LOOK BACK ON GOOD SCHOOL YEAR

Closing Exercises of Rotheray Collegiate Today

Report of Head Master, Rev. W. R. Hubbard, Has Reference To Large Part That Old Pupils Are Taking in the War—The Prize-Winners

There was a good gathering at Rotheray Collegiate School today for the closing exercises and the finals in the sports.

At the closing report of the head master was read as follows:

The presence of many of the boys' parents and of other friends of the school at the close of the school year gives me an opportunity of briefly reviewing the year and of enumerating some of its outstanding features.

At no time now are our thoughts long absent from our soldiers, so first I mention certain items of interest regarding our old boys who are serving in some military capacity.

Altogether on honor roll we now have 174 names, of whom eight are former masters and 166 are former pupils.

With all of these we try to keep in touch by sending them regularly the school magazine and, from time to time, other remembrances of our interest in them.

That these efforts are appreciated is shown by the large number of letters received from them.

One might think that their thoughts would be so engrossed by the stirring scenes in which most of them live, and the grim nature of the work upon which they are engaged, that all this would preclude them from taking any longer interest in what goes on here at Rotheray.

So far, however, it is this from being the case, that one would imagine, judging by their letters, that the matters of supreme interest to them are the various successes we have from time to time in the school.

Last year I read a long list of military honors which have been bestowed upon our former members.

Succession of Breaks In Large Mains

Last, About a Quarter After Seven, Caused Complete Stoppage of Supply on Eastern Side of The Harbor

For several hours this morning, on the anniversary of the great St. John fire of 1877, the city was without water.

The cause was the third successive break within twenty-four hours, in one of the twenty-four inch water mains leading to the city.

Early this morning a sudden drop in the pressure gauge at the water office, about 7:15 o'clock—indicated another break.

The break was in the main on the eastern end of the Marsh bridge, where the repair was being done through a crater in the ground and flooding the surrounding street.

While the work on the pipe was being done, a large quantity of water was being discharged into the city.

MAY START BIG HALIFAX SHIP PLANT NEXT WEEK

Depends on Progress on Plans of Engineers

KEELS LAID IN THREE MONTHS

Three 10,000 Ton Steel Freight Steamers—Officials Inspect Site and Dry Dock—Expenditure on Plant Three and Three Quarters to Four Millions

Halifax, June 20—That the work of establishing the big steel shipbuilding plant at Halifax will be commenced next week if the engineers' plans are completed by that time, and that within three months the keels of three 10,000-ton freight steamers—the largest ever built in Canada—will have been laid on the building berths, is a statement by J. W. Norcross, president of Halifax Shipyards, Limited.

"Our expenditure for the shipbuilding plant," he said, "will be between \$3,750,000 and \$4,000,000, and the engineers have the plans ready, we will start spending that money during the latter part of next week, when we will let our contract."

With Mr. Norcross, who is vice-president of the company, M. J. Haney, C. E., of Toronto, and H. W. Brown, of Vancouver, the party yesterday inspected the shipyard site and the dry dock and lunched at the Halifax Club, the guests of prominent citizens.

The officers of the Halifax Shipyards, Limited, include: Chairman of board, James Carruthers, Montreal; president, J. W. Norcross, Montreal; vice-president and managing director, R. M. Wolvin, vice-president, M. J. Haney, C. E. (Toronto); treasurer, F. S. Isard, Montreal.

London, June 20—Serious rioting broke out in Vienna yesterday, says an Exchange Telegraph despatch from a messenger.

Amsterdam, June 20—The Cologne Gazette's Berlin despatch declares authoritatively that there is no question of non-fulfillment of German obligations to supply grain to Austria, because Germany has been in a position to forward wheat supplies.

Amsterdam, June 20—Vienna dispatches to German newspapers say the reduction of the bread ration in Austria-Hungary caused immense excitement throughout the dual monarchy. All Austrian newspapers without distinction of party protest against the measure, and sending its removal and ask immediate help from Germany and Hungary.

Bear This In Mind When You Fill Out The Registration Cards

Ottawa, June 20—A bulletin from the Canada Food Board reads:—"Great Britain in peace times depends upon imports for four-fifths of her food supplies. One out of every seven of Scotland's total population is employed in the food industry; in Canada one out of every seven."

London, June 20—News reaching London this afternoon is that the Italians have regained Capo Sile, a town on the bank to the west of the Piave River, near its mouth, which was captured by the Austro-Hungarians.

PARIS SAYS DEFEAT SURE

Success in Holding Enemy Spurs On Italians to Renewed Effort—Emperor Charles, Vexed At Check, Likely to Try to Force Drive

Italian Army Headquarters, June 19—(By the Associated Press)—The Italians have complete control of the air along the Piave line, where the most determined fighting of the present Austrian offensive is in progress.

In general, the situation of the Austrians along the Piave appears far from satisfactory to them.

Paris, June 20—The excellent resistance of the Italians and their Franco-British allies leads the French press to conclude that the Austrians cannot avoid defeat, especially as well directed counter-attacks have resulted in the capture of thousands of prisoners and machine guns.

A Havas despatch from Rome says that Italy has achieved a great double victory, referring to the recent naval exploit in the Adriatic and the present checking of the Austrians.

DEFEAT OF THE HUNS AT RHEIMS WAS DECISIVE

Never Did So Important An Attack Fail So Completely

GOOD AUGURY FOR ALLIES

Further Proof of Exhaustion of German Crown Prince's Army—British and French Made Successful Raids Last Night

Paris, June 20—The sanguinary defeat of the Germans before Rheims is pointed to by the morning newspapers as an excellent augury for the Allies in the operations to come.

The commentators, however, do not seek to minimise the ability displayed by the defenders, and they point particularly to the remarkable artillery barrage, the notable resistance of the infantry and the irresistible counter-attacks of the brave colonial troops under General Gouraud.

"Never did so important an attack fail so completely," says the Petit Journal.

British Raiders Active

London, June 20—Raids were carried out by the British last night in the neighborhood of Boulogne (southwest of Arras), Lens and Ghent, and in the Strazeele and Ypres sectors (Flanders). Some of these enterprises led to sharp fighting, in which the enemy suffered many casualties. We captured eighteen prisoners and three machine guns.

Doctor Abramson, director of the provincial laboratory under the new health act, is today on the relationship of a provincial laboratory to the public health.

Amsterdam, June 20—The Cologne Volks Zeitung declares that a crisis has existed in Bulgaria ever since the conclusion of the Bucharest peace, but that the censorship prevented any illusion to it.

The Bulgarian parties, it says, did not forgive Premier Radoslavoff that he failed to return from Bucharest, with the entire Dobruja. This, together with the food situation, led to the defection of a large section of Radoslavoff's supporters.

With Radoslavoff, the last of the prominent statesmen active at the outbreak of the war, lays down office.

NEW YORK A. O. H. AGAINST TREASON PREACHED UNDER GUISE OF IRISH PATRIOTISM

O. H. The resolutions, which, it was said, would have "the support of 95 per cent of our race" were telegraphed to President Wilson.

PEACE DEMONSTRATION IN GERMAN CAPITAL

London, June 20—Heavily censored private messages received in Stockholm indicate that peace demonstrations were held recently in Berlin, Hamburg and Cologne, and that several workmen were killed and many persons arrested, says a despatch to the Morning Post from Stockholm.

According to a despatch to the Exchange Telegraph Company from Zurich, there have been strikes in Vienna and Neustadt, owing to a reduction in the bread rations.

The despatch adds that an almost general strike is expected and that the situation is considered grave.

Camp.

TONIGHT'S SHOW AND TWO PERFORMANCES TOMORROW

The "Seven Days' Leave" engagement which opens at the Imperial tonight will be the only big theatrical booking of the summer for St. John. So lovers of good comedy-drama should not let it pass. The company is excellent, the play a wonderfully inspiring British war story—devoid of silliness, wounding—and the scenic and mechanical effects exciting and surprising. England, United States, Australia and Canada are loud in its praises. The house downstairs is pretty well sold out for tonight but there are plenty of good 75c seats in the front balcony and 50c ones in the rear balcony. For Friday's matinee and evening shows, the sale of seats is also large. The matinee will commence at 2:30 sharp and the prices will be \$1.00 for the lower four-hundred of each price—and for the first balcony 75c (front two rows), and 50c for the remainder. For Friday's matinee and evening shows, the sale of seats is also large. The matinee will commence at 2:30 sharp and the prices will be \$1.00 for the lower four-hundred of each price—and for the first balcony 75c (front two rows), and 50c for the remainder. INDIAN CHIEF HIT AT GEM; SHOW ALL GOOD

In both vaudeville and pictures, the Gem's new show is a rich one. Chief Bull Bear and his company of Sioux Indians made a hit last night. Devereux is a dandy entertainer and Rull and Rull in Russian costumes now has a wonderful. Fatie News and "Toto in 'Clonpatay,' a roaring comedy. All "Tonight at 7:15 and 9:45.

THE NAVY LEAGUE

A campaign is being conducted in the province of Quebec by the Navy League to bring up their membership to 25,000 and every day next week the canvass will go on by prominent men of the larger cities. The Halifax branch now has a membership of 2,000 and is rapidly increasing. Fredericton is aiming for 1,000 members, so St. John branch soon will have to begin a drive to keep up.

The minister of marine and naval service has written the dominant president approving of their efforts to organize boys' naval brigades and promising assistance, and pointing out that as the government is promoting a programme of shipbuilding, the education and training of boys in naval matters will be of great assistance in the future.

Arrangements are nearly completed for a monster children's demonstration at the Imperial when it is expected there will be 2,000 boys and girls present to see naval pictures, receive a flag and join the Navy League as junior members. Then there will probably be a procession of the children headed by a naval flag.

The executive earnestly wish for a large membership and hope that the citizens will join the league hot it has done interest in the navy and its future.

YOUNG FARMERS MAY BE RELIEVED FOR CROPS

The U. F. O. Representatives To Ottawa Succeeded In Securing Some Concessions

Farmers State Case—C. W. Gurney, Back From Capital, Says 19 to 20 Men May Not be Called All

(Toronto Star.)

C. W. Gurney, chairman of the legislative committee of the United Farmers of Ontario, who was instructed by the recent convention held in Toronto to proceed to Ottawa and present the requests of the farmers regarding the operation of the Military Service Act, returned to Toronto this morning. He had a conference with the Hon. T. A. Crerar, minister of agriculture, and Mr. Crerar referred the matter to Acting Premier Sir George Foster, who met Mr. Gurney in conference.

As a result of the petitions of the farmers Mr. Gurney was assured with regard to the 19-year-old class of young men that all young men who reached the age of twenty years after October 18th would be considered to be nineteen years old for purposes of the Military Service Act. This is significant, as it was followed by an announcement from Ottawa that the 19-year-old men would not likely be called until September or October, and Mr. Gurney is of the opinion that they will not be called at all in extraordinary circumstances.

Go Some Assurance.

Sir George Foster assured Mr. Gurney that where any case arose of men having given a wrong age unintentionally, that their certificate should be returned to them.

Mr. Gurney stated in the Star on his return: "I believe that, as requested, it is a most favorable consideration. I was positively assured of this."

Mr. Gurney would not state the requests in full, but it is understood by the farmers that the one to which they are most anxious is that which asks: "Could not our boys be kept in training in Canada and allowed leave of absence to take off the crop?"

Farmers State Their Case.

The statement presented to the acting premier which Sir George Foster characterized as "fair and reasonable," and "it is evident that these people are disposed to do what is fair," is in part as follows:

"The people do not think that sufficient explanation has been given for the breaking of the pre-emption pledge. They think that at least they should have been taken into confidence before such drastic measures were adopted.

"Could not our boys be kept in training in Canada and allowed leave of absence to take off the crop? If such means of relief could be afforded, it would be greatly appreciated.

"The provisions made for the granting of leave of absence in extreme cases would like to see made less difficult, and would appreciate the appointing of someone at crop headquarters to look after and advise the boys in this particular. Owing to bad train connections, the days of leave granted in some cases leave little time at home. Could not a little more leniency be given?"

cerning the food supplied, boys stating that it takes all their pay to buy provisions from the canteen. We know the department does not wish this to be the case, especially in such reports are stirring up mothers to an alarming degree. We also think that it would be the part of wisdom to err on the other side, as the women look upon their boys being drafted in a very different light to what they did under enlistment. All men know the wisdom of keeping on good terms with the women, and the consequences that attend their displeasure. That in cases where wrong ages were given—not intentionally—should be rectified. It is a poor rule that does not work both ways.

That organized labor is opposed to the conscription of labor to work on the land is quite apparent, and we do not expect much relief from that quarter. The numbers of their battalions, which have the M. S. A. worked out with the least possible inconvenience, we are convinced, and if the committee appointed by the farmers' delegation at Ottawa and reappointed in Toronto can be of any assistance, we place ours at your disposal."

STRANGER THAN FICTION.

Two men who are resting in a dug-out to escape the heavy shelling of the enemy, for a few minutes cannot see each other in the blackness, but with the spirit of "camaraderie" so common out there, although they are total strangers, begin to chat. After exchanging the numbers of their battalions, which happen to be both Canadian and in the same brigade, one says:

"But you're not a Johnny Canuck; you talk like an Englishman."

"That may be; I was born in England. But I am a Canadian. I've been out there for seventeen years, the other returned a little proudly.

"Indeed! I was in Canada only three years. Where'd you come from in old England?"

"Faversham, Kent."

"Faversham! Well, I'm blowed! That's my own. What the 'ell's your name?"

"Bergie Roberts."

"'W'y, blame me, I'm your brother Bill!"

Affectionate greeting followed, then explanations. The older brother had gone out to Alberta seventeen years before, while the younger was still at school. Correspondence had stopped, as it often does with men, and they met after the other went out to Ontario. When the war broke out they enlisted in different regiments, and they met after seventeen years' separation in the dark entrance to a dugout.

"Told by Captain R. Munton, in his book 'A Surgeon in Arms,' (Appleton), a story of a medical officer's experience in the war.

"THOU SHALT NOT STEAL"

This production playing at the Star Theatre at present is undoubtedly one of the best pictures in which Virginia Pearson has appeared for William Fox. The story, based on the seventh commandment, tells how a young girl saves herself from disgrace, and her father from ruin by stealing \$100,000 that she had previously borrowed from her father.

Miss Pearson, who has always been a great favorite in North End, appears at her very best in this remarkable photoplay, which will be shown again this evening.

A good comedy subject is included in the programme.

"Woman Hath Her Reasons, Which Reason Cannot Know"

Ask a woman why she prefers Lipton's Tea, and the probability is she will answer "because" and let it go at that. There are, however, cogent reasons for this preference. The first is that Lipton's is the only Tea sold in Canada the quality and flavor of which is guaranteed. We guarantee it because we grow it on our own plantations. We know the quality of our leaf, and we blend it, and pack it ourselves. No other firm selling Tea in Canada can give this guarantee. You cannot know the complete joys of Tea-drinking until you drink

The farmer alleged that a freight train of the defendant company had hit one of his mules. "Now, Mr. Jones," said the attorney for the corporation to the farmer, "Will you kindly tell the court whether or not your mule was on the track when hit by the train?"
"Well," replied the farmer. "This was a bright mule, and I reckon if that train had took out after him in the woods which fringe the track there where he was killed, he would have got behind a tree!"

GLORIOUS FRANCE.

With a million of her sons killed, and more than a million others rendered unfit for further fighting, France, the unconquerable, still maintains the struggle for liberty and the triumph of the principles of democracy. It is a glorious record of devotion and sacrifice for the soul of a nation. France has consigned seven million men since the war began, and her population was only 36,000,000. When we are told in Canada that we cannot afford to spare any more men, the record of France is the answer; and we are not fighting in France's war, but our own. What Germany would do to France if she won this war would be but trifling compared with what she would do to Canada.

Never again may we call the French nation frivolous or decadent. Such a record as she has made in this war could only be accomplished by a steadfast people, of great virility and resolute staying power. When we think of her losses, her abiding cheerfulness in the face of great odds, the fiery valor of her troops and the devotion of her women and children and old men, we should surely be stimulated to do our part with settled purpose and with the utmost energy, to be worthy of the credit already so generously given by France to our sons, who fight side by side with hers in the most cruel and heart-breaking struggle the world has known, and on the result of which hangs the fate not only of France and Canada but of the cause of democracy the wide world over.

THE WAR SITUATION.

The Austrian Emperor is at the front, urging his troops to the assault on the Italians and their Allies. He is disappointed at their lack of success, and is said to be determined to press the attack in hope of forcing a way into the Venetian plains. There is good reason for his frantic desire to gain a victory. The reduction in the bread ration and the growing discontent at home make it necessary to gain a military success. The Italians, however, are elated by their success in checking the enemy's advance, and will fight with redoubled energy to retain the advantage. The general tenor of comment of the Allied press encourages the hope that they will succeed and that the Austrians will be defeated.

The German attack at Rheims has proved a costly failure. It is suggested that the next blow will be aimed at the British with the Channel ports as an objective, but that is mere conjecture. The enemy keeps his plans to himself, and the task of Gen. Foch is to guard against surprise at any point along the extended front.

Today's cables tell of peace demonstrations in some German cities as well as of riots in Austria. It would be folly to found extravagant hopes on these reports, but they are at least straws which show the direction of the wind.

AN ANNIVERSARY.

It must have been a rude shock to citizens who remember the fire of 1877 to rise this morning, the anniversary of that fateful day, and find their water supply cut off. Fortunately it was but a brief interruption of the supply.

The changes that have come since 1877 are perhaps best illustrated by the remark of Mr. Thomas Adams yesterday that in its town planning St. John should provide for an aviation campus, because the time has come for the commercialization of the aeroplane.

But another striking illustration is found in the fact that we are today discussing the prospect of the establishment of a steel shipbuilding plant near a great dry dock that is to be constructed at Courtenay Bay. In 1877 the wooden ship was still the glory of St. John.

Then we have the grain elevator, the transcontinental railways, the sugar refinery, the other large manufacturing plants, the telephone, electric railway, and numerous other modern improvements. The city has not increased in population to the extent hoped for, but it has made very substantial progress and appears to be on the eve of important developments. After the war its growth should be more rapid, and its wealth increase. Its untried position on the main line of one of the great trade routes of the Empire must bring it into greater prominence as a national port and a centre of industry and commerce.

The Germans are issuing pamphlets in French and English filled with gross falsehoods, to be circulated as possible behind the Allied front, to influence the soldiers. That is a useless waste of funds. The Allied soldiers are warned in advance, and in any case they are out to defeat the Hun.

Dr. Frink is right. If oil shale can be used in stoves or grates or furnaces, let's have it within reach next winter. But also let us have a substantial supply of hard wood. Both the Nova Scotia and United States output of coal is very disappointing.

HAS NINE PLAYGROUNDS.

The city of Ottawa now has nine playgrounds. The ninth has just been presented to the Playgrounds Association by the Kiwanis Club, which donated the equipment at a cost of \$600. It is on Rideau Hall grounds, the use of the necessary area being given by His Excellency the Governor-General, who thoroughly believes in playgrounds for the children. Lord Richard Neville also lent valuable aid. This ground will accommodate 100 children. At the formal opening on Saturday last Mayor Fisher said that money spent on playgrounds was well spent, and while other cities might spend more than Ottawa none got better results. They have a superintendent of city playgrounds, and the mayor said if he had his way in the matter he would make that official the superintendent of recreation for the city.

The example of other cities should stimulate St. John people to redoubled efforts to secure ample play spaces for the boys and girls. The movement now on foot should not cease until this has been accomplished. Public sentiment will approve of any action the city council may take to aid in bringing about the desired result. As the summer holidays are at hand, anything that can be done quickly should be done to provide facilities for baseball. The supervised playgrounds are all suited to the needs of the smaller children, and the older ones are equally deserving of consideration.

"The boy without a playground is father to the man without a job."

REGISTER TODAY.

National registration is a national duty. England discovered the fact early in the war. The United States learned its value. The war is not yet ended. It may go into another year—or longer. However confident we may be of early victory the experience of the last four years proves that it is wise to act as if we expected a long war. Therein lies the real assurance of victory. The Canadian people are asked to get together, to indicate in what way each may be best able to serve if the necessity for greater sacrifice and service should arise. The question on the registration card are simple, and they are a test of our sincerity and our real feelings in regard to Canada's part in the war. All persons over sixteen are required to register. Saturday is the last day, except for the very few who for reasons which the authorities may deem sufficient are unable to do so on that day. It must be borne in mind also that there are severe penalties for failure to register, and it is something that cannot be dodged. But surely none will want to dodge a national duty of this sort. The fate of Canada hangs in the balance until Germany is beaten. Every good citizen will therefore register and indicate what in an emergency he or she might be able to do to help at home in winning the war.

An interesting and valuable branch of the work of the Y. W. C. A. in the city of Bangor is a summer school for backward pupils in the grade schools. A specially qualified teacher is secured, the names of the scholars are taken and their parents visited, and the school is open for about six weeks. It is conducted the first five days of each week from 11:15 o'clock in the gymnasium of the Y. M. C. A. and the cost of tuition depends on the number of scholars. It is said that the work done is of great advantage to the pupils in their further school studies.

When the British blocked Zebrugge straits, a large number of submarines and auxiliary craft, and these are constantly being bombed by British airmen, who also prevent the Germans from opening the channel. That was a hard blow the British navy struck at Zebrugge and Ostend.

The Toronto Globe informs the readers of its industrial page that "The first sardine-packing plant to be erected in Newfoundland is now being erected at West Saint John, above Navy Island, by the Booth Fisheries Company of Chicago."

Toronto Globe.—In Britain the government is calling up men of forty-nine, fifty, and fifty-one for medical examination. In Canada the government is being called down for calling up men of twenty, twenty-one, and twenty-two.

The United States regards the submarine demonstration on the American coast as an evidence of the failure of the submarine campaign in European waters, where it would be most effective if successful.

The German and Austrian armies appear to have lost some of their "punch," but there may be lots of fight in them yet. They have given us some unpleasant surprises in the last four years.

Only two days more in which to register. Those who register tonight and tomorrow will save time, for there will be a rush on Saturday.

LIUT.-COL. M'RAE, 'FLANDERS' FIELDS'

(By Rev. C. McRae, Springfield.)

Though sightless now the dauntless eye, That sentinelled our starless night, Though still the winsome voice whose Upraised our standards in the fight.

Though silent now that bugle brave That, mid the roaring of the guns, Spoke loud and clear across the wave Its challenge to our waiting sons.

Though now he sleeps on alien fields, To him his grateful country yields The homage of her quickened heart.

And when the storms of battle cease, And heroes homeward march again, In the untroubled days of peace, When men appraise the deeds of men, Then shall his country laud his name In classic ball or vulgar throng, And raise for his abiding fame Her tribute to his matchless song.

LIGHTER VEIN

Force of Habit.

Captain—Charge!

Ribbon Clerk Regiment (in chorus)—Just a moment please. Name and address?

Here's a New One.

Finance (at the phone)—Then you won't be up tonight?

He—No, dearest; the boys at the office are giving me a necktie slinger.

Fooling the Dog.

Mike O'Mara had got a new dog. We asked Mike yesterday if it was a hunting-dog as it came up to us, and Mike in a low voice said:—"Don't talk so loud, he thinks he is."

Cheerful Greeting.

The other day I went to a bakery shop in the west end. While I was waiting for my war-bread in came a man in khaki who had just returned from the front.

"Why, Lieutenant—," said the bakeress, "are you back? I've been looking anxiously for you every day in the casualty list."

Which?

Senator Smith of Georgia said at an Atlanta luncheon: "German militarism is set to sweep the world. Before the disasters that have befallen it, however, German militarism must now be feeling a good deal like Cal Clay. Calhoun Clay of Paint Rock was fishing for tarpon in Florida, and he hooked such a big one that it pulled him overboard. As Cal went over the side of the boat and tore through the water in the tarpon's wake, he said: 'Wot Ah wants ter know is dis dis nigguh a-fishin', or is dis fish a-niggerin'?"

Lenine's Policy To Aid Kaiser

London, June 20.—Lenine's surrender of the Russian Black Sea fleet to Germany, according to the reasons given for the act by Foreign Commissary Chicherin, and the obviously worthless German undertakings to palliate this further treachery to the country and to the allies, have proven even to Bolsheviki apologists here, so far as the Bolsheviki leaders are concerned, that their whole policy is to play into Germany's hands.

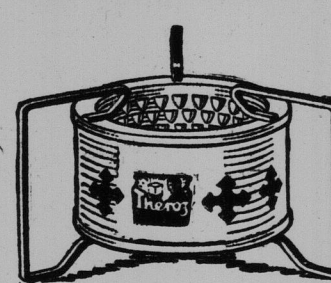

Whether this is the fruit of direct corruption or of fatuous anarchism is immaterial. The result is that Germany is getting a free hand for the enslavement of Russia, which, of course, has quickened all forces at work in the allied countries looking to some sort of allied intervention to checkmate Germany's game and enable the Russian people to work out their own salvation.

The crucial question is, What authority in Russia is entitled to invite this co-operation or to be able to support it effectively if it were undertaken? The Bolsheviki leaders leave no doubt they look solely to Germany for the rehabilitation of Russia, if, indeed, they are concerned to rehabilitate her at all.

Quite recently, according to a rumor here, the fate of the Bolsheviki government hung on a single hair, but it continued to save itself at the last moment. It is believed its days are numbered, and if it is replaced by truly democratic forces, Russia may be rescued from the worst that Germany is planning for her.

Wine Pits Saved Rheims To France

Its Immense Champagne Cellars Provide Impregnable Protection—Von Ardenne's Statement

Rotterdam, June 20.—General von Ardenne, in an article in the Berliner Tageblatt, attempts to explain to the people

of Germany why Rheims still remains in the possession of the French. It is due entirely, he says, to the strength of the defence, and not, as hitherto suggested, in accordance with some obscure German tactical motive.

"Rheims," he writes, "is held by a very strong garrison of at least two divisions of French colored colonial troops. These troops find complete protection from German artillery fire in deep cellars miles in extent, constructed by great champagne firms. Against gas clouds which float over the town these cellars offer complete protection. Therefore the garrison really is behind an impregnable

armored shelter so far as a German storm attack is concerned.

"Moreover, such an attack is scarcely to be thought of in view of the gas clouds which are continually over the city, while, even if it were attempted, the French colonial regiments would be able to emerge from their defenses with unthinned ranks. The fight, therefore, would be an extremely bloody one."

Von Ardenne adds that the fall of Rheims would not be decisive, though it would affect the whole French Champagne front, even perhaps as far as Verdun.

PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACK-YARD GARDENERS ENLISTED IN GREAT PRODUCTION CAMPAIGN

Issued by the Canada Food Board in Collaboration With Experts on the Staff of the Dominion Experimental Farm

KEEP AT IT.

"The prospects for an extremely high vegetable yield this year are of the brightest, provided the weather keeps right," declares one of the officials at the Experimental Farm, Ottawa. "Keep hoeing." There is an inclination on hot, drowsy June days to let the garden "go hang" but that would be a pity, indeed; for gardens need continuous attention and soon show neglect.

Keep hoeing although it is warm. Go on with successive sowings of lettuce, corn, beans, beets, radishes, etc. Only in this way you will be making the most of the ground at your disposal. Remember that the peas need hilling when they are six inches high to prevent their being broken in the wind.

Cut the weeds down in the morning so that they will wither during the day in the hot sun. Then you can rake them up in the evening. The ground between the vegetable rows should be constantly stirred. Do not be satisfied merely with keeping the weeds in check but increase the fruitfulness of the ground by continual cultivation.

IS NOT PERMITTED TO ENTER ENGLAND

Dutch Socialist Leader Refused Passports to Attend British Labor Congress.

London, June 18—Pietter Troelstra, the Dutch Socialist leader, who after a conference with Phillip Scheidemann, leader of the German Socialists party, intended to go to London to attend the annual conference of the British labor congress will not be permitted to enter England, according to the London Standard. Troelstra, it is said has been refused a passport.

Amsterdam, June 18—(Via Reuter's Ottawa Agency)—The Dutch branch of the League of Neutral Nations has decided to telegraph "Holland" to the president of the British Seamen's Union, warning him against a Dutch Socialist leader named Troelstra, who is intended to proceed to England and France in July to attend the allied Socialist conference, and asking whether British sailors are willing to transport a pro-German, who, at the beginning of the unrestricted submarine warfare, "declared war" on the Dutch vessels were torpedoed.

Lewis Gun Comes First

London, June 19—In the house of commons, today, J. I. MacPherson, under secretary of the war office, said that the committee appointed to test the merits of various machine guns, as a result of the agitation for the use of the Madsen gun by the British army, had placed the various guns examined in the following order:

First, Lewis; second, light Hotchkiss; third, Madsen.

The decision had been unanimous.

British Labor Is Patriotic

Paris, June 19—(Via Reuter's Ltd.)—The Petit Parisien today publishes an interview with George H. Roberts, the British minister of labor, in which Mr. Roberts asserted that since the German offensive all agitation concerning the withdrawal of men from their jobs for service in the army had ceased among workers in factories and mines, with the exception of the revolutionary minority of inveterate strikers and pacifists.

The mass of the British working classes, Mr. Roberts said, was frankly patriotic and refused to meet the enemy under any circumstances until he had laid down arms or repudiated his rulers.

ARRESTS IN IRISH PLOTS EXCEED TO AUSTRALIA

Melbourne, June 19—It is announced that the government has caused the arrest of seven ringleaders in the Irish Republican brotherhood. It is said the organization planned to enroll volunteers and send them to Ireland to aid in an armed revolt with the object of establishing an Irish republic.

Reports of work undertaken and plans for the future were discussed at the meeting of the Housewives League which was held yesterday afternoon. In the absence of the president, Mrs. Flewelling occupied the chair.

Mrs. Hooper read the latest regulations for eating houses and urged that picnics and entertainments should conform to the food regulations. She announced that she had engaged, at her own expense, rooms in the Y. W. C. A. for canning demonstrations in July and August. A committee was appointed to arrange for the demonstrations.

The vigilance committee reported that they had found conditions satisfactory in the stores they had visited. Mrs. Hooper explained charts which have been published to aid in giving sales before members of the various women's societies.

A \$10,000 FIRE IN BIG STEEL PLANT Hamilton, Ont., June 19.—Fire did damage to the extent of from \$10,000 to \$15,000 this afternoon to the Rolling Mills plant of the Steel Company of Canada. While the fire was in progress two wires carrying 22,000 volts dropped to the ground. Thirteen-year-old Michael Quach picked one of them up, and his right hand was very badly burned.

NEEDED AS PART OF THE SCHOOL SYSTEM

The committee appointed to inquire into the question of vocational education in the province has published its report in the form of a very interesting pamphlet, dealing with the subject in a systematic and thorough way and showing clearly that there is a very real need for vocational education in the schools of the province. Vocational training, the report describes as being the effective fitting of a child for profitable employment in the industries of the country. Taking up the question from a purely economical standpoint the report shows that vocational training pays and that from the social and industrial points of view we cannot afford to be without it. The report recommends some very sound methods of applying vocational training to the present scheme of education and touches on the important question of compulsory attendance. That vocational training and attendance of adolescent pupils are closely related, the report shows in the following quotation: "Our committee believes that the proper law in this connection would require all students to remain in school full time until sixteen and part time until eighteen years of age. As a step towards the realization of this ideal it is recommended that an act be passed requiring full time attendance until fourteen, half time attendance from fourteen to sixteen and evening school attendance two evenings per week from sixteen to eighteen; and that such an act be enforced throughout the province."

Several appendices are given in the report and they contain some rather startling statistics. The age grade table for the city of St. John, 1918, is worth consideration as the following extract from it will show: The total attendance in Grade I was 1,272; in Grade VI, 790; in Grade II, 1,127; in Grade VII, 614; in Grade III, 1,144; in Grade VIII, 478; in Grade IV, 1,082; in Grade IX, 279; in Grade V, 971; in Grade X, 144; while Grade XII had only ten. It will be noticed that the falling off in the higher grades is startling.

Another of the appendices contains a recommendation from the New Brunswick Federation of Labor that vocational training should be provided for the following occupations: Electricians, masons, carpenters, blacksmiths, brush and broom makers, bookbinding and stenography, telegraphy and agriculture and home economics.

DECORATION FOR THIS—HALIFAX BOY SCOUT

Halifax, N. S., June 19.—Temple Lane, a fourteen-year-old boy scout, was today recommended for the Silver Cross of the organization for having saved the life of a nine-year-old lad, Gerald Lewin, Young Lewin, while in bathing in the North West Arm, gone beyond his depth. Cries from his companions brought young Lane, who immediately dived in and after great exertions got the unconscious boy ashore. His scout's training in first aid enabled him in about half an hour to resuscitate the nearly drowned boy.

Major Finkhouser, Chicago's movie censor and deputy police superintendent, is suing the "Exhibition" Trade Review, a "movie" journal, for \$100,000, alleging that the magazine assailed his patriotism.

WAR SUMMARY

The Teutonic allies apparently have lost their spirit of do-or-die. Their attacks everywhere lately have lacked the tenaciousness of days gone by.

Instead of ploughing through Allied lines with stubborn indifference to cause so long as an objective was gained, they now waver and then halt in the face of artillery and rifle fire barring their way, with the points they try to attain, still beyond their reach.

The opening of a gateway to Paris through the western front running from Montdidier to the Marne failed completely; the offensive on the Italian battle line launched by the Austrians seemingly has failed miserably in the mountain regions and apparently has almost been stopped along the Piave, while a stroke started by the Germans against Rheims broke down in its inception without the enemy taking a yard of territory.

And in these various attempted enterprises the high commands of the Germans and Austro-Hungarian armies have seen their men literally mowed down until battlefields have been clogged with dead or wounded as recompense to the Allied troops for the small bits of terrain they yielded.

The Austrian offensive on the Italian theatre is still in progress along the Piave river, but in the mountain region after the sharp repulse the British and French troops, in counter-attacks having pushed back the invader from the points he had reached in his initial rush, the enemy evidently is fearful of again trying out the mettle of the defender.

On the Piave numerous attempts have been made by the Austrians to gain further bridgeheads on the western bank of the stream, but the Italians everywhere are holding them with their gas-fires and also doing sanguinary execution within the ranks of the enemy across the river with bombs and machine gun fire. The Austrian war office asserts that the Austro-Hungarian troops have crossed the Fossalta Canal at some points where, Tuesday, it was claimed they had made advances and also that several Italian lines at the southern foot of the Montello Plateau, the key to the Venetian Plains, have been pierced. Rome, on the other hand, declares that all the weak attempts made in the Montello region were completely repulsed.

More than 9,000 men have been taken by the Italians since the offensive began, and many guns and several hundred machine guns have been captured. That intensive air-fighting has also taken place is shown by the fact that fifty enemy planes have been shot down. Only two of the Allied machines have failed to return to their base.

The attack of the Germans near Rheims resulted disastrously to them. Hardly had they left their trenches, after one of the most terrific bombardments of shells of all calibre, including gas projectiles, ever experienced on the western front, nearly 40,000 men were faced by the reinforced French armies, and literally cut to pieces and forced to fall back precipitately. Only six points, to the east of Rheims, did the enemy succeed in penetrating the French line. Here they were ejected almost immediately.

MONSIEUR ROY ILL

Montreal, June 19.—Monsieur Roy, vicar-general of the archdiocese of Montreal and chairman of the Central Catholic school committee, suffered a stroke of paralysis at the archbishop's palace here today and was taken to the Hotel Dieu Hospital.

Though it was stated at the hospital that he was in no immediate danger, information from the palace was to the effect that he was very ill. The paralysis had affected the right arm, causing loss of use of the fingers.

New York, June 19.—Jeff Tesreau, who came to New York National League baseball club from the Texas League in 1910, left the club here today in the middle of his seventh season as a regular pitcher to join the Bethlehem Club of the Steel League. Secretary Foster said that Tesreau recently told Manager McGraw he was "disgusted with baseball and wanted to get into some other business." Born Before His Mother. A celebrated actress invariably claimed to be eighteen years younger than she really was. She was called to the witness stand one day and even there she did not break her rule. It happened that her son was called immediately afterwards and on being asked his age he replied: "Six months older than my mother."

My dear Jeff, you don't need to tell me what happened. You have been in a street brawl. You were hit in the eye with a fist—a kick would have torn the skin—

That you got the worst of the fight is evidenced by the dirt on your clothes and their torn condition. Your arm was injured when your opponent slammed you to the ground—

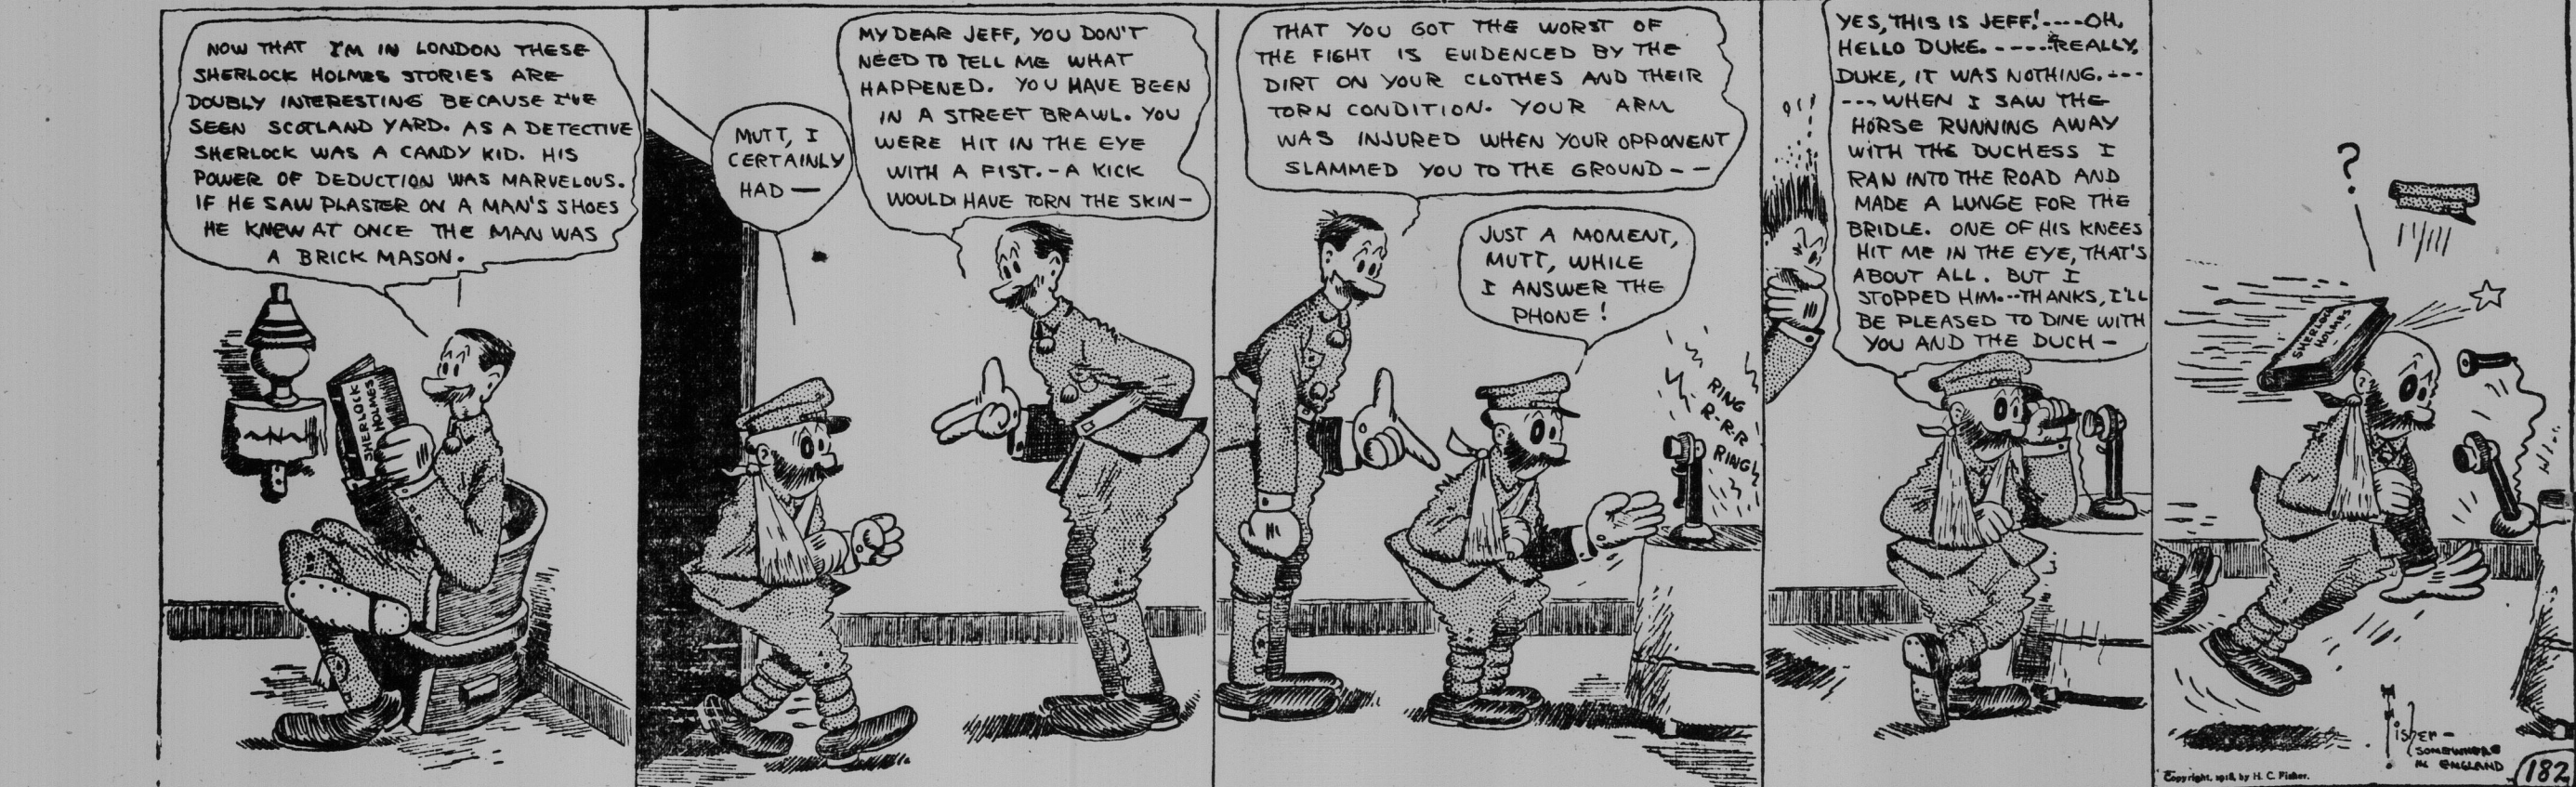

Yes, this is Jeff!—Oh, hello Duke. Really, Duke, it was nothing. When I saw the horse running away with the Duchess I ran into the road and made a lunge for the bridle. One of his knees hit me in the eye, that's about all. But I stopped him—thanks, I'll be pleased to dine with you and the duch—

Now that I'm in London these Sherlock Holmes stories are doubly interesting because I've seen Scotland Yard as a detective. Sherlock was a cruddy kid. His power of deduction was marvelous. If he saw plaster on a man's shoes, he knew at once the man was a brick mason.

round was found to be only a scratch on his foot. Both of the children were attended by Dr. O'Malley of Bellevue. The police say that the shots which hit the children were fired by Gaffney or by one of his companions in the car. The car slowed down midway between Forty-seventh and Forty-sixth streets in Tenth avenue, where Gaffney leaped from it and dived into a door, with the detectives following and firing, which sent hundreds of persons seeking cover for themselves. This neighborhood is Gaffney's old living place, and the district of the Gopher band, of which he is a member, and the fugitive knew where to go. He got to the roof, jumped to several lower roofs, went down a rear flight of stairs and was seen by his pursuers climbing a fence to a yard through which he reached Forty-sixth street. The detectives feared to make further use of their weapons here because of the crowds of dwellers who swarmed in the yards through which the convict fled, and he again made good his escape. Callahan, who was taken to the Tombs hospital, made a confession to Warden John J. Hanley, who had started an investigation of the jail break. According to Callahan, who was a trusty and had access to all parts of the prison, he had procured a suit of khaki for Gaffney, who donned it when the prisoners were let out for exercise. Then Callahan went to the fifth floor of the wing in the centre of the jail court, where the kitchen is situated, and unscrewed the iron grill work in a window. Gaffney, mistaken for a trusty with his khaki clothes, was not stopped when he moved from the yard to this building and ascended to the fifth floor. There were some 200 prisoners, including ninety federal charges, and some fifty men serving terms for election frauds at the Republican primary, at exercise in the court in care of six keepers. Most of them saw Gaffney's first leap. Then he turned his back to the crowd and leaped to a building at the rear of the big jail Centre street, which concealed him for a moment. These jumps took him to and from the roof of the women's prison. From the extension of the latter he sprang fifteen feet to a small house near the wall on the Leonard street side, which is used as a visitors' room. He was over the wall and in the street before the keepers knew he had gone. Gaffney had pleaded guilty to shooting and killing Charles Tucker in a feud near Tenth avenue. He was in Sing Sing when a second offender, which was not known when sentence was originally imposed. Callahan, under a six months' sentence, was wanted at Rikers for a broken parole. The United States government is offering a \$250 reward for the apprehension of Jeremiah O'Leary, Irish agitator, wanted on a charge of obstructing justice.

LEAPS FROM TOMBS, FIGHTS FOR LIBERTY
Convict, Facing 20-Year Term, Reaches Street, 78 Feet Below
Companion Breaks Leg—Gaffney, Run Down by Police, Gets Away by More Leaps After a Struggle—Two Children Shot
(New York Times.)
The most daring and successful escape in the history of the new Tombs prison was effected yesterday afternoon by Vincent Gaffney, convicted of manslaughter and soon to be taken to Sing Sing prison to serve a sentence of twenty years. He got out by a series of leaps that began at a window on the fifth floor of a wing and carried him from roof to roof of lower buildings for sixty feet to the top of the eighteen-foot guard wall on the Leonard street side. From there he jumped to the street, making a total of seventy-eight feet in his flight for freedom. A short-term convict, John Callahan, who attempted to follow Gaffney, broke his left leg in the first jump, and when he accomplished the second jump his fractured limb crumpled beneath him, and he was captured where he lay. Both men had plotted the escape on Tuesday, and their friends had arranged to have an automobile nearby at the appointed time, which was to take place during the usual afternoon exercise period for the prisoners in the yard. A car with two men in it sped to Gaffney as he jumped into the street. The men dragged him into the car, which turned the corner and went swiftly up Centre street. Two hours later detectives saw Gaffney in the car at Forty-seventh street, east of Tenth avenue, and following an exchange of shots, a baby and a girl on the avenue were slightly wounded. The car had apparently stalled just before the policemen got sight of it, but as they approached it began to move. Then shots came from the auto, followed by the screams of a girl, who dropped to the pavement, while a woman shouted that her baby had been hit by a bullet. The injured girl was Grace Leslie, six years old, of 410 West Forty-seventh street, and a bullet had made a glancing cut on her ankle. The baby, Thomas Lucas of 457 Boulevard, Long Island City, was shot while his mother was pushing him along in a carriage.

THE TALK OF THE TOWN. WHY IS IT?
FIRST—Because we are giving better values than any other store ever gave before.
SECOND—Because we are selling High-class Merchandise made by the most reliable manufacturers of this country.
THIRD reason is because our whole stock of High-class Clothing is included in this sale. This is not a question of odds and ends, or shop-worn goods; nothing kept back.
FOURTH reasons is that we produce what we advertise and show no favors; fair treatment and one price to all, and now it is up to you.
Can you afford to stand silent and allow this to slip by? You know, as well as we do, the cost of living is getting higher every day, therefore we advise you to act quickly, as this sale of ours will only last two more days, Friday and Saturday, and we now give you fair warning to be sure and come and get your share of our many bargains before it is too late.

GOOD SCHOOL YEAR

(Continued on page 1)
In athletics we had a most successful
year. We won the intercollegiate foot-
ball championship, led with Frederick
for first place in the hockey league and
we won for the fourth successive time
the intercollegiate track meet. We also
won the contest in track and field events
held with King's College School of Wind-
sor. Regarding this last event I may
say that we were glad to renew this
friendly contest, which had become an
annual affair but was not held during
the past two years, and to have the
pleasure of entertaining our Windsor
friends at the school.

Each year brings its inevitable changes
in the personnel of the staff. I regret to
say that Wm. E. Rogers, who joined our
staff last September and who took a
great interest in the activities of the
boys, has resigned his position. I also
regret that Miss Alice MacKen, B. A.,
who for more than a year has done most
excellent work in teaching besides cheer-
fully undertaking and accomplishing
much other work in connection with the
school, is leaving us this term. On the
other hand, I am pleased to be able to
report that L. H. S. Bent, M. A., who
was a member of our staff for two years,
returns to us in September. In closing
I would tender my thanks to the staff
and to the boys for their loyal sup-
port.

MR. BRIDGES'S PROMOTION.
The promotion of H. M. Bridges of
the C. P. R. staff, reported yesterday, is
well merited. For some years he has
been employed with the C. P. R. as
record clerk and on July 1 will leave for
Woodstock, where he is to become chief
clerk for Superintendent J. R. Gilliland.
Mr. Bridges is a popular member of the
C. P. R. staff and held in esteem by his
superiors as well as his fellow associates.
In addition to being well known in C.
P. R. quarters, Mr. Bridges is prominent
in musical circles. He is a member of
the City Concert Band and in addition
has charge of the Y. M. C. I. orchestra.
He was also a member of the old or-
chestra organized in St. Joseph's Society
and not infrequently has played with
other organizations. He has a host of
friends who will regret to learn that he
is to leave St. John, but will unite in
wishing him success and prosperity in
his new field of labor.
