ITALIAN TROOPS CROSS THE ISONZO

NUMBER OF PRISONERS GATHERED IN WHEN GORIZIA FELL IS ESTIMATED AT 20,000

CADORNA'S TROOPS CROSS THE ISONZO AND CONTINUE PURSUIT OF RETREATING AUSTRIANS

20,000 Prisoners Were Taken by the Italians When Gorizia Fell, and Italy is Overjoyed at the Result—Story of the Great Victory

By Special Wire to the Courier.
Paris, Aug. 10.—9.20 a.m.—A Havas despatch from Rome says that the Duke of Aosta's army having passed the left bank of the Isonzo, continues the pursuit of the Austrians and that heavy losses, particularly in respect of prisoners, are being inflicted on the Austrians.

20,000 Prisoners Taken.
Rome, Aug. 10.—About 20,000 prisoners were captured by the Italians at Gorizia, according to an official announcement by the war office. The statement says an accurate estimate is impossible at present as numbers of prisoners are being brought in hourly.

Great Celebrations Throughout Italy.
Rome, Aug. 10.—The capture of Gorizia was celebrated last night in every city in Italy. Great parades, bands and shouting crowds testified to the enthusiasm of the people over General Cadorna's victory. Rejoicing is intensified by reports that many thousands of additional prisoners have been captured by the Italians at other points along the Isonzo in addition to Gorizia.

GORIZIA ITSELF WAS NOT BURNED

But was Deserted Save By Wounded and Dying When Victors Entered.

TERRIFIC STRUGGLE AT BRIDGEHEAD.

By Special Wire to the Courier.
Rome, Wednesday, Aug. 9, via Paris, Aug. 10.—Notwithstanding the desperate fighting around Gorizia, the city itself was not burned by the Austrians or destroyed by the Italian artillery fire; nor were the inhabitants, these to number of 20,000 having previously evacuated the city. It was the desire of the Italian commander, General Cadorna, to save Gorizia from destruction by the retreating Austrians and to that end he employed strategy.

Attacked From All Sides.
After taking the mountain tops of San Michele and Sabotino, the Austrians, not only from the front across the Isonzo, but also from the sides and rear. When the Duke of Aosta, commander of the third army, who was present, entered the city after forcing the bridge across the river at the head of cavalry and cycle corps, Gorizia was found to be deserted save by great numbers of wounded and dying Austrians on the outskirts. The Duke was accompanied by his cousin, the king. The only damage done by the Austrians was that occasioned by their attempts to destroy military buildings filled with large quantities of supplies.

The Fighting at "Death Pass."
The fighting at the bridge across the Isonzo at Podgora, leading into Gorizia, was among the most sanguinary episodes of the war. Before this encounter the bridge had been named "Death Pass." After the Italian army had obtained command of Gorizia from the heights of Sabotino, San Michele, Monte Fortin, Monte Santo, and Basso Fortin, Italian infantry advanced toward the bridge. After the fiercest fighting, in which one hundred Austrians were drowned, the bridge was taken. Entrance to the city was then comparatively easy.

Russians Keep on Advancing

By Special Wire to the Courier.
Petrograd, Aug. 10, via London.—The capture by the Russians of the railway station of Krypin on the Stanislaw-Nadvorna railroad was announced officially to-day.

Indian Struck on Head and Died To-day

Early this morning Dr. Chapin, Wellington street, was called in consultation by Dr. Mott of Mt. Pleasant to attend Mr. James Powless, an Indian and a single man, who lives on the Sour Springs Road. Mr. Powless was found suffering from a blow on the head, and although whether he had been struck or had sustained it accidentally, could not be determined.

Mr. Powless was brought to the hospital at noon in order to receive better attention and died a few minutes after getting there.

It is thought that the blow was given in a fight at a garden party on Tuesday night. An inquest will be held to-night at 9 o'clock.

CORP. J. SIMMONS IS REPORTED ILL

Admitted to Hospital With High Temperature, According to Letter.

Corp. Jack Simmons, Clarence St., has been admitted to hospital with a temperature of 104, was the word received by Mrs. Hetherington from her son on the firing line. Corp. Simmons' people have heard nothing of his illness, nor has his name appeared as yet in the casualty list, although, according to the news in the letter, he is in hospital, but, at latest, July 20th.

Corp. Simmons went overseas about a year ago, and served in the artillery. He expected to take a course for a commission. He would make a good officer, as he is a graduate from the Faculty of Forestry, University of Toronto, and has had an advanced technical training.

QUET ALONG WHOLE FRONT

Raid by British South of Arras— Mine Exploded at Loos.

By Special Wire to the Courier.
London, Aug. 10.—The general condition of affairs in Persia has recently shown a decided improvement. Lord Robert Cecil, minister of foreign affairs, in the House of Commons to-day. The arrival of the British in the country, he added, gave good reason for hoping that the improvement would be maintained.

Lord Robert said he hoped that arrangements on financial and other questions would shortly be arrived at with the Persian Government. Anglo-Indian officers were being engaged in offering detachments in southern Persia.

Men Adrift for Three Days

Boston, Aug. 10.—After being adrift three days in small boats, Capt. Thomas Kyffin and the rest of the crew of the schooner R. B. Bowers, abandoned last week in a gale off the Grand Banks, were brought to-day by the British steamer Cape Finisterre. The men in great distress were picked up by the British steamer Homer City and transferred yesterday to the Cape Finisterre inward bound from Glasgow.

Captain Kyffin reported that the Bowers, bound from Halifax for a British port with a cargo of pulp began leaking during a storm and was battered about by heavy seas for some hours before he and his crew took to the boats. They had drifted far toward mid-ocean, he said, when the Homer City rescued them. The Bowers, a vessel of 373 tons, probably went to the bottom. Capt. Kyffin said.

CHANGE IN PRICE

By Special Wire to the Courier.
Pittsburgh, Aug. 10.—Another change in the price of all grades of crude oil, but Ragland, was announced by the principal purchasing agencies to-day. Five cents a barrel was the posted reduction, making the new prices as follows: Pennsylvanian crude, \$2.55; Cabel, \$1.87; Mercer Black, Corning and New Castle, \$1.85; Somerset, \$1.70. Ragland remained at 75 cents.

DOLLAR DAY A SUCCESS

Crowds Were on Hand This Morning Even Before the Stores Opened.

Mingling with the crowds of Dollar Day shoppers, one had only to watch and listen to know beyond all doubt, that again Dollar Day has been an overwhelming success.

As early as 7 o'clock this morning thrifty housewives wended their way cityward, and at many stores crowds collected long before the clerks were on hand, or the doors opened. All forenoon the radicals added their loads to the throngs of shoppers, and the crowded streets and streets gave positive evidence of the interest taken in the event, not only by Brantford's citizens but by everybody within reach of the city.

That there will be tired clerks and tired shoppers when the doors close this evening goes without saying—but that Brantford merchants have shown their ability to secure bargains for their customers, and their desire to please all will be an established fact.

TEN YEAR FIXED ASSESSMENT FOR STEEL PRODUCTS

Council This Morning Decided to Grant This and also Close Part of Read St.

MAYOR BOWLBY ALONE OPPOSED.

Committee also Appointed to Decide Upon Help for Fire Victims.

A special session of the city council was held this morning to provide a fixed assessment for ten years for the Dominion Steel Products Co., and to convey to that firm a portion of Read street, in the Homestead district. Mr. Heyd, on behalf of the company, was present and addressed the council in the interests of the company.

A by-law to provide the fixed assessment for ten years for the Dominion Steel Products Co., and to convey to that firm a portion of Read street, in the Homestead district, was presented and addressed the council in the interests of the company.

The by-law to close Read street, and the company received its first two readings, and was passed by the council, the mayor alone opposing.

The by-law to close Read street, and the company received its first two readings, and was passed by the council, the mayor alone opposing.

His Worship Mayor Bowlby addressed the council upon the subject of the northern Ontario fire, and asked the co-operation of the members in forming a committee to decide upon the action of the city with regard to the relief of such a calamity. The committee suggested by his worship consisted of Mr. W. C. Livingston, of the W. P. S. and the Women's Relief agency corps; Mr. H. H. Powell, of the Board of Trade; Mr. C. H. Watrous of the Hospital Board, Ald. Freuborn and himself (Mayor Bowlby); the committee was sanctioned and appointed by the council. Following this, and the decision upon daylight saving, the council adjourned at 10.15, to meet regular session on Tuesday, Monday being Labor Day.

Those present were His Worship Mayor Bowlby, Ald. Ward, Harp, Minshall, Wiley, Dowling, Hess.

PLACED ON RESERVE

By Special Wire to the Courier.
Paris, Aug. 10.—Seventeen brigadier-generals were placed in the reserve section of the army yesterday by order of the minister of war. Their places were filled by the promotion of an equal number of colonels.

Brigadier-General Dumestiel, under secretary of munitions, has been promoted to a general of division, replacing General Desaleux, who has been placed on the reserve list.

SOCIALIST WRITER PASSES AWAY

By Special Wire to the Courier.
London, Aug. 10.—An Amsterdam despatch to the Central News reports the death of Frau Lily Fraun, the German writer and Socialist lecturer.

About 150 delegates from all parts of the Dominion are in attendance at the nineteenth annual convention of the Canadian Horticultural Association in Berlin.

ON SUNDAY NEXT AT MIDNIGHT CITY REVERTS TO OLD TIME

Subject Came Up at a Special Session of the City Council This Morning, and After a Short Discussion, Motion to Go Back to Former Time Passed Unanimously

On Sunday evening next, at midnight, Brantford will revert to standard time, after some two months' experience of daylight saving, which has been tried, weighed in the balance and found wanting. Such was the determination arrived at this morning at a special meeting of the city council, who voted unanimously for a return to the old time. The daylight saving question, to say, was only a minor reason for the meeting, the real purpose being to deal with the newly founded Dominion Steel Products Co., and its requests of the city. After that matter had been disposed of, Ald. Pitcher introduced the daylight saving question, favoring reversion to standard time.

Ald. Minshall, seconded by Ald. Pitcher, introduced the motion that the city revert to standard time on Sunday next at midnight. Ald. Wiley, although not favoring the daylight saving scheme, advocated the continuation of the new time until the end of August, as before decided upon. Ald. Minshall, Bragg and Pitcher favored reversion at once.

To the daylight saving time, Ald. Dowling attributed the good health which had prevailed in the city recently, in spite of the hot weather, and the alleged impurity of the water supply. With the others, however, he was willing to return to the old time; the vote then taken proved unanimous on the subject.

Agitation Still Against the Sale NEVER STOP MAKING GAINS

French Forces Again Gain North of Hem Wood in Somme Sector

By Special Wire to the Courier.
Copenhagen, via London, Aug. 10.—Agitation against the sale of the Danish West Indies is increasing in force, especially in the Conservative and Left parties, and evidence of dissatisfaction are beginning to appear in the radical journals and among partisans of the government.

The National Tidende and other papers print communications from prominent persons, inviting the king to refuse to sign the ratification of the sale of the Danish West Indies, but that the king would do so is extremely unlikely, as according to the Dutch parliamentary system, the king is never supposed to refuse his signature to a measure which the Rigsdag adopts.

There is a marked increase in the sentiment among both the public and the members of the Rigsdag that the sale should be postponed until after the elections.

Fifteen battles in the air took place yesterday on the Somme front. One German aircraft is reported to have been destroyed and two forced to descend inside the French lines. French machines dropped 413 bombs on various railroad stations.

STEAMER SUNK

By Special Wire to the Courier.
Malone, Sweden, Aug. 9, via London, Aug. 10.—The Norwegian Steamer Thore Hafte, 3,500 tons gross, has been sunk off Falsterbo by striking a mine.

An Exchange Telegraph despatch from Athens reports that General Callarais, Minister of War in the Greek Cabinet has resigned. While driving his own automobile along a road in the mountains above Grindelwald, Switzerland, Baron Bizutti, an Italian, plunged over a precipice.

BIG FIRE

By Special Wire to the Courier.
Philadelphia, Aug. 10.—A spectacular fire today destroyed the building of the Clawson Company, spice importers here, and spread to the Dr. Jays building adjoining. Other properties were also damaged. The loss is estimated at \$200,000.

Belgians Hold All of the Northwest Portion of German East Africa

Many of the Enemy Killed and Wounded in Battle and Forced to Retreat Closely Followed by Belgian Troops

By Special Wire to the Courier.
Havre, Aug. 10.—The northwest part of German East Africa is now completely in the possession of the Belgians, who are closely pursuing the German forces, according to an official statement issued by the Belgian war office. The text of the statement follows:

"General Tombeur telegraphs that the Germans suffered heavily in the fighting on July 13 and 14. Their losses in killed and wounded exceeded 300 and 96 prisoners were taken.

"After the engagement on the 14th in which the bulk of the enemy forces were engaged, the Germans hastily retreated towards St. Michael, abandoning under pressure of Molitor's brigade, positions in the Mariabill region. According to the latest report received the occupation of Ushji and the railroad terminus, announced on August 3, was effected on July 29.

"The northwestern part of the German colony is now cleared of all enemy forces. The latter are retreating in the direction of Tabora, closely followed by the Belgian columns."

GREAT BRITAIN ISSUES PROTEST OVER MURDER OF CAPT. FRYATT

Ambassador Gerard Asked to Convey to German Government the Views of Britain on the Crime, a Crime Which Cast the "Gravest Obloquy" on the Hun Authorities

By Special Wire to the Courier. London, Aug. 10.—The foreign office has made public a letter of Viscount Grey, secretary of state for foreign affairs, to the American embassy here, requesting that Ambassador Gerard in Berlin convey to the German Government, the British Government's desire to enter a most formal protest against the execution of Captain Fryatt of the British Steamer Brussels by the German authorities in Belgium.

This execution, says Viscount Grey's letter, the British Government "can only describe as the judicial murder of a British subject held a prisoner of war by the German Government under conditions in direct violation of the law of nations and the usages of war."

NOT YET THE "GREAT PUSH"

Gen. Maletierre, Leading French Critic, Thinks Grand Drive to Come.

"PRESSURE" THE MAGIC WORD. Germany Now being Crushed Slowly, on Land, Sea and in Trade.

By Special Wire to the Courier. Paris, Aug. 10.—(New York Herald cable)—According to diplomatic and financial circles here the present offensive of the allies in the west is not the great drive that has been so long expected by the public.

Germany's First Strategy. "Germany's first scheme was to strike successively in time and space the inferior and separate forces of France and Russia, so that her victorious troops should pass like a shuttle from one frontier to the other across a triumphant empire."

Allies Hold On. "Thus they alternately launched offensives on the west and on the east, in Flanders and on the Yser and in Poland. The Austro-German reserves enabled them to do this."

Have Now Lost Initiative. "While maintaining a defensive position in the west they launched the great offensive against Russia in May, 1915. Russia had nearly reached the end of her supply of munitions and Grand Duke Nicholas had retreated from the Carpathians. The Russian front then became immobilized in ice and mud and the Germans began their third drive, this time into Serbia. Then toward the end of 1915 they prepared their fourth great attack, the drive on Verdun, which was begun in February. Thus the general offensive, first launched in 1916 the Germans still held the initiative which they have now lost."

No Truce to the Teutons. "The allies on the outside circle were disconnected both in a political and military sense. This has now been corrected but General Maletierre holds that the general offensive can only be decisive if it is really general, simultaneous, conducted with the same violence and directed by a sole authority on all fronts. All must be attacked at once on their whole length and neither truce nor rest must be left to the Teutons until, first of all, the invaded territories are freed."

"Pressure." "General Maletierre does not consider the present attack the great general offensive, but he feels rather that something has changed and connected with the war and the equilibrium of forces and he sums it up in the single word "pressure." He finds a constant, general, progressive pressure on all fronts, so that the central offensive can no longer use their last reserves for the benefit of any particular centre of operations."

Not the General Offensive. "At the moment when Austria was nearing the Italian plains and the Crown Prince had taken Vaux, the Russians suddenly attacked and General Brusiloff's army shattered the Teuton lines for 250 miles from the Styra to the Danister. This unexpected success of the Russians, General Maletierre says, led the public to believe that the Anglo-French offensive could obtain the same results. He urges the French Government to admit that it is not the continental pressure which indicates that the allies are slowly and surely approaching superiority, which, added to the naval economic pressure, gives the certainty of victory."

An Affair of Patience. "We are convinced," he says, "that this general offensive will take place when the necessary conditions of superiority have been realized and that it will be victorious. It is an affair of patience and of steadfastness for the nations as well as for the allies."

RUSSIA HAS TAKEN 400,000 IN THIS DRIVE

Mr. John R. Mott Gives Some Statistics of Number of Soldiers Captured. New York, Aug. 10.—More than 5,000,000 prisoners, double the number of men engaged in any previous war that the world has known, are now confined in prison camps of the belligerent nations, according to Dr. John R. Mott, general secretary of the International Committee of the Young Men's Christian Association, who arrived here on the Danish steamship Oscar II. from Copenhagen. Dr. Mott left here in May for Russia, and has visited the prison camps of nearly all the countries at war.

Dr. Mott said that of the prisoners, Germany has the greatest number, approximately 1,750,000. Russia, with about 1,500,000 comes next, then Austria with 1,000,000 followed in order by France, Italy, Great Britain and Turkey. Russia's prisoners, he added, are rapidly increasing

THE SITUATION

The Italians occupy the centre of the stage to-day by their capture of Goritz. The place is a most important town of Austria, situated on the Isonzo river, about twenty-two miles from Trieste. This victory, it is said, opens up the only practicable road to the last named place, which is the most important sea port of the Austrian monarchy, and the most considerable trading place on the Adriatic.

The British and French forces continue their steady advance north of Somme. The Australians, who like the Canadians, have a habit of getting into the limelight, succeeded in pushing forward two hundred yards on a half mile front. They thus practically completed the conquest of the German second line.

The Grand Duke's forces have renewed their forward drive in the Caucasus with good success, but it is admitted that in the region of Armenia the Turks have re-taken two small towns.

A DISCREDITED PARTY AND LEADER.

The political annals of Canada do not begin to furnish a more sorry spectacle than is presented right now by the Liberal party in Ontario. Rowell, the Provincial leader, has from the first made "abolish the bar" his slogan, and yet in the Perth bye-election, the prohibition Liberals ranged themselves shoulder to shoulder with the men who did not want to abolish the bar, because by such a course they figured they could wrest a seat from the Hearst government for introducing a prohibitive war measure.

Now with brazen faced effrontery, said Alliance is openly proclaimed in the Toronto bye-election contest. Mr. Waldron (Liberal) has specifically and unequivocally proclaimed that he favors the bar system as at present, and his candidature, after he had clearly stated the stand he took on this question, has been heartily endorsed at a meeting of the Liberal Association in the constituency.

The exposure is absolute and complete, and furnishes still another humiliating evidence of the depths to which Crit manipulators are ready to descend in order to attain office. Even the dark and deplorable days of Rossini did not present anything quite so rank.

There promises to be a great old mix-up in the Southwest Toronto bye-election for the Ontario House. According to present indications there are likely to be four or five candidates in the field. Perth demonstrated that prohibition Liberals are willing to yoke up with the liquor men, and afterwards to join in loud acclaim on behalf of a "party victory."

the Liberal organs there, the Globe and the Star, that the issue will be on the prohibition question with the odds altogether in favor of an out and out opponent of any such measure.

What they couldn't recognize, or wouldn't recognize, with regard to Perth, they now see clearly enough with reference to the home riding, so that all their talk about the outcome in the Stratford constituency having proved a condemnation of the Hearst Government in general, falls absolutely to the ground.

Mr. James A. Norris, the Conservative candidate favors the introduction of a beer and wine license. Mr. Gordon Waldron, the only Liberal candidate thus far in the field, stands out and out for the continuance of the entire license system as it at present exists.

Meanwhile the truth has been brought home that vast numbers of temperance Liberals, who were among the loudest to ask Premier Hearst for the Ontario Temperance Act, are quite willing to cast their ballots with the liquor interests providing thereby they can get in their man.

The fact that the prohibition issue seems likely to become a political football once more is entirely due to these men. They have helped to coax Hearst to go very far with a war measure and then rounded on him.

Since the above was written, all doubt as to the Liberal party backing Waldron has been removed. At a meeting of Ward Six Liberals held in Toronto last night Mr. Norris, in addressing the gathering, said "I am against prohibition." He added that he would not waste his time with discussing wine and beer licenses.

Having thus clearly declared himself, the good Rowellite Grits in attendance at once passed a resolution, pledging Waldron unanimous support.

Well decent men and women. What do you think of it? McCLURE.

M. S. S. McClure, well known publisher and owner of a New York paper, on his first trip to Europe during the war, wrote a lot of pro-German stuff. Recently on a return visit the British authorities refused to let him get any further than the Old Land, where he will stay a month. He now says he has found the British to be possessed of a wonderful spirit and profound determination to win the war. They have done an amazing thing, he finds, in accumulating with the Allies a fighting strength that is as strong as Germany's was at the start of the war.

What it took Germany 40 years to do, the Allies have accomplished in 24 months. To Mr. McClure's mind, it will take two years to wind the struggle in now at hand.

Mr. McClure pretends to be for the Allies, but the Providence Journal doubts him as follows:—"Mr. McClure was led into his present entanglement by Dr. E. A. Rumley, one of the chief propagandists of the German Government in this country, who acted as the dummy in the purchase of the New York Mail from Henry L. Stoddard last year. The real purchaser was Dr. Heinrich Albert, fiscal agent of the German Government in the United States, who put up the money after a futile attempt to raise \$2,000,000 for the creation of a German propagandist daily paper to be published in the English language in New York."

Immediately after Dr. Rumley took hold of the paper left it, being unable to work in the atmosphere of international intrigue which begets to pervade the whole establishment. The United States secret service secured possession of evidence vice secured possession of evidence showing that Dr. Rumley was the German his office as a centre of the Liberal propaganda system in New York. It was into the midst of these conditions that Mr. McClure was induced to enter the service of the Evening Mail, and on his recent European trip he was carefully watched by the British authorities.

hundred, a circumstance which will prove sweet information to the average housewife.

A German paper complains that John Bull is still allowed to send a constant stream of troops across the English Channel to France. Well, why doesn't the Kaiser, who still claims that the sea fight smashed the British navy, put a stop to it?

Rowell Liberals in Toronto rooting for an out and out opponent of prohibition, is a sight for the gods.

The Russian bear these days is commencing to look more like a mastodon. "We regret to report" would be the introduction each day now of the Berlin official despatches, if they told the truth.

TWELVE MEN KILLED IN B. C. COAL MINE

Michel, B.C., Aug. 10.—At 11.30 o'clock Tuesday evening an explosion occurred in a new number three mine supposed to have been caused by lightning striking the exposed signal wires on the surface by which the current was conducted into the mine, sparks from either dust or gas and killing, so far as is known, 12 men. The explosion was of such force that the buildings on the surface were all destroyed, as well as the large main-tenance cribbings. Fire started in one place in the mine but is now apparently extinguished. The condition of the underground workings is such that rapid progress is impossible and no bodies have thus far been recovered. All mines here will be idle to-day and probably until next Monday noon.

BILLION DOLLAR CROP EXPECTED

After a thorough canvass of various points throughout Western Canada, Dr. McGill of the Dominion Grain Commission, is quoted in Calgary as saying that Alberta would have a crop as good as last year, that the Dominion would have a billion dollar grain crop and that the grain crop of the three Prairie provinces would be little, if any, behind that of last year.

"The country as a whole never looked better than it does at present," said Dr. McGill. "The weather was made to order, as you may say, and I am of the opinion that this year's harvest will be another wonderful one."

Those who contemplate going West will do well to remember that the most fertile districts in Western Canada are served by the lines of the C.N.R. and that this season they can travel from their home districts to destination Canadian Northern all the way.

Arrangements have been made whereby passengers may travel in comfort. Colonist and lunch counter cars being a feature.

The first of these excursions will be run in August, the date will be announced later.

For further information apply to nearest Canadian Northern Agent, or write to E. J. Fairbairn, General Passenger Agent, 68 King St., E., Toronto.

HONOR JUNIOR MATRIC RESULTS

Toronto, Aug. 10.—The results of the examination for honor junior matriculation are given below. The standing obtained in each subject is indicated after a candidate's name— I. indicating first-class honors, II. second-class honors, and III. third-class honors, respectively. The statement of standing of all candidates will be mailed in the course of a few days to the principals or inspectors. In the case of those who wrote at the University of Toronto their statements will be sent to the Registrar of that institution. Candidates should apply to these parties and not to the Department of Education for further information. The marks obtained by scholarship candidates have been reported direct to the universities concerned. Scholarship candidates will be informed of their standing by the Registrars of these universities.

Red Cross Supplies Not Allowed Through

Amsterdam, via London, Aug. 10.—The Norddeutsche Allgemeine Zeitung of Berlin publishes a memorandum issued by the German Government, which states that owing to the treatment of Red Cross supplies, Germany will not longer allow free passage for such supplies. German naval forces will receive orders to take such articles for their own use when they come within their reach.

The British Government has refused to permit the forwarding of Red Cross supplies through the blockade line of the allies into Germany and Austria. In a recent memorandum submitted to the American Government, Great Britain said this practice had been forbidden in all blockades established in the past.

Lord Lansdowne Outlines Reprisal Considered by British Government

London, Aug. 10.—That the British government is contemplating the confiscation of all the German-owned property in Britain in retaliation for the execution of Captain Charles Fryatt of the British liner Brussels was revealed in the House of Lords yesterday by Lord Lansdowne. He stated that the government was consulted with financial houses as to the advisability of taking the step. The German property in England runs into many hundreds of millions of dollars.

INITIATIVE IS LOST TO GERMANY FOR ALL TIME

So Thinks Earl of Derby, Who Discusses the Military Situation.

By Special Wire to the Courier. London, Aug. 10.—"The Allies have been having a jolly good time since I saw you last," said the Earl of Derby, under secretary of war, in meeting the newspaper correspondents yesterday. Lord Derby discussed the present military situation frankly, but declined to make any prophesies beyond the assertion that he was convinced there was no possibility of the initiative again falling into the hands of the Germans.

"It is not a bit of use comparing our casualties on our front with the ground gained," continued Lord Derby. "As a whole the problem must be considered from the standpoint of the effect on the other fronts in the first place and in the number of Germans we are able to kill. We have prevented the sending of vast German forces to the eastern front, where the Russians are making such impressive progress, while it is indisputable that the latest offensive on the western front has relieved the pressure upon Verdun.

"Cannot Go Back and Forth." "You will recall that last year the Germans using their railways to the best advantage sent reinforcements from one front to another with the utmost facility. They are not doing this now and will never be able to do it again.

"Every Austrian killed or captured must be replaced with a German. This process cannot go on forever. The pendulum, now stopped, will not again swing for the Germans. We are killing many Germans and this work will eventually end the war.

"Germans Can Fight." "It is foolish to belittle our own troops by belittling the Germans. Although they are no longer the 'top tiger,' they are still fighting like tigers. For concentrated fury nothing in the war exceeded the fight our troops had with the Brandenburgers on the Somme front.

"While I have no more information concerning the Russian victories than you read in the press, I am convinced that the operation is to be tremendously important, for you will notice that 2,000 Germans, not Austrians, have been taken with some of their big guns. Such a thing does not happen every day.

"We are applying pressure on all sides and will continue to apply it until the successful conclusion of the war."

Owing to the prolonged spell of hot and dry weather experienced during the past six weeks, as well as to the prevalence of flies and similar pests, it has been feared in many parts that a general famine of milk might ensue, if taken by the majority of local dairymen, who express their belief that matters will not reach that stage. While the prolonged drought and the other troubles have of necessity had their effect upon the quantity of milk supplied by the cows, it is felt that there is as yet no danger of a famine, although the season is rather a bad one, and that if rain is obtained soon in order to improve the pasturing lands, all will come through well. It is admitted that the weather has exercised a bad effect upon the milk supply, but not yet to such an extent as to create what might in any way be termed a famine.

PRESSING THE ENEMY ALL THE TIME AND ON EVERY FRONT

Italian Capture of Gorizia Significant in View of Number of Prisoners Taken, as Austria is Rapidly Nearing Point of Utter Collapse

New York, Aug. 10.—The Paris correspondent of the Tribune cables as follows: The allies are now in full tide, carrying out their great plan—that is, pressing the enemy all the time on every front, giving no respite. The entry of the Italians into the scheme with their big offensive against Gorizia and Montefalcone, completes the chain encircling the central empire. Like the Franco-British offensive on the Somme and the French attacks at Verdun, the Italian action is heralded as only beginning their undertaking.

Capture of Prisoners Important. Great cause for rejoicing is that after months of careful, laborious preparation, the Italians have taken the field. How well their plans were laid and their preparatory work was done is shown by the magnificent results of the last four days in ground won and prisoners captured. The capture of prisoners by the Italians is more important in ultimate result than the ground taken, as important as that is strategically, for the great success of Russia has so weakened Austria in men and material that every man and gun she loses to-day means more to her than ten times as great a loss would have meant at the beginning of the war.

Austria Near the End. Austria has now arrived at the point where, figuring on the present rate of allied progress, a definite time limit can be put on her activities in the war. The campaign in the west aims at constant pressure, a steady pushing back of the Germans to the Rhine. Russia, on the other hand is destroying the armies of the nation. Italy's problems are different from Russia's. Like the French and British she must aim at forcing back the enemy rather than destroying their army, but in entering the field with her great offensive, she greatly lightened the Russian task, while at the same time she hugely increased the burden Germany now, more than ever, is compelled to carry.

Guilleumont Almost Isolated. Meanwhile, the Franco-British pressure continues unremittingly. North of the Somme, the Allies are steadily drawing in on Comblès. Operations of the last two days have Guilleumont—the principal remaining bulwark on the west—nearly surrounded. At the same time the French have advanced over a front of three and three-quarter miles toward the main position. The British are pushing ahead to Martinpuich, on the road to Baupainnes. Everywhere Defeat for Enemy. At Verdun, the Germans, despite most desperate efforts, have been unable to re-take the ground seized from them by the French. Thiaumont has been momentarily in their hands once more, but the French immediately drove them out by desperate counter-attacks. The last two days have been marked by victorious fighting by the Allies on every front. In no battlefield have the Germans found anything except defeat.

MAYOR IS HOT AGAINST NOISY MOTOR DRIVERS

Has Instructed Police to Prosecute All Offenders of Motor Vehicle Act.

His Worship Mayor Bowbly is up in arms against all drivers of motor cars, including motorcycles, who in any way infringe upon the requirements of the Motor Vehicles' Act, and has issued instructions to the police to prosecute with fullest rigor of the law any offenders who appear before him. A petition has been received by His Worship from a number of ladies residing on Brant Avenue and other central streets of the city, protesting against the undue noise which is made at night by motor vehicles of all kinds when travelling on the city's thoroughfares, and it is stated this morning that such offenders will be prosecuted "to the hilt." The Motor Vehicles' Act stipulates that any person riding or driving any motor vehicle shall not make an unreasonable amount of sound with his horn or bell; that he shall not permit his machine to emit an unreasonable quantity of smoke, nor shall he by opening his muffler cause the vehicle to create undue noise. To these stipulations, and also to those enacting against speed of greater than 15 miles per hour within the limits of the city, and the reckless driving of motor vehicles, His Worship has taken a most decided stand, will see that no offenders who are hereby warned. The penalty for a first offence against the Motor Vehicles' Act is a fine of \$10 and costs; for a second, a fine of \$10 or more than \$20 or more than \$30; for a third or subsequent offence, \$50. To Miss Bennett, Mrs. Wait and the other ladies who signed the petition sent to him, Mayor Bowbly desires to express his thanks for the sincere interest taken by them in the welfare and interests of the city. It is, he states, drivers of motor eyes, who are the worst offenders.

Where Report of Sinking of Bremen Really Came From Printed in a Swiss Paper, Which Said Sinking was "Probable." By Special Wire to the Courier. London, Aug. 10.—The report published widely on Tuesday that the German submarine, Bremen, had been sunk while on her way to an American port did not appear in the Berliner Tagblatt, as the despatch in question stated, but in The Berne, Switzerland, Tagblatt. The newspaper merely stated it was "probable" the Bremen had been sunk, owing to an accident to her machinery. Nothing is known of this report in London, Amsterdam or The Hague.

WEDDING BELLS

A pretty wedding took place last evening, Aug. 9th, at the home of Mr. and Mrs. Hawke, the latter a sister of the groom, when Miss Emily Wood was united in marriage to Mr. Elmer Force, both of Brantford. The ceremony was performed by Rev. Jos. Chapman, in the company of about 25 guests. The bride was beautifully gowned in white and wore a crown of flowers. The groom was in khaki and wore a boutonniere. The happy couple were attended by Miss E. Phillipson and Mr. Harold Cockshutt. After a sumptuous wedding supper, the bride and groom, with the bridesmaid and groomsmen, departed for their honeymoon. The groom is a member of the 215th battalion and is a member of the 215th battalion in the manner in which they dispose of themselves at camp. The 215th arrived safely in Niagara Camp. No irritating stops delayed the journey. The train did not even deign to stop at Hamilton. The only thing noted in that city was a group of young men who would have made a fine appearance in khaki, but they were in the front of the train looking up at astonishment at the train load of soldiers, so one of the 215th explained to them that "there was a war on."

CHLORINE PLANT INSPECTED AND REPORTED UPON

Mr. John Fair and Mr. Bowbly by Tell Results of Their Investigations.

WELLAND CANAL WATER USED.

But Plant Makes Water Pure and Leaves No Unpleasant Taste In It.

A meeting of the Board of Water Commissioners was held yesterday at the City Hall. There were present Mayor Bowbly, chairman and John Fair, inspector. Mr. Fair presented a report of the Commissioners' visit to St. Catharines and Thorold for the purpose of inspecting liquid chlorine plants at these places. The report is as follows: To the Board of Water Commissioners, City of Brantford:

In company with His Worship, Mayor Bowbly, I visited the City of St. Catharines, and Town of Thorold in order to inspect the plants installed there for the purification of the water by chlorine gas.

We were most cordially received by the superintendent, Mr. Alex. Milne, who has been in charge of the plant for many years, and who showed us both systems and gave us full information as to their operations. I confess that we were much surprised when informed that the water supply was being taken from the Welland Canal which has a very large amount of traffic with all the pollutants entailed thereby.

We sampled the water after treatment and could detect nothing objectionable either in taste, odour or colour, and the reports from the office of the Provincial Board of Health showed it to be free from any impurities. Both chlorine plants were installed by the Electric Bleaching Gas Co., manufacturers of liquid chlorine, New York.

I would strongly recommend to the Water Commissioners of Brantford the installation of a similar plant with a capacity equal to the requirements.

I desire to express gratefulness for the courtesy and the painstaking explanations afforded to me and His Worship the Mayor, by the capable and efficient engineer and superintendent of the St. Catharines plant, Mr. Alexander Milne, and that the secretary of the board send a communication to him conveying such expressions.

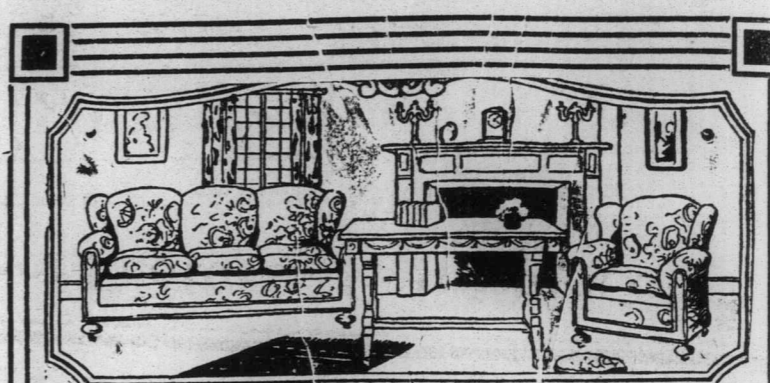

Respectfully yours, JOHN FAIR.

It was moved by Mayor Bowbly, and seconded by John Fair, that the report presented by Mr. Fair re: chlorine plants be received and filed. Carried.

Mr. John Kienle, sanitary engineer, representing the Electro Bleaching Gas Co., of New York, was present at the meeting, inspected the pumping plant with the engineer and made a proposition to the board for the installation of a plant to meet the requirements of the service.

THE ITALIAN FLAG GORITZ; AUSTRIA FROM THE Great Isonzo Step Taken in the Adriatic Met

Rome, Aug. 10.—The flag of Italy to-day flies over the city of Gorizia, while from the lofty mountain heights which rise up from the Isonzo valley the same banner is floating. Italian troops entered Gorizia yesterday morning, marking the first concrete step in the campaign against Trieste and the extension of the Italian borders once more to include the long-moored Irredentist province. Last night large bodies of Italian cavalry, infantry and Bersaglieri on bicycles were pursuing the defeated Austrians. More than 10,000 prisoners have been brought in. The losses in dead and wounded are described as enormous. Whole lines of Austrian trenches were found choked with bodies, according to the news from the front.

Furious Three-Day Battle

The capture of Gorizia followed a furious battle of three days in which the concentrated fire of the Italian artillery shattered the powerful bridged positions of the Austrians on the western bank of the Isonzo, forcing a retirement from the river line. The campaign for the city has covered a period of more than a year during which time fighting of more or less violence was practically continuous. Gorizia is in a basin surrounded on three sides by towering mountains. The Italian advance up the slopes of these superb natural defences was naturally tedious and slow.

Terrible Drum Fire

Late news from the correspondents couched in graphic terms of the Italian triumph. "The terrible drum fire of the Italian infantry dislodged the Austrians from their position," says one of these reports, "and the Italian infantry immediately swept through the Austrian lines of defence.

"Behind these men great reinforcements were rushed through subterranean tunnels which had been dug to within less than one hundred yards of the Austrian first line. The Italians dashed forward with such speed and so rapidly that in many cases the Austrian guns shell-positions two and three lines back of the Italian advance.

THE ITALIAN FLAG FLIES OVER GORITZ; AUSTRIAN TROOPS FLEE FROM THE CITY IN DISORDER

Great Isonzo Stronghold Occupied by General Cadorna's Army and First Step Taken in the Campaign Against the Adriatic Metropolis of Trieste

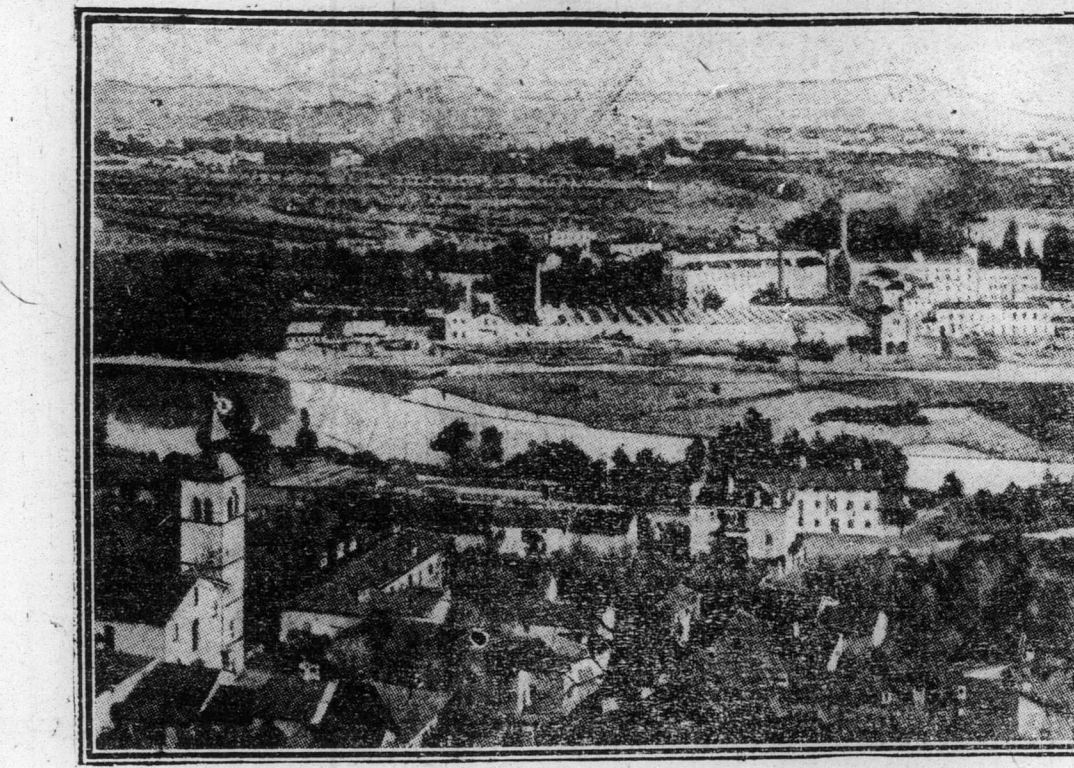

Rome, Aug. 10.—The flag of Italy to-day flies over the city of Goritz, while from the lofty mountain heights which rise up from the Isonzo valley the same banner is floating. TWO EXTREMES AT PHILADELPHIA

Reds and Phillies Stage a Pitching Duel and Slugging Bee

Philadelphia, Aug. 10.—A pitching duel and a slugging bee were staged in a double-header here yesterday. Philadelphia winning the former by 1 to 0, and Cincinnati the hard hitting contest by 8 to 7. Alexander pitched in wonderful style in the first game, and had the better of Schulz. After the visitors pounded Bender for five runs in the first inning of the second contest Philadelphia tied the score in two innings. In the fifth three doubles and two singles drove Bender off the rubber, and gave Cincinnati three runs and the victory.

First game—R. H. E. Cincinnati . . . 00000000—0 3 0 Philadelphia . . . 00100000—1 9 1 Batteries—Schulz and Wingo; Alexander and Killifer.

Second game—R. H. E. Cincinnati . . . 50002000—8 15 2 Philadelphia . . . 32000200—7 10 4 Batteries—Mitchell and Wingo; Bender, Oechnger, McQuillen and Burns.

At Brooklyn—Larry Cheney held the Chicago Cubs to two scattered hits yesterday, and scored a shut-out by 6 to 0. Meanwhile the Brooklyn Batters—Doak and Gonzales, McConell and Wilson, Elliott, Cheney and Miller.

At New York—New York and St. Louis broke even in a double-header here yesterday. St. Louis winning the first game by a score of 3 to 0, while the Giants easily won the second game by 8 to 4. St. Louis scored all its runs in the first inning of the first game. The Giants bunched hits in the second game on Steele. In the second inning of this game Betzel played the hidden ball trick on Merkle. Scores:—

First game—R. H. E. St. Louis . . . 30000000—3 3 1 New York . . . 000000—0 7 2 Batteries—Doak and Gonzales; Benton, G. Smith and Rariden, Kocher.

BOWLING SCORES In the third round of the Kuntz trophy, played for at Berlin, Dr. McGuire's rink of Buffalo defeated T. McPhail's men by 17 to 14. The trophy was eventually won by Chapman of Guelph. For the Berlin Bowlers' Competition, in the third round Ingis beat Casey, of Hesper 19 to 8; R. E. Haire, of Paris, beat C. M. Schultz, of Hesper 17 to 10, while T. McPhail defeated H. E. Wettlaufer, of Berlin, by 7 shots. In the fourth round Ingis drew a bye and McPhail won his game by 7 shots again. Haire, of Paris was put out of the running. Both Ingis and McPhail came through the fifth round, but unfortunately were pitted against each other in the sixth. McPhail going under. Three teams are left to finish the tournament.

INKSATERS'S RINK WON THE TROPHY

Paris Quartette Defeated H. O. Hawke, of Galt, in a Close Game.

Berlin, Ont., Aug. 10.—Skip "Bob" Insater's Paris rink won the handsome Seagram trophy of the Twin City Bowling Association yesterday afternoon in the final game against Skip H. O. Hawke, of Galt, by the score of 16 to 15.

The contest was the best played and most exciting ever witnessed on the local greens. Both rinks played remarkable games, and an extra end was necessary to decide the winner. In the nineteenth end Skip Hawke was lying two shots and the game appeared to be in his favor. Skip Insater with his last ball decided to trail the jack to the ditch with an overdraw shot, but went wild. Two "lucky wicks," however, gave him the desired result and won the game.

In the previous end he also pulled the game out of the fire with a phenomenal shot. It was a great game from a spectator's view point. The trophy was presented by President Hagon of the Berlin club.

ORIOLES AND LEAFS EACH WIN ONE

McTigue Pitched First Game and Managed to Win Out.

Baltimore, Aug. 10.—Baltimore and Toronto broke even yesterday, the Leafs winning the first game 5 to 4 and losing the second 5 to 12. McTigue held Baltimore in the hollow of his hand for eight innings in the first game, but weakened in the ninth, and was pounded for four runs. Toronto's early lead saved them, however.

Baltimore pounded Toronto's hurlers hard throughout the second contest, and won easily. Scores: First game—R. H. E. Toronto . . . 010212000—6 10 1 Baltimore . . . 00000000—4 8 3 McTigue and Kelly; Morrisette, Crowell and McAvoy. Second game—R. H. E. Providence, Aug. 10.—Providence and Rochester broke even yesterday, the former taking the first game 3 to 2, while Rochester won the second game two to one. Bunching of hits was responsible for each victory. The scores: First game—R. H. E. Providence . . . 001010000—2 8 1 Rochester . . . 00000000—0 7 3 Colwell and Hawley; Smallwood and Schwert.

Keep Game Going Till Season's End

Cricket Club Has Obtained Services of Two Good Bowlers.

At a meeting held on the O. S. B. grounds last night it was unanimously decided to keep the game of cricket in this city running until the close of the season. The club has been successful in obtaining the services of two good bowlers which will greatly facilitate matters.

There being no match arranged for next Saturday, the members have decided to have a practice commencing at 2.30 p.m. All members are requested to make a special effort to be present.

Providence . . . 10100100x—3 4 1 Archer and Dooin; Baumgartner and Yelle. Second game—R. H. E. Rochester . . . 000100010—2 3 6 Providence . . . 000001000—1 8 1 Hill and Hale; Schultz and Yelle.

Richmond, Aug. 10.—Buffalo and Richmond broke even in yesterday's double bill, the visitors taking the opening game 2 to 1, and Richmond winning the second 5 to 2. Buffalo won the first contest by consistent hitting in two innings, while Richmond slugged out a victory in the second. Scores: First game—R. H. E. GREAT SERIES AT CHICAGO
Home Team and Red Sox Fighting It Out for First Place.
Chicago, Aug. 10.—Boston nosed Chicago out of first place in the American League pennant race yesterday by winning a 12-inning pitching duel 3 to 1. Jim Scott and Ernest Shore, the hero of the last world's series, were pitted against each other, and each delivered his best wares in the pinches. The world's champions won the game by bunching hits. Afternoon was out, Gardner singled in the 12th, and E. Scott followed with a safe hit. Cady then singled to left and scored Gardner with the winning run. They made victory sure. However, when Hooper's single counted E. Scott, Score: R.H.E. Boston . . . 001000000002—3 13 0 Chicago . . . 000100000000—1 10 1 Batteries: Shore and Cady; J. Scott and Schalk.
At Cleveland—Pipp, of the New York team, knocked the ball over the right field wall in the sixth inning, putting New York in the lead, 3 to 2, but in the inning following Smith batted for Pitcher Covaleski, of Cleveland, and duplicated Pipp's feat, driving in Leonard ahead of him and winning the game, 5 to 3. Score: R.H.E. New York . . . 020001000—3 11 1 Cleveland . . . 20000030x—5 10 1 Batteries: Shawkey and Numan; Coker; Covaleski, Klepfer, Coleman and O'Neil.
At Detroit—After losing twenty straight games and equaling the American league record for consecutive defeats set by the Boston club in 1906, Philadelphia yesterday broke its losing streak by defeating Detroit 7 to 1. This is the first game Philadelphia has won in the West this season. Score: R.H.E. Philadelphia . . . 104000110—7 8 2 Detroit . . . 0000000001—1 4 2 Batteries: J. Bush and Haley; Doughterty, Cunningham, Mitchell, McKeen, and Baker.
At St. Louis—Twenty thousand fans saw the Browns crush the Nationals yesterday, 4 to 1, advancing to within five and a half games of first place. Walter Johnson was attacked viciously in the first, when

Shotton doubled, Miller singled and Sieler and Pratt hit against the left field fence for doubles, netting three runs. Davenport relieved Hamilton in the third, after Washington had scored on three singles. In the sixth the Nationals filled the bases with no one out. Garrity hit to Wallace, and a triple play followed. Wallace threw to Severoid, and Morgan was out at the plate Severoid tossed to Sieler to retire the batter, and Sieler threw to Wallace, who tagged Rice, overrunning third. After that Davenport held the Nationals hitless. The score: R.H.E. Washington . . . 0010000000—1 7 2 St. Louis . . . 30000100x—4 7 2 Batteries: Johnson and Ainsmith; Hamilton, Davenport and Severoid.

A GERMAN VIEW OF THE SOMME

Every Advance Leaves the Allies Worse Than Before, They Think.

Berlin, Aug. 10.—(By wireless to Sayville).—"Correspondents on the western front describe the battle of the Somme as the most gigantic which ever has taken place," says the Overseas News Agency. "The initial successes won by the Entente allies were due to the fact that they attacked with forces ten times as great as the number of troops defending the positions. But after German reserves and heavy artillery were brought up the advance of the enemy was checked.

"Since July 29 he has continued his efforts in vain, throwing fresh troops into the fight. The correspondents agree that this is a mad and useless sacrifice.

"Tactical differences between the attacks at Verdun and on the Somme front are evident. Every German success won at Verdun shortens the line in addition to extending the amount of conquered territory around the fortress. The French were thus compelled to make violent counter-attacks, which caused them heavy losses. On the Somme the small advances of the enemy have lengthened the attacking front. The advanced hostile detachments are shelled by the Germans from two and sometimes three sides. The correspondents are of the opinion that the Somme region was chosen for the attack because the railroad of Amiens is behind the Franco-British front and also because the French and British lines join there."

AEROPLANES FLEW ABOUT KING OF MONTENEGRO

Paris, Aug. 10.—A squadron of German aeroplanes flew over the headquarters of Colonel—on the French front while the King of Montenegro was there paying a recent visit. The hostile machines drew a hot fire from the numerous special cannon and the French artillery. The king, with glasses, followed the evolutions of the war planes, firing in addition to the telling shots that put them to flight.

King Nicholas had previously pinned the Montenegro military medal on General Gouraud, who was formerly commander of the French expeditionary force at the Dardanelles. He visited the headquarters of the Russian brigade and decorated other French and Russian officers and men, and then reviewed the troops.

After the review a crowd of children surrounded the king and General Gouraud. Suddenly stopping his automobile, King Nicholas turned round to them, and in a vibrant voice called out: "Children! Raise your hands and swear that when your turn comes you will be brave and loyal soldiers like the heroes you have just seen pass by."

"Long live the king of Montenegro," shouted the children as the automobile made its way through the crowd.

WATER WORKS NOTICE

The attention of the Water Commissioners has been called to a number of malicious and outrageous stories circulated about contamination and pollution of the public water supply. These stories are without foundation whatever and the board are taking vigorous steps to punish any person found circulating same. The tests of the city water made by the Provincial Board of Health where samples are sent regularly show the same to be absolutely free from any contamination. The notice given to boil the water was done on account of the excessive consumption and was an extra precaution.

CLEARING THE RETREATING ARE ARE WINNING

Action on the Low to a Close and Prisoners is Gro With Extraor valry and Cyclis Blaze of Search

Rome, via Paris, Aug. 11.—The number of prisoners taken by the Italians since the fall of Gorizia exceeds 15,000, according to the respondent of The Tribune on the front. Italian cavalry and cyclists are clearing the valleys of retreating Austrians, and according to the correspondent, the battle continues in favor of the Italians on both wings.

Rome, Aug. 11, via Paris.—The latest reports show that the Italian offensive is drawing to a close in its first stage, with the number of Austrian prisoners still growing. The number of men killed or wounded in the battle is large. Neither side has yet been able to make an accurate estimate of the casualties, though total for both sides will probably reach 60,000.

Enemy Fought Strongly From evidence arriving here belief prevails that the victory of the Austrians, to the demoralization of the Austrians, as the fighting was the severest yet seen on the front. The Austrians contested every inch of ground about Gorizia even after the loss of the strategic points of Monte Sabotino and Monte Michele.

While the success of the Italians doubtless was due largely to the heavy artillery, which matched last year's year of waiting for the Austrians, the heavy 305-mm. Austro-German guns, yet the hand-holding was appalling in its mass-bayonets, knives, bombs, and army swords, pistols, an arms every description being used.

Deeds of heroism were plentiful, especially in connection with the use by the Italians of a method for destroying barbed entanglements involving the almost certain death of the soldier who plants the bomb for this purpose. The victory of the Italians is considered all the more creditable, as the Austrians on the lower Italian front had long prepared for an attack on a large scale, having successfully resisted many previous ones on sectors of the front.

The taking of Monte Sabotino the key to Gorizia and the vast area surrounding it, is regarded as the biggest feat in all the fighting in the lower-Sonno region. While the Austrians previously had taken and San Michele many times they before were able to approach it.

The Fight for San Michele The Austrians fought for possession of San Michele to the very counter-attacking hourly. The fense and capture of the bridge the bridge connecting Podgora Gorizia was the outstanding feat of the last twenty hours of fighting before King led the first cavalry cyclists into the city. The Austrians were unable to hold the bridge.
