CREDIT TO CHATHAM

The Hamilton Spectator, a paper which itself possesses a national reputation for the excellence of its special illustrated issues, said editorially yesterday:—

"The Chatham Planet, establishment has just turned out a most creditable piece of artistic work, The Planet Souvenir Edition. It is full of beautifully printed half-tone pictures and interesting letterpress. It is a credit to The Planet and to Chatham."

KEPT HER NERVE

The President's Daughter Was in a Runaway—Father Praises Her for Coolness.

Washington, June 6.—Miss Alice Roosevelt returned from St. Louis this afternoon, only to meet with a more strenuous incident than any she encountered at the hands of the world's fair crowds, and for a brief moment it looked as if the president's daughter would be seriously injured in a runaway.

The White House coupe met Miss Roosevelt at the depot, and the run up the avenue was made as quickly as could be desired. On Fifteenth street, in front of the treasury building, however, the horse became suddenly frightened from some unknown cause. He stopped in his tracks, like a bucking broncho and then made a dash for the Biggs House pavement. One of the wheels of the coupe struck a carriage and tore out six spokes from the hub of the latter. Then the horse took another direction and ran blindly into a cab. He slipped and fell and some one caught his head to hold him down.

Miss Roosevelt remained calm throughout, and as the horse fell, she motioned to her maid, who accompanied her, to leave the coupe from the left side while she slipped out from the right. She took with her a small box of flowers, while her maid carried a couple of boxes given the president's daughter by admiring Filipino visitors at the fair.

They walked quietly to the White House, a short distance away. Several "rabbits" endeavored to jump them into their vehicles, but Miss Roosevelt apparently had enough riding for one day. President Roosevelt was about to take his daily horseback gallop when he saw his daughter come walking up the White House grounds. He appeared anxious when Miss Roosevelt told what had occurred, but later laughed and complimented her on her nerve. The horse was taken from the coupe and a White House policeman and footman pulled the vehicle to the stable.

GRANTS TO BANDS

The 24th Regiment held a regulation drill and march-out last evening, both bands being in attendance. On the march-out the soldiers were heartily applauded on the King St. route.

After the parade was dismissed, the officers held a short meeting in the orderly room, Lieut.-Col. Rankin presiding. The invitation to visit Wallaceburg on Dominion Day was discussed and referred to a committee to definitely decide upon terms. It was decided to grant \$125 to the Bugle Band and an additional \$25 to the Regimental Brass Band, and to pay Bugle-Major Plunridge a special salary in recognition of his valued and excellent services with the Bugle Band.

STRUCK DEAF AND DUMB

Chicago, June 6.—Professing disbelief in God, and following his statement with a challenge to the Almighty to demonstrate His power, Julian Renfro, aged 21, was suddenly stricken deaf and dumb here. Since being stricken he has gone to his home in Shreveport, La. This is what Renfro is alleged to have said: "Fellows, if God would demonstrate Himself to me in some way, for instance, if He would strike me deaf, dumb or blind, I might admit His existence."

One young man was about to reply to the argument when he noticed Renfro turn pale. Next moment the skeptic threw his arms out before him as if warding off a blow; then he placed his hands before his face. An instant later he fell forward off his chair to the floor. Dr. O. G. Draper pronounced the stroke due to nervous attack.

Renfro could not speak or hear. To Rev. S. W. Jacoby, Renfro communicated this in writing: "I didn't believe there was a God. I believed what I said, but now I am satisfied there is a God, and that I am wanted in His service."

Bewars of the tyranny of caution; time gives every crab a hard shell.

15 MILES FROM PORT ARTHUR

Japanese Army Advancing on Besieged Fort Along Both Coasts.

Engagement Reported but Result not Yet Known—News in the Far East.

Tokio, June 6, 11 a. m.—The destroyer flotilla engaged in watching Port Arthur from the eastward reports that at 7.40 p. m. on June 4, a Russian gunboat of the Giliak type was seen to explode and sink near Chentaou Shan. The vessel, with another gunboat, a destroyer and other steamers, was evidently engaged in clearing the vicinity of mines. When the explosion occurred the others hurried back into Port Arthur. Vice-Admiral Togo expresses the opinion that the explosion was caused by a Japanese torpedo. The name of the gunboat destroyer is unknown, but it had been seen before upon several occasions by the Japanese acting as guardship at the mouth of the harbor.

JAP MERCHANTMAN SUNK

Chefoo, June 6, 2 p. m.—The Russian consul here has received news that a large Japanese vessel has been sunk by a mine off Tallenwan. The news has not been confirmed.

4 p. m.—Russian reports vary regarding the sinking of a Japanese vessel off Tallenwan. It is believed it was a merchantman.

THE JAP ADVANCE

Chefoo, June 6, 11 a. m.—A Japanese correspondent from Dalny confirms the reported advance of the Japanese army on Port Arthur, news of which was brought here to-day by Chinese. The correspondent states, however, that there are fifteen miles between the Japanese and Port Arthur, instead of seven, as reported by the Chinese. The Japanese army is advancing along both coasts.

A BATTLE REPORTED

It is reported that the peninsula division on the east coast fought a battle within fifteen miles of Port Arthur on June 3. The result of the battle has not yet been learned.

MAY HAVE STRUCK A MINE

A junk which lay off Port Arthur June 4 because of lack of wind, heard desultory firing on the morning of the 4th, and saw five Japanese torpedo destroyers as they disappeared below the horizon. Afterwards a tremendous explosion was heard, and it was thought by those on the junk that possibly one of the destroyers had struck a mine. On the night of June 3rd immense columns of flame and smoke were seen from the junk in the direction of Dalny.

HEAVY FIRING HEARD

Tien Tsin, June 6.—Heavy firing was heard at New Chwang this morning, coming from the direction of Liao Yang.

SIN MIN TUNG EVACUATED

The Russians have evacuated Sin Min Tung, about 30 miles west of Mukden, and its vicinity. It is said that the troops which were at Sin Min Tung are joining troops on the road to Mukden. Nothing is known at New Chwang of the Japanese movements.

WERE CELEBRATING

Fourteen young men were tried before Squire Shaw yesterday at Thorndale on the charge of rioting on the night of May 29 at Turnersville. It seemed that the young men and girls always have a good time on the 4th of May at Turnersville. It is a sort of annual affair. The store keeper sold all his fire crackers and after these were gone, they looked for something else to do. Consequently horse play resulted during which time an old rig belonging to the keeper was run into the ditch and several packing boxes were broken up. The costs, amounting to \$21 were paid and the charge was not pressed. O. L. Lewis defended and the Crown Attorney prosecuted.

FIRE IN DUTTON

Dutton, June 6.—About three o'clock Sunday morning fire broke out in the store owned by the Danwich Farmers' Building Society, and occupied by Richard Pedlar, general merchant. Martin Safflor, who temporarily resided in the adjoining store, was awakened by the noise of the fire, and immediately gave the alarm. The firemen were promptly on the scene, and in about an hour had the flames under control. The origin of the fire is a mystery, but it was doubtless the work of an incendiary. The damage to property cannot at present be estimated but is considerable. The insurance companies interested are as follows—Metropolitan, London, Liverpool and Globe, and the Ottawa. An investigation will take place this week.

Richard Stroud, of Hamilton, who is well known in this city, was able to be out for a short walk this morning. Mr. Stroud injured his leg about two months ago while out driving, and since that time he has been confined in the General Hospital. His many Chatham friends will be pleased to hear of his recovery.

CIRCLING THE GLOBE

REIGN OF TERROR

Culmination of Colorado Labor Trouble—Terrible Riot and Slaughter.

Colorado Springs, Col., June 7.—A special from Victor says Sheriff Bell has sworn in 300 deputies. At midnight more than 100 arrests had been made.

Denver, June 6.—A reign of terror, brought on by a dynamiting plot, followed by rioting and an assault on the militia, exists in the Cripple Creek mining region to-night. Armed men throng the streets and conflicts are of hourly occurrence. Militiamen are marching hither and thither, making arrests by wholesale. A number of union miners have been placed in the military "bull pen" and others are gathered in at frequent intervals.

City and county officers have been compelled to resign because of their reputed sympathy with lawbreakers. As near as can be estimated to-night, twenty-two are dead and a score are injured as a result of the events leading up to the lawless conditions that now prevail.

Beginning with this morning, when an infernal machine, set under the station platform at Findlay, on the Florence & Cripple Creek railroad, was touched off and a number of non-union men were killed and others horribly mangled, events followed thick and fast. They culminated in a riot at a mass meeting, where a bullet blew in every direction. At least one man was killed, while several are injured.

Later a company of military was marching past union headquarters, searching for union miners. The soldiers were fired on, according to reports, from armed men concealed in Union Hall. The soldiers stormed the building and from last accounts, shot at least seven unionists. The remainder fled, blood streaming from their wounds. The soldiers, who were unhurt, pursued and arrested a number of the fleeing men and continued far into the night to scour the country in search of men supposed to have been in Union Hall at the time of the assault on the troops.

At the headquarters of Adj.-Gen. Bell in Denver, everything is in readiness promptly to meet a call for additional troops in the gold camp. It is said that the railroads have been instructed to have locomotives and cars ready. However, from the tone of a communication received from Sheriff Bell, the newly appointed officer of Teller County, he will ask for further aid from the military only as a last resort. He intimated that he could control the situation unless a general clash of opposing interests occurred.

To-day's outbreak had its inception in the strike of the members of the Western Federation of Miners more than a year ago when 4,000 quit work to secure an 8-hour day. This action so incensed the mine owners that they declared war on unionism. The breach has grown wider every day. Much lawlessness has prevailed in the strike-ridden regions and unionists have been brought to trial on numerous charges. They were invariably acquitted, however.

TERRIBLE MISTAKE

Mrs. Mary L. Burke was able to be out yesterday for the first time since her accident of a week ago Friday.

Mrs. Burke had been suffering with her eyes and had secured some eye-water from a specialist. Unfortunately she mistook a bottle of carbolic acid for the eye-water and had put several drops in her eyes. Mrs. Burke suffered terrible pain and was in great danger of losing her eyesight. Although still suffering considerably, the lady will still be able to use her eyes.

POOR LIGHTS

"Chatham has certainly got a poor electric light service," complained a citizen to The Planet this morning. "This is an old kick, but it is still one worthy of mention. Last night the three lights, one on the corner of Queen street and Lorne avenue, another on Patterson avenue and the other on Lorne avenue and Raleigh streets were all out, and that part of the city was in darkness all night. The Property committee should get new men to attend to these lights if they can't get the Council to buy a new dynamo."

TUESDAY, JUNE 7.

LATENT BETTER NATURE

The worst boy in Denver was arraigned the other day before the Judge of the Juvenile Court and sentenced to the Reform School. The Judge told the boy he was to go there alone. "The police tell me," he said, "that you make them more trouble than any other boy in town, and that you won't go a mile unless you are dragged by an officer. Is the laugh going to be on me or on the police?" "You bet your life, Judge," said the boy straightening up, and a look of pride coming over his face, "the laugh is going to be on the police!"

The boy reported promptly at the Reform School; he had been put on his honor; he had been trusted; responsibility had begun instantly to develop what was mainly in him, and he is likely to get more benefit than many boys from the institution.

It is not certain that all boys and girls would respond as promptly to an appeal to their better nature. But it is coming to be recognized that children can be trained in great measure to govern themselves, and that they develop faster and better under such training than under authority and repression.

WELL DONE, TORONTO.

The fact that must impress everybody who followed the course of the civic investigation and studies the report of the county judge is the absence of anything like organized corruption in the election. Having regard for the fine mesh of the drag net let down by the prosecutor, and the exceedingly light draught secured, the contest of January last is notable chiefly for its cleanliness. Nothing was omitted that would contribute evidence. Every elector marked as having voted was visited by the people. The city was scoured for proofs of fraud, and very properly so. When the thoroughness of the inquiry is considered the revelations must appear insignificant.—Toronto News.

Toronto is a Conservative city. The fact was thoroughly rubbed in by the Liberal press when the election scandal cropped up and every attempt made to make capital out of it as a sort of set-off to the corruption of the Liberal machine in Ontario. At the time the Ottawa Citizen said the prostitution of electoral morality by the Ross Government and its failure to punish electoral offences was responsible for the sporadic outbreak among the Toronto Tories, because foolish people had been led to cherish the impression that the law was a dead letter and electoral crime a venial offense. The evidence given before the investigating judge supported that view. Those chiefly implicated were misguided amateurs—all except one, and he was a Liberal professional. The machinery of the courts was so operated that, in the customary style, this professional was allowed to jump his bail and escape punishment.

But the whole unfortunate affair had its bright side. As the News says, the investigation of the frauds was of the most searching description and let the calcium of publicity into every corner. The guilty were punished as they deserved and the electoral law vindicated in a manner that has not been done in many years, notwithstanding the gross cases that have come to light in connection with the operations of the Ross "machine" from time to time.

The Conservative city of Toronto deserves the congratulations of the whole province. When the scandal came to light the investigation was entered upon with a determination to discover and punish the guilty, even though they are Conservatives. Exemplary sentences were meted out to the offenders. Not only that but the public official, also a Conservative, who had profited by the frauds, knowingly or otherwise, was forced to resign, and on seeking re-election was snowed under by the Conservative city of Toronto.

The whole affair was an object lesson to our Liberal friends, as well as a dignified rebuke to the depraved tone of the Liberal press of the province which, at the outset, saw nothing in the deplorable affair but an opportunity to decry an attitude of reproach which had characterized the Conservative party in its denunciation of the brazen corruption which has embled the shameless and shameful Grit regime of thirty years to eling to office by the help of a gang of political mercenaries and criminals. The Conservative city of Toronto has vindicated that attitude. The people of the province will not be slow to compare the prompt and efficacious action in the case of the Toronto ballot frauds with the dozen or more worse scandals that have been brought home to the door of the Liberals in

the past few years, and in not a single case has the law been upheld. Suggestive in the highest degree was the one glaring fact in connection with the Toronto crusade against electoral crime that by some disgraceful connivance the only man who escaped his deserts was a Grit professional "machine" operator,—and that was not the fault of the Conservative city of Toronto.

HOW BRITISH TARS DO IT.

Toronto News.
With a dash of irony press despatches congratulate the Vladivostok squadron on its success in avoiding shipwreck on returning to its home port in a fog. Fifteen or twenty years ago the British Pacific squadron visited Vladivostok. When it arrived off the port a heavy fog hung over the harbor. The British warships unhesitatingly found their way in, unseen from the forts on the cliffs. When the fog lifted, the Russians, to their amazement and chagrin, found a fleet of powerful warships moored in perfect order behind their forts and commanding their arsenals.

THE GAMEY ISSUE.

London Free Press.
The sentiment voiced by the presence of several thousand of Toronto citizens at Massey Hall may be said to permeate the province from end to end. At every meeting addressed by Mr. Gamey on this vital question concerning the honor of the public administration, the crowds are too great for the place of assemblage, the attention given to his words that which the most consummate actor would be proud to receive.
This does not proceed from mere curiosity to see a notable character and hear his deliverance. It is not Mr. Gamey as a declaimer whom the people flock to. It is because the impression is deep and widespread that his message is one that ought to be heeded, that he has uncovered a rancorous sore in the body politic that ought to be remedied, and that in so doing he has been unjustly treated by those in power.

McFARLANE--WOOD

A very pretty wedding was celebrated at the home of Mr. and Mrs. John Wood, Tupper Ave., Yorkton, Assa., on June 1, when their adopted daughter, Ida C. L. Wood, was united in marriage to J. D. McFarlane, of Benscath, Man., by Rev. W. A. Butterworth. The bride looked charming in a dress of pale green silk voile, made up with white satin and all over silver spangled lace. Robert Cain was best man, while Miss Mary Galbraith, dressed in fawn canvas cloth, was bridesmaid. The supper table was nicely decorated with pink and white wild flowers.

The wedding presents were both costly and numerous, showing the esteem in which the bride was held in this town.

The happy young couple left on Thursday Morning, June 2, for their new home in Benscath, Manitoba, amid showers of confetti and good wishes of their many friends.

But Dodd's Kidney Pills Made Him a New Man.

Richard Quirk, Doctored for a Dozen Years and Thought His Case Incurable—Dodd's Kidney Pills Cured Him.

Fortune Harbor, Nfld., June 6.—(Special).—Scores of people in this neighborhood are living proofs that Dodd's Kidney Pills cure all kidney ailments from Backache to Bright's Disease. Among the most remarkable cures is that of Mr. Richard Quirk, and he gives the story of it to the public as follows:

"I suffered for over twenty years from Lumbago and Kidney Disease, and at intervals was totally unable to work. After ten or twelve years of doctors treatment, I had made up my mind that my complaint was incurable. Reading of cures by Dodd's Kidney Pills tempted me to try them. I did so with little faith, but to my great surprise I had not taken more than half a box before I felt relief and after the use of seven or eight boxes, I was fully cured and a new man."

"Yes, Dodd's Kidney Pills cured my Lumbago and Kidney Disease, and the best of it is I have stayed cured."

JAIL POPULATION.

Inspector of Prisons' 36th Annual Report Shows a Large Increase—The Cost of Maintenance.

The thirty-sixth annual report of Dr. Chamberlain, Inspector of Prisons, presented before the prorogation of the Legislature, says the sanitary condition of many of the jails has been improved, but there are still many in a very dilapidated condition and unsafe for the custody of prisoners. In Northern Ontario eight new lock-ups have been fitted up. He suggests that on account of the great extent of territory in New Ontario, the moving of prisoners and lunatics from the outlying districts to the central institutions has become so expensive that it would be well to consider the advisability of establishing a small prison and also an asylum at some point north of Lake Superior.

Committees to Jails.

The number of committals in 1903 was 9,261, nearly 1,000 in excess of the previous year. Crimes against the person have increased during the year by some 116 over the previous year, but are still less than any other year since 1877. Crimes against property have been lower than they have been for twenty-five years, the total for last year being 2,190. Crimes against public morals and decency remain about the same as the previous year. Offences against public order and peace are slightly greater than the previous year. The other crimes with which prisoners were charged were about the same as in the previous year. Committals for drunkenness were some 300 in excess of the previous year. The number of prisoners sent from our province to the Penitentiary for the past year in excess of those of the previous year were 21; and to the Reformatory for Boys, 22; and the Central Prison, 157. The total number of prisoners in the jails on Sept. 30, 1903, was 617.

Thirteen prisoners escaped, eight of whom were recaptured. There were 38 deaths. Of the prisoners 1,221 were females; 3,397 were married and 5,864 unmarried. Those who could not read or write numbered 1,662 and 6,363 were intemperate.

Cost of Maintenance.

The cost of maintaining the jails in the province for food, clothing and fuel was \$57,252.84; for salaries, \$86,081.95, and for ordinary repairs \$7,122.23. The average cost for food, clothing and fuel was \$6.13 for each prisoner committed. The greatest number of prisoners at one time during the year was 1,090; the lowest number 299. The average cost per day per prisoner was 24c.

It is worthy of note that all the jails of the province in their returns of the earnings of prisoners only report \$32.89 as the total earnings of prisoners for the year. This sum was derived from the Cornwall jail.

Central Prison.

The report for the Central Prison shows 713 committals. There were 308 in custody at the commencement of the year, making the total 1,021, compared with 1,019 the previous year. The average daily population was 353. Of the number committed 455 were for the first time, 130 second, 59 the fourth and the remaining 44 from five to 15 times.

There were committed for vagrancy 201, as compared with 140 the previous year. The number discharged on ticket-of-leave was 34, and 18 were discharged on remission of sentence, together being a fraction under 7 1/2 per cent. of the whole number of commitments. Of the total number committed one was a total abstainer, 209 were temperate and 503 intemperate. The illiterate were 67, read only 14 and 632 could both read and write. The total stay of prisoners was 128,850 days, an increase of 10,350 as compared with 1902. The gross per capita cost per diem for maintenance was 49.04c, against 55.61c in the previous year, a reduction on the previous year of 6.57c per diem.

The total cost of maintenance outlay for the year was \$63,192.77, against \$58,748.32 the preceding year.

Reformatory for Boys.

In the Reformatory for Boys the number of inmates at the beginning of the year was 112, committed 44. Thirty-two were pardoned, 15 transferred to the Central Prison, three escaped and 86 were in residence at the close of the year.

The Mercer Reformatory for Females receives 111 guests, as compared with 117 the year before. Sixty-nine were there at the beginning of the year, and 64 at the close. Twenty-one were illiterate, and 86 temperate. In the Refuge for Girls there were 72 at the beginning of the year, and 10 were committed during the year. The average population of reformatory and refuge was 183, as against 141 the preceding year.

New Provincial Crest.

A point of interest to crest collectors and others has just been decided by Premier Ross as a result of the late fire in Toronto. Nearly all the dies of the crests used with the stationery in the various departments were destroyed in the fire. Smith warehouse. These crests presented a great variety of design, various decorations having been introduced.

The question of adopting the correct arms of the province had been under consideration for some time at the instance of the Provincial Assistant Secretary. The fire having provided the opportunity, Mr. Ross has determined that in future all the crests will be uniform and according to the King's warrant.

A copy of this was exhibited the other day, of the date Sept. 21, 1869, Albert William Woods, Lancaster Herald, having prepared it. The warrant grants armorial bearings to the several provinces of the Dominion.

"For the Province of Ontario, Vert, a sprig of three leaves of maple slipped Or, on a chief Argent the Cross of St. George."

EYES SPEAK

Volumes, at times, of woman's happiness or misery. The dull, sunken eye, with its dark circles almost surely speaks of womanly ill-health, and its attendant suffering. With the dull eye goes usually the sallow, sunken cheek, the drawn mouth, the shrunken form—the whole glory of woman's beauty marred by the effects of disease.

Dr. Pierce's Favorite Prescription cures the diseases which undermine the health and mar the beauty of women. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter free, and so obtain the advice of a specialist upon their disease. His correspondence is strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"With pleasure I send a few lines to let you know that I feel much better than for eight years before taking your medicine," writes Mrs. Pierce, of 523 West Phila. Street, York, Pa. "I will recommend Dr. Pierce's medicine to every person who is troubled with female weakness, and began to think I would never be well. If I had continued the treatment prescribed by my doctor I don't know what would have become of me. When your treatment was commenced my weight was not pounds, at present 116 lb. Have healthy color and my friends say I look well. My best thanks to you and my best wishes, too, for what you have done for me."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets cleanse the clogged system from accumulated impurities.

English Sheep Feeders.

The Hampshire breeders of England are among the most judicious feeders in the world. Their object is to get their lambs to market as early in the fall as possible, and they spare no expense in providing the best foods for that purpose. As soon as their lambs commence to eat they are provided with grain, oil cake, bean meal, palm nut meal, etc., besides having an abundant supply of turnips in the turnip season, after which they are allowed the range of irrigated meadows by day and the sward field by night. As the season advances they are put on rye, winter oats, Italian clover, vetches and such like fodder crops. The growth these lambs make on such fare is simply wonderful.

Infant Mortality.

What can be done in the way of saving infants by proper dieting was shown at a recent meeting of the Paris Academy of Medicine by Dr. Budin. Out of 712 infants who were brought to him and whom he was able to follow up during the mortality was only 4 per thousand, whereas the mean for all Paris is 178 per thousand. None of his infants died of digestive troubles, of which the mean official mortality is sixty-five per thousand. One of his principles is that, underfeeding is better than overfeeding, which is dangerous even when the infant is breast fed.

The World's Coffee Supply.

There are 49,000 coffee plantations in the world. The total annual production of coffee amounts to 21,500,000 bags; of an average weight of 134 pounds each, or 2,881,000,000 pounds. This production represents a total value of more than \$255,000,000 annually from more than 1,800,000,000 coffee trees in full bearing. The land used exceeds 3,600,000 acres. The value of the property is more than \$1,350,000,000. The industry gives employment to 2,220,000 men, women and children.

Paper Stockings.

Paper gloves and stockings are now being manufactured in Europe. The stockings have been carefully examined by experts, who praise them loudly. These stockings will last almost as long as the ordinary stockings. The paper of which they are made is during the process of manufacture rendered into a substance closely resembling wool and is then woven and treated as ordinary wool.

Russian Wages.

Wages in Russian factories are 2 cents an hour and upwards. There are thousands who work for a cent an hour and some of thousands who do not receive 30 cents a day for ten, eleven and more hours' work.

The thousands of people who write to me, saying that

COUNTRY OF WIDE-EYED DREAMS.

Where are you journeying, little boy, So far from the world and me? Your round, blue eyes are afloat with joy At something I cannot see.

Wonderful visions of dewy dells, Where sprites sit to and fro On shadowy wings and weave their spells O'er the pilgrims that come and go;

Fire-eyed goblins that grin and nod At the fluttering butterflies, Fairies asleep 'neath the golden-rood That beads under autumn skies—

All these must lie on the road you tread And beckon you on the white Toward the light that is shimmering ahead In the land of the rainbow's smile.

Take me with you, far-seeing elf, To that realm where you are to-day, Where worldly cares and thoughts of self Are ever so far away.

Show me the wonders your little eyes Have learned to discover there, For I see them light with a pleased surprise As you sit in that rocking chair.

And swishing so dreamily, look away To a country beyond my ken, A country I fear you will seek some day And never come back again.

Yet I know no way that a child may go, All with a fair and cloudless brow, And never a shadow of pain or woe. But the one you are traveling now.

FAMOUS JOURNALISTS.

Some Notable Instances of Journalists Who Have Become Great Statesmen.

Lord Salisbury traveled without a servant, became a minor in Australia camps, roughed it, washed his own clothes and in later years showed his business capacity by dealing with the difficulties of an unlucky railway company so successfully that he was presented with a splendid service of plate by grateful shareholders and directors. Not the least of his possessions in his estimation was that testimonial which occupied an important place in his dining-room at Hatfield. And, mind you, he did not enter Parliament until he had qualified himself to pass the most rigid examination in the nature, politics and possibilities of the British colonies and possessions by experience and study on the spot. We heard recently all about his taking to journalism in London for a living rendered necessary because he had not altogether pleased his father by making a love match, not beneath his station, but without consideration of money. Journalism is not a bad training for statesmanship. It helped Disraeli. Lord Milner was a journalist, and he was sent to South Africa by a Liberal Government. John Morley may almost be said to be a journalist still, and Sir William Harcourt was one of the most brilliant pens on The Times. Apart from these notable instances of journalists who have become great statesmen, an interesting list might be compiled of men who have adorned literature and art and might have been famous as legislators had they chosen to give up to politics what was meant for mankind: Joseph Cowan, Sir William Leng, Geo. Meredith, Sir Edwin Arnold, Sir Edward Russell, Herbert Spencer and not a few others who served an apprenticeship on the newspaper press.—Joseph Hutton.

Temperance Affects Clubs.

The sudden closing a few days ago of the Junior Army and Navy Club, London, is significant of the condition of other West End clubs.

One cause of low club vitality lies in the remarkable fact that most of the West End clubs are face to face with a steady decline in the sale of wines and spirits. This seems to have originated about four years ago in the preference shown for light beer of German name if not made in Germany, and almost simultaneously with the introduction of barley water flavored with lemon as a summer beverage. The profit on ale and non-intoxicants is of course not so large as that on wine or spirits.

But apart from new and cheaper kinds of beverage, the slubman of today is far more temperate. In both drinking and eating he studies what he calls his liver, and endeavors to ward off a tendency to gout. Dieting among the well-to-do classes has become almost a craze in some quarters.

Club committees are face to face with a serious problem. With the hard rents they pay, the receipts for food and drink are a very necessary supplement to the subscriptions, an increase in which is being seriously contemplated by more than one committee.

Patti's Perennial Youth.

Mrs. Patti, who has recently celebrated her sixty-first birthday, has not only "won its secret of sweet song from the nightingale," but she has discovered that still rarer treasure, the secret of perennial youth. "I will be young as long as I live," she is said to have declared, as a child and she is keeping her vow with a fidelity no one else can hope to rival. Perhaps the essence of it all is her determination always to see the sunshine in life. "If there is the tiniest speck of blue in the sky," she says, "and there nearly always is, I look for it, and that makes the whole heaven blue for me"—a charming philosophy we should all do well to cultivate. For the rest, nature is responsible, with its sunshine and pure air, in which she loves at all seasons of the year to steep herself. "I spend three hours daily in the open air, walking or driving in an open carriage, and I accustom myself to bear the extremes of summer and winter." And this is why Miss Patti has carried the freshness and bloom of sixteen into the sixties.

No Occasion for Remorsement.

"Have her parents forgiven her for eloping with the young man?" "Yes, they sort of had to forgive her, you know, when she found out that they paid the cabman who drove her to the station."

Need Watching.

"When you are in Rome you must do as the Romans do." "Not necessarily, but you must watch out of the Romans will do you."

In order to correctly round out the picture, the characters, costumes, accoutrements and scenery portray in Ringling Brothers' unequalled production of Jerusalem and the Crusades, the costliest pipe organ ever constructed, is shown in the church settings. This organ is one of extraordinary volume and richness of tone, and excels instruments of a similar kind found in the famous old cathedrals of Europe. Accompanied by the instrument, a grand chorus of 200 specially selected voices rise and blend in classical selections, filling with wonderfully sweet harmony the vast canvas amphitheater, capable of comfortably seating twenty thousand people. Will exhibit here Saturday, June 11.

KILLED HER FIANCEE.

Chicago, June 6.—When Mrs. Rebecca Bailey called at the Wesley Hospital to see her fiancée, Louis Miller, who had been taken to the institution fatally wounded by a bullet, she was arrested on a charge of shooting him. At the time of her arrival the man was making an artemortem statement, accusing her, and the police were searching for her. Miller and Mrs. Bailey were to have been married within a week, and the shooting took place in Mrs. Bailey's apartment. The theory of the police is that Mrs. Bailey, who is a widow, shot Miller while in a jealous rage, because of his failure to name a definite day for the wedding ceremony. Miller died later.

The weather was not favorable during the whole time of the exhibition, but a very liberal patronage was extended, as will be shown by the door receipts. It is impossible to particularize any one item of profit, but every part of the exhibition, including the commission from sales, proceeds of tea-meetings, concerts, etc., has been satisfactory and the net result is a little beyond the expectations of the officers when it is considered that the exhibition had but weather and some counter attractions to contend with.

While the expenses have been considerable, the net result has warranted every expense that has been made. The officers have endeavored to be careful and wise in their expenditure and they hope that their actions will have the full approbation of the society.

It is impossible to give the exact result of the exhibition for the reason that a number of accounts have to receive the assent of the society in open meeting before they may be paid. These will be presented for your consideration. However, an approximate amount can be given, and the net result will vary very little from this amount. The receipts from the different booths and schemes of the officers as entered in the treasurer's books, will be given and itemized as they are shown in the books. The expenses and disbursements are also particularized in the books. Vouchers for the expenses are in the hands of the treasurer, and after the books are finally closed these vouchers and books will be handed to the auditors to have the statement verified.

(Mrs. Hadley here read the statement of receipts and disbursements.) The officers are pleased to report that they have on hand \$1,200. In addition to this the officers have donations of goods amounting to \$50 yet to sell.

The object of holding this exhibition was to pay the balance of \$600 owing on the new organ, and it is a pleasure to report that this balance may be paid at any time the ladies pass a resolution authorizing the payment of same, and a nice balance will be left over for any other purpose that the ladies deem wise to expend it for.

This being the first year that your Treasurer has held office, it is our pleasure at this time to extend our personal thanks for the many courtesies and kindnesses extended to her by the different ladies of this Society both before and during the exhibition, and for their many expressions of kindness. If any mistakes have been made they have been purely mistakes of the head and not of the heart, and it is the wish of your Treasurer that the ladies will overlook any shortcomings of hers, and no doubt you will understand that it is impossible to have everything perfect, especially when she has had no previous experience in handling an affair of this kind.

All of which is respectfully submitted.

E. I. HADLEY,
Treasurer.

BOARD OF THANKS.

The Ladies' Aid of St. Andrew's Church desire to thank those who contributed to the success of "Made in Canada" Exhibit. The ladies find it impossible to thank each one personally and hope this expression will be accepted.

"There were no lights in this section of the town last night at all," said E. C. Gammage, the Queen street grocer, "The Planet reporter this morning. The streets were in almost total darkness, which makes it very dangerous for everyone."

"I wish The Planet would get after the Council again good and hard about the electric lighting problem," said a Lorne avenue resident this morning. "The whole western section was in darkness last night—and it's getting to be a very common occurrence."

A very pleasant and jolly canoeing party was held up the river last evening in honor of Miss Pedlar, who is visiting Mrs. E. B. Northwood, William street. The party was composed of ten, and they proceeded to a beautiful picnic ground where lunch was served. The weather was everything that could be expected, and the canoeing was keenly enjoyed by the whole party.

GRAND TRUNK EXHIBIT, WORLD'S FAIR.

The Grand Trunk Railway Exhibit, occupying a central position in the Forestry, Fish and Game Building, is one of the handsomest pavilions on the grounds. It is of Doric and Corinthian architecture, with Doric and Ionic heads as central pieces in the cornice. Large "broadside" pictures depicting hunting, fishing and summer resort scenes along the line are in panels on the three sides. The interior is decorated with large photographic productions, well mounted fish, consisting of brook trout, land-locked salmon, cunamuche, wall-eyed pike, small mouth black bass and muskellunge. Two oil paintings, 9x13 feet, executed by one of the best artists in Canada, and titled "The Royal Muskoka Hotel" and "Head of Lake Joseph," scenes in the Muskoka Lake district, handsomely framed, are on the inside front wall. These two pictures will be placed in the King Edward Hotel, Toronto, after the Fair closes. One of the largest Moose heads in the world, is also on the wall. This head has a spread of sixty-six inches, the palms having the width of fourteen inches, and is one of the finest specimens of taxidermy on the grounds.

The ceiling is divided into three panels, each panel having an art glass skylight of unique design, the whole being lighted with over one hundred ground glass incandescent bulbs. The general coloring is maroon and cream, and the light green frames of the broadsides and the gold of the oil paintings make a very pleasing contrast. Two moving picture machines, showing scenes on the road from the St. Clair Tunnel to the Androscoggin River in Maine, are run continuously, while the wonderful reflection picture "On Shadow River" continues to revolve every thirty seconds, and a puzzle to many is, which is the reflection?

Handsomely printed matter, descriptive of the different sections, is being distributed, and the representative in charge gladly furnishes information regarding same.

NEWS-PAPER TALK

Don't you grow very weary of the extravagant clothes talk in the Newspapers?

Isn't it refreshing to read the ad. of a Clothing House that does not proclaim that some Manufacturer is "bushy-ed?"

Isn't it refreshing that we do not shout that we are overstocked?

Isn't it refreshing that we are not advertising \$25.00 suits on sale at \$10.00?

Isn't it refreshing to go to a store that is not always shouting "Bargain Sales?" We have many refreshing Suits here that are a pleasure to show and sell to you and that will be a pleasure for you to wear. Children, Boys, Youths, Mens:

MEYNELL,
King St.,
CHATHAM.

Reginald Robert, the infant son of Mr. and Mrs. Geo. Wardle, died yesterday. The little fellow had never been well. The funeral will take place to-morrow afternoon at 2.30 o'clock from the residence of his father, Emma street, to the Maple Leaf cemetery.

Geo. Cunningham was arrested yesterday on a charge of stealing a coat from Meynell's clothing store. On the 7th or 8th of May a coat was stolen and Mr. Meynell reported the theft to the police. P. C. Dezelia was working on another case when he found the coat in Cunningham's house. He arrested the man and he was arraigned this morning and remanded till Monday.

Turn Time Backward. Be Young Again.

At last there is hope for the army of young, old, middle-aged men who either through early dissipation, later excesses or exposure find themselves lacking in virile power. How many of you are now reaping the harvest of your folly? At last there is a cure for the man who is old before his time. It is not a matter of days, weeks, months, or years, but of hours. It is not a matter of whether through ignorance or otherwise, the punishment always corresponds with the crime of abuse committed. Do not, however, hope, as there is a cure, thanks to Dr. E. J. Moran, the noted specialist, who can give you the best thing you should be: if you have stricture, gonorrhea, sexual weakness, varicocele, lost vitality, blood poison, hydrocele, emaciation, impotency, rheumatism, bladder or kidney trouble, heart disease, nervous debility, etc., write at once to Dr. E. J. Moran, and he will send you his method of curing these diseases free of charge. This doctor has treated fourteen thousand varicocele and lesions from colleges and state schools of medical examination which would condemn a case for life and treatment is equivalent to a cure, as he never accepts an incurable one. Consultation, and should you decide to doctor with him, please write.

Pay When You Are Cured.

The doctor realizes that it is one thing to make a man and another thing to back him up, so he has made a rule not to ask for money unless he cures you, and when you are cured he feels sure that you will willingly pay him a small fee. It would seem, therefore, that it is to the best interest of every man who suffers in this way to write to Dr. E. J. Moran, and he will send you his method of curing these diseases free of charge. This doctor has treated fourteen thousand varicocele and lesions from colleges and state schools of medical examination which would condemn a case for life and treatment is equivalent to a cure, as he never accepts an incurable one. Consultation, and should you decide to doctor with him, please write.

MORAN

OF THE
LADY LETTY...

By 4 o'clock next morning Wilbur had the hands at work digging the sand from around the Bertha Millner's

"We've got it!"

bow. The line by which she was to be warped off was run out to the ledge of the rock, fresh water was taken on, provisions for the marooned beachcombers were cached upon the beach, the dory was taken aboard, gaskets were cast off and hatches battened down.

At high tide, all hands straining upon the warp, the schooner was floated off and under touch of the lightest airs drew almost imperceptibly away from the land. They were quite an hour crawling out to the heads of the bay, but here the breeze was freshening. Moran took the wheel, the flying jib and staysail were set, the wake began to whiten under the schooner's stern, the forefoot sang, the Pacific opened out more and more, and by 12:30 o'clock Moran put the wheel over and as the schooner's bow swung to the northward cried to Wilbur:

"Mate, look your last of Magdalena bay!"

Standing at her side, Wilbur turned and swept the curve of the coast with a single glance. The vast, heat-scoured hoop of yellow sand, the still, smooth shield of indigo water, with its beds of kelp, had become insensibly dear to him. It was all familiar, friendly and hospitable. Hardly an acre of that sweep of beach that did not hold the impress of his foot. There was the point near by the creek where he and Moran first landed to all the water casks and to gather abalone; the creek itself, where he had snared quail; the sand spit, with its whitened whale's skull, where he and Moran had beached the schooner, and there, last of all, that spot of black over which still hung a haze of brown gray smoke, the charred ruins of the old Portuguese whaling cabin, where they had outfought the beachcombers.

For a moment, Wilbur and Moran looked back without speaking. They stood on the quarter deck in the shadow of the mainsail, shut off from the sight of the schooner's crew and for the instant quite alone.

"Well, Moran, it's goodbye to the old place, isn't it?" said Wilbur at length.

TWO BOXES OF
MILBURN'S
HEART and NERVE
PILLS

Cured Mrs. Edmund Brown, Inwood, Ont., who she had almost given up hope of ever getting well again.

She writes: "I was so run down that I was not able to do my work, was short of breath, had a sour stomach every night and could scarcely eat. My heart palpitated, I had faint and dizzy spells and felt weak and nervous all the time. My husband got me a box of Milburn's Heart and Nerve Pills but I told him it was no use, that I had given up hope of ever being cured. He however persuaded me to take them and before I had used half the box I began to feel better. Two boxes made a new woman of me and I have been well and have been able to do my work ever since."

Mrs. Rosa Adams, niece of the late General Roger Hanson, C.S.A., wants every woman to know of the wonders accomplished by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I cannot tell you with pen and ink what good Lydia E. Pinkham's Vegetable Compound did for me, suffering from the ill peculiar to the sex, extreme lassitude and that all gone feeling. I would rise from my bed in the morning feeling more tired than when I went to bed, but before I used two bottles of Lydia E. Pinkham's Vegetable Compound, I began to feel the buoyancy of my younger days returning, became regular, could do more work and not feel tired than I had ever been able to do before, so I continued to use it until I was restored to perfect health. It is indeed a boon to sick women and I heartily recommend it. Yours very truly, Mrs. Rosa Adams, 819 12th St., Louisville, Ky."—\$5.00 for full trial of original of above letter proving genuineness cannot be produced.

FREE MEDICAL ADVICE TO WOMEN.

Don't hesitate to write to Mrs. Pinkham. She will understand your case perfectly, and will treat you with kindness. Her advice is free, and the address is Lynn, Mass. No woman ever regretted having written her, and she has helped thousands.

"Yes," she said, her deep voice pitched even deeper than usual. "Mate, great things have happened there."

"It doesn't look like a place for a long row with Chinese pirates, though, does it?" he said, but even as he spoke the words he guessed that that was not what he meant.

"Oh, what did that amount to?" she said, with an impatient movement of her head. "It was there that I first knew myself and knew that, after all, you were a man and I was a woman, and that there was just us—you and I—in the world, and that you loved me and I loved you, and that nothing else was worth thinking of."

Wilbur shut his hand down over hers as it gripped a spoke of the wheel. "Moran, I knew that long since," he said. "Such a month as this has been! Why, I feel as though I had only begun to live since I began to love you."

"And you do, mate?" she answered. "You do love me and always will? Oh, you don't know," she went on, interrupting his answer, "you haven't a guess, how the last two days have changed me. Something has happened here," and she put both her hands over her breast. "I'm all different here, mate. It's all you inside here—all you! And it hurts, and I'm proud that it does hurt. Oh," she cries of a sudden. "I don't know how to love yet, and I do it very badly, and I can't tell you how I feel because I can't even tell it to myself. But you must be good to me now." The deep voice trembled a little. "Good to me, mate, and true to me, mate, because I've only you, and all of me is yours. Mate, be good to me and always be kind to me. I'm not Moran any more. I'm not proud and strong and independent, and I don't want to be lonely. I want you—I want you always with me. I'm just a woman now, dear—just a woman that loves you with a heart she's just found."

Wilbur could find no words to answer. There was something so pathetic and at the same time so noble in Moran's complete surrender of herself and her dependence upon him, her unquestioned trust in him and his goodness, that he was suddenly smitten with awe at the sacredness of the obligation thus imposed on him. She was his now, to have and to hold, to keep, to protect and to defend—she who was once so glorious of her strength, of her savage isolation, her unviolated, pristine maidenhood. All words seemed futile and inadequate to him.

She came close to him and put her hands upon his shoulders and, looking him squarely in the eye, said: "You do love me, mate, and you always will?"

"Always, Moran," said Wilbur simply. He took her in his arms, and she laid her cheek against his for a moment, then took his head between her hands and kissed him.

Two days passed. The Bertha Millner held steadily to her northward course, Moran keeping her well in toward the land. Wilbur maintained a lookout from the crow's nest in the hope of sighting some white cruiser or battleship on her way south for target practice. In the cache of provisions he had left for the beachcombers he had inserted a message, written by Hoang, to the effect that they might expect to be taken off by a United States man-of-war within the month.

Hoang did not readily recover his "loss of face." The Bertha's Chinamen would have nothing to do with this member of a hostile tongue, and the humiliated beachcomber kept almost entirely to himself, sitting on the fo'c'st'le head all day long, smoking his sun-yeen-hu and brooding silently to himself.

Moran had taken the lump of ambergris from out Kitchell's old hammock and had slung the hammock itself in the schooner's waist, and Char-

lie was made as comfortable as possible therein. They could do but little for him, however, and he was taken from time to time with spells of coughing that racked him with a dreadful agony. At length one noon just after Moran had taken the sun and had calculated that the Bertha was some eight miles to the southwest of San Diego she was surprised to hear Wilbur calling her sharply. She ran to him and found him standing in the waist by Charlie's hammock.

The Chinaman was dying and knew it. He was talking in a faint and feeble voice to Wilbur as she came up and was trying to explain to him that he was sorry he had deserted the schooner during the scare in the bay.

"Plenty muchee sorry," he said. "China boy, him heap afraid of Feng shui. When Feng shui no like, we then must go chop-chop. Plenty muchee sorry I leave um schooner that night. Sorry plenty-sorry."

"Of course we sorry, Charlie," said Moran. "You weren't afraid when it came to fighting?"

"I die plenty soon," said Charlie calmly. "You say you give me fifteen hundred dollah?"

"Yes, yes; that was our promise. What do you want done with it, Charlie?"

"I want plenty fine funeral in Chinatown in San Francisco. Oh, heap fine! You buy um first chop coffin-savvy! Silver heap much—cost um big money. You give my money to Hop Sing association, topside Ming Yen temple. You savvy Hop Sing?"

"Yes, yes."

"Tell um Hop Sing I want funeral—four pieces horse. You no forgettee horse?" he added apprehensively.

"No, I'll not forget the horses, Charlie. You shall have four."

"Want six piece band musicians—China music—heap plenty good. You no forgettee? Two piece priest, all dress um white-savvy? You must buy um coffin yourself. Velly fine coffin, heap much silver, an' four piece horse. You catchum fireclacker—one, five, seven hundred fireclacker; make um big noise. An' least pig an' plenty lice an' China blandy. Heap fine funeral,

He took her in his arms.

cost um fifteen hundred dollah. I be bury all same mandarin—all same Little Pete. You promise, sure?"

"I promise you, Charlie. You shall have a funeral finer than Little Pete's."

Charlie nodded his head contentedly, drawing a breath of satisfaction. "Bimeby Hop Sing send um body back China." He closed his eyes and lay for a long time, worn out with the effort of speaking, as if asleep. Suddenly he opened his eyes wide. "You no forgettee horse?"

"Four horses, Charlie. I'll remember."

He drooped once more, only to rouse again at the end of a few minutes with:

"First chop coffin, plenty much silver," and again a little later and very feebly, "Six piece-band music—China music; four piece—gong—four."

"I promise you, Charlie," said Wilbur.

"Now," answered Charlie—"now I die."

And the low cease Cantonese cooly, with all the dignity and calmness of a Cicero, composed himself for death.

If Dodd's Dyspepsia Tablets Won't Cure the Spring Fever Victim He Has Something Worse Than a Bad Stomach.

With the warm days comes that disinclination to eat and that dreary far away feeling that is commonly known as spring fever.

And the victim of spring fever is a general nuisance. He's dissatisfied with himself, dissatisfied with everyone else and he leaves an air of dissatisfaction wherever he goes.

Do you know what's the matter with him? His stomach is out of order!

That stomach has been overworked and needs a rest.

How do you prove this? Give the spring fever victim a treatment of Dodd's Dyspepsia Tablets. They will cure him. If they don't he is troubled with something worse than a bad stomach. For no bad stomach is so bad that Dodd's Dyspepsia Tablets will not cure it.

There never was a heart truly great and generous that was not also tender and companionate.

SCOURGE OF THE AGE IS KIDNEY DISEASE

Terrible Increase in the Number of Deaths from This Ailment

It is Common to All Classes and Conditions of People

It Creeps Stealthily into The System And Develops into Many Diseases.

Bright's Disease, Heart Disease, Diabetes, Dropsy and Rheumatism, are Among The Forms It Takes.

Dodd's Kidney Pills The One Remedy That Never Fails To Cure It. No Matter How or Where It is Found.

Of all the diseases the human body has to combat in its struggle for health, the one that is steadily growing in strength and terror is Kidney Disease. Quietly, stealthily as a serpent, it creeps on its victim till the latter is enveloped in its folds, and the greatest physician the world has ever known stand helpless before it. As the last fold goes around the struggling victim and the doctor shakes his head and whispers "Bright's Disease," hope fades to nothing, and the suffering friends feel that death has marked their loved one for its own.

The alarming increase this terrible disease is making is evidenced by the columns of almost every newspaper. It is not among the lowly of the earth alone does it look for its victims. Statesmen, judges, eminent lawyers, and honored divines are numbered among those who in recent months have gone down to their graves with the tell marks of this dread disease upon their bodies. In fact, so prevalent has the disease become that a celebrated New York specialist stated recently that not one person in a hundred was free from some taint of Kidney Disease.

WORKS IN SECRET.

It is the secrecy of Kidney Disease that makes it the more dreaded. You can fight an enemy in the open with some chance of success, but if he is lying in wait to take you at an unguarded moment your chances of successfully fighting him are terribly diminished. So it is with Kidney Disease. Its first warnings are so faint as to be hardly noticeable, a slight pain in the back that is charged up to over exertion, a slight discoloration of the urine or a burning sensation while urinating that hardly attracts attention. That is all. But that means that Kidney Disease is at work gradually eating its way into your system. The pain in the back grows more severe, the urinary trouble more complicated, swellings under the eyes and of the limbs denote the coming of Dropsy, sharp shooting pains in the joints and muscles tell that Rheumatism is on its march, or perhaps a day or two's illness leads to the call of the doctor, and suddenly the terrible truth is forced upon you—Kidney Disease has you in its grasp.

WAY OF ESCAPE.

With this silent, relentless enemy only but surely eating its way into your system and making that promise of a yearly increase in the number of its death list, the demand of its hour, is "Show us a way of escape." There never was a more critical condition than that of a man whose life was hanging by a thread, and who was waiting for a way of escape to be provided. This case the way of escape is a simple vegetable remedy. It has been before the people of Canada for fifteen years, and like all the great remedies of nature, has been first received and first appreciated by the lowly in life, those known as the common people of Canada.

Is it the common people of Canada who die of Bright's Disease? No, it is the bright and shining marks, those who are stationed above the heads of the masses. Ask the reason of this. Go to the people who are practically exempt from Kidney Disease in its worst form, and ask them. With almost a single voice they will reply: "We cure our Kidney ailments with Dodd's Kidney Pills, and they never get a chance to develop into that terrible disease that carries so many prominent men into the grave."

ON WITH HIS WORK.

And so it is; the man who does manual labor, he who has his slight aches or he who hinders him in his work. When he has backache he cures it with Dodd's Kidney Pills, and goes on with his work; when he feels a twinge of Rheumatism he drives it out of his body with Dodd's Kidney Pills—and goes on with his work. Necessity has taught him that he must cure his Kidneys to get rid of his pains, for he must work to live. He has not been educated to that standpoint where a prescription to cure must be written by a specialist at a cost of dollars to every letter. He may not even know that there never was a disease that took in all classes of the community but what nature provided a cure within the means of all classes of the community. What he does know is more to the point than all this. He knows that Dodd's Kidney Pills will cure all aches which experience has taught him come from the Kidneys. He takes Dodd's Kidney Pills, and goes on with his work.

SOME EXCEPTIONS.

Of course, there were exceptions to every rule. Even among common people there are those who neglect the early warnings of Kidney Disease. It takes exceptions to prove the rule—but many of these exceptions prove more—they prove that no case of Kidney Disease is too far gone for Dodd's Kidney Pills to cure. Bright's Disease, Diabetes, Dropsy, Heart Disease—all the varied forms of Kidney

Disease in its advanced stages—have been met by Dodd's Kidney Pills, and never once has Canada's great Kidney Remedy had to admit defeat. From the Atlantic to the Pacific, and from the Great Lakes to Hudson Bay, Dodd's Kidney Pills are used, and wherever used they have triumphed over Kidney Disease in its every form. Thousands of Canadians are shouting their praises of the conqueror.

Just a few of those who have neglected the early symptoms, reached the more advanced stages of Kidney Disease, and found a cure in Dodd's Kidney Pills are given below. There are thousands of others. Ask in your own immediate neighborhood. You will not have to go far to meet men, women and children who have either ward off or cured the terror of the present age by using the old Canadian stand-by—Dodd's Kidney Pills.

BRIGHT'S DISEASE CURED.

Bright's Disease has invariably yielded to a treatment of Dodd's Kidney Pills, no matter how firm a hold it had secured on its victim. Possibly the most talked of case of recent date is that of Miss Maud Parker, of Shubenacadie, Hants Co., N. S. The full story of this case will be found in the current number of Dodd's Magazine. Herewith a short statement from the young lady's mother is appended:

"Two doctors pronounced my daughter's illness Bright's Disease, and gave her up to die. Her eyelids swelled till she could hardly see; her legs from her ankles to her knees swelled. Her belt in health in health was 20 inches, when she was at her worst it was 48 inches. Then she gave up another treatment and started to take Dodd's Kidney Pills. By the time she had taken the first box I saw a change. It took a long time to bring her back to perfect health, but Dodd's Kidney Pills did it. To my daughter is in perfect health."

Mrs. T. G. Parker, Shubenacadie, Hants Co., N. S.

DIABETES CURED.

Diabetes is another of the most fearful and fatal forms of Kidney Disease that has been cured by Dodd's Kidney Pills, and by no other medicine. Among those cured of this terrible ailment is Mr. Charles Gilchrist, for fifteen years Chief of Police of Port Hope and afterwards for twenty-two years Fishery Overseer under the Dominion Government. He makes the following statement:

"I was a sufferer for ten years with Diabetes and Kidney Disorder. At times my urine was of a dark brick color, and I would suffer something awful while passing it. I tried doctors and medicines, but could get no help till I tried Dodd's Kidney Pills. They have made me a new man. The citizens of Port Hope all know me, and can vouch for the above."

Chas. Gilchrist, Ex-Chief Const and Fishery Overseer, Port Hope.

HEART DISEASE CURED.

"Heart Disease is a result of Kidney Disorder. Bad Kidneys mean impure blood, the action of impure blood on the heart causes Heart Disease. Dodd's Kidney Pills cure it. I suffered for years with Heart Disease, Bright's Disease and Rheumatism. I was so feeble I was unable to do anything. There were three months I abandoned all medicines, and resolved to let myself die. Then I was led to try Dodd's Kidney Pills, and the good the first box did helped me. I have taken twenty boxes in all, as well of my Heart Disease, my Bright's Disease and my Rheumatism."

Dame Louis Provost, St. Magloire, Que.

DROPSY CURED.

Dropsy, another disease caused by diseased Kidneys failing to do their work and remove the surplus water from the blood, is another ailment Dodd's Kidney Pills always cure. Here is an example:

"I was a total wreck before I started to use Dodd's Kidney Pills. In the mornings before I got out of bed I could hardly put my feet to the floor they were so much swollen with dropsy. My arms would swell at times so that I could not put on my coat. I was led to try Dodd's Kidney Pills, and the good the first box did helped me. I have taken twenty boxes in all, as well of my Heart Disease, my Bright's Disease and my Rheumatism."

George Robertson, 892 St. James St., Montreal, Que.

RHEUMATISM CURED.

Rheumatism, as named Kidney Disease, such as Lumbago, Sciatica, and Gout, are caused by uric acid in the blood. If the Kidneys are put in working order they strain all the uric acid out of the blood, and the Rheumatism goes with it. Take the case of W. G. Cragg, of Dresden, Ont. Here is his statement:

"For eight years I was troubled with inflammatory Rheumatism. I could scarcely get around to do my duties in my store. I had some of the best doctors I could get, but nothing I tried would ever give me relief. I started using Dodd's Kidney Pills and had only taken six boxes when I was completely cured."

W. G. Cragg, Ex-Beeve of Dresden, Ont.

ALL KIDNEY DISEASES CURED.

These are only a few cases taken from thousands to show the efficacy of Dodd's Kidney Pills. In other forms of Kidney trouble, such as Urinary troubles, Gravel, Female Weakness, etc., Dodd's Kidney Pills have the same record. They always cure. As for pain in the back—the first symptom of Kidney trouble—ask your neighbors. You'll find the majority of them look on Pain in the Back as a danger signal, and on its first appearance safeguard themselves against this terrible fatal Kidney Disease by driving it away with the old Canadian stand-by—Dodd's Kidney Pills.

AT WINDSOR CASTLE.

Dining With The King Contrasted With Dining With His Majesty at His Sandringham Home.

At Sandringham King Edward is a country gentleman, and his guests encounter nothing more elaborate in the way of ceremonial than is to be found in many a far less distinguished dwelling. But at Windsor His Majesty appears in the full-dress role of King and Emperor, surrounded by all the pomp and pageantry proper to such an exalted position. Consequently those who are summoned to Windsor in the course of a year see infinitely more of the splendour of Sovereign state than do the comparatively but highly-favored few who are honored with invitations to Sandringham.

If the person "commanded" to Windsor lives in London, he will leave Paddington about 5.30 p.m., and find a royal carriage awaiting him at the other end of the journey. On arriving at the Castle he is received at the visitors' entrance by a page of the chamber, who conducts him to the apartments prepared for him. These are always spacious, well warmed, well lighted and eminently comfortable.

The dinner company begins to assemble in the grand corridor soon after eight o'clock. The public never see this gallery, which is a pity—for the public—because it is a noble piece of architecture, extending all round the quadrangle, and full of beautiful and interesting things. Here is the Bible which General Gordon used all through the Chinese War. The hero's sister gave it to Queen Victoria after the tragedy of Khartoum, and to the day of her death the royal lady regarded it as one of her most precious treasures. Here, too, in another shrine of crystal and gold, is the Koran, found in the Madhi's tent after the avenging battle of Omdurman. It was in this ragged and dilapidated condition when Kitchener presented it to Queen Victoria, but the wizards of the British Museum worked wonders upon it in the way of restoration. Dotted along the whole length of the gallery are cabinets of exquisite china, including a small collection of Rose du Barri that would set all the connoisseurs competing for it.

I came into the market. Christie's would be likely to consider the auction poor indeed, which failed to get a £25,000 bid for it. Portraits of Canning, Pitt, Beaconsfield, and many other eminent statesmen hang on the walls, and among the larger canvases is a fine painting of Queen Victoria's first council. I actually at 8.30 the King and Queen enter the corridor from their private apartments, say a few words of greeting, and lead the way to the state dining-room, where hangs the late Queen's portrait by Constant, for which King Edward gave £4,000. The dining-room is already peopled with a vast array of servants. There are as many footmen in state livery as there are diners, and quite a little army of pages, cellarsmen and clerks of the kitchen. The latter carve at a side table, and fear themselves with quite imposing dignity while pursuing this very commonplace occupation. On ordinary occasions they wear plain black dress, with knee breeches, but when a state banquet is being given in honor of a foreign ruler, or to celebrate some special occasion, they appear in very rich uniforms.

One of the peculiar features of a Windsor Castle dinner is that every dish on the menu has the name of the man who cooked it attached, a fact that, no doubt, keeps up a healthy spirit of emulation in the Castle Kitchen. Dinner lasts very little more than an hour at Windsor, nowadays, for the King greatly dislikes long sitting over the table. The Queen leaves the room with the other ladies. The King and gentlemen guests follow a few minutes later, and the whole company spend half an hour in the corridor, where coffee is served. During this half-hour their Majesties make a point of conversing for a few minutes with each visitor. The rest of the evening is spent in the drawing-rooms, where there is plenty of good music and card-playing—notably bridge, of which both the King and Queen are very fond.

In Queen Victoria's time the "dine and sleep" guest saw nothing more of his Sovereign after, but other monarchs of other manners, and the least distinguished visitor to Windsor can now count upon a few minutes with the King or Queen before leaving the Castle next morning. As a rule he is taken to the King's private sitting-room for this little valedictory interview, and if he has a drop of Irish blood in his veins he can scarcely fail to thrill with patriotic pride while there, for the furniture and decorations of the apartments are carried out in the true emerald green of the Emerald Isle.

His Majesty's Cigars.

King Edward has reduced the art of smoking to its simplest terms. He usually smokes cigars of the choicest Cuban brand, and he generally makes use of four a day. The cigars used by the King are of a rather short, full-barrelled kind, of medium strength. They are usually smoked only about three-quarters through. Occasionally, when in the billiard-room, the King prefers a pipe, and a pipe is usually used over the morning's correspondence.

Later, however, both pipes and cigars are much less in use than formerly. His Majesty's favorite method of using tobacco is in the form of cigarettes. He formerly affected a peculiar brand of Virginia tobacco, but since the Egyptian cigarette was first introduced to his notice by the Duke of Clarence, His Majesty has abandoned the purer American weed for the subtler aroma of the Latakia produced in the factories of Cairo.

The Port of London.

Last year there was an increase of 1,000,000 tons in the vessels which entered the port of London as compared with 1902.

A BROAD STATEMENT.

This announcement was made without any qualifications. Hem-Roid is the one preparation in the world that guarantees it. Hem-Roid will cure any case of Piles. It is in the form of a tablet. It is the only Pile remedy used internally.

It is impossible to cure an established case of Piles with ointments, suppositories, injections, or outward appliances. A guarantee is issued with every package of Hem-Roid, which contains a month's treatment. Go and talk to your druggist about it.

The World's Coal.

Of an estimated coal area of about 4,650,000 square miles in the world China is credited with 4,000,000 square miles. The United States has about 280,000 square miles; Great Britain, 11,900 miles; Germany, 1,770 miles; France, 2,086 miles; and Belgium, 510 square miles. Area is not, however, a true measure of value. The anthracite fields of Pennsylvania include an area of only 468 square miles, but these are undoubtedly of more value than any coal area of like extent anywhere in the world.

TOO GREAT A RISK.

In almost every neighborhood someone has died from an attack of colic or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all druggists.

The Size of the Pyramids.

The largest of the pyramids was originally 481 feet high and 853 feet on the sides, the base covering eleven acres. The stones, which are in 209 layers, average sixty feet in length. One account says that 350,000 men worked for twenty years in fashioning the titanic pile.

THE BEST LINIMENT.

"I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgans, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and declare its merits are wonderful." For sale by all druggists.

Curly Hair in Japan.

If a Japanese lady has the misfortune to possess curly hair she devotes as much time and trouble to make it smooth as do European ladies, with curling tongs and pins, to make theirs curly.

IF YOU HAVE A BAD COLD.

If you are sneezing and suffering from a "stuffed-up" head and running eyes the best plan is to get fragrant, healing Catarrhazone, the quickest and surest cure for cold in the head, coughs and catarrh ever discovered. This great healing agent is carried by the air you breathe all through the passages of the nose, throat and lungs. It soothes the irritated membranes, kills catarrhal germs, instantly stops the cough and sneezing. It's the antiseptic vapor of a trial proves that a cold can be killed in a few minutes by Catarrhazone. Money back if it fails. Complete outfit \$1.00; small size 25c.

The average man doesn't care what you think of him as long as you don't say it.

A HELPLESS CHILD.

A weak and puny child is badly handicapped in the battle of life. It is isolated from the healthy enjoyments of its little fellow-beings. It cannot partake either of their play or their sturdy work and progress in the world; its whole life is embittered by incapacity and weakness.

Any woman who expects to become a mother ought to know what Dr. Fiecke's Favorite Prescription will do for her own health and safety during her time of trial and also to insure her in bequeathing a fair measure of health and strength to the prospective little one.

THE "CITY"

Something About Chatham's Splendid Pleasure Steamer—Capt. Rourke and his Efficient Staff.

The popular excursion steamer City of Chatham is once again running regularly between here and Detroit under the command of Capt. John Rourke. This is the Captain's second season as chief officer and he is always popular with the travelling public. It is a tribute to the skill of Captain Rourke that last year was one of the most successful in the history of this steamer. The "City" has been thoroughly overhauled and refitted throughout and, as always is, clean and neat. Captain Rourke takes a pride in his boat and, when not engaged in his duties as commander, he keeps an eye open to see that everything is clean and neat. Even the crew are more tidy about their personal appearance since he took command. With the public the Captain is popular and they always feel safe when they know that such an experienced commander as Captain Rourke is in charge.

The boat itself is all that could be desired for comfort and pleasure and the Captain points with pride to the fact that both the American and Canadian inspectors have examined the "City of Chatham" with the first month and pronounced everything first class. At present the "City" is running Saturday excursions to Detroit, but the timetable will change about the first week in July.

Purser Will Cornish is another of the boat officials who comes closely in touch with the public. He has charge of the tickets, making charters, etc., and naturally comes very much in touch with the passengers and others. They all are warm in praise of his courteous treatment and kindly good nature, and they know that what he does is done right. The custom officials last year stated that his returns were always correct and could always be forwarded to Washington without any revision, which was something that could not be said of the ordinary run of pursers.

The following are the crew this year:—
Captain—John Rourke.
Mate—Ed. McCormick.
Chief Engineer—L. Cronk.
Purser—W. F. Cornish.
Cook—Wm. Irwin.
Deckhands—Geo. Cassidy, Buss Belair and Jim Larkin.
Refreshment Booth—Harry Rourke.
Mate McCormick is another member of the crew who is a favorite with the travelling public.

A GOOD COMPLEXION.

Is a joy to every woman's heart and man is vain enough not to desire it. Beautiful complexion means pure blood, or in other words a healthy body. Tens of thousands of women take Ferrozone because it's a splendid blood builder, keeps the system in perfect order and helps the complexion wonderfully. "I consider Ferrozone the best remedy to give you a clear, ruddy complexion I know of," writes Miss Ada E. Brandon, of Pembroke. "My skin used to be sallow, but after taking a few boxes of Ferrozone a rosy tint was noticeable on my cheeks. I can recommend Ferrozone as a tonic also." For good health and beauty use only Ferrozone. Price 50c. at druggists.

Electric vapor launches should carry lights at night. I don't think the canoeists want a light very bad.

I would just remark to the Chatham athletic teams, with the exception of the aldermanic baseball outfit, that it is never too late to win.

It's a wonder that there hasn't been an accident before this on the river, owing to the electric launcher not carrying lights.

Whether by intention or design, the man who drives the water wagon in this city leaves a strip for the cyclists. He can have my vote if he wants to run for mayor.

FOOTBALL

FIRST OF FINALS SATURDAY

The first game of the finals in the Peninsular league will be played at Sandwich on Saturday of this week, between Darrell and Sandwith. The C. B. C. team gave the Darrell team a good practice game last night on Tecumseh park.

IN GENERAL.

The park last evening presented a pretty picture with fully 300 players of all the different games out in uniform. There was the Darrell-C. B. C. practice game, a large number of junior and intermediate lacrosse players, baseball players, and a good crowd of lawn bowling enthusiasts.

The junior lacrosse players look splendid in their new sweaters and play a good game.

SLIDE FOR LIFE ENDED IN DEATH.

New York, June 6.—About 30,000 watched a thrilling fall to death in Luna Park yesterday afternoon while Kato Katisk, a member of the Royal Troupe of Tokio was going through the performance preliminary to the "slide for life" says the American. Katisk went through the graceful movements of an athlete and accomplished performer on a slack wire, with a bamboo umbrella as a balance, and then went smilingly to the platform from which the dangerous slide is started. Just as he started on the slide, which usually lasts but a few seconds, he seemed to jump from the wire, and a scream came from the multitude. Katisk landed on a wooden rail around the circus ring, and died in a few minutes.

COLLISION AT DETROIT.

Detroit, Mich., June 5.—A Lake Shore special from Toledo, carrying an excursion of the National Union and a Grand Trunk passenger train, just leaving for Chicago, collided head-on at the foot of Hastings street to night. Fireman Schofield was probably fatally crushed, and two other trainmen and one passenger were slightly injured.

LOST BOTH FEET.

Ottawa, June 6.—Patrick Walsh, a C.P.R. employe at Haley's, was brought to the city Saturday night, suffering from injuries sustained in an accident at Carleton Place. He was swinging onto a moving train, and slipped under the wheels, passing over his feet. At the hospital his feet were amputated.

Nervine is king over all muscular pain, has no equal and costs 25c. per bottle.

CATTLE EXPORTS.

Montreal, June 5.—The cattle shipments from the port of Montreal during the month of May, this year, though much below those of the same month last year, are well above those in the same month for some years previous. The season opened just one week later, and shipments of cattle amounted to 13,895, as against 22,778 last year. This year there were 25

steamers, compared with 34 last year. The highest figure in the three years previous to last year, in the same month, were 12,903. The reason of this falling off, as compared with last year, is that the ports of Boston and Portland were closed last year. The outlook is for a good season from this port, owing to the large number of cattle the Grand Trunk are bringing from Chicago.

CRUSHED BY A BOX CAR.

Belleville, June 6.—Patrick Farrell, switchman, was helping to shunt in the station yard here last evening, when he was jarred off a box car, which passed over him, crushing his left leg and injuring his spine so badly that the doctors have no hopes of his recovery. Farrell is 22 years old, and unmarried.
