

PRESENTATION BY LEGISLATORS TO J. K. PINDER

Recognition of His Eightieth Birthday—Resume Debate This Afternoon.

Fredrickton, N. B., March 31.—James K. Pinder, M. L. A., for York, was officially recognized as the nestor of the new provincial legislature this afternoon when all the members of the house, regardless of party, joined in making him a presentation. The event took place in the parliament buildings and was arranged by the whips in honor of Mr. Pinder's 80th birthday, which occurred during the Easter recess. He was made recipient of a handsome traveling bag with his initials in gold letters and a suitably engraved inscription together with a handsome gold-headed cane. The presentation was made by Speaker Dyar and there were speeches by Premier Foster, Hon. J. M. B. Baxter, leader of the opposition, and A. Chase Pawett, leader of the farmer. Mr. Pinder replied and there were cheers and other enthusiastic manifestations of good will. Mr. Pinder was born in Driffield, Yorkshire, England, on March 26, 1841. For nineteen years he was a member of the York county council, and was warden for one term. He was first elected to the legislature in 1892, and he was re-elected in 1895. He was defeated with his flock in 1900 and again in 1902, but in 1905 was elected and has been since 1912, 1917 and 1920. This is therefore the fifth legislature of which he has been a member. He has been especially active as a member of the Public Accounts Committee.

(Special to Times.) Fredrickton, N. B., March 31.—The legislature this afternoon is to resume the budget debate. John Peck of Hillsboro is to be the first speaker as financial critic. O. W. Wetmore of Clifton will take up the debate for the Government when Mr. Peck finishes. The committee on accounts met this morning and did some work preliminary to the thorough consideration of various items of provincial revenue and expenditure. A delegation from Albert and Westmorland counties met the government at noon, and placed before that body some facts concerning private shale properties, which is understood may be further developed.

PERSONAL Mrs. Maurice Noel Abrahamson formerly Miss Alice Isaacs, will be at home to her friends on Friday, April 1, from 4 to 8 p.m. at the residence of her parents, Mr. and Mrs. L. Isaacs, 63 Coburg street.

COMMISSION FORM OF GOVERNMENT

The Commercial Club is issuing a notice for a special meeting to be held in the Commercial Club, on Monday evening, April 4, at 8 o'clock, for the purpose of discussing the question, "Has the Commission Form of Government as Applied to St. John Been a Success?" This question should attract a large meeting of the membership as it is one which concerns not only every member of the Commercial Club, but every taxpayer in the city of St. John, and the Commercial Club in taking the initiative will no doubt be followed by other organizations in discussing this, the most important factor in the city's future.

BOARD OF TRADE

At a meeting of the council of the board of trade at noon today, with the president, W. F. Burtitt, in the chair, the various committees presented reports. The trade and commerce committee reported on the freight classification No. 17, approving of it in general, but taking exception to three clauses which will be laid before the whole board. The exceptions are: (1) to the loading and unloading of freight outside of the sheds; (2), with relation to charges on small parcels, boxes on outside as it was thought this would encourage stealing. Contents are stated in the bill of lading. The joint committee on cities and legislation and retail merchants reported with regard to the business tax. It was felt that an opportunity should be given manufacturers, wholesalers and retailers to express an opinion on this point, which they will be invited to do at the next general meeting in order to sound public opinion.

There was some discussion regarding local freight rates between St. John and Digby, as well as wharfage rates. One complaint was made regarding the charge for transporting a motor car across the bay. It was decided to take the matter up with the freight department of the C. P. R. It was reported that the steamer Valinda would be on the route while the Empress was under repairs. It was decided to continue the secretary's membership with the American Association of Port Authorities.

A communication was received from the minister of marine stating that, owing to financial conditions, no permanent lightship would be provided for Sanabro. Letters from members of parliament regarding harbor matters were received. It was decided to co-operate with the census enumerators in order to have the city covered thoroughly.

A report was received from the Montreal board of trade in answer to a straw inspection act. A report was received from the mayor of Vancouver containing a report on their taxation system. It was turned over to the civics committee.

BIG ROBBERIES FROM SIMPSON'S?

Halifax, N. S., March 31.—Ralph Conrad, aged twenty-five, formerly employed at Robert Simpson Eastern, Limited, retail order house, was arraigned in the police court today, charged with the theft of \$2,000 worth of goods from his employer. Four other arrests, it was said, were pending in the uncovering of a series of alleged robberies, totalling \$25,000.

ST. JOHN MEN AT LABOR MEETING IN FREDERICTON

Fredrickton, N. B., March 31.—A well-attended meeting of the mechanics, tradesmen and workmen of this city held in the evening at the hall, was addressed by J. E. Tighe, president of the N. B. Federation of Labor. Vice-president Edward Barry of the same body; President Lemuel Clegg, of the Textile Workers' Union at Marysville; Vice-President Barney, of the Federation of Labor Council; President Fred Campbell, of the Trades and Labor Council of St. John, and others.

The speakers declared that the labor men stand together in a body as opposed to the extension of working hours and the decrease in pay.

LATE SPORT NEWS

Milwaukee, Wis., March 31.—Clontie Tait, lightweight champion of Canada, was given a shabby verdict over Johnny Mendelsohn, Milwaukee, last night, in a ten-round non-decision boxing contest.

Kansas City, March 31.—Strangler Lewis, heavyweight wrestling champion, last night defeated Tommy Drank in straight falls, the first in thirty-one minutes and forty-one seconds, after the champion had applied three successive headlocks, and the second in three minutes and twenty-two seconds, with a body lock.

IN WALL STREET. New York, March 31.—(10:30.)—Weakness prevailed at the opening of today's market, leaders of the oil, steel, equipment and motor groups being among the first to give way to increased pressure. Prospects of tighter money rights encouraged the shorts to extend their commitments. Within the first half hour losses of one to three points were sustained by Mexican Petroleum, General Asphalt, Royal Dutch, Cr. E. J. Harvester, Baldwin, Studebaker, Cba. I. and Kelly-Springfield Tires. The reaction extended to rails, Union Pacific and Southern Pacific losing one point each.

Noon Report. In the absence of more than moderate support and short covering, prices continued to recede during the morning. Extensions to early losses ran from one to two points. Crucible, Mexican Petroleum, Houston Oil, General Asphalt, American Smelting preferred, Baldwin, American Car, American Sugar, American Woolen and leathers and tobaccos comprised the more reactionary issues. Almost the sole exceptions to the downward trend were Atlantic Gulf and International Harvester, the latter rising 1/2 points. Call loans opened at 1/2 per cent, against yesterday's final rate of seven per cent, but time funds were firm and scarce.

GOOD THINGS COMING TO THEATRES OF ST. JOHN.

ONE MORE CHANCE LEFT

To Interview Princess Wladetka at Opera House—Other Good Attractions—Only One Vaudeville Performance Tonight. Princess Wladetka will end her local engagement at the Opera House tonight. She has been one of the best attractions booked at this popular vaudeville house for some time and those who have not as yet enjoyed her performance or sought enlightenment should take advantage of the one chance left. There will only be one vaudeville performance this evening as the house has been rented for a sporting attraction at nine o'clock.

In addition to the Indian Princess there will be the following acts of interest: Hibbert and Nugent, in a snappy comedy blackface; Peggy Brooks, Stanley and Minette Lea, in a high class musical offering, featuring classical and syncopated melodies; Peggy Brooks, in a comedy sketch; The Ureda Japs, who are presenting an amazing assortment of balancing feats, also the episode of "Fighting Fate," featuring William Duncan.

BUSY AT IMPERIAL REMAINDER OF WEEK

Today the final showings of the stirring jungle adventure, "The Revenge of Tarzan," will be given. Also the Rotary Club convention pictures and Prisma color views.

Tomorrow and Saturday, Eugene O'Brien in "Broadway Melodrama" is a high-class Selznick picture. Also the opening (three reels) chapter of the new serial story, "The Son of Tarzan"—the latest development of this chain of Edgar Rice Burroughs' stories. Saturday afternoon from two to four o'clock there will be a special 15c matinee, consisting of the new serial offering, chapter one, side-splitting comedy and the grand commencement of "Beauty and the Beast," the children's fairy-tale opera, in thirty-five minutes. Expectations are high for the new serial. Saturday evening (from four to six) will be the Empress of Britain's vaudeville and concert show, "A dainty dish to set before the King." Demos by name.

"THE HOPE" CINEMA OF THRILLS

"The Hope," one of the most successful of spectacular melodramas, has been taken to a moving picture. It opens at the Unique tonight. "Miss McCarroll," a comedy, also will be shown. Come early.

TONIGHT'S DANCE

The Gardens will be the scene of the first ball tonight, and a good time is promised.

RAILWAY BURDEN IS APPALLING

There Must Be a Complete Reversal of Policy, Says the Halifax Chronicle. (Halifax Chronicle.)

There is increasing words over the railway situation in Canada as disclosed to Parliament by the Minister of the Department of Railways and Canals. It is a devastating wreck, and has shaken the very financial foundations of the Dominion. Nothing but the most prompt and drastic action can save the country from its consequences. We have only to look back a little to appreciate its real magnitude. In 1895 the whole annual income of Canada was but thirty-five million dollars. Expectations were under forty millions, and we were supposed to be facing bankruptcy in 1896. The Laurier Government came to power, and speedily improved that place. After the first year or two of its tenure of office annual surplus of revenue was reduced in spite of the carrying on of great public works. Population increased rapidly; with it came corresponding development of the resources of the country and increased prosperity.

Yet the Opposition of the day never ceased criticizing and condemning the Government because its expenditures kept pace with the progress and needs of the country. In 1911, when the Laurier Government retired from office it left a well-filled treasury, an increasingly prosperous country, a reduced debt of \$100,000,000, and an annual ordinary expenditure not much in excess of the deficit on railway account alone, now admitted for last year. There is little doubt that the admitted deficit is far below the actual percentage of railway account. This is no reasonable prospect of its being materially increased under existing conditions. The simple truth is that the Dominion is in every way likely to end at least one hundred millions each year on railway account.

It is extravagance of statement to describe this as appalling. Do the people, while their representatives, realize what it really signifies? One hundred millions is a sum so vast that it cannot be grasped by the ordinary mind. Even one million is but vaguely comprehended by most. Perhaps the probable railway deficit will be better comprehended if opposition among the people. It means a tax of \$12.50 a head, yes, on every man, woman and child in the Dominion. And this in addition to all the other burdens which they have to bear! It means that our railways are to cost us as much annually as the interest on our whole huge war debt of over two billion dollars. It means that we are contributing only forty million dollars a year for all purposes in the early years of the Laurier administration. In addition to this, we shall have to be assessed for the ordinary expenses of gov-

ment and development, for pensions and costs of soldiers' re-establishment and other necessary purposes, which will bring our annual budgets up to well over ten times what they were at the beginning of this century, although the population has not nearly doubled since then. How do the people like the prospect? But there is no good in moaning over the situation. We must face it like men and Canadians. By means of increased rates the government railways brought in twenty million dollars more in 1920 than in 1919. Was the difference saved by those who have been so generally recommending "thrift" to others? Not at all. Very much the opposite—they spent nearly thirty-seven million dollars more in 1920 than in 1919. Next year will probably take a similar or worse tale. In fact, it is officially hinted that there is only one hopeful means of escape, and that is a prompt right-about-face—a complete reversal of the policy which has been and is still being pursued. We must at all hazards, cut down railway expenses and increase earnings. All the people must be considered and not the few with "vested interests." The railways are now being maintained by the country, with huge annual bonuses thrown in, for the exclusive benefit of those high and low, who are operating them. The minister has frankly admitted as much. Seventy-five per cent of his employees in salaries and wages is twenty per cent, for fuel. Only five per cent is thus left over for maintenance and other necessary expenses. This is to be supplemented to the tune of seventy million dollars a year out of taxes paid into the public treasury. This is "a dainty dish to set before the King." Demos by name.

TOY TRADE FEARS GERMAN RIVALRY

Two More American Factories Placed in Hands of a Receiver—Orders Below Normal (New York Times.) The general belief among wholesale toy dealers that Germany will shortly dump on America large quantities of toys, thus sending down prices greatly below the present levels, has emboldened American manufacturers in an embarrassing position, according to a representative of the American Produced Toy Company, Incorporated, 110 Fifth avenue, a receiver yesterday, Louis W. Stobbsbury, lawyer, of 55 Liberty street, was named as receiver of this concern and also of the Uncle Sam Doll Corporation of the same address and closely affiliated with the American company.

R. W. B. Brown, lawyer, of 27 Cedar street, incorporated toy manufacturers and dealer, said that he had heard the report that German competition was responsible for the trouble the American toy manufacturers are now having, but that he doubted it. Actual competition of German toys has been a minor factor in the present situation, according to a statement made at the office of the American Produced Toy Company. It is the feeling on the part of the wholesalers that prices will soon be lowered because of an increase in the importations from that country that is causing the buyers to hesitate to place their orders. It was added. At this period last year, it was said, practically all orders had been placed for toys for next Christmas. Orders received this year aggregate only about five to ten per cent of total orders at this date last year, it was said. Because of this fact many manufacturers were further said, have found it difficult to keep going.

Connors Sends Word—Pal's Brother Offers Reward.

Columbus, O., March 31.—"I am my brother's keeper" is the feeling of the brother of James Connors, penitentiary prisoner, who recently walked away from the prison farm at London, O. The brother has offered Warden Thomas to serve until Connors is apprehended, if they will mitigate the latter's punishment.

"I was my brother's keeper" is the feeling of the brother of George Mendel, who walked away with Connors. He has offered \$300 in addition to the state's \$50 reward for Mendel's recapture. Mendel and Connors were placed on the far mat the request of their brothers, that they might be permitted to make good. In letter today to Warden Thomas

THE WEATHER AND THE FRUIT CROP OF U. S.  
Washington, March 31—With the passing of the cold wave which came on the heels of Easter, officials of the department of agriculture last night expressed the belief that the fruit crop surplus of the country as a whole had not been materially affected.

Ottawa, March 31—(Canadian Press)—Yesterday in the House of Commons, a suspension of all immigration "until a nominal condition of affairs is established," was moved by H. Desautels, St. Mary's, Montreal, and seconded by Edmond Proulx of Prescott. Both speakers opposed admitting artisans while unemployment continued throughout Canada.

W. K. Baldwin of Standstead, declared that there never was a period during which it was more difficult to secure farm labor. He criticized proposals for an eight hour day for farm laborers. Lalor, he said, must produce more and work more cheaply.

The resolution was withdrawn on promise by Hon. J. A. Calder, minister of immigration, that he would make a statement when the immigration department estimates were before the house.

In the senate, Hon. D. C. David moved for correspondence between the imperial and Canadian governments, dealing with Canada's representation in the British parliament or in any council, for supplies, contribution to empire wars and to establishment of a British or Canadian navy.

Hon. G. D. Robertson said the government did not object to tabling the correspondence, but there might be some of it which could not, in the public interest, be brought down.

Amendments to the post office act were considered in committee and progress reported.

Today the commons will take up the estimate of the labor, interior and trade and commerce departments and will also proceed with the Lake of the Woods control bill. The senate will meet at 3 p. m.

Winnipeg, March 31—"This is the first I have heard of it," said Hon. Robert Rogers to the Canadian Press when his attention was called to a report from Montreal that he might be a candidate for the house of commons to succeed Sir Herbert Ames. "It is news to me," he said.

MAKE VOCATIONAL SCHOOLS PART OF NATIONAL SYSTEM  
Edmonton, Alta., March 31—Vocational training schools should be established as part of a national system, just as were public and high schools, in the opinion of Dr. F. W. Merchant of Toronto, who addressed the Alberta Educational Association yesterday. Private enterprise was not sufficient to encourage vocational education, and he thought boys desiring instruction in trades ought to be given equal rights with those who intended entering the profession.

## "A Beauty Sleep"—and then "A Beauty Breakfast"

Try it for 30 days—to prove

This is what thousands do at the direction of experts to win back the healthful rose tint to pale cheeks—as told by the editor of a famous magazine which is read by half a million women.

They take regular exercise, sleep regular hours, and then start breakfast with stewed raisins. The raisins are plump, delicious fruit-meats stowed so the juice forms a luscious sauce. Note recipe printed on this page. A more alluring fruit dish never has been served in any home—nor any other food that's more effective in this way.

Read opposite what Dr. J. H. Kellogg, an authority who has made a life-time's study of foods, thinks of the raisins. You'll serve stewed raisins every morning when you know the good they do.

**Luscious nuggets of food-iron**  
Raisins are nuggets of food-iron—and food-iron is an essential to good blood. Get what you need of it each day, and an incomparable, natural rose tint on the cheeks is the reward—nature's irresistible attraction—the good looks of good health. No need to imitate with rouge when nature thus provides. Youthfulness is the real beauty, as every woman knows. And good blood is the first consideration. Women of fifty often look but thirty if that natural rose tint is still there. Stewed raisins are mildly laxative also. Those who eat them regularly are apt to have the clear, white skin that sets the color off—unnarrated by blemishes or sallowness. Great sanitariums serve stewed raisins to rheumatic patients when other fruits might disagree. So this simple but effective food is one of the most important that any woman ever used. Try daily for a month, and see. Begin tomorrow morning. Look in your pantry now. Let every member of the family have stewed raisins. Be sure to mail coupon below for "100 Raisin Recipes," a valuable free book that every woman ought to have.

THE PROVINCIAL BUDGET.

Hon. Dr. Hetherington is to be congratulated on the lucidity of his budget speech, which occupied only one hour, but set forth clearly the financial position of the province. It will be noted with satisfaction that economy is his watchword, and that while the revenue for the current year is expected to be less than that of last year, the expenditure will also be reduced and kept well within the estimates of revenue. In a year when in all lines of business a policy of caution and economy will be pursued, it is satisfactory to note that the provincial administration will endeavor to keep within reduced estimates, while endeavoring not to starve the public services.

It is a particularly gratifying fact that the credit of the province stands so high, and that its debentures last year brought higher prices than those of other provinces. The financial affairs of the province have been conducted in a business-like way, despite the fact that during the year its liabilities have been increased by a million and a half. Apart from the Valley Railway, which is a great burden on the province, the increased liabilities are represented by permanent bridges and roads, that represent real value to the province. With regard to the Valley Railway, Premier Foster made an impressive statement yesterday, and strongly urged all the members of the house to give careful consideration to the question of meeting increased interest charges on that account. The transactions of that railway for the year showed a deficit of \$222,301 and converted a surplus on general account into an adverse balance of \$146,000. The Foster government cannot be held responsible for this state of affairs, but it must be credited with having by refunding transactions reduced the capital liability of the railway by \$445,581.

In the last year the old government was in power the total revenue of the province was \$1,280,419.35, of which territorial revenue yielded \$540,886.06. Last year the total receipts were \$3,100,548, of which \$1,589,589.10 was territorial revenue. This comparison is both interesting and instructive. With regard to the financial situation the large increase in interest charges, partly due to refunding debentures at a higher rate of interest, must not be overlooked; and it is one of the reasons for the policy of economy which the government has adopted.

It is gratifying to observe that the expenditure for education is not to be reduced, but increased; and that there is at least a slight increase in the appropriation for public health. A very interesting statement is that in regard to fees from motor vehicles, showing how rapid has been the increase in the number of cars in the province. In 1915 the fees were \$11,000; in 1916, \$15,500; in 1917, \$23,000; in 1918, \$38,000; in 1919, \$61,000; in 1920, \$90,000; in 1921, \$116,000, and in 1922, \$198,000. It is estimated that the receipts for 1921 will total \$275,000.

Hon. Dr. Hetherington anticipated that the period of economic readjustment would be of considerable duration, and emphasizes the need of prudence and caution, "and economy even to frugality," in the intervening period. He gives good counsel, alike applicable to the provincial administration and to the people at large. The budget shows that the government came through the past year much more successfully than its critics had predicted, and that it faces the coming year with a desire to keep its spending within the revenue and to sustain the credit of the province at home and abroad.

RAISE THE BRIDGE.  
A large schooner is now being loaded in St. John harbor with lumber from a mill above the falls. If the C. P. R. bridge were the proper height that schooner could go to the mill wharf, and save the expense of having the cargo brought down in scows. This is one of the things that make St. John a dear port. No further word appears to have been received about the matter of raising the new C. P. R. bridge to the height of the highway bridge, but it is assumed that another survey will be made. The citizens are not to be paying due attention to the interests of the port if they do not insist that the bridge be raised. They have been quite too indifferent in the past, and have now an opportunity to show their interest in a subject that will affect the industrial future of that large basin above the bridges, which much because of increasing importance as the years pass, and especially so because of the opportunities the distribution of cheap power will afford. A forward look must convince any citizen of the need of keeping the navigation of the falls as clear of obstruction as possible, and this means the raising of the new railway bridge to the height of the highway bridge below it.

Explaining that one of the government organs had stated that there would probably be no general tariff revision this session, says the Financial Post, S. W. Jacobs asked Sir Henry Drayton in the house of commons for affirmation or denial. Sir Henry replied: "I am afraid I must deny it. I can very truthfully say that I had nothing to do with the revision of that report. However, I say that the work is going on, not by day, but by day and night."

Arabs and Jews clashed in a riot in Haifa, at the foot of Mount Carmel on Easter Sunday. They were probably not quarrelling over the propriety of the observance of Easter.

WHY GO ON FIDDLING?

The matter of harbor commission is eternally bobbing up at City Hall. If the city council would devote its energies to the task of getting the C. N. R. to provide terminal facilities for its railway and steamship traffic on the east side of the harbor there would be some prospect of results.

So far as the west side is concerned, former Supt. Grout said the C. P. R. had all the wharves they needed there to handle what traffic they can bring on a single track from Montreal, and the company is entirely satisfied with the agreement of 1911, under which the government must provide west side facilities as they are needed.

This disposes of all talk of the need of harbor commission so far as the west side is concerned. With regard to the east side, the government cannot profitably conduct its railway and steamship business at this port unless it has proper terminal facilities. These, in its own interest and in the interest of the country which owns the two lines of railway and the steamers of the Canadian Merchant Marine, the government must provide. And that disposes of harbor commission for the east side.

The people will never accept a harbor commission scheme which would hand over the whole harbor from Green Head to Red Head for \$800,000 less than the government's own valuation of the property to be transferred, without any allowance for soil rights. It is a preposterous suggestion.

Why does not the city council throw out the scheme and get down to business? The thing to do is to bring the strongest pressure upon the government to provide on the east side the terminals needed for its own railways and steamships. The whole country would profit thereby. It is not a local but a national question, and the city council and the citizens should press the matter with continued energy until the country recognizes the need and provides the facilities. To delay until a plebiscite reflects the impossible harbor scheme, adding the unnecessary cost of the plebiscite, is to postpone the work that ought to be begun at once, and is now long overdue. The mayor and council should be under no misapprehension in regard to public sentiment. The people of St. John have spent too much of their own money and beaten the path to Ottawa too often to hand over the harbor now under any such terms as are set forth in the harbor commission act.

AN OUTRAGEOUS BILL.  
Rev. H. A. Cody has received a telegram from Mr. J. M. Gibbon of Montreal, president of the newly formed Canadian Authors' Association, as follows:—  
"Your copyrights are endangered by copyright bill No. 12, now before House of Commons. Report of copyright committee of Canadian Authors' Association bills would automatically destroy Canadian authors' existing protection in the United States, and would also cancel Canadian authors' copyright in Canada, if work first published in United States. Particular objection is taken to the licensing and importation clauses, which deprive an author of the right to make his own terms with licensees, who may gamble or abbreviate work without author's consent, and prevent importation or reproduction of original authorized edition for fifty years. This report is endorsed by two competent copyright lawyers."

It is not easy to believe that the house would give serious consideration to a bill that would rob Canadian authors of the fruits of their labors, earned by hard work under the difficulties which confront them. It is in the interests of Canada to encourage and not to discourage literary effort, and Mr. Gibbon's telegram shows that an attempt is being made to deprive authors of their rights. The bill should be rejected.

Referring to the proposed removal of the office of the post office inspector and superintendent of railway mail clerks to Montreal the Transcript mildly observes:—  
"If the proposal is the fruit of that costly investigation into the civil service conducted by those interesting friends of Sir Robert Borden and his successor, the Griffiths agents of Chicago, the loyalists of the province may have good reason to be aggrieved. But remembering the eagerness with which St. John embraced the distinction of being the only constituency in the province that could be trusted to return a minister to the Melghe cabinet, we will shed no tears over what that cabinet may do to our neighbor until she exhibits a proper repentance."

Efforts are still being made to bring about negotiations between the British government and the Irish Republicans, but without immediate hope of success. Meantime preparations are going on for the opening of the Ulster parliament.

A return of the Hapsburgs to power in Hungary or Austria would be a calamity. The Allied powers cannot regard any such scheme with indifference. The people, however, can probably be relied on to reject any such proposal.

Arabs and Jews clashed in a riot in Haifa, at the foot of Mount Carmel on Easter Sunday. They were probably not quarrelling over the propriety of the observance of Easter.

SONG.

Spring with your memories false and free,  
Little I fear their smart;  
For moss will grow on a broken tree,  
And peace in a broken heart.

I will greet the gorse with a glad-  
And thrill to the cuckoo's call;  
And I shall not flinch, if a ghost fits by,  
From the sweetest spring of all.

The darling swallow may soar and sing,  
On the breast of twilight skies;  
The larch may bud, and the kingcup  
And I will not hide mine eyes.

For the season's gone, that had power to move—  
And moss grows over the tree—  
There was snow on the ground when I  
mossy love,  
And snow, when my love left me.  
—May Adair Macdonald, in London Country Life.

LIGHTER VEIN.

Makes an Effort at Last.  
"Beau, why don't you try to be a good little fellow?"  
"I do try awfully hard."  
"But you don't succeed very well."  
"Why, mother, just think how bad I'd be if I didn't try at all!"—Kansas City Star.

Idealist (with newspaper)—Just think of it! A couple got married a few days ago after a courtship which lasted fifty years.

Cynic—I suppose the poor old man was too feeble to hold out any longer.

The shaded lights, music in the distance, sweet perfumes from the costly flowers about them—everything invited him to chance his luck.

She was pretty, which was good, and he believed an actress, which was better.

"Are you not afraid that some one will marry your money?" he asked cynically.

"O dear, no!" smiled the girl. "Such ideas never entered my head."  
"And, Miss Dearling," he sighed, "in your sweet innocence you do not dream how coldly, cruelly necessary some men are!"

"Perhaps I don't," replied the girl calmly.

"I would not for a moment have such a terrible fate befall you," he said passionately. "The man who wins you should love you for yourself alone."

"He'll have to," the girl remarked. "It's my cousin, Maizie, who has the money, not I. You're to have got mixed. I haven't a cent myself."

"O—er," stammered the young man, "what a pleasant weather we are having, aren't we?"

Two dear girls on our right were talking animatedly!  
"She's good looking, but I don't think she's all she ought to be."  
"Neither do I. Look at the way she failed in front of the theatre that night!"  
"That's what I say. But she does show some sense."  
"Speed, O, yes! And roughness—you can always depend on her for that."  
"Her linen aren't they?"  
"I suppose that's what took dad's eye. You know dad?"  
"Do! But privately, I think she's making him sorry."  
"That's the best thing she does—all right, but not a word to be said under the hood."  
"I think dad's going to get rid of her long. She's burning up his money too fast."  
"Who is the unspeakable person?" inquired their friend. "I'd like to meet her."  
"Person? You're wrong, Har-Id. We were talking about dad's new car."

IS LENINE ABOUT TO CHANGE POLICY?  
(Ottawa Journal.)

The most hopeful announcement in Russia that has been ventured for some time was made by Mr. Lloyd George in the House of Commons on Tuesday. Better conditions in Russia are not to come through the overthrow of the Soviet government, he apparently believes. Recent speeches by Lenin might have led to the belief that it is already reforming.

Most of us must have come to the conclusion reached by the prime minister, that reports regarding Russia coming from the House of Commons are not to be credited. These places have been prolific sources of "news" on Russia that almost invariably have proved false. They have time and again forecasted the end of the Lenin regime by revolution, but every revolution has been crushed and the Moscow government is as strong as ever.

Mr. Lloyd George professes to see signs of what may be a better thing for Russia than even a successful revolution against the present government—signs that the men who are at the saddle at Moscow are coming to their senses. There, he says, a change of attitude toward capital, toward private enterprise, and even toward communism. Recent speeches by Lenin might have been made by such a conservative as Mr. Winston Churchill, he declared. They were speeches that wouldn't have been permitted before a British trade union congress. They might even be regarded as an antidote to species and propaganda of the Labor party. In short, Lenin now recognized that communism was an impossibility, and that Russia could not subsist on the theories of Karl Marx.

Notwithstanding the terrible crimes that Lenin and Trotsky have perpetrated against Russia, it may be easier for the agonized country to find a measure of restoration under a reformed government directed by them than through revolution against their regime. Even a successful revolution would destroy much of what is left of Russia, and then there would be no assurance that those who succeeded to power would not abuse it as the Bolshevik rulers have done.

The British premier says he never doubted that the Bolshevik leaders were able men. Undoubtedly they have shown tremendous strength and ability. Lacking these they could not have retained power. But their theories have failed, as they could not help but fail. And now, if Mr. Lloyd George is to be credited, they have sense enough to abandon their impossible theories and doctrines. It is a pity that Russia should have to seek salvation through the men who have brought her to her present plight, but it is better that she should have a chance of finding it under their rule than have no hope at all.

LABOR TROUBLES IN UNITED STATES

Railway Move to Cut Pay on Trunk Lines—Wages and Hours in Other Industries.

Chicago, March 31.—Provisional reduction of the wages of approximately 25,000 unskilled workmen on the New York Central railway, to be effective April 1, was asked of the railway labor board yesterday.

Immediate relief from the present rates was sought pending a hearing on permanent reduction later and at the same time announcement was made that conferences with other classes of labor were in session this week and that reductions in every class of railway employees was being considered.

The unskilled labor dispute came before the board after conferences with employees early this month had failed to reach an agreement on any wage reductions. The case is the first one brought by a carrier and is considered in railway circles as the first move on the part of the trunk lines to their "Kansas City Star."

Cincinnati, March 31.—One hundred and seventy delegates, representing 5,000 book and job printing shops from all sections of the country, here yesterday organized the Forty-eight Hour League of America, a national organization of employing printers, operating both closed and open shops. Resolutions were passed pledging that all shops represented by the association refuse to accede to any demand from any labor union to operate their shops on the basis of a work week of less than forty-eight hours.

Toledo, March 31.—Several hundred street men in secret session here early this morning voted in a wage scale in an effort to thwart an attempt of the Community Traction Company to reduce wages by about fifteen per cent. It is said that the men decided that any wage reduction will be opposed vigorously.

Fenwick, Mass., March 31.—Twenty hundred leather workers, employed at two plants of the A. C. Lawrence Leather Company here, have voted to strike, union leaders said today, as a protest against wage reductions made on Jan. 1, and against an announcement by the company at that time that collective bargaining would be denied.

ASHORE ON GREAT ROUND SHOAL

Steamship Gaelic Prince, from Boston—Captain Says Position Not Dangerous.

Chatham, Mass., March 31.—A large steamer, ashore on Great Round Shoal, today was sighted at daybreak by the coast guard lookout at Monomoy Point, and the crew of that station went to her assistance.

She reported she was the Gaelic Prince, freighter bound from Boston for New York. She left Boston yesterday after discharging part of a cargo brought from Singapore, Victoria, B. C. and other Pacific ports.

Captain Andersson said he did not recollect the position at dangerous, that the steamer was simply stuck in the mud and sand, and he hoped to float her at high tide without assistance.

Parsons, N. S., March 31.—David Patterson, sixty-eight years old, of Five Islands, was found dead in the woods near here, yesterday. In company with Charles Newton he had started to walk from Five Islands to Simpson's Lake. Losing their way, the pair separated, Newton reaching Economy in safety.

REGINA TEACHERS PUT PRESSURE ON THE SCHOOL BOARD

Regina, Sask., March 31.—What might be regarded as an ultimatum has been sent by the Regina teachers to the public school board. They have fixed April 1 as the final date for settlement of their grievances. They have sent a schedule of salaries which they demand, and in the event of the board declining to adopt it they are asking for arbitration. An important feature of their demands is that the salary schedule be applied to the individual teacher, according to length of service.

CANADA AND FRENCH TREATY

Paris, March 31.—(Canadian Press)—The government will soon introduce in parliament a revised maximum customs tariff list, which commercial experts understand will be equivalent to a wall against all imports except foodstuffs and metallurgical products.

The proposed increase apply only to the so-called maximum lists, which has to do with all countries except those favored by the minimum tariff rates. These increases, it is reported, will show a difference of from 100 to 200 per cent. between the minimum and maximum lists.

Ottawa, March 31.—Canada will benefit partially by the provisions of the minimum list classification. Sir George Foster, minister of trade and commerce, informed the Canadian Press last night.

The minimum rate will apply to all articles cited in the Franco-Canadian tariff, lately negotiated by Sir George Foster, and brought down in the House of Commons on Tuesday.

FAMOUS IN SPITE OF HIS NAME.  
At the moment when we have all been paying homage to the memory of Keats and his achievements in "the realms of gold," it is curious to recall that Russell Lowell thought the poet's name stood in his own day. "Men," wrote Lowell, "judge the current coin of opinion by the ring, and are ready to take without question whatever is Platonic, Baconian, Newtonian, Johnsonian, Washingtonian, Jeffersonian, Napoleonic, and all the rest. You cannot make a good adjective out of Keats—the more the pity—and to say a thing is 'Keatsy' is to condemn it. Fortune likes fine names."—Westminster Gazette.

**TWO BRIDES LOST ON HONEYMOON**

**Sisters Married Brothers—Trapped By Woman in Big Touring Car.**

Langston, Ohio, March 31—Mrs. Ma Hettell, 18 years of age, and Mrs. Ina Hettell, 20, sisters who recently married Henry and Jacob Hettell, brothers of Atlanta, Michigan, have mysteriously disappeared, the bridegrooms reported to the local police for the brides in this city and wedding towns proved futile. The newly married couples were on their honeymoon trip to visit relatives of the brides at North Jackson, near here, according to the story told by the police. Soon after passing Akron, Ohio, they were stopped by a woman standing beside a big touring car who appealed to the men to change a tire for her, which she said had blown out. As the men worked, the woman changed the tire. When the tire was changed the woman requested the brides to ride with her, saying she was lonely. The big car sped away from the two unsuspecting husbands, whose fears were first aroused when they reached North Jackson and found no one who had seen the automobile containing the three women.

**Salutation Address—Another Woman In—for Herself.**

St. John, N. B., March 31—A morning salutation he was giving to a woman at the junction of Blue Hill and Main streets, Dorchester, caused a woman to dash red pepper in the eyes of the man. The man, who is Mrs. Sarah Kealey of 15 South End, was sent to the hospital for observation. The woman who threw the pepper was a neighbor from a nearby street, who passed him at the junction. It is said, though the man was addressing her, and opening a satchel, threw the pepper suddenly.

FRIENDS OF THIS MAN HARDLY RECOGNIZE HIM

De Valter in Such Fine Health Since Taking Tanlac, He Doesn't Look Like Same Man—Now Enjoys Life.

"Tanlac has helped me so much my friends hardly know me when they see me now, for I've put on twelve pounds in weight and am in such good health I don't look like the same man," was the statement made by Roger A. DeValter, 12 Grosvenor street, Sherbrooke, recently. Mr. DeValter is assistant engineer, Public Works Department, Dominion of Canada, in the Sherbrooke District, and is widely known and popular.

"For three years I had no end of trouble with my stomach. After eating I bloated with gas until it seemed that I couldn't endure it, and often for as

long as two or three days at a time I just had to stay in bed, and was so sick I couldn't retain anything I ate. Even the faintest dishes my wife could prepare failed to appeal to my appetite, and often it seemed that those awful pains in my stomach would be the last of me. I used to be so nervous I couldn't sleep, and I often felt that it would have been better had I fallen on the battle front in France, rather than return to suffer such agony.

"But things began to brighten up for me right after I got Tanlac, and now I actually feel like a new man. Why, during the past two years there were many times when I would have given everything I possessed to be able to eat the hearty dinner I enjoyed today. I used to be so nervous I couldn't sleep, but now I sleep well, and never feel a trace of any of my troubles. Tanlac certainly has got me to where I can enjoy life, and I'm only too glad to say a good word for it."

SMALL SURPLUS IS EXPECTED FOR THE PROVINCE THIS YEAR

Provincial Secretary Submits Estimates of Revenue and Expenditure

St. John, N. B., March 30.—The provincial budget for the current year was presented to the legislature this afternoon by Hon. J. E. Hetherington, provincial secretary, who presented all the items of expenditure and revenue before him in a speech lasting one hour. He estimated the revenue at \$2,895,556 as against actual receipts of \$3,100,548 last year, and forecasted an expenditure of \$2,886,526, as compared with \$3,004,200 which was spent last year. The provincial secretary showed an expected surplus of \$9,330 in the running of the province for the present year.

Liabilities. The provincial balance sheet showed that the published statement of capital, assets and liabilities had increased during the year by \$1,469,611, as follows: St. John and Quebec Railway, \$106,835.85; Permanent bridges, \$228,346.41; Permanent roads, federally aided, \$780,197.51; Permanent roads (automobile fund), \$71,676.05; Limestone quarry, \$10,000. Small pass balance aid to municipalities and New Brunswick Power Commission, \$15,647.37; Cash from land issues (unexpended), \$188,000.10; Total, \$2,271,907.61. Bonds redeemed during year, \$7,723.72; in hand at beginning of 1920, \$1,113,171.77; Total, \$7,723.72. Increased liability, \$1,469,611.77. The provincial secretary said that the past year had shown a surplus of \$96,348.11. The railway transfer showed a deficit of \$2,000,000. The provincial secretary said that the past year had shown a surplus of \$96,348.11. The railway transfer showed a deficit of \$2,000,000. panies. The result had been very gratifying and he did not think the increased taxes had borne heavily. Increased Motor Fees. Referring to the fees from motor vehicles he said that the figures showed that there had been a great increase in the number now in use in this province. In 1918 the fees were \$11,000; in 1919, \$15,000; in 1920, \$23,000; in 1921, \$30,000. The total, in 1918, \$11,000; in 1919, \$15,000; in 1920, \$23,000; in 1921, \$30,000. It was estimated that the receipts for 1921 would total \$275,000. For some years the municipalities had been paying \$1 per week towards the support of patients of the provincial hospital, whereas the actual cost to the province amounted to \$5 per week per patient. The government thought it fair that the municipalities should contribute a larger amount. That increased contribution was estimated for the year at \$15,000. With reference to railway receipts the province was entitled to the sum of \$600 per cent as interest on the bonds guaranteed for the Southampton Railway. The road was leased to the Canadian Pacific Railway on a forty per cent basis, but there did not appear to be any prospect in the immediate future of any amount being received from that source, and a deficit on the operation of the line could be expected for some years to come. Receipts from succession duties were difficult to estimate, but they had placed the amount at \$100,000. One large estate yet to be settled would more than make up for the difference in the estimate as compared with 1920. Hon. members would gather from the statements he had presented to them that, considering the stringency of the times, the province was not in an unfavorable position. But it was unavoidable to long at the present economic and financial situation continued the demands upon the resources of the province would be of considerable duration, and he would emphasize the need of prudence even to caution, and economy even to frugality, until they were able to see the light of a fairer day. Mr. Peck moved the adjournment of the debate, which was made the order of the day for tomorrow at 3 o'clock. Hon. Mr. Foster laid on the table of the house the petition of residents of Albert and Westmorland counties laying claim to rights to certain mineral lands in those counties. Hon. Mr. Hetherington submitted a statement of receipts and expenditures from November 1, 1920, to March 15, 1921.

THE ESTIMATES

Table with 2 columns: Estimated Receipts, 1921 and Estimated Expenditure. Total receipts: \$2,895,556.49. Total expenditure: \$2,886,526.91. Surplus: \$9,330.58.

Public Works Report. Hon. Mr. Veniot laid on the table of the house the annual report of the department of public works. The report tells that the department of public works was established in 1850, with W. H. Steeves as the first commissioner. Since that time seventeen changes have been made in heads of this department until the present time, when Hon. P. J. Veniot, of Gloucester, holds office as minister. The expenditure statement of the department for general services is as follows: Legislative building and offices, \$36,656.37; Normal school, 6,215.75; Provincial hospital, 55,087.34; Miscellaneous public works, 11,631.63; Ferry maintenance, 22,303.23; Steam navigation, 53,240.00; Motor vehicles, 16,307.28. The expenditure on wharves amounted to \$2,576.18. Permanent bridges cost the province \$245,605.01. For ordinary bridges \$222,182.62 was spent. Of this amount \$28,296.63 was for work in Northumberland county and \$45,789.96 in Westmorland. The expenditures are classified as follows: Ordinary Roads: County, \$9,705.95; Albert, 44,721.28; Carleton, 26,899.99; Charlotte, 23,762.79; Gloucester, 33,390.37; Kent, 21,315.79; Kings, 31,345.13; Madawaska, 16,944.42; Northumberland, 36,789.08; Queens, 14,486.18; Restigouche, 21,883.82; St. John, 18,792.01; Sunbury, 14,573.48; Victoria, 21,085.70; Westmorland, 84,462.11; York, 34,032.73; Miscellaneous, 47,890.92; Total, 495,265.77. Hon. Mr. Roberts introduced a bill to regulate restaurants in the city of St. John. He explained that certain data had come to the attention of the city authorities that stalls and devices in restaurants were contributing to other than a moral atmosphere in those places, and the object of the bill was to provide a remedy. Mr. Scully introduced a bill to amend the Schools Act. Mr. Richards introduced a bill to authorize the city of Fredericton to issue debentures, and also a bill to amend the act respecting Victoria Public Hospital. Mr. Hayes introduced a bill to incorporate the St. John branch of the Victorian Order of Nurses. Mr. Estabrook introduced a bill relating to the town of Sackville. Mr. Flewelling introduced a bill relating to the town of Milltown. The Valley Railway. Hon. Mr. Foster introduced a bill to amend the act respecting the St. John & Quebec Railway. He explained that the first clause of the bill provided for the funding of debts incurred during the construction of the road. This would include \$134,449 paid out of consolidated revenue, for interest during construction and \$42,000 outstanding on October 31, 1920, for capital expenditure besides \$73,000 needed to clean up outstanding accounts. The maximum amount to be bonded therefore under the first clause was \$250,000. There was a suit pending

with the Bank of British North America in which \$33,000 was involved, and claims not yet arbitrated upon amounted to \$28,000, and when provision was made for those amounts, he hoped it would be the last. The second clause provided for the funding of the net interest charged up to October 31, 1920, amounting to \$232,351, which amount had been paid by the province after its share of the earnings had been deducted. The third clause would provide for the balance of three years' interest at the rate of \$250,000 per year, making a total of \$750,000 up to the end of 1922. Bills Agreed to. The house then went into committee and agreed to bills relating to the St. John harbor commission and the taking of a plebiscite thereon, and to enable the town of St. Stephen to issue debentures. Adjourned at 5:22 p. m. A special meeting of the stationary engineers was held in their hall in the Market building last night with the president, Edgar Banks in the chair. Felix McMullin, of the Trades and Labor Council, addressed the meeting on labor matters and was well received. The chief purpose of the meeting concerned the grading of the engineers papers and this occupied the greater part of the evening. Herbert Abbott and Nell Fisher returned to their homes in Westford, last evening, almost completely recovered from the injuries they received in an explosion at Westford two weeks ago.

HOW SOME MEN BUILD HOMES

Some build two family houses  
finishing their own first then  
with the money that they save in  
rent complete the other flat as fast  
as their means permit.

Some build ells, move into these,  
and as the rent is cut off they are  
able to make a start on the main  
house.

One customer started a house in  
March, moved into it in May.  
There were no rooms finished but  
as it was coming summer it was  
like camping out. By fall he had  
enough rooms finished that his  
family could get through the winter  
without freezing. By working  
himself, and by saving he got his  
house completed in a few years.  
He is his own landlord now and his  
salary was not four figures.

Lumber cheaper now.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Sals before breakfast  
if your Back hurts or Bladder  
is troubling you.

No man or woman who eats meat regularly  
can make a mistake by flushing the  
kidneys occasionally, says a well known  
authority. Meat forms uric acid which  
excites the kidneys, they become over-  
worked from the strain get sluggish and  
fail to filter the waste and poisons from  
the blood, then we get sick. Nearly all  
rheumatism, headaches, liver trouble, ner-  
vousness, dizziness, sleeplessness and  
urinary disorders come from sluggish kid-  
neys.

The moment you feel a dull ache in the  
kidneys or your back hurts or if the  
urine is cloudy, offensive, full of sedi-  
ment, irregular of passage or attended by  
a sensation of scalding, stop eating meat  
and get about four ounces of Jad Sals  
in a glass of water before breakfast and  
in a few days your kidneys will act fine.  
This famous salt is made from the acid  
of grapes and lemon juice, combined with  
lithia, and has been used for generations  
to flush and stimulate the kidneys also to  
neutralize the acids in urine so it no  
longer causes irritation, thus ending blad-  
der weakness.

Jad Sals is inexpensive and cannot in-  
jure; makes a delightful effervescent  
lithia-water drink which everyone should  
take now and then to keep the kidneys  
clean and active and the blood pure,  
thereby avoiding serious kidney compli-  
cations.

GREAT GATHERING AT THE GOOD ROADS CONVENTION IN MAY

Many Prominent Canadians From The Atlantic To The Pacific, And Some Americans Are Expected To Attend Meeting In Halifax

Montreal, March 31.—The lieutenant-governor of Nova Scotia, the Hon. McCallum Grant, has announced that he will formally open the eighth annual convention and exhibition of the Canadian Good Roads Association, which will be held at the Technical College, Halifax, on May 10, 11 and 12 next, thus following in the footsteps of his colleagues in all the provinces which have welcomed this great gathering of road builders and other public officials since the formation of the association, and giving the official stamp of approval to the educative campaign which is the sole object of its existence.

Although the convention is still some weeks off, the tentative programme which has been prepared, and the many public men who have already signified their intention of being present, practically ensures that the delegates from all over the dominion as well as the visitors from across the border, will find this gathering as instructive and interesting as any that have been held. The fact that it is being held this year in the land of Evangeline, one of the most scenic parts of Canada, is perhaps one of the reasons why so many prominent people have already signified their intention of being present. They will combine business with pleasure under the most ideal conditions, for the local committee have already signified their intention of providing a most enjoyable and profitable trip to the province is at stake, and are showing an enthusiasm for the convention that assures success.

LUMBAGO

If you feel a touch of lumbago, you can ward off the evils of recurrent attacks, by taking Gin Pills without delay. Learn a lesson from the experience of Mr. H. A. Jukes. After suffering with lumbago for years, and being confined to the house at times, Mr. Jukes began to take Gin Pills. His letter to us reads, in part: "and much to my surprise, I at once felt a change for the better. I have been taking them at intervals, and, up to date, have had no recurrence of my old trouble; in fact, I have not felt better for years."

Don't delay. Buy a box of our money-back-guarantee, or write for a free sample. National Drug & Chemical Co. of Canada, Limited, Toronto, Ont. U.S. residents should address: Nat-Drug-Co., Inc., 202 Main St., Buffalo, N.Y.

CUTICURA HEALS RASH ON CHILD

On Body and Face. Red and Itchy. Cried For Hours. Lasted a Year.

"A rash started all over my little girl's body, and she had some on her face. It started in a pimple that was full of water, and it got red and itchy. She cried for hours. This trouble lasted a year."

"Then I started with a free sample of Cuticura Soap and Ointment. I bought more, and I used four cakes of soap and three boxes of Ointment which healed her."

(Signed) Mrs. Dora Langley, 1323 Gertrude St., Verdun, Que., August 11, 1915.

The Cuticura Toilet Trio Consisting of Soap, Ointment and Talcum is an indispensable adjunct to the toilet in maintaining skin purity and skin health.

Soap 25c, Ointment 25c and 50c. Sold throughout the Empire. Druggists, Lymans, Limited, St. Paul St., Montreal.

"Cuticura Soap shaves without stings."

will be discussed uniform traffic regulations, inter-provincial highway connections, federal aid, methods of financing good roads, and matters affecting automobile taxation and traffic, as well as the methods of maintaining various types of roads to suit the traffic using them.

There will be other conferences and meetings held during the convention, of which announcement will be made later by Secretary George A. McNamee, who is arranging several special features for this the first general convention in the maritime provinces.

He Was in Bed for Eighty-five Days

NOW LEON JOBIN RECOMMENDS DODD'S KIDNEY PILLS

Quebec Man, Long a Sufferer From Sciatica, Can Now Cut Wood Without Being Tired

Villefontaine, Pontiac Co., Que., March 30.—(Special)—Mr. Leon Jobin, a traveler in many countries, but now a resident here, has made a statement as to the benefit he received from the use of Dodd's Kidney Pills.

"I was in bed for eighty-five days with sciatica," Mr. Jobin states. "I have been looked after by many doctors, both in Europe and Montreal, but without result. A friend asked me to try Dodd's Kidney Pills. I took them for six weeks and now I can cut wood without being tired. I advise those who suffer from sciatica to use Dodd's Kidney Pills."

If your kidneys are troubling you and you don't know Dodd's Kidney Pills, ask your neighbors about them.

WORK AGAINST RACE SUICIDE LEASE CLAUSE

Boston Rent and Housing Committee After Landlords — Boost in Rent for Every Child Born.

(Boston Globe.) To all appearances, the mayor's rent and housing committee and the city law department are going, hammer and tongs, right after the landlords who have been insisting upon the so-called race-suicide clause in some apartment leases.

Such clauses provide for something like a \$10 monthly increase in the apartment rental for every new babe born during the tenancy of its parents.

"If I have my way, we'll put teeth in existing housing laws that will bite these greedy landlords when, in future leases, they insert any such inhuman clause," said Chairman Malcolm E. Nichols of the committee.

Chairman Nichols had just returned to his office after a consultation with Corporation Counsel A. D. Hill upon the character of such legislation as may be drawn up, responsive to the call for it by the city council in Monday's meeting, as suggested in an order introduced by Councillor F. J. W. Ford.

Mr. Nichols then announced he has issued a call for a meeting of the rent and housing committee tomorrow at noon, at which time Corporation Counsel Hill will confer with the committee.

Its members are G. E. Brock, J. T. Hoffer, J. B. Noyes, E. T. Kelly, Health Commissioner Woodward, R. W. Garrity, M. Bronstein, H. R. Brigham and D. A. Marshall.

If such legislation is drawn up, there will be little difficulty in persuading the house committee on rules to act favorably to its admission, because of its essentially emergency nature, Mr. Nichols thinks.

The Women's Missionary Society of the Exmouth street Methodist church held its annual public Easter meeting on Monday evening when Mrs. George F. Dawson, the president, was in the chair.

Rev. G. F. Dawson led the devotional services. A short programme was given and included the following numbers: Address on the work in foreign fields, by Mrs. Dawson; readings, by Mrs. A. D. Hopkins and Miss H. Hopkins; recitations, by three girls from the mission band, and solos by Miss Mildred Bustin and Miss Frances Withers.

The Easter envelope offering amounted to \$83, with some envelopes still on hand. Dr. Heustis congratulated the members of the society on their splendid offering and work.

Plenty Left. Wife (tearfully)—You have broken the promise you made me. Husband—Never mind, my dear. I'll make you another.—Answers, London.

WOMEN MEN ADMIRE Men admire a pretty face, a good figure, but most of all the happy, healthy, contented woman, as beauty fades and the figure will change. Women who are troubled with backache, headaches, those dreadful dragging sensations, and nervous irritability, cannot hope to be popular, and advancement in either home, business or social life is impossible. The cause of these troubles, however, yields quickly to Lydia E. Pinkham's Vegetable Compound, as it is a natural restorative for such conditions, and dispels effectually all those distressing symptoms.

CENTENARY W. M. S. The W. M. S. of Centenary church had a special Eastern programme at its meeting yesterday and the occasion was very pleasant and enjoyable one. Mrs. C. Sanford, the president, was in the chair. Among the special features was an exercise in which three heathen women were taught of Christ's life by answers to their questions. Those who took part were as follows: China, Mrs. L. A. Langstroth; India, Miss Lillian Deinstadt; Japan, Miss Margaret Evans; answering, Mrs. John Sealy, Miss Annie Hea, Mrs. C. D. Colpitts, Mrs. Lewin and Miss Annie Stark. Solos were sung by Mrs. E. A. Logie and Mrs. G. H. Moore. The second exercise was the story of "Diana and Dollars," given by the mission band members. Miss Annie Tait was Diana; Miss Laura Baxter, the missionary lady; Miss Star McAlpine, the friend; and the chorus members were Mrs. H. A. Goodwin, Mrs. Amland and Miss Amland. A short chart talk showed by comparison how many of the Methodist women were in the missionary societies.

JURY DISAGREES IN NEAR After two hours or yesterday afternoon the jury of William Neera, charge against two little girls, court reported disagreement they were divided 12 to 3 for acquittal. The case was adjourned until this afternoon.

It is thought the attorney general's department Dr. Finn, who has had much experience in autopsies, may be able to ascertain the nature of the wounds and the instrument used by the murderer.

DRAFT BILL FOR A NEW BUILDING FOR MUNICIPALITY

The draft of a bill which would empower the council of the municipality of St. John, with the financial assistance of the provincial government, to erect one or more buildings to house the several departments of civic and municipal government and to provide a place for the administration of justice for the city and county was accepted by the bills committee of the municipal council at its meeting in the county secretary's office, last night. The bill will be presented to the present session of the provincial legislature.

The bills committee also accepted the draft of a bill authorizing the parish of Lancaster to levy a tax of \$3 on every horse in the parish and a license fee equal to one third of the amount of the government license fee on every car owned and operated in the parish. The bill to exempt from taxation builders of dwelling houses under \$6,000 in value was considered by the committee which after discussion resolved that conditions were not yet ripe for such legislation.

ST. JOHN FIRM BID ON N. S. BOND ISSUE

Halifax, March 30.—The provincial government today opened tenders for a loan of \$1,000,000 six per cent. bonds of the province of Nova Scotia. The joint tender of the National City Company, of Montreal and New York, E. H. Rollins and Sons, New York, and Wood Gundy and Company, Toronto, was accepted, for the five-year issue, the price being 102.87.

J. M. Robinson and Company of St. John, and several other firms bid 101.642 for \$1,000,000 for five years, 101.392 for \$1,500,000 for five years and 99.764 for ten years.

J. M. Robinson and Company bid 97.063 for \$1,000,000 for fifteen years and 97.063 for the same amount for twenty years.

WOMEN MEN ADMIRE

Men admire a pretty face, a good figure, but most of all the happy, healthy, contented woman, as beauty fades and the figure will change. Women who are troubled with backache, headaches, those dreadful dragging sensations, and nervous irritability, cannot hope to be popular, and advancement in either home, business or social life is impossible. The cause of these troubles, however, yields quickly to Lydia E. Pinkham's Vegetable Compound, as it is a natural restorative for such conditions, and dispels effectually all those distressing symptoms.

## ONCE TO EVERY WOMAN

YOU know that there is nothing so beautifully compelling in Nature as mother-love. Even the word "mother" gives you a thrill. Imagine, then, a picture that is almost sublime in its reverent, forceful and dramatically appealing presentation of the mother-love theme! Here, indeed, is such a picture. It reaches depths of pathos and heights of human feeling seldom found on the screen; it will make you cry, then dry the tear with a smile; it will thrill you with its suspense. It's worth seeing if ever a picture was—and besides being entertained you'll be happier for having seen it. Come—that's all!

### TO EMPLOY LETHAL GAS IN EXECUTIONS

Nevada Introduces Method of Asphyxiation of Condemned Persons in Their Sleep.

Carson City, Nev., March 31—A bill providing for the use of lethal gas in executing the death penalty in Nevada was signed here by Governor Boyle. Signing of the bill abolishes other forms of capital punishment in the state. Hitherto condemned men had the choice between hanging or shooting. Nevada is believed to be the first state to make gas the means of capital punishment.

Under the new law the death warrant must designate a week within which the execution must take place. This week must be not less than sixty nor more than ninety days after the date of the judgement.

The law calls for a suitable cell for inflicting the penalty where gas is used and provides that the warden, a com-

petent physician and six other citizens must witness the execution.

The bill gives no details concerning the cell but sponsors for the bill said it was understood that it was intended that it should be air-tight, fitted with windows of thick glass and equipped with valves to admit air.

It was planned that when the condemned man should be asleep, the air valves would be closed and others, admitting lethal gas, be opened, life being taken without the prisoner's awakening.

**SAYS HE KILLED FELLOW PRISONER**  
Mountsville, W. Va., March 31—A verdict of guilty of murder in the first degree, with a recommendation of life imprisonment and five months solitary confinement, was returned by the jury which heard the evidence in the case of W. H. "Holly" Griffith, a convict in the West Virginia penitentiary here. Griffith was charged with killing a fellow prisoner.

Griffith was indicted in connection with the death of Henry Lewis, another convict, who was killed on the night of January 9 last. A little while before Lewis' body was found in an engine room, a prison factory was set on fire and Griffith made his escape during the excitement. He was captured in South Carolina.

Griffith was sent to the state prison several years ago, after he was convicted of first degree murder and sentenced to serve a life term.

### LOCAL NEWS

#### HARBOR REVENUE

The St. John harbor revenue for October amounted to about \$24,000, an increase of some \$2,000 over the corresponding month last year.

#### BANK CLEARINGS

The St. John bank clearings this week were \$2,133,861; last year, \$2,019,623; 1918, \$2,222,222. The March clearings were \$11,818,280; last year, \$15,038,493. Month's clearings this week were \$884,322; for March, \$2,483,417.

#### SECOND TRIAL OF NEARN

The case of William Nearn, charged in connection with alleged offences against two little girls was resumed today before Mr. Justice Crockett. A new jury was sworn. The evidence was as already given in the first hearing. In the first case the jury disagreed.

#### MAGGIE MILLER AT WORK

The ferry steamer Maggie Miller started on her regular route between Millidgeville and Summerville, on the Kennebecasis river, this morning. Owing to ice around the landing at Bayswater, she will be unable to go there for a few days, and in the meanwhile passengers are driving around to Summerville.

#### CHARLOTTE PROBATE MATTER

In the Charlotte county probate court at St. Stephen on Wednesday, a citation was issued on the petition of the Eastern Trust Co. in the matter of the estate of Thomas Mulhearn of Lepreau, farmer, for permission to sell real estate of the deceased, situated at Lepreau. Citation was made returnable on April fifteenth. G. Earle Logan was proctor.

#### CHANGE FIRE BELL LOCATION

The fire bell in Fairville, located near Wilson's corner, Main street, that has done valiant service for years, is being moved today to a new location. It has been thought for some time that if the bell were placed nearer the fire station it would be more accessible, and this change has finally been decided upon by the powers that be. The bell will be placed at the new fire station in Church street. It is understood no change will be made in the bell at the lower end of Main street.

#### DEATH OF MRS. THOS. A. BLACK

This morning at her residence in Cambridge, Queen's Co., N. B., Guisek May, beloved wife of Thomas A. Black, formerly of St. John, passed away. She had been in poor health for the last year, but had been able to be out until a few weeks ago, when she became seriously ill. Mrs. Black was in the fiftieth year of her age and until a few years ago had resided in St. John, moving to Cambridge, where she conducted Black's Hotel, so well and unknown to summer visitors. Besides her husband, Mrs. Black leaves to mourn three brothers, John W. of St. Stephen, N. B., A. E. of Fredericton, and Frew W. of St. John; also a niece, Mrs. M. V. Dalzell of St. John. The funeral will be held Saturday from her late residence. Services will be conducted by Rev. Dr. Hutchinson of Main street Baptist Church, St. John, of which church Mrs. Black was a life long member. Interment will be in the Baptist cemetery in Cambridge.

### ARE EIGHT TO USE PLACES?

More Orders re Customs and Inland Revenue Departments Here.

C. B. Lockhart, collector of customs, last night received a wire from Ottawa, advising him that the civil service commission had approved of his appointment as acting collector of customs and excise from April 1 and that after that date all returns of customs and inland revenue and official correspondence would be handled through him.

Today he received instructions to take on his staff six of the employees of the inland revenue staff, although no names were detailed. There are fourteen on the inland revenue staff at the present time, thirteen in the city and one at Woodstock, and if only six positions are available, it will mean that eight of the employees will be retired. Mr. Lockhart has had no instructions, however, in this connection, but said he would likely have further orders in this afternoon's mail.

Arrangements are being made today to bring the inland revenue staff into the customs long room and it is expected that the rooms vacated by them will be used for some other purpose in connection with the administration of the amalgamated department.

### POLICE COURT

S. Levine was in the police court this morning charged with having liquor unlawfully in his possession other than in his private dwelling. He pleaded not guilty and Inspector Crawford told of going to the accused's residence in North street, where with Inspectors Henderson, Journey and Thompson, he found seven "square faces" with liquor. One bottle was part full of liquor and another contained alcohol while in a sewing machine drawer he said he found a small bottle which smelled like liquor. The case was postponed until April 5. W. M. Ryan conducted the prosecution and E. S. Ritchie the defence.

Herbert Bliss pleaded guilty to being drunk but said he did not know that he had any liquor in his possession. The case was postponed. Four men charged with drunkenness pleaded guilty and were remanded.

### BUILDING REPORT.

The St. John building inspector's report for March shows a marked increase over the corresponding month in 1920. Building permits issued aggregated \$22,000 against \$4,500 last March. Permits for the first three months in 1921 totaled March 31, aggregate \$24,000, while in 1920 they amounted to \$24,500. Twenty-seven permits were issued during the month for repairs on properties.

The March permits for new buildings were as follows:

Fred S. Heans, brick building in Douglas avenue, \$15,000.

Harry Smith, wooden dwelling in Tower street, \$4,000.

Mrs. Harry Green, for additions and renovations to her tenement house in Durham street, \$2,000.

Charles H. Smith, wooden barn, in First street, off Cranston avenue, \$1,000.

### AMENDMENTS TO ELECTRICAL LAW ARE CONSIDERED

Some Objections Presented by Citizens at Common Council Meeting—Matter Up Again This Afternoon.

Proposed amendments to the electrical by-laws of the city were considered by the common council at its committee meeting this morning. The meeting will be continued this afternoon.

F. A. Dykeman was present in the interests of the Retail Merchants' Association. He was accompanied by Messrs. W. H. Wyman and John B. Jones, Jr., represented the electricians, and R. H. Bruce, the real estate men of the city. Barry Wilson, the city electrician, and G. G. Hussey, city engineer, were also at the meeting. The mayor presided, and all the commissioners were present.

The proposed amendments were taken up section by section. The section dealing with the approval by the city electrician of material used, Mr. Thornton explained, made it possible to use material other than that manufactured in the United States.

Mr. Webb suggested the addition of a paragraph giving the city electrician power to approve any material not approved by the fire underwriters, the Ontario hydro commission, or the Association of Electrical Engineers of Great Britain. This was agreed to.

A section regarding fees for permits and inspections was taken up. Mr. Webb said the fees did not come directly from the contractor, but he thought that the increase in scale would deter people from putting in electric fixtures and would therefore cut down the revenue from the department.

Mr. Thornton said that the electrical inspector made 2,000 inspections last year and was so busy that he was unable to take his holidays last year.

Mr. Bruce said the builders were looking towards decreases in building cost, and the proposed scale of fees was practically an increase of 100 per cent.

Mr. Thornton said that the department would not pay for itself, the taxpayers as a whole would have to bear the cost. Mr. Thornton said the expenses were about \$3,000, and the income last year was \$1,492.

F. A. Dykeman said that as the law was for the benefit of the whole city the city in general should pay the expense, as with the plumbing inspector. The section regarding the fees was adopted, only Commissioner Jones dissenting. This included a special clause regarding special theatre lighting where extra lighting fixtures were used.

The electrician explained that a fee of ten cents on each permit was to pay for cost of printing, etc. This clause was on motion struck out.

The remaining temporary permits, a charge with a charge of \$1 for special permits, of twenty-five cents for which was made the electrician explained that this would cover such work as at the exhibition. The section was adopted.

A section on giving a charge of 50 cents to \$1 for electric heaters and ranges was passed.

A paragraph changing the payment of fees to the city electrician instead of to the chamberlain was passed, the city electrician to make daily returns to the chamberlain.

Mr. Bruce objected to a proposed amendment which required wiring of garages for one or more cars to be in conduit, on account of the cost. It was agreed to include armored cable in this work.

The meeting adjourned until this afternoon.
