FREEDOM IN CANADA MIXED MARRIAGES

The Crue AD

FATHER PHELAN'S COMMENTS.

tions of the diocese of St. Louis relative to mixed marriages, writes in "The Western Watchman,"

The English Catholic arriving, in Canada cannot fail to be struck im-mediately by the absolute freedom his creed enjoys, as compared with the restrictions from which it suffers in his own country. From the mo-ment of his landing at Quebec he sees the priests in their soutanes and monks in their habits walking the streets like ordinary citizens; he sees not infrequently passers by raise their hats to them as a mark of respect; he sees throngs of peo-nel passing in and out of the churches all day long, in fact he is living in and breathing a Catholic We are strongly in favor of having mixed marriages performed in the church. In almost every case the non-Catholic party would prefer to be married before the altar. It cer-tainly would add greatly to the dig-nity and solemnity of the ceremony : and in these days of easy divorce we cannot surround the marriage rite with too much solemnity. They do it in every country in the world save where the English language is spoken. Why should the speaking of a certain fongue entail ecclessiasti-cal disfranchisement ? In mine cases out of ten, where the Catholic party does his or her whole duty, the non-Catholic partner is sconer or la-ter converted. That happy consum-mation would be greatly hastened by a more religious performance of the ceremony. We are strongly in favor of having

the churches all day long, in fact he is living in and breathing a Catholic atmosphere. In England the priest and the monk leave their distinctive garb when they go out in public and become indistinguishable from the clergy of any other denomination, for in spite of the advance of free-dom of thought and conscience Ca-tholics are still viewed with curiosi-ty mingled with suspicion. Unfortu-nately the ignorance, which is the real foundation of this blas and pro-judice, is still far from being com-pletely removed.

HOW TO PREVENT THEM.

Hence the Catholic Englishman Hence the Catholic Englishman sometimes feels more or less a stran-ger is his own country and it can be imagined that the sight of his creed being generally practised and that his is the Faith upheld by the great mass of the people, fills him with a keen sense of comfort and homeli-ness. He sees on all sides substan-tial evidence of the interest dis-played in the Church's welfare, the It is hard to say what is best to It is hard to say what is best to be done to prevent mixed marriages. They are coming more and more in-to disfavor among both bishops and priests. The children of mixed mar-riages are very often neglected. Where the non-Catholic parent stays out of the Church, the Catholic pa-rent becomes neglective! out of the Church, the Catholic pa-rent becomes neglectful. Mass and the sacraments become more and more neglected and religious educa-tion of the children is not attended to at all. Where it is so difficult to make parents do their duty to their children where both are Catholics, it is next to impossible to keep one party to the marriage contract strictly to the duty. ed in the Church's welfare, the pride taken in the adornment of the pride taken in the adornment of the sacred buildings, the magnificence of the charitable institutions, the ac-tual place the life of the Church oc-cupies in the life of the people. and their admonitions are headed, whether they be concerned with pub-lic or private life, - with undesirable publications or the avoidence of places of amusement under the ban of episcopal displeasure, such con-trol would be impossible in Eng-land, and direct vensure of that kind only provocative of irritation and bitterness on the part of non-Catho-lics The fact is, the cult of children is going out of vogue, and the burden of looking after them is falling more and more on the Church. If the Or-phan Board of this city were to take all the children offered them by the Catholics of the city they would have on their hands ta-day seven all the children offered them by the Catholics of the city they would have on their hands ta-day seven thousand instead of seven hundred. We are getting very much like the Chinese in our disregard of the na-tural rights of children; and we are worse than they; for a Chinamen will never throw a male child into the Ganges; while our Catholic people are ready to throw them by the thousand into the orphan asy-lum, which is a fate not so deplo-rable, but still deplorable enough. Let us hope and pray for a return of a more Christian spirit among our Catholic people." Champlain Tercentenary. Event Marks Another Milestone in Catholic History of America.

MONTREAL, THURSDAY, JULY 8, 1909

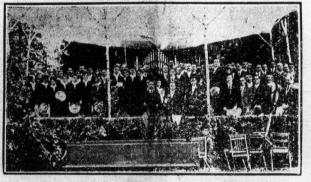

Successful Excursion of St. Aloysius Parish to Plattsburg.

A pleasant outing for Montrealers was arranged for Wednesday's cele-bration at Lake Champlain by the Rev. M. L. Three centuries have gone. Spent Forty-Six Years at Molokai Doing Heroic Work.

News of the death of Father Cle-ment, the companion of Father Da-mien among the lepers on one of the Hawaiian islands, has inspired the following fine tributo from the Los Angeles Times: "In the last watches of the night the man who listens to the heart-beat of the great world at the telo-graph keys in The Times office was called by the deep-see cables that connect California with Honolulu. And this is what the telegraph ope-rator away across those tumbling leagues of ocean said: "Tather Clement, who came to Hawaii from France with Father Da-mien, in 1963, to devote his life to wak among the lepers in the Molo-wak aclony, died to-day."

to a greater return for its labors. But there is one sepecial character-istic of Catholicism in Canada that merits particular mention and that is its inherent loyalty to the British flag. Without going into ancient history it has long been the dogma of the English anti-Catholic that loyalty to the Church and throne was incompatible, and in spite of the numberless Catholic soldiers and sallors who swell the ranks of the British forces, the old stigma still remains, and if occasion demands is trotted out to do service,

THE BLIND CRITICS.

<text> Surely these critics must be wil-fully blind if they deliberately ig-nore the lessons that Canada can teach on the subject; here are liter-ally thousands of British subjects, strong and unswerving in their teach on the subject; here are liter-ally thousands of British subject, strong and unswerving in their neith to the Holy See and not a whit the less loyal on that account to their King. On the contrary, ludging by the tone of the Catholic press, it would appear that the French Catholic has realized to the nill that he can enjoy greater liber-ty of conscience in the Canada of to-day than he could under any other sonditions, and no matter what sentiments may linger in his heart for the tricolor, events in France and the rampant anti-cleri-calian prevalent there, must make him thankful that he is free to serve his God in his own way and without let or hindrance.

Child study should have an impor tant place in every young woman's education—as a preparation for her life as woman—whether she be a If as woman-whether she be a mother in the specific sense or not. Toronto, July 5.—Naturally enough the doings of the International Coun-cil of Women occupied a large share of Toronto until a couple of days ago, and, of course, secured a great deal of space in the Toronto press, but the roving eye of a wandering scribe lit on some other matter, which, if it did not prove of inst interest to a malority of the good but the roving eye of a wandering scribe lit on some other matter, which, if it did not prove of first interest to a majority of the good people of this town, had an attrac-tion for him. There has been an echo of the Catholic Disabilities_bill here and it has made itself apparent in the form of letters to various To here and it has made itself apparent in the form of letters to various To-ronto papers. This is a fine place in which to hear orthodox Protest-ant opinion and there was an air of sturdy Protestantism about some of the correspondence that was at least refreshing. One man wrote protesting against any change in the Royal Declaration or in the Corona-tion Oath either. He said that Ca-tholics were not loyal and in sup-Noyal Declaration or in the Corona-tion Oath either. He said that Ca-tholics were not loyal and in sup-port of his statement offered as an example the fact that "a number of small boys, who, on enquire, were found to be Roman Catholics, re-mained outside St. Conserve Church found to be Roman Catholics, re-mained outside St. George's Church, Guelph, instead of participating with their comrades in a united worship once a year." A reply to this was furnished by. "One and All," who said in part: "If he had weighed his own words he might have seen in the first see

"If he had weighed his over words he might have seen in the first sen-trances of his own letter that those same Roman Catholic boys might not unreasonably be excused from worshipping with those who permit their King to call some of the main tenets of their religion "superstiti-outs and idolatrous." How could there be "unity of worship' anyway, and what lesson can any Protestant there be "unity of worship' anyway, and what lesson can any Protestant beach a Roman Catholic about "uni-ted worship," when they are so di-vided into sects and schools of, thought? Certain passages in the King's Coronation Oath are offen-sive to all gentlemen-whether Pro-testant or Catholic. They were so offensive to our present King that it is said that he uttered them unit is said that he uttered them un-der his breath for shame. Lord Sader his breath for shame. Lord Sa-Hisbury called them "a stain on the statute book." It is a poor sports-man, with a still poorer religion, who has to seek refuge in gratuitous insult to bolster up his beliefs, and your correspondence mistakes con-factorer (architecture)."

tions of the faith which for the past few years have wended their through the streets of the city way through the streets of the city on Whit Friday, the processions num-bering on some occasions as many as twenty thousand persons. Yet in all these public engagements he skill found time to live the true life of a parish priest in intimate touch with every member of his flock, always ready to advise, direct or assist, and OL ready to advise, affect of assist, and never was a Father more truly mourned than he was. Of Canon Richardson it may well be said in the words of St. Paul, he had fought the good fight, and we may hope he has now received the prize. Have vhey not given their treasure, services, yea, their blood in the building up of Britain's might? It is not neces-sary to speak of the great Catholic jurists who have graced the British bar, nor of the thousands of crumbl-ing Httle crosses in many lands that bar, nor of the thousands of crumbl-ing fittle crosses in many lands that gloriously tell the tale how Eatho-lics died for England. A FLASH OF BIGOTRY

They are strong in their opinions in Scotland, which is well enough in its way, but strong opinions ought not to beget bigotry, yet this seems to have been the effect. in Motherwell, a town on the Clyde, and not far from Glasgow. Preambulating preachers stirred the townspeople to action by the ready use of old worn fables which depict. the Church as the seat of all evil. The sturdy Scotch conscience, once arous ed, is resistless, so the good folk of Motherwell apparently thought that it would be a good plan rid the community of the sin-steeped Romanists. Their method was of the brawny variety, but it must be said that the Catholics of Motherwell appear to be of as stern sturdy stuff as their non-Catholic fellow-citizens, and in no way ready to make way, so they fought back and it gave the police plenty of work to restore peace. It reads like a tale out of an old book, but it is all true enough and shows that there is yet room for missionary work in Scotland.

Champlain's discoveries of the country bordering the lake which bears his name, has some special interest for Canadians. Champlain was striking figure among the many venturesome Frenchmen who explored the previously unknown stretches of the North American continent. Champlain was a devoted adherent of the true Faith, and was a loyal subject of his King. Religion and patriotism were as one with him, and he was prompt in inviting members of the religious orders to leave France and come to this country. It was well said of Champlain that there is nothing in his life which requires silence. President Taft when speaking at Fort Ticonderoga most willingly gave testimony to a broad appreciation of the admirable record of the intrepid explorer. It was from Quebec that Champlain started on the voyage that resulted in discovery of the district which is now celebrating the occasion. There are many blood-stained fields in that land. French and Indian fought there; then French and English. Later a new nation was springing into life, and, descending the water way which Champlain had ascended, an army seeking to gain pos session of that very city which Champlain founded. It was a most striking affair to find representa tives of the three nations which battled on that ground meeting for totally different purpose, each speaking of the blessings of peace, and each prophesing that these nations would never again meet in mortal It was striking, too, to combat.

officer, he has an army record and points of that address, and to spond in a speech of fifteen minutes, showing how clearly he had approciated the issue and its importance We did not succeed in bringing about exactly the agreement we asked for, but he was as full of friendly thusiasm for a settlement of the issue as he could be, and at the end two interviews with him he said: You have not got exactly whatiyou wanted in exactly the way you wanted it, but I am going to a representative of mine to the Phil ippines, with instructions to see that the war is settled justly in accord-ance with the wishes of the United States Government.' And it was so settled. I am gratified to see now that every question between church and State in the Philippine, Islands which were so closely united that it seemed almost impossible to effect the separation between them that had to be made under our constitu tion, has been settled justly and fairly to both sides; and no bad feeling or feeling of injustice exists on either side with respect to these set-'tlements.'

FISH-BLOODED TORONTONIANS

We confess to a lack of veneration for flags, but we do possess a spirit of respect for them. They represent history; some of it unpleasant his-tory, but all of it having a place in the development of the world. The waving of a flag cannot. think, make a man more loyal to his country, nor the mere absence of

it make him less patriotic. Yet we should give every flag its due respect and we should remember that disrespect to a national ensign carries insult to the people it represents. For this reason we cannot understand the supine conduct of. Toronto policeman who permitted a party of sightseers to proceed through the streets of that Good City trailing a Canadian flag in the dust of the thoroughfare nor can we fully appreciate the lip-loyalty of a delegation of Orangemen that seem ed content to "protest" to the Mayor. These self-same Orangemen will parade in full force in a for days and make noisy speeches calling aloud their great loyalty, yet party of ill-bred visitors could drive unmolested and uncorrected through the streets of this Orange headquar-We are not advocating anyters thing but peaceful measures, but we are strong in affirming the principle that disrespect to all flags should be promptly dealt with. The Canadian flag flies over the freest people in the world, and it is a craven community that would allow it to be insulted with impunity. H.

Gerald Griffin has been dead sixty-nine years, the melancholy anniver-sary was observed last month. This Irish author was a man of rare ta-lents who left behind him some that Jesus Christ is really an his-torial person. "There is hardly a man who has lived in the long bygone past as to whose existence some clover critic could not ralse objections—and plau-sible objections." Even so with our Divine Lord. In an able chapter Mr. Marsh disposes of the objections of Baur, Strauss and M. Robertson, and of other fancies concorted by lents who left behind him some works that will live as long as the English tongue survives. His famous novel "The Collegians" placed him in the first rank of Irish writers. He died early, but in his short life prepared a lasting heritage. LIMERICK JESUITS GOLDEN JUBILEE.

A LONG AND GLORIOUS RECORD.

Irish Recruits Were Many in the Dark and Stormy Days.

In connection with the celebration In connection with the celebration in Limerick of the golden jubilee of the Jesuits in that city, the follow-ing sketch is furnished by a corres-pondent of the Weekly Freeman from facts supplied by one of the reverend fathers: In the stormy days of persecution recruits from Ireland joined the La-

In the stormy days of persecution recruits from Ireland joined the Je-suits in large numbers. It is calcula-ted that there were three hundred Irishmen in the Society of Jesus be-tween its foundation in 1543 and its suppression in 1773. There were twelve Jesuit colleges in Ireland and six abroad in which Irish youths were educated. Limerick is spoken of as "the cradle of the Jesuit or-der in Ireland." Inclinet Jesuit to come to the city was Father Wolfe, of whom Cardinal Moran says: "He was a remarkable man who labored to gather the stones of the sanctu-ary." He was appointed by Pope Gregory XIII. Father Ar-cher, on the authority of the same cher, on the authority of the same cher, on the authority of the same Lord President, was "more to the Irish of Munster than reinforcements of troops, for at his nod alone hearts adhered and held together."

THE JESUIT COLLEGE.

The Jesuit College continued to ex-ist in Limerick through all the per-secutions under Elizabeth and under the scarcely less intolerant rules of James I. and Charles I. In the very year that Charles lost his head at Whitehall, we find Rinuccini, the Papal Legate, sent over during the Confederation of Kilkenny, coming to Limerick and placing on record his high opinion of Father O'Her-lihy, S.J., who was born at Lisa-doon Castle, and was Rector of the Jesuit College in Limerick. Why, the little girl who lives next door to me hasn't even one doll, and she doesn't get the sulks, either." Esther did get the sulks. She knew it, and mother knew it, but somehow they both hated to be re-minded of the unpleasant truth. Aunt Lou saw and heard the whole thing, but she did not say anything --not then. She dearly loved to hear about the big dog Bruce, which had been her grandmother's pet before she died, and was now cherished by Aunt Lou as though he had been a child. Why, he knew so much that he could fairly talk—at least, Aunt Lou could understand his whinings and tail-waggings and barkings and dog motions as though they were words.

Aunt Ann took the doll without a word, but her face wore the prettiest smile.--Morning Star.

The place marks the spot where Brian on that Good Friday moning stood with the blood-marked image of our dying Redeenter uplifted and besought the soldiers of Ireland by the sacred sign to fight for their altars and the honor of their homes. It also marks the shot where Brian was slain while on his knees thanking God for his victory over the Danes. It was Cardinal Cullen who, on the 14th September, 1859, caused the Mass bell which had been silent for three hundred years to ring out once more and the sacred Host was raised again on the altar stone. THE WATERFORD CATHEDRAL

To clear off a debt of 15,000 (fif-teen thousand) dollars still resting on Waterford Cathedral, a four days bazafr has been held. The opening address of the Dishop of Waterford was largely an historical surbey. He went back to the days of Cromwell in 1650 and 1651 when the Catho-lics of Waterford were driven out without any hope of being able to return. A very few years after-wards, however, they not only re-turned, but there was in the town four Catholic chapels, one of which occupied the site now covered by the present Cathedral. Two men would be posted at the church gates to keep away any of the non-Catholics who might stray in and the service would be ended and the gates locked before the Protestant services in the town began. By this and similar pleading the old church remained until 1793, when, in those days of broader sentiment, the cor-poration of Waterford gladly gave its Catholic constituents the ground upon which the present Cathedral stands, the lease being for mine hun-dred and ninety-nine years, and the annual rental the nominal figure of sixty cents. Despite the stern measures adopted by the police, the religious bitter-ness that has been aroused in Mo-therwell for some time part has in-creased on the part of the Protest-ant and Orange orators who have in-vaded the burgh from all parts of the country, writes a Freeman cor-respondent from Glasgow. So well have these speakers beaten the anti-Catholic drum, and roused the latent bigotry of the Protestant section of the community that life for Catholics in the burgh is made well nigh un-bearable. "A second Belfast, with the Ulster capital at its worst," is the apt description given to Mother-well, and in proof of this, Catholics walking the streets are bawled at, and in some cases stones are thrown at them.
