ANNAPOLIS VALLEY CRICKET CLUB

The First Game of the Season, was Played Between Bridgetown and Annapolis

The first game of the season took place at Annapolis on Saturday afternoon and resulted in a win for the Bridgetown (XI) by 166 runs to 75. Chas. Bothamley made the remarkable score of 80 not out. Annapolis played a very plucky uphill game and the whole match was played in the most friendly and sociable spirit. After drawing stumps at 6 p.m. the home and visiting teams were very hospitably entertained to tea at Mr. Graham's beautiful residence.

Bridgetown has a very live cricket club and have high hopes of winning the league cup. The next game will be played at Windsor on Friday, June 3rd.

UNUSUAL RACE IS SHOWY IN BIG FILM

Cross Country Run Between Horses and Train

Racing for a greater prize than any purse ever posted at a track, Harry Blomfield, rode Black Beauty cross-country against Jack Beckett or Lightning. Again and again the positions of the racers changed, through many chance happenings and desperate risks taken by one and then the other of the riders. For Beckett, bankrupt and hounded by bailiffs, a fortune and a girl he desired depended upon the outcome of the race. Harry rode to save Jessie Gordon from a

OCEAN HIKERS AT HALIFAX

Wallace Scott, Joseph Maloney and James Campbell, Made Halifax a "Port of Call"

(Friday's Halifax Herald.)

Several hikers have left Halifax during the last few months, but none had made the city a "port of call" until the Ocean Hikers arrived last evening, en route from Pictou to Panama. These intrepid men are full of confidence in their frail little craft, and feel that they will be able to successfully complete their long trip. Great interest is being taken in this venture, and incredulity is expressed by all who have seen or learned the nature of the tiny craft.

The hikers arrived at the Dartmouth ferry wharf (Halifax side) at 8.30 last evening, having completed their longest day's run of the trip—45 miles, from Murphy's Cove. Few people knew of their expected arrival, but the news soon spread that they were in port, and hundreds of people visited Martin's boathouse, where the boat is stored, to see it. Everybody is surprised that the "three men in a boat" had nerve enough to undertake the trip.

During their stay in Halifax, the hikers are guests of The Halifax Herald at the Carleton Hotel, where last evening they were met by many Halifax citizens, who wished them "bon voyage" and a safe return to their homes at Pictou.

These three men, Wallace Scott (skipper), Joseph Maloney and James Campbell, left Pictou May 11, and had hoped to make the trip to Halifax in four or five days, but were delayed by head winds and had to be taken to the hospital. The rowing boat, fitted with a mast and sail, for she is nothing more, was not altogether completed when the voyage was commenced, and they will remain in Halifax for two days, while the boat is being fixed up.

The hikers expect to make the trip to Panama in less than two years, and their idea is not alone to make this trip, but also to make the trip in a craft of such a frail nature that nobody else will be tempted to emulate their example.

To give an idea of the nature of the boat, and the comforts (?) of the boat, mast, sail, and all other equipment weigh only 160 pounds. The keel is eight feet, four inches long, with the centreboard at present in the stern—it will be moved forward 14 inches while the boat is in Halifax. The boat is constructed of half-inch material, and the washboards are not nailed in place. They are not carrying any anchor, and there is only one place to row. They are not carrying any oilskins and there is only one pair of rubber boots in the crowd. There is no opportunity for cooking on board, and their practice is to land at some point along the shore and build a fire, making some port each night.

Captain Scott is undecided whether to make a direct run for Cape Sable, on leaving Halifax, or follow the coastline as formerly. One of the hikers, Maloney, is an experienced wireless operator, and they intend to fit up a wireless apparatus during the course of their voyage. They are selling post card pictures of themselves and boat, paying their expenses in this manner.

TWO ANNUAL W. A. MEETINGS

Annual Meetings of These Societies Held Recently Show Most Satisfactory Seasons

On Wednesday last the members of St. Mary's Church, Belleisle, Woman's Auxiliary, held their annual meeting at the home of Mrs. Hiram Young, the Rector presiding.

The report of the Secty.-Treas. for the past year was most satisfactory, showing an active season and a balance on the right side of the ledger.

For the ensuing year the following were elected to fill the various offices:—

President—Mrs. Lyle.
Vice-President—Mrs. M. O. Wade.
Secretary—Miss Agnes Gosner.
Treasurer—Mrs. R. L. Dodge.

It was decided to hold the annual Ice Cream Social in Belleisle Hall on the evening of Thursday, June 16th.

A very pleasing item of this meeting was a presentation to the Hon. President, Mrs. Underwood, who, though taken completely by surprise, suitably acknowledged the gift, which is a handsome piece of work executed by the members of the Auxiliary and will add greatly to the Rectory linen closet.

On Thursday the ladies of the Upper Granville branch held their annual meeting at the home of Mrs. Joshua Campbell, with the Rector in the chair, and again a most creditable report was made on behalf of the Secty.-Treas. This having been discussed, also plans for the ensuing year, the following were elected to office:—

President—Mrs. B. Ghills.
Vice-President—Mrs. G. I. Salter.
Secty.-Treas.—Miss Sadie Chesley.

It was decided to hold the annual Garden Party earlier in the season than last year, but the actual date was left open.

The outstanding feature of this meeting was a really splendid paper by Miss Annie Longley on "The Aims and Objects of the W. A." This paper struck a high note true to the ideal, and at its conclusion Miss Longley was warmly thanked.

Refreshments were served at the close of each meeting thus combining pleasure and profit.

MACKEREL ARE PLENTIFUL

Large Catches Are Being Made Along The South Western Shore

Yarmouth, May 26—Mackerel fishermen and trappers along the south western shore are without exception enjoying one of the biggest seasons for these fish in history. This morning approximately 350 barrels were taken from the traps at Burns Point and Cranberry Head. Boatmen netting out of Yarmouth return to port today with loads of mackerel, and none of them weighed out less than 2,000 pounds. Reports from the eastward show that mackerel are everywhere, and that the waters they frequent must be swarmed with tremendous schools as the traps at Public Point, Bluff Head, Johns Island and Clarke's Harbor were filled to their limit. The Cranberry Head and Burns Point traps are being pursued again this evening.

RUTH A WEEK AHEAD OF HIS 1920 RECORD

New York, May 26—On May 25, 1920, Babe Ruth, The Yankee home run hitter, placed a baseball out of reach of the Detroit outfielders and jogged around the diamond for the seventh time of the season.

Yesterday he did the same thing, only it was for the thirteenth time of the season, and Shocker, of St. Louis, was the pitcher who watched the ball travel into the distance.

Ruth is just one week ahead of his record in 1920. His thirteenth home run last year did not come until June 2.

KENNEDY WORKING ON PERRY CASE

Yarmouth, May 26—Chief Detective Kennedy is again in Yarmouth in connection with the Perry murder case, arriving here last night. He will return tomorrow morning.

Mr. Kennedy has been in consultation with Crown Prosecutor McKay, and also engaged in some further investigation, and the work of checking up and verifying certain information. It is thought likely that the detective may carry back to Halifax with him certain articles of material for examination.

The two wells at Smith's Cove have made several good stops of mackerel this week, on Monday and Tuesday nights taking about 8,000 pounds. The fish are large and in splendid condition.

PARCEL POST TO UNITED KINGDOM

Under arrangements recently entered into with the British Post Authorities a person sending a parcel to the United Kingdom may write on the wrapper a request that if it cannot be delivered as addressed it may either be treated as abandoned or delivered at a second address. If there is no definite request for abandonment a parcel which cannot be delivered at the original address, or at the alternative address, (where one is furnished), WILL BE RETURNED TO THE SENDER AT HIS EXPENSE.

The sender's name and address should be plainly written on the wrapper of every parcel sent by Parcel Post.

METHODIST NOTES

(From The Wesleyan)

ANNAPOLIS DISTRICT—The Annual Meeting will be held on June 7th and 8th at Margareville. The Ministerial Session will open at 2 p.m. on the first day. A public evangelistic service will be held in the evening.

MIDDLETON—On Thursday evening, the friends of Rev. and Mrs. A. Appleby, from different sections of the circuit, met at the Methodist Church to commemorate the birthdays of each, and to express in a tangible way appreciation of their services as pastor and wife, while in Middleton. A pleasing program of music and readings was carried out, after which Mrs. Appleby was presented with an electric iron, and Mr. Appleby with a gold watch, given by their friends. Mr. Appleby, in reply, expressed the hearty thanks of himself and wife, and expressed the pleasure he had received doing the work in the Middleton circuit.

BEAR RIVER—The local correspondent to The Digby Courier, of 20th Inst., said:

The service of the Methodist Church last Sunday evening was particularly inspiring. The pastor, Rev. W. J. Wright, preached a very helpful and practical sermon to the young converts, taking as his text, "Learn to do Well," at the conclusion of which he baptized four young people and received into full church membership ten candidates on profession of faith. A largely attended Sacramental service followed.

A PRIZE WINNER

(From The Wesleyan)

Mr. Carman M. Croft, youngest son of Rev. and Mrs. W. I. Croft, of Avondale, who has been attending McGill University, led his class in Chemical Engineering and the degree of Bachelor of Science was conferred upon him at this season's graduating exercises. Mr. Croft, before enlisting in overseas service took the prescribed course in Engineering at Mount Allison. He took a special course in connection with Glasgow University in Chemical Engineering. At McGill he has been awarded the Gold Medal and Honors in several subjects of the last year. He also won the second prize for an essay on the "Technical Side of the Pulp Industry."

NOVA SCOTIANS WHO WILL GRADUATE FROM MCGILL

Montreal, May 26—Students of McDonald College to the number of 27 will on Friday afternoon receive the degree of Bachelor of Science in Agriculture, granted by McGill University.

Two of the bachelors are women, one of whom is Miss Mary L. MacAloney, Fairview.

The fourth year students who will receive degrees, include, S. J. Hetherington, Cady's, N. B.; Mary L. MacAloney, Fairview, N. S.; J. M. F. MacKenzie, Coxheath, N. B., and A. M. Simmonds, Amherst.

G. H. Shaw, Windsor, recently sold his auxiliary yacht Zola to W. J. Dean of St. John. Mr. Shaw, accompanied by his son Cecil and Fraser Spicer, sailed the yacht across in 15 1/2 hours, a third of which time it was necessary to stem the tide. This yacht for several years visited Digby annually.

RESIGNATION OF REV. A.H. WHITMAN

Rev. A. H. Whitman, of Dorchester, N. B. Has Accepted Call to Lawrencetown, N. S.

Dorchester, N. B.—Rev. A. H. Whitman, who served in the pastorate of the First Baptist Church here for a period of more than three and a half years has tendered his resignation as pastor, and has accepted the unanimous call of the Baptist Church at Lawrencetown, N. S. The resignation became effective on May 22nd.

The following resolutions were moved by Rev. B. H. Thomas and seconded by Mr. F. C. Palmer, at the business meeting held Wednesday evening, and were carried unanimously:

Inasmuch as we, the members and adherents of the First Dorchester Baptist Church in business session consider the resignation of our beloved pastor, Rev. A. H. Whitman, B. A., who has for a period of more than three years served with rare devotion and much earnestness the cause of the church, both in and out of the pulpit,

BE IT RESOLVED that we do here and now recognize and place on the records of the church our high esteem for the pastor—his godly life and example in our midst—his deep concern for the spiritual welfare of the community—his sociability and hospitality, his cultured and dignified messages, his fearlessness in declaring the whole counsel of God, for his interest in all that pertains to the moral and social welfare of the people of Dorchester and its adjacencies,

AND BE IT ALSO RESOLVED that we record our sense of special appreciation for the presence of his gifted family, who have never failed to cooperate in all matters and notably the music.

AND BE IT FURTHER RESOLVED that with reluctance and with a consciousness of what the severance of these ties mean, we do accept the resignation now in our hands, assuring the pastor he will be followed by the prayer of many and the good wishes of all. Dorchester will pray that Pastor Whitman may have the crowning success of his long ministry in the valley town—to which he is going.

Respectfully moved by
B. H. THOMAS,
Seconded by
F. C. PALMER

The intended departure from Dorchester on the part of Rev. Mr. Whitman and family is very sincerely regretted.

Mr. Whitman is secretary of the Ninth Baptist District and he will be much missed in denominational as well as local circles.

Annapolis Spectator: Hon. Mr. Justice Longley passed through by D. A. R. on Tuesday on his way home to Halifax from a trip to Ottawa.

YARMOUTH GIRL IS KILLED IN ELEVATOR

Wellesley, Mass., May 25—Miss Mary A. Hannigan, aged 29, a native of Yarmouth, employed as an elevator operator at Tower Court, Wellesley College, was killed early this morning when she was crushed between the elevator and the floor.

How the accident happened has not been ascertained, there being no passengers in the elevator at the time. Following a piercing scream and crunching sound, Miss Hannigan was found with her head wedged in between the car floor and flooring of the building. Upon being removed and attended to by a physician it was found that she had suffered a fractured skull.

Miss Hannigan, it is believed, while running an elevator to an upper floor in answer to a call, was taken suddenly ill with a dizzy spell she fell to the car floor, her head being caught.

RAILWAYS TO CUT WAGES

Railway brotherhoods have received notice from the Canadian railways that the present wage agreement will terminate at the end of 30 days. The railway employees were awarded marked increases in pay a year or more ago as a result of the McAdoo award in the United States, an award copied by the Canadian railways. It is not known whether the railway unions will fight the proposed cut in wages or not.

CORRESPONDENCE

Dear Mr. Editor:

Will you allow me to acquaint your readers with the fact that the Children's Aid Society of Annapolis Co. has entered into the Motion Picture business?

But, only for one week, and only because we are obliged to call on the public, in an indirect way, for funds and support in our work at the present time.

The work devolving on the Agent of the County Branches (Mr. Herbert Stairs) last year was very heavy and not only were funds on hand depleted but accounts closed with an overdraft of nearly two hundred dollars. This amount is still outstanding and a whole year's work is ahead of the Society.

Middleton, Bridgetown, and Annapolis Royal, are the only centres having active branches, but calls are now continually made upon our Agent from many other sections. It is therefore necessary that plans be made at once to meet the needs, first by reviving interest in the present branches, 2nd, forming local groups in other communities, 3rd, securing funds sufficient to carry on our work.

With this end in view the efforts of exhibiting the Vitagraph photoplay "Black Beauty" have been secured for the week of June 6th to 11th. The book by Anna Sewell has delighted thousands, the screen version adapted by the Chesters is claimed to be even better. Arrangements have been made for the showing of "Black Beauty" in the following places and order commencing on Monday evening, June 6th:—Middleton, Lawrenceville, Bridgetown, Bear River, Annapolis Royal and Digby.

In the towns where no local C. A. Branch is organized the ladies of Women's Institute have kindly formed committees to assist. A sale of tickets will be conducted in advance. Two showings of the picture will be given each day, the hours to be announced later.

We trust we will have the hearty support of your readers in this, our first public appeal for support to carry on the work of the Society.

Thanking you for your kindness in granting us space in the MONITOR.

Yours very truly,

CLAUDE C. KING,
President County Branch
C. A. Society.

STERN REMINDERS OF RHEUMATISM

The Trouble Must Be Treated Through The Blood

Every rheumatic sufferer should realize that rheumatism is rooted in the blood and that to get rid of it must be treated through the blood. The old belief that rheumatism was caused by cold, damp weather, is now exploded. Such weather conditions may start the pains, but it is not the cause. Limbs and outward applications may give temporary relief, but that is all they can do because they do not reach its sources in the blood. The sufferer from rheumatism who experiments with outward applications is only wasting time and money in depending upon such treatment; the trouble still remains, and it is all the time becoming more firmly rooted. Treat this disease through the blood and you will soon find relief. Dr. Williams' Pink Pills act directly on the impure, weak blood; they purify and strengthen it, and so act on the cause of the rheumatism. Mr. P. J. MacPherson, R.R. No. 5, Cardigan, P.E.I., says: "About three years ago I was attacked with rheumatism. I began taking Dr. Williams' Pink Pills and soon the trouble disappeared and I am in better health than before. I also know of an old lady acquaintance who was badly crippled with rheumatism in her arms and legs, and who suffered very much. She, too, took Dr. Williams' Pink Pills. I tell you this in the hope it may be of benefit to some other sufferer."

You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent you by mail at 50 cents a box, or six boxes for \$2.50, by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

WEDDING BELLS

BAKER-DURLING

The marriage of Miss Elsie Baker, of Cambridge, Mass., and G. M. Durling, of Springfield, N. S., took place at the American House, Middleton, on Wednesday, May 11th, the ceremony being performed by Rev. Geo. C. Durkee, of Springfield, and the contracting parties were supported by W. M. and Mrs. Durling. For the auspicious occasion a room on the second floor of the hotel had been most tastefully decorated with carnations and roses. After the ceremony the party repaired to the dining-room to do justice to the delicacies supplied from the American House Culinary department. Mr. and Mrs. G. M. Durling will reside at Springfield. They motored from Middleton.

DO ALL MY HOUSE WORK

Before I took Lydia E. Pinkham's Vegetable Compound I could hardly get about.

Cobourg, Ont.—"For many years I have had trouble with my nerves and have been in a general run down condition for some time. I could not do my work half of the time because of the trouble with my monthly sickness. I was told of Lydia E. Pinkham's Vegetable Compound by friends and advised to try it. It has done me good, and I strongly recommend it. Since I have taken it I have been able to do all my own work, and I also know friends who have found it good. You can use these facts as a testimonial."—Mrs. ELLAN FLATTERS, Box 761, Cobourg, Ont.

Why will women continue to suffer so long as it is so? Can we understand, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For forty years this good old fashioned root and herb remedy, which contains no narcotics or harmful drugs, has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

"Goodness me—I've forgotten the name of that medicine—for the wife."

"What is it for, Sir?"
"It's to build up the system."
"I've heard what you want, Sir."

HALIFAX WOMAN GAINS 16 POUNDS

"I Will Always Bless The Day I Began Taking Tanlac," Says Mrs. Ritchie.

"I will always bless the day I began taking Tanlac," said Mrs. William Ritchie, of 48 Charles St., Halifax, N.S., "and I feel like I want to tell everybody what a wonderful medicine it is.

"I have actually gained sixteen pounds since I began taking Tanlac," she said, "and never felt better in my life. For five years I suffered with a bad case of chronic indigestion that made life a burden. Gas would form on my stomach after eating and I would get up something awful. When I lay down at night gas would come in my chest and throat and I felt like my breath would stop. I had no appetite at all, and there were days when I would go all day long with no more nourishment than a cup of tea. I was troubled a lot with severe sick headaches and spells of nausea that left me as weak as a baby. In all the five years I was sick I don't think I got a single good night's sleep, and in the morning I felt as tired as when I went to bed. I fell off twenty-five pounds and was nothing but a shadow of what I used to be.

"I had just about lost hope of ever getting well, when one day a friend advised me to try Tanlac. I found it different from any medicine I had ever taken. I kept getting better until today I am as well as I have ever been and feeling just fine all the time. My appetite is great. I can eat anything I want and digest everything perfectly and am not bothered with gas on my stomach or with sick headaches. I sleep at night like a child and get up in the morning refreshed and ready for my duties that may come to hand. All my strength and energy have returned and I am only too glad to recommend Tanlac to anyone suffering as I did."

TO ALL SICK AND SUFFERING ONES

I wish to say, "do not give up all hope until after you give Prof. B. S. Hamilton, Hampton, N. S., a trial. When I consider my condition of health today and compare it with that of a few months ago, it seems to me that the day of miracles has returned. A few months ago a severe pain started in my stomach and around my heart, shortly followed by enlargement. It continued to get worse until I was swollen from my chest to the lower part of the abdomen, the swelling being hard to the extreme. The pain was intense all the time and the enlargement was pressing my heart in such a manner as to make breathing very, very difficult. I could not lie down, neither could I stand up, if I did, everything before my vision would turn black and I would lose consciousness. I could keep no nourishment on my stomach, I seemed so filled up inside, as soon as I would swallow any food, there being no room to retain it, it would come right up. During all this time I consulted some of the best doctors in the land. All agreed there was no chance for me unless by an operation, and they held out a very slight hope of that, as my heart was nearly suffocated. All my friends felt sure I only had a few more days to live, and I was quite discouraged when Providence sent me news of the wonderful cures being made by Prof. B. S. Hamilton. I received the news from a patient who had been completely cured by the Prof. a year ago. I went from my home in Bear River to Hampton in a car, propped up by pillows, there being fears that I would not survive the journey. After being under the Prof.'s treatment four days a slight softening of the growth was noticeable. From that time on the improvement was rapid, until now at the close of four weeks it has wholly disappeared. I can eat and enjoy my food and feel able to return home and attend to my large family. If any who chance to read this, would care to have any more particulars of the case, I will be glad to give them, as I feel too much cannot be said in praise of the Prof.

Signed MRS. C. F. MacDORMAND Bear River, N. S.

ACADIA HONORS SEVERAL SONS

Wolfville, N. S., May 25—Forty-nine students, the largest graduating class in the history of Acadia University, received their diplomas at the eighty-third convocation of that institution here today. Wednesday's Halifax Herald: The American seiners Theola, Captain "Marty" Welch; Helena, Captain John Matheson, and Squanto, Captain Almon Mallock, are still in port, but will likely get out today after the mackerel.

The tern schr. A. H. Comeau, 148 tons register, has been anchored at LaHave the past week or more, where she arrived from Nassau in ballast after a passage of 16 days. Capt. Wallace Haughn, is master of the vessel, and this is her first visit to LaHave. T. R. Warren is her managing owner at Halifax.

Henry A. Amiro's schooner Eddie James, Captain Ansel Snow, arrived last week from a two weeks' fresh fishing trip and hauled for 15,000 pounds of halibut and 20,000 of shuck. Captain Snow reports fishing during the time he was out as being very poor, the weather was unfavorable and large schools of the destructive dogfish were encountered. Just before dark on Saturday evening he spoke the schooner Annie L. Spindler, Captain William Snow, also of the Amiro fleet, about twenty-five miles southwest of Yarmouth Cape and just getting on to the grounds.

STUDENTS' CONFERENCE

(Thursday's St. John Telegraph) Mrs. J. D. Hunter, convener of the girls' work committee of the local Y. W. C. A. and Miss Phyllis Woods, girls' work secretary, leave this morning by the Digby boat for Halifax where they will attend the maritime students' conference. This will be the first conference held since the re-adjustment of the organization which took the student council outside the province of the work of the Y.M.C.A. and the Y.W.C.A. The conference will be held in Pine Hill and is to last ten days. Miss Mary Allison, maritime girls' work secretary, will attend the conference and delegates from all parts of the maritime provinces will be present. Miss Woods will be the business manager for the girls. During the absence of Miss Woods, Miss Dorothy Lowe, of the Commercial Club, will take over her work in connection with the registration for the C.G.I.T. camp at Chipman.

Only Exception

"Ah, old fellow," said one gentleman to another in the street, "so you are married at last. Allow me to congratulate you, for I hear you have an excellent and accomplished wife."

"I have, indeed," was the reply "she is accomplished. Why, sir, she is perfectly at home in literature; at home in music; at home in art; at home in science—in short, at home everywhere except—"

"Except where?"

"Except at home."

Out of the Present into the Past

It is interesting to note the excellent preservation of some old family residences. So well do they "fit into the picture" that except for their architecture one might almost imagine them the product of the present age, yet in reality they stand as silent tributes to the wise precaution against decay and deterioration on the part of a former generation.

B-H PAINT

The formula (70% Brandram's Genuine B.B. White Lead and 30% Pure White Zinc) produces a paint with a fine, smooth surface that does not crack, chip or peel and a surface protecting film that will defy the elements.

Investigate B-H "English" paint—you'll find most Canadians use it because of its economy and lasting qualities. A trial will make you a convinced adherent to this brand that goes so far and lasts so long.

RED CROSS CRUSADE IN ANNAPOLIS COUNTY

Dr. Armstrong, chairman for Annapolis County, in the Red Cross Campaign to obtain 100,000 members in Nova Scotia, informs the MONITOR that in this County the movement is being well supported.

In some districts the churches did not observe Red Cross Sunday but in most localities sermons were preached in the interest of good health, disease prevention or notice given of the humane work to be undertaken by the Red Cross Society in every County in Nova Scotia.

In Annapolis County the school teachers are doing the soliciting in the country sections and smaller centres and each family will be asked to contribute one dollar for the work and the canvass will be completed as early in June as possible.

UNUSUAL STORY IS MADE INTO UNIQUE FILM PRODUCTION

Scarcely one out of each ten thousand books published in the nineteenth century is read or remembered by the present generation, but those that have retained their popularity are more firmly fixed in the affections of the public than any recent publication can be.

A ruling has been made by the Postmaster General's Department, and information sent to all postmasters that "Lost," "Found," "Strayed," "Stolen," and other notices cannot be posted up in the Post Offices. UNITED BAPTIST CHURCH NOTES

The services at the Baptist Church continue to be of unusual interest. Last Sunday evening the auditorium was filled and extra seats had to be furnished to accommodate the people. Ten candidates were baptized.

Local Happenings

Friday being a holiday, The MONITOR Office will be closed.

Mr. D. B. Potter, of Tupperville, has a cow which has given birth to two calves—a steer and heifer.

Friday, June 3rd, being the King's Birthday, the stores of the town will be closed all day, but will be open on Thursday evening.

Commencing to-morrow (Thursday) evening and continuing until further notice, there will be service in St. Mary's Church, Belleisle, at 8 o'clock.

The Dance set for Wednesday, June 1st, at Ruggles' Hall, has been postponed. The Social Club will have their dance on Friday, June 3rd, at the same hall.

Our valley has enjoyed a week of wonderfully fine and warm weather and conditions could not have been better for a large setting of apples and other fruit.

The "Ramblers" are getting in some real snappy practice and are showing plenty of "pep". We are looking for some close and exciting games in the near future.

We notice with pleasure that Mrs. H. E. Plagott's house is again open, and looks bright and cheery; also that anyone can procure meals and lodgings as in olden times.

The Valley Baseball League opens today, in the Western Section with the following games—Annapolis vs. Bridgetown, and Lawrencestown vs. Middleton, the latter named teams being the visitors in each case.

Annapolis Spectator: As if rumored, the forty expert steel workers soon expected here to complete the superstructure of the new bridge to Granville, are to receive \$1 an hour wages, they ought to be able to speed the work along in quick time.

The regular monthly meeting of the Women's Institute will be held in the Board of Trade rooms, Thursday afternoon, June 2nd, at 2.30. Delegates will be appointed for the convention to be held in Truro, June 15th and 16th, and other important business transacted.

Mr. F. W. Mayor, Optometrist, will be at Mr. W. A. Warren's store Monday, Tuesday and Wednesday next. Many inquiries have been made as to when he might be expected and as these dates were available they were agreed upon. Mr. Mayor's work speaks for itself—don't forget the dates.

School Notices

The Board of School Commissioners for the District of Annapolis East will meet at Lawrencetown, Thursday, June 2, at 2 o'clock. The Anna. W. Board meets Saturday, June 4, at Annapolis, at the same hour. The April Journal of Education will be published about June 1st. The new Manual of School Law, it is expected, will be published some time in July. A copy will be mailed from the Education Office, Halifax, to each Secretary of Trustees. The Provincial Examinations will begin Friday, June 24. There will be an Inspectorial Training Institute held in Bridgetown this summer, similar to the one held last year. The date of this institute and full information in regard to the same will be published in the April Journal. Teachers and Secretaries of Trustees must notify the Inspector as soon as an engagement is made. School closes June 30, and if possible all School Returns should be at the Inspector's Office by July 2nd. Owing to certain unavoidable circumstances the County Treasurer may be unable to pay all the grants to the sections in August as in former years. Some sections may have to wait two or three months. The grants will average about \$130 for each section employing one teacher and open full year. Poor sections will get about \$190.

Sections wishing an earlier school meeting than the June meeting should take action regarding the same at the Annual Meeting June 27. M. C. FOSTER, Inspector of Schools

Away to a land of perfect day. Where cares forgotten and tears are dried. Brush from her forehead the rippling hair. Lay the tired hands on her breast. Not ours to ask the question, why, For God is love and he knoweth best. Knows that our hearts are wrung And that no other her place can fill. And, while the parting may not be Her long. Her blessed memory is with us still. For her, the joy of an endless rest. For us, the waiting a few more years. And then the light of a perfect day. With no more partings and no more tears. Although she is free from pain and care, Although we know she is just away, There's nothing can fill the empty place. The light of the home has gone for aye. RECOGNIZING BROOD DISEASES OF BEES

(Experimental Farms Note.)
Identification is the first step in the control and eradication of the brood diseases of bees. A wrong diagnosis, especially where American foul brood is concerned, may result in spreading instead of controlling the disease.
There are three diseases affecting the brood of bees and usually the main characters are sufficient to determine which disease is present. To be able to detect any unnatural condition in the brood it is necessary to know the appearance of healthy brood.

The healthy larva, up to the time it is capped over, lies curled up in the base of the cell and is of a glistening pearly white colour. As soon as it is capped over it assumes a lengthwise position in the cell preparatory to transformation to a pupa. Cappings over healthy brood are uniform in convexity and colour; the latter, however, may vary from yellow to dark brown according to the age of the comb.

Brood affected with American foul brood usually dies after it is sealed over. The cappings covering dead brood are darker and more concave than those covering healthy brood. These cappings may also be perforated. The dead larva or pupa will be stretched out along the lower wall of the cell. It will be dark brown in colour and strikingly viscid, so that if a splint of wood is thrust into the dead larva and then slowly withdrawn, the decaying mass will rope out in a fine thread to one or more inches in length. The dead larva dries up and forms a dark coloured scale extending along the lower wall of the cell. These scales are difficult to remove without breaking the cell wall. A disagreeable odour is always present with the disease.

European foul brood may be recognized by the fact that the larva usually dies before it is capped over. Affected larvae change from white to light yellow in colour and assume unnatural positions in the cell. Later the colour changes to gray or brown and the larvae sink down and form a greasy-looking mass in the bottom of the cell. Some of the larvae retain the curled up position and gradually dry up and form grayish-brown scales that have a segmented appearance. In some cases a slight viscidness may be present, but the dead mass does not stretch out as in American foul brood. The threads are lumpy and formed by the dead larvae drying up and are easily removed from the cells, therefore very few scales may be present. A putrefactive odour is sometimes present.

Larvae dead of Sacbrood will be found in both capped and uncapped cells. The position of the larvae will be lengthwise in the cells, with the anterior end turned towards the upper wall of the cell. The colour may vary from light brown to almost black. After death the body wall becomes toughened, so that the larvae may be easily removed intact. After removal from the cell the dead larva looks like a small closed sac. The scales are black in colour and are easily removed by the bees; therefore, scales may not be present. There is no ropiness or odour with sacbrood.

THE FOURTH SPRAY

By G. E. Sanders.

From ten days to two weeks after the blossoms fall this spray should be applied.

A Bordeaux made up of 3 lbs. of bluestone, 10 lbs. of hydrated lime, 1 lb. of arsenate of lime to 40 gallons of water should be used.

It is dangerous to use lime sulphur at this period and soluble sulphur does not remain efficient over long enough periods to make it desirable for the last summer application.

The use of Bordeaux at this period gives practically no fruit russeting, while its superior lasting qualities make it particularly desirable for use at this period.

The arsenate of lime will at this period control the Tussock moth and fall webworm better than at any other period and will to a great extent control Green fruit worms, Budmoths and Codling Moth. Bordeaux at this period controls pit or Brooks fruit spot better than at any other and Bordeaux is superior to any other spray in the control of this disease.

Which spray is most important in the control of apple scab of course depends on weather conditions. It may be the first, the second, the third or the fourth. One thing is certain the fourth spray has to give protection over a longer period than any other, and Bordeaux is recognized as being a better sticker and remaining efficient as a fungicide over a longer period than sulphide sprays.

In the control of storage rots and inky spot which develops in storage, Bordeaux applied as a fourth or fifth spray is most efficient. Bordeaux will usually prevent any trace of inky spot whereas sulphide sprays do not last long enough to greatly retard it. Bordeaux sprayed applied will usually develop only about one-third the amount of rot in storage as those sprayed with sulphur sprays or unsprayed.

If dust is being used instead of liquid sprays, use more material than on the earlier applications, and try to apply it on a damp as well as a still morning in order to get the best adherence. Copper arsenic or Bordeaux dust has always proved a better fungicide than sulphur dust and at this period will give practically no russeting.

In using dust at this period, it would of course be best to make two applications on different mornings when the air draft was in opposite directions.

The Teacher's Impression!

The restless nature of the doctor's son made him something of a torment to his teacher at times, and one afternoon he kept him after the others were dismissed and had a serious talk with him. She was a little afraid that her admonitions were falling on stony ground and finally said: "I certainly will have to ask your father to come and see me."

"Don't do it," said the boy. The teacher thought she had made an impression.

"Yes," she repeated, "I must send for your father."

"You better not," said the boy. "Why not?" inquired the teacher. "Cause he charges \$2 a visit," said the scamp.

SOAKS HIS BREAD

An Englishman signed the pledge after much persuasion on the part of a clergyman, but the minister saw the man's daughter hastening homeward with a pail of beer. He stopped and said:—"My dear child, where are you taking that beer?"

"Home—to father."

"But surely your father doesn't drink beer after signing the pledge?"

"Oh, no, sir," said the girl. "He doesn't drink it. He only soaks his bread in it."

Where Hell Is

A young man, converted during a revival meeting, held in a mining village, desirous of doing something for God, bought some tracts. He was distributing these books one day when he met some of his old companions, who derided him, as he spoke to them of Jesus.

"Here," said one of his companions, "can you tell me where hell is?"

"After a moment's hesitation, the young man looked up and said: "Yes, it's at the end of a Christmas life."

NOT A STANDING ADVERTISEMENT

The proprietor of the second-hand store was not as tidy as he might have been. One day, while standing in front of the store, a man approached him and said:

"Have ye any clean shirts in yer shop?"

"Sure I have," answered the clothing man, anxious for a sale. "Lots of them; as clean as anything."

"Well," said the man, moving away. "go in and put one of them on."

EMBARGO ON EXPORT TAX ON CANADIAN PULPWOOD

Anyone who can travel on our railroads and see the immense amount of pulpwood piled alongside the tracks all through Quebec, Ontario, and New Brunswick for shipment out of the country, or who will visit Sherbrooks, Campbellton, or McAdam in the busy seasons and see trainloads after trainloads of pulpwood being shipped away from our Canadian mills, or will visit our seaports and see steamer loads after steamer loads shipped to Portland, Maine, and knowing that every trainload and every steamerload is shortening the life of our pulp and paper and lumber industries, and can see this all going on and not lift a hand to help stay the same, is to say the least, not a good Canadian.

The American mills in their activity for the removal of the embargo on the shipment of Crown land wood do not expect to succeed in having any restrictions removed, but are simply agitating this generation with the hope that it may prevent the placing of a further embargo or export tax on the shipment of fee land wood, which is now furnishing them with a million and a quarter cords of pulpwood annually and shortening the life of our own mills to this same extent.

This agitation is instigated principally by one of the larger American paper companies that has a small supply on its own lands in the United States and is, therefore, selfishly interested. Many American manufacturers freely admit that they are surprised that Canada has not taken steps to prevent the export of pulpwood long before this.

Our first duty should be to stop the shipment of raw wood out of the country; our second, renewed and increased fire protection for our forests; our third, reforestation.

I say first stop the shipment of wood. Why should we protect our forests from fire and plant seedlings while we are continually shipping mature trees out of the country faster than we are planting them?

The next matter of importance, is the retention for our own manufacturers of our other raw materials, and the further development of our coal mines and water powers.

Furthermore, as far as possible, our railroads should be run by electricity rather than by coal. We are saving that we should make by the prevention of the loss of the timber alone, which is burned up annually by our railroads, would more than pay the interest on the entire cost for their electrification.

An actual embargo is the only measure that will prevent the shipment of raw pulpwood to the United States. However, an export tax of \$10.00 per cord is the next best measure. This would not check shipment in any way, but would at least give Canada an additional revenue of \$12,000,000 per year on the million and a quarter cords now being shipped annually to the United States. This \$10.00 per cord would simply be paid by the American consumer, so that, by the imposition of this tax, no Canadian interest would be affected or injured in the slightest degree, and the country would be receiving some slight compensation for the loss of one of its most valuable assets.

Surely a measure that will increase Canada's revenue to the amount of \$12,000,000 without detriment to any one in the Dominion calls for immediate enactment.

GOOD NEWS for MUSIC LOVERS

If you have denied yourself the pleasure of a good phonograph simply because you assumed that a phonograph to be good, must also be expensive—come in and hear the Amberola!—Hear its pure, mellow quality of reproduction, and compare it with the metallic harshness of ordinary "talking machines." Decide whether you like the Amberola, and don't consider the question of price. When the Amberola has proved itself to you to be a really fine musical instrument—you will be doubly glad to know that it is the world's greatest phonograph value and that its remarkably low price may be divided into payments most convenient for you. Come in today and select your Amberola—the good phonograph have been waiting for you.

LOCAL DEATH ROLL

JAMES KIRKPATRICK

At Port George, May 16th, 1921. Mr. James Kirkpatrick passed away at the age of 74 years. Mr. Kirkpatrick having always been a resident of this place, a friend, neighbor ever ready to lend a helping hand to those in need of help. A staunch Methodist in religious matters. He died trusting in his Saviour who has always been his guide through years of age.

He had been in failing health for the last year. He leaves to mourn, a wife, 2 daughters, Mrs. Samuel Jodrie, of Halifax; Mrs. David Fritz, of Douglasville, and 3 grandchildren, and one son, Arthur, who came from South Boston to attend the funeral of his aged father, three sisters all from Port George, and several other relatives to mourn their loss.

The funeral took place Thursday afternoon, interment at Port George cemetery, Undertaker Roop being in charge of the burial. Rev. M. W. Brown, Baptist, and Rev. Jones, Methodist, both pastors conducting the service both at Port George; text Psalm 23-4 verse.

SIDNEY YOUNG

Waterville, May 26—Waterville, today, is mourning the death of one of her most promising and popular young men in the person of Sidney Young, who passed away at Winnipeg, Wednesday morning, at the age of thirty-five years.

Mr. Young saw active service, and on his return to Canada accepted a position with the police force of Winnipeg, in which he proved himself efficient and a courageous detective. He was a fine type of physical manhood, his rugged health and strength fitted him for his arduous duties. He leaves his parents, Mr. and Mrs. W. T. Young, of Waterville, two brothers, Claude, of Newark, N. J., and Vaughn, of Waterville; and two sisters, Mrs. Allan Young, of Swampscott, Mass., and Mrs. Owen Craig, of Vulcan, Alta.

The body will arrive at the home of the parents in Waterville and the funeral service will be held on next Tuesday afternoon at 2:30 o'clock.

HERMAN FOSTER

The death took place May 15 in Boston, of Herman Foster, of Nictaux Falls. The remains were brought home on Tuesday accompanied by Mrs. Foster, her son Aubrey and daughter, Bertha. Mrs. Foster is a sister of J. H. Charlton, of Middleton.

MRS. EVA M. JACKSON

The death occurred within the past few days of Mrs. Eva M. Jackson, of Haverhill, Mass., formerly of Middleton. The remains were brought to Middleton on Tuesday by her son, John and interred in the old Pine Grove cemetery.

WEDDING BELLS

SMITH—BORDEN
A pretty nuptial event took place on Wednesday evening in the Sackville Methodist Church when Miss Gladys Allison Borden, daughter of Dr. B. C. Borden, President of Mt. Allison University was united in marriage to W. Roy Smith, son of J. Willard Smith, of St. John. The church was decorated with pretty potted plants and greenery. As the bridal party entered the church a solo "O Perfect Love" was rendered by Miss McElhinney. The ceremony was performed by Rev. W. W. Ryan, pastor of Sackville Methodist church, assisted by Prof. Resbarres, of Mount Allison University. Mrs. H. P. Woodworth presided at the organ.

CORRESPONDENCE

To The Editor of The MONITOR:

Sir: A visit to the family domicile during school hours in the big brick building overlooking the river, will prove very interesting to the visitor, and most encouraging to Principal Archibald and his staff of skilled teachers. The majority of parents and friends of the scholars do not take a sufficient and sympathetic interest in the very thorough teaching both in matter and methods of our capable teachers. The school is second to none in the Province from the point of view of efficiency. The members of the staff are to be congratulated on the very real interest they take in every individual pupil, in the splendid discipline maintained, and the fine results of their patient and painstaking endeavors. If Bridgetown school is typical of Canadian Public Schools, then I will say, that young Canada is receiving a great start toward life's ultimate goal, and our boys and girls will be sure to look back with gratitude in their hearts to the school years of their lives. Good schools are our best investment, and their products the nation's greatest asset; whereas the uneducated are a menace to society. Illiteracy is a great peril. We pride ourselves upon our cherished Democracy but democracy is only democracy when it is combined with education, for without education it is anarchy. In view of this fact the most economical insurance against revolt, or anything that menaces the place, prosperity and progress of the nation is, as a matter of fact, to afford adequate facilities for our youth to receive a thorough intensive schooling, to "make the grade" and finally to be graduated with "flying colors." Education is not a luxury, but a vital necessity. I should add that to render the school curriculum adequate, compul-

Physical education should be added; and no stone left unturned to popularize military training on the part of both boys themselves and of their parents.

It is to be deplored that some fathers and mothers evince little or no interest in the education of youths; by their very indifference they are mortgaging the future of their own sons and daughters. If my few lines have the effect of stimulating interest in our Public Schools, I shall not regret having brought to public attention one of the pressing needs of the present oratory.

101 YEARS OLD AND STILL SPRING

Former Annapolis Royal Man Said He Never Was Sick That He Can Remember of.

(Halifax Herald)

Boston, June 1—James A. Rochford, of 38 Harriet street, Brighton, Mass., arose Tuesday morning at 6 o'clock, built a fire in the kitchen, prepared breakfast, washed the dishes and then, just because was his 101st birthday, took a stroll over to Oak Square, as in his custom on these annual occasions, "see the boys" and receive their congratulations.

"Never paid 10 cents for a doctor all my life," he declared to the Boston Traveller reporter who came to see him just as he was emptying his ashes from the range. "Never was sick that I remember of," he added. New England's most remarkable patriarch is a term that aptly describes Mr. Rochford. He is as spry as men still considered young. He worked as a carpenter up to six weeks ago, when his eyesight partially failed him; he remembers incidents of his boyhood as clearly as though they happened yesterday, and he now looking for a house to reside with space for a garden plot to take up his spare time and enable him to beat his record of last year, when he raised 22 bushels of potatoes and lot of corn.

His "spare time" comes between his household duties, for he is housekeeper for "ma", his partially crippled 84 year-old wife, and his home mate for the last 70 years, and grandson, Paul S. Rochford, works in Boston.

And these duties consist of preparing all of the meals, washing the floor and doing the washing and ironing. He had just completed ironing for the week when asked to tell something about his life.

He was born in Annapolis, Nova Scotia, May 28, 1820, the son of a British soldier, who was of French nationality, and a Scotch mother. When his father was discharged from the army they went to live on a farm in Bridgetown, Nova Scotia.

When he was 22 years old, he sailed for Bangor and worked in a lumber camp, and then helped in the first telegraph line between Brewer and Calais, Me. He worked a year in Maine, and then went back home. He came to Newton Highlands at 25 years of age and worked as a carpenter until his retirement.

He went back to Nova Scotia three or three times, but since 1881 he resided here. "I can't see as well as I used to," Mr. Rochford said. "I can't read a house as well as I ever could. I gave up when my one eye went back on me. I read about every day during the daytime, but I don't read at night. I go to bed at 10 o'clock every night and get up at 6 o'clock."
