her to owe her happiness to him. "I'd no, have allowed you to show up at all to-day had I known you felt badly," he finished in a business-like manner.
 "How good he is to me," Ruth said to herself as she went about her day's work. "I don't believe many employers are like him."
 She was thinking, as it happened, just exactly what Arthur Mandel intended her to think.

FOREG O ALLIANCE WITH GERMANY

Count Karolyi Accuses Kaiser and Emperor of Starting War

(Canadian Press Service).
AMSTERDAM, Oct. 19.—Count Michael Karolyi, leader of the opposition, speaking in the lower house of the Hungarian Parliament to-day, is quoted in a despatch from Budapest as saying:
 "We have lost the war and we ought at least to try to have peace. Those men who heretofore have championed the policy of strengthening the alliance with Germany must go. This policy is in contradiction of the idea of a league of nations. There will be no more such separate alliances."
 Count Karolyi denounced the monarchy's foreign policy, which he said had started the world war by the despatch of the ultimatum to Serbia. He declared he had learned from Dr. Wilhelm Muehlen, former director of the Krupp Works, that Austrian diplomacy had deliberated on the text of the ultimatum in the presence of the German Emperor, who asserted he would "show the whole world he was no puppet, and would strike terror into the universe."
 "The situation might still have been saved in 1914," continued Karolyi, "if Great Britain's proposal for a peaceful settlement had been accepted. The rejection of the British proposal, the occupation of Belgrade and a settlement of the entire Balkan question at a European conference was striking proof that he wanted war," said Karolyi. "Our policy during the war was worse than before the war. We might have concluded peace times without number, but we never took the path of sincere peace. When we saw Germany would not yield and the entire world in revolt against Germany's policy we ought to have followed this lead. Our monarch desired to continue the war, but we had a diplomatic corps whose incapacity from the start made success impossible."
 "The second fundamental mistake, Count Karolyi asserted, was the intensification of the U-boat war."
U. S. FORCES ADVANCE.
WASHINGTON, Oct. 19.—American troops operating with the British in the attack north of Wassigny have reached the Sambre-Oise canal. General Pershing reported in Saturday's communique received late to-night. Heavy infantry fighting occurred during the day west of the Meuse, while at other points on the battle front there was heavy artillery and machine gun fire. Seventeen German airplanes were brought down by American aviators Friday. The communique states. Four and a half tons of bombs were dropped by American bombing units on Euresauy, Bayonville and Remonville.
 "The text of the statement reads: "Section A: West of the Meuse there has been heavy infantry fighting in Bois des Loges. At other points of the battle front the day was marked by heavy artillery and machine gun fire."
 "In their attack north of Wassigny American troops operating with the British have reached the Sambre-Oise canal."
 "Yesterday our pursuit squadrons on the front of the first army were engaged in 22 combats, in which 17 enemy machines were shot down. Our bombing units dropped 4 1/2 tons of bombs on Bureaucy, Bayonville and Remonville."
BOLSHEVIK DEFEAT
SHANGHAI, Saturday, Oct. 19.—Bolshevik troops, advancing toward Yekaterinburg, have been severely defeated by Czecho-Slovak and Siberian forces. The Bolsheviks lost 1000 men killed, as well as three armored trains, eleven locomotives, and 60 machine guns.

THE SITUATION

The splendid nature of Allied success continues to be unabated. The French are making a tremendous sweep upon a big front of about fifty miles along the Oise and the Serre rivers. They are steadily advancing and have taken a large number of prisoners and big guns.

OVER THE TOP

The fourth Liberty loan in the United States for \$5,000,000,000 has been over-subscribed by \$150,000,000, according to present appearances and the excess may go even higher than that.

VICTORY LOAN ORGANIZATION

The 1918 Victory Loan campaign, which will open on October 28th and close on November 16th, will be directed by a committee representing different financial interests in the Dominion. The membership of this committee was drawn up by the Bond Dealers' Association of Canada, with which the minister of finance has acted in the closest co-operation in the planning and direction of the campaign.

POULTENEY BIGELOW The Author and Traveler, who is the guest of Sir John Eaton, Toronto.

still about 25,000 of the first Victory Loan bonds not delivered. In the case of the 1918 Victory Loan, definite bonds will be ready for delivery upon receipt of payment in full.

The duty of the Dominion executive committee is to direct the campaign throughout the Dominion. In doing this it works through provincial committees, of which there are ten. There are two for the province of Quebec, one being for the Island of Montreal and the other for the province outside of Montreal Island.

Stores, Factories

Merchants' Meeting. "The health of the city comes before money, business or any other consideration."

In the above words Mr. T. E. Ryerson sounded the keynote of the meeting of the merchants this morning. The meeting was called by the Mayor, who explained that it was felt that the merchants themselves were best fitted to deal with the situation confronting them.

Mr. J. M. Young felt that the clerks were not being overworked, as business was unusually slow during the epidemic. He was in favor of closing the stores at earlier hours than at present.

Laid At Rest.

The funeral of the late Harry Cook took place Saturday at Mount Hope Cemetery. The deceased leaves to mourn his loss besides his sorrowing wife and babe, a father, mother two brothers and one sister in Toronto, one sister in Mt. Clemens, Mich., and one brother in France.

French Cities

The stained glass windows in the Church of St. Peter have been smashed and the great organ has been broken up. Religious ornaments were found scattered about the floor of the church. The city hall, where the German commandant had his quarters, was pillaged and sacked. Most of the paintings in the museum were taken away, but fortunately the boltry was undamaged.

COMING HOME

Major Sweet and family are expected home from England about the first part of November.

IMPROVING

At last accounts, Mr. John Graham who has been seriously ill with the prevailing malady, was somewhat improved.

GO CAMPING

A group of boys from the local Y. M. C. A. are leaving Wednesday for to spend a couple of weeks in camping out.

LIQUOR SEIZED

Licence Inspector Eacrett made two seizures of unclaimed consignments of liquor from local express companies on Saturday.

VICTORY LOAN

Mr. C. H. Burgess of Toronto, Provincial organizer of the Victory Loan campaign, will be in the city on Wednesday evening to meet at the Victory Loan headquarters a few of those concerned in the coming Victory Loan.

POLICE COURT

In the police court this morning, Charles Foster was charged with breaking into the market house, and was allowed to go on suspended sentence. Walter Hollister, for using abusive language, was fined \$5 and costs.

FUEL SITUATION

The fuel situation is being coped with to the best of the ability of the officials in charge. Some trouble is being experienced in getting men for the delivery end of the business, but as soon as the fuel subsides it is thought that difficulty will be over.

RECEIVED LETTERS

Mrs. Saunders has received letters from her son before he met his death in action, telling of some glorious battles he had been in with the British Air Force. On Sept. 18th, they brought down 3 Fokkers, and drove two others out of control.

FOREIGNERS WARNED

Yesterday Chief Slinim inspected the foreigners and their quarters in the city. Their condition is serious, and a large number were found to be sick. The foreigners were given to understand that they must help in the care of their countrymen in order to relieve the strenuous duty being done at the hospital.

LOAN NOT AFFECTED

Mr. A. K. Bunnell, chairman of the Brant County Victory Loan Committee, has received word from the Ontario executive to the effect that they have decided regardless of the Spanish influenza epidemic to "carry on" and hold the campaign as scheduled.

TOWNSHIP FUEL

Very little can be done for Brantford Township in the way of securing fuel. The outlying districts are not much affected because of the facility with which wood can be obtained. The districts near the city have most likely secured considerable of their coal and there is little need of action on the matter.

WILHELMINA LAHEY

The funeral of Wilhelmina, the five-year-old daughter of Mr. and Mrs. Wm. Lahey, took place Saturday afternoon from the family residence, Alfred street, to St. Joseph's Cemetery. The services at the house and grave were conducted by Rev. Father Padden. A large number of beautiful floral tributes were received. The pall bearers were Leo Roach, Edwin Goetz, Jack Bartie, George Humble and Hector MacBride.

issued by the war office to-night. The statement reads:

"The advance of the army groups in Flanders, under command of King Albert, continued throughout today. After vainly trying to arrest our progress towards the western bank of the Lys, along the Doynze-Beleke canal and near the Dutch frontier, the Germans have been forced to withdraw over the whole front.

"The Belgian army has established itself along the canal. Its left flank is on the Dutch frontier, and the army has occupied the important centres of Aontro, Adegem, Belleme and Urtel, (about 10 miles west of Ghent).

"French forces have thrown the enemy rearwards back over the Lys and, notwithstanding floods brought about by the Germans, have crossed the river and established bridge-heads. One of these is between Gramme and Peteghem, and another is east of Oghem.

"The second British army in spite of strong resistance and the difficulties arising from destroyed communications, has crossed the Lys along the whole of its front and advanced its right flank to the western outskirts of Neve, in the valley of the Escout. The line now runs west of Neve and through St. Lezer, Dorigne, Rollegem, Vichte, Doelyck and Delreth.

"Since October 14, the Second Army has captured 5,209 prisoners and 163 guns."

PERSONAL

Nursing Sister Gladys Burns, M. O. H., Toronto, who was with her brother, Mr. A. R. Burns, in his last illness, had to return to duty before the funeral to Toronto.

GREEKS LIBERATED

By Courier Lensed Wire
Sofia, Sunday, Oct. 20.—Greeks from eastern Macedonia, who were taken from their homes by the Bulgarians and sent to the neighborhood of Kitchovo, Serbia, during the war, are arriving here following their liberation by the Allies. They say they were forced to construct trenches along the Struma front and were under fire much of the time. Not only the men, but women and children were under shell fire from the Allied artillery at times. During the occupation of Greek Macedonia, tens of thousands of persons were deported, and many of them have died from their harrowing experiences.

DISCHARGED

Patients discharged from the Emergency Hospital include: Leonard Elliot, 66 Park avenue; Joseph Hooper and his mother, Celia Hooper. Three Goshgarian children, 240 Park avenue.

TEACHERS VOLUNTEER AS NURSES

Response to Board of Education's Appeal is Practically Unanimous

An emergency meeting of the City Teachers' Institute was held at 10 o'clock on Sunday morning in the Central school, at the call of the president, Miss Phair, to plan for definite action on the part of the public school teaching staff in connection with the present influenza crisis.

Mr. Shepperson, Chairman of the Board of Education, addressed the teachers, saying that he saw they realized the seriousness of the situation, as was evidenced by the large attendance. He enumerated various lines of service that might be rendered, and appealed to all to do their utmost in helping stamp out the epidemic.

The Official Statements

(Canadian Press Service).

LONDON, Oct. 19.—The British and American forces in the region of Le Cateau have successfully continued their advance says Field Marshal Haig in his communication to-night. Southeast of Le Cateau they have penetrated to the high ground west of Cattillon and also have reached the west bank of the Sambre and the Oise canal. The text of the statement follows:

"This morning the British and American forces, operating in conjunction with the French between the Oise River and Le Cateau continued their advance with success. Our troops have reached the west bank of the Sambre and Oise canal north of Oisy and gained possession of the high ground west of Cattillon.

"In the operations in the past three days in this sector the troops of General Rawlinson's fourth army have completed an advance of from five to eight miles across difficult country which the enemy defended with tenacity.

"Having driven the enemy on the first day of their attack from strong positions held by him on the right bank of the Selle River, by determined and persistent fighting they have successfully cleared the whole of the high ground east of the river line, capturing many villages in the course of their advance, together with more than 5,000 prisoners and a large number of guns.

"The enemy has commenced to withdraw north of the Cambrai road. Hauteceur has been occupied by our troops and progress has been made in the direction of the south.

"North of the Senese canal our troops have entered Denain already and reached the village of Beacandry and Somahy. To the left of these positions the British division have taken Marchiennes.

"During the past ten days the troops of this division which have been continuously in the line for a long period and on a wide front, have maintained unceasing pressure on the enemy and by their energy and activity their pursuit has greatly harassed his retreat.

"In the course of the advance of more than eighteen miles they have captured several hundred prisoners and taken the town of Douai, besides many villages.

"Our troops are steadily continuing their advance. They have reached the general line of Orchies, Coubreux, Bourghelles and Templeuve, and southeast of Roubais, the village of Neshin."

PRESSED FORWARD

WITH THE ALLIED ARMIES IN THE CATRAI SECTOR, Oct. 18.—(By the Associated Press).—The Americans and British south of Le Cateau pressed forward to-day in the face of a determined counter-attack and a determined resistance from machine guns hidden in shell holes, and gained more than three kilometers. More than 1,500 prisoners have been counted.

WITH THE FRENCH

PARIS, Oct. 19.—The French armies all along the front have been successful in their combats against the Germans, making advances at numerous points and at others warding off violent counter-attacks, says the official communication issued to-night. The Champagne and French have pushed the Hindenburg line, attacked it and captured St. Germainmont. Seven hundred prisoners were taken. The statement says:

"On the Oise front the enemy was completely repulsed. East of the Oise our troops have advanced along the canal from Oisy to Hauteville. They occupied the forest of Audry and the villages of Etres and Verolles. And continued with their right wing the pursuit of the enemy begun yesterday between the Oise and La Fere.

"The French army to-day achieved new successes. Rivemont and the position dominating Villers-le-Sec fell into our hands. More to the east we went beyond Fais-le-Noyah and Canton-de-Temples.

"On the Serre front the Tenth army this morning started an attack on the Hindenburg line in the region of Polilly and the marais de Sissonne on a front of five kilometers. The position, which was powerfully organized and comprised two lines of trenches protected by a network of barbed wire and provided with numerous concrete bunkers, was forced by our troops who broke the enemy's stubborn resistance. We realized an advance of 1,200 metres in depth. The village and flour mill of Verolles and the hamlet of Etres and Fais-le-Sec are in our hands. The number of prisoners taken runs into the thousands.

"West of Barencon rivulet enemy counter-attacks were repulsed by our portent effective who had repulsed the order to hold on at all costs have been repulsed with heavy losses. Between Sissonne and Chateaux Perrier the fight has not been less spirited. Local attacks brought us appreciable progress. We have reached the road from Sissonne to La Selves, have carried several fortified works.

"More to the east we hold Bethincourt, Espagne, Thimae and Compeers. Between three villages and Nizy-Comte and west of Chateaux Perrier our troops also came into contact with the Hindenburg line. Our troops attacked after a short artillery preparation and took St. Germainmont. Seven hundred prisoners were taken in the course of this fighting.

An Urgent Appeal to All Telephone Users

The Spanish Influenza has caused a very serious shortage in our operating force.

In order to insure prompt and efficient handling of Important Government calls, and calls to physicians dealing with the epidemic, the public is requested:

- 1. To make only the most urgent and necessary calls.
2. To refrain, as far as possible, from special appeals to managers whose entire time should be given to the supervision of their central offices.
3. To show consideration of those operators who, despite their increased tasks necessitating overtime work, are loyally giving of their best endeavors.

This is a frank statement of the conditions. We are confident that only a word to the public in such a situation is necessary.

The Bell Telephone Co. of Canada

Between three villages and Nizy-Comte and west of Chateaux Perrier our troops also came into contact with the Hindenburg line. Our troops attacked after a short artillery preparation and took St. Germainmont. Seven hundred prisoners were taken in the course of this fighting.

In the region of Vouziers, the battle continued the whole day with extreme stubbornness. On the heights east of the Aisne we have taken after a hard struggle the Mac-Quart Farm and Hill 103 east of Vandy. More to the south we captured the village of Chateaux and went far beyond this village. We took more than 400 prisoners and captured 10 cannon and some machine guns.

B.C.I. RUGBY TEAM BEATEN AA GUELPH

Locals Were Crippled by Flu And Lost Out by Score of 35-5

Guelph continued their winning streak on Saturday afternoon when they triumphed over the B. C. I. team by the score of 35-5 in the interscholastic series game played on the grounds of the Agricultural College, at Guelph. The Brantford team was still crippled by the absence of some of their men including Captain Smith, due to the flu. Then to add to the trouble of the B. C. I. team who traveled by motor car, one car load became stranded in Galt. During the first half the B. C. I. team were forced to play with thirteen men. This great drawback probably meant the loss of the game for Brantford, and the others arrived at the beginning of the game were very like the half team more or less. When the play finally did arrive, however, hope was gone, but from the time that the fresh men took the field the Guelph team were kept moving and were continually driven to their end of the field. The game came nearly being a shut-out, for it was in the last half, within a few seconds of the final call for time that the B. C. I. team, with aid of several heavy and forceful backs, fought their way across the touch-down line. Kitchin was at the head of the final buck that made the touch down. He used his weight with disastrous results for the Guelph aggregation. The work of the wings, Rogers and Bier during the first half was well worthy of comment and their tackling abilities were shown at their best. The Guelph team played a good game at quarter back and controlled the men well despite being unaccustomed to the giving of signals. Adams, on the half line did good work, and his kicks were the envy of more than one member of the Guelph team. Carroll and Smith of Guelph did some praise worthy work and the latter's adept dodging was the means of Guelph's gains more than once. Considering all the handicaps that the Brantford team was up against, they put up a good fight and Guelph, although slightly heavier, met something harder than in their former engagements. The other game scheduled for Saturday, Woodstock vs Galt, at Woodstock, was not played, owing to the ruling of the Woodstock Medical Health Officer.

Hillcrests Beat Badly Crippled Malleables

Local Team Lost Out in the O.B.A.A. Finals on Saturday

HAD HARD LUCK AGAIN

The cruel hard luck which has dogged the footsteps of the Malleables during the whole of their fight for the O.B.A.A. trophy, was Johnny on the spot at Hamilton on Saturday and got in his final blows when the Brants were beaten 2-0 by the Toronto Hillcrests in ten innings. Not that Mr. J. Hodson Jinx was alone responsible for putting the locals out of the running, for one Edward Stickney (commonly called "Cannon Ball") Scott and his teammates were accessories after the fact. But had the Malleables been able to master their full team in little doubt that they could have turned defeat into victory. As it was, they could gather together only nine men, and were forced to play the entire game without a substitute or relief player on the bench. That Hamilton was bad enough, but Johnson, running to first base in the second inning, fell and cut his left hand badly, and, to climax affairs, Lennington, who was second in the eighth, broke a bone in his foot, and, with almost incredible gameness, played on, though suffering excruciating pain. As a result, the Malleables met defeat, but not disgrace. Nearly three thousand fans witnessed the game, the great majority of them rooting for Brantford. The redoubtable "Cannon Ball" Scott of the Hillcrests opposed Ack Johnson in the box, and proved himself all that his advance notices promised and then a little more. The locals found his delivery as impenetrable as the armor of a British tank, and in the entire ten innings garnered but three safe hits. Johnson, too, pitched "wonderful" ball, and although he was found for seven hits, it was not until the tenth inning that the Hillcrests were able to score. Nicholson led off with a single, but was forced by Turfisky, Hennessy, Cooper, and Turfisky. Spanton got a life on Stuart's error, and Egan singled, Hennessy springing. Spanton was caught at the plate.

The Brants had a chance in the ninth, when Currie singled and reached second. Scott also singled, but Currie was slow in leaving second and only reached third. Symons ended the inning by striking out.

Lennington led off for the Malleables in the tenth, but could hardly stand on his injured foot. The Hillcrests could have showed their sportsmanship by allowing the batting order to be shifted, but there was too much at stake, and they insisted upon the injured player's being left on the spot. He stood while Scott put over three strikes. The stands roared at Toronto's action, but the Hillcrests were out for victory, and, technically, were within their rights. The score:

SIDELIGHTS ON THE GAME

It was a hard game to lose. And a darned hard one for Toronto to win. It's a long time since amateur baseball has known two better twirlers than Scott and Johnson. With the Hamilton fans, it was a case of not that they loved Brantford more, but that they loved Toronto less. When Lennington limped to the plate in the tenth, Scott put over three balls, and it looked as though he meant to walk the batter. It would have been a sportsmanlike thing to do, but there was too much at stake, and Scott can't be blamed for putting over three strikes. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will get fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

FIND VACCINE FOR EPIDEMIC

Connaught Laboratories of University of Toronto Announce Discovery. SEND IT TO HOSPITALS. Though Difficult to Prepare, Large Supply May Soon be Available. A preventive vaccine for influenza has been discovered in Toronto, and already its distribution to Ontario hospitals has commenced. Announcement to this effect was made last night by the Connaught Laboratories at the University of Toronto. The vaccine consists of dead germs of influenza, and eighteen strains of these germs are used in its preparation. The preparation of the vaccine in large quantities is difficult, but 7,000 doses already have been sent out. The Director of the Connaught Laboratories, Major J. G. Fitzgerald, is at present overseas as officer in command of No. 33 Mobile Laboratory, France. Dr. R. D. Defries, the acting Director, is in charge of the work. The statement issued by the Connaught Laboratories is as follows: "The Connaught Laboratories, University of Toronto, have announced the production of a preventive vaccine for influenza. Work commenced on outbreak. Immediately after the outbreak of the epidemic here, work was commenced on the subject of influenza, and this work has been actively carried on with the co-operation of both the military and civil authorities, with the idea of determining the cause and means of spread of the disease. Following the work of the New York City Health Department, a vaccine has been prepared in large enough quantities for distribution. The vaccine consists of dead germs of influenza, and eighteen strains of these germs are used in the preparation of the vaccine. These strains were obtained through the New York and Boston authorities, and represent strains isolated in these cities and in several of the army camps of the United States. The influenza germ must be cultivated on special media and is extremely difficult to grow, being a very delicate organism. The preparation of a vaccine in large quantities is therefore most difficult. The distribution of the first supply of vaccine was commenced to the hospitals in Ontario for the use of the nurses and doctors and to the army authorities. The first supply of vaccine amounted to 7,000 doses. The work is being carried out on a large scale, and a steady supply of vaccine, it is hoped, will soon be available. The University desires to point out that as the vaccine is extremely difficult to prepare, it should be used first in those places where it is most needed. The vaccine will be distributed by the University entirely free at present. Established for Investigation. The Connaught Laboratories were established along the lines of the Rockefeller Institute of New York and the Lister Institute of London, England, for investigation in the field of preventive medicine and production of public health vaccines and serums. The laboratories have distributed during the last four years diphtheria antitoxin and other necessary products, not only throughout Canada, but also have supplied the Department of Militia and Defense with all the tetanus (lockjaw) antitoxin serum required for our overseas forces. Canada's trade for the past five months of the present fiscal year showed a drop of \$375,000,000, or about 20 per cent.

HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Eat less meat if you feel Backache or have Bladder trouble.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which, when the kidneys become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys. The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will get fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

STEAMER FOUGHT SUB. By Courier Leased Wire. An Atlantic Port, Oct. 21.—A steamship arrived here yesterday after an encounter with a German submarine, which occurred about 300 miles to the eastward. The attack by the submarine was by gunfire, not torpedo. A small went through the steamer, damaging the structure and several of her boats. None of the crew was injured. The steamer's guns replied. The arrival of a convoy proceeding in the opposite direction saved the situation. The steamer will repair at this port.

INFLUENZA WORSE THAN HUN BULLETS

Claiming More Victims Than Battle Fronts of Europe — Disease Can be Avoided

According to carefully compiled statistics, it is an indisputable fact that the Spanish influenza epidemic which is now sweeping all parts of the country, is daily claiming far more victims than German bullets on the battle fronts of Europe. Although civil and military authorities have succeeded in checking the disease in some localities, it is growing worse in others and continues to spread at an alarming rate. That the disease can be avoided there is no longer any doubt. According to leading authorities the powers of resistance of the human system can be so perfected that it can throw off almost any infection, not even excepting Spanish influenza, which is one of the most contagious diseases known. It is persons who are suffering from lowered vitality, who are weak and run down and who have not the strength to throw it off who are the chief victims. Persons who have had colds, who are suffering from catarrhal troubles, or inflammation of the mucous membranes are especially susceptible, as the inflamed mucous membrane lining of the nose and throat are an open door to the germ. This condition is almost always accompanied by a weakened condition of the system. If you are suffering from any of these symptoms, nothing on earth will build you up and strengthen you like Tanlac, which contains the most powerful, tonic properties known to science. This statement is easily proven by the fact that Tanlac is now having the greatest sale of any system tonic in the history of medicine. In less than four years time over ten million bottles have been sold and the demand is constantly increasing. Thousands are using it daily for the relief of colds, the most astonishing and gratifying results. Tanlac increases your strength and weight and creates a good healthy appetite for nourishing food. It keeps you physically fit and helps every organ of the body perform its proper function in the natural way. In connection with the Tanlac treatment be sure and keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included in every bottle. Tanlac is sold in Brantford by Robertson's Drug Store, in Paris by Appleby, in Mt. Vernon by William Peddie, in Onondaga by Neil McPhaden.
