

BALLANTYNE ATTACKED ON NIOBE SALE

Warship and Subs Costing Nation \$2,300,000 Sold for \$135,000.

GOVERNMENT MEMBER ASSAILS TRANSACTION

Claims Ottawa Firm Offered \$100,500 for the Warship Alone.

Ottawa, May 27.—Once more the controversial Niobe sale has become a subject of discussion in the House of Commons this evening. It was nine o'clock when the House embarked on consideration of these estimates, but no time was lost in getting under way. A. E. Frigg, government member from Ottawa, immediately fired a broadside of questions at Hon. C. C. Ballantyne, minister of marine and naval service, in regard to the disposition of the Niobe.

Niobe Deal Discussed.

The minister replying explained that the Niobe, together with two obsolete submarines had been sold to the New Brunswick Rolling Mills, Limited, for \$135,000. The company had paid \$20,000 cash down, and had then stopped payment. The vessel was still at Halifax and would not leave there until paid for. The price paid by the government for the Niobe was \$1,200,000, and for the two submarines \$1,100,000. The government had received \$87,777 cash down from the sale of the Niobe to a Seattle firm.

Criticized the Deal.

Mr. Frigg was critical of the transaction whereby the government had disposed of the Niobe. An Ottawa firm had offered \$100,500 for the Niobe alone, but its offer had been refused. Then the minister had accepted the tender of the New Brunswick company, throwing in the two obsolete submarines.

Question for Wigmore.

A. E. Copp, Westmorland, asked Hon. Rupert Wigmore, St. John, to supply any information he had regarding the New Brunswick Rolling Mills. Ernest Lapointe, Quebec East, said that there had been an election in St. John in September, 1920, and that the sale of the ship in St. John was a strange coincidence.

Reputable Firm.

Mr. Copp was at a loss to know why the Rolling Mill Company had defaulted. The action seriously affected the standing of the company. New Brunswick was being degraded because Mr. Wigmore would not give complete information. The minister of customs was a St. John business man and should know.

New Emergency Tariff Will Become Effective in United States Today.

Washington, May 27.—The emergency tariff bill was signed late today by President Harding. The new law will become effective tomorrow. It will affect for a six months' period most farm products and carries a provision designed to prevent the dumping of foreign goods in the United States.

Rebels Escaped From Custom Ruin

Dublin, May 27.—Fire brigades were still playing streams of water on the ruins of the custom house today. Barricades are being erected and the area is guarded by a large body of troops. Stories have been circulating of how a party of Sinn Feiners trapped in the burning building during Wednesday's conflict, made their way to the vaults from where, after midnight, a number crept stealthily out and passed to the Spencer dock. Then, it is said, they crossed the river in ferries. Another group of the trapped men, according to the stories, left the building early this morning. One of the civilians, killed on Wednesday, was identified today as P. T. O'Reilly, a captain in the "Republican Army."

GRASSHOPPERS NUMEROUS.

Regina, Sask., May 27.—Young grasshoppers, fairly numerous, have been reported to the provincial board of agriculture from Cardiff, Oxbow, Garfield, French, Spanish River, Pule and Paper Mills, Sault Ste. Marie, and the St. Maurice Paper Company, Three Rivers, Que.

OFFICIAL BUTTER GRADER

Montreal, May 27.—W. H. Sadler, born of St. Alexander, Limited, has been appointed official grader of butter and cheese for the Montreal Butter and Cheese Association.

MADNESS TO THINK OF FIGHTING FRANCE

Germany Must Pay and Work Says General Ludendorff Re- viewing Situation in Fatherland.

Brussels, May 27.—"Germany needs evolution, not revolution," said General Ludendorff, former first quartermaster-general of the German army and once Field Marshal Von Hindenburg's chief of staff, to a correspondent of the Independence Belge.

GENERAL STRIKE IN NORWAY HAS BEEN ORDERED

Troops Have Been Called Out to Preserve Order in Cities.

PUBLIC UTILITIES ARE INVOLVED

Bolsheviki Believed to be at Bottom of the Wide Trouble.

New York, May 27.—A general strike has been started in Norway, said an official despatch received here today. Although no serious disturbances have been reported, the government has called troops to assist the police in Christiania and other cities.

Another Arrest Expected Soon

Provincial Officer Palmer Fol- lowing up Biddulph Case— One Brammer Suspended.

London, May 27.—More arrests in connection with the false seizure of liquor at the home of William H. McCaffrey, Bishop's Township, are forecast by Provincial Officer A. H. Palmer. The only arrest so far is that of P. C. Roy Brammer, of the local police force, who is now on bail of \$8,000. It is said there will be at least one other man taken into custody in connection with the case before that time. Brammer has been suspended from the local police force in the matter closely followed a dis-appointment he received when he went to the Biddulph farm in response to a complaint and found that "Cain" had been there three days before it appears that the fake inspector, with a companion, raided the McCaffrey home and placed three men under arrest, releasing them after they had contributed \$115 in cash and a check for \$250. They also confiscated about eight cases of liquor.

REBELS ESCAPED FROM CUSTOM RUIN

Dublin, May 27.—Fire brigades were still playing streams of water on the ruins of the custom house today. Barricades are being erected and the area is guarded by a large body of troops. Stories have been circulating of how a party of Sinn Feiners trapped in the burning building during Wednesday's conflict, made their way to the vaults from where, after midnight, a number crept stealthily out and passed to the Spencer dock. LLOYD GEORGE REPEATS OFFER TO END STRIKE

Willing to Advance Ten Mil- lion Pounds to Tide Coal Industry Over Crisis.

BUT NO HELP TO INDEFINITE PEACE

Whole Island Apathetic About Strike He Tells Men and Miners.

London, May 27.—The Premier invited another attempt this morning to end the coal stoppage, when he addressed deputations of mine owners, and the executive body of the miners' union urging the necessity of an early resumption of work because of the country's alarming increase in unemployment and the general slowing down of all industries.

UNIONISTS GOT DOUBLE VOTE OF ALL OPPONENTS

Unofficial Count in Northern Counties Gives Huge Majority.

LIKELY TO INCREASE BY FINAL RETURNS

Arthur Griffiths and Sir James Craig the Big Surprises of Polling.

Belfast, May 27.—The unofficial count of the votes cast in Tuesday's elections in the six northern counties of Antrim, Armagh, Down, Fermanagh, Londonderry and Tyrone shows that the Unionists received 341,289 votes, the Sinn Feiners 109,516, the Nationalists 60,762 and the independent laborers 4,901. There is no exact vote for the Unionist vote as it is added to the Unionist vote 4,000 university voters whose ballots will be counted on Saturday.

SENATE REJECTS GOVERNMENT BILL

By Vote of 34 to 16 National Research Institute is De- feated.

Ottawa, May 27.—By a standing non-party vote of 34 to 16, the Senate today killed the government's bill creating a national research institute. The measure, which had been unanimously adopted by the House of Commons, was rejected on an amendment moved by Senator Dandurand, the vote coming after speeches in favor of the measure had been delivered by Senators McLennan and Beaulieu, and arguments for rejection had been voiced by Senators Beigne, Turfitt and Dandurand.

World News Today

CANADA

The estimates for the Canadian navy for the next year total \$2,500,000.

Norman Garfield, the murderer who escaped from the jail at Woodstock, Ont., is recaptured. Yankin, Que., and Yorkton, Sask., by-elections are being held today.

Sale of the Niobe and the two submarines sharply attacked in the Commons.

UNITED STATES

President Harding signs the Embargo Bill; it will come into effect today.

Premier Lloyd George has another conference with the coal miners and operators in attempt to secure settlement.

London insists that the government has decided to send many more troops into Ireland to sweep the island of Sinn Feiners.

Irish admit that the burning of the Dublin stations was ordered and carried out by the "Republicans" as a "war" act.

EUROPE

A general strike has been declared in Norway; the troops have been called out.

He declared that the feature of the stoppage that impressed him most was the curious apathy which has affected the whole community, and the reluctance to settle the dispute.

"I have never seen a great stoppage where less pressure was brought on the government to settle it," the Prime Minister said. The miners are reluctant not so much to face a reduction in wages, but to go and tell their men that they had contributed to the strike.

Mr. Lloyd George strongly urged on both sides that unless they could see an immediate prospect of agreeing as to figures they should agree as to the machinery for settling the figures.

HEAVY FORCES WILL BE SENT INTO IRELAND

New Measures to be Adopted Against Rebels in South and West.

MOBILE TROOPS FOR BIG ROUND-UP

Large Areas to be Swept Clear of All Sinn Feiners is Plan.

London, May 27.—The cabinet has decided to send large reinforcements to Ireland and it is rumored that new measures are to be adopted against the Republican forces in the South and West, according to an announcement by the London Times.

A large number of mobile troops, the newspaper says are to be employed in a systematic "round-up" of rebels over large areas, but it adds, the details have not yet been settled, as, owing to the continuance of a state of emergency, through the industrial troubles and the need of sending troops to Siberia, it is difficult to spare troops at present.

COMMONS VOTES MUCH MONEY FOR MARITIME WORK

New Brunswick Gets \$102,000 for Repairs and Nova Scotia \$274,050.

MAJORITY OF NINE ON SNAP DIVISION

Parliament Tower Will be Completed Within Next Two Years.

Ottawa, May 27.—The House this afternoon voted money rapidly, public works estimates were considered for a time, there was considerable criticism and Fred Pardee of West Lambton, moved to reduce by \$45,000 a vote of \$26,000 for harbor and river improvements. There was some hub-bub when a vote on the motion was taken. Deputy Speaker Boleyn called the vote and government supporters rambled in through the lobby doors.

Majority Was Nine. "Order, order you can't do that," called out opposition members, while one voice shouted "sit down, Jimmy you don't know what you are voting for." The amendment was defeated by a majority of nine, thirty-five voting for it and 44 against, and the item passed.

Subsequently, votes for public works passed with little debate. In this connection, when a million dollar vote for restoration of the Ottawa Parliament buildings was under discussion, Hon. F. B. McCardy, minister of public works, announced that the tower would be completed in two years.

Tower Inscriptions. A section would be constructed each year. On the face of the tower would be the inscription: "Give the King thy judgments, O God, and thy righteousness unto the King's son; on one side "Where there is no vision, the people perish," on the other, "He shall have dominion from sea to sea."

The vote for restoration of the Parliament buildings were still under discussion at six o'clock, when the House adjourned for the evening recess. Public works estimates gave way to those of the Naval department at the night sitting, so this item stands for the present.

During the discussion on the estimates for British Columbia, A. W. Chisholm (Inverness), called the minister's attention to the uncompleted condition of the fishery harbor at Inverness. It was most unfortunate, he said, that the matter should have been dropped. There was not much expenditure involved and he had hoped to see an appropriation for its completion in the forthcoming year.

Protests Western Grants. J. H. Sinclair (Antigonish) and Gushboro protested against money being expended on new construction in British Columbia when breakwaters were allowed to fall into disrepair on the Atlantic coast.

Mr. McCardy replied that there must be a certain amount of new construction if new communities were to be adequately served. Money was expended according to the best judgment of the officials of the public works department.

Harbor and river estimates for Nova Scotia amounting to \$274,050, covering repairs to wharves, breakwaters and piers, carried with little demur. The sum of \$43,400 for similar repairs in Prince Edward Island, and \$102,100 for New Brunswick, were also voted.

C P R TRAIN SERVICE DAYLIGHT TIME.
Account of city adopting Daylight Time Sunday, May 22nd, all city clocks will be advanced one hour on that date. This means that the new Daylight Saving Time will be one hour faster than Atlantic Standard and two hours faster than Eastern Standard Time, Canadian Pacific trains are all operated under the latter.

Effective May 22nd, practically full suburban service will be in effect, times of trains adjusted to meet requirements account of daylight as follows:— Arrivals of suburbs from Westford, 5.50 p.m., 9.50 p.m. and 7.20 p.m. daily—except Sunday and on Wednesdays and Saturdays until July 1st, 2.55 p.m.

Fredericton train No. 108 leave Fredericton 4.10 a.m., arrive St. John 6.50 a.m. Departure for Westford 7.15 a.m., 8.10 p.m. and 8.10 p.m. Fredericton train No. 106 will leave same time as at present, 4.10 p.m. On Wednesdays and Saturdays until July 1st, leave suburban at 11.20 a.m. All other trains will arrive and depart on schedule except May 22nd. To convert into daylight time add two hours to times shown above. Suburban service, summer service, etc., in various times now being distributed.

Old Time Engineer Goes Back On Job

Had Given Up Hope of Ever Pulling Another Throttle, Says Skinnick.

"Although I am now past seventy-six years of age I am working every day for Tanlac has put me back on the job after I had given up all work and didn't think I could ever get well," said C. L. Skinnick, 630 Maryland street, Winnipeg, recently. Mr. Skinnick has spent the greater portion of his life on the sea, being Chief Engineer on several of the largest ocean liners plying the Atlantic. Twenty years ago he gave up the sea and is now employed as stationary engineer by the Canadian National Railway.

"There is one thing I hope I never have again," he went on, "and that is rheumatism. It simply had the best of me, and I was practically helpless. It had started four years before and I was so crippled up I couldn't do a lick of work. My knees were actually as stiff as boards, and of mornings I had a awful time trying to get clothes on; why, the pains nearly killed me. My appetite went back on me and got so I didn't want to eat a thing. I didn't know what a good night's rest meant and I was as weak as a baby."

"But it's all over with now, thank goodness. Tanlac has simply made a clean sweep of all my troubles and I feel like a man made all over again. Those pains have all disappeared, and so has that stiffness, and I am eating hearty and sleeping fine like I used to years ago. I take pleasure in speaking a good word for Tanlac. It has certainly done great work for me."

Proved Honesty But Is \$100 Out
Man Deposited Amount to Guarantee Change of Dollar Bill.

Montreal, May 27.—"I know that I will not get my money back, but you might as well know what is going on," said James Smith, to the man in charge at the Detective Bureau desk yesterday afternoon as he reported how he had lost \$100, partly through his own fault and partly through the fault of a stranger in the afternoon.

Smith said that he was in Montreal on his way to England from Western Canada. He had made arrangements to sail on the Transian, and yesterday afternoon he went to the ship to make sure that all his baggage was on board the ship which sails this morning. He had been to see some officials on board, and was walking one of the decks towards the gangway when a man who told him that he was going to be a fellow passenger. The two talked for a short time and examined their cabins. As they were leaving the ship they met a third man who seemed to be slightly crippled.

The third man asked Smith to new found friend if he would mind crossing to a shop on the wharf and buying him a good cigar. The man gave the necessary money, and Smith's friend left. Later he returned with a package of cigarettes and the man who wanted a cigar said that the cigarettes were of no use to him and he gave them to Smith, and asked him if he would go and buy him a cigar. He gave Smith a dollar and as the latter started out to buy the cigar, the man said: "How do I know that you will bring me back the change?" "I am honest," said Smith. "How do I know," said the man, "you have my dollar." Smith then took \$100 from his pocket and offered it as security. The offer was accepted and Smith went to a nearby shop and bought a cigar. When he returned the man who wanted the cigar was gone with his \$100.

It is officially stated that following the British Empire Steel deal, the old Dominion Corporation common stock no longer ranks for dividend at all, there being no longer any "first" stock for this purpose. This stock is exchangeable into British Empire Steel second preference and common, and any dividends which present holders receive will come by way of declaration on British Empire second preference. The latter came into existence on April 16, and the first quarter terminated July 16, with the termination of the dividend, if any, will be taken up.

New York funds in Montreal are quoted at 12 15-32 per cent. premium, cables 3.87 5-8. Sterling in Montreal demand 4.35 5-8, cables 4.36 1-8.

REVOLVER READY PREACHER STOPS MASKED RAIDERS

Mob Was Bound to Get Wounded Man Who Had Shot Woman.

"SHOOT IF YOU DARE" WAS HIS TAUNT

Raiders Vanished at the Brave Front Before Police Arrived.

Hattiesburg, Miss., May 27.—Pistol in hand, the Rev. G. S. Harmon, a Methodist preacher stood off last night a masked mob intent upon removing Casey E. Jones from the Methodist Hospital here. Jones was wounded yesterday by J. H. Mosely, when he had shot and dangerously wounded Mrs. Mosely. Dr. Harmon, commissioner of the hospital, until learning that feeling was aroused against Jones, took his stand at the state house, after asking for police protection. Before the officers arrived, slipped into the building to find themselves confronted by the preacher.

Preacher Was Brave. "Doctor, we aren't going to make any racket," said one, "we just want our man." "I am a Methodist preacher," replied the doctor, "in charge of this hospital, and responsible for all in it. You dare not come up these steps unless you carry my dead body. Now shoot if you dare. You may kill me, but you shall not come up those steps."

The mob had dispersed when the officers arrived.

BORN.
MACHUM.—At 14 Champlain St. West St. John on May 27th, 1921, to Mr. and Mrs. Alex. I. Machum, a boy and a girl.

He Wants All The World To Know THAT IT WAS DODD'S KIDNEY PILLS THAT HELPED HIM.

Mr. Alfred Labbie, Who Suffered From Rheumatism and Backache, Tells Why He Recommends Dodd's Kidney Pills.

St. Honoré via Armand, Que., May 27.—(Special).—Mr. Alfred Labbie, a well-known and highly respected resident here, is recommending Dodd's Kidney Pills to all sufferers from rheumatism or backache. He has a reason.

"I suffered from backache and rheumatism," Mr. Labbie states, "I spent much money on other remedies, but it was Dodd's Kidney Pills that helped me. I work now and I am well. This is why I would like all the world to know about Dodd's Kidney Pills."

Dodd's Kidney Pills are purely and simply a kidney remedy. They strengthen the kidneys and enable them to do their full work of straining the impurities out of the blood. Healthy kidneys make a healthy body. Ask your neighbors if Dodd's Kidney Pills do not make healthy kidneys.

No More Legislation For Commons' Mill
Ottawa, May 27.—There will be no further legislation brought down by the government at the present session of parliament. This statement was made by the Prime Minister in the House of Commons this afternoon in reply to an enquiry by the leader of the opposition, Mr. Neiphen said, he knew of no further legislation of which notice had not been given. He recalled that yesterday the Minister of Justice gave notice of a bill to validate the proclamation for the prohibition referendum.

LITTLE BOY KILLED
Lunenburg, N. S., May 27.—Donald, five year old son of Erling Schware, was killed by a Halifax & Southwestern train which was shunting near the wharves here this afternoon. He is an only child.

Hunt Over Three Mountain Ranges

British Columbia Sportsmen Make Start from Golden on Big Bear Hunt.

Vancouver, May 27.—J. W. French and Leo Tennie, two of British Columbia's most renowned big game hunters, have just left Golden on an expedition which will occupy six weeks, and in the course of which the hunters will traverse three mountain ranges and shoot a number of rapids that are among the most dangerous in North America.

Traveling down the Columbia in a boat they have built especially for swift waters, Messrs. French and Tennie will shoot the Surprise, 26-3410, and Golden rapids in the early stages of their journey, and then spend two or three weeks in the tangled country between the Big Bend and the Beaver mouth. At Kinbasket Lake, 60 miles north of the C. P. R. line, the hunters will decorate the grave of Walter Steinhoff, a well-known trapper who met his death by drowning in Surprise Rapids a few years ago.

This is the fourth trip which French and Tennie have taken through the Big Bend country, and as they are noted for "getting the limit" in big game, they expect to bag three grizzlies, a moose, and an unlimited number of black and brown bears—all the law allows in each case. In the course of their wanderings the hunters will traverse three ranges of mountains, the Selkirk, the Rockies, and the Gold Range. During the last few days of their hunt they propose shooting some very dangerous rapids, including the Big Eddy, the Death, and the Priest waters, and as a final test of their craftsmanship they will negotiate the Revelstoke Canyon at high water, a particularly difficult feat.

LITTLE BOY KILLED
Lunenburg, N. S., May 27.—Donald, five year old son of Erling Schware, was killed by a Halifax & Southwestern train which was shunting near the wharves here this afternoon. He is an only child.

That Tired Feeling

Is Just As Much a Warning as When You Feel Sick. It is a sign that your system is overworked and needs a tonic. Hood's Sarsaparilla is the best medicine for this condition. It is an all-in-the-year-round medicine, and is effective in the treatment of general debility, catarrh, rheumatism, and run-down after-disease conditions.

Hood's Sarsaparilla

OVERCOMES THAT TIRED FEELING, BUILDS UP HEALTH

Line Saves Boy in Five Story Plunge
Clings to Clothes Cord as it Parts and Swings Him Across Yard.

New York, May 27.—Alfred Bartalis, 7, of 323 West Seventeenth street, was playing railroad train with other boys yesterday afternoon on the roof of the five-story tenement house in 313 West Seventeenth street, and as the locomotive he got up such a terrific barst of speed he was not able to stop when he reached the edge of the roof at the rear. He ran off into space.

But the boy had fallen only a matter of feet or so when he bumped into a clothesline which had been strung from a window on the fifth floor to a window on the fifth floor of the rear of 310 West Eighteenth street, across a courtyard divided by a high fence. Alfred hung out both arms and luckily he managed to grab the line close to where it was fastened to the window of the Seventeenth street tenement.

It was not a big line, and it supported the boy's weight only for a moment, but that was long enough for

REPORT FOREST FIRES.

Fredericton, N. B., May 27.—Forest fires have been reported on the Yoho stream in York County, and at Dambarton, Charlotte County. Fires on the Richibucto road, Kent County, have been put out.

Two fires have been reported from Gloucester County. One on Big River has been put out. Another has been reported on the Telogouche.

P. Leslie Wood, recently appointed to the New Brunswick Department of Agriculture, is ill in Guelph, Ont.

Gerald Herbert Allen, infant son of Mr. and Mrs. Harry M. Allen of Bridgewater, Maine, died on Thursday at the home of his grandparents, Mr. and Mrs. Samuel Stevens.

GIRLS! LEMONS

BLEACH FRECKLES AND WHITEN SKIN

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well and you have a quart of the best freckle and tan bleach, and complexion whitener.

Massage this sweetly fragrant lemon lotion into the face, neck, arms and hands each day and see how freckles and blemishes bleach out and how clear, soft and rose-white the skin becomes.

MONCTON COMPLAINS ABOUT CENSUS TAKERS

Ottawa, May 27.—In the House this afternoon, A. B. Copp (Westmorland), pointed out to Sir George Foster that a large proportion of the citizens of the Parish of Moncton, N. B., were French speaking, and that in spite of this French-speaking census enumerators had not been appointed. Sir George replied that he would refer the matter to the Dominion statistician, and that if the condition warranted it, French-speaking enumerators would be employed.

Maritime Men Do Well At McDonald

Seven of the Graduating Class Were from Nova Scotia and New Brunswick.

Special to The Standard. Montreal, May 27.—McGill University, in today's convocation at McDonald College, conferred the degree of B. Sc. Agr. on the largest class of students in Agriculture in her history. Included among the 27 graduates there are seven New Brunswick and Nova Scotia students. Three special: In Animal Husbandry: J. M. F. MacKenzie, Coxheath, N. S.; P. D. Bragg, Moncton, N. B.; W. T. Perry, Butterworth Ridge, N. B. Two in Horticulture: P. M. Daly, St. John, N. B., and Miss M. L. MacAloney, Fairview, N. S.; and two in Plant Pathology: S. J. Hetherington, Cady's, N. B., and P. M. Simonds, Amherst, N. S. All but two of these students took the first two years of their course at the Agricultural College, Truro, N. S.

Buried "Treasure" Found in Garden

Police Dug Up Cask of Rum and Much Brandy in a Sydney Garden.

Sydney, May 27.—Buried treasure was brought to light here this morning when temperance Inspector George Rideout's bone dry Sydney squad invaded the garden plot of Mrs. Joanna Popman and excavated a 20 gallon cask of rum, two cases of choice brandy and some lighter stuff. County Inspector Lamond yesterday raided Black Joe Delande, New Waterford and got \$2,000 worth of liquor. The amount of seized liquor now stored in the city is valued at over \$100,000 and armed guards watch it night and day.

NORTHUMBERLAND RUMOR

London, May 27.—The colonial office denies that the governorship of Canada has been offered to the Duke of Northumberland.

Veteran Guide Shot Finger Off

Henry Braithwaite Victim of First Accident in Long Career.

Fredericton, N. B., May 27.—Henry Braithwaite, Canada's oldest active big game guide reached his home last night here the victim of the first shooting accident in his long career as a woodsman. On last Monday he had the third finger of his left hand blown off by a shot gun in the Miramichi. A physician dressed the finger here and no complications are expected. While attending bear traps accompanied by another man named McNamara, Mr. Braithwaite was carrying a shot gun in a case. It was the property of Mr. McNamara. The old guide tripped over a windfall and fell. He attempted to thrust the gun away from him and in so doing lost his finger. Neither man knew that a shell had been placed in the gun. Moes and mud were used as a temporary dressing and Mr. Braithwaite walked forty-five miles out to the railway. He is in his sixtieth year and has been a guide for sixty-seven.

Railway Cases

In the cases of James Miles vs. The Fredericton and Grand Lake Railway and Ellis Day vs. The Fredericton and Grand Lake Railway, for trial at the Sundry sittings of the circuit court, a settlement was effected by counsel, P. J. Hughes for plaintiffs and F. R. Taylor, K. C., for defendant company, while at Ottawa together on business. The railway allowed \$250 with costs in each case. Both plaintiffs own farms fronting on the St. John River and running back some miles. The claim was that locomotives on the railway started fires which caused damage to timber lands.

Mr. and Mrs. Alonso Staples were injured in a driving accident in Wilmet Park on Thursday night. Mrs. Staples the more seriously, breaking her left arm between the shoulder and elbow. The bride broke and the horse ran throwing both Mr. and Mrs. Staples from the carriage. Both are under a doctor's care, but it is expected that Mr. Staples will recover soon.

CANADIAN QUALIFIED

Cambridge, Mass., May 27.—E. J. Thomson, Dartmouth, Canadian athlete, qualified for the finals of the 120 yard high hurdles in the intercollegiate meet here today.

Investigate Fire On Halifax Water

Think Oil Escaped from the Tanker 'Impoco' and Was Set Ablaze.

Halifax, N. S., May 27.—Harbor Master Frank Rudolph this afternoon received instructions from Ottawa to investigate the fire which, fed by oil believed to have been dumped from the Imperial Oil Company's tanker Impoco, threatened to sweep the waterfront on Wednesday evening last. The instructions received by the harbor master this afternoon followed representations made to Ottawa by himself and C. H. Harvey, local agent for the Marine and Fisheries Department, that floating oil was still a menace to shipping in the harbor.

Exchange of Shares Must Be Approved

Nova Scotia Assembly Intends to Keep An Eye on the Transactions.

Halifax, N. S., May 27.—The British Empire Steel Corporation bill went through the Provincial House of Assembly yesterday with a rider attached to it by way of amendment making it necessary for exchange of shares in the British Empire merger to be sanctioned by the governor in council. The governor in council will also oversee in future any exchange of shares, securities, coal leases, of coal areas in the province if an amendment to the Mines Act passed by the House of Assembly yesterday is finally ratified by the executive council, and signed by the Lieutenant Governor. By this amendment, coal companies in Nova Scotia are prevented from exchanging shares, securities, mining areas or mining leases except for purposes of raising capital to carry on their business, without the sanction of the government.

Stern Reminders of Rheumatism

The Trouble Must Be Treated Through the Blood.

Every rheumatic sufferer should realize that rheumatism is rooted in the blood and that to get rid of it must be treated through the blood. The old belief that rheumatism was caused by cold, damp weather, is now exploded. Such weather conditions may start the pains, but it is not the cause. Liniments and outward applications may give temporary relief, but that is all they can do because they do not reach its sources in the blood. The sufferer from rheumatism who experiments with outward applications is only wasting time and money in depending upon such treatment; the trouble still remains, and it is all the time becoming more firmly rooted. Treat this disease through the blood and you will soon find relief. Dr. Williams' Pink Pills act directly on impure, weak blood; they purify and strengthen it, and so act on the cause of the rheumatism. Mr. P. J. MacPherson, R. R. No. 5, Cardigan, P. E. I., says: "About three years ago I was attacked with rheumatism. I began taking Dr. Williams' Pink Pills and soon the trouble disappeared and I am in better health than before. I also know of an old lady acquaintance who was badly crippled with rheumatism in her arms and legs, and who suffered very much. She, too, took Dr. Williams' Pink Pills and is now able to do her household work. I tell you this in the hope it may be of benefit to some other sufferer."

Everything Ready For York-Sunbury

Results Not Expected to be Known Until About Midnight Saturday.

Fredericton, N. B., May 27.—Sheriff J. B. Hawthorne, who is the returning officer for the by-election in York-Sunbury, said this afternoon that everything in the way of preparations for the polling tomorrow had been completed. There are 47 electoral subdivisions in the constituency, 39 in York County and 8 in Sunbury, and there will be 37 polling places, 33 of which are in York County and 14 in Sunbury County. Seventeen of the polling places are in Fredericton.

Result at Midnight

Under the new Dominion Elections Act the polls are to open from 6 a. m. to 6 p. m., Atlantic standard time. Fredericton is the only place in the constituency using daylight saving time and the polls will therefore be open from 7 a. m. to 7 p. m. in Fredericton and from 6 a. m. elsewhere. It will probably be 8 o'clock or later by city time before the returns come in and it will likely be nearly midnight when the complete returns are available.

The man of foresight earns independence

You are moulding your future now. What you are twenty—thirty—or forty years hence depends on the prudence you show to-day. Through a Manufacturers Life Endowment you can make sure of being self-supporting—independent of relatives or charity. It is the ideal way of saving your money—creates at once an estate—gives you a feeling of confidence and freedom from anxiety that is in itself an inspiration to success. Throughout the years when you are forging ahead in business, you will appreciate more and more the benefit of thrift you have learned through your systematic investments.

Write for our booklet, "The Sure States."

IMPORTANT RESOLUTIONS WERE PASSED

Russian Business Men in Paris Convention Place Themselves on Record.

MOTIONS, ECONOMIC AND POLITICAL, PASSED

Expressed Hope and Belief That Russia Would Emerge Triumphant from Chaos.

Paris, May 27.—The Congress of Russian manufacturers and businessmen that has been sitting in Paris, closed its sessions yesterday with the adoption of thirteen resolutions of an economic and political character.

The first affirmed the faith of the congress in Russia's reconstruction, adding: "The re-establishment of normal conditions in the world is impossible until Russia has taken her place among the great powers."

The third declared: "The present state of affairs in Russia shows how fatal is the dictatorship of any secret class. Russia can be reborn only as a democratic state based on the peasant masses, the industrialists, the businessmen, and the workers, and supported by all the intellectual forces."

The fifth recorded the economic ruin produced by the Communist regime, and pronounced the necessity of causing all Socialist experiments. The congress believes, however, that the peasants ought to retain the land in order to build up a prosperous class of small proprietors.

Warns Foreign Capitalists. The eighth resolution warned foreign capitalists against the political and economic complications bound to follow the re-establishment in Russia of a legal government that would decline to recognize the Bolshevik concessions.

The ninth halted the wise policy of France and America, and pointed out that the commercial treaties signed by certain powers were only prolonging Russia's agony, allowing the Russian gold reserves to be further depleted, and benefiting the Bolsheviks by enabling them to carry on propaganda abroad.

The twelfth recognized the tangible character of the Russian debt, both internal and external, and declared that the first duty of a legal Russian Government would be to satisfy all the nation's creditors, whether Russian or foreign.

In his closing speech the president of the Congress asserted his faith that Russia would recover and would be a great and free nation.

Prison Term For Combine Culprits

New York, May 27.—Congress will be asked to amend the federal laws to compel amendment of prison sentences on convicted members of building material combinations.

Under Secretary announced today before the Lockwood legislative committee, which is chief counsel. The committee's recommendation for remedial state legislation also will be pressed, he said.

"I have been unable to discover a single article that enters into building construction," Mr. Undermyer said, "that is not the subject of combination, and have reason to believe that this is true of at least one-half of all the vast industry of the United States outside the building trades. The activities of those that are unlawful should receive the same kind of attention that the secret service gives to counterfeiters or that the expert safe crackers receive at the hands of the police."

The investigator's declaration was made after testimony by Herman Petrie, former president of the Atlantic Coast District of the Tile and Mantel Contractors' Association of America, showing an iron-clad agreement between the association and the International Union of Bricklayers, Masons and Plasterers.

HEARTBURN LIVER TROUBLE

When the liver becomes torpid and inflamed, it cannot furnish sufficient bile to the bowels, thus causing them to become constipated.

The stomach is also affected. In the case of heartburn there is a gnawing and burning pain in the stomach, attended by disturbed appetite, caused by great acidity. Whenever too much food is taken, it is liable to ferment, and become extremely sour, vomiting often occurs, and what is known as, is sour and sometimes bitter.

Other liver trouble symptoms are pain under the right shoulder, yellowing of the skin and eyes, floating spots before the eyes, coated tongue, bad taste in the morning, foul breath, water brash, indigestion, constipation, etc.

Keep your liver active by using Mifflin's Lax-Liver Pills and you will have no heartburn or other liver troubles. Being purely vegetable they do not grip, weaken or sicken like the old-fashioned purgatives generally do.

CUTICURA HEALS ECZEMA

All over baby's face. Came in water blisters and then turned a solid scale. Begun to itch and burn so he had to bandage his hands as he wanted to scratch. Face was badly disfigured. Trouble lasted 4 months.

Began using Cuticura Soap and Ointment. Used one cake Soap and one box Ointment when he was healed. From signed statement of Mrs. Albert Ellis, Weinstenberg, N. S.

For every case of the itchy Cuticura Soap, Ointment and Tablets are supreme.

See page 25, Ointment 25 and 50c. Sold throughout the Dominion. Lyman, Lindsay, St. Paul St., Montreal.

FRENCH POLICE MAKING WAR ON PROFITEERS

Sharks Have Fleeced House-Hunters Out of Millions of Francs.

AGENCIES PROMISED THEM APARTMENTS After Picking up All the Loose Change Would Close Offices and Flee.

Paris, May 27.—The new parcel of police has declared war against apartment profiteers. During the past few weeks the hopes of those hunting Parisian flats were raised sky-high by the sight of small posters stating that such and such an agency had furnished or unfurnished apartments for rent. On applying to the agents, new clients were informed that they first must pay a preparation fee of fifty francs.

They were then set off on a wild goose chase, house to house, all ways finding the apartments had just been let or that it was necessary to buy 20,000 francs worth of more or less worthless furniture. Should a determined seeker overcome the return of the registration stamp, he was stalled about until one day he found that the agency had fitted for parts millions of francs had been taken annually from the public by crooked agencies of this type.

One such took an office on the Boulevard des Capucines and the copsier noted 300 home-seekers apply on one morning. Their fees represented over 10,000 francs with which the agent departed to be seen no more. Since the police inquiries began, scores of such agencies have been investigated, and many were found being operated by crooks. Many arrests have been made.

In one instance the manager of an agency, so far from having apartments for rent had been forced to store his office furniture and live in a hotel. This did not prevent him from trapping clients with flamboyant advertisements promising hundreds of apartments at moderate prices with a delay.

Praise for St. John; Knocks for Halifax

A South Shore captain has been telling the Yarmouth Herald about aids-to-navigation conditions west of Halifax and this is what that paper says:

"In our conversation on Saturday we learned that the boys and other aids all along the shore from Tarrmouth Cape to Harrington Bay were never in better condition, and the captain to whom we talked very freely expressed his appreciation of the work done by Mr. Chesley's branch in St. John, under the superintendence of Mr. Kelly, and the masters of the D. G. steamers Aberdeen and Laurence.

Our informant stated that not less than 100 aids had been spotted, did spar buoys as are to be found today, and he said that the routes through these treacherous shoals and reefs can be now navigated with a feeling of ease and relief.

"But," he said, "go further east, it is almost a crime, and he very emphatically stated that he had been told that any complaint he may make would receive little or no attention until he became a member of the Masters' and Mates' Union in Halifax, when matters would be taken up by the secretary of that organization, and it would be dealt with in short order. He said the worst conditions he met with were in the vicinity of Cape Negro Harbor, where all of the spar buoys are either waterlogged, run under, sunk or broken off, and it is almost impossible to locate them.

The "Bantam groaner," of Baccara, a most important aid, has been gone from its position for some weeks and lies ashore on the south side of Cape Island. These deficiencies, he stated, have all been reported upon, but as yet the Halifax end of the department, under the direction of which that portion of the coast is supposed to come, has not done anything to remedy matters, and The Herald on Saturday was asked to bring them before the public."

The whistle, which, despite popular supposition, is not a fish, but belongs among the mammals, is edible. Whales flesh recently was much esteemed at seacoast cities. The fish are

RAPID ADVANCE ALPS GLACIERS CAUSE ANXIETY

Engineers Endeavoring to Prevent Overflowing of Mattmark Lake.

ONE PASS ALREADY CLOSED TO TRAFFIC

Many Swiss Glaciers Moving at Unusual Rate Observed by Scientists.

Berne, May 27.—The advance of glaciers throughout the Alps is causing much anxiety to the inhabitants living in the high mountain districts. Thus the Allalin Glacier, descending from Allalinhorn, which is a mountain over 13,000 feet high in the Zermatt Range, advanced over forty yards between August, 1919, and July, 1920, and now is advancing at an unusual rate. It has already advanced so far to cover the only pass whereby travellers can reach another valley.

The highest point of the glacier is nearly twelve thousand feet and in its advance it has spread so as to cover nearly four acres. What is alarming the inhabitants of the high Alpine regions near this glacier, which is one of the most imposing in Switzerland, is that if the glacier advances much further it will block the outlet of Mattmark Lake, situated at a height of 7,000 feet and cause it to overflow.

AGENCIES PROMISED THEM APARTMENTS

After Picking up All the Loose Change Would Close Offices and Flee.

Paris, May 27.—The new parcel of police has declared war against apartment profiteers. During the past few weeks the hopes of those hunting Parisian flats were raised sky-high by the sight of small posters stating that such and such an agency had furnished or unfurnished apartments for rent. On applying to the agents, new clients were informed that they first must pay a preparation fee of fifty francs.

They were then set off on a wild goose chase, house to house, all ways finding the apartments had just been let or that it was necessary to buy 20,000 francs worth of more or less worthless furniture. Should a determined seeker overcome the return of the registration stamp, he was stalled about until one day he found that the agency had fitted for parts millions of francs had been taken annually from the public by crooked agencies of this type.

One such took an office on the Boulevard des Capucines and the copsier noted 300 home-seekers apply on one morning. Their fees represented over 10,000 francs with which the agent departed to be seen no more. Since the police inquiries began, scores of such agencies have been investigated, and many were found being operated by crooks. Many arrests have been made.

In one instance the manager of an agency, so far from having apartments for rent had been forced to store his office furniture and live in a hotel. This did not prevent him from trapping clients with flamboyant advertisements promising hundreds of apartments at moderate prices with a delay.

Instantly Beautify Your Complexion

Thousands of girls and women everywhere proclaim DERMWILLO the greatest beautifier yet discovered. It instantly gives the skin that creamy white appearance every normal woman craves. Over five hundred thousands are using it in place of face powder, as it stays on until you wash it off. It is so delicate in appearance that it is impossible to detect it, and it gives you a youthful skin "every one just loves to touch." It is especially recommended as a protection to the skin, for chloasma, freckles, tan, blackheads and sallow dark, rough skin. Try it today on your face, neck, hands and arms. Yes, it's absolutely harmless, even on the most delicate skin. At all toilet counters everywhere.

Jilted Suitor Shoots Girl, Then Suicides

New York, May 27.—Julius Zeleny, 33 years, old, of 428 East 138th street, tried to kill Miss Anna Venze, 35, of 322 Fifth avenue, New Rochelle, and then took his own life during the noon hour yesterday in the factory where both were employed at 22 West Twenty-third street.

Zeleny was a cutter in the establishment and she was a forewoman. For two years they had been associated, but because they were of different religions and nationalities, Miss Venze had told her friends, she could never marry him.

Yesterday Zeleny again asked the girl to become his wife, and she again rejected his offer. Just as the signal for luncheon recess sounded she was approaching his bench. Grabbing a knife Zeleny chased the young woman as hundreds of persons on the sixth floor screamed.

She had nearly escaped when the man drew a revolver and fired three times. Miss Venze fell with a bullet wound in her shoulder. Zeleny then placed the pistol at his temple and fired. He fell dead. Miss Venze was taken to the Bellevue Hospital, where it was found her injury was not serious.

OUCH! ANOTHER RHEUMATIC TWINGE

Get busy and relieve those pains with that handy bottle of Sloan's Liniment

WHAT Sloan's does, it does thoroughly—restores without rubbing to the afflicted part and promptly relieves most kinds of external pains and aches. You'll find it clean and non-staining. Keep it handy for sprains, muscle aches, over-exerted muscles, stiff joints, back-ache, pains, bruises, strains, sprains, bad weather after-effects.

For 39 years Sloan's Liniment has helped thousands the world over. You aren't likely to be an exception. It certainly does produce results.

MILITARY AFFAIRS

It was announced at local military headquarters yesterday morning that the dates for firing detachments to Pottowawa had been changed as follows: The 5th Siege Battery and the 19th Heavy Battery will leave on June 18, arriving at Pottowawa on June 20, leaving again for St. John on June 23; The 4th Siege Battery will leave here on June 26, arriving at Pottowawa on June 27, and leaving for here on June 30.

A summer course to be given in St. John has been authorized for male school teachers and cadet instructors to last for six weeks. The date has not been fixed yet but endeavor will be made to gather together a large class from all over the province. Certificates will be awarded qualifying the members of this class as cadet instructors and appointing them to the corps of school cadet instructors.

HEAD OF LYMAN BROS. DEAD

Toronto, May 27.—Charles Mott, 65 years of age, president of Lyman Bros. & Co., wholesale druggists, of this city, died here yesterday afternoon.

He had been connected with the firm for forty years.

PROBATE COURT

On May 24th the will of the late Mrs. Woodford Smith was admitted to probate and Hon. W. H. Thorne sworn in as executor. The estate was probated at \$3,435, personality. The bequests of a public nature consisted of \$2,600 to the Diocesan Synod after certain life interests to relatives, and \$300 to the parish of St. Mary's, York County. The sum of \$4,000 is bequeathed to Miss S. Smith, a step-daughter, and the balance distributed in small bequests among relatives. W. H. Harrison was proctor.

WALTHAM THE SCIENTIFICALLY BUILT WATCH

Made in Canada Literature on request House of Waltham 189 St. James St. Montreal

Ribbon and Convertible Bracelet Watches in various shapes and sizes for the Bride and the Graduate. Ask your jeweler.

The hairspring is the brain of the watch. It is the most delicate tension spring made. For use in the smallest watch, 84,000 springs are made from one pound of steel.

Waltham hairspring steel is drawn through diamond surfaces, and for the smaller watches, to a third of the thickness of a human hair.

The Breguet, or over-coil (named after its inventor, a famous old French watchmaker), is used on every Waltham watch. The most important part of the complete operation in making a hairspring is the forming and tempering of the Breguet over-coil.

At Waltham, instead of being formed or bent by hand as a separate operation, the entire completed hairspring is formed at one and the same time; after which it is hardened and tempered in the flat. Then the outer coil is bent to form the Breguet over-coil, which, if the flat spring were as hard as the Waltham, and properly tempered like the Waltham hairspring, it could not be bent to correct form, and would be liable to break in the attempt.

Waltham superiority is in original method, secret process, unvarying quality of every important part of the watch—a quality that cannot be equaled by any "hand" method of manufacture. That is why Waltham leads the world in standardized watchmaking, and why your watch selection should be a Waltham.

THE HARBOR PLEBISCITE

St. John is the only city on the North American coast which owns its own harbor. It is one of the very few cities on this continent in which the harbor is an actual source of revenue. By vote of the City Council a plebiscite is to be taken on August 1st, on the question whether this harbor shall or shall not be put into commission under the terms of the Balfour Act. If the people of St. John have entirely lost their senses they will favor the commission scheme. If they are still equipped with powers of reasoning they will defend that proposal overwhimingly. The action of the City Council at this particular juncture is hard to understand, in view of the fact that the majority of our Commissioners have frequently expressed themselves as being unalterably opposed to the proposition embodied in the Act.

There is no sense whatever in beating about the bush in this matter. The original proposal, as popularly understood, although not officially announced, suggested the idea that Mr. R. W. Wigmore would, in the event of the transfer, be chairman of the Board of Harbor Commissioners, that Mr. E. C. Elkin would be one of the members, and Mr. A. W. Adams the third member. Mr. Adams is dead, Mr. Elkin is an invalid, and Mr. Wigmore is a member of the Federal Cabinet, for the time being. Thus the entire personnel of the original idea has passed out of the running. Now the proposal is that under an unfair act a plebiscite shall be taken for the sole purpose of being defeated, and that this having been done, the City shall of its own accord place the harbor under a civil commission, securing for that body from the Provincial Legislature the necessary powers regarding borrowing, construction, etc., and it is commonly reported also that this commission is to be presided over by one of the present members of the City Council. We want none of these cut and dried deals. We want no bargain counter propositions from Hon. C. C. Balfour or any of his colleagues. We are getting along very nicely as things are, and if in years to come, St. John needs more adequate facilities for the handling of traffic than at present exist, means will be found to provide them. The President of the Canadian National Railways does not desire commission control in St. John, but has intimated that his road will be prepared to furnish its own equipment when the time comes. The President of the C. P. R. is confident that when traffic through this port demands greater accommodation than is available today, that accommodation will be provided without recourse to Harbor Commission.

Just at the moment there do not seem to be any persons in particular for whom jobs must be provided, so that the plebiscite proposed for August 1st will be quite as futile as it is unnecessary.

THE WESTERN LANDS

That the people of Manitoba and the other new Western Provinces should desire to obtain sole control of the natural resources within their own boundaries is perhaps only natural, but the arguments on the subject put forth by the delegation which waited on the Dominion Government a few days ago showed very clearly that the members of the delegation could only appreciate their own point of view. Their great grievance seems to be that in view of the fact that Ontario, Quebec, British Columbia and the Maritime Provinces each control their own natural resources to withhold the same rights from Manitoba and the other two provinces, is to put them in a very subordinate position as Canadian provinces. As the Winnipeg Tribune puts it:—"Manitoba is simply fighting for full fair membership in the Canadian family. This province has long ago passed the stage where it is necessary to regard her as a ward of the nation, to have her resources administered by the other provinces, while they tolerate no outside meddling in the administration of their own."

Manitoba asks for the "return" of its natural resources. Inasmuch as that province never owned the natural resources within its borders, they cannot possibly be "returned." Ontario, Quebec and the other provinces owned their natural resources when they were independent Crown colonies, before even the Dominion of Canada was ever thought of. They are in an entirely different position from Manitoba, which was created a province under special conditions afterwards.

Former Minister told the Manitoba delegation that the justice of their claim was conceded, but that the matter of allowing it was simply a question of terms. He apparently realized what the delegation did not,

that the province of Manitoba was carved out of lands in which the four original provinces had a proprietary right, in view of the fact that these provinces on Confederation became entitled as the Dominion of Canada to all the ungranted lands between the Atlantic and the Pacific. The income and profits arising from these ungranted lands went to swell the Dominion revenues, and the concession of them to a new province would mean a rough loss to that revenue, which has to be made up by increased taxation, in which the four original provinces have to share.

The Maritime provinces feel—and rightly feel—that if lands and natural resources in which they have a proprietary interest, are to be alienated from them, they should be allotted some monetary compensation in exchange. This is only fair, and if Manitoba and the other two Western provinces will only just realize this, and consent to such compensation being given, any opposition on the part of the Maritime provinces to the handing over to the former of their lands and resources within their own boundaries will be withdrawn.

BRITAIN'S COAL STRIKE

International affairs have obscured the important fact that the great British coal strike, now in its seventh week, has paralyzed industry and that unless some compromise is reached within a short while conditions in Britain will reach a crisis. Until the present time reserve coal stocks have enabled consumers and industries to get along in a fashion, but the stocks are now exhausted and it is not possible to induce any British transport or other workers to handle imported coal. It is no longer a question of a sympathetic strike; the imported coal is simply "black leg" coal and no union workers will touch it.

Some approach to a settlement has been made within the past week, however. The miners demand a national wages board and a levy on every ton of coal to produce a pool from which a flat rate allowance should be made to all miners. This would raise the wages of the workers in the poorer coal districts and equalize conditions in this respect in the whole industry, which would fluctuate only with the profits of the industry. The owners offer rates of wages varying from district to district and calculated on the profits of each district. They have widened the area and decreased the number of proposed districts from twenty-one to five, and are prepared to defer their share of profits until conditions in the industry improve. The government has offered to advance 50 million dollars in the next four months to soften the fall in wages, provided a permanent settlement is reached. On the other hand the government joins with the owners in opposing the miners' suggestion of a pool or some ground that such an arrangement is egotistical, nationalization, and would remove the incentive to individual efficiency in the mines. Whether in fact it would do so seems to depend on details and figures; if the levy per ton is charged as a cost and minimum wages reduced to enable this charge to be met, it would not have the effect alleged, but the government refuses steadfastly to discuss this proposal, and therefore no figures have been put forward.

In the meantime conditions are growing worse and should they be permitted to continue much longer Britain will have a very hard time recovering her lost ground. The strike has crippled industry as severely in many instances as did the war and it will be no easy task to return to even the conditions that existed after the cessation of hostilities. The miners whose defeat was predicted within a short time, following the refusal of the other members of the Triple Alliance to come to their aid, have shown a surprising amount of tenacity and it is now conceded that they will secure important concessions even if they do not attain all they demand.

Golf always has its surprises as followers of the game are well aware, and this has been again demonstrated in the great matches in England where the American entries after making a remarkably fine showing in the early stages of the tournament, have all but been eliminated and it is possible that Wright no longer survives. The Bangor Commercial contends that the British style of playing 18 holes rather than 36, as is the custom in America, gives inferior players a better chance to defeat their superiors, as in the longer match the latter have more time to reach their form and demonstrate their superiority. Well, if our contemporary has to find some excuse for its countrymen getting kicked over there, we imagine the one they offer will serve as well as any other.

WHAT OTHERS SAY

Better Not To Try To Dodge Effort.
 There is this difference between taxes and taxes. You can sometimes dodge the latter if you are quick on your feet—Detroit Free Press.

Wonders.
 Daily recitals of Stan Felt's outrages should easily classify them as among the most despicable in history. Would their civil jurisdiction, if they possessed it, be marked by any more toleration?—Hamilton Spectator.

Why Miners Remain Idle.
 Approximately 100,000 members of the United Mine Workers of America have not done a day's work since January 1st, according to a statement made at a recent meeting of the executive board of the union. At the same time the price of coal remains at or near top figures. Obviously, if the miners would accept a lower wage scale, if the operators would accept lower prices, the result would be profitable for both.

Periods of shrinking costs always exert a deadening influence upon industry; lowering production causing unemployment and creating general distress. But when such a movement has been gotten under way it is futile for any industry, no matter how powerful, to attempt to stand in its way.

President Lewis, of the mine workers, complains that coal production is averaging only a little more than 50 per cent of normal. And, he adds, the situation will be no better until both industries and individuals begin buying again. But industries and individuals cannot buy at present prices. The miners and operators should see that lower costs alone will stimulate demand. When coal comes down in consequence of other commodities, and not before, will there be an end to idleness at the mines?—Belleville Intelligencer.

A BIT OF VERSE

WITNESSES.
 The royal robes o'er-spreading
 branches brown,
 The crown's radiance warm and soft as down.
 The velvet grasses where was stubble
 The chrysalis becomes a butterfly.
 Unfolding leaf and bud and blossom
 Write perfumed notes and send them everywhere.

Inviting to the Autumn's golden
 spread
 Of fruits abundant and the choicest
 bread.
 Lo! mead and wilderness and waters
 rise
 With gladness of a resurrection life,
 Shall soul of mortal breath one
 doubting breath
 And question, life beyond what we
 call death? K.

THE LAUGH LINE

Money talks, but poverty goes with out saying.

In polite society a bud is a girl, who has not yet blossomed into a wall flower.

It frequently happens that man marries a woman older than he is, but forgets that the becalmed sea and the ocean don't stay that way.

In These Times.
 The school children may not know much about the becalmed sea, but not many of their elders could correct them.—Philadelphia Record.

It Rather Ruffled Him.
 "What's the big row about at Flub-dub's flat? 'His wife made the raisins he brought home into a pie.'—Louisville Courier-Journal.

Different Diagnoses.
 A London physician says he is sure that Lenin and Trotsky are suffering from decayed teeth. He should guess that their ailment is decayed brains.—Albany Journal.

Not Far Distant.
 "The time will come," thundered the lecturer on women's rights, "when women will get men's wages." "Yes," said a weak little man in the back seat, "next Saturday, too."—Edinburgh Scotsman.

Good Bargain.
 Betty—"You mean that! You said you wouldn't give away that secret I told you."
 Bertha—"I didn't; I exchanged it for another secret and a chocolate sundae."—Boston Transcript.

A Hard Saying.
 Only twelve per cent of the gentlemen who pose as millionaires in the ledgers of hotels have any money at all. Those who wear spats never have any.—New York Mail.

Breaking It Gently.
 "If you please, mum, I've let the baby's shawl drop out of the window." "How careless of you! Now baby will catch cold." "Oh, no, mum—he's still in the shawl."—Le Rire.

Not Ethical Matter With Him.
 "Grandma, can you help me with this problem?" "I could, dear, but I don't think it would be right." "No, I don't suppose it would, but have a shot at it and see!"—London Mail.

Who'd Blame Her?
 "So Mand broke her engagement with Jack because the doctor said he had a tobacco heart?" "Yes, and I don't blame her. Who wants a husband who is smoked by smoke?"—Boston Transcript.

And Tommy Knew.
 We can't be too exact. Take Tommy Thins.
 "Who suffered from acute appendicitis?" "You seem to be in pain," the doctor asked.
 "Yes, sir, the pain's in me," the kid replied.

Benny's Note Book

BY LEE PAPE

Today in school I was eating gum drops out of a bag, and I had ate 4 without Miss Kitty seeing me and it was getting kind of monotonous eating just one at a time, me thinking, I wonder if I could eat 3 at once without her seeing me.

Which I tried to see, putting 3 gum drops in my mouth all together, making a pretty big size of a bump on the outside of my nose on account of being extra big gum drops, me thinking, Gosh, if she sees this bump she'll expect rite away, which just then wat did she do but see it, me quick thinking, G, I'll hurry up and take the hole bag up to her and give her the rest of them for a present and she'll think that's wat I brawt them for and she'll think she made a mistake about seeing me eating.

And I quick got up and took the bag up to Miss Kitty's desk with the 3 gum drops still in my mouth feeling big instead of smaller, and I put the bag on Miss Kitty's desk saying, Heere a present I brawt you.

Being a farse hard thing to say on account of my teeth sticking to the 3 gum drops, and Miss Kitty looked at me farse as anything, saying, Wats that you're saying?

Which I tried to say it agen wishing I was eating 3 easy things like chocolates instead of 3 gum drops, and Miss Kitty say, Have you got the mumps?

No mam, I sed wishing I had, and she sed, No, you've got a mouth full of candy, haven't you?

Me just looking at her grry without saying anything, and she took the bag and threw it in her waist paper basket saying, Bribbery is one of the worse forms of sins, you will please remain as hour after skool is dismissed.

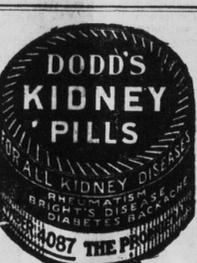

Which I did.

CHINESE ARRESTED.

Detroit, May 27.—Discovered in the M. C. R. yards last night, Jasper Miracle, of Sandvich, and Lee King Yuen a Chinese, were arrested by federal officers after several shots had been fired. No one was struck by the bullets.

Miracle was arraigned before Commissioner Hurd today and held in \$2,500 bail on a charge of smuggling a Chinese into the United States. Federal officers believe Miracle brought Yuen from Windsor by riding the bumpers of an M. C. R. train through the tunnel.

Three varieties of dogs never bark: the Australian dog, the Egyptian shepherd dog and the "lion-headed" dog of Tibet.

Lady Tilley's Funeral Largely Attended

St. John (Stones) church was filled to capacity yesterday afternoon by people who wished in that way to pay a last tribute of respect to one who had for many years lived and worthily filled a large place in the life of the community, and one whose heart was always open to the cry of the suffering and needy, where the public service over the remains of Lady Alice Tilley was held. A private service was held for the family at her late home, 283 Germain street, after which the cortege proceeded to the church.

The service was borne slowly and reverently up the aisle by Sir Douglas Mason, H. A. Powell, K.C., Col. Murray MacLaren, R. T. Hayes, M.P.P., C. B. Allan and F. W. Daniel. Upon the casket rested a large red cross of geraniums, a tribute from the Red Cross Society, and there were also a beautiful basket of pink roses from the Local Council of Women, and a wreath floral offerings from members of the family. The front pews on the right of the church were reserved for the family and immediate relatives, and on the left were the pall-bearers, the executive of the Provincial Red Cross Society, the president and members of the local Red Cross Society and a representative number of the Local Council of Women. Among the gentlemen mourners were: L. P. D. Tilley, Master Samuel Leonard Tilley, Lee Street, of Dorchester, Mass., a grandson; J. Royden Thomas, Dr. James Manning and F. E. Hanington. A full choir was present, and Mrs. Duff presided at the organ.

The Rev. Canon G. A. Kurling, the officiating minister, read the opening hymn "O God the Hills Around Do I Lift Up Mine Eyes." This was followed by the reading of the 96th Psalm "On the Resurrection Morn" and was sung and was followed by the Nunc Dimittis. Bishop Richardson made eulogistic reference to Lady Tilley's life and character and paid a warm tribute to her many efforts on behalf of suffering humanity. The career which she had brought to a close would long be remembered as worthy of the widow of one who accomplished so much for his country. At the close of the service the body was borne out of the church and taken to Fernhill and there interred by the side of Sir Samuel Leonard Tilley.

Telegrams and cables were received from all parts of Canada and England by members of the bereaved family. Among those so received was one yesterday morning from His Excellency the Duke of Devonshire, governor-general, conveying his sincere regret at the death of Lady Tilley. Lady Ashburnham, a provincial vice-president of the Red Cross Society, had made arrangements to be present at the late hour from coming. Mrs. John D. Chipman, of Toronto, a step-daughter, arrived in the city yesterday for the funeral, and did also Lee Street, a grandson, of Dorchester, Mass. Mayor Scholfield and the city commissioners attended in a body.

Tea and coffee served at Seaside Park Inn for mourners.

Conference Upon The Judges Act

Ottawa, May 27.—There will be a conference held between the Senate and the House of Commons upon the amendments to the Judges Act. The Senate has insisted upon two amendments, the chief of which prohibits judges from acting upon commissions. The motion for the conference was made in the House of Commons this afternoon by the Minister of Justice.

Backache? Rheumatism? Run-down?

Those of us who are past middle age are prone to eat too much meat and in consequence develop lime-salts in the arteries, veins and joints. We often suffer from twinges of rheumatism or lumbago, sometimes gonorrhea in the joints of the feet. There is no longer the slightest need of this, however, as the new prescription "An-uric," usually gives immediate results as it is many times more potent than lithia, in ridding the impoverished blood of its poison by way of the kidneys. It can be obtained at almost any drug store. Ask for Dr. Pierce's "An-uric" (anti-uric acid) for kidneys or backache, or send 10c to Dr. Pierce's Laboratory in Buffalo, N. Y., for trial package.

Harbor Plebiscite On August First

Council Decides to Take Vote on Commission on That Date.

The citizens of St. John will at last have an opportunity to express their views as to whether they favor harbor commission or not, and the date selected is Monday, August 1. In the meantime the mayor is to prepare a short statement concerning the harbor and want the consideration received in to be for publication in order that they may vote intelligently on the matter. This was the decision arrived at by the council at a special committee meeting held yesterday morning.

Commissioner Bullock brought the matter up and after reciting the statement already taken moved the following resolution: Whereas the question for harbor commission has been before the people for a long time; and Whereas, the government under date of July 7, 1919 passed an act relating to the harbor of St. John, wherein they agree to take over all the city's rights, powers, privileges, and interest in the harbor for the sum of \$2,000,000, and appoint a board of commission to administer and have control of the harbor property and privileges; and Whereas, the matter is of importance, and by act of the legislature is subject to a vote of the ratepayers, be it therefore

Resolved that a plebiscite be taken for or against harbor commission on Monday, August 1, next and that the mayor prepare a brief statement of the terms upon which the said harbor property and privileges are to be conveyed to His Majesty and that all previous resolutions of the matter be rescinded.

Commissioner Thornton asked that before the people were asked to vote the bill should be amended to provide for the ferry to keep the harbor line below the falls and some safeguard in regard to rates charged so they would never be higher than competing ports.

Commissioner Jones thought the port should be nationalized and placed on the same footing as Montreal, Vancouver and Quebec. Commissioner Frink had no objection to the people voting on the matter but declined to express an opinion on the merits of the Act.

The motion was put and carried. Commissioner Thornton voting nay.

SWEAR IN MINISTERS.

Halifax, N. S., May 27.—At ten o'clock this morning, accompanied by Hon. E. H. Armstrong, acting Premier and Assistant Provincial Secretary A. S. Barnstead, D. A. Cameron, K. C., who was yesterday sworn in as a member of the executive council, and J. W. Cameron, member of the House of Assembly for Digby County, proceeded to the Government House, where they were sworn in as members of the Government of Nova Scotia. The ceremony was conducted in the legislature today in their new positions.

FIRE AT MONCTON.

Moncton, May 27.—A three roomed house owned by W. J. Chapman, Waterloo street, was damaged by fire early this morning. The residence was occupied by Mr. Chapman, Richard Brown and M. Burpee. The house was insured for \$3,000 which it is expected will cover the loss.

WEDDINGS.

Hillsboro, N. B., May 27.—The marriage of Miss Mildred Alice Steeves, daughter of Mr. and Mrs. Beecher Steeves, of Edgett's Landing, Albert Co., and Mr. Lloyd Stevens, the son of Mr. and Mrs. Arthur Stevens, of Hillsboro, N. B., took place at the Valley Baptist parsonage, Sarvey, Albert Co., on Tuesday evening, May 17, Rev. A. Harwood officiating. Miss Helen Edgett and Mr. Frank McNeil were the attendants. After the ceremony the bride and groom motored to Moncton. The bride wore a navy suit with hat to match. They will reside at Hillsboro.

The marriage of Miss Bessie Lovatt Forbes, only daughter of Mrs. Margaret Forbes, of this city to Alagar Finlay Campbell, son of Mr. and Mrs. Finlay Campbell, of Boyag Brook Western Australia, was solemnized at St. Andrew's Presbyterian church, on Friday, May 27th, by Rev. P. S. Dowling. The ceremony was performed in the presence of immediate relatives. After spending the summer at their bungalow on the St. John river, Mr. and Mrs. Campbell will reside in Ottawa.

LUMBAGO

If you feel a twinge of lumbago, you can ward off the evils of recurrent attacks, by taking Gin Pills without delay. Learn a lesson from the experience of Mr. H. A. Jones. After suffering with lumbago for years, and being confined to the house at times, Mr. Jones began to take Gin Pills. His letter to us reads, in part: "I had much to my surprise, I at once felt a change for the better. I have been taking them at intervals, and, up to date, have had no recurrence of my old trouble; in fact, I have not felt better for years."

Don't delay. Buy a box of our money-back-guarantee, or write for a free sample. National Drug & Chemical Co. of Canada, Limited, Toronto, Ont. U.S. residents should address: No-Drugs, Inc., 203 Main St., Buffalo, N.Y.

OBITUARY

The death of Mrs. Peris Dougherty wife of William H. Dougherty, took place at her residence, 343 Duke street, West St. John, yesterday morning. She leaves to mourn, besides her husband, who for years was employed in the Custom House, one son William and one brother, John Steady, all of this city. She was a life-long resident of the West Side and the sympathy of many friends will be extended to the bereaved relatives.

Mrs. Eliza Faulkner. The death of Mrs. Eliza Faulkner, wife of the late Captain B. Faulkner, occurred Thursday at the residence of her daughter Mrs. H. G. Enslow, 144 Leinster street. Mrs. Faulkner was a resident of Halifax for many years but had lived in this city with her daughter for the last four years. She leaves to mourn one daughter, Mrs. Enslow, and a host of friends. The funeral took place yesterday afternoon from her daughter's residence.

FUNERALS

The funeral of Mrs. Josephine E. Humphrey was held yesterday afternoon from the residence of Mrs. G. L. Tapley, 147 Douglas avenue, to Fernhill. Service was conducted by Rev. R. P. McKim, assisted by Rev. Mr. Gabriel.

The funeral of the late John Irwin took place yesterday afternoon from his late residence, 73 Queen street, to Fernhill. Service was conducted by Rev. F. S. Poole. The funeral of Mrs. Eliza Faulkner was held from her late residence, 144 Leinster street, to the Cathedral of the Immaculate Conception. Rev. Vincent Oram conducted service, and interment took place in the new Catholic cemetery.

The funeral of Arthur G. Blaklock was held from his late residence, 322 Union street, yesterday afternoon. Rev. R. A. Armstrong conducted services, and interment was made in Fernhill.

Well Satisfied With Baby's Own Tablets

Once a mother has used Baby's Own Tablets for her little one she will use nothing else. Her use of them leads her to believe there is no other medicine so equal for any of the minor ailments of childhood. Concerning them, Eugene Boisvert, East Aldfield, writes: "My baby was terribly constipated, but after the use of Baby's Own Tablets he is entirely well again. I am so well satisfied with the Tablets that I lose no opportunity in recommending them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Capture Big Still In Winnipeg Home

Winnipeg, May 27.—One of the most important moonshine raids of the year was pulled off yesterday when W. H. Parker's residence, 25 Lenore street, was visited and surrounded by city and government authorities. The officers report finding a couple of stills in full operation, and the capacity of the plant for the production of whiskey was estimated at eighty gallons per day. The exhibit that will be presented for the view of Sir Hugh Macdonald when he sits in judgment of the accused, will probably be as interesting as any of those included in the recent "Made in Winnipeg" exposition.

QUIT TOBACCO

So easy to drop Cigarette, Cigar, or Chewing habit

No-To-Bac has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, financially, and socially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

TRUE BILLS FOUND BY GRAND JURY

In the county court yesterday morning before His Honor Judge Armstrong, the grand jury returned a true bill in the case of Benjamin Owens, charged with escaping from the Boys Industrial Home; also against him and James Levine on a charge of stealing a horse from J. H. McCarthy. It was remembered that three were five lads named in this matter as it was stated that with the horse and wagon they drove to Musquash. From this another charge was made against them to which three of the youths have pleaded guilty, namely, breaking and entering a store and stealing. Levine is also charged with stealing a bicycle from a messenger boy named Galant. In the case of the King vs. Joyce and Smith on the charge of assault and robbing Dr. F. X. Morris of Fairville, a true bill was returned, as in all the other cases.

May Recommend Fuel Commissioner

Expected Special Committee on Fuel Resources Will Take This Action.

The appointment of a Dominion fuel commissioner, whose efforts will be directed toward bringing about the greatest development and best distribution of Canadian fuel supplies, will it is expected, be recommended in the report of the special house committee on fuel resources when that report comes before the House of Commons. The committee which has finished its examination of witnesses for this session without getting the cost sheets of the mine operators for which it had asked, went into executive session this morning for consideration of its report.

Owing to the short time which is expected to elapse before prorogation, efforts will be made to bring that report before the House without delay. When the committee met this morning there was considerable discussion with regard to discharge of witnesses regarding cost sheets, but who had been released without giving the committee the information its members sought. D. H. Macdougall, of the British Empire Steel Corporation, and John MacKie, of the Hillcrest Collieries, were held on call by the committee from their last meeting.

Want Defiants Punished.

It was felt by members of the committee today, however, that there would be no chance of recalling these witnesses if a report was to be made to the House before prorogation. The question of other persons who had refused or neglected to answer summonses to appear before the committee was also brought up. Several of the committee members were in favor of punishing the defiant witnesses and coal companies were in the committee, however, thought that while no good would come of this, they were attempting to bring these witnesses before the bar of the House there must be a warning given them that they could not with impunity defy a committee of parliament. The discussion was continued in executive session, but it is expected that condemnation of those who defied the committee will be voiced in the report when it is brought before the House.

Major Greer, V. C., of Montreal who has been spending some time at Sussex, N. B., was in St. John yesterday.

10 Years of Eczema—A Sample Relieved Her

Are you suffering the weary Canadian letters, telling stories of suffering from skin diseases and how they were cured by D.D.D. Lotion? Here is part of a letter from Mrs. Henry Harvey, Black Lake, Que. Write her if you desire. "Ten years of eczema on the face. Treated unsuccessfully by doctors. A sample of D.D.D. relieved me." The proof of the pudding is in the eating. When a prescription for this disease has been given, it is to be used every day in every city and town in the Dominion, surely it is enough to cure the most stubborn cases. Relief from itching torment is immediate. Just try one bottle of D.D.D. Lotion on one patch of eczema. \$1.00 a bottle. Try D.D.D. Lotion for Skin Disease. For sale by E. Clinton Brown, St. John, N. B.

Some thousands of dollars worth of reasonable merchandise is offered at phenomenally low prices.

Come and get your share.

London House

F. W. Daniel & Co. Head of King St.

You all know that song we heard years ago, from one of the popular musical comedies with its chorus of "Hello People, People Hello," and how everyone seemed to echo those words for days after the show left town. Well, I am afraid I shall have to bring that to life again, for I want to say exactly what the song said "Hello People, People Hello." So please say it to me too, every Saturday. When I write my weekly letters, for I am going to write you about all sorts of things; from the smallest safety pin on the needle counter to the very latest—well, never mind, I'll tell you all about "them" some other time. Here's to our next meeting—Chatterbox.

Some Real Facts On Anti-Tuberculosis

The patients of the St. John Anti-Tuberculosis Society are gradually finding their new headquarters, which are located in the former rooms of the provincial executive on Prince William street. The quarters while neither as spacious or satisfactory as those the society were forced to vacate in the water works building are serving the purpose.

Interesting charts are hung about illustrating the society's work, and the ravages of the great white plague it is fighting. One of much interest reads as follows: "In 1909 tuberculosis killed 27 persons per 10,000 in St. John. In 1915 it killed 13 per 10,000; 1925 depends on you."

DISTINGUISHED HIMSELF IN BACTERIOLOGY

The name of Frederick Edwin Coster of Hampton appears in the past list of the fourth year medical students at Dalhousie University. Mr. Coster passed in all the subjects of his year and with distinction in bacteriology. "Ted" distinguished himself not only in the lecture room but on the Dal campus as well, making his place on the football, basketball and track teams and acquiring himself brilliantly on all.

Donald Munro arrived in the city yesterday from Montreal to visit his parents, Mr. and Mrs. W. A. Munro, 134 Paradise Row.

IN THE PUBLIC EYE

R. H. BLUMENTHAL.

R. H. Blumenthal, vice-president and general manager of J. H. Blumenthal Sons, Ltd., whose untiring efforts with the co-operation of Alderman Lyon W. Jacobs, K. C., has secured the recommendation of the Montreal City Council for the establishment of a municipal golf course. Mr. Blumenthal is a director of the Baron de Hirsch Institute and a governor of the Western and Verdun Hospital. He is also a member of the Reform, Montefiore and Canadian National clubs.

Says Trouble With World Is Spiritual

Dr. Pallen of New York Says Christian Principles of Early Days Forgotten.

Portland, Me., May 25.—That the people of today have wandered away from the moral and spiritual ideals enunciated more than 2,000 years ago upon which our Christian civilization is based was the statement of Dr. Conde Pallen, L. D., of New York, in an address before a large audience at the Catholic Institute. "Troubles afflicting the world are spiritual troubles," said Dr. Pallen, "and the great World War was but one of the many symptoms."

The assembly hall at the Institute was filled to capacity when Dr. Pallen was introduced by Fred D. Harvey, this city, master of the Fourth Degree of Maine, Knights of Columbus, "and whose auspices the meeting was held."

"We have strayed away from those moral precepts enunciated more than 2,000 years ago from an obscure fabricator of the Roman Empire and which 300 years later rent the great fabric of that empire and the system of absolute despotism. The world will not be cured until we return to the high road of Christian principles," said Dr. Pallen.

"We are told that the great war is the cause of the troubles that beset the world, but this is not so. Our troubles antedate the war a long time and the great struggle was only a terrible and aggravated symptom of the profound disorder in modern humanity—and that disorder is spiritual. We have left behind the moral and spiritual ideals upon which our Christian civilization is based and have descended into the jungles of materialism. Our democracy, our equality, our freedom were founded for us more than 2,000 years ago and built into the structure we know as Christendom and unless we carry on this civilization to our descendants we are receding to our ruin."

MARINE AGREEMENT

Washington, May 27.—An agreement on wages and working conditions was reached tonight between representatives of the Marine Engineers' Beneficial Association and Chairman Benson of the Shipping Board in the controversy which has threatened to tie up American shipping. The terms will be submitted to the various local unions Sunday for ratification.

GRAIN PRICE PROBE

Carleton Place, Ont., May 27.—The fact stood out plainly in evidence given before the Royal Grain enquiry commission today that grain buying in Carleton Place last season was mostly on the basis of track prices for grain by both wagon and carload. That was due to active competition at this point led by one big buyer and had the effect of closing up the farmers' elevator rented by the United Grain Growers.

PRISON BILL POSTPONED

Ottawa, May 27.—The Minister of Justice has dropped for the present session the bill to amend the Penitentiaries Act. In making the motion for the withdrawal of the bill, Mr. Doherty explained that after further consideration he had decided that the more important matters should be left over.

"Purify the Blood"

THIS is the doctor's advice to most people whose blood he analyzes at this season of the year.

Overeating of artificial foods, combined with too little outdoor exercise, leaves the human system clogged with poisonous impurities.

The liver is torpid, the bowels constipated and the kidneys so overworked that they become ineffective as filters of the blood.

The most rational treatment is Dr. Chase's Kidney-Liver Pills because of their

combined action in arousing these filtering and excretory organs to healthful activity. Mrs. Albert Brunet, R.R. No. 1, Ottawa, Ont., writes:

"I have used Dr. Chase's Kidney-Liver Pills for the past two months, having been afflicted with kidney trouble. I used doctors' medicine previous to this, without any good result. A friend told me to use Dr. Chase's Kidney-Liver Pills, and the second box made me feel a good deal better. I have now used about six or eight boxes, and am completely relieved. I shall always praise Dr. Chase's Kidney-Liver Pills, and tell my friends about the benefit they have been to me."

Dr. Chase's Kidney-Liver Pills, 25 cts. a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

Delegates For The National Council

Sympathy Expressed on Death of Lady Tilley—Greetings to Calgary Convention.

Appointments of delegates for the National Council meeting at Calgary were made at yesterday afternoon's meeting of the St. John Council of Women. The meeting was held at 3.45, in order to allow members to attend the funeral of Lady Tilley.

Letter of Sympathy Before taking up the regular business of the meeting, Miss Grace Leavitt spoke of Lady Tilley's great influence in the organization of the Local Council. Her memory is one that will last. Her loss is a great one to the city in general. Miss Leavitt moved that a letter of deep sympathy be sent from the council to Mr. and Mrs. Leonard Tilley. With a few words of sorrow and of appreciation, Mrs. David McLellan, seconded this motion, which was passed by a standing vote.

After reading of minutes by Mrs. G. C. Poole, Mrs. Richard Hooper gave notice of motion stating that at the next regular meeting, with the President, Mrs. Atherton Smith, in the chair, Mrs. Hooper intends to reopen the matter of the acceptance of the affiliation fee from the Women's Institute.

Mrs. Willard Smith and Mrs. W. H. Roberts were added to the list of those attending the National meeting at Calgary early in June. Mrs. W. Edmondson is leaving on Thursday, and Mrs. E. A. Young will go.

The Mayor's Letter A letter was read from Mayor Schofield conveying greetings from the City of St. John to the Mayor of Calgary. The letter was as follows: Mayor's Office, St. John, N. B., Can. 25th May, 1921.

Dear Sir:—I understand that a delegation of our National Council of Women is leaving here shortly to attend a conference in your city, and I am writing that they may take this message along with them to send you greetings from the east to the west and to express the hope that as the years go by the east may be nearer to the west, both in thought, word and deed.

Having passed through such a tremendous crisis as we have in the past five years in the history of this country, as well as in the history of the world, and having stood shoulder to shoulder with the east in the west of Canada, let us hope that this thought may be continued in the years to come and that we may have a national unity from coast to coast working for the betterment of Canada as a whole, especially in that those of us who were spared through the recent conflict may always be a credit to those who were lost.

I extend to you, and through you to the people of Calgary and the west, our very heartfelt greetings for the

DR. J. A. MORISON TO EXTEND GREETINGS

The Rev. Dr. J. A. Morison, of the First Presbyterian church, Charlottetown, will leave this morning for Kinross and Kintore to convey the greetings of the Presbytery to the Rev. Gordon Pringle and his congregation there. The occasion is the twenty-fifth anniversary of the beginning of Mr. Pringle's ministry on that field. Dr. Morison will preach at three services Sunday.

PUBLIC BAND CONCERT.

Asked last night if the St. John citizens were to be favored with public band concerts this summer, Commissioner Pringle stated that he thought the bands would be performing shortly. The custom had been one of fifteen years standing, and was greatly appreciated by all classes of citizens. He saw no reason why it should not be continued this year. Last evening was an ideal one for a band concert, King square was crowded as it was, but had the band been in attendance, the crowd would have been a record breaker.

NO ARRESTS

For the first time this week a clear sheet will be handed to the police magistrates, as no arrests have been made by the police during the past 24 hours.

Yours truly, E. A. SCHOFIELD.

Are Sending Gifts

W. K. Ganong, of the Corona Company, is sending to the meeting a gift box of confectionery tied with the council colors. T. S. Simms will send pictures of work of vocational classes and a gift from the factory. Various affiliated societies and organizations are supplying the delegates with information as to their work.

A letter was read from Brigadier Moore of the Salvation Army, regretting overlapping of collectors on Kesteven Day in connection with the work of the Salvation Army Tag Day. Miss Lovitt, of Yarmouth, wrote expressing thanks for sympathy, as did Mrs. Macklin, secretary of the London, Ont. council, thanking the Local Council for sympathy at the death of Mrs. Boomer.

Treasurer's Report

Miss Alice Ester, treasurer, reported on the talk fund, showing an overdraft with \$150 promised; \$62 was contributed during the week. The sum of \$13, extra expenses, was voted to H. A. Fowler in connection with legal services. A balance of \$47.50 from the Fountain Fund was merged into the General Fund of the Council. The delegates attending the National Council at Calgary were furnished with credentials and instructions for voting. It was suggested that two members from the east be elected on the committee of invitation. On motion, the Salvation Army will be loaned boxes belonging to the council for their tag day.

Psychology Tests Urged For Students

This is Remedy for Condition Complained of by Edison it is Claimed.

New York, May 11.—Dr. Samuel Heckman, psychologist of the College of the City of New York, who commented yesterday on Thos. A. Edison's experience with "amazingly ignorant" college graduates who applied for jobs at the Edison plant, said that students in grammar schools should be submitted to psychology tests to ascertain what educational channels they should be guided into. "Many students are simply wasting their time in lines of work for which they were not mentally endowed," said Prof. Heckman. "It is possible to classify boys and girls into general groups while they are still quite young. Much time can be saved, for example, if it is discovered that a student who has planned to go in for law is much better fitted for mechanics, or vice versa."

"We have had such a clinic at the City College since 1913. It is now utilized by the various welfare societies of the city. The public schools are turning more and more to the employment of psychological tests, but the practice is not as general as it should be. The Bureau of Attendance is now utilizing psychological tests for children that present special prob-

DEMAND REGENT'S RESIGNATION

London, May 27.—A despatch to the Daily Herald, the Labor organ, from Vienna, says the Supreme Council has notified the Hungarian Government that when the Reparations Commission arrives in Buda Pest at the end of June it will assume control of the country both politically and economically. It also will demand the resignation of a provisional government, composed of members of all parties. This new government will immediately hold new elections under international supervision. The existing National Assembly the despatch adds, will first be required formally to depose the Hapsburgs.

Dartmouth, N. S., May 27.—Fire today destroyed several hundred acres of woodland a few miles north of this town, and for some time threatened the cottages of the summer colony at Burnside. Residents of Tut's Cove and Dartmouth successfully fought the flames.

Ipswich, An examination soon established the child in the division to which he or she belongs mentally. "This classification will show who are equipped for the professions or for success in a large way in business; who probably will not be skilled as trade workers. While no psychological test is claimed to be 100 per cent. accurate, it is much better than the hit and miss procedure that has been on in the schools for years."

Last year 1,100 children took the psychology tests at the City College,

Essex Advantages Revealed In Long Hard Service

ESSEX gets its long wearing endurance in performance and smooth operation from a special design and the way it is built.

For instance, everyone knows how squeaking springs and body rattles destroy riding enjoyment. Light cars have not alone been at fault in that respect.

"Drove 20,354 Miles In 7 Months"

Gas consumption averaged 19 miles to the gallon. Twenty-five gallons of oil were used. No repairs whatever were made during this period, and the engine was not cleaned until approximately 12,000 miles had been covered.

"I have driven cars for the last 6 or 7 years. Cars with me have to do exceptionally heavy service, and this year will be the first I have ever used the same car for the second season, as I am doing with my Essex.

"My work as a travelling salesman, necessitates covering four Canadian provinces. Part of my way lies through the Metopedia Valley; the roads are so narrow that it is necessary before starting to remove the windshield and top and to bandage the body and mud-guards with heavy cotton in order to keep the finish from being destroyed by the branches and bushes at sides of the roads.

"Naturally it would be hard to sell me anything but an Essex in the future—not only for its endurance, but for get-away, 'pop' and all around performance."

P. E. SHAW, Sherbrooke, Quebec

But Essex has minimized squeaking bodies by a frame so designed that it does not weave. It has a load capacity that with one exception is greater than that of any other car.

That is why an Essex rides over rutty roads, and cobbles stones with a smoothness and freedom from noise entirely unexpected in a car of its size and price.

It is why Essex gives a feeling of rigid solidity to the passenger at any speed and over any road surface.

Throughout the Essex you will find other details not so apparent in casual observation. Their advantages are not noted when comparison is made with new cars. But when Essex has had a season's use and the advantages of its design and construction become more evident owners grow more and more enthusiastic. Time serves to show many superiorities in the Essex. It is then that its difference as a moderate priced light car becomes so notable. Choose your car for what it will be after a year's service.

A Regular S Weekly

Dear Young Folks—

You must all remember a few weeks ago in which I suggested and advised a group of girls, who met a week, might do something for others in need.

The work recommended was for the Province Home for Children and I hinted that many good workers might be found in our province to work there. The reason for that institution was because of the serious condition of the girls and boys of all ages from all parts of N. B. who were in need of little things which would be so costly to their parents. The girls could be very useful in making up small towels, etc. (The girls could be very useful in making up small towels, etc. The girls could be very useful in making up small towels, etc.)

Well, it is a real boon conducted if enough such is given, so here it is to be used. And proud to announce that many of are now formed into clubs already at work. The girls will give an idea of making the clubs has met with great success. They are both very ready their work and as they ready they will send Standard City, St. John, N. B. (Each package sent will be acknowledged. Weekly Chat Answers to Letters

Dear Young Folks:

You must all remember our chat on a few weeks ago in which we published a letter from a lady, asking for suggestions and advice, whereby a group of girls, who met together once a week, might do some useful work for others in their community.

MILDRED B.—Enjoyed hearing from you very much. I am sure you must look very beautiful I am sure. The lambs are always lovely to watch, they are such frisky little fellows and they are such little things.

HARRY S.—You must have enjoyed your holiday alright and how good that must be to you. I hope you are in your car. He is the right sort of a fellow. He has not forgotten what boys liked when he was one. No fear of your refusing such an "invite" as that. Lucky you.

GOEDON P.—You are quite a fisherman to do so well with the rod. How nice to live so near a stream, you might often catch (?) your own breakfast.

MORIE A.—You will find the information in today's chat about sending the things and the reason. Congratulations to you all on the splendid start and may you have good times as well as accomplish much work. Hereafter please put puzzles on one paper and answers on another, using only one side of paper.

VIDA F.—It was nice to hear from you again and have you just liked the stories. It is splendid to have a school garden and must be very interesting. By next Sunday the apple trees should look very pretty. How about having a Flower Club in your district? After you read about the Pansy and the Forget-Me-Not I am sure you will want one near you.

LOTTIE G.—You are quite a stranger and it must be a long time since you wrote the C. C. of course school lessons and music keep you busy and it was good of you to take enough time for the C. C. Hope your picnic time goes off well, if you were in a warm spot you were lucky.

WENDELL C.—You must be having a fine time in your garden, I am sure. Indeed they are handy things for doing errands, a good many mothers and fathers have found that out. They are good for regaining their feet in the purchase. Hope you have heaps of good times and few falls or spills.

IDA B.—Along comes your nice writing again. Yes, when May arrives the young minds begin to plan for holidays and freedom. Ball is a good game and gives lots of real sport, especially before the weather gets hot. Have you thought much about the Flower Clubs we talked about last time? You are a real writer as you would make a fine secretary and of course you can think of some adult who would make a good one. You are a real writer and you are interested in the C. C. plan for members doing good in this way? Think it over and let me have your opinion. We want one in your locality for a real body too. If there is anything about it you do not understand just write for the information.

AGNES P.—So pleased to hear that you are better and at your studies again. These nice days help us all to improve in our health. You are interested in the Pulpit among the other flowers, did you like the story by that name on our page. It was a real good one I thought, so did some others. Do you feel well enough to take up the Flower Club work we have been chatting about lately and even today? There should be a chance in your locality for a club and haven't you several little friends who would be interested. Have a talk with mother on the subject and see what she thinks. I often think of one who was always interested and enthusiastic over any new plan in the C. C.

LYMAN B.—You gave me a big shock when your letter arrived, but I have about recovered. Don't be such a stranger next time. Hope you have good luck in your Pictorial work and win a bicycle.

BOYHOOD STORIES OF FAMOUS MEN.
Dwight L. Moody.
The first day of school came and the new teacher opened the school with prayer. She asked that she might have the strength to rule the school by love. This was something new and the boys all thought what a good time they could have. All went well for several weeks, then one boy broke the rules and was kept after school. Instead of whipping him, the teacher sat down beside him and told him what she had prayed to be able to rule that school by love and that if he loved her, he should try to be a good boy. This so impressed the boy that he too began to pray and became a Christian. When he grew up, Dwight L. Moody continued his Christian life and became one of the world's greatest evangelists.

DEMAND REGENT'S RESIGNATION
London, May 27.—A despatch to the Daily Herald, the Labor organ, from Vienna, says the Supreme Council has notified the Hungarian Government that when the Reparations Commission arrives in Buda Pest at the end of June it will assume control of the country both politically and economically. It also will demand the resignation of the present government, composed of members of all parties. This new government will immediately hold new elections under international supervision. The existing National Assembly the despatch adds, will first be required formally to depose the Hapsburgs.

Dartmouth, N. S., May 27.—Fire today destroyed several hundred acres of woodland a few miles north of this town, and for some time threatened the cottages of the summer colony at Burnside. Residents of Tart's Cove and Dartmouth successfully fought the flames.

An examination soon establishes the child in the division to which he or she belongs mentally. This classification will show what are equipped for the professions or for success in a large way in business; who probably will not be skillful as trade workers. While no psychologist's test is claimed to be 100 per cent accurate, it is much better than the hit and miss procedure that has gone on in the schools for years.

A Picture Gallery Ball Field Sports

By GERTRUDE E. BOA.

A Fairy Tale.

It was on a very sunny day in June that Dolores and her mamma visited the Picture Gallery. Mamma had just bought a new dress and she had purchased all her requirements she had found that she would have time to go to see the picture in the Art Gallery. Dolores was delighted when they entered the great building and went up to where the pictures were hung. All along the walls were pictures of various types. Pictures of fine ladies, noted gentlemen and Knights of old, in queer garb. Pictures of peasants at work in their fields, or in their homes, and scores of pictures of beautiful scenery, painted by skilled hands of true artists. It was indeed a great treat to Dolores to see all these lovely paintings. She had a talent for painting, and though she was but ten years old, she had quite a collection of pictures painted by herself.

"Come dear, the ball is about to commence," was Drusilla's greeting. Into the building the two went. What a changed place it seemed to Dolores. Beautiful lights and colors, corners around the walls and ceilings of the Gallery. The floor had been polished till it shone like glass. There were crowds of nicely dressed ladies and gentlemen dancing about in fairy music.

"What seemed very strange to Dolores was that she recognized the ladies and gentlemen as those who had been in the picture that afternoon. "They come out for balls, you see," Drusilla explained. "The fairy queen will nurse it, she will never leave the frames on the wall."

Dolores looked about the walls and saw that, in place of the people, the pictures contained visions of all that she loved, such as woods, mountains and rivers, which, added to the beauty of the ball room.

Dolores bowed again and said how happy she was to be able to give the fairy queen a gift. The queen kissed her on the cheek when she saw Dolores' pendant and gold chain. Dolores thanked her, and curtsied again. Then Dolores led her off to dance. Such a beautiful picture she had seen in the picture gallery, she had seen in the picture gallery, she had seen in the picture gallery.

"Poor little darling, she was so sleepy. I wonder at nurse for allowing her to wait up for us in the ball room," she said.

Dolores chuckled sleepily to herself when she heard this, for she remembered perfectly how she had stealthily crept into the picture gallery and had her picture photographed in her mind, to paint when she grew older.

"Don't worry, dear. We will arrange it nicely if you will promise to be ready and in your library by nine o'clock," said Drusilla. "You on her part, Dolores came to Dolores' aid. Dolores turned from her and went to the picture gallery, rejoicing over the prospect of the coming ball. Proudly at nine Dolores was seated.

Byng found himself outside the neck of a protesting and even to express an opinion. "Colonel Trencherman! He is a trumper! He is in there now, laughing till the tears are in his eyes. He is going to see what he can do to satisfy the crowd that clamored for our blood!"

"Byng looked at the crowd that clamored for our blood!" "Colonel Trencherman! He is a trumper! He is in there now, laughing till the tears are in his eyes. He is going to see what he can do to satisfy the crowd that clamored for our blood!"

"Well, I should be glad to see you," said Byng. "I am sure you will find it very interesting." "Byng looked at the crowd that clamored for our blood!"

"Byng looked at the crowd that clamored for our blood!" "Colonel Trencherman! He is a trumper! He is in there now, laughing till the tears are in his eyes. He is going to see what he can do to satisfy the crowd that clamored for our blood!"

MY PLAY FELLOW.
One day when strolling round
I found a doggie lying down;
He was laying very still
Upon the side of a hill.

At first I thought he was dead,
But when I raised his head
I saw that he was alive,
But very dim were his eyes.

I stooped over him,
And pressed his nose against my chin,
And when I smoothed his hair
His eyes lit up as if to say he liked me there.

I stood him on his feet,
But down he fell, for he was very weak;
I took him in my arms, for he was
Warm and soft as a kitten's paw.

He soon got well, and romps and plays,
So most of the time I stay outdoor
all day.
And I am never lonesome or without
a friend,
For I have one that will stand by me
to the end.
—Lima Callender, age 12.

Of August Appearance.
Local paper—Miss Van Blank is an imposing June-like woman.—Boston Transcript.

Just One Objection.
The only objection Uncle Henry has to breakfast food is that they call it food.

Keen on the Hunt.
Redd—See that automobile standing across the street.
Green—I see it.
Redd—Notice how it sort of jumps?
Green—Sure, it's restless. It probably sees some people crossing the street and it wants to get to 'em.

Never look the other way, even to avoid an enemy; you might miss a friend.

Beetlewit's Ninepenny Motor

(Continued from last week.)

CHAPTER III.
Beetlewit stopped at Brigston Green.

This, of course, was strictly according to programme. Beetlewit had intended stopping there all along. But the manner of his stopping left a great deal to be desired.

There is this to be said in his favour. Being an unexpected arrival to Brigston Green, he had no chance of being seen by the police. He had intended to stop at the village green, but he had been so late that he had had to stop in the village green.

Byng looked at the crowd that clamored for our blood!" "Colonel Trencherman! He is a trumper! He is in there now, laughing till the tears are in his eyes. He is going to see what he can do to satisfy the crowd that clamored for our blood!"

CULTIVATION OF GROWING CROPS REQUIRES REASONABLE CARE

Roots Should Not be Disturbed—Use of a Depth Guide is Recommended.

The cultivation of crops requires reasonable care. There is seldom gain from deep cultivation after the crop has been planted. Such cultivation is necessary in preparing the soil for all hood crops, but if not done then, later cultivation will not make up for the neglect. Summer cultivation should be shallow; sufficient to destroy weeds and produce a fine surface which one to two inches deep. It may be possible and is then advisable, to narrow the cultivator and cultivate deeply the space between the rows not occupied by growing roots. It should be remembered however, that these roots penetrate the soil towards the centre of the row very rapidly and frequent observations are necessary to determine whether the feeding roots are being disturbed or destroyed by cultivation, as so very often happens. The most soil below the loose surface soil covering is where soil bacteria are most active, and consequently where the most plant food is being liberated, as a result of which roots will be found in this soil area in greater abundance than anywhere else.

Root Pruning Not Good.
Although there seems to be no good reason for using care in selection of seed, preparation of soil and fertilizing to grow a good plant—only to destroy the roots as soon as they have grown—yet this is what is very often done. Root pruning has so far never been shown to be desirable and, as root development is a big factor in crop yields, the better chance they have for development without being disturbed the better use they can make of the plant food the soil contains. The object of surface tillage by shallow surface cultivation and weeding is to keep the soil in the area occupied by the growing plant from becoming too hard. Another reason why roots should not be disturbed more than possible is because injured roots may not be able to take up the full moisture required and wilting may result bringing.

GROUND YOUR WIRE FENCE.
In the summer time when the thunder caps appear in the sky and the storm sweeps down on the farm, the farmer thinks less of his safety than he does of his live stock. When the stock is in the field during the storm it may happen that the animals drift against the wire fence, which may be heavily charged with electricity, and are shocked to death. The ordinary fence built on wooden posts should be grounded every sixth post by means of a wire six or eight feet long twisted around all of the line wires of the fence and then secured in a hole in the ground. The hole should be dug deep enough so that the wire comes in contact with moist earth. A fence so grounded offers no danger to live stock during the thunderstorm. The wire fence built on galvanized steel fence posts is already grounded at every post and no thunderstorm with its discharge of lightning can injure the cattle enclosed by such a fence.

KEEP ROOTS DAMP.
Stock turned into orchards are not liable to injure trees if provided with an ample supply of water. If they do bother the trees, however, provide protection or remove the animals from the area.

Out of the Present into the Past

It is interesting to note the excellent preservation of some old family residences. So well do they "fit into the picture" that except for their architecture one might almost imagine them the product of the present age, yet in reality they stand as silent witnesses to the wise precaution against decay and disrepair on the part of a former generation.

Any house that is worth building should also be worthy of preservation by means of paint. The enjoyment of a picture is found in

B-H ENGLISH PAINT

The formula (70% Brandram's Genuine B.H. White Lead and 30% Pure White Zinc) produces a paint which does not crack, chip or peel and a surface protecting film that will defy the elements.

Investigate B-H "English" paint—you'll find most Canadians use it because of its economy and lasting quality. You are a convinced adherent to this brand that goes so far and lasts so long.

Bees Will Swarm Early This Year

Control Necessary to Ensure Maximum Honey Crop.

Many who have bees, find the question of swarm control and the securing of a maximum crop of honey, without undue manipulation a very serious problem. This season there will be an excess of early swarms, owing to the fact that the bees in many locations are approximately a month in advance in condition, unless the beekeepers complete the following manipulations. This means with many that swarms will be common during the latter part of fruit bloom and dandelion blossoming period. If, however, the following directions are carried out (and they require very little time), then the beekeepers will have stronger colonies when the main honey flow begins, besides which one can make his increase or artificial swarms at the time the beekeeper wishes to, rather than at the time the bees would like to do this themselves.

Directly fruit trees blossom or dandelion flowers are plentiful, each reasonably strong colony a second hive-body, containing drawn combs or full sheets of foundation, will contain eggs and young bees. If the colony is very strong and the weather fine, one week after the second brood-chamber was given, place an excluder on top of this and add a third hive-body as a super. Leave the colony either in the 2 or 3 hive-body until the clover flow begins in June. Directly it is noticed that clover is yielding, manipulate the colony so that the colony has two brood-chambers and a super, remove the super and then fill the second or top chamber with combs containing eggs and youngest brood. Place the remaining combs and queen in the first or lower brood-chamber and place a queen excluder over the stings brood-chamber which now contains the queen and the surplus brood which would not go in the second or upper brood-chamber. On top of the queen-excluder place an empty super containing drawn combs or comb foundation. If a super has been used on the double brood-chamber, place this on the super and on top of either the one or two supers, as the case may be, place the second brood-chamber, now containing the queen and young bees. Leave the colony this way until the morning of the tenth day. If increase is wanted, this top brood-chamber can be removed, placed on a bottom board in a new location and its entrance reduced so that only a few bees can enter, while the queen is sealed and there will be ripe queen cells in this brood-chamber, unless the weather is desirable, while the brood is on top. This increase should be examined in from two or three weeks to be sure the young queen is mated and a queen-cell or a queen arched must be given and another examined. If no increase is desired, destroy all queen-cells in top brood-chamber, later than the morning of the tenth day, and before the seventh day in place, on top of the super, and when the brood has emerged the bees will use it as a super.

POULTRY NOTES.
The chickens should always be waiting and ready when the next feeding time comes.

Plow Orchard Soon To Save Moisture
Early Cultivation Favorable to a Good Set of Fruit.
If a clover crop has been left over the winter in an orchard, it should be plowed under there in the spring until there is no more snow to plow under, especially in districts where draughts occur, but the plow should be used as soon as the soil is dry enough to grow in, for the plants to grow up, such much moisture which would otherwise be transpired by the leaves of the plants will be saved, and the chance of suffering from drought lessened.

Crop Conditions Good in the West
Acreage About the Same as Last Year—Wheat Well Above Ground.

Winnipeg, May 17.—Reports from 239 points in the Prairie Provinces indicate that crop report conditions on the whole are very satisfactory, although the season generally runs more than last year, according to the crop report for Manitoba Free Press.

COOL MILK TO KEEP.
The warmer the weather, the greater care must be taken in handling milk from the cooling standpoint. Immediately after the milk comes from the cows, cool it to 45 or 50 degrees, and keep it below the latter temperature until sold.

TIME TO PLAN FOR FILLING OF THE SILO

Plant Enough Corn and Build New Storage Right Size for Herd.

DIAMETER MUST BE FIGURED ON
Silage Must be Fed Fast Enough to Prevent it Spoiling.

Provided weather conditions are suitable, next week will probably see more corn planted in Canada than any other week of the season. In earlier days or before the ten-hour day and holidays became so generally recognized on farms, the 24th of May was corn-planting day wherever soil and sun allowed of the performance. More lately, however, the development of early maturing varieties of corn for silage has resulted in putting off the date of planting until early in June in many cases and the seasons for the past few years have not been any too favorable to early planting.

New Sweet Clover

Emergency Crop Annual Variety Useful for Filling Gaps in Standard Hay Acreage.

It has been determined that sweet clover, which grows luxuriantly along the roadsides and out-of-the-way places, and which is grown in some sections as a forage crop, has one strain which is annual.

Plow Orchard Soon To Save Moisture

Early Cultivation Favorable to a Good Set of Fruit.

If a clover crop has been left over the winter in an orchard, it should be plowed under there in the spring until there is no more snow to plow under, especially in districts where draughts occur, but the plow should be used as soon as the soil is dry enough to grow in, for the plants to grow up, such much moisture which would otherwise be transpired by the leaves of the plants will be saved, and the chance of suffering from drought lessened.

Crop Conditions Good in the West

Glimpse At Canada's Agricultural Wealth

Report of Dominion Minister of Agriculture Shows Progress Made by Farmers.

A table given in the report of the Dominion Minister of Agriculture for the year ending March 31, 1920, places the value of all the field crops in that year at \$1,812,915,500, and the value of dairy products at \$247,832,522. The number of horses in the country is given as 2,667,369, the number of milk cows as 3,548,457, other cattle as 6,356,874, sheep as 3,421,968, and swine as 3,040,070. Except in swine these numbers are slightly in advance of those given in the previous year.

Emergency Crop

Annual Variety Useful for Filling Gaps in Standard Hay Acreage.

It has been determined that sweet clover, which grows luxuriantly along the roadsides and out-of-the-way places, and which is grown in some sections as a forage crop, has one strain which is annual.

Standard Bred is Best

Here are five reasons given by specialists for keeping standard-bred poultry.

Standard-bred poultry is more uniform in size, type and color. Standard-bred poultry is more attractive in appearance and appeals more strongly to purchasers of stock and eggs.

Some Additional Grasses

Orchard grass and meadow fescue are grasses recommended by the Dominion Experimental Farms Department as additions to the standard and often stereotyped mixture of "clover and timothy" for producing hay crops on Canadian farms.

BIG PROFITS IN TURKEYS AS A SIDE LINE FOR FARMERS

Free Range However is Essential to Success With Class of Poultry.

When the festive season of the coming Winter arrives, and the price of turkeys is almost beyond the price of the average individual, one cannot help thinking that more of this type of fowl ought to be produced. The turkey flocks of Canada are not being made to keep pace with the increase of population. This is no doubt due to a great extent to the difficulties encountered in the raising of young turkeys by those to whom this phase of the poultry business is a novelty.

Give Poultry Free Range.
It is absolutely necessary to give the poultry free range, to feed them well without overfeeding, and to keep them free from vermin. It has been found by experience that to be successful year after year, it is necessary to have almost unlimited range, for in time land that has been used as a range, becomes "turkey sick," and a range of new ground must be provided.

Calfood Best Time To Dehorn

Cool Weather Best for Operating on Older Cattle.

The Saskatchewan Department of Agriculture gives Western farmers the following advice when and how to dehorn their commercial cattle:

USE NITRATE OF SODA.

Nitrate of Soda supplies nitrogen in a readily available form and because of this is one of the most valuable of the nitrogen supplying fertilizers. In the Spring, nitrates in the humus cannot take place until the soil warms and the nitrifying bacteria become active; hence the suitability of Nitrate of Soda for furnishing available nitrogen early.

THE HUNTER knows the value of **MINARD'S** LINIMENT.

ELLISON Gray, a well known Nova Scotia guide, writes:

"I have used MINARD'S LINIMENT in my horse for years and consider it the best thing I have ever used. It is a great relief in all kinds of horse ailments, such as sore shins, sore knees, etc., which one can't get rid of by any other means. It is a great relief in all kinds of horse ailments, such as sore shins, sore knees, etc., which one can't get rid of by any other means. It is a great relief in all kinds of horse ailments, such as sore shins, sore knees, etc., which one can't get rid of by any other means."

MINARD'S LINIMENT

YARMOUTH, N.S.

Modern milling of the world's best wheat, naturally produces the world's best flour.

Ask your grocer for the best and he will sell you

EUGENE BROS

Montreal, May 27.—The Canadian millers are just undergoing a period of adjustment to the new conditions. The operation is less complicated than mill recovery.

THE STANDARD'S FINANCIAL SECTION

WALL STREET IS FORCED DOWN TO LOWER LISTINGS

Professional Operators Avail Themselves of Slim Attendance to Start Bear Tactics.

SHARP BREAK IN EUROPEAN EXCHANGE

Call Loans Rise One Half Per Cent to Seven and a Half Per Cent.

New York, May 27.—Business on the Stock Exchange today was dull and perfunctory, a heavy tone prevailing. Professional operators availed themselves of the slim attendance, due to the approaching holidays to effect additional depression of prices. Their movements were accelerated by other developments of an adverse nature. These included sharp unsentimentation in foreign exchange, continued firmness of money rates and the cautious or qualified views of leaders of industry.

The one negatively favorable feature of the session was the declaration of the regular dividend on Baldwin Locomotive. This was without visible effect upon other equipments of kindred issues. Declines of 1 to 3 points were registered by a majority of the seasoned as well as volatile issues and rails of all classes were under intermittent pressure not excepting the high-priced coals. Sales amounted to 525,000 shares.

Break in Exchange
The break in foreign remittances extended to six countries. Declines of 10 to 60 points in continental rates, especially Dutch, French, Belgian, Italian, Swiss, Spanish and Scandinavian.

For want of a more plausible explanation, dealers here ascribed the reaction in British bills to heavy selling by German commercial interests in London from which centre large transactions in dollar or United States exchange were reported. It is not unlikely that speculative operations entered largely into the situation. The money market followed exactly its course of the previous day, call loans holding at 7 per cent until the final hour, when a belated inquiry forced the rate to 7 1/2 per cent.

Changes in the irregular bond market, including liberties and most other domestic issues were unimportant.

Foreign issues were inclined to ease, although subscriptions to the new French loan were estimated at 90 per cent of the whole. Total sales (par value) aggregated \$1,175,000.

BONDSMAN MADE DELIVER OF AN INNOCENT WOMAN

Bertha Zelinsky Held as Vera Bonowski—In Jail Three Days

COULD NOT UNDERSTAND WHY SHE WAS THERE

Complainants and Detective Who Made Arrest Prove the Mistake

New York, May 27.—Jacob Raikes of 10 Greenpoint avenue, Long Island City, went to Reading, Pa., last Saturday and came back to New York with Mrs. Bertha Zelinsky, her month-old child and her three-year-old daughter, and delivered the woman to the warden of the Queens County Jail as Vera Bonowski, on whose bond he went in May, 1920, after she had been accused of stealing household goods from Henry Goldstein, of 1910 Gibson place, Far Rockaway.

Ordered Released. Late yesterday afternoon the woman was arraigned before Judge Humphrey in Queens County Court and released after it developed that she was not the Bonowski woman. Mrs. Zelinsky had no money whatever when collection was taken up by Attorney Wm. J. Croome, and she was sent home. She had been held for three days, however, without warrant of law.

The Bonowski woman was a servant employed in the Goldstein home in 1920 and was charged with stealing household goods valued at more than \$800. While she was in the Queens County Jail waiting for her case to be tried she was released on \$1,000 bail furnished by Raikes. Later an indictment was returned against her, and last week Raikes was ordered by the District Attorney to produce the defendant for trial. Raikes told the court yesterday that when he received this notice he called on the woman's sister and was told that the Bonowski woman was at 42 Maxner street, Hahating. He says he went to that address, found Mrs. Zelinsky, recognized her as Vera Bonowski, and immediately brought her to jail and immediately brought her to jail.

No Retribution to Other. Mrs. Zelinsky was proved by the District Attorney not to be the defendant. She made no complaint when she was first put in jail, but Monday morning she told the matron that she did not know why she had been arrested, but the man who had brought her had told her he was taking her to New York to see her sister and that he would pay her way. The matron, Mr. and Mrs. Goldstein and Detective Rayburn, who arrested the former Goldstein servant, looked at Mrs. Zelinsky and said she bore no resemblance to the Bonowski woman.

Wood Gundy and Company and the Dominion Securities Corporation have been awarded an issue of \$2,400,000 Letbridge irrigation district bonds at 87 1/2. The bonds bear interest at rate of 6 per cent. and are for 30 years payable in Canada and New York.

THE WEATHER
Toronto, May 27.—Pressure is highest in British Columbia, while shallow depressions exist over Minnesota, Manitoba and the South Pacific States.

AROUND THE CITY
PRESIDENT BEATTY COMING
E. W. Beatty, President of the Canadian Pacific Railway Co., is expected to arrive in St. John Tuesday at noon.

MARK OF RESPECT
The flag of the Red Cross was flown at half-mast from Fernhill cemetery flag pole yesterday as a mark of respect to Lady Tilley's work on behalf of the Red Cross.

COMMERCIALS VS. ST. PETER'S
The Commercial and St. Peter's are the two senior teams to battle on the East End grounds this afternoon and one real game of baseball is expected.

SAILS JUNE 4
Word was received in the city yesterday morning that the Premier, Mr. Foster, who, with Mrs. Foster, has been spending a vacation in Europe, would sail for home on June 4.

APPOINTED APPRAISER
Captain A. J. Mulcahy has been appointed representative of the fire underwriters to appraise the loss sustained Thursday by fire and water to the cargo in the steamer Canadian Trader.

CITY HALL PAY DAY
The fortnightly payment of wages to city laborers was made at city hall Friday. The following amounts were paid out: Public works, \$9,787.72; water and sewerage, \$2,812.70; harbor, \$1,897.50; ferry, \$670.30.

RESTAURANT STALLS
A by-law abolishing stalls in restaurants will be presented to the Common Council next week, based on legislation secured at the last session of Legislature, Commissioner Thornton stated yesterday morning.

Present Employees Given Highest Pay
This Applies to Experienced Men Who Make Application Before June 10.
Members of the Street Railway Union who have been figuring out the new wage proposal submitted by the management of the Company, are feeling very sore over one feature of it. They believe that any of the old employees who desire to work under the new arrangement will be starting on the minimum wage for novices, and that the advantage of years of experience will be wiped out.

Annual Session of Millidgeville Club
Encouraging Reports Outlined Year of Success—Officers Elected.
In addition to encouraging reports outlining a year of success in every branch of the club's activities, plans were submitted at the annual meeting of the Millidgeville Summer Club held in the Veterans' rooms on Wellington Row last evening, embracing an ambitious programme for the coming summer.

Distribution And Sale of The Liquor
Chairman of Provincial Commission Says Plans Completed.
J. Fletcher Tweeddale, chairman of the Provincial Liquor Commission, which showed the details of the sale of liquor had been completed, with the exception of finishing the work on the warehouse at Fredericton to make the goods absolutely safe. That, he said, was a matter of the first importance to the undertaking in hand. Vault doors are now ready in this city for shipment to the capital city, where they will be used to perfectly seal the old Queen street barracks, lately taken over by the province for the purpose of making a central warehouse for the liquor and also to provide room for the necessary offices.

Renforth Club Annual Meeting
Officers Were Elected With F. J. Nisbet President—Aquatic Program Being Arranged.
The annual meeting of the Renforth Athletic and Outing Association took place last night in their club house at Renforth. L. V. Price was in the chair, and the election of officers resulted as follows:—F. J. Nisbet, president; W. C. Clarke, 1st vice-president; B. A. Dennison, 2nd vice-president; Dr. R. I. Robertson, 3rd vice-president; Robert Hunter, treasurer; Raymond Fudge, secretary. Executive: L. V. Price, H. S. Morton, P. E. Garret, R. Ingleton, A. P. Patterson, E. W. Coombs, L. C. Armstrong, Arthur Walker, Ernest Job, Roy Gregory, C. R. Wetmore.

Royal And Selected Masters' Meeting
Degree Work Exemplified on Twenty-Four Candidates—Officers Elected.
The regular convocation of St. John Council No. 1, Royal and Selected Masters, took place at Masonic Hall last evening. T. I. M. Robt. Clarke in the chair. The degree was exemplified on twenty-four candidates. The following officers were elected for the ensuing year: P. E. Saranya, T. I. M. H. A. Purtee, Deputy Master, Wm. H. Smith, G. C. W. H. H. McCreary, Chaplain, Robt. Clarke, Treasurer, Chas. Robinson, Recorder, Geo. T. Hay, Sentinel, W. E. White, Master of Ceremonies, Walter Gaudin, Conductor, S. J. Parkhill, G. C. G. Wm. McClure, Steward.

Large Military Tent for Purpose Placed at Foot of King Street.
A large military tent has been placed at the foot of King Street for the purpose of housing Junior Members of the Red Cross Society. The tent will be from 8:30 until 1 o'clock afternoon and all children can be members of the Red Cross Society and receive their badge on payment of 25 cents. Good reports on Junior memberships are being received from other parts of the province and St. John wants to make a good showing.

Engagement Announced
Miss Evelyn Campbell, daughter of Mr. E. Campbell, of Westport, N. S., announces the engagement of her daughter, Miss Evelyn Collins to Horace E. Goodwin, son of Dr. M. Goodwin, of Boston, Mass., and the late A. L. Goodwin of this city. Wedding to take place early in June.

Legality of The Liquor Trade
Dealers Interviewed Make Statements in Reply to Those by Rev. Mr. Wilson.
The panning that the export liquor business received at the hands of the Rev. W. Wilson yesterday, was refuted by those engaged in the trade in a spirit that expresses readiness and willingness on their part to enter into a fight to any limit if the legality of their trade is in question. Some of those interviewed yesterday were disposed to disregard the remarks. "We, the undersigned, favor summoned to enquire into the cause of death of Ivison Graham, find that his death was caused by the discharge of a gun in his own hands, which we believe, from the evidence given, was accidental, on Saturday afternoon the twenty-first day of May, A. D. 1921, near a brook in the woods back of Robinson's on the Manawagush Road in the Parish of Lancaster, County of St. John and Province of New Brunswick."

Death Accidental
Ivison Graham's
An inquiry into the death of Ivison Graham who met his death while playing with his brother and another boy on Saturday last, was held in the Temperance Hall at Fairville last night before Coronator Dr. F. Buchanan, and resulted in the following verdict being returned: "We, the undersigned, favor summoned to enquire into the cause of death of Ivison Graham, find that his death was caused by the discharge of a gun in his own hands, which we believe, from the evidence given, was accidental, on Saturday afternoon the twenty-first day of May, A. D. 1921, near a brook in the woods back of Robinson's on the Manawagush Road in the Parish of Lancaster, County of St. John and Province of New Brunswick."

Theft Case Heard In Police Court
Walter Northrup is Charged With Stealing \$170 from V. D. Northrup.
Walter Northrup was charged with the theft of \$170 from V. D. Northrup in the police court yesterday morning. The complainant stated he was not related to the accused, but had roomed with him for a couple of weeks. He stated that he retired one evening, leaving his money in his trousers, and that he woke up the next day, and found his trousers were lying outside on the doorstep and the other Northrup had taken them. One man brought before the magistrate on a drunkenness charge aroused his Honor's ire, and he made pointed remarks as to the way the police force and other officials performed their duties. He was of the opinion that they were lax in arresting drunkards.

Receiving Junior Red Cross Members
A large military tent has been placed at the foot of King Street for the purpose of housing Junior Members of the Red Cross Society. The tent will be from 8:30 until 1 o'clock afternoon and all children can be members of the Red Cross Society and receive their badge on payment of 25 cents. Good reports on Junior memberships are being received from other parts of the province and St. John wants to make a good showing.

White Gabardine Skirts
They hang in slender youthful lines. Sheds dust more readily than any other White Cotton Fabric, washes and dries quickly. Has a beautiful soft finish that is enhanced by tabbing. Delightfully soft and yet extremely durable. Shirts ready, and slow to wrinkle. In a wide variety of fashionable styles and novelty trimmings. Handy anything more one could expect of a wash skirt. Specially so when the price range is reasonable. The start is made at \$3.00, then to \$3.50 and \$4.00, and up to \$4.75. We can assure you that these will be no greater value this season than last. The price range we offer you today at DUNSMITH'S.

Wanted—Office Boy
Apply Standard Office.
Dunsmuir at Seaside Park pavilion, Saturday night, 8.30. Orchestra in attendance. Professor H. Irving Boers, late of Queens and Cornell Universities, is spending the summer in Sussex.

Don't Let the Dog Catcher Get Your Dog
Your easiest and best plan to prevent it is to provide your canine with a stout, "showy" Dog Collar; the kind you'll find in our Sporting Department where we are featuring an up-to-date line from the leading English makers. A better line of Dog Collars we have never offered. They are shown in all sizes and styles, the range including russet leather, black leather, black with red edges, studded with polished brass and with nickel. You'll find here all lengths, from tiny poodle to mastiff sizes. SEE OUR MARKET SQUARE WINDOW.

Screen Doors and Window Screens
Stop the Flies—That is why the general public are becoming more and more in favor of Screen Doors and Windows. Screen Doors (all standard sizes); Window Screens (the adjustable kind); Wire Cloth (all sizes by the yard). If they do get in we have a good line of Swatters, all efficient and serviceable.

Commencing Monday Morning A Big Bargain Sale of Tweeds
We will place on our counters Several Hundred Yards of Good Quality, Hard-Wearing Tweeds—Just the thing for Practical Suits, Outing Skirts, Boys' and Girls' Suits, etc. Prices are cut to insure a quick clearance. Colors are brown, grey, green and all the new mixtures. Lot No. 1, All 56 in. Wide. Lot No. 2, 56 and 68 in. Wide.

Manchester Robertson Allison Limited
KING STREET - GERMAIN STREET - MARKET SQUARE.

GILMOUR'S CLOTHING SALE
This evening, Men's and Young Men's Suits, Tuxedos and Raincoats at greatly reduced prices. Savings range from \$5 to \$30. Delays are dangerous—You'll save by buying your Summer Suit today. Gilmour's, 63 King St.

WHITE GABARDINE SKIRTS
They hang in slender youthful lines. Sheds dust more readily than any other White Cotton Fabric, washes and dries quickly. Has a beautiful soft finish that is enhanced by tabbing. Delightfully soft and yet extremely durable. Shirts ready, and slow to wrinkle. In a wide variety of fashionable styles and novelty trimmings. Handy anything more one could expect of a wash skirt. Specially so when the price range is reasonable. The start is made at \$3.00, then to \$3.50 and \$4.00, and up to \$4.75. We can assure you that these will be no greater value this season than last. The price range we offer you today at DUNSMITH'S.
