Had Piles For Ten Years

And Tried Nearly Everything Except a Surgical Operation Without Obtaining Relief - Tells How Complete Cure Was Effected.

There are reported here three cures of chronic cases of piles. In all three cases many treatments were tried before it was discovered that Dr. Chase's Ointment is about the only real cure for this distressing ailment

Brantford, Ont., writes: "I have used Dr. Chase's Ointment as a household remedy for ever so long, and am par-ticularly indebted to it for a cure from Piles. I had suffered from this annoying trouble for ten years, and tried nearly everything I heard of. After using Dr. Chase's Ointment a short while I was completely cured." Mrs. Wm. Shants, 155 Albert street, Kitchener, Ont., writes: "For several years I was troubled with bleeding piles. I tried different remedies for relief without success. I read in Dr. Chase's Almanac of the benefits other people were receiving from Dr. Chese's Ointment, so I sent to your office for a sample box. I found it gave me such relief that I went to a box. I have used several boxes since, and have derived more benefit from its use than any remedy I have ever

Mrs. F. Cussons, Victoria street, Ingersoll, Ont., writes: "About two years and a half ago I was suffering from Piles. I had tried many different remedies for this distressing trouble, but nothing helped me. Fin-ally I got a box of Dr. Chase's Oint-

A Department conducted entirely by the members of the United Farmers of New Brunswick, who are free to express herein their opinions and ideas, to report the various activities of branches, and generally to promote their welfare. All communications should be brief as possible and sent to the editor of the department; C. Gordon Sharpe, Pum-

The meeting of the United Farmers of New Brunswick was a grand success. The farmers turned out in large numbers, and showed plainly that they had not come for mere curiosity, but to have a voice in conducting the convention, and through it, righting some of the wrongs which are imposed upon the farmers. President C. L. Smith occupied the chair, and was in his usual good trim, and conducted the affairs of the convention in an able way. The hig feature of the convention was the standing vote, pledging those present to cut loose from old party affiliation, and standing by independent men and measures the farmers interests. When we consider those present, having fied with their respective party what the local market would than a generation. If you are in the past been actively identimachines. FORT FAIRFIELD, MAINE

BOOK BY BERLIN PROFESSOR STIRS GERMANY.

Doctrine That Wars Are the Result of Ineradicable Instincts and That They Promote Virtues In Lives of Warlike Nations.

CYNICAL observer of letters once remarked that although it was the habit of writers to affect humility, yet there were but few who refrained from the vanity of inscribing their able to those rare books which owe their genesis to an overwhelming furnish an analogy. impulse, which possesses and compels the writer to deliver his message, be the consequences what they consider in what respect war does act of supreme courage. Such a book by result from a prolonged continuais "Die Biologies des Krieges." That such a book should be written at all is in itself noteworthy. That it should appear bearing on its title-page the name of so eminent a citizen of Bez-lin as Prof. G. F. Nicolai represents

one of the greatest acts of heroism

pleasantly in the memory by virtue of the precise and categorical manner in which certain things, was asserted to be 'not true.' Depressed, as he well might be, by the guise in which German learning presented itself to the world. Dr. Nicolal contemporary — London Mation.

that educated men of all states should exercise their indusence so that whatever may be the still integrated to the way, the conditions of the way the conditions of the way, the conditions of the way the conditions of the way, the conditions of the way the conditions of the way the conditions of the way, the conditions of the way the way the conditions of the way tions of peace abould not become the source of future wars, but rather that ships have fallen as a result of this war into a mobile and plastic condition should be made use of to create an organic unity out of Europe."—

(p. 19.)
Nicolal's object in writing his work is, briefly described, to analyze the nature of war and to discuss its place in the development of humanity. In the pursuit of his task he observes a dispassionate objectivity which at times almost grates upon the reader. He is not one of those who are tormented by the thought of the sufferings and the tortures of war. His purpose was to prove to those who had lost their ideats that war is only a "passing phenomenon on earth which is not worth white faking too seriously" (p. 12). Elsewhere again he dwells on the fact that war objectively regarded, is not the economic pressure which we

On what then does Dr Nicolai's being shut down through lack of raw objection to war rest in a word, it is because were an anaechronism, and matirnion which has human tree her outgrown, and which now acts as an obstacle and a hindrance in the path of human progress. That was corresponds to a deep and ineracticable responds to a deep and ineracticable into 200. In the oil industry is restinct in our nature that it proinstinct in our nature, that it Dremotes great of virtues that for manifold it represents the struggle have been formed out of 720 working all high pressure all nature are doctrines which are writ large throughout the vales of virtues of the reactive with the number of spools has been reduced from 4000 to 500."

This state of affairs the trittying to the economists of Germany tomized in their extreme forms may be referred to Sombart's "Handler und Helden," a work which for some eason has not enjoyed that notorlety in this country to which its great demerits undoubtedly entitle it. It is against these doctrines that Dr. Niingeniously takes as his starting development of this suggestion was point one of the fundamental doctrines of his opponents. He admits tered in those stirring machine-gunthat war does in fact correspond like sentences of which I know so with a human instinct but he denies well. This is what he said: that instincts are in all cases to be followed, or even that they are in all Very well. We have only ten, with time it was evolved.

sider where else in nature we find Give me yours!" anything analogous to war. From the days of Lucretius it has been stience. It was Lord French who proverbial that the lion does not agent with the lion. Apart from deers firmly by the hand. In that handto fighting is sexual, Dr. Nicolai Ypres was sealed. shows that real wars are to be found only in the case of two other animals -ants and bees. War, in fact, can only arise where the sense of pro-perty has developed, and its only pur-the 143rd United States Field Artilor another of the enemy. It is thus mother. Needless perhaps to say, she inextricably interwoven with a sys-looks well in the uniform. tem of slavery, and is only defensible in so far and so long as slavery is detensible. With the abolition of slavery war becomes void of purpose. the court in a recent civil suit, a

aging criticism the familiar doctrine that war represents for man the highest form of struggle for existence. lawyers. a or radiobeter labely so that to the late the l

That there is such a struggle he admits, but it must be a struggle for life and not a struggle against life, such as war represents. The true struggle for existence is expressed by Nicolai in terms of the consumption of the general stream of energy, and the object of each individual and species is to utilize as large a share of this energy as possible.

The cow and the horse are presse the necessity of providing them with hay restricts the number of men who can be supported by a given area of land. If all borses were ousted by automobiles, the total energy avail-able for the support of the human race would be increased. Man would, names on the title-page of their in fact, have defeated the horse in works. However this censure may; the struggle for existence. The Darapply to the unusual motives of winian struggle for existence, which apply to the unusual motives of agures so largely in German literature in exaltation of war, is never an excuse for war, and does not even

Having disposed of the claim that war is an expression of the struggle for existence, Dr. Nicolai proceeds to may. In such cases to resist the act as a selective agency. He pictures temptation to anonymity may be an the type of man that would ultimetetion of the present type of struggle. It is not to be expected that a remarkably courageous, strong, and intelligent race would arise, but there would result a kind of rabbit race, corresponding to our present trench warters. The new man would be without refined needs, which cannot of recent years

It is not without interest to observe how this book came to be written. In the early day of the war active, equipped with good came and return the world an appear which still lives pleasantly in the memory by virtue of

The "splendid isolation" that Civoles angle (the summer of the summer of t to the notice made for these of America after the war!" We glean be intrescring and enduring Dy. Nicolai's draft manifesto respectively. The indisectal comparison of the cartier pages of his work is deserving of study, that much as it indicates the ideas by which he was inspired during the first weeks of the war. The following passage to a certain extent reminiscent of some of Mr. Wilson's man papers manifest and are addressed. large vitter, cross suits so requoted and constant sayour said a revolution plant.

> "If America sells us no cotton, she shall get no potash, which is a fertilizer almost indispensable to impoverished agricultural land. line and no grain, she shall get no dves, no drugs, no glassware, no optiinst Germany has exported to the initial States in the past.

It is not yet known in Germany to what extent the United States will assume that none of the other belli gerents nor any neutral country will be able to take our place as a producer of all the goods that America

Proof that Some Women do Avoid Operations

Mrs. Etta Dorion, of Ogdensburg, Wis., says: "I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not histen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

How Mrs. Boyd Avoided an Operation. Canton, Ohio.—'I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could

get well.
"My mother, who had been helped by Lydia E. Pink-ham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

the extreme weakness often results in impaired hearing, weakened evenight. bronchitis and other troubles, but if Scott's Emulsion is given promptly, it carries strength to the organs and creates rich blood to build up the depleted forces. Children thrive on Scott's Emulsion. Pres from Harmful Drugs.

"K" Is Important In Russian

"K" is a more important symbol in the Russian language than in English, but, even so, the predominance of the letter in the crisis has been temarkeble. Kerensky, Eernitoff, Klembovsky, Kaledine, Krimoff, Korethoff and Kishbine have all played rincipal roles.—Argonaut.

ORIGIN OF THE RED CROSS.

Novelist Gives London Times Credit for Inspiring the Movement. Ameliia E. Barr, the novelist, who is over 87 years old and is still writing romances in which the fire of

youth burns vigorously, is out with a new book, "An Orkney Maid," in which she tells how the Red Cross Society originated. According to Mrs. Barr, the motive for the Red Cross was inspired by the London Times, in which appeared the follow-"The commonest accessories of a hospital are wanting; there is not the least attention paid to decently or cleanliness; the stench is appal-

ling; the fetid air can barely struggle out through the chinks in the walls and roofs, and for all I can observe the men die without the least effort being made to save them. They effort being made to save them. They lie just as they were let down by the poor fellows, their comrades, who brought them on their backs from the camp with the greatest tenderness, but who are not allowed to remain with them. The sick appeared to be tended by the sick, and the dying by the dying. There are no nutries, and the men are literally dynurses, and the men are literally dying hourly because the medical staff of the British army has forgotten that old rags of linen are necessary

Sheep on Every Hill Side in New Brunswick

The New Brunswick Government through the Department of Agriculture has arranged with the Chartered Banks to help the Farmers—where assistance is needed—to buy Sheep.

The Department will not only arrange to buy Sheep FOR the Parmers, but will also buy good breeders FROM the Farmers in other words, this branch of the Agricultural Department WILL SUPERVISE ALL PUTCHASES AND SALES OF SHEET.

Credit for the Purchase of Sheep

This offer has evidently been refused as the United States War Trude Board has months' credit for two-thirds of the purchase price. So to the manager of the character hand in your community and place months' credit for two-thirds of the purchase price. So to the manager of the character hand in your community and place months' credit for two-thirds of the purchase price. So to the manager of the character hand in your community and place pour order for the number of sheep required, abcompanied with a case payment of the purchase gries can be paid as follows. Two-thirds of months' credit for two-thirds of the purchase price, so to the manager of the character than the pour order for the number of sheep required, abcompanied with a case payment of the purchase gries can be paid as follows. Two-thirds of and deliver mem to your nearest vallows station. The halance of the purchase gries can be paid as follows. Two-thirds of and deliver mem to your nearest vallows station. Although there has been an advance announced since the present stock was ship—

Agriculture for cash.

First Quality stock only will be secured.

All sheep will be carefully inspected before purchasing.

Mature sheep are hard to obtain, therefore swe lambs will form the major portion of the stock distributed.

Mature sheep are hard to obtain, therefore swe lambs will form the major portion of the stock distributed.

Prices will range from \$13.00 to \$15.00, according to size and quality, delivered at the nearest railway station.

Prices will range from \$13.00 to \$15.00, according to size and quality, delivered at the nearest railway station.

The Department has not entered upon this as a commercial transaction.—The sheep will be purchased a care possible and re-sold for cost price plus transportation and handling charges.

Pure Bred Rams

The Department is now purchasing pure bred lamb and shearling rams.

The lamb rams will cost from \$30.00 to \$40.00 and the shearlings \$35.00 to \$50.00 each.

Exceptional individuals will cost from \$50.00 to \$60.00 each.

The rams have been selected from reliable breeders in the Maritime Provinces, Quebec and Ontario.

Suitability of New Brunswick Farms for Sheep Production

The hilly country makes ideal conditions for sheep pasturage. Hay, roots and oats are the staple crops—they are likestaple sheep foods also.

The wool produced in the Maritime Provinces is the finest quality in Canada and brings the highest prices. Maritime lamb and mutton cannot be surpassed.

The system of farming followed in New Brunswick makes the keeping of a flock of sheep easy and very profitable.

The Future

H. S Arkell, Dominion Live Stock Commissioner, states: "That sheep products have no doubt reached their maximum price, but that he cannot see any reason for a material decline in the price for at least ten years."

Inwashed wool is worth from 70c. to 80c, per pound, according to grade. Good lambs from \$10.00 to \$13.00 each.

Under careful management the first clip of wool and the first crop of lambs will pay for the foundation stock.

Under careful management the first clip of wool and the first crop of lambs will pay for the foundation stock. If possible, purchase locally.
Secure foundation stock from your neighbors immediately if available—Not one ewe lamb suitable for breeding, should

Procedure to Procure Sheep

If you cannot purchase locally, place your order immediately with your local bank manager; he will forward it to the Department of Agriculture, Fredericton. Unless orders are given it will be impossible to secure in time to make delivery

winter sets in.

This is a business proposition—think it over—decide and see your Banker.
