BOTH FIGHTERS EXPECT A KNOCK-OUT WITHIN FIRST FIVE ROUNDS OF BATTLE

Dempsey Says He Has Trained Well and is in Perfect Condition for the Greatest Battle in His Fistic Career—
Hints at Victory With One Terrific Punch.

MANAGER SAYS HE WILL WIN IN THREE OR FOUR ROUNDS

Carpentier's Trainer Predicts a Victory for French Fighter in Five Rounds—Long Ring Experience Fits Him to Meet Any Kind of Attack Made.

New York, July 1—Supreme confidence appeared to reign in the camp of Jack Dempsey and Georges Carpentier on the eve of their championship bout in Jersey City tomorrow. Special statements furnished the Associated Press, either directly or indirectly by principals, their managers and the promoter follow:

(By JACK DEMPSEY)
"I am in the best shape of my career, ready and anxious to give an account of myself in the ring, at champion of the world. I expect to win, and win as quickly as possible. One punch will knock out Carpentier. I'll be better satisfied.

"Greatest Fight of Life."
"But regardless of how long the fight goes, the public can depend upon me to do my level best every second of the way. I am proud to represent the United States against the European challenger, and this pride will cause me to make what I feel will be the greatest fight of my life.

"I never was more anxious to win a fight than this one. Of course I know that Carpentier is a great fighter, but I feel confident that I will be able to successfully defend my title. I have faithfully trained the best I know how. I put in ten weeks of work—six weeks of real hard training. I am ready."

(By GEORGES CARPENTIER)
"When I go into the ring against Jack Dempsey, I will be prepared to make the supreme effort of my fighting career."

"You can also say for Georges," added trainer Wilson, "that he is in condition to fight a great battle; that he will bring all the experience of fourteen years' training to bear, and that if Dempsey defeats him the United States can claim a real champion. Georges Carpentier is a great fighter and to beat him will, indeed, be an accomplishment. We have no excuses to make and we believe victory will be ours."

(By JACK KEARNS)
Manager of Jack Dempsey: "We expect to win over Georges Carpentier in three or four rounds. I will not be surprised if Dempsey stops him in the first round. This, of course, depends upon the style adopted by Carpentier. The Dempsey who will defend his title as world's champion is the fastest, hardest hitting, greatest heavy weight who ever stepped inside of a ring. After the fight is over I will be the first to agree with everyone who says it will be a great fight."

"Dempsey is in better condition than he has ever been. He has trained hard and faithfully, and I never felt more confident of winning a fight. I am convinced that he will beat Carpentier and do it decisively. The champion is bigger and stronger and a greater fighter than when he defeated Willard two years ago. Dempsey is in great shape and will do his best and if beaten will have no excuse to offer."

FRANCOIS DESCAMPS
Manager of Carpentier, speaking through Tex Rickard, commented: "I expect Georges Carpentier to win the world's heavyweight championship from Dempsey inside of five rounds. Georges has trained faithfully and is in the best condition of his life. His long ring experience has fitted him for any form of attack, and every member of the Carpentier camp from Georges himself down to man at the gate, is supremely confident of the outcome. Georges Carpentier will be the new champion before a nightfall Saturday."

PROMOTER TEX RICKARD
"The heavyweight championship fight between Jack Dempsey and Georges Carpentier is the most successful in every respect that I have attempted to promote. The arena manager, Tex Rickard, is confident of the outcome. Georges Carpentier will be the new champion before a nightfall Saturday."

ANGLO-JAPANESE PACT FOR YEAR

Agreement Expected to Remain in Force Another Twelve Months Anyway.

London, July 1—The Anglo-Japanese Treaty, Reuters News Agency today says is understood will automatically continue in force another year. Such conclusion arises from the absence of the ruling of Lord Bingham, Lord High Chancellor, that the formal continuation, the treaty automatically continues, Reuters adds.

STATE OF WAR WITH CENTRAL EMPIRE MAY BE ENDED WEEK-END

President Harding Expected to Receive and Sign Today the House Resolution on Peace.
Washington, July 1.—Enactment of the compromise resolution ending the state of war with Germany and Austria, finally was completed today by the Congress, and the measure will be sent by special messenger to President Harding at Raritan, N. J., tomorrow. The signal measure by which the Democratic members made a last assault on the resolution the House acted yesterday, the vote being 263 to 59. The signing measure by the President will open the way for resumption of diplomatic relations with both Germany and Austria, but administration officers have indicated that plans for this have not been worked out.

"NO MANDATE" IS CLAIM AGAIN OF LIBERAL LEADER

Hon. W. L. Mackenzie King Tells Quebec Audience Premier Usurps Power.

ONLY GOVERNMENT WITHOUT ELECTION
Declares Canada is Suffering from Extreme Attack of Toryism.

Brome, Que., July 1.—Speaking here today at the Dominion Day celebrations, Hon. W. L. Mackenzie King, leader of the Liberal opposition at Ottawa, said that of all the premiers at the Imperial Conference now sitting in London, Mr. Arthur Meighon was the only one who had come there without any authority from the people of his country and he added that Canada was the only country among the nations which comprise the British Empire, the electors of which had been denied the right, since the termination of the war, of choosing a representative government to deal with post-war conditions.

Mr. Meighon had been quoted in despatches from the conference, said Mr. King, as being desirous that full publicity should be given to his proposals.

The Liberal Plan.
But he placed against this attitude on the Canadian premier in London, the attitude taken in the house at Ottawa when Mr. Meighon and his party had defeated two resolutions introduced by the opposition one asking that no change should be made at the conference in Canada's relation with other parts of the Empire and no expense incurred for naval and military purposes; and a second calling for fullest publicity on all matters of public expenditure.

Mr. King urged upon the attention of the London Conference the relations that had existed for the past hundred years between the United States and Canada, and he strongly advocated a similar solution of the question of armaments, in the Pacific should be adopted by the United States, Great Britain and Japan.

Blames Toryism.
Continuing Mr. King said Toryism was the ill from which Canada was suffering in government today and that Liberalism was the need of the present and the future. The perpetuation of the militarist spirit must be avoided in all branches and he illustrated the intrusion of Prussianism into Canadian affairs by parallels drawn from England after the Napoleonic wars. The great war had, he said, as in the case of England a hundred years ago, inevitably led to the ascendancy of Toryism in Canada and at its close, the political power of the Liberal party was at a comparatively low ebb.

ROYAL SALUTE FROM CRUISERS

French and British Vessels Reply Gun for Gun at Sydney Celebration.

Sydney, N. S., July 1.—A Royal salute from the French warship Ville D'Yeu, answered gun for gun from the British cruiser Valerian, ushered in Canada's 5th birthday anniversary at Sydney. Later in the day both vessels landed large detachments of armed seamen, which, with war veterans, civic officials, labor organizations and the 14th Artillery Brigade, paraded to the exhibition grounds, where Lieut-Governor MacCallum Grant formally opened a two-days' fair under the auspices of the Great War Veterans' Association.

Grand Trunk Arbitration Board Honors Associate Upon High Appointment.

Montreal, July 1.—Before starting on their work for Dominion Day the Grand Trunk arbitration commission took the opportunity to compliment Hon. W. H. Taft on his elevation to become Chief Justice of the United States. Both the board and counsel on each side joined in felicitations.

See Big Advance
In regard to the Grand Trunk Pacific and Grand Trunk guarantees in connection therewith, counsel pointed out that the value of the stock held by the Grand Trunk, previous to the strike, would have increased to \$100,000,000 in a reasonable time, which he considered it certain that the Grand Trunk would have been able to pay interest on its liabilities by way of guaranteed stock to that extent.

SUSSEX BOY IS DROWNED

Meets His Death While Trying to Secure Caa of Bait from the River.

Sussex, N. B., July 1.—A lamentable drowning accident occurred here this morning by which Gordon Gaudet, aged seven years, son of Mr. and Mrs. Alcide Gaudet, lost his life in Trout Creek, about 100 yards above the Main street railway crossing. His bait can slipped into the water, and in stooping over to secure it he fell in and was drowned. The boys with him gave notice of the accident and a search was made for the body, which was recovered after having been about half an hour in the water.

Wood Products In Cattle Ration

Cows Keep up Weight and Milk on Diet That is One-Third Sawdust.

Hygienic sawdust as a part of a ration for cows is apparently giving satisfactory results in Wisconsin. The Forest Service of the United States Department of Agriculture reports that cows at the Agricultural College of that State are doing as well on a ration consisting of one-third sawdust as they did when their feed was only one-fourth wood meal. That is to say, they are keeping up their weight and their milk production show no ill effects from the diet.

The United States Bureau of Animal Industry is considering the proposal of the Forest Service laboratory to start feeding trials with dairy animals in which the wood product will form a part of the ration and the tests will extend for an entire year at least. The hydrolyzed-wood feed for these cows will be made at the laboratory. So far, all the stock feed has been made from white pine sawdust. Other soft woods, particularly the western species, will be tried in the future.

GET READY NOW FOR THE NEXT CROP OF LAMBS

Selection of Both Ram and Ewes Necessary for Success in Breeding.

Successful sheep husbandry requires careful preparation for the next lamb crop. It matters little what time of the year it is, whether the ewes are just bred, the lambs just weaned or the lamb crop just due, preparation for the next crop should be kept in mind. No time is more important than during the previous lambing season. At that time notes and records should be kept of all important items regarding the behavior of the ewes, the number of lambs each raises, and whether they are good mothers or not, whether their udders are healthy and well balanced, or any other valuable notes of this kind. Any ewe that does not successfully raise her offspring should be culled rather than re-bred.

Great care should be exercised in the selection of the ram to be used. He should be a typical, uniform, good-sized, pure-bred animal, full of vigor,

Should Discuss Dairy Produce Act

Desirable That Every District Express Views on Regulations.

In order to comply with the desire which has been so generally expressed by dairy organizations throughout the country the Minister of Agriculture introduced a bill to regulate the grading of dairy produce, which passed the House of Commons and the Senate during the last days of the session.

The Dairy Produce Act, to give it its short title, is simply an empowering Act to enable the Government to make regulations for the grading of dairy produce intended for export. The Act is inoperative until the regulations are made. It is too late to expect any system of grading to be put in force during the present season, and further it is desirable that there should be a full discussion and every opportunity given for different districts to present their views in conference on the subject before any regulations are made.

SPRAYING OF POTATOES IS PROFITABLE

Importance of This Work Not Understood as it Should be by Farmers.

By A. KELSALL, Entomological Laboratory, Annapolis.

In the Maritime Provinces it has been several times said that there are four main factors under the grower's control which determine the potato crop. These are: seed, cultivation, fertilizer spray and spraying of the potato beetle. It may be said that the control of potato blight is a highly profitable operation almost every year, increases in yields sometimes being obtained as high as 200 bushels per acre.

Spraying Materials.

Bordeaux mixture is by far the preferable material to use on potatoes. Spraying should commence with Bordeaux mixture the 4-4-40 formula, and the spraying machine used is delivering lots of spray, say 30 gallons or more to the acre, this formula may be continued throughout the season. But we have found it advisable, particularly where machines are delivering less spray, to use the formula 5-5-40 for the second spray and 5-5-40 for the third and following sprays. In order to poison the potato beetle a poison has, of course, to be added, and one of the cheap and convenient materials is arsenic of lime, which should be added at the rate of 1 1/2 lbs. per 40 gallons. In New Brunswick, particularly, arsenate of soda is used for this purpose, and the names of "Arsenoid" and "Sol Arsenic," this also is an excellent material and should be used at the rate of one pound to forty gallons of Bordeaux mixture.

Fertilizers Aid In Reducing Crop Losses

Unlike Manure They Seldom Carry Disease Germs to the Growing Crops.

In a recent issue of The Ohio Farmer Prof. F. W. Bear presents a thorough and practical discussion of "The Importance of Soil Sanitation." After calling attention to the value of crop rotation as a general preventive measure, and to the prevention of such diseases as potato scab, club root and grain smut by special treatment, and calling to your attention, also, the development of certain disease-resistant crops, Professor Bear makes the following significant statements regarding the use of fertilizers:

"The use of fertilizers has certain advantages which merit consideration. Unlike manure, they are seldom, if ever, the carriers of disease organisms. They may escape the ravages of disease. Just as in the human family the mortality percentages are higher with infants, so with plants—a large number of them are destroyed before they can get a foothold. Young plants need to be stimulated to growth as soon and as rapidly as possible after they have come above ground or have been transplanted. Again, the prevalence of certain diseases as the rusts under certain climatic conditions can be overcome, at least to a certain extent, by the use of phosphate and potash fertilizers as a means of balancing the ration of the plant against an abnormal supply of nitrogen accompanied by an excessive vegetable growth. There is every reason to believe that the proper feeding of plants is as definitely related to their health and disease resistance as is the case in animals."

Small Pasture Areas Are Best For Sheep

Will Thrive Better on Small Field and Constant Change of Pasture.

For health and for economical use of the pasturage it is undesirable to keep sheep on the same ground more than from 10 to 14 days, say specialists of the United States Department of Agriculture, in discussing the question of raising sheep on temporary pastures. The most generally used size of lot is one acre to 25 sheep. This area, on an average, furnishes in experiments 14 days' feed.

Arranging the size of the lots on the basis of 1 acre to 25 sheep is satisfactory than seeding large areas and using hurdles to permit advance to fresh feed each day. Labor is necessary, and by going entirely new ground after 10 or 14 days the danger of picking up parasites larvae on ground grazed earlier is prevented. With a lot of 25 ewes, or corresponding larger ones for larger flocks, it is an added advantage if their length of stay on the lot is limited to two or three times the breadth of the lot. A heavy crop of forage that would last longer than was considered safe to hold the flock on the same ground, a short piece of cross fence can readily be put down to divide the pasture into two parts. The smaller lots are also convenient with pure bred flocks to provide for the separate pasturing of smaller lots of rams and ewe lambs.

Movable fencing is not likely to be satisfactory for the outside lot fence unless the whole area to be used is in a long strip with side fences, when only two end pieces would be required.

They are easy and comfortable; the coolest and most restful footwear that can be worn on hot days.

Look for the name FLEET FOOT in this style of lettering on every pair.

FLEET FOOT shoes are sold by the leading dealers everywhere.

Time of Spraying.

Spraying should commence when the plants are about nine or ten inches high, or younger if the potato beetles are troubling them. From that time on, a fresh application should be made about every twelve days. If the weather is wet the period between spraying should be made shorter, but if the weather remains fine a somewhat longer period will do very well.

Dusting Potatoes.

The dusting of orchards is now so common that it is only natural that many should think of following the same procedure with potatoes. We have always had good results from dusting potatoes when it has been properly done. For small areas of potatoes a hand duster is very satisfactory. But for large areas this means too much work, and unfortunately a really good traction duster has not yet been put on the market. Persons who own a power orchard duster can very well use this machine and get good results. In our experience so far we have found the best dust to use on potatoes to be composed of the following materials: 15 lbs. dehydrated copper sulphate, 10 lbs. arsenic of lime and 75 lbs. of hydrated lime. In applying this dust the same rules hold good as in applying dust to orchard, namely, that the best work is done when the air is calm and preferably when the plants are wet. On full grown potatoes about 50 pounds of dust per acre per application are used.

Precautions Against Bovine Tuberculosis

Regulations Have Proved Successful and Many Herds Now Accredited.

A few years ago the United States Department of Agriculture, recognizing the necessity of more effective measures for the control of tuberculosis, arranged a conference with officials of the Bureau of Animal Industry at Washington, the result of which was the adoption of what is known as the Accredited Herd Plan, meaning that the herd had been thoroughly tested and found entirely free from any symptoms of tuberculosis. The plan proved so successful—over a thousand herds being accredited in a brief period—that a decision was arrived at to adopt the system in Canada. Regulations were promulgated which came into force in September, 1919, and have proved gratifyingly successful. A number of herds having been accredited, while many others are under test. There is now an agreement between this country and the United States that cattle from accredited herds may enter either way, without detention or test. Under the Mutual Tuberculosis Order, passed at Ottawa some years ago, and the more recently adopted Accredited Herd Plan, compensation is paid for animals officially slaughtered and the owners are permitted under regulation to reuse whatever they can from the meat of the carcass.

Developing his parallel, Mr. King said Canadians were beginning to discover wherein the liberties they had previously enjoyed had been paid with a degree never dreamed of before. The people saw themselves deprived of the rights of a representative parliament and a responsible ministry.

Meighen a Usurper!

They saw the functions of government "carried on by a usurper, who exercises his authority, not in virtue of any power derived from the people but solely as the outcome of arbitrary enactments and political might. They see this usurpation of the authority of government maintained through a combination of political autocracy and industrial plutocracy brought into being by war conditions and fostered through war necessities."

Canada, he said, was becoming more and more impatient of this reactionary spirit and the perpetuation of the status quo by which the people are to support itself, and he pointed to the results of the elections in Quebec and the Medicine Hat as the decisive voice of the electors of Canada.

They saw the functions of government "carried on by a usurper, who exercises his authority, not in virtue of any power derived from the people, but solely as the outcome of arbitrary enactments and political might. They see this usurpation of the authority of government maintained through a combination of political authority and industrial plutocracy brought into being by war conditions and fostered through war necessities."

Canada, he said, was becoming more and more impatient of this reactionary spirit and the perpetuation of the militarist spirit by which it seeks to support itself, and he pointed to the results of the elections in Yukon and the result of the decision in favour of the voters of Ontario.

Save The Children

Mothers who keep a box of Baby's Own Tablets in the house will feel that the best of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer. In most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by a government analysis to be absolutely harmless to the newborn babe. They are especially good in the summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Chatham Town Enjoyed Holiday

Many Excursionists Enjoyed the Sport—Four Classes on the Race Track.

Chatham, July 1—Dominion Day was generally observed, practically all business houses suspended. Ideal summer weather prevailing. Many citizens spent the day out of town; picnic parties very numerous.

The steamer took many excursionists down river to enjoy the beauties and pleasures afforded by the sail on the Miramichi river and back. The chief holiday attraction was the local horse meet of the fast Chatham track held under the auspices of the Newcastle Driving Club, which drew a large attendance from the towns of Chatham and Newcastle and surrounding country. The meet consisted of four classes, best three in five half mile heats. The horses all being locally owned considerable interest was manifested in the several events which were chiefly contested and of a most interesting nature. There were two bands in attendance, the Newcastle Cornet Band and Northumberland Regimental band, and their excellent numbers rendered between the heats were greatly enjoyed.

Time—1:12 1/2; 1:12, 1:14.

The officials were: Starter, J. A. Heckbert, Chatham; Judges, J. A. Morris, Chatham; R. H. Gremley, Newcastle; as: Lamont, Douglastown; Timers, R. A. Snowball, Peter Archer and P. J. McIntyre, Chatham.

In the evening the firemen's baseball team, leaders of the local league, played against a picked team from the other three comprising the league. The game was interesting throughout and attracted large number of spectators. The firemen led until the second and last inning when the picked team had a run of luck scoring four runs, the final tally showing the Firemen 4; Picked Team 6.

Ways Against C. O. D. Parcels

New York, July 1—Persons who have the habit of paying offhand for parcel post packages delivered C. O. D. without taking the precaution of determining something about the sender are warned by the Post Office Department to control the habit.

Post Office inspectors began investigation yesterday into the operations of various persons who have been using the mails to extort, one of them a woman who at one time ran a beauty parlor. The different persons have all used the same system; sending packages of small value at high prices to persons whose names had been selected with considerable care and who were considered likely to pay first and examine afterward.

Hinks-Linton Grand Manan, July 1

On Saturday evening last the rectory, Grand Manan, was the scene of a wedding of interest when Mr. Olive Hinks, of Woodward's Cove, and Miss Elizabeth Linton of Castalia were united in marriage. Rev. David Jenkins was the officiating minister. Their many friends with them the best of health and happiness in their new life.

Weddings

Centreville, N. B., July 1—A very pretty wedding took place at the Centreville Methodist Church on June 22nd, when Miss Mary (Mallie) Kathleen Cody (niece of Mr. and Mrs. A. C. Gibson) became the bride of Harold D. Baldwin of Chatham, N. B. Rev. Hugh Miller performed the ceremony, the double ring service being used. The bride entered the church on the arm of her uncle to the strains of Mendelssohn's wedding march played by Miss Dorothy Hamblis, cousin of the bride. The bride looked very lovely in a gown of seal brown lace over brown satin, with picture hat to match and carried a bouquet of American beauty roses. After the wedding ceremony the guests repaired to the home of the bride, where a dainty luncheon was served. Miss Cody will be greatly missed in her home town, having been organist in the Centreville Methodist church for a number of years, as well as being prominent in all musical circles. Many beautiful and costly gifts were received, among them being several substantial checks. After an extensive motor trip Mr. and Mrs. Baldwin will make their home at Chatham, N. B. The bride is a daughter of Dr. Peter Cody, of Lawrence, Mass.

BARELY LIVED THROUGH IT.

A terrible experience had Edw. J. O'Connor of Saint Ste. Marie. From boyhood he writes: "I have been a constant sufferer from Asthma and Catarrh My nose and throat was often stopped up, and I had disagreeable droppings from my throat. When an attack of coughing came on, it seemed as if I would barely live through it. I would gasp for breath. Catarrh made me feel as if I was being smothered. It is soothing, healing action was exactly suited to my case." To those who suffer from Catarrh, Asthma, throat irritation and Bronchitis, Catarrh zone is highly recommended. Two months treatment, one dollar, smaller sizes 25c. and 50c. at all dealers of The Catarrhzone Co., Montreal.

MISCHIEVOUS INTERFERENCE

The annual meeting of the American Federation of Labor, which takes place in Canada, has shown something of the comprehensive attitude of that important body toward all aspects of government. Resolutions have been adopted at Denver in relation to trade policies, the administration of public utilities, the ownership of railways, immigration, shipping, banking, housing, taxation and practically everything else affecting organized national life. These resolutions have not erred on the side of mildness. They have been strong, positive and almost mandatory. To all this no exception can be taken. Organized labor has as much right to express judgment in these matters as has a gathering of bankers.

But, as the Ottawa Journal points out, it is quite another matter when the American Federation of Labor gives consideration to matters wholly outside its jurisdiction, and which impinge on the political policy of a foreign nation. In that category must be classified the resolution which has been discussed for days at Denver in relation to the Irish question. It was seriously and definitely proposed that the organization should boycott in the United States all British goods until Great Britain gave effect to the demands of the Irish Republicans, or Sinn Feiners. The speeches in support of this resolution were such as might have come from Mr. De Valera himself or any other radical and uncompromising enemy of Great Britain. Organized labor will always be respected while it concentrates its attention on matters coming clearly and definitely within its province. That would give ample scope for its sagacity and legitimate aims. But when a body of Americans, be it composed of artisans or "princes of finance," undertakes to interfere in questions which are essentially domestic to a foreign country it goes too far. It would be a very grave thing indeed to involve the United States in a hostile attitude toward Great Britain, which would leave it in the possibilities of war—a war which a great statesman recently said would be the end of civilization. Nor could such interference be of the slightest assistance to the Sinn Feine cause.

The Americans are a patient people. They permit liberty to run its course in the notion that they are thereby giving democracy plenty of air. But there are ample signs that the patience of the thinking and independent classes, who really predominate, is reaching the snapping point in respect to Irish agitation. Admiral Sims' outspoken exposure of Sinn Fein operations in the United States has let loose a flood of commendation and uttered some of the strong statements which have appeared in leading American newspapers of late regarding the real state of public sentiment toward Sinn Fein filibustering. It would probably have been attributed to prejudice; but coming from long-suffering Americans it must be understood as voicing a determination to have people stick strictly to their own business.

THE END OF THE COAL STRIKE

The terms of the British coal strike on Sunday that represent defeat for the Union, is the beginning of Britain's industrial reconstruction. The nationalization project has been abandoned. The pooling of profits is restricted to districts with similar conditions. Wages are reduced to a standard that is about 20 per cent. above pre-war levels. The miners obtained the highest percentage of increase during the war, and when coal was selling on the Continent for \$25 and \$30 a ton they were paid \$10. On top of that, the British treasury had profits of hundreds of millions. But the renewal of German competition has made all the difference in the world, and now coal mining has to take the loss.

As coal is the basis of about 95 per cent. of heavy industry in Britain, costs that compare fairly with Continental prices are imperative. France has an immense surplus of coal, derived mostly from German reparations, and is distributing it freely to Italy, Sweden, Spain and other countries that formerly looked to British coal. It is not only that Britain has been losing an immense quantity of Continental trade through the coal market, but costs in the manufacturing

field have been kept prohibitively high. Steel prices have been reduced by about \$15 a ton in the last day or two, but are still much higher than American or German steel prices at British ports. Deflation has been slower in British industry than in the United States, and in Germany prices have always been low. The German workman receives from 76 cents to \$1.25 a day, valued on a dollar basis, while the average of British industry is \$4 or \$5 a day, and in some lines is much higher. If the British expect to hold the Continental market as well as their overseas trade, they cannot ignore Germany's campaign of cheapness. The Safeguarding of Industries Bill is passing Parliament, and no doubt home key industry will be protected, but in the foreign field the intense competition predicted during the war is about to make itself really felt.

It is a healthy sign that the supreme effort of the radical Labor leaders has signally failed. The British people may tolerate bad conditions for a long time, but finally come to a dead stop. The big cotton strike has ended in the last day or two, and the engine-drivers' break may be averted. When the economic arteries of the country are at stake, the only possible course is to take heroic measures to ensure safety.

GERMAN COMPETITION

Long before the Great War was in full swing the toy trade—the modern monopoly of which had been Germany's and Austria's boast—was taken over by the United States and Japan. Toy factories doubled and tripled in the United States. In Japan they were of mushroom growth. Over night, as it were, Japan was dotted with picturesque, one-story toy-making shops. What the observing and industrious Japanese had learned from the Germans about European toy manufacture in pre-war days they belted to an enormous degree along certain lines. Their deft fingers, concentration and adaptability fitted them to be the world's best toy-makers. If they had not yielded to a sense of cupidity the toys made by them would have won a world renown which would have stood them in good stead in the present testing time. Unfortunately, to use a slang phrase, they often failed to "deliver the goods," as far as material was concerned. So that having captured the trade they jeopardized their power to hold it.

In the land of the beginning again; and the ones we misjudged and the one whom we victory here. Would find the grasp of our loving hand clasped. More than pentent lips could explain.

For what had been hardest we'd know had been best. And what had seemed lost would be gain; For there isn't a sting that will not ask for its share. When we've faced it and laughed it away; And I think that the laughter is most what we're after In the Land of Beginning Again.

A Western Job
 Toronto wants to be the headquarters of the Canadian National Railway. The Globe, of that city, advocating this, argues that Toronto is the geographical and commercial hub of Canada. It is neither the one nor the other. If being the geographical hub of Canada should bring the head offices of the national lines, they should go to Montreal. Otherwise, being the geographical hub, Winnipeg would get them. Calgary Herald.

Not So Small
 Northern Ireland is a small country. But someone points out that it has a population larger than that of New Zealand, larger than the white population of the Union of South Africa, and four times that of Newfoundland. These have been recognized as important self-governing communities, and their leaders who appear today as members of the conference of prime ministers, would not join in any suggestion that the new government represents an insignificant group of people. A BIT OF VERSE

THE LAND OF BEGINNING AGAIN.

I wish that there were some wonderful places Called the Land of Beginning Again. Where all our mistakes and all our heartaches, And all our poor selfish grief, Could be dropped like a shabby coat at the door, And never be put on again.

I wish we could come on it all un-awake. Like the hunter who finds a lost trail. And I wish that the one whom our blindness had done The greatest injustice of all. Could be at the gates, like an old friend that waits For the comrade he's gladdest to hail.

We would find all the things we intended to do. But forgot and remembered too late. Little praises unspoken, little promises broken. And all the thousand and one Little duties neglected that might have perfected The day for one less fortunate.

It wouldn't be possible not to be kind In the Land of Beginning Again; And the ones we misjudged and the one whom we victory here. Would find the grasp of our loving hand clasped. More than pentent lips could explain.

For what had been hardest we'd know had been best. And what had seemed lost would be gain; For there isn't a sting that will not ask for its share. When we've faced it and laughed it away; And I think that the laughter is most what we're after In the Land of Beginning Again.

BY LEE PAPE

I wasn't supposed to be late for supper again this week, and yesterday while I was going home I looked late as anything, me thinking, Gosh, I bet supper is all over, I bet they're passing their plates for more by now, I bet they're talking about me not being there, I bet pop will give me holy heck.

And I started to start running, thinking, G, I better think up a pritty good of a excuse.

Wich I tried to do, ony I couldn't think of eny except old bam ones like not knowing wat time it was and forgetting all of about supper and having to wait on a corner on account of a funeral going past and going a errand with one of the fellows to do him a favor.

And I got all the way home without thinking of a good one, and I opened the front door easy and looked in and nobody was out back in the dining room, me thinking, G, is supper all over, I bet they're passed yet. And I yelled as loud as I could, Herry, herry, herry, and all pop called down stairs, Wats the big idee, has skool bernt down?

No str im erly for supper, I sed. Will intraces never cease? sed pop.

Meaning he couldn't hardly believe it, and I ran out in the street agen feeling grate, and 2 fire engines went pas to beat the band and I ran about 6 blocks without finding out wats the fire was, and then I watched 2 men tawking deer and dum to each other with their fingers and shoulders, and then I helped some kid to get his kite down out of a tree by advising him how, and by the time I got home supper was half over and pop gave me holy heck after all.

King Edward School Closing

Rex B. Cormier, principal of the school presided at the King Edward school closing Thursday. There were about two hundred visitors present and the assembly hall was packed to the doors. The advanced grades were dismissed as soon as they had taken part in the programme, and many other pupils were obliged to stand to provide seats for the large number of visitors.

Mr. Cormier reported that the school had had a successful year and referred to the work that was being done in the different departments, and announced the leaders in each class. He regretted that Miss Perley and Miss Bustin had resigned from the King Edward teaching staff and spoke very favorably of their work. Miss Perley will teach in New York next year, and Miss Bustin intends to continue her studies at McGill University.

The programme follows:

Song—By 20 boys from Grade VII.
Recitation—By 50 pupils from Grade I.
Chorus—By School.
Recitation—Lorne Lamb.
Violin Solo—Samuel Wordon.
Wand Drill—By 22 pupils from Grades III, IV, V, VI. Conducted by Miss Bustin.
Chorus—By School.
Group of Recitations—By Christine Gregory, Hilda Clark, Margaret Wetmore.
Violin Solo—George McDonald.
Reading—Norman Magnusson.
Flower Drill—16 Pupils from Grades III, IV, V, VI. Conducted by Miss Welford.
Salutation of the Flag and National Anthem.

Immediate Excitement.

Royals Defeated The Refinery Team

Nine Innings Played on South End Diamond—Score Was Five to Four.

Last evening the South End diamond was the scene of a lively game of baseball when the Royals and St. John's Refinery aggregation played a full nine inning game. Despite the damp weather the baseball enthusiasts of South End turned out in large numbers and witnessed the first defeat of the Refinery players this season. In an exhibition game by a score of 5-4. The game was full of snappy plays throughout the whole nine innings with both teams putting up a premium brand of ball that has not been seen on these grounds this season. Stewart the stalwart twirler of the Royals was pitted against "Southpaw" Johnston of the opposing team whose deadly curves sent many of the Royals back to their dug-out in one, two, three orders. However, Stewart was given gilt-edged support and his self was mostly responsible for the Royals' victory. Not until the last man had fanned out did the crowd turn away and the majority claimed it to be the best game they have yet seen on the South End diamond. The batteries for the winners were Austin and Stewart and for the losers Moran and Johnston.

DARING ROBBERY ON DOCK STREET

Jacobson's store on Dock street was broken into Wednesday night and goods to the value of \$400 stolen therefrom. Within a stone's throw of the store fifteen policemen were stationed guarding the Power Company's plant. The most of the goods stolen were taken from the front of the store where a light was burning.

Weddings

Rogers-Smith.
Moncton, July 1.—The home of Mr. and Mrs. Alexander Smith, of this city, was the scene of a pretty wedding at high noon today when their eldest daughter, Elizabeth Jane, was united in marriage with Albert E. Rogers. The bride was gowned in satin and crepe de chene with trimmings of pearls and jet and carried a bouquet of bridal roses and snap dragons. She was given in marriage by her father and was attended by little Miss Mary McIntosh as flower girl.

The Rev. Dr. Bowley Green pastor of the First Baptist Church performed the ceremony in the presence of about fifty invited guests. The bride was the recipient of a handsome array of presents including gold and silver cut glass, and several substantial cheques. After luncheon Mr. and Mrs. Rogers left on a motor trip through Nova Scotia to the Highlands. They will reside in Moncton.

Poirier-Sullivan.
A pretty wedding took place in St. Bernard's church this morning, the principal bridegroom being the late John and Mrs. Poirier, son of Alexander Poirier, of Cape Breton, and Miss Beatrice M. Sullivan, daughter of Mrs. Elizabeth Sullivan, Moncton. Rev. Father Mallette officiated in the presence of a large number of friends. The church was prettily decorated for the occasion. The bride was given in marriage by her brother and was attended by Miss Margaret Poirier, carrying a bouquet of roses and sweet peas.

Davidson-Manchester.
The marriage of Miss Jennie Beaumont, Manchester, daughter of the late John and Mrs. Manchester, Sussex, N. B., to Dr. Allan James Davidson, of Birnie, son of Mr. and Mrs. J. N. Davidson, 71 Kingston Crescent, Elm Park, Winnipeg, took place at St. Matthew's church, Thursday evening at 8 o'clock. Ven. Archdeacon McElhennan officiated.

The bride, who was given in marriage by her brother, Dr. John Manchester, wore an imported suit of platinum grey tulle with bodice embroidered in rose and soft tones. Her hair was a picture model of grey lace trimmed with grey and pale pink roses. She carried a showy bouquet of pink Ophelia roses. Mr. Davidson was in a dark suit and her brother was in a grey and French flowers. She carried a bouquet of pink and mauve sweet peas and peonies.

Fred Davidson acted as groomsmen. The ushers were: J. Whitaker and R. Lane. During the signing of the registers the Rev. Father Mallette said: "Because" Dr. Ralph Horner played the wedding march.

Immediately after the ceremony, Dr. and Mrs. Davidson left for the Lake of the Woods. On their return they will take up their residence at Birnie, Man.—Winnipeg Tribune.

Thin, Watery Blood Means Ill Health

Rich, Red Blood Brings Bright Eyes and Rosy Checks.

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting tired so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be restored.

When the blood becomes thin and impure the patient becomes pale. She not only tires out easily but often suffers from headache, palpitation of the heart, dizzy spells and a loss of appetite.

In this condition Dr. Williams' Pink Pills will be found to have a beneficial action on the blood. Miss Delmas Lafreniere, St. Ambrose, Man., has proved this in her own case, and advises others to use these pills. She says: "Before I began the use of Dr. Williams' Pink Pills I felt like a complete wreck of my former self. My blood was poor and thin. I suffered from faint and dizzy spells, and had backaches and headaches almost every day. I decided to give Dr. Williams' Pink Pills a trial, and by the time I had used three boxes I felt much better and I continued taking the pills until I felt as well as I ever did. For what I did in my case I cannot recommend these pills too highly."

Dr. Williams' Pink Pills can be obtained from any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Farmers Bar Artists From Their Fields

Claim Rags Left by Them Poison Cows—All Others Are Welcome.

Hartford, Conn., June 29.—The lowing herds that wind slowly over the hills in the vicinity of Old Lyme, known for many years as an artist's colony, probably will go to the dogs this year because the farmers of that section have posted signs all over their property which say: "No trespassing by artists."

Farmers declare they have had quite sufficient of the action of the artists, who plant themselves and their easels wherever they wish, whether it be in the midst of a cornfield of a meadow, and tramp about the premises without regard for the feelings of the farmer or the tender shoots of the farmer's crop. Furthermore, the farmers say, the artists poison the cattle.

It is for this last mentioned reason that the farmers say they have posted the signs, which they get through with his work, they say, he takes rags and wipes the paint from brushes and palette, and then throw the rags on the ground. Then the cows browse about the meadow, come upon the rags and eat them, with extremely distressing results to the cow.

Prominent farmers say the signs against trespassing in Old Lyme apply only to artists, and that others who do not bring paints and an easel may wander about the fields as much as they wish.

The Power of the Jest.

The prohibition commission of the United States has made a request in cartoonists and newspaper writers to refrain from making a joke of prohibition enforcement.

In this appeal he showed a fine appreciation of the power of the joke-maker. By too many people the joke is treated as a joke; but it is at least a debatable question if the comic papers do not exercise a great influence on public affairs, the sober-souled journalist, a politician may ignore a serious and weighty argument but there is nothing away from a pointed joke, a telling cartoon. Good home made bread is the most palatable, wholesome and nourishing food in the world. It is far more economical than any other staple food. If people would eat less meat and other heavy foods they would feel better and help to keep down the cost of living. Bread made in the home with Royal Yeast Cakes is more nourishing and appetizing than any other. Nothing healthier for children and grown ups.

ROYAL YEAST CAKES

A fresh, rosy complexion indicates perfect health. To secure this in most cases all that is necessary is to take one to three Royal Yeast Cakes a day for a few weeks.

Yeast is a food. It supplies the water soluble vitamins which the diet may lack. Scientists tell us that this vitamin is essential to good health. Yeast is highly beneficial in many cases in which the system seems to be run down. The yeast cakes simply add to the diet.

Dissolve a Royal Yeast Cake in fruit juices or mix it with cereal and milk, and take it at meal time. The chances are in a few weeks the complexion will be clear. Constipation and other ills will be relieved. For children reduce the amount to one-half or one-quarter of a cake with each meal.

Chatterbox Says:

Although the one-piece dress is still smart and worn a great deal for street wear, there are many women who never see well "turned out" unless they are wearing a suit—but when old Sol gets a little up, and things commence to melt, especially yourself if you are a "talk-made" person, in a cloth suit—then seek a silk one—either black or navy blue taffeta—the latter embroidered, gray, for that color combination is still the vogue. A blue tricotee, made up a tuxedo "style" with a white collar and cuffs. There are very smart suits also of blue silk poplin, with all the latest "points"—narrow belt, flare cuffs and embroidery. A light weight coat wrap of black satin with a quilted "Cow" collar and a wide band of quilting on the edge of the coat is distinctly smart.

Girls! Lemons

BLEACH SKIN WHITE

AS A WOMAN THINKETH

By HELEN ROWLAND
(Copyright, 1920, by The Wheeler Syndicate, Inc.)
New Wedding-Vows for Old

My son, hast thou a little "Gold-Digger" in thine house?
For, behold, not all the gold-diggers are found upon Broadway, and not all the gaudy one dance in the chorus. Lo, in the House of Matrimony, there dwell seven BANDITS.
There is the grady, who deceiveth her Beloved with padded bills and "doctored" accounts, and secret treaties with the milliner and the grocer. And there is the highwaywoman, who holdeth her husband upon Saturday night as firmly but sweetly taketh his pay-envelope from him—and hereafter doleth out its contents in dimes and pennies.
And there is the "politician" who leureth his dollars from him with smiles and flatteries, saying, "As THY wife, Beloved, I must array myself creditably; for I am SO proud of thee!"
And there is the pickpocket, who rooth through the pockets of her spouse, in the dark watches of the night, while he sleepeth.
And there is the "confidence-woman" who enticeth her Beloved to "go shopping" with her, and induceth the most alluring of the saleswoman to help fleece him, until he is indeed fortunate to escape with his cash.
And there is the baby-ramp, who coaxed her husband's dollars away from his kisses and baby-talk, and the "Oh-what-a-lucky-little-thing-I-am-to-have-such-a-nice-big-generous-husband!" method of persuasion.
And there is the gentle blackmailer, who capitalizeth all her husband's mistakes and failings and foibles; who weepeth and wailieth and can only be silenced with BRIBES and much "hush-noise"; and whose imported hats are the wages of her husband's follies.
Yet, I charge thee, my Daughter, condemn them NOT in thine heart.
For, to extract money from a man, after marriage, is a peradventure more difficult than to extract a proposal of marriage from him, before marriage.
Go to! If thou askest a man for his heart, thou shalt receive a stone! And if thou askest him for the price of a new hat, thou shalt receive a stony glare.
For, the last way in all the world to get anything from a MAN, from love unto money, and from a confession unto a kiss, is to ASK him for it.
Lo, a bachelor would rather be jilted and lured into marriage, than invited into it; and a husband preferreth to be calloled and tricked and grafted upon, rather than to make a "business contract" of marriage.
For to play SANTA CLAUS to women is the delight of a man's life! And, peradventure, it shall come to pass, in the millennium, that a wife shall not be forced to blindfold a man and back him into marriage. Neither shall any woman be forced to place a man under the influence of an anesthetic, in order to make him say, "I love you!"
But, verily, verily, until that time cometh, my Beloved, all women shall continue to be either "deceitful" and baby, or slick and self-supporting. And every man shall have a little Gold-Digger in his home!—Selah.

Good-Bye To Public Health Nurses

Addresses Given by Hon. Dr. Roberts, Mrs. Kuhring and R. T. Hayes at Red Cross.

A meeting of the Red Cross was held Thursday evening in the rooms of the society to say good-bye to the Public Health nurses who are leaving the city to take up their work in various parts of the Province. The Hon. Dr. Roberts made an address and assured the nurses of the support of the Red Cross in all their activities and of any aid that they should need in their work. The President, R. T. Hayes, spoke briefly and gave the nurses the good will and best wishes of the association.
Mrs. G. A. Kuhring for the Organization Committee explained the relation of the work of the Red Cross to the work they were undertaking, and assured them of the warm sympathy, interest and cooperation of the members of the Red Cross whom they would find in the fields they were entering upon. Present at the meeting were the President, R. T. Hayes, Vice-President, Col. Murray MacLaren, C. M. G. Vice President, Mrs. John McAvity and other members of the executive.

THOUSAND RED CROSS JUNIORS

Ontario Has Enrolled Sixty Schools and 1,500 Members—Soldiers Being Cared for.

Sixty schools and some 1,500 individual members have been enrolled in the Junior Red Cross, was the announcement made at a meeting of the Red Cross, Western Ontario Branch, Executive, Toronto, held recently. Mrs. H. P. Plumtree presided.
It was reported that work in connection with the military hospitals was being actively carried on, comforts being provided also for the hospitals at Camp Borden and at Niagara. Col. H. W. Blaylock, returned from overseas, was present, and was introduced by Col. Noel Marshall.

TIPS TO HOUSEWIVES.

When you want to bake only one or two potatoes and do not wish to use the gas oven, place them on an asbestos mat over the simmer flame for about three-quarters of an hour.
To stuff six large potatoes, use two tablespoonsfuls grated cheese, yolk of one egg, two tablespoonsfuls melted fat and seasoning.
To clean the mica in oil stoves, rub thoroughly with vinegar. If this does not remove the black allow to soak for a while.
To clean marble, make a solution of gum arabic and water, spread this on the marble and allow it to remain until it dries. Then wash it off and all stains will come off with it. Sometimes in oiling the edges of a floor oil will get on the rug. These unsightly spots can be removed by rubbing with gasoline. Use a clean cloth and rub each stain several times with the gasoline, using a clean portion of the cloth each time.

Watering Plants During Holidays.

Summer holidays and country week-ends bring with them the difficulty of keeping the house plants watered during the absence of the household. One way of doing this is to place the plants on a tray on the floor near a table on which stands a bucket of water. If strands of cotton or wool are now arranged so that one end dips into the water and the other into the soil, the tiny flow of water which results will keep the soil moist enough to preserve the plant, says an English gardener.

THE COMMON TOUCH.

(Doll, doll's furniture, colored bricks and other playthings from the tomb of a little Roman girl of the time of Tiberius have just come in the possession of the Berlin museum.—Daily paper.)

Little dead maid from the time of 3000 years ago.
You have been sleeping so long with your toys;
You must have hushed them with whisperers mysterious.
Bade them be good and not make any noise,
Surely you said at the end of your playtime,
When you had kissed them and sung them to sleep,
"You must be quiet and wait till I say 'daytime.'"
Oh, the long vigil you gave them to keep!

Where are the rooms that once rang with your laughter?
Where are the stairways that echoed your feet?
Marble and bronze and the sweet cedar rafter—
All now are dust with the dust of the street.
But in the darkness where someone had laid them,
Since they were yours and that place was the best,
Time and his leaguers—who else had betrayed them?
Shattered an empire, but left them at rest.

Down the long road that begins with your story
We have peered wistfully into the gloom,
Watching the shadows of Rome and her glory,
Hearing the echoes of triumph and doom;
Yes, with your bricks and your dolls at bedtime
You with the games of your boyhood
You with the games of the living and dead time
Clio kneels down to your toys with a smile.—Punch.

BLEACH SKIN WHITE

Strawberry Plummy.

1 box berries.
1 cup sugar.
1 tablespoon cornstarch.
Put the strawberries on with 1 cup of water, add sugar, boil slowly for 5 minutes, then add cornstarch, which has been mixed with a little cold water; boil 3 minutes, put in saucpan with tight lid, then cover with drop dumplings. Cover saucpan and boil 10 minutes without removing cover. This is good either warm or cold. How to make dumplings:
1-4 cup flour.
1 teaspoon baking powder.
1-4 teaspoon salt.
1 teaspoon shortening.
1-4 cup milk.
Sift dry ingredients into bowl, add shortening, rub in very lightly, then add enough cold milk to make stiff dough; divide into 8 parts and put on berries and boil 10 minutes with cover as stated above.

Canned Strawberries No. 1.

The berries should be ripe but firm; put into well-sterilized jars and fill with syrup made by boiling 2 cups of sugar with 3 cups of water slowly for 10 minutes; remove scum. Let jars stand 15 minutes then the hot syrup will have shrunk the berries; add more berries, adjust the rubbers which have been dipped into boiling water; then put on well-sterilized lids and put jars into boiler on rack; cover with boiling water one inch above tops of jars; cover the boiler and boil 30 minutes; remove, and when cold, put in cool, dark place. Be sure they do not leak.

Canned Strawberries No. 2.

Firm, ripe strawberries are put in preserving kettle and to each quart of berries (after hulled) add 1 cup of sugar; put a layer of berries, then a layer of sugar, only putting 3 quarts in the kettle at a time or they will be crushed. Let stand 30 minutes, then put over slow fire and boil slowly 35 minutes; skim well and fill into well-sterilized jars; adjust the rubbers which have been dipped into boiling water; then put on well-sterilized lids, fasten and put on boiler on rack; cover with boiling water 1 inch above tops of jars; cover the boiler and boil 30 minutes; remove, and when cold, put in cool, dark place. Be sure they do not leak. If there is too much syrup, put in bottle for figure use.

Strawberry Jelly.

Put the strawberries into preserving kettle, mash with potato masher and bring to boil slowly; when soft mash through wire strainers, then strain through cheesecloth bag. Return to fire, boil 5 minutes, and to each cup of fruit juices add 1 cup of sugar that has been warmed in oven. Stir until sugar is dissolved; then boil 3 to 10 minutes. Be sure all scum is carefully removed. Fill into glasses that have been dipped into boiling water. Cover with paper or paraffin.

Strawberry Jam.

Put the strawberries in preserving kettle on very moderate fire until soft,

BELIEVE ANGLO-JAP TREATY NOT TO BE RENEWED

This Practically Agreed on by Conference of Premiers.

MEIGHEN AND SMUTS OPPOSE SPECIAL TREATY

Canadian Premier Expects to Sail for Home About July 21st.

London, June 29.—(By Grafton O'Leary, Canadian Press staff correspondent.)—The Anglo-Japanese alliance is not to be renewed in its present form. Although the discussion of the treaty by the conference of British Premiers has just begun that much has already been made abundantly clear. It is true that Hon. Mr. Balfour and Lord Curzon, the only members of the conference thus far who have dealt with the subject, used due diplomatic caution in their speeches, but according to information which may be regarded as authoritative, they left a clear impression that while the British Government would like to have some form of understanding with Japan, it is not inclined to continue the present purely military agreement.

Bandit Plays Cop in Motor Hold-Up

Robs Woman in Auto, Then Persuades Rescuer He is Policeman.

Hackensack, N. J., June 28.—When returning home early today in her automobile from a Manhattan theatre to her home in Oradell, Mrs. Rex W. Wadman, wife of the president of the Rex W. Wadman Company, advertising, was attacked near Bergenfield by a bandit.

Emigration Within Empire

The conference late yesterday took the final definite action when a special meeting of the chief ministers of the British Empire, including the Right Hon. Winston Churchill, Secretary of State for the Colonies, appointed a sub-committee to investigate proposals for keeping the emigrants of good class within the Empire. The tentative plan is for the British government to vote ten million dollars to aid such emigration, and to sign a treaty with other nations to vote a like amount to help them.

CATTLE EMBARGO BOARD NEAR END

Favor the Removal of the Order.

London, July 1.—Several witnesses before the cattle embargo commission today stated that small holders favor the removal of the embargo with a view to reduction of the present price of store cattle. Another witness declared that Scotch beef still beat the world, and imported meat could never be better. The commission adjourned until Monday when Viscount Chaplin, a former minister of agriculture, will be present.

"Fuzzy," Freak Duck, Needs No Plucking

Owner Expects Fortune Thru Breeding Tribe Ready Dressed for Market.

Eastport, L. I., June 28.—"Fuzzy," the featherless duck, a white Pekin bred by George Frey, of the Sunny Side duck farm, is creating great excitement among breeders, who see a way to make a fortune if "Fuzzy's" tribe can be increased. It cost 6 cents to pluck a duck. When a man has 20,000 ducks to prepare for market, plucking runs into money. "Fuzzy" came along more or less by accident, but Mr. Frey is dreaming of the "edge" he would have if he could run a featherless duck farm. "Fuzzy" came into the world queerly dressed. As he grew older his coat became queerer. Some say it is down, others think it is wool. At any rate, it is short, white and fuzzy. Hence the name.

London, June 29.—Eve's sister has arrived in London. She lies in a square deal packing-case in the Egyptology section of the University College, Gower street, and she doesn't mind in the least being called the oldest young woman in the world. Professor Flinders Petrie, who has been reawakening the centuries in Egypt, has just brought this mummy to London. She is at least 8,000 years old. Beside her Moses is quite a modern young fellow, and to her the twelve Caesars are but as yesterday.

IS BEING HELD WITHOUT BAIL

Young Woman's Screams Bring Aid and Police Catch Him.

New York, June 30.—Charged with attempted robbery, assault and violation of the Sullivan law, James T. Conway, 18 years old, a member of the graduating class of Erasmus High School, was held without bail yesterday morning by Magistrate Walsh for a further hearing today.

Patrolman Gleason and the acrobatic one collided as the latter was leaping his final fence.

At the police station the youth declared that he had no recollection of having been in Miss Stewart's room. Miss Stewart said that he had slapped her face at least ten times and had struck her three times with his revolver. Her injuries were superficial and were attended to by an ambulance surgeon.

Magistrate Walsh's court the boy's father, Jas. F. Conway, an insurance adjuster, said that his son had left home with the explanation that he was bound for Camp Pratt for the week end. Camp Pratt is a rendezvous on Long Island for Erasmus pupils.

Miss Stewart declared that she never has seen Conway before. She declared that he said nothing about getting her money and that she explained to him that she had ten dollars. But, apparently, most of his time was occupied in keeping her from screaming.

Demented, Father Believes. Conway played basketball and baseball at Erasmus. He is credited with being popular with his schoolmates.

His father told Magistrate Walsh that he was inclined to the opinion that his son was at least temporarily demented at the time of the alleged housebreaking.

"He's the very last youngster you'd expect to see charged with all this," said Conway, senior. "Then turning to his son, the father asked: 'Jimmy, this is hard to believe. What happened to you?'

"I don't know, Dad," replied the boy. "Honestly, I don't. I don't remember a thing after 8 o'clock last night."

When young Conway left home he took a small hand bag containing his bathing suit and other things he might need for a week end at camp. When Patrolman Gleason captured him, his hand had the bag and all its contents.

IS BEING HELD WITHOUT BAIL

Young Woman's Screams Bring Aid and Police Catch Him.

New York, June 30.—Charged with attempted robbery, assault and violation of the Sullivan law, James T. Conway, 18 years old, a member of the graduating class of Erasmus High School, was held without bail yesterday morning by Magistrate Walsh for further hearing today.

Caught Leaping Fence.

Patrolman Gleason and the acrobatic one collided as the latter was leaping his final fence. At the police station the youth declared that he had no recollection of having been in Miss Stewart's room.

Demented, Father Believes.

Conway played basketball and baseball for Erasmus. He is credited with being popular with his associates. His father told Magistrate Walsh that he was inclined to the opinion that his son was at least temporarily demented at the time of the alleged housebreaking.

C. P. R. SUBURBANITES.

Effective on Friday, July 1st, the C. P. R. suburban train which has been running on Wednesday and Saturday only, will leave city daily except Sunday, at the same time, namely, 1:20 p.m. daylight time.

VOL. XIII, NO. 83. DEMONSTRATION. RIGHT SWING CHIN IN FRENCHMAN. Right Blow Been Struck. rific Blow on Back of tered Mentally and CARPENTER BROKE Champion Was Never in Georges Landed the tie Was the Aggressive sler Was Game Fight. New York, July 3.—Jack I- pion of the "grid. A crushing ations of Georges Carpentier in the century here yesterday at The pile-driver blow landed flooring Carpenter for the se fighting in the final and decis Although he had staggered, was unable to survive the second Referee Harry Eric's tolling off. Although the knockout pun to Dempsey's victory had been blows which landed on every swing, jab and upper-cut scored to the slowing-up process of t Hit on the Neck. In addition, a clubbing right landed flush on the back of Ge landed in the third round, playe portant part in his defeat. Frenchman folded over in an at to protect his body left the ba his neck exposed and Dempsey the fair target in front, drove a terrific slam to Carpenter's brne. After the knockout the F man stated in his dressing room this punch was the cause of his fall. He said that the punch his entire physical and mental y, and he was thereafter unabl carry on any effective attack. Carpenter Broke Thumb. It developed after Carpentier returned to his training camp at bassee, N. Y., that during his a sive and effective attack in the ond round, the Frenchman had on his right thumb and spraine wrist. Carpenter was unable to plain how the injury had occ but it is thought that it came as ult of a hard swing which was hult on Dempsey's head. Who preceded him regarding his the European challenger's mo fective fighting list, had on the mate outcome of the battle, it possible to state. Carpentier w most entirely on the defensive in third and fourth rounds, althoug did not noticeably avoid using right hand and arm in blockin striking out when the opport arose. Praise His Gameness. Regardless of just which blow ed the vanquishing of Carpentier, Frenchman gave a remarkable ex sion of skill and gameness agai heavier, more punishing opp The favorite when he enteri ring, judging from the amou cheering he received, he was with even a greater amount of plause ringing in his ears. A to an exhibition which is every verified and upheld a record had preceded him regarding his ing ability and danger-defying winner, ran true to his fighting Carpenter Hit First. Although Carpentier struck the blow of the encounter, a flying li the head, Dempsey never at any backed up or showed a disincl to avoid trading blows with his o ent. The champion bored in at opportunity and devoted as mu his attention as was possible to fighting. Rights and lefts steadily driven home to Carpen body, alternated at times by d labe, hooks and cuffs to the F man's face, jaw and head. For the first round Carpentier not appear to feel the effects of punishment. He fought in and at close quarters, using chiefly a swing or drive to Dempsey's face law with an occasional shift of left to the body. Could Not Save Face. Most of the body blows were blocked or partly checked with el and forearm, but he was not ab protect his face as well. Time again Georges shot ver his rig Dempsey's face, and in the se round when he turned loose heaviest batteries of his blows p peared as though the champ m be forced to assume a defense tude. The pause in Dempsey's tack, however, was due more to prise and fluster at the savage his opponent's rally. After a few seconds of indeci he gathered himself together a up although the round was und of Carpenter on aggressive and clean blows landed, there was the slightest evidence that Dem
