BOARD'S PROPOSAL MEETS OBJECTION

Aldermen Begin to See Through Plan for Reorganization of Firemen's Fund. MEMBERS' OPINIONS Young Men See No Inducement to Pay Money Into Treasury.

It is evident that the plan recommended by the board of control for the reorganization, actually, of the firemen's benefit fund, will not go through. The board met on Monday with a little discussion as characterized by the passage by the board of the proposed law, but there are in the council a number of aldermen who do not fully understand the pension fund "middle" and the events which led up to the present need for reorganization.

Working Men's Gloves, Mitts and Gauntlets, Many Less Than Cost of Production, Per Pair, 98c

For this item we cannot take phone or mail orders, the quantity being limited. Not more than three pairs to a customer.

It's the Glove event of months—perhaps years—in fact, we can scarcely recall anything of the kind to equal it. There's scarcely a pair of gloves, mitts or gauntlets in the entire collection that wouldn't in the usual way sell for twice, or more than twice, this price, for in the majority of cases 98c is away less than they could be made for at the factory today.

We secured them at a most remarkable figure, and today we pass them on to the many engineers, the brakemen, the teamsters, the motormen, the linemen, and even the motorists, at 98c a pair. There are horsehide gauntlets with warm fleece lining, mitts of Alaska horsehide, with knitted cuffs, buckskin gauntlets, horsehide gloves, tie string wrists, and such a host of others—buckskins, muleskins, goatskins, sheepskins, and even pigskins, fleece-lined—we could scarcely begin to describe them here. But you may well depend upon it that they're all good, sturdy gloves, for they are one of Canada's most popular brands—many of them guaranteed by the makers not to rip. So come today, and come early. If you cannot come yourself send someone to buy for you. Extra salespeople, and space to facilitate service. Extra special, today, pair... 98

GIVE UP PATRIOTIC BUTTONS.

Returned Men Must Hand Them in or Be Fined.

The desirability of giving up the patriotic fund button given to overseas men on their return to Toronto came up again yesterday at the W. V. A. headquarters. All A class men from France are ordered to hand over their patriotic fund buttons upon receiving the government one, and Secretary O'Connor pointed out that a few weeks hence any man found on the streets with a 'patriotic' button would be brought before the proper authorities, and would be held liable to a fine of \$50. The idea had, primarily, he said, been one of safeguarding the real veteran. So many men who had never been out of Canada had been buying or otherwise procuring these returned men's buttons, and thus imposing upon the public in general. Hence the new regulations, which are very strict.

VENDOME BEING RAZED.

Before the end of the year Toronto will have a fine, new first-class Children's Restaurant. This will be built on the site of the old Vendome Hotel, which is at present being demolished, on the southeast corner of Dundas and Yonge streets. As soon as the present building is torn down the contractors will begin on the new building. The Childs Company has its own architect, who is busy on the plans at present. The building will be a three-story one, having the restaurant on the ground floor, and offices above. The contractors agree to have it completed in nine months.

STEAM LINE TO MAITLAND.

Toronto, Hamilton and Buffalo Railway Opens Industrial Site.

The Toronto, Hamilton and Buffalo Railway is running a line from Dunnville to Port Maitland, on the Grand River, Hon. W. D. McPherson, provincial secretary, announced yesterday, and has a large area of land, between four and five miles long, which will be developed for an industrial site. If present plans carry... In view of this the company has asked that roads and approaches leading to the Grand River in this vicinity be closed up and has secured permission to do so from the county and township councils concerned, and the federal government, has waived its rights. Hon. Mr. McPherson has promised to look into the matter.

HUNDRED RECEIVED COAL.

The central branch of the G. W. V. A. in Toronto has dealt with about a hundred requests for coal, during the past week. Both President James Tweedle and Secretary Geo. Murrell are under the weather, and Mr. Tweedle, so it is understood, is undergoing an operation at the General Hospital for appendicitis.

SEMI-CENTENNIAL OF ODDFELLOWSHIP

On the night of Jan. 14, 1868, a number of Oddfellows visited Toronto and instituted Canada Lodge, No. 49, and laid the foundation of Oddfellowship well and securely. The oldest lodge last night celebrated its semi-centennial in the temple, 228 College street, a great many friends and grand lodge officers being present to grace the occasion.

The assembly hall was decorated with flags and banners, the platform banked with flowers and palms. Alf. Coyett, P. D. D. G. M., was chairman, and with him on the platform were Grand Master Mann, from Hamilton, grand secretary and all the past officers of the lodge. Mr. Coyett, in his opening address, gave some interesting items of history in connection with the I. O. O. F. in Toronto. When Canada Lodge was organized there was but one lodge in Toronto. There are now 40 subordinate lodges, 11 encampments, two cantons, one degree lodge and 13 Rebekah lodges. The membership in Canada Lodge is 232. The reputation of this lodge has been to never have to ask a ruling from the grand master. The oldest living member, John Hearst, was introduced and welcomed. The grand master gave an interesting address on the influence of Oddfellowship, and presentation of jewels were made to Veterans Pike and Taylor. The floor was cleared for dancing after the program and a happy time enjoyed.

THROW OPEN STAR.

The Kiwanis Club will entertain 75 soldiers from the Davisville Hospital next Tuesday afternoon at a theatre party at the Star. The theatre has been thrown open to the men through the kindness of Dan Pierce, himself a member of the Kiwanis Club. Smpkes and chocolate bars will be given the men during the performance.

ORDINARY FREIGHT IS MUCH CONGESTED

Use of Engines for Hauling Coal Ties Up Many Other Lines of Merchandise.

Freight is pretty much at a standstill around the Union Station and conditions at the Toronto freight yards are said to represent conditions throughout Ontario. One official stated yesterday that some consignments of freight had been lying in the cars here for two and in some cases, nearly three months. The stagnation is, in great measure, due to the need of engines to haul coal, and also to the fact that the whole system having the single aim in view of getting coal and other very necessary commodities to their destination, the ordinary consignments are being left until the coal situation becomes less acute.

WAITING ON MACKLEM.

Veterans Do Not Know Whether or Not He is a Colonel.

District Secretary O'Connor of the G.W.V.A. stated yesterday that there was no doubt in the minds of the general executive of the association as to the authenticity of "Colonel" Macklem's inventions, and that he had been conditionally permitted to wear the uniform of a British imperial officer while in England. The question, however, of the right to the title "colonel" had not yet been decided. "Some weeks ago," said Secretary O'Connor, "Colonel Macklem stated that he could not reach his attorney in Detroit. We advised him to procure power of attorney to get into touch with his attorney, and to get from that man the cablegram alleged to have been received from General Sir William Robertson acknowledging his right to the title. We have not yet received any further word of Macklem's intentions, and until we do we shall not be able to deal further in the matter."

TORONTO CAMPAIGN AGAIN SUCCESSFUL

Three-Million Objective is Achieved and Exceeded After Strenuous Work.

ENTHUSIASM AT LUNCH Great Rejoicing at Concluding Meeting at Simpson Building Last Night.

The three million dollar campaign of the Red Cross and the patriotic fund, which has lasted for the past few days, is now a matter of history, and the success of those funds are richer by \$3,133,348.39.

One collector received a letter enclosing a dollar bill and a "shill-shill" with these words: "I wish it were a thousand dollar bill. I took them with me from Canada and they have seen service for three years. Three times have they gone over the top with me. They go to no better cause than the patriotic fund."

All the advertising matter and large display cards and signs have been given to the committees that are to undertake similar campaigns in Hamilton and Ottawa in the near future.

A dinner with the members of the Robert Simpson building on Mutual street at which the full returns were given to the committee, and the feelings in the room were of the most glowing, with toasting horns and throwing papers at each other with high sips of champagne and shouting.

At the close, Miss Phyllis Nelson-Terry spoke briefly, saying how much she appreciated what the women of the British Empire today, Mr. Lewis, of her company, also spoke and said that the most wonderful gathering he had ever seen in his life.

Major-General Mewburn, on behalf of the Ontario Government, conveyed the thanks of Sir Wm. Hearst and the people of Ontario to the workers in this work, and said that it was the province's duty to recognize the splendid work done by her husband in the campaign.

The meeting was over Mr. Miner given an opportunity of displaying his fowl at last. Later Harry McCreedy of the T. Eaton Co. purchased them from Mr. Miner for \$250.

Among those present last night at the dinner were Hon. T. M. Gregory, Mayor of Leamington, who has generously donated twenty thoroughbred fowl for sale for the fund, tried to auction his birds, but owing to so much going on and the din and confusion it was impossible to do so.

WOMEN ARE HAPPY OVER BIG VICTORY

Untiring Effort Marks Their Work in Final Stages of Campaign.

THANKS ALL ROUND No One Overlooked in General Felicitations at Wind-Up Dinner Last Night.

"I want to thank the grand women who came forward in this campaign," was the message of the Mayor of Toronto in his address at the closing meeting of the Patriotic and Red Cross rally last night.

The great hall in which the message went out to the women of Toronto was surcharged with the spirit of victory for the effort and women who were present, a thousand and more, had, with the assistance of Toronto's citizens, gained their objective—they had rolled up the grand total of \$3,133,348.39, of which the women's committee had gathered \$205,613.39.

But in the middle of all this congratulation the workers themselves were humbled by the standard of women in the world and as noble as the women of Toronto.

Special Thanks to Schools. The women of Toronto, who included the splendid offering of the boys and girls of the schools and from the teachers, who had given such splendid gifts, and for these Mrs. Van Koughnet has a special word.

The credit of this grand result is due to the untiring effort of our boys who have set such a high standard that the people at home simply cannot fall.

LUMBERMEN MEET AT SECOND ANNUAL DINNER

Trade Must Prepare for Slow Year in Building Operations is Opinion of One Speaker.

Two hundred members of the lumbermen's section, Toronto board of trade, were present at the second annual dinner of the association held last night in the Royal Bank building.

Those attending included J. L. Campbell, J. C. Kent, Jos. Oliver, Controller S. McBride, Andrew J. Eady, Jr., North Ontario, Wm. D. Patterson, W. C. Irwin, W. J. Atchison, Hamilton, A. G. Rose, Ottawa, P. M. Barstow, Ottawa, J. J. Shilton, Dunnville, A. C. Grafton, Montreal, A. C. Mau bert, W. S. Laidlaw, W. J. Lovinger and W. B. Lummis.

J. B. Reid, president of the lumbermen's section, toastmaster of the evening, spoke of the success the organization had already realized and the benefits felt thru the co-operative movement.

H. J. Terry, who was one of three speakers dealing with the general matters of "trade problems," gave the wholesalers' view. He told of the trouble in the railways, owing to abnormal conditions, in giving the necessary transportation equipment to the wholesalers, thus handicapping them in sending stocks to the retailers.

John C. Kent, ex-president of the lumbermen's association, held the keynote of the convention in Toronto during the first week of the Canadian National Exhibition. He made a special plea for the lumbermen to hold their ground in the face of the tariff and the United States during the year 1918.

MAJORITY FAVORS NATIONALIZATION

Some Members of Cabinet, However, Prefer a Temporary Alternative.

ONLY LOGICAL WAY Premier Believed to Be in Favor of Permanent Policy for Railways.

Special to The Toronto World. Ottawa, Jan. 25.—The railway problem continues to engage the attention of the government. Some decision is expected in the near future, after the formal announcement may await the summoning of parliament.

The Canadian Northern took an active part in the hearing of the rates case before the railway commission yesterday, being represented by Judge Phillip, general counsel, and Mr. D. B. Hanna, vice-president, and general manager. It was not explained why the Canadian Northern people should be bothering their heads about freight rates, if the government is taking over the road, but it is suggested that the Canadian Northern staff expect to take an active part in the management of the new national system under government control.

The Canadian Pacific, on the other hand, is anxious to keep its organization intact. The Canadian Pacific would not object to the application of President Wilson's plan to the Canadian railways if that plan would not disrupt its organization. They suggest that the government might solidify the roads into one system for the period of the war and have that system operated under government supervision and control by the Canadian Pacific staff, which has proved its efficiency under corporate management.

The fact is that the government is in a quandary. It is not clear whether it will nationalize the railways or whether it will adopt some other plan. Some members of the cabinet are in favor of nationalization, while others are in favor of a temporary alternative.

RAILWAY WORKERS ASK SOME FAVORS Large Deputation Before Premier Hearst and Cabinet Seeking Legislation. DISCUSS ACCIDENT Seek Larger Recognition of Standing in Community Than is Shown.

Exemption from income tax up to \$3000 a year. Amendment to election act whereby railwaymen may be able to vote the way from home. Increased allowance under Workmen's Compensation Act of 100 per cent. to widows and children.

Larger recognition of the standing in a community of locomotive engineers than that accorded Engineer Ross at the time of the fatal accident at the Union Station when Col. Macdonald was killed.

The deputation was introduced by C. Lawrence, legislative representative of the Brotherhood of Locomotive Engineers and comprised representatives from all the principal divisional points in Ontario.

Income Tax Reduction. Mr. Lawrence pointed out that the increased cost of living and the fact that an engineer was obliged to live away from home part of the time and at the same time keep up the home urged them to ask that the exemption be increased by \$500 a year.

Election Reform Asked. An amendment to the election act making it possible for engineers and other railwaymen to vote was partially passed, it being stated that at the present election 50 per cent of the railwaymen were unable to cast their ballots.

Indignation Expressed. Indignation over the treatment accorded a brother engineer was freely expressed. Mr. Crawford said Engineer Ross had been too severely dealt with and with others emphasized the point that the mere fact that a man was a passenger engineer and had been entrusted with the running of a passenger train was sufficient to warrant a trial by jury.

SHE DARKENED HER GRAY HAIR A Kansas City Lady Darkened Her Gray Hair and Made It Soft and Glossy by a Simple Home Process. She Tells How She Did It. A well-known resident of Kansas City, Mo., who darkened her gray hair by a simple home process, made the following statement: 'Any lady or gentleman can darken their gray or faded hair and make it soft and glossy with this simple recipe, which you mix at home: To a half pint of water add 1 oz. of bay rum, 1 small box of Orle's Compound and 1 oz. of Stovebrite. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently. It is not sticky or greasy and does not rub off. It will make a gray-haired person look 10 to 20 years younger.'

where had felt personally hurt. The case was fully reviewed and in answer the premier stated that the matter was out of the provincial government's hands, and that the matter of hall rent was entirely with the magistrate. 'We had no power to act directly in the matter,' he said, but he expressed sincere sympathy for Mr. Ross. Hon. Mr. Lucas concurred in the premier's remarks, and said circular letters would be sent to all magistrates directing them to see that in such cases the accused would be given the opportunity to change from his working clothes before being called before a court or inquest.

In conclusion, Premier Hearst said: 'If you feel you can say there was any vindictiveness or malicious intent upon the part of any officer of this government or that any officer was improperly influenced there will be an investigation, but if you believe that, altho the conditions were against you, the officers were acting honestly in an effort to fulfill their obligations to the state, that is another matter.'

Chief Smith Silent as Committee Wields the Pruning Knife. CLOSE FIRE HALL St. Clair Station to Be Dispensed With, to Save Salaries.

The pruning knife was used rather freely by the property committee last night in dealing with the 1918 estimates of the fire department, with the result that \$64,838 was shorn from the figures submitted by the chief. The estimates now stand: Draft Revised, Maintenance \$591,279 \$576,527, New Equipment 78,762 23,822, High Pressure System 24,478 24,478, Grant to Pension 8,750 8,750, Total \$665,032 \$600,149.

Little opposition was put up by Chief Smith to any of the cuts in his appropriations. As each item came up for discussion and was challenged by one of the members of the committee the chief gave whatever explanations were necessary, and raised no objections to the free use of the pruning knife.

The chief asked for several large items of new equipment in his estimates, but all the larger ones were cut out entirely except a new automobile for the deputy chief. Eighteen hundred dollars had been asked for a 'five-year' would be good enough for the department and cut this to \$600.

Editor World: A suggestion to the title of your daily paper, The Toronto World, as a news agent directly in touch with the public and keenly interested in their various moods and whims, one of which is the feeling that all newspapers are now of one policy, which is to the variety-loving public something monotonous.

What is to prevent people hoarding when prices are skyrocketing? It is easier to control prices than to stop hoarding. In one case it is to the interest of the general public to see that prices are reasonable, and kept so; and in the other, it is nobody's interest to stop hoarding because in the fear of higher prices it is natural that everyone should hoard.

ANSWER TO PREMIER

Von Hertling Makes Ambiguous Remarks on Belgian Policy.

London, Jan. 25.—Count von Hertling, imperial German chancellor, disagreed with certain foreign newspapers, which interpreted the recent speech of Premier Lloyd George as showing an earnest desire for peace and even friendship for Germany...

There was no difference between Germany and President Wilson regarding the freedom of the seas. The thorough freedom of navigation during time of war, as well as in peace, was one of Germany's main demands.

There, too, difficulties have yet to be overcome, but the prospects are favorable. We hope shortly to reach conclusions which will be economically advantageous.

The chancellor said the question of the limitation of armaments was quite open to discussion, adding that the financial position of all European countries after the war would probably operate most effectively for the solution of this problem.

"Point 15 deals with Poland. It was not the intent of the negotiators and empty words for Poland and before the war never interceded for Poland with Russia—but the German Empire and the Austro-Hungary Empire liberated Poland from the czaristic regime which was pushing her national characteristics."

"The last point, the 14th, deals with a bond of nations. I am sympathetic to this point. I am sympathetic to this point, as my political activity shows, toward every idea which eliminates the possibility of war and which promotes a peaceful and harmonious collaboration of nations."

"Gentlemen, you have questioned yourselves with the speech of Premier Lloyd George and the proposals of President Wilson. I must repeat what I said at commencement: We now must ask ourselves whether these speeches and proposals breathe a real and earnest wish for peace."

"The leaders of the entente must first renounce this standpoint and this deception. In order to facilitate this, I would like to recall what the

position really is. They may take it from me that our military position was not so favorable as it is now. Our highly gifted army leaders face the enemy with undiminished confidence in victory.

London's Opinion. London, Jan. 25.—Chancellor von Hertling's speech was characterized today by Lord Robert Cecil, minister of blockade in a statement to the Associated Press, as a "very warlike, certainly not a peace, speech."

On the vital question of Belgium, the German chancellor's statement is considered so indecisive that it might be construed to cover any course Germany might take in the event of the collapse of the peace negotiations.

Count Czernin's proposal that peace negotiations shall practically be begun by Austria-Hungary and the United States on behalf of the two groups of powers is one which is received with marked interest. The proposal, which seems certain to be met with a decisive negative in England, however, is Count von Hertling's demand that the peace conferences shall involve a reconstitution of the world's colonial possessions.

London, Jan. 25.—An absolute demand is made here of the German claim that the Goeben sank a transport of 2,000 tons, as there was no vessel of such a character in that vicinity. As for the German claim of the destruction of a signal station, nothing is known of such an event and it is pointed out that the "signal station" might consist of a hut, a mast and a flag.

The British naval authorities are very well pleased with the result of this little action. Two important Turkish-German vessels, supported by several Turkish torpedo boats and one Turkish cruiser, as well as an unknown quantity of submarines, have been put out of action by the action of a couple of destroyers, and a few seaplanes. Unfortunately there has been some loss of life among the crews of the British monitors, but it is counterbalanced by the loss of the Breslau and the probable loss of the Goeben.

All German Sailors. As far as it is known, all the enemy sailors were German. It is believed the Goeben and the Breslau were attempting a "stunt" in the archipelago after the fashion familiar enough in the North Sea, and perhaps were impelled by impatience in Constantinople at the inaction of these two powerful vessels.

Experts here are frankly amused at the German pretense that the loss of the Goeben, off Nagasaki, Point was done voluntarily. They point out that Nagasaki is the last place in the world where any seaman would desire to beach his vessel. A strong current runs around it which makes it quite impossible to build a coffer-dam around it for salvage operations. It is therefore quite clear that the Goeben has run ashore as the only means of saving her crew, and that she will probably be a hopeless wreck, if not made so already by the bombs dropped by British sea planes.

Ottawa, Jan. 25.—Disfranchised Japanese residents of Canada, who have recently been exempted from compulsory military service. The same order also provides likewise for the exemption of Indians in making the following amendments to the military service act.

"Any British subject who, under the act in force from time to time, is disqualified from voting at a Dominion election, otherwise than under section 67 of the Time Elections Act or the War Exemption Act, shall be entitled to exemption from military or naval service, unless he has in fact voted at a Dominion election, altho disqualified at the time from so doing."

"Any Indian who may make application for the exemption of any Indian attached to the reserve over which such Indian is attached, or any other person, shall be necessary for the registrar to assign to a local tribunal any application made or submitted by an Indian agent on behalf of an Indian, but the registrar shall forthwith issue to such Indian and transmit to the registrar for every other person a certificate of exemption from military service being hereafter called upon to perform any military duty, may then put forward any claim for exemption even from non-combatant service which he may then have."

A delegation representing the Six Nations Confederacy of Indians waited recently on the governor-general to request that Indians be not subjected to compulsory military service on the ground of their already splendid record of duty, and on the ground also that the imposition of such a duty was an infringement of Indian treaty rights.

ADVICE TO GIRLS

By ROSALIND.

DEAR ROSALIND: I am a girl of 16. I have had a very sad life. I never go out very much. Other girls of my age have beaux, but boys do not seem to pay any attention to me, and most everybody says that I am good-looking.

DEAR ROSALIND: Tell me, is it improper for my friend to smoke in the parlor when he asks my permission and I do not object? Should I hold his overcoat for him if he asks me to? Is it rude in me to take my friend about his other girl friends?

MY DEAR ROSALIND: When you are so good and kind to others by helping them solve their big problems, I know you will help me.

DEAR BLUE EYES: I should think you would get lonesome giving up your girl friends and their good times.

DEAR TROUBLED VIOLET: There are many ways than one of showing your objection to being kissed.

DEAR ROSALIND: I have read the good advice you give to others, so I thought I would come to you as your advice about a difficult problem.

DEAR ROSALIND: I am a young girl about eighteen. I have been keeping company with a soldier whom I love very much.

DEAR ROSALIND: I have read the good advice you give to others, so I thought I would come to you as your advice about a difficult problem.

WIDE GULF FIXED OVER PEACE AIMS

Sharp Division Still Exists Over Alsace-Lorraine Question. Washington, Jan. 25.—That the sharp difference between the belligerents over Alsace-Lorraine continues, is evident from Chancellor von Hertling's speech, for his declaration that "there could be no talk of the cession of Alsace-Lorraine" is the answer to Lloyd George's demand that these provinces must be permitted to decide their own fate and to President Wilson's expressed statement in the eighth point of his fourteen peace aims, that "the wrong done to France by Prussia in 1871 in the matter of Alsace-Lorraine... should be righted."
