

German Bayonet Charges Were Hurlled Back by the British

inflicted considerable losses on the German front, and have successfully repulsed the charges of the kaiser's battalions.

General Von Kluk has been thrown back in his attempts to extricate the German right wing army from its perilous position. The French and British forces have progressed definitely in their manoeuvres to surround the enemy near Noyon, and have seized the heights of Lassigny.

The heavy rains have hampered the movements of both armies during the last ten days, but more especially have they impeded the progress of the heavy siege guns which the Germans have been trying to move forward from Namur.

MEN ARE EXHAUSTED.

Added to this difficulty under which the fighting has been conducted, over 3,000,000 men have been practically without shelter during the downpour, and both Germans and allies are now suffering from exhaustion.

The French troops have made successful offensive movements in the Champagne country, and have retaken a number of towns that had been captured by the Germans.

EARLY FRENCH STATEMENT.

The French War Office this afternoon issued the following communiqué:

"On our left wing, on the right bank of the River Oise, we have advanced as far as the heights of Lassigny, west of Noyon. To the east of the Oise and to the north of the River Aisne, the Germans have given evidence of a recrudescence of activity.

"In the region of Craonne there have been violent encounters which did not stop short of bayonet charges. The enemy everywhere has been repulsed with considerable losses. In the country around Rheims the enemy has not undertaken any infantry attack, contenting itself with artillery fire directed against our front from heavy guns.

"On the centre, in the Champagne country, and on the western slopes of the Argonne, an exception being made of Souain, we have taken Mesnie-les-Hurlus and Massignes. In the Woevre district the enemy still holds the region of Thiancourt and has cannonaded Has-souchate.

"On our right wing, Lorraine and the Vosges, there is nothing new. The Germans are fortifying themselves in the vicinity of Delm-et, to the south of Chateau Salins."

BATTLE NEARLY ENDED.

Reports say that forces of the allied armies have swept past Noyon, and the French have driven back to Laon the Germans north-west of Rheims.

Signs now point to a termination of the battle of the Aisne, which will doubtless have been the bloodiest in all history.

GERMANS REPULSED EVERYWHERE.

PARIS, Sept. 21.—The following official statement was issued this evening by the war office:

"On our left we have advanced along the Oise to the heights of Lassigny. East of the Oise and north of the Aisne the Germans display renewed activity, making violent attacks and bayonet charges. They have been repulsed everywhere. Around Rheims the Germans have not attempted any infantry attacks.

"In the centre, in Champagne, and west of the forest of Argonne, beyond Souain, we have taken Mesnil, Les Hurlus and Massignes. The enemy still holds the country from Thiancourt to Cannone Passon Chatel.

"On our right wing, in Lorraine and the Vosges, there are no developments. The Germans are fortifying positions on the Delme, south of Chateau Salins.

ALLIES MAKE "APPRECIABLE PROGRESS."

The official communication issued tonight says: "The engagements today have been less violent. We have made appreciable progress, notably between Rheims and the Argonne."

Operations against the Austrian port of Cattaro, in Dalmatia, which has twice been bombarded by the French fleet, has been suspended, pending the arrival of additional guns.

VAIN ATTEMPT TO ESCAPE.

The Austrian fleet, numbering about twenty warships, which is sheltering in the Port of Cattaro, today made an unsuccessful attempt to escape and join other Austrian ships lying in the Gulf of Venice, off Pola, the vigilance of the French fleet causing the Austrian vessels to return to Cattaro under forced steam.

Thanks to the arrival of a large number of batteries of artillery and other munitions of war from France, the Montenegrin army is now in excellent order.

CANADA CONCERNED IN ROBERT DOLLAR

Vessel Held Up by British Consul, Registered at Ottawa.

Special to The Toronto World.
WASHINGTON, Sept. 21.—The state department learned today that the Canadian Government had interested itself in the case of the steamer Robert Dollar which the British consul at Rio de Janeiro refused to clear because it had come in under the new American registry law. The Robert Dollar was registered at Ottawa, and the Canadian Government failed to notify the British consul at Rio when the ship was turned over to American registry under the emergency law enacted to attract ships of the belligerent nations to the American flag. The British consul refused to recognize the ship as an American vessel, and consequently it has been held in Rio at great expense to its owners, the Robert Dollar Steamship Company of San Francisco.

HURT WHILE AT WORK.

While working on the freight trains at the foot of York street yesterday afternoon, John Lyski, 408 West Adelaide street, a C.P.R. brakeman, was caught between two cars sustaining serious internal injuries. He was removed to the Western Hospital.

A CHINESE PUZZLE.

When David Wallace, a Scotchman living at 75 West Gerrard street, entered a Chinese laundry at 376 Yonge street last evening and saw two Union Jacks displayed, he became infuriated and started breaking up the laundryman's furniture. He was arrested by officer 453.

WAR SUMMARY

The nature of the struggle between the Germans and the allied forces on the battlefield in France, which stretches from Noyon in the west to Verdun, is indicated by the latest official communication from the French war office, which says that the engagements have become less violent.

From this it would seem as if both sides had reached the conclusion that the gaining of a few yards of ground hardly warranted the losses entailed and that preparations are on the way for a strong offensive movement at some strategic point.

The French also report that they have made progress in the territory between Rheims and the Argonne forest. On their west wing they have reached the heights of Lassigny. "With the French on this part of the battle line are the British, who, according to an official statement issued by the British press bureau, have fought badly since the beginning of the war in the loss of officers.

The casualty lists show that 787 British officers are among the killed, wounded and missing, a very high percentage of the total losses. Among these are 32 colonels and lieutenant-colonels, 85 majors and 246 captains. The Coldstream Guards have lost 31 of their officers, the highest on the list.

The German Emperor has taken up his quarters in Luxemburg, according to a Paris despatch. To guard against possible raids by French aviators, a squadron of German aeroplanes is in readiness to ward off any such attempts.

A Vladivostok despatch says that Japanese aeroplanes have destroyed with bombs two of the important forts at Tsingtau, in the German protectorate of Kiaochow, while Peking reports that a British detachment left Tientsin on Saturday to assist Japan in the attack on that place.

The Montenegrin army is believed to be in Sarajevo, capital of Bosnia. The Montenegrin foreign office learns that the Austrian army is in retreat.

President Wilson, it is reported from Washington, while announcing that he is "prayerfully" working for peace in Europe, will take no further steps for the present regarding mediation in the European struggle.

SWISS CREDIT GOOD FINANCES SOUND

Minister at Washington Denies Exaggerated Stories—Country Not Bankrupt.

Special to The Toronto World.
WASHINGTON, Sept. 21.—Switzerland is not bankrupt, the Swiss minister declared in a statement today in answer to cables reports that the mountain republic has finding itself in financial difficulties as a result of her mobilization. The statement follows: "In the last few days cables reports were published in the American press which are apt to injure the credit of Switzerland and give an entirely false impression of the prevailing financial situation here.

"Nothing is known to the Legation of Switzerland of these exaggerations. Conditions in Switzerland are quiet, and the prices of foodstuffs are normal. The army is still at the frontier. A war loan emitted in Switzerland recently was largely over-subscribed."

Noise Such That No One Ceases to Perceive It—Life in Death.

Canadian Press Despatch.

BOURDEAUX, Sept. 21, 7.15 p.m.—The Temps today prints the following letter received today from a friend of its editor at the front. The letter is dated Sept. 9 and says:

"For four days we have been fighting without stopping and sleeping so little that this morning I fell asleep in an automobile and bursting shells in the road hardly caused me to blink my sand-laden eyelids.

"We are holding our own, but at what cost! All the horizon is in flames; all the villages within 25 miles are burning and the night sky seems glittering with sparks.

"We are living a life of miracle. The noise is such that one ceases to perceive it. We live in the midst of death today. I owe my life to a miracle, the circumstances of which I am at a loss to explain even now. Two big shells fell on and wrecked the house where I was talking to Gen. —. "Hardly had I left him when the second shell exploded in the very spot where I had been standing. The whole house burst into flame. Capt. A. —, to whom I had been speaking, fell forward dead, and Col. B. —, who was entering the drawing room, also was instantly killed.

"I got out of the debris thru a window upon the threshold of the house and Col. C. —, and Lt. V. —, all grievously wounded. My name has been mentioned in the army orders."

RHEIMS CATHEDRAL CRADLE OF FAITH

Destruction Deeply Mourned by Cardinal Luçon—Corollary to Louvain Outrage.

Special Direct Copyrighted Cable to The Toronto World.
LONDON, Sept. 21.—The Echo de Paris published an interview with Cardinal Luçon of Rheims upon his visit to one of the ambulance depots in Paris, in which he expressed unspeakable grief.

"I came from the recent conclave in Rome," said his grace, "vainly waiting ten days for means of returning to Rheims. I hope to be able to go there tomorrow. I already knew that the St. Tremi Church suffered badly, but I had hoped its age might have spared its destruction. The cathedral is the cradle of Christian faith, and is linked with our history by so many memories.

"The bombardment of the cathedral forms a rightful and worthy pendant to the wiping out by these barbarians of the University Library at Louvain. What terrible punishment God must be reserving for this German nation, which commits so many acts of sacrilege! It is more than ever necessary that I return to Rheims without delay that I may soothe the wounds of my poor parishioners on the ruins of our city. I call upon a just avenging God."

Frightful Havoc Caused by Germans at Louvain

The notification to the British people of the sacking of Louvain was contained in the notice issued by the Press Bureau on Friday, August 28, which read as follows: "On Tuesday evening a German corps, after receiving a check, withdrew in disorder into the Town of Louvain. A German guard at the entrance to the town mistook the nature of this incursion and fired on their routed fellow countrymen, mistaking them for Belgians. In spite of all denials from the authorities the Germans, in order to cover their mistake, pretended that it was the inhabitants who had fired on them, whereas the inhabitants, including the police, had been disarmed more than a week before. Without inquiry and without listening to any protests the German commander-in-chief announced that the town would be immediately destroyed. The inhabitants were ordered to leave their dwellings; a party of the men were made prisoners and the women and children put into trains, the destination of which is unknown. Soldiers furnished with bombs set fire to all parts of the town. The splendid church of St. Pierre, the university buildings, the library, and the scientific establishments were delivered to the flames. Several notable citizens were shot. A town of 45,000 inhabitants, the intellectual metropolis of the low countries since the fifteenth century, is now no more than a heap of ashes."

GERMAN WESTER WING THRUST BACK SEVEN MILES IN TWO DAYS

BRITISH PRISONERS STOLE HORSES, ARMS THEN MADE ESCAPE

Story Told French Boxer-Soldier, of Two Highlanders and Sixteen Englishmen, Who Evaded Their Guards, Captured Mounts and Uhlan Lances, and Rode Off Under Fire—Will Live in History.

From A. J. Rorke, Special Correspondent of the Centre News. Special Direct Copyrighted Cable to The Toronto World.

AMIENS, France, Sept. 21.—Even the grim tragedy of war has its bright side. Listen to the story which I heard here today (Friday, September 18) while waiting for news from the front. Toward me down one of the streets came a figure wearing a uniform of the 15th French Dragoons. As it grew nearer I thought his face familiar, and then I recognized him as none other than Chambrun, the waterweight French boxer whom I last saw in a ring in Liverpool fighting "Young" Josephs. Since that time Chambrun has fought Summers in London and made something of a name for himself in the Parisian prize ring, but lately he has been doing some fighting of a sterling kind. He was with his command at Charleroi, at Dinant and Namur.

After we had shaken hands he remarked: "I have a story for you. I have just met two of your Highlanders who with sixteen other British soldiers were made prisoners of war by the Germans. They were not prisoners long; they were captured about ten days ago in the morning, but before midnight they escaped and I had possessed myself of a horse and lance. This is what happened:

"Naturally the Germans disarmed the prisoners who, besides the Highlanders, consisted of some cavalrymen and, I think, Grenadier Guards. The Germans made them march several miles along a road, but the Kaiser's men tired soon and after locking the Britishers in a barn fell asleep. It was not long before the British soldiers, who know something about locks, had unfastened the door and eighteen men stole out in the darkness past the sleeping guards. They cut their way to the place where the horses were picketed.

Each Got a Lance. "Quickly but silently taking hold of an animal the captives picked each one a mount and, but not before they had helped themselves to a lance apiece, from a stack nearby. The noise made by removing the spears from the rack woke the Germans, who jumped up and grabbed their rifles. The Britishers barely had time to dash away when a score of bullets whizzed past their heads, but the men managed to escape. They met Uhlan patrols, but defeated them each time.

"How did the Highlanders with kilts manage their horses?" I asked.

"Oh, they rode side-saddle like in the picture of two Highlanders errand riding ladylike," replied the pugilist. The German horses and the armed Uhlans were worthy of a place in history.

On Friday evening last, in the shadow of the ancient and picturesque Amiens Cathedral, huge crowds gathered to await definite news from the terrible struggle which is destined to rank as one of the decisive battles of the whole world. The fighting is raging only 35 miles away.

German Shells Deadly. Stories of the deadly effect of the German heavy gun shells hurled thru the French lines, have reached the ears of soldiers arriving from the scene of the conflict. It is evidently the work of the Franco-British troops to silence them by return artillery fire, but it is being exceedingly difficult to put them out of action.

Vigilant French infantry lancers have crept up to the hills repeatedly in gallant attempts to do what their artillery seems unable to accomplish, despite a withering fire from rifles and machine guns, causing sad devastation. However, under cover of darkness the infantry, together with the engineers, managed to advance up the sloping ground and entrench large bodies of French troops.

For hours yesterday (Thursday) the French forces moved along the roads near Amiens, where they sighted columns of artillery, cavalry and infantry moving in the direction where the enemy's ammunition has been hope and courage. The sight of the anxious women and children and aged men living in the immediate fear of the enemy.

Waiting For News. As the sun sets tonight waving crowds gathered around the beautiful cathedral in increasing numbers. Report after report arrives to the effect that the enemy's ammunition has been given out, necessitating a retreat and resulting in the French breaking thru the German lines in three places, followed by the Britishers advancing.

These reports are certainly not imaginary. If true in substance, then once again the historic old cathedral is destined to echo a solemn and inspiring Te Deum.

BIG CASUALTY LIST AWAITED IN BRITAIN

Public Shows Remarkable Fortitude in Face of Knowledge That Losses, Hitherto Unrevealed, Will Be Severe—Many Prominent Families Are Mourning Dead—Coldstream Guards Suffered Most.

Canadian Press Despatch. LONDON, Sept. 21.—The patience with which the British people await news from their army is as remarkable as it is unexpected. They know that the British troops have been engaged for a week in a terrible battle, which is the culmination of all the fighting and which has gone on, with two or three brief respites since August 23. They know that the little British army has held the post of the hardest fighting throughout and that the next roll of casualties will be heavy. Yet they appear to recognize that inexorable military necessity imposes upon them these days of suspense and from the newspapers and the public little complaint is heard.

The last official report revealing any details of the British operations was published last Thursday night. That report was not long and dealt for the most part with scattered incidents of Field Marshal Sir John French's advance against the German right wing. It dropped the curtain upon the events of September 14. The latter official reports have been terse bulletins, which enabled the newspapers only to draw fresh lines on their maps showing the progress of the battlefront.

Fragmentary Reports. The government has made the country understand that the requirements of secrecy overshadow all other considerations, and that the officers of the staff have no time spare for writing descriptions of the engagements. Correspondents hovering in the wake of the armies send descriptions of fragments of the battle they have been able to see and stories from the wounded. The sum of their impressions is that the past week's battle exceeded in violence and stubbornness anything in modern history since the struggle at Port Arthur. There are stories of charges unequalled in the annals of British arms since Balaclava, and the casualty lists which fit together day by day confirm the reports which otherwise might be taken as an exaggeration of excited reporters getting their first glimpse of war.

Officers Suffered Heavily. The part that British officers are playing is illustrated by the bare testimony of the casualty lists. Seven hundred and ninety-seven officers are among the killed, wounded and missing, which is a percentage out of all proportion to the losses in the ranks. One hundred and thirty officers have been killed; 388 have been wounded and 279 are missing. Many of the missing probably must later be recorded as killed or wounded.

The Coldstream Guards regiment holds the place of honor with 21 casualties among its officers' corps. The King's Royal Rifles and the Suffolk regiment have each had 25 officers killed or wounded; the Gordon Highlanders 23, the Munster Fusiliers 21, Cameron Highlanders and Cheshire Regiment, each 19.

The field artillery has lost 66 and the medical corps 52 officers.

Listed by ranks, the names of colonels and lieutenant-colonels number 32, majors 86, and captains 246.

Socially Prominent. The homes of many of the best known families in the kingdom are in mourning. Lieut. Wyndham, of the Coldstream Guards, killed in action, was the only son of the late Rt. Hon. George Wyndham, at one time chief secretary for Ireland. Lieut. Lockwood of the same regiment was the nephew and heir of Lieut.-Col. the Rt. Hon. A. R. M. Lockwood, one of the most popular members of the house of commons. Saturday's list announced the death of Lord Guernsey, the heir of the Earl of Aylesford, and Lord Arthur Vincent Hay, heir of the Marquis Gweedald.

In German Hospitals. The official press bureau issued the following announcement today: "It may be of some interest and comfort to the relatives of the officers whose names appear as missing, wounded and missing, in the casualty lists issued by the war office after the termination of the retreat from Mons, to know that letters have begun arriving in London from German hospitals in which some of them are found to be lying. Several of them appear to be at Paderborn, Westphalia.

A letter from the chief surgeon of the hospital there to the wife of a wounded officer is given. It says: "Dear Madam: Your husband is staying in the hospital at Paderborn. He feels well and his wound also is getting on well. As he is a prisoner he is not allowed to write himself."

RUSSIAN TROOPS SEEN IN BRITAIN?

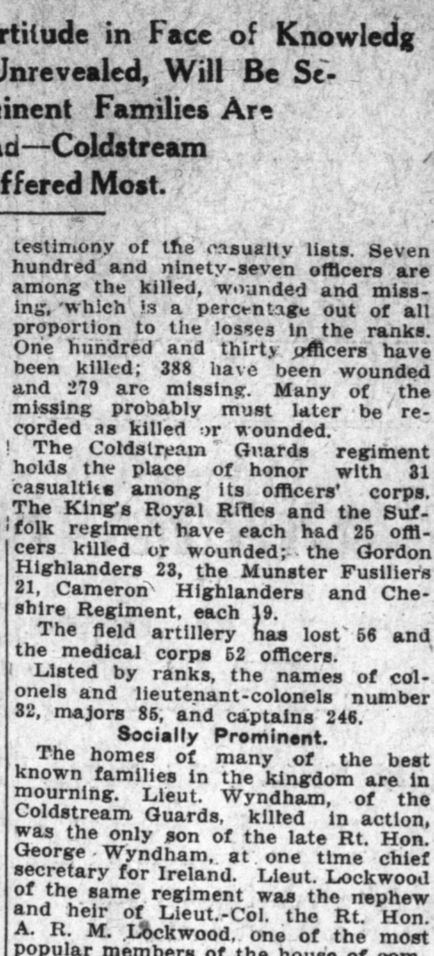

Newly Arrived Passengers at New York Insist Stories Are True.

Special Direct Copyrighted Cable to The Toronto World.

AMSTERDAM, Sept. 21.—Despite official denial from the London war office further confirmation of passage of Russian troops thru Scotland and England on their way to France and Belgium was given here today by passengers arriving on the American liner St. Paul. Harry Hudney, an importer of Troy, N.Y., asserted there is no doubt that many of the czar's army have been in the United Kingdom. He said a Cosack had fallen from the railway official at Hurley, England, told Mr. Hudney that early in August Russian detachments were transferred to his division. John Hudney showed a Cosack who had fallen from the train, the importer added.

Dr. M. Dupy, of Colombia, South America, declared that Dr. George Fredericks, an eminent London surgeon, had stated that the Londoner who was in charge of the Red Cross headquarters there, attended two sick Russian soldiers.

CHARGE OF THE 9th LANCERS ON THE GERMAN GUNS

The 9th Lancers have greatly distinguished themselves in the war. One of their most notable adventures was their charge on a German battery which had given a great deal of trouble, and their cutting down all the gunners and putting the guns out of action.

GERMAN RIGHT IS BENDING BUT NOT YET OUTFLANKED

RHEIMS STILL BOMBARDED

Enemy Making Desperate Efforts to Retake Town, But Allies Stubbornly Resist—Von Kluk's Army, Heavily Reinforced, Yields Slowly to Fierce Pressure—Front of Neither Army Broken.

Patriotism was the key note of the first meeting of the season of the Men's Association of St. Anne's Church, Gladstone avenue and Dundas street, held last night. The meeting was called for the purpose of obtaining members for the newly formed rifle club and before it closed 57 men had associated themselves with the new organization.

"Our Empire's Part in the War" was the title of the address which was delivered by A. Munro Grier, K.C. "No one is more struck with the horror of this war" he said "but out of it all no one is more struck with the honor which is attached to England for the part she plays in it.

"I must touch on one thing—the terrible atrocities and cruelties perpetrated by the Germans. I prefer not to believe all the tales that I hear but only last week I heard of one, which if true marks this war as the most terrible in history. The story comes from a sister of a citizen of Toronto. She says that in her house she has two Belgians, one a woman and the other a little baby, with their hands cut off.

Do Not Understand. "Germans do not understand the meaning of the words 'British Empire.' The emperor thought that Canada would have remained outside of the war, but if it becomes necessary for us to do so there is not a man in this hall who would not go out tonight to fight the Germans (cheers). Compare our empire of freedom with that of the German Empire. Forty-four years ago Germany got Alsace-Lorraine and today they hate the Germans worse than they did forty-four years ago. Fourteen years ago England took in South Africa and today she is fighting hand in hand with the empire."

A meeting of the rifle club will be held on Thursday evening when the officers will be elected.

claims another advance on the right bank of the River Oise, as far as the heights of Lassigny, west of Noyon, which has been the centre of heavy fighting for a week past.

Severe fighting also continues north of the Aisne and in the Craonne district where the Germans, the French official communication says, have been repulsed at all points with considerable losses.

Advance is Difficult. This is an extremely difficult country over which to make an advance. The plateau of Craonne is limestone formation, with the sides almost as perpendicular as walls; the valleys in wet weather become quagmires. It was on this plateau just a century ago that Blucher failed to check Napoleon.

The allies apparently have scaled the walls of the plateau and now hold the heights, but ahead of them they found Von Kluk in great strength, and are now awaiting the outcome of the attempt to turn his flank which would clear the road for them. The French army, which is trying to work its way slowly along. Starting for Compiègne it reached Noyon, and today is on the heights of Lassigny.

Its next objective point is Ferginier, 19 miles from Laon, an important railway junction which the Germans are using for provisioning their forces.

Neither Front Broken. The French have made some headway in Champagne and on the western slope of the Argonne and have reoccupied Mesnil-les-Hurlus and Messiges, but elsewhere the situation remains as it was. One thing is certain, neither front has been broken, all attempts to do this having been repulsed, and while the German right may be bending back a little it is not yet outflanked.

All this fighting has been carried out in execrable weather, a continuous downpour which so often accompanies battles, filling the trenches with water and putting a brake on the movements of men and horses.

GERMAN TROOPS RETIRE SLOWLY

Heavy Guns Used by the French All Last Week

FLANK ATTACK FAILED

Heavy Losses Were Sustained by the Enemy, Says Berlin.

Special Direct Copyrighted Cable to The Toronto World.

AMSTERDAM, Sept. 21.—Advices received here today from Berlin says that during the last week's fighting the Franco-British troops attacked fortified German positions between the Oise and Meuse Rivers. The French were supported by their positions west of the River Meuse. The German troops in the east retired slowly in accordance with a plan worked out in advance by the general staff, it is related, until favorable positions were reached.

According to the despatch the French were reinforced by fresh troops from Paris and the armies south of Paris and Belfort. They brought up heavy guns from the capital and immediately put them into action. The French had planned to attack and flank the German right wing, but that movement failed, Berlin reports. The French sustained heavy losses.

In the last three days the Germans passed the offensive French right, which was heavily reinforced. The Kaiser's forces also passed the centre and main force between Berryan and the fortress in the Argonne forest. Verdun was attacked from two sides.

POOR SHOOTING BY GERMAN CRUISER

Crews of Captured Steamers, on Arrival at Calcutta, Ridicule Marksmanship.

Canadian Press Despatch. CALCUTTA, Sept. 21, 6:55 p.m.—The crews of the six British steamers captured by the German cruiser Emden in the Bay of Bengal, five of which were sunk after the crews had been taken off, arrived here this afternoon. They made light of the German shooting.

George Reid, second officer of the Emden, says that the ship was captured on the 20th of August at 8 p.m. up the bay. The Germans had captured all the ships except the Emden, which was sunk after a short battle. The crews of the six British steamers were taken off the Emden in the Bay of Bengal, five of which were sunk after the crews had been taken off, arrived here this afternoon. They made light of the German shooting.

PRUSSIA TO BLAME FOR PRESENT WAR

Prof. Jordan Tells People to Pray for Success of Allies.

Canadian Press Despatch. MONTREAL, Sept. 21.—Responsibility for the European war today placed upon the "military autocracy" that rules Germany from Potsdam and a momentary manufacturer by Professor David Jordan, Chancellor of the Leland Stanford University, California, who yesterday returned from Europe on the steamer Megantia. He was lecturing in Germany against militarism when the war broke out. Dr. Jordan said that the Kaiser, unwilling to surround himself with men of ability, had been unable to stem the current of the Junker class, dominant in Prussia. A world war, Germany would have started, but the world was not ready for it, probably because of the war which had struck for the first time in the world's history.

He believed that the opinion of the great body of the countrymen was that the war on the part of the allies was justified, and that they must pray that it be successful. It was now clear that the world would be the worse, and not the better, if British rule, with its freedom of thought and action, were supplanted by the German, with its tyranny over minds and bodies of subject races.

GERMANS DISPLAY INSANE VANDALISM

American Art Lover Bitterly Condemns Destruction of Louvain Cathedral.

Canadian Press Despatch. NEW YORK, Sept. 21.—An organized protest of the architects and art lovers of the world against the action of German soldiers in destroying the historic Rheims cathedral where all the newly crowned French kings from Clovis to the last crowned Bourbon passed in review, was the suggestion today of Thomas Hastings of this city.

Mr. Hastings' mood was that of perhaps every architect in the city, certainly of all those who were seen referring to the battering down of the beautiful church.

"The knocking down of a rare and beautiful monument that belonged to the world, that belonged to Germany as much as to France, that belonged to us, to all nations that revere and worship beauty, why, that is vandalism gone insane," said Mr. Hastings.

WONDERFUL OPPORTUNITY

Given by This Paper to Secure a Great Historical Work.

A host of the readers of this paper have secured Larned's History of the World by means of our coupon offered printed elsewhere in today's issue, and are voicing a genuine enthusiasm in their appreciation of the remarkable opportunity. They are showing the work to their friends and urging them to lose no time in obtaining the best history of the world ever published, at a cost that makes it almost a gift. This is the latest work by Josephus Nelson Larned, who wrote the famous History for Ready Reference, in more general use than any work of his kind ever published. The years of industrious toil spent on that wonderful production laid the foundation for the history which this paper is now offering in a beautiful de luxe style of binding, nearly 2,000 pages and over 150 illustrations in half tones and colors. The coupon elsewhere in today's paper explains the generous terms of our distribution.

Heavy Guns Used by the French All Last Week

According to the despatch the French were reinforced by fresh troops from Paris and the armies south of Paris and Belfort. The French sustained heavy losses.

AMSTERDAM, Sept. 21.—Advices received here today from Berlin says that during the last week's fighting the Franco-British troops attacked fortified German positions between the Oise and Meuse Rivers. The French were supported by their positions west of the River Meuse. The German troops in the east retired slowly in accordance with a plan worked out in advance by the general staff, it is related, until favorable positions were reached.

The bride, who was given away by her father, wore a travelling gown of hunter's green broad cloth, with velvet hat to match. She carried a bouquet of orchids and lilies of the valley, and wore the groom's gift, a sapphire and diamond ring. Miss Gladys Foy attended as bridesmaid, in palest yellow crepe de chine and a black velvet hat, her bouquet being of yellow daisies. The groom's gift to her was an enamel watch. Mr. Jerome Lang was best man. The wedding breakfast was served at the residence of the bride's parents in Jarvis street, when Mrs. Gearing presided.

PEEL REGIMENT GETS TEMPORARY ARMORIES

Board of Control Will Present Comprehensive Report on Rifle Club Grants.

The requests for grants by the North Toronto and Toronto Rifle Association met with opposition. Not so much because the grants were unpopular with members, but because the board of control had no system in recommending the grants. Other such organizations had a similar claim, and all should be considered. The board of control will bring in a comprehensive report in two weeks' time. In the meantime the grants are withheld. However, \$1450 for the temporary armories in Ward 7 for the 25th Peel Regiment was granted.

CRICKET

YORKSHIRE WON AT E. TORONTO.

The East Toronto Club (C. and M. League Cup winners) entertained the Yorkshire Society team (winners in 1913) to a friendly game on Saturday at East Toronto. The East Toronto team were minus two of their cup team, whilst Yorkshire had no less than four of their regular players absent.

Yorkshire batted first and hit up 56 before all being dismissed. F. Joy (11) was unfortunate to be hit on the head when he had nicely got going. H. Pugh put up a lively fight, compiling 37 in good fashion (one six, three fours and four threes). A. Denton (11) batted in more like his old style than at any other time this season.

On East Toronto going to the wickets things did not go any too well, they having nine wickets down for 46. Kelley (27, not out), however, began to hit out freely after Pugh gave up the ball (owing to an injured wrist). J. W. Priestley, who succeeded him, was hit for twelve in two overs. Touchman was last week, put on a nice last wicket score (nine) before losing his balls to a beauty from Joy.

BIG DECREASE IN WHEAT RECEIPTS

Prices Strengthened on News From Terminal Points—Corn Also Strong.

CHICAGO, Sept. 21.—Notwithstanding a decided setback at one time, the wheat market today grew higher, influenced by a notable falling off in receipts northwest. Closing prices were steady at 1-1/2 to 3-1/2c advance.

Wheat prices holding steady at present quotations. Winnipeg futures closed 1/2c easier, probably due to quicker receipts at primary points west.

Manitoba flour—Quotations at Toronto are: First patents, \$6.70 in cotton, and \$6.60 in jute.

Ontario oats—No. 2 new, white, 50c, and No. 1, 45c.

Manitoba barley—No. 3 C.W., 60c, bay ports.

Market Opened Lower for All But Good to Choice Cattle.

VEAL CALVES FIRMER

Receipts of Live Stock Amounted to Hundred and Eighty-Three Cars.

Receipts of live stock at the Union Stock Yards on Monday were 183 carloads, 8276 cattle; 650 hogs; 2234 sheep and lambs, 207 calves and 423 horses.

Trade in cattle was strong at steady prices for good and choice cattle, but slow for the common and medium grades.

Stocks and feeders, of which there was a large number on sale, were slow at easier quotations.

A moderate supply of milkers and springers sold at firm prices.

Veal calves as usual were in demand which was greater than the supply, consequently prices were firm.

Sheep sold at steady prices, while lambs and hogs were lower, as our sales reported below will show.

Butchers' Cattle. Choice heavy steers sold by the load at \$8.00 to \$9, and one lot of seven extra choice steers were sold at \$8.25; loads of good, \$8.25 to \$8.60; medium to good, \$7.75 to \$8.15; medium, \$7.50 to \$7.75; common to medium, \$7.25 to \$7.60; inferior half-blooded, \$6.75 to \$7.15; good cows, \$6.75 to \$7.15; medium cows, \$6.25 to \$6.65; common cows, \$5.75 to \$6.15; common bulls, \$5.75 to \$6.15; common bullocks, \$5.75 to \$6.15.
