HE WAS NOTED AS AN AUTHOR AND HISTORIAN

Col. Thomas Wentworth Higginson, historian and author, minister and soldier, one of the last group of famous scholars and abolitionists of half a century ago, who died a few days ago in Cambridge, Mass., aged 78 years. He was a member of various learned societies, including the Royal Society of Canada. As an abolitionist, he was once imprisoned. His exquisite translation of Petrarch ran several editions.

MAKE SILICA FIND; MEANS GLASS FACTORY

Spokane, Wash., May 6—Seventy-five million tons of pure silica is declared by experts to be contained in a deposit near Beckey, Wash., fifteen miles north of here, discovered by George H. Savage, M. E. of Chicago, who is organizing a corporation of local capitalists to establish a glass manufacturing plant, employing 300 skilled workmen in the outskirts of Spokane.

Mr. Savage and his associates have acquired ownership of seventeen acres of land, which embrace the mine, following an investigation and laboratory tests by John Pierce, of Ottawa, Ill., and other experts, who report the silica is of the highest grade they have yet examined, and that the deposit probably is the largest and most wonderful on the American continent.

"The discovery of the deposit was quite by accident," said Mr. Savage. "After travelling several months through various parts of eastern Washington and Oregon, the northern part of Idaho and western Montana in search of material for making glass and finding nothing suitable, I returned to Spokane and was ready to abandon the work, when I visited the northern rooms of the chamber of commerce, where I found a sample of silica in the mineral cabinet."

"The label was torn off the sample and there was no way to ascertain where it was obtained. Finally, after some searching and hunting up a former caretaker in the employ of the commercial organization, I learned it was picked up in the northern part of Spokane county, J. S. Gillespie, correspondence secretary, recalled having heard some one say it was found about fifteen miles north of this city. I did not lose any time in striking out and after searching several days, I located the deposit, which is a veritable mountain, and immediately closed a deal to purchase the land."

THE DRUGGIST KNEW FROM EXPERIENCE

I have been selling Dr. Kilmer's Swamp-Root for the past three years and those of my customers who buy it, speak favorably regarding it. I have used it in my own family with good results, and I believe the preparation has a curative value. You may get the Swamp-Root, C. B. King & Co., 111 N. 3rd St., St. Louis, Mo. Personally appeared before me this 24th day of July 1911, C. B. King, Druggist, who subscribed to the above statement and made oath that the same is true in substance and in fact. J. H. ... Office.

Prove What Swamp-Root Will Do For You. Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention the St. John Evening Times. Regular 75c, and \$1.25 size bottles for sale at all drug stores in Canada.

Most Effective Home Treatment of Rheumatism

If you are suffering from chronic rheumatism, or if you are just beginning to feel its dreadful twinges and pains, you would do well to stop its ravages at once by having your druggist send you the following prescription and persistently use it to the body of the poisons and morbid acids which excite the dreadful disease. When the true and pure ingredients are properly mixed, the results are like a sheet of marvellous. Tolu of Potassium..... 2 drams Sodium Salicylate..... 4 drams Wine of Colchicum..... 1/2 oz Comp. Ess. Cardui..... 1/2 oz Comp. Fl'd Balsam..... 1/2 oz Comp. Syrup Sarsaparilla..... 1/2 oz Mix and take a teaspoonful of each meal and one at bedtime. After the first meal gradually increase the dose to two teaspoonful. If not in stock, the druggist can readily obtain the ingredients from his wholesaler.

The Evening Chit-Chat

By RUTH CAMERON

THE Very Pretty Girl, being in a bad mood, had been treating the Very Devoted Young Man with the most studied arrogance during the whole evening. She had ordered him hither and yon with almost insulting tyranny. She had refused an invitation of his with a shortness that was decidedly rude. She had contradicted him half a dozen times and laughed at him again and again with the unpleasant laughter that savors of mockery rather than friendly fun. When he had finally taken his leave, the sandy haired, plain little girl who shared the Very Pretty Girl's apartment with her, cried reproachfully. "How could you treat him so? I think you were perfectly horrid to him." The Very Pretty Girl sank down in the most comfortable chair—which he habitually arrogated to herself—and laughed with evil delight. "He seems to like it pretty well, doesn't he?" she responded. "While you were out in the kitchen he just begged to come again day after tomorrow, and I told him I thought that he was simply ridiculous, and that if he thought I had nothing else to do than sit around with him every evening he was very much mistaken." The sandy haired little girl looked at the Very Pretty Girl a moment, just about the way anyone who knew the value of jewels would look if he saw a child throwing a very wonderful pearl or diamond into the water—only much more so—opened her mouth as if to say something and then shut it again and walked out into the kitchen and started to wash the chafing dish—a part of apartment bliss which the Very Pretty Girl most decidedly did not arrogate to herself. Laughing about to herself, enjoying at the same time the silliness of the laugh and the recollection of the Very Devoted Man's dejection. Altogether, she felt that she had been most clever and brilliant in walking over a human being just because he was chained down by an infatuation into a position where she could walk upon him. You see she was forgetting several little facts. She was forgetting that no matter how willing the victim, walking on people is NOT good form. She was forgetting that even if a man is willing to endure rudeness and arrogance a foolish man may be, rudeness is just as much rudeness and just as ugly and undesirable a quality. She was forgetting that even if a man is willing to stand for being contradicted and laughed at, that does not make contradiction and mockery pretty things. She was forgetting that no matter how generous and ready to give everything and receive almost nothing in return a man in love may be, it is just as selfish and soul-killing for a woman to get in the habit of taking everything and making no proper return. The Very Pretty Girl—and her hundreds and thousands of sisters, incidentally—who forget all these things always think that their attitude is fascinating and attractive. Some day, perhaps, they will find out the contrary. And then for a time they will be very unhappy. But it will be a blessed unhappiness, for it will bring vastly greater and truer happiness in its train.

CHILDREN AND VACANT LOTS

(Ottawa Journal). The New York Herald of recent date contained an interesting account of how an effort is being made in that city to provide play places for the poorer children on vacant lots, in districts removed from the ordinary city parks and play grounds. The big city is interesting itself in the matter, and the owners of vacant property in many cases have removed the fences and levelled off the lots for their own expense, in order that the children should have immediate access to a play place that would keep them off the city streets. It may be that a policy such as this is only necessary in the larger cities. Yet in a walk about Ottawa any afternoon, especially on those streets where houses are built close together, children by the hundred may be seen playing on the pavements and the sidewalks, in some cases almost under passing horses' feet. Children as a rule, until they reach the age of ten or eleven, do not play far from their own homes; it is better that such should be so. Ottawa has few playgrounds, and these are often far removed from the districts where there is a mighty call for them. The street with its dust and dirt and noise is not the proper play place for small children, although mostly that is the only place that remains for them. Hence, there seems to be real necessity for the New York plan, whether a city has four millions population, or but one-fourth of that amount. In those Ottawa districts where the child population is most dense, there is generally a few available vacant lots, which, at small expense, could be made ideal play spots. Nearby residents would not object, as it is surely better to have the noise and movement of the children's play concentrated in one spot than to have them all over the neighborhood. Such certainly is safer, as the number of accidents met with by children on the streets during their play amply testifies. In fact, the New York plan seems to be one that can, with little expense, be adopted anywhere to the physical and moral benefit of the children of the neighborhood. Perhaps some generous property holder, happy in the knowledge that any Ottawa property is growing more valuable almost weekly will spend the small preliminary amount necessary in preparing his property to give this experiment a local opportunity of demonstrating its worth. The motor boat, owned by the St. John Typographical Union, to be drawn for on Monday night next, was given an initial run yesterday by Daniel Thompson, and proved a speedy craft and very steady in the water.

THE BRUSH FIRES The province of New Brunswick, whenever there is a dry spring season, pays very heavily for the carelessness of anglers, campers, and perhaps some farmers; and also for the lack of systematic effort to prevent the spread of fires started by sparks from locomotives.

It is absolutely necessary that the city should have incinerators in sufficient number to burn all the organic matter which is gathered by the garbage department. None of it ought to be deposited on any of the dumps.

A company with a capital of ten million dollars will construct an electric railway from Calgary to Banff. The distance is eighty miles. An exchange remarks that this "is the first one of many companies whose electric lines, ten years hence will cover the western prairies in a network of lines connecting city, farm, ranch, forest, mine and pleasure resort in one electric impulse of communication."

The Montreal Herald pays this tribute to Jewish citizens of Canada:—"The Toronto Telegram notes with surprise that a Hebrew was first in the honor list and father-in-law of the late prime minister."

So far as the railways are concerned, they should be compelled to guard the territory through which they run. In the case of farmers, if there were prosecutions in a few cases where carelessness was clearly proved, the habit would be checked.

Peace advocates the world over will welcome the announcement that Great Britain, the United States and France are favorable to the principle of arbitration, and that there is a good prospect of the adoption by them of an arbitration treaty much wider in scope than any former instrument of this nature.

Of the French in Canada the Ottawa Journal says:—"The Kingston Standard having turned its attention upon the high birth rate of the French Canadian people, remarks: 'If the French Canadians keep on producing children at their present rate they must in the end overrun the country.'"

There is a growing tendency to count the cost, and to demand reasons for a warlike attitude. The action taken by the three countries named is therefore the more to be commended.

A Brilliant Opening Exposition Of Mid-Summer Millinery

A Fascinating Array of Beautiful Dress Hats...The Cleverest of Trimming Effects Featuring Summer's Favorite Shades

Heavy Tailored Hats must now give way to the fluffy, filmy summery kind, and this display presents the most charming of Dress Hats, lightest of models, daintiest laciest effects in trimming, with numberless color combinations, affording great variety.

The exhibit should settle all doubts about the summer hat, for it will be impossible to remain impassive and undecided, surrounded by creations so lovely as these.

Showing Friday and Saturday in The Millinery Salon
We will also offer a great display of Sailor and Outing Hats for Victoria Day.

WISDOM FROM MRS. WISE. NEEDED NO UNDERTAKER. THE USUAL RESULT. HOW IT HAPPENED.

Mrs. Green—From the first I allowed my husband to go out two nights a week, and now I'm sorry for it.
Mrs. Wise—Yes, a husband, my dear, is like a cigar. No matter how good a cigar it is, it spoils it to let it go out.

WHY NOT TRY IT?

When you need a laxative, why not try Abbey's Salt?

It is pleasant to take—does not flake on top of the water—and effervesces slowly, without choking or blinding the user like seidlitz powders.

Abbey's Salt is used all over the world and regularly prescribed by the leading physicians.

Why don't you find out what it will do for you?

Abbey's Effervescent Salt

Coronation Number

"Night and Day," the quarterly organ of Dr. Barnardo's Homes, issues its coronation number with a colored cover, and with several new features. The illustrations are numerous and striking. It devotes much of its space to the coronation fund of the homes, which includes the issue of 20,000 Burden Bearers Shares, at one guinea each, for the furtherance and development of "Child Rescue Unlimited."

MACDONALD COLLEGE IS HONORED

Hearty Commendation Comes From Three Eminent British Statesmen—A Great Work for Agriculture is Recognized

It is the almost unique privilege of the editors of the Macdonald College Magazine to publish letters from three of the most eminent British statesmen—from those three members of the British Government whose messages should have the most peculiar interest to this college, standing as it does for the advancement of learning, the improvement of agriculture and the upholding of the empire.

At a time when all kinds of practical and especially agricultural education are occupying the most earnest attention of the board of education of the mother country, we watch with deep interest and sympathy the development of the Macdonald College. Thanks to the generosity of your founder you have a great opportunity which we know that you are taking advantage of.

It gives me very much pleasure to accept the hospitality of the columns of the Macdonald College Magazine to send a message of greeting to the agricultural students of the Province of Quebec, and through them to the whole agricultural community of Canada. As the minister of agriculture in the old country I have watched with the greatest pleasure the progress made in the development of the agricultural resources of the Dominion. The rapid increase of our population at home makes us increasingly dependent on you for the food supply of our islands and the effects which are being made by your government in promoting agricultural education and scientific research are no less of importance to us.

IT GROWS HAIR

Here Are Facts I Want You to Prove at My Risk

Marvelous as it may seem, Rexall's Hair Tonic has grown hair on heads that were once bald. Of course, in none of these cases were hair roots dead, nor had the scalp taken on a glazed, shiny appearance. Rexall's Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulates and nourishes them. It is the most pleasant and necessary hair restorative, and will not cause any irritation. It is the only hair restorative that will not cause any irritation, remove dandruff, and cause hair to fall out and produce an increased growth of hair, and in every way give entire satisfaction, simply come back and tell me for it. Two sizes, 50c and \$1.00. Sold only at my store—The Rexall Store, Chas. R. Watson, 109 King Street.

A STEP AT A TIME

Have you ever noticed how unreasonably the man at the bottom of the ladder envies the man at the top? Has he until success has been actually attained does the man appear at the top, and the consequence is that he gets credit for the step at a time climbing which has brought him there.

At any rate, is the experience of the Midland Vinegar Company of England, the manufacturers of H. P. Sauce. They are now at the top of the ladder—H. P. is an assured success—everybody who tastes it likes it, and recommends his friends to make a trial of it.

Amid the general business success no one has leisure to imagine that a long time was given over to the Midland Vinegar Company to carry out experiments with different fruits and before a specially delicious, rich, thick, spicy sauce like H. P. was arrived at, the manufacturers climbed up to a step at a time, and did not want themselves as sauce manufacturers until they had a perfect sauce to talk about. You try H. P. You will like it—everybody does.

THE VALUE OF IDEALS

What the value of ourselves depends upon the ideals which we habitually hold. Our lives are shaped upon our mental models. If these be high, the life is lofty; if low, it grovels. Man is no better than his ideal. The stream runs in the gutter, or flows from its source. Our work can never exceed our ideal, our ambition. It is a great thing to keep the constant suggestion of high ideals, of things that are grand and noble in human achievement, in the mind. It tends to make us love the right and hate the wrong.

WILL PRESS VOTE ON RECIPROcity BILL

Washington, May 17.—Senator Stone of Missouri announced today to the senate finance committee at the hearing on the reciprocity and free list bills that he would soon press for a vote on reciprocity. He said he did not propose to let the hearings drag along indefinitely. An unsuccessful attempt was made by the committee to fix a time to close the dual hearing. Senator Penrose, chairman of the committee, expressed the belief that the reciprocity bill hearing would end soon.

"The interesting thing, however, with which I am concerned to-night is that this great work for the diffusion of knowledge is to be brought out before the world and commended to it under the auspices of one of the great universities. The significant thing is that here is a great university taking charge of a work, extra-academic, which has to do with humanity at large, which has to do not with the hearing of classes or the delivery of lectures, or the teaching of the men within the walls of a college; but here is an effort on the part of a great university to spread knowledge of an exact and of a fruitful sort throughout all the world. I believe this is a significant ideal for all universities, and for our own universities in particular."

Comprehensive In Its Scope

THE 11th Edition of the Encyclopaedia Britannica was described by Dr. Pritchett as constituting a "cross section of the trunk of knowledge as it stood in the year 1910," and did not the very appropriateness of this comparison render it difficult to grasp, no further account of the essentially comprehensive character of the work would be called for at all.

The 40,000 articles into which the book is divided, deal with persons (of every nationality and all periods, including persons still living), places, histories (whether of countries or institutions), languages, literatures, arts, sciences, religions, philosophies, laws, industries, sports and games, and all the things or ideas connected with them. In fact, whatever word may prompt a question, as to the person, place, object, action, or conception for which it stands, forms the title of an article (varying according to the demands of the topic from a few lines to a complete treatise), in which the required information is supplied by an original authority on the subject in question.

Just as a portrait seems to each observer to be looking at him alone, so the scope of the new Encyclopaedia Britannica always seems to be measured to the viewpoint and requirements of the particular reader who is consulting it, and this, after all, is the final test of universality in a work of reference.

A New Exposition of Knowledge

There is at present no existing encyclopaedia which is so up to date and competent to meet the requirements of this century. By issuing this entirely new survey of human learning, worthy alike of the ancient reputation of the work and of the standing of Cambridge, the Syndics of the University Press are meeting an obvious need. The new (11th) Edition, whilst preserving the characteristic features, and the method and manner which have caused so unique a value to be attached to the pronouncement of the Encyclopaedia Britannica in the past, has been built on original lines and upon a new foundation.

Of the 40,000 articles in the new edition, 85 per cent. are new, and 15 per cent. are traceable, with changes, slight sometimes in extent but of great importance in quality, to the old work. Thus the Cambridge University Press feels justified in asserting that the new edition constitutes the best and most conscientious summary of universal knowledge the present day can afford.

The present "advance-of-publication prices" will be withdrawn on May 31st, after which a higher schedule will at once come into effect.

The reader who has satisfied himself that the new Britannica is a work he should have, is urged to send in his order at once, so that it may be registered in advance of the thousands of orders which will be posted on May 31st and the days preceding. The form printed on this page may be used for this purpose.

To those who have not yet seen the illustrated prospectus (40 pp.), with specimen pages on India paper, a copy will be sent at once, on application to the Canadian office of the

Cambridge University Press, Royal Bank Building, Toronto, Ont.

Readers are reminded that time is now of urgent importance. It is only by prompt application that they can get particulars of the new Britannica in time for their orders to reach Toronto before the advance of publication offer is withdrawn.

OTTUMWA WOMAN CURED

By Lydia E. Pinkham's Vegetable Compound

Ottumwa, Iowa.—For years I was almost a constant sufferer from female trouble in all its dreadful forms: shooting pains all over my body, sick headache, spinal stiffness, dizziness, depression, and everything that was bound to I tried many doctors in different parts of the State, but Lydia E. Pinkham's Vegetable Compound cured me.

Consider This Advice. No woman should submit to a surgical operation, which may mean death, until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous medicine, made only from roots and herbs, has for thirty years proved to be the most valuable tonic and invigorant of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

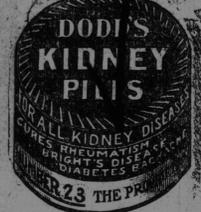

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, confidential, and always helpful.

FOR RECIPROCIITY

(Montreal Witness) "If I thought there was any weakening on the part of the Liberal party on the question of reciprocity, I would be a Liberal no longer. You would never hear from me in politics again as long as I have breath."

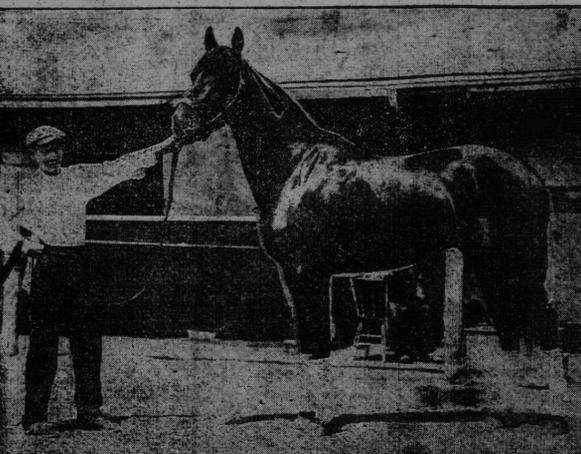

Such was the plain-speaking of Warden LaFette, the other day, to the Fighting Club, at Sydney, Cape Breton, and it was applauded to the echo. Warden LaFette is now president of the Liberal Association of Cape Breton, and the cause of reciprocity is safe in that part of the world. It is also strong in growing strength in the West, outside of Toronto and a few of the larger cities; public opinion is generally in favor of it. In Quebec, too, there is now said to be a majority in favor of it, and everywhere additions to the ranks of those who favor reciprocity may be looked for. Now that its authors are growing ashamed of the unpopularity cry, and the bogey is being blown away, consumers generally are beginning to see that a free exchange of agricultural products cannot be other than beneficial, and time and reflection will convince more and more of the people of Canada of the truth of this. The government has indeed a splendid cause with which to appeal to the country, and the opposition has made a big tactical blunder, if not a mistake, in its campaign against it. If it had worked with the Liberals to pass the reciprocity agreement, it would have had splendid material in criticizing different departments of the government and even its general administration. But by its opposition to reciprocity it has given the Liberals a broad platform of initiative, constructive statesmanship on which to stand. All other issues will now be minor ones which must be fought before the country, and will receive the minimum of attention.

SENATOR CLORAN'S DESCENT FROM KINGS OF EMERALD ISLE

(Mail and Empire) Senator Cloran, who claims to be a better Irishman than Senator Kirchoffer, because he is descended from one of the kings of the Green Isle, holds a unique position in Canadian public life. He is the only statesman we have with royal blood in his veins. No other politician can boast a family tree springing from a throne, whether it be the throne of Ireland or that of a less favored country. When one examines the list of Irish kings, and considers the suddenness with which so many of them passed to crowns that are eternal, the fact that the Cloran dynasty has been able to confer upon Canada one of its sons as a senator appears to be marvellous. History tells us that Ireland had 171 kings before the Christian era. Of this number fifteen died natural deaths, four died of plague, and the rest were assassinated or killed in battle. The monarchs who reigned in succeeding years had equally uncertain lives. Thus we read that Fearadach-Fionnachta, the first ruler after the introduction of Christianity, although a most just and good prince, was slain by his successor, Fiachadh-Fion, the successor in question, was also slain by his successor, and this assassin, Fiachadh-Fionnuidh, was murdered by the plebeians of Connaught. Cairbre-Cinncait, who then ascended the throne, wore the crown for but a few

years and was murdered by conspirators. The next monarch with a name difficult to print was slain by his successor, and the assassin, Mat, fell also at the hands of the sovereign who followed him on the throne. It did not always happen, however, that the other party got out of the king; in one case, that of Cromthuan, the sovereign was poisoned by his sister, who wanted the crown for her son. The son, it is interesting to learn, did not long enjoy the honor that was secured for him through the criminal act of his mother. He was killed after a brief reign.

"Marriage and motherhood, as known to-day," she continued, "are a farce, and all because the young are not taught the basic laws of life."

For more than forty years Miss Fowler conducted a farm on the outskirts of Vineland, and never would "have a man around." She devoted her spare time to writing books, several of which were published and had some sale. She was a clever conversationalist, and a woman who commanded the respect of the whole community.

Miss Fowler was the oldest woman in the land. She began the wearing of bloomers and a sort of half-skirt in 1854. Despite her unusual costume, Miss Fowler had many offers to marry. Her freakish looking pantalones and top coat did not in the least chill the ardor of her suitors. But it was not until she had passed her eightieth birthday that she had her first romance and was pressed to enter wedlock's state. It was then that George Edward Fowler entered into her life. She made every preparation to wed, but in some way the match fell through and she remained a spinster to her death.

WEDDINGS

Sutherland-Homes. A very pretty wedding took place yesterday at the residence of the officiating clergyman, 8 Wentworth street, when Rev. Wellington Camp, pastor of Leinster street Baptist church, officiating in marriage William Sutherland of Westville (N. S.), and Miss Elizabeth Eva Homes of River John (N. S.). After a wedding trip to Boston, Mr. and Mrs. Sutherland will reside in Westville, where the groom is carrying on mining operations.

Middleton-Fullerton. The marriage took place at the parsonage of the Victoria street Baptist church, Victoria street, last evening of Donville T. Middleton of Holderville, Kings county, to Miss Amelia Fullerton of Long Reach, Kings county. They were unattended and the ceremony was performed by the Rev. B. H. Noble. The bride and groom left this morning for Holderville, where they will make their home.

It sometimes happens that a spinster isn't satisfied with looking younger than she is; she wants to act younger than she looks.

FISHERMAN TELLS INTERESTING STORY

Dodd's Kidney Pills Cured His Rheumatism and Lumbago

Strain and Exposure Brought on Troubles That Caused Five Years Suffering, But Dodd's Kidney Pills Fixed Him Up

Clam Bank Cove, May 17.—(Special)—A fisherman here Dodd's Kidney Pills cured him of a name for himself. He has been suffering from these ailments that the old and young are always finding. The ailments are always found on the body, and as Dodd's Kidney Pills always cure the kidneys, they are gaining a wonderful popularity. An example is the case of Mr. J. C. Green.

"My trouble," Mr. Green states "was caused by strain and exposure. For five years I suffered from Rheumatism and Lumbago. I was always tired and nervous. My sleep was broken and unrefreshing and the pains of neuralgia added to my distress. I was in very bad shape indeed when I started to use Dodd's Kidney Pills, but I am thankful to say that they gave me relief. It is because I found in them a cure that I recommend Dodd's Kidney Pills to my friends."

Others here gave the same experience. They were racked with pain and feeling that life generally was a burden. Dodd's Kidney Pills made new men and women of them.

WOMAN WHO STARTED THE "BLOOMER" FAD

At the mellow age of 87, Miss Susan P. Fowler, the original "bloomer woman," and by right of long and unflinching devotion to the cause of the "New Woman," died recently on her estate at Vineland, just outside the city.

She donned the bloomer costume sixty-nine years ago, when it bid fair to become popular under the advocacy of such women as Susan B. Anthony, Elizabeth Cady Stanton, Lucy Stone and others in Oneida community of New York, although she never accepted any of the doctrines of that community.

Although she never made any converts in Vineland, and although all her friends discarded the bloomers, completely alone she fought on, and according to her own words, "kept soving thought seeds regarding basic laws of life."

"Marriage and motherhood, as known to-day," she continued, "are a farce, and all because the young are not taught the basic laws of life."

For more than forty years Miss Fowler conducted a farm on the outskirts of Vineland, and never would "have a man around." Do your baking with flour made exclusively of the HIGH-GRADE constituents of the HARD-WHEAT berry

Have you ever baked with flour made exclusively of the high-grade constituents of the hard wheat berry? If you haven't, now is the time to try PURITY Flour.

Only the cream of the Manitoba hard wheat—the best wheat in the world—is used for PURITY Flour. More than that, only a portion of the flour milled from the hard wheat goes into the sacks and barrels branded PURITY.

PURITY Flour consists exclusively of the high-grade constituents or portions of the Manitoba hard wheat berry. Every wheat berry has both low-grade and high-grade constituents which are separated during our process of milling. So exact is our process that it entirely eliminates all the low-grade portions from the flour, which is finally branded PURITY.

The greater strength PURITY Flour makes it go farther in baking. With it you can make

more loaves to the sack or barrel than you have ever succeeded in doing before. The loaves are more nutritious because they contain the high-quality gluten, starch, phosphates and other muscle-building and blood-enriching elements of the hard wheat berry.

Naturally flour that consists exclusively of the high-grade constituents of the best hard wheat has greater strength and a more superior color and delicate flavor.

If you'll just try to realize fully what it means to your baking, you'll soon be using PURITY Flour.

Of course PURITY Flour will cost you a few cents more than lower-grade hard wheat flour or soft wheat flour.

But PURITY is very economical because it makes more bread and better bread. The cost per loaf is no more than when using weaker flour, and the food value is much greater.

Tell your grocer you are in a hurry to try PURITY Flour. He will supply you promptly.

When you see the batch of beautiful snow-white loaves, with their soft, evenly-textured crumb and dairy golden-brown crust, you'll be proud of your success with PURITY Flour. When you taste and enjoy the superb flavor of such high-grade bread you'll be prouder still.

If you don't want to buy a large sack or barrel, you can get a small bag. PURITY is packed in 7, 14, 24, 49 and 98 pound sacks. Also in barrels and half-barrels.

Make certain the PURITY trademark is on the sack or barrel you buy, for that is your guide to the strong, reliable, high-quality flour that makes

"More bread & better bread" PURITY FLOUR

OBITUARY

Mrs. Harry Manning

Sussex, N. B., May 17.—Mrs. Harry Manning of this place, died very suddenly at her home at 4 o'clock this afternoon, after a long illness. She was 33 years of age. Deceased was in good health and engaged in her household duties as usual until 8 o'clock this morning, when she took a violent pain in her head, soon after which she became unconscious and remained in that condition until her death. Paralysis of the brain was the cause of death. She is survived by a husband and two small children.

Deceased was formerly a Miss British daughter of Mr. and Mrs. George Britain, now residing in St. John. The funeral will take place Friday morning at 10:30 o'clock in the town cemetery. Rev. Mr. Alton and Rev. Mr. Dawson will officiate.

Mrs. Lewis Pickett

Many people in this city and all over the province will regret very much to hear of the death of Mrs. Harriet Sophia, widow of Lewis Pickett, of Andover, which occurred suddenly in her home three yesterday. She had been in her usual good health up to a week ago, when she contracted a slight cold. Nothing serious was anticipated, however, as the outcome and she was about the house as usual spending the day reading and writing. Towards evening she suddenly passed away without any warning. She was the mother of H. H. Pickett, of this city, and many here will have very kindly memories of her genial disposition. In the vicinity of her home she will be missed the most. There she was beloved by all as she was ever busy in good works. Her husband died twenty years ago. Her father, the late Sheriff Beckwith, was for many years in business with his brother, the late Hon. John A. Beckwith, in Fredericton. Two sons and two daughters are at home. The third son, H. H. Pickett, barrister-at-law in this city, will leave this morning for Andover to attend the funeral.

SONS OF TEMPERANCE IN QUARTERLY SESSION

The quarterly session of the St. John District Division, Sons of Temperance, was held in their hall, Paradise Row, last evening and was well attended. The meeting was presided over by the P. D. W. P. E. S. Hennigar. After the formal opening the minutes of the last session were read and reports from the subordinate divisions received. They showed a slight gain in the membership list. The reports of the officers were also read and a donation was presented to the St. John County Temperance Federation for the aggressive campaign it has been carrying on in the cause of temperance. Plans were discussed toward arranging for the meeting of the Grand Division in this city next week and for the same temperance meeting which will be held in Zion Methodist church on Thursday evening next. This meeting will be held under the auspices of the Grand Division and will be addressed by the M. W. P. Rev. G. A. Lawton, of Moncton. Rev. Charles Flemington, of Pettitville, will also give an address and a large attendance from the country districts is looked for.

Any Complexion Can Be Made Beautiful

(From Styles of Today.)

Mme. Merou, of Paris, perhaps the world's greatest authority on beauty and dress, says that now no woman need despair of possessing a clear complexion and a satiny skin.

"Even a plain woman," says the famous Mme. Merou, "attains a complexion such as the envy of her friends, if she will only use a small original preparation of my own in eight minutes of time, hazel, and massage her face with the neck with this solution daily. You soon notice a lovely clearness about your face."

Mayatone leaves no trace of grease or stickiness. It purifies, beautifies and preserves the complexion, nothing else can and prevents the growth of superfluous hairs.

"You never use powder or cosmetic when once you know Mayatone. Make the solution yourself. Your druggist can easily supply the ingredients, or he can easily send to any wholesale druggist for you, if he desires to be accommodating. False profits often lead to bankruptcy. It's difficult for a rounder to keep in the straight and narrow path."

BLOOD POISON IN HAND

Zam-Buk Works a Wonderful Cure

Mr. Jas. Davey, of 786 Ellice Avenue, Whyaneg, and a freeman at the Hudson Bay Company's stores, says:—"A few months since I was cured of a poisoned finger through the timely use of Zam-Buk. I cut a deep gash across the knuckle on the first finger of my right hand in opening a lobster can. It occurred at the time I was carrying a heavy box, but had no idea it would become a serious wound. I was in a great deal of pain, but had no idea of what to do. I was forced to leave off work and go home.

"The wound on the knuckle had been poisoned through the dust and dirt about the lobster cans and boilers. I then decided to stop the Zam-Buk treatment, and having first bathed the cut, I applied the healing balm. It soothed the pain almost instantly, and by next day there was a great improvement. The pain was relieved and the inflammation lessened. In a week's time, through perseverance with this wonderful preparation, a complete cure was brought about."

Zam-Buk is just as good for eczema, ulcers, scald sores, abscesses, piles, ringworm, boils, varicose ulcers, running sores. It draws all poison and foulness from a wound or sore and then heals. Use it too for cuts, burns, bruises, and all skin injuries. Zam-Buk Soap should be used in conjunction with the balm for washing wounds and sore places. Excellent too for baby's bath.

All druggists and stores sell Zam-Buk at 50c. box and Zam-Buk Soap at 25c. per box. Post free upon receipt of price from Zam-Buk Co., Toronto.

PARLIAMENT IS TO ADJOURN TOMORROW

Canadian Northern Guarantee Bill is Passed—Mr. Fielding Outlines Legislation

Ottawa, May 17—Parliament will adjourn upon the conclusion of Friday's sitting, probably to meet again on July 15. Hon. Mr. Fielding made that announcement, following the passing of the Canadian Northern guarantee bill in the commonsense tonight.

It was a striking tribute to the soundness of the government's policy in the railway matter, and the government is drafting the agreement with the railway that the bill, which is perhaps the most important of the session, went through the house without any serious amendments being suggested by the opposition and without any sustained objection to its provisions.

Mr. Fielding enumerated the measures with which it was proposed to deal. They included in order, the railway act, the bank act extensions, the forest reserve bill, the grain act, the act respecting carriage of goods, the Quebec battlefields act, the resolution respecting the Japanese treaty, and the bill based thereon, the act respecting the Collingwood Shipbuilding Company, the resolutions of the minister of railways dealing with the leasing of branch lines by the Intercolonial, and the passing of supply.

Supplementary estimates for \$25,000,000 for decorating public buildings throughout Canada on the occasion of the celebration of the coronation were tabled.

The Valley Railway matter was again up in the senate. Senator Thompson, Burt, Demille and Casgrain, approved of the government's proposal.

MORNING NEWS OVER THE WIRES

St. Mary's College at Halifax was practically destroyed by fire which started about 1 o'clock this morning. All of the occupants escaped unhurt.

Eight freight cars ran off the track at Westchester, N. S., last night and blocked the main line. The Halifax express due here at 6:30 o'clock this morning was detained some hours.

R. W. Whelpley, of Moncton, has been awarded the contract for laying the natural gas mains from the oil wells to Moncton, a distance of about ten miles. It is expected to have the gas in Moncton in about two months.

Miss Marianne G. Oddy, who will graduate at the U. N. E. at the coming session, has been awarded a valuable post-graduate scholarship in English language and literature at the University of Chicago.

There were 1100 candidates for the civil service examinations last week. The number of applicants is increasing each year.

Hon. B. F. Pearson and W. Davidson Hill have been nominated as the Liberal candidates for the house of assembly in Nova Scotia, from Colchester county. Candidates have been nominated in all but two counties.

A Montreal Board of Trade delegation has waited upon Sir Richard Cartwright, minister of trade and commerce, with regard to the council's desire that Montreal hold, during the St. Lawrence season, the Canadian terminals of the subsidized route to the West Indies.

France has been included in the peace arbitration proposals. A draft convention to serve as a basis of negotiations has been handed to British and French ambassadors alike at Washington by U. S. Secretary of State Knox.

AMUSEMENTS FOR OURSELVES AND OTHERS

NICKEL

There will be a new programme of music at the Nickel today. The Puritan Quartet will enter upon the final three days of their engagement with what Manager Thrasher considers the best bill in their repertoire. It includes a most delightful arrangement of Ebelbert Nevin's "The Rosary," and a melody of the latest and best popular ditties. These latter selections are taken from the ruling musical comedies of the day and individual arrangements are made by Elsie Wallace, who will sing in Seville, a Spanish featured with dance accompaniment, and the pieces of the programme will include Edison's magnificent story of the Napoleonic wars entitled, "The Prince of Victory"; the Biograph comedrama, "A Knight of the Road," and the double-reel Pathé spectacle, "The Justice of Claudius," as well as a fine series of educational travel views of the British Indian Army manoeuvring. Next week the Nickel will present the Tremont Quartette, an aggregation of male voices of the highest order, one of the Keith attractions that has been delighting New England audiences for a while back.

THE OPERA HOUSE

On account of so many requests for his appearance throughout the Maritime Provinces, Kirk Brown announces that he will limit his engagement to St. John for two weeks, opening next Monday evening. By special arrangements, he will be enabled to present one performance of "The Royal City" on Monday evening. Tuesday and Wednesday evenings will be given over to a magnificent scenic production, "Sowing the Wind," a delightful old English comedy which will serve well to introduce Miss Bertha Creighton, the new leading lady of the company. "A Social Highwayman," will be given a special matinee production on Victoria Day. "The Sign of the Cross," is the Thursday evening play and will be repeated at the Saturday matinee. "Ingomar, the Barbarian," will be the only classic offered during the social week. "A Social Highwayman" is the Saturday evening selection.

THE LYRIC

Boasting of several extraordinary features in their eight week performance, Adair and Dahn, at the Lyric Theatre, are credited with having an act that is beyond criticism. Usual tricks are excelled with agility while the "The Spinster's Legacy," and a special fire subject "Red's Conquest," followed by three other stunts, the first of the anniversary vaudeville is to be the daring bicycle act of the Reckless Reckless.

THE UNIQUE

The Unique management breathed a sigh of relief when it was ascertained that the films of the Fall of Troy reached the city on the late train last night. They announce that it will positively be shown today, the matinee starting at 1:45 and the first evening performance at 6:45 sharp. It is expected that this wonderful picture will more than make up for the disappointment in not having it yesterday, when presented for the next three days at the Lyric.

SEVERAL FIRE CALLS

The fire department yesterday afternoon and evening answered five alarms. A slight fire in Haley Bros' factory, Broad street, gave them a run about 2:30 o'clock. No. 2 Chemical put out a grass fire near the Hillard property, Strick Shore, last evening. An alarm from box 7 was sounded for a fire in the warehouse of the Canadian Drug Company in Nelson street. While removing a damaged case, two of the firemen, Wm. Grant and P. Magee, had their hands burnt with acids. Dr. Warwick treated them. The fire was confined to a quantity of straw, and was soon extinguished. A still alarm was sent in last night for a fire in an unused wharf in Water street, west end. The services of the department were not needed, however.

Commodore S. P. Gerow, of the St. John Power Boat Club, will attend the opening of the Portland, Me., Boat Club on Saturday next, an invitation having been extended to the commodore of the local body. It was the only one sent to a Canadian club.

WILLIE AND HARRY LEWIS MAY MEET

Willie Lewis is fighting in great shape in Paris at present. Negotiations are on foot for a knock fight between Willie and Harry Lewis. They were matched some time ago, but for some reason or other it fell through. Managers of both men have come together again, and there is a likelihood that they will meet for a finish bout.

"I COULD NOT LIVE"

Without "Fruit-a-tives"

Writes the Treasurer of Caledonia Township

Penaghvale, Ont., Jan. 20th, 1910.

For thirty-five years (and I am now a married man) I have been a terrible sufferer from Constipation.

No matter what remedy or physician I employed, the result was always the same—impossible to get a cure.

About two years ago, I read the testimonial of Hon. John Costigan regarding "Fruit-a-tives" and I decided to give this fruit medicine a trial. I have used "Fruit-a-tives" ever since. They are the first and only medicine that suited my case. If it had not been for "Fruit-a-tives" I am satisfied I should not have lived.

J. A. S. BROTHER.

The liver collects poisons by giving up enough bile to digest the bowels move. The only way to cure constipation is to make the liver active and healthy and thus give up sufficient bile to move the bowels.

"Fruit-a-tives" acts directly on the liver—ensures an abundance of bile—and causes the bowels to move regularly and naturally, etc. a box for 25c. Retail size, 25c. At dealers, or from Fruit-a-tives Limited, Ottawa.

LIKELY TO DECIDE FOR AN INCINERATOR

Meeting This Afternoon on Matter of Benefit in Keeping City Clean

The erection of an incinerator for the burning of garbage in the city will be discussed this afternoon at a meeting of the committee of the common council and the members of the board of health. According to a bill which has passed the legislature the city is empowered to construct an incinerator, provided the council considers it wise to do so, and as the need of it is felt by those who take an interest in the cleanliness of the city, and as it is thought that it would prove valuable, it is probable that preparations for its erection will be made.

T. M. Burns, secretary of the board of health, this morning stated that the need of an incinerator or some other means of ridding the city of filth and garbage was being more keenly felt each year, and as it had been a success in other cities, he believed that it could be made to work well in St. John. The citizens would soon learn to appreciate it, and when it was seen that their yards were being kept clean and garbage, they would readily aid in the systematic collection of rubbish from their premises.

It will probably be difficult to select a location suitable to all concerned, but it is thought that this obstacle can be overcome. Objection has been taken in the past to the establishment of places instituted for the public good, such as incineration hospital, epidemic hospital, and other such buildings, but the advantage in having them has easily been seen, and it is thought that the same will prove the case with the projected incinerator.

The new uniforms for the police force, made by C. B. Pidgeon, Indian town, are wearing the finishing stage. In design they are almost similar to those used by the police last year. It is expected they will be ready early in June.

TO BOSTON, TO LOAD.
German steamer Herman Menzell, Captain Tjden, sailed for Boston a little after 1 o'clock this afternoon. She will load coal there for Tampa. She brought a cargo of hard pine here for J. A. Likely.

GOOD HERRING CATCHES.
The Magdalen Islands have never had such a run of herring as this season. All the vessels are bound home with good cargoes. The quality of the fish is not as good as in past seasons. The Grand Manan men who have fish stations at Port Elgin and Baie Verte are reported as having their smoke-houses full of herring.

VISITING HIS PARENTS.
W. Roy Smith, son of J. Willard Smith, who recently received the degree of B. C. S., at McGill, has arrived from Montreal to spend a couple of weeks with his parents at their summer home at Hillside. On his return, he will take up his profession as an engineer, having accepted a position with a large contracting firm there.

CHANGE OF CAPTAINS.
Captain E. L. Brit, of the American schooner Orizaba is leaving that vessel to assume command of the American schooner Peter C. Shultz now at Eastport. He will be succeeded on the Orizaba by Captain Ernest Tufts of the little bay trading schooner Athol.

BARGES FOR MONTREAL.
Stmr Louisburg sailed for Sydney this afternoon with barges 6 and 7 of the Dominion Coal Co. From Sydney they will be towed to Montreal there to be used in the harbor for lighterage. The two barges were on the route for some years between St. John and Springfield being owned at that time by the Springfield Coal Co.

AWAY AT LAST.
Bark Emma R. Smith, Captain Bendavid, which has been in trouble of various kinds of late, culminating in wreck here cleared today for New York. She towed to the island anchorage about 1 o'clock and will go to sea tonight or tomorrow. She has a lath cargo shipped by Stetson, Cutler & Co.

ANOTHER LARGE GAIN

St. John bank clearings for the week ending today were \$1,812,290, corresponding week last year, \$1,265,000.
