27TH YEAR LAFLAMME'S ADDRESS MOVES CLIENT TO TEARS IN QUEBEC LABEL SUIT Montreal Journalist, in Litigation With Hon. J. Prevost, Breaks Down—Case About Ready to Go to Jury.

QUEBEC, May 31.—(Special.)—Court completed addresses to the jury tonight in the Prevost-Asselin libel prosecution, and only the charge of the Judge remains for to-morrow before the case is left in hands of the jury. The general expectation here is a disagreement of the jury. Before the startling evidence concerning the election fund came out, most people looked for the conviction of Asselin, the ministerialist opponent. So confidently do they count on political friendship in these matters that a member of the government to-day claimed nine of the jury would be for Asselin's conviction. While Lachance, M.P., and Taschereau, M.L.A., made strong and eloquent appeals in the defence, Messrs. Prevost and Turgeon and against the accused, treating Baron Lepine's evidence as largely false, the real sensations of the day occurred in the masterful address of Mr. Laflamme, whose peroration on behalf of the accused so affected the overwrought feelings of his plucky but eretible young client that the latter burst into tears being utterly unable to control himself any longer. Mr. Laflamme said Turgeon's evidence was unsatisfactory, because he contradicted in court what he had declared in the house concerning the Belgian syndicate. He had entrenched himself behind his state secret in other matters. Turgeon had behind his back of memory. In his peroration he said, "When the large papers in Canada," make a cry for reforms, they are at once listened to. The protesting voice in this case comes from a young man who has out of the sincerity of his conscience, you see a noble example. If you declare him guilty, you do not recompense a public service. In that case, were I my client I know what I would do. After having devoted my youth to defend conscience, honor, devotion, disinterestedness and patriotism and the patrimony of my fellow Canadians, I would turn toward the judge and implore him to inflict the maximum of the penalty, in order that he might convince the youth of the country that civic virtues are but vain formulas which sleep in the dictionaries, to be used alike by the politician upon the stump, for the purpose of imposing upon public opinion.

MERCHANTS WON'T ALLOW CIVIC CASH FOR THE SHOW May Issue Injunction to Stop Grant—To Try and Settle Plumbers' Strike.

That no more civic grants should be made to conventions was the opinion expressed last evening by resolution at the monthly meeting of the executive of the Retail Merchants' Association. The resolution was moved by T. Grinnell and J. Bond and by its terms a resolution will wait on the city council and request that no more public grants be made for conventions or shows of any sort. Reference was made particularly to the proposed fair show, the objection being that it is under private auspices and ought to pay its own way, and that the city was making large expenditures at the Toronto Exhibition for the dairy interests. The solicitor of the association will be instructed to bring for an injunction if necessary to stop the grant. The discussion was heated. It was thought that if the city could not afford a small bridge at the foot of Bay street and to repair the roads, on one of which 25 dangerous holes had been counted, it couldn't afford to subsidize conventions. By a resolution moved by S. R. Hanna and H. Ellis, a committee consisting of President F. C. Higgins and Messrs. Dockery, Mann, Dineen and Trovorn, will wait on the Street Railway Company to ask that the company please leave alternate thru streets free for vehicular traffic, for instance, to avoid Teranauy-street, and to put tracks on Elizabeth-street if a route thru the ward is required. The city was again rapped over the knuckles in a resolution moved by A. Anderson and H. Ellis, to the effect that no streets be disturbed for repairs unless the work could be continuously proceeded with until finished. As the plumbers' strike is felt to be injurious to trade, on motion of John Wilmut and W. J. A. Carnahan, an effort will be made to assist in bringing about a settlement. The annual excursion of the association will take place on June 3 to the Hamilton, in which city the provincial convention is being held July 3 to 4. The local delegates will be F. C. Higgins, M. Moyer, W. Dineen, W. Mann, S. Corrihan, R. W. Dockery, T. Grinnell, S. R. Hanna, W. J. A. Carnahan, H. Ellis, M. Ryan, J. Wilmut, W. Bawn, A. Anderson, T. Porter, A. Benson, and I. Bond. Avoid the rush at the gates by buying your tickets for the Ontario Jockey Club Races at G. W. Muller's new cigar store in the Traders Bank Building.

BUSINESS IS HIT BY DOCK STRIKE

Several Vessels Tied Up in Halifax, and Shippers Will Appeal to Conciliation Board.

NO MORE UNION BEER WORKERS EXPELLED

CHICAGO, May 31.—The last barrel of "union" beer in Chicago and the whole country, according to an edict of the American Federation of Labor, will be manufactured to-day. At midnight the Brewery Workers' Union will cease to exist, in the eyes of the national labor leaders, and the 2,000,000 union men in the United States will be asked to "get on their water wagon," or use some other kind of beverage. The brewery employes have rebelled against President Gompers and the national labor executive council, and they are to be disciplined. The method adopted is that of expulsion. Two months ago the National Labor Council met in Washington and gave the Brewery Workers' Union until June 1 to comply with an order to oust all engineers, firemen and teamsters from its organization. They refused.

NOTORIOUS CROOK IS CAPTURED IN QUEBEC

ST. JOHN, N. B., May 31.—(Special.)—Word reached here late this afternoon that A. E. Akery, wanted in Seattle on charges of forgery, has been captured in Quebec, Que., by officers of the Canadian Detective Bureau. Akery, who came from Seattle, was found in St. John on May 20, but before he could be got, he skipped to Moncton, then to Montreal, and finally, May 28, he went to Quebec, where he was captured. He is said to be one of the most notorious crooks in America.

ADMITTED TO MINISTRY BY LONDON CONFERENCE

GODERICH, May 31.—(Special.)—The London conference went into closed session to-day when two candidates were examined for the ministry. They were admitted. It was stated by one of the examiners that the answers on matters of belief would not have been acceptable twenty years ago.

NEW ONTARIO MOVEMENT WILL BE DISCUSSED

Everybody Invited For Meeting Next Friday—Cheap Rates Offered by Railways. FORT WILLIAM, May 31.—(Special.)—The convention to be held in connection with the New Ontario movement is on Friday evening, June 7, in the opera house, where all the delegates, who have been appointed in this district, are requested to attend. Members of boards of trade and municipal councils from any municipality, town, or city in Ontario are also invited to be present. In order to make this convention a representative, full attendance, not only all the delegates, but all those interested are cordially invited to attend. The member, W. A. Preston, is especially asked to be present, so that he may be instructed to bring for an injunction if necessary to stop the grant. The discussion was heated. It was thought that if the city could not afford a small bridge at the foot of Bay street and to repair the roads, on one of which 25 dangerous holes had been counted, it couldn't afford to subsidize conventions. By a resolution moved by S. R. Hanna and H. Ellis, a committee consisting of President F. C. Higgins and Messrs. Dockery, Mann, Dineen and Trovorn, will wait on the Street Railway Company to ask that the company please leave alternate thru streets free for vehicular traffic, for instance, to avoid Teranauy-street, and to put tracks on Elizabeth-street if a route thru the ward is required. The city was again rapped over the knuckles in a resolution moved by A. Anderson and H. Ellis, to the effect that no streets be disturbed for repairs unless the work could be continuously proceeded with until finished. As the plumbers' strike is felt to be injurious to trade, on motion of John Wilmut and W. J. A. Carnahan, an effort will be made to assist in bringing about a settlement. The annual excursion of the association will take place on June 3 to the Hamilton, in which city the provincial convention is being held July 3 to 4. The local delegates will be F. C. Higgins, M. Moyer, W. Dineen, W. Mann, S. Corrihan, R. W. Dockery, T. Grinnell, S. R. Hanna, W. J. A. Carnahan, H. Ellis, M. Ryan, J. Wilmut, W. Bawn, A. Anderson, T. Porter, A. Benson, and I. Bond. Avoid the rush at the gates by buying your tickets for the Ontario Jockey Club Races at G. W. Muller's new cigar store in the Traders Bank Building.

American Missionaries in China Were Not Attacked

Revolution Was Not Directed Against Foreigners, But Was Purely a Political Affair. NEW YORK, May 31.—American missionaries stationed in the Chinese provinces of Kwang Tung and Kwang-sai, where the standard of rebellion against the Chinese dynasty has been raised, are believed by the Presbyterian board of foreign missions to have suffered no injury thus far from the outbreak. The destruction of the German mission station at Lien Chow by a Chinese mob, the Rev. Dr. Arthur J. Brown, secretary of the Presbyterian board, said to-day probably occurred, not in the Lien Chow, where the Pres-

DOCTOR ONCE KNOWN IN EXCLUSIVE HOMES DIES IN OBSCURITY

Robert E. Campbell, Who Leaves Property to Relatives in Canada, One Time Physician to Buffalo Swellmond.

BUFFALO, N. Y., May 31.—(Special.)—Death has revealed the fact that "Doc" Campbell, who died in obscurity at the Park Saloon Hotel on Monday, without a friend at his bedside, was none other than Dr. Robert E. Campbell, one-time physician to the Buffalo millionaires, who married wealthy Helen Thornton, from whom he was separated after sensational divorce proceedings. He lived and entertained, in the height of his social glory, in the mansion in aristocratic North-street, later occupied by the recently deceased multi-millionaire, Frank Goodyear. The adjustment of the estate has revealed the fact that the physician of the dead man, who will divide the property, are for the most part in Toronto. They include a niece in Toronto. Four years ago he came to the Park Hotel, and there he lived, unknown to his prominent friends of the old days. No one called on him, except on business; he went out little, kept in his room, and no one about the place knew or dreamed that the man who was dreaming away the years in his single little room was the formerly prominent Dr. Campbell. He died on Monday with only a bell-boy at his bedside, and not until Wednesday did the identity of the man, whose body had been unceremoniously taken from the hotel to the east side undertaker's, become known. Dr. Campbell practised his profession in quarters such as no other physician in Buffalo, before or after, was able to boast of. His offices, separate from the household rooms, consisted of five expensively furnished apartments. There was a first reception room, then a boudoir for women patients, with a maid in attendance. Mrs. Campbell's name was in the Yellow Pages, and she was a first reception room, then a boudoir for women patients, with a maid in attendance. Mrs. Campbell's name was in the Yellow Pages, and she was a first reception room, then a boudoir for women patients, with a maid in attendance.

MUST LIVE TO BE 100 OR DIE IN DISGRACE

Chief Chemist Belongs to Hundred Year Club and Must Not Break the Rule. CLEVELAND, May 31.—Chief Chemist Wiley, of the United States department of agriculture, in the course of an address delivered before the graduating class of the Case School of Applied Science to-day, said: "I belong to a 100-year club, any member of which who shall die before he's 100 years old will be immediately expelled in disgrace. The present generation is going to live much longer than the one which came before, because it knows more about the laws of diet, hygiene and surgery. "It's a rank disgrace for any man to die, except from old age."

PUGSLEY RESIGNS AND PREMIER FORMS CABINET

Hon. C. W. Robinson New Leader of New Brunswick Legislature—Members Sworn In. FREDERICTON, N. B., May 31.—(Special.)—Hon. Wm. Pugsley to-night placed in the hands of the lieutenant-governor his resignation. His honor accepted, and called upon Hon. Clifford W. Robinson to form a cabinet. The new premier announced his government, which was sworn in as follows: Premier, provincial secretary and acting attorney-general—Hon. C. W. Robinson. Commissioner of public works—Hon. C. H. Labllois. Surveyor-general—Hon. F. J. Sweet. Solicitor-general—Hon. W. P. Jones. Commissioner of agriculture—Hon. L. P. Farris. No new members were taken into the new cabinet, but it is likely still will be the case before long. Jones will then probably become attorney-general.

PREPARED FOR THE ASCENT OF THE POLITICAL MATTERHORN.

DINNER TO FRIEND TURNS OUT TO BE A BANQUET OF DEATH One Man Killed and Half a Score Injured in Dance Hall Fire—Guests Become Excited and Jump From Windows. MONTREAL, May 31.—(Special.)—When a committee appointed for the purpose sent out invitations to a dozen or more friends to attend a dinner in Lacasse Hall, Notre Dame-street, in honor of J. N. Charbonneau, a barber, was to be married June 4, they little thought that the function would be as good as a banquet of death. At 3 o'clock this morning as the guests were singing "For He's a Jolly Good Fellow," a cry of fire was heard, followed by a "Sauve qui peut." They all of course took their heads, and they subsequently admitted, and instead of quietly walking down the stairway, where there was very little smoke, the young men attempted to jump thru

PREPARED FOR THE ASCENT OF THE POLITICAL MATTERHORN.

GOUIN RETURNS LITTLE SOONER THAN EXPECTED

Quebec Premier Lands at Quebec After Fine Trip, but Refuses to Discuss Politics. QUEBEC, May 31.—(Special.)—Premier Gouin returned from his European trip to-day, his first enquiries on landing being naturally as to the progress of the Asselin-Prevost libel case. He declined to discuss in any way the changed political conditions produced by the revelations during the trial, or even to admit their existence, except to deny most absolutely any knowledge or belief in the existence of the alleged election fund mentioned by Baron Lepine. Mr. Turgeon, who was acting premier and attorney-general during his chief's absence, met him at the wharf accompanied by Hon. Weir, Roy and other friends, who gave him an ovation. Judge Lanctot and Geoffrion, private secretary, returned with the premier and all report a most delightful trip and numerous official courtesies in London, Paris and Rome, including receptions by Hamar Greenwood, M.P., and others. There were also interchanges of courtesies in London between the Quebec provincial party and Sir Wilfrid Laurier and his party, the Canadian premier being reported by Mr. Gouin as in the best of health and spirits and looking very large in the public eye on the other side of the water. President Fallieres received him cordially in Paris, the Pope gave him a private interview and Cardinal Merry Del Val, papal secretary of state, entertained him at dinner at the Vatican. If Not, Why Not? Have you seen our Business Man's and Triple Indemnity Accident Policy? Call Walter H. Blight, city agent, Ocean Accident and Guarantee Corporation, Traders' Bank Building, Phone Main 2770. Arrange to go with the Caledonian Society on their annual excursion to Beaverton on June 13.

Men Like Saturday.

Thousands of Men Go Out For Increased Pensions—Everything Quiet. PARIS, May 31.—An admirably organized general strike by all branches of the shipworkers of France has paralyzed life in the ports of the republic. Unlike an ordinary strike, this movement is not attended with bitterness against the employers or revolutionary feelings. The manifestations are made with the object of drawing the attention of the country to the strikers' cause. The naval reservists set forth, in a manifesto issued to-day, in which they asked the support of the classes, that it is impossible for the widows of seamen to support themselves and raise children on the pensions granted by the government. The men are well behaved, and as an instance of the sentiments back of the strike, there is the fact that harbor watchmen have been provided by the strikers for all ships in port. The government is fully alive to the importance of the movement, and it has arranged to assure the continuation of the maritime postal services and the transportation of perishable goods. The cabinet will hold a special meeting to-morrow in an effort to find a way to bring the strike to an end. Many persons consider that the seamen's union acted in this matter with undue precipitation, and that all could have been arranged through a consultation with the authorities. Up to the present time the strike has been characterized by an unusual amount of discipline on the part of the strikers. This leading steamship lines are much embarrassed and have appealed to the government to take rapid steps to remove the cause of a state of affairs by which they alone suffer, although they are in no way responsible for the strike. The French trans-Atlantic steamship companies' officials have requested the government to lend them crews from the seamen's navy, but no reply has yet been received. A Marseilles sailor and longshoreman struck almost to a man, and even the fishermen drew up their oars. The strike is also complete at Havre, but up to this evening the men had not struck at Brest. At Toulon the strike is complete. At Dunkirk and Nantes the men are going out, and at Rouen the longshoremen have abandoned their oars. The naval reservists comprise almost all the maritime population devoted to seafaring life. They number about 117,000 men, of which 55,000 belong to the war fleet. Practically the entire personnel of the merchant marine, as well as the longshoremen, are included in the members of the union. The executive of the National Seamen's Union ordered the strike because the government's new bill, increasing pensions from \$40.50 to \$72.50, in the case of seamen, and from \$156 to \$200, in the case of captains, as being inadequate. Strike in Symphay. ALGIERS, Algeria, May 31.—The seamen of Algiers went on strike to-day, and the dockers and coolers went out in sympathy. More Going Out. BORDEAUX, France, May 31.—A meeting of the seamen held this evening, confirmed the decision to strike, and from 15,000 to 20,000 men will go out to-morrow. Arrange For Mails. TOULON, France, May 31.—The transports Vinh-long and Nive left here to-day for Marseilles, following instructions sent out by Minister of Marine Thomson, in order to assure the transportation of passengers and merchandise to Corsica and African ports. The transports Mythe and Shamrock will follow to-morrow. Two torpedo boat destroyers have been designated to carry the mails. Men Like Saturday. The it is hard to understand it a lot of men leave off their hats purchases all Saturday, but the merchants provide for this attitude. Dineen's at Yonge and Temperance-street make Saturday the big hat day and the popular price of a Dineen special, so well-known everywhere, and the new blocks in any of the stylish ones is available at Dineen's at \$2.50. You might as well have a good hat with a good guarantee as a bad hat with no guarantee. See Dineen's.

"Plastic Form" Rain Coats & Top Coats

Manufactured from the best of Rain Proofed Materials, will keep you perfectly dry and warm, even in a driving rain.

"Plastic Form," most popular design for this season is shaped slightly at the back, and has a very full skirt, in full and three-quarter lengths.

It's the most economical coat a man can wear in Spring and Fall. Takes the place of two distinct coats and does it perfectly.

AUCTION SALES 260 HORSES

TUESDAY, JUNE 4th AT 11 A.M.

160 HORSES ALL CLASSES

Consisting of Heavy Draught, General Purpose, Delivery, Express, Drivers and Workers

In addition to the above we will also sell a Complete Stable Outfit

THE PROPERTY OF MR. B. F. GREGORY

Consisting of Saddle and Harness Horses, beautifully city broken and excellent show horses; also Carriages, Harness and Stable Utensils.

Consigned by DR. PARKS, TORONTO: "Lochinvar"—Brown gelding, foaled 1899, 16 hands, sired by Paddy R. dam by Clear Grit.

Owner's Statement.—This is an exceptionally fine road horse and can be driven by anybody at top speed; would make a very fast race horse.

"Lochinvar" won the longest drawn-out race in the history of the Toronto Driving Club, as follows: 4, 5, 2, 4, 1, 2, 1, 1, beating such well-known horses as King-Bryson, Sir Robert, Rodger and Ela.

Consigned by Mr. Geo. Lang, Berlin, Ont.: "TIDDY WINKS"—A very handsome children's ride and drive pony, has won a large number of first prizes at Toronto and other Exhibitions.

This walk-knew pony is an exceptionally good going driver and is thoroughly reliable for either ladies or children.

FRIDAY, JUNE 7th at 11 a.m. 100 HORSES

ALL CLASSES Consisting of Heavy Draught, General Purpose, Delivery, Express, Drivers and Workers. C. A. BURNS, General Manager and Auctioneer.

MAN CAN BE KEPT AND HEALTHY BY THE KIDNEYS BEING WELL

Kidneys are ill, the whole body is poisoned which the kidneys out of the blood are left in. Then how important it must be that this system of nerves be kept up. Those who have suffered with kidney trouble know how suffering which those afflicted with kidney troubles. They are all kidney troubles. They are all kidney troubles. They are all kidney troubles.

McCab and Co. Limited

ESTABLISHED 1904.

JOHN CATTO & SON

THE WORLD'S HOME MAGAZINE FOR WOMEN READERS

MISS MANNERING LEADS IN REVIVAL OF ARCHERY

Mary Manning, who comes in "Glorious Betsy" to the Princess Theatre Next Week.

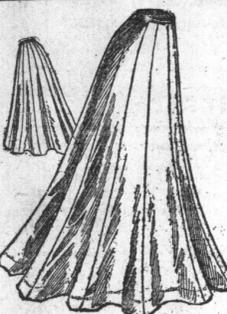

Society girls in and about New York have a new pastime. They have revived the ancient game of archery. Under the tutelage of a real Indian archer expert they are rapidly becoming proficient in the game of which Robin Hood was master. In the suburbs, where spreading lawns are the rule, interest in the revival of the pastime has been most marked.

An archery club has been formed at Long Island by Mary Manning, the actress, who has a large estate and home on the island. The discovery that Red Wolf, a full-blooded Indian living along the coast, was a skilled archer led to the formation of the Great Neck Club, which is the first to be organized. Miss Manning, who made the discovery, interested a few of her friends, and they have begun to take instructions from Red Wolf, and the number of those anxious to become skilled with the bow and arrow has been increasing. Other clubs will undoubtedly be formed as the spring and summer progresses and more archery will be the fashionable pastime and on lawns and in gardens and on public

commons throughout the country could be seen the ornamental discs of oilcloth covered with blue, which were used as targets. Its revival in and about New York is expected to lead to its revival all over the country.

The best bows come from England. One used by Red Wolf requires a 100-pound pull to work it properly. It has a carrying distance of 125 to 150 yards. "To become expert," says Red Wolf, "young women need patience, and the teacher patience, too. The young woman should dress in a short fitting skirt, a light free waist, stout shoes and leggings; a light peaked cap, which will shade her eyes. Most people accept the English position in drawing a bow—that is, the bow kept thoroly well in front of the body rather than at the side, then the arrow is drawn from the quiver with the first and second fingers of the right hand when the bow is held in the left. Then pass the tip of the arrow across the bow, resting it on the left hand; then pass the arrow beneath the string so that the blunt end will shade her eyes. Most people accept the English position in drawing a bow—that is, the bow kept thoroly well in front of the body rather than at the side, then the arrow is drawn from the quiver with the first and second fingers of the right hand when the bow is held in the left. Then pass the tip of the arrow across the bow, resting it on the left hand; then pass the arrow beneath the string, the arrow fits as tho you were threading a needle."

World Pattern Department

1922 Ladies' Fifteen-Gored Umbrella Skirt. Paris pattern No. 1922. All seams finished. There can be no question of the fact that this umbrella skirt with its many gores attains a style and set unexampled in any other models and a flare at the foot, which is chic to a degree. For white flannel or silk-linings it is a smart model and also for the heavier washable materials such as linen, pique or poplinette.

The pattern is in 8 sizes—22 to 36 in chest, waist measure. For 26 waist the skirt, made of goods with nap, requires 10-12 yards, 20 inches wide, or 6 yards 28 inches wide, or 5-1-1/2 yards 42 inches wide, or 4-1/4 yards 54 inches wide. Or, of goods without nap, it needs 9 yards 20 inches wide, or 5 yards 36 inches wide, or 4-1/2 yards 42 inches wide, or 3-1/2 yards 54 inches wide.

Price of pattern, 10 cents.

New Sunday School Paper.
The Ontario Sunday School Association has issued a new monthly publication called "The Ontario Sunday School Leader" in the interest of the interdenominational Sunday School work of the province.

Paste This in Scrap Book.
Midway Gazette: A terrific snowstorm raged here all day on Monday, the 27th day of May.

SORROW AND SPRING.

The day she died was like no other day. Not that the sun had ceased to shine for me.
Not that the blossoms on the hawthorn-tree
Lost their white wonder, or the pallid May.
Grew dark because she softly went away;
Not that a gloom fell o'er the quiet sea,
Or the glad birds hushed their old symphony;
Nay, for wild joy o'er all the wide land lay.

Oh, on that morn when her young soul went forth
It seemed to me as if the whole world sang.
As if the sun flamed redder than red wine,
And I was mocked by all the spring's wild entrants—
If she had died when Autumn's requiem rang
I might have felt Earth's sad heart grieve with mine!

—Charles H. Towne.

Woman's Mission Board.

OTTAWA, May 31.—At the 21st annual meeting of the Canada Congregational Woman's Board of Missions, Mrs. Thompson, Toronto, the treasurer, presented the financial statement showing the totals contributed from branches and other sources as follows:

Quebec, \$210.02; London, \$296.50; Ottawa, \$396; Paris, \$571.63; Toronto, \$742.88; Montreal and Quebec provincial branches, \$1222.20; Manitoba, \$261.60; British Columbia, \$30; miscellaneous, \$101.14, making the total receipts \$5374.41. Disbursements amounted to \$2318.97, and balance on hand is \$998.15.

Miss Ida Vandemark

This morning The World introduces Miss Ida Vandemark, who at the last announcement was second in the city contest for The World's Trip to London.

Miss Vandemark is cashier at Williams' Cafe and enjoys a large circle of acquaintances, who seem to be taking a pleasure in helping her on her way across the briny.

Simple Wedding Gifts.

When it comes to buying presents for the June bride, it is not every pocket-book that can afford gifts of cut glass, silver, or imported linens, not to mention the countless other beautiful things which are shoved out as suitable wedding presents. A good plan, says the Chicago Tribune, is to judge the circumstances of the young couple, and try to make your gift one which will be in harmony with their future home. There are women who claim they never could have hoped to receive more useful things than were given them when they became prospective housekeepers.

Now that so many young couples start married life in the suburbs, where porches play so prominent a part in homes, it may be well to consider a gift for the outside of the house, which will be a pretty jardiniere, a wall pocket for flowers, a rustic table, or possibly one of the new canvas hammocks which are so popular this year. An attractive porch is the one thing which really costs thought as well as money, yet no one seems to remember this new "room" in the house when buying a present for the summer bride. Possibly, because these things do not make so grand an impression, they may not make so grand an impression when first received, but after a few weeks spent in the country, any newly married couple would value such gifts of more value than others more costly.

Personal.

Mrs. Cawthra Mulock will give a luncheon for Miss Case and her bridesmaids on Tuesday of next week.

Mrs. B. Hume Kerr has sent out invitations to the marriage of her daughter, Miss Margaret Guinevere Kerr, and Mr. Frank Herbert Clark, which takes place in St. George's Church on June 12 at half-past two o'clock. The ceremony will be followed by a reception at 20 Grosvenor-street.

Mrs. Osborne, formerly Miss Lockhart Gordon, of Toronto, is accompanied by her sister and little child, and will spend the summer with her parents.

Sir Henry and Lady Pallat have moved up to Casa Loma, their summer home on the hill.

The marriage of Miss Muriel Atkins and Mr. Strathairn has been arranged to take place on June 27.

Miss Smallpiece of South Parkdale has returned to town after a month's visit to Exton Springs.

Mrs. Plunkett of Vancouver is the guest of her sister, Mrs. Sewell, 77 Avenue-road.

Mrs. Wilson, Niagara Falls, is staying with her mother, Mrs. Ferguson, at the Nordica flats, Sherbourne-st.

The engagement is announced of Miss Athol Boulton, eldest daughter of Mr. and Mrs. Melfort Boulton, to Capt. James Elmsley, eldest son of Mr. and Mrs. R. Elmsley, Capt. Elmsley is expected home from India some time in October.

The Harbor Alumnae Association will hold their spring reception on Saturday, June 8, at the Metropolitan Assembly rooms, 248 College-street, at 4 o'clock.

The second annual meeting of the Central Registry for Nurses will be held to-day in Room 1 of the Foresters' Building, from 3 to 5 o'clock.

A quiet wedding took place yesterday at the residence of Rev. R. S. E. Large, assistant pastor of Metropolitan Methodist Church, when Robert John Stewart and Miss Emma May Warren, the late James Warren's daughter, were married. The ceremony was performed in the presence of the immediate relatives of the young couple, who left for New York directly afterwards. The bride was assisted by her eldest sister, Miss Annie Warren. Her traveling dress was of navy blue, and she wore a most becoming picture hat to match. A wedding breakfast was served at the residence of the bride's mother, 116 Seaton-street.

William Jordan and son, Willie, of Harbor-street, left Quebec Friday, by Express of Britain, for England. They will return the last week in July.

Church Service at Island.
Emmanuel Church, Hanlan's Point, will hold its opening services for the season on Sunday at 11 a.m. The Rev. Prof. Cotton has been appointed rector-in-charge, and is already residing at 620 Lake Shore-nue.

The services at the Church of St. Andrew, at the island, will commence for the season on Sunday at 11 a.m. These services will be taken by Rev. W. T. Italian, rector of Cannington.

Y.W.C.A. IN JAPAN.

Miss Una Saunders Speaks Interestingly of the Work.

At a meeting of the Dominion Council of the Y.W.C.A., held at Annesley Hall last night, Miss Una Saunders of Somerville College, Oxford, spoke most interestingly of the work of the association in Japan.

Miss Saunders, who is traveling secretary of the British Students' Christian Movement, is returning to England from Japan, where she had been attending a conference of the World's Christian Student Federation. Six hundred delegates attended the gathering, representing forty different nations, and sessions were held at Tokyo on five successive days.

The conference discussed the various problems delegates met in their several countries, paying particular attention to Japan and her needs.

The gathering together at Tokyo of so many prominent Christian workers exerted a great influence on the people, who displayed great hospitality to the strangers.

Great opportunities of reaching and Christianizing the people are arising. The thirst for education is bringing many young students to the universities of Japan, and the Y.W.C.A. is making special efforts to reach them. What is particularly needed is means to erect dormitories for the accommodation of young students coming into large cities from the country, who may thus be rescued from evil influences and brought into touch with Christians. Six of these buildings are urgently required at once. Ottawa is providing the \$3000 necessary to the erection of one, and Toronto has subscribed half that amount for another.

Miss Saunders described the problems met with in the evangelization of Japan, and appealed for practical assistance from her auditors.

J. K. Macdonald, president of the Confederation Life Association, occupied the chair.

SAFETY FOR CHILDREN.

Baby's Own Tablets contain no opiates, no narcotic or habit-forming drug. The mother who uses these Tablets for her children has the guarantee of a government analyst as to the truth of these statements. This medicine can therefore be used with absolute safety, and it always cures such troubles as indigestion, constipation, colic, diarrhoea, and other ailments. The Tablets cure simple fevers, break up colds, destroy worms and make teething easy. They are just the thing for teething babies and other minor ailments. The Tablets cost only 25 cents a box and may be had from medicine dealers or by mail from the Dr. Williams Medicine Co., Brockville, Ont.

Removal of Sick Children.

The Toronto Ferry Company will commence running a ferry steamer to the Lakeside from the Little Children dock at the foot of Blockhouse Bay at the Island on Monday next. A hundred and thirty children, from the Hospital for Sick Children will be removed to the Lakeside, home next Thursday morning.

Back to Toronto.

A. Childley, an old Toronto boy, who for the past year has been in Buffalo, in charge of the sales business of a Canadian firm, with branch factory in the States, has taken the position of sales manager of the Van Beaver Fanning and Provision Company, Limited, Toronto Junction.

Cold in Philadelphia.

PHILADELPHIA, May 31.—Shivering children have been sent home from twelve public schools during the last week and the buildings closed temporarily because they could not be heated.

Pacific Coast Excursions.

via Chicago and Northwestern Railway, daily from June 1st to Sept. 15th, \$75 from Chicago to Los Angeles, San Francisco, Portland, Seattle, Victoria, Vancouver, and return. Correspondingly low rates from all points in Canada. Favorable stop-over arrangements. Final return limit Oct. 31st, 1907. Special excursions during June and July at lower rates, with shorter time limits. For further particulars, illustrated folders, etc., write or call on B. H. Bennett, general agent, No. 2 East King-street, Toronto, Ont. 6

Secretary Lockart Will Retire.

Notices for the meeting of Grand Orange Lodge of British America at Vancouver on June 13 have been issued. It is said Grand Secretary W. M. Lockart will retire, and that Toronto will be made the secretarial headquarters.

Ask your doctor the medical name for a cold on the chest. He will say, "Bronchitis." Ask him if it is ever serious. Lastly, ask him if he prescribes Ayer's Cherry Pectoral for this disease. Keep in close touch with your family physician, and follow his advice carefully.

Colds on the Chest

A FREE TRIP TO LONDON

The Toronto World will send eleven of the most popular women in Ontario on a three weeks' trip to London, England, with side trips to Paris and other points of interest.

The Standing of Candidates Will Be Announced Every Monday and Thursday

RULES OF THE CONTEST

MEN ARE NOT ELIGIBLE

AGE—Any woman over eighteen years of age and under fifty on July 22, 1907, may become a candidate by being properly nominated.

NOMINATING—Each candidate must be nominated on the properly filled out nominating blank which is printed in The Daily and Sunday World, or copies of nominating blanks may be obtained at The World office.

THE BALLOTS—Ballots cast for persons not properly nominated will be destroyed, uncounted. See that your candidate is properly nominated and listed before you cast your ballots for her.

A ballot will be printed on Page 1 of The World each day. This will count one vote. Ballots cannot be changed or transferred after they are received by The World. Special ballots will be issued for paid-in-advance subscriptions, whether new or old, when payment is received by The World, according to the table printed on this page.

Ballots will be dated and numbered with an expiration date, they will not be counted unless received at The World Office before 5.30 p.m. on date of expiration. Ballots sent by mail must be sent to The Trip to London Editor, Toronto World, and postage must be prepaid.

Agents may send subscriptions to apply on the contest, but ballots will be those of the subscriber.

THOSE WHO ARE BARRED OUT—No employe of The World or other Toronto daily newspapers or any member of such employe's family may be a candidate in the contest.

THE LAST BALLOT—Will be printed in The Toronto World on July 22, 1907.

No ballot will be counted unless received by The Trip to London Editor before midnight of July 22.

CONTROVERSIES—Any controversies which may arise will be settled by The World alone.

ACCEPTING THE CONDITIONS—In accepting nomination each candidate accepts and contracts to abide by all the above conditions.

THE DISTRICTS

FROM WHICH CANDIDATES ARE TO BE NOMINATED

DISTRICT NO. 1—Includes all territory within the present limits of the City of Toronto.

From District No. 1, the City of Toronto, the six candidates receiving the highest number of votes will be sent on this free trip to London.

DISTRICT NO. 2—Includes all territory within the present limits of the City of Hamilton.

From District No. 2, the City of Hamilton, the candidate receiving the highest number of votes will be sent on this free trip to London.

DISTRICT NO. 3—Includes all territory within the Province of Ontario, outside of the City of Toronto and the City of Hamilton.

From District No. 3 the four candidates receiving the highest number of votes will be sent on this free trip to London.

TABLE OF BALLOT VALUES

Single ballots cut from The Daily World	1 vote.
Single ballots cut from The Sunday World	5 votes.
Subscription to The Daily World, one month—25 cents—a special ballot of	50 votes.
Subscription to The Daily and Sunday World, one month—45 cents—a special ballot of	100 votes.
Subscription to The Daily World, three months—75 cents—a special ballot of	250 votes.
Subscription to The Daily and Sunday World, three months—\$1.25—a special ballot of	300 votes.
Subscription to The Daily World, six months—\$1.50—a special ballot of	500 votes.
Subscription to The Daily and Sunday World, six months—\$2.25—a special ballot of	1000 votes.
Subscription to The Daily World, one year—\$3.00—a special ballot of	1500 votes.
Subscription to The Daily and Sunday World, one year—\$4.50—a special ballot of	3000 votes.

Special Ballots—Special ballots good for the number of votes shown in the table above will be issued for paid-in-advance subscriptions to The World when payments have been received by The World, providing all arrears are paid.

PERIOD OF EXPIRATION—Each ballot will be provided with its expiration date. To be counted, all ballots must be voted on or before date of expiration.

SPECIAL NOTICE

Address all letters pertaining to the Trip to London and send all nominations, ballots and subscriptions to the

TRIP TO LONDON EDITOR

World Office, Toronto.

Nominating Blank

World Trip to London.

A nominating blank must be received for each candidate before she can be voted for. The names of the women nominated in each district will be printed in The World regularly. This blank does not count as a vote, and need only be sent in once for a candidate.

I herewith nominate..... Name of woman.....

Whose age I know to be over 18.

DETROIT, May 31.—The Switchmen's Union of North America adjourned to-day to meet May 13, 1907, in Peoria, Ill.

Canada's High-Class Piano

Choice of World's Greatest Artists

MADE IN CANADA BY
Ye Olde Firme of HEINTZMAN & Co.
TORONTO, CANADA Limited

Great Demand for High Class Residential Lots

The rapid growth of Toronto has brought about the opening up of many outlying districts for high-class residence purposes. During the past two years many new sections have been laid out into lots by far-sighted, energetic real estate dealers, who have found an ever-increasing demand by prospective builders and investors for residence locations in the outskirts away from the din of our busy city life. Mr. Parker of F. J. Smith & Co., when asked the condition of business in building lots, said: "There has never been a greater demand for high-class properly restricted building lots than at the present. About a year ago we opened up the new annex on Avenue road hill. This property extends north from Russell Hill-road to St. Clair-avenue. It is bounded on the west by Forest Hill-road, and on the east by Oriole-road. Altho we did not attempt to sell a lot until last summer, a large portion of this new section has already been sold. Of course, this new section has a number of exceptional features. It is very level ground, and is well wooded with oaks, pines, and maples, in addition to its being very handy to the Avenue-road cars. It further has the advantage of being in a high-class residential locality, the houses in that neighborhood costing from \$5000 to \$30,000. All the lots in that section are well-restricted, so as to insure the owner against the erection of undesirable buildings.

EASTERN SUBURBS GROW.

Much Progress in Real Estate Changes and New Buildings Recorded at the Beaches.

Balmy Beach and Kew Beach have known some great development this year among the notable new buildings erected being the new school, the I. O. F. Temple and several stores at Balmy Beach, and a large addition to the public school at Kew Beach. Since the middle of April, when the railway scare subsided, there has been a great deal of activity in real estate in these districts, Victoria Park and East Toronto. Previous to that property had not changed hands so rapidly, altho the demand for houses to rent was as lively as ever; in fact, according to A. W. Burk of Burk & Co., real estate dealers, Toronto-street, who make a specialty of Beach property, more summer cottages had been rented up to May 1 than during the whole of last season. This firm alone had rented fifty cottages up to the date mentioned. The demand for vacant lots for building purposes had also been more active than in any previous year.

Little vacant land is now available at Kew and Balmy Beaches, and enquiries are being made concerning Victoria Park, which, with adjoining lands, gives 1400 feet of new beach. This seems to be naturally the centre of summer residence activity, tho its development has as yet been handicapped by the lack of street railway facilities. This firm alone expected, will be supplied in due course.

STILL NO PAVILION

Third Attempt on the City Architect's Part Failed to Suit Committee.

There is no prospect of seeing the commencement of the much-talked-of pavilion for the Allan Gardens, at least this year.

The city architect's department submitted an elaborate set of plans to the parks committee on Thursday, calling for an expenditure of \$350,000. He was told to try again and keep within the \$200,000 mark next time. This makes the third set of drawings rejected since early in 1905. The first set called for a building costing \$130,000, and the second, \$200,000. These were rejected because the auditorium would not accommodate more than 1550 people. The design, which was rejected the other day afforded accommodation for 2500 people apportioned as follows: 1175 on the main floor, 650 in the balcony and 675 in the gallery. In the basement another hall was provided with a capacity for 1200.

Saturday Afternoon Excursion. The steamer "Chippewa" of the Niagara Navigation Company is now in commission, and will leave Toronto at 2 o'clock this afternoon, returning to the city at 8.30 to-night. Fare for round trip, 75 cents.

MARTYR DAYS ARE NOT YET PASSED!

GREAT ARMIES OF MEN AND WOMEN GO UP AND DOWN THE EARTH IN BONDS MORE IRKSOME, IN SUFFERINGS MORE INTENSE, IN SHACKLES MORE SECURE THAN WERE THE IRON MANACLES OF SLAVERY DAYS, AND YET THE "LINCOLN OF EMANCIPATION" FINDS IN THESE LATER DAYS HIS COUNTERPART IN **Dr. Agnew's Catarrhal Powder**

whose mission it is and which mission it fills in freeing thousands from the bondage of dreaded, disgusting, distracting catarrhs that cruel, relentless master that is no respecter of persons. How do you know you are in its thrall? Note the symptoms—headache, watery eyes, pains over the eyes, deafness, buzzing in the head, drooping in the throat, offensive breath, dryness in the nostrils—any or all of these symptoms are forerunners of catarrh, and catarrh in the head can be relieved in 10 minutes by Dr. Agnew's Catarrhal Powder and the sufferer may be saved the suffering that comes with the chronic stage and the distress and maybe fatal results when catarrh takes hold on the lung tissues. Take catarrh in time with this wonderful cure, which, as thousands have said and thousands more could say, "works like magic," and you will have struck the chord that is the keynote to health and happiness.

ALL DRUGGISTS AND MEDICINE DEALERS SELL IT.
DR. AGNEW'S CURE FOR THE HEART gives relief in thirty minutes.
DR. AGNEW'S OINTMENT relieves eczema, scrofula and all skin eruptions with first application—35 cents.

CHOIR TO FOLLOW LEADER NO USE FOR COMMITTEE

Metropolitan Church Singers Issue Statement of Troubles in That Body.

"The Committee of Dr. Torrington's Choir" has sent The World the following statement, giving a history of the trouble which led to their leaving the church:

The members of Dr. Torrington's choir (formerly of the Metropolitan Church) feel that there are some things which the public should know. We have patiently waited until our leader's term expired before saying anything for the press.

In 1907, the choir met and discussed certain statements that appeared in an evening paper. We then decided that upon Dr. Torrington leaving the choir, the choir should be reconstituted. Owing to recent statements in the press, we, as a body, feel that the general public should learn the truth, and least so far as pay matters regularly, and have been concerned. There were petitions signed by members of the choir and regularly by the principle of questioning an investigation and recognition of the report of the music committee. It being understood that the minister was supreme in all that concerns the government of the church, he was appealed to by letters and otherwise, but unfortunately did not see his way clear to stand by the principle of right, as understood and felt by the choir, but virtually sustained the music committee. In this opinion, expressed by one of its members, those who signed the petition were "stragglers" the fact being that the congregational vote of opinion was not the ruling power, but the voice of the gifted few overpowered all other, right or wrong.

Lofty to Leader. The choir members come from all parts of the city, few only being within an inferior distance of the church, many having to pay out fare regularly, and did so cheerfully and ungrudgingly, rain or shine, to give their best services to stand by our much-loved, and out of loyalty to Dr. Torrington. But was the music committee satisfied? No! We have received nothing but snubs from them. Our choir policy has been persistently pursued by them in dealing with the choir from, and the appointment of the present chairman of the choir. For instance, for some years past, qualified singers, recognizing the high standard of the choir, made application for membership in such numbers that extra singers were necessary, as only 80 had been supplied for more gowns, the discourteous reply was made that "if the choir were to stand out, there would be no room for you." While all may not be equal, there are many who are certainly better than we could not have won from the most competent critics thru the present choir, and highly and justly so, as most of the choir, for example, the reports of last Sunday's service.

It has been reported that the choir has been dispersed with. Nothing of the kind. The choir left the church when Dr. Torrington resigned, and was approached by the music committee by four letters, by verbal invitation, and by typewritten circulars, to apply for whatever they desired (?), and even to let them have the list of the names of choir members. No. We thank you in such a manner, and as music committee, nor will we bow to the ruling of any one member of it. The choir as a body refused to do any of these things, and the music committee found out they had no choir; they were forced to let themselves down for doing so, and they are now announcing that the choir's place would be taken for the summer months by a "paid quartet."

We have shown our allegiance to Dr. Torrington by leaving the church, and long may he live to guide us in matters musical. **Bouquet For Committee.** Had it not been for the love borne Dr. Torrington by the members of his choir, and the staunch feelings manifested toward him, the Metropolitan Church would long since have been without a choir. For who could get along with such a committee? A few schemers amongst the members of the church have acted in their official capacity in such a manner, and as they have made the better-thinking members of the Metropolitan Church ashamed of their own choir, and as they have since said, "Had they known what was meant at the time, or what the result would be, they would have had no part in it."

As it has turned out, the actions of the music committee of the Metropolitan Church are such that not only they themselves but all Methodists should look upon them with shame.

PROTEST AGAINST BOARD IN LETHBRIDGE CASE.

OTTAWA, May 31.—The labor department has received a telegram from A. M. Nanton, manager of the Alberta Railway and Irrigation Company, protesting against the appointment of a conciliation board, as requested by the men, in connection with the labor troubles at the Lethbridge mines. He says that there are no grounds of dispute to justify the appointment of a board, and he thinks the department acted hastily. He also protests against Sherman being on the board, and asks for reconsideration.

Georgian Bay.

The steamer trip through that part of the 30,000 Islands of Georgian Bay between Parry Sound and Midland or Kenora, is one of the grandest that the Province of Ontario affords, and one which none should miss. The commodious and well-appointed steamers on this route make the trip delightful and the scenery is almost beyond description and must be seen to be fully appreciated.

This region has been compared to the famous Thousand Islands of the St. Lawrence River. In the prodigality of islands in far excess in number the latter resort and in diversity of scenery it is in no wise surpassed by the comparison. There is a varied and magnificent scenery in some portions of the scenery to be found nowhere else in America, and especially pleasing to the eye, and may have tired of the more familiar scenery of older resorts. Full and complete descriptive matter, describing the scenic beauties of the 30,000 Islands of Georgian Bay, can be had at Grand Trunk ticket office, northwest corner of King and Yonge-streets.

The choice of the man to whom price is never a consideration

SERIOUS PRAIRIE FIRE

Sweeps Country For Many Miles—Damage Considerable.

SNOWFLAKE, Minn., May 31.—A prairie fire, starting on the plateau, caused considerable havoc for a few days, commencing May 24, and continuing on the 26th and 28th. It swept over the prairie west of T. Phillips, and made its way into the woods and along the east side of the river, burning up much timber. By Sunday the fire had not spent its force, and J. White and others had to fight the flames all day. The loss caused by the fire is enormous.

C.P.R. Time Table Changes.

Summer train service comes into effect on the Canadian Pacific Railway Sunday, June 2. Changes from the present service, affecting trains in and out of Toronto, are as follows: Departures—Morning train for Montreal and east will leave at 8:50 a.m., instead of 8:15 a.m. Night express for Detroit and Chicago will leave at 7:30 p.m., instead of 7:15 p.m. Trains from Toronto running through to Vancouver.

Power Off.

Street car traffic was tied up on Queen and Yonge-streets for half an hour yesterday. The power was off.

FREE TO MEN

Until Robust Health, Strength and Vigor is Regained.

Perfect Manhood. The man of course, of strong heart, firm and undaunted energy, the embodiment of success, popular in every walk of life, is the man esteemed by all. Such is the manly man.

For forty years I have been making strong, vigorous men out of the puniest weaklings. A man comes to me weak, nervous, despondent, discouraged, with Brains, Losses, Impotency, Varicocele, Rheumatism, Lame, Kidney and Stomach Troubles. I give him my world-famed Dr. Sanden Electric Belt, with suspensory, absolutely free, to use for two months. Mind you, not one penny in advance or on deposit. A few nights' use convinces him that he has found the right remedy. It fills him with new life, joy, vigor, and strength, and at the end of the time he is only too glad to pay me for the Belt and to recommend it to his friends.

This is the way I cure men. This is the way thousands every year regain their lost strength, without the slightest risk to themselves, for if it fails it costs you nothing whatever. You pay me only when cured. In every case the cost is only \$5.00; or, if you want to pay cash, full wholesale discount.

My great success has brought forth many imitations of my Belt, but my great knowledge, gained by forty years' experience, to guide and advise my patients, is mine alone, and is given freely with the Belt. Be sure you get the genuine. Or send for one and my two books on Electricity and its medical uses, which I send free, sealed, by mail.

DR. A. B. SANDEN,

140 Yonge Street, Toronto, Ont.
Office hours, 9 to 6; Saturdays until 9 p.m.
Oldest and largest Electric Belt Establishment in the world.

Dr. KOHR'S RESTORINE

The most wonderful Medicine ever discovered. It is astounding the Medical world. 10,000 cases cured in one month in Paris. The National Medical Board has recommended this Restorine for use in the Insane Asylums where, as a well known, majority of the inmates are victims of lost vitality in its most terrible form. In Europe the remedy is endorsed by all governments and is now used as a specific in the great standing armies of both France and Germany. Stops losses in from seven to ten days so that they never return. Drains entirely out after a few days' treatment. The skin becomes clean, the eyes bright. Confidence returns, step elastic, bowels regular. Headaches disappear. No more weak memory, the mind becomes bright and active. A Food for Brain and Blood. A permanent cure no matter how chronic the case. Just send us today your name and address plainly written and in 5 days treatment of Restorine will be sent FREE in plain sealed package. Do not hesitate a moment. We will treat you with success and with best confidence.

Residents of Wychwood District Will Make Plea for Annexation

Petition Signed by 600 Property Owners to be Presented to Board of Control Within a Month -- Opposition From Influential People Expected.

RAPID GROWTH OF DISTRICT SHOWN BY SCHOOL FIGURES

While they look for a strenuous opposition from certain influential Toronto capitalists who have recently acquired large areas of Wychwood property, the citizens of the Wychwood district intend making a strong bid to the board of control within the next month for annexation.

A petition with this object in view was presented to the city council last year, but the wary officials managed to sidetrack the question because the mayor and one or two of his colleagues happened to be out of the city just at the proper moment.

This year, however, the Wychwoodites will not be put off. Following the principle of "once bitten, twice shy," they intend to swoop down upon his worship and the rest of the aldermanic bunch at a most opportune time and hand out their argument straight from the shoulder.

The delegation will be fortified with a petition signed by over 600 property-owners and an abundance of convincing facts regarding the delightful locality in which they reside. They will tell of the most phenomenal development based on two years' progress, that any portion of the city's suburbs has ever known, both in the rapid turning over of property and the erection of fine residences.

Will Be Opposed. Two extensive purchases have been consummated within the past week, one covering about twenty acres and including the grove originally known as Wychwood Park, to an unknown syndicate in which John Eaton is supposed to be largely interested; and the other a twelve-acre block south of St. Clair-avenue and between Bathurst and Avenue-road, supposedly to Sir Henry Pellatt.

It is from these recent purchases that the petitioners for annexation expect the opposition. The increased assessments on such large tracts would mean considerable to a man only holding property for speculative purposes.

Nothing daunted, however, the citizens will again endeavor, with the backing of enough heads of families to constitute a fair-sized section, to persuade the city officials that Wychwood is a most desirable section for the city to possess. They wouldn't be so anxious if they could boast of sewage facilities. They have light and gas already.

Wonderful Development. A prominent clergyman who has been in the district for three years, and has watched the progress of the place, gives some very striking illustrations.

For instance, on a block of two acres on the northwest corner of St. Clair-avenue and Vaughan-road, where there was a man, only a year ago there are now fully 100 families located, he says. Three streets—St. Albans-avenue, Helena-avenue and Alcina-avenue—have all been divided into twenty-foot lots and built up on both sides, showing the future density of the community.

The old section, known as Wychwood Park, had every lot bought up and every property owner on the drive around the park has again turned over his property within the last week to the syndicate referred to. Twelve acres, on the northwest corner of St. Clair-avenue and Vaughan-road, owned by the Kenwood Land Company, has been almost all sold off. Three new streets—Rushton-road, Shaw-street and Arlington-avenue—have all been opened up and have become thickly populated. Seven acres on the southwest corner of St. Clair-avenue and Vaughan-road, owned by Mr. Dunwood, is being sold off rapidly in small parcels.

The accompanying map shows the situation in the rapidly growing district of one square mile. It is bounded on the west by Ossington-avenue, on the east by Spadina-avenue, and on the south by the C.P.R. track. A residential suburb, Toronto has nothing to surpass it. Altho' not more than three miles from the center of the city, it is 300 feet above the level of the lake, with a great city from east to west spread out before the view. On the front of the hill and in the district is the prospective Wychwood Park, sixteen acres of pine forest, and traversing the whole section from the southeast corner to the northwest corner winds a branch of the charming Rosedale ravine, wooded on both sides with maple, oak, birch, cedar and pine. Can't Keep It Back.

The natural location is bound to make this district one of the most important of any northwestern section of the city. It is broken by the ravine above St. Clair-avenue and Dufferin-street, the main thoroughfare to the west, and by the ravine above St. Clair-avenue and Dufferin-street, the main thoroughfare to the west, and by the ravine above St. Clair-avenue and Dufferin-street, the main thoroughfare to the west.

On the other hand, while St. Clair-avenue may never become a business street, it would be a find a more desirable residential street. It runs direct from the banks of the Humber on the west thru Toronto Junction, Prospect Park, Excelsior, Wychwood Park, St. Clair Heights and Deer Park to Moore Park on the east.

1500 Families in Two Years. Those who have followed the development along both sides of this street have been astonished. A prominent land owner says it is quite safe to assert that over 1500 families have found homes for themselves to the north of the city limits in this time, and of that number over 500 have located in the neighborhood of the crossing of Vaughan and St. Clair-avenues.

Three years ago what was known as Wychwood Park was the small section marked on the map "district 1," embracing sixty or seventy families in all living on St. Albans, Helena and Alcina-avenues. Since that time the population of "district 1" has more than doubled, and the number of other districts have sprung up, any one of them being as important as Wychwood was three years ago.

Four New School Rooms. A few statistics regarding the development of the resident school will give a very comprehensive idea of the rapid growth of the district. A six-room brick school was opened in May, 1905, with a staff of four teachers and 155 pupils on the roll. In September of the same year a new room was opened, and a fifth teacher engaged; April, 1906, saw the sixth room opened and another teacher engaged; and in November of 1906 a seventh room was opened in the basement, and a seventh teacher taken on; February, 1907, debentures were issued for \$20,000 to add four more rooms and the present enrollment of scholars is 400.

Proper Footgear. For a clergyman—Cloth. For a tourist—Rubber. For an explorer—Arctics. For a Caucasian baby—White kid. For a negro baby—Black kid. For a milkman—Pumps. For a book agent—Canvass. For a woman—Tipped. For collector of the port—Custom-made. For country lovers—Over-gate-ers. For a cheery person—The Bohemian.

Toronto Real Estate Safest Form of Investment

The Views of a Young, Progressive Real Estate Man on the Subject of Real Estate Investments.

"The man who believes it is impractical to attempt to obtain a home unless he has the cash to pay for it is mistaken, and the man who will not buy real estate unless he pays cash is an unwise investor. This is the statement of Mr. McConkey, of McConkey & Goddard, one of the progressive young real estate men who are keeping pace with our rapid growth. He said further: "There is at present no other form of investment that will yield the quick, sure returns that may be obtained from careful, judicious investment in real estate. The ever-increasing values serve as undeniable evidence of this fact. Real estate always remains an intrinsic asset, upon which money may be raised at any time. This is not the case with many other forms of investment (about 10 per cent.) derived from the rentals."

"A great many people have an aversion toward buying real estate on the payment plan. This is the result of a purely mistaken idea. The shrewdest manipulators of real estate, who have plenty of ready money, will never pay down any more cash than is absolutely necessary to gain possession of a property. For example: I sold a house a short time ago for \$2500. The amount paid down was \$750, a mortgage of \$2500 at 5-1/2 per cent. was given, and the yearly payments of \$100 were arranged for. Allow \$50 for taxes, \$10 for insurance (it was a new house), and \$10 for repairs. The house now has a tenant paying \$30 per month. The result is as follows: The owner received \$350 yearly rental, from which he paid, insurance \$10, repairs \$10, taxes \$50, interest on the mortgage \$137.50, making in all a trifle more than \$300. This left a profit of \$150 on an investment of \$750, or a trifle more than 21 per cent. Taking from this \$150, \$100 (the amount of his yearly payments), a surplus profit of \$50 is then left, or 8 per cent. on his original investment of \$150, plus the amount of \$100 he has paid on his house. Of course, each year makes the percentage of his earnings smaller, but this is more than balanced by the increase in the value of his property. Had he paid all cash for the property he would have had \$2500 tied up, which would yield him \$150 plus the interest of 5-1/2 per cent. on the mortgage, or \$137 plus \$150, or \$287, which would mean about 7 per cent. interest on his investment."

"Few people take the time to figure this out, but it can be clearly seen why the shrewdest real estate investors will pay no more cash than is absolutely necessary to get the title of the property. When asked as to whether good properties could be obtained upon the terms he had spoken of, Mr. McConkey said that properties could be secured in almost any part of the city on even more favorable terms than those he had mentioned."

The firm of McConkey & Goddard started in business about two years ago, at 291 Arthur-street, where their business grew to such proportions that a few months ago they found it necessary to open a city office at 20 Toronto-street.

Some of the properties lately sold by this firm are as follows: Four houses on Arthur-street, at an average cost of \$4000; two houses on Shaw-street, at \$3400 each; a block on Iverson-avenue, at \$2000; a block on Leonard-avenue, at \$32,000; a house on Ossington-avenue, at \$2900.

The city has launched into a municipal power scheme. A power site has been secured at Lac du Bonnet, some seventy-five miles from the city, on the Winnipeg River, where a total of at least 60,000 horsepower can be developed. The bylaw authorizing the city authorities to borrow the necessary \$2,500,000 to erect the plant has been passed, and already Cecil B. Smith, the Ontario power expert, is at work on the proposition, and it is expected the scheme will be well under way by summer time. Seventeen thousand horsepower will be developed at first, and it is estimated that it can be laid down in Winnipeg at \$1 per horsepower. When the demand for power has increased sufficiently to warrant the step, the amount available will be increased to 24,000 horsepower, and the cost will be reduced to \$1.51 per horsepower. When the full amount of 50,000 horsepower is used, the cost to the consumer is conservatively estimated at \$12.46 per horsepower.

The Winnipeg Electric Street Railway Co. have completed the erection of a plant equal to transmitting 30,000 horsepower to the city. The power is developed from the Pinnawa channel of the Winnipeg River near Lac du Bonnet, and it has cost approximately \$2,000,000. Some of the manufacturers of the city are utilizing electric power from this source, and the City Electric Light Co. are using the same power. Perhaps the most astonishing fact of all is the estimate of population for Winnipeg during the next generation. It is predicted that there will be a population of 300,000 by 1911, four years from now; 450,000 by 1921; 600,000 by 1931; and 800,000 by 1941. This is an estimate made in the report submitted to the city council. Winnipeg is beautifully situated. To the east of it lies a country around the shores of Lake Superior and far to the north fabulously rich in natural resources. These lie on the one hand, a market of enormous extent on the other. What more can Winnipeg ask?

Industrial Interests Boom Winnipeg. Winnipeg's New Municipal Power Scheme Will Make it the Manufacturing Centre of the West.

Advice from the west indicates that Winnipeg real estate will continue to advance in value far beyond the former expectations of the most optimistic. Since this great western metropolis was incorporated in 1874, it has experienced an almost unprecedented growth until it now ranks third among Canadian cities. It now has a population of about 130,000, an increase of nearly 100,000 in ten years. Its bank clearings in 1906 ran over \$400,000,000, as compared with \$269,800,000 in 1905. One of the healthiest evidences of Winnipeg's marvelous development, as well as the surest indication of the confidence of moneyed interests in its future is the large amount expended during the past few years in building operations, as shown by the figures of the building department. The aggregate value of buildings erected last year being nearly thirteen million dollars.

We have become accustomed to look upon Winnipeg as occupying the central position of being the centre of the richest agricultural districts in the world, but few realize the extent of the natural advantages it has been endowed with as the great future manufacturing centre of the west. It is the realization by industrial interests of these invaluable resources that create the present demand for Winnipeg real estate.

With characteristic western boldness

FIRST-CLASS BUILDING LOTS ON FIRST-CLASS STREETS, IN A FIRST-CLASS NEIGHBORHOOD, AND AT A THIRD-CLASS PRICE

You know how Winnipeg real estate has increased in value during recent years. You have heard of friends of yours who have doubled, trebled, or quadrupled their money in a short time. These people took a chance, and the same chance is yours to-day that was theirs at the time they made their investment. You read in the papers every day of the immense influx to Manitoba and the Northwest, and of the tremendous building boom now going on in Winnipeg—the commercial metropolis of the West. Unquestionably land values will never depreciate in Winnipeg—they MUST advance. The wheat crop is now all in, and a large harvest expected. Premier Roblin states that evidences are assured for a bumper crop this year. If we offer you choice lots in a splendid locality at a very low price, only \$100 each, is it not worth investigating at once, and particularly if all we ask down is \$25, and you pay the balance at only \$5 per month?

We have secured a block of land just north of the C.P.R. shops and yards, and close to Jim Hill's transfer tracks, and around where all the large factories are being erected, such as the Dominion Bridge Company, the Lever Soap Company, the Manitoba Gypsum Company, and other large concerns. This land is surveyed into lots, and you can make a choice now at the foregoing price and terms. As there are only a few of these, don't wait until it is too late, but call or write to-day. The Central Real Estate Co., 512 TRADERS BANK BUILDING, Toronto

population of 300,000 by 1911, four years from now; 450,000 by 1921; 600,000 by 1931; and 800,000 by 1941. This is an estimate made in the report submitted to the city council. Winnipeg is beautifully situated. To the east of it lies a country around the shores of Lake Superior and far to the north fabulously rich in natural resources. These lie on the one hand, a market of enormous extent on the other. What more can Winnipeg ask?

BUILD YOUR NEW HOME IN THE NEW ANNEX LOTS FOR SALE

Undoubtedly the finest residential property in the Real Estate market to-day is the Russell Hill property (Avenue Road Hill), over 100 feet higher than Rosedale. Lots from 50 to 100 feet frontage, an average depth of 180 feet—and the building restrictions guarantee them most suitable for private residences—handsomely wooded in sections and many lots exceptionally well situated—beautiful view over city and lake—permitting of very artistic terracing and pleasure spots.

KNOCK \$24,000 OFF JARVIS ST. COLLEGIATE

Only \$6000 Will Be Spent on the Building—Parliament School Sold.

Twenty-four thousand dollars was knocked off the building estimates for 1937 by the property committee of the board of education yesterday. The item was to have applied on the enlargement of Jarvis-street Collegiate Institute. The committee passed it up rather unwillingly, but in the face of the opposition of the board of control, who had referred back the original estimates to be "chewed down." It was finally concluded that this item could be reserved for another year. Beyond this, the committee decided to stand pat on all other improvements and enlargements. The amount stipulated for the Jarvis-

street Collegiate needs was \$30,000. Six thousand will be spent on the institution for repairs and improvements to the heating and ventilating system. The Parliament-street school site will be sold to the Aluminum and Crown Stepper Company for \$15,028. Two offers were considered, the other being \$25 less. It is the intention of the purchasers to tear down the old buildings and erect a multi-story, fireproof structure of five stories, costing in the vicinity of \$60,000 to \$75,000. The nature of the business is the manufacture of a sanitary stopper for the bottling business. Other departments of the business will be entered into when the new factory is finished. At present the firm employs 80 to 100 hands. The new site would enable them to double the capacity. Commissioner of Industries Thompson has already sanctioned the proposed building for that location. Providing it does not interfere with the coming examinations, Superintendent Bishop will be permitted to close Rosedale and Phoebe-street schools on June 21 to admit of alterations to the buildings.

WOULD NOT PAY CITY TO CONTROL SPUR LINE

City Engineer "Knocks" Idea of Municipal Operation—Railway Matters.

A stand decidedly hostile to the city's controlling the spur line into Ashbridge's bay was taken by City Engineer Rust at the meeting of the civic works committee yesterday.

Mr. Rust, when asked to make a further report on the cost of the spur, volunteered the flat assertion that should the city handle the line, exacting tolls from the railways, the revenue would not for many years begin to pay the interest on the investment. "Do you think it ever would?" asked the pessimistic Ald. J. J. Graham.

"No, I don't," returned the city engineer, who went on to remark that including a \$20,000 bridge over the diverted channel of the Don, the spur would cost \$90,000. The city should either let the Grand Trunk build the line or should lease it to the railway, he contended.

Chairman Ald. Geary agreed with the view. The revenue the city would derive, he said, would be on a "wheel-and-hub" basis, which would provide for the city getting only something like 1-16 of one per cent, a year on the value of the contents hauled by each car.

The committee didn't discuss the subject further, but will await Mr. Rust's report.

Force Extension Thru. The extension of Harbour-street being considered plainly in the public interest, it was decided to recommend to council that the work be carried out, notwithstanding the opposition of a majority of the property owners affected. A two-thirds vote will be required. The extension desired is from Clinton-street to Ossington-avenue at a width of 66 feet. The cost is estimated at \$225,000, of which the city is to pay 53 1/2 per cent, or \$120,625.

Again the Sea Wall. The city engineer's recommendation that work at a cost of \$45,700 be used in the carrying out of the plan for a sea wall in front of the exhibition grounds, was approved. It was reported that it would cost \$83,000 for a concrete wall to stretch from the new fort to Dufferin-street.

Controller Ward pointed out that already proposed covering 2 3/4 miles out of the 3 1/4 miles between Bathurst-street and the Humber had been acquired, and he estimated that the wide, to be created, would more than cover the cost of the sea wall. The controller figures that the 17,100 feet should be at least \$10 a foot, which would make a strip worth \$171,000.

The question of the extension of Police-avenue from Christie-street to Ossington-avenue was given a boost till September by which time two years have elapsed since the work was first petitioned for. It has been barred by a counter-petition, sufficient to delay the work for months.

Too Costly. The city engineer reported that it would cost \$85,000 to extend Bolton-avenue thru from Gerrard-street to Withrow-avenue, and in view of the costliness of the undertaking the committee will not in the matter stand for further consideration.

Controller Hubbard announced that he would ask the board of control to move toward the construction of a new water main along Arthur-street, from Bathurst-street to serve the northwest district of the city, the water

Quantities Of Diamonds

With the largest stock of Diamonds in Canada to choose from, the selecting of a gem is an easy matter.

Every stone comes direct from the cutters through our purchasing office, and is admitted free of duty.

The direct and substantial saving made in buying permits us to offer exceptional values.

Over half a century's experience has given us a very thorough knowledge of the Diamond business, and qualifies us to guarantee every stone bought from us.

Ryrie Bros LIMITED 134-138 Yonge St. TORONTO

pressure being inadequate in view of the large number of factories that have sprung up.

Railway Is Gracious. At yesterday's board of control meeting so would take up the question of the G.T.R., who wrote suggesting that consideration of tracks depression between Bathurst-street and Sunningdale might be profitably renewed. The city solicitor reported that the special level crossing committee of the city council had taken no action, since the railway had made its offer as to sharing the cost.

The city engineer reported, as to the suggested Dufferin-street subway, that a subway the full width of the street, with concrete abutment and retaining walls, solid bridge floor and a brick-paved roadway six feet wide, and concrete sidewalks on each side of the street eight feet wide, would cost about \$83,000, not including land damages. He thought the Grand Trunk should contribute a portion of the cost, and that the railway would shortly have to construct two additional lines of rails on this portion of the railroad, and probably before doing so would take up the question of the depressing of the tracks. If this were done, there would be no need of a subway, he pointed out.

The city engineer hoped to be able to arrange for a conference on Tuesday with Manager Hays of the Grand Trunk regarding a settlement of those issues upon which the railway commission has given judgment.

Ward One Nominations. The nominations for the by-election in the ward will be held at noon to-day at the R.C.B.C. quarters. The names likely to be placed in nomination are: Ald. W. J. Stewart, W. J. Saunders and John C. Graham. It is unlikely that Ald. Fleming, and J. D. McDonald will enter the contest.

The city engineer sounded a warning note yesterday against people crossing the railway tracks at Bay-street in the space between the tracks and rails, owing to the danger of the feet of pedestrians becoming caught. He advised that Yonge-street crossing be used.

The city engineer will allow the street railway an extension of time for falling into line with the city. Electrolysis caused a lead in the water main on Front-street, near John-street, necessitating repairs yesterday.

Another smallpox patient was taken to the Swiss Cottage yesterday from Fitzroy Terrace, the sufferer, a woman, having contributed to the disease at a house on Leppincott-street.

During May 45 cases of diphtheria were reported, and 39 cases of scarlet fever, eight of typhoid fever and fifteen of smallpox.

A laundry will be established on Bathurst-street, at the corner of Bloor and Shaw-streets in spite of strong opposition from residents.

OVER-PAY CUT OFF. Scheme For Enlarged Navy Demands Economy.

MADRID, May 31.—The scheme for an enlarged navy, now being carried forward under the direction of Minister of Marine Fernandez Nino, has necessitated extensive reforms and economies in other directions, and as a result a number of overpaid officials are hard hit.

Consequently, the minister's plans are receiving considerable opposition at some of the arsenals and naval stations, whence a number of heated protests have been received. The minister, however, is supported firmly by the cabinet and the chamber of deputies, and is proceeding with his policy in spite of this opposition.

25,000 ON PARADE. POTSDAM, Prussia, May 31.—The spring parade of the garrison of Potsdam, consisting of about 25,000 men of all arms, took place to-day. Among those present were the Japanese delegates to The Hague conference and forty visiting British journalists, who were received by Emperor Wilhelm.

Putnam to Have New Trip. NEW YORK, May 31.—Putnam, Jr., former general counsel of the Mutual Reserve Life Insurance Company, who is serving a term in Sing Sing for grand larceny, is to have a new trial, under a decision handed down to-day by the appellate division of the supreme court.

Conductor's Shoulder Broken. BRITAIN, May 31.—Conductor F. Morley of the G.T.P. south-bound freight was shunting his train on the spur line here yesterday, he had his shoulder-blade broken.

BE STRONG AND HEALTHY

Are You Suffering from Varicocelo, Nervous Debility, Loss of Vital Power, Loss of Ambition, Early Decay? I WILL CURE YOU.

HOW MANY MEN ARE SUFFERING MISERIES FOR THE WANT OF A SIMPLE REMEDY! They do not live; they simply exist. In the faces of thousands can be read the story of a wasted life and blighted hopes; joys and pleasures are unknown to them because their vitality is being sapped. Varicocelo, wasting drain, have exhausted nature's electrical forces and left them wrecks upon the shores of life. Many have sought in drugs and patent remedies to relieve their mental and physical suffering. They are soothed for a day, or maybe a week, falsely braced up, until the effects of the drug wearing off, like the momentary bracing of whiskey, they sink lower in vitality, and, with hope exhausted, lose confidence in themselves and their fellow-men and decide to abandon all efforts to recover their power, feeling that there is no help for them. Man, do not sacrifice yourself in this way. Do not endure this living torture. Hold out to you relief in the form of Electricity—that vital element of which, by a life of dissipation, you have deprived yourself—tearing down faster than nature could rebuild. In this great restorative—Electricity—there is life and happiness for you. It restores power to the weak and indigent; it builds up the weakened system, and by its vitalizing, stimulating cure it makes the blood jump through sluggish veins, increasing the circulation to every part, assisting nature to carry off the impure matter which clogs up the wheels of life. If you are weak and sick, don't depend on drugs any longer, but try

Dr. McLaughlin's Electric Belt

It will not fail. It cannot fail, as it infuses into the weakened parts the force of life and strength—the force which is the origin of all vital power—Electricity. I know that it will cure these troubles, and I want to say only when the cure is complete. I don't ask you to try it one month, nor two months, but long enough to cure you, and when I have cured you you can pay me. My confidence in my method enables me to offer you those terms. Any man or woman who will secure me can use the Belt at my risk and

PAY WHEN CURED

Here are a few of the recent letters received from grateful patients: "Dear Sir—I consider myself a much better man since wearing your Belt. The emissions are almost stopped, and I am feeling better to-day than I have for the past six months, and gaining in weight. I am sure that the Belt has done me much good."—S. L. Templin, P. O. Box 301, Stratford, Ont. "Dear Sir—It is about three years since I purchased your Belt, and it is the only medicine I have used since getting it. Before I got it I could not work with rheumatism in my shoulder and back."—H. C. Armstrong, Dobbington, Ont. "Dear Sir—Having suffered with a pain in my back for over twelve months, I sent for one of your Belts last April, and after wearing it for two months, the pain left me altogether, and I have not been troubled with it since."—Jas. O. Sullivan, 65 Oxford street, Branford, Ont.

CALL TO-DAY FOR FREE TEST OF MY BELT AND FREE BOOK. IF YOU CAN'T CALL, CUT OUT AND SEND IN THIS COUPON. FREE BOOK. Write me to-day for my beautifully illustrated book, with cuts showing how my Belt is applied, and lots of good reading for men who want to be "the noblest work of God"—A MAN. Enclose this coupon and I will send this book, sealed, free.

Put your name on this Coupon and send it in. DR. M. G. McLAUGHLIN, 112 Yonge Street, Toronto, Can. Dear Sir—Please forward me one of your books, as advertised.

NAME ADDRESS Office Hours—9 a. m. to 6 p. m. Wednesday and Saturday till 3.30 p. m.

PRESSMAN SCORES SUCCESS WITH PLAY AT PRINCESS

"The Importance of Being Earnest" Presented to Large and Delighted Audience.

The newspaper men of Toronto, their select tables, and the fashionable assembly of prominent society people who attended the Princess Theatre last night at the Princess Theatre last night, smiled a smile of confident satisfaction when the curtain rolled up.

This was in remembrance of the praiseworthy performances of previous years. But before the curtain went down on the final act it was conceded that this year's performances are beyond all praise.

With the Lieut.-Governor and party on one side of the house, Premier Whitney's party on the other, and the floor and balconies completely filled with a decidedly smart and appreciative audience, the performers rose to their opportunities with a performance which placed them for artistic excellence with many of the first class companies which have visited the Princess during the season.

Premier Whitney took occasion after the performance to express his personal gratification with the whole performance. "Gentlemen, the 'Ballad-Monger,' a delightful little one-act romance from the French, was used as a curtain-raiser giving Douglas A. Paterson an opportunity for a clever and convincing study of the decrepit monarch who sentences Geingrove, the singer of scullion's ballads, to death and for a merry jest promises him a liberty if he can within the hour win the hand of the beautiful but capricious Miss Jeanette.

As John Worthing and Algernon Moncrieff, two debonaire young men about town, Robert S. Pinner and Douglas A. Paterson were highly diverting, especially in the scene where Worthing, accused in a conventional manner, arrives at his country home with a faked story of Ernest's death in Paris, only to find the new found Ernest making love in the garden to Worthing's ward.

The ladies of the cast were excellent in their parts. As the hawk-eyed society matchmaker, Mrs. Fawcett, Lady Bracknell, gave a splendid study of imperious femininity, and as Mrs. Erlynne, the governess, Miss Lucy Doyl portrayed in a most convincing and amusingly.

The honors of the piece, however, go to Miss Alice Wallace and Miss Evelyn Biles, who, as Cecily Cardew and Cecily Cardew, respectively, with their sparkling wit and sparkling dialogue, and their sparkling wit and sparkling dialogue, and their sparkling wit and sparkling dialogue.

DASH TO NORTH POLE BY THE AUTOMOBILE

Dr. Cook, Who Ascended Mount McKinley, Having Some Constructed.

A number of specially constructed automobiles to be used in a dash to the North Pole by Dr. Frederick A. Cook of Brooklyn are nearly finished, says a Middletown, N.Y., special. They are being constructed at Callicoon, Sullivan County, by Dr. Cook, a brother of the noted explorer. The automobiles are housed in a barn and no one except the workmen is permitted to see them.

Dr. Cook made himself famous by his ascension of Mount McKinley in Alaska, the highest peak in North America. He firmly believes that the automobile will yet solve the Arctic mystery and that by the use of specially constructed machines such as the one he has just completed, the dash to the Pole will be an easy matter.

It is understood that the automobiles will be fastened like a motor boat and be constructed that good speed can be made with them either on land, ice or water. It has not been ascertained whether Dr. Cook intends to make his dash for the North Pole, but it is not believed that the start will be made this summer.

Want Road Opened. At a late meeting of the Scarborough Township council a numerous signed petition was presented, asking for the opening up of Lakeview-avenue, between the Kingston-road and Danforth-avenue. On that occasion Mayor Ross of Toronto and ex-Councillor Robert Kerr appeared before the Scarborough council and urged the immediate prosecution of the work.

The petition was a petition from the south of the Kingston-road, right to Queen-street, Lakeview-avenue was the full length of the road, while north of the Danforth-avenue, the road extended for miles into Scarborough Township.

The only hindrance to the opening of the road is that from the east the road is half a mile, and to the west Main-street in East Toronto. The D. D. Mann property sits in the way of the road, the Kingston-road on the easterly side. The G.T.R., it is said, are not averse to the opening of the road. The small intervening portion from the eastern terminus of Lakeview, near Sir Henry Pellatt's residence, is spanned by the bridge of stone leading down to the water. The Scarborough council will be further urged to prosecute the work in the immediate future.

Richmond Hill, May 31.—The Sydney boys, who at present are located in the Standard Bank at Brantford, is spending his holidays at home. Rev. A. P. Brace and J. A. E. Switzler, who are in the city, are attending the meeting of the Toronto central district, held in St. Paul's Methodist church. The former was appointed secretary. The charge of highway robbery, which was held on Monday (Saturday), four extra cars a day will pass thru to the Jackson's Point service of the Metropolitan street railway. It is expected that more will follow later.

UNIVERSAL SYSTEM OF LINEAR MEASUREMENT

Metric System to Be Disposed of to Use the Light Wave as a Standard.

In a recent lecture at Philadelphia on a subject now exciting much attention both in Great Britain and the United States, Major MacMahon has indicated the source from which a new standard of length may be forthcoming.

The proposal is to take the length of the light wave of some standard light produced under certain defined conditions—reproducible at any time—and make this the standard of length from which all other units could be deduced. In some experiments already conducted, the vapors of metallic cadmium were produced in vacuum, and rendered incandescent by an electric spark.

It is possible to measure to a nicety the wave-length of any particular portion of the spectrum from such a light-source, and it is proposed to adopt this wave-length as the standard of length. The period of vibration of the same wave would form the standard of time, and the mass of a molecule of some definite substance the unit of weight.

There is so much opposition to the proposed compulsory introduction of the metric system into Great Britain that it is probable that the suggested laws will not be passed. Much has been made by the opponents to the metric system of the fact that the metric is not an exact ten-millionth part of the quadrant of the meridian, as its inventors believed it to be. But for practical purposes this scarcely affects the question; the English yard is an arbitrarily selected standard, and yet it is none the worse for that ordinary use.

It is the definite relations between the unit and its sub-divisions and multiples which really matters, and not its relations to the diameter of the earth, or any other recoverable standard.

Will Consider Evidence. It is understood that the court of the trial, which is being held at the conference, will be called to consider the new evidence, and to decide if it is of sufficient strength to warrant a conviction. It is expected that the court will be called to consider the new evidence, and to decide if it is of sufficient strength to warrant a conviction.

Acquitted on murder charge at Parry Sound. Sentenced to three years for assault. This was one client whom Daniel O'Connell defended successfully from the charge of highway robbery. The man was grateful. He was also appreciative, and when he was accused of a similar offence some months later, he retained O'Connell again, and was again acquitted. A year more, and the unfortunate man was, tried for highway robbery, a third time, and was again acquitted.

Quick Action. The proprietor of a large business house bought a number of signs reading, "Do it Now," and had them hung around the office, hoping to inspire his people with promptness and energy in their work. In his private office one day soon afterwards a friend asked him how the scheme affected the staff. "Well," answered the proprietor, "the cashier skipped with \$20,000, the head bookkeeper eloped with the private secretary, three clerks asked for an increase of salary and the office boy hit out to become a highwayman."

MINISTER RESIGNS BUT LATER CHANGES MIND

Rev. M. Taylor Not Satisfied With Report—Row Over Charges Made by Principal Shaw.

GANANOQUE, May 31.—(Special.)—The much-talked of liberal action between Dr. Workman and Prof. Shaw of the Wesleyan College, Montreal, has been amicably settled so far as the church courts are concerned.

At a meeting of the ministerial section of the Montreal conference here this evening a report from the committee, which has been dealing with the matter, was adopted, and the case is referred back to the lower court of five clergymen to consider new evidence, which has come out in the conference and it is generally understood by all present that this is but a nice way of dropping the issue.

The origin of the case was the attack made by Principal Shaw on the doctrine taught by Dr. Workman in the college, and other statements made by Prof. Shaw, which Dr. Workman regarded as libel. A court of five clergymen heard this charge on Monday and returned a verdict that Prof. Shaw was not guilty of libel. Dr. Workman alleged that the court had no jurisdiction, and carried an appeal to the conference, where a committee was appointed to consider it.

The committee first suggested the quashing of the finding of the lower court. Dr. Shaw would not stand for this. The case of last night was presented, and its adoption brought the resignation of Rev. Melvill Taylor from the Methodist ministry as the technical reason for referring the matter back to the lower court was the allegation that, after a meeting of the said council had been held, the council had passed a resolution to refer the matter to a committee of five clergymen, and that the committee had recommended that the board of trustees should consider the matter, and amend the other clause to read that the matter be referred back to the trial court to consider new evidence, which had been adduced during the conference. A ministerial resolution was called for, and the committee reported that there was considerable uneasiness among the ministers, and a desire on the part of the board of trustees to support him. Dr. Shaw, however, put an end to this by stating that he was one of the parties most concerned. He was satisfied with the report as presented by the committee.

Will Consider Evidence. It is understood that the court of the trial, which is being held at the conference, will be called to consider the new evidence, and to decide if it is of sufficient strength to warrant a conviction. It is expected that the court will be called to consider the new evidence, and to decide if it is of sufficient strength to warrant a conviction.

COMPLIMENT BISHOP. Anglican Synod Ends by Address to Bishop. QUEBEC, May 31.—(Special.)—The Anglican Synod today concluded its labors by presenting a complimentary address to Bishop Dunn on the completion of fifteen years of his episcopacy, enlarging upon his great liberality in his work as well as his fervency and zeal.

His lordship has devoted his entire salary to the work of the church, and his personal expenditure is said to contribute to church objects in Canada over \$100,000.

RAILROAD PASSENGER RATES. Chicago Tribune.—Last week one of the officers of the Illinois Central told Geo. Deane that the average rate per passenger per mile on that road was only 1.75 cents. He said that if two rates were made the maximum rate the average rate would be forced down in some unexplained way to 1.75 cents a mile, a rate at which the road would lose money.

DIVIDEND NOTICES

THE STANDARD BANK OF CANADA. DIVIDEND NO. 63.

Notice is hereby given that a Dividend upon the Capital Stock of this Bank, at the rate of Twelve Per Cent. Per Annum for the current quarter ending 31st May, 1907, has been declared, and that the same will be payable at the Head Office and Branches on and after Saturday, the 1st day of June Next.

The London and Canadian Loan and Agency Company, Limited. DIVIDEND NO. 74. Notice is hereby given that a dividend of Ten Per Cent. on the common stock has been declared for the month ending May 31st. Transfer books will be closed from June 1st to June 15th.

PUBLIC NOTICE. WIDENING OF ORFORD AVENUE. Notice is hereby given that at a meeting of the Council of the Corporation of the City of Toronto, to be held at the City Hall, after one month from the date hereof, at 10 o'clock in the afternoon, or so soon thereafter as a meeting of the said council shall be held, the council intend to pass a by-law to widen Orford-avenue from a point distant 110 feet, more or less, west of Clara-street, easterly to the west limit of Clara-street.

A Phenomenal Habit Breaker. I solicit incorrigible inebriates, prostitution, unnatural vices, drugs, liquor, tobacco, bad habits, self-abuse, hallucinations, chalk eating, swearing, lying, kleptomania, gambling, violent tempers, sleeplessness, morbid fears of things, nervousness, incurable children, lip-biting, thumb-sucking, etc. No medicine or drugs used on the premises. The first treatment. No detention from business or social obligations. Treatment at home if desired. My method is infallible and permanent. DR. ARTHUR BOND, Hypnotic Electro-physiologist, 116 Harbour-street, east.

FOR THE BRIDE Silverware At Factory Prices Being manufacturers we save you all middleman's profits—our prices being practically the same as the average dealer purchases for.

Encased in a strong, highly finished mahogany cabinet, velvet lined, sells at \$194.00, complete. The Forks and Spoons are Sterling Silver of massive weight, in the much favored double thread pattern.

Complete Cabinets of Sterling Silver range from \$75.00 up. One Killed, Four Injured. OTTAWA, May 31.—A head-on collision occurred between two extra freight trains on the G. T. R. a little to the west of Beatty's Station, on the Depot Harbor branch, early this morning.

Ryrie Bros Limited 134-138 Yonge St. Toronto

COBALT -- The Exper's Report on Foster is Very Satisfactory --- COBALT

FOSTER AND TRETWEY ARE THE WEAK FEATURES

Of the Toronto Mining Markets— Most of the Trading is In These Issues.

World Office, Friday, May 31. Weakness in Foster and Tretwey stocks was the feature of the dealing in the local mining market to-day. There was no current news to account for the selling of these shares. As a matter of fact, it was rumored that the Foster report would prove much more satisfactory than had been expected, but the selling was evidently not influenced by the rumor. The stock came under the influence of the market during the afternoon, when the price was reduced within a point of the low on the last week. The liquidation to-day was rumored to be from friends of some of the old directors. The seven-point break in Tretwey was a general surprise, as it is understood that some good buying of this stock is taking place for the London market. These two issues dominated the market trading, and it is understood that the whole list, Green-Meehan sold down to 50, and Cobalt at 23 1/2. Silver Queen was steadily firm, and very little of the stock coming on the market at present prices.

REPORT ON FOSTER.

Favorable Information Received From One Engineer. J. G. Kent, president of the Foster mine, stated last evening that a report from one of the engineers engaged to examine the property had been received. This report, he said, was very satisfactory, but would not be made public until the other engineer's statement had been received, and both had been considered by the directors. Simon Dyerment of Barrie was elected a member of the board of directors, thus completing the board.

Tretwey Liquidation. COBALT, May 31.—An explanation of heavy liquidation of Tretwey stock may possibly be because the new vein recently cut through the south cross-cut and the easterly continuation of the main vein are thought to run into the Conlagaes ground to the south. The new vein mentioned has been identified with "A" vein on Conlagaes. The cross-cut which has been driven to the north has encountered a small vein, but whether it is the vein outcropping on the surface, and which the cross-cut was driven to, cut, is not known.

New York Curb. Chas. Head & Co. report the following closing quotations on the New York Curb to-day: Nipissing, closed 12 3/4 to 12 7/8, high 13 1/2, low 12 1/2; Buffalo, closed 1 3/4 to 1 5/8, high 1 7/8, low 1 1/4; Green-Meehan, 1-2 to 5-8, 100 sold 1 1/2; Buffalo, 1-2 to 3, no sales; Tretwey, 1-2 to 1 1/2, 100 sold 1 1/2; Conlagaes, 1-2 to 1 1/2, 100 sold 1 1/2; Silver Queen, 1-2 to 1 1/2, no sales; Silver Leaf, 1-2 to 1 1/2, no sales; Athliti, 15 to 16, 100 sold 15 1/2; Colonial Silver, 2-1/2 to 2 3/4; Athliti Central, 35 to 36, high 36, low 34, 2000. On Boston curb: Silver Leaf, closed 11 to 11 1/2, high 11 1/2, low 10 1/2; Cleveland, Cobalt, 85 to 91.

TRETWEY DIVIDEND TO BUY CONCENTRATOR

It Will Be an Asset to the Property— Situation is Explained.

The Tretwey Mines will stop the next dividend for good and substantial business reasons, which are to put it into a concentrating plant. This will make an added asset for the company. Mr. McCuaig, who is closely identified with the Tretwey Mines, told The World last night that Engineer Loring estimates that there is \$600,000 of ore in the \$400,000 of this is shipping ore and the rest concentrates. The shipping ore will take twelve months to get out, shipping \$38,000 a month. There is on hand \$99,000 in the treasury of the company. Mr. McCuaig thinks it is the part of good business management for the mine to have its own concentrating plant to handle the \$300,000 of concentrates. To build this needed plant the next dividend will be passed.

Reports from the mine are to the effect that it is in excellent condition, and with continued good management, should pay out as the directors propose, negotiations are on foot to float a large block of the stock of the mine on the London market, and to do this successfully the mine must be fully equipped, and a self-contained concern.

Mr. McCuaig thinks it is the part of good business management for the mine to have its own concentrating plant to handle the \$300,000 of concentrates. To build this needed plant the next dividend will be passed.

Annual Games of Provincial Institution Conducted Under Favorable Auspices. The annual games of the Model School were held at St. James-square yesterday afternoon. Sunny weather combined with an interest in the institution drew a large attendance. The first events were company drill by the boys, under Major Legge, and hoop and wand exercise by the girls, who had been instructed by Mrs. Summers.

The championship prize presented by the students of the Normal School, was won by J. Singer, who gained 14 points on the various events out of a possible 18. The annual games were inaugurated in 1874 by the late Mr. Pellet, who has always taken active interest in the school and is still one of the patrons. He presented the first and second prizes to the winners in the ex-pupils' race yesterday.

Among the large number of visitors present were Sir H. M. Pellet, Rev. Dr. Jacobus, Rev. J. Pellet, Rev. G. Gaudier, Principal Galbraith, Prof. Keys, Dr. A. Davidson, Dr. B. E. McKinnley, and Rev. Jenkins, J. B. Hodgson, R. Parkinson, Jas. Maxwell, W. Ritchie, O. F. Rice and M. Frenkel.

Accumulated Mail Orders Started Out For North. WINNIPEG, May 31.—(Special.)—Postoffice authorities received a telegram announcing the opening of navigation on the Yukon River. The telegram arrived at 7 o'clock, and one hour later more than a ton of merchandise had been accumulated at the various mail order houses in the city during the winter was started on the way to that destination. Another special telegram was received from the Yukon River, and all the different classes of mail are now being forwarded to points beyond White Horse.

At Hanlan's. The many big attractions at Hanlan's Point are proving great draws. Dare Devil Dash, the fearless bicycle rider and high diver, will give his last two performances to-day. The engagement of the Ballotists, serial artists, also closes to-night. Next week the free attractions will be Captain Webb, who comes direct from the New York Hippodrome with his wonderful troupe of performing seals and sea lions. Another special feature will be Silvers and Emerie, the marvelous and daring aerial artists.

WILLS & COMPANY, BROKERS. WEEKLY BULLETIN. One only has to look at the general condition of the markets through the world, and especially the mining markets in England and the United States, to find out the real cause of the slump in the Cobalt stocks in Nevada, South Africa and other camps have declined in greater proportions than even in Cobalt, and the most of these are old and proved mines. We are at a loss to state what the real reason for this is, but know it is no fault of the properties, and while we do not look for any immediate revival, we believe that there will be a material rise in prices in September and October. In the meantime a sagging market is to be expected.

Wills & Company are beginning to improve. Mines that have never as yet shipped any ore will make shipments as soon as the roads become passable. Development work is going forward in a rapid and scientific manner. In fact, the Cobalt camp is just beginning to be mined. All work previously done was done in a haphazard and unsatisfactory manner, and better things can soon be looked for.

Yours very truly, WILLS & CO.

FLEES TO WOODS WITH POSSE IN PERSUIT. ROBBLIN, Man., May 21.—(Special.)—A posse of fifty are pursuing Joe Winn, a desperate man who shot and fatally wounded Joe Story yesterday. He fled to the woods and is heavily armed. To Oust Chief Dinan. SAN FRANCISCO, May 31.—It has been decided by District Attorney Langdon to call a meeting of the grand jury to-morrow to consider the advisability of taking steps to oust Chief of Police Dinan.

WANTED! Live Agents in every county in Canada to handle our marvellous and high-grade Cobalt and Larder Lake Stocks. Correspondence solicited. LAW & CO., 728-729-730-731-732 Traders Bank Building, Toronto, Ont.

Copy of Letter which is being issued to the Shareholders of the TRETWEY SILVER COBALT MINE, Limited

TORONTO, 1st June, 1907.

At a meeting of the new Board of Directors held at the offices of the Company yesterday, at which were present: A. M. Hay, Haileybury, President; W. J. Sheppard, Waukenahe, John A. McKee, Toronto; Sidney Small, Toronto; S. W. Black, Toronto; it was decided that no dividend should be paid at the end of the present month, for the following reasons, which the Directors trust will meet with the approval of the Shareholders.

The financial position of the Company is satisfactory, the amount of cash in hand at this date, and the value of ore in transit and ready for shipment—amounting to about \$60,000.00—being available for the general purposes of the Company. Under ordinary conditions a dividend might be declared, but in view of the advisability of entering upon extensive development work during the summer months, and the probability of a decision being arrived at to erect a concentrating plant in the near future, the Directors have decided to conserve the Company's funds for these purposes rather than to deplete the treasury by the payment of a dividend, or by the sale of treasury stock at the present time.

Attached is a copy of the latest report from the consulting engineer, Mr. F. C. Loring, dated 28th ultimo, giving detailed information as to the present position and conditions at the mine, together with estimates of expenditures and value of ore reserves, etc., which the Directors consider to be very satisfactory. The latest reports from the Superintendent are also of a most satisfactory character, the equipment of the mine and the working conditions having recently been greatly improved.

The Directors are sanguine that development work now going on will result in a largely increased earning capacity, and that the payment of dividends on an increased scale will be resumed in the near future. ALEX. M. HAY, President.

agement and its predecessors approximately 10,000 square feet, of which we have extracted 7000 square feet. Total vein area not extracted above level No. 1 is 16,000 square feet. It is not probable that all of this territory will yield ore in paying quantities. It is, therefore, reasonable to assume that there is sufficient ore above level No. 1 to continue at present rate of extraction for at least 12 months without further development.

During the present management says have been made of this ore showing average values sufficient to yield by concentration a net profit of at least \$10 per ton. About 6000 tons are available on the dump, besides what may be under waste extracted from crosscuts and unproductive parts of the mine, which waste no doubt covers a quantity of this grade of ore mined by our predecessors. An estimated additional 14,000 tons of this grade of ore exists above level No. 1, which will be extracted in the process of mining the ore at present shipped. This will make a total of at least 20,000 tons suitable for concentration, which, at a net profit of \$10 per ton will yield \$200,000. About 50 tons are being mined daily of this ore, and that amount can be easily increased if desired; consequently, ore is being mined which should yield a net profit of at least \$500 per day, or \$150,000 per annum. In order that this revenue may be available, an expenditure of about \$30,000 is needed for the erection of concentrating and other machinery. The present revenue of the mine is sufficient for maintaining current expenses and the regular 4 per cent. quarterly dividend.

There is now in transit ore from which \$25,000 should be received, and at the present rate of production ore would be mined and in transit before July 1st from which we should receive about \$35,000 from smelter.

There will be no difficulty in maintaining present rate of production for 12 months, as previously set forth, but with present facilities it will be impossible to do this and provide for additional expense incident to erection of concentrator, or for other extraordinary expense, such as sinking shaft No. 1, and the present man-

agement and its predecessors approximately 10,000 square feet, of which we have extracted 7000 square feet. Total vein area not extracted above level No. 1 is 16,000 square feet. It is not probable that all of this territory will yield ore in paying quantities. It is, therefore, reasonable to assume that there is sufficient ore above level No. 1 to continue at present rate of extraction for at least 12 months without further development.

During the present management says have been made of this ore showing average values sufficient to yield by concentration a net profit of at least \$10 per ton. It is, therefore, reasonable to assume that there is sufficient ore above level No. 1 to continue at present rate of extraction for at least 12 months without further development.

During the present management says have been made of this ore showing average values sufficient to yield by concentration a net profit of at least \$10 per ton. About 6000 tons are available on the dump, besides what may be under waste extracted from crosscuts and unproductive parts of the mine, which waste no doubt covers a quantity of this grade of ore mined by our predecessors. An estimated additional 14,000 tons of this grade of ore exists above level No. 1, which will be extracted in the process of mining the ore at present shipped. This will make a total of at least 20,000 tons suitable for concentration, which, at a net profit of \$10 per ton will yield \$200,000. About 50 tons are being mined daily of this ore, and that amount can be easily increased if desired; consequently, ore is being mined which should yield a net profit of at least \$500 per day, or \$150,000 per annum. In order that this revenue may be available, an expenditure of about \$30,000 is needed for the erection of concentrating and other machinery. The present revenue of the mine is sufficient for maintaining current expenses and the regular 4 per cent. quarterly dividend.

There is now in transit ore from which \$25,000 should be received, and at the present rate of production ore would be mined and in transit before July 1st from which we should receive about \$35,000 from smelter.

There will be no difficulty in maintaining present rate of production for 12 months, as previously set forth, but with present facilities it will be impossible to do this and provide for additional expense incident to erection of concentrator, or for other extraordinary expense, such as sinking shaft No. 1, and the present man-

agement and its predecessors approximately 10,000 square feet, of which we have extracted 7000 square feet. Total vein area not extracted above level No. 1 is 16,000 square feet. It is not probable that all of this territory will yield ore in paying quantities. It is, therefore, reasonable to assume that there is sufficient ore above level No. 1 to continue at present rate of extraction for at least 12 months without further development.

COBALT --- New Finds Are Being Made by Active Development --- COBALT

NEW FINDS ARE IN ORDER ON THE OLD PROPERTIES

At this date, and the mining available for the property, but in view of the fact that the probability factors have decided to pay the payment of a large sum of money for the property, the equipment of the property is being increased and in the near future a resident.

GORLEY GOES TO COBALT TO PROBE LICENSE FRAUD

Provincial Secretary Hanna Gives Statement of Action of Department.

Gophering is Being Discarded and Real Mining Put Into Effect On Important Claims.

NEW FINDS IN ORDER

COBALT, May 29.—(Special Correspondent.)—The camp today is very much excited over the find this morning on the McKinley-Darragh, where they are now bagging large nuggets, ninety-seven per cent of which is pure silver. The vein discovered at the Nipissing Friday, which is one of the best of the camp, and from which a nugget weighing 700 lbs. was taken, was known to be heading directly for the McKinley-Darragh.

FOUR BURNED TO DEATH

LONG BRANCH, N. J., May 31.—The bodies of four persons were found today in the ruins of a house occupied by Walter Schiffer, secretary of the United Cigar Manufacturers' Co., which was burned last night. They were: Ruth Schiffer, aged 14, and Marion Schiffer, aged 10, daughters of Mr. Schiffer, and Tilly Monthon and Mary Diller, servants.

ANOTHER \$50 IN GOLD

We have two Larder Lake gold claims, adjoining the famous Dr. Reddick mines, and the Cryderman and Proprietary mines. For these properties we want a suitable name, and will give \$50 in gold to the one who first suggests the name that will be adopted.

COBALT AND LARDER LAKE STOCKS

Orders executed promptly and at close prices for a commission of approximately one per cent. OF THE MONEY INVOLVED. Exceptional opportunities for large profits in connection with ground floor enterprises.

COBALT AND LARDER LAKE STOCKS

Our client offers to exchange a lot of good DIVIDEND PAYING oil stock for standard Cobalters. This is a Cinch. Give us a talk. It will pay you.

New Gold Camp

OF Northern Ontario.

THOMAS McCAMUS, President.
Vice-Pres. of The Tomiskaming and Hudson Bay Mining Co., and President of The Tomiskaming Telephone Co.

FRANK WESLEY HAYNES, Vice-Pres.
Director of The New Likieard and Northern Ontario Mining Co.

We earnestly recommend that you purchase the Lucky Boys Gold Mines stock at 6 cents per share. This advice means riches to you. The time is not far distant when Lucky Boys will be paying large and continuous dividends. By buying now at a price you can afford to pay you will be a participant in these assured profits.

As we have heretofore stated in our circular letters and advertisements, we are willing to stake our standing and reputation on the present conditions and the future outcome of the Larder Lake district and as to its possibilities. We believe it will be the most wonderful gold field that the world has produced. When we make these assertions it is after we have made most searching and thorough investigations. We do not believe that a financial house who has every facility at its command, having a number of experienced mining men in the field, and reliable and trustworthy mining engineers, could go to more pains regarding the actual worth of a gold camp than we have done. We have been most cautious and we are very particular as to what we recommend for investment. We have built up a big business and the investors who place confidence in us and follow our advice number many thousands.

We are looking far into the future, and we thoroughly realize that the only way to hold our customers and keep them interested is for them to invest their money in stocks that have merit and that are sure winners.

THE MAN OR WOMAN WHO INVESTS THEIR MONEY THROUGH US CAN SIT DOWN AT THEIR HOMES AND FULLY REALIZE THAT WHATEVER FUNDS THEY HAVE INVESTED HAVE BEEN WELL PLACED.

You can absolutely depend that the officers and directors of the Lucky Boys will expend the money received from the sale of Treasury stock in the development of the property. We wish to call your attention to the fact that 1,000,000 shares of the stock of this company are for the absolute use and benefit of the Treasury.

6c PER SHARE

(Par Value \$1.00, Fully Paid and Non-Assessable.)

If you will compare the price, 6c per share, and the organization and incorporation of the Lucky Boys against any of the other companies, you cannot but realize the great percentage there is in favor of your investing your money in this stock in preference to any other.

Wire or telephone orders at our expense. Prospectus, with full information, containing application blanks, mailed to any address.

Head Office 10 Trust Building, Sparks Street, Ottawa
"THE ORIGINAL and FAMOUS DISCOVERIES"

We hold seven claims—the first discoveries at Larder Lake. No opposition when our claims were staked. Dr. Reddick and his associates carefully selected and staked what is the opinion of experts and others who are in a position to know, is one of the richest discoveries ever made in this country. As an evidence of this we have been daily receiving orders for our stock from parties living in the vicinity of the mines and Cobalt.

We have placed 200,000 shares of our Treasury stock for sale at \$1.00 per share, a large block of which has already been sold, and intending purchasers should send in their orders before this allotment is all taken up.

—THINK THIS OVER—

FIRST in the field and the best locations;
CAREFUL and economical management;
No INJUDICIOUS or MISLEADING statements;
A STRAIGHTFORWARD proposition and your money's worth;
One dollar's worth of stock for one dollar.

Write to the company or call for prospectus and further information.

NORTH YORK TEACHERS INSPECT CITY SCHOOLS

Junction Customs Show Large Increase—West York Campaign Closes—Notes.

TORONTO JUNCTION, May 31.—The customs receipts for the port of Toronto Junction show an increase over the corresponding month of last year of \$3742.88. The figures are: May, 1907, \$21,109.63; May, 1906, \$17,366.74; increase, \$3742.88.

The vital statistics for the month of May, as compared with the corresponding month of last year, are: May, 1907, 30 births, 9 marriages, 15 deaths; May, 1906, 19 births, 5 marriages, 5 deaths. Frederick J. Peel, the Socialist candidate in the West York by-election, appeared before Mayor Baird this morning, and was allowed to go on suspended sentence. His counsel asked to have a fine imposed in order that he might appeal the case. Mayor Baird

"THE HOUSE THAT QUALITY BUILT."

GREY

Grey is the "Favorite" color in this season's fashion's race, and no mistake.

And could any happier fancy have taken the fashion gods in selecting what was to be for summer, 1907.

If a gentleman wants it that way we can carry the grey idea right through a wardrobe for him, from his underwear to his top coat—and all things between, and from half-hose to neckwear.

Half-a-hundred shades of grey.

thought that he was punished sufficiently, and refused to impose a fine. There is a case of scarlet fever at 7 Edmund-street, which is a polling booth in to-morrow's by-election. The medical health officer has examined the premises, and asserts that there is no reason for changing the polling booth. The child is rigidly confined to a distant part of the house.

North York Visitors.
About 130 North York school teachers came in over the Metropolitan Railway yesterday morning, and spent the day in sight-seeing at the various seats of learning in the city. The visitors arrived shortly after 9 o'clock, and at 10 o'clock were addressed by the minister of education, Hon. Dr. Fyfe, at the Normal School. The remainder of the forenoon was spent in visiting the objects of interest in the education department. In the afternoon they visited the university, previous to which a short time was spent at the parliament buildings. At the university, Principal Hutton and Prof. Carruthers spoke briefly on "Greek and Roman Architecture." After luncheon the visitors returned home by a late car on the Metropolitan.

Enjoyed Their Visit.
To the number of about 150, the South York teachers, who, on Thursday, spent the day in convention in the old courthouse on Adelaide-street, yesterday divided up into groups of half a dozen or more and visited a number of the city schools. At Queen Alexandra, Ryerson, King Edward, Church and Winchester, the manual training classes proved a source of great interest. Later in the day they assembled in the Biological Building, up at the university, where Professor Chant entertained the members with a lecture, which was greatly appreciated. The visitors left for home last night, delighted with the success of the convention and the courtesy extended by their city conferees.

Thistle-town.
THISTLETOWN, May 31.—The Etobicoke Township Council will meet in this village on Monday afternoon. This is in accordance with the usual custom of holding one meeting here during the year. Beyond routine matters, the further consideration of Councillor Warner's plan for the improvement of the Lake Shore-road will probably be taken up.

Swansea.
SWANSEA, May 31.—Shortly after midnight fire broke out in the Dominion Sewer Pipe Company's stables, a short distance from the works. The building, which was of frame, was entirely destroyed, but the horses were removed in safety. The damage is estimated at about \$500.

North Toronto.
NORTH TORONTO, May 31.—A public meeting in the interest of Esten Williams, the independent candidate in the by-election for West York, was held in the town hall to-night. About 30 electors were present. James Gillespie was chairman. Williams spoke for some time on his platform as a workman's candidate, and contended that the labor unions should have parliamentary recognition, the same as doctors and lawyers. He objected to the three-man clause and predicted that at the next general election the leader of the opposition will make his platform the improvement of the government to rescind that measure. "Law reform" was next dealt with. He had no apology to offer for opposing the government candidate in this by-election, as a good kicker, as an independent, will do more good than a back-bencher.

The Toronto central district of the Methodist Church elected C. J. Wilson and Dr. Jeffs of the Eglinton Methodist Church as lay delegates to the annual conference to be held in Elm-street Church the second week in June. The Daville pulpit on Sunday will be occupied by Mr. James A. Rutherford. His subject in the evening will be "From the Bar Room to the Cross," and Mr. Lev Eason, the colored evangelist, has kindly consented to sing. Mr. Eason and Mr. J. M. Whaley attended the district meeting this week, which was held in St. Paul's Methodist Church. Matters in connection with the churches on the district are very satisfactory.

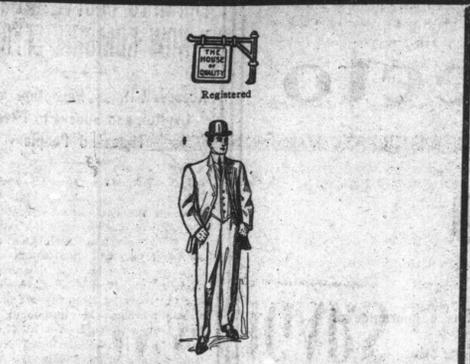

A very successful concert was given Thursday evening in the public school Robert Ross of Kingston-road, while drawing on his boot, sprained the knee cap. He is now using a crutch.

East Toronto.
EAST TORONTO, May 31.—The East Toronto Thistle Lacrosse Club held a good practice to-night in preparation for their exhibition game with one of the city teams to-morrow. They are this year entered in the Inter-Association League senior series. The annual meeting of the Ladies' Aid Society of Hope Methodist Church, East Toronto, was held on Thursday afternoon, May 29, at the church. The annual reports read proved the society to have had a most prosperous year. The officers elected for the year were: President, Mrs. D. Wagner; vice-president, Mrs. T. Prescott; secretary, Mrs. J. A. Solomon; treasurer, Mrs. Mahbutt. Eight new members were received during the afternoon. Mrs. Ferguson gave a talk on "The Importance of the Common Place Duties of Life." A vocal selection was rendered by Mrs. Moore, and piano solos by Miss Mae Stibbard. Fifty-five members were present. Tea was served by the ladies, and brought to a close one of the most happy and successful meetings of the society. The jury empanelled by Coroner Britton to hold an inquest, touching

Norway.
NORWAY, May 31.—On Wednesday evening at St. John's Church Miss Minnie Howard became the wife of Mr. Fred H. Harding. The bride was supported by Miss Nellie Penney, and the groom by his brother, Mr. Frank Harding. The Rev. W. L. Baynes officiated. A meeting of the St. John's Men's

Local Option For York Township
York Township has thirteen unlucky drinking places that are doing a vast amount of harm. Many a man has been ruined, many a home wrecked, many a farm been lost by the liquor they have sold and the bad influence they have exerted. The only way to get rid of them is to use the law on our statute books that will banish them. That law is LOCAL OPTION.

boile acid self-administered. The jury further recommended that the government be asked to pass a law prohibiting druggists from selling carbolic in a clear form, and requiring a 20 percent solution, unless a doctor's certificate was presented. Residents in the south end of the town on Queen-street, from Oak-avenue to Beach, are somewhat annoyed at the delay attending the putting in of the water mains. McQuillan & Co., who were awarded the contract, have stated their intention to begin work at once. There will be two games of baseball in town to-morrow afternoon. At 2 o'clock the East Torontos play Balm Beach, and at 4 p.m. the Evangelists of Riverdale. The first game will be umpired by A. Taylor and the next by King Bramham.

Mimico.
MIMICO, May 30.—A lodge of the Independent Order of Oddfellows, Manchester Unity, was opened in Mimico Tuesday evening. The Provincial Grand Master, Wm. Fawcett; Prov. D.G.M., Geo. R. Cumming; P.C.S., Wm. C. Schanick; Prov. Trustees, John Mathison and Harry Yeal, assisted by fully two hundred past grands and members of the city lodges, met at Mimico, where a procession was formed and led by the Mimico Industrial School Band, marched to the Orange hall, Hamber Bay, where the Loyal Prince Rupert Lodge was instituted, and the following officers installed—Geo. Davidson, N.G.; L. Howard, G.M.; Reginald Woram, V.G.; Jas. S. Schurms, Sec.; Refreshments were served by Mrs. Woram, assisted by many lady friends of the members and after speeches by the provincial officers and others, the meeting closed with three cheers for the Prince Rupert Lodge.

Men's \$1.50 Working Shirts for 49c

LET the good lady examine the make-up of these shirts we speak of for Monday's selling. Let her look at the stitching, look at the generous sizes, look at the quality of the material.

They are good shirts. They'll stand the test of women's eyes and they'll give comfort to the men who wear them. Odds and ends of light underwear offered also.

600 Men's Working and Outing Shirts, collar and pocket, also reversible collar and bands, silk striped cashmerette, English oxford, black steen, black and white striped, flannellet and tweeds, sizes 14 to 18, regular value 75c, 1.00, 1.25, 1.50, Monday..... **49c**

Odds and Ends in Spring and Summer Weight Underwear, including merino ribbed balbriggan, pink, blue, white and fawn shades, perfect goods, sizes 34 to 46, regular 35c, 50c, 75c per garment, Monday..... **25c**

The New Victor

MEN who like the snap and style of the best American shoes should see the new lasts in the Victor series.

We are charging 4.00 a pair for Victors now, owing to the increased cost of leather, but the extra value is more than all there.

Just see them.
