Sir

Much inconvenience is suffered by this Department from the want of a sufficient supply of water in the waters closets in that part of your building which is occupied by the Department, and it is feared that unless a greater supply of water can be obtained, that the health of those officers of the Department who occupy your building will suffer. My own impression is that nothing will avail to give the supply of water which is

of the Reserve in question is scarcely sufficient to identify the same, but it would appear to be the Nuskainlith Reserve No 2, containing 2,489 acres, which was allotted by the joint Indian Reserve Commission on the 13th August 1877.

You are aware that the Reserves allotted by the joint Commission were to be regarded as final under the arrangement between the Dominion and the Provincial Governments. Consequently this Reserve is Indian land, and for right of way through it the Canadian Pacific Railway may, as it has done in similar cases, expropriate the requisite quantity of land, compensation for which is to be made under the provisions of section

The circumstances connected
with Indian and Half Breeds' opera-
tions are altogether different
While as regards the latter class
labor saving machinery is a ne-
cessity owing to the small number
of hands that a farmer can
generally manage to employ at
his work and the necessity that
exists for his accomplishing as
much as possible within a short
time, neither of these circumstances
can be taken into account in
connection with Indian farming;
as on the one hand or very
Reserve there are always more
able-bodied Indians than there
is grain for them to thresh or
ploughing &c for them to do
On the other hand they have

plenty of time at their disposal,
which it is far better to employ
in manual labor such as thresh-
ing, raking, hoeing, &c, &c, than
to allow them to remain idle,
as when they are unemployed
it often results in their getting
into mischief or wandering away
from the Reserves, and the em-
ployment of labor saving ma-
chinery is apt to contribute to
these results. Moreover the
cost of supplying so much
improved machinery is very
great and ~~that~~ considerations

Sir

Referring to the lett
addressed to you on the 2
inst. relating to the cutting
of timber on the Manitoulin
Island in trespass. I have
to remind you as regards
the cutting of Pine trees by
settlers that purchasers of
lots on Indian Lands or
those claiming under them
are prohibited from cutting
Pine trees on the land until
Patents have issued, except
for necessary building, fencing
and fuel to be used on the
same.

same lot for the purpose of settlement.
That purchasers of lots, or those
claiming under them, cannot
cut timber of any Kinds for
Exportation or Sale Except under
License duly granted or until
the conditions of occupation and
improvement have been fully
completed, and the Patent issued.
When settlers in the course of
building houses are desirous
of having Pine timber for such
buildings they may be permitted
to cut a sufficient number of
Pine saw logs that when sawed
into lumber at the nearest saw
mill shall be sufficient to Erect
such buildings - But this must
be done under your authority and
the Forest Bailiffs under your
directions

direction must see that no greater
quantity of saw-logs are hauled
to the mill than will be reported
and that a quantity of lumber
corresponding with the number
of the saw logs shall in each
case be taken back by the settler
for his buildings. And all
settlers applying to you for this
privilege should be informed
that if they attempt to sell the
Pine so got out for building
purposes, the timber will be
forfeited and the privilege with-
drawn. held
You will be responsible
for properly carrying out this
regulation on your Agency.

As regards the privilege of cutting
the first 10 acres free of dues,
The Order in Council provides, that

that in case any person has
purchased a wooded lot, and
has paid the first instalment
of the purchase money and furnishes
an Affidavit that he has settled
or that he purposes settling on
the said lot, shall on payment
of the usual fee receive or Lease
to cut certain specified kinds of
timber namely: Railway ties, Telegraph
poles, Tamrack knees, Shingle bolts,
cordwood and Hemlock, from
the first fifteen acres cleared
for Cropping without paying dues
thereon. But this provision was
made to assist poor settlers who

Gentlemen:-

With reference to your letter of the 19th Instant relative to six samples of flour sent you for examination and report on the same date, I beg to inform you that the letter to you did not convey clearly what the Department required, and I am obliged, therefore, now to return all the samples to you together with a sample of flour marked 7 B° furnished by the same firm and of which they contracted with the Department to

Messrs Thos McKay & Co.
Flour Merchants.

respects they differ and what
would be the difference in value
between each of these samples
of flour and the original sample

In the same month (December 1884) James Dagg filed an Affidavit claiming that he had lived on and occupied the Lot for two years and must therefore have been in possession before the cancellation took place and that the following improvements were then on the lot:- a log house 12 x 16 inside and ot. used finished; 22 x 16: a good stable 22 x 18, 2 acres of land cleared and 4 underbrushed.

In 1888 it was reported that Dagg was occupying the Lot and had a house and barn and 8 acres cleared

Sir:-

With reference to the Petition to His Excellency the Governor General dated the 29th March 1886 which purports to have been signed by Chief & Manitouwassing and other Indian Chiefs of Manitoulin Island, in which it is alleged that the Indians never ceded to the Government of Canada the numerous Islands adjacent to the Great Manitoulin Island under the Treaty of 1862, and it is ought to be shown by

Capt. Henry Streatfield,

by statement made in the Petition
that the allegation of the Indians
is correct, and request is made
that any of the Islands which
have been sold and those re-
maining unsold may be restored
to the Indians, - I beg to inform
you that a similar document
under the same date was received
at this Department on the 7th
Instant, and on the 16th Instant,
the Indian Superintendent on
Manitoulin Island was furnished
with a copy of the same and he
was instructed to inform the
Indians that the Surrender made
by them in 1862 covered not only
the greater portion of the Manitoulin
Island but also the Islands adjacent
which had been deemed or
claimed

In reply to your letter of the 15th Instant with further reference to loses of the Department and of loyal Indians during last years rebellion, I beg to inform you:-

1. That as regards the loses sustained by the loyal Indians, the property injured was upon Indian Reserves

2. If the Indians on these Reserves had remained loyal, they would have defended their property instead of injuring it

it or allowing others to do so.

3. The moral effect upon the disloyal Indians of having to make good the losses incurred by the loyal members of the Band on account of the disloyalty of the former, has to be taken into account. It would have a deterrent effect in the future, as in case of any trouble hereafter, for any property destroyed or injured on an Indian Reserve, whether the same belonged to Indians or to the Department, the Indians would know that they would have to bear the expense of replacing or repairing it, whereas were the Government simply to pay the bill without any charge to them, there would

be no such preventive to their perpetrating similar outrages or allowing them to be perpetrated by others.

For these reasons I am still of the opinion that the losses sustained by Indians upon Reserves should be made good from the annuities of the Indians who participated in the late rebellion.

In respect to the manner of charging the Indians with the estimated amount of the losses sustained in consequence of their acts, I am also still of the opinion that the rebellious Indians of each locality should bear the cost of such losses. Otherwise the Indians of

the various localities will be apt to conclude that they are being charged for more than they should be; whereas if they are charged with the cost of damages committed by those in the locality, it will be very easy to show them that they destroyed such and such houses or such and such property, and that, therefore, they are charged with the cost of repairing or replacing the same. By following this plan the Indians will probably be prevented in the future from committing such outrages themselves or allowing others to commit them, as they will be interested in protecting the property in the locality

when they know that for the
same they will certainly be
charged by the Department if
it is destroyed or injured.

With regard to the question
of charging Indians with the cost
of replacing buildings which may
be put up of a much more
expensive nature than those
destroyed, as a matter of course
the Indians could not be charged
with any increase over the original
cost of the buildings destroyed; but
an estimate of the cost that
would have been incurred had
buildings similar to those des-
troyed been erected should be
made and the Indians should
be charged with that
proportion

Sir,

Referring to your letter
No 8379 of the 21st June last and
the various correspondence on
the subject of the Lumpless
exhibited at the several
Indian Agencies in Manitoba
and the North West Territories
I have now to inform you that
I am directed by the Minister
of the Interior to direct
Indian Superintendent to accept
the Lumpless in accordance
with the requirements
of the Locations, & have the
honor to request to invite your
attention to the fact that

it is proposed, in the interest
of Canadian Manufactures e,
to replace as many of the
samples now exhibited as
are of foreign manufacture -
by others of Canadian make -
and as complete sets of
samples will be required -
for Victoria and for Moose -
Mountain - it would be
prudent to determine whether
or not so many samples as
were required in 1879-80 are
now necessary - under the
completed description given
of the articles contained in
the Schedules.

If you look over the
Schedule of Tenders for the
current year's supplies, you
will

will observe that but comparatively few of the articles now asked for are required to be delivered "according to sample", the reason being that the Agent, by adhering to the description can satisfy himself whether or not the articles delivered are such as were contracted for. For instance Agent McDonald obtained at the request of the Department a list of twenty-five samples on exhibition at the Brantford Local Agency respecting a number of which the words "equal to samples" are written in the Schedules.

The following appears to be a list of all the articles & samples

samples of which should be on exhibition because of the difficulty of so describing them as to enable an Agent to determine without a sample whether or not Contractors were delivering the kinds of articles contracted for:—

If you will look at "Planters Hoes" and "Monkey Wrenches" in the Schedule, you will observe that they are described so fully as to obviate the necessity for a model to guide an Agent.

I shall be glad to receive your views on this subject after you have examined the Schedules: it is considered that that it will be well to avoid the purchase of useless samples; but, if you think the

maturing after the 1st July 1886, and the cost of it is not a proper charge against the Expenditure of 1885–86: it will not in the majority of cases reach its destination until the end of the present month, and will not be used until the Annuity payments takes place.

The clothing was ordered in the latter part of 1885–86 merely in order that the Warden of the Penitentiary might have time to provide himself with the necessary material, and the contract has been accepted year after by him on the same conditions of payment. of one Alexander Buchart, a squatter, who has made considerable improvements thereon.

If squatters take possession of unsold Indian Lands, the Department makes it a rule to give them the first chance of purchasing and generally protects them against other parties taking advantage of their improvements; but the case is quite different when lands have been purchased, and the Department cannot take upon itself to protect such persons and they must look after their own interests.

In this case, if Plowe does not within one month carry out the conditions of the sale

I beg to acknowledge the receipt of your letter of the 22nd Instant in reply to mine of the 13th of May last relative to the proposed construction of a public highway through the Indian Reserve of St Peters; and in reply I beg to inform you that under the provisions of section 30 of the Indian Act 1880, being the Act 43 Vic. Reserve, but the same Section of the
Act provides that for any land
taken or improvements affected
by the construction of said road
compensation shall be made to
the Indians

There is no question I
think, therefore, as to the right
of the Municipality or of the
Government to construct a road
through the Reserve at St Peters,
but the land will have to be
paid for as well as any improve-
ments affected thereby.

In your previous letter

on this subject you state that
the road if made would doubtless
be of great advantage to the
Indians and that you presume

there will be no objection on the

From the letter of Mr.

of the 13th. of May — you will ob-
serve that the proposed road
is not regarded by the Indians
or by their Agent as an advantage,

ject to the road being made; but,
as before stated, the law would
appear to be on the side of the
Municipality in the matter.

Sir:—

With reference to your letter of the 28th Instant relative to the admission into the Qu'appelle Industrial School under circumstances described therein of White children in the proportion of one White child to eight or ten Indian children, I beg to inform you that in so far as my own views are concerned in this matter, I have always been of the opinion that the intermixture at such an Institution of White and Indian

Indian children could not be
otherwise than beneficial to the
latter provided that the White
children allowed to attend the
School were properly situated
and of irreproachable character.
There is no doubt that the Indian
children would acquire more
rapidly than in any other way
a knowledge of the English Language
from their constantly coming in
contact with English speaking
children, more especially during
their hours recreation; but great
care would have to be exercised
in the selection of the White
children, and likewise close supe-
rision during their hours of
recreation and at other times, to
prevent the White children from

from tyrannizing over or taking undue advantage in anyway of the Indian children, which they would be too apt to do unless checked, and the Indian children would then become discouraged instead of being improved by contact with their White playmates.

With regard to the use of the Indian language at the ~~Institution~~, I beg to inform you ~~that~~ at the Mohawk Institute, the Principal prohibits its use altogether even during play hours as well as in the school rooms, and a monitor is always present on the play ground to check and mark down any boy or girl who may address another in the Indian language and to

report him or her to the Principal if he persists in doing so. The monitors are elected from time to time from among the boys themselves at this Institution and it has been found to work satisfactory, as it imparts to the youths so employed a certain amount of importance which is very pleasing to them.

Your scheme for the defraying by the parents of White children of the expenses of their tuition and board at the Institution appears to me to be worthy of a trial.

With regard to the Indian children being given the preference in facilities for study, learning trades, &c, it seems to me that

season for fishing, that it is of
equal if not more importance
to the Indians that the regulations
of the Department of Fisheries for
the preservation of the fish
should be observed than it is for
White men. If there were no close
season during which the fish
could be propagated and their
number thus augmented, that
article of food would soon dis
appear entirely and the Indians
would be great losers thereby.

You should represent this
fact to them, and advise them
to comply with the regulations
of the Department. You may
say to them that their objections
to the month of October as a
close season appear to be scarcely
sufficient

sufficient to warrant the Department of Fisheries to change that month when it is found that the adaption of it as the close season for White fish and Salmon trout is productive of the best results for the community at large.

Reserve at Betsiamits. I do not observe from the certificate that you are called upon to hear any witnesses which the parties may think proper to bring before you in the case aforesaid. The certificate simply states that you are appointed to make the necessary operations with the consent of the parties interested and to make a report of your operations without delay.

I have already informed Mr Charles Angers, the Advocate employed by the Department in the above matter, that the Department does not propose to be represented there by Counsel, consequently you should proceed with the
