ENORMOUS DAMAGE BEING DONE BY FIRES

Bush Fires in Quebec Destroy Valuable Quantities of Pulpwood—Several Houses in Danger.
SHERBROOKE, Que., Sept. 12.—Last evening the reduction of bush fires in the Orford district was observed from Sherbrooke. The mills and boarding houses of Fletcher Bros were threatened and it was reported last evening that the boarding house was destroyed and every effort was being made to save the mill. Bissell's limits were also threatened and large gangs of men are fighting the fire. The loss in pulpwood will be heavy. Fire broke out in the woods just within the city limits and near a contagious hospital. Men were sent to try and beat out the flames but at a late hour they had not succeeded. Firemen on the incoming trains through the Quebec Central district report many bush fires and an enormous amount of damage.

DIES DURING HER HUSBAND'S FUNERAL

Aged Widow of Christian Markmann Expires While Minister Is Delivering Eulogy.
SAN FRANCISCO, Sept. 12.—While the Rev. Holman B. Turner, pastor of the Baptist church, was delivering the eulogy over the remains of Christian Markmann this afternoon, the widow of the deceased breathed her last. Mrs. Markmann was aged 82. She had been suffering from pneumonia Wednesday, and the same disease was responsible for Mrs. Markmann's death.

SUPPORT GAVE WAY, MAN FELL INTO THE WATER

TORONTO, Sept. 11.—Joseph Passmore was drowned about 3 o'clock this morning while engaged in assisting firemen at E. House's boat house at the foot of Bathurst street. The dead man was a tailor. When pulling one of the boats out he leaned against an old raft or boat at the shipbuilding yards. This support giving way he fell into the water. It was about ten minutes before the body was recovered.

WAS HIS CUSTOM TO PAY A COMMISSION

MONTREAL, Sept. 11.—Of the many business examinations conducted by the marine department inquiry as to his manner of doing business with the department in the southern boundry district graft turned up this afternoon in the person of Alfred Francoeur, a retired grocer of Borel. Mr. Francoeur admitted that he had been in the habit of paying a commission of two per cent to captains and stewards of government boats who brought orders to him. Further questioned he stated that this commission was not restricted to government boats, but was good for any marine man who brought business his way. He had never informed the officers of the department about it, as he did not consider they would be interested in it. The investigation has been adjourned until October 6th. Judge Cassels and council having some other matters to attend to.

NEW TENDERS CALLED FOR ON THE TRANSCONTINENTAL

OTTAWA, Ont., Sept. 11.—The National Transcontinental Commissioners are calling for new tenders for the two sections of the road, in sections D & E, not yet under contract. The districts comprise a stretch of 184 miles westerly from the end of Regular Bros. Abitibi contract, and a stretch of 100 miles easterly from a point about sixty miles west of the eastern boundry of district north of Lake Nipigon. When tenders for all the remaining unfinished sections of the Transcontinental were called for last month, only one tender for each of these two sections was received. The commission found that these tenders were not strictly in accordance with the conditions prescribed and have accordingly called for new tenders.

PROMINENT CHICAGO MEN FIGHT TO THE DEATH

CHICAGO, Sept. 11.—Former City Collector Joseph S. Martin for many years leading democratic politician and adviser to the late Governor Altgeld, was arrested last night after a desperate encounter with Peter McLeod, a contractor, in which McLeod was stabbed twice and Martin was severely injured. The fight took place before the Martin and McLeod homes, North State street. Both were taken to a hospital and will recover. The men had quarreled over money alleged to be due Martin, for whom McLeod had acted as real estate agent.

LABOR MAN PREDICTS BLOCKADE

WINNIPEG, Sept. 11.—J. McVeety predicts that if the strike of the C. P. R. mechanics continues much longer the inevitable result will be the greatest blockade in the history of the West. Already reports that the company has failed to supply rolling stock which occurred. Affidavits showing the condition of the rolling stock and the running of trains will be submitted to the Railway Commission next week.

ALLIANCE APPEALS TO HOME SECRETARY

To Prevent Proposed Catholic Procession.
MUCH FEELING ON BOTH SIDES—MEMBERS OF PROTESTANT ALLIANCE THREATENED WITH DEATH.
LONDON, Sept. 11.—The Protestant Alliance, in continuing its opposition to the procession to be held in this city next Sunday, in connection with the Eucharistic Congress, today telegraphed an appeal to the Home Secretary to prevent the carrying of the Host and the wearing of vestments on this occasion. The appeal says: "The Protestant feeling in London and the provinces, as you doubtless are aware, has increased enormously since Tuesday, and the country is now looking to you to prevent the law of the land being broken."

HURRICANE STRIKES TURKS ISLAND, B. W. I.

Number of Lives Lost Not Yet Ascertained—Schooners Lost and Town Devastated.
GRAND TURK, Turk's Island, B. W. I., Sept. 11.—A hurricane of great fury swept over Turk's Island last night, and this morning, and at daybreak the town of Grand Turk was devastated. A number of lives have been lost, but how many cannot yet be said. Grave anxiety is felt for the safety of the schooner Calcos, who was making a tour of these islands when the storm broke. This morning the wind had reached a velocity of nearly one hundred miles an hour, and was blowing from the northeast.

LABORER'S SPITE COSTS NEARLY A MILLION

Misplaced a Survey Pin and Two Ends of Tunnel Miss Each Other by Twenty-Six Feet.
HEIDELBERG, Sept. 11.—An act of revenge on the part of an Italian laborer, because he considered he had been dismissed without cause, has cost the government of Baden the sum of \$75,000. The government has been constructing a railroad tunnel through the middle of October. According to John R. Graham of this city, president of the new line between Augusta and Sabattus will leave the Augusta House next Tuesday morning at 9 a. m. with a party of financiers.

TO RUN CARS SOON ON NEW ROAD

Lewiston-Waterville Branch in Operation by Nov. 20.
New Line is a Good One and Built Substantially—Hour Schedule to be Maintained.
BANGOR, Sept. 12.—Work on the new electric road between the cities of Lewiston, Gardiner, Augusta and Waterville is fast nearing completion and the entire line will be in operation by the middle of October. According to John R. Graham of this city, president of the new line between Augusta and Sabattus will leave the Augusta House next Tuesday morning at 9 a. m. with a party of financiers.

DENIES THAT MAINE FOLK ARE DRUG FIENDS

PORTLAND, Me., Sept. 11.—A statement denying the assertions of Commissioner Hamilton Wright of Washington, in a press despatch early in August that "in Maine in the country districts opiates are used considerably, particularly among former drunkards, who, because of the fact that prohibition prevails, have been deprived of whiskey" and giving the result of his investigations in every city and county in the state was issued today by Dr. A. G. Young, of Augusta, secretary of the State Board of Health. "This assertion, it seemed to me," said Dr. Young, "was untrue, and this opinion, if thus publicly expressed, might do slight and restricted injury to the state as a whole. It is a pity that such a statement could be made in a visit to Portland, and that it should be made by a man who has been so long in the state and who has had so much opportunity to observe the use and the abuse of opium in Maine, but before I could do more than make a beginning, this newspaper item appeared. Letters were sent to physicians in various parts of the state and to druggists in every city and county in the state. This inquiry brought out the fact plainly enough that in our state generally there is no large usage or abuse of the opiates."

ARE MAKING STUDY OF RURAL MAIL DELIVERY

AS IT EXISTS IN SOME OF THE BORDER STATES OF THE AMERICAN UNION.
OTTAWA, Ont., Sept. 12.—The postmaster general, Hon. Rodolphe Lemieux, in company with Dr. R. M. Coulter, deputy postmaster general, are at present making a study of the system of rural mail delivery as it exists in some of the border states of the American union with a view of introducing themselves to the feasibility of introducing rural mail delivery in this country. This is a question which the Canadian postoffice department has had under consideration for a number of years past. It has also formed the subject of debate in the case in the house of commons, and the introduction of the system in Canada before this has been the large expense which it would involve. The results of the present inquiry will be submitted to the cabinet council at an early date.

WANT TAFT EVERYWHERE.

NEW YORK, Sept. 11.—Since the announcement that Mr. Taft would make a number of speaking trips during the campaign the demand for him has been so great that Chairman Hitchcock of the Republican national committee, is having great difficulty in arranging a satisfactory itinerary. Practically every state wants him for several meetings, and it is possible that before the campaign closes he may speak in every state where the result is not a foregone conclusion.

LOTS OF WORK FOR ALL THE MEN IN THE WEST

WINNIPEG, Sept. 11.—A remarkable change has occurred in the labor market during the last few days following the commencement of the thrashing and now, instead of a surplus of men, there is actually a scarcity and many points are wiring here for from twenty to forty men, but there are none to send. It is evident there would have been no scarcity of employment for the harvesters when they arrived if the farmers had not been so parsimonious.

SOME SATISFACTION.

It costs a lot to live these days. More than it did of yore. But when you stop to think of it, it's worth a whole lot more.

WORKING NIGHT AND DAY TO GET EXHIBITION READY

MONCTON KNIGHTS WILL BUILD NEW HALL.
Officers of the Knights of Columbus Installed Last Night by W. J. Mahoney.
The exhibition building and grounds was a scene of tremendous activity last night, and the rush will continue today. Gangs of men were at work all night long and the work will be continued until the last possible moment tonight, in order to complete the preparations. The booths in the gallery of the main building are all completed and those on the main floor, with one or two exceptions, are all built. Loads of exhibits are being rushed to the building and being put in place. And the building is beginning to take into shape for the opening.

PRAYING FOR RAIN BUT PREPARING FOR FIRE

Lake Settlement Still Threatened by Forest Fires and Inhabitants Fear the Worst.
DULUTH, Minn., Sept. 11.—While conditions in the region of forest fires north of Duluth are threatening, no actual damage to habitations has resulted and the residents are hoping for a change in wind or a rain. No rain has fallen in this region since July 19 and everything in the woods is as dry as parchment. Many valuable tracts of pine have already been devastated by the flames and this morning the walls of fire with a land wind behind them are eating their way towards the settlements along the north shore of Lake Superior.

MARATHONS TO CROSS SWORDS WITH TARTARS Ball Game on Victoria Grounds Today Should be a Good One. When the Tartars and Marathons meet on the Victoria grounds this afternoon a fine exhibition of ball should take place. Although the season is rapidly drawing to a close, the interest in the game is still lively. John McAllister will call the game at sharp 3 o'clock and the teams will line up as follows: Marathons, Catcher, Marathons, Boys, Pitcher, Marathons, Brogan, First Base, Marathons, Boone, Second Base, Marathons, Quarterman, Third Base, Marathons, Malloy, Short Stop, Marathons, Hughes, Left Field, Marathons, Cain, Centre Field, Marathons, Finnamore, D. J. Malcolm, Right Field, Marathons, Walker, C. Lawson.

GIRLS WHO WORK Girls who work for their living are especially exposed to the dangers of organic feminine disorders. Standing all day, or sitting in cramped positions; walking to and from their places of employment in bad weather all tend to break down their delicate feminine organism. No class of women are in need of greater assistance, and thousands of letters like the following demonstrate the fact that LYDIA E. PINKHAM'S VEGETABLE COMPOUND restores the feminine system to a strong, healthy, normal condition. Miss Abby F. Barrows, of Nelsonville, Ohio, writes to Mrs. Pinkham: "I was very sick, had dull headache, pain in my back, and a feminine weakness. I had been to several doctors and they did me no good. Lydia E. Pinkham's Vegetable Compound made me well and strong, and I can do most any kind of work. I am in better health than I ever was, and it is all due to your medicine." Miss Lillian Ross, of 630 E. 24th St., New York, writes to Mrs. Pinkham: "I had a female trouble, nervous headache, and was tired all the time, and could not sleep. Lydia E. Pinkham's Vegetable Compound made me feel so much better that I hope every woman who suffers as I did will try it."

FACTS FOR SICK WOMEN. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for feminine ills, and has positively cured thousands of women. Why don't you try it? Mrs. Pinkham, Lynn, Mass., invites all sick women to write her for advice.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather months. Stomach troubles, cholera, typhoid and diarrhoea carry off thousands of little ones every summer. In most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets cure these troubles, or if given occasionally to the well child will prevent the trouble coming on. And the mother has the guarantee of a government analyst that the Tablets contain no opiate or harmful drug. Mrs. George Mineault, Jr., Mont Louis, Que., says: "Before giving Baby's Own Tablets to my little one who suffered greatly from colic and stomach troubles, and cried a great deal. The Tablets soon cured her and she is now a plump, healthy child, who does not look as though she ever had an hour's illness. You can get the Tablets by any dealer in medicine or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont."

The steamer Tourist, owned by Mr. Welton, of Margarettville, N. S., and in command of Capt. Lewis, is no longer propelled by the working of a gas engine, as a steam engine and boiler have been installed by the Union Foundry and Machine Works, Ltd., of the West End. The steamer left port yesterday and made the run to Digby from this port in five hours. The steamer will ply on the route between Digby and Port Wade, N. S.

BOTH MR. AND MRS. CURREY BRING SUIT FOR DIVORCE

Former Gets Wind of Wife's Intentions and Gets There First BUT SHE'S READY NOW WITH HER SUIT Mrs. Currey Talks at Length to Sun—Declares Husband's Sister First Cause of Trouble

Dr. L. A. Currey has filed a libel for divorce a mensa et thoro and judicial separation from his wife and custody of his children. Mrs. Currey will file a counter suit against him at once. Dr. Currey has filed libel on the grounds of unbecoming temper, violence, striking the plaintiff, kicking him, throwing things at his head, and neglecting her household, public and unbecoming scandal, unbelief in the Christian faith, devoting her time to fads and crazes, neglecting her children, keeping improper company here and there, and bad company for the children, teaching them bad habits, etc. The libel is sworn to.

Mrs. Currey's Story She was at first anxious to have nothing said about the trouble. When apprised of the accusations, Mrs. Currey appeared greatly surprised, especially with the allegations of the libel. She stated that two or three weeks ago she had retained the services of A. H. Hamilton, K. C., to bring a similar suit against her husband. Owing to the absence of Mr. Hamilton's stenographer the papers were not filed. Mrs. Currey was greatly grieved that her husband had stolen the march on her. She stated that she had been informed in some manner learned of her intentions and had consequently sought to forestall her. She declared, however, that a counter suit would be immediately filed, but the allegations were so untrue that she did not care to divulge just yet.

"Yes, I am confident I can disprove every allegation made by Mr. Currey," she said. "Some of them are ridiculous and against me, it remains to be seen when the case comes up in court, just where the violence comes in. Mrs. Currey ridiculed the idea of her libeling her husband, and her twelve-year-old son, who was present at the interview, appeared to share his mother's opinion. As a matter of fact, the son of the family seems very much in sympathy with his mother.

TWO BAD ACCIDENTS IN CITY YESTERDAY

Myrtle Daley Run Down by a Bicycle in the North End WAS SEVERELY HURT

There were two rather severe accidents on the streets yesterday afternoon. Miss Myrtle Daley, daughter of John Daley of Murray street, North End, while walking across Main street near Durick's drug store, was struck by a bicycle that was being speeded along by a young man. Miss Daley was thrown violently to the hard pavement and seriously injured. She was carried into T. Durick's drug store and Dr. Emory summoned. The injured girl was afterwards conveyed to her home. Last night she was reported to be suffering considerably, although no bones were broken, it is thought that she has been injured internally.

A man named O'Brien sustained severe injuries on Brunswick street yesterday afternoon by a heavy sledge going over his body. He was conveyed to the General Public Hospital for treatment. From an inquiry at the hospital last night it was learned that the man was quite severely injured, but the injuries were not of a serious nature, and no bones were broken.

AMUSEMENTS

The HAPPY HALF HOUR We're It Because We're It. Exhibition Week Special. The HOUSE OF ITS. When we announced a few weeks ago that we had engaged Holmes and Buchanan, and declared them to be the best singing act ever heard here, a few laughed, but the majority knew when we said so it could be depended on. Well you know that they are even better than we promised, and now we don't have to advertise them, our patrons do that. Now we have another surprise for you. For Exhibition Week only we have engaged Prof. J. Edward Woods, Magician, Illusionist, and Paper King, assisted by Miss Wood. Prof. Woods is one of the best in his line in America today, and a leading member of the Society of American Magicians. Here is some of the big acts Prof. and Miss Woods do: The Great Aerial Suspension Illusion, in which Miss Wood is hypnotized and made to float in air. Prof. Woods will catch with a rod and line real live gold fish over the heads of the audience. U have never seen this done in this city before, and there is only one other magician in America who do it. He also tears some magnificent designs in paper, something that has not been seen here in years. He does the tricks you have seen others do, and a lot you have never seen, including Coins and Billiard Ball Palmistry. Remember what we said about Holmes and Buchanan. Well it's just the same about Prof. Woods. See him on Monday, Wednesday and Friday, and see pictures on those days. We have reached the limit for 5c shows, and for next week only we will have to raise the price to 10 cents. See it once. If you like it tell your friends, and come again. If not, don't watch Monday's papers. No matter what other Magicians you have seen, see Prof. Woods. Today's show includes Romeo and Juliet for the last time.

WILDWOOD CLUB HAS NEW OWNERS The well known and most hospitable Wildwood Club, situated on Douglas Lake, is now controlled by new owners. Three new owners are Edward Corkery, Daniel Coles, A. A. Chidson, Humphrey Sheehan, James Doherty and Charles Everett. The Wildwood has been in the hands of the carpenter and painters for some weeks and is now one of the finest lake club houses in the province. The old house has been remodeled and larger additions made to it. Large and comfortable rooms have been installed and a good sized veranda has been built all round the house. A large boat house has been built, as well as an ice house. The owners of Wildwood have good reason to be proud of their property. SUMATRA. Sumatra is the westernmost of the Dutch Indian possessions and one of the largest islands in the world. It is separated from Java in the south by the strait of Sunda, memorable for the volcanic disturbance. The northern portion embraces the sultanate of Aceh, and in the days of Queen Elizabeth and James I. when England sent ambassadors in its court, Aceh was a great kingdom, occupying more than half the island. The Acheneses never acknowledged the supremacy of the Dutch, and over £200,000 had been spent in endeavors to subdue this race of warriors. South of Aceh is a large district occupied by the Battakas a tribe that has practiced cannibalism for centuries.

FIRST MATCH THIS YEAR HERE TODAY

Rugby Season Opens
This Afternoon

NORTH END GROUNDS
Game Will be Played Between Algonquins and Carleton

The first Rugby match of the season will be played this afternoon on the Shamrock grounds between the Algonquin seniors and a team representing Carleton. Owing to the uncertainty regarding the baseball match which may be played on the North End grounds this afternoon, together with some seniors, who will referee the game, but it is likely that A. McClellan will be asked to officiate. The Carleton team, according to the line-up announced, is composed of men who played in the Intermediate League last season, together with some seniors, Wright and King, who were with the Algonquins last year, and Baker, who was with St. Peter's. They are placed on the West Side XV. It is likely, however, that the Algonquin manager will protest against Baker.

I Can Cure Cancer

At Home Without Pain, Plaster or Operation and I Tell You How, Free.

I have discovered a new and seemingly infallible remedy for the deadly cancer. I have made some most astonishing cures. I believe every person with cancer should know of this marvelous medicine and its wonderful cures, and I will be glad to give full information free to all who write me and tell me about their case. Peter Keegan, Galesburg, Ill., had cancer of the mouth and throat. Doctors said, "no hope." Mr. Keegan wrote: "It is only a question of a short time I must die." Today his cancer is healed up and he is well. My marvelous medicine is a cure, writes to-day and learns how others have been cured quickly and safely and at small expense. No matter what your condition may be, do not hesitate to write and tell me about it. I will answer your letter promptly, giving you, absolutely free, full information and proof of many remarkable cures. Address, Dr. August Wells, 2609 Radcliff Bldg., St. Louis, Mo.

D'ARCY SCOTT HERE

Ottawa's mayor was a visitor to St. John for a short time yesterday. D'Arcy Scott, chief magistrate of the Dominion capital, and S. L. Scott, also of Ottawa, arrived in the city on the Montreal express at noon. When asked by a reporter what was the cause of his presence in this city, Mayor Scott said that he and Mr. Scott were here for a few hours on private business. The two left for Ottawa via the C. P. R. last evening.

PERMANENT STREETS

MONCTON, Sept. 11.—At tonight's meeting of the City Council an elaborate report on permanent streets and sidewalks was submitted by a committee, which has been gathering information for some time. The report favored putting down blocks instead of solid granite, permanent. It is recommended that bonds be issued and that fifty thousand dollars be spent the next two years.

ADVERTISING A CITY.
What is the best way to advertise a city? This is the question that the Board of Trade of Springfield, Mass., is seriously asking. Its members frankly admit that they do not know, therefore they seek information. Realizing that in Springfield they have one of the finest cities in the United States, and feeling that its advantages are not appealing as they should to the outside world, the members of the Board of Trade are determined to do something to bring the city more prominently to the front. They have accordingly offered a prize of \$500 for the plan that promises to bring the quickest and most satisfactory results. Any one on earth can compete. They make no restrictions. They want information and they are not over particular how they get it.

This question of municipal advertising has been widely discussed, but there exists considerable doubt as to the method of advertising that is most successful. Some cities have adopted one plan, some another, but all have derived more or less benefit from conducting a publicity campaign. There should be general interest in the plan that Springfield finally adopts. In their announcement the Board of Trade makes it plain that in the plan submitted the advantages of their city must be set forth in a concise and forcible way, so as to give Springfield the greatest amount of publicity in the most favorable manner. They want special reference to the parks, river front, squares, clean and desirable streets, the city's growth and all public buildings, increase in population, transportation facilities and manufacturing advantages. Springfield has a Board of Trade composed of very nearly 600 active members. It is the largest city in population in New England, and third in financial importance, and among the first in the amount of mail handled at the post office. It would seem that there was no special reason for the Board of Trade making any desperate effort to advertise the city, but the people of Springfield are wide awake. They want all they can get and are not afraid to work for it. If a little of this energy could be enticed into the members of the St. John Board of Trade, what a different city we would have in a comparatively short time. St. John has just as many advantages as Springfield; more, in fact, because it is a large seaport, but the business opportunities which are knocking at the door of this city are being neglected. The Board of Trade is not wholly to blame for this, but it is partly to blame. We should have 300 more members in our St. John Board of Trade than we have got and each one should be five times as active. It is to be hoped they will take a pointer or two from the business men of Springfield.

PEACE AND WAR.
On Thursday \$10,000,000 worth of shell casing steel in the form of the cruiser battleship St. Vincent was launched. On the same day thousands of men and women, unable to obtain employment, paraded the streets of Glasgow, demanding that something be done on their behalf. The never ceasing construction of warships for the purpose of maintaining peace, which has of late years become such a tremendous burden to the nations of Europe, is in reality only making war more probable. The man who takes off his coat, rolls up his sleeves and shakes his fist at an opponent, is far more apt to get into a fight than the one who makes no movement in the way of defending himself against an imaginary attack. In a country such as this where there are few unemployed, it is difficult to realize how such a mistaken policy as that now followed by the nations of Europe, can be pursued. We realize that to some extent, navies are necessary evils, but we do not fully comprehend why such enormous sums are expended annually when labor conditions are so serious. The starving thousands of Glasgow with their suffering friends in all other large cities of Britain, can scarcely be expected to look with complacency upon the outlay of fortunes in naval armament, or to take pride in the triumphs exemplified in the construction of this newest and greatest battleship. It might possibly be better for Britain to be defeated in war, by a foreign power, than to submit as she is now doing to a worse defeat at home, administered by her own mistaken policy in dealing with her own people.

A gallant British soldier offers as a solution of the suffrage movement difficulty that the franchise be granted to women, but that instead of electing representatives to the House of Commons, as is now done by the men, a new house should be created. Britain, he explains, is now governed by the House of Commons and the House of Lords, he would establish a House of

Ladies, the members of which would be chosen representatives elected by the female vote. And this suggestion is made quite seriously.

A return issued by the Admiralty shows that between January 1, 1901, and May 27, 1902, 44 of His Majesty's ships and other craft of war met with accidents. Sixteen of the vessels were totally lost. The cost of these vessels, including guns, was \$3,750,570. Four hundred and eight lives were lost.

PLAINT.
Backward, turn backward, O Time, in thy flight!
Give us an antediluvian day and night,
Give us a "yelow" same headlines to scan,
A ruckless skirt and a bustles train,
A babe teddy-bearless, a microbeless kiss
A static fight fakeless, a straight-frontless miss!
A girlwits schoolgirl, and better than that—
A summer-clad college man, wearing a hat!
I know, Father Time, that I'm asking too much,
But turn to a day ere a dinner was lunch.
Swing back to an age peroxideless for hair—
A noon era "rats" made their rendezvous there—
An old-fashioned breakfast, without Shredded Hay
A season when farmers went wineless a day.
A burg snoving-pictoreless—ah, what a treat.
A gumless-girl town, and a trolleyless street;
I'm asking too much, but I pray,
Daddy Time, I pray,
For days when a song had both substance and rhyme.

LOVE FOR SISTER OF WIFE JAILS PARSON
Leaves Church to Become Common Laundry Employ for Her Sake—Found at a Washub.

TOLEDO, Ohio, Sept. 12—Just for love the Rev. William Cummings left the church over which he had ministered to work at a washub—a common, hardworking laundry employ.
Because of this love Cummings is now occupying a cell in the Lonia, Mich. jail, facing a charge of desertion and non-support. The woman he loves is his wife's own sister.
Cummings was a country boy and an ardent church worker. First he became a railroad brakeman, saved some money, studied hard and finally won Miss Mahal Taylor, of Clarkston. That was eight years ago. Thanks to his father-in-law's money, young Cummings was enabled to complete his college education and finally become ordained as an Episcopal clergyman.
The young minister was given a church at Elk Rapids, Mich. At the time of his marriage his wife's sister, Velva, was 11 years old. Each summer she would journey to the Cummings home at Elk Rapids, but this year the minister and his wife went to Clarkburg on a visit. Cummings and Miss Velva, now 19 years old, disappeared August 4.
The sheriff of Lonia county a few days ago traced the man to a laundry at Sault Ste Marie. The preacher had established a cozy home for the girl. Velva followed Cummings to the county jail, and is doing her utmost to make his imprisonment as easy as possible.

EXCELLENT RACING FOR THE REGATTA

Rules to Govern Harbor Races

LARGE ENTRY LIST
Among List of Entries is Sir William VanHorne's Yacht

The rules to govern the harbor yacht races to be held during next week have been drawn up and are published below. Some fine racing is expected, as there is a large number of entries. Sir William Van Horne's MIRA of St. Andrews is the latest yacht to be entered in the regatta.

Should, however, an overlap exist between two yachts when both of them without tacking are about to pass a mark on the starboard side, then the outside yacht must give the inside yacht room to pass clear of the mark.

When two yachts are approaching a shore, shoal, rock, vessel, or other dangerous obstruction, and cannot go clear by altering her course without fouling another yacht, then the latter shall, on being hailed by the former, at once give room; and in case one yacht is forced to tack or bear away in order to give room, the other shall also tack or bear away, as the case may be, at as nearly the same time as is possible without danger of fouling, but should such obstruction be a designed mark of the course a yacht shall not force another to tack under the provisions of this rule.

BUSINESS STILL QUIET IN BOSTON
News of Boston of Local Interest—Agricultural Conditions

THE MAINE ELECTIONS
BOSTON, Sept. 11.—Business continues quiet in most lines of trade, but business men look for a fair fall trade in spite of the uncertainty as to the outcome of the presidential election.

There is not much life in the political campaign. Both sides are watching the Maine election next Monday. In that state heavy Democratic gains are expected, and it may be that Olden's Gardiner, the Democratic candidate for governor, will be elected. Should such an event transpire the Republicans throughout the country will get busy immediately. In many states the Republicans are busy preparing to devote their attention to the work of harmonizing the party in disunited states.

MYSTERIOUS MR. DIXIE.
At the matinee of The Girl I Left Behind Me, that the Selman Company present the afternoon, The Mysterious Mr. Dixie will attend. No doubt the presence of the mysterious stranger will doubtless attract hundreds who are desirous of seeing Mr. Dixie between the four walls of the theatre. The doors will open at 7:30 and there will be a splendid matinee bill, and always appeals to women and children. See if you are keen of observation and are mysterious enough to discover Mr. Dixie in the audience.

Miss Thomson Receives Cup and Mrs. Handsomebody Gold Medal
OTHER WINNERS

WOODSTOCK, Sept. 11.—The proceedings in the ladies' championship contests terminated this afternoon with the formal presentation of the prizes. Dr. W. D. Rankin officiated in his most happy manner. Miss Thomson received the championship runner up, a beautiful medal. This lady won two other prizes, and another for being runner up to Mrs. Bolyea, the winner of the cup emblematic of the putting and approaching championship. Miss Muriel Robertson received the driving championship cup and Miss Mary Robertson the consolation trophy was won by Miss Haro, the runner up being Mrs. Ketchum, who also secured a handsome prize. There were two or three other minor prizes. Mrs. E. A. Smith on behalf of the association made an eloquent address, thanking the local club for its most hospitable entertainment. Next year's meeting will be held in Halifax. Much to the regret of everyone the very popular representatives from that city through sheer bad luck failed to carry off any prizes. The interprovincial cup went to New Brunswick by default. This morning and afternoon there were a great many prominent visitors at the links. Hon. Harry F. McLeod being among the number.

Billiousness and its Remedy.

When your liver is out of order your whole system suffers. Your food ferments in your stomach and intestines, causing violent spasms, and the impurities that result enter your blood and are carried to every part of your system. The results are nausea, sickness, headache, blurred sight, pains between the shoulders, furred tongue, languor and general depression of spirits. Mother Seigel's Syrup overcomes all that, because it purges your liver right and keeps it right—and your stomach too. Mene Auguste Ouellette, St. Jean Port Joli, L'Islet Co., P. Q., writing on Jan. 24, 1902, says:—"After meals I had severe pains in the stomach, and I was pale and thin from sleeplessness and headache. Mother Seigel's Syrup cured me when nothing else could."

AMHERST TURNS OUT EN MASSE FOR MEETING

AMHERST, N. S., Sept. 11.—It is not an exaggeration to state that the political meeting held in the Winter Fair building this evening was the largest of its kind ever held in Amherst. The speakers advertised to take part were Hon. W. S. Fielding, Hon. Wm. Patterson, Charles Marcell, M. P., and J. Layton, the Liberal candidate.

Logan Takes Chair The chair was taken by H. J. Logan, M. P., promptly at 8 o'clock. Mr. Logan, in a brief address, expressed regret that circumstances had compelled him to retire from active politics, but that in Mr. Ralston the Liberal party had a candidate who could give them more faithful service than himself. He asked for the voters of Cumberland to rally to the support of Mr. Ralston and elect him their representative of Cumberland to the House of Commons.

Fielding Next Speaker Hon. Mr. Fielding was the next speaker. He was suffering from hoarseness and did not speak so long as at the other meetings held in other towns. He paid a eulogy to the great work done by Mr. Logan in parliament and regretted his enforced retirement. In Mr. Ralston the Liberals of Cumberland had found a worthy successor. He was a young man of brilliant promise and his name would soon be a familiar one throughout Canada. He did not claim that the Liberal government had given aneque government to Canada, but it had given the people a government which would not be so long as at the other meetings held in other towns.

Chas. Marcell, M. P., completely captured the hearts of his audience as in ringing tones he traced the growth of Canada since confederation, comparing the records of the two governments. The province of Quebec was to stand by Laurier, they knew the man, they believed in his honesty and patriotism and if a Conservative would get elected to Mr. Fielding, discussing him as Sir Wilfrid Laurier's right hand man. Conservatives had preached loyalty for many years, but Mr. Fielding by one legislative act had done more to cement the ties of Great Britain and Canada than all the Tories had done and would do in one hundred years. The government was going back to Laurier, and he urged the voters to support Mr. Ralston, as it would be in their interest and to the advantage of Canada. He relied on the intelligence of people of Nova Scotia not to give their support to the comedians that now formed Conservative opposition. Hon. Mr. Patterson was the last speaker. He dealt closely with trade matters. He showed the falsity of the Protectionist cry that the extra revenue was being drawn from the pockets of the people. The average duty was three dollars less on the one hundred than under Conservative rule. In 1896 the revenue of the post office was three million dollars; two years later it was six millions. The increase was brought about by a reduction in the postal rates, not an increase. People wrote more letters, did more business. The government did not compel them to write the letters. The same truth applied to the tariff. The government was spending more money than the Conservatives. He was not going to apologise for it. They

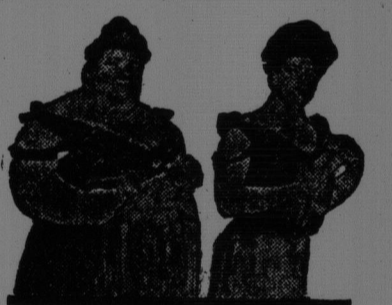

POLICE NOW ON LOOKOUT FOR STEWART

MONTREAL, Sept. 11.—A warrant has been issued for the arrest of D. M. Stewart, former general manager of the defunct Sovereign Bank. The charge against Stewart was laid by an official of the finance department, Ottawa, for rendering false statements of the bank's affairs to the government. The statement is made that this was done through the connection of the Sovereign with the Drexler Bank of Germany. Stewart, when making his returns, was drawing for a considerable sum each month on the Drexler Bank and including the draft in the assets of the institution. Then the draft was cancelled until it reappeared at the time of the next statement. Stewart is absent from the city and so far officers have been unable to locate him. It is supposed in some quarters that he is in New York. He was at Quebec at the time of the thirtieth anniversary in command of his regiment, the 11th Scottish Light Dragoons, the regiment over which the Dundonald incident occurred. He came back to Montreal in advance of the regiment and immediately left again. He closed up his business. It is expected the Dominion police will endeavor to locate him.

Reduce Your Fat

Reduce Rapidly Excess Fat Without the Aid of Tire-some Exercises or Starvation Diet

COSTS NOTHING TO TRY. Rengo will reduce excess fat and build up the strength and health of anyone who eats it regularly for a short time. It is a product of nature.

This Illustration Plainly Shows What Rengo Has Done.

Delicious to the taste and safe and harmless in all its properties. It will reduce the digestive organs as so many drugs and medicines do. Rengo will positively reduce surplus fat without doing any harm to the subject. It is very palatable and pleasant to eat. It is prepared in a scientific manner and is convenient to carry in the pocket so one can have it with him at all times. Rengo requires no exhausting exercises or starvation dieting to help it out so many of the so-called fat remedies do. You can go on your regular duties. It compels proper assimilation of the food and sends the food nutrients into the muscles and bones and nerves and builds them up instead of plugging it up in the form of excess fat. There is nothing "just as good" as Rengo. For sale by all druggists at \$1.00 per half sized box, or by mail order, paid, by the Rengo Co., 238 Rengo Bldg., Detroit, Mich. The company will gladly send you a trial package free by mail. If you write them direct to Detroit; no free packages at drug stores. AMUSEMENTS

LAST TIME FOR ROMEO AND JULIET TODAY. It was the same old S. R. O. crowd at the Happy Half Hour again last night. Miss Holmes sang Toyland, from the musical comedy, Babes in Toyland, and Mr. Buchanan, by request, sang Killarney. Of course they both received encores. Mr. Patterson was present last night who had already seen Romeo and Juliet, but wanted to see it again. The new pictures were as promised, de-

The Conservatives did not spend it before spending it because they had it. The money was not obtained by borrowing in the money markets or increasing the taxation, but because the country had prospered and more goods had been bought. Mr. Patterson closed his address with an eloquent appeal for the people of Amherst to endorse the record of the government. God Save the King and cheers for the speakers brought the meeting to a close.

lightful. Venice and the Lagoon shows all of the beauty spots of this beautiful city. A New Way to Day Rent is good for laughing purposes. Industrial Sicily shows the principal industries of the country, including fishing at the sulphur mines, which are the largest in the world. Prof. Titus sings Dream of Me and I'll Dream of You, making an hour's show. Positively the last chance to see Romeo and Juliet today. Let the children see it. Read the Happy Half Hour ad. in this paper. It's interesting. AT THE PRINCESS.

The extra large programme of moving pictures shown at the Princess Theatre yesterday proved a decided hit with the hundreds of people who attended and the programme will be repeated today. This afternoon there will be a special matinee for the ladies and children. The picture entitled Human Vultures proved to be all that was said about it. The scenes of wreck and disaster, with loss of life as shown along the rocky coast of Brittany, was indeed thrilling. It plainly shows the manner in which the land sharks deceived ships to disaster for the mere chance of stealing their cargoes. Another beautiful dramatic picture that is full of dramatic scenes is that entitled Broken Hearts. It tells a pretty story of a country boy's infatuation with a city girl and their final separation, which results in his destruction by drowning. It is a very long film and each of the ten different scenes are remarkably well enacted. A Policeman on Duty is a picture that tells the story of a police officer's life on duty and it is a most interesting study. Selky, the great lady magician, is seen to great advantage in new acts of magic, and Harry Newcombe, the popular ballroom, has a very pretty new illustrated song.

NICKEL'S BIG SHOW TODAY. This is the children's gay day again—a Saturday afternoon at the storehouse of good pictures and pure wholesome fun, the Nickel. And truly the little ones will enjoy the bill that has been prepared for them. The talking picture play will be the very laughable sketch, "All in Love and a War" that has been creating so much merriment of late and there are four excellent new pictures as well. Miss Felix will sing, also Mr. Weston's whole lot of entertainment. On Monday the stirring labor melo-drama, "A Hero in Overall" will be the Humanoes Co.'s new act and its startling realism is sure to make a profound impression. Exhibition visitors will miss one of the best features of the week to omit visiting the Nickel.

ELIQU'S PICTURES FAR ABOVE THE AVERAGE. Despite the many attractions last night the Eljous had a large and appreciative audience to witness, as all proclaimed, the best pictures yet shown. In the picture called "The Tale the Autumn Leaves Told," drama out of the ordinary was presented and in style of finish and acting is one without equal. The plot is laid among beautiful scenery and as each picture is shown on the curtain it is surrounded with a leaf border. Something entirely new and very striking. In "The professor's Discovery," in which the professor, who is a chemist, in a preparation which, much to our surprise, upon smelling causes him to dance. He goes out on the street, giving everyone he meets a start until, finally he has a whole army dancing. It's a great fun producer, as is likewise "All in Love and a War," which, as the name implies, removes the hair, but in every case, with one exception in this picture, of people who don't want to lose theirs. "I'll Dance the Cake Walk" makes a fitting finale to a programme of much hilarity and one thoroughly enjoyable from start to finish. Miss Smith, the Eljous' soprano, is winning new friends each day, and in her song, "When You Know You're Not Forgotten," the same song she sings today, fairly took the house by storm.

MYSTERIOUS MR. DIXIE. The mysterious Mr. Dixie will be present at the matinee at the Opera House this afternoon. The bill will be The Girl I Left Behind Me. Many women and children have manifested much interest in today's performance. All are desirous of studying the mysterious gentleman at close range. The door will open at one-thirty and the rush for seats will no doubt be exciting. Many are in hopes of winning the prize that is offered.

MISS MAE POWER IN A NEW SONG "AT THE UNIQUE TODAY." Those who visit the Unique Theatre today will hear one of the best songs we have yet been able to procure, "The Town Where I Was Born." This song will be rendered by Miss Power and this fact alone makes it well worth hearing. The picture, which is new to any ever shown in this city, the leader is called "Captain Molly" and is a true story of military life. This picture is especially interesting and holds the attention of the spectators throughout. "Parley Vous Francois." This is an excellent comedy, the experience of a stranger in a strange land. Dr. Cure's Patients is another good comedy. A doctor's servant attempts to treat the patients in his master's absence. His experiences are very amusing. The other picture is called "Turning the Tables," an excellent trick film. This picture is really wonderful. Miss A. Putous is singing "The Saucy Little Bird on Nellie's Hat."

ST. JOHN PLACES OF AMUSEMENT. Farewell Performances at Opera House. The Selman Stock Company will tonight give the farewell performance, "All the Comforts of Home" will be the play; this was presented Labor Day matinee and was a success. All the favorites have congenial roles. Mr. Townsend makes the most of the role of "Bender." Miss French is a dainty "Pam." Harry Wilson on "Tom" has made a bit. Robert Robson gives another of his famous creations. At the matinee a bill that always appeals to women and children—the military drama, "The Girl I Left Behind Me" will be played. PASSION FLOWER FRUIT. Few people probably are aware that there is a variety of the passion flower which bears a luscious fruit about the size and color of a purple plum. The botanical name of the variety is Passiflora edulis.

GROSS OCEAN TO WED SWEETHEARTS HERE

Two Polish Bridegrooms Get Licenses After Long Journey. PHILADELPHIA, Sept. 12.—It was Cupid's busy day among the Polish residents of the city yesterday, and four pairs appeared at the Marriage License Bureau for the required documents that lead the way to weddings. These pairs were Jan Rudnick and Miss Katarzyna Mulikowicz, of 2336 Callowhill street; Lawrence Skonis and Miss Anna Statkuniczka, of 239 North Bernarda street; John Guokas and Miss Bernarda Stefanowicz, of 3221 Wood street, and Lucyan Maciazar and Miss Katarzyna Kuznick, of 2214 Hamilton street.

Both Dudnick and Guokas crossed the sea to claim their brides, and both will be married at the week-end. They had wooed the young women in their native countries, and the spark did not die even when the ocean intervened. Great festivities will follow the wedding ceremonies, for in each instance friends are planning receptions for the young pairs.

Nathan Meglensky came from Stockton, Cal., to marry Miss Sara Welsberg, of 505 Lombard street.

WOMAN ARRESTED AS "BLACK HAND" WRITER

Miner's Wife Captured After Gun Fight With Five Officers. BESSEMER, Mich., Sept. 12.—Mrs. Frank Gallor, who it is alleged, as a feminine "black hand," has for several weeks been terrorizing business men, was captured here today after a gun fight with officers. She is the wife of a miner. Five policemen were lying in wait

near a box where money was to be deposited. The woman cautiously crept along the road, grabbed the box and ran. Upon being pursued by the officers she whipped out a gun and fired a fusillade. The fire was promptly returned until officers who were stationed at a turn in the road grabbed the woman. The woman's husband, Frank Gallor, has also been jailed. For the protection and benefit of the public, we wish to say that Dr. Fowles' Extract of Wild Strawberry has been used in thousands of homes for the past sixty-three years and has never failed to give prompt relief and cure in all cases of Diarrhoea, Dysentery, Colic, Summer Complaint, Stomachic, Cholera Infantum, Cholera Morbus and all Fluxes of the Bowels. When you buy Dr. Fowles', you are not experimenting with a new and untried remedy, but are getting one that has stood the test of time. Miss Lettie Reid, Vivian, Ont., writes: "Last year I suffered untold agony from cramps in the stomach and did not know what to do until a friend suggested I should try Dr. Fowles' Extract of Wild Strawberry and as I was glad to try anything I purchased a bottle. When I had taken four doses I found relief and since then I never fail to keep a bottle in the house."

I seem to be vague as to how I passed the next hour. I know I had a conversation on me for solitude.

I must get away, by myself—where I could think. . . Have you never felt a consoling friendship in the quiet of a deep wood? As if the silence listened and advised? That was what I wanted.

I got into my riding things, found a groom, and presently rode away, alone, down the long shady avenue of birch trees and off into the pine woods.

On a very high knoll there is a sort of lookout built in the branches of a tall pine. There is a winding stair with a rail leading up to it. The top is a narrow seat, its back formed by a twisted limb.

It is familiarly known as "the crow's nest," and is a favorite haunt of mine when in meditation, fancy free.

It is a dizzy height and I quite lost my breath in mounting it. The view is magnificent, and I sat long looking over the crystalline blues, crowding the pines.

Something warm, and keen, and sweet sang itself through my blood. I lay, stretched out supinely, my head against the rough bark of the tree behind me.

How long I lay there I do not know; but gradually a vague ecstasy mingled itself with the drowsy languor induced by the perfume of the pines, the warm air, the hum of insects. I had a feeling of nearness to the great warm breast of Nature.

I suppose I must have at once fallen asleep, for I dreamed some Brobdignagian absurdity about sailing through the air on the back of a crow, and of being left, lone and lorn, on some lonely mountain height, clothed only in a little brief authority and a Japanese kimono, and of being shamefully conscious that my trunk had been left in Chicago.

Suddenly I felt myself caught and held in a grip of velvet and steel.

"Wh-where is my trunk?" I demanded yawningly, with a vague feeling of

Is More Important Than **FOOD**

No one can live without sleep for a whole week, while Dr. Tanner and others have fasted forty days. Restful sleep is necessary to do good work—you can't rest in a hammock, or on a spring bed that sags to the centre—your body should be supported throughout, and yet be on a level surface, which yields to every move.

The Joy-Promoter

(Continued.)

Did you ever hear of anything so perfectly diabolical as the way I must have sent all their straight-laced proprieties hors de combat? Overthrew all their hoary and moss-grown family traditions.

Really, I never knew such a Manichaean-like mind as young Hammerstein has! He has what might fittingly be termed the "fictional" mind. He sees situations—and produces them. What a five-act drama he could write!

All at once, with the electrifying precipitudo of a Jack-in-the-box the real daughter-in-law appears.

Behold a scene of glittering pathos. Petrified family circle; incensed heroine; calmly complacent villain.

Later, there was a milder scene in which I very sweetly suggested to young Hammerstein that I thought it right mean in him to take Annina's

and Sapphira's laurels away from them like that. He allowed that it was, and blushing admitted the victor's crown.

"Then I flashed out: 'To be pasting me off as a relative of the house—'"

"Well, haven't I done my best to make you a relative of the house?" he grinned with the most maddening and undisturbed sang froid. I simply would not see anything funny in the remark, and flung back with consuming irony: "If ever I thirsted for anybody's blood I thirst for yours!"

"And haven't I offered myself to you, blood, body, bones and all many times?"

At that I simply burst out laughing in spite of myself. And he suddenly looked so dejected and unhappy, and just like a boy caught stealing jam. Then he told me that for him 'twas young dream was o'er; that his eyes was all dough; that life was blighted

MATCHING BLOUSES FOR FALL GOWNS

ETIQUETTE OF THE MIDSUMMER HOP

TREATMENT FOR DISCOLORED NECK

THE fashion of wearing the collarless blouse has brought with it a double trouble to the up-to-date woman. For one thing, it exposes the sensitive skin of throat and neck to wind and dust, making it coarse from constant exposure. At the same time, it lays bare to sight the ugly black rim about the throat caused by wearing the tight, high collars of last year. The skin of throat, neck and chest will show lack of care more than that of any other part of the body.

If you have this ugly black streak about your throat, the treatment must be towards eliminating it. Cold water will stand you in little stead, the neck should be washed with bleach water, into which a few drops of benzoin have been added. This done, you should exercise the neck until a free perspiration appears, then again bathe it in warm water, and apply the following lotion, letting it dry on the neck:

Boric acid, 1 drachm; distilled witch hazel, 1 ounce; rosewater, 2 ounces. So many women write to me and say, "How can you exercise the neck?" This is simple enough. Bend the head back and forward and from side to side, and you will soon bring on a perspiration, if you have first opened the pores by a warm bath. Or you can take a small Turkish towel and rub the neck freely with it. The idea is to open the pores so that the bleaching lotion will give quicker results. This treatment should be given every night until the streak disappears.

The work of keeping the skin soft and white should be done at night. If you have been out in the air, with sun and wind beating against your throat all day, then apply cold cream before you wash the neck. This loosens the dust. When the neck should be wiped off with a bit of old linen. If you are average to using cold cream, a very good emollient can be made at home. Take the white of one raw egg, opened and beat it to a very stiff froth—so stiff that it can be turned upside down on the platter and not fall. Then put it into a bowl and add an equal quantity of pure, sweet almond oil. Rub this mixture on the neck with old linen, wipe off with a clean cloth, and then wash with soap and water.

If the neck is tanned and discolored all over—by this I mean has no distinct streak, but is simply a muddy color all over—I advise the following bleach. Five grains of powdered borax, five grains of clove, ten grains of spirits of camphor, 100 grains of pure rosewater. Shake the ingredients well until thoroughly mixed, and apply the neck with the lotion, letting it dry on.

This lotion can be used twice a day, at night and after the morning bath. After the morning bath, apply the lotion and then dust the throat with the pure powder.

Massage will fill out the ugly hollows of the neck, and also distribute the lump of fat which often appears at the nape of the neck. This latter trouble often gives a girl a very round-shouldered appearance. It is not difficult to massage your own neck. Cold cream, of the egg and almond oil lotion, should be applied generously, and the massaging done in a rotary motion. By this I mean not to scower the fingers over a round surface, but to press down the flesh, and roll and rub, so that you cause the flesh to stir the circle in a circular motion. Keep on with this treatment until the whole throat has been covered. Then apply the bleach, which is also somewhat of an astringent.

Many women are afflicted with a condition known as the neck rash. This can be cured in its infancy, or perhaps the most successful treatment yet discovered for it is electricity. However, if a girl is of long standing and has settled her growth, there is little hope of a cure. Mothers who see signs of gopher in any of their children should have it treated by a physician at once, and not waste time with home cures or advertised patent remedies.

One of the most valuable assets of the modern toilet table is the much abused lemon. It is perhaps as effective a bleach as can be found. Cut the lemon in half and rub the pure juice directly upon the throat, after bathing in warm water. Let the lemon juice dry on. If this treatment is too vigorous, then the following lotion may be found effective. Take two heaping tablespoonsful of oatmeal, add to it one quart of cold water, let come to a boil and boil ten minutes. Cool and strain through a piece of cheesecloth, and to the liquid add the juice of two lemons and a tablespoonful of alcohol. Apply this with a cloth, not wiping it away.

FIG. D—DOUBLE-BREADED BLOUSE

FIG. A—LIBERTY SILK BLOUSE WITH TASSELS

FIG. E—FANCY BLOUSE WITH GUIMPE

THE days when a dignified or stately gown was the only choice are gone. The material of the blouse need not be like the skirt. It must match in color, and in reality a part of the dress itself. The day of the pleated skirt is decidedly over, and by fall it will be seen very little on the woman of fashion. Some conservative tailors say, however, that the pleated skirt will always be worn by a certain type of woman—presumably the tall, thin type. But certainly the gored and circular skirts are just now riding on the top wave of popularity.

One of the newest innovations in costume trims is the frequent use of silk tassels. The department stores in large cities carry tassels in all colors, but those who do not wish to be conspicuous in their shopping should purchase a heavy twisted silk, which can be bought at the embroiderer's counter of any small shop. The tassels, and all dressy occasions, soft, clinging materials are used for matching blouses. Heavy brocade silk is not appropriate for a blouse, no matter how handsome the material. To make a coat suit really practical, every woman should have two blouses, matching in color, but vastly different in texture, style and purpose. One of the smartest of the advanced fall costumes was seen the other day in a fashionable shop. It was of old blue chiffon cloth, the skirt a four-gored cut, and the coat semi-tailored in three-quarter length. With this suit were two matching blouses. The tailored blouse to wear mornings, for all general street wear, and for short work and trips, was of imported surah, matching the cloth exactly in color. It was made in the long straight pleated effect, and trimmed only with tiny buttons, covered with the same material. The second blouse, for calling, matinee, etc., was of old blue Liberty silk, the exact shade of the suit. This was elaborately inset with Irish lace, soft strands of the Liberty silk being pulled through the pattern of the lace, and finished off with luxurious tassels matching the blue of the material.

Figure A, shown to-day, would be a smart model to follow for such a blouse. It could be evolved from Liberty silk, chiffon cloth, or a soft silk net. If you cannot buy materials to make a suit, then buy white or cream, and have it dyed to match. The long, mousseline sleeve in this model is charming made up in soft materials—Irish or Cluny lace should make the bretelles and yoke. The woman who has a pretty throat could eliminate the high standing collar and cut the throat out in the prevailing Dutch neck fashion. The blouse is particularly becoming to the slender girl, as it gives breadth over the shoulders and fullness over the bust.

Figure B is a most practical model for an odd tailored blouse. This model is so severe that it can be worked up from even heavier materials than silk. A light weight French flannel or a soft albatross would be a sensible material for the girl who lives in a chilly climate. This particular model was made up in a heavy weight surah, which, by the way, has been given great preference over tulle, as it does not cut. It was seen in a dull, London shop, gray, trimmed with smoked pearl buttons. The high, Nastromo collar was detachable. It was made of heavy Cluny lace and finished off at the neck with a tiny bow or ruffled satin, giving tone and distinction to an otherwise somber garment.

Figure C illustrates the fashionable kimono sleeve. The one great hindrance to this sleeve is that it binds the free use of the arm, and for this reason it is only practical for the idle girl. The girl who uses her arms freely will find this sleeve a decided drawback. This blouse was made of what is known as Sappho silk—a soft silk with high lustre on which costs about a dollar a yard. The color was a dull sage green, and the striped collar, cuffs and hat were of a green and white taffeta silk. The tie at the throat was of soft green ribbon, a shade darker than the material in the blouse. And let me say just here that all colors this coming season are in the dull, faded tones. Nothing that is smart is vivid. All the imported materials have a faded tone to them.

Figure D shows a severely tailored blouse. It requires about four yards of silk of average width to make a blouse of this character. If the blouse is of a large size and the silk rather narrow, then five yards is safer. The dicker is separate. This makes a very neat and economical blouse for general wear; and the neck piece can be made of wash material and washed whenever soiled the least bit. Tucked organdie, embroidered batiste, or heavy all-over lace make practical dickeys. Figure E shows a very fall model on the favorite kimono line. The guimpe can be made of matching or contrasting material, preferably the latter. This model was seen in Louise silk, a shade of the golden tan. The square yoke was of cream colored luny, while the sleeves were made of the matching silk, finished off with a cuff of the dyed flax lace insert.

Let me also impress upon you not to wear old belts with fancy blouses. Whatever your skirt material is, have made a tiny attached belt. Nothing will mar an otherwise smart costume as much as a belt that has no connection with either the skirt or the blouse.

APRONS, BIG AND LITTLE, FOR VARIOUS USES

On dainty aprons it is well to sew heading instead of the regulation binding and strings. This heading should be about an inch in width, and wash ribbon should be run through it. This ribbon serves for strings, and at the same time lends to the beauty of the apron. The ribbon can be slipped out when the apron is soiled. It can then be prepped out, freshened up and replaced when the apron has returned snowy white from a visit to the tub. MARY DEAN.

HERE are many sorts of dances, but it seems to me that none presents to the young girl as many embarrassing possibilities as the hop given at a hotel or large club house. The little dance given at home on the piazza holds forth little to be feared, and the small weekly dances given by the town club have become almost a home affair, but not so with the formal hop.

So many girls think that it is necessary to have a chaperon, the evening will be spoiled. This is a grave mistake. Let me say most strongly that more evenings have been spoiled by the absence of a chaperon than by the presence of one. If a young man invites you to a dance at a hotel, you need not take with you a chaperon, because there will be many married women at the hop who will act as general chaperones to one and all. But the young man must seek out one of these married women and see that you are duly introduced to her.

Hotel hops are of a semi-public order and a young girl should not be the last one to leave. Only those who reside in the hotel should be found among the last few stragglers. A man who asks a girl to attend such a dance must meet all expenses, and should exert himself to see that she has a delightful evening. He should always dance the first and last dances with her, and take her in to supper. If supper is not served in connection with the hop, then during the evening he should ask her to have some cooling drinks, and later to have a bite to eat, if such is the custom of the hotel.

The young man can dance with the girl more than twice, yet he should not monopolize her to the exclusion of all others. What I want to impress upon the escort is that his companion must not be allowed to become a dreaded "wall flower". Each year finds the summer girl becoming more sensible in her dress. Gowns for an evening dance should just clear the floor, and a dainty lingerie dress is always in good form. At very formal dances white gloves are worn, but at nine out of every ten summer hop gloves are discarded after the first few minutes in the room. If you wear a trained dress, then make sure that you have on a dainty petticoat. Hold the dress up so that it clears the ground, but do not hold up the petticoat.

The girl who goes to a dance and is missing from the room for an hour at a time, only to be found in a cozy corner with a man, is acting decidedly in bad form. This does not mean that it is absolutely necessary to dance every dance and all the time. But it does mean that spooning on the piazza of a public hotel is decidedly tabooed by Mrs. Grundy. And I regret to say that it is a common evil of the midsummer dance.

When it comes time to go home at the end of the dance, let the young girl seek out one or two of the married ladies and bid them good-night. What this is done, do not stand on the stairs and gossip with this girl, stay in indefinite lengths of time in the dressing room chatting with another, or dally for an hour or so in other ways. Once you have said good night, stand not on the order of going, but go.

So many girls write to me and ask, "What I thank the man?" To all of them I say, most assuredly, it would be impossible for me to tell each one what to say, but surely there are hundreds of grateful little speeches which any girl can make. Tell the man frankly that you have enjoyed yourself, and that it was awfully nice of him to think of you. Don't gush, but be honest.

It would be most difficult for me to lay down a hard and fast law telling young men what to wear at a midsummer hop. This is a matter settled by local custom. I have been at small hotel hops where the young men appear in sack suits; others where the men were seen in tuxedo coats and black ties. Of course, the strictly proper evening dress for a man is the swallow-tail coat, white waistcoat, white tie and white gloves, but women are inclined to be lenient with men in the summer, and men are prone to impose upon the good nature of the women. Hence, one is apt to see a variety of garments on the men at a midsummer dance. If a man dresses as the majority of others do, at least he will not be conspicuous.

Very young girls who are not yet formally out should not be seen at a hotel hop. Many girls in their teens are allowed to go to informal dances given by their girl friends, but only the girl who has finished school and is ready for a social campaign should be seen dancing in the public parlors of a hotel. Many indulgent mothers with two daughters say, "It is not fair to let Mary go to everything and keep Stella always at home." As a matter of fact, the rule works the other way. Mary, being the elder, is ready to go out to public places, and in time Stella will have her turn. The girl who is allowed to go out to such places when she is sixteen will be regarded as an "old girl" when she is really just ready to start her social life. And she can never live it down. Those who have seen her dancing at summer hops for several seasons will tell you, "Why, she must be twenty-five, for she's been coming to these hops ever since I can remember." Take my word for it, you of the younger set, it does not pay.

PUGSLEY TELLS HOW HAZEN ETAL STOOPED TO CONQUER

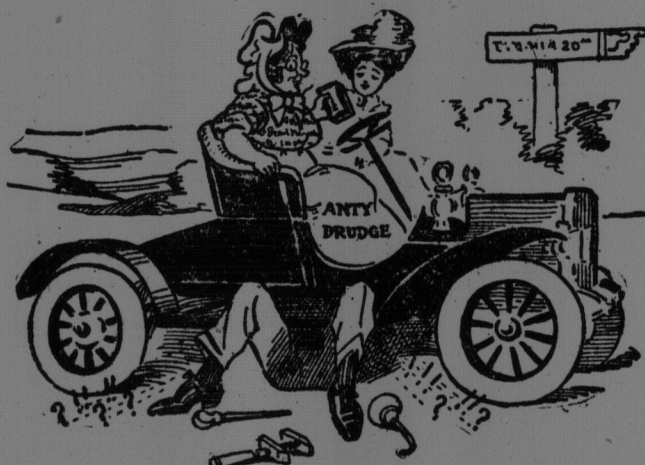

Another Splendid Effort by Minister at Gagetown Picnic

LAUDS CANDIDATE, COLONEL McLEAN

The Colonel Delivers Excellent Address—Queens-Sunbury in Line for Liberalism

GAGETOWN, Sept. 11.—The Liberal picnic held at Upper Gagetown today was one of the most successful of the series which Col. McLean has been holding for the past two weeks in the constituency of Queens-Sunbury. The speakers of the day were Col. McLean, the candidate, B. R. Macaulay, of St. John, and Dr. Pugsley, Minister of Public Works. The greatest of enthusiasm marked the occasion. The attendance was remarkably large, all parts of the surrounding country being represented. William McMillin, of Gagetown, acted as chairman. He introduced the candidate as the first speaker. Col. McLean received a most hearty reception when he arose to address the audience. He began his speech by remarking upon the success which had attended the picnics already held and also upon the fact that tomorrow's picnic at Hampstead would be the last of the series. His opponents evidently did not like his picnic campaign, said the colonel, but he was desirous of pleasing the people, not his opponents. (Applause.) The speaker next referred to the fiscal policy of the Laurier administration and to the fact that the change in the tariff, together with the British preference had increased Canada's trade until the amount per capita was third in the world. At the same time the rate of taxation had been materially reduced. The government immigration policy also received some attention. In the last year, said Col. McLean, 250,000 souls had been added to the Dominion's population as a result of energetic work by the immigration department and while the present government had been in power 1,000,000 inhabitants had been received in the same way. Scandals Dealt With The scandals which Conservative speakers and newspapers had made out-

ferred to the benefit which the cold storage plant erected in St. John by the aid of the federal government and of the late provincial government would afford the farmers. He had formerly been a Conservative, said the speaker, but his eyes had been opened. He had been converted by what at present administration had done for St. John. That had been largely due to the efforts of Hon. Wm. Pugsley, whom he felt sure the electors of St. John would return to parliament, as the electors of Queens-Sunbury would Col. McLean. (Cheers.) Dr. Pugsley, the last speaker of the day, was received with a tremendous enthusiasm, which showed that notwithstanding what had been said about him by his opponents he had a very high place in the estimation of the people of this constituency. He eulogized Col. McLean in the opening portion of his speech. The colonel, he said, was a native of Queens. An early age he had gone to St. John, where by industry, force of character and ability he had built up a successful legal business. He was also connected with many important enterprises. He was of the type of man which Dr. Pugsley thought would make an excellent representative. (Applause.) Col. McLean, said Dr. Pugsley, had shown his interest in Queens-Sunbury by the energy which he had displayed in urging the construction of public works, which the speaker had been pleased to approve of. Referring to the Conservative convention at which Messrs. Hazen and Sprout and others had been present Dr. Pugsley commented on the fact that instead of discussing national issues the speakers at that gathering had stooped so low as to make grossly unfair attacks upon himself and to make statements wholly false. Though greatly interested in St. John's welfare, said Dr. Pugsley, he would not have asked the government of Canada to make large expenditures on the port had they not been for the benefit of the Dominion at large and part of the grand Canadian policy of diverting traffic originating in the West from United States ports to those in Canada. The tremendous development in the western part of the Dominion would, he felt sure, result in an increase in the quantity of grain shipments that would tax to their utmost capacity the terminal facilities at St. John, Halifax and other ports in the Maritime Provinces. Besides attending to transportation matters the government had sought also by building wharves and breakwaters in the smaller places throughout the country to give the farmers better means of communication and the fishermen and coasters places of shelter. The speaker closed his speech by re-peating the charges of extravagance brought against the government. He was greeted with loud and prolonged cheering at the end of his address. Dr. Pugsley returned to St. John tonight by steamer. THE VIOLIN. The violin is mentioned as early as the beginning of the thirteenth century.

Anty Drudge Tells How to Do "Dry Cleaning" at Home.

His Wife—"Come out from under there, George! Your clothes will be all covered with grease again and you know it won't come off. We'll walk home."

Anty Drudge—"Let him fix it, Dears; and don't fear the grease. Fels-Naptha will take out all the grease spots and stains. It's as good for dry cleaning garments as it is for washing clothes."

Where there's a will there's a way. But, usually, only one way. Fels-Naptha is the way through which you can free yourself from the drudgery of the old-fashioned washday—if you will.

What is that drudgery? You know. Boiling clothes, making fires, hard rubbing.

Fels-Naptha lops it all off, takes it out of your washday program. Fels-Naptha itself does all the work that you yourself would have to do in the roundabout way, summer or winter.

And it does it in cool or lukewarm water, without hot fire, without nauseous suds or steam in the house, without hard rubbing.

Have you the will to cut loose from the old ways—to free yourself from this drudgery?

Follow the easy directions on the back of the red and green wrapper.

DOUBLING THE RATE FOR WINTER MONTHS

Emigration Has Been Cut Down One-Half by Restrictive Policy

A WISE POLICY

OTTAWA, Sept. 11.—An order in council has passed raising the minimum money qualification of \$5 now required of emigrants coming to Canada, to \$10 for the period from Jan. 1 to Feb. 15. The doubling of the money qualification during mid-winter is with a view to restricting as far as possible the arrival of any emigrants thought to be without independent means during the period when employment is not easy obtained. The restrictive emigration regulations adopted by the government early this year have had the desired effect in cutting down emigration this year by considerably over one-half and the total emigration for the year will, it is expected, be only a little over one hundred thousand. Financial Statement The financial statement of the Dominion for the first six months of the present fiscal year, shows a total revenue of \$33,444,571, as compared with \$4,554,406 for a corresponding period last year, a decrease of \$2,111,334. The manufacturers of wall-paper in Germany have at last succeeded in forming a trust. The total output of wall-paper in that country is valued at \$7,900,000 and the five largest concerns have gone into the combine. Let Lyons, the advertiser, boom your business. Phone 2100.

FIRES ATTACK A QUEBEC VILLAGE

QUEBEC, Sept. 11.—The district of Beauséjour is being devastated by forest fires. Millions of cords of pulp wood have been destroyed. On Wednesday night the village of St. Tonin de Shoney was attacked by the flames and partly destroyed. Fully thirty buildings were consumed, notwithstanding the hard battle fought by the inhabitants against the devouring element. For over a week the village had been surrounded by forest fires, which gradually crept up until the village itself was attacked, destroying residences, barns, saw mills, cheese factories, stores, etc. The fire was still raging in the vicinity of the village at last account. The village of Weeden was also being threatened by a forest fire, and other points in the eastern townships fires were also raging. Let Lyons, the advertiser, boom your business. Phone 2100.

NO FEAR NOW OF GRAIN BLOCKADE Threshing Has Now Commenced—No Apprehension GRAIN HARVESTED Constant Uniformity Maintained in Maritime Provinces MONTH'S REPORTS

OTTAWA, Sept. 11.—Tenders are being called for the construction of locomotive shops for the Winnipeg terminals of the G. T. P. The following condensed particulars as to harvesting conditions on the west have been received by the interior department from their agents in the west. Reports on western conditions of crops, fuel and transportation for the week ending September 10, show a most satisfactory conclusion of harvesting operations, and a feeling of safety with regard to the present facilities for removing the grain, but in some districts a little uneasiness regarding the local supply of fuel for the coming winter. Practically speaking all the grain has been harvested and threshing operations have commenced. Lots of Employment This will give considerable employment to the surplus farm hands that have crowded some districts. Nevertheless all reports to hand at this writing state that there is ample supply of help for all local demands. In Alberta it is worthy of note that the market for cattle and horses is good and the stock being in exceptionally fine condition are realizing good prices. So far transportation conditions do not give serious apprehension, although while the strike is an actual fact it is doubtful as to what may happen in the near future, when the rush of grain is on. In the province of Manitoba reports state that there is a plentiful supply of wood and coal for the winter. This also applies to Saskatchewan, except in some few places.

THERMOMETER GOES TO 77 YESTERDAY Yesterday was an exceptionally fine and warm day for the month of September. There was considerable smoke in the air. The highest temperature registered was 77 degrees during the afternoon. The warm weather was felt by all during the afternoon. In the evening at 9 o'clock 84 degrees was registered. It looks as though there would be fine weather for the exhibition.

CROP ESTIMATE OVER A MILLION Constant Uniformity Maintained in Maritime Provinces MONTH'S REPORTS

OTTAWA, Sept. 11.—The census and statistics monthly for September, published by the Department of Agriculture, estimates the Western wheat crop at 191,028,000 bushels, as compared with an estimate of 110,524,000 bushels made at the end of July from reports received from special correspondents throughout the West. The estimated yield of oats has also fallen from 120,338,000 bushels to 117,800,000 bushels, and of barley from 23,597,000 bushels to 23,951,000 bushels. The rainfall of the month, according to reports sent the department, was scant and the temperature high throughout Canada and the condition of the later ripening cereals was somewhat lowered as compared with the promise of June and July. A fairly constant uniformity was maintained in the Maritime Provinces, excepting in the case of spring wheat in Prince Edward Island, where the condition fell from 54 in June to 61 in August. In Quebec the outlook has continued to be favorable and in Ontario also, in spite of the drought, the conditions have been fairly maintained. West of the Great Lakes cereals were considerably affected by hot winds in August, but less in Alberta than elsewhere, owing to the early ripening conditions there. DR. FOTHERINGHAM GIVEN A WARM FAREWELL

Purses from St. John Church Congregation and Evangelical Alliance—Gathering in Church.

A very interesting time was enjoyed last night in the vestry of St. John's Presbyterian church at a farewell to Rev. T. F. Fotheringham, Mrs. Fotheringham and the Misses Trimble, sisters of Mrs. Fotheringham, who will leave for California on Tuesday week. Dr. Fotheringham made the recipient of a purse of \$70 from the members of his congregation and \$30 from friends in other denominations. Mrs. Fotheringham received from the congregation a handsome brooch, while the Misses Trimble received fine gold rings.

The vestry was filled with the members of the congregation and their friends. William Parks was in the chair. W. S. Clawson presented the purse from the congregation to Dr. Fotheringham and Miss Parke handed the brooch to Mrs. Fotheringham.

Speaking on behalf of himself and Mrs. Fotheringham, the doctor dwelt on the great harmony which had always existed in the congregation. He attributed whatever of success his ministry had met with to this cordiality and expressed his regret at severing the ties which had grown strong so many years.

Venerable Archdeacon Raymond, of St. Mary's church, next presented the gift of the Evangelical Alliance to Dr. Fotheringham. He voiced the regret which was felt by the members of the alliance at parting and conveyed their best wishes for his continued health and success in his new home. Rev. Mr. Raymond also dwelt upon the loss to the general community incurred by the departure of such a man as Dr. Fotheringham.

This second presentation took Dr. Fotheringham very much by surprise. He was deeply affected but acknowledged the kindness done him, in a short but appropriate speech. Then followed the presentation to the Misses Trimble, Miss Gertrude Trimble. The former was from the Acacia mission band while the latter was from the ladies of the church. Miss Florence Cummings made the presentation. Addresses were then delivered by Rev. J. J. McCaskill, Rev. H. R. Read, Rev. Samuel Howard, Rev. L. A. McLeod, and Rev. W. M. Townshend.

During his remarks Mr. Fotheringham pointed out that he had baptized 24 infants and confirmed 24 young people since he came to St. John's Church. He produced the call dated Nov. 27, 1882, nearly twenty-six years ago, which was signed by 159 names. Forty-five of the people were present last night, a little less than one-third.

Rev. Gordon Dickie read a resolution passed by the Presbytery of St. John, congratulating Dr. Fotheringham, its pastor member.

The following programme was carried out:

Piano duet Misses Drake, Solo Elmer Holder, Solo Florence Drake, Solo Robert Holder.

Refreshments were served.

REGATTA RULES.

In the rules for the harbor regatta, published elsewhere on page four, the old ruling is given in the paragraph commencing: "A yacht may luff." The new rule governing this is as follows: "An overtaken boat may luff as she pleases to prevent an overtaking boat passing her to windward, until she is in such position that her bowsprit end, or stem, if she has no bowsprit, would strike the overtaking boat abaft the main shrouds in sleep, or fore-shrouds in schooner, when her right to prevent the other having a free passage to windward shall cease."

LAYMEN WILL MEET TO DISCUSS MISSIONS

Provincial Institute Will be Held Here Next Week—Famous Speakers Coming.

The progress of the Laymen's Missionary movement will be marked by an important institute which will be held in St. John next Wednesday, Thursday and Friday, September 16th to 18th.

A splendid list of speakers has been secured including J. Campbell White, Robert E. Speer and John R. Mott, of New York, N. W. Russell, K. C. of Toronto, and W. T. Stockhouse, of Winnipeg. The reputation of these three first mentioned speakers is world wide and will undoubtedly attract large audiences.

Morning and afternoon sessions will be held in St. John's (Stone) church. On Wednesday evening the various city prayer meetings will be devoted to missions. On Thursday night a luncheon will be given in St. David's church by the local executive, and on Sunday night a large mass meeting will be held in St. Andrew's church.

The institute will be a provincial affair and representatives will be expected from all parts of New Brunswick. On account of the exhibition there will be low fares to the city during the week and this will stimulate the attendance at the gathering.

POLICEMAN HOWELL GETS LONG SICK LEAVE

Going West on Account of His Health—A Successor Appointed This Morning.

Policeman Wm. Howell, who is one of the most popular officers of the force, has been given a lengthy leave of absence, owing to ill health, and will shortly remove west on the advice of his physician.

This morning Alexander Crawford was sworn in as an officer on the regular force by Magistrate Ritchie, having been appointed by Chief Clark this morning. Policeman Crawford has for some months been a driver in the fire department, and up to the time of his appointment was driver of No. 2 engine. He is a young man, of good build, excellent habits and is popular.

The necessary absence from the city of Policeman Howell will be deeply regretted by his host of friends, who wish him a speedy recovery and return to the force.

EIGHTEEN EXTRA POLICE FOR EXHIBITION WEEK

Chief of Police Clark this morning selected eighteen men to act as special policemen during the next week. The following are those selected: Clarence Kenney, Dan Littlejohn, Alex. Long, Frank Carney, Robt. Carlin, John Sullivan, Edward McNeely, Chas. Perkins, Edward Wheaton, John McLeod, Thos. Bain, Alex. Boyne, Wallace Adams, Jas. Buckley, Wm. A. Smith, Leo Morris, Fred. Belyea, Alex. Chisholm, Beth McLeod, Samuel Day, Robt. Garrett, John Kitchingham, Patrick Brennan, Arning F. Yerga, Arthur Stackhouse, James Adams and Norton Olive.

Wm. Evans was sworn in as a special in the poultry shed. There were about fifty applicants for the position.

DID NOT MEAN TO STEAL THE HAT PINS

Two drunks were fined the usual amount in the Police Court this morning. Frank Levine, the boy charged with stealing hat pins from girls in the King Square last night. Levine said that he did not mean to steal, that he knew "the girls and only took the pins in fun." In answer to the magistrate the boy said he could not read or write. The magistrate remarked that every person in Canada should be able to read and write. He spoke strongly about some boys and girls acting disorderly in the King Square and said an example made of some would put a stop to it.
