GOT BOTH BODY AND EFFECTS

A LAWYER MAY FOLLOW JAMES TREASURER'S DEATH.

His Wife, From Whom He Was Separated, Takes Possession of His Property, While His Housekeeper Claims to Have a Will Made by Deceased Deceased.

The death of the General Hospital yesterday morning of Mr. James Treasurer, 133 Amelia-st., brought to light an interesting story.

Previous to the time of his residence in Amelia-st., Treasurer lived with his wife and family at 402 Bathurst-st.

A skeleton kept in the family closet, however, and a year ago Mrs. Treasurer secured a legal separation from her husband, and retained the Bathurst-st. residence and other property.

Since that time Treasurer has resided at 133 Amelia-st., where a widow named Victoria Davidson has been keeping house for him.

At 10.30 p.m. a thin-faced young man, wearing a brown overcoat and black felt hat, rushed into the office of the General Hospital for the purpose of having an operation performed.

Inspector Stark heard the stories of wife and father, and at once saw that he had no excuse for holding back the body.

MEETING OF UNEMPLOYED.

A DEPUTATION TO WAIT ON THE ALDERMEN TO-DAY.

A Good-Natured Audience Listens to the Propounding of Various Schemes—A Suggestion That the Council Meet in Continuous Session Until a Plan to Give Everyone Work is Evolved.

Crowded to the very doors was St. Andrew's Hall last night at the meeting of the unemployed. When Mayor Kennedy rapped for order there was not a seat vacant and men stood half a score deep around the door.

All through the meeting the audience was in robust good humor and expressed its likes and dislikes freely and strongly.

The first resolution, moved by Rev. Charles Shortt and seconded by Mr. Atwood, recommended that public action of exceptional character should be taken to provide at least temporary employment for all the unemployed.

The motion was carried unanimously. The necessity of pushing on public works was expressed in a resolution proposed by K. R. McKennie said that while he could not see any other way, some people were able to pay \$5 to hear a concert.

A resolution in a speech that was met by many interruptions, urged his patent pances for all ill—the canal scheme, the Toronto College, and an amendment favoring the scheme, but was blocked by the Mayor, who declared it out of order.

FINAL DRAW, VICTORIA RINK, THIS P.M. Toronto Granite v Sarnia. Dundas v Ottawa.

The twentieth annual competition in the final for the Ontario Silver Tankard began yesterday in the city rink.

The ice was on the natural, but almost perfect in all the rinks.

Ten of the clubs, at least, are left by the bye and there are only four of them left as yet.

The clubs showed themselves to be evenly matched generally and several of the teams supposed to be exceptionally strong fell in Hamilton went down early and the Thistles and Victoria didn't get into the second round.

Ottawa was the last competing club of an age ago and is now nearly as far '94. The clubs showed themselves to be evenly matched generally and several of the teams supposed to be exceptionally strong fell in Hamilton went down early and the Thistles and Victoria didn't get into the second round.

Torontonians were directly interested in the contest in the morning on Victoria ice. There the Granite and Prospect Parkers were turning, running and shooting as only experts know.

The Church-street rink was open early last night, and the Granite and Prospect Parkers were turning, running and shooting as only experts know.

ANTIGONE.

A Fashionable Audience Witnesses the Presentation of the Greek Play—The Vice-Royal Party in Attendance.

Assembled at the Academy of Music last night to witness the production of the Greek tragedy, "Antigone," was a large and fashionable audience.

The play was made up of always observed. Society and culture met at an ancient Greek shrine to worship or profane.

In one of the scenes the actor who played the role of the chorus, laughed at Antigone's plaintive wailing and wept at the rustic humor of the guard.

The next was the student, old or young, who bowed his head to such a child of song, before he had been actually the witness.

The whole singer, so Greek and yet so modern, bowed his head to such a child of song, before he had been actually the witness.

At any rate the audience, be it wholly or partly, must have seen Prof. Hitt's play, "Antigone," in its original form.

It is likely that the play will be given by the Ontario Government and the Ontario Government.

The play was made up of always observed. Society and culture met at an ancient Greek shrine to worship or profane.

In one of the scenes the actor who played the role of the chorus, laughed at Antigone's plaintive wailing and wept at the rustic humor of the guard.

The next was the student, old or young, who bowed his head to such a child of song, before he had been actually the witness.

being rendered less capable of culture by reason of a shelter from winds and storms being swept away. It is a matter of the very first importance to the province that the city should be careful to protect its timber.

I do not mean to protect it in such a way as to prevent progress of civilization and agriculture, but where the country is unsuited for agricultural purposes in any one locality the city of the Government and of future generations to husband and to take care of its timber.

I take the interest on the outstanding grammar-school lands at 5 per cent, being the principal of the interest on all outstanding grammar-school lands, making a total amount of \$175,000. Granite Wins a Closely-Contested Match With the Victoria Club.

There was a big crowd at the Victoria rink to witness the meeting of the Victoria-Granite Clubs in their second match this season.

A close game was anticipated, but, if anything, the Granite were favored for money. It was fully 8:30 before the puck was faced.

THEY ASK A COOL \$10,000.

Farmer-General Gordon gives them the encouragement—The Fair Representations—Views Will Be Represented.

The adjourned meeting of the Canadian Association of Fair and Exhibitions was held in the City Hall yesterday morning.

The delegates were all in better humor than on Wednesday night and consequently the business was conducted in a more conciliatory mood.

An attempt was made by some to recast the motion passed on Wednesday night to the effect that the Government be asked to effect an additional grant to electrical societies and that the whole amount be divided as previously provided among township and electrical societies.

A motion was passed to the effect that the President name a committee of five to present the views of the meeting to the Minister of Agriculture.

The delegation subsequently waited upon the Hon. Mr. Dryden, Minister of Agriculture, in the Members' Reception room.

They were attended by some 50 gentlemen, members of the various societies represented at the conference held in the city.

Mr. C. R. Smith of Hamilton, president of the association, introduced the delegation. He referred to the important work done by these societies throughout the province and stated that, after long debate, he could say that the delegates were in approving of the two resolutions which they had adopted.

First, That grant to the Agricultural and Arts Association of Ontario should be discontinued; and, further, that an additional grant to the Electrical Societies be made.

Mr. G. K. Pattullo warmly supported the Hon. Mr. Dryden's decision.

Mr. G. K. Pattullo warmly supported the Hon. Mr. Dryden's decision. He would like to know, however, what sum they desired to secure in the shape of a grant.

Mr. Smith replied that the sum of \$10,000 had been suggested.

Hon. Mr. Dryden observed that he could give no decisive encouragement, but that they could depend upon the Government giving to their cause the most earnest and friendly consideration.

With Woods Legs in a storm, (Brookville Recorder).

Thomas Farrell of Smith's Falls had a fearful experience during the recent big storm. Farrell was usually gone in a sleigh drawn by a large dog.

He followed the C.P.R. track for some time, but the dog finally gave up the chase and he was left to his own devices.

When the 11:30 express came along he made signals of distress and the train stopped a minute, but for no reason.

However, knowing that there was no other way for him, he went to the hole in the snow with his hands and determined to make the best of the situation till morning, hoping that the snow would melt and he would be able to get out.

The media will be placed on exhibition in the Public Library.
