Kaiser Writes Letter Concerning the Navy And Excites Britain

His said Wilhelm, by Comparing Fleets, Tried to Influence Admiralty Against Increase in Armament—Report Taken Very Seriously.

MISSIVE PURELY PERSONAL IS TWEEDMOUTH'S DENIAL

LONDON, March 6.—An outbreak of anger against Emperor William on the part of the British public, equaling that caused by the German Emperor's famous telegram to President Kruger after the defeat of the Jameson raiders has followed the announcement made this morning by The Times, that Emperor William had attempted to influence the British naval policy by a secret correspondence with Lord Tweedmouth, first lord of the admiralty.

The Germanophile party, which never was stronger than now, immediately jumped to the conclusion that Emperor William was trying to meddle in the most vital matter in Great Britain's national interests by unauthorized methods, and the public at first shared that view, and parliament, the newspapers and the diplomats had the greatest sensation they had enjoyed for many a day.

According to one version, Emperor William's letter to Lord Tweedmouth gave exhaustive details of the comparative strength of the navies of Great Britain and Germany, and basing his opinion on this had given notice that he would not be considered more than one-fifth as strong as that of Great Britain. This being so, Emperor William thought Great Britain had no need to fear any rivalry in naval supremacy with Germany, and consequently there was no need of any increase in the shipbuilding program of Great Britain.

The matter was considered so serious that Lord Tweedmouth broke his customary reticence, and basing his opinion on this had given notice that he would not be considered more than one-fifth as strong as that of Great Britain. This being so, Emperor William thought Great Britain had no need to fear any rivalry in naval supremacy with Germany, and consequently there was no need of any increase in the shipbuilding program of Great Britain.

Lord Tweedmouth visited the house of commons this afternoon and conferred with the Liberal leaders. The cabinet met afterward. It had been announced at first that Herbert Henry Asquith, chancellor of the exchequer, would make a statement concerning the matter next Monday, but the public was so excited and so many members of parliament had given notice that they would ask questions in the lower house about the correspondence that the cabinet decided something must be done at once.

Purely Personal. Mr. Asquith, therefore, appeared in the house of commons at the chief of the cabinet, and made a brief statement to a crowded house, elaborating and deepening the explanation, Lord Tweedmouth's explanation, that the correspondence was purely personal.

"It is a fact," declared the chancellor, "that on an entirely friendly spirit, my noble friend's answer was equally private and informal and neither the letter nor his answer was ever made public or communicated to the cabinet. I may add, in view of certain suggestions which have been made, that before the letter arrived, the cabinet had come to its final decision with regard to the naval estimates for this year."

These explanations only stimulate curiosity and criticism, instead of appeasing them, and a strong demand is heard everywhere for the publication of the letters. Nothing else will satisfy the British public, and probably this will be done eventually.

CONCERNED HIS OWN FLEET

Kaiser Merely Correcting "Erroneous Impressions," Says Foreign Office.

BERLIN, March 6.—The foreign office to-day said it was quite correct that Emperor William had written a letter to Lord Tweedmouth, first lord of the British admiralty, some time ago, but the assertion made by The London Times that his majesty had endeavored to interfere in the naval plans of Great Britain is characterized as untrue.

His majesty, in his letter, corrected certain erroneous impressions in England with regard to the development of the German fleet. In naval matters the emperor is entitled to consideration as an expert, it was explained at the foreign office, and he is recognized as such in England as well as in Germany.

As Emperor of Germany, he would reject any foreign attempt to decide the proportions of the German fleet, and on this basis his majesty would repudiate the idea that he had interfered in the naval affairs of Great Britain.

The German official view is that there is no reason why the letter should not be published, but it is declared that the matter is a personal one, between his majesty and Lord Tweedmouth.

MASSACHUSETT VETERANS COMING TO TORONTO THIS SUMMER

Regiment of 300 Ex-British Soldiers and Sailors to Visit Quebec and This City.

BOSTON, Mass., March 6.—(Special.)—A full regiment of the British Naval and Military Veterans' Association of Massachusetts will go to Quebec next July when the Prince and Princess of Wales will be there to lead in the celebration of the founding of the city.

RAILWAYS STILL BLOCKED.

Snow in Northern Ontario Continues to Blockade. Snow in the northern part of the province and sleet in the southern part blocked the railways again yesterday. All the lines were open, but some were running under big difficulties. The wires were down in some places. The Canadian Northern Ontario train due at 1.30 in the afternoon did not arrive until midnight.

RADIAL BILL AT LAST PASSES IN HOUSE

Further Protests Against Removing Railway From Jurisdiction of Ontario Railway Board.

OTTAWA, March 6.—(Special.)—The Hamilton Radial Railway bill was again before the house to-night and was finally passed. Dr. Sprague vigorously protested against the arbitrary action of the government in taking the railway from provincial jurisdiction. The time would come when the provinces would rebel against this proceeding. Claude Macdonnell's amendment to continue the jurisdiction of the Ontario Railway Board was defeated, and Mr. Henderson (Halton) proposed another to cancel the charter in the event of the company failing to carry out its obligations.

MAN MEETS HIS DEATH AT A LEVEL CROSSING

Geo. Scott Walked Under the Gate and Was Struck Almost at Once.

While walking from his home at 1388 West Bloor-street to Dundas-street at 8:45 last night, George Scott, 46 years, was struck and killed by the incoming G.T.R. passenger train from Sarnia at the Perth-avenue and Bloor-street crossing.

HAZEN'S BIG RECEPTION AT FREDERICTON, N.B.

Immense Crowd Greet the Premier-Elect—Bands Play and Fire Bells Blaze. FREDERICTON, N. B., March 6.—(Special.)—Premier-Elect Hazen, accompanied by W. H. Thorne, H. A. Powell, J. R. Steele and others, arrived on this evening's train from St. John. The new premier was met at the station by a large crowd of people and as he stepped from the train was given an ovation. Two bands were in attendance, and fireworks were set forth in all directions.

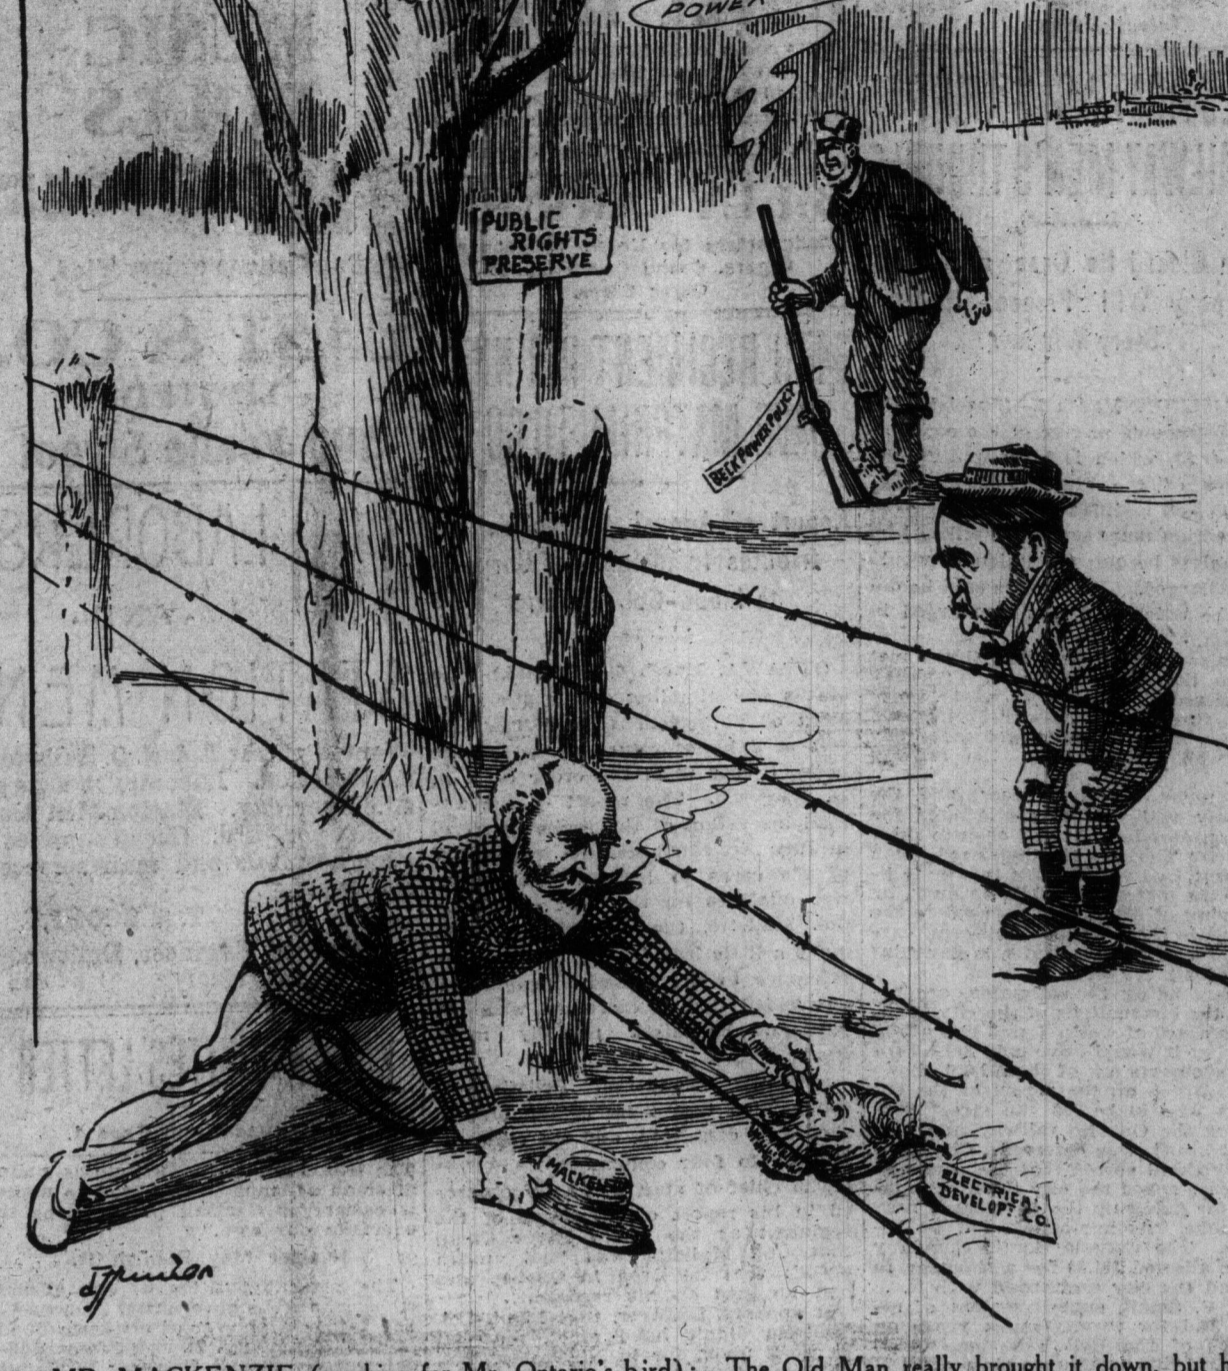

BIG FIRE AT NODA SOY.

Four Hundred Houses Burned in Tokio Suburb. TOKIO, March 6.—A serious fire took place this morning at Noda soy, a brewing town near Tokio. Four hundred out of one thousand houses in the town were destroyed. The damage is estimated at about \$2,000,000.

TELEGRAPHIC BRIEFS.

The rumor that Secretary of State Scott will resign is denied. The military camp at Quebec next summer will consist of 1500 men. Fifteen "blind pigs" were seized at Cobalt. Four have already been fined. Failures in Canada this week numbered 26 against 22 last week and 17 same week last year.

COUNCIL IS CONDEMNED FOR IGNORING PEOPLE

BY CROWDED MASSEY HALL AUDIENCE EVEN CONTROLLER WARD SLATES HIS COLLEAGUES. Moved by Father Minehan, and seconded by Thos. G. Matheson, upon a bylaw to reduce the number of liquor licenses to be issued in the city being submitted to a vote of the people in 1905, it was rejected by a substantial majority, and, whereas the board of license commissioners, acting upon this decisive expression of public opinion and in obedience to the command of the government, thereupon required the making of extensive alterations and improvements in, and additions to, many of the hotels in the city, the cost of these improvements, etc., aggregating upward of a million and three-quarters of dollars; and, whereas the question of license reduction was not directly or indirectly, or even by inference, made a public issue in the municipal elections by any candidate, and the council had, therefore, no mandate or authority from the people to deal with the matter; and, whereas the representatives who will appeal for the adoption of the referendum principle are ex-Mayor Boswell, Rev. Father Minehan, J. H. Kennedy and W. J. Heney. The committee was appointed on motion of A. W. Wright, a prominent member of a local temperance league, Mr. Matheson explained that the strong temperance advocate, he was convinced that absolutely no good result would accrue from the measure proposed.

A motion previously moved by the chairman, ex-Mayor Boswell, seconded by Rev. Prof. Clark, strongly disapproving of the city council's action, was passed by a large majority. There were present a scattered few of those who were at odds with the overwhelmingly prevailing sentiment, but it was patent that nine-tenths of the gathering were enthusiastically of a mind with the citizens' committee. Many scores of lines the hall was swept with cheers and applause as the speakers made telling points. One incident near the close was the mounting of the platform by a lady, who presumably wished to reply to the arguments of Mr. Wright. A good-natured uproar ensued, in the midst of which she was escorted back to her seat.

It was not a meeting in the liquor interest, but in condemnation of the methods employed by a majority of the council. As a Matter of Principle. The first speaker, A. W. Wright, explained that the meeting had been called by the citizens' committee to discuss the action of the city council in reducing licenses in opposition to the people's mandate. It was intimated that the question of reduction in itself should be considered. Many honest men and women in favor of reduction were entirely opposed to such action. The chairman, ex-Mayor A. R. Boswell, asserted, amid deafening applause, the speaker referred to the increase in license fees two years ago, and to the action of the license commissioners then appointed in undertaking a thorough inspection of all hotels. In order to comply with the strict laws, one and

Young College Student Dragged Into Lane, Knocked Unconscious and Relieved of \$67. With a severe gash in his wrist and lesser gashes about his face, Eugene Clerough, 25 years, living with friends at 14 Ontario-street, reported at the Wilson-avenue police station that while walking on Ontario-street, near King, at 8:45 last night, he was accosted by two men, who dragged him into a lane, and, knocking him unconscious, relieved him of \$67 and his watch. When he came to his senses both men and money were gone.

CHURCH STREET FIRE.

Several Firms Contribute to Loss of \$15,000. Fire, thought to have originated thru a combination of rats and matches, broke out in the first floor of 35 Church-street at 8:40 last night. The damage done to that building and the stocks of the various firms occupying it and that immediately to the south is estimated roughly at from \$15,000 to \$20,000. The ground floor of No. 35 is occupied by McBride Bros., fruiterers. Their loss is covered by \$10,000 insurance in the Toy and Queen City companies. The Meakin Company, brush manufacturers, loses will be heavy, as it was there that the fire gained its chief headway. The American Hat Frame Company occupies the top floor. The basement is occupied by the Stearns Brewing Company. Stronach & Sons, fruits and vegetables, occupied the cellar and ground floor of 33. Their damage by water and smoke is about \$1000. The Pugh Manufacturing Company are in the floor above. They carry \$22,000 insurance on a stock of \$18,000. Their loss is by smoke chiefly. No. 32 is owned by Miss Eleanor Beard, 65 Prince Arthur-avenue. It is fully insured. When the firemen arrived the flames were bursting from the north window down into a lane and it was a two-hours' fight to extinguish them. It is thought that the fire had been smoldering for some time as E. C. Nelson on the beat smelled smoke and looked for fire at 7:35 o'clock. There are signs of labor troubles in the building trades in Montreal.

HOW PROVINCE IS TO SPEND MILLIONS

Estimates Call for \$7,500,000, Including \$40,000 for New Wing at Os-good Hall.

Ontario will spend \$7,501,878.67 in 1908, according to the estimates brought down in the legislature yesterday. The accounts for the City of Toronto are not completed yet, but the expenditure for last year is estimated at about \$8,000,000, not less, at any rate, than \$7,500,000. With a population of 300,000 this would figure out about \$25.75 a head.

The similar amount to be spent by the provincial population of 2,200,000 figures out at about \$3.41 per capita. The farmers understand that it costs some to live in the city and are well satisfied with their lot. The actual expenditure of the province for 1907 was \$7,174,245.61, so there is over \$300,000 margin for supplementary estimates yet. Or at least it appears so at first blush. As a matter of fact, a number of statutory payments included in the current expenditure last year are charged to consolidated revenue funds. These include the salaries of cabinet ministers, and the university payments. To offset this are to be considered the cross entries, which apparently indicate the expenditure. It was the custom of the former government to deduct from the expense of maintenance of the provincial institutions the revenue derived from sales of produce or manufactures, as in the central prison. All these items are now included on both sides of the account. In order to make a fair comparison of increased expenditure with that of the previous year, it would be necessary to deduct these amounts from the present gross total. To do so with any accuracy would require a lengthy figuring, and the aggregate is a large amount.

THE RESOLUTION.

Moved by Father Minehan, and seconded by Thos. G. Matheson, upon a bylaw to reduce the number of liquor licenses to be issued in the city being submitted to a vote of the people in 1905, it was rejected by a substantial majority, and, whereas the board of license commissioners, acting upon this decisive expression of public opinion and in obedience to the command of the government, thereupon required the making of extensive alterations and improvements in, and additions to, many of the hotels in the city, the cost of these improvements, etc., aggregating upward of a million and three-quarters of dollars; and, whereas the question of license reduction was not directly or indirectly, or even by inference, made a public issue in the municipal elections by any candidate, and the council had, therefore, no mandate or authority from the people to deal with the matter; and, whereas the representatives who will appeal for the adoption of the referendum principle are ex-Mayor Boswell, Rev. **INVESTIGATING STREET RAILWAY MEN'S TROUBLE**

Union Closed Its Case and Company Will Present Its Story Monday.

HAMILTON, March 6.—(Special.)—At this afternoon's session of the condition board, which is investigating the troubles of the street railway men, John O'Neil testified that C. K. Green, the traction manager, had notified him that unless he quit the union he would be discharged. The witness said he did quit the union and was discharged in addition.

He also testified that Mr. Green met him in the court house on Thursday and offered him his old job again. Peter Barty, foreman of the car barn, said the non-union agreement for more pay was awarded by the railway board.

The union closed its case, and the company will present its side of the story on Monday. It will seek to show that John Theaker, the chief of the union, violated the rule by talking to the motorman while on duty, by approving of drink being served to passengers while they were in uniform, carried passengers free, and was irregular in reporting for work.

After sending his estimates, according to the instructions of the city council, the board of works found this afternoon that it would have only \$14,500 for new payments out of the \$25,000 allowed it. Action on the report of the engineers who inspected the street railway for the Ontario railway and municipal board, was deferred. City Solicitor Waddell stated that the company had never asked the city to supply material for fixing up the pavements near its tracks. Arthur-street will be re-named. The Canada Screw Company will be re-named. He was re-named at this evening at his residence, 214 East Hunter-street.

**Holding Public Sessions.**

The condition board is now holding public sessions. For the street railway the first witness to-day was John Ross, motorman, one of those who started the union which he said had more success in getting men reinstated than the old union. W. H. Smith when he was discharged was told by two men that the new union meant that they could get him reinstated if he would drop out of the old union, which he did, and secured reinstatement. George Moore and treated by the company, but the latter thought John Theaker had been dismissed because he was president of a good deal of late, and spent all day Thursday in conference on this question.

**Ray and Edward Jones.** Hamilton messengers were down for three men at Buffalo to-day on the charge of bringing stolen goods into the United States.

The Dominion Power and Transmission Co. has offered to exchange its stock for the H. G. and B. stock held by the minority shareholders, on terms that will probably prove satisfactory to the minority people, who have until April 1 to accept the offer.

A quantity of jewelry, furs and furs in money were stolen from the Vancouver Hotel to-day.

The police commissioners do not favor the application of property as a site for the new west end station, and they will look for a site farther west and nearer King-street.

**Cemetery Clean-Up.**

According to the new cemetery rates it is figured that the board would clean up some \$250,000 on property that cost them only a few thousand dollars. The board is also making new rules. The aldermen will disallow the new scale of prices and regulations until they have a chance to enquire into them.

The Chief Smith is not anxious to have the position of sergeant-major filled, the commissioners have intimated that an appointment will be made soon.

Mrs. J. H. Heckingbottom, given the choice of leaving the city or paying a \$50 fine on a charge of fortune-telling, has paid the fine.

Col. Langton will be in the city Saturday to organize the Ninth Co., Army Medical Corps. Thompson Leavins will probably be the commanding officer.

OTTAWA, March 6.—(Special.)—Sir Frederick Borden tabled in the house today an interim report of the militia council for the three months ended June 31, 1907, the object being to synthesize the annual report with the new fiscal year arrangement. Under the heading of "small arms," it says: "No purchase of rifles was made abroad. The manufacture, however, of the Ross rifle in Canada was well maintained in point of number.

**64TH REGIMENT DID NOT HAVE MATERIAL TO GO ON**

Report of Annual Inspection Attributes Inefficiency of Corps to Lieut.-Col. Mallette.

OTTAWA, March 6.—(Special.)—The status and standing of the 6th Regiment of Valleyfield formed the subject of a bulky return tabled in the house to-day upon the order of J. S. H. Bergeron. The report of the annual inspection of the regiment, dated in July last attributes the inefficiency of the corps to lack of administrative qualities on the part of Lieut.-Col. Mallette, the inspecting officer, made a little less uncomplimentary by reference to the second in command, but added that if entrusted with the command he might possibly make good.

Moreover Lieut.-Col. Pelletier recommended that most of the officers should be dismissed, and the regiment reduced to four companies.

The chief of staff distinctly observed in his report of inspection of the regiment at the Three River Camp that Lieut.-Col. Mallette was "not much good"; that he lived in Quebec and had no grip on his regiment.

It appears, however, that Lieut.-Col. Mallette did not have much material to report upon, for in November, 1907, he himself wrote to Sir Frederick Borden that with the exception of 20 men recruited at St. Bonville and 100 at Valleyfield "the rest are taken in the streets and on the wharves of Montreal, the greater part having certainly no home and some of them of the worst character and with whom the few coming from the country are not anxious to mingle."

Lieut.-Col. Mallette wanted the regiment converted into a city corps with headquarters at Valleyfield and largely recruited from the city.

On January last the militia council ordered the reorganization of the regiment as a rural unit with R. S. Joron in command. It took Col. Lessard some time to locate a suitable site, finally reported that he was a notary public and lived in Valleyfield, but Lieut.-Col. Mallette refused to send in his resignation.

**TRIAL FURTHER DELAYED.**

Some Witnesses Cannot Be Found, While Others Have Left Country.

MONTREAL, March 6.—(Special.)—The second trial of Wallace McCraw for the murder of one Slater at Grand Anse some two years ago, will, it appears, be further delayed, as some of the most important of the witnesses cannot be found, while others are too far away to be got at just now.

This, however, sounds strange in view of the fact that the authorities have had several months to look after the case. The trial, two years ago Slater was murdered in cold blood by someone, who killed him in his tracks with a rifle ball.

Mrs. Slater, the widow of the victim, and one McCraw were arrested and tried at Three Rivers for the crime. The woman was declared not guilty, and it is said that Lord Strathcona, who had known the woman's father as a Hudson Bay Company officer, furnished the money to put up a fine for her.

Be this as it may, Mrs. Slater was a free woman, and the trial of McCraw, the alleged accomplice, took place, resulting in his condemnation and sentence to death.

The court of appeals, however, found irregularities in the trial, and the accused was given a new trial, which opened at Three Rivers to-day. An adjournment took place for two weeks.

**KAISER WRITES LETTER**

Continued From Page 1.

The lesson for Great Britain is plain after an attempt of this kind to make it easier for Germany preparations to overtake our own.

The present position of the affairs embraces the government immensely and brings a shower of criticism upon Lord Tweedmouth and open work a delicate matter to ask Emperor William's permission to publish a private letter, and he may voluntarily authorize that this be done.

If the relations between Great Britain and Germany were not so strained, the British naval estimates and the regular minister for the policy for a big navy. Emperor William has tried hard lately to win English friendship by paying a visit to England and other places, but the Germanophobes refuse to believe these overtures were made in good faith.

He is a profuse and impulsive letter-writer, and is said to have written British newspapers, and the regular Lord Tweedmouth, and other second thought may convince Englishmen that they have done him an injustice.

Emperor William's letter has created a great stir in England and much popular indignation. The emperor is accused of grave meddling with the British naval estimates, and the reply of Lord Tweedmouth that the communication was purely personal is held to be a slight to the British indignation of the public.

The incident had a slightly depressing effect on the stock exchange prices when the trading opened this morning, but prices rallied subsequently on Lord Tweedmouth's explanation.

In the meantime the newspapers are saying that he should make any statements regarding the British navy that he desires to make through the regular channels, and they are criticizing Lord Tweedmouth because he did not immediately place the letter before the cabinet. The government has an awkward position now to handle any critical international question, because King Edward is on the continent, and Sir Henry Campbell-Bannerman, the prime minister, is too ill to be consulted on official matters.

There is an insistent demand that the matter be aired in parliament, and Lord Tweedmouth has intimated that further information will be given out by the cabinet on March 8. It is a question, however, whether the communication of the German Emperor can be made public without the consent of the writer as well as that of King Edward.

The matter was taken up by the cabinet at its meeting this afternoon, but no official announcement of any action has been made.

**A Suggested Explanation.**

The incident was the sole topic of conversation in the lobby of the house of commons to-day. It has been suggested, as a possible explanation of the incident, that the British Government attempted to secure mutual limitation in the matter of warship building by direct negotiation with Emperor William, in other words, to achieve by indirect diplomacy what The Hague peace conference failed to bring about. The critics of Lord Tweedmouth, however, point out that any such negotiations ought to have been carried on through a British diplomat, and there is considerable anxiety to know how far these alleged irregular proceedings have gone.

**Pauline Lucca.**

Springfield Republican.

Pauline Lucca, the Austrian singer who for a score of years was one of the famous sopranos of the world, has died in her native city, Vienna, of cancer, being almost 70 years old. She was born April 24, 1841, of Italian parentage, and Jewish ancestry. As a child a traveling singer discovered her natural gifts, much as Haydn in George Sand's romance recognized Chopin's young voice, partly disciplined as it was, made such an impression

BERLIN, March 6.—A considerable sensation has been caused here by the allegations published in The London Times, with reference to the letter sent by Emperor William in February to Lord Tweedmouth, first lord of the British Admiralty.

The newspapers are commenting on the episode, averring that they consider it improper to express opinions without full knowledge of what his majesty really said. Only one newspaper, the Berliner Zeitung, ventures to express its belief that the emperor has written with "indiscreet fulness of expression to a foreign official."

It is considered likely here that Lord Tweedmouth will make an explanation fully protecting Emperor William from the allegation that he has attempted to influence the official acts of the British Admiralty or cabinet. There is no disposition in official circles to the belief that this letter will create any incident similar to those which followed Emperor William's telegram to President Kruger.

It is regretted, however, that anything should be seized upon by the opponents of Germany in England while the chief naval estimates are under discussion and when Germany is about to launch her first improved battleship of the Dreadnought type.

PROVINCE SPEND MILLIONS

not so much to extra wages as to extra cost of supplies. The hospital and prisons accounts have risen from \$1,048,714.50 to \$1,180,777, and most of the advance is due to this cause.

Agricultural Estimates. The agricultural estimates are increased by \$25,000. Of this increase \$5000 goes to the societies, \$2000 to farmers for insurance, \$1000 for salaries and expenses.

Public Buildings. Osogode Hall is at last to have its new west wing, \$40,000 being included for this purpose with \$10,000 for other repairs and expenses.

Crown Land Services. Substantial advances are made to the crown land services, forest ranging growing from \$45,000 to \$50,000; forest reserves from \$30,000 to \$40,000; and fire ranging from \$60,000 to \$50,000.

Under mines and mining a new mine assessor, mining commissioner and assessor, are to receive \$4000 and \$1000 respectively. The provincial geologist's services are recognized by a modest increase of salary, while the vote for an assistant is cut two.

Arrested for Assault. Detective Sokkett left for Montreal last night to bring back and charge the Montreal police at the request of the Toronto authorities, charged with assault upon Rose Montone, the little daughter of the man with whom he had been boarding.

Schofield Wins Two Mile Steeplechase and White High Jump -- West End Win Relay.

The Royal Canadians held another successful indoor meet at the Riverside Roller rink last night before a large crowd, but as usual the scratch men fared badly, owing to the big handicaps imposed on them.

Schofield of Central won the two-mile steeplechase, with Lawson and Sellers of West End second and third, respectively. The 100-yard run, the feature race, was won by Selby of the Royals, he just nosing out Jack Tait of the West End, who had 5 yards of a handicap to make up.

Two-mile steeplechase-1. Schofield, Central; 2. Lawson, W.E.; 3. Sellers, W.E. Adams. Time 2:35.2. 100-yard run, handicap-1. Selby, Royal Canadians; 2. Tait, W.E.; 3. Adams, W.E. Time 2:35.2.

SPRING APPAREL FOR MEN AND A BIT OF LOGIC

Every man—no matter what his means—has a natural desire to make his money go as far as possible.

But there is only one sort of clothes economy. It is epitomized in the one word—best.

Anything short of that is sure to bring you only disappointment.

Best means not only "cloth quality," but the best designing, craftsmanship and finish.

If you can be absolutely certain of that, without an extra tax for it, you have all that your money can purchase.

There is certainty in Manes' made-to-order clothing.

If you wish to wear clothes that are different you can do so at moderate cost by coming and making your selection from my newly-imported assortment of

FREAK SHOTS AT GOLF. PRO.'S 200-YARD DRIVE. One Man Plays Ball Thru Chimney and Drives Thru the Door.

Unusual, or what might appropriately be termed freak shots in golf, are from time to time recorded.

More than a century ago, an Edinburgh golfer won a gallon of whisky by successfully making a hole in a wall.

While it must be admitted that most of the unusual incidents in this quiet game are the result of chance or accident, it is likewise a fact that fancy shots are by no means impossible.

More than a century ago, an Edinburgh golfer won a gallon of whisky by successfully making a hole in a wall.

Another interesting incident of this kind occurred in the Burgess Golf Society that two members could be found capable of driving a ball over the spire of St. Giles' Cathedral, Edinburgh.

On one occasion in a foursome the ball of a well-known player lay about eighty yards from the hole.

At the Westbrook Golf Club in a tournament a few years ago a player drove a good ball down the centre of the course only to see a crowd which had gathered to see the spot where it stopped, seize the ball and fly away with it to the woods.

A more recent incident of a similar nature happened on a course in Ireland. Two members drove off and no answer had the balls come to rest than they were pounced upon by nooks, which flew away with the white objects out over the green.

U. S. OLYMPIC TEAM TRAINER.

Mike Murphy is Appointed—Halpin Sustained as Manager.

NEW YORK, March 6.—Despite the protests of many athletes, Matthew P. Halpin will be the manager of the American Olympic team, which will compete in London this year.

It was decided, also, to appoint a trainer or to look after the men, and Mike Murphy of the University of Pennsylvania was selected.

The committee has decided that it is advisable for a trainer to accompany a team of the size and importance which it is hoped to send to the Olympic games at London, and it has selected Michael G. Murphy for this position.

THE RAILROAD DEBATE.

Mr. Graham's first important appearance in the house of commons as minister of railways and canals had been awaited with interest, and the result justified the expectation aroused by his public record.

TYPICAL OF THE REAL JOURNALIST.

It is correct and comfortable over the wine glasses at the club dinner for the Canadian journalist to assume the important academic air and to feel within himself the "influence" of his association with church and university in a triple alliance acknowledged with gratitude by the country at large.

THE SUNDAY WORLD.

The excellent arrangement of the matter and the fine illustrations are doing much to popularize the Sunday Illustrated World amongst all classes. The half-tone effects in the portrait work and group views are producing favorable comment from everyone who is familiar with this class of work.

THE COLLEGE PROFESSOR AT LARGE.

Prof. John Macnaughton of Queen's University has joined the ranks of the "Men-Who-Take-It-All-Back." He came to the Canadian Club this week, primed to the muzzle with a defence of the commandant of the Royal Military College, and an attack upon E. A. Lancaster, M.P. He fired his volley, and there was a mental explosion.

written copy. We go so far as to hope that John will never again say, "Good morning," without having a typewritten version of this cordial expression to hand out to the press, for fear the morning may be wet, and he may before noon want to take-it-all-back. John may rest assured the press of Toronto henceforth will take good care when it reports John, that the report is O.K. by John before it is handed in to the city editor for publication.

Entry of Dr. Daniel From New Brunswick Signal for Cheers From Opposition. OTTAWA, March 6.—(Special.)—The entry of Dr. Daniel, one of the New Brunswick heroes, was duly noted by the opposition. The members for the John City walked majestically down the floor and in answer to the cheers of his colleagues he waved his hand.

ST. GEORGE'S SOCIETY.

St. George's Society decided last night to hold their annual banquet on Thursday, April 23, and to attend St. James' Cathedral on Sunday, April 25. The semi-annual smoking concert will be held on March 31.

Dairymen's Meeting.

CORNWALL, March 6.—(Special.)—An important meeting will be held in the Music Hall, Cornwall, on Wednesday, March 11, under the auspices of Cornwall Cheese and Butter Board, commencing at 2 o'clock.

Another Enlargement.

Masters of Chambers Cartwright granted another enlargement in the suit of Appleyard against Mulligan. Miss Appleyard, who is about to leave for London, has been granted until May 10 to amend her statement of claim. She must, however, be ready to proceed to trial at the Ottawa Assizes in June.

CALLS IT LEGALIZED ROBBERY.

Editor World: A circular to shareholders of the Dominion Fence Company by its inspector shows the aggravated circumstances under which foreign monopolists have been trying to destroy a new Toronto industry. First, by keeping it for three years engaged in a protracted litigation after breaking up its business, and at last without the knowledge of shareholders getting its own supreme court costs of \$261 taxed by orders for immediate execution, to satisfy which they have directed the sheriff to sell the company's very valuable patent, which is said to be worth at least from \$50,000 to \$100,000, as it is the only one in the world besides that of the United States Company for the manufacture of electrically-welded wire fence.

Inspection.

Provincial License Inspector George Morrison is making his annual tour of the hotels in Toronto, and will be so occupied for several days. Chief Inspector Johnston and Inspector Burrows of the city staff accompany him.

AT OSGOOD HALL.

Trouble Over Business Sale.

Protests have been begun by a William Henry Stinson against Matthew Alexander Halliday of Chesley to recover \$750.14, balance due on a certain contract connected with the sale of the business of Halliday & Stinson. Claims \$3000 Damages. Joseph Kirby of the Township of Vaughan has been made defendant in an action brought by John Gray, claiming \$3000 damages for seduction of his daughter.

Clims Damages for Injuries.

John T. Towers has begun an action against McArthur Bros. Co. of Toronto claiming unstated damages for injuries received thru the alleged negligence of the defendant.

Supplied the Goods.

Rice Lewis & Son are suing D. J. Brodie of Niagara Falls Centre to recover \$4.02 on an account for goods supplied.

Recovered His Mind.

July 25, 1897, Joseph Unger of Galt underwent a medical examination by a Dr. Macdonald. Since then Unger, having entirely recovered his physical and mental health, on application to Judge Magee has obtained an order yesterday making superseding the former order and restoring to Unger his property.

One Bank Sues Another.

A suit has been issued by the Quebec Bank against the Sovereign Bank of Canada to recover \$24,356.12, the price of a quantity of spruce delivered at the Imperial Paper Mills, Sturgeon Falls, and for which, it is alleged, the defendant agreed to pay the Quebec Bank.

Want the Account Paid.

To recover \$104 for goods sold and delivered, Rice Lewis & Son have begun an action against Louis G. Mahen of Penetang.

Must Submit to Examination.

The Toronto Railway Co. obtained from Master-in-Chambers Cartwright an order directing Ethel H. Wood to undergo a medical examination to ascertain the extent of the injuries for which she is claiming damages from the company.

Winding-Up Application.

The application to wind up the Galt Electric Gas Fixtures, Ltd., was yesterday adjourned by Mr. Justice Magee until Tuesday next. The Lawrence Gas Fixtures Manufacturing Co., who are creditors for \$200.82, are the petitioners. The company was incorporated in 1906 with a capital stock of \$40,000.

Must Go to Trial.

The Dominion Automobile Co. has an account against P. H. Patriarch for automobile repairs and repairs amounting to \$863.83. Patriarch disputes the account and alleges that he has been overcharged. The motion before Master-in-Chambers Cartwright for summary judgment for the amount was dismissed.

Unround Mind.

Upon petition to the court an order has been made declaring Hugh Cameron, a rancher, living in the Village of Woodville, Victoria County, to be a person of unsound mind.

Wife Will Not Give Security.

Richard Stone appealed to Judge Magee from the judgment of Master-in-Chambers Cartwright refusing the application to compel his wife Jennie Stone, to give security for costs in her action against him in connection with the estate of the late Mrs. Stone, the appeal. His lordship dismissed the appeal.

Another Enlargement.

Masters of Chambers Cartwright granted another enlargement in the suit of Appleyard against Mulligan. Miss Appleyard, who is about to leave for London, has been granted until May 10 to amend her statement of claim. She must, however, be ready to proceed to trial at the Ottawa Assizes in June.

CALLS IT LEGALIZED ROBBERY.

Editor World: A circular to shareholders of the Dominion Fence Company by its inspector shows the aggravated circumstances under which foreign monopolists have been trying to destroy a new Toronto industry. First, by keeping it for three years engaged in a protracted litigation after breaking up its business, and at last without the knowledge of shareholders getting its own supreme court costs of \$261 taxed by orders for immediate execution, to satisfy which they have directed the sheriff to sell the company's very valuable patent, which is said to be worth at least from \$50,000 to \$100,000, as it is the only one in the world besides that of the United States Company for the manufacture of electrically-welded wire fence.

Inspection.

Provincial License Inspector George Morrison is making his annual tour of the hotels in Toronto, and will be so occupied for several days. Chief Inspector Johnston and Inspector Burrows of the city staff accompany him.

Mr. Wm. Mulock's View of the Railway Commission. Sir William Mulock yesterday stated that he was not a candidate for the board of railway commissioners, and went on:

"When I was a minister I had a fairly good opportunity of knowing something of the exacting nature of the duties of the chairman of the railway commission at that time. Since then they have been materially increased by recent legislation, and will continue to become more onerous. The public interest makes it necessary that the appointee to succeed Chief Justice Kilham should be a man in robust health, and one younger than myself.

If Very Thin, You're Liable to Catch Pneumonia or Fever

People who are so awfully thin, run great risk—they have but little vitality and no energy to ward off disease germs. Invariably consumption takes root in people who are thin or run down. Thinness is not only a danger, but sheer wickedness in this land of plenty, where it can be so easily overcome. Probably the best remedy consists in taking Ferronze at meal time. It is a remarkable blood forming and tissue building remedy that in thousands of cases has added several pounds in a single week. Ferronze supplies the system with richer and better blood; the muscles and nerves

COUNCIL IS CONDEMNED Continued From Page 1.

three-quarter millions of dollars had been spent on improvements. Was it fair, just or honest that these men should lose their property?

The bylaw should be repealed because 38,000 citizens had protested against it. This petition was presented to the Ontario Government in the hope that it would order the council to re-tract the bylaw, but the premier was not to be blamed too severely because he said the issue was a local one.

The bylaw had been rushed thru council in a very improper manner. The speaker had had some experience in municipal affairs, but he had never known an instance before when an important bylaw was given three readings in one day. Had the final reading been deferred, the citizens would have had time to awaken to the fact that the matter was serious and would have petitioned against it.

Another reason for repeal was that, owing to the great growth of the city, population there was not enough hotel accommodation, especially in view of Toronto's reputation as a convention city.

Another reason was that property rights were ignored with provision for compensation, as in the case of the English license measure.

Mr. Boswell quoted several visiting United States clergymen as having said that Toronto was exemplary in its freedom from drunkenness, and also cited from an address given by Controller Spence in Chicago in the same effect. He created much laughter by a reference to the controller's recent declaration that he would trust anybody other than the city council to appoint a parks commission. He concluded by expressing the hope that the city council would treat the citizens justly.

The Voice of Labor. President J. H. Kennedy of the Trades and Labor Council, said he was more than pleased to be able to represent the views of one of the most important civic bodies. There was nobody more interested in the welfare of the city at large than the workmen and trades unionists, who approved the bylaw. It was a cardinal principle of right and justice that the voice of the people should always prevail.

As citizens, the labor men were more than surprised at the action of some

aldermen who, first, last and all the time had been shouting that the voice of the people must rule.

"There are men in the council not worthy of the confidence of the people who put them there," declared Mr. Kennedy, amid great volleys of applause.

Some of the aldermen had been carried away by the "nice smiling ways" of the Controller Spence, said the speaker, who was very grateful that Ald. Kennedy, the "apostle of the initiative and referendum," had been carried away with the rest.

Much laughter was occasioned by the question why reduction had not been mentioned in the late civic campaign? and why the power bylaw, on which all the interest was then centred, had been allowed to "sink into oblivion."

It wasn't. "Was that British fair play?" he queried, and there was a thundering "No."

Mr. Kennedy made telling use of the argument that the hotel tax had been grossly deceived. One hotelkeeper he knew had spent \$37,000 on a supposed guarantee of security.

Much laughter was occasioned by the speaker's reference to members of the city council as having nothing at stake, and who "had to take advantage of the technicalities of law to qualify."

The audience was vastly tickled by the allusion and the hall shook with laughter and applause.

"I hope council will realize its duty and make amends for its drastic action," he wound up.

The chairman read a communication from Thomas Roden, president of the Employers' Association, regretting inability to attend, and stating that he fully endorsed the protest against the "arbitrary action" of the council.

Goldwin Smith's Opinion. The announcement of a letter from Dr. Goldwin Smith drew a great volume of applause. The communication was as follows:

"Dear Sir,—I am sorry to say it will not be in my power to attend your meeting this evening. But I join my fellow citizens in denouncing the arbitrary measure of the council in depriving thirty-four citizens of their trade and of whatever they may have invested in it.

"The question of temperance is not involved. This is a simple case of common justice.

"Is it certain that by crowding all purchases of drink into a few taverns the number of taverns will be diminished? If I remember rightly the result of the experiment in Mayor

Howland's time was rather the other way. "Does it appear very safe making the liquor trade a monopoly to give the absolute patronage of it to the council?"

"Yours faithfully, Prof. Clark for Justice.

Rev. Prof. Clark said he was present as one who wished to speak in favor of justice. He referred to the manner in which he had answered criticism some years ago, when he spoke in advocacy of Sunday cars, by saying that he did what he was himself able to enjoy, namely, transportation to and from church.

"He was not inspired by any motives as an owner of a tavern or tavern property, but was present to protect against interfering with the people's rights.

"If the proposal is to take away property from hotelkeepers, it is sheer robbery," he declared. "They didn't go into business by stealth, but with the permission of the government, and it should be for the government to say if they have done anything wrong. They went into business as any other merchant under the sanction of the law of the land. I have never heard of a more monstrous proposition than to take away from them their business."

ROE—At his residence, 80 Manning-avenue, Toronto, on Friday, March 5th, 1906, Lot Roe, aged 58 years. Funeral Monday, 2 p.m.

Calla Blyan an Insult. Robert Hocking, president of the International Bookbinders' Union, declared that it was up to the people to tell council what they thought of such unjust action.

The principle that the people must be consulted was a written law in the case of local option.

Father Mincham professed the highest admiration for the license commissioners in refusing to shoulder the responsibility laid upon them by council. "The heathen Chinese" of Bret Harte was the "very soul of guileless honesty compared with the gentlemen who have engineered this recent move."

The speaker said that, in silencing the objections of some of his friends, who didn't want to vote for "temperance" at the last election, he had told them that there was no temperance issue.

"I feel that I have been jockeyed, and that true temperance has suffered grievous injury in being yoked with dishonest methods."

He then read the resolution, which was seconded by Prof. Clark, and was adopted on motion of the chairman, amid much enthusiasm.

A. W. Wright, in moving the appointment of a committee, said he had been informed during the recent campaign a secret meeting was held in the office of a doctor on Bloor-street to arrange for the overthrow of the people's will. To this meeting only men who, it was believed, would not question the injustice of the step, were invited.

Candidates for Federal and Local Houses Named. BRACEBRIDGE, March 6.—At a Liberal convention held here to-day to elect candidates for the Dominion parliament and legislative assembly, the following were nominated: For the Dominion, Angus Morrison, farmer, Resy; W. J. Green, barrister, Huntsville; G. H. C. Thomas, Brace-bridge; Major D. M. Grant, Dr. Shaver, Mayor Fisher, Huntsville; Dr. Campbell, Gravenhurst. All withdrew in sympathy with the second ballot Mr. Morrison was elected, and on motion of Mr. Green, seconded by Dr. Campbell, the nomination was made unanimous amidst hearty applause.

For the legislative assembly the following nominations were made: Aldus Snider, lumberman, Gravenhurst; David Hamilton, Beatrice, and Dr. Campbell, Gravenhurst. The two latter were the unanimous choice.

WERE IN THE BASEMENT! NEARER HEAVEN!

How Speakers at W.C.T.U. Supper Referred to Indignation Meeting Up Above.

If the young lady who was taking tickets for the W.C.T.U. banquet in the basement of Massey Hall last night hadn't been strictly conscientious there would have been a good many ticketholders for the indignation meeting over the license reduction bylaw. Ticketholders for the big meeting were to have been admitted at the Victoria-street entrance at 7.30, while the entrance to the W.C.T.U. banquet in the basement had been effected from the Victoria-street (rear) door at 8.30. The latter door being opened first a great rush of people bearing cards marked, "Shall the People present themselves for admission to the temperance gathering. Even Percy Kerwin, secretary of the Licenseholders' Association, was among them when he was about the most mortified man in Toronto when he saw Mrs. Kerwin and daughter were directed to the door above by a woman wearing a white ribbon.

Another man spent two of the most uncomfortable hours of his life listening to Rev. C. O. Johnston and Joseph Gibson, president of the Dominion Alliance, nail at the motive of the people above. His ticket was accepted by the young lady at the door, who thought in one of her mischievous moments that a red hot temperance measure might do him no harm.

Supper a Success. Women Teachers.

New York American editorial: The legislature, of course, is profoundly interested in the matter of whether or not female teachers should be permitted to teach in the public schools.

There has never been a question of the public schools of this city and of this state. But there has been always a question of the justice of their pay.

Last year the legislature acceded to their requests, and the governor promptly vetoed the bill. This year, if the legislature does not do better, it will have accomplished much.

89,645 RUM PRESCRIPTIONS.

Charlotte Druggists Also Sold 419 Dozen Bottles of Beer.

CHARLOTTE, N.C., March 6.—According to reports made public in this city, in the year 1907, the drug stores of Charlotte filled 89,645 whiskey prescriptions.

There are fourteen drug stores in Charlotte that pay an annual liquor license of \$100 each, or a total of \$1,400. Averaging the cost of whiskey at \$1.25 a quart, or \$5 a gallon, the grand total is \$4,750 that the drug stores received for whiskey alone in the year.

For writing 89,645 prescriptions, the physicians received an average price of 2c for each prescription, which brought them in the neighborhood of \$200,000 for their trouble.

Prohibition has been in effect in Charlotte for about three years. The population of Charlotte is about 35,000.

TEMPERANCE SUNDAY IN ANGLICAN CHURCH

Special Observance is Requested To-Morrow The Synod's Position.

The following circular letter has been addressed by Rev. Charles L. Ingle, chairman of the Synod of Toronto Committee on Temperance Reform, to the clergy in the diocese:

"On request of the synod that a Sunday should be set apart on which the clergy should preach on the subject of 'Temperance,' the archbishop some years ago set apart the first Sunday in Lent as a suitable day for the preaching of such a sermon. May we remind you of the duty thus laid upon us by his grace?"

"We have felt that the following statement of the position which the church has taken in the diocese through the voice of her synod may be helpful."

"Several times the synod has affirmed that public ownership of the liquor traffic would be the true solution of the difficulties in the way of temperance reform, as this plan would eliminate the element of private profit, which is a constant source of temptation to the salesman to push his sales for his own gain irrespective of the welfare of his customers."

"It is not long before I found they were helping me, and by the time I had taken a half dozen boxes the trouble had entirely disappeared. In other respects the pills also greatly improved my health, and I never felt better in my life than I have since taking them."

"I therefore most cheerfully recommend Dr. Williams' Pink Pills to other sufferers from the same complaint."

Dr. Williams' Pink Pills make cures of this kind after doctors and common medicines fail, because they actually make new blood. They cure the mere symptoms. They go right to the root of the trouble in the blood.

That is why the people who are afflicted with the following ailments are cured by the pills: Rheumatism, neuralgia, palpitation of the heart, and the headaches and migraines brought on by the ailments that all the lives of the world are afflicted with.

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50c a box of six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

MABEL ALLEN IS FREED

JURY OUT THREE HOURS Demonstration in Court—Judge Winchester Gives Her a Kindly Word.

After three hours' deliberation the jury last night acquitted Mabel Allen on a charge of burning the barn and outbuildings of Jacob Hopkins, a Mount Albert farmer.

There was almost a demonstration in the court among the large crowd who waited to hear the girl's fate. One man remarked: "I was sorry for the horses that were burned, but that is all."

Judge Winchester, who had charged the jury briefly but, if anything, against the accused, spoke to her kindly after the verdict had been recorded.

"I hope that you will try to lead a better life," he said, "and that you may become a reputable member of society."

The crown's case was closed yesterday morning, and the defence evidence was in the afternoon.

The address of counsel for the defence was not long. Mr. Pritch pointed out that the tracks leading to the barn were smaller than those which would be made by the feet of the girl.

After saying that Hopkins himself had admitted that he could not remember why the girl should set fire to the buildings, he dwelt upon her wrongs at Hopkins' hands.

"I ask you to believe this girl against one hundred men like Hopkins," Mr. Drayton pointed out that the girl had the strongest motives, and she had admitted to bearing a revengeful feeling toward Hopkins.

"I don't want to decide that because there was motive there was guilt," said he.

Arson was a crime of stealth and evidence of it must be circumstantial. The girl had threatened just this act, and had admitted that she had perjured herself at the preliminary hearing.

"I don't want to defend Hopkins," he said, "but I have just said about the same opinion that each of you has of such men, who are going about with girls young enough to be their daughters. Hopkins perhaps deserved what happened, but that is not the point."

RHEUMATISM IN THE BLOOD

Cure it by Enriching the Blood with Dr. Williams' Pink Pills.

There is only one way by which rheumatism can be cured. It must be treated through the blood. Liniments and outward applications may give temporary relief, but they can't possibly cure the trouble.

Mr. Charles H. Lumley, of Brimford, Ont., is one of the best known farmers in Lambton County. About three years ago, while Mr. Lumley was engaged in threshing, he became overheated, and this was followed by severe chills that started the rheumatic pains. Mr. Lumley says: "I did not think anything of it at the time, but it was accustomed to being exposed to all kinds of weather. As a result I was unable to go about next morning. I had severe pains in my joints, and these could be done only with the usual home remedies. As these did not help me, and the trouble was getting worse, I consulted a doctor. He sent for, but he did not have any better success. He told me I was suffering from a severe attack of rheumatism, and that there was no doubt of it, as I was confined to my home about four months before I was fortunate enough to try Dr. Williams' Pink Pills. I sent for a supply, and it was not long before I found they were helping me, and by the time I had taken a half dozen boxes the trouble had entirely disappeared. In other respects the pills also greatly improved my health, and I never felt better in my life than I have since taking them."

I therefore most cheerfully recommend Dr. Williams' Pink Pills to other sufferers from the same complaint.

A TEN MILLION DOLLAR LUMBER MERGER IN WEST

Union Lumber Company Has Applied to Government of Manitoba for a Charter.

WINNIPEG, March 6.—(Special).—Application has been made to the provincial government for a charter for Union Lumber Co., Ltd., with a capital stock of ten million dollars, five million of which is to be preferred stock and five million common stock.

The incorporators are: S. H. Bowman, president of the Bowman Lumber Co.; G. F. Piper of Piper, Johnston and Case Co.; F. E. Kenaston, president of the Minneapolis Threshing Machine Co.; E. C. Warner, president of the Midland Lumber Co.; and Walter D. Douglas of the American Cereal Co. of Chicago, all residents of Minneapolis, Minn.; O. A. Robertson, president, and James W. Lynch, secretary of the Red Deer and Elk Lumber Co., and F. G. Barrows, banker, all of St. Paul, Minn.; J. Stanley Hough, of the firm of Hough, Campbell & Ferguson, baristers, and G. F. Galt of the well-known firm of J. F. & J. Galt of Winnipeg.

They are all men largely interested already in various Canadian industries and have materially aided in Western Canadian development. They are men of business in Western Canada and its future and show their faith by their works.

The office of the Red Deer Lumber Co. it was learned that the new company will take over properties of the Red Deer Lumber Co., Elk Lumber Co., Sunset Lumber and Lumber Co. (Cal.), Columbia Lumber Co. and Bowman Lumber Co., which includes in the aggregate seven complete plants and more than three billion feet of standing timber.

The plants taken over include some of the best saw-mills in the country, the well-known Red Deer Lumber Co.'s mill at Barrows, Sask., has been pronounced one of the most modern and best equipped mills in Canada. The large mill of the Elk Lumber Co. at Fernie, B. C., is probably the only mill in the country built of concrete, and is one of the largest in Western Canada. It is as nearly fireproof as a saw-mill can be made. The Bowman Lumber Co.'s mill at Comaplex is a large new mill, completely equipped with one of the most complete planing mills in the country, large dry kiln and every modern improvement. This company, as well as the Red Deer Co., has its own town, with a large number of dwelling houses for its employees.

Other mills, while not so large, are complete in every respect and are located at Nelson, Cascade, Revelstoke and Westley, B. C. Another large mill will be erected in the near future, making a total of ten plants in all, controlled by the company.

S. H. Bowman, who will be president and general manager of the new company, said: "A number of the promoters are interested also in oil lands and have not gone in for speculation, but were putting in operating plants and are developing properties just as rapidly as possible. Within two months after we made the first purchase of timber our men were at work building logging camps and getting ready for the erection of our saw-mills. It is our intention to continue our developments until we have built at least one new plant in the near future."

Prisoner in Danger. ST. PETERSBURG, March 6.—The two applicants who yesterday examined Nicholas Tschakovsky in the fortress of St. Peter and St. Paul, where the Russian revolutionary patriot is awaiting trial, have turned in their report to the government. They declare that the prisoner is in danger of a complete nervous and physical breakdown if the present prison regime is continued.

HER HUSBAND WAS A DRUNKARD

A Lady who cures her husband of His Drinking Habits Writes of Her Struggle to Save Her Home.

A PATHETIC LETTER

"That for a long time I was thinking of trying the Tasteless Samaria Prescription treatment on my husband for his drinking habits, but I was afraid it would discover that I was giving him medicine, and the thought occurred me that if I could get a bottle of the medicine, I could give it to him in a glass of beer, and he would not know it was there. I tried it, and it worked. He is now a better man, and I am a happier woman. I have saved my home, and I am grateful to you for the medicine. I have written you a letter, and I am sure you will be glad to hear from me again. I am, my dear friend, ever yours, Mrs. J. M. Smith."

Mr. McKenzie of Thornhill Captures First Prize—Good Year at Beach—County Items

TORONTO JUNCTION, March 6.—Two boys named Simpson and Sparks, about 13 years old, were arrested this afternoon on a charge of stealing coal from the C. P. R. Later in the evening they were allowed out on bail.

In the police court today Hiren Karabi appeared on a charge of assault brought against him by Tathena Kuzak, his boarding-house proprietress. He has lately moved to other apartments and on leaving the old home he refused to pay the landlady for some property which she insisted he had damaged.

Magistrate Ellis fined Karabi \$1 and costs, which he promptly paid.

Magistrate Ellis disposed of another case of assault and fined the defendant \$5 and \$3 costs.

De. Torrington will play the new pipe organ at the dedicatory services in Victoria Presbyterian Church on Sunday, March 15. For a few Sundays afterwards the organist will be Mr. West, late of the Central Church, Toronto.

Loud and prolonged shrieking of locomotive whistles is becoming quite popular in the C. P. R. yards at present. About 9:30 to-night the ear-piercing notes that awoke the town yesterday morning were resumed. Fire Chief Robinson hastened over to the yards, evidently thinking it was a fire.

Forgoing a conflagration, and telephone calls came to the fire station from the whole suburb as the firemen were in a state of confusion.

When it was known that the top of a locomotive whistle had blown off and the escaping steam kept up the alarm. This was amateur night at Joy's Theatre and the place was crowded for the doors.

The program was strengthened by special singing and dancing acts of no mean order.

The Collegiate Institute Board will hold its regular meeting on Monday evening.

NORTH TORONTO

Local School Trustees Discussed, Fire Danger

NORTH TORONTO, March 6.—At the school board meeting last night the motion of the previous meeting, fixing the minimum salary for lady school teachers at \$400, and the maximum salary at \$550, was rescinded and replaced by \$375 and \$500, respectively.

Both amounts were voted upon, and Chairman Le Gros and Trustees Logie and Spittal were in favor of the former amount, while Trustees Cook, Davis and Brown were in favor of the latter amount. The vote being a tie, Trustees Brown, with the largest assessment, gave a double vote, placing the minimum salary at \$375, with an annual increase of \$25 till the maximum of \$500 is reached.

It was decided to place two water-pipes in each school, as a precaution in case of fire until such time as the extra water main can be installed in the school with the necessary hose. The subject was one which gave rise to a lengthy discussion.

Mr. Umy, principal of the Davyville School, reported a surplus of \$20.70 from the entertainment recently given by the school. This sum will be devoted toward the purchase of a piano.

C. J. Wilson, president of the Epworth League of the Eglington Church, will represent Eglington at the convention of the Young People's Forward Movement for Missions to be held next Tuesday and Wednesday at Pittsburg, Pa.

Of rubber goods, atomizers, syringes, nursery necessities, a full line and at reduced prices, can be had at Twiddy's Drug Store.

Mr. L. A. Griffin, spiritualistic medium, is holding a week's missionary meetings in the mission room on Yonge-street, just south of Eglington-avenue. Week night meetings are held at 8 o'clock, and on Sunday at 8 and 10 a.m. Investigators are cordially invited.

The members of St. Monica's R. C. Church on Broadway-avenue, have erected a neat driving shed at the church lot. The act is a generous one, and reflects credit on the willing workers.

The street this morning gave the Metropolitan cars considerable trouble,

Have you Pains In Side or Back?

Pains anywhere—in the chest, neck, side, back, or muscles—they are always a discomfort. If the inflammation is severe, the pain will be intense. If allowed to continue, complications will follow. Physicians say one of the best remedies is "Nerviline"—it can't help curing because it penetrates through the sore tissues, carrying healing properties that destroy every symptom of pain. In case of colds, sore chest and pleurisy, there should be a

good hand rubbing with Nerviline, and, of course, to prevent the trouble coming back, it is advisable to put on a Nerviline Porous Plaster, which, by absorption through the skin, draws out all congestion. For general household use, for curing the ailments of the young and elderly, and for penetrating through the sore tissues, carrying healing properties that destroy every symptom of pain. In case of colds, sore chest and pleurisy, there should be a

MIMICO.

Dr. Godfrey Will Press Case of Better Railway Crossing.

MIMICO, March 6.—Jakey Robinson, who was recently committed to the Queen-street Asylum in connection with doings at the G.T.R. station last fall, was in the village yesterday. His report of himself and present condition is that he is feeling better, and his release is looked for soon by his friends here.

The Mimico employes of the Dominion Sewer Pipe Co.'s factory at Swansea are back again this week at work. Owing to repairs necessary to the boilers and other improvements they were laid off a couple of weeks, and the case to begin again was a welcome one.

The Grenadier Ice Co. finished the job of filling their different ice houses yesterday. This means hundreds of tons of ice ready for the coming summer's delivery. In addition many people have had private ice houses filled by the company, as also have some of the public institutions. Over 100 men and several horses and teams have been employed steadily for nearly two months, during which several of the men took an involuntary winter bath while others suffered from the effects of Jack Frost.

Mimico residents depend upon the wagon of the company to bring ice as wanted. The Asylum and Industrial School filled their own houses, obtaining ice this year from the Grenadier Pond.

Dr. Godfrey, who acted as coroner at the Percy Hanson inquest in connection with the Windermeres crossing accident, declares it as his intention to do his utmost to have gates placed there as a protection to the public. A beautiful and interesting sight is the lake shore along the Beaches and easterly to the Scarborough Bluffs. The action of the waves has caused an ice field extending far out into the lake and now that the weather is moderating, many of the bergs are breaking up and drifting out into the lake. Many sight-seers have visited the waterfront during the last few days.

WYCHWOOD.

Residents in This District Have Been Singularly Favored.

WYCHWOOD, March 6.—A feature which during the winter season has added greatly to the enjoyment of the residents of Wychwood, is the splendid concert given by the Wychwood Brass Band. To-morrow night (Saturday) in Alcina Hall the band will give another of their popular concerts. The evening will be taken at 8 o'clock by J. Henderson, J.P., and an enjoyable evening is assured. Among the artists will be Messrs. Wychwood, humorist; Mr. Fernand, Duffer; Miss Ethel Bickie, Miss Laura Leverty, Miss Johnson, and Mr. and Mrs. Hall. Refreshments will be served under the direction of the stewards, W. Lambertson, F. Lovat, H. Griffiths, E. W. Marshall, and others. The selection to be rendered by the band will be "Victor Boehlein's Honor Band" and "Northwest Boys" by Phil Rose, op. 32.

ELDER'S MILLS.

Annual Supper and Social Was Great Success.

ELDER'S MILLS, March 6.—The annual oyster supper and social gathering of the members of the local "beef ring" held at the home of Mrs. W. J. Henderson, on Thursday night, was a most enjoyable event. There was a large attendance of the members of the "beef ring" and following the disposal of the many good things so generously provided, a delightful evening was spent by all. The value of local "beef rings" has been abundantly demonstrated, and each year adds to the number.

BALMY BEACH.

Looks Like Big Year in History of the Beach.

BALMY BEACH, March 6.—It will not be a matter of surprise if the coming spring should witness a great revival in the building interest in and around Balmy Beach. Already indications are not wanting to prove that building lots in the desirable sections will show an appreciable advance in price. Enquiry for large lots is never absent, and this is a general feeling abroad that this is the most delightful residential section around the city, and will this year receive a great accession in population and real estate value.

Mr. McEachern, Jr., is delighted with the outlook. "We have had more people looking for real estate within the last three weeks than in the same corresponding time in the last ten years put together," said he. "Trustees are more interested in the city, and sales for spot cash, and two good ones are looking for properties, ready to pay substantial deposits. The outlook here is better."

Outlook Never Better.

Mr. Burk of Burk & Co. was almost equally optimistic. Asked to give the outlook, Mr. Burk said: "Never better." The permanency of the Beach as an all-year residential district is now fully recognized, and year after year the number of Beach residents who move up to the city during the winter months grows less. Fine, substantial, well-built homes are the order of the day.

"The outlook altogether," said Mr. Burk, "is excellent."

New Bank Building.

The Metropolitan Bank, who some time ago purchased the north-west corner of Queen and Lee, will, in the spring, begin the erection of a fine modern structure for their own use. A number of improved residences will go up on Hamby and Wineva-avenues, while in addition to the splendid new stores erected at Queen, others are projected.

Lee-avenue has probably shown greater progress than any eastern thoroughfare, not a little of the credit for which is due to Mr. Price, who, in addition to his own beautiful resi-

WILL OF KING FARMER.

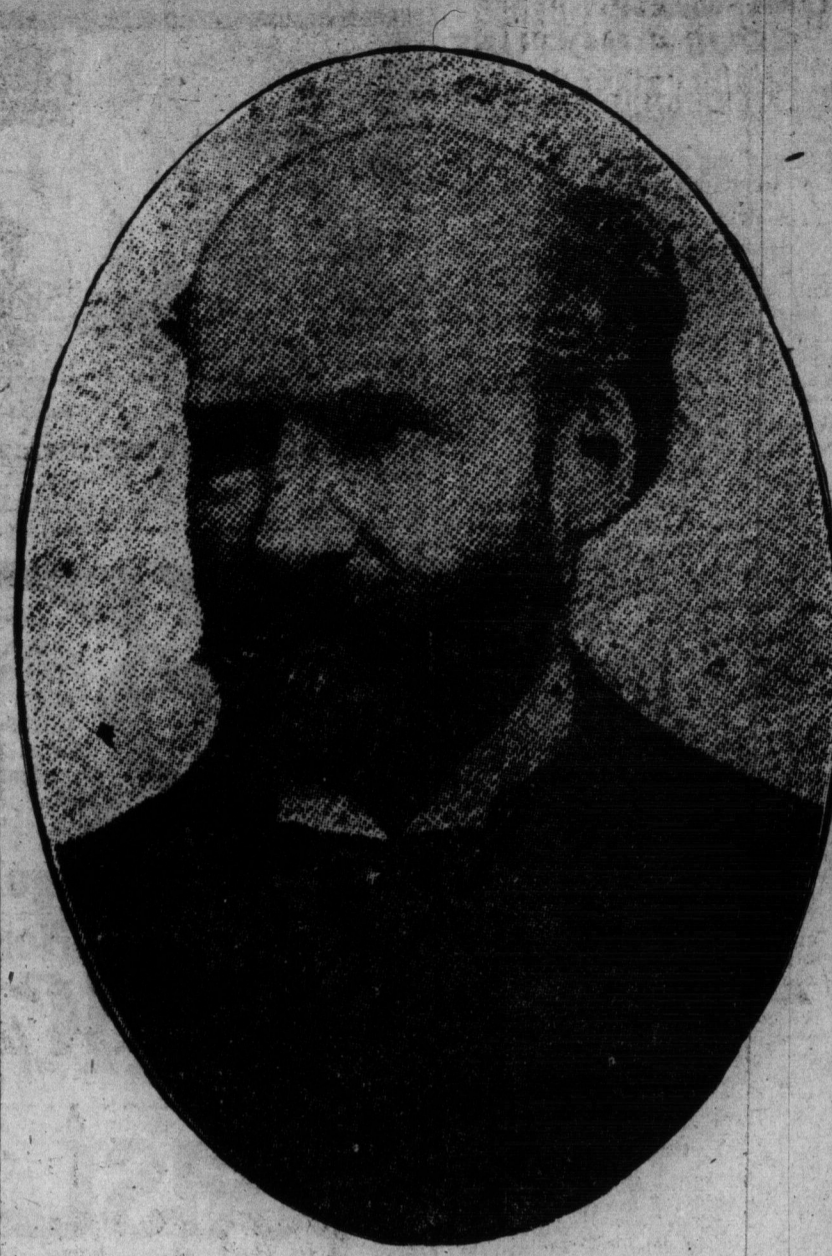

Each of the Two Sisters Gets \$4000 Out of Estate.

Probate was yesterday entered in the surrogate court before Judge Winchester in the estate of John Watson, a King Township farmer, who died on Jan. 25 last. The estate is valued at \$20,520, and is made up thus: A 100-acre farm in King Township worth \$8000, cash in the bank \$2200, mortgages \$2905, horses and cattle \$4500, and implements \$1600.

The entire estate is willed to his son, Albert J. Watson, who is directed to pay \$4000 to each of his sisters, Annie E. and Mary E. Watson, these amounts to be charged against lots of snowballing which has lately provided for the two daughters.

Mayor McMullan, ever since his accession to office, has shown a most commendable and active interest in the work of street cleaning generally. Sidewalks were never more carefully attended to than this winter. Little or no complaint is heard lately from the residents of ward one.

At the regular meeting of the town council on Monday night, the question

LORD TWEEDMOUTH. First Lord of the British Admiralty, Who Received a Letter from the Kaiser Which is Stirring All England.

of annexation is likely to be a feature of the meeting. The annexation committee have been active, and it is expected that some progress will be reported. Around town the impression generally prevails that with the number of big questions before the city council at the present time, and others coming up, the question of annexing the suburbs will not be taken up this year.

General sympathy prevails with Mr. and Mrs. Robson, in the death of their infant child, the funeral of which took place this afternoon.

WOODBIDGE.

Over sixty ladies attended the March meeting of the Women's Institute, held at the home of Mrs. T. A. Smithers, on Thursday evening. The subject of the program was given by members of the Bolton Institute. The subject was "Home," and Miss Stork, president of the Bolton branch, spoke on "The Duty of Happiness." Miss McClure, Churchville, R. M. Loveless, Agincourt; J. G. Paterson, Agincourt, and Thomas Hartly, Downsview.

Outline of Proceedings.

The program on Thursday, Jan. 19, will be a visit of inspection to the farm of Mr. McKenzie, near Thornhill, during the afternoon, and at 1 o'clock a public meeting in the town hall here, when addresses will be given by J. H. Grisdale and Mr. Drummond.

Will Be Great Gathering.

In the evening a banquet will be held, and among those who are expected to speak briefly are Hon. Nelson Monteth, W. F. Maclean, M.P.; Dr. P. D. Maclean, M.P.; Speaker Crawford, A. McCowen, M.L.A.; Dr. Godfrey, M.L.A.; H. B. Cowan, "Canadian Dairyman"; J. R. Dargavel, M.L.A.; C. E. Potter, J. W. Curry, G. A. Putnam and others.

DISPUTE SHOULD END.

Byron E. Walker on Steel-Coal Differences.

MONTREAL, March 6.—(Special.)—That there should be an immediate settlement of the fight over the price of coal, and the terms of the contract between the Dominion Coal and Steel Company of Canada, Limited, and the Amalgamated Oil Company, is the opinion of Byron E. Walker, president of the Canadian Bank of Commerce, expressed this morning.

"There should be an immediate settlement of this difficulty in the interest of the public," said Mr. Walker, who left this evening for Toronto.

Canadian Mining Cens.

OTTAWA, March 6.—The election of the officers for the Canadian Mining Cens. for the business session late yesterday afternoon. The vote had been by letter ballot, and the scrutineers were busy all day.

The results were: President, Dr. W. G. Miller, Toronto; by acclamation; vice-presidents, G. E. Drummond, Montreal, and W. Fleet Robertson, Victoria, B.C.; secretary, H. Mortimer Lamb, Montreal; treasurer, J. Stevenson Brown, Montreal; for counting, W. M. Brewer, Victoria; A. A. Cole, Cobalt; R. H. Drury, Montreal.

Sleazed Land for Taxes.

A writ has been issued at Osgoode Hall on behalf of the London and Western Trusts Company, Limited, of London, against the Corporation of the Township of Enniskillen. As liquidator of the Amalgamated Oil Company of Canada, Limited, the plaintiffs are suing for an injunction restraining the defendant corporation from selling any of the property of the Amalgamated Oil Company, alleged to have been seized by the defendant municipality for taxes.

Sues for Expenses.

WALKERVILLE, March 6.—Thomas Chick, a Windsor contractor, who was an unsuccessful bidder for a \$33,000 contract for the town of Walkerville, is now suing the town in Judge McHugh's court to recover \$50, covering his expenses in making the tender. He claims that his offer was the lowest originally received, and should have been accepted. Judgment was reserved.

DENTIST IDENTIFIES BODY OF SCHOOL TEACHER

First Funeral Yesterday Morning—Aftermath of Frightful School Disaster.

CLEVELAND, Ohio, March 6.—The body of Miss Katherine Weiler, one of the two teachers who lost their lives in the Collinwood school fire, was positively identified to-day by a dentist, who established the identification through her gold-filled teeth.

The body of Rosetta Machnich, a former pupil in the school, was identified to-day by her shoes. When Mrs. Machnich was positive of the identification, she faintly upon the floor of the school building.

Twenty-three victims are still unidentified. So far 157 bodies have been recovered. The list of missing now tallies with the number unidentified, which would indicate that all the bodies have been recovered, and that the total death toll will stand at 167.

In fully 100 cases the funerals will be individual. The first funeral was held this morning. Others will follow throughout the day. In some instances the services were grouped with five to ten bodies in one church.

The unidentified will be buried Monday, according to present arrangements. The expenses of these funerals will be borne by public subscriptions, which are growing larger every hour. Already thousands of dollars have been raised. In addition to this a bill has been introduced in the state legislature, appropriating \$25,000 for the relief of the needy fire sufferers.

THOSE WESTERN LEASES.

G. W. Ryley, Former Chief Clerk, Before the Committee.

OTTAWA, March 6.—The public accounts committee to-day examined G. W. Ryley, chief clerk in the timber and mines branch of the department of the interior up to October, 1906, now land commissioner for the G.T.P. in connection with the enquiry into western timberland leases.

Prior to 1902, the practice in respect to dealing with tenders, he said, was for himself and the deputy minister, in the latter's absence, his secretary, to open tenders. From that date until he left in October, 1906, he opened tenders, and did not know anything about how they were dealt with.

He could not say whether the land commissioner opened them by himself, or whether anyone was with him when he did this. All tenders did not come to him in the first place; some went to the secretary's department of the land commissioner. Mr. Ryley had no recollection of any details connected with the leases of lands to the Imperial Pulp Company, which are particularly under investigation just now.

Owing to the absence of other witnesses, so further evidence in this matter will be heard until next week. The public accounts committee also commenced the investigation into matters connected with the inauguration of the new bookkeeping system in the marine and fisheries department. Hon. Mr. Brodeur was the first witness, his evidence being largely confined to the arrangement with K. Falconer of Montreal for the work.

Mr. Brodeur stated that he had from Mr. Butler, the deputy minister of railways, the highest commendation of Falconer's work on the account of the system of the I.C.R., and also knew he had done important work for the United States Government.

HAND TERRIBLY MANGLED.

Doctor Withdrew his Remedies in favor of Zam-Buk with Marvellous Results!

Mr. Ab. Wheeler, Marine and Stationary Engineer, of 145 Front St., Belleville, Ont., says: 'Two months ago, while employed in a steam laundry in this city, my left hand became caught and was accidentally drawn into a hot mangle. As soon as possible the machinery was stopped and my hand was extricated, but not before the flesh on the palm of the hand was literally cooked to the bone...

ZAM-BUK'S WONDERFUL WAY!

Whoever watches the healing of a wound, chronic sore, or diseased surface of skin with Zam-Buk, is face to face with one of Nature's greatest wonders. The healing process thus set in motion is nothing but a phenomenon of regeneration—a natural process of replacing destroyed tissues by new ones.

Zam-Buk has more than fulfilled the expectations of its discoverer, and many medical men to-day freely extol its merits. It possesses a wide range of usefulness, being especially recommended for eczema, psoriasis, bad legs, blind and bleeding piles, running sores, ulcers, pimples, boils, rashes, raw chapped hands, scalp diseases, dandruff, barber's rash, raw chin after shaving, chilblains, sore and aching feet, cold sores, festering sores, poisoned wounds, cuts, bruises, burns, scalds, sprains, stiffness, weak ankles, swollen joints, and all diseased, injured and inflamed or irritated conditions of the skin.

FREE! Why not start your own skin treatment now? All you have to do is to post this coupon with a 5c stamp to the Zam-Buk Co., Toronto, who will promptly send you a dainty skin cream. T. World 7/3/08

SHOT HIMSELF.

Vice-President of Detroit Trust Company Ends His Life.

DETROIT, Mich., March 6.—Edward T. Hance, first vice-president of the Union Trust Company of this city, and former postmaster of Detroit, shot and killed himself at 9 o'clock this morning, in his home here.

QUO WARRANTO CAN ACT AGAINST GOTHAM'S MAYOR... ALBANY, N.Y., March 5.—The court of appeals this afternoon handed down a decision reversing the order of the appellate division and sustaining that of Justice Davis, who decided that Attorney-General Jackson had filed a sufficient bill of particulars in connection with his supplemental complaint that illegal votes were cast for George B. McClellan in the mayoralty campaign in New York City in 1905.

Street Car Fenders... The city will enter a protest to the Ontario Railway Board to-day that the street railway has failed to observe the act providing that the cars must carry fenders approved by the Ontario Railway Board.

Gospel Mission of St. Andrew... Editor World: I thank you very much for the assistance you have given us in our mission work at 289 East King-street. We have the evangelist band at our mission Sunday evening, and an announcement will be doing a great kindness. We need money badly to pay our mission expenses.

HAD THIRTY-TWO BOILS ON HIS BACK AT ONE TIME. TWO BOTTLES OF BURDOCK BLOOD BITTERS CURED HIM.

Boils are simply evidence of the bad blood within coming to the surface. Just when you think you are cured of one, another seems ready to take its place and prolong your misery.

Drunk Man's Crime... AVON, Conn., March 6.—Coming home in a drunken stupor, John J. Lynch, 29 years old, shot and instantly killed his mother-in-law, Mrs. Catherine Dittman, then shot and fatally wounded his wife, and finally put a bullet in his head, killing himself instantly.

More Money for Soldiers... WASHINGTON, March 6.—The senate army bill increasing by granting an increase of forty per cent. in the pay of enlisted men, and of smaller percentages to officers, varying with rank, was passed by the senate to-day.

No Need to Worry... and hurry to get your breakfast or dinner before leaving home when traveling as the best of everything is served at popular prices in dining cars and buffet cars leaving Toronto on all principal trains via Grand Trunk Railway. It is a saving for yourself and family.

Free Receipt For Weak Men
Gentleman Will Send It Confidentially. Free and Sealed, to
Every Weak and Unable Man Who Writes for It.

I have in my possession a prescription
for nervous debility, lack of vigor, weak-
ness, brought on by excess, unnatural
drains or the follies of youth, that has
cured so many worn and nervous men
right in their own homes—without any
additional cost of medicine—that I think
every man who wishes to regain his man-
ly power and virility, quickly and quietly,
should have a copy. So I have determined
to send a copy of the prescription, free
of charge, in a plain, ordinary, sealed
envelope, to any man who will write me
for it.
This prescription comes from a
physician who has made a special
study of men, and I am
convinced it is the surest acting combi-
nation for the cure of deficient manhood
and vigor—failure ever put together.
I think it only to follow men to
send them a copy in confidence, so that
any man, anywhere, who is weak and
discouraged with repeated failures may
stop dragging himself with harmful
medicines, secure in the belief, in-
stead, of acting restorative up-build-
ing, SPOT-TOUCHING remedy ever de-
vised, and, so cure himself at home quick-
ly and quietly. Just drop me a line like
this: Mr. A. E. Robinson, 333 Luck Bldg.,
Detroit, Mich. and I will send you a copy
of this sealed receipt, in a plain, ordi-
nary envelope, free of charge.

Wall Street Operations Are Narrow Without Weakness—Gen. Electric Weak at Toronto.

World Office, Friday Evening, March 6.

The improvement in the prices of speculative securities has naturally attracted attention, but the majority of traders are still looking on rather than participating in the transactions. Today's business at the local exchange was largely confined to inside operations. The public has yet to be impressed with the fact that prices are advanced. So manipulators made this issue strong to-day and the rumors of an increased dividend are now quite frequent. The only real speculative trading to-day was in Mackays and Twint. The price of both these issues was moved up too fast to tempt the floor traders, but outsiders bought on the supposition that a longer rally in the market is due. The weak feature of the market was Canadian General Electric, those who are in close touch with the market that the next dividend on the stock will not be more than at the rate of 7 per cent. Sentiment on these shares is immediately bearish, but traders are waiting an opportunity to purchase on the decline, which is expected to discontinue the announcement of the market's undertone is decidedly strong, and securities of this character are wanted at all recessions.

**Wall Street Pointers.**

Reception for West Maryland.  
 Good demand for stocks in the loan crowd.  
 Regular dividend on Railway Steel Spring common.  
 Business conditions improving in the southwest.  
 February iron productions show a 10 per cent gain.  
 Americans in London heavy, with fresh liquidation in Rio Tinto.  
 Steel Spring annual report shows about 8 1/2 per cent earned on common stock.  
 Minneapolis says spring trade is satisfactory and may run even larger than last year.  
 Interboro issue part of \$5,000,000 bonds authorized to take up maturing obligations, estimated at \$25,000,000.  
 U. S. Rubber warrants \$5,000,000 5 to redeem equal amount maturing March 15.

**WASHINGTON.**

The director of the mint to-day purchased 100,000 ounces of silver for Denver at 55.75.  
 We are informed by good authority that a large number of houses in the street are heavily borrowing. Reading it is inferred that there is a large short interest in the stock.—Financial News.

The Chicago, Rock Island and Pacific Co. has arranged with Speyer & Co. for the extension of the company's \$5,000,000 secured notes, maturing April 1, 1908, for one year at 6 per cent, until April 1, 1909.

The notice given for the special meeting of the Interboro Rapid Transit Co. stockholders to be held Tuesday, March 10, has been recalled and a new notice given for the meeting to be held Saturday, March 28, for the purpose of passing upon the proposed new bond issue.

ALBANY: A bill has been introduced by Assemblyman Wagner which provides that stock and bond brokers must pay state comptroller an annual license tax of \$100. Tax on stock sales according to the bill is to be applied to the day's sales and tax is raised from \$2 to \$5 on each 100 shares of stock or bonds of par value transacted.

LONDON: The securities markets in general show the usual dullness in advance of the west end and the settlement. Americans have a steady appearance, notwithstanding the reported troubles in Pittsburg. Canadian Pacific shares were heavy early, but are now hardening. The special features of the market are weakness in Copper stocks and Diamond shares. Rio Tinto shows a loss of 7-8, at 60-2-3.

A pretty large short interest had accumulated in Union Pacific on the recent dip and in our opinion important bears seeing the unremunerative following have covered for the most part their outstanding commitments and are waiting for higher prices on which to get out stock again.

There is a report in circulation to the effect that the United States Steel Company will soon come into possession through the Tennessee Coal Company, of 8-able coal lands in southern territory. A prominent speculative institution that has been heretofore used for distribution is to-day sending out bullish advice as against bearish reports.

Conservative bullishness, as suggested every day for the past week, will become advisable. The Western Maryland Railroad receivership will cause bearish encouragement, and possibly some selling of Gould stocks, but strategists have pointed that way for some time, and it is merely a protective measure at that. A recovery technique is being set in steel, Northern Pacific, Great Northern, Great Northern Ore, St. Paul and Pennsylvania, Northern Pacific, and Pennsylvania, Northern Pacific dividend talk.—Financial News Bureau.

**South American**

South American banding troubles will cause new liquidation in some European markets, but of more immediate importance to our situation is the news in Rio de Janeiro, and the selling that is going on for the account of financial institutions there. Lower copper metal prices and the lack of support in the southern railroads, and wherever else important liquidation is pressing, are also disturbing sentiment. Bullies tend to hold very well, and it is doubtful if the bulls can mark up prices higher than they have been recently. There has been some movement in railway business, but the February net showings will be quite unfavorable as a result. The Hepburn dividend, which bill may be disregarded, but the bad news from Washington has not all been published. The long side is dominant, and we continue the advice recently given to sell active stocks on bulges, especially the Harriman, New York Central, Chicago & North Western, and the Steels.—Toronto Topics.

**On Wall Street.**

Business on the stock exchange today continues in limited volume, and the dealings were again largely of professional origin, but a distinct tendency toward improvement was manifest. The market for the most part such issues as were traded in made some gains. There were few new issues, but the liquidation recently furnished the incentive for bullish manipulation against it. It could not be seen, and only a moderate amount of buying was sufficient to advance quotations. The principal exception to the "improving" tendencies was the Gould issue, which was unfavorably influenced by the Western Maryland Railroad receivership and Amalgamated Copper, which was under pressure of a firm, which has under present conditions, but as a rule prices held firm. The closing was dull and irregular, with a firm tone.

At the Marshall, Spader & Co. to J. G. Beatty: Washington and Albany legislation, as proposed, and nearly all political discussion, has taken on a national form against security and commodity market trading that the majority of opinions formed are against the possibility of enactments of any kind. We hardly share this view at present, but in any event a strong educational campaign is in progress, which undoubtedly bring into full relief the necessary reforms and changes in the conduct of business, and it is by no means improbable that in the end the movement may work for good. Meanwhile, however, we will, we believe, prevent radical action.

Ennis & Stoppani wired to J. L. Mitchell: The market to-day ruled very firm, and reflected absorption in various leading issues, which appeared to emanate from responsible quarters. There is no doubt whatever but that there is a very large short interest in the market, and that the market is being developed to enable covering without loss, but since the original contracts were placed the market has been creeping irregularly and slowly upward, having gained sufficient strength to prevent from day to day adverse developments from having any material influence. Various prominent houses have been taking stocks, one interest appearing active in St. Paul and Steel, after having bulled the ore certificates with some success. There has been similar buying in Reading and Union Pacific. A small pool is understood to have taken profits on Amalgamated, but the stock still firm. The bank statement should show a cash gain of \$5,000,000 or more. The best advice point to-day is to sell on the spring trade, at least in some cases.

tions of the country. Commission houses, long bare of stocks, begin to feel some improvement in one, 3 to 3 1/2 per cent. We expect the floating supply of stocks is in very strong bands, and that purchases will be in order when ever leading issues of the best character are sold down moderately in price. A. O. Brown & Co. to J. Lorne Campbell: The general market was strong, with substantial advances in specialties, although the volume of trade was but little more than that of yesterday. The heavy gain in Railway Steel Spring common was due to the declaration yesterday afternoon of the regular dividend, and Car Foundry also made further improvement. The Gould stocks were somewhat unfavorably affected by the Western Maryland receivership, but the declines were not severe. The greatest interest attached to the strength in United States Steel, particularly in the common. There was considerable talk of heavy accumulation of this issue at lower figures, and it was believed the same interests are purchasing. The buying is said to be based on improvement in the trade, and expectation that the annual report will show a very strong financial condition. There was a mild attack on Amalgamated, but it was not serious. The market remains in demand, and it seems likely that further improvement will be made.

# Ladies' High-Grade Boots and Oxfords at Practically Half-Price

\$3.00 Values	\$4.00 Values
\$1.49	\$2.49

When an opportunity like this occurs, right in the beginning of the new season it bespeaks either remarkably good fortune or unusually good management on the part of the store. In this case it was a combination of both. Our whole aim now is to sell the goods. Our regular stock demands attention. We have made prices still lower on these Walker-Parker shoes and intend to clear them right out Monday. Beautiful stock—we feel apologetic for reducing prices so low.

420 pairs of Ladies' Boots, fine even grain dongola and vici kid leathers, medium and heavy soles, Cuban and military heels, fine finish, perfect fit, a good boot to wear, all sizes 2 1-2 to 7, reg. \$3.00, Monday **1.49**

350 pairs of Ladies' Boots, fine selected patent colt and patent kid leathers, dull blucher and lace tops, as soft as a glove, Cuban and military heels, all sizes, 2 1-2 to 7, regular \$4.00, Monday **2.49**

250 pairs of Ladies' Boots, fine strong vici kid leather, patent toe caps, blucher and lace styles, medium and heavy soles, Cuban heels, all sizes 2 1-2 to 7, regular \$4.00, Monday... **2.49**

## Men's "Victor" Boot Style M.

There's comfort in every curve of this handsome "Victor" model, style in every line of it, and long service secured by hand-workmanship. It holds a unique place among this season's blucher-cut boots. The vamp and sides are cut from highly polished patent colt leather of selected quality, very carefully stitched with fine even twill thread, dull matt calf tops, genuine oak-bark-tanned leather sole. Full roomy but shapely toe, plenty of width at the tread and a clean curved shank and heel, all sizes from 5 to 11, C.D. and E. widths, price **4.00**

## A Sale of Scotch Linoleum

**Tough, Hardy, Long-Wearing Linoleum From Old Scotia, Selling Cheap.**

While in Scotland over a year ago our buyer ran into an opportunity to secure a prime lot of perfect Linoleum very much under the market price. He bought it and had it put in the seasoning warehouse. There it remained until a month or so since, when we ordered it to be sent to us. It is here in the store at last, and on Monday we put it on sale.

Now, this was a clearing lot from a celebrated factory. Perfect in manufacture and attractive in design. And it has been seasoned nearly twice as much as linoleum generally is seasoned. It will wear—wear like wood itself. In addition, we offer a saving such as the following figures show:

7900 yards of Best Quality Scotch Painted Linoleum, 2 and 4 yards wide, block, floral and tile patterns, in every desirable coloring, absolutely perfect, made to our order, of the very best materials only. Regular 60c to 75c. Monday, per square yard **48c**  
5400 yards of Second Quality, otherwise same as above. Regular 50c to 60c. Monday, per square yard **38c**

## The Spring Wall Paper Opening for 1908

**A Thoroughly Simpson Display of Wall Papers, Chosen From the Best the World Affords.**

Don't think that this store's selection of Wall Paper is limited by the tariff. Don't think that we are provincial in our Wall Paper ideas.

We announce to-day an opening display of Wall Papers chosen from the best wall paper producers of ENGLAND, FRANCE, GERMANY, BELGIUM, SWITZERLAND, JAPAN and the UNITED STATES. Canada, of course, is represented, thoroughly so, but the exhibition is of world-wide selection.

Don't think that our Papers are old-fashioned or conventional. We have the newest genuine artistic designs that progressive designers have produced. A lavishness of richness and variety and novelty.

We want everybody with Wall Paper in mind to come and see. It's a beautiful exhibition. And the fact that you are not ready to choose is no bar whatever to your accepting our cordial invitation.

We will be pleased to give you ideas for any suite of rooms or style for individual room, and samples free.

Beautiful Silks, Damasks, Soirettes and Bronzes, in soft shades of pale pink, old rose, ivory, blue, with their light-color blends, for drawing rooms, parlors and dining rooms. Price, per roll—**50c, 75c, \$1.00, \$1.50 to \$8.00.**

Dining Room and Hall Wall Papers, in tapestries, scenes, foliage, burlap weaves and metallics, in rich combinations of browns and greens, browns and reds, buffs and greens, buffs and reds, and their color blendings. Prices—**25c, 35c, 50c, 75c, \$1.00 to \$2.00 Roll.**

Dens and Libraries, in leather effects, with burlap weaves and dados, scenic and figured walls or friezes (painted to order for special rooms, special prices). Price of paper—**25c, 35c, 50c, 75c, \$1.00 to \$3.00 Roll.**

## The New Dress Goods

Ladies are welcome to see what is new and stylish here whether ready to buy or not. We'll be pleased with their pleasure and delighted with their appreciation. We value criticism, and invite it. But we have a pretty good idea that it will be unusually favorable this season.

A feature of the New Dress Fabrics and Suitings is the popularity of stripes, ombre stripes, shadow stripes, hairline stripes, herringbone stripes, self-colored stripes, and pretty combination shaded stripes. In colors, the favorites are blues, ranging from the pale blues and light blues to the standard navy shades. Browns and greens are also prominent. All the new season's colorings shown in an immense range of various width stripes. Prices from **65c to \$1.50**  
Two special numbers in plain French Broadcloths on Monday. Every new spring shading in each qual-

ity. Fine Chiffon and Sedan-finish Broadcloths, unspottable and unshrinkable qualities. Fine and medium weights. Finest wools. Best makes and best values. 52 inches wide. Per yard **\$1.25 and \$1.50**

## Shantung

The most popular and the most typical Silk of the season; we can offer a special price on a fabric most dearly needed. We announce for Monday a special purchase of 120 pieces of Natural Shantung and Honan-Pongee Silks, in natural or linen shades only. Beautiful, rich-finished goods. Guaranteed first choice qualities that will wash and launder perfectly. Heavy weight. Rough knappy effect. Fashionable and correct for gowns, tailored suits, coats, children's dresses, etc. 34 inches wide. Regular price \$1.00. Monday's special price, per yard **.87c**
