> The Pilos well knows that, as a body, the Annexationists are really and truly in favor of the Reciprocity Bill. They regard it as a firm step in the right direction—a step which can never be retraced, but which will be followed every year by still advancing steps. The wedge was first introduced when the American Governbe followed every year by still advancing steps. The wedge was first introduced when the American Government facilitated commercial intersourse with Canada by enouting the Drawback Bill; and if the Reciprocity Bill pages, it will be such a blow on that wedge as will well pages, it will be such a blow on that wedge as will well nigh shiver the trusk of restrictive commercial policy in Canada to pieces. It will so loggen the sources and channels of trude, that no man, or set of men, can everyfull of refetter them. It is essentially part of the progress of the sources and the sources are the sources ar

Insurers can at all times demand, as a right, a
Loan to the extent of two-thirds the amount of
Premium they have paid—upon deposit of their
Policy, and guaranteeing it will be kept in force.
This important advantage removes the fear so
many entertain of being obliged, through pecaniary embarrassment, to let their Policies lapse,
and at a time such a provision is absolutely
neeled for their families.

DR. LA'MERT

Marriage requires the futfilment of several conditions, in order that it may be really the cause of mu tash happiness. Could the veil, which covers the origin of domestic vertebedness, be ranged, and its true source in every instance disclosed, in how many could it be traced to physical disqualifications and their attendant dissponiuments. Excesses are alsways injurious; the gilt which, when used in moderation, is fraught with advantage, becurren, when abused, the prolific source of mischief, and of greater or less highry to the constitution and vital powers.

The particular excesses, on the nature and consequences of which this Treatises prodesses to dilate, are productive of greater misery to the human trame than any other to which it is subject.

This Work contains an socurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease. Nor are these the sole contents of the work; the means of escape, as well as the nature of the danger, are pointed out in clear and intelligible language. It deservedly requires the closest attention and study, for what subject can be of more importance than the preservation of health, and of the physical ca, abilities of which every man should be possessed. It unfortunately happens, that, the unhappy vectim of excessive indulgence and victious habits, whether acquired in early life, or from the follies of advanced age while suffering from their gives pring to a qualified physician far relef. Shaine and the dread so frequently, but erroneously, entertained, that these complaints are beyond the reach of art, alike restree him, and prevent his seeking for assist ance where alone it can be procured. In acting thus, he for gets that accurate discrimination in as certaining the causes of disease, symiathy with the medical man, who can shew by his possession of the rest this, and other the procured in possession of the reach of any and the great of the practice to many years, is a guarantee for his prefession

Sin, — Lennot resist informing you of the extraordinary affect that I have experienced by taking only a few of your LOZENGES. I had, a cough for several weeks, that denied all that had been prescribed for me; and yet I got completely rid of it by taking about half a small box of your Lozeiges, which I find are the only ones that relieve the cough without deranging the stonach or digrestive organs.

THE great success which has attended the operations of the COLONIAL LIFE ASSURANCE COMPANY fully bears out the anticipations which its founders entertained.

The numbers who have connected themselves with it, by Assurances, show how very much such an Institution, on a broad and liberal basis, was required.

The Capital of the Compung Gives complete security for all its transactions. The Rates

Adopted are as moderate as can be held compa The Progress of the Company Has been most satisfactory. The Company has granted Assurances, during the last two years alone, to the extent of £306,000 Sterling.

Dibision of Brofits.

The Directors look forward with confidence to a very favorable result at the Division of Profits in 1854. Persons assuring before 25th May, 1850, will participate in that Division to the extent of fine years' claim for bonus.

The powers of the Board in Montreal being absolute in the disposal of business, gives to the Colonial all the facilities of a Local Company, combining at same time the additional advantage of a large Guaranteed Capital.

Every information can be obtained on application to the MANAGER, or to any of the AGENTS of the COMPANY.

[Comparative Statements of the Rates of Premium adopted by the various Life Assurance Companies transacting business in Canada have, from time to time, appeared in the public prints, placing the Colonial Company, in some instances, at an apparent disadvantage with other Companies. Lowness of Premium of tiself is but a poor criterion of the stability or standing of a Life Assurance institution, or of the advantages to be derived by Assuring with it. The Statements, moreover, though attractive at first sight, ought not to go for much. > CONNECTICUT MUTUAL LIFE INSURANCE COMPANY, HARTFORD.

Incorporated by the Legislature of Com-1846. \$100,000.

THE CONNECTICUT MUTUAL LIFE INSURANCE COMPANY is established upon the purely mistual system, with a Tariff of Premiums as low as is justifiable with the permanence and accurity of an Institution of this character. Every person taking out a Policy is a member, and entitled to vote at the Annual Meetings. The Dividends are declared menually on the Sist January. All persons insuring previous to that day, participate in the profits of that year, which are passed to his credit upon the books of the Company; to be paid during the life of the insured, in the order of rotation, from the excess of a capital of profits of \$200,000. The stipulated capital of profits having been obtained, the Directors will be authorized to pay the first year's Dividends at the close of the present fiscal year, afterwards, each year's Dividends, in regular order, will be redeemed, as the funds of the Institution exceed the above two hundred thousand dollars. It is supposed that each person will be required to pay three annual Premiums before his Dividends will be redeemed. This feature in the conditions of this Company, over those who do not redeem or may the Dividends until the death of the insured, is peculiarly favorable to the member, as the redemption of Dividends will assist in the payment of the Annual Premiums, after a few of the first years have elapsed, or take up notes given for Premiums.

Empowered by Special Act of Parliament REDUCED RATES OF PREMIUM—HALL CREDIT RATES OF PREMIUM.

THE greet and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary Directors to KEDUCE the HALLS Originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance of The Company of th rance of Fremium than those of any other Assurance Company transacting business in Canada. The Directors have also resolved to extend to British North America the advantages aforoice by the HALF CREDIT RATES of PREMIUM which have been so highly approved and company to the state of the state which have been so highly approved and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other paris of North America without affecting their interest

in their respective Policies.
