ON THE POLICYHOLDERS' BACK

Shareholders of the "Virtuous" Confederation Life Unduly Work the Man Who Puts up the Money.

FORM FOR SIGNATURE.

We being policyholders in an insurance company licensed to do business in Canada hereby sign this petition in support of a parliamentary investigation into all the operations of the company, with a view to amending the present insurance laws.

NAME..... ADDRESS..... INSURED IN THE..... COMPANY.....

The injustice to the policyholder who has had to accept for his premium much less money than he was led to anticipate by the companies—which has been made clear in "The World," is concomitant with the excessive prosperity of the shareholder, who should be a superfluous quantity.

Table with columns: Dividends in cash paid to policyholders, Dividends in cash paid to stockholders, etc.

Total net profits earned since organization: \$1,488,378

What does this formidable looking table prove? First, that there has gone to shareholders a clear gift of \$50,000 of surplus from surpluses earned by the policyholders' money, because even prior to 1882 the shareholders were receiving in dividends more than their investments could possibly earn in any business established by government permission and placed practically beyond attack.

Secondly, the table proves that since 1882 the dividends paid to stockholders over \$5000 per annum (which is ten per cent on the original \$50,000 invested), ought in fairness to have gone to the policyholder whose money made it amount to the respectable sum of \$198,177.

Thirdly, the table proves that the stockholders have taken 13.75 per cent of all the net gains made by the company since its inception—not had for a total cash outlay of only \$50,000.

Fourthly, the table shows that the shareholders have received a little more than their investments could possibly earn in any business established by government permission and placed practically beyond attack.

NICHOLS AGAINST THE KING

Who ever saw a quadruped with the hand that fed him? There are limits to the long-suffering dignity of a royal commission.

The government of Ontario appointed a royal commission to obtain certain facts connected with the utilization of the power to be developed from the Falls, and in pursuance of the express authority conferred by the King, they received Frederick Nicholls of the Ontario Electrical Development Company.

At first Mr. Nicholls said the president of his company would not take the responsibility of obeying the request, behind which was all the majesty of the crown.

It was thought that the limit of coolness in not obeying the requirements of lawful authority was reached a few weeks ago when in the United States, Mr. Rogers, one of the heads of the Standard Oil Company Trust, declined to answer before a state commission all the questions that were put to him as to his business in a distant state.

Mr. Nicholls, thru his paid agent, told the royal commission that it would be unfair to his shareholders to state what their works and the generation of power cost them, and what their works and the power produced thereby cost. He was strongly of the opinion that in giving the particulars demanded he would be guilty of a breach of faith with the shareholders of his company.

It has always been a melancholy experience for men to be ahead of their party, but it is only thru somebody persistently taking the disagreeable road that parties, after awhile, find themselves in paths of pleasantness.

Man doesn't always improve with age.

WILFRIED LAURIER'S WHISKY

Does—the older the better—that's what has popularized it.

Insurance that would carry out his predecessor's policy. Is this to be done? In Canada to be freed from the grip of the corporation, which has managed to deprive Canadian farmers of access to the railway stations, and has done its best to prevent rural communities enjoying the benefits of the place service?

Is the Dominion government prepared to meet the demand for a place railway fare? It is surely monstrous that residents in the United States can travel over Canadian railways at that rate side by side with a Canadian who is paying three cents or even more than that.

It is beginning to be understood that the domination of public rights to private gains must cease. There is a rapidly growing realization by the Conservative party of the magnitude of the issue, and of the need for taking occasion by the hand in so remarkable a development of national conviction.

Canada's greatest politician—his recent record before the public and the power of a statesman—was heard to the best advantage at the banquet of the University Literary and Scientific Society. Providence has blessed him with a command of mellifluous oratory and a vigorous sympathy for the interlocking interests whose interblending renders his oratory fascinating if not convincing.

At the time it was thought that such a contempt of the powers that be was forever impossible in Canada. To Mr. Nicholls belongs the unenviable distinction of setting at naught, in the most contemptuous way the authority specially commissioned by the head of the state.

Mr. Nicholls, thru his paid agent, told the royal commission that it would be unfair to his shareholders to state what their works and the generation of power cost them, and what their works and the power produced thereby cost. He was strongly of the opinion that in giving the particulars demanded he would be guilty of a breach of faith with the shareholders of his company.

AWARDING G. T. P. CONTRACTS MAY NOT GO ON. Montreal, Feb. 20.—The tenders for what will be the largest contract yet awarded by the Grand Trunk Pacific Railway were opened at noon today, but owing to the large number of tenders received the award will not be announced for a few days.

It is believed by the leading construction company that a change in the contract this time, and that instead of awarding the whole 350 miles of proposed line from Touchwood, Alberta to Edmonton to any single firm it will be divided among two or possibly three companies. This would permit of the works being pushed more rapidly than if it was awarded to one firm. The largest contract awarded up to the present was for 250 miles.

House of Industry. At the monthly board meeting of the Toronto House of Industry yesterday, with Rev. Dr. Broughall in the chair, reports showed: Immates, 134 males, 41 females; 16 families were placed for the first time, including 388 children; total families assisted since April last, 184; 266 persons, or 1070 hours for 612 nights and broke 121 tons of stone. Treasurer's statement showed an excess of \$13,822.

Murder Mystery Persists. New York, Feb. 20.—The police of New York were called upon today to investigate the death of Gusie Hart, an actress 59 years of age, who died in a cab while being taken to her home by several companions. The matter was first reported as a possible murder and several arrests were made. It developed, however, that the woman had taken a flight of twenty steps at an uptown café.

PRICE FOR NIAGARA POWER

SMALL CONSUMER'S CHANCE

Stipulation as to Equal Rates as Looks Well on Paper, But is Different in Practice. There are people who believe that competition between the companies at Niagara Falls will reduce the price of power in Toronto. They also rely upon certain safeguards which they understand were erected by the Ontario government for their protection.

These safeguards are embodied in the contract made between the companies at Niagara Falls and the power companies. They are summed up in the statement that power must be furnished as cheaply in Canada as in the State of New York. The clause relied upon is found in all the contracts. It is: "The companies, whenever required, shall from the electricity or steam power generated under the agreement, supply the same in Canada to the extent of any quantity not less than half the quantity generated, at prices not to exceed the prices charged to cities, towns and consumers in the United States."

What does this safeguard amount to? Clearly it amounts to nothing, except to bring it to the attention of the American market. The Electrical Development Co., one of the "Big Three" has yet to be heard from in the United States. For the present it is clearly within its rights to charge a higher price for power than the Ontario-Niagara Railway Company, who will transmit it to Toronto, and what price. A Toronto man cannot purchase his power from the company that brings it to him. A third company may yet be formed, which in turn will buy power in large quantities from the Toronto-Niagara commission and distribute it to the private consumer. These three corporations will be controlled by the same men, who in exacting their triple profit, will collect from the consumer every dollar that the traffic will bear.

But suppose that John Smith, plain citizen of Toronto, wished to buy a hundred horse power for his small factory and being unable to obtain satisfactory rates from the Toronto company, he decided to purchase his power from the Ontario Power Company. He will proceed, no doubt, to the fact that this company will furnish him with the same quantity at a similar price, the company tell him? He will learn that also the power generated by it is distributed thru the towns in New York, the Ontario Power Company has no customers either in Syracuse, Rochester or in other cities. The proper offer will inform him, as he did The World's representative but a few days ago, that this company has only one customer; that this lone customer receives their entire output at the international boundary. And what is the name of this customer?

It is the Niagara Lockport & Ontario Power Company. And let it be known that Francis Y. DeWolfe, Buffalo lawyer, the president of the Ontario Power Company, and also happens to be the president of the Niagara, Lockport & Ontario Power Company. In short, the plain citizen of Toronto who learns that, except at the end of a long and expensive law suit, he will be able to obtain a transmission line from the works of the power company, unless that customer be some corporation, like the City of Toronto, who is able to buy in large quantities and has the means and the legal right, if refused, to build a transmission line from the works of the power company. Competition between the power companies need not exist, at least in the Canadian market. It is safe—absolutely painless, and guaranteed.

ALLOTTING SENATORSHIPS

Four Gentlemen of the West Who May Be Dignified.

Ottawa, Feb. 20.—(Star Special).—Of the four new senatorships from the new Provinces of Alberta and Saskatchewan that are to be filled before the approaching session of parliament, it is expected that one will go to Rev. Dr. Douglas, ex-M.P. for East Assiniboia; one to A. B. Macdonnell of McLeod, and one to Benjamin Prince of Battleford.

Douglas sat in the house of commons from 1898 until 1904. Mr. Macdonnell is a native of Ontario and a Roman Catholic. He is a brother of Bishop Macdonnell of Alexandria. Mr. Prince is a French-Canadian, who has been for years a resident in the Northwest.

GOING TO JAPAN. The executive board of Methodist missions decided yesterday that Rev. Dr. Sutherland and Dr. Carman should be a delegation to proceed to Japan as soon as possible to look into mission matters there, and to meet the Japan mission conference, which is called for May 2. It is probable they will leave for Japan before the middle of March, and it is said that they will have considerable weight in definitely settling their going; then, too, changed conditions since the war have altered the spirit of the Japanese themselves, and their attitude toward the missionary is to be considered.

H. A. Walker Dead

Waukegan, Feb. 20.—Henry A. Walker, aged 57, nephew of the late Hiram Walker, and a cousin of the late John Walker, died of pneumonia. He had charge of the storage department of the Standard Bank of Canada.

Both candidates will be waiting in London ready to make a rush on Westminster, but the more remote of the electors will only hear of the result about a week later—if they are lucky.

Inspector J. L. Hughes was 60 years old today.

The hearing of the Patrick appeal case, by which it is hoped to save him from the electric chair, commenced in New York yesterday. He is now under review.

Perfect Manhood

Health of body, strength of mind, steadiness of nerves are the most precious gifts man can have upon the altar of his conjugal love. Regenerative operates on the nerves which control the sexual system, and infuse into it power and vigor. It is the lack of vital force, and the depletion of sexual energy that makes a man a weak man; it is the lack of vitality and power. Why be weak when you can so easily become strong? Regenerative awakens a man to a new life of restored vitality and power. Why be weak when you can so easily become strong? Regenerative awakens a man to a new life of restored vitality and power. Why be weak when you can so easily become strong? Regenerative awakens a man to a new life of restored vitality and power.

ASKED THEM AS A FAVOR NOT TO BE CUSTOMERS

One Way in Which Members of Supply Association Sought to Avoid Trouble.

Charged by Chief Justice Mulock with distorting the decision in a case cited by him as an authority, George Watson, K.C., counsel for P. McMichael, A. A. McMichael and H. P. Bush refused to change his decision, but withdrew the remark which the lawyer said reflected on him personally.

The issue was raised by one of the many legal objections which Mr. Watson raised to prevent the admission of certain evidence against the supply men, holding that it was only good against the corporate body and not against the members of the body personally.

E. J. Morris, formerly secretary-treasurer of the Supply Association and star witness for the prosecution, yesterday admitted that he was badly frightened and that he was unable to be present at the trial. The secretary of the Master Plumbers' Association, however, present, and gave similar evidence to that given in the joint trial.

E. W. Mann, the witness whom Justice Clute fell off of upon two occasions, occupied the box for considerable time, but did not try to evade any of the questions put to him. He stated that he entered the combine because he was promised \$2,000, but he would not have had the remaining \$500.

T. Stevens, former manager of the Manufacturing Company of London said he had never refused any man, but asked non-members of the association to favor not to press him for the goods.

HARBOR BOARD CHAIRMANSHIP
This Year's Appointment Sought by City's Representative.

At the annual meeting of the harbor board to-morrow the selection of a chairman will be an interesting matter.

This year's board consists of J. H. G. Hagarty and J. T. Matthews, representing the board of trade; Ald. Church and Keeler, representing the city, and F. S. Spence, who represents the Dominion government.

The chairmanship has been a prize for many years for the Dominion government's representative, while Mr. Matthews has been chairman for over 20 years ago. Mr. Spence was chairman last year.

Ald. Church is a candidate for the chairmanship this year. The late A. B. Lee, the Dominion government's representative, was chairman for several years, and it is felt the chairmanship should go around among the others now.

TEACHING R. C. CATECHISM.
Violation of Law Reported in Eastern Public Schools.

Kingston, Feb. 20.—Rev. C. A. French of Tweed declared in a public hearing, in urging that a protest be forwarded to King Edward against Prince Edward, the best and most intelligent of the railroad operators, and that he quits his post in disgust.

The vacancies in the cabinet probably will be filled temporarily until the meeting of the national assembly, and in all probability by the promotion of vice-ministers.

In leaving the department of commerce, Mr. Timmerman has severed his connection with the bureaucracy and will come out as a full fledged parliamentarian. He has been offered the leadership of the party and industry, one of the most important positions in the constitution.

COL. ROPER RESIGNS FOOT GUARDS' COMMAND
Ottawa, Feb. 20.—Lieut. Col. Roper, whose command of the Governor General's Foot Guards Regiment proved unpopular with the rank and file, has resigned his command, and will be succeeded by Major H. A. Rate.

The retirement will date a month hence, when he will have served sufficient to retain rank.

BELLEVEILLE WANTS SCHOOL
WILL SEND DEPUTATION HERE

Belleveille, Feb. 20.—A large and representative meeting of citizens was held in the city hall here to-day to discuss steps in regard to trying to secure one of the new normal schools for this city.

Resolutions were passed, and an influential deputation appointed to wait on the Ontario government in Belleville's claims as the best site for an eastern normal school.

Fire at London.
London, Feb. 20.—Fire, which broke out at 12:35 this morning, did damage to the extent of from \$5000 to \$7000 to the four-story building situated on Richmond-street, and occupied by Stevely & Son, dealers in stoves and tinware.

DROWNED CHILDREN AND SELF TRAGEDY OF CRAZED MOTHER

Anxious Always for Their Safety, All Four Plunge to Death From Steamer.

Fall River, Mass., Feb. 20.—When the Fall River Line steamer Plymouth reached this city from New York early to-day it was discovered that Mrs. John Waters had thrown herself and her three children into the sea, probably about midnight last night, when the steamer was off Point Judith. The children were Helen, aged 4; Dorothy, aged 2, and an infant son.

The empty state room, which Mrs. Waters had occupied, were two notes hastily written, in one of which Mrs. Waters wrote: "Dear Husband—Forgive this trouble. I have nearly broken my heart. Dear John, forgive me for causing you this sorrow, but I could not live, and I could not leave our children. I have worried so much I fear insanity and I could not leave the children."

In another she disposed of her personal property. Mrs. Waters was 39 years old, and the daughter of Mrs. J. M. Waters, a well-known manufacturer.

Mrs. Waters' mental trouble took the form of a desperate anxiety for her children.

SPORTSMEN SEE MINISTER.
Hamilton Branch of Protective Ass'n Present Recommendations.

A strong deputation from Hamilton, representing the local branch of the Ontario Fish and Game Protective Association, met on Hon. Dr. Reame yesterday and made several recommendations.

Among others it was asked that notices be posted in postoffices, railway stations and country stores, giving prominence to the fact that the game laws are to be rigidly enforced. They also called special attention to the destruction caused by carp.

The Ontario Fish and Game Protective Association met on Hon. Dr. Reame yesterday and made several recommendations.

The Militant Branch of the order is composed of nearly 10,000 members, and is one of the most powerful of any organization of which the city has heard.

OUR OVERCROWDED SCHOOLS
Five Emergency Classes Opened by Board of Education.

The new class to relieve the crowded Dewson-street school will open this morning in the Old Orchard rink, corner of Dovercourt-road. Brock-avenue will be somewhat relieved to-morrow morning, where the basement has been fitted up to accommodate about 50 pupils.

With the "sheep pen," which the contractor is urged to hustle along, in connection with Rosedale school, this will make five emergency classes.

SUICIDE ON STAGE.
Society Woman Leaves Seat in Box and Shoots Herself.

Denver, Feb. 20.—Leaving her seat in one of the boxes in the Crystal Theatre during last evening's performance, Mrs. C. A. Weidner made her way to the stage and, after flourishing a revolver for a moment in full view of the audience, discharged the weapon at her own person, inflicting a probably fatal wound.

Persons in the audience thought that the shooting was part of an act.

STRENGTH AND WEAKNESS OF THE MARKETS' ACTION

Firmness on Wall Street Followed by a Decline—Toronto Stocks Dull and Easy.

World Office, Feb. 20. Tuesday Evening, Feb. 20. There was very little change observable in the Toronto market today from that of yesterday. For the time being manipulation to a large extent has been relinquished, and consequently the market has been left to the free traders. The market was again clearly under the guidance of New York, the early strength and late weakness of the latter being evenly marked in domestic dealings. The market was not burdensome, and the only change was to be seen in the Toronto Railway, which was again clearly under the guidance of New York, the early strength and late weakness of the latter being evenly marked in domestic dealings.
