CUPPS, FRONTS. &c., &c. REMEDY control them. The testimony, of our best citizens, of all classes, establishes the fact, that OHERRY PETGRAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so semanciable as hardly to be believed, were they not proven beyond dispute. As a remody it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable; and too often fatal, if neglected. Tender lungs need this defence; and it is invalued to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of Childhood, Greeny Pectoraal is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing, asund and healthrestoring sleep. The window of the Pharmacy,

Was richly dressed with Toilet Sets,
From India's Cors! Shore:
And many a man, with convex eye,
Before the window paused to sit h.

A maiden came, with nairless pate,
A shining, bald round head
And what few hairs about it grew.
Were tinged with streaks of red:
And her hasel sye turned upside down,
