Miramichi Advance. CHATHAM, N. B., SEPTEMBER 10, 1896. A Vice-Royal Blunder. It is a matter of regret that the action of the Governor-General in regard to recommendations of the late Government should be so generally approved as they are by Liberal papers.

It is a matter of regret that the action of the Governor-General in regard to recommendations of the late Government should be so generally approved as they are by Liberal papers, simply it seems, because His Excellency displayed his party bias in stating his reasons for the course he took. The mistake he made was not in refusing to sanction the recommendations of his ministry. That ought to be clearly understood. It was undoubtedly within the scope of his powers to exercise the prerogative of the Crown as he thought best, and few will question the correctness of his action in reference to quite a large number of the appointments he refused to sanction.

of the business portion of the town—say on either side of Duke Street. The cost of a 200,000 gallon reservoir on the hill at the rear of Church Street, with the necessary six inch pipe and fittings by which to convey the water to the engine house, would be less than \$2,000. By this means the range from Harper's corner to the Torryburn House and all the streets from the water front to Church Street could be reached without taking the engine from the building. The advantage of such a service, together with the placing of the second engine in a house in the eastern section of the Town is obvious, and it would be a blunder to spend money upon old No. 2, which will serve neither of the centres of population or of business. Let us have the advice of a competent engineer—one experienced in such matters—as to the water supply suggested, and let us have at least one efficient and quick-working plant to protect the valuable real and personal properties that can be readily reached from the site suggested in the business centre of the Town, and which demand every consideration in making the proposed improvements for which we are about to expend a considerable sum of money.

light, which nightly shines for the benefit of fishermen far and near, is projected from a lighthouse on Lewis Island, about 500 feet away, the rays being thrown from a mirror in the lantern of Armathook, and by that being reflected to an arrangement of prisms that scatters them in the necessary direction. Spoolmen sections of a terrestrial globe 84 feet in diameter, the scale being 1,500,000 or about 3 miles to the inch, have been made in London by Mr. T. Riddiman Johnston, F. R. G. S., who believes such a globe can be finished in two years. Every important geographical feature and every town of 5000 inhabitants will be shown. The globe will be revolved slowly, and will be viewed from a spiral gallery running around it to the North Pole at the top.

A LESSON IN COOKING. When a recipe calls for a cupful of lard or butter, use two-thirds of a cupful of Cottolene—the shortening—instead. It improves your food, improves your health, saves your money—a lesson in economy, too. Genuine COTTOLENE is sold everywhere in this with trade marks—'Cottolene' and 'steer's head in cotton-plant wreath'—on every tin.

DEADLY SPRING! IF YOU SUFFER FROM Spring Complaints, use SCOTT'S SARSAPARILLA. It is the best spring medicine to be had anywhere. Scott's is pleasant to take, mild and gentle in its action, and an absolute cure for Sciatic, Gout, Constipation, Scrofula, La Grippe, Indigestion, Dyspepsia, Female Troubles, Nervousness, Chronic Headache, Catarrh of the Head, Throat and Stomach; Syphilis, Skin Diseases arising from impure blood or a disorganized system, and

Gatarrhal Stomach Troubles. Mr. Joseph Morrow, Merchant, of Fullerton, Ont., writes: "William Cornish says that Scott's Sarsaparilla is the best family medicine he ever tried. His son William who works for a farmer was laid up and unable to work. His system was generally run down. One bottle of Scott's Sarsaparilla cured him immediately." For further facts write either Mr. Morrow or Mr. Cornish, personally.

Scott's Sarsaparilla. You don't mind raw weather when you have your clothing or wraps interlined with Fibre Charms. It is the simplest and surest protection from cold and wind that you can have, costs next to nothing, is so light you don't notice its presence, adds durable stiffness and body to a garment and never fails to preserve the natural healthfulness of the body in all weather.

Only 25 cents a yard. Look for the Fibre Charms label on all ready-to-wear garments, and take no others. Extractor is always certain, safe, and painless. Try it. Gloucester County. His Honor, Chief Justice Tuck, presided last week, at his first circuit court, and since his promotion and the grand jury presented him with the following address: To His Honor W. H. Tuck, Chief Justice of the Province of New Brunswick.

FOR MOTHERS, WIVES AND GIRLS. The Ablest of Women Journalists Indorse Paine's Celery Compound. Mrs. H. B. Sperry, who is now the eminent and respected president of the Women's National Press Association of the United States, is a lady journalist of note and reputation. The active profession of journalism has kept Mrs. Sperry up to date in information and progressive in thought. When there was evident need of a remedy in her family, she was well aware that Paine's Celery Compound was the best medicine to use. The following enthusiastic letter, sent to Wells and Richardson Co., shows the happy results from the use of this best of all medicines: DEAR SIRS—A few weeks' use of Paine's Celery Compound by my 83-year-old mother has been of great benefit to her, and proved to my satisfaction that there's nothing like it for the headaches and sleeplessness incident to indigestion. A niece in my family was also cured of insomnia by using one bottle of Paine's Celery Compound. Yours very truly, HANNAH B. SPERRY. In every part of Canada and the United States women are now strongly advocating

The Hebrew New Year. There is quite a large gathering of Hebrews in Chatham at the present time.

They have come from different parts of the Province to take part in celebrating the Hebrew New Year. The congregation has been organized with Mr. S. Schaffer as president and Mr. S. Fund as secretary.

The movement being promoted chiefly by former residents of Schota. Rabbi M. Bisler of Quebec is conducting the religious services and ceremonies in the synagogue at the Golden Bell corner.

They began on Monday evening at 8.30 and continued until 8. They were continued as follows:—Tuesday, 8 a.m. until 1.30 p.m., all fasting meantime; also from 6.30 p.m. until 8. Yesterday, from 8 a.m. until 1.30, all fasting and in the evening from 6.30 until 8.

On next Wednesday evening, the 16th, the congregation will observe the Black Fast which will last from 6 p.m. on that day until 7.30 p.m. on Thursday.

During a period of 27 hours all of the Hebrews abstain from all food and drink, smoking any other form of self-indulgence. One Hebrew fellow-citizen here the respect and sympathy of the community in their self-denying efforts to observe the requirements of their faith in so far as their means and opportunities permit them to do so.

A Mitcheilite Epitaph. Orders have been sent from Ottawa to the architects of the Dominion public buildings of Newcastle and Chatham, to procure from Messrs. T. W. Crocker and Geo. Watt, respectively, two cords of wood each, at the lowest current price, for each of those buildings. We understand that it has been the practice to procure the kindling-wood for such buildings in June or July, so as to have it dried in good time for winter. The necessary wood was procured by the Newcastle caretaker, as usual, this year and the order now received must therefore increase his bill at least to some extent. Mr. Mitchell has, however, secured this extensive contract for his two loyal supporters and it is presumed that the wood must be delivered, and received whether it is wanted or not, as Mr. Tarte is "terro" who his order, as minister of Public Works, are in any way deviated from. The sum involved in this order is about \$5, and will need to be paid in full before the wood is delivered. It is not clear whether the wood is to be delivered in June or July, or whether it is to be delivered in the winter. The wood is to be delivered in the winter, and the order is now received, and the wood is to be delivered in the winter.

The Commodore has a Case. Commodore Angus MacEwan piloted the barque Breaux out of port on Friday last. The vessel was followed by the pilot schooner, the Empress, which had only her keeper, Sam Breaux of Taboussant, on board. The barque was clear of the Bar. Breaux was taken to the Commodore's house on board the barque to the schooner. Before leaving the latter to do so he neglected to haul down the jib, so that the craft would lie side to the wind without forging ahead. It is not clear whether the Commodore's boat was clear of the barque when the latter was taken to the schooner. The Commodore got on board and had had a dose so when he observed that the Empress was heading shore for Negus. He then ordered the Empress to be taken to the schooner. The job was fast and furious and drawing and as it kept the schooner's head off the mainmast, with a fairly free sheet, would catch the breeze and the vessel would move forward faster than the Commodore and Breaux could row. They started the chase after the schooner at 10 o'clock in the afternoon and rowed until tired when they gave up the pursuit and made for the schooner. The other pilot boat was taken to the schooner at 10 o'clock in the afternoon and rowed until tired when they gave up the pursuit and made for the schooner. The other pilot boat was taken to the schooner at 10 o'clock in the afternoon and rowed until tired when they gave up the pursuit and made for the schooner.

Town Council Meeting. A special meeting of the Town Council was held on Monday evening in Masonic Hall, Mayor Benson in the chair.

The minutes of the previous meeting were read by the Clerk and confirmed.

The fire committee handed in the following reports:—

To the Fire Board of the Town of Chatham. Dear Sirs—Having examined your fire engine we find that the boiler part of the engine is in good condition, but the other parts are in such a condition that it is not safe to run the engine until it is repaired.

Respectfully submitted, (Signed) Wm. MATHER, Chairman, ALEX. FRASER, Secretary.

That under the present condition of the world the engine we deem it necessary that a new engine be procured for the protection of the Town.

The site now occupied by No. 2 engine house (see Ferry Slip what) would be a suitable place for a new engine house. That a heavy team of horses be purchased for fire and town purposes.

Ald. Bennett moved that section 1 be adopted. Carried.

A great deal of discussion took place over the bid section. Ald. Loggie asked whether it would not be well to have the building larger enough for both engine

houses and favored having it located in a more central part of the Town, near the Mill stable and to have a building erected to accommodate both engines, now at Council Room, etc.

Ald. Nicol said while the site near Ullock stable was in a central part of the Town, he did not think it was necessary to have an engine house with the Electric Light extension work done by them at the Franklin fire. He thought that part of the Town was not provided for, and favored instead the site at No. 2 engine house, where there was an unfailing supply of water from the river, and he would have a suitable building erected at all the office in connection with Town Affairs.

Ald. Bennett did not agree with this view, as he was not in favor of erecting a costly building and having it fall into the hands of the Town. He thought that the first thing done is to have an architect draw a plan of the building required and then choose the site.

Ald. Nicol moved, seconded by Ald. Loggie, that the Council adopt the site suggested by the fire committee for an engine house and fire town office if said site be found suitable. Carried.

A special committee consisting of Ald. Loggie, Murdoch, and Murdoch was appointed to examine the site suggested by the fire committee.

Let to engage an architect to draw up plans and specifications for a brick building for the fire committee.

Ald. Bennett moved seconded by Ald. Loggie, that the Council order the fire committee to engage an architect to draw up plans and specifications for a brick building for the fire committee.

The committee appointed to procure a transit instrument reported through Ald. Loggie, that they had procured the same.

Ald. Bennett moved that the Council order the fire committee to procure a transit instrument for the fire committee.

Ald. Bennett said that he had a transit instrument and would be happy to have it used for the fire committee.

"GIVE ME PROFIT!" The Motto of Those Who Retail Common Package Dyes.

There are still a few business men in Canada who care more for money profit than they do about satisfying their customers.

These are the business men who sell inferior and imitation package dyes for home dyeing. They buy these common dyes from the makers to the tune of millions of dollars per year, and then retail them at full price—10 cents asked for the reliable and genuine Diamond Dyes.

This is one instance in which we are not a sale, just because we didn't adulterate the medicine to suit the price.

We will lose a great many more sales, if we have to adulterate in order to sell, for we have resolved to do one thing, and that is, sell the Purest Dye, or none at all.

Just try our medicine and you will be convinced that they are pure.
