Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Library Division
Provincial Archives of British Columbia

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Library Division
Provincial Archives of British Columbia

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Follow Our Advice:

When you feel blue 'cause Biz' is bad,
And all the world seems raging mad;
When war is humming in your ear,
Don't pine and think,
But quickly drink
A glass of Alexander Beer.
Then clouds will vanish, life seem brighter,
The sorrows go, the burden lighter,
And Albion's sons and Deutschland's Kaiser
Their quarrel cease, and live in peace,
For Lager Beer has made them wiser.

INTRODUCTORY.

To get a perfectly correct directory in a City of 30,000 people, and where the moves range from three to four hundred per month, is almost an impossibility, but I have spared no pains to bring to as near the acme of perfection as possible this my first number of what will be an annual production if our worthy citizens and business people will extend to me that measure of support which will warrant me giving my time wholly to the regular annual production of a City directory. I wish to thank those who have materially assisted me in my project, and

those who have kindly promised me their patronage; also the public generally for their kindness and courtesy in assisting me to the best of their ability to attain accurate data with which to carry out my project. I have delayed the publication over a month in order to furnish as far as completed the revised numbers of houses, and have obtained them for Mount Pleasant from Bridge street eastward, also for Granville, Howe, Hornby, Burrard and portions of Richards and Seymour. It is my present intention to publish annually if the sale of copies warrants my doing so.

Respectfully,
ROWLAND E. GREEN.
