POETRY.

THE GATHERING TIME.

FROM HORTON'S JOURNAL.

EXHIBITION OF THE INDUSTRY OF ALL
NATIONS, 1851.

They come! they come!
From the far off ale, from the torrid plain,
They hasten to pass o'er the billow main;
They are borne along by the deep sea's foam.
By the wild wind's sweep o'er the wreck'd one's
home;

With the might of nations on their brow,
With the wealth that hath taught the world to
bow;
The wealth of THE MIND in its glorious might,
The spoils of a thousand thoughts of light;
The rainbow gleams of the spirit's wings,
As it revels in bliss amid glorious things.

They have gathered the spoils of earth and sea,
They have pierced the shrines of their mystery;
Unveiled the glory of earth's bright things;
Did music flow from her long-sealed springs,
Fill the world with start from human lips,
To hear of the bright apocalypse.

They have been to the depths of ocean's caves,
Mid the murmuring resonance of waves;
And many a pearl and jewel bright
Flash out in pride on the wondering sight,
And the circling comet hath caught
Its light from the gifts the waves have brought.

They have been to the depths of Nature's shrines,
Where gleam rich treasures in hoary mines;
And the shapeless block, at a human word,
Hath scattered its dross as a moiling bird,
And sprang up in beauty, and strength, and
might;

As a spirit-wand had evoked its light.
They have trod the shores of a sunny land,
Where the feathery palm-trees clustering stand,
And the bright cocoons of the pale worm gleam
On the mulberry boughs, as a starry stream;
And a thousand fabrics rich and rare,
From the golden threads glow brightly fair.

They have been where the clustering columns rise,
In their lofty pride to Italian skies;
And the sculptor's hand hath wrought in might
On the polished marble's stainless white;
Till his soul could see in its spirit gleams
The life of his dearest, proudest dreams.

And the forests have yielded their lordly dower,
And the Isles that afar their fragrance shower;
Faith, air, and sea have their tribute brought
To swell the stream of the wood's rous thought,
That seeks in our own loved land to shine
The world's great soul, as a thing divine.

All hail to the workers on land and sea!
All hail as they meet in the isle of the free!
Their votive gifts on the shrine be laid
Of the holiest One, in the mercy shade!
And earth's hosannas to Him be given
Who on human souls shed powers of heaven.

The Commissioners of the World's Fair
have nobly branded the retail liquor business
with universal outlawry, by refusing to allow
any one to sell wines, spirits or beer within
their inclosures. They have also provided
that all who have refreshment stands shall
furnish visitors with glasses of water gratis,
who may apply for them.

True.—The man who stops his newspa-
per whenever it contains sentiments and opi-
nions different from his own, must be a "poor
devil," any how. A sensible man would
as soon think of separating from his wife for
a difference of opinion in politics or religion,
as of relinquishing a favorite and a well con-
ducted newspaper, because its sentiments do
not always agree with his own notions.—
The idea of starving a newspaper into the
support of any particular notions, is entertain-
ed, in these days, by fools only.—Clarion.

There is no foundation for the report that
the Bishop of Newfoundland was about to
be translated to the vacant see of Nova Scotia.
No appointment has as yet been made to the
latter bishopric.

MEDICINAL USE OF SALT.—In many cases
of a disordered stomach, a tea-spoonful of salt
is a certain cure. In the violent internal
aching, termed colic, a tea-spoonful of salt to
a pint of water, drink it, and go to bed; it is
one of the speediest remedies known. The
same will revive a person who seems almost
dead from a heavy fall.

In an apoplectic fit, no time should be lost
in pouring down salt and water, if sufficient
sensitivity remain to allow swallowing; if not,
the head must be sponged with cold water un-
til the sense return, when salt will comple-
tely restore the patient from the lethargy.
In a fit, the feet should be placed in warm

water, with mustard added, and the legs
briskly rubbed: all bandages removed from
the neck, and a cold apartment procured if
possible. In many cases of severe bleeding
at the lungs, and when other remedies fail,
Dr. Rush found two tea-spoonfuls of salt com-
pletely stayed the blood.

In scurvy, warm salt and water held to
the part and renewed two or three times,
will relieve in most cases. If the gums be
affected, wash the mouth with brine; if the
teeth be covered with tartar, wash them
them twice a day with salt water.

In swelled neck, wash the part with brine,
and drink it twice a day until cured.
Salt will expel worms, if used in food to a
moderate degree, and aids digestion; but
salt meat is injurious if much used.—[Scienti-
fic American.

NEW-BRUNSWICK. PROVINCIAL PARLIAMENT.

HOUSE OF ASSEMBLY.
Tuesday, March 11.

The Revenue Committee (thirteen members)

were sitting this morning, consequently no busi-
ness of importance was transacted in the House
until 1 o'clock.

Mr. Fisher sent in a petition against the re-
turn of Mr. Macpherson, and demanding a scrutiny
of votes.

The House went into Committee on the Go-
vernment Bill to provide for the protection of
the Revenue. After the bill was read through
the Atty. General announced his intention to
move certain amendments, and not being pre-
pared he would move that the Committee rise
and report progress. Progress reported. [I re-
joice to learn that, when the Bill is committed
again, an attempt will be made to make smug-
gling felony.—Reporter.]

Mr. Wilnot, from the Revenue Committee,
reported, and introduced the frame of the Revenue
Bill. He also brought in the Report of the Light
House Committee.

The Hon. Atty. General stated that on account
of his being obliged to go back to his constituents
for re-election, and being subsequently called
away to conduct trials at Gagetown, he had been
unable to attend to Government measures before
the House; he would now announce his intention
to move the House into Committee on the Muni-
cipal Corporation Bill on Thursday next, and the
School Bill on Monday next. These were the
two most important of the Government Bills.—

He would now move the House into Committee
on the Bill to shorten the wording of the Laws.
Mr. Ritchie said he did not think the Bills
mentioned were the most important of the
Government measures. He considered the
Bill to facilitate the construction of the Euro-
pean and North American Railway the most
important of the Government measures. The
hon. gentleman had not mentioned that Bill,
and feared it would get the go-by.

Hon. Atty. General said the hon. member
from St. John had jumped at a wrong con-
clusion; he had no right to imagine that the
Government would give the Railway Facility
Bill the go-by. He was not prepared to go
into the consideration of that Bill, but he had
not lost sight of it.

Mr. Ritchie said, that as the introduction of
the Railway Bills was quite at variance with
the principles enunciated in the hon. Atty.
General's speech, wherein he exposed the
views entertained by the Government; the
hon. gentleman had then declared that it
was a ruinous policy for Government to take
stock in a railway. That being the case, and
he having omitted to mention the matter now,
was he thought, ground for suspicion?

Hon. Atty. General said he had no doubt
that the hon. member was suspicious. It
was a part of his character. He had always
expressed his suspicion of every Government,
and would, no doubt, until he became the
leader of a Government himself. He did not
think the Bill referred to was at variance with
his speech.

Mr. Ritchie would not argue the subject, as
he was very glad to see the Railway Bills
before the House; he was surprised, how-
ever, at the hon. member's attempting to recon-
cile them with his speech. Every member of
the House, and the Reporters, had under-
stood him to say that the Government of a
country ought not to take stock, and the Bills
recommended stock to be taken to a large
amount. (Conversation then dropped.)

The House then went into Committee on
the Bill to shorten the wording of the Laws.
Mr. Taylor in the chair. The Hon. Atty.
General explained the nature of the Bills,
not less than three nor over five, to ex-
amine during the recess, and report at the
next Session the best means of shortening and
simplifying the laws.

Mr. Ritchie strenuously opposed the Bill.
He argued that the Commission would be a
mere job, and that it was the duty of Govern-
ment to examine and report, they being well
paid for it.

The hon. Speaker made a long speech in
opposition to the Bill, and entered into a list
of statistics of the most startling nature to

show why the Court of Chancery should be
abolished.

Messrs. Needham, Wilnot, Tilley, John-
son, Gilbert, Hannington, Hayward, Hathe-
way, and English spoke against the Bill.—
No one defended it but the Attorney General.
Mr. Gilbert moved the postponement of the
Bill three months, which Mr. Tilley seconded.
The hon. Attorney General contended
that he was not treating him with courtesy, and
this view was taken by two or three of the
Government supporters. The hon. Attorney
then moved as an amendment that the Com-
mittee rise and report progress. That ques-
tion was put from Chair, and declared ag-
nated. The Chairman then put the question
of postponement three months, when the hon.
Attorney General called "question" on the
amendment. The Committee then divided,
and the names taken, as follows:—Ayes hon
Messrs. Street, Partelow, and Hannington, and
Messrs. Barberie, Montgomery, Reed, Gor-
don, Williston, McPhelim, Crane, Chapman,
Sules, Scoullar, Rice, Thomson, Robinson,
Cutler and Fitzgerald, 19. Nays, his honor
the Speaker, and Messrs. Tilley, Needham,
Ritchie, Wilnot, McLeod, Ryan, Purdy,
Stevens, Johnson, Gilbert, Earl, Hayward,
Hatheyway, Pickard, McPherson, Beardsley
and English, 18. Progress reported.

The Scrutiny Committee between Messrs.
Gilbert and Chapman, was struck to day.

Petitions were presented against high du-
ties, and for the continuance of the present
tariff.

The Committee have agreed to a Bill to
alter and consolidate the Light House Laws.
Five honorary Commissioners are recom-
mended as a Board of Direction, and one
Superintendent under them, at a salary of
£100 per annum. The sum of £500 has
been reported in favour of a Fog Bell Buoy
off the harbour of St. John.

Mr. Scoullar asked the Attorney General
what had been done towards filling up the Ex-
ecutive Council.—The Attorney General said
that he would answer the question to mor-
row morning. You may rely upon it, that
the answer will be—nothing done.

HARK YE, GIRLS!—It is high time that
somebody told you a little plain truth. You
have been watched for a long time; a certain
class of you; and it is plain enough you are
laying plans to cheat somebody. You intend
to sell chaff for wheat; and there is danger
that some of the foolish "gudgeons" will be
saddly taken in.

It may not be your fault that you belong to
the "one idea party"—that the single idea of
getting a husband is the only one which en-
grosses much of your time or attention. But
it is your fault that you pursue this in the
wrong direction. Your venerable mother of
Eden memory, was called a "help" for man,
and you are looking for a man to help you;
to help you to live in the half idle, half silly
way which you have commenced. Men who
are worth having, want women for wives. A
bundle of gaw-gaws bound with a string of
flats and coppers, sprinkled with cologne,
and set in a carmine saucer—this is no help
for a man who expects to raise a family of
boys and girls on veritable bread and meat.

The piano and the lace frame are well
enough in their places and so are ribbands and
frills and tinsels—but you can't make a dinner
of the former nor a bed-blanket of the
latter. And awful as the idea may seem to
you, both dinner and bed blanket are neces-
sary to domestic enjoyment. Life has its re-
sults as well as its fancies, but you make it
all a matter of decoration, remembering the
tassels and curtains, forgetting the bedstead.
Suppose a young man of good sense and of
course of good prospects, to be looking for a
wife, what chance have you to be chosen?—
You may cap him, or trap him, to catch him,
but how much better to make it an object for
him to catch you! Render yourself worth
catching, and you will need no shrewd moth-
ers or managing brothers to help you to find
a market.

HEAVY ROBBERY.—A few evenings ago, a
person called at the house of Mr. F. Newbe-
gin, in Saco, Maine, an extensively dry
goods dealer, and informed Mrs. Newbegin
that her husband had sent him for his valise,
which he wanted at his store. Not suspecting
any imposition, she gave it to him, and
soon after discovered that it was not as the
regue had stated, who made off with the val-
ise, containing between \$12,000 and \$14,000,
which Mr. N. was to use next day in Boston.
The valise was afterwards found about two
miles from Biddeford, hidden in some bushes,
and rifled of its contents.

NEW YORK, March 6.—It is rumored that
Isaac Storms, formerly tobacco merchant,
has failed for £500,000.

The steamer Baltic left New York for Liv-
erpool on Wednesday last, with 80 passen-
gers.

A hurricane on the 19th ult., nearly de-
stroyed the town of Shreveport, in Louisiana.

NEW ORLEANS, March 3.—Strambot Di-
aster.—The magnificent steamer Oregon,
bound from Louisville to New Orleans, burst
her boiler on Sunday near Vicksburg. The
first clerk was killed, the captain severely
hurt, and about 30 people are missing. The

COMMUNICATION.

TO THE EDITOR OF THE STANDARD.

Dear Sir,—Will you have the goodness
to give the following extracts from the Law,
an insertion or two in your paper, as I am
convinced there are many persons in the
County particularly concerned in County mat-
ters, that have not seen the law; and it seems
but an act of common justice, that the greatest
publicity possible, should be given to all laws
that affect the well being of the community.
Yours,

C. R. HATHEWAY.

ART. 1.—No Assessments to be made for
the payment of the contingent expenses of the
County, until a detailed statement showing
how the sum required is made up, shall be
laid before the Grand Jury, and their approbation
obtained.

ART. 3.—No claim or account against any
Parish or County shall be allowed, unless the
same be filed with the Clerk of the Peace,
within one hour after the opening of the Ses-
sion.

ART. 4.—At the time of appointing of Town
and Parish Officers a full and detailed state-
ment of the County and Parish accounts shall
be laid before the Grand Jury immediately
after opening the Court, and to be returned
on or before the Friday following, with such
presentment as the Grand Jury may see fit to
make thereon, and no unpaid claim or account
shall be paid, or ordered to be paid, which has
not been so first laid before the Grand Jury.

MORE LIGHT!—Besides the introduction
of the Kerosene gas light, that may now be
seen at Dartmouth, Dr. Gesner has obtained
letters patent for an improvement, whereby
the refuse oil matter of the Kitchen, Coal
Tar, and all oily residues substances of what-
ever kind, may be readily employed for illu-
minating purposes. Even the dry dog-fish
selling in the market at 1s. 3d. per cwt.; is
made into excellent gas, and at a cheaper
rate. The mode of manufacture is as we
learn easy and simple and such as will com-
mend itself to the humblest capacity. It is
satisfactory to believe that in this age of
invention and improvement, the art of making gas
is with others rapidly advancing.—[Novascotian.

Friday March 7.
Mr. Robinson, by leave, presented a Petition from Cochran Craig, Esquire, Theodore Winchester, Lorenzo Drake, and one hundred and forty others, inhabitants of Grand Manan, Campo Bello, and West Isles, engaged in the prosecution of the Fisheries, praying that a Bounty may be granted on Vessels employed in that Trade; which was referred to the Committee for taking into consideration all matters connected with the Fisheries, to report thereon.

Mr. Robinson, also by leave, presented a Petition from Cochran Craig, Esquire, Joel Ingersoll, Philip Newton, and one hundred and twenty four others, inhabitants of Grand Manan, praying that the said Island may be established as a Free Port; which was referred to the Committee for taking into consideration all matters which may affect the Trade of the Province, to report thereon.

The Committee to whom were referred the sundry Petitions for allowance to Teachers of Schools who have not received any part of the Provincial Grants, recommended that there be granted to the several Teachers the following sums for their services:—

CHARLOTTE

To Mary Rogers the sum of £5 twenty third November, 1850.

To Elizabeth Byrne the sum of £15 for services of her late husband Chas Byrne.

To Isabella Fogg the sum of £5 September 1848.

To James McConchie the sum of £5.

To William Henry Lockett the sum of £20.

To James D. Turner the sum of £20.

To Elizabeth Wilson the sum of £6 13 4.

The following Petitions were referred to the consideration of the House:—

HOUSE OF ASSEMBLY.

March 13th, 1851.

This morning the Hon. Provincial Secretary brought down a message from the Lieutenant Governor, containing several public accounts.

Mr. Ritchie presented a petition signed by most of the Printers and Publishers in the city of St. John, praying that the postage on newspapers may be abolished.

Mr. Street rose to answer a question put to him yesterday by the hon. member for Sunbury (Mr. Scoullar), respecting the filling up of the Executive Council. He begged to observe that he had been twice absent, once to regain his seat for Northumberland, and once to conduct trials in the County of Queens. He had also been sick for some days. Under these circumstances he had but little time to spare to Government matters, and the excuse would excuse him that the vacancies had not been filled up. Public affairs, however, had not suffered, for there were seven Councillors, and five composed a quorum. Some members of the present Administration wished to retire, and the Government did not wish to make any announcement until the arrangements were all completed.

The House went into Committee and passed a Bill in reference to the phraseology of Law Bills. This Bill is a copy of one introduced into the House of Lords by Lord Brougham, and now a law in England.

The House next went into Committee on the Bill introduced by the Hon. Attorney General to establish Municipal Corporations.

The Bill was defended as it stands by the Attorney General (who professed himself ready to amend the details if the House wished it), and Messrs. Taylor, Williston, Beardsley and English. It was opposed *in toto*, on principle, by the Hon. Speaker, and Messrs. Gillen and Thomson; and it was opposed for its imperfections by Messrs. Needham, Johnston, and Hatheway. Messrs. Wilton, Stevens, and Gaiter, were not opposed to the principle of the Bill, but would go for amendments in the details.—Progress reported.

Friday, March 14th.

The Bill authorizing the Magistrates of St. John to appoint Commissioners for the Alms House was committed to-day. Mr. Needham moved an amendment to the effect that the rate-payers of the County be empowered to elect them by vote by ballot. This amendment was carried, 14 to 6.

The Municipal Corporation Bill, introduced by the Attorney General, was afterwards taken up in Committee, when a lengthy discussion took place.

Mr. Ritchie exposed the deficiencies of the Bill, and urged the amendment of several sections. He was followed by Messrs. Hayward, Williston, Gordon, Ryan and McLeod, who spoke in favour of the Bill; and Messrs. Gilbert, Thomson, Needham and Hatheway, in opposition to it. The Speaker and Messrs. Ritchie, Gray, Tilley, English and Chapman advocated the principle of the

Bill, but contended for the amendments. The House adjourned without a division, and progress was reported.

The Railway Facility Bill will be brought up next week.

March 15.

The Road Committee consisting of one member from each County, was sitting this morning.

The House went into committee on the Municipal Corporation Bill.

Mr. Chapman moved that the Bill be postponed until next session of the Legislature, to give time for consideration, which was seconded by Mr. Earle.

The Attorney General replied to the arguments in a speech of two hours and a half. He ridiculed the idea of making the Bill coercive, stating his conviction that the Government and Legislature could not force municipal corporations upon the people.

Mr. Ritchie and other members replied.

The question was then put and negatived, there being only Messrs. Chapman, Crane, Earle and Gilbert in the minority.

The consideration of the Executive Legislative Council Bill has been fixed for the 24th instant, and every member has been summoned to attend on that day.

The Revenue Bill will create a warm discussion in the Assembly, if, as is likely, an attempt is made to increase the existing rate of Duties.

It is not at all likely that the Legislative Sessions will close before the first of May, unless a great number of measures are abandoned altogether.

MERCANTILE MARINE ACT.—The Lords of the Committee of the Privy Council on Trade have officially announced that they have dispensed with the observance of so much of the Merchant Seamen's Act as requires ships bound to any ports in Canada, Nova Scotia, New Brunswick, Newfoundland, or Prince Edward Island, to be provided with lime, or lemon juice, sugar or vinegar. This is a concession which was much wanted—as the articles named were not necessary for such short voyages, and the want of them frequently involved the masters of vessels in law suits, and enabled the seamen to obtain their discharges in Colonial ports, where there was a scarcity of sailors, and the wages consequently high.—*Courier*.

LIGHT HOUSES.—We notice in the Halifax papers, an advertisement from the Commissioners of Light Houses, soliciting tenders for erecting Light Houses at Horton Bluff, Canso, and Port Medway (Nova-Scotia) all of which will be very useful, especially to the coasting trade.—A nautical friend wishes to suggest the giving at least six months' notice of the lighting of these establishments, in order that strangers may be aware of them in time.

MORE TALENT IN NEW-BRUNSWICK.—We have just had the pleasure of examining a splendid piece of machinery in the shape of an Astronomical Clock, manufactured by Mr. James White, of this city. The principal peculiarity of this Clock, that the escapement is peculiarly constructed, and that the motion of the Pendulum is kept up by the force of two small weights raised alternately by the escapement wheel. Another distinguishing feature of this beautiful article, is, that the Pendulum weighs 19 lbs; while that of the main-weight only weighs 4 lbs. 10 oz! The advantage thus gained by such a heavy Pendulum being kept in regular motion by so small a power, speaks volumes in behalf of the admirable manner of the Clock's construction, and nice adjustment of all its parts. The Clock is Jewelled, and contained in an elegant mahogany case, made by Mr. Thomas Richards. The manufacturer is a young man who served his Apprenticeship with Mr. Justin Spahm, of this City, of admirable manners, possessing industrious habits, and much ingenuity, and bids fair to become an ornament to his native country.—*Anaranta*.

ESCAPE FROM JUSTICE.—On Friday last a telegraphic dispatch was received in this City, by Joshua Dunn, Esq., from Frederickton, N. B., giving notice that a young man by the name of George Harper had absconded from Fish River, Arrolscook county, Me., with \$500 in Provincial bills, and that he had been traced to St. John, N. B., and had taken passage on board the steamer Admiral, bound for this port. Mr. Dunn obtained the services of Constable Clapp, and they kept watch for the arrival of the boat which arrived at Conney's wharf, (to-day) Saturday at 11 o'clock, A. M. They went on board and as Harper was in the act of leaving the boat he was taken into custody, and immediately owned up to the amount of \$101—\$35 of which he handed over, to the officer, and also a carpet bag and some small articles and a silver watch which he had purchased with the stolen money. He was carried before the police court, and ordered to find bail in \$100 for his appearance at the Municipal Court at the April Term for larceny in this City. Harper had been at work cutting timber in an unincorporated town, in the County of Arrolscook, said to be about 300 miles north of Bangor, and the money was stolen from Alexander McLeod, a fellow-laborer.—[Boston Gaz.]

From Newfoundland.—The steamer Falcon, at Halifax from St. John's, has brought us late papers from this island.

The attention of the people of St. John's is being directed to Ship-building, and a public meeting has been held for the purpose of enforcing the attention of the Legislature.—It appears that £25,000 are annually paid for freights, and £20,000 every year expended in the purchase of vessels to prosecute the trade of the island.

The seal Fishery is to be prosecuted with renewed vigour this season, and the present high prices paid for oil will, doubtless, give a vast impetus to this important branch of industry.

THE LEGISLATURE.—Very little has been done as yet, by the "Collective Wisdom," notwithstanding nearly half the Session has elapsed. The Government measures are not perfect; in fact but a few of them have been brought before the House, and their fate is uncertain, if we are to judge from the opposition which they have met with. The leader of the Opposition, Mr. Ritchie, appears determined to oust the present Government—if he can;—his efforts so far, have proved fruitless, and his badgering already cost the country a pretty round sum. If this is the way he is to bring about retrenchment and reform, its promoters may well cry "save us from our friends."

OUR RAILROAD.—The Avon commenced discharging her cargo at the Market wharf, on Monday last, and already a large number of the iron rails have been deposited along the line of Railroad. The Locomotive will be set up immediately by an Engineer, in the Engine House at the terminus, Eastern end of the Town. The rails will be laid as soon as the snow is off the track, which from present appearances will be in a few days, when the "PIONEER"—the name given by the manufacturers to our locomotive, will be set in motion.

We perfectly agree with a Fredericton contemporary who says, "that the activity and energy manifested by the people in Charlotte, merit the most qualified approbation of the Country at large, and we sincerely wish that more of the same spirit were infused throughout every county in this Province."

Mechanics' Festival at Hamilton.—The Toronto Globe, contains a report of the speeches delivered at the Mechanics' Festival at Hamilton, which we regret we cannot do more than notice. The Governor General and Sir Allan McNab, "shook hands and were as good friends as ever."

In the course of Sir Allan's remarks he said:—

"When I first came here, there were only four or five Mechanics in the place. We had one Blacksmith, who was horse doctor, and head man of the place if we wanted anything done. You all know him—it was David Farley. (Cheers.) We had one Carpenter, his name was Bachelor; but, Ladies, I assure you he was not a Bachelor, for he had a large family. But look at the number of Mechanics, now in this City; I regard them as the main stay of the community, for they can do far better without the rich than the rich can do without them. If we look at the learned professions, who do we see them filled by, but by the sons of Mechanics. If we look to the Legislative Council, our Lords, we see these men who were once Mechanics, but by their industry and intelligence have raised themselves, and been returned year after year in Parliament, and at last have been selected by Her Majesty to fill that high and important office. It is one of the great blessings of the Constitution, which I trust we shall long maintain. We live in a country which I believe has no parallel on this Continent."

It is true that occasionally we have our little rows and squabbles, and misunderstandings, but we soon get over them, and then we shake hands and are as good friends as ever. His Lordship will admit, I am convinced, from the specimen before him this evening, that our wives cannot be surpassed; but I hope that our daughters can and will be matched, but I am sure they will be right lucky chaps that will do it."

His Excellency the Governor General in his reply said that there was a remark which Sir Allan McNab made that he could not let pass without noticing, it was a noble sentiment that although "they had their rows and squabbles & misunderstandings, yet they soon got over them, and then they shook hands and were as good friends as ever." I honor such sentiments and shall ever cultivate them, (he then turned round and presented his hand to Sir A. McNab, amidst the most rapturous applause.)

MUNICIPAL CORPORATIONS.—The Bill to establish Municipal Corporations has been twice before the House of Assembly and is to be recommitted. The principle of the Bill is sustained, but from present appearances we should think it probable that some material alterations will be made in the details.—[Head Quarters.]

NEW-BRUNSWICK DOCTORS OF MEDICINE.—We notice by the Philadelphia Daily Transcript of the 7th instant, that the term of the Pennsylvania College of Medicine opened on the day previous, in the usual form. The annual commencement was held in the Medical Fund Hall, and crowds of Ladies and Gentlemen were in attendance to witness the ceremony. Among those on whom the degree of Doctor of Medicine was conferred, we find from New Brunswick the names of David Berge, George Currier, and David Merritt, all natives of this Province.—[Ibid.]

From the West Indies.—The Oceanic at Halifax from Bermuda, brings a few items of news from the West Indies.

From Jamaica, we learn that several of the leaders in the late election riot at St. David had been arrested. A Mr. Davis, who was wounded at the time, has since died.

The Rev. J. M. Auld, of the Presbyterian Church, had been killed by a fall from his gig near St. Andrews.

A despatch from the Secretary of State was read in the Barbadoes House of Assembly, 24th Jan'y, in which he suggests that inducements should be held out for the settlement

in the West India Colonies of fugitive slaves from the United States.

A large meeting has been held at Bridgetown, sympathizing with their colored brethren in the U. States on the operation of the fugitive Slave Law.

NAVIGATION OF THE ST. LAWRENCE.—In the United States Senate, on Saturday last, Mr. Davis, of Massachusetts, submitted the following resolution, which was considered and agreed to:—

Resolved, That the President be requested, if not incompatible with the public interest, to inform Congress at the earliest date, whether any arrangements are in progress, or likely to be made with Great Britain and the British Colonies of North America for securing to the citizens of the United States the free navigation of the St. Lawrence, St. John, and other large rivers, and the right to enjoy freely, in common with British subjects the sea and coast fisheries of the British North American colonies.

NOVA SCOTIA.—The Assembly was engaged during the principal part of Monday, discussing the Tariff in Committee of Ways and Means. Several propositions and changes were submitted, but the general feeling was in favor of not materially disturbing the existing scales of duties. The duty on American Flour has been retained. Flour, the manufacture of Canada, imported direct and through the United States, if duly certified as the growth and manufacture of Canada, will be admitted duty free.—*Novascotian*.

Suspicious Circumstances.—About a month ago, Mr. Perez Burr, a wealthy Bachelor, of this town, died quite suddenly, in the night. He bequeathed with one of his tenants, a Mr. Ferdinand, who was then steward of the Rev. Cutter Allen, and absent from the house. A few neighbors went into the house to take an inventory of Mr. B's effects—it was ascertained according to his books—and he was very accurate—that some \$2,500, principally in bills and gold, was missing. The Cutter soon put to sea, and having occasion to put in at St. John's Harbor, near Columbia, the Steward Ferdinand, (who is a foreigner,) went ashore, as he said, to get some eggs—since which time, however, nothing very definite has been heard of him; but from inquiries made along the stage-route, it is pretty certain that he came on from Columbia—actually ate breakfast at Pembroke with two brothers of Mr. Burr, who were on their way from Massachusetts to secure their brother's property; and then took the route to Calais, or some place near there, and crossed the ferry to St. Andrews, N. B.; and that he is now probably far into the British possessions. The affair has created considerable excitement in our midst, but we have hitherto forbore to allude to it, in the hope that the matter would have further developed itself. Had the telegraph been at first used in this business, and a little more vigilance exerted, no doubt Ferdinand would long since have been arrested. We sympathize with his sorrowing wife—who, from what we can learn of her, appears to be an upright as well as intelligent woman—because, among a certain class, suspicion naturally turns to her; but we have, as yet no good reason to believe that she is at all implicated in the matter.—[Eastport Sentinel.]

NEW BRUNSWICK.

House of Assembly, 8th March, 1848.
Resolved: That no Bill of a private nature, or Petition for Money or relief, shall be received by the House after the fourth day from the opening of the Session, both inclusive: and that the Clerk of the House do, one month previous to the meeting of the Legislature, cause fifty printed copies of this Rule to be sent to each of the Clerks of the Peace in the several Counties for distribution, and cause the same to be inserted in the Royal Gazette, and two Newspapers in such County where Newspapers are published.
CHAS. P. WETMORE, Clerk.

House of Assembly, 7th April, 1849.
Whereas the number of applications to this House from School Teachers for Grants of Money have been, from year to year increasing; and whereas it is desirable that such information should be furnished as would enable this House to arrive at just and equitable conclusions; therefore Resolved, That this House will in future sustain no application for allowances to Teachers of Common or Parish Schools, unless it shall be certified by at least two Trustees of Schools for the Parish where such School has been taught, showing the time actually taught—the Teacher to be licensed—the cause why such Teacher was not certified to the Sessions in the ordinary way—and that such Teacher was not compelled to discontinue his or her School on account of any improper conduct.
CHAS. P. WETMORE, Clerk.

CURES FOR THE UNCURED.

Holloway's Ointment.

AN EXTRAORDINARY CURE OF SCROFULA OR KING'S EVIL. Extract of a Letter from Mr. J. H. Biddle, 209, High Street, Cheltenham dated the 22nd of January, 1850.

To Professor HOLLOWAY.
SIR,—My eldest son, when about three years of age, was afflicted with a Glandular swelling in the neck, which in a short time broke out into an Ulcer. An eminent medical man pronounced it as a very bad case of Scrofula, and prescribed for a considerable time without effect. The disease then for four years went on gradually increasing in virulence, when besides the ulcer in the neck, another formed below the left knee, and a third year ago, besides several others on the left arm with a tumour between the eyes, which was expected to break. During the whole of the time my suffering boy had received the constant advice of the most celebrated medical Gentlemen at Cheltenham, besides being for several months at the General Hospital, where one of the surgeons said that he would amputate the left arm, but that the blood was so impure, that it that limb were taken off it would be then even impossible to subdue the disease. In this desperate state I determined to give your Pills and Ointment a trial, and after two months perseverance in their use, the tumour gradually began to disappear, and the discharge from all the ulcers perceptibly decreased, and at the expiration of eight months they were perfectly healed and the boy thoroughly restored to the blessings of health, to the astonishment of a large circle of acquaintances, who could testify to the truth of this miraculous cure. Three years have now elapsed without any return of the malady, and this boy is now as healthy as he can wish. Under these circumstances I consider that I should be truly ungrateful were I not to make you acquainted with this wonderful cure effected by your medicines after every other means had failed. (Signed) J. H. BIDDLE.
CURE OF ACUTE RHEUMATISM OF FOUR YEARS STANDING.
Extract of a Letter from Mr. John Pitt, Dudley, 15th Jan., 1850.

To Professor HOLLOWAY.
SIR,—It is with the greatest pleasure that I write to thank you for the benefit I have received from your Pills and Ointment, which have completely cured me of the Rheumatism, under which I suffered for this last four years, at times I was so bad as hardly to be able to walk. I had tried every kind of Medicine that was recommended without receiving any benefit. I at last thought I would give your medicines a trial, and purchased from Mr. Hollin, Chemist, of this Town, two Boxes of Pills, and two of Ointment, and in three weeks, through them and the blessing of God, I was restored to health and am now as well able to walk as ever I was in my life. I am well &c. In this parish, having been thirty-five years in it, with an exception of ten years I served in the 24th Regiment of Foot.
(Signed) JOHN PITT.
CURE OF A BAD LEG OF SIXTY YEARS STANDING.

Mr. Barker, of No. 5, Graham's Place, Drapal near Hull, had a sliver on his leg from the edge of eighteen until upwards of eighty, and although for many years he had sought the first advice, in the country, nothing was found to cure them. He very often suffered most excruciating pain for long periods together, which incapacitated him from attending to his business. He had given up all hopes of getting a cure, when at last he was persuaded to try Holloway's Pills and Ointment, which he did, and in a short time he was cured, the sliver was thoroughly healed by their means, and by continuing to use the Pills alone after his leg was well, he has become in health so hale and hearty as now to be more active than most men of fifty.
N.B.—The truth of this extraordinary statement can be vouched for by Mr. J. C. Reinhardt, 22 Market Place Hull, February 20th, 1850.

CURE OF A DESPERATE CASE OF RING WORM OF SIX YEARS STANDING.

One of the most eminent Surgeons in Lima (the Capital of Peru) had a child covered with Ring-worm for more than 6 years; in vain he exhausted all his art in his endeavours to effect a cure. Not succeeding, he consulted among his brethren, the most celebrated medical practitioners of the City, but nothing was found to do the child service. When he was persuaded by Mr. Joseph F. Holloway, the English Chemist and Druggist, residing at No. 74, Calle de Paez, to try Holloway's Pills and Ointment, which was done, and after using six large Pots of the Ointment, with a proportion of the Pills, the child was radically cured, to the surprise of the whole medical profession. The name of the parent, from motives of delicacy, is withheld.
The Pills should be used conjointly with the Ointment in most of the following cases:—Bad Legs, Bad Breasts, Boils, Buns, Bites of Mouchetoes, and Sand Flies, Fittulas, Coco-Bay, Gout, Glandular Swellings, Lambsy Piles, Rheumatism, Scalds, Sore nipples, Chiege-foot, Chilblains, Chapped hands, Corns (soft), Cancers, Contracted & Stiff joints, Elephantiasis, Sore throats, Skin diseases, scurvy, Sore heads, Tumours, Ulcers, wounds, Yaws.

Sold by the Proprietor, 244, Strand, (near Temple Church) London, and by all respectable Vendors of Patent Medicines throughout the Civilized World, in Pots and Boxes, at 1s. 1-2d. 4s. 6d. 1s. 2s. and 3s. each. There is a very considerable saving in taking the large sizes.
N.B.—Directions for the guidance of Patients are affixed to each Pot or Box.

CAUTION!—None are Genuine unless the words "Holloway's Pills and Ointment, London" are engraved on the Government Stamp, pasted on every Pot and Box; with the same words worn in the water-mark of the Books of directions wrapped round the medicines.
Should unprincipled Vendors recommend parties asking for Holloway's Pills and Ointment not to buy them, but to take something else in their stead, they do so only for the purpose of getting a greater profit by what they wish them to purchase.

GREAT AGRICULTURAL WORK!

THE FARMER'S GUIDE TO Scientific and Practical Agriculture By HENRY STEPHENS, F.R.S.E., Author of the "Book of the Farm," Editor of the "Quarterly Journal of Agriculture," &c., &c.
Assisted by JOHN P. NORTON, A.M., Professor of Scientific Agriculture in Yale College, New Haven, Author of Agricultural Prize Essays, &c., &c.

This highly valuable work will comprise two large royal octavo volumes, containing over 1400 pages, 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the pictorial feature of the book is unique, and will render it of incalculable value to the student of agriculture.

This great work is the joint production of two of the most talented agricultural scholars of the day; the one eminent as an author and editor in Great Britain, and the other as a Professor in Yale College. Both are eminently practical as well as scientific men, and all they say may be relied on as the result of profound research, tested and sustained by practical experiment. The contributions of Professor Norton are chiefly designed to adapt the British portion of the book to this country, and thus to make it an Anglo American work, giving to its readers all the really useful agricultural knowledge at present attainable in either country.

The work is divided into four departments, distinguished by the four seasons of the year commencing with Winter, and Prof. Norton's notes will be published as an appendix to each part. The first chapter treats of the following subjects, under the head of

INITIATION

On the best of the existing Methods for acquiring a thorough knowledge of Practical Husbandry.
On the Difficulties to be encountered in learning Practical Husbandry, and on the Means of overcoming them.
On the Different kinds of Farming.
On the Persons required to Conduct and Execute the Labor of the Farm.
On the Branches of Science most applicable to Agriculture.
On the Institutions of Education best suited to Agricultural Science.

On the evils attending the neglect of Landowners and others to learn practical Agriculture.

On observing the details and recording the facts of Farming by the Agricultural Student.
Terms of the Work.—The American edition, the first number of which is already issued, will be published in semi-monthlies of 64 pages with an English steel engraving in each number, of which there will be about 32 in all. PRICE, 25 CENTS per NUMBER.

CLUBBING.

Holloway's Pills.

CURE OF A DISORDERED LIVER AND STOMACH, WHEN IN A MOST HOPELESS STATE.

Extract of a Letter from Mr. William Harvey, of Chapel Hill, Andover, Scotland, dated the 15th of January, 1850.

Sir—Your valuable Pills have been the means with God's blessing, of restoring me to a state of perfect health, and at a time when I thought I was on the brink of the grave. I had consulted several eminent doctors, who after doing what they could for me, stated that they considered my case as hopeless. I ought to say that I had been suffering from a Liver and Stomach complaint of long standing which during the last two years had so much increased that every one considered my condition as hopeless. I at last gave up, and by persevering in their use for some weeks, together with rubbing night and morning your Ointment over my chest and stomach, and right side, I have by their means again got completely cured, and to the astonishment of myself and every body who knows me.

(Signed) MATTHEW HARVEY, CURE OF A CASE OF WEAKNESS AND DEBILITY, OF FOUR YEARS' STANDING.

Extract of a Letter from Mr. Smith of No. 5, Little Tanna Street, Gibson Street, Lambeth, London, Dec. 12th, 1849.

To Professor Holloway—Sir—I beg to inform you that for nearly five years I hardly knew what it was to have a day's health, suffering from extreme weakness and debility, with constant nervous headaches, giddiness, and sickness of the stomach together with a great depression of spirits. I used to think that nothing would benefit me as I had been to many medical men, and I soon found myself better by taking your pills, and as I went on persevering in their use for six months, when I am happy to say they effected a perfect cure.

(Signed) WILLIAM SMITH, (frequently called EDWARD) CURE OF ASTHMA, OF TWENTY YEARS' STANDING.

Extract of a Letter from Mr. J. K. Heydon, 78 King Street, Sydney, dated 10th of November 1849.

To Professor Holloway—Sir—I have the pleasure to inform you that many extraordinary cures of Asthma have been effected here by means of your Pills. One is that of a Lady residing near the "Ranch," who after having for twenty years been unable to make the slightest exertion suffering very severely from shortness of breath, coughing, and spitting, but, as now, she can walk up the mountain, and is able to run up to the top of the mountain. Another case is that of Mr. Canon, Taylor, Hutchinson's Buildings, Clarence Street, who was so dreadfully bad that he was confined entirely to his bed-room for six months, and after his commencing with your Pills, and attended regularly by his medical man, who pronounced him to be in a dying state, yet he, likewise, is now able to go out of doors, and is perfectly healthy by the use of your Pills, and rubbing your Ointment night and morning into his chest.

(Signed) J. K. HEYDON, ANTONISHING CURE OF THE EARL OF ALBOROUGH.

By this Miraculous Medicine after every other means had failed.

A Copy of a Letter from the Earl of Alborough dated 21st May, 1848, to Professor Holloway.

Sir—Various circumstances prevented the possibility of my thanking you before this time for your kind and most valuable Pills, as you did I now take the opportunity of sending you a note for the amount, and at the same time, to state that your Pills have effected a cure of a disorder in my Liver and Stomach, which was the most serious of the Faculty at home, and all over the Continent had not been able to effect, may I not even the waters of Calais and Harrogate. I wish to have another Box and a Part of Ointment in case any of my family should ever require either.

I remain, with much respect, Your most obliged and obedient servant, (Signed) ALBOROUGH.
