STUDENT FORUM TO CONSIDER PROBLEMS OF RINK OPERATION

Easy Does It.—Perched high above the stage, members of the stage crew will be helping to make the Glee Club's forthcoming production "Romeo and Juliet" a success. Shown above are three members of the stage crew hoisting scenery about. Many such unseen workers will be actively engaged behind the scenes during the play.

Your Student Council Card Provides Admission To D. G. D. S. Production

Campus Site of 2 Drives for Funds

The Red Feather Campaign and the March of Dimes Campaign have both applied to the Students' Council for permission to carry their appeal right onto the campus.

The first of these, the Red Feather Campaign, requested that the Glee Club present Romeo and Juliet an extra night. The proceeds of this extra showing would go to their fund.

In view of the fact that Romeo and Juliet, as are all Glee Club plays, are now being shown four nights, it was considered unwise that a fifth night should be added. However, permission was granted to the Campaign leaders to set up a desk at the entrance to the Gym on show nights and solicit the patrons.

Radio stations CHNS and CJCH applied for permission to sponsor a hockey game and skating session on Tuesday night (today). The proceeds from this would go towards the March of Dimes.

Arts and Science Hold Dance In Gymnasium

The Arts and Science Society dance in the gym on Friday night attracted quite a good crowd.

Entertainment included songs by an over-sized quartet of twelve people, and a skit "Life Gets Tedious" by Claire Mason. Gloria Kent played a piano solo, "Bumble Boogie."

The gym was decorated as a winter carnival, with snow flakes and snow-men all over the walls.

Jed Meehan's orchestra supplied the music.

Rink Rats' Menu Offers Varied Fare In Next Weeks

"Vote for—, Vote for—!" That will soon be the cry on the campus, for the Campus King Contest will have begun.

This year the Rink Rats are sponsoring it. The money they make will go toward the payment of the rink. Delta Gamma has elected three girls, each to be in charge of raising funds for a candidate.

A Variety Show will be presented on Feb. 12, in the gym. This is open to the city and university.

Included in the program are semi-classical piano pieces, popular songs, two dance numbers, two comedy acts, a trio and quartet, instrumental numbers and a magician. The talent of Dal will be on display, so don't miss it.

A moccasin dance in the rink is planned for some future date. It will be the first presented by the committee.

The hockey game between Saint Mary's and Dal which proved to be so energetic, has been the only Rink Rat function so far this term. To date the financial standing is over \$1,000. This figure should take a good leap if future plans are successful.

Behind-Scene Workers Make Play Possible

Shakespeare's immortal language will pour forth from the front page of the stage in the Dalhousie Gymnasium tomorrow night.

Only a small part of the stage is visible to the audience, most of the time there are more people moving silently about behind the scenery than there are actors in full view of the spectators.

The most important of these are the members of the Stage Crew, a group of very active individuals who dash from side to side of the stage shifting scenery. Some of them work "upstairs" on the rafters raising and lowering canvas curtains covered with scenery.

Most of the work of the Stage Crew has been done before the play ever starts. This hard-working group builds all the scenery and paints all the trees and stone-work visible to the audience.

The costumes and make-up of the actors are another problem handled by people working behind the scenes. Not only must the costumes be fitted but a careful check must be kept on each article so it does not become lost in the confusion.

Yet these people play an indispensable part and the show could not go on without them.

Other Matters of Interest To Students May Be Raised

You skaters and hockey players who have been griping about the condition of the ice and general operation of the rink will have a golden opportunity to hear a few of the answers this Thursday at noon.

Players Annoyed By Rink Rumors

There have been several disturbing rumors circulating about the campus to the effect that evening hockey games will be curtailed to one night game every two weeks. The reason given for the report was that students were not getting their share of evening skating.

Although there has been no verification or denial, hockey players are rather annoyed at the possibility. They feel that since the rink was built here for the purpose of general skating and hockey for Dalhousie students.

"Out of six nights a week, surely ways could be found, if necessary, to provide for at least two night hockey games a week," is the way one of the players put it.

Other universities in this province have little or no difficulty in obtaining the use of their rinks for evening hockey. Acadia and Saint Francis Xavier both are liberal in providing time for night hockey.

"Perhaps students of these universities are a bit more behind their teams and are willing to sacrifice a portion of their own time for the sake of 'the boys,'" was this player's sarcastic conclusion.

Formation of Discussion Group Plan of Meeting

At twelve o'clock noon on Thursday, January 25, a meeting of all students interested in discussing the need and the possible formation of a group to discuss current events, especially of an economic, political, and social nature, will be held in Room 3 of the Arts Building. No organized group exists on the campus at the present time for the discussion and study of problems such as communist activity, negro rights, foreign trade, and maritime economy. Prospective graduates, who as future leaders will be expected to have clear-cut views about the present, and all who are interested can aid in the formation of such a group.

Cercle Francais Will Meet This Evening

The January meeting of the Cercle Francais will be held Tuesday evening, January 27, in the Engineering Building starting at 8.00 p.m.

Students — particularly those avid ice fans—will attend a Forum called by the president of the Student Council at the request of a petition signed by 25 members of the student body.

The petition was signed by the first 25 students approached during one of the skating sessions in the rink in the hope that they could discover just who is responsible for the operation of the ice making plant and find out if anything can be done to remedy the poor condition of the ice.

Several of the questions posed by a correspondent of the GAZETTE are due for answers and they are likely to be the chief topic of discussion at the Gym gathering Thursday at noon. While it is most likely that the rink will comprise the major portion of the discussion there is a good possibility that several other interesting—and delicate — questions will be brought into the open. Although the GAZETTE could not obtain any definite statements from some of complainants, a number of students have signified their intention of at least asking some questions which might or might not prove rather embarrassing to the person(s) at whom they are directed.

One highly successful Student Forum has been held this season so far and with a little campaigning by those annoyed by the rink question, Thursday's gathering should prove to be a lively session.

P.C. Club Supports Mock Parliament

The Dalhousie Progressive Conservative Club, has joined with its political opponents, the Liberals, in supporting continuation of the Mock Parliament.

The club met in the Munro Room Thursday, with Lorne Clarke in the chair and discussed general club business. Several committees were appointed to make plans for the coming Parliament session.

Although there were a number of students who believed the Mock Parliament interfered too much with studies, the general feeling of the Progressive Conservative Club is that the Mock Parliament is a definite aid to law students. Besides that, the club believed the Parliament should be continued as part of the tradition of the Law School of Dalhousie University.

A good attendance marked the last meeting of the P. C. Club and more will be held later to continue plans for the opening of the session.

An Experiment at Law School

Rumors are dangerous things and can often cause great harm before they are denied. There is no place where rumors and twisted stories travel faster and farther than in a college. Dalhousie is no exception.

A move to combat rumors and to better student-faculty relations has been introduced in the Dalhousie Law School.

A committee of the Law School has been set up to hear all complaints and questions of the students and take them to the faculty so that they can be properly dealt with in an efficient manner.

This "Channel" between students and Faculty will provide answers to the many questions raised in the minds of the students. Whether or not a rumor has any foundation in fact can soon be determined by asking the Faculty for the truth of the matter. While many students would hesitate to go to the Faculty with their problems they can approach their fellow-students who are on the committee and have them forwarded without any embarrassment to the proper authorities.

The existence of this committee does not mean that a student with an individual problem cannot consult a member of the faculty privately, but is merely to insure that every complaint, groundless or not, will be brought to the ears of the Faculty and receive proper attention.

A student-Faculty committee along these lines would be a useful arrangement to put into effect in other departments of the University and the success of the plan in the Law School will be watched with interest.

Come To The Play

The Dalhousie Glee and Dramatic Society will present the Shakespearean tragedy "Romeo and Juliet" in the Gymnasium this week.

Wednesday evening will be Students' Night. Any Dalhousie student who has a Student Council card can get in to see the play free. This is one of the few opportunities a student has nowadays to use his Council Card, without having to pay extra.

The success of the Students' Night performance, like all the other performances, depends to a great extent upon the enthusiasm of the audience. If there is a large turnout of students to the play it is almost sure to be a success.

Students who complain that their Council Cards cannot get them anything now have a chance to use them. There is no reason that the play should not be a success.

The Student Forum

Thursday noon there will be a Student Forum. A student Forum is a meeting of the members of the Student Body, empowered to make decisions that will bind the entire Student Body.

As many students as possible should attend these meetings as their own interests are at stake. They have a right to make their views known and a democratic duty to do so.

In all too many cases a few students dominate a student assembly and force their views upon the rest of those attending. At other times a meeting is "packed" by those who wish to make their opinions seem to be those of a majority and to force through resolutions that would benefit them to the exclusion of the rest of the campus.

The only way to safeguard your rights is to attend the Forum and vote down such motions.

The greater the attendance at a Forum the smaller the chance is that anything will be put over on the students.

It is your right and your duty to attend.

In Sheep's Clothing

Chanced to ramble over to Shirreff Hall last night—having little else to do I sat me down in an alcove and debated as to whether I ought to tune in my thought-wave recorder on one of the inmates. Fearing that my ears would really sizzle and not wishing to sink to the lower depths, I decided to tune in on the mightiest of all in Shirreff Hall—Miss Slow-it of course—for after all, what else could be going on in that mind of hers but thoughts of the highest calibre. Hmm—on second thought maybe my recorder will not pick up such ultra high frequency—it was only built for normal wave-lengths. I turned it on—result—

"Gee it's wonderful to be the head of this institution . . . my girls all seem so happy . . . matter of fact they are probably too happy . . . better cut out these ten o'clock permissions . . . no sense of overdoing it . . . never got those leaves at Dartmouth—or was it Dorchester . . . hmm glad it's 9.15 already, most of the little angels will be sleeping by now—bless their pointed little heads say—that's not what my watch says—it only points to 8.30 . . . guess I better re-adjust the wiring in the clock . . . can't understand it . . . the same system worked on the roulette wheels . . . what's this . . . a law student . . . in the alcove . . . with one of my girls . . . after all the things I've told her about them . . . just never will profit from anyone else's experience . . . well they are young, they'll learn . . . I was young once . . . one can still remember those dashing officers in the Napoleonic wars . . . they were gentlemen, not like these young ruffians . . . law students yet . . . probably can talk their way out of anything . . . well just let him talk back to me, I'll soon take care of him . . . what's this—he knows that I won't stand for necking in the alcoves . . . I'll teach him . . . why when I was young I'd . . . say he is pretty handsome at that . . . wouldn't hurt to invite him up for tea—better still to dinner . . . wonder if I dare . . . I could wear my blushing purple slacks in the dining hall . . . always did feel more comfortable in slacks . . . especially when I am eating . . . eating . . . I always seem to enjoy myself most when I am eating . . . urp—good heavens look at the time, almost 11.30 . . . what's that . . . a noise in the upper hall . . . can't stand noise . . . where's my axe . . . one more peep out of them and I'll bash their skulls in . . . in fact I think I'll do it anyway . . . say, who is that gruesome looking jerk over there . . . think I'll just give him a piece of my mind . . . not too big a piece . . . can't spare too much.

Oh! Oh! I'm a goner, I didn't think that she'd notice me way over here, but here she comes— "Yes ma'am—no ma'am—not ever again ma'am — salaam ma'am. And with that I picked up my thought-wave recorder and departed.

90 SPRING GARDEN ROAD

Potentiality of Cape Breton was Realized By Prominent Englishmen

The Ottawa meeting of the Premiers of Canada's ten provinces and recent discussion of Cape Breton's place as an eleventh province in the Canadian Dominion brings up once more the claims and latent possibilities of that island. Cape Breton Islanders have always known of the importance of their home. But their own proposals and even suggestions of foreigners have gone unheeded.

"As in the course of this Report," wrote Lt. Colonel Robert Morse, a Royal Engineer to America in 1784, "my mind has been strongly impressed with the idea of uniting these provinces with Canada, to the advantage of both countries, and that by establishing the same laws, inducing a constant intercourse and mutual interest, a great country may yet be raised up in America, to facilitate which it may be found proper to establish a seat of general Government and protection, and for this end it has occurred to me that the Island of Cape Breton is very favorably situated. It is a promontory standing, as it were, between the three Provinces (Nova Scotia, New Brunswick, and Canada) and happily situated for

communicating with the several parts of all the three; besides being the most safe and easy land for ships to make coming from Europe. It is likewise contiguous to Newfoundland, and may be said to lie in the center of all that remains to Great Britain upon the Continent of America . . ."

This report was one of the first to propose a Canadian union. Other suggestions for a British American Empire followed. But in later years the advocated center of government had moved, first to the Nova Scotia mainland, and then to Quebec. Chief Justices of Quebec in 1790 and 1814 proposed such a change. In 1826, Robert Gourlay, then at the House of Correction in London, suggested Quebec as the site of the Congress. When confederation did come about, Ottawa, still further to the west, was chosen as the government city.

Cape Breton was a separate province from 1784 to 1820, but her re-annexation to Nova Scotia in the latter year was the move that hindered her political and economic development. Possibly Cape Breton will at last regain her former prominence and potential Dominion leadership.

National Federation of Canadian University Students In Action

N.F.C.U.S. represents some 70,000 Canadian students. In this capacity it has done a multitude of things. Its first success was the organization of Intersarsity Debating and even International Debating. This reached fruition with the formation of the Canadian University Debating Association. This child of N.F.C.U.S. still leans on the parent organization for support.

The reductions on sports equipment which all universities enjoy did not come as manna from Spalding Bros. It came after N.F.C.U.S. asked for it. Similarly the special rates we get to go home at Christmas only came after a prolonged battle. That in itself would more than justify the organization to many students.

At present it is tackling the question of reductions on text books for college bookstores. All of these things have to be tackled on the national level, and so it at times seems that the local committee does little. But, without these local committees, the central organization would be impossible, without support and without the essential information required. Even at the local level the committee this year hopes to do something. It hopes to arrange for Dalhousie students to make use of the regional exchange scholarships to other universities offered by N.F.C.U.S. The local committee has also begun an investigation into the possibilities of reduced theatre and clothing prices to students.

SCHOLARSHIPS

N.F.C.U.S. Scholarships for one year are available to any of the following Canadian universities covering tuition and Student Council fees for one year:

Bishop's College, Laval University, Carleton College, Montreal University, McGill University, MacDonald College, Loyola College, University of Toronto, University of Western Ontario, McMaster University, Ottawa University, University of Manitoba, University of Saskatchewan, University of Alberta, University of British Columbia.

Requirements:—

1. Have completed the equivalent of two years of college.
2. Be able to return to Dal the following year to graduate.
3. Acceptable academic standing.

For further information contact Curtis Lewis (phone 2-4608) or any N.F.C.U.S. committee member.

RINK QUESTION WILL BE AIRED AT STUDENT FORUM

Changing World (A True Story)

Until last Wednesday, life in the college gymnasium was going along just about as usual. There were basketball and badminton games, D.G.D.S. practise sessions, and the occasional Student Forum in the Upper Gym; downstairs, ping-pong, wrestling and boxing were commonplace. Occasionally one or two members of the female sex would stroll through the men's dressing room, but the fellows were getting used to dressing and showering under these difficulties, and such an interruption was no longer news.

During noon hour on Wednesday, however, a new twist of events occurred. A member of the Engineers' hockey team was returning from a practise game at the Rink, when he saw a new door to his left in the hall between the Rink and the Gym. Curiosity got the best of him and he opened it and walked inside. "Geel! I've never seen this place before; must be a dressing room for visiting teams," he thought. Suddenly these thoughts were shattered by terrifying screams as girls, in various stages of dress and undress, dashed for cover. Then it occurred to him just where he was—in the girl's dressing room.

Yes, events at Dal are certainly changing. The girls get a surprised visitor; our hero gets a medal for bravery; and the Gazette had a scoop.

Successful Party Law Society Holds

A can-can, danced by three beautiful girls "direct from Paris" was the highlight of a very successful party given by the Law Society at the Sea Gull Saturday night.

"The Bunkhouse Boys" also put in an appearance at intermission and were enthusiastically received.

The party was decided upon by the Law Society after their last attempt had resulted in a deficit of approximately \$50.

Al MacBain was Chairman of the Committee in charge of the party. Other members of the committee were Don Goode, who was in charge of publicity, and Jeff Flynn. Howard Pye was Master of Ceremonies.

Can-Can Dancers—Three Can-Can dancers flown direct from Paris for the occasion, appeared during the intermission at the Law Party at the Sea Gull Club Saturday night. From left to right are — Yvette, Yvonne and Celeste. The Can-Can was one of the dances of the "Naughty Nineties" of the last century. Its presentation at the Law Party was one of the most novel surprises in the way of entertainment that has been put on at a dance for some time. —Photo by Snider.

Al Stewart Paces Dal Squad as Tigers Go Down Before Shearwater in Hard Fought Game in Memorial Rink

Last Thursday in the Dal rink the Tigers went down to defeat before a driving squad from Shearwater by a score of 7-5, in a game which saw the Navy team leading by a score of 6-1 at one point, only to have Dal move into a contending position but to have time run out on them.

For the first two periods the game was dull with the Tigers seemingly unable to do anything right. It wasn't until late in the third period that they started to roll and although they made a good try they were unable to wipe out the five goal margin which the tars had built up.

Al Stewart paced the Dal squad, firing two goals and playing heads up hockey, while little Reg Beaver, in the short time he was on the ice, picked up a brace of assists and played a good all around game. Rod Fraser, Don Hall and Wilson Parsons were the other Dal marksmen. While assists went to Dave Jardine, Don MacDonald and John Smith.

Lineups:
Shearwater — Goal, Rowland; Defence, Cattral, Stanoy, Miljius, Thompson, Sawatski; Forwards, Monteith, Pillar, Shatford, Gillis,

Jarvis, Wilson, McNabb, Jones and Hughes.

Dal—Goal, Leslie; Defence, Parsons, F. Hall, D. Hall, Anglin, White; Forwards, Davis, MacDonald, Jardine, Smith, Stewart, Beaver, Sear, Haines, MacLeod and Fraser.

First Period

- 1 Shearwater, Jones (Hughes)
- 2 Shearwater, Shatford (Jarvis)
- 3 Shearwater, Thompson (Jarvis)
- 4 Shearwater, Monteith (Stanoy)
- 5 Dalhousie, Stewart (Smith)

Penalties: F. Hall, Pillar, White

2nd Period

- 6 Shearwater, Gillis (unass.)
- 7 Shearwater, Jarvis (unass.)
- 8 Dalhousie, Stewart (Beaver)

Penalties: Pillar (major), D. Hall (major), Parsons

3rd Period

- 9 Dalhousie, Fraser (Beaver)
- 10 Shearwater, Sawatski (Monteith, Pillar)
- 11 Dalhousie, D. Hall (Jardine, MacDonald)
- 12 Dalhousie, Parsons (unass.)

Penalties: MacDonald, Sear, 2, misconduct and match misconduct, Pillar.

Badminton Squad Defeats Shearwater

The Dal Badminton squad defeated a team from Shearwater Friday night by a score of 24-19. This was the second tournament of the season and was held in the Shearwater gymnasium. In the first meeting Shearwater won 24-23.

In Friday's contest Miss Betty Evans lowered herself to the position of a student and joined forces with Sally Roper to defeat Smith and Trott of Shearwater in two straight games. One of the best matches of the evening was played between Cleveland and Gordon of Dal and Christie and Zwicker when Dal won two games to one in the best of three. In the men's singles division Vic Burstall played excellent badminton in defeating Duffie of Shearwater two games to one.

Members of the Dalhousie squad which journeyed to Shearwater were Kay Murray, Kay Bagnall, Sally Roper, Jane Moseley, Ethel Smith, Betty Evans, Cleveland, Burstall, Dickison, Ramsay, Gordon, and Smallman.

A Student Forum has been called for Thursday noon to discuss a number of problems which have arisen in connection with the Dalhousie Memorial Rink.

Construction on the Rink was started last Spring shortly before exams and work was continued at a remarkable speed in order to complete the structure in time for the skating season this winter.

The cornerstone of the Rink was laid on Thanksgiving Day by Col. K. C. Laurie, Chairman of the Board of Governors.

The Official Opening of the Rink was celebrated on November 3, as part of the events of Homecoming Week.

From the first week there were complaints about the ice, the hours and the outsiders on the rink during student skating nights.

A number of people brought their complaints to members of the Students' Council and several times the matter has been discussed at Council meetings. Sherman Zwicker President of the Council, has several times taken these complaints to Professor Theakston, Engineer in Charge of Grounds and Buildings.

A petition calling for a Student Forum to discuss the matter of the rink was circulated about the Rink during a skating session and quickly received the necessary twenty-five signatures. It was then presented to the Council.

The Petition called for consideration of four main questions. They are (1) Day-to-day management of the rink. (2) The ice surface. (3) Hockey games during time allotted to Student Skating. (4) Ice surface during student skating sessions.

The question of giving time allotted to general student for playing hockey games has been discussed several times at Council meetings. The Rink Fund Committee has been given several hours of student skating time as have a number of other organizations considered worthy by the Council.

The student skating sessions have been cut at in other ways. At its last meeting the Council voted to reduce the skating session on Saturday afternoons by half an hour to allow more time to remake the ice surface.

All matters relating to the Rink will be up for discussion at the Student Forum and a clarification of the whole picture is expected.

This is THE INTERNATIONAL STUDENTS SERVICE (of Canada)

Among our distinguished leaders are Viscount Alexander of Tunis, Governor General of Canada; His Excellency Cardinal McQuigan; Dr. Sydney Smith, President University of Toronto; Dr. A. L. McKenzie, President, University of British Columbia.

The Dalhousie Campaign is endorsed by Dr. A. E. Kerr, President of Dalhousie University; Dr. A. Stanley Walker, President University of King's College; Dean G. E. Wilson, Faculty of Arts and Science; Dean Horace E. Read, Faculty of Law; Dean H. G. Grant, Faculty of Medicine; Dean J. S. Bagnell, Faculty of Dentistry.

I.S.S.—ITS AIMS ARE:

- (A) Promotion of international understanding at the university student level.
- (B) Assisting students of all races, colours, or creeds, wherever they may be.

To these ends I.S.S.

- (i) Holds summer seminars in Europe. 150 Canadian students, 21 from the Maritimes have attended. Another is planned in Italy or England this summer.
- (ii) Administers relief in Europe with part of your subscriptions; e.g. I.S.S. operates a rest camp at Cambleux for undernourished and fatigued students, a hospital for tubercular cases.
- (iii) Distributes scarce text books and instruments among European universities.

TO THESE ENDS

YOUR DAL GROUP HAS:

- (A) In co-operation with the university authorities:
 - (i) Brought a Czechoslovak student from a DP camp to Dalhousie and set up a scholarship for his maintenance here.
 - (ii) Made arrangements for a young DP Latvian girl in science to study with a greatly reduced financial burden.
- (B) Set up Bursaries to assist students from sterling areas who lost 20% of their income through devaluation.
- (C) Sent 6 Dalhousians as delegates to the summer seminars.
- (D) Contributed \$2760.00 to the National office to help maintain the International relief program.
- (E) Assisted in negotiations now underway for a sizable grant to defray travelling expenses to the seminar.

YOUR NEW I.S.S. DOLLAR

WILL GO TO:

- (A) Maintain and, if possible, enlarge the DP scholarship plan.
- (B) A contribution to the National Office to assist in carrying on the ever-expanding relief programme.
- (C) Conduct investigations being carried on by the national office into possibilities of a workable student exchange plan with European universities.
- (D) Develop an interesting program on our campus which would stimulate interest in and knowledge of foreign affairs.

Long Is The Way and Hard

... that out of Hell,
Leads up to Light.

HOPE:

My name is Hope.
I sing in the Valley of Despair.
My voice brings light to darkness
Like the trail of a shooting star,
And in the hearts of the desolate
My voice is never still.
Call me by name and take me by the hand,
Let me be your lover
For through the lover of tears you cannot walk
Forever, a stranger and alone.

MAN:

Your name is Hope! More like is it
To Mockery or Deceit!
Where were you Hope, when o'er my sun of happiness
The clouds of Sorrow spread
Their sable wings? and when depression
Stole across my mind,
Heard I your song or felt your quiding hand?
No. No. Black were those clouds, too black
To fail against your feeble beams.

LUST:

A Man, your crown is sorrow,
Your destiny is dust. Your logic
Is corruption. Your wisdom false.
And that elusive balm
Whose name is Hope, to it
Lift not your hands for help.

MAN:

No hope? no faith? no truth?
If there's no pattern to this twisted trail,
If there is no good in this my broken life,
If there is but pain for me to nourish by—
Then let me die as I have lived, alone.

HOPE:

Teach not your lips defiance of your guide,
Nor to the fruits of Love turn you your back.
There is no death in Life, but in dying
We are born again. The grave is but the doorway
To the stars, where our songless lips will learn
To sing. O Man, do not betray
Your priceless legacy.

MAN:

Which of us has known the answer?
Who has guessed the reason for it all?
Who is there who does not ever roam
A stranger to his fellows and his soul?
Oh, I have read about a Golden Age
When hate and lust and evil were not known,
And when the sun of heaven ever shone
Its rays of marless concord
From the sky. That time is lost
In the formless wake of Time as
The night wind is lost among great trees;
Or like your voice, pale Hope, whose
Sounding dies amidst the discord of
This hopeless world.

LUST:

The good in Life is not now yours to hold.
Peace is not yours, for you have dared ask
'Why?' and 'To what end?' Your burden
Is this sin.

Man:

I only thought—

LUST:

But you must never think.

Only accept and in accepting
Satisfaction find.

MAN:

Never think? Just for the present live?
Why to do this were but to tread
Brainless the primrose way
That out of Light leads down
To Hell.

HOPE:

Heed not his words—the babblings
Of the Damned in them lurk.

MAN:

How can my ear
Not recognize the thunder of
The storm?

LUST:

My heart is light, laughter fills
My soulless memory. Countless thousands
To my reception bow. Follow me down:
An answer you will find,
A consolation real.

HOPE:

Damned consolation of the sense
Your end is dust. Your glory
But the flame of some red hell.

MAN:

How can I paint the wild
Confusion tearing at my soul. To have
The courage and the faith to see
The light in darkness, were, to me,
All I need. To laugh through tears
And hope for better things. To hear
The harps of heaven sweep and sing
Away my utter weariness.
O Hope. To me your rose of promise
Hurl, and the years advance
Be with me still.

HOPE:

Not in the cold embrace of Lust
Will warmth be found. Lift up your
Heart to me and laugh once more.
A sightless soul can find
An unborn love and long-lost peace of mind.

Anonymous

A Survey of Religious Study Groups on Dal Campus

The four religious organizations on the Dalhousie campus emphasize worship of God and fellowship. "Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind. This is the first and great commandment. And the second is like unto it; Thou shalt love thy neighbour as thyself."

Here are some of the individual ways in which these organizations may be called Christian:

Dalhousie-King's Canterbury Club

The Canterbury Club is an international organization for Anglican university students. Its aims are to promote fellowship among Anglican students, and to help them understand and participate more fully in the life and work of the Church, with particular reference to the relevancy of the Faith in the University situation. Its activities include Corporate Communion followed by breakfast

on the first Sunday of each month, and meetings on Sunday evenings in the Cathedral Hall. The programs include lectures, discussions, games, sing-songs, etc.

Inter-Varsity Christian Fellowship

The I.V.C.F. is an organization of fundamental guidance. Its aim is "to reach the students of the campus for Christ". Discussion groups are held, at which portions of the Scripture are discussed, occasionally with one of the City clergymen as leader. The 2nd annual Maritime conference was held in November, and there will be items of special interest in February.

Dalhousie-Tech Newman Club

The Newman Club, established in 1919, offers to Catholic students the advantages of spiritual, intellectual and social life. Its activities include Communion breakfasts, panel discussions, and social evenings of dancing, sing-

songs, etc. The annual ball is always a project. The Club's best purpose is served when it reminds the Catholic student of his obligations, and also helps him secure for himself a greater degree of understanding which will afford him happiness on and off the campus.

Student Christian Movement of Dalhousie

The S.C.M. is based on the belief that "In Jesus Christ are found the supreme revelation of God and the means to the full realization of life". The Dalhousie branch regards as its prime purpose the organization and support of study groups. These groups study either the life of Jesus, some specific portion of the Bible, or the practical application of Christianity to life. The S.C.M. also holds supper meetings every Wednesday in the Engineers' Common Room.

For Active Force Commissions

In The Armed Forces of Canada

• • •

For your own interest, you should investigate the advantages of a career as an officer in the Royal Canadian Navy, the Canadian Army or the Royal Canadian Air Force.

Those accepted will be commissioned immediately in the rank Sub Lieutenant, 2/Lieutenant or Pilot-Officer, but will remain at their universities with full pay and allowances to obtain their degrees. After graduation they will join their units. There are special terms for medical students.

Man Arise

Although this poem is not very difficult, and although the author believes that a piece of poetry cannot be expressed in prose, nevertheless, he does believe that a few notes may help the reader to understand the philosophy behind the poem as it is the motivating force of the whole.

Man today, the author believes, is in a bad state of affairs. A great struggle appears on the horizon between East and West. Thus, he believes that a "modern renaissance" is the answer. The renaissance will be a reaction against religion as it now stands. Man must learn to have faith in himself and not in some superhuman being "up yonder." Man must be able to do right as opposed to wrong because he knows right from wrong and knows that in doing right and just, he will achieve the greatest satisfaction. He must learn to do right and just for its own sake, for his own sake. Man must turn to himself when he has problems and work them out for himself.

Man cannot completely give up tradition. If he does, he will lose sense of all values. If communism did win supremacy over the world and did blot out the past completely as it did in Orwell's 1984, it could not do so completely, for there would always be some tell-tale event or relic which would be preserved from the past. This would create wonder and thus, eventually, freedom would be restored, and the past which had been boiling in men's minds for so long would now come to light.

Man's purpose on this earth is that he has no purpose. He does, however, have a body. His mind (soul) is part of his body. Behind this is the Self of which F. Nietzsche talks so much about. This self which is inherent in the body does have a purpose. That purpose is to create—music, poetry, painting, sculpture, children, beauty. All creation must be motivated by beauty, and it must be strong. Beautiful beauty, then will be good beauty. For only from the good can beauty arise. In creating beauty, man will arrive at peace with himself and with the world. He will achieve peace of consciousness.

♦ ♦ ♦

The rain is beating on the terrain
As man is falling on the plain.

Man! Do now apprehend
The beauties of the land.
The books on the shelf thyself can make
As the sparkling stream the light transparent make.
Man! Do now open thine eyes
To the illusions of this world
Devoid of all their guise.
Man! Lose not thy reason,
When the wobbly world for gold
Will commit universal treason.

Man of today is man of tomorrow;
Future's grief may result from past sorrow.
Retain the past and it shall last;
Forget the past and it shall boil
As the creation of thy mighty weapons
Which end in recoil.

Ones' God is oneself,
And beauty shall be as Delft,
And human misery shall be engulfed
With all-devouring goodness of self.

Sam Margolian.

Kinde of Kellogg Foundation at Dal

Dr. M. R. Kinde, Director of Medicine and Public Health of the W. K. Kellogg Foundation was at Dalhousie for two days last week at which time he visited briefly with the various departments of the Medicine School. Dr. Kinde was here in response to a request by Dean Grant, head of the Medical School for a grant in post-graduate education in medicine.

Such grants are only a part of the invaluable work that the Kellogg Foundation is doing in the field of education. Founded by W. K. Kellogg in 1930 the Foundation has its permanent headquarters in Battle Creek, Michigan and it is from the seven counties comprising the Michigan Community Health Project that it has grown and branched into a wide field of public aid. The purpose of the Foundation as set forth in the Charter is "the promotion of the health, education and welfare of mankind, but principally of children and youth, directly and indirectly." It was discovered, however, that much could and had to be accomplished in the field of adult education as well, in order for their primary aim to be accomplished.

Facilities for professional education in the graduate and continuing education field levels were so limited that it was necessary to go far afield to find enough colleges and institutions interested in this type of education to meet the demands of the programme. The Foundation has, since then, made many grants to educational institutions in the United States and Canada and other countries as well, in the fields, particularly in medicine, dentistry and public health nursing.

Psychology Club

The bi-monthly meeting of the Psychology Club was held last Wednesday evening at Sheriff Hall. Dr. Lansdell of the Defence Research Board, was the guest speaker. He spoke on the part psychology played in the Armed Forces, and then led a discussion on a number on the problems confronting the human engineer. Efficiency and its maintenance appeared to be the major problem confronting such men and unfortunately their main interest now must lie with national defence.

The Bulletin Board

Student Forum—There will be a Student Forum, Thursday at twelve o'clock in the gym when the question of time allotted to use of the rink by Dal students and the condition of the ice will be discussed.

D.G.D.S. — The D.G.D.S. will present Romeo and Juliet Jan. 24-27 in the Dal gym. Wednesday will be Student Night with admission by student council card.

Basketball—In the Inter-Collegiate Basketball League the Dal Varsity girls will play King's Wednesday at 1.30 p.m. in the Dal gym.

The Varsity Boys and Varsity Girls' team will play St. F. X. Saturday, Jan. 27 at St. F. X.

Cercle Francais—There will be a meeting of the Cercle Francais Tuesday, Jan. 23 in the Engineering Bldg. at 8 p.m. There will be a talk and a film.

Swimming—Swimming has been resumed at the Stad pool with the completion of the pool cleaning. Students are urged to turn out as there will be a visit to Acadia early in March for the team. Taxi leaves the gym at 4.30 p.m.

Canterbury Club—There will be a meeting of the Canterbury Club Sunday evening, Jan. 28 at 8.15 p.m. in the Cathedral Barracks on Morris St.

The T-Square

All the boys at the shack are well aware of the luscious little (?) brunette who works in the Departmental Office. You can put away your Wildroot Cream Oil and Colgate smiles now fellers, cause Rosie is now a married woman! Oh well, we're all good losers and we want to extend our very best wishes to Mr. and Mrs. R. Aldhelm-White.

The hockey team got off to a bad start with an 8-2 defeat; however, the score did not by any means indicate the play. In our second game Gord Elop went between the pipes for his first time and held the opposition to a 3-3 tie. Bob Pavia is working hard on the team sweaters and is making a first class job of them.

Plans are well under way for our annual banquet and ball. These two activities along with the Booster and of course, the trip are the highlights of the Society year.

REPORTERS WANTED

Wanted — Reporters for the Feature Page are urgently needed. Interesting work and no experience needed, we will teach you. We can't write articles without reporters!

DALHOUSIE OVER TECH BY 22 POINTS SATURDAY

The TIGERS' DEN

by JERRY REGAN

This coming weekend will see both intercollegiate basketball and intercollegiate hockey get underway. In each the game this weekend will be the hardest the squad will have to face. Both Dal's basketball and hockey teams will go against St. F. X. at Antigonish.

To begin with, what could be harder than playing against the defending Maritime champs (in both sports) and doing so in their home territory. The mere idea of the support of the crowd for St. F. X. is of course moral support for the Xaverians. Add to it, as far as hockey is concerned, the fact that the contest will take place in a match box of an arena which the X men are well accustomed to while our Dal team has been playing on one of the largest ice surfaces in the Maritimes. An example of just how well the Antigonish boys can take advantage of their small playing surface can be seen by the results of their home and home exhibition series with St. Mary's Juniors. Here in Halifax the Juniors won a hard fought game by a clear 6-4 margin, but down in the cathedral town they were soundly trounced 7-2.

So our Varsity hockey team which has been blowing hot and cold, and recently blew very cold when Shearwater downed them 7-5, will be up against quite a proposition when they tangle with the power packed X outfit this weekend. On paper our chances will be not very good, but fortunately the game will not be played on paper, it will be played on ice. It's a lot to ask for our team to beat St. F. X. on their own ice, but stranger things have happened.

Our basketball chances for Saturday are slightly better. Admittedly Dal's big hope in the basketball field this year will be in the intermediate playoffs. This is because certain of the players who acquired degrees last year are no longer for Varsity intercollegiate competition, but can perform in intermediate play. Nevertheless the replacements on our Varsity squad have been looking very good lately and they may give the St. F. X. aggregation more of a battle than the critics expect.

Dal's hockey squad still is very much in need of exhibition games. We have noted that Dal's best performance to date have been in their two games with St. Mary's College. Although we lost both games by close scores they were crowd pleasers and produced a good brand of hockey. Because of the intense rivalry involved the games have been rough, but they did much to improve the Tigers squad. We would like to see another Dal-St. Mary's game. There is no question but that such a contest would pack our arena.

There are two events occurring on the campus Tuesday of this week which we consider worthy of mention even though Dal is not actually involved.

At 8 p.m. in our memorial arena the CJCH pucksters will clash with CHNS in an epic struggle for the benefit of the March of Dimes.

THE FINANCIAL ASSISTANCE PLAN OF THE DEFENCE RESEARCH BOARD FOR 1951-52

The Defence Research Board is now accepting applications for financial assistance from high ranking Canadian students registered in Science or Engineering, who will graduate from University in 1952; preferably at the Master's or Ph D Levels.

The conditions of acceptance will be the same as for 1950-51, but the monthly payments will be \$162.00.

Application forms may be obtained from the Registrar or Placement Officer

Apply to: The Director of Research Personnel,
Defence Research Board,
Department of National Defence,
"A" Building, Ottawa, Ontario.

Mr. Gabriel Vitalone, above, is one of the best known figures on the Studley Campus. Since he came two years ago Mr. Vitalone has done a really good job as Director of Athletics here at Dal.

Coach Doing Terrific Job on Dal Athletics

In the fall of forty-nine, came to Dalhousie in the capacity of Physical Director one Gabriel Vitalone. In the past two years Gabe or Vitamin, as he is variously, and affectionately known, became the most popular figure on the campus.

As Head Coach of the Dalhousie Athletic Organization Mr. Vitalone has done much for sport and physical fitness here. He has consistently worked for the good of his teams, his athletes, and the DAAC. At every opportunity in his position of ex officio member of the Senate and Physical Director the Coach has pushed the cause of sport.

In addition to being Head Coach and physical Director Mr. Vitalone has assumed the coaching reins of several of the teams himself. Basketball is his game. As member of the National Board of Referees and former star at Fordam and Springfield, his knowledge of the game has been more than welcome at Dalhousie and throughout the Maritimes. The three Dal teams, Varsity, Intermediate, and Junior have benefited under his guidance as St. F. X. has been finding out.

Canadian Football is also coached by Mr. Vitalone. When he took over supervision of the gridiron game his work was cut out for him. Very few of the boys had had much experience in the sport and many none, however, the coach was not visibly disheartened; today we play on our own field, and an Intercollegiate League is in the offing.

If the Intercollegiate Track and Field meet did not conflict with the spring exam schedule our track team would cause the other colleges a great deal more concern.

Late Rally Gives Tigers Winning Margin Stretch Win Streak To Nine Games

Dal Girls Defeat King's 37-16

Thursday evening saw the Dalhousie girls' basketball squad notch up a 37-16 victory over the King's Varsity team in an Intercollegiate tilt. The game was one sided in the first quarter with the Black and Gold getting all the baskets, making the score at quarter time 12-0. King's got two points in the second quarter and at half time Dal still held the lead by the score of 20-2.

King's came to life in the third quarter and managed to find the mark on several occasions. Franny Smith and Heather Martin starred with their impressive long shots. Score at the end of the third quarter was 27-11 for Dal. Barb Quigley and Eleanor and Elaine Woodside were the big stars on the Dal forward line: with Barb putting in fourteen points on 6 field goals and two free throws. Eleanor put in five field goals and Elaine four field goals and two free throws for ten points each. Sally Roper and Ann Edgecomb completed the Dal scoring.

Lucy Calp was the star of the Black and Gold guard line, doing some beautiful intercepting and rebounding. Sally Roper turned in a good game with some nice ball handling and passing.

Frannie Smith was top point getter for the Blue and White, with four field goals and two free throws for ten points, Heather Martin came next with six points. King's had nine fouls called against them, Dal had two. Final score was 37-16 for Dal.

As it is the coach is going ahead with plans to field a strong track team this spring.

Mr. Vitalone intends to attend the annual meeting of the Maritime Intercollegiate Athletic Union this year. This will be the first time in some years that Dal has been represented. We can rest assured that Dal's interests will not suffer at the hands of some of the other Universities as they have of late so long as the Coach is there to watch them.

CJCH and CHNS Meet Tonight for Dimes

This Tuesday the Dal campus will be the scene of an exhibition game which should prove to be both interesting and entertaining.

In the Dal Memorial Rink, a hockey game between the staffs of CJCH and CHNS, is scheduled to get underway at eight o'clock in the rink and, according to the publicity given to it on the radio for the past week or so, promises to send everyone home happy.

Letter to the Editor

The Editors,
Dalhousie Gazette,

In the December 1st edition of your paper appeared a story "UNB HAS NO TEAM PICS". I would like this opportunity of correct the misinformation and misunderstanding which has arisen concerning a UNB request for soccer team pictures for our year book.

The request was not for a picture of the team but for pictures of the game played November 11th in Halifax to decide the Maritime Soccer Title. T team picture was available and released to the press before this game.

ARNOLD M. DUKE,
CUP Editor,
The Brunswickan,
Fredericton, N. B.

The Dal Tigers continued their season's winning streak last Saturday night as they downed Tech by a score of 48-26 in a dull game in the Dal gym.

Play was ragged throughout the game and it wasn't until late in the last period that the Tigers started to get moving. With nine minutes to play Dal had only 26 points. However they notched up 22 points in the last portion of the game to win easily.

In the first half Dal seemed content to try to work their way in under the basket and attempt to score from there, as they only took one long shot, a long-hander by McCoy from the corner, during the entire frame. However, even though they changed their tactics in the second half, they did not really break the game open until it was almost over.

Gordie McCoy was the high scorer on the Dal squad as he racked up 12 points, he was followed by Bob Black, Jim Wickwire and Andy MacKay, with 6, 7 and 8 points respectively. Smith led the Tech team scoring 8 points, but he was closely followed by Jimmy Mahon, who collected 6. Sol Garson also turned in a good game for the Dal squad.

Saturday's win was the Tigers ninth straight league victory, their only loss being at the hands of the House of David in an exhibition game early in the season.

Lineups:

Dalhousie — McCoy, 12; MacKeen, Connelly, 2; Wickwire, 7; Ellis, 2; Black, 6; Garson, 5; MacKay, 8; Henderson, 3; Morrison, 1; McCurdy, 2.

Tech — Mahon, 6; Smith, 8; Thomas, Allen, 2; Chapman, 2; Knight, 6; Courtney, 2; Eisenhour, Cooper.

Dal Hoopsters Edge King's in Good Game

The Dalhousie Jr. Tigers defeated King's Juniors in a regularly scheduled game of the Halifax Junior Basketball League, 45-36 last Saturday night in the Dal Gym. Tigers took an early lead in the first quarter and despite the fact that King's pressed them throughout the entire game they were at no time headed.

The win puts the Dal aggregation in undisputed possession of first place being undefeated in league play to date.

The Bengals employed a wide open style of play, and at all times had the game under control. Gordie Wells played an outstanding game for the Tigers both from the scoring side as well as the play-making side in the pivot-slot. Unfortunately he was forced to leave the game early in the third quarter via the foul route.

Other budding basketball greats that played well for the Tigers were Roger Patey and Hugh Sutherland. The King's team were sparked by the play of Bruce Ross and Don Clancy. The final score was 45-36 for Dalhousie.
