Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

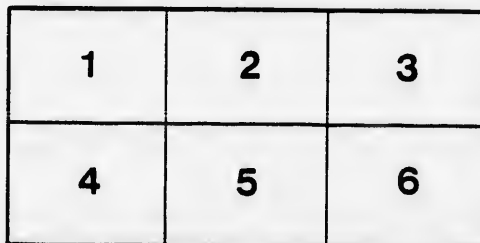

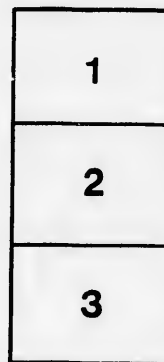

D. B. Weldon Library
University of Western Ontario
(Regional History Room)

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

D. B. Weldon Library
University of Western Ontario
(Regional History Room)

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

1884.

CHARLES STARK,

IMPORTER,

WHOLESALE

AND RETAIL

DEALER IN

Watches, Jewellery, Plated-ware

AND

FIRE ARMS,

AT ROCK BOTTOM CASH PRICES.

52 CHURCH STREET AND 21 COURT STREET,

NEAR KING STREET,

OPPOSITE ST. JAMES' CATHEDRAL,

TORONTO, CANADA.

To our Patrons and the Trade Generally.

WE have much pleasure in presenting you with our

ANNUAL PRICE LIST OF GOODS FOR 1884.

We most heartily thank our many thousands of friends for their very liberal support given us during the past year. We give the best value possible consistent with fair and honourable dealing, and by guaranteeing entire satisfaction to every purchaser, we have succeeded in building up one of the largest businesses of this kind in the whole Dominion.

In experience and knowledge of the trade in European and United States markets, we have no superior in the City, our residence here dating back to 1851.

Our facilities for buying are the very best, purchasing direct from the manufacturer, for cash, enables us to sell at prices less than many of our competitors pay for the same goods. If we are unknown to you, enquire of your Express Agent or Banker, as we have patrons in every City, Town and Village in the Dominion from Newfoundland to British Columbia.

OUR RULES FOR DOING BUSINESS.

We sell all goods entirely for *Immediate Cash*, and everything is figured on that basis.

We never send goods C. O. D. unless \$2.00 accompany the order to show you *mean business*. We have to enforce this rule for our own protection. No parcels less than \$5.00 sent C. O. D. The two dollars advanced to guarantee express charges, will be deducted from the invoice. Five pounds in weight can be sent by mail, except to British Columbia, Manitoba and North-West Territories; the postal limit to those Provinces being two pounds three ounces. Parties ordering goods C. O. D. will have to pay express charges. If a customer lives some distance from an express office and wishes to examine goods for selection, we will consign them to any responsible store-keeper by registered mail, if guarantee of two dollars is sent with order.

HOW TO SEND MONEY

Always register money packages; use wax to seal your letter. If you can get a post office order or bank draft, *do so in every instance*, for if lost you can get a duplicate. When you cannot procure a post office order, be sure that all bills are Ontario bills, as there is a discount on any other paper.

N. B.—All orders from Newfoundland, Nova Scotia, New Brunswick, Prince Edward Island, British Columbia, Manitoba, and North-West Territories, must be accompanied with cash. As the express facilities to these places are slow and uncertain, we cannot send goods C. O. D. Remit by *Post Office Order*, as there is a discount of three to five per cent. on bank notes from these places. For small amounts send postpaid stamps.

HOW TO ORDER.

Do not cut or mutilate the list, as we know exactly what you wish if you but give the *page, number and name* of the article required. Order all goods from this catalogue, as prices in old list are cancelled. Never head your letter with the township you live in, but be sure and put the post office. Be as explicit and brief as possible in your correspondence, as far as convenient keep your remarks separate from the order. Always sign your name in full, and as plainly as possible, giving your *Post Office, nearest Express Office, and Province*. Repeat your address every time you write. When you write in reply to one of our letters always *send our letter back* with your remarks attached to it, as it will place the whole matter before us at once, without reference to copying book.

Address all communications to

CHARLES STARK,

TORONTO, ONT.

52 Church and 21 Court Street, near King,

Opposite St James' Cathedral.

Description of the new Patent Dust Proof, Stem Winding, Open Face Case; manufactured by the American Watch Co., Waltham, Mass.

This open face watch case, which is formed in one seamless piece, in any desired shape, opens in the front only, to receive the movement. The continuous construction of the body of the case avoids the usual cap, and greatly conduces to strength, and constitutes one feature of the invention.

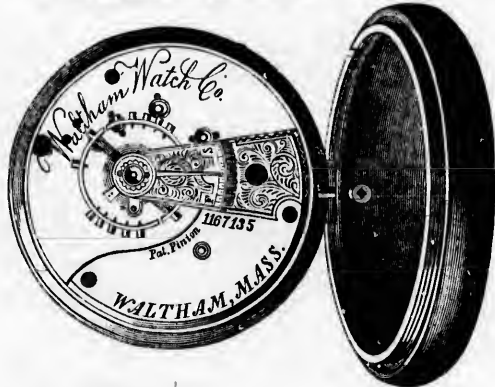

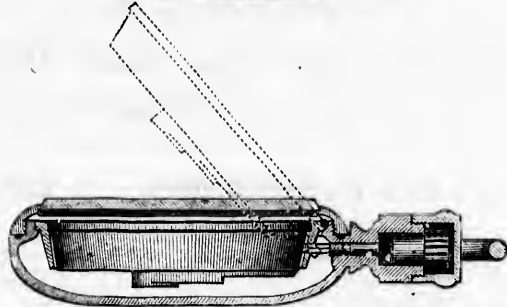

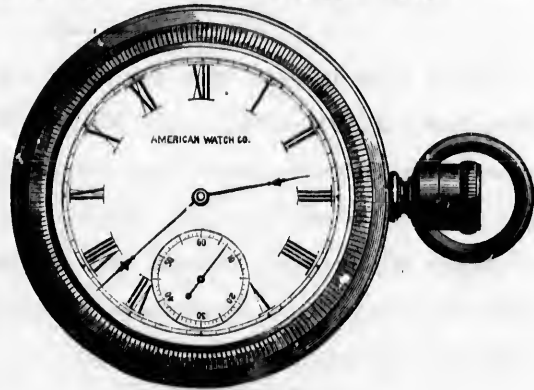

The movement of the watch is held in a sustaining ring, which is hinged to the case on front edge of the aperture in such a manner that when the bezel is removed, the ring with its contained movement may be swung outward, thus rendering the movement readily accessible, and obviating the necessity of a back cap or lid, which thus enables the cases to be formed in one seamless piece, and constituting another feature of the invention. The movement is held in the ring, in the manner usual in American watches and this ring is hinged to the rim of the case just at the base of the stem, the movement being so arranged therein that the winding stud of the movement comes in line with the winding key of the stem it promptly engages therewith. When the movement is to be swung out, however, the stem winding crown may be pulled partly out, so as to draw the key out of engagement with the stud, and thus permit the out swing of the movement, as will be understood, the parts becoming readily engaged when the movement is again swung into the case.

The bezel, into which the crystal is fitted with an especially prepared water-proof transparent cement, is attached to the case by screwing it thereon, the ring of the bezel being formed with an internal screw thread, which meshes with a corresponding thread on the shouldered rim on the face of the case, and as the bezel is thus screwed tightly down the level edge of the rim forms the air-tight joint with the shouldered rim of the case which is proof against the entrance of dust or moisture, as will be appreciated.

By making the screw-thread on the interior of the bezel, so as to fit a corresponding thread on the exterior of the case, we are enabled to construct a watch with only one division in the case, and thus the entrance of dust or moisture to the movement is entirely prevented, which is a very great advantage as compared with those cases in which there is an opening both front and back. The face of the bezel is formed with a marginal circle of milling, which affords sufficient frictional grasp to enable the bezel to be readily screwed on or off.

These combined features of construction thus form a watch which, while being simple and complete, has the great advantage of being impervious to the entrance of dust or wet. These latter qualities are found to be of great importance to those persons who most use those class of watches, such as railroad men, travelers, miners, lumbermen, and others who have to make frequent reference to the watch, and who are almost constantly exposed to the influence of dust or moisture.

Made on an entirely new principle, and especially adapted for purposes, or wherever an air-tight watch is needed.

Remington Revolvers.

No. 30.—Remington Revolver. New model, with patent cartridge ejector and base pin, 32 calibre, 5 shot, full nickel plated, fine checkered rubber stock, finest forged steel frames, positive stop cylinder, every part working "clean" and easy, excellent for target practice; the barrel is rifled equal to any target rifle now made.

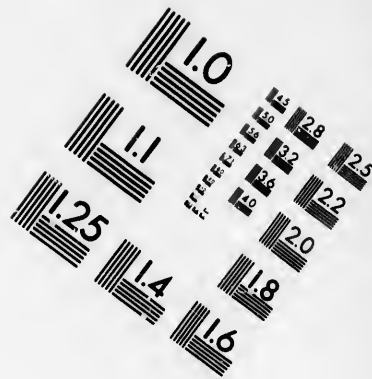

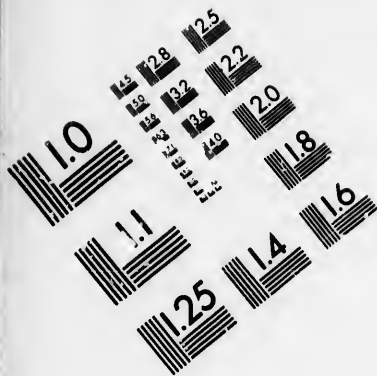

Price.....	\$7 00
No. 31.—Ditto, 38 calibre.....	8 00
Postage.....	35c.

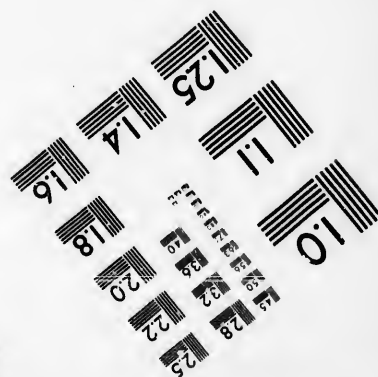

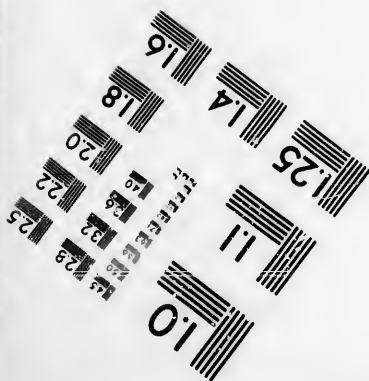

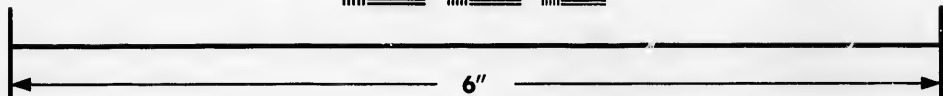

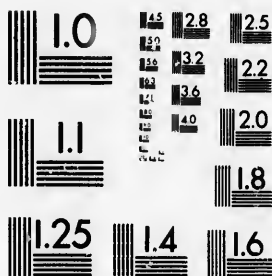

No. 33.—Remington's Improved Frontier Revolver.

Six shot, using long 38 calibre rifle cartridge, finest steel barrel, rifled equal to the sporting rifle, forged steel frame, positive ejector, cylinder loaded without removing from frame, every part of this weapon is carefully *blued*, superior walnut stock, patent breech slide to prevent shells from falling out of chamber; in fact this is the strongest, simplest, most accurate, and by far the cheapest long range revolver in the market. A good shot can bring down a deer at 100 to 200 yards. Price, \$10.00; Postage, 75c.

Merwin, Hulbert & Co's System Automatic Revolvers

These revolvers are made of forged steel, interchangeable in their parts, of sufficient strength, and are perfection of workmanship. They have *simultaneous* and easy extraction of the shells: an inclined screw action on the base-pin starts the shell, overcoming any resistance. They extract one or more shells if desired, without removing the loaded ones. They can be taken apart for cleaning without the aid of any tool. They have no small parts exposed to rust, and the extractor is a solid part of the base-pin. They are rifled by a new process that gives perfect accuracy, are well balanced and pleasant to handle. The lines of recoil and resistance are so nearly alike that they prevent any upward throw of the arm when fired. The motion of extracting the shells cleans the aim, and they cannot clog by any number of discharges.

Double Action.
(Centre Fire)

Single Action Pocket Revolvers.

- No. 61.—3½ inch barrel, 5 shot, using S. & W.'s 38 calibre C.F. cartridge, full nickel plated, rubber stock. Price \$14 00
 - No. 62.—Ivory stock 15 00
 - No. 63.—Pearl stock 17 00
 - No. 64.—Ivory stock, plated intaglio, and floral engraving 18 00
 - No. 65.—Pearl stock, plated, floral and gilt 20 00
- Double Action \$2.50 extra.

Double Action Army Revolvers.

- No. 17.—Seven inch barrel, 6 shot, belt size, 44 cal. This arm is made to use the Winchester Model 1-73 Frontier cartridge. Weight, 2 lbs. 9 ounces. Rubber stock, double action. Price \$25 00
- No. 38.—Ditto, single action. Price 20 00

Pocket Army Double Action Revolver, with Extra 7-inch Barrel.

We call special attention to our Pocket Army. In its construction the best materials and the highest known state of the art have been applied. For precision, penetration, poise, compactness, beauty of outline, and general convenience, **it has no equal.** The crested form of the handle permits it to be of less size than any arm of this calibre; the lines of recoil and resistance are closer together, a more firm and natural grasp, and much greater leverage are given to the hand, all of which tends to resist the upward throw of the barrel in firing. To separate the frame, barrel and cylinder (for cleaning), and re-assembling them, requires no tool.

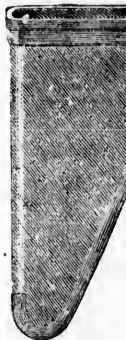

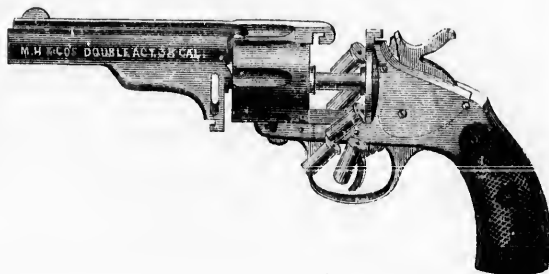

This arm is made with an interchangeable 7-inch barrel, that enables it to be changed into a belt revolver. No tool required. The barrel can be changed in three seconds.

3½ inch barrel, 6 shot; weight, 2 pounds 4 ounces; weight of extra 7 inch barrel, 12½ ounces. 44 calibre, Model Winchester 1873, Frontier cartridge.

- No. 18.—Rubber stock \$ 25 00
- No. 45.— " " single action 20 00

The above without extra barrel, \$5.00 less. Postage 75c., if by mail.

This cut illustrates the Extracting system used in Merwin, Hulbert & Co.'s new Automatic Revolvers, and is operated by simply pressing the small spring underneath the cylinder, turning the barrel one-half over and drawing out to stop. The shell drops out as shown in cut.

A New Article.

The Sportsman's Protected Flask.

This is a fine glass bottle with stopper and tumbler, the whole enclosed in a nickel plated, corrugated metallic case, drawn from solid metal. The corrugations are in the form of a screw, so that the cover screws down, holding the flask tight (the tumbler being inverted over the stopper). A gold plated band then screws up to the cover and prevents it from unscrewing. The whole affair is very handsome and it is impossible to break the flask. Prices—No. 1, with 1/4 pint flask and tumbler, only \$1.00. No. 2, with 1/2 pint flask and tumbler, \$1.25.

The whole pistol, except the stock, is wrought steel. This is one of the longest raised and most accurate 22 calibre revolvers in the world. The new improved "Standard," S. & W. model, 22 calibre revolver, uses the extra long rifle cartridge, weighs 13 oz., extra long barrel, of elegant design and finest workmanship throughout. It is a dead shot at 50 yards. Extra plating and engraved handle. The handle is new model and gives a very fine "grip."
Price.....\$6.50. Postage, 25.
No. 31.—Same as No. 30, but 32 calibre, using long metallic cartridges.
Price.....\$8.00. Postage, 30c.
No. 29.—Ditto, 38 calibre, Russian Model, \$10.50. Postage 40c.

MUZZLE-LOADING SHOT GUNS.

SINGLE AND DOUBLE BARREL.

Although breech-loading guns are gradually taking the place of muzzle-loading, yet there is a strong demand for them among those who do not wish an expensive gun, and where breech-loading ammunition is scarce. We therefore have selected a few leading lines in Shot Guns, which are cut fine and splendid value.

SINGLE BARREL.

- No. 1.—Smooth bore musket, 36 to 40 inch barrel, good strong lock, steel ramrod and mountings, full stock; a good gun for farm use. Price..... \$3.00
- No. 3.—Single barrel, muzzle-loader, fine de-carbonized blued steel barrel, small nipples, blued steel mountings and steel ramrod, made of first-class material. The lock of this gun is equal to that of a \$10.00 gun, and will outwear and out-hoot any gun that is sold for \$10.00 in Canada. We have secured these guns at a very low price and offer them accordingly. Price, with bullet mould and steel wad punch, only... 4.00
- No. 5.—"Springfield" M.-L. gun, a well made, strong, close shooting, small bore gun; will carry ball almost as well as a rifle, and is excellent for shot; a great saving of ammunition; small nipple, steel ramrod and mountings; a good, strong front action lock..... 5.00

- No. 301.—Light boys' gun, well finished, t-ested barrel..... \$3.75
- No. 303.—Single M. L., imitation twist barrel, patent breech, good back action lock, well finished stock,..... 4.50
- No. 305.—English Gun, genuine twist barrel, patent breech, rib, ramrod with brass tip and extractor, superior walnut stock, e-checked, case-hardened lock, blued butt plate and mountings. Price..... 7.00
- No. 306.—Similar to No. 305, but with fine front action lock; a good, sound gun..... 8.00
- No. 307.—Genuine English shot gun, fine twist barrel with rib, superior English walnut stock, French polished, finest steel lock, bar action patent breech, blued butt plate and mountings, checked stock; everything first-class and warranted to give every satisfaction. Price..... 9.00

DOUBLE BARREL MUZZLE-LOADING SHOT GUNS.

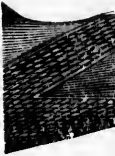

The demand for this class of gun is as active as ever. We have a very choice selection from the lowest to the highest grades.

- No. 310.—English Double Shot-Gun. Good tested barrels, back action locks, fine polished stock, checked in break-off, steel mountings and locks, ramrod with tip and extractor..... \$8.00
- No. 311.—Superior English Gun. Tested barrels, well made, walnut stock hand-somely checked and finished, good case-hardened locks and ramrod..... 10.00
- No. 312.—Superior English Gun. Genuine twist barrels, good bar locks, walnut stock, blued butt plate and mountings, patent breeches, rod with brass tip and extractor. A genuine good gun..... 12.00
- No. 873.—Fine English Double Gun, muzzle-loading, superior twist barrels (interwoven), good front action locks, carefully case-hardened and engraved, genuine Spanish walnut stock, fancy grained, length averaging 32 inches. Price..... 14.00
- No. 874.—Fine English Gun. Same as 873, with extra..... Warranted to give good satisfaction, Reduced price..... 16.00
- No. 313.—Genuine English Shot Gun, W. & C. Scott & Sons. Fine stubb twist barrels, superior walnut stock, nicely checked and French polished, first-class ebony rod with brass tip and steel extractor, blued butt plate and finely engraved mountings. Everything carefully and splendidly finished, and in every respect as complete as modern skill and workmanship can accomplish. Price..... 20.00

Double Barrel Breech-Loaders

Great Reduction in Prices.

Lefauchaux Action.

Price only \$13.00.

Strongest, Safest, Simplest

Breech-Loading Gun in the world. The celebrated Lefauchaux action, while not quite as handy as a side or top action, can be operated as quickly. When this gun is closed it is as firm and strong as a muzzle-loader. Best decarbonized steel barrels, patent automatic ejector, fine walnut stock, checkered hand, good locks, patent lever fore-end. We warrant this gun in every respect as safe, strong, durable, and a good, close, hard shooter, and anyone who is satisfied with these qualities without extra fine finish will be more than satisfied with this gun.

No. 100.—12 gauge, 30 to 32 inch barrels, weight 7½ to 9 lbs. Price reduced within the reach of all, \$13.00.

Prices Lower than Ever.

No. 1—Only \$13.00.

This is one of the fastest selling guns on the market, and is the best value in English Breech-Loaders ever offered. The barrels are fine twist, splendidly bored, and finished equal to guns of much higher price. The locks are steel, case-hardened, and work free; rebounding steel plungers, fine blued mountings; superior walnut stock—checkered in break off and fore arm. Every gun is stamped with maker's name.

After selling so large a quantity of these guns we can offer them to the public with more confidence than ever. We offer them at prices that defy competition. Can supply them in 10 and 12 gauge, 30 and 32 inch barrels; weight from 8 to 10 pounds. **Special Reduced Price, \$13.00.**

No. 2.—Double Barrel Breech-Loading Shot Gun. Side snap action, fine twist barrels; a beautifully finished gun, similar to No. 1, but extra finished. We can supply this gun in 10 and 12 gauge, 30 to 32 inch barrels, weight from 7 to 10 pounds. **Special Reduced Price, \$20.00.**

Reduced to \$22.50.

PISTOL GRIP.

No. 3.—Double Barrel Breech-Loader. This gun, without doubt, possesses more modern improvements than any ever offered at the price. Side lever, fine twist barrels, same finish as No. 2, with full pistol grip, and fine steel rebounding locks. We can furnish these in 10 and 12 gauge—weight 8 to 10 pounds. Within the reach of all. **Special Reduced Price, \$22.50.**

Re-stocking and Choke Boring done by the best skilled labour. Price, for one barrel, \$2.50; two barrels, \$1.00.

Side Snap Action.

No. 4.—This engraving represents a side-lever breech-loading shot gun with fine *bar action* locks, genuine English twist barrels, carefully bored and finished in a superior manner. Every part of the mountings and locks are carefully engraved with game, etc. They are all bored for *close long range* shooting, and make an excellent pattern. The stock is made of selected Spanish walnut, and checkered in break-off and fore-arm. We guarantee this Gun in every respect. Noted for close and long range shooting. We can furnish them in 10 and 12 gauge—weight 8 to 10 pounds. Special reduced price \$25.00

RE-BOUNDED LOCKS.

PISTOL GRIP.

No. 5.—Double Barrel Breech-Loading Shot Gun. Side snap action, combining all the improvements of No. 4 gun, together with full pistol grip, and bar rebounding locks. A magnificent gun. Furnished in both 10 and 12 gauge. Weight 7½ to 10 pounds.

SPECIAL REDUCED PRICE, \$30.00.

No. 7.—Double Barrel Breech-Loading Shot Gun. Side snap action, fine twist barrels, combining all modern improvements, full pistol grip, magnificent bar rebounding locks, extension rib, and patent fore-end. Safety and accuracy guaranteed.

SPECIAL REDUCED PRICE \$32.50.

TOP LEVER, BAR ACTION LOCKS.

No. 6.—Double Barrel Breech-Loader, with genuine twist barrels, rebounding locks, extension rib, patent fore-end. Price only \$30.00.

TOP LEVER.

EXTENSION RIB.

“THE CANADIAN FAVOURITE.”

No. 8.—Double Barrel Breech-Loading. Genuine English make. Note the facts: Finest interwoven twist barrels, *choke bored*, extension rib, double bolt, *bar rebounding locks*, large head plungers, positive action, being thrown back by simply closing the breech, patent fore-end fastening, choice Circassian walnut stock with *pistol grip*, fine blue mountings covered with elaborate engravings of hunting scenes, game, etc. The large quantity we have sold of this gun is a sure test of its merits. We can guarantee satisfaction in every instance. Can furnish them in 10 and 12 gauge. Weight from 8 to 10 pounds. Barrels 30 to 32 inches. Special reduced price, \$35.00.

No. 9.—Double Barrel Breech-Loader. Genuine English make. Top snap action, similar to No. 8, but extra finish. This gun has an elegant appearance, the finish being equal to that of a \$75.00 gun. Can furnish same in 10 and 12 gauge. Weight 8 to 10 pounds. Barrels 30 to 32 inches long. Special reduced price, \$40.00.

AMERICAN BREECH-LOADING GUNS.

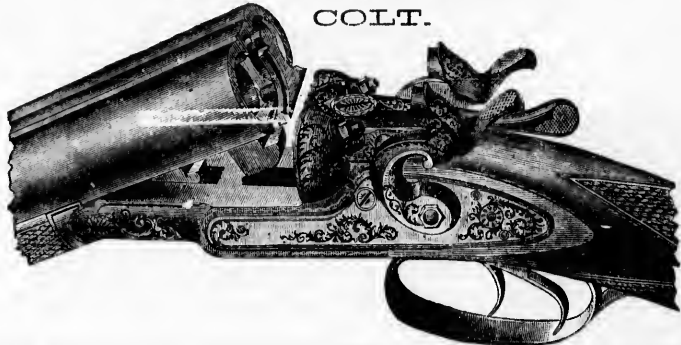

PARKER.

THE PARKER SHOT GUN—Double Barrel Breech-Loading Centre Fire.

No. 13.—This gun is well known for its safety and accuracy in shooting, and needs no comment. Parker Gun, twist barrels; 10 or 12 gauge rebounding bar locks, patent fore-end fastening, well finished stock. Price.....\$60.00. Pistol grip extra.

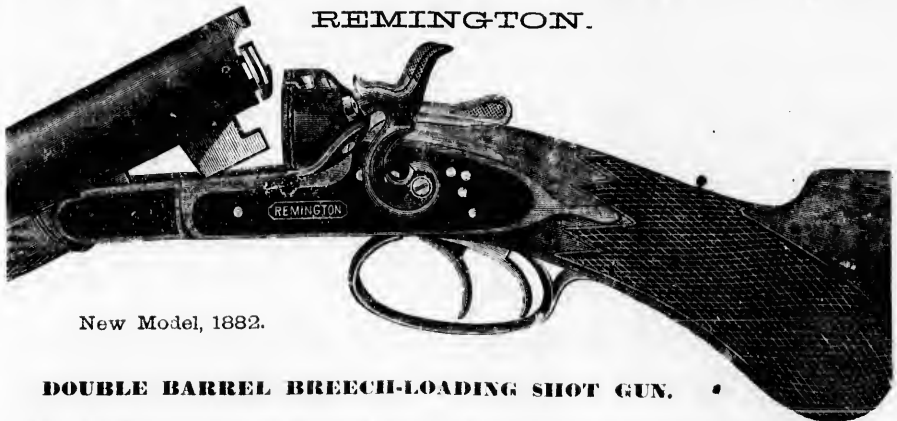

COLT.

THE NEW COLT, DOUBLE BREECH-LOADING SHOT GUN.

No. 40.—It is made of the best materials, with the best workmanship, on the interchangeable plan. The locks are rebounding. The act of opening the breech withdraws the firing pins by a positive motion, without springs, preventing the possibility of a premature explosion in closing the breech. The barrels are made and imported especially for this gun. They are brazed throughout their entire length by machinery owned by and peculiar to this Company, insuring perfect and indestructible work. The stocks are of English or Circassian walnut of any desired style. In beauty of finish, quality of materials and accuracy of workmanship, this gun is unexcelled, and the purchaser will find that he has the best and cheapest American gun that has yet been produced. Every gun is thoroughly tested at the factory. The barrels are finest English twist 12 gauge. Price, \$60.00. Pistol grip \$6.00 extra.

REMINGTON.

New Model, 1882.

DOUBLE BARREL BREECH-LOADING SHOT GUN.

Pistol Grip Stock, Extension Rib, superior finish.....\$45.00.
No. 107.—Ditto, with genuine Damascus Twist Barrels.....55.00.

PIEPER'S BREECH-LOADING SHOT GUNS.

IMPROVED SYSTEM.

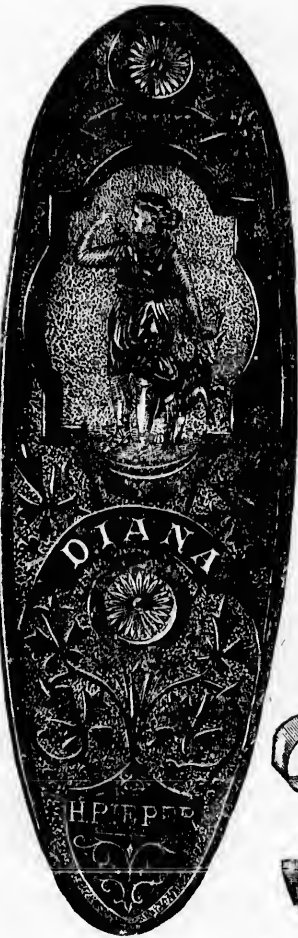

\$65.00.

\$65.00.

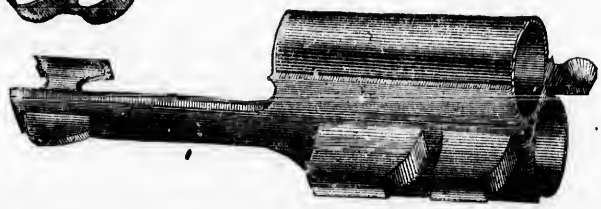

The "Diana" Reinforced Breech.

Since this gun has been introduced into Canada it has met with unequalled success. In the past year we have sold more of these than all other guns at or about the same price, which is the best recommendation they can have.

- No. 600.—The "Diana," fine laminated steel barrels, Scott top lever action, double bolt and extension rib (making a treble fastening), finest quality 3-pin bridle freed steel locks, scroll percussion fence breech, selected French walnut pistol grip stock, finely checkered, Deely & Edge patent fore-end, spring triggers, artistically ornamented rubber butt plate, full or modified choke as desired, 10 or 12 gauge, 8 to 9 lbs. Special reduced price..... \$65.00
- No. 588.—Stub twist barrels, Scott top lever action, finest quality steel freed locks, rebounding double bolt, scroll fence breech, pistol grip, patent fore-end, rubber butt, 10 or 12 gauge, 30 or 32 inch barrels..... \$40.00
- No. 586.—Stub twist barrels, side snap action, fine freed steel locks rebounding, scroll fence breech, pistol grip, patent fore-end, rubber butt. One of the best shooting guns on the market. Can furnish it in 10 or 12 gauge, 30 or 32 inch barrels. Special price..... \$30.00

These guns are made entirely by machinery, all the parts being interchangeable. The breech end of the barrels is protected by a wrought steel sleeve, through which the barrels are screwed and brazed. The sleeve bolts and fore end lug are all one solid piece of wrought steel, and are independent of the barrels. The muzzles are also protected by a like sleeve to prevent choke from wearing. The barrels are finely bored and have long taper chamber, which increases the penetration and lessens the recoil. These are the only European guns made entirely by machinery. The Peiper system is entirely new, and actual tests have demonstrated that the guns of this make will stand twice the strain required to burst any other gun: The tubes are finished to gauge, which the improved machinery enables the maker to do, and by the Peiper process are put together perfectly straight and invariably shoot true to centre. This is found only in very high cost guns where the old system of putting barrels together under intense heat is used, and where the most experienced filers are necessary. The ribs are put on with soft solder, to avoid moisture entering between the barrels. Locks are made of best steel and finely finished, and all the lugs and joints are closely fitted and adjusted. The 9 1/2 pound gun will stand as much strain as an 11 pound gun of other makers. This gun was put in competition with a Greener of much higher cost and outstripped it both for close shooting and strength of penetration. This is a sure test of its merits. We place this gun before the public with every confidence, and guarantee it exactly as described. Parties who have already purchased speak in the highest terms of the shooting qualities and are more than satisfied. We have purchased a large quantity and are in a position to offer them at a very low figure.

THE TRAP.

No. 10.—The "Trap" Double Barrel Breech-Loading Shot Gun. Price of this popular gun again reduced. The Trap is probably the most popular gun ever offered in Canada. Every one sold brings new customers. It has finest selected English walnut stock, finest possible checking and engraving and embodies the results of finest workmanship throughout. Barrels finest interwoven twist, patent direct bolt top snap and rebounding bar locks, and pistol grip, patent fore-end steel tipped, checkered butt plate, double bolt and extension rib, block strikers or plungers, also handsome percussion scroll fence. Every gun targeted. This gun will be furnished with 30 or 32 inch barrels. Weight, 12 bore, 7½ to 9 lbs.; 10 bore, 8½ to 10 pounds. Special reduced price..... **\$45.00**

\$55.00

THE TRIUMPH.

No. 11.—The Triumph double-barrelled breech-loading shot gun embodies all the features of the Trap gun. Has magnificent laminated steel barrels, beautifully finished, shooting qualities guaranteed. These guns are made to our order and are thoroughly tried and tested before leaving the factory; every gun targeted. We have sold a large quantity of these guns, and what we claim for them will be heartily endorsed by our many customers who have tried them. Furnished in 10 and 12 gauge. Weight, 12 bore 7½ to 9 lbs.; 10 bore 8½ to 10 lbs. Special reduced price **\$55.00**

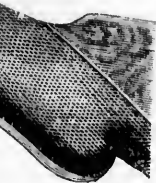

J. P. CLABROUGH & BRO.

No. 355.—This gun, manufactured by J. P. Clabrough & Bro., one of the best known English gun makers, needs no recommendation from us. It has taken the lead among the favourites for the past two years. The barrels are made of finest Damascus Steel, Scott top lever action, treble wedge fast, bolted extension rib, large head, solid springless plungers, rebounding fore pin bridge, locks Deely & Edge patent fore-end, low hammers which leave an unobstructed sight, scroll percussion fence breech, finest selected walnut stock. The entire gun is magnificently engraved with game and scroll work and beautifully finished in all parts. Both barrels are full choke bored, either 10 or 12 gauge. Weight, 8 to 10 pounds; length, 30 to 32 inches. We have again reduced the price of this gun to meet the wants of our patrons who wish the **Best Gun**, and cannot go the price. Every gun sold will be an advertisement for us. Former price, **\$150.00**, reduced to **\$125.00**.

No. 694.—J. P. Clabrough & Bro., London. Finest quality laminated steel barrels, choke bored, extension rib, double bolt, Scott top lever action, large lead springless plungers, fine bar extra freed steel locks, rebounding, low hammers, Deely & Edge's patent fore-end, pistol hand, fine rubber butt, scroll percussion fence. The finish and get-up of this gun are very rich and it fully sustains the high reputation of the makers. Can supply in 10 or 12 gauge, 30 or 32 inch barrels. **Special Cut Price**..... **\$95.00**

No. 695.—J. P. Clabrough & Bro. Similar to No. 696 in every way but finish, which is not quite so fine. Reduced to **\$80.00**

The Harrington & Richardson Automatic Hammerless Breech Loading Double-Barreled Shot Gun.

ANSON & DEELEY'S PATENT LOCK ACTION.

The quality of material, workmanship and finish of the Harrington and Richardson Hammerless Gun are not excelled. The laminated and Damascus steel barrels being made exclusively for this gun are proved at the Government Proof House, and when received bear the Proof House Mark, thereby insuring the soundest, cleanest barrels that can be procured for money. The lock action and all component parts are of solid forged steel, there not being an ounce of any other metal used in the construction. The stocks are of thoroughly seasoned English or French Walnut, the butt plate is of hard rubber of exquisitely wrought design. Each barrel is carefully targeted and produced the exact target recorded on the tag accompanying each gun.

- No. 30.—12 gauge, laminated steel barrels, English walnut stock, checked and engraved with a handsome bird's eye border, finely finished throughout..... **\$110.00**
- No. 030.—Same as above. 10 gauge..... **115.00**
- No. 32.—Fine Damascus steel barrels, English walnut stock, fine checked with handsome bird's eye border. 12 gauge..... **150.00**
- No. 33.—Same as 32, but 10 gauge..... **155.00**

W. W. Greener's Patent Treble Wedge Fast Hammerless Gun.

The absence of hammers makes it very safe and convenient. The self-cocking is effected by the raising of the breech-end of the barrels for loading. There is no half cock but in its place there is a safety bolt that works on the left side of the gun and effectually bolts the triggers from behind. It has top lever action and the exploding of the shells is by Anson and Deeley's lock arrangement.

- No. 70.—12 gauge. Weight, 8 to 9 lbs..... **\$165.00.**
- No. 72.—10 gauge. Weight, 9 to 10 lbs..... **175.00.**
- No. 202. W. & C. Scott & Son's Patent Block Safety Hammerless Gun, with patent crystal indicator, finest quality. Price, **\$200.00.**

BAKER'S NEW MODEL THREE BARREL GUN,

THE BEST GUN IN THE WORLD FOR GENERAL USE.

The action of the Baker Gun differs from all others, being operated by pressing forward the front trigger, which is much more convenient to operate and gives the gun a finer appearance.

The slot in the triggers, by which the bolt is connected to them, is so arranged that when the bolt is back it will prevent the back or left hand trigger, as well as the right hand one, from being pulled so as to let fall the hammers. Thus if a piece of thin paper was placed on the breech-piece in such a manner as to prevent the barrels from going to their place, or the bolt from entering the mortise in the lug, the gun could not be discharged; in other words, if a leaf or obstruction of any kind should get between the barrels and breech-piece so as to prevent their closing, no matter how near they may come, the bolt will not enter the lug, and if it does not, it is impossible to discharge the gun. Moreover, when the barrels are in place, and the gun is ready to be fired, the very action of pulling the trigger holds the bolt firmly in its place thus making it perfectly safe, and far excelling any other gun in those essential points.

The mortise in the lug and bolt being cut bevelled to correspond, all wear is taken up.

The great power of the lever for opening the gun enables us to use a stronger spring to drive and hold the bolt in place than is used on any other gun, and its simplicity is such that any one can replace it if broken, and the gun can be used without it if necessary.

Also while preserving the perfect outline of a gun (that is a gun without a lever to be constantly in the way and liable to be operated on any moment accidentally), we have the strongest possible lever, and guarded in such a manner that it is impossible for the gun to be opened without human aid.

The quality of steel used in the manufacture of the Baker Guns is the finest, and the workmanship the best. There is not a close fitted or harder shooting gun made, and are guaranteed as regards the materials, durability, shooting qualities and in fact everything to make them a perfect gun. They are all made with rebounding locks of best quality, extension rib, patent fore end, pistol grip stock, best English black walnut, finely checked and full or modified choke bored barrels as desired.

- No. 85.—Fine English imported laminated-steel shot barrels, full or modified choke, 10 or 12 gauge, rifle barrel 44 calibre, using the popular 44 Winchester cartridge, Model 773, length 30 inches \$ 85 00
- No. 90.—Fine Damascus steel shot barrels, border engraving. In other points same as No. 85 100 00

COMBINED RIFLES AND SHOT GUNS.

No. 530. Lefancheux action. The strongest in the world. Blued steel barrels, well sighted. The action of this gun as well as the locks are case hardened thereby insuring against rust and improving the strength and appearance of the arm. This gun is strongly made throughout, well rifled and bored and will do excellent work. Rifle barrel using the popular 44 cal. Winchester cartridge, centre fire, and shot barrel 12 gauge. Price only \$20.00.

No. 591.—Lefancheux action, with double lever, by which means the gun can be easily taken apart for cleaning or fixing. Pistol grip stock fully checked, rebounding locks, case hardened action, locks and mounting, well sighted, using the 44 Winchester cartridge and 12 gauge shot shells. Price \$27.50.

No. 592.—Lefancheux action. Fine laminated steel barrels, pistol grip, checked stock, rebounding locks, double lever, case hardened locks, action and mountings. A first-class weapon. 12 gauge, 44 calibre Winchester cartridge. Price \$30.00.

No. 594.—The Pieper Rifle and Shot Gun. Side snap action, blued steel barrels, best quality steel, rebounding locks, scroll fence, patent fore-end, pistol grip stock, checkered, large head, springless plungers (for description of construction see page 90). There is not a combined gun in existence that will surpass the Pieper for close shooting, penetration and accuracy. Special reduced price \$35.00.

No. 596.—Same make and construction as No. 594, but with top lever action, double bolt and much finer finish throughout. The best combined gun on the market. 12 gauge and 44 cal., using the Winchester cartridge. Price \$50.00.

Gun repairs executed in first-class style. None but the best skilled workmen employed. Re-striking and choke boring a specialty. Price for choke boring one barrel, \$1.50; two barrels, \$2.50.

Single Barrel Breech-Loading Shot Guns.

THE "AMERICAN" SIDE SNAP.

No. 10.—The American Side Snap Single Breech Loader is operated by pressing the lever, which throws the gun open and half-cocks the hammer at the same time. The barrels are genuine twist, rebounding locks, oiled walnut stock, the re-inforced breech and joint lump are one solid piece. All case-hardened. 30 inch barrels, 6½ lbs. 12 gauge, choke bored. Price.....\$18.00.

No. 20.—Construction same as No. 10, with the American Trigger Action, 8 gauge, length of barrel 36 inches, weight about 13 lbs. Price.....\$35.00.

Steven's New Style Single Barrel Breech-Loading Shot Gun.

With Pistol Grip Guard Bow and Forehand Stock. The Best Shot Gun in the Market.

The above cut represent it's Steven's New Style Single Breech Loader, which is claimed by experts to be the best in the market. The only objection to them is that they shoot so well, are so handy to take apart and carry about in a trunk or bag, that every body wants them, and the makers have had to enlarge the factory and work nights to supply the increasing demand. With one of these guns it will not be necessary to take a back seat in any company.

- No. 3.—Steel Barrels, 12, 14, 16 gauge, weight 6 to 7 lbs.....\$14.00
- No. 4.—With genuine Twist Barrels..... 16.00
- No. 5.—Steel Barrels, 10 gauge..... 15.00

REMINGTON'S SINGLE BARREL BREECH-LOADING SHOT GUN.

No. 109.—For close long range shooting, there is not a shot gun in the market that surpasses the Remington Single Breech-Loader. Finest quality of barrels, blued finish, fancy case-hardened locks, walnut stock, barrel 16 gauge, 32 inches in length, complete; 6½ pounds. Price.....\$15.00.

KEYSTONE SINGLE BREECH-LOADING SHOT GUN.

- No. 90.—This gun has splendid decarbonized steel barrels—action same as Stevens'—carefully bored, with nickel-plated mountings, 10 and 12 gauge.....\$12.50
- No. 91.—Keystone with rebounding locks..... 13.00

THE GALLAGHER SINGLE BARREL BREECH-LOADER.

Action, by throwing down a lever, as in the Ballard Rifle, the barrel tips up, as in the Stevens' and the shell is ejected at the same time. The Barrel is of the best decarbonized steel, and the action is case-hardened—one of the strongest guns on the market. Gauge 12, length 30 inches. Price only.....\$10.00.

THE IMPROVED "CLIMAX" BREECH-LOADING SHOT GUN.

With Patent Safety Attachment. The Cheapest Breech Loader of the Age.

The "Climax" single breech-loading shot gun, is made throughout in a substantial manner. The barrel is 12 gauge, good strong back-action lock; positive extractor; blued steel mountings, checkered walnut stock, barrel 36 inches, weight 7 to 8 lbs. The barrel is decarbonized steel, same as Enfield rifles. With each "Climax" gun we give, free, 10 Kynock brass shells, warranted to reload 100 times, with moveable anvil, requiring no tools for recapping. This gun is within the reach of every one, and does wonderful execution. Patent block lock attached. Reduced Price \$5.00.

No. 912.—The "Pioneer" Single Breech-Loader. The action is similar to "Climax," but case-hardened lock and mounting, regular gun-stock fancy walnut, checkered in break-off and fore-arm, oil-finished, 12 gauge, 32 to 36 inch barrel. Complete, with 10 Kynock brass shells.....\$6.00.

FLOBERT RIFLES.

- No. 100.—Remington Action (as shown in cut), walnut stock, using either 22 cal. long or short cartridge, or the Bulleted breach cap for parlor use; smooth bore \$8.00
- No. 101.—Same as No. 100, but with finely rifled barrel for long range shooting \$9.00
- No. 104.—Same as No. 101, with heavier barrel, stronger made; sporting size \$10.00

- No. 110.—Warrant Action; 32 cal., heavy barrel, well rifled blued barrel. A good sound rifle, adapted to hunting squirrel, geese, &c. Price \$12.00.
- No. 111.—Same as 110 but with pistol grip stock \$13.50.

SPENCER REPEATING RIFLES.

Tremendous Reduction in Prices.

\$15.00.

A Seven Shot Repeating Rifle for \$15.00.

Perfectly new and guaranteed in every respect.

Spencer Rifles.—7 shots, 32 inch barrel; rim fire; 56 calibre; full stock and steel wiper; finely blued barrel; walnut stock; well finished case-hardened locks. Every part new and in splendid order. This rifle is specially adapted for large game, and excellent for long range shots. Sighted to kill at 1,000 yards. This is the cheapest repeating rifle ever offered in Canada. Action safe and simple. Parties wanting a rifle for quick shooting do not miss this chance. Competition defied. Remember, every one warranted in every respect. Special reduced price, \$15.00.

SHELTON'S

AUXILIARY RIFLE BARREL FOR BREACH-LOADING SHOT GUNS.

One of the most convenient methods of converting a shot gun into a rifle, will fit ten or twelve gauge. The rifle barrel slips inside the shot barrel, and is twenty inches long. Calibre, 38 and 41, central fire. Rod, brush and extractor, with full directions, sent with each barrel. In ordering, be very careful to give exact gauge of gun. The simplest way would be to forward a shell base. Reduced Price, complete, \$12.50.

Extra for folding peep sight \$3.00.

N.B.—The price, \$12.50, does not include the gun shown in the cut, which is put there simply to show how the barrel is inserted.

STEVENS' RIFLES.

Domino hands of 1/2 inch cards rounds p/pected 1/2 gratis, a

REMINGTON'S IMPROVED NO. 3 RIFLE.

A TWENTY-SIX SHOT REPEATING RIFLE FOR \$18.00. EVANS' RIFLE—LOWER THAN EVER.

28 and 30 inch Barrel.

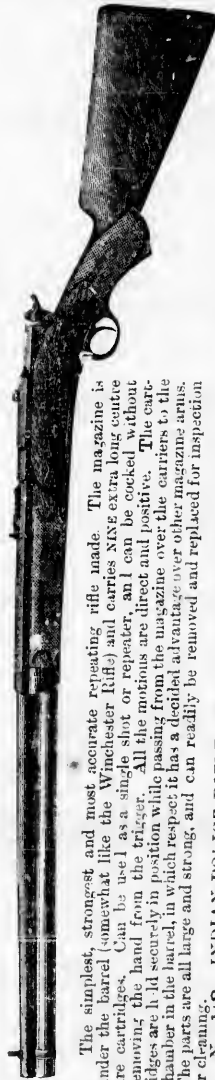

No hammer in the way. Throwing down the guard ejects, loads and cocks. Accurate up to 1,200 yards. Without any exception the quickest fired and simplest Magazine Rifle in the country. The new model Evans' Rifle, 44 calibre long, represented by the engraving, which we sell at \$18, is the most remarkable offer made by any gun dealer in the Dominion. We wish to introduce this Rifle, and have temporarily reduced the price in order to place them in the hands of all the leading sportsmen in Canada. The magazine is located in the stock, and carries 26 rounds of two inch cartridges. Can be loaded in half a minute and discharged in fifteen or twenty seconds; or can be fired twenty rounds per minute by using as a single loader. Every part of the rifle is made of best materials, and can fully inspected before they leave the factory. Length of barrel about thirty inches. With every Evans' Rifle we give, gratis, a box of cartridges and samples of three ball cartridges. **Special Cut Price, \$18.00.**

REMINGTON'S IMPROVED NO. 3 RIFLE.

This rifle is designed especially for long range target shooting, and for general use as a sportsman's and hunter's rifle, being constructed with special reference to the use of a reloading shell. It has a solid breech block with direct rear support, side lever action and rebounding hammer, so that the arm always stands with the trigger in the safety notch, thus rendering premature discharge impossible, and it is believed to be the best in the world for the purposes described. There are all made with pistol grip stocks, which heretofore have been furnished only with the higher priced rifles, and are chambered for the 40 cal. shell, using either a patched or a plain shell. Walnut stock. 25 inch barrel. Sporting sight. \$25.00.
No. 110. Hunters or Sporting Rifle, using 1 1/2 and 2 1/2 inch. "straight shell. Walnut stock. 25 inch barrel. 33.00.
No. 111. Combination peep and open rear sight. Beech from sight. 33.00.
No. 112. Creedmoor stock. Rubber butt and tip. Verner rear and wind gauge front sight. 53.00.

THE NEW REMINGTON MAGAZINE RIFLE.

The simplest strongest and most accurate repeating rifle made. The magazine is under the barrel (somewhat like the Winchester Rifle) and carries NINE extra long centre fire cartridges. Can be used as a single shot or repeater, and can be cocked without removing the hand from the trigger. All the motions are direct and positive. The cartridges are held securely in position while passing from the magazine over the carriers to the chamber in the barrel, in which respect it has a decided advantage over other magazine arms. The parts are all large and strong, and can readily be removed and replaced for inspection or cleaning.

No. 113.—INDIAN POLICE RIFLE Model furnished Interior Department for arming the Indian police. Plain walnut stock, military finish, with swivel for slings, 24 inch barrel, carrying nine cartridges, 45 calibre. \$22.00.
No. 114.—HUNTERS OR SPORTING RIFLE. 45 calibre, 70 grs. powder. Same exactly as the engraving. Fine hand made Ciscaasia walnut stock, pistol grip and checkered forepiece. Elegant in proportion, and finished in a first-class manner.....\$35.00.

No. 2.—Same, with octagon barrel, using the 44 calibre Winchester centre fire cartridge; 30 inch barrel weight, 9 lbs. Price, \$25.00.

No. 5—PACIFIC RIFLE.

Octagon barrel, double set triggers, extra heavy wrought frame, cleaning rod under the barrel, Rocky Mountain sights.

As its name indicates, the favourite on the Pacific coast. It is the hunting rifle of the West, and enjoys the best commendation from the hunters of buffalo, elk, deer, bears, and the large game of the Far West.

Weight, 10 to 12 lbs.; length, 30 inches. Price, with tang peep sight, \$37 50

No. 5.—Without tang peep sight, 32 50

THE PIEPER RIFLE.

THE MARKSMAN.

This rifle, the invention of Mr. H. Pieper, is made to meet the demand for a reliable small bore rifle at a low price. It is made entirely by machinery, which makes the cost much less. The name of the maker is alone a guarantee of excellence. The barrel is made from the best steel finely polished and blued, and the stock of the best selected English walnut, polished and oil finished, with handsome pistol grip, fully checkered on grip and fore end. The action is similar to the Ballard, very strong. The lever and breech block are forged in one piece from the best Norway iron and case-hardened. Finely engraved rubber butt plate. We offer it with every confidence. The shooting is guaranteed to give entire satisfaction.

Weight	9 1/4 lbs.

CARBINE.

Price	\$18 00
Length of Barrel	20 inches.
Calibre44
Number of Shots	13
Weight	7 1/4 lbs.

This Model can be used only with .44 Rim Fire Cartridges.
 Powder, 28 grs. Lead, 200 grs.
 Price, per Box of 50, 75c.

The system and operation of the Winchester is easily understood. It is operated by simply throwing down the guard, which extracts the old shell from the chamber, throwing it off at the top, cocks the hammer, and places a new cartridge in the firing chamber. This motion may be executed while the gun is at the shoulder without taking the eye from the sights, thus enabling the firer to discharge two or more shots without removing the gun from the shoulder or losing sight of the object it is desired to hit.

No Discount allowed on any Fire Arms or Sporting Goods in this Catalogue.

38 CALIBRE WINCHESTER—CENTRE FIRE.

This arm is intended to meet a large demand for a small bore repeater, suitable for small game. It is slightly lighter than Model of 1873; and with the exception of weight and calibre, is made in all respects and styles exactly like it. The cartridge contains 40 grains of powder and 180 of lead, and is in form like the cut. This gun gives accurate shooting up to 300 yards, and is a convenient rifle for glass ball shooters.

Average weight 24 inch round barrel	8 lbs.

THE NEW 32 CALIBRE WINCHESTER—CENTRE FIRE.

The 32 Calibre Winchester, now offered for the first time, is intended to meet a large and growing demand for a repeater of small calibre. It is a modification of the Model of 1873, using the same frame, or receiver, but with a lighter barrel, and magazine of smaller diameter. It is considerably lighter than the Model of 1873, and is designed for small game at short range, and will be found the most accurate small bore rifle in the market; especially valuable for hunting squirrels, geese, etc. All the guns of this calibre will be made with rifle butt stock, with solid butt plate, and without the cleaning-rod usually put in the stock. Price same as Model 1873. The cartridge used with this arm is centre fire (see cut), and contains 20 grains of powder and 115 grains of lead.

Schleber's Long-Range, Thread Wound Shot Cases

—FOR—

Breech and Muzzle Loading Shot Guns.

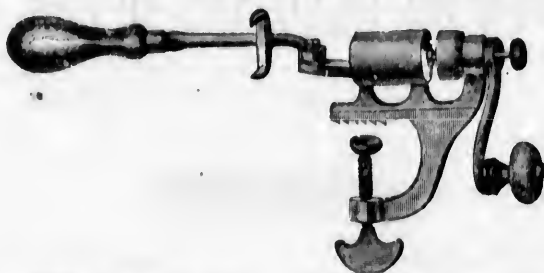

DESCRIPTION.

This Case consists essentially of two semi-cylindrical pieces of tin, containing the shot, and wound with thread to be unwound by the friction of the air. When this is all unwound, the pieces separate and the shot scatters. The penetration of shot thus confined is very great, and any desired range, up to 90 yards, may be reached by varying the mode of winding. The Case when loaded is heavy in front and light in the rear, to keep it from going end over end. We furnish these Cases for 10, 12, and 14 gauge breech-loaders (fitting 10, 11, 12, 13, 14, and 15 gauge muzzle-loaders), and adjusted to open just short of the three distances, 50, 70, and 90 yards. The cases are sold empty, to be filled by the purchaser with any kind of shot down to No. 2 Buck.

The Cases may also be made to go solid, as is often desirable in the face of large or dangerous game; the bolt thus used will be found very accurate, much more accurate than round balls, up to 20 rods.

PRICE per 100, per express, \$4.50; Price per box of 20, per mail post-paid, \$1.00. Full directions how to use them sent with each package.

GUN IMPLEMENTS.

Shell Closers or Turnovers.

The "Premier."

The new Single Breech Loading Shot Gun, new and improved model.

The "Premier," as shown in above cut, possesses the following improvements:—Pistol grip, well finished walnut stock, rebounding lock, patent fore end, automatic shell ejector. It has also the new and popular top lever action; the action, lock, and mountings are handsomely *case-hardened*, adding greatly to the strength and appearance. The barrels are of the best decarbonized blued steel, same as used in \$15.00 Breech Loaders, and is Full Choke Bored, which is a guarantee of accuracy. The parts are all interchangeable and the workmanship A No. 1. This is one of the finest finished and smoothest working guns we have ever sold for the price. Have put the price at a very low figure—within reach of all. 12 gauge, 30 and 32 inch barrel, weight 6½ to 7 lbs. Satisfaction guaranteed. Price, only\$16.00.

The "Champion" single Breech Loader.

No. 50.—"NEW CHAMPION." Top Snap action, operated either to right or left, re-bounding lock, checkered pistol grip, patent fore end, nickel trimming, plain barrel. Highly recommended for close shooting. Special reduced price\$16.00.
 No. 51.—"NEW CHAMPION." Twist barrels, re-bounding lock, checkered, pistol grip, patent fore end, nickel trimming; a magnificent gun; shooting qualities guaranteed; 12 gauge. Special reduced price..\$18.00.

CHAMPION.

No. 52.—"NEW CHAMPION." Single Breech-loading Shot Gun, side snap action, fine decarbonized steel barrels, nickel plated frame; highly recommended; shooting, first class. Furnished in 12 gauge. Price only.....\$14.00.
 No. 53.—"NEW CHAMPION." Side snap action; same as No. 52, but with renning twist barrels; beautifully finished, guaranteed to give entire satisfaction. Special cut price.....\$16.00.
