HALIFAX, N. S., April 26.-A meeting of the fire insurance agents of the today regarding an increase in the rates for this city. It is proposed by the head office to advance the rates about 75 per cent within the conflagration district of Halifax. The agents here, knowing that this would not be popular and might be unwise from a business point of view and to head off such an order from the head offices, held the meeting in question. They discussed a memorial to the city council to have the city fire department improved in order possibly to stave off the instructions to put up the rates to the proposed 75 per cent. For Business Wear.

You probably prefer a Sack Suit for business; the common style for every-day wear.

There's no reason, though, why you shouldn't have the smart style which always characterizes the 20th Century Sack Suits.

Just because Sack Suits are a sort of staple style, is no reason why they should be commonplace. When we have the 20th Century line to offer you there's no good reason for wearing anything less desirable.

G. T. P. DEBATE. OTTAWA, April 26.—In the discus-ion of the G. T. That under the proposed agreements tions, both direct and by guarantee, while the obligation assumed by the other guarantors is comparatively

The house believes that before comitting the country to such enormous obligations the government ought first to submit to the people the whole question, and especially the question whether Canada should not rather assume the entire obligation and thus own and control the entire proposed line of railway from the Atlantic to

The amendment was defeated by a vote of 66 to 47. The debate continued until 1.35 a.
