SPENT FIFTEEN OF 20 YEARS IN PRISON FOR BOLD CRIMES TORONTO MAN IS HELD AGAIN

Reginald Launcelot Willoughby by Middleton, Forger, Bank Swindler, Confidence Man, Bigamist and Embezzler, Will Be Arrested on Release From Kingston Today.

Reginald Launcelot Willoughby, Middleton, convicted forger, bank swindler, confidence man, bigamist, impersonator and embezzler, will be released from Kingston penitentiary at noon today after completing a seven years' sentence for forgeries in Toronto committed under the name of John B. Bannister. He immediately will be taken into custody again by Detective Archibald of the Toronto detective office on an extradition warrant issued by the United States grand jury, alleged to have been committed years ago in Fishville, N. Y., and Boston, Mass.

Middleton is a well-educated Englishman, and about 45 years of age; the police believe that if his correct name was known, he is of aristocratic birth. In his criminal operations he has used hundreds of names in scores of places. Since 1894, 20 years ago, when he commenced life as a criminal, he has spent at least 15 years in American, English and Canadian prisons.

The crime for which Middleton just completes a term of imprisonment, was in Toronto on Oct. 4, 1910, when he forged a bank official's signature to a \$2000 cheque drawn on the First National Bank, Newburg, N. Y. He cashed this cheque at the College and Yonge street branch of the Canadian Bank of Commerce. It is also said that another forged cheque, drawn on the Fishville, N. Y. Bank for \$1600 was cashed at a Toronto bank, on which he forged the name of H. B. Martinez, a cashier of a bank in Newburg, N. Y.

His first conviction was in 1894, on charges of forgery and grand larceny, committed at Niagara Falls, N. Y. On this conviction he was sentenced to 3 years in Auburn state prison.

On Sept. 28, 1898, under the name of Reginald P. Middleton, he was convicted of bigamy at Woodstock, Ont., and sentenced to 7 years in the Kingston penitentiary.

On Dec. 12, 1907, under the name of H. H. Rogers, alias Knightly, he was convicted at Philadelphia, Pa., with having impersonated a United States Government official, for which

MANY INQUIRIES BY OPPOSITION MEMBERS

Busy Session Foreshadowed by Mass of Information Sought—Formal Opening of Parliament Usual Brilliant Function—Speech From Throne Was Rather Colorless.

(Special to The Toronto World) OTTAWA, Jan. 15.—In spite of zero weather, His Royal Highness the Governor-General drove in an open sleigh this afternoon from Rideau Hall to the senate chamber and opened Parliament with stately ceremonial. The hardy soldiery were no less courageous, the viceregal party being escorted to and received at Parliament Hill with the usual military honors and salutes. The floor and galleries of the senate were crowded to capacity when the speech from the throne was read and the space below the bar was filled with members of the house.

On returning to their chamber, the seven members elected at the by-elections during the parliamentary recess were formally introduced. Solicitor-General Melghe of Portage la Prairie and Alexander-Morrison of Macdonald were presented by Hon. Robert Rogers, introduced by Hon. T. W. Crothers, Dr. Hanna of South Lanark by Hon. W. T. White, and Mr. Morris of Chateaugay by Hon. G. H. Perley. Hon. Mr. Hazen presented Col. H. F. MacLeod, who succeeds Mr. Justice Crockett as M.P. for York, N.B., and Sir Wilfrid Laurier presented R. E. Trux, the Liberal

LABOR APPROVES ROAD BUILDING BY CONVICTS

Council Will Send Delegation to Meet With Prison Commission This Morning—Humanitarian Attitude of Controller Simpson Endorsed—New Officers.

The Trades and Labor Council of Toronto has expressed its views upon prison labor. A communication from J. P. Downey of the prison commission, asking that representatives of the council meet the commission at the Parliament Buildings this morning at 10 o'clock, was read at the meeting of the council last night. Several delegates declared their views upon the question of labor in prisons. The council is opposed to any kind of labor being done by prisoners which will enter into competition with free labor, such as the manufacture of shoes, brooms, etc. Some of the delegates did not think it fair to labor that prisoners should be engaged by the government in road-building, but Controller James Simpson explained that if the men confined in prisons were not allowed to do this work, they would be robbed of an opportunity to keep their minds off unhealthy thoughts.

The controller approved of the action of the government in engaging the prisoners in road-building provided they were paid a fair rate of wages. He did not think it just that offenders against the law should practically lose time which they spend in stonement for their offenses, but that they should be paid a fair wage, which, if they were married, should go to the support of their families; or, if they were single, should be placed to their credit and given to them when they have served their time, in order to give them a new start in life.

Will Send Delegates. Delegate Bancroft spoke along the same lines, and at the conclusion of his address the council decided to send

PREMIER MAY YET RECOVER OUTLOOK DISTINCTLY BETTER

NEW YORK, Jan. 15.—(Can. Press)—More hopeful conditions prevail tonight in the case of Sir James Whitney, the premier of Ontario, who lies seriously ill at the Hotel Manhattan. While during the day the reports were conservative, a distinctly hopeful spirit breathed thru the night bulletin, issued at 9 p.m., which read as follows: "Sir James Whitney had a more comfortable day and seems slightly better."

NO PANIC STARTED ON COBEQUID DESPITE SUFFERING AND PERIL; CAPT. HOWSON TELLS OF WRECK

He Was on Bridge When Ship Struck Rocks, and Accepts Full Responsibility—Huddled in Cabin, Danger of Being Swept Overboard Was Imminent.

Wilcox Conservative Whip

ST. JOHN, N. B., Jan. 15.—(Can. Press.)—A tale of disaster at sea, of shipwreck, of peril, of death and of almost overwhelming hardships, lightened only by the courageous conduct and constancy of those around, is told by Capt. John Howson, R.N., master of the Royal Mail Steam Packet Co.'s steamer Cobequid, which was wrecked on Tuesday morning on Trinity Ledges on the Nova Scotian shore. Captain Howson's story is only incomplete in that it fails to mention what others of the crew relate, the coolness and courage of the captain in the face of impending death, and his own gallant efforts on behalf of the lives under his command.

Capt. Howson, with three of his officers and ten members of the crew, arrived in port this evening on board the Canadian Government steamer Lunenburg, which docked at West St. John. When the little steamer pulled into port it was greeted by whistles of the craft in the harbor.

Speaking of the disaster and its cause, Capt. Howson said that these were matters for the marine enquiry, and accordingly avoided such details in a frank manner he said: "I was on the bridge myself at the

time the steamer struck, and if anyone is to be blamed I am the man." Continuing he said: "The weather was extremely thick, the heavy snow-fall making impossible to see much farther than the steamer's bows. This condition arose after we had passed Seal Island and when it was too late to turn back and head for the open sea. We were taking soundings every half hour, but the approach to the ledges is in deep water, and while one sound showed plenty of depth, the next was being made just as the steamer struck."

Why Wireless Failed. "The shock when the vessel went on the ledges was not great, but it was sufficient to hold her hard and fast and to pierce the bottom. It was then that the wireless apparatus failed. The holds were flooded and it was necessary to draw the fire under the boilers to prevent the possibility of an explosion. This cut off the power of the dynamo which operates the wireless apparatus, but in the meantime the S. O. S. signal had been sent out with information regarding our location, which we then believed to be Brier Island. I may remark that it was 25 minutes before we received any answer to our calls from the Brier Island wireless station, a master for which it is hard to find a reason."

"As the water crept up in the steam- (Continued on Page 2, Column 4.)

NAVAL PROGRAM DRISCOLL WAS A REPORTER IN GOTHAM

Lord Haldane and Postmaster Samuel State Clearly That Pace Will Not Slacken Until Other Nations Agree to Co-Operate in Reduction of Armament.

Raised All Kinds of Trouble by His Work, and Was Made Deputy Police Commissioner by Mayor Gaynor, Who Called Him "Steam Engine in Boots."

LONDON, Friday, Jan. 16.—(C.A.P.)—Two declarations of the most explicit kind were made last night by Lord Haldane and Postmaster Samuel, regarding the immediate policy of the Liberal government on the navy. Speaking at Hoxton, the lord chancellor made one fact quite clear, namely, that the Liberal party does not propose to go back on the policy which has been declared publicly in parliament, and has no intention of weakening the navy by departing from those standards.

Lord Haldane led up to this declaration by dealing with the proposals which have been made for a reduction of armaments. "I should be thankful," he said, "to see the time close at hand when all nations are going to agree to reduce their armaments and relieve us of the monstrous burden which we have to keep up for defence, but that can only be done co-operatively. Experience shows that if in a heroic moment one country lays down its armaments before others do, unrest follows, and there is reaction, and its false scales and false measures. Loss of armaments and exposure resulted in a law that made weight-bearing of barker in almost all food products."

Later Mayor Gaynor promoted Driscoll to a deputy police commissionership. His work could not be as spectacular nor probably as useful, but it was more of a nature to be done in the shadows of the city. One of his duties was to pass on the merits of alleged deeds of violence and to advise the police on men who might be enlisted to do such and such a thing. His newspaper training led him to do a series of articles on the police, and he was a power in the police world. He was a man who was a "steam engine in boots."

Driscoll is given most of the credit on the part of the police for the cry that was raised for reduction of armaments, declared the Liberal government had always been and is today unwilling to come to Gaylor's terms. He left the police department clean. There was no special reason for his going. Mayor Gaynor had turned on him as an "old-time" ally. Driscoll was not a heavyweight, but he seems to have done his "dumdees" all the time.

"Who is Clement G. Driscoll?" is a question which has aroused not only a great deal of curiosity but also a certain amount of animosity in the fire department, the city architect's department, and in certain theatres affected by the reports of the Bureau of Municipal Research, being made at the instance of the civic survey committee. At the committee's offices yesterday, no information could be obtained, as it is a rule of the bureau that each of its experts becomes a unit in the organization and no personal exploitation is allowed.

The World's New York correspondent, however, furnishes the following: NEW YORK, Jan. 15.—Clement Driscoll was a young reporter on The Evening Journal, where he won the friendship of Mayor Gaynor, who dubbed him "a steam engine in boots." Gaynor first put him at the head of the bureau of weights and measures, where he raised all kinds of trouble because he found supposedly reputable commissionaires measuring their goods where he found supposedly reputable wholesalers and retailers, were using false scales and false measures. Loss of armaments and exposure resulted in a law that made weight-bearing of barker in almost all food products.

Driscoll is given most of the credit on the part of the police for the cry that was raised for reduction of armaments, declared the Liberal government had always been and is today unwilling to come to Gaylor's terms. He left the police department clean. There was no special reason for his going. Mayor Gaynor had turned on him as an "old-time" ally. Driscoll was not a heavyweight, but he seems to have done his "dumdees" all the time.

"PUT DOT IN YOUR PIPE UND SCHMOKE IT"

ALARMING CONDITIONS FOUND IN SEVERAL TORONTO SCHOOLS

Inspector's Reports Show That Poor Ventilation, Lack of Accommodation and Corresponding Defects Endanger Health of Pupils.

Scandalous and alarming conditions have been found in many Toronto schools by the different inspectors, who presented their reports to the management committee at its meeting yesterday. At Earlscourt school especially Inspector Rogers found that there was practically no ventilation and that the drainage is in a shocking condition. At St. Clair avenue school the lavatory accommodation is poor and opens into the fresh air supply room. The odors, strong and vile, coming from the abattoirs, cause flies and corresponding danger to the health of the pupils. A new site is required for that school.

The sanitary conditions in several other schools also were condemned.

Inspector Rogers' Report. EARLSCOURT SCHOOL.—There is practically no ventilation in the school. A teacher's lavatory was removed in order to make provision for a dental clinic in the school, and a stall provided for them in the public lavatory instead.

There seems to be no weeping-tile drain around the building on the outside, so that water from the school grounds is in part turned against the walls, drains thru into the basement runs across the floor, and with some considerable difficulty is removed after it forms a body of stream in front of the watercloset. The stonework in SHIRLEY STREET SCHOOL.—The ventilation of this building is poor and satisfactory conditions are impossible without opening the windows. The waterclosets are without door or half-doors. There are no outside drinking fountains. The halls are dark and dismal, and the new addition to the build-

GALLANT RESCUERS ARE GIVEN PRAISE BY DUKE

Prompt Official Action to Save Those Aboard Cobequid Also Highly Commended.

HALIFAX, N. S., Jan. 15.—(Can. Press.)—Charles H. Harvey, local agent of the Canadian marine and fisheries department, has received the following despatch from Hon. J. D. Hazen, minister of marine and fisheries, Ottawa:

"His royal highness the governor-general has been graciously pleased to offer his congratulations on the prompt action of the department which has resulted in saving the life of Captain Howson and more than one hundred valuable lives on the steamer Cobequid. He also desires me to convey to the officers and men of the agency who were concerned in the gallant rescue of the persons on the Cobequid, his admiration of their gallant conduct and his sincere congratulations on the success of their work."

SIX MEN MISSING FROM SCHOONER

SEATTLE, Wash., Jan. 15.—(Can. Press.)—When a wireless message announced yesterday that the schooner Wm. A. Garms, waterlogged and ashore on Vancouver Island, had been rescued by the tug Goliath and was being towed by Port Townsend, no mention was made of loss of life. Another message from the Goliath today reported that Captain P. Torloff and five sailors of the Wm. A. Garms were missing. They had left the ship in one of the lifeboats to seek aid for their comrades, and no trace of them has been found.

BAR OUT U.S. POTATOES IS INSISTENT DEMAND

Business Men of St. John Again Urge Retention by Canada.

ST. JOHN, N. B., Jan. 15.—At a meeting of the council of St. John board of trade today, the following resolution was adopted: "Whereas the Government of the United States has unjustly placed an embargo upon the importation of Canadian potatoes, and the Canadian Government has requested to institute an embargo upon the importation into Canada of American potatoes to protect the Canadian growers, and that the Canadian Government be further memorialized to remove this embargo when the United States Government do justice to the Canadian farmers."

Maggie Pepper's Last Visit Here. When Rose Stahl comes to this city next week, playing a week's engagement in her famous departmental store play, "Maggie Pepper," it will be her last visit here in the celebrated Klein play. "Maggie Pepper" has been even a greater success than "The Clonus Lady," which Miss Stahl played for several seasons in America and in Europe.

Dineen's for Your Hat Needs. It is a great satisfaction shopping where you have confidence in the styles and values. For anything in hats you can positively rely on Dineen's, 140 Yonge Street. Today this house offers unusually good values in soft and stiff hats, formerly priced \$2.50, \$3 and \$2.50, now marked down to \$1.95. There is also a spring shipment from the famous Heath Company of London that should appear in smart dresses, priced \$4. Fur caps and knitted wool caps are much in request and are priced about cost to effect a clearance before stock-taking on Feb. 1. For anything in hats or caps try Dineen's.

SIX CANDIDATES IN THE TOWNSHIP

Five Dropped Out at the Nomination Meeting Held Yesterday.

MY HORSE WON'T DRINK

City Water, Said One of Them Advocating a New Water Scheme.

It was generally expected that the nomination meeting for the third deputy reeve of York Township would be of more than usual interest.

The auditorium was crowded to capacity and a group of interested ratepayers jammed the doorway.

Every section of the municipality was well represented, both by candidates and spectators.

Robt. Barker, by John B. Harris and W. B. Carter.

W. McQueen, by James Colledge and G. W. Cook.

Sam Clouston, by Henry Thompson and W. H. Ross.

Neil Boylen, by Sam Clouston and Henry Thompson.

Charles T. Lacey, by J. H. Hill and J. Nelson.

G. W. Crosby, by G. A. Moses and H. Mander.

John T. Wilson voted into the chair and the ratepayers settled down to a speechless unequaled in the history of the township.

Thomas Wilcox of Fairbank said that he was out to further the interests of the township.

Robert Barker, a former third deputy reeve, advised the support of the electors on his part.

Samuel Clouston of Runnymede claimed that the income from the water labor tax was not fairly distributed.

Charles T. Lacey did not think that sanitary conditions in the township were as bad as they were painted.

George Crosby, a Tomdorn candidate, favored the abolition of the water labor tax.

Why Spring Water? "Why do you see so many spring water bottles?" he said.

Boat Rate. Jerry Nelson, Jr., held that the Township of York contributed 25 per cent of York County's annual income.

RICHMOND HILL MAN THREW FIT IN COURT

Isaac Walter Was Overcome—When the Jury Awarded Him \$667 Damages.

Great joy and excitement, caused by the fact that he was given judgment against the Metropolitan Railway Company for \$667, resulted in Isaac Walter, a farmer, residing at Richmond Hill, throwing a fit in the assize court yesterday afternoon.

Last February Walters was struck by a Metropolitan car, while driving to his home in a receipt tendered to the jury.

The meeting closed with a short address from Reeve Syme, who promised to take the matter of drainage facilities before the highway board at an early date.

Next Tuesday night an election meeting will be held in the public school, Dennis avenue.

Court Bell No. 418, I.O.F., held its annual installation of officers in the assembly hall, Weston road.

Robt. Barker, by John B. Harris and W. B. Carter.

LABOR APPROVES OF CONVICT ROAD WORK

Council Endorsed Views of Controller James Simpson on Government Plan.

WILL SEND DEPUTATION

Conference With Prison Commission This Morning—J. Gibbons Vice-President.

(Continued From Page 1.)

A deputation to wait upon the prison commission to state the views of the council.

In connection with the unemployed problem in this city, the council passed a resolution authorizing the executive committee to co-operate with the committee of the unemployed, and to authorize any demonstration that may be necessary to bring forcibly to the attention of the members of the city council the necessity of taking immediate steps to supply work for the large army of men who are at present out of work.

Such a demonstration would be held under the auspices of the Trades and Labor Council. The council also voted the sum of \$10 to defray the expenses of the telegrams, etc., sent out by the committee appointed at the meeting of the unemployed yesterday afternoon.

As this was the annual meeting of the council, the reports of the various departments were presented, the financial report being a source of great satisfaction. It was the best presented in the past 18 years, showing a balance of \$783 to the credit of the council and assets to the value of \$2370.

New Officers. The following officers were elected: Vice-president—Joseph Gibbons. Recording secretary—J. J. Stevenson (acclamation). Executive committee—James Simpson, H. B. Woodrow, F. C. Oriblin, P. C. Oriblin.

Trustees—James Simpson, W. Brown and J. H. Kennedy. Executive committee—James Simpson, H. B. Woodrow, F. C. Oriblin, P. C. Oriblin.

The other officers were elected by acclamation at the last meeting.

SPENT 15 OF 20 YEARS IN PRISON

(Continued From Page 1.)

he was again sentenced to 3 years imprisonment in the state penitentiary in addition to paying a fine of \$100.

On Feb. 18, 1910, at Philadelphia, after completing his previous term, he was handed over to Providence, R. I., authorities, charged with a fugitive from justice, having jumped bail.

At the present moment the City of Toronto holds \$2000 of Middlebrook money, which was found on him when he was arrested in 1910.

His downfall in Woodstock came about when a Philadelphia lady visiting Woodstock recognized him as the husband of a friend of her whom he had married in Woodstock, Ontario, and was charged with bigamy, convicted and sentenced. At his trial it came out that the woman had married a hobo and that he had deserted numerous wives in the States.

Gold Mining Scheme. Another Canadian syndicate organized by him was in 1898, at the time of the Yukon gold craze. He fraudulently obtained papers from the Dominion Government, which were used in England and easily financed a company. It is said that in his gold mining scheme he hired H. Rider Haggard to write a story about himself and his life in Alaska, for which he agreed to pay Haggard ten thousand pounds. Finally he was exposed, and he was dealing in England, came about when a Philadelphia lady visiting Woodstock recognized him as the husband of a friend of her whom he had married in Woodstock, Ontario, and was charged with bigamy, convicted and sentenced. At his trial it came out that the woman had married a hobo and that he had deserted numerous wives in the States.

er it became necessary to vacate the lower decks and finally the only part of the steamer which was habitable was my own cabin, and the ladies' boudoir, which adjoins it. Even then we were in fear of instant death.

The danger point was the wooden door, as the deck in front of it had been forced up by the heavy seas and there was danger that the door would be battered down at any moment. If this had occurred the whole deckhouse would inevitably have been washed overboard.

By almost a miracle of good fortune the remains of the works with which the deck had broken in two was washed up on the deck and frozen together in a position that it acted as a breakwater and saved the door from destruction.

On Short Rations. "All that we did for possible salvation but another night closed in without any sign. The only provisions we had consisted of the dry biscuit and a few tins of condensed milk and lifeboats. The water was frozen and had to be melted. The only fire we had was in an iron bucket. The fuel consisted of oak paneling from the smoking room and some of the furniture was broken up for firewood.

"The shock of the wreck and the gas sense breaking over the steamer had dislodged one of the wireless aerials, and it was only after heart-breaking work with the ice-coated wires and apparatus that it was possible to get the wireless again and then only at low tide when the sending gear was submerged.

"When we first struck all the boats on the weather side were smashed, but we got the boats on the lee side clear and swung them out on the davits ready for use. Had we postponed this work the boats would have been frozen fast and we would not have been able to get them clear. As it was it took two or three hours' hard work.

"It was a narrow escape when the steamers Westport and John L. Cann were in sight, but I might say that they have been useless for them to have arrived any earlier. The seas were too heavy until that time to allow the safe transfer of the passengers and crew in the boats. When the seas quieted finally did not think it advisable to load the boats heavily. The officers and the remainder of the crew had the opportunity to go in the boats if they wished, but those who remained did so of their own free will.

The first boat got away about 4 o'clock, and it was so dark when the last one left that we could not see

ONLY SUPERLATIVE LANGUAGE does justice to this Saturday offering of coats — one of the most remarkable price-attractions yet presented in the great Sale now in progress in the Cloak Department. Six different styles comprise the selection, one line representing a collection of individual models in all black. To describe them:—

Group of immensely smart designs in fashionable black fabrics — duvetyne, ratine and soft fancy coating, made in drop-shoulder and kimono effects and lined throughout with black satin, the majority having collars and cuffs of black velvet. Among them are a few of the well-known Printzess coats. Saturday, half-price, \$12.50.

Splendidly tailored coats in a soft heavy black coating, with reverse side of plaid—trim-fitting models with drop-shoulder, the popular peg-top effect achieved by slight fulness pleated down flat below the hips at either side—collars of black velvet. Semi-annual Sale, half-price, \$12.50.

Coats in a fine blanket cloth, in navy blue, brown, tan and green, with reverse side of black, and yoke lining of black satin, collars and buttons of black velvet. Semi-annual Sale, half-price, \$12.50.

Coats in black ratine with undertone of blue, brown or grey, made in drop-shoulder effect with black velvet collar and cuffs, rounded fronts, and lining to the waist. Semi-annual Sale, half-price, \$12.50.

Coats in Worumbo chinchilla—the best cloth of the kind on the market—in grey, tan, brown and taupe, the plain tailored design showing a shaped band around the foot, and a facing of velvet in the collar. Semi-annual Sale, half-price, \$12.50.

Coats in a very fine, short pile zibeline, in light brown, seal brown, navy blue and grey, fashioned in kimono shoulder style with velvet collar, and lined throughout with satin. Semi-annual Sale, half-price, \$12.50. —Third Floor, James St.

Some of the Bargains for Saturday

Women's Silk-and-Wool Vests, 98c

This medium-weight silk and wool vest is made with high neck, long sleeve style, and in sizes 34 to 42. Semi-annual Sale, 98c.

Rush Clearance of Boys' Suits at Half-price and Less, \$3.55

It is a 9 o'clock buying inducement for you to know that from this huge collection of smart, stylish suits you can pick a navy blue serge or a fancy tweed or worsted in neat brown and grey shade for any boy in his size from 28 to 34—at a saving of half and even more than half-price? This is the surprising offer we make for Saturday. See the suits in the Yonge street windows; they're doubtless, made with medium length lapels, single-breasted vest closing with five buttons, and lined knee pants. To cause a grand wad-and-rush of selling, Saturday, any suit in the lot for \$3.55.

Boys' Fancy Overcoats, Many at Half-price, \$4.50

And some even less than half-price, to add to the importance of the offering, and in sizes 34 to 42. Semi-annual Sale, 98c.

Seven-drawer Drop-head Sewing Machine at \$17.50

Never before, in all the years of sewing machine selling, have we offered a machine such as this for so low a price. Here are the details: Positive four-motion feed without sliding plate; face plate; steel presser bar; round steel needle bar; improved attachment holder; self-threading shuttle; double eccentric for operating feed and shuttle levers; no cog wheels; automatic stitch regulator to govern length of stitch; true balance wheel with nickel face; improved ball-bearing driving wheel; patent belt retainer; automatic lifting device. Full set of attachments free with every machine. Guaranteed ten years. Come at 9 o'clock quantity is limited. Rush Sale price, each, Saturday, \$17.50. —Furniture Building, James and Albert Streets.

Women's Stylish Winter Coats Half-price

We wind-up the ten-day Sale of coats, preceding stock-taking, by a remarkable offer of a thousand new, serviceable, Winter-weight coats at just half their good value markings. An attraction to crowd the action at the store-opening hour. Upwards of sixty styles in the collection: coats for all occasions, with a choice of materials, colors, and designs that is most satisfying. In fact, practically a selection of all styles represented in our entire assortment of Women's Coats. Semi-annual Sale, \$9.45, \$7.50, \$9.75, and \$12.50. —Third Floor, James Street.

Girls' Serge Dresses, Less Than Half-price

A smart little style with high neck and long sleeves, pointed collar of fancy plaid set on, finished with small buttons and silk ribbon bow; long slender skirt in plaid with pleats, wide set-in belt; plain skirt with wide box pleat in front and set-in pleats at the back. Colors red, navy, and brown. Sizes 6, 8, 10, 12, and 14 years. Less than half-price, 9 o'clock selling rush. Semi-annual Sale, \$1.39.

Girls' Imported New York Serge Dresses, splendid variety of styles, some with collars of striped silk in pretty shades; others have bright red and fancy collars and cuffs and trimmings; some Balkan effect; plaid and killed skirts. Colors: brown, navy, and red. Sizes 6, 8, 10, 12, and 14 years. Semi-annual Sale, \$3.95. —Third Floor, Yonge Street.

Misses' Smart Winter Coats Less Than Half-price

THE MAMMOTH SALE OF MISSES' COATS brings this 9 o'clock shopping attraction for Saturday.

Three new styles in heavy tweed and diagonal cloakings at less than half-price. Loose-fitting, comfortable garments they are, with slightly cut-away fronts and plush, velvet or plain collars. Two styles button up close to neck, the third has wide revers. Colors include tans, browns and greys. Sizes 32 to 36 bust. Semi-annual Sale, \$5.85.

These also are important "Specials"—

Misses' serge, one-piece dresses, neat Winter styles, three-quarter or long sleeves, high waist, close-fitting, turn-down silk collars. Colors, navy, brown, black and white, check and all-black. Sizes 32 to 36 bust; skirt lengths 33 to 38 inches. Semi-annual Sale, \$3.50.

Misses' skirts in serges and mixtures; two good styles, fancy panel front, gathered backs. In greys, brown, navy and black. Length 31 to 38 inches; waist measure 22 to 25. Semi-annual Sale, \$1.95.

The Fashionable Lorgnette at Half-price

STOCK-TAKING IS RESPONSIBLE for another interesting clearance on Saturday—a collection of high-grade lorgnettes being reduced to half-prices. The selection includes the most artistic and best approved designs in 14k. gold, sterling silver, silver gilt, and gunmetal, some handsomely engraved, others in filigree effect. The handles are of various lengths. Semi-annual Sale, half-price, ranging from \$1.75 to \$13.25. —Optical Department, Third Floor, James St.

Remarkable Values in the Girls' Coat Sale

Coats of warm chinchillas, lined all through in dark green, grey, navy or red. Sizes for girls 6 to 14 years. Semi-annual Sale, \$1.95.

Girls' coats of cheviot or chinchilla; loose-fitting plush collars and cuffs, deep yoke linings of self; colors include browns, navy, dark green and reds. Sizes 6 to 14 years. Semi-annual Sale, \$3.95.

Girls' coats in about six styles, in heavy, all-wool Winter materials and well lined to the waist. Have close-fitting collars, and some have plush or velvet trimming. Colors, browns, navy, and reds. Sizes for girls 6 to 14 years. Semi-annual Sale, \$4.75. —Third Floor, Yonge St.

These Remarkable Price Reductions in the Semi-Annual Sale of White Wear

Dainty Lingerie for Women and Girls Specially Priced for Saturday Selling

KNOWING THAT JANUARY always abounds in special values in white wear, perhaps these are just the items for which you have been watching:—

Corset covers in fine nainsook, the armholes and necks finished with edging and insertion of fine Valenciennes run with pink satin ribbon. Semi-annual Sale price, 98 cents each.

French hand-made, hand-embroidered drawers, some in wide umbrella style, others with embroidered and scalloped frill. Semi-annual Sale price, 98 cents a pair.

Princess slips in fine cotton, with deep flounce of lawn edged and inserted with Swiss embroidery, the latter being applied effectively at the neck and armholes. Semi-annual Sale price, \$2.55.

Petticoat in pale blue lawn with deep frill of blue and white embroidery. Semi-annual Sale, half-price, \$2.25.

For girls of 10, 12 and 14 years, charming little princess slips in fine nainsook with finely tucked frill edged and inserted with Cluny lace, the necks edged with the same lace run with pink washable ribbon. Semi-annual Sale price, \$1.95. —Third Floor, Queen St.

You were Inquiring

Snowbird—I suppose you sat with your head under your wing, poor thing, on Tuesday, but I trust that the weather has warmed up sufficiently again to permit your usual glance at the morning newspaper. Here is the information you seek: (1) Shopping bags priced in the neighborhood of \$2.00 include a smart little design in real seal, a long, narrow shape, with frame of German silver, moire lining and small change purse inside. This is \$1.95, a similar bag in pin seal with frame in gunmetal finish being available at the same price. A more conventional style in wairus grain with a frame in silver finish is also \$1.95. (2) The only marabout mount procurable at the present moment is about ten inches high and priced at 30 cents. It possesses the advantage of being washable. (3) A centerpiece in natural color linen, 18 inches in diameter, is 12 1/2 cents; one 27 inches being 20 cents. The amount of embroidery silk required would, of course, depend upon the amount of work in the design selected. Silks are 5 cents per skein. (4) The nainsook in ordinary lace-trimmed lingerie is not suitable for embroidering. Moreover, the majority of pieces are inserted with lace in such a way that would put further ornamenting out of the question. What are sold for your purpose are the semi-made garments, a night gown stamped ready for embroidering, with the material for working being featured, complete at 95 cents, and a princess slip with Valenciennes lace would be an easy matter for you. (5) China jewelry sets are to be had from 75 cents upward. If you will let us know the size and color you wish, something nice will be found for you at the price you want to spend. Enquirer—"Yes" to each of your queries. The dictionary stand can be supplied at \$5.00, the lower portion of metal does the support for the book of words. The general appearance is very like the stands an orchestra uses for the music books—more substantial, of course. Neckbands for men's shirts are 5 cents each. But remember to state when ordering whether you want them to open in the front or the back. "Elizabeth"—Only lately I've been reading your adventures in Rügen. But, do you know, I think I like you better within the peaceful precincts of your own German garden. Does the lamp for your desk mean that we're to hear more of your exploits? We shall have great pleasure in hurrying it on to you. Would you prefer candles arranged for electricity which can be slipped into any candlesticks—they are \$2.00 each—or an artistic little wicker lamp with shade of Futurist silk, complete at \$3.00. As for the corduroy cushions, if they are merely soiled and not stained, you can clean them by simply rubbing the pile—the wetting it through—with soap and water, wiping it off with clear water. For the purpose a regular castor soap would be best—such as "H and H" at 15 cents a cake.

The Scribe

ALARMING CONDITIONS FOUND IN SEVERAL TORONTO SCHOOLS

Inspector's Reports Show That Poor Ventilation, Lack of Accommodation and Corresponding Defects Endanger Health of Pupils.

(Continued From Page 1) The stairways have been in an incomplete state for nearly two years. The odor, strong and vile, coming from the abutment, is a constant menace and corresponding danger to the health of the pupils. The board of education is requested to take into consideration the advisability of purchasing a more suitable site and building a modern building as soon as possible. ALAN STREET—Open a class for severely defective children. BEDFORD PARK SCHOOL—Grade and enclosure grounds. Enlarge school room. COTTINGHAM STREET SCHOOL—Entry to basement from yard. DAVEYVILLE—Enlarge grounds to the west. Enclose yard. Enlarge school. DUNDAS STREET SCHOOL—Enlarge

NEW CENTRAL TECHNICAL SCHOOL

This photograph shows the progress of the work on the \$3,000,000 building on Borden st.

larged playground. Enlarge manual training room and apply to the education department to equip with lathes. RYERSON—Increased closet accommodation for pupils. Lunch room, private room and lavatories for teachers. Overcome the noise and vibration caused by the fan and perhaps install a motor to run fan. Screens for radiators, and commercial desks. BRANT STREET SCHOOL—Electric light fixtures (wiring is in); several rooms have poor light. Bell tower to be repaired that bell may be used, as many families in this neighborhood have no clocks. HURON STREET SCHOOL—Installation of electric light and placing of at least one bulb in each dark cloak room. New tables for teachers in twelve rooms. Windows in the kindergarten room should be made to work easier; too much to expect women to work such heavy

McCAUL SCHOOL—Increased accommodation, as there are classes in portables and basement, and an afternoon kindergarten. Co-operation with Neighborhood House to give McCaul school a more practical course in house keeping, including cooking and the making and mending of clothes. Inspector Elliott's Report. CRAWFORD STREET SCHOOL—The walls of class rooms and halls should be kalsomined. DEWSON STREET SCHOOL—The basement floors should be concreted. A wardrobe should be placed on the west wall in the office. KENT SCHOOL—Some action should be taken to alleviate the disturbance caused by vibration of fan in basement. GRACE STREET SCHOOL—Better heating of the principal's office; an teachers' room. Larger and more sanitary accommodation for special class, a present at Grace street. ALEXANDER MUIR SCHOOL—Three other additional rooms required. GIVENS STREET SCHOOL—Improvement of drainage of southern part of yard. Office for medical officer and nurse should be provided in north end of upper hall, by removal of partition between cloak rooms. CLOSET accommodation can be provided in the rooms of classes affected. A school telephone system service should be installed. Slate blackboard should be provided for room 18 (junior commercial). DOVERCOURT SCHOOL—Wooden floors in basement replaced by cement. Lower blackboards in room 5, and repair composition blackboards in all rooms. Remove cupboard from ladies' retiring room and cover floor with linoleum. JOSEPH WORKMAN SCHOOL—A basin and taps should be provided in upper hall for nurse. Provision for teaching domestic science and manual training. PINE SCHOOL—The new building on Bevel avenue should be enlarged to contain at opening at least seventeen rooms. Otherwise portable buildings must be resorted to. ESSEX STREET SCHOOL—Establishment of dental clinic in old office. Providing a room for backward pupils by partitioning east end of hall on third floor. Connect all rooms of new building with electric heat register in basement. GENERAL—ALL SCHOOLS—Supply of maps. Inspector Bruce's Report. BAINY BEACH SCHOOL—The cesspool should be emptied often. There should be more closet accommodation for pupils. Some rooms have no blackboards. COLEMAN AVENUE SCHOOL—The outdoor closets should be cleaned often. The water should be cleaned away at once from the building after rain falls. More planking is needed in the yards for lining. EARL GREY SCHOOL—The overcrowding in the school might be overcome by a new building on the premises. KEW BEACH SCHOOL—Office room accommodation could be had by building above the porch at the back entrance. KIMBERLEY STREET SCHOOL—The cesspools should be emptied often. There should be a doorway in the middle wall of the basement. The kindergarten enlargement is insufficient. There is no necessity for a dental chair. MORSE STREET SCHOOL—The need of enlarging the boys' yard and closing the lanes on the north and east. NORWAY SCHOOL—The principal should have special help. QUEEN ALEXANDRA SCHOOL—The special class should be discontinued. The kindergarten room should be enlarged. The plank walk in front should be removed. GORDEN SCHOOL—Porches should be built over the outside entrances to the basement. As there is not enough fall for the drain to the sewer on Adelaide avenue, a second drain should connect with the new sewer on the street west of the school. The work of the caretaker in keeping clean the large halls and stairways should be insisted. SIMCOE PARK SCHOOL—There should be close board fences to separate the boys and girls going to their respective closets. A single board partition between the closets is not sufficient separation. ALEXANDRA INDUSTRIAL SCHOOL—This school is well conducted. AYRSHIRE BREEDERS. The annual meeting of the Canadian Ayshire Breeders' Association will be held on Thursday, Feb. 5, in the Prince George Hotel.

Housekeeping, Nursery, Gardening and News of Interest to Women

TO GIVE MEDALS FOR BEST NURSES

Florence Nightingale Fund Committee Will Give Six Each Year.

RED CROSS MEETING

Col. Ryerson Now is President of the Canadian Branch.

The annual meeting of the Canadian Red Cross Society was held at the residence of Col. George A. Sweny, 170 St. George street, on Wednesday. Reports were presented from the central committee and from the branch of the society in the Province of Quebec, which is in a very flourishing condition. Mrs. Albert E. Gooderham, Canada's representative on the international committee of the Florence Nightingale fund, presented a report wherein it was set forth that that committee, with headquarters at Geneva, Switzerland, proposes to present six medals annually to nurses of any nationality who conspicuously distinguish themselves in humanitarian work. The committee resolved to contribute adequately to the fund and to solicit subscriptions for the same. Dr. G. Sterling Ryerson, the founder of the society in Canada, was elected president, to replace Sir John Gibson, who retires after holding office since the formation of the society in 1896. Noel Marshall was elected chairman of the central council and of the executive committee, to replace Col. G. Sweny, who also has been identified with the society in different capacities since its inception. Mrs. T. Jeffrey Robertson of Newmarket, another of the earliest members of the society, being forced by ill-health to resign, Mrs. G. S. Ryerson was elected to fill the vacancy thus created on the central council. Sir John Gibson and Col. Sweny have been elected to still serve as members of the executive. The following were also elected: Hon. solicitor, John T. Small, K.C., auditor, Sidney S. Jones, hon. secretary, Senator James Mason, general secretary, Chas. R. Dickson, M.D., assistant secretary, Dr. A. H. Rolph.

HEALTH PARADISE.

The vast unexplored areas of Central and Northwestern Australia have given rise to two different conceptions as to what exactly the interior of the great island continent is like. The starting point of the expedition was in the most unpopulated region as between a good and a dry series of seasons may be expected to account for this. Early explorers returned from their travels with diametrically opposite reports of the interior country. While one found an "inland sea," another reported a few very fertile islands. The latter was found a "desert."

The present-day condition of affairs is thus described by a special correspondent of The Sydney Sun: "Occasionally I saw a man in Melbourne, these slow-moving imperturbable sons of Central Australia. They go up to the top of Collins street and draw out little stories to the men of the external affairs department. The Central Australian who leads the way to the official centre is either a sun-baked policeman or a sun-baked station hand. He is always sun-baked. "Climate," he says, "there's nothing like it. No humid heat. No infernal dry heat. It's just what a writer, and always cool nights in summer. When Central Australia is discovered it will be the health resort of the continent."

The first Central Australian seen here since many months is a mounted constable M. F. Dowdy, who stands 6 feet 5 inches in his socks, and could throw the largest-footed Sydney policeman over his shoulders. Dowdy has the typical Central Australian build, and is a very white man. His troubles are with a few "thieving blacks," and they're not of much account. It is merely the usual kind of "stealing" that is done. "No," he said, "we have neither the reputation nor the strength of the North-west Mounted Police of Canada. We've got no Indians to look after, only a few whites and a great many harmless blacks. We've been seven long years now in the Artung district—the only constable in hundreds of square miles. I've had a white case. My troubles are with a few "thieving blacks," and they're not of much account. It is merely the usual kind of "stealing" that is done. "No," he said, "we have neither the reputation nor the strength of the North-west Mounted Police of Canada. We've got no Indians to look after, only a few whites and a great many harmless blacks. We've been seven long years now in the Artung district—the only constable in hundreds of square miles. I've had a white case. My troubles are with a few "thieving blacks," and they're not of much account. It is merely the usual kind of "stealing" that is done.

CORSETTING THE CORSELESS FIGURE.
This apparent paradox is used to help explain the great attention that must be paid to corsetting in order to attain the appearance of the natural figure. Many women think that they could entirely dispense with corsets. This is a mistake they would promptly discover, for the average figure shows defects of some sort that would be completely overcome if properly fitted with well-tailored corsets. Woolnough Corsetters—278 Yonge street—have proved their ability to make corsets that are a pleasure to wear, and give the figure the desired contour. A daily demonstration is given, and will convince you favorably.

FRENCH TOAST.
One egg, 2 slices bread, 1/2 teaspoonful salt, few grains pepper, 1 table-spoonful milk. Beat egg slightly, add salt, pepper and milk. Soak bread in mixture until soft. Cook on a hot, well-greased griddle. Turn on the other side, and brown on the other side. This makes a suitable breakfast or luncheon dish.

GOOD ROADS COMMISSION TO HOLD PUBLIC SESSION.
A public session of the good roads commission will be held next Thursday afternoon in the private bills committee room at the parliament buildings, to consider highway problems in the neighborhood of Toronto. During the afternoon the commission will hold a special business sitting.

SALVATION ARMY RECOGNIZES CRISIS

No One Need Starve Who Can Reach James Street Headquarters.

Two hundred and eighty-seven destitute men have been fed at the Salvation Army headquarters during the past two days, Capt. Armstrong explained to The World last night that the army regarded the situation as having reached a crisis and on Wednesday the Jubilee Hall, facing James street, was opened as a free lunch room for the needy. Major W. H. Fraser and his aides of the social department are experts in dealing with the unemployed. The soup, coffee and bread provided was supplied at the cost of the army's ordinary food. A number of citizens have called on hearing of the special work, and donated, unsolicited, subscriptions of a dollar or so to the soup kitchen funds. The hall will be open daily from 8 a.m. to 7.30, and no one need starve who can call at Jubilee Hall. No women or girls applied so far, and if any do they will be provided for. During the past few weeks, in addition to the special Christmas distribution, the Salvation Army has distributed 228 baskets of food to poor families, comprising 820 individuals. Six hundred and three winter garments have been provided free, a large number of supplies of coal, and in a few very special cases, money for rent has been supplied to avert eviction. Employment to the extent of 1846 odd jobs has also been secured.

GRAND OPERA SEATS ARE SELLING FAST

Demand is Beyond Expectations and National Engagement Will Be a Record.

W. E. Tasker of the Bell Piano ticket bureau reports that the advance sale of seats for the grand opera season at the Alexandra Theatre, week of Jan. 28, is the largest he has ever handled. The sale has been so great that it necessitates him remaining in his office long after business hours. The immensity of this organization can be gleaned from the statement of the Canadian Pacific Railway traffic department who report that it will require a special train of thirteen cars to transport the company and their effects. Some of the principal artists who will appear in the National Opera Company are Leo Slezak, the famous dramatic tenor; Gertrude Reiche, Marie Rappold, Helen Stanley, Rosa Oltzka, Georges Roselli and twenty other grand opera singers, equally well known. The repertoire of operas will be as first announced: Monday, "La Gioconda"; Tuesday, "Carmen"; Wednesday, "Lohengrin"; Thursday, "Samson et Delilah"; Friday, "Tosca"; Saturday matinee, "Madama Butterfly"; Saturday evening, "Otello."

OYSTER TUP.
Two slices bread, 1/2 cup oysters, few grains salt and pepper, 1/2 pint milk. Toast the bread to a golden brown and butter it as for ordinary toast. Add 1/4 cup oyster water to the oysters and cook until plump. To this add the milk and reheat. Pour over the hot buttered toast and serve at once.

OLD DUTCH CLEANSER.
This cleanser is made of... (text partially obscured by image)

QUICKLY FREED FROM GREASE AND GRIME AND EASILY KEPT SPOTLESSLY CLEAN WITH OLD DUTCH CLEANSER.

CORSETTING THE CORSELESS FIGURE.
This apparent paradox is used to help explain the great attention that must be paid to corsetting in order to attain the appearance of the natural figure. Many women think that they could entirely dispense with corsets. This is a mistake they would promptly discover, for the average figure shows defects of some sort that would be completely overcome if properly fitted with well-tailored corsets. EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Unsightly Marks.
ONE of the most unsightly marks to the eyes of a careful housekeeper is that made by matches on painted and varnished surfaces. These can sometimes be removed by scrubbing with a stiff brush and soap powder. They can also be prevented in this way: Get five cents' worth of liquid vaseline (this is called albatone by chemists) and with it go over the surface liable to match-scratcher vandals. Wait a few minutes, then rub the oil in and wipe it off with a fresh, dry flannel. The hired girl and the boarders can scratch matches there all their spare time and they will not get a light nor make a mark. Papier mache and lacquered goods must not be washed or cleaned with ordinary methods, but they respond quickly and brilliantly to a thoro rubbing with a paste made with olive oil and wheat flour. Apply with a chambray or polishing velvet and rub up with an old silk kerchief. Ink stains on silver inkstands cannot be taken off with soap, as the alkali sets the acid so they frequently become very unsightly. These readily yield to a paste of water and chloride of lime. Javelle water will also take them off. Silver cleaning is a delicate piece of work that mistresses do not like to delegate to servants and hesitate to do themselves. Whether polishing is really necessary can be determined by holding the silverware a few minutes—five should be enough—in strong soap suds. Pour the solution off into a basin and let the silver cool until it can be handled. With a soft brush scrub the silver, using the hot suds if you make a mark. Rinse in scalding water and lay on soft paper or cloth to dry. This will take off almost all spots without the danger of wearing off the silver as polishing powders do. Examine each piece and if there are obstinate spots remaining scrub each one with a silver chambray.

That salt will clean silver is an oft repeated fallacy; salt will remove egg and other sulphur stains, but it does not polish. White spots on dining tables and highly varnished furniture can be removed in less than a moment with a cloth moistened with alcohol. But beware, unless you rub gently and quickly remove the alcohol, not only the offending spot will be taken off, but the varnish beneath as well. If you are afraid to use alcohol for this, heat an iron moderately hot and hold it well above the white mark. It will draw it out almost as well as the alcohol. Grease spots on silk hangings can be removed by pressing them between two sheets of blotting paper and running a hot iron across the spot. A faint cleaner better than soap and water is equal parts of powdered soap bark and borax mixed with as much egg-salt as will equal the quantity of the above ingredients. Add chipped yellow soap and hot water to this, and boil until the mixture is strong and dark and the soap dissolved. Strain and keep for use.

MRS. WEIR MITCHELL DEAD.
PHILADELPHIA, Jan. 15.—(Can. Press).—Mrs. S. Weir Mitchell died today of pneumonia. She became ill after the funeral of her late husband last week. Mrs. Mitchell, who was 77, was Mary Cadwalder, member of a famous Philadelphia family.

MME. NORDICA RECOVERING.
NEW YORK, Jan. 15.—(Can. Press).—Further improvement was reported today in the condition of Mme. Lillian Nordica, stricken with pneumonia, after escaping shipwreck near Thursday Island, off the coast of Australia. According to three telegrams from Thursday Island, given out here by her husband, George F. Young, the singer was better on Tuesday. Yesterday her condition remained the same, but she passed a fairly comfortable night, and more improvement was noted today.

FOOD AND CLEANLINESS.
Food should be simple, plain, nourishing and as abundant as the appetite dictates. Meat is needed only once a day. Milk, vegetables and dried-out bread are the basis of a good diet. Simple desserts are necessary to supply sugar to the body. It is hardly possible to drink too much water, but cocoa may well be substituted for tea and coffee. The little one needs the lime that is in cereals, milk and meat, bread, vegetables, the fats in cream, cocoa and eggs, and the sugar in fruits and puddings. The proper proportion of all the nourishing foods is needed for well-balanced development. The body that is much more waste material to rid itself of now than when only one was considered, and it is very important to take care of the skin and bowels so that this may be effected. A tub bath three times a week with plenty of soap and hair rubbing is necessary to remove the waste matter from the skin and keep the pores open and free. A vegetable and dried-out bread diet, in order that it may have strong teeth and firm bones. It needs the muscle building material in milk, eggs, meat, bread, vegetables, the fats in cream, cocoa and eggs, and the sugar in fruits and puddings.

AMELIA KLINE
What is that noise? Amelia Kline Is making such a curious whine— It's like a hungry kitten's mew, It's like a crying puppy, too. But most, (if it is not prevented), It's like a Goop who's discontented!

THE GARDEN CONDUCTED BY RACHEL R. TODD M.D.

CHILDREN'S GARDENS
The Value of Economy, of Time and Energy.

One of the very first lessons that every child should learn is the importance of working with a definite end in view. Everyone likes to know that his work will, sooner or later, bring some tangible result. Children, as a rule, are much keener to attain the end in view, than adults are. Probably it is to gain a little advance knowledge on the subject—just to help them wait for the time when they will be able to see whether or no the roots are started.

Where an impatient young soul insists on such a drastic search after immediate knowledge, the truly educational thing to do is to let him pull up his plant. He will carefully plant the poor thing again—after his thirst for immediate knowledge, the truly educational thing to do is to let him pull up his plant. He will carefully plant the poor thing again—after his thirst for immediate knowledge, the truly educational thing to do is to let him pull up his plant. He will carefully plant the poor thing again—after his thirst for immediate knowledge, the truly educational thing to do is to let him pull up his plant.

Beautiful Bermuda.
Bermuda, noted for its beautiful flowers and climate, is again attracting a great deal of attention. Each year seems to be more attractive than the previous, judging from the number of people who are flocking to the island. The three steamers, Arcadian, Bermudian and Caribbean, making the trips this year are being booked to capacity and accommodation is being taken up many weeks before the steamer actually sails. With the rates starting at \$30 for the "Round Trip" and the trip itself lasting only 48 hours from New York, it is hard to realize that the tropics are so close at hand. A. F. Webster & Son at 53 Canada street, report a great number of Canadians sailing to this beautiful place.

DREAM TOAST.
Four slices bread, 1/2 cup grated cheese, Cut four slices bread and spread with cheese. Press together like a sandwich. Fry to a golden brown in hot butter. Serve immediately.

WOMEN WILL CELEBRATE VICTORY AT THE POLLS
Open Meeting Next Monday in Margaret Eaton Hall—Policy of Propaganda.

AND HE DID

AM WHAT A WONDERFUL DAY—I COULD ALMOST WALK ON AIR—

THE GARDEN CONDUCTED BY RACHEL R. TODD M.D.

CHILDREN'S GARDENS
The Value of Economy, of Time and Energy.

One of the very first lessons that every child should learn is the importance of working with a definite end in view. Everyone likes to know that his work will, sooner or later, bring some tangible result. Children, as a rule, are much keener to attain the end in view, than adults are. Probably it is to gain a little advance knowledge on the subject—just to help them wait for the time when they will be able to see whether or no the roots are started.

Where an impatient young soul insists on such a drastic search after immediate knowledge, the truly educational thing to do is to let him pull up his plant. He will carefully plant the poor thing again—after his thirst for immediate knowledge, the truly educational thing to do is to let him pull up his plant. He will carefully plant the poor thing again—after his thirst for immediate knowledge, the truly educational thing to do is to let him pull up his plant.

Beautiful Bermuda.
Bermuda, noted for its beautiful flowers and climate, is again attracting a great deal of attention. Each year seems to be more attractive than the previous, judging from the number of people who are flocking to the island. The three steamers, Arcadian, Bermudian and Caribbean, making the trips this year are being booked to capacity and accommodation is being taken up many weeks before the steamer actually sails. With the rates starting at \$30 for the "Round Trip" and the trip itself lasting only 48 hours from New York, it is hard to realize that the tropics are so close at hand. A. F. Webster & Son at 53 Canada street, report a great number of Canadians sailing to this beautiful place.

DREAM TOAST.
Four slices bread, 1/2 cup grated cheese, Cut four slices bread and spread with cheese. Press together like a sandwich. Fry to a golden brown in hot butter. Serve immediately.

WOMEN WILL CELEBRATE VICTORY AT THE POLLS
Open Meeting Next Monday in Margaret Eaton Hall—Policy of Propaganda.

Togs for Ice Skaters Rival Tango Creations

By MADGE MARVEL

THE skating season is here and ice skating has become the rival of the all-absorbing tango. There is no age limit on the skating pond. The grandfather and grandmother that have been learning all the now dips and twirls in the tea dances are out cutting capers on the ice. Skating creates dress needs. Weavers and designers have anticipated them. There are all manner of new skating togs offered in the shops. The angora jackets, cashmere sweaters and camel's hair coats are delightfully warm and attractive for sports wear. The silk sweaters with their trim lines, their clinging fit and their bewildering of color and pattern are almost out of the sweater class, so elaborate and expensive they have grown. For when one goes to buy a sweater and the saleswoman says "eighty dollars," without a bit of effort, one feels that the word sweater has a new meaning. Yellow and all the shades of orange are much used for the silk sweaters which usually show the two-toned effect, and have a long knit sash with fringed ends and a scarf to match. The garments of reversible shetland wool are more practical and as good-looking for they seem to fit more into the scheme of outdoor life. These also show vivid coloring and the use of yellow. One of dark blue has a lining of orange. A golden brown shows the reverse side of canary yellow. Bright cherry red is lined with soft grey. In the angora garments the Norfolk style is most favored. It is a warm, sensible garment capable of giving good service and is delightfully comfortable. For it gives the freedom of movement which is so necessary for all outdoor sports. Also it buttons close at the neck and makes a joke of the wintry blasts. For the all-round sports costume, and particularly for skating garb, there is nothing that surpasses corduroy. Two things to bear in mind in planning the skating suit is warmth without bulk and trim, snug lines with perfect freedom. The youthful figure is easy to fit in these suits, for the boyish style of short skirt and straight, belted Norfolk coat is exactly right. But, as all skaters have not the slimmest and symmetry of youth, there must be wider range. Even for the woman who is neither young nor slender, corduroy remains the first choice for skating suits. Only for such I would recommend a model introduced by a house dealing exclusively with sports clothes. The skirt, which clears the ground by three inches, has a narrow front panel and a corresponding back panel with cunningly concealed pleats at the hem which provide very comfortable fullness. The coat is shaped like a midshipman's blouse. It reaches below the hips and buttons straight up to the neck, where there is a narrow standing collar. There is a half belt which starts from the centre back and slopes slightly downward, ending at the side seams. In dark blue, gray and blue mixture, or any of the dark shades of taupe, or wood browns, this suit is practical and universally becoming. The addition of a band of fur at collar and cuffs is an entire matter of taste. The making of a skating cap is the work of only a few minutes for the length of the hair which is simply sewed up the width of the head size. Sew across one end. Then fold that end over once to form a "shell" around forehead and back the rest in a folded corner. Corduroy can be used in the same manner.

The Kind of Girl a Man Likes

BY NORVELL ELLIOTT

The Considerate Girl
"GOOD morning, sir!" I called to the tall man coming rapidly toward me with outstretched hand. "You're looking just yourself again. You were a bit tuckered out, I thought, yesterday. But today you are looking fine!" "Agnes Redding did it," he stated slowly. "She deserves credit for it all. I tell you what, Agnes is surely a man's kind of a girl, if she only wasn't!" "Don't say it," I interrupted. "But go ahead and tell me why you are so enthusiastic about Agnes today." "Well, she's a trump, that's all, a regular trump! Taking her all in all, I never knew a girl who was always as considerate of the feelings of other people. As you know, I had an engagement to take her to the concert last night. I had a fearful hard day at the office, work just piled up until I didn't even get off for a quick lunch. At 7 o'clock I rushed home, ate hurriedly and freshened up for the evening as best I could. But I was worn out and when I saw me on my way in last night I was feeling even worse than I looked. Agnes got one peep at me and exclaimed: "You're worn out and don't want to go to that concert—no you needn't be polite. I can see it in your eyes. You want to stay right here, comfortable and lazy." "In the end she had her way and we settled down for an ideal evening as a tired man could wish. Agnes read Omar to me and later turned the light down and talked along in her easy way about little homey things. I didn't have to think much to follow her, yet I enjoyed what she was saying—it was all kind of soothing and restful. I tell you I felt as refreshed after that night as though I had been doing in my easy chair at home. "And the point about it all was this: Down in my heart I knew Agnes really wanted to go to that concert. She loves music and Chopin is her hobby. More than this, I found from her conversation she had been at home all day, and you know yourself how you enjoy an evening's pleasure all the more when you have been housed up for hours. She had dressed with care in a dainty bronze and gold gown that brought out the lights in her pretty hair and I know she would have enjoyed every minute of the little jaunt. Yet she was just woman enough and just considerate enough to think of the other fellow. Such a girl is a boon in any community of young men and if, well, if it weren't for that, I think I make one stupendous effort to win her for myself." "Clang!" And Juliet Weyman's little electric alarm ran over itself stopping at the curb near my bachelor friend and me. "Come, get in," she called hospitably, opening the door. "Let's all go for a spin. What were you talking so seriously about when I saw you?" she added, turning on the full power of her little six. "He was telling me about Agnes, who's a dear she is, and I laughed un-pleasantly. Juliet has a way of making most unimagine remarks and I was afraid of what she might say. I had need to be." "I think if you'd been smart, Mr. Man," she said, addressing my bachelor friend seriously, "you could have occupied the hour to better advantage, had you been telling this girl what a dear she is. Women are curious creatures. They can be good pals with a man all right, but the time comes when they grow absolutely weary listening to the praise of other women."

Goat Hunters, Beware!

By Tom Jackson

JOHNNY had a Billy goat, with whiskers on its chin, and everywhere that Johnny went the goat followed him. He followed him to school one day, "twas just around the block. The teacher didn't mind it—he was German and liked bock. That goat was no aristocrat; he had no family pride; he liked to feed on three-sheet bills, with paste upon the side. He would grow fat upon a rock or on unfiltered air, and not a thing that walked this earth in him could throw a scare. One day a cop he saw the goat, and sought the same in pinch. The goat it looked so innocent he thought 'twould be a cinch! Then, for a time, up in the air the copper seemed to float, and Johnny was delighted, for he didn't get his goat. An auto came a speeding down the boulevard next day, and blew a honk because the goat was standing in its way. It hit the goat an awful rap, then skidded in a tree. The goat had left home with two horns, but he went back with three! To capture someone else's goat, some people, sometimes strive, not knowing that they may catch hold of something much alive. In roving after others' goats be careful where you tread, or somehow it may happen that they may get yours instead.

"TO BE BEAUTIFUL IS A DUTY"

Charlotte Walker in "The Trail of the Lonesome Pine."

Looking Attractive Is a Business Need

By MAGGIE TEYTE

Prima Donna of the Chicago-Philadelphia Grand-Opera Company.
A MOST interesting debate was recently held in Cooper Union, New York City. Business girls of many races, typical husbands and ingredients of the great American "Melting Pot," discussed the right of woman to add to her appearance by artificial means—in other words, to use paint and powder. The decision gave her that right 10 to 11. Many interesting things were said pro and con. The girl in business is the girl who thinks, and many of the languid beauties with millions to do for them would find themselves sadly at a disadvantage when it came to the battle of brains with these young women who have not been long in America perhaps, or at best, are but one generation from strange lands. "These girls study and try to be at the top of the heap. They realize two things—the necessity for effort in the tremendous competition which confronts them and the need for learning. One of the points that was brought out by both sides had to do with mental attitude. The speakers all agreed that the woman who would be beautiful must think beauty. Thinking beauty has a deeper significance than the mere sound. It means loving humanity. It means the killing of self pity in the wish to do one's best and help some one else. Pity is not as good a word to use in our feelings toward our fellowman as sympathy—the sympathy that includes understanding. Not the feeling that is provocative of carelessly bestowed charity, but the sympathy that sees the other reaching out after something good and just and which we can help him to attain by our own effort. The reason there is any need for beauty columns is because to look like our ideal requires work. If beauty was to be done up in packages like free samples, we wouldn't care enough for it to send the post card with our address. In this discussion one of the speakers told of the woman who had six children to support by scrubbing. She was pale and poor looking. She had hard work getting a job. She made herself more attractive. She bought a new bunch of hair and put powder and rouge on her cheeks and made herself look happier and more prosperous, and soon had a good job. The moral of that tale is obvious. It is not that we want our faces washed and powdered and rouged. It is that we want them to look competent. We want them to seem to be able to do the work we have for them and to show confidence in themselves. The woman who is most competent is the woman who knows herself and is sure of herself. It is as important in our pursuit of fortune to drive doubt or the redness of our noses. Whatever makes one surer of herself makes her more competent. Good looks make for ease and belief. If you know that your face is fresh and wholesome, your eyes bright, your nails manicured, your hair well arranged and your whole appearance shows care and intelligent understanding, you have more faith in yourself and go out to face the world in a different spirit. Then if, in addition to polishing up the exterior, you have made your mind beautiful with charity and love for your sisters and willingness to see them succeed without trace of bitterness or envy, you are very far along on the beauty road. Then put that dab of powder and the tinge of rouge where it will do the most good. But—put it on right. Make it an actual improvement on nature. Buy hair, if you have none, or speak of. Buy color until right living and perfect health give it to you. Do all you can to be just as attractive as you can be. To be beautiful is a duty. You are judged at the start by what you look like. Afterward you are expected to justify appearances. That is where the mind plays its part.

Housewives Must Be Appreciated

By WINIFRED BLACK

DR. CAROLINE COFFIN, president of the Housewives League of San Francisco, says that women are to blame for the high cost of living. "What we want," says Mrs. Coffin, "is a class of young housewives who know what is what. Vegetables are picked on Monday, they pass through the retailers until about Friday and the retailers give prices on them over the telephone. "The vegetables are high—and so are the prices." Right you are, Mrs. Caroline Coffin, exactly right—and then a little more so. But the thing is not only that the housekeepers of this country do not know what is what, but they don't want to know. Why should they want to know? Husband grumbles about the bills and has his little times of melancholia when he wishes that vegetables would taste like real vegetables and not like so much paper pulp. But when he gets right up from the table to go to some cafe and admire a young person who can do rag time and who couldn't wash a potato clean to save her life, how is he going to expect his wife to sit up nights worrying about what's the best way to boil a dear she is. Women are curious creatures. They can be good pals with a man all right, but the time comes when they grow absolutely weary listening to the praise of other women." She won't keep house—if she can kitchenette; and she won't kitchenette—if she can board.

Secrets of Health and Happiness

A Strong Chin Is Your Most Valuable Asset

By Dr. LEONARD KEENE HIRSHBERG
A. B., M. A., M. D. (Johns Hopkins)
(Copyright, 1914, by L. K. Hirschberg.)

SOME men are lantern-jawed. Some have weak chins. Others are said to have power visible in their jaws. Man's chin is said to have improved with the ages. On the other hand, the elephant's jaw is a mere remnant of the long lower jaw of its ancestors of several millions of years ago. Still before the days of Darwin, Wallace and Huxley, the half-hearted sort of a chin that Jumbo has even nowadays was ascribed to the superiority of the elephant over other four-legged beasts. Old fossil jaws of reptiles with jaw-breaking names are said by paleontologists to have chins which resemble those of the human tribes. Nature's molding forces which shaped the bones of those ancient creatures were surely different from the brain activities which formed the chin of civilized man. The need of mankind for the proper speech machinery has played no small part in the style and out of his mandibles. Another great factor that has worked for better chins in the human kind has been the feminine mating instinct. Professor Louis Robinson of the British Association for Scientific Research has justly attributed the beauty of the modern chin to the essential preference of the women of 500,000 years ago and since for physical symmetry. Even today there is among our orange-outings and apes a sort of Simian beauty which inclines the feminine portion of apes to a particular type of jawbone. As for the fashionable world of today, as well as the standards of health and physical perfection, the chin is unquestionably one of the chief marks of the medical inspector of health points. The fellow with manly chin is selected by employers, by hygienists, by efficiency experts, and, instinctively, by girls, because of his strong jaw, his efficiency, his energy and his vitality. A girl is drawn toward a lantern-jawed tough in spite of her horror for his vulgarity and boorishness. The primitive man who was manly, who had a chin descended from successful conquerors both of the fair sex and of strong men, has handed down to his descendants of the present a treasure more permanent and more powerful than vaulting gold. Beards to Strengthen Chin. The reason that the men of many weak nations adorn their chins with beards is to enhance the look of strength, power and vigor which health and a strong ancestry should have given them. Kings and nobles once did this to overawe their inferiors. It is a truth today that doctors, bankers, pedagogues and others who seek homage and respect from certain classes and groups of society wear beards in order to thus ennoble their chins. European nations, indeed most races, except the British and Americans, unconsciously pay tribute to this idea by wearing whiskers and mustaches. Women for the same reason adorn their chins with artificial beautifiers, black patches, dimples and thick enamel, or cover them with vell, in order to make them seem less weak than they are. Public speakers as a rule talk at the rate of about 150 words a minute. This involves about 100 movements, more careworn and complicated than the piston-beats of a multiple cylindered engine. Most of these rapid-fire and agile actions are due to one muscle of the tongue—the genio-glossus in its hard name—which is linked like a watch fob to the inside of the chin.

Answers to Health Questions

GEORGE—I have long used chlorate of potash for a sore throat. I put a tablet in my mouth and let it dissolve, swallowing the saliva. Is this harmful? Yes. Excessive or constant use of chlorate of potash reduces the clotting power of the blood, destroys the red blood corpuscles and otherwise causes a deterioration of the scarlet humor. Sore throats are relieved best by caustics made of benzoic acid, peroxide, or the use of a mouth wash of styracine and peroxide. Dr. Hirschberg will answer questions for readers of this paper on medical, hygiene and sanitation subjects that are of general interest. He will not undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest letters will be answered personally if a stamped and addressed envelope is enclosed. Address all inquiries to Dr. L. K. Hirschberg, care this office.

Points on Palmistry

Charles II., who was fond of hunting flies on the window, had large hands. No great musician ever had short fingers. The most correct and skilled musicians have square fingers. The thumb, which is the most useful phalanx, is the most important to the student of chess-play. The epileptic in a fit closes the thumb before the fingers. A small thumb shows an irresolute, vacillating person. Soft hands mean a disinclination to bodily exercise. Without being ignorant of love, persons with very hard hands do not know much tenderness.

Daddy's Good Night Story

By GEORGE HENRY SMITH

"DO wish you would hurry up," said Mrs. Potato Bug to her good husband one night. "You know that we are going to the Lady Bug party and we do not want to be late." "Are the children ready?" asked Mr. Potato Bug. "Indeed they are," replied his wife. When they were all ready Mr. Potato Bug had a great/who getting them all fixed on a hickory leaf so that he could pull them over to the Lady Bug's house. Soon they were over the hill and in sight of the Lady Bug's bungalow. It was all lit up, for she had asked the Fireflies to come and sit around the edge of the porch and they made the place look as light as day. On the road they met Dr. Beetle, all dressed up, his high hat glistening now and then in the moonlight. They also met Katie Grasshopper and her mother, and when they all started to go under the fence, Dr. Beetle bumped his high hat on the bottom rail and it tumbled off, much to the delight of Faith, Hope and Charity, the Potato Bug's children and Katie Grasshopper. As they started up the steps the Bugville band began to play. The Grasshoppers had corn stalk fiddles and the Katy-Dids were singing as loud as they could to fill in the chorus, while Luther Locust was pounding his wings together just like a bass drum. The Lady Bug stood at the door to greet everyone and, when Dr. Beetle bowed very low to her, she exclaimed: "Why, dear doctor, you have a dent in your hat! I thought I told you once always to think before you acted." "I did think," replied Dr. Beetle, "but I was thinking so hard I knocked a hole in my hat and bumped my head." "Yes," answered the Lady Bug, smiling, "you have a stove in your hat." At this everybody laughed and the good doctor was so ashamed of himself that he went over in the corner beside Mrs. Locust and asked her: "Why is it everybody is always laughing at me?" "Because they all love you, my dear, good doctor. We often laugh the hardest at those we love the most." "I see," answered the doctor, who seemed very much pleased after all.

The Toronto World

FOUNDED 1880. A morning newspaper published every day in Toronto by The World Newspaper Company of Toronto, Limited. H. J. Maclean, Managing Director.

WORLD BUILDING, TORONTO, NO. 40 WEST RICHMOND STREET. Telephone Calls: Main 3305. Private Exchange connecting all departments.

Will pay for The Daily World for one year, delivered in the City of Toronto or by mail to any address in Canada, Great Britain or the United States.

FRIDAY MORNING, JAN. 16. RED HERRINGS OUT OF PLACE HERE. For several years The World has sought to attain to the facts which have been brought out by the civic survey in connection with the fire department.

The special report on the theatres particularly emphasizes the great and outstanding weakness of the city hall officials, in not carrying out the law or the special bylaws passed for their guidance and for the safety of the public.

The officials should understand that they are not on their defence unless they place themselves on defence. If they begin to defend the violation of the city bylaws they only add insult to injury.

The World has no hostility toward the civic officials, but it has the greatest possible sympathy with them in a constantly difficult position.

After the Iroquois disaster, and frequently since, The World called attention to the dangerous condition of our places of amusement. If there were an Iroquois disaster in Toronto tonight, as there might readily be, the fire department would be indicted for neglect of duty.

The report cannot be shelved by a dispute over a photograph of a dray in a lane. Everybody knows the condition of the theatres, everybody knows that the fire department is the responsible party for failure to observe the bylaws, and everybody knows that in case of disaster the department would be guilty of manslaughter.

Since the year 1848 The Canadian Almanac has been continuously published, and the volume for 1914, just issued, is again conspicuous for the mass of useful and conservatively arranged information it contains.

Among the special features are the astronomical and tide tables, the complete customs tariff, and complete lists of the banks, bank branches and postoffices throughout the Dominion.

On Monday the board of trade will meet its council. The occasion is being taken advantage of by the Telegram and the anti-public ownership Hocken and his proposal to purchase the street railway by the subway with them.

There are 23 candidates, of course, working hard to get elected, seven as undecided and four in favor of purchase. The four who have had the temerity to invite the wrath of the Telegram are Messrs. J. E. A. Hay and John Turnbull.

MONTREAL, Jan. 15.—(Can. Press.)—The City Council of Montreal met last night to agree to permit a bull fight here, at a tax of \$100 a day, which would move against any such exhibitions.

BUREAU OPENS TODAY. The Civic Employment Bureau, 11 Colborne street, will be opened at 9 o'clock this morning.

Grand Trunk System Buys New Equipment

Many Firms Receive Orders for Steel Underframe Stock and Passenger Cars. The Grand Trunk Railway System are placing orders for the following equipment:

From Hamilton Steel Car Company, Hamilton, 500 30-ton steel underframe and steel superstructure stock cars; 10 steel underframe baggage cars.

From the Canadian Car & Foundry Co., Montreal, 40 steel underframe first-class coaches; 15 steel underframe suburban cars.

In the United States, from the Pressed Steel Car Company, five all-steel postal cars.

From Pullman Car Company, four steel underframe dining cars; five steel underframe parlor cars.

From American Car & Foundry Co., 10 steel underframe first-class cars; five combination second-class and baggage cars, steel underframe.

From Osgoode Brothers & Company, 17 steel underframe first-class cars; 19 steel underframe baggage cars; five steel underframe express cars.

From the Western Steel Car & Foundry Co., 200 50-ton capacity steel flat cars; 300 40-ton capacity steel flat cars.

RURAL CREDITS IN THE UNITED STATES

President Wilson and the members of his cabinet immediately interested have it, it is understood, approved of the report and recommendations of the commission appointed to investigate and study rural credits and agricultural co-operative organizations in European countries. Legislation in accordance with these recommendations will be among the first matters to be taken up at this session of congress, and in anticipation of this a sub-committee of the banking and currency committee of the house of representatives has been studying the proposals.

A HINT TO THE MAYOR.

Editor World: In view of the large amount of distress existing among the unemployed and others in the city at the present time, the suggestion is made that the Toronto Symphony Orchestra and other musical organizations in Toronto be approached as to the possibility of a concert being given in Massey Hall, the proceeds of which would be given wholly to the relief of those affected in the way I have indicated.

THE CANADIAN ALMANAC.

Since the year 1848 The Canadian Almanac has been continuously published, and the volume for 1914, just issued, is again conspicuous for the mass of useful and conservatively arranged information it contains.

BULL FIGHTS IN MAISONNEUVE

MONTREAL, Jan. 15.—(Can. Press.)—The City Council of Montreal met last night to agree to permit a bull fight here, at a tax of \$100 a day, which would move against any such exhibitions.

BUREAU OPENS TODAY.

The Civic Employment Bureau, 11 Colborne street, will be opened at 9 o'clock this morning.

NEED BUREAU FOR NEWS DISTRIBUTION AT OSGOOD HALL

Publicity Department Would Do Much to Attract Industries and Money. The need for a civic publicity department is felt so generally among the members of the city council that Mayor Hocken is considering the advisability of having the matter discussed in the board of control in the near future.

WILL PASS BYLAW TO CLOSE STATION STREET

The Station street problem was tackled by the board of control yesterday, and a deputation of interested property-owners took part. All are contending for the street to be permanently closed through the construction of the viaduct and the new Union Station.

PROVIDE ISOLATION AT INDUSTRIAL FARM

Provision Should Be Made for Tubercular Inebriates, Says Hastings. For the fourth successive year Ald. Rowland in the county jury advised that a building for such quarantines should be provided at the Industrial Farm, St. Hastings.

GOT DAMAGES

Judgment for \$90 was awarded to Edgar E. Thackeray against Dr. Oscar A. McNichol in the county jury court before Judge Denton yesterday afternoon.

CANADIAN CLUB

G. G. S. Lindsey will address the Canadian Club next Monday at lunch on "Self-Government in Canada."

RESCUED BY WARSHIP FROM STEAMING LAVA

KAGOSHIMA, Japan, Jan. 15.—(Can. Press.)—A pathetic scene was witnessed today on the Island of Sakura, where a group of famished, terror-stricken men were rescued from amid steaming lava and heated waters by a boat from a Japanese warship.

MAY BE HOLD-UP MAN

Robert Barrett Detained with Ottawa Police in Connection With Montreal Herald Affair. Montreal, Jan. 15.—(Can. Press.)—The man who held up the cashier of the Montreal Herald some weeks ago, and made a good getaway with \$500, is thought to be in custody in this city.

WHOLESALE THEFT OF PASSES.

Two Men Arrested in Connection With Disappearance of G.T.R. Tickets. Edmonton, Jan. 15.—G. S. Garnow and Abe Burchill were arrested here today in connection with the theft of one hundred Grand Trunk Pacific Railway passes.

DEPOSITS

The Corporation is a LEGAL DEPOSITORY FOR TRUST FUNDS. Every facility is afforded depositors. Deposits may be made and withdrawn by mail with perfect convenience.

Canada Permanent Mortgage Corporation

TORONTO STREET TORONTO Established 1885. President: W. G. Gooderham. First Vice-President: W. D. Mathews; Second Vice-President: G. W. Monk.

WHEAT MARKET

EDMONTON, Jan. 15.—(Can. Press.)—The grain market here was quiet today, with prices for wheat steady and for other cereals slightly higher.

APPELLATE DIVISION

Before Meredith, C.J.O. MacLaren, J.A.; Magee, J.A.; Lennox, J. Denton R. Tunnell, C. W. Windsor. J. H. Rodd, for city. D. W. Saur-

AT OSGOOD HALL

Announcements. Judge's chambers will be held on Friday, 16th inst., at 11 a.m. Peremptory list for appellate division for Friday, 16th inst., at 11 a.m. 1. Sturgeon Falls v. Canada Iron Corporation.

WILL PASS BYLAW TO CLOSE STATION STREET

The Station street problem was tackled by the board of control yesterday, and a deputation of interested property-owners took part. All are contending for the street to be permanently closed through the construction of the viaduct and the new Union Station.

IMMIGRATION IN NOVA SCOTIA SHOWS MARKED INCREASE

(Special Correspondent.) HALIFAX, N. S., Jan. 14.—The figures of the immigration into Nova Scotia, via the port of Halifax, have been lately made up by Mr. Arthur S. Barnstead, the secretary of immigration. The total number of immigrants arriving by way of Halifax in 1913 amounted to 248 persons.

MICHIE'S Cigar Department

is close to the entrance, convenient for quick service, at the corner of King and Young streets. Joseph Russell Had Five Entries in White Wyandotte Class. The chicken fanciers of "Boston" have given a surprise at their annual show, which is running this week. They held the belief that there were world holders in chickens, but practically all of the prize birds were world holders in chickens, but practically all of the prize birds were world holders in chickens, but practically all of the prize birds were world holders in chickens.

They held the belief that there were world holders in chickens, but practically all of the prize birds were world holders in chickens, but practically all of the prize birds were world holders in chickens.

BISLEY COMPROMISE IS CONSIDERED LIKELY

LONDON, Jan. 15.—(C.A.P.)—The National Rifle Association is unwilling to make any statement concerning the possibility of a small town in the target rifle is adopted and the aperture sight barred. The whole question will receive attention at the meeting of the association in a few weeks. The C.A.P. learns unofficially that association officials regard it likely that a sound compromise satisfactory to all parties will be reached.

PUGWASH HAS BRIGHT FUTURE

(Special Correspondent.) PUGWASH, N. S., Jan. 15.—Pugwash station is of considerable importance for a small town in the past year. Three thousand tons of pressed hay, 3000 boxes of smoked herring, 80 tons of seal, 500 barrels oysters; several carloads of stone; 800 carloads of ducks, besides many cars of farm produce.

SCORES OF CATTLE KILLED

Passenger Train Plows Into Rear of Live Stock Train. ELIZABETH, N.J., Jan. 15.—(Can. Press.)—Between 100 and 150 head of cattle were killed here today when a passenger train, westbound, plowed into the rear of a cattle train, wrecking several cars. Traffic was delayed for more than an hour. The passenger train was undamaged.

RAILWAY OFFICIAL SUICIDES

NEW YORK, Jan. 15.—(Can. Press.)—Richard D. Lanford, vice-president and secretary of the Southern Railway, committed suicide today by inhaling gas in his apartments in Brooklyn. He was soon to have been married to a Brooklyn society girl.

Start on Wednesday

Sandy Pearce, Secretary of the Ontario Curling Association, arrived home from Monday yesterday, and called the Toronto Granite of the Ontario tankard to start on Wednesday next.

T. R. C. AND CHAMPS AT ARENA TONIGHT

Meet in Senior Fixture—College Group of Junior O. H. A. This Afternoon.

When Toronto Rowing Club and T.R. & A.A. meet tonight at the Arena the fur should fly.

THE afternoon from 4 to 5 St. Michaels and Ipswich Canada will meet in the first game of the preliminary group of the Junior O.H.A.

TORONTO CANOE CLUB and Varsity Juniors will meet again Saturday afternoon at 1.30.

ART Ross, the Wanderers' coverpoint, has been taken from his old position at point and is now being trained for goal.

THE Strand Hotel team will play the Leaside rink in their old position at point and is now being trained for goal.

ST. JOSEPH'S hockey team of the Junior Beches League will practice Sunday afternoon from 8.30 to 5 at Kew Gardens.

IT was ever thus. The N.H.A. president refused to suspend "Bad" Jack Hall for a little thing like cutting "sawky" Lalonde's head nearly off, but hands "Minned" McGiffin a real roast, heavy fine and a week on the fence for a little strenuous checking.

ST. ANN JUNIORS OF the Beches League will play Riverside Presbyterians at St. Ann's 8 to 9, at Broadview rink.

TONIGHT'S games in the Beches League are as follows: -Junior- Riverside Presbyterians at St. Ann's 8 to 9, at Broadview rink.

THE Don Rowing Club team will practice tonight at 8.30 on the Don Flats, No. 1 cushion.

THE Senator hockey club of Toronto held their annual hockey meeting last night at which the following officers were elected: Hon. president, G. O'Hara.

THE following is the schedule adopted by the Commercial Hockey League.

THE regular weekly shoot of the Bechy Beach Gun Club will be held as usual on their grounds Eastern avenue.

GARVIN of Barra defeated Gibson of Grimby in the final consolation for the Canadian checker honors at Hamilton.

NEW YORK, Jan. 15.—The signed contract of Luke Bonas, 18-year-old prospect of Dallas, Texas.

HOTEL LAMB

THERE IS CLASS TO DUNCAN'S OUTFIT

Midland Intermediates Trim Collingwood Champions—The Other Games.

MIDLAND, Jan. 15.—Midland Intermediates tonight defeated Collingwood, the champions, in a fast game by the score of 7 to 1.

THE line-up: Midland (1): Goal, MacDonald; right defence, Gould; left defence, Nelson; centre, Lawrence; right wing, Grant; left wing, Drumm.

GAITHER, Jan. 15.—Gaither easily defeated Guelph "Vics" in the intermediate O.H.A. game here tonight by 11 to 1.

WOODSTOCK, Jan. 15.—In a very one-sided game Woodstock College defeated Sarnia by the score of 13 to 0.

ONE FOR PETERBORO. PETERBORO, Jan. 15.—The local intermediates defeated Belleville tonight by the score of 5 to 3.

PETERBORO, Jan. 15.—The local intermediates defeated Belleville tonight by the score of 5 to 3.

THE first indoor shooting of the above club will be held in the auditorium on Saturday, Jan. 17, from 3.30 to 4.30 p.m.

JENNINGS CUP In Three Sections

The contestants in the Jennings Cup series, which the Ontario Hockey League are developing, number thirteen this year.

WINNERS of Groups A and B will play off on Feb. 4 and the winner will play the winner of Group C on Feb. 11 and 13th.

THE weather is unfavorable to the schedule which has been reduced to single ones.

Group A—Senior—Jan. 17—Meads v. Victoria.

Group B—Junior—Jan. 17—Denta v. Arts.

Group C—Victoria v. School, Arts v. Meads.

Group A—Senior—Jan. 21—Victoria v. Meads.

Group B—Junior—Jan. 21—Denta v. Arts.

Group C—Victoria v. Meads.

PLANS TO MEET FRANCE'S DEFICIT

Series of Rapidly Redeemable Loans to Solve Present Difficulty.

PARIS, Jan. 15.—(Can. Press.)—Jot. Caillaux, the minister of finance, presented in the chamber of deputies this afternoon the new French Cabinet's proposed solution of the budget difficulties, which have been agitating France and which brought about the downfall last month of the Barthou ministry.

M. Caillaux proposes to meet the deficit of \$158,000,000 in the 1914 budget, so far as possible, without resorting to the loan of a sum greater than \$38,000,000, the loan to be of the short-time variety. The extraordinary expenditure of the navy of \$282,000,000 and that for the navy of \$84,000,000 will be met by four or five rapidly-redeemable loans, to be issued separately during 1914 and 1915, thus avoiding the overburdening of the money market with a single issue.

M. Caillaux counts on obtaining \$38,000,000 from the proposed graduated

ICE-BOUND SCHOONERS HAVE BEEN RELEASED

Crews Suffering From Frostbites, But No Lives Reported Lost.

VINEYARD HAVEN, Mass., Jan. 15.—(Can. Press.)—The revenue cutter *Acushnet* reached here from Nantucket Shoals today, towing the schooners *Silver Spray*, *Daniel McLeod* and *Sunlight*. All were badly iced up, and their crews were suffering from frostbites. She reported that the revenue cutter *Itasca* was on her way to port with the schooners *Pearl Nelson* and *Jessie Hart* in tow, and that other vessels on the shoals were asking assistance.

On her way down Nantucket Sound yesterday the *Acushnet* communicated with ten schooners, all partly disabled by ice. At one time eighteen schooners and a tug were anchored off Chatham with colors union down.

If you want all news, get The World.

POLICY OF DRIFT MUST GIVE WAY

Gen. Otter Declares Thought Must Be Given to Canadian Defence.

COMPULSORY TRAINING MET IN LABOR TEMPLE

In Schools and Universities His Solution of Militia Problem.

"The militia force of Canada is itself so apparently satisfied with its efficiency, and the public is so immersed in business as to be almost totally unconcerned with the question of Canadian defence. We are exposed on all sides. Unless our policy of drift is soon ended the certain end is irreparable loss," stated General Otter, addressing the Empire Club yesterday noon.

He commenced by referring to the human qualities which are the very fundamental inspirations of war, namely, possession, oppression and aggression. War was firmly imbedded in human nature. The time of danger for Canada would come when England was embroiled, a situation which might arise at any moment.

Need More Soldiers. General Otter quoted statistics to show that the Canadian militia as at present constituted is ill equipped, and that the force additional must be quadrupled if it is to be made efficient for defence. The training grounds, he pointed out, are, with the exception of Petawawa, inadequate in extent.

"What is the remedy? I venture to suggest that it is that it must be compulsory training in the schools and in the universities."

UNEMPLOYED MAKE APPEAL FOR WORK

Hanna, Rogers, Drayton and the Harbor Board Will Receive Telegrams.

SIXTEEN HUNDRED MEN WITHOUT EMPLOYMENT FORMED PLANS FOR BETTERMENT

The result of a mass meeting of the unemployed of the City of Toronto in the Labor Temple yesterday afternoon, when seven speakers discussed unemployed, telegrams were sent out to the heads of the various public works departments demanding that work on the different public works be resumed, and that as much new work as possible be started immediately.

The large hall of the Labor Temple, with a seating capacity of about 600, was crowded, and fully a thousand could not obtain admission. After Rogers, minister of public works, was also telegraphed to, and Chairman H. L. Drayton, of the Dominion railway board was requested to issue a temporary order to the C. P. R. and G. W. S. for the commencement of the preliminary work in the work as possible started at once, while the influence of the harbor committee to be done by the city.

A committee was appointed to see that the demands of the meeting are given some attention, and to transmit the information that they receive to the men out of work. It is intended to have as many buildings as are idle used for giving shelter to those who are without employment, and money.

Among the speakers were Controller Simpson, Joseph Gibbons, Matt. Weymann, H. Wilson and W. Chamberlain.

Weather and Books

The only man who prays for bad weather is the publisher of books. One of the biggest men in the English trade lets out "some" secrets in an interview.

GRAND TRUNK GETS A "BLOW-UP" NOTICE

French-Canadian Association, Incensed Over "Blokie" Labor, Threatens Dire Things.

MONTREAL, Jan. 15.—(Can. Press.)—The general offices of the Grand Trunk on McGill street are to be blown up in thirty days, according to the terms of a notice served on the company. This notice is signed by the French-Canadian Association of Montreal.

It has been observed by this association for some time past that the Grand Trunk has been employing large numbers of "Blokies" to the exclusion of good French-Canadian labor. There are large numbers available in the city without having to go outside to the French-Canadians, who are on the spot. Therefore, if the Grand Trunk does not mend its ways by getting rid of the "Blokies" both in the general offices and in the shops, the former are to be blown up in thirty days.

MOYER IS INDICTED ON CONSPIRACY CHARGE

President of Western Federation of Miners Must Face Courts Over Copper Strike.

HOUGHTON, Mich., Jan. 15.—(Can. Press.)—Charles H. Moyer, president of the Western Federation of Miners, together with other officers of the federation, in connection with the strike of the copper miners.

The charge of conspiracy constitutes a misdemeanor. Incidental to the indictment the jury found that the federation had 7000 members in the strike district.

FRENCH SAILORS BEST ROWERS

VERA CRUZ, Jan. 15.—(Can. Press.)—An international race for 12-oared cutters, manned by sailors from the foreign warships now anchored in Vera Cruz harbor, was rowed over in three-mile course today. The French crew winning. The Spanish, German, English and American sailors finished in the order named.

GETS TWENTY-THREE MONTHS

Emilio Fucco, the Italian laborer found guilty of wounding Giuseppe Galde with intent to do bodily harm, was sentenced to one year and eleven calendar months in central prison by Chief Justice Meredith in the assize yesterday.

OCEANIC'S ROUGH TRIP

NEW YORK, Jan. 15.—(Can. Press.)—With her bridge torn away by a giant sea and her decks deep in snow, the steamship *Oceanic* of the White Star line came in today from Southampton, Cherbourg and Queenstown 25 hours late. She brought 352 passengers, 59 first cabin.

GUELPH MUST PAY HEAVY DAMAGES

Judge Middleton Gave Judgments Against City for Thirty Thousand.

BRIDGE A NUISANCE

Thirty Days' Stay Given in Which City Can Take an Appeal.

As a result of judgments given at Onondago Hall yesterday by Judge Middleton, the City of Guelph is called upon to pay more than \$30,000 damages and costs to manufacturing firms whose premises were damaged by the bridge in the spring of 1912. Thirty days' stay is granted in each action in case the city wishes to appeal.

The actions were taken by the Guelph Worsteds Spinning Company, which brought two, and the Guelph Carpet Mills Company. The first action brought by the Worsteds Spinning Company was for \$25,000 damages for injuries to goods and property by reason of the flooding of their premises, alleged to have been caused by the neglect of the City of Guelph in the construction and maintenance of a bridge over the Speed River. Judgment was given in that action for \$15,000 and costs, and the bridge, in the condition it was in in 1912, was declared a nuisance. An injunction also was granted to prevent the city from diverting water on to the land owned by the company.

The second action was for \$15,000, and judgment was given for \$9,000. The Guelph Carpet Mills Company sued the city for \$8,000 for damage to goods by floods, and judgment was given for \$5,000 and costs.

The total of the three judgments is \$29,000, and the costs will amount to several thousand dollars.

In all actions the plaintiffs were represented by G. Gibbons, K.C., and G. S. Gibbons of London, Ont., while P. F. Hellmuth, K.C., J. J. Kerwin and P. Kerwin appeared for the City of Guelph.

READY IN THREE WEEKS OR MONTH

Chairman of Prison Inquiry to Have Report Before Government Then.

HOSPITAL AUTHORITIES INDIGNANT

Over Imbroglia With Bell Telephone Co.

(Special to The Toronto World.) KINGSTON, Jan. 15.—That he expected to have his report before the government within three or four weeks, was the statement made today by Chairman Macdonell of the prison reform commission. He and Dr. Ethington, another member of the commission, left for Toronto this afternoon. The commission will interview labor leaders there tomorrow, relative to the labor question at the penitentiary as well as of the prison parole board. St. Vincent de Paul will be visited before the commission frames its report.

Gold Weather Causes Distress. As a result of the cold spell, there has been much suffering among foreigners employed on railway construction work in this district. One foreigner is known to have sold a fine gold watch for a paltry dollar in order to buy bread.

Remembered by Congregation. Rev. J. W. McIntosh, pastor of Cooke's Church, was presented by his congregation with a cheque for \$150, and had his stipend raised from \$1400 to \$1500.

Message Held Up. With a patient lying at death's door, the authorities of the Mowat Memorial Hospital declare they refused the use of the telephone to deliver a message to relatives of the patient dying at Napanee, because an executive of the hospital due the Bell Telephone Company had not been paid. The hospital authorities are indignant over the affair, but the local office points to the rule that says all accounts must be paid. It appears that the account was passed for payment at a meeting of the hospital governors Wednesday, and would have been paid today. The hospital got the message thru to Napanee after a member of the staff called at the telephone office and paid the arrears.

FAILED TO TURN UP FOR THE WORK

Many of Hamilton's Unemployed Evidently Don't Want It.

FIVE OVERCOME BY GAS

Occupants of Palace Restaurant Had Narrow Escapes From Death.

(Special to The Toronto World.) HAMILTON, Jan. 15.—At a late hour this afternoon nearly nine hundred unemployed had registered at the city hall employment bureau, and of these approximately 150 were put to work in the new civic stone quarry, and at filling in the coal oil silt, also odd repair jobs. The men working in the quarry are paid \$2 per cord, and the others get 22c per hour. The daily payroll will amount to about \$500, and this will soon eat up the \$5000 voted for the purpose, making another appropriation necessary.

There was complaint this morning that out of 50 men given coupons to work, only 20 turned up.

The investigation department conducted by Industrial Commissioner Marsh has justified its existence by detecting a few cases of fraud. The story of one man who claimed that his family, consisting of his wife and four children, was destitute, was looked into. It was found that he had no children, that his wife was working, and they were living in comparative comfort.

Opposes Bylaw. At a meeting of the board of control this morning, Mayor Allan ridiculed the clause in the proposed new building by-law, which declares that all buildings erected in the west, Hunter on the south, Catherine on the east, and Cannon on the north. His worship declared that the clause was absurd, because it would make building in that section almost prohibitive because of the increased cost. However, the board decided to let it go before the council.

Overcome by Gas. Gas poisoning caused by escaping gas rendered five occupants of the Palace Restaurant, on West King street, seriously ill at an early hour this morning. Two of them, Mrs. Fitzgerald and Eva Leonard, were in a critical condition when found by Mrs. Leonard, one of the other victims, but later recovered sufficiently to be declared out of danger. The other sufferers were Miss Weaver, a waitress, and Willie Morris, a kitchen boy. Mrs. Leonard, manager of the restaurant, detected an odor of gas before retiring, and took special precautions in turning off every light and tap. She was the only one of the five able to stagger to a window and summon help.

A Good Dog. A collie dog frustrated the designs of a would-be burglar on the residence of Edward Clunas, West Hamilton, at an early hour this morning. Aroused by the dog persistently barking at the bed clothes and whining, Mr. Clunas nearly caught a man crawling thru a window.

CREAM GRADING NECESSARY TO OBTAIN FAIREST RESULTS

G. H. Barr Tells Western Ontario Dairymen What Canada Must Do to Compete With New Zealand Butter—Prof. Dean Shows Financial Difficulties in Way of Milk Producer.

(Special to The Toronto World.) STRATFORD, Jan. 15.—(Can. Press.)—The annual convention of the Western Ontario Dairywomen's Association was concluded here today with a session devoted particularly to the cheese and butter makers.

The closing address was given by G. A. Putnam, superintendent of institutions and director of dairy instruction in Ontario, who stated that the outlook in regard to western Ontario and in regard to agricultural industries generally was very encouraging. He predicted an advance in land values, remarking that this held out no hope of relief from the present high cost of living but rather pointed to a condition that it was impossible for the butter makers to make the finest butter.

Robert Johnston of Woodstock gave an address on "Defects in Our Cheese," and D. W. Steinhoff gave a similar paper in relation to butter.

George H. Barr, chief of the dairy division at Ottawa, spoke on "Cream Grading and Cream Collecting Creameries." He said that, although the federal and provincial governments had spent large sums in educating patrons of cheese factories and creameries to produce better milk and cream, a large percentage of the cream being received at the creameries was in such a condition that it was impossible for the butter makers to make the finest butter.

"Is it fair," he asked, "to pay the men who thru carelessness allow cream to become tainted and overripe the same price as is paid to the men who have gone to considerable expense to produce the best cream in proper places to keep cream in good condition?"

He thought it obviously unfair and urged another reason for grading cream, the necessity of making a finer quality of creamery butter if Canada was to compete successfully with New Zealand or to satisfy the demands of the best markets in her own western provinces.

Presentation of Trophies. In presenting the silver trophies for butter and cream exhibits, Mr. Putnam declared that unless the creamery men were prepared to do something along the lines indicated by Mr. Barr the department would hardly be justified in continuing to send out instructions according to Prof. Dean, was that the Canadian consumer did not appear to realize the value of cheese as a food. He stated that one pound of cheese was equal in food value to one pound of beef, and it had the added advantage of not requiring to be cooked.

J. B. Muir New President. The election of officers resulted in J. B. Muir of Ingersoll being selected to succeed S. G. Facey of Harrietsville as president. The other officers for the ensuing year are: First vice-president, Robert Ryrie, Springford; second vice-president, James Bristow, St. Thomas; third vice-president, A. W. Stratton, Guelph; secretary, treasurer, Frank Hens, London; auditors, J. A. Nelles, London, and J. C. Ingersoll, Ingersoll. Representatives to the Western Fair, J. Brodie of Mapleton and E. Hens, representatives to the C.N.E. at Toronto, F. Hens and R. Johnston of Woodstock.

The report of the committee on resolutions was presented by President Muir. The resolutions presented included resolutions of thanks to the mayor, the council, the board of trade, the press and individuals and firms donating prizes and the following:

"The dairymen are under a great obligation to both the Ontario department of agriculture and the federal department of agriculture, and the assistance rendered to the dairy industry, and we wish to express our sincere thanks and appreciation of the work done by these departments."

COMPLETES WORK ON PRAYER BOOK

Anglican Sub-Committee Adjourns After One Week's Deliberations.

(Special to The Toronto World.) ST. CATHARINES, Jan. 15.—After a week's deliberations, with the idea of simplifying and enriching the prayer book used in the Anglican churches in Canada, the sub-committee appointed for that purpose completed its work today and adjourned.

The meetings were held in St. George's parish hall, three sessions being held each day, with Rt. Rev. Dr. Williams, Bishop of Huron, presiding, and Rev. Canon Armitage of Halifax as secretary.

The report will recommend the addition of special services and special lessons for special purposes and occasions, with certain changes in the phraseology where it may have been considered antiquated. The definite result of the findings of the committee, however, cannot be made public until the report is presented to the general committee, which will meet in April, probably at Toronto, for consideration and presentation later to the meeting of the general synod in September at Vancouver.

Thos. E. Jones has been appointed by the provincial secretary's department as technical examiner of applicants for chauffeurs' licenses for the district of St. Catharines, and Geo. A. Sherwood and R. Footo as judges of character.

The high wind of yesterday caused the waves to wash away a huge quantity of the earth deposited in the lake to form an arm of the new harbor that is being built for the Lake Ontario entrance to the new Welland ship canal at Port Weller, entailing considerable loss to the contractors, the Dominion Dredging Company.

KICKS THRU PANEL MAKES HIS ESCAPE

Man Detained by Immigration Officers at Sarnia, Gives Captors the Slip.

(Special to The Toronto World.) SARNIA, Jan. 15.—The immigration officers here are looking for a shifty stranger who broke away from the detention room this morning by kicking one of the panels out of the door, thru which he crawled.

When the Grand Trunk express arrived at the tunnel depot shortly after 2 o'clock, a man got off the train, carrying two suit cases. His strange actions attracted the attention of the immigration officials. He boarded the street car to come up town, but just before the car started it was detected by the officers attended to some other duties. On their return they were surprised to find the prisoner had effected his escape in the manner above noted.

The man had made his way out thru the tunnel yards and was subsequently heard of from the vicinity of Maudamin. After his escape from the immigration office he was accosted by a railway employe, on whom he drew a knife and threatened bodily harm. He drew a knife on one of the immigration officers also.

From information received from Port Huron it is learned that the stranger did not have any suit cases with him when he was there, and it is surmised that the baggage in his possession when taken into custody here was stolen.

TWO BUSINESS BLOCKS DESTROYED IN MIDLAND

Fire Does Seventy-Five Thousand Dollars' Worth of Damage in Northern Town.

MIDLAND, Jan. 15.—Midland suffered another great fire loss at 1 o'clock this morning, when the Ingram and McLeod blocks were totally destroyed. The loss is estimated at about \$75,000. The building contained the following business places, the contents of which have been totally destroyed: Bank of British North America, town clerk's office, Arthur W. Bell, sewing machine agent; W. Finlayson, barkeeper; Dr. Harvey's dentist; Light and Water Co.'s mission office; C. E. Alken's office; Taylor, Armstrong Bros. and Frank; Miss McLeod, milliner; Canadian Excelsior Co. and D. E. Fowler's Jeweler. The cause of the fire is unknown.

OUTRAGES COMMITTED IN CHATHAM TOWNSHIP

Valuable Horse Knocked in Head by Some Unknown and Number of Fowl Destroyed.

(Special to The Toronto World.) CHATHAM, Jan. 15.—Highly Investigative into depredations and outrages committed late Sunday night in Chatham Township.

A valuable driving horse, the property of 814 Coatsworth of the second concession, is dying from the effects of being struck on the head by some weapon, presumably an axe, in the hands of an unknown person. Fourteen chickens belonging to William Long a neighbor, were despatched by apparently the same instrument while the interior of the residence was literally turned upside down in the absence of the owner and a number of household articles were scattered about. No clues to the identity of the miscreant have as yet been found.

TIMISKAMING MAY HAVE TWO MEMBERS

Announcement Made by R. T. Shillington at Riding's Annual Meeting.

(Special to The Toronto World.) NEW LISKEARD, Jan. 15.—Delegates from all parts of the riding attended the annual meeting of the Timiskaming Conservative Association held here today. 150 delegates were present.

The announcement was made by R. T. Shillington, M.L.A., that at the coming session of the legislature the Timiskaming would be divided into two members of the provincial house, giving an extra member for the north. It is possible that a running mate to Hon. Frank Cochrane will be selected for the Dominion House under the new administration. A motion of regret at the illness of Sir James Whitney was passed as well as endorsements of the work in both houses.

George Mitchell of Cobalt was elected president for the ensuing year in place of Dr. C. W. Kenney, who has retired. Other officers elected, all unanimously, were as follows: Vice-presidents, R. A. Douglas, Matheson; as Kennedy, Englehart; Sam Greenwood, New Liskeard, and W. E. T. Barton, Cobalt; secretary-treasurer, Carl Green, Haliburton.

The next meeting will be held at Cochrane.

BILL WOULD PREVENT CORNERING OF MARKET

At Least, That is the Object of George H. Bradbury's Cold Storage Measure.

OTTAWA, Jan. 15.—(Can. Press.)—The bill of George H. Bradbury of Selkirk relating to cold storage, provides a limit of four months for meats, seven months for fish and butter and seven months for eggs being kept in storage. There must be monthly reports on the amount of supplies held. Mr. Bradbury thinks the scheme would prevent cornering of the markets.

WELLAND HEAVYWEIGHT DEAD

Last Survivor of Three Brothers Who Together Scaled One Thousand Pounds.

WELLAND, Jan. 15.—(Special.)—In the death of Herschel Swick, the last of three remarkable brothers passed away. They were physically the largest men in the country. The three of them, when living, weighed over 1000 pounds. One died about seven years ago, the second three years ago in Chicago, while on the vaudeville stage, and the last this afternoon, after suffering from dropsy for four years. He was the eldest, aged 30.

LAMBTON COUNTY WILL HOLD CORN EXHIBITION

(Special to The Toronto World.) COURTRIGHT, Jan. 15.—Driven by a stiff northerly gale, which brought snow, the ice has been forced from the lake into the St. Clair River, and it will be but a few days when an ice bridge is formed. Last year this ice bridge formed the second week in February and went out again about March 20.

PERTH MEDICAL MEN HOLD ANNUAL ELECTION

(Special to The Toronto World.) STRATFORD, Jan. 15.—Dr. A. F. McKenzie of Monkton is the new head of the Perth County Medical Association, his election taking place at the quarterly meeting held here. Medical men were present from Goderich, Clinton, Mitchell, St. Mary's, Selkirkville, Dublin, Monkton and Stratford.

BALTIMORE LECTURER SPOKE AT UNIVERSITY

Prof. David Robinson Gave Address on Excavation Discoveries in Asia Minor.

Excavations recently made in Asia Minor were graphically described by Prof. David M. Robinson, Ph. D., of Johns Hopkins University, Baltimore, and one of the most promising younger archeologists of the present day, in an illustrated lecture before a large audience in the physics building of the university last evening, under the auspices of the Toronto branch of the Archeological Institute of America.

The ruins of Hierapolis, Sardis, Pergamum, Smyrna, Ephesus and Miletus were pictured. A literal treasure house had been unearthed by the excavator in this country which to no small degree threw light on the art, customs, and civilization of the peoples who at various times held sway there.

HENDRY IS IN CUSTODY AS RESULT OF ACCIDENT

Conductor of Car Which Injured Alexander MacPherson Was Refused Bail.

In police court yesterday Conductor William Hendry of the car which injured Alex. MacPherson and J. Johnston in the East King street barns Wednesday evening, was refused bail, and Henry Gilbert, a T. R. employe, granted bail of \$5000. Both men had been placed under arrest on charges of criminal negligence in connection with the accident.

In refusing Hendry bail, Assistant Crown Attorney Hughes held that Hendry was the more responsible for the accident.

CHATHAM PRESBYTERIANS

At the annual meeting of the First Presbyterian Church of this city held last evening, the reports showed that \$4428.75 had been raised during the year of the amount \$4488 was given to missions and other schemes of the church. Dr. C. B. Oliver and John Fisher were elected new elders of the church.

FALLS INTO RACEWAY WHIRLED TO HIS DEATH

Three-Year-Old Son of Rubber Company Employe Drowned While at Play.

(Special to The Toronto World.) ST. CATHARINES, Jan. 15.—The three-year-old son of Joseph Valle, an employe of the Maple Leaf Rubber Company, slipped while playing on the bank of the hydraulic raceway late this afternoon, fell into the swift water and was whirled half a mile to the Pack and Electric Works with pieces of broken ice. He was taken out after being in the water for 15 minutes, but life was found to be extinct.

DEATH OF OLD GLENGARRIAN

CORNWALL, Jan. 15.—(Special.)—Allan Munroe, one of the oldest residents of Glengarry, passed away at the residence of his son-in-law, Farquhar McLennan, at Summerstown Station, at the advanced age of 92 years. The late Mr. Munroe in his long span of life saw many changes. He used to tell stories of the time when ox carts were used to go to market, and he lived to see the automobile. The funeral took place today to Salem Church Cemetery, Summerstown.

SARNIA SEES AUTO FUNERAL

SARNIA, Jan. 15.—(Special.)—For the first time in the history of Sarnia an exclusive automobile funeral passed thru its streets today, en route from Port Huron to the Village of Sonbra, a few miles below here. The machines were brought over the river on the ferry.

FIVE YEARS FOR ARSON

CORNWALL, Jan. 15.—(Special.)—At the winter assizes here today, Ephraim Racine of Cryler was found guilty of arson and sentenced by Justice Smith to five years in Kingston Penitentiary. Racine was charged with setting fire to buildings on the farm of one Benoit near Cryler, on the night of Oct. 24 last, or with causing the fire to be set by hiring a 17-year-old boy named Henry Duhaime to do the deed.

PERTH CITIZEN DEAD

PERTH, Ont., Jan. 15.—(Can. Press.)—W. H. Grant, governor of the county jail since 1880, died this morning, aged seventy-six. For twenty-two years Mr. Grant was one of the best known curling skips in the Ottawa valley.

The Dominion Automobile Company, Limited
Bay and Temperance Sts.
TORONTO

COMMONS FORMALLY OPENED MEMBERS-ELECT DULY SEATED

Governor-General Drove to Parliament Hill in Open Sleigh Despite Zero Weather—No Allusion Made to Naval Bill in Speech from the Throne.

(Continued From Page 1.)

Victor in South Bruce. The opposition cheered the solitary addition to their ranks while all the new Conservative members were greeted with cheers from the government benches. It was a matter of comment, however, that the lion's share of the cheering went to Mr. Morrison instead of to Mr. Morris, the victor in Chateaugay.

Nine New Senators.
The house adjourned until Monday, when the debate upon the address will begin. The intimation in the speech from the throne of legislation to increase the senatorial representation of the west was immediately implemented by resolution upon which bills will be founded to increase the number of senators from each of the provinces of Manitoba, Saskatchewan and Alberta by two, and from British Columbia by three. If the proposed legislation is adopted, the government will immediately gain nine new senators from the west. At present there are 55 Liberals and 23 Conservatives in the upper house.

The order paper will soon be loaded up with more than one hundred notices of motion, enquiries of the ministry and proposed addresses for the return of members of the opposition. A. K. Maclean of Halifax being foremost. These relate to the recent agreement

between the Intercolonial and the Canadian Pacific mail steamers from St. John to Halifax, and the removal of the Canadian Northern steamers from Halifax to St. John, to the alleged disasters at the Hudson Bay terminus, to the financial dealings of the government during the past year in the London market, to the removal of officials, the letting of contracts, and many other matters.

Wheat and Flour Duties.
Mr. Maclean will also ask for a return of the house showing all communications on file with the government respecting the removal of the duties upon wheat and flour coming from the United States, together with all requests for said removal and protest against the same, and the replies of the government thereto.

Col. J. A. Currie (North Simcoe) will move for a special committee to investigate the recent disasters upon the great lakes.

W. B. Northrup (East Hastings) has given notice of a resolution declaring that the procedure under which divorces are granted by parliament, and there are so unsatisfactory besides being prohibitive to the great majority of the people of Canada, that the same should be taken into immediate consideration by the government with a view to reform during the present session.

Several proposed resolutions offered by Liberal members call for amendments to the Elections Act, including the appointment of a public prosecutor to intervene in contested election cases.

Speech from Throne.
The Duke of Connaught spoke as follows:
"Honorable Gentlemen of the Senate; Gentlemen of the House of Commons:
"I take this public opportunity of expressing to you all my deep sense of gratitude for the comfort and support that were afforded us at the time of the serious illness of the Duchess of Connaught, by the numerous messages

of sympathy that were received from Canada and by the knowledge that the hearts of so many Canadians were with us during those dark days. I can only regret that my enforced absence made it impossible for me to fully exercise the duties of my high office during a considerable portion of last year. It gives me great pleasure to be able to congratulate you upon the remarkable expansion of Canada's trade with other countries in the past fiscal year, during which our total trade far exceeded that of any preceding year.

"The bountiful crops with which the Dominion has fortunately been blessed during the past season have been harvested under unusually favorable conditions, which have enabled the transportation companies to make full use of all the facilities at their disposal. Thus the difficulties which sometimes arose in former years have not been manifest, and an unusually large proportion of the crop has been conveyed to the seaboard before the close of the season of inland navigation.

Temporary Stringency.
"Canada has been favored by a long series of prosperous years and, although at the present moment business is slightly restricted by the financial stringency which prevails throughout the world, I feel convinced that this condition will be merely temporary and that the business resources of this Dominion, which are so fully and universally known and recognized, give us the fullest assurance of continued material prosperity and progress.

"As a result of the recent decennial census the representation of the different provinces must be readjusted, as required by the British North America Act, and a bill will be introduced for that purpose.

"A bill consolidating the Railway Act and its various amendments, as well as bills relating to the civil service and to trust and loan companies will be submitted for your consideration.

Redistribution Coming.
"Several other bills will be submitted, including measures providing for increased representation of the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia in the senate.

"The volume of immigration during the present fiscal year promises to be greater than that of any preceding year. It has come in large measure from the British Isles and from the United States, but a large stream of desirable immigration has also reached our shores from other countries.

"You will be pleased to learn that satisfactory arrangements have been made with the various provinces under the Agricultural Instruction Act, passed at the last session. My advisers are convinced that the co-operation between the Dominion and the provinces which is thus afforded will accomplish excellent results, in assuring better agricultural instruction and needful improvement of existing methods of agriculture.

"The work on the National Transcontinental Railway has been rapidly advanced during the past year; notwithstanding the difficulties attending the Hudson Bay Railway and the provision of terminals, every progress has been made in carrying out the important project nearer to completion.

Transportation Facilities.
"In connection with the highly important subject of transportation of our products, the provision of adequate terminal facilities at our great oceanic ports has received and is receiving the most careful attention. You have doubtless learned with satisfaction that the new government terminal elevator at Port Arthur is completed, and that it has been in operation since October last. In conjunction with this a system of interior terminal elevators has been begun, which will provide largely increased facilities for the farmers of the great grain-producing provinces.

"The international conference on the safety of life at sea, which has been in session in London for several weeks, has had under consideration this matter of highest importance, and it is hoped that its deliberations may result in some effective measures for assuring the safety of the passengers and crews of oceanic steamships. Representatives of Canada were appointed by order-in-council and have been in attendance at all sessions of the conference.

Ample Revenue.
"Gentlemen of the House of Commons: The accounts of last fiscal year will be laid before you. You will be pleased to know that the revenue has been ample to cover both ordinary and capital expenditures.

"The estimates for the next fiscal year will be submitted at an early date. They have been prepared with due regard to the necessary development of the resources of the Dominion, coupled with careful attention to economical administration.

"Honorable Gentlemen of the Senate; Gentlemen of the House:
"In inviting your careful consideration of the subjects to which I have called your attention, I pray that the blessings of Divine Providence may attend your deliberations."

GARRISON OF STRIKERS FORCED TO CAPITULATE

Bain and Ten Other Ringleaders Arrested and Put in Prison.

JOHANNESBURG, Jan. 15.—(Can. Press).—Mr. Bain, secretary of the South African Federation of Trades, and his band of 300 comrades, who had barricaded themselves in the Trades Hall here since Tuesday, surrendered unconditionally to the police today. Mr. Bain and ten of the ringleaders were arrested and lodged in jail.

Previous to this Mr. Bain this morning requested an interview with Gen. Louis Botha, prime minister of the Union of South Africa. The government regarded this as an offer to surrender and replied that the control of the region under the provisions of martial law, had orders to arrest every one in the hall and to use the most drastic measures necessary if, after warning had been given them, the occupants did not surrender without violence.

TWO CHURCH AT-HOMES.
St. Anthony's Young Ladies' Club will hold an at-home evening in St. Mary's Hall, Bathurst street, on Wednesday evening next. A large attendance is expected. St. Cecilia's Young Ladies' Society will hold an at-home in the Mason Temple, corner of Annette and Medland streets, on Wednesday evening next, Jan. 21.

TWO DAMAGE VERDICTS.
CORNWALL, Jan. 15.—(Special).—At the court of assize today, Mr. Justice Leitch, Joseph Lascelle, was awarded \$500 for an injury to his left eye and Roy Hess \$300 for the loss of three fingers of his right hand. Both accidents occurred in the Beach furniture factory here.

Building An Empire

Every loyal Canadian is an "Empire builder." He is anxious to add to the health and prosperity of the Dominion. But you can't build an Empire out of lands and mines and railroads alone. You have to build an Empire with men—and the way to make men is to give growing youngsters a food that builds strong and sturdy bodies. Such a food is

SHREDDED WHEAT

It contains all the material in the whole wheat grain made digestible by steam-cooking, shredding and baking. It is better than mushy porridges because it induces thorough mastication and thus develops sound teeth and insures perfect digestion. A food to study on, to play on, to work on.

Always heat the Biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Try Toasted Tri-cornit, the Shredded Wheat wafer, for luncheon, with butter, cheese or marmalade.

The Canadian Shredded Wheat Company, Limited
Niagara Falls, Ont.

YOUR OPPORTUNITY INVESTIGATE THIS WELL CONVINCED YOURSELF OF ITS POSSIBILITIES

A PLAIN TALK WITH YOU

HAVE YOU STOPPED TO THINK OF THE AMERICAN INVASION OF YONGE STREET?

It is always the man of vision who reaps the reward of his foresight. For instance, Henry Ford, the creator of the popular car bearing his name, had a hard time convincing his associates of the tremendous possibilities of his car. The secret was the fact that his car was built for the masses—a popular-priced car. Had you put in one hundred dollars at that time, what would your investment be worth today? Make enquiries.

First, you come to Liggett's, who have revolutionized the drug business in Toronto. Next, Childs' spent a fortune in their restaurant at Richmond and Yonge, absolutely knowing that they would do the business. Why? Because Toronto has fewer popular-priced restaurants than any city of its size on the continent today. Then we have Loew, with his magnificent theatre—he knows. Then Bowles' serve-self lunch, and Woolworth, on the corner of Queen and Yonge. Why should we stand passively by and let our neighbors reap the harvest of our business heart? Mind you, we appreciate the American aggressiveness, but are we not going to be awakened by its teachings? Would it not be well to invest in a good, legitimate proposition and see the actual operation of your money? Will we not have a certain feeling of pride to eat in restaurants that we are financially identified with? Our plans are not only as good as Childs', but the consensus of opinion is that they surpass Childs'. You must remember this is not a subdivision lot, nor is it a mine. Both might be good according to their merits, but what conceded not only the best corner in Toronto, but in the whole Dominion?

With a management that was good enough for Childs'. Our plan calls for a Bowles front with a Childs interior. This stock is being rapidly taken up, and no man can doubt the absolute success of such an undertaking. Remember, this is the parent company. You become an original shareholder, and we trust that it will be the investment of a life-time. We contemplate at least ten restaurants throughout Canada.

HOLMES RESTAURANTS, LIMITED

PARTICULARS OF BUSINESS

This Company is being organized to operate a chain of restaurants throughout the Dominion in cities having upwards of 50,000 population.

The first site has already been leased at 83 Yonge Street, Toronto, just one door north of the new Royal Bank Building, on corner of King Street—an ideal location. These restaurants will be similar to the Childs restaurants in the United States. Mr. Holmes know every detail of the business, and their experience will guarantee the shareholders of Holmes Restaurants, Limited, of the competent management that is bound to lead to success.

If you pass by Childs' Restaurant or Bowles' or the Cafeteria at meal hour you will find them overcrowded, and, in fact, at lunch hour, in the case of at least one of these restaurants, there will be a line-up of people waiting to get in.

The enormous profits made from these places will serve as an example of the possibilities for the shareholders in Holmes Restaurants, Limited. Lyons of London, Eng., is stated to make a profit of 60 per cent. Childs' Toronto restaurant has sent \$69,000 net profit to New York, they having just bought a new lease for \$85,000 in rear of their Toronto store, in order to increase their seating capacity. The Cafeterias pay a dividend of 27 per cent, annually on a capitalization of \$75,000. The Baltimore Lunch as reported to have made \$25,000 last year. Mr. Holmes makes a conservative estimate based on his experience that the net profit on our first Toronto restaurant for the first year should reach between \$40,000 and \$50,000.

With our system of management, there is absolutely no waste of food materials. Every day the exact cost of operation may be figured out. Taking into consideration the fact that this is an absolutely cash business, the safety of an investment of this nature is greatly enhanced.

Under these conditions there is no reason why the name of "HOLMES" should not mean to Canada all that the word "Childs" means to the restaurant catering public of the United States.

These restaurants will be opened day and night. The cuisine will be of the very best.

The Directorate of this Company is composed of responsible and successful men in the business world. It is altogether an unusual opportunity.

The allotment of shares set aside for public subscription is limited to 10,000 at par, \$10 per share, a minimum subscription of five shares being necessary by shareholders. This investment is in a company that will be in operation as fast as the builders can succeed of this business must be sceptical indeed. It is one of the most promising investments that have been placed before the Canadian public for many a day.

Subscriptions may be made on the annexed form subject to the prospectus of the Company.

FACTS WORTH CONSIDERING

There is no such thing as a SLUMP in the restaurant business—people MUST eat. When you invest in what people eat you cannot go wrong.

Our location is conceded the best in Toronto for a popular-priced restaurant.

Our management was good enough for Childs'. It should be good enough for you.

Our interior and exterior plans surpass anything at present in Toronto.

This is the parent company and you will draw profits from all subsidiary companies formed in the different provinces.

DON'T HESITATE—ACT

In case of oversubscription, cheques will be returned immediately to those whose cheques are received last. The Prospectus has been published in the local dailies, and copies will be forwarded to all interested.

OFFICERS AND DIRECTORS

President—Robert H. Holmes, Toronto, formerly manager of Childs'.
Vice-President—C. M. Preston, L.L.B., Toronto.

MOVES IN SYMPATHY WITH WALL STREET

Domestic Listed Issues Inclined to Follow the American Market.

LITTLE PUBLIC INTEREST

Quarterly Dividend on Mex. Power Has Been Suspended for Present.

The Toronto stock market showed more appreciation of the strength on Wall Street yesterday. Money is working easy in New York, and brokers here are finding no difficulty in getting all the accommodation they require.

PASSED DIVIDEND ON MEXICAN CO.

Mexican Light and Power Company Hold Off Until Situation Clears.

It has been announced by the directors of the Mexican Light and Power Company that the dividends on common stock begun in 1908, will be suspended.

DIVIDENDS DECLARED

The Dominion Coal Company has declared the regular half-yearly dividend of 3 1/2 per cent.

BANK CLEARINGS

Toronto bank clearings showed a very perceptible decline in Toronto during the past week.

OTTAWA, Jan. 15.—Bank clearings

for the week ending Jan. 15, 1914, were \$1,232,500, compared with \$1,392,074 for the same week in 1913.

MONTREAL, Jan. 15.—Bank clearings

this week showed unmistakable evidence of the general contraction of business.

QUEBEC, Jan. 15.—Bank clearings

for the week ending Jan. 15, 1914, were \$2,267,852, as compared with \$2,203,291 for the corresponding week last year.

WINNIPEG, Jan. 15.—Bank clearings

for the week ending Jan. 15 show a decrease of over \$100,000, as compared with the corresponding week of 1913.

STOCKS ADVANCED ON KEEN DEMAND

Wall Street Has, Temporarily at Least, Recovered From Blues.

STEEL LED UP TURN

Belief Grows That "Trust Busting" Program is Not Drastic.

NEW YORK, Jan. 15.—Stocks of all classes rose vigorously today. Speculation was more active and the market was broader. Sentiment was decidedly bullish and buying was conducted with a degree of confidence, which has not characterized trading recently.

MONTREAL STOCKS QUICK TO RESPOND

Nearly All Active Issues Scored Advances Under C. P. R. Leadership.

MONTREAL, Jan. 15.—Local stocks were entirely under the spell of the New York market today and the strong recovery there with C.P.R. a prominent feature.

DISSOLUTION PLANS OF NEW HAVEN RATIFIED

Two Railroads, Trolley Lines and Some Steamship Lines Divorced.

NEW YORK, Jan. 15.—(Can. Press.)—The directors of the New York, New Haven & Hartford Railroad today ratified the agreement recently entered into by Chairman Howard Elliott and Attorney-General McKim.

BRASILEAN DIVIDEND

Brazilian Traction, Light and Power Co. declared their regular quarterly dividend of 1 1/2 per cent, payable Feb. 20.

WINNIPEG RAILWAY EARNINGS

The earnings of the Winnipeg Street Railway on actual street car operation in this city for the calendar year of 1913 were \$2,854,597, an increase of \$269,604 over the preceding year.

WALL ST. BUYING

Leading Americans Stronger on Covering—Kaffirs and Copper Improved.

LONDON, Jan. 15.—Money was easy and discount rates were steady today.

AUSTRALIAN WHEAT WANTED BY JAPAN

Belief at Chicago Tended to Steady Prices—Corn Sold Off.

CHICAGO, Jan. 15.—Altho wheat naturally underwent some reaction today, the rapid advance in the preceding session, there was considerable fresh buying, due largely to belief that much of the Australian wheat crop would be required by Japan.

General loosening up in offerings from the country has had a return of bear pressure on corn. Unseasonably high prices for several days added to the weakness, and so, too, did a lack of adequate supply.

LIVERPOOL CLOSE

Liverpool wheat closed unchanged to 1/4 higher; corn, 1/4 to 1/2 higher.

ST. LAWRENCE MARKET

Receipts of farm produce were 300 bushels of grain and 15 loads of hay.

RECORD CROP

The crop report for 1913 issued at Ottawa places the wheat and oats crops the largest on record.

HOLDING WHEAT

Farmers in Australia are holding their wheat for better prices.

FRIDAY MORNING

THE STOCK STILL GROWING STRONGER

Prices Were Firmer in All Classes at the Yards on Thursday.

Receipts of live stock at the Union Yards yesterday were 41 cars, 465 cattle, 311 hogs, 324 sheep, 39 calves and 90 horses.

There was little change on the live stock market, unless it was that all classes were firmer and quickly bought.

Choice butchers sold at \$5.50 to \$10.10; good, \$3 to \$5.25; medium, \$2.50 to \$7.75; common, \$2.25 to \$6.75; choice cows, \$7 to \$10; good cows, \$6.50 to \$8.50; medium, \$5.50 to \$7.75; common cows, \$5 to \$7; canners, \$3.50 to \$4.50; \$5.50 to \$7.75; choice hogs, \$7 to \$7.75; common hogs, \$6 to \$7; stockers and feeders, \$4.50 to \$7; good steers, \$6.50 to \$7.75; stockers, \$5 to \$6.50; calves, \$4 to \$5; sheep, \$2.50 to \$3.50; muttons, \$2.50 to \$3.50.

Charles McCurdy bought 30 cattle, 750 sheep, at \$7.50 to \$8.

W. J. Halligan sold Tuesday.

BROOMHALL'S CABLES

LIVERPOOL, Jan. 15.—Wheat opened steady, shorts covering on strength in Buenos Ayres and steady American cables. Some support was noticeable as a result of the continued unfavorable crop reports from Argentina and firmness of Plate holders, together with an increased demand for Manitoabas and Australian offers. Advance checked by freer European offers and indications of liberal world's shipments this week, and the good supply in the visible week, and with February shorts covering. Argentine forecast of weekly crop in Buenos Ayres and dearer new crop Plate offers caused speculative buying estimates regarding yield of wheat to be further reduced.

Buenos Ayres wheat closed firm with shorts covering. Corn strong with January shorts covering on good foreign demand. New crop offers firmer. Oats strong with shorts covering excitedly. Harvesting returns are disappointing, and the continent is bidding freely. Farle: Sharp covering occurred at opening, the severe weather has interfered with movement of arrivals is unsatisfactory and demand for foreign wheat continues.

CHICAGO MARKETS. Erickson Perkins & Co. (J. G. Beatty), 110 West King street, Toronto, report the following fluctuations on the Chicago Board of Trade:

Table with columns: Wheat, Corn, Oats, Pork, Lard, and various grades. Includes sub-tables for Northwest Cars and Sheep and Lambs.

WINNIPEG GRAIN MARKET.

WINNIPEG, Jan. 15.—Prices on the local grain exchange were slightly weaker at the opening, but later firmed up and closed on a level with the last figures of yesterday. Oats and flax were quiet and prices were easier. Cash wheat closed 1/4 to 1/2 higher.

Cash: Wheat, No. 1 northern, 85% No. 2 do, 84%; No. 1 do, 82%; No. 4 75%; No. 5, 60%; No. 6, 64%; feed, 60%; No. 1 red, 80%; No. 2 do, 78%; No. 3 do, 75%; No. 1 smutty, 75%; No. 2 smutty, 73%; No. 3 smutty, 70%; No. 4 C.W., 11%; extra No. 1 feed, 32; No. 1 feed, 31%; No. 2 feed, 30%; Barley, No. 2, 40; No. 4, 40; reject, 38; feed, 37%; Flax, No. 1 N.W.C., 11.25; No. 2 C.W., 11.25; No. 3 C.W., 11.25.

DULUTH GRAIN MARKET. DULUTH, Jan. 15.—Wheat—Close: No. 1 hard, 85%; No. 1 northern, 84%; No. 2 do, 82%; Montana No. 2 hard, 85%; Corn higher with February shorts covering. Argentine forecast of weekly crop in Buenos Ayres and dearer new crop Plate offers caused speculative buying estimates regarding yield of wheat to be further reduced.

CHICAGO LIVE STOCK. CHICAGO, Jan. 15.—Cattle—Receipts, 6000; market, weak; beefs, \$6.75 to \$9.50; Texas steers, \$6.00 to \$8.10; stockers and feeders, \$5.10 to \$7.80; cows and heifers, \$3.50 to \$5.50; calves, \$7.00 to \$11.75.

Hogs—Receipts, 25,000; market, unsettled; light, \$5.05 to \$5.30; mixed, \$4.15 to \$4.40; heavy, \$3.10 to \$3.40; rough, \$3.10 to \$3.80; pigs, \$7 to \$8.10; bulk of sales, \$8.20 to \$8.40.

Sheep—Receipts, 24,000; market, weak; native, \$4.50 to \$6; yearlings, \$6 to \$7.15; lambs, native, \$6.50 to \$9.15.

EAST BUFFALO CATTLE. EAST BUFFALO, N.Y., Jan. 15.—Cattle—Receipts, 100; steady. Veals—Receipts, 130; active and steady; \$4 to \$12.

NEGRO SONGS

The only negro songs that will ever find a place in the history of music were composed by the slaves of the South before the great war between the states. All folk songs originate among a peasantry. And the only peasantry that ever existed in the United States or Canada were the negro slaves.

There have been no negro melodies composed by that race since 1860. And as the conditions that then existed have vanished, never to appear again, it is safe to say that the original slave music is the last of its kind.

The origin of the old negro tune is held by some to be African. Since the negroes could not read, their songs were purely traditional. And their scale of music is the scale still used in Nubia, Abyssinia, and other African countries.

For this reason, as time goes on, their songs will be more difficult to obtain, and the song collections with their peculiar music will increase in value.

Heart Songs contains the completest symposium of old negro melodies of any general song book in the world—and this feature alone would make the ownership of it extremely desirable. But these melodies comprise only one of ten classes in the volume. This unrivalled song book is needed in every home. Whatever there is, a piano or an organ, "Heart Songs" is absolutely a necessity. But its handsome binding, and art gallery of famous singers, make it luxurious as well.

The Toronto World's Munificent Offer of HEART SONGS

To Its Readers HAS CREATED A FURORE

100,000 people have paid \$2.50 for this volume, and our readers get it today for less than original cost of manufacture.

NOT an ordinary song collection, but a four years' song-gathering from 20,000 music lovers, who sent in their favorites.

HEART SONGS IS AN INSPIRATION TO EVERYONE WHO OWNS IT!

Don't look for the coupon in today's paper, unless you mean to cut it out!

RESCUED FROM DROWNING. Welland Man in Crossing River Breaks Thru Thin Ice. WELLAND, Jan. 15.—(Special).—A spot of thin ice, snow covered, nearly cost Charles Mack, Dennistown street, which, being brittle, continually broke away. His cries reached the ears of Ernest O'Glasby, who was skating nearby. He hurried to the rescue, and with the aid of a broom and at the risk of his own life, assisted the exhausted man to safety. World editorials are convincing and to the point.

Second of the Famous Painting Series

"Columbus at Salamanca"

(By F. M. Dumond, Paris Salon, 1893.)

The painting last shown here, "The Russian Wedding Feast," should bespeak a favorable reception for its successor. The value of this second painting is fully as great, and its appeal, through story, handling and general merit, is no whit less than that of its predecessor.

Make an early visit, and see the picture under the most favorable conditions. (Special Gallery, Yonge street side, Fourth Floor.)

The Robert Simpson Company, Limited
