Berlin Claims Occupation of Polish Market Town of Przasnysz.

SCENE OF BIG DEFEAT

Similar Tactics Adopted to Those That Broke Down Last Winter.

LONDON, July 15.—(10.50 p.m.)— Abandoning for the moment their at-tempt to outflank Warsaw from the south, the Germans, probably under Field Marshal von Hindenburg, who is reported to have boasted a few days ago that he would shortly astonish the world, have renewed their attack on the Polish capital from the north They have not only captured many prisoners south of Kolno, according to the report issued by Berlin today, but have occupied. Przasnysz, a market town of 5000 or 6000 population, 50 miles north of Warsaw, which was taken by Von Hindenburg in his great drive from East Prussia last winter, out was retaken by the Russians in

heir counter-offensive.
This claim is partly confirmed by the Russian official report issued yester-day, which stated that the Russians in the face of strong German forces withdrew from the Orzyc lines to their second line of entrenchments. This move on the part of the Germans has taken some military "critics" by surprise. It was generally supposed that Gen. Von Mackensen, who failed in his offensive the other day, would, after being strengthened, continue his attempt to reach the Lublin-Cholm railway, thus forcing the evacuation

Some of the miners of the western district of South Wales have agreed to resume work tomorrow.

LONDON, July 15, 10,15 p.m .- With the exception of two small collieries in the Rhondda district, employing about 800 men, all the coal mines in South Wales, from which comes the coal for the navy, were idle today, and the miners, despite the action of the government in bringing the industry under the Munitions of War Act and the entreaties of the responsible labor leaders and their own executive conucil, decided by a vote of 180 to 113 not to accept the recommendations to continue work day by day until an ar rangement could be concluded.

The delegates voting for the strike represented 88,950 men, and those against the strike 41,500. Thus, altho opinion is divided, the extremists are in the large majority. The conference, however, agreed to meet the president of the board of trade, Walter Runciman, tomorrow to discuss the

Advance of Nearly Quarter of Mile Made by British and French Troops and Positions Are Maintained Against Enemy Counter-Attacks - Four Hundred Prisoners Taken.

LONDON, July 15.-The capture of two strongly fortified Turkish lines front at the Gallipoli Peninsula, at the Dardanelles, is reported by the British official press bureau tonight. The tctal advance was around a quarter of a mile, but its importance must not be merely measured by the actual ground traversed, it is pointed out by observers. The Turkish resistance has diminished in vigor and not nearly so much difficulty was experienced in making the advance. Only a small section of the line, about 300 yards in extent, still remains in the hands of the Turks. The French have now pushed their extreme right to the mouth of Kereves Dere, where it emoties into the sea. Only in one case, where the British right had advanced too far, did a Turkish counterattack temporarily succeed, and the success was only short lived, for the British naval division promptly regained the trenches.

Gay Decorations.

Appropriate decorations were in evidence both inside and outside of the hall. The flags of the allies were draped over the throne on the council chamber, and bunting was hung liberally around the corridors. Immense palms bedecked the platform and added charm to the surroundings. The exterior presented a brilliant sight, red, white and blue illuminations having been arranged.

Board of Control May Effect Compromise Between Warring Firemen.

HEADSHIP STILL VACANT

Fred Dane, License Official, and Chas. Bond, Architect. Latest Names Mentioned.

Both Acting Chief Smith and District Chief Gunn appeared before the board of control yesterday morning, and outlined their grievances.

Smith stated that Gunn had told Fireman McCormack that Smith would not get the appointment of fire head, because he would lodge charges against him that would kill the appointment. Gunn said that he may have said casually that Smith would not get the appointment, but denied that he threatened to lay any charges. The board refused to take any ac-tion in the matter until the acting chief had read the rules and recon-sidered what he thought ought to be done to Gunn. The mayor said that he thought that a change of hail or some other measure less drastic would have been the proper way to deal with

NEW DEPARTURE IN IMPERIAL SYSTEM

Sir Robert Borden's Presence at Cabinet Council of Great Significance.

MARKS NEW EPOCH

Conference of Dominions and Mother Country Imperial Bundesrath.

Special Cable to The Toronto World.

LONDON, July 115.—The Daily
Chronicle says that by the invitation or Prime Minister Asquith, Sir Rob-ert Borden, prime minister of the Dominion of Canada, attended a meet-ing of the cabinet yesterlay. This was the first occasion in which a minister for it in his bank account nor receiv from the Dominion has joined in the deliberations of the cabinet. The pre-cedent is one of enormous significance in its bearing upon the imperial relations. It is a sign that the war will not leave the British imperial system remaining in its present form, tho the same may be different in tendency and character from that for which our home imperialists once used to agi-tate. For one thing, the status of the Dominion as a distinct nation will receive full recognition at the same time that the inter-imperial connection made more definite

Yet Borden's presence at yester-day's cabinet council is only an extension of the system of inter-imperia consultation that has gradually evolv ed since the beginning of this century. The first step was the imperial conference. This institution owel its conference in Long Branch origin to the presence in London of colonial prime ministers, and the occasion of Queen Victoria's jubilee in 1887. A more formal gathering took place in 1897. Others followed in 1902, 907 and 1911. In 1907 the title of cocnial conference was changed to that of imperial conference, and the change was more than one of mere nomencla ture. The conference was given a de-finite constitution. Thenceforth the British premier presided over its de-liberation instead of a minister of the colony. The conference has, in fact, become a sort of imperial bundesrath.

NO SAVING IN OUTLAY

Sir Charles Davidson Says Statements Unfair to Public Accounts Committee.

OTTAWA, July 15. - At the war contract inquiry this morning, Major Thomas was again questioned about the cost of the Kelly trucks bought for the second division, but still in Ottawa. The cost in Ottawa for chassis for each truck was \$2340. This did not include tires or other expenses such as rental and salaries. Salaries amounted to \$17,000, but Major Thomas stated that much of this was accounted for hy agreement. this was accounted for by cartage done for the department.

Several buildings were rented for the use of these trucks.

Major Thomas when before the public accounts committee, had stated he could have bought Peerless and Geoffrey trucks cheaper than Mr. Russell did for the first division. Yesterday the president of the Kelly Truck Company declared that this was not true, and today Major Thomas admitted he was mistaken

Mr. Thompson drew Major Thomas' ettention to the claim that he had saved \$5000 on parts, in comparison to Mr. Russell's purchases, when Mr. Russell had only purchased about \$200 worth.

"What would you have saved on what Mr. Russell purchased?" "About \$1000. I had nothing to do with Mr. Russell's purchases."

ages on Dunlop Traction Treed. But surely nothing could more clearly indicate Traction's wearing ability than the memorable transcontinental trip of 1912! The fact that the tires used were from regular stock speaks volumes for "The Master Tire's" capacity to achieve glorious results with seemingly insurmountable odds. It stands to reason that the special construction of Dunlop Traction Tread. while ensuring safety, also ensures mileage. A tire that does not skid will not wear down quickly. It is a certainty that the two virtues go hand in hand. We have sufficient testimonials in our possession from Canadian motor ists to prove conclusively that Dunlop Trace tion Treas is unbeatable as a mileage giver.

Across The Continent-

As one motorist pointed out the other day: "Why don't you people say more about Dun-lop Tubes? I've used them from the drop of the hat, and think they are as important as your tires in the success of a trip." That's true! Dunlop tubes deserve half of the tire credit for the great path-finder scoop of 1912. Imagine the quality of a tube which could run from Halifax to Vancouver without even being pumped up a second time! Dunlop Tubes can be had grey or red and are always put up in boxes.

How Are We to Export Our Wheat?

War conditions may seriously affect the quick marketing and export of our grain to Europe. The extensive elevator and storage plants owned by the Dominion, by the railways and other concerns will temper the situation. provided the government and the banks are willing to assist, as we believe they will be, by carrying grain in store on reasonable interest charges.

But the greatest relief may come from the negotiations now understood to be going on between Sir Robert on behalf of Canada and the British Government, with a view of sufficient

After all that has been said and done, the fact must everlastingly remain that this war was engineered by Germany for German ends, and that to gain them Germans were prepared to denounce and destroy the whole system of international law, that had been laboriously built up and was supposed to be the figure of the first would not provide great difficulty.

Its Name is Mud

The Globe still seems to think that it can evade the responsibility of the mud wall on the Esplanade by calling nantes at other people. The proposed viaduct is none the less a mud wall by whatever name The Globe worships it. The Globe may hail it as the most prominent architectural feature of Toronto, but it cannot make it anything more than a mud wall for

all that. The Globe is accustomed to recognize swans in its ugly ducklings. It would be strange if it did not find ceauty in a mud wall, considering the virtues it discovers in some of its idols. The Globe has a facile imagination, which, exercised upon a mud wall, perceives frescees which would make a Raphael die of envy, and architectural grace which a Leonardo da Vinci must study. But other people cannot see thru The Globe spectacles, and they cannot see more with their naked eyes in a mud wall than mud in its least acceptable permanent

torm The Globe rejoices at the prospect of throttling the beauty of Toronto's water front with a mud wall, just as it rejoiced at keeping Yonge street the width of a lane, and at preventing the creation of a square in front of the city hall. The Globe did want to make a federal square in the region of Osgoode Hall, but this spasm of virtue only seized it after its politeal friends got out of rower. he chope thinkesthat the wildebut

If it indeed be true that Canada is Without overlooking the obvious and If it indeed be true that Canada is facing the necessity of nationalizing all her railway systems, and putting them under state control, the people will face the problem with equanimity. As a matter of fact, it is doubtful if private ownership and construction of railways does not make greater inroads upon the pun-Government, with a view of sufficient ships being assigned to the early and quick movement this fall of the Canadian crop across the Atlantic. Resurrecting the Middle Ages

What the world would have been had the advocates of peace at any price had their way, can only be conjectured. This at least is certain, that after the revelations neutral nations have had of the designs of the Germans and their methods of achieving these, short shrift would have been the lot of the nations that "too groud to fight." After all that has provided the revenue of the country is at stake, both at the present time Canada has the National Transcontinental, the Hudson Bay Raliway and the Intercolonial Systems on her hands. Viewed in the light of the knowledge gatherel and now accepted regarding the conduct of the German difficulty. It is feared in Ottawa and thruout the world that the G.T.P. will be unable to meet its fixed charges. In the past all that would have been required to meet that condition would have been to apply for an additional subsidy from the Degarding the conduct of the German control of the conduct o back of both rallways to a great extent of the present position of these railways, such guarantees are a very real obligation which the province may be called upon to meet. In addition, of course, the country must consider the indirect effect upon its credit by the failure of the railway companies so intimately bound up with Canada's prosperity to meet their obligations. Canadian securities generally would receive a blow from which they could not recover for a long time. Of course it is not as if the railways deliberately repudiated their obligations, as some states of the American Union have done in regard to British creditors in the past. atfected. Without overlooking the obvious and underlying advantages of a scheme of a nationalized transportation system. The Evening Province and Standard sees no reason why the general effect upon the country should not be good. The most obvious objection is, of course, that it would eliminate competition. But is competition a good thing? It has not reduced freight rates to any extent, so far as we are aware, in this country. It has resulted in paralleling scores of lines of railway, thereby saddling the country with tremendous interest charges to meet, without providing adequate recompense in any shape whatsoever. In practice, if not in theory, paralleling a mile of railway means simply two miles instead of one for which the country must pay. This sort of waste has been all 'too prevalent in the past, While it would present difficulties for time, and involve an inflation in the physical valuation above what the lines will be worth to the country when brought under one system, the present is a very good time to start upon the task of eliminating it in the future.

Letting the mind leap over all the difficulties of the present, and see only a future with one great transportation system, including all express, mail, telegraph and telephone systems, it is easy to see the marvelous efficiency in transportation service it will be possible to bring about. The element of human traility must not, of course, be overlooked, but under the best brains Canada can secure to direct it, we believe the country's interests will be vastly safer and better looked after than under our presbetter looked after than under our present hybrid system.

Canada Faces a Railway Crisis

(From The Christian Science Monitor, Boston, July 14).

The Dominion Government has already been obliged to take over a long stretch of the Northern Transcontinental System, an enterprise almost inextricably involved in the Grand Trunk Pacific project. Nationalization of reilroads has, as a matter of fact, sone very much farther in Canada already than is generally supposed. From present appearances it is likely to go much farther.

The interest obligations of the railroads in question must be met; Canadian credit is pledged in behalf of these enterprises; Canada must make sacrifices to protect that credit; in return for these sacrifices it will expect, and probably insist upon obtaining, greater control over the assets of the lines involved than it can exercise today. The whole trend of things points to practical foreclosure, in the name of the public, of the corporations that have failed to meet expenses and interest charges under private management.

The Canadian Governments, federal and provincial, and the Canadian people, cannot afford to have the development of the country delayed or clogged by allowing the railways in question to remain in control of corporations if they have proved to be incompetent. This allowing the railways in question to remain in control of corporations if they have proved to be incompetent. This statement does not call for a choice between two evils. It simply calls for the exercise of good judgment in the handling of a problem of great importance to Canada's future.

We are now drilling every day within sound of the runs, but are safe enough here for a few days. Don't know when we will now when we will be sent back. It was certainly hot enough last time nd our guns gave them a terrific combarding; smashed all the trenches nd wire entaglements and must have mendous execution

"Just imagine our big guns, miles behind the trenches, firing so accurately as to drop shells over our heads into the German trenches about sixty yards away. The German gunners don't get the range down so fine with their big ones. Suppose they are afraid of dropping the shells into their own trenches, but they certainly give it to our reserve trenches and even the second line. We do not mind the big shells so much, but don't care for the shrapnel which burst overhead each shell sends out hundreds of little builers. It was pretty hot the day they made the attack on us and I'll try and tell you of the fun.
"Thou'll-Kna Lad."

"We left our reserve trench a.m. and went up to the front line, being detailed to help the sappers finish up their mine in readiness for the attack that night (attack at La Bassee). The German gun fire was worse than we ever had it before, and one lad who was firing over the top of the trench was shot as we passed him-They dug a hole and buried him right there. We had oeen filling sand bags and about 10 a.m. we received orders to get down into the mine. In getting into line a chap said: 'How deep is it?' UNINTENTIONAL BLOW WAS CAUSE OF DEATH

Jury Believes Frank Coombs Did Not Intend to Seriously Hurt Robert Montgomery.

"Unintentional" sums up the verdict of the coroner's jury given last night at the morgue at the conclusion of the inquest into the death of Robert Mont-gomery of 109 Marlborough avenue-who died on July 9 as a result of a blow said to have been received during

a scuffle with Frank Coombs of 1101 Yonge street. only took about fifteen minutes

bodily injury to the boy."

The chief witness at last night's sitting of the inquest was the prisoner, Frank Coombs. He was quite unreserved in giving his testimony, and towards the end of his examination he admitted that the best explanation of the affair was that he had hit the boy during the struggle, but he could

not recall doing it.

An interesting phase of Coombs' evi dence was his assertion that he and Robert Montgomery had always been good friends. "There was no ill-feeling between 'Bob' and I at any time.

In his summing up, Coroner Dr. J. M. Cotton said the evidence was fairly clear as to the striking of the blow, but that there did not appear to be any attempt on the prisoner's part to do any serious injury to the boy.

LEAFS DROPPED SERIES TO GRAYS

Rain Stopped the Last Game When Clymer's Boys Were Starting to Hit.

PROVIDENCE, July 15 .- A severe trunderstorm that stopped play in the sixth innings of today's game just as the Torontos had started a rally probably saved Eayres from a severe drubbing and the Grays from a defeat.

The Providence left-hander was in trouble all thru the battle, and in addition to being wild was hit hard, altho fine fielding saved him. The locals had corralled five runs in five innings, while the Leafs had failed to gather one, but a trio of tailies in the first of the sixth, a moment before the rain fell, placed St. Louis the score at 5 to 3, where it remained. Cather and Gilbert reported to Man-Cather and Gilbert reported to Manager Clymer today and played in the outfield, but their debut was anything but sensational. Cather badly misjudged two balls to his territory that should have been caught, but which went for long hits, and Gilbert made a weird heave over third that cost a run. Neither did anything with the stick; otherwise they were all right.

Ball had a bad day at short and one of his errors cost a run. He made up for it, however, by his smashing two-base hit.

of Mis errors cost a run. He made up for it, however, by his smashing two-base hit.

Herbert went along in good shape in the face of discouraging support, and the worst he should have had was a tie score. The locals backed Eayres and cut off two or three likely looking hits. The Leafs got two on by walks in the opener, but couldn't get them in. With Fabrique gone, Shorten filed to left, and Cather misjudged the ball, it rolling down the field. Shorten tried to make third on the drive and was out, Cather to Rath. Shean hit past third and tallied when Cather misjudged Onslow's drive that went for three bases. Eayres opened the second with a triple to left, but was nailed at the plate trying to score on Shorten's drive to Herbert. Shean drew a pass and a balk advanced both men. Onslow singled thru Ball and Shorten and Shean tallied. Onslow was caught off first, but Ball made a mess of the thing, and Onslow was safe on second. Casey dropped a single in right and Onslow tallied. In the fifth Shorten hit safely and Shean flied to Cather. Onslow-made his third hit, a long single to centre, that Gilbert threw wild to Rath, and Onslow tallied. Graham started the sixth with a ripping drive past McNally and Cather flied to Gill. Williams singled and Kocher popped to Fabrique. Wares filled the bases on a walk and then Ball swung on the first ball pitched for a ringing double to centre that sent three men across the plate. In a moment a deluge that flooded the park fell and the game was deciared off.

SOCCER TEAMS FOR SATURDAY'S GAMES

The T. and D. Clubs Issue Official Notices-Notes and Gossip of the Players.

The Baracas will play the T. & D. leaders at the Varsity Stadium on Saturday afternoon. The following players will represent the Baracas: Stewart, Mc-Kay, Shaw, Irwin, Richards, McIntyre, Collins, Dalziel, Martin, Sturgess, Morgan, Williamson, Attwood and Dunsdan. The selectors of the Scotch and Irish international teams would do well to be present at this game of the selectors at the game. International teams would do well to be present at this game. Stewart's record as a goalkeeper for the last three years certainly entitles him to his position on the Scotch team, while McKay at full back will be hard to beat. McIntyre at left half has no superior in the city, and the same player can play equally as well at right half. Morgan at outside left is also worth considering. For Ireland Martin and Dalziel stand in a class by themselves, while Irwin, who played such a great game against Dun-

clinati 4 to 2. Benton was hit hard for four innings and gave way to Ames, who held the Dodgers to one run, the result of a drive for the circuit by Myers in the seventh. After making a sensational running catch of Rodgers' liner in the eighth, Myers was overcome by the heat and the game was delayed several minutes until he recovered. He finished the game. Score:

to relieve the injured, and to that end generally carry a few bandages in my pocket in case such should be required. I venture to offer a suggestion, that the various clubs that play matches should in the interest of their players, have these few things necessary at hand, so that when a player needs attention those responsible may have adequate means at hand for treating him in an efficient manner.

manner.

I could cite a number of matches that I have witnessed where the players have needed an application of cold water and a roller bandage, and neither one has been procurable. The lack of proper treatment, besides weakening the efficiency of the team, causes needless suffering and inconvenience to the injured. I append here a list of supplies that should be at hand for immediate use at every game:

injured. I append here a list of supplies that should be at hand for immediate use at every game:

Triangular bandages, roller bandages, three-quarters of an inch to three inches: absorbent cotton wool, white lint, boracic lint, splints, rubber plaster, sal volatile, tincture of iodine, drinking water, smelling bottle (containing ammonia), and last, but not least, bucket of water and sponge. The whole of the above supplies can be procured for less than a \$2 bill, and I am sure that the procuring of same and their proper use will earn for the users the gratitude of those who receive the benefit of their use.

I speak from experience, as I was in constant attendance every Saturday at football matches in the old country with a couple of others of the St. John's Ambulance Brigade, where, without egotism, our services were appreciated, both by the players and in some cases by the spectators who might become suddenly ill, as not infrequently used to happen. If I might be allowed to offer an even further suggestion I would suggest that the football clubs of Toronto make an application to the St. John's Ambulance headquarters with a view to providing men to be in attendance at every important football field on Saturdays, who would be able, if available, to render skilled and efficient first ald on these occasions.

Ulster Juniors travel to Linfield at Earl Grey school grounds, Jones avenue, and the following players are requested to meet at the southeast corner of Pape and Danforth avenues at 2 p.m. sharp: Halliwell, Ellis, Murphy, Ford, Denholm, Dowie, Hamilton, Dyer, Robinson, Carson, Andrews, Wilson, Dqwds, Stewart. All players of the St. David F. C. take notice that the game with West Toronto has been postponed till July 24. Kickoff at 2.15.

Rusholme and Hamilton Rinks Left in Association-Many Defaults Are Made.

BURLINGTON, July 15.—Dr. Paul of Canadas, and Stewart of Parkdale, went down today in the primary semi-final, leaving Wray of Parkdale and Wiley of Brantford to play the finals. The former won by 38 shots. McCurdy of Rusholme and Chambers of Hamilton are left to play the association final tomorrow. There are still half a dozen remaining in the consolation. The Quarter-Back

Says There Must Be No Interference With **Immediate Clearance**

Former prices, profit expectations, real worth of merchandise, must all be forgotten in the determination to clear this stock of all summer goods at the earliest possible moment. We must make way for fall. That is what the "Quarter-Back" is looking forward to. That is why he is playing havoc with this stock now---making inroads to it through the greatest pricecutting of high-grade merchandise that this city has ever seen. Men's suits, men's pants and men's furnishings are now receiving the hardest checks. Get here today if you want to see the crowds.

A It Pays to Use Them

THE application of SWIFT'S FERTILIZERS will make your lawn more velvety, protect it from burning out in the summer and give it a much earlier start in the spring. Why buy your vegetables this summer when you can grow same in your lot with the application of SWIFT'S FERTILIZERS? Stable manure is a very good fertilizer, but it does not contain all the available plant food elements re-quired by the plants.

SWIFT'S RED STEER HIGH-GRADE FERTILIZER contains a liberal supply of available plant food. It will enrich your soil and enable you to grow more and bet-ter vegetables. SWIFT CANADIAN CO.,

TRADING IN CATTLE REPORTED SLOW

Too Many Unfinished Heifers and Steers Thrown on Market.

QUALITY VERY POOR

Prices Dropped Fifty Cents for Cattle, and Fifteen Cents for Hogs.

Receip's of live stock at the Union Stock Yards yesterday were 68 cars, 738 cattle, 1760 hogs, 394 sheep and lambs, with 54 calves.

Trade in cattle since Monday has been dull, excepting for the few of good to choice quality. Yesterday was the slowest market of the week.

The cause was too many unfinished.

finished steers and heifers, which soid at still lower prices.

Excepting the few odd stall fed cattle, which held their own, prices for the others were full fifty cents per cwt. lower than on Monday, in fact the drovers and commission salesmen contended that they were from seventy-five cents to one dollar per cwt. lower. one dollar per cwt. lower.

Therefore we think we are safe in say

ing that prices were fifty cents lower. There is one thing sure: that should there continue to be large deliveries of these inferior unfinished classes, values will certainly decline still further.

Drovers and farmers are doing an unwise act in not leaving their cattle on the grass, especially when it is pientiful.

There were cattle on sale that cost \$8 There were cattle on sale that cost \$8 to \$8.25 in the country that could not be sold for the same values on the market, and we look for still lower values.

The class of stockers and feeders offered was not good as a rule, and trade for them was slow. A few of better quality cattle could be sold.

Milkers and springers sold at steady Milkers and springers sold at steady

Voal calves, spring lambs and sheep remained about steady, while hogs were reported to be 15 cents lower than on Export Steers sold from \$8.50 to \$8.85, and two extra quality stall fed steers sold at \$9.10 by Corbett-Hall-Coughlin Co. to the Swift-Canadian Co.; export Wednesday.

Southern Pacific Recovered.

Southern Pacific was weakest and
most active of the more prominent railways, declining almost two points in the early trading on what was believed to be foreign selling. It made full recovery later. Total sales amounted to 534,000 shares.

Dealings in foreign exchange were limited mainly to remittance to the limited mainly to remittances to the continent, francs being stronger, with some heaviness to marks and lires.

ON MINING EXCHANGE

McIntyre, Dome Extension and Jupiter the Attractive Issues in Thursday's Market.

Trading on the Standard Exchange yesterday ran over 170,000 shares, the biggest day in this market for months. There was a good outside demand for several of the Porcupine issues, with McIntyre, Dome Extension and Jupiter accorded the preference. The sales of McIntyre came mainly from those with profits, but these were steadily absorbed and the price closed 1 1-2 points above the previous day. The buying was not for the small trader, and the conclusion reached was that the stock was being

accumulated by larger interests. Publication of the annual statement was ward will be carefully criticized.

Dome Extension made a further

orders came into the market and a rally of 1 1-2 points ensued. Montreal was a buyer of these shares, and con-current with the buying it was stated that two new offers are being sub-mitted for control of the property. Jupiter is a popular stock and if there is a possibility of reopening the property purchases of the stock would follow in heavy volume.

Dome made its daily new level with

p sale at 24 1-4. The rights are now worth \$2, so that this issue has almost reached the level of Hollinger, which was slightly easier yesterday.

The only Cobalt which excited interest was Timiskaming. The price rose a point, and purchases are being made in the belief that silver metal will shortly be raised in price. The Porcupine market has now got into a swing, in which any addition to the public following will bring in-creased activity and higher prices.

Some of Best Yet Offered Placed on the Market Yesterday.

Strawberries still held their own yesterday, both in quantity and quality, coming in in large shipments, with some extra choice ones among them. In fact some of the best berries seen on the marsome of the best berries seen on the market this season were there yesterday, one shipment, which was especially choice in point of flavor and packing, coming from W. George Horne, Clarkson, to Clemes Bros., and this evidently will be his last for this year, as one of the crates bore the inscription "Good-bye Strawberries for 1915," which made one rather sad to know they will not be with us much longer. Yesterday these favorite berries sold at 5c to 7c per box; a few bringing 7½c, but the bulk going at 6c Other fine shipments were from J. Rose, Clarkson, to Stronach & Sons; J. Oats, Burlington, to McBride; D. Herridge, Clarkson, to Clemes Bros., and H. C. Breckon, Merton, to Dawson Elliott.

Raspberries are gradually nosing for-Raspberries are gradually nosing forward, and will soon supersede the straw-berries. There were quite a number ship-ped in yesterday, and in this class, too ped in yesterday, and in this class, too, some very fine ones appeared; the best shipment, so far for this year, being from W. J. Filman, Aldershot, who consigned some to both D. Spence and McWilliam & Everist. Yesterday the choice ones brought 13c per box, and ranged from that down to 10c, while some inferior ones sold below that figure.

Cherries were plentiful; that is, the sour variety, and were of choice quality, selling at 40c to 60c per 11-quart basket; some of the best ones noticed were from F. G. Stewart, Homer, to Clemes Bros.; Z. Wigle of Ruthven, to Stronach & Sons; Jas. D. Usher, Niagara-on-the-Lake, and J. S. Freeman, Aldershot, to White & Co. Op. High Low. Cl. Sales.

THE PUBLIC IS BUYING **GOLD STOCKS NOW**

While the market for industrial securities during the war has been downward by leaps and bounds, except in the cares. of a few so-called "war specialties," the demand for gold mine stocks has been consistently upward. As an illustration, the range of prices for the Porcupine leaders for the last three months is given:

\$23.75 \$27.00 McIntyre

Widespread interest has been re-awakened in the Porcupine field, and the public generally have come to a realization that there is every justification for a continued upward market. THE MILLIONS WHICH HAVE BEEN TAKEN FROM

THE GOLD FIELDS OF CANADA ARE INFINITESIMAL COMPARED WITH THE WEALTH STILL REMAINING UNDERGROUND IN THE NORTH COUNTRY. From a comparatively little section in the Hollinger district

half a million dollars in gold is being taken out every monthand the surface is only being scratched. Renewed activity and a general understanding that only propositions of merit are to be countenanced means support from the public to develop this

SOVEREIGN PORCUPINE

is unquestionably the best located of the properties in the Hollinger section of Porcupine which are not yet on a producing easis. Enough work has already been done to show that gold exists on the claim of the Sovereign Company, adjacent to Hollinger, Acme, Porcupine Crown and Vipond. The only question that remains is: How MUCH gold is there—the same question which exists in the case of every mine in the world.

The Sovereign Company owns its four claims outright, has machinery for development and has no liabilities. The Directors plan to begin active operations almost immediately. Twenty-five Cents a Share is the price of the present offering of 300,000 treasury shares

(par value, one dollar). On the basis of capitalization, one million dollar shares (Hollinger has \$3,000,000, par value \$5.00; Dome \$5,000,000, par value \$10), we believe the opportunities for profit as a result of

purchases now to be practically unlimited.

THE EARLY PURCHASERS OF MINING STOCKS ARE THE ONES WHO PROFIT THE LARGEST. NOW IS THE TIME TO BUY SOVEREIGN. THE PRESENT OFFERING WILL NOT LAST MUCH LONGER. BUY NOW AND BE SURE OF ALL THE PROFIT FROM APPRECIATION. A. H. McNEAL & CO.
