Montreal Stock Market.

MARKET QUIET ON NO SPECIAL AC.
COUNT — CONSOLS WERE HIGHER
—AMERICAN STOCK SOLD LOWER
IN LONDON—WALL STREET SLACK.

Montreal, Nov. 9.

Unless under the influence of some strong exciting cause, the markets slacken off a little towards the end of the week. There was no motive power this forenoon to cause variation from the usual custom. An examination of the sales' list, however will show that fourteen stocks were traded in and that the easing off was not in the number of securities handled, but in the volume sold and in the prices secured. Commercial Cable was for it unusually active, there being transferred to other hands 135 shares and at a higher price, and Duluth was sold to the extent of 535 shares at a lower, but the general list on sympathy perhaps with Wall Street, to which the Saturday bank statement is important, did comparatively little business and did this little on somewhat lower bases. Speculators can be under no further alarm about money or about the Transvaal, yet they have plainly some internal monitor preaching caution to them and getting their obedience.

Canadian Pacific sold at yesterday's prices closing steady at 94 $\frac{1}{2}$ bid and 94 $\frac{1}{2}$ wanted.

Twin City a lower, closing weak.

War Eagle 1 lower, closing weak, while Payne and Montreal-London lost 2 points from previous one.

Royal Electric was 1 point under previous value was less strong in the forenoon, but during the afternoon session developed considerable strength, selling as high as 161, with very little stock to be had.

Montreal Street Railway was 1 $\frac{1}{2}$ points higher, and Republic, Cable Bonds, Telegraph and Telephone were little different from what they have been.

MORE ACTIONS PENDING AGAINST EX-DIRECTORS OF THE ROYAL ELECTRIC

We are informed that action has been taken, or is about to be taken, against those directors of the Royal Electric who were directors of the Park & Island. It is stated that these gentlemen, although they knew that the Park & Island was insolvent, placed an order for motors amounting to \$25,000, and these motors were delivered but not paid for.

The Montreal Construction Company, we understand are also to be sued on similar grounds.

Altogether it would appear that the Royal Electric was used to a large extent by some of the directors to suit their own ends, and the interests of the shareholders were with some of them a secondary consideration.

DULUTH S. S. & ATLANTIC.

Earnings from Jan. 1st 1899 ... \$1,908,638
Earnings from Jan. 1st 1898 ... 1,480,731

Increase \$428,907

THE \$750,000.00 DIVIDE.

We promised a few days ago to give our readers in due time particulars of what might be called, considering the standing of the parties interested, the most wonderful sample of financing that has been recorded for many years.

Certain gentlemen who at the time were directors of the Royal Electric Co., formed with others a "syndicate." This "syndicate" secured from the Royal Electric Co. a contract to purchase from them 6,000 horse power for a number of years at the rate of \$30 per h.p. The "syndicate" then turned the contract over to the Chambly Mfg. Co. for the consideration of \$500,000, which they received in bonds of the Chambly Co.

Messrs Campbell, Meredith, Allan and Hague have been instructed by the Royal Electric Co. to take legal action against these gentlemen for the refunding of this sum, it being claimed that they, as directors of the Royal Electric Co., cannot profit by contracts with their company, and consequently the money received by them from the Chambly Co. rightly belongs to the Royal Electric Co.

As in the course of time this matter will be fully ventilated in the courts, the shareholders of the Royal Electric will have an opportunity of seeing for themselves how well their interests were conserved by some of their ex-directors.

MONTREAL MINING EXCHANGE

MARKET IRREGULAR—LOWER PRICED STOCKS BEING DEALT IN — GOLDEN STAR FIRMER — RAMBLER CARIBOO DECLARES A DIVIDEND.

Montreal, Nov. 9.

Trading was irregular, running into specialties and undetermined in character.

Altogether nine issues were dealt in, embracing some 18,000 shares; transactions were mostly in the lower priced stocks, the dividend payers being entirely neglected.

The shipment of ore from the Slocan district for October was not quite up to the September average.

The Rambler Cariboo is again a new aspirant for dividend honors, having just declared its third dividend. The directors have ordered the payment of 1 per cent. per share, payable on Dec. 1st. The amount to be expended will be \$10,500. The capital stock is 1,250,000 shares of \$1 each. The return of the Rambler Cariboo into the list of dividend payers is another evidence of the intrinsic worth of the Slocan stocks, and also of the district. The company had previously paid two dividends.

Development work on the air iron is said to be progressing at the rate of ten feet daily; it is soon hoped that it will become one of the leading shippers in the Boundary Creek district.

One thousand shares of Golden Star sold at 31 $\frac{1}{2}$. The last sale was made at 33 $\frac{1}{2}$, but this was some time ago. The demand this morning was fairly good.

Transactions were made in Noble Five, which sold at 18 $\frac{1}{2}$, and Monte Christo at 5 $\frac{1}{2}$, 5000 shares changing hands.

Iron Colt was also dealt in to the amount of 500 shares at 4 $\frac{1}{2}$ cents.

The trading in Big Three amounted to 4000 shares, all of which took place at 12 cents; 11 $\frac{1}{2}$ was freely bid, but holders of the scrip were firm at 12.

Deer Trail sold at 21 to the amount of 1000 shares, and California was unchanged at 12 $\frac{1}{2}$, 1500 shares changing hands.

Of the unlisted stocks Giant was dealt in selling at 5 $\frac{1}{2}$ and 5, 3000 shares were sold.

MORNING SALES.

Noble Five—500, 18 $\frac{1}{2}$.
Golden Star—1000, 31 $\frac{1}{2}$.

NEW YORK EXCHANGE.

A RUSH TO SELL OUT FROM LEATHER COMMON — MANHATTAN STATEMENT NOT SATISFACTORY—MONEY HARDENING AGAIN — KAFFIR STOCK BUOYANT.

New York, Nov. 9.

Consols up 1. Market for Americans strong at moderate advances. The London market is favorably affected by friendly settlement of the Samoan difficulty with Germany and also by favorable news from Ladysmith.

A rumor was current during last hour yesterday that in order to relieve financial situation the treasury contemplated buying \$50,000,000 of outstanding bonds.

This story lacks confirmation and is not generally believed.

Attention is, however, being called to the fact that the government has a surplus of some \$60,000,000 and that if means could be devised for the release of a portion of this, the New York banks would be materially benefitted. Probably the scheme most likely to be adopted will be for the secretary of the treasury to authorize the revenue collectors to deposit in the New York banks instead of remitting to the treasury.

Decline in Leather was due to withdrawal of supporting orders usually handled by Rutter & Gross. As soon as these orders disappeared there was a rush to sell, and the market yielded very easily. It is rumored that the short interest has made a private settlement and that the campaign is at an end.

Strength of Pacific Mail was due to belief that next statement would make a better showing than for some time, and that next dividend would be declared as usual.

The Sun asserts that before end of year Nor. Pac. will redeem the remaining outstanding six p.c. general mortgage bonds amounting to about \$6,000,000. The bonds will be retired with the proceeds of land sales. By their retirement, the prior lien mortgage would become a first charge upon the property.

Various attempts have been made to put a favorable light on the Manhattan statement. It being claimed that the company is really better off than would appear inasmuch as the eighteen millions raised for equipment by electricity has been lent out at about 6 p.c., while the company is only paying 4 p.c. div on it. The main feature of statement is that the gross decreased \$120,645. It is difficult to see anything encouraging in such a statement, considering that New York is steadily growing.

New York (noon), Nov. 9.

Official quotations of London prices showed that Americans ruled slightly above our closing prices, while Consols were up 1. Subsequent cables received just before opening showed that the Kaffir market was very buoyant, but that there was comparatively little doing in Americans.

Our opening was, in the main, strong. So. Pac. being again the leader with fairly large transactions.

Leather Common was heavy, the buying by Rutter & Gross seems to have ceased entirely and the belated bulls are getting out as best they may.

There is the usual dearth of news in regard to the stock.

After first hour considerable liquidation made its appearance as a result of the upward tendency of money.

Five hundred thousand dollars loaned at 9 p.c. during first hour and subsequently 10 p.c. was bid. It is not unlikely that on

Monday and Wednesday commission houses increased their lines and that consequently the demand for money is growing.

Whether the banks have received any money from the interior or not it is difficult to say, but advices from Chicago indicate that the demands from the West are decreasing and that probably end of the month, considerable return currency will find its way to New York.

Manhattan opened heavy and after a moderate rally became positively weak. The Street seems to find cold comfort that Mr. Sage has been able to lead \$18,000,000 that were obtained by sale of new stock at an average rate of 6 p.c.

There was some buying of Nor. Pac. on announcement that all the 6 p.c. bonds will be retired in the near future by money acquired by land sales.

Un. Pac. common is being picked up quietly during last few days, giving rise to rumor that a dividend in the near future was not impossible.

At the moment So. Pac. shows rather more reaction than it has done during the last hour at which the buying from 41 $\frac{1}{2}$ down to 41 $\frac{1}{4}$ was decidedly good.

STRAWS.

Bay State Gas was very active on Monday in Wall Street and about 8000 shares were traded in around 1 $\frac{1}{2}$ and 2. The buying was supposed to be for the insiders and for Boston account.

Boston.—Mr E. H. Mower, secretary of the Cumberland Zinc & Lead Mining and Smelting Co., telegraphs from Joplin to the Boston office of the company as follows: "We have arranged for five new mills to be built on the Continental by our lessees. Rich strikes with depth are reported.

The following telegram is from Cochiti mine: "Have penetrated six feet into seventh level ore body and assays average \$35. Vein looking very strong."

From the Mass mine: "We have 20 tons of Mass and barrel copper ready for smelter. Have struck Butler lode in crosscut, very rich."

NEWS OF THE MINES.

The Rossland Miner, of Nov. 1st, says :

Mr. Waldemar Wallach has just returned from a few months' stay in the Old Country, whither he went for the purpose of placing a block of the shares of the King Mining Co. on the British market. In this endeavor he was successful, having interested a number of well-known British capitalists in the company. Among these are Sir Mark J. Stewart, M.P. for Kirkcudbrightshire, Mr. R. S. Allan, head of the Allan line of steamships, and others of note. They already can realize 100 per cent profit on their investment in these shares.

With the sale of these shares the King Mining company has sufficient money in its treasury to develop the Oro Denoro, its principal property, to a productive stage. Mr. Wallach took hold of the finances of this property on the 1st of January last and induced his Montreal friends to buy the shares at 12 cents, and yesterday they sold at 20 cents, and as a consequence, the eastern shareholders are feeling pretty good.

Referring to the latter part of this article that the "Eastern shareholders are feeling pretty good over the fact that stock they bought at 12 cents is now selling at 20, some of the eastern shareholders would like to know what really is the ground floor figure at which the shares were sold. Mr. Wallach's methods are, to say the least, peculiar. His Quebec and Toronto friends who are for each city he visits. He visits his Montreal friends and sells the stock at 12 cents! His Quebec and Toronto friends who are solemnly assured that they are being let in on the ground floor, pay a higher figure

for the stock, and to the surprise of his eastern Canadian friends, he takes a trip over the briny and sells the stock there at 10 cents. We know of some of Mr. Wallach's eastern friends who are so disgusted with Mr. Wallach's methods of doing business that they have not only lost confidence in him, but in the stock he sold them, and are quietly unloading. This is to be regretted, as we believe that the future of the "King Mining Co." is all right. We would advise Mr. Wallach, if he wants to retain the confidence of his eastern friends, to change his tactics. Once bit, twice shy.

MACHINERY FOR THE CANNON BALL GROUP.

Rossland, Oct. 21st.

Mr. F. P. Buck, one of the eastern directors and vice-president of the Cannon Ball Gold Mines, limited, was in town yesterday and other officers of the company about installing a hoisting and pumping plant on the property. The Cannon Ball group is located on the west shore of Christina lake. Work on the Cannon Ball claim, of this group, which has been vigorously prosecuted since July 1st of this year with most satisfactory results, was temporarily suspended a few days ago on account of water. Mr. Buck, who was at the time inspecting the War Eagle and other Greenwood properties in which he is interested, was notified, and at once arranged to spend a day here on his way back to Montreal and Sherbrooke.

As a result of Mr. Buck's visit it has been decided to install a pumping and hoisting plant at once, and work will be resumed and vigorously pushed as soon as the machinery is in place. He expresses himself as much pleased with his investment and believes the property has a very promising future.

NORTH STAR MINING COMPANY.

Mr. J. L. Parker, superintendent of the properties of the North Star Mining company, near Cranbrook, reports that the company has just let a contract for a double roped aerial wire tramway, which is to be over a distance of 6,000 feet, for the purpose of facilitating the getting out of the ore. Another improvement under contemplation is the putting in of a water power plant. The power is in a stream about 8,000 feet from the mine, and there is about 170 horse power, which is ample for present requirement. The plan is to put in a water wheel and generate the power, and to transmit it to the places where it is to be used by means of wire. The North Star

mine, Mr. Parker says, is ready to ship as soon as the railway company is ready to take the ore away. The North Star is owned principally by Mackenzie & Mann, and is one of the great mines of the Kootenays. There is over 40,000 tons of ore blocked out in the stopes and, as it is of high grade, it is estimated that there is ore in sight to the value of \$1,500,000.

A nearby property is the Sullivan, which is being operated by Colonel Ridpath and others of the Le Roi Mining Company, and the management seems to think with development that they will have a mining property of more than ordinary merit. Mr. Parker says there is considerable talk concerning the Pay Roll group, which was recently purchased by Messrs. Saucier, Ouimet and others of this city, and which they have incorporated. Mr. Parker thinks that East Kootenay is certain to make a great mining country.
