DID STUDENT START THE FIRE?

Ethene Levesque Arrested for Recent Fire at College
A student at St. Thomas College, Z. Ethene Levesque, has been handed over to the police by the Rector of the college, charged with setting or attempting to set fire to the college buildings. It will be remembered that a mysterious fire was discovered early one morning recently in the wall of the building, but fortunately had gained no headway.
The authorities investigated the matter carefully and had young Levesque arrested. Three other students who are important witnesses in the case are being held for the case which is scheduled to come before the magistrate at ten o'clock tomorrow morning.
Levesque was a student at the Carleton college at the time it was totally destroyed by fire. He does not seem willing to stay in any institution of learning.—Chatham Gazette.

PACK PARCELS TO GERMAN PRISONERS

Mail Matter for Prisoners in Germany Should Have Special Care in Packing

The Post Office Department has been notified by the British Post Office that many parcels sent from Canada to Prisoners of War in Germany are being received in London in a damaged condition, so that frequently they have to be repacked before they can be forwarded to Holland for transmission to Germany. The British Post Office adds that in most cases the damage appears to be due to the fact that the parcels were inadequately packed by the senders.
The public are warned, therefore, that parcels for Prisoners of War, unless they are very strongly packed, will probably arrive in such a condition as to be of little or no use to the recipients.
Ordinary thin cardboard boxes, such as shoe-boxes, and thin wooden boxes should not be used; nor does a single sheet of ordinary brown paper afford sufficient protection. Even where proper materials are used, it is important that the contents should be tightly packed so as not to shake about during transit. The following forms of packing are recommended:—
(1) Strong double cardboard or strawboard boxes. Those made of corrugated cardboard and having lids which completely enclose the sides of the box are the most suitable.
(2) Tin boxes such as are used for packing biscuits.
(3) Strong wooden boxes.
(4) Several folds of stout packing paper.

The British authorities advise that parcels for Prisoners of War in Germany must not be wrapped in linen, calico, canvas, or any other textile material.
Parcels posted in Canada for Prisoners of War in Germany which have not been adequately packed by the senders will not be forwarded but will be returned to the senders, as the British Post Office has notified the Department that parcels which are inadequately packed must be returned to the senders.

LONDON JUBILANT OVER THE VICTORY AT VERDUN

French General Nivelle, After Watching for Weeks, Sent Troops Leaping at the Enemy and They Carried All Before Them.—German Front Swept Away.

London, Oct. 25.—On the French communique announcing the recapture of the fort of Douaumont and the Haumont Quarrie and the smashing of the German line over a four and one-third mile front north of Verdun all the morning papers comment exultantly in special late editions.

The Times says:—"This strikes a severe blow at German prestige and shows the German staff the danger of weakening its lines in the west. The victory will disquiet the enemy, hearten the Russo-Romanian parties and inspire all the allies with fresh confidence."

The Daily Telegraph asserts:—"The French have dealt a staggering blow, putting a finishing touch to the story of the heavy British blow delivered in the last week-end. The victory proves to what point of mastery our troops have attained in the business of grinding Germany in the mill."

Paris, Oct. 24.—Verdun, long lost sight of, sprang suddenly and unexpectedly today into the forefront of the public mind which exclusively had been directed towards the Somme front. The German front on the right bank of the Meuse literally was swept away for a distance of four and a half miles like straw before the wind.

General Nivelle for weeks has been watching the German movements like a lynx, carefully calculating the effect of every withdrawal of troops to the Somme and eastern fronts. At the same time, he quietly made his preparations and when he judged the Germans had thinned their defenses to the danger point, he struck like lightning. The result was one of the most brilliant operations of the campaign.

The Germans who yesterday were pressing close upon the inner line of defenses at Forts Souville and Tavannes, have now been driven beyond the outer defenses of the Fort Rougemont-Vaux line. Vaux fort remains in possession of the Germans but the French line extends beyond it on the north as also on the south of it at Damloup Battery and Chemis Wood from both of which positions it can readily be attacked.

The French artillery preparation was brief but intense and was over before the German commanders had time to bring up reinforcements, even if they were available. The assaulting French waves caught them before the Germans recovered from their surprise and swept over trench after trench, sending prisoners in all lines to the rear. The French losses were very slight, it is believed, even lighter than any recorded in the attacks on the Somme front.

PIPES SUPPLIED FOR 26TH BATTALION

American Gentleman Sends Word to Col. McKenzie to Buy Them

It will be remembered that in writing to Col. McAvity in reference to the work of the 26th Battalion, Col. A. E. G. McKenzie suggested that a set of bagpipes would be very acceptable, and would be a help to the Battalion.
Mr. George Cutler of Boston, who has large lumber interests here, wrote Mr. W. F. Napier, manager of the Shives Lumber Co., authorizing him to cable to Col. McKenzie and instruct him to purchase the needed pipes and to draw upon him at sight in Boston for the required amount.
Mr. Cutler has taken great interest in our local Battalions and has, through his interests here, been a generous contributor to the various funds being raised for patriotic and other purposes.
No doubt the pipes will cheer our boys on their marches and in billets in France.

PUBLISHERS MEET AND TALK BUSINESS

Increase of White Paper a Vital One to Publishers—Weeklies Advance Rates

A meeting of the publishers of the Maritime provinces was called to meet at Truro last Thursday afternoon to discuss the paper question.
President J. G. Elliott, of the Canadian Press Association, and Roy Sayles, of the weekly sections of the Canadian Press Association, addressed the gathering of representatives of the newspapers of the maritime provinces.
It was shown that if the proposed new price goes into effect it will mean an extra expenditure by Toronto papers for paper alone of double the profits of all newspapers published in Toronto.
The matter of increasing the subscription price of weekly papers was also discussed, and those present were unanimous in their expression of opinion that drastic steps would have to be taken if the papers were to survive the present crisis.

In the evening the Maritime Press Association elected officers and decided to meet in Moncton next year.

CAPT. MERRILL PLACED ON TRIAL

Charged With The Murder of John Fletcher Rogers, at Moncton

Dorchester, N. B., Oct. 25.—The trial of Capt. John E. Merrill, charged with the murder of John Fletcher Rogers, clerk in the I. C. R. General Office, Moncton, Oct. 17, begins at 2 o'clock this afternoon in the Supreme Court here, Mr. Justice W. B. Chandler presiding. Among the witnesses summoned by the crown is Dr. J. V. RAILWAY MEN

ROBBED CARS

Convicted of Breaking Into Freight Cars and Taking Liquor and Other Goods

For some time complaints have been made that the seals of freight cars were found tampered with, and small quantities of goods were missing from cars. These breaks occurred between Mont Joli and Campbellton.

C. G. R. Detective Culligan was instructed to watch the matter and after a few days he placed under arrest two railway men. One upon being confronted with the evidence pleaded guilty, while the other decided to stand trial.

The goods which consisted of liquor, cigarettes, tobacco and other articles, were taken to Rimouski where they were disposed of.

Both men bore good characters and judgment has been reserved.

Dear Sir:

People hear on the street or see in the papers that a large number of cases of typhoid fever have developed in town and that there is a menace of a severe epidemic. For the benefit of the public allow me to rectify these reports and state the exact sanitary conditions of the town on this subject.

About one month ago several cases of typhoid fever were reported at the same time in a certain district of the town. After investigation, it was deemed necessary to send samples of milk delivered by a certain milk vendor, as all these cases, except one or two, were taking their milk from the same party. The report of the milk examination shows that no "typhoid bacilli" were found in the milk, but that it was contaminated by "colon

Pie, J. H. Smith of the "Princess Pats" writes: "Tell my friends, if they want to help me, to send some Zam-Buk. We find it very useful indeed, and we can't get too much of it."

Pie, Johnson, writing home, says: "Mrs. — has offered to send me a rug. Ask her to send some Zam-Buk instead. It will be of more use here than all the rugs in creation."

Nothing ends pain and heals so quickly as Zam-Buk, and being germicidal, if applied to a wound as soon as sustained, prevents all danger of blood poisoning. The soldier who carries a box of Zam-Buk in his pocket will be saved much needless suffering. Don't let your friends go without.

A REMARKABLE STATEMENT

Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill. — "While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I cannot praise it enough for it saved my life and kept me from the Insane Hospital." — Mrs. E. SHELDON, 5667 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

"The colon bacilli will cause a disease which has all the symptoms of typhoid fever and which lasts almost as long, but with less severity in the majority of cases."

The examination of the blood of the patient is the only means to tell whether it is real typhoid fever of a colon bacilli infection that we have to treat. This has little importance, as the treatment is the same.

This colon bacilli infection was only temporary in that district and no new cases developed lately.

Apart from that, there are a few cases of typhoid fever in town, but perhaps less than we generally have every fall, and several of them took their infection out side of Campbellton. Some will judge of the town's sanitary conditions regarding typhoid fever by the number of cases treated in our hospital. This is a mistake, as mostly all these patients are from out side districts.

Our water seems to be pure and we have no reason to believe that one single case of typhoid was caused by it.

Yours truly, L. G. PINAULT, M. D., Chairman Local Board of Health.

Chandler, Oct. 23rd, 1916.

Dear Sir: How is the weather in Restigouche? We had quite a shower down here—some would call it a rain. What was done to men who wasted the people's money and spoiled the roads up there? We didn't see any notes from Durham in your last paper. Do you know if they found out the length of that bridge yet? and is that man alive yet who gave his job to another man? He must have lots of friends around there, and when he dies we hope they will not forget him. He must be a very large hearted man, and they should subscribe liberally and get him a large tombstone, and have inscribed in large letters these words: "Here lies the man who himself did rob, to give another man a job."

And do you know how the potatoes turned out in Durham? Are they very small ones, and has the Dr. many cases on hand at present? What does the jury think of the supercription written in the Chatham World, and what are they going to do about it? Has any of them been seen out around the shore lately? and why was Eel River Bar taken out of the hands of providence?

Sir: After reading the article copied from exchange in your paper headed "Quebec has failed", we certainly think it has in one way, especially on the Matapedia. "We have sent some of our best men", some killed, some who has not conscription come here before this? There are more young men lurking around and insulting women at the station, even to our prominent business men's sons, (or at least they think they are). Another case I refer to is a woman begging at my house the other day for old clothes. I went to the station two evenings afterwards and found her two sons intoxicated, and both able bodied young men physically fit to do the khaki. There are young men in Matapedia that young ladies are tired hooting at and calling them cold feet. Is it not time the boys were up and making a rush to do the khaki? Send conscription men or the ladies will have to put on the Matapedia river. Hoping I have not taken up too much space. With success to the Graphic, I am, A TRUE CANADIAN.

IMPORTANT JUDGMENT

IN LUMBER CASE

R. N. LeBlanc Wins in Suit Brought Against Him for Stumpage

Judgment was rendered in the Superior Court at New Carlisle, last week in a case which has been before the Courts for a number of years, and which attracted considerable attention throughout the Province of Quebec.

About six years ago, the late Honorable Jean Prévost, Member for Terrebonne in the Legislature of the Province of Quebec, made certain charges against the Honorable John Hall Kelly, of N. W. Carleton, to the effect that the latter had been connected with Mr. R. N. LeBlanc, of Bonaventure, and had assisted the latter in avoiding the payment of Crown dues for lumber cut on Crown Lands.

As a result of these charges, the Government of the Province decided at the time, to take an action at law against Mr. LeBlanc, as the Honorable Mr. Prévost claimed that he was indebted to the Government in over \$20,000.00 for stumpage dues, which had remained unpaid.

The case commenced several years ago, and over a hundred witnesses were heard. All parties who held location tickets in the Townships of Cox and Hamilton, on which lumber had been cut, from 1896 down to 1906, were heard as witnesses, that is to say, those who sold their lumber to Mr. LeBlanc.

One after the other, these witnesses were heard, giving the exact amount of lumber cut by them, and how it was disposed of.

The Government of the Province was represented by Lawyer St-Laurent, of the firm of Galipeault, St. Laurent, Metayer and others, of the city of Quebec, and Mr. R. N. LeBlanc was represented by the Honorable John Hall Kelly, of New Carlisle.

The stand taken by Honorable Mr. Kelly was that Mr. LeBlanc owed nothing to the Crown, that he had paid all stumpage due by him, and that if there was any lumber delivered to him that he did not pay stumpage on, it was because the stumpage had been charged up by the Government to the farmers themselves who sold the lumber to him.

By the judgment that was rendered last week, the Court decided that Mr. LeBlanc owed nothing to the Crown, and the action taken by the Government was consequently dismissed.

The body has been brought to the city and the funeral will be held this afternoon from the residence of James Whittaker, 34 Dorchester street.—Telegraph.

NEWSPAPER MAN INJURED

While travelling from Fredericton to Taymouth, York Co. recently, Mr. J. Anslow, the veteran Nova Scotian editor of Windsor, N. S., was severely injured. While stopped at Marysville he was standing warming himself at the stove in the passenger car attached to a mixed train, the only one leaving Fredericton in the morning, when suddenly the train was backed with a jerk, which threw the aged man to the floor, striking heavily. When medical aid was summoned it was found that his hip was dislocated and he had other minor injuries. He was removed to the home of his niece, Mrs. Wm. Munroe, Taymouth, where he will be confined to bed for some time. Many friends all along the North Shore who knew Mr. Anslow in his younger days, when he used to visit this territory in the interests of the Union Advocate will regret to hear of his accident.

THE NAVAL RECRUITING METHODS

Past and Present

The method used to obtain men for the Royal Navy by Captain Guinness is very different to that which prevailed in the days of Nelson when the "Press-gang" was used; the Navy was not as it is now a popular service even in Nelson's day, and in order to get a full crew for a new ship it was not an uncommon thing for the Captain to send a few of his hearties ashore with an officer to press men into the service. In this way men were forcibly taken from their homes at a moment's notice and placed on board one of the King's ships to work as a sailor until he could buy himself out by paying a substitute. As an inducement, and to prevent desertion, a "bounty" was offered to all pressed men, who were allowed to "volunteer" after a fortnight's pressed service, which bounty was paid to them on "volunteering", in some cases it would amount to as much as \$300 or \$400.

While the British Navy to-day is essentially a voluntary service, the bounty mentioned above has its counterpart now in that a certain proportion of the Royal Naval Canadian Volunteer Reserve man's pay will be kept back until the termination of his service; as while actually serving the proportion of their pay given to them will put them on an equal footing with their English messmates, while the proportion saved for them will put them on the same standing with their brothers in the Army Expeditionary Force.

THE PATRIOTIC FUND

Some canvassers have gone over a part of the County in an effort to secure contributions for the Patriotic Fund. Others are to follow. While money expended cannot win this war, it certainly can be and is of great service. Whose war is this? By what right or power do farmers hold their farms, business men their interests, householders their homes and individuals their liberty? British law is the bulwark upon which all these conditions obtain. British law can only be swept aside and made ineffectual by the displacement of British power and authority. Imagine for a moment the overthrow of British authority and the substitution of German—a condition that would obtain if Britain is not able to stand up to her portion and to the demands made upon her for men and munitions. As parts of that Empire—the position of which and its importance and honour, stir the blood of a healthy, honest man or woman and constrains them to thank God from the bottom of his or her heart that he is a part of that Empire—Canada, New Brunswick, Restigouche County has a work to do to maintain the traditions of that Empire. The Empire wants men—more men. Men have already gone and borne the brunt of this conflict for two years without

rest. More men must go to take the places of those laid aside. Are you willing to go? If conditions make it impossible for you to go to the firing line, won't you—we ask you as fair-minded men—men of the old British blood—won't you spend some of your money to make it possible that other men may go instead of us? Be willing to make some sacrifice—for by sacrifice only can this war be won. We appeal to our readers throughout the County—to think over this matter of an appeal. There is no politics in it—only a clear call for help. When the collectors come to you for a contribution, don't meet them with a grumble nor an excuse, but an expression of the big-hearted, generous Restigouche County citizen of warm, red British blood.

Mr. Charles Marcell, M. P., writing in The Montreal Herald says:—
"The West has been stationary for the last five years. After five years of Tory rule it finds itself going backwards—as in the former Tory regime previous to 1896. Before the war broke out people began leaving the West and going south largely because farming did not pay as well as it did south of the line. The high tariff and the barriers of all kinds put on the farmer and his property helped the exodus. Thus immigration began falling and has continued ever since. Then the war broke out and a hundred thousand young men and more left the west for Europe. The result of all this is a serious shortage in labor, which is being felt in all spheres. Saskatchewan is threatened with a coal famine owing to shortage of labor. It has not one-tenth of the coal supply on hand which it needs for the winter. But the most extraordinary thing of all is that in this Western country, which was called the Granary of the Empire, the price of bread has gone up 25 per cent. and more. And matters will grow worse during the coming winter. If there are hardships in the East, and they are numerous enough, those in the West are not to be envied. And the country is said to be prosperous."

OUR FRENCH CANADIANS

The story of the courage and clan of the French-Canadian volunteers at Courcellette makes inspiring reading. Our fellow-Canadians of the French speech have all the initiative of soldiers of the New World and all the spirit and dash of soldiers of Old France. This story will re-echo through Quebec like a trumpet call, and it is impossible that these brave lads shall be left without the support which their bravery deserves. Montreal has been taking a leading place in the recruiting column of late. The patient and faithful work of the men who have been sowing the seed here, is being abundantly repaid. The reaction may have been a trifle more rapid in the West; but it is appearing now in Quebec, at the very moment when more men are sorely needed. Our

public men of both parties have at last taken Bourassaism by the throat, and French-Canadian audiences heartily hiss the misguided mediaevalist who has sought to mislead them.—Montreal Star.

LETTERS FROM THE FRONT

Norwich, Sept. 28th, 1916.

Dear Mother:—
I am on my feet again, was up yesterday afternoon for the first time. I am weak yet, but the nurses think my recovery up to the present as almost marvellous. My arm is off just above the elbow. It isn't very painful. I had a letter from Arthur, he is still in bed. Don't send any cake if you send any parcel to me while I'm here.
I must close as it is dinner time.
With love to all,
Your loving son,

Dear Madam:—
I beg to inform you that Lance Cpl. Hill, No. 111231, 5th Canadians, who is now at Norfolk War Hospital, Thorpe, Norwich, Norfolk, England, was sent to the above hospital a few days ago, having been wounded in the right arm, which it has been considered necessary to amputate. He was visited yesterday by our authorized Red Cross visitor, who found him going on very well. He is able to get up for a bit and is really quite comfortable and cheerful. We trust he will continue to improve. We will be glad to do all we can to add to his comfort. I shall write you again next week of his welfare. In the meantime there is no cause for anxiety.
Yours truly,
BEATRICE CAVERHILL,

Minister's Office, Ottawa,
18th October, 1916.

Dear Mr. Pratt:—
Will you kindly accept my sincere sympathy and condolence in the decease of that worthy citizen and heroic soldier, your son, Private Gordon Pratt. While one cannot too deeply mourn the loss of such a brave comrade, there is a consolation in knowing that he did his duty fearlessly and well, and gave his life for the cause of Liberty and the upbuilding of the Empire.
Again extending to you my heartfelt sympathy,
Faithfully,

regret that I learned today of the death in action, between September 15th and 17th, of your son, Private Gordon Pratt.

I am writing this letter for the purpose of extending my very deep sympathy to you in your sad bereavement. Nothing of course can lessen the effect of the blow and of the sorrow caused to you and his family and intimate friends, but at the same time it is a satisfaction to know that he died serving his country, fighting in defence of those who are life at home and of the free institutions that are so dear to the heart of every Canadian and Britisher.

Again expressing my very sincere sympathy, I am,
Yours very truly,

France,
Sept. 27th, 1916.

Dear Mr. Doyle:—
You will doubtless have been notified before this of the death in action of your son, Pte. J. T. Doyle, No. 444913, which occurred while his battalion was taking their part in the great advance still proceeding. He was buried on the field of battle and you will wish to know that we were able to give him Christian burial. I hope that it will be some consolation to you that in his death under such heroic circumstances and in the way of duty he showed himself a brave soldier and a true man.

Refreshing Tea

In any season—Summer or Winter—there is nothing more enjoyable than a delicious cup of tea. The flavor must be "just right," though, and that's where KING COFFEE excels.

"You'll like the flavor"

I beg to extend to you on behalf of the officers and men of the battalion and on my own, our deep appreciation of his gallant conduct and our heartfelt sympathy with you in his loss. May the Lord Himself be your comfort and stay in the hour of trial.
Very sincerely,

SHAME OF THE YOUNG MEN WHO STAY HOME.

To the Editor:

I have read with a great deal of interest Shorncliffe's letter, and think she must be one of the very generous hearted women of this world. I think this war has shown the true spirit of each one and also shown how truly loyal and noble some people are (as in Shorncliffe's case) and how selfish and lacking in honorable principles others are. I am a soldier's sweetheart, and I know of only one thing harder than seeing "him" go, and that is being the sweetheart of a young man who is physically fit and yet who is content to stay here and enjoy the blessings of this great Canada of ours, while other boys who have the same right to stay at home, and to whom life and loved ones are just as dear, dearer—goes to fight, and if need be, lay down his life that we may be protected from the fate of Belgium. Shorncliffe is right. There are some who might have been married, but who prefer to wait until "he" comes home, if Providence wills, when they can settle down with the clear consciousness of having sacrificed a little of their own pleasure for duty's sake, as I believe the young man who marries during war time is on a par with the single man, and has the same right to enlist as the young man who perhaps is just as anxious for the happy day but, who hears and answers his country's call, with all good wishes for our Canadian boys and for all who are nobly doing their part and sacrificing their loved ones for the sake of our dear old flag and the empire we love so well, and if half of the fellows who are walking on Water St. and think so much of themselves would do the same, the war would not last so long. If they would say to themselves, "I will go and do my bit for my King and country, and not be a coward," the young boys that are staying back and have no ties would be ashamed, to think that they would stay here and let all the other boys that are doing their bit fight for them. I am sorry I have no brothers to go out and help, but I have lots of friends out there, I am proud to say. Miss "Bright Eyes," don't worry about the boys that are left. They are not worth a thought. Open your ears boys and hear that they are calling for Kitties. Join now. By M. B. H.

LETTER

Auxiliary Military Hospital, Frodsham, Cheshire. Oct. 5, 1916.

Dear Mother:

I suppose you have received work by now that I have been wounded. I was wounded on the 26th of Sept. It is a bullet wound in the right side and is not very bad. I am in the hospital now over in England. It is a fine place and I tell you that I look after a fellow great and we get lots to eat and the very best. I don't know how long I will be in here, but it will be for some time yet. It took me three days to get over here from France and I have been in the hospital now five days. Well mother, I think the war will be pretty well over by the time I am here. I tell you that the Germans are pretty tired of it. We took a lot of German prisoners the last battle I was in. I think I have been pretty lucky. I've been in France 18 months and has just wounded the other day. I was a long time getting it and I was lucky that it was just a wound. I will have a good rest now and perhaps I will never go back to France again. You can tell Lucy that I got her parcel a couple of days before I got wounded. I am not able to write to her now, but will do so later on. I wrote you a letter just a couple of days before I was wounded, I hope you got it alright. I know you was shocked when you heard that I was wounded. I know how you worry, but take courage I am alright, if I was very bad I would tell you. You shouldn't worry now, both Arthur and I are over in England now and we are both alright. There is no danger of any Germans getting us now for we are quite a long way from them. I can laugh at them now. Well mother, I would like awful well to see you now. I hope it won't be long before I do. Let me know if you are still getting my money every month. I suppose Ida's family is grown up. I would like to see them. I suppose Tom is living with you. Tell him that I would like to see him out here fighting with a big German. Tell him if he meets any in Canada to give him one for me. Well mother, I can't think of anything else, so I will close, hoping to hear from you soon. Remember me to all the family. Pte. Harry Young. SORE, ACID STOMACHS, GASES OR INDIGESTION

Each "Pape's Diapiesin" digests 3000 grains food, ending all stomach misery in five minutes.

Time! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapiesin is noted for its speed in regulating upset stomachs. It is the surest, quickest stomach remedy in the whole world and besides it is harmless. Put an end to stomach trouble forever by getting a large fifty-cent case of Pape's Diapiesin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder. It's the quickest, surest and most harmless stomach doctor in the world.

FRENCH WIPE OUT 2 MONTHS OF GERMAN GAINS IN ONE DAY NEAR VERDUN

Paris, Oct. 25.—In a powerful series of attacks on the Verdun front the French have captured the village and fort of Duamont, advanced beyond the Thiaumont Work and farm, and occupied also the Haudromont quarry, north of Verdun, according to the bulletin issued by the war office last night. The prisoners captured and counted thus far number 3,500.

Unprofitable.—A six-weeks-old calf was nibbling at the grass in the yard, and was viewed in silence for some minutes by the city girl. "Tell me," she said, turning impulsively to her hostess, "does it really pay you to keep as small a cow as that?"

Physician's Eczema Remedy

Dr. Holmes, the well-known skin specialist, writes: "I am convinced that the D. D. D. Prescription is as much a specific for Eczema as quinine for malaria. I have been prescribing the D. D. D. remedy for years."

This soothing combination of oil of Wintergreen, Thymol, and other healing ingredients called D. D. D. Prescription is now a favorite remedy of skin specialists for all skin diseases. It penetrates the pores, gives instant relief from the most distressing itch. Its soothing oils quickly heal the inflamed tissues.

Come to us and we will tell you more about this remarkable remedy. Your money back unless the first bottle relieves you. D. D. D. Soap keeps your skin healthy. Ask about it. A. McE. McDonald, Druggist, Water St., Campbellton, N. B.

As it is quite a while since your Migusha friends wrote to the Graphic, we are glad to tell you that all the crop was saved in good condition. The potato market is very fair, all the farmers look at the future with good hopes.

Mansfield Greene, who has been kept in his bed with severe illness, is getting along fairly well. His many friends are looking to see him around soon.

His brothers Mat and Robert were home to see him. Also Mahel from Gascandia. All were pleased to see him in the mending way. We had quite a snow fall last Monday. Our popular teacher, Miss Hall

was out calling on friends with Mr. Joseph Greene. Though they had a very good lantern they took the wrong road and it was at a very late hour they arrived home, after a very long walk through the woods. If Mr. Greene had not been so well acquainted with the roads, hard to say what the results would have been.

MONCTON METHODIST CHURCH DEDICATED

The Central Methodist church, Moncton, was dedicated on Sunday morning, the new edifice was crowded at all services. Rev. Dr. Chown, of Toronto, superintendent of the Methodist church of Canada, preached morning and evening. He was assisted at the services by Rev. H. A. Godwin, Central Australia; Rev. Thomas Hicks, president of conference; Rev. R. Opie, chairman of district.

Following Dr. Chown's sermon at the morning service, the officers of the church stood and F. A. McCully on their behalf presented the keys to the general superintendent. The formal dedication then took place, the congregation standing. This was followed by prayer offered by Rev. Thomas Strothard, Truro, N. S., former pastor of Central Methodist church.

SUCCESSFUL TEA

The girls of the Methodist Church Mission Band gave a very successful 15 cent tea Saturday afternoon. Over \$25.00 were cleared.

INSTEAD OF PAINT

DON'T paint your pretty home this season, but use instead Velvex Creosote Shingle Stains. By so doing, you can bring out all the beauty of the wood, and think of the preservative value. Velvex Shingle Stains contain Creosote, the greatest wood preservative known. This means prolonged protection against wind and weather. It therefore means economy.

Velvex Creosote Shingle Stains Half the Cost — Twice the Wear Velvex Creosote Shingle Stains cost about half as much as paint. And they wear twice as long. They penetrate the wood. They do not evaporate or dry out and of course they cannot peel off. These stains come in any color you want. They are very easily applied. You ought to have them on all your woodwork. Write us for a sample and we will send it to you. Velvex Creosote Shingle Stains. Carleton-Peterson Mfg. THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life. An it's not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

FROM INTER-COLONIAL TO INTER-IMPERIAL

Up until this present time, we have been accustomed to think of the Canadian Government Railways as being peculiarly a Maritime institution. The Intercolonial, when we first knew it, ended at Riviere du Loup, not far outside New Brunswick, in the Province of Quebec, where it connected with the Grand Trunk and in that way put us in touch with the railway system of the western provinces. The extension to Montreal which was made twenty years ago did not seem to us to rob the I. C. R. of its Maritime complexion; it was for us it existed, and the extension but put us a little more directly in contact with the great centres of the country. At the time it seemed to us that that extension meant completion. Some may have dreamed of a further extension, but certainly few ever thought that one day the Government Railway would be extended to tap the great grain country of the far west. The past few months, however, have been getting us accustomed to a new idea. The Intercolonial, as we have indeed a national institution, and lo! the misnomer is disappearing; we think and speak of the I. C. R. still, but what we really mean is the C. G. R., the Canadian Government Railways. As new equipment is added, or old refurbished, they now paint "Canadian Government Railways" on the rolling stock where formerly they used to paint "Intercolonial." The folders and time tables and other literature of the system bear the new name. Three separate systems have now been rolled into one: the Intercolonial, the Prince Edward Island Railway and the National Transcontinental are today comprehended under the one name—Canadian Government Railways. And the western gateway for the time being is in Winnipeg.

Note the development! First the terminus was the town of Riviere du Loup. Then it was moved to Montreal. Now it is Winnipeg. One asks, Where next? On the Pacific Coast? To which we make reply, Why not? If there was a reason for extending the system to Winnipeg, why not to a Pacific port? Having made the I. C. R. so much a national institution, why not go a step farther and make it entirely national? Time was when the people about the Great Lakes and farther west used to look upon the Government railway as a Maritime institution only. And they used to complain more or less about what we were getting out of the rest of the country. In fact some of them haven't quite got over that grudging habit yet. But the new order of things will bring about a change. We have a suspicion that the recent move is but the beginning of a bigger scheme. We

should not be surprised if the day were coming when the system will not only tap the grain country of the west, but will extend its ramifications all through Quebec and Ontario. And in so doing, it will do in its larger area what it has been doing in the Maritime Provinces, namely, giving the population affected a good service at a reasonable cost. Once the benefits of government ownership are felt we may assume that the system will go on enlarging and becoming more truly national in its character. This is no new conviction on our part. It is the hope which has been advocated in these columns for many years.

But is that the end? Have the possibilities been achieved when the Government train that takes you aboard at Halifax puts you off at a port on the Pacific coast? May we not see the day when our one time Inter-colonial may become Inter-imperial? When a traveller may buy a ticket in the old capital of the Empire, London, to take him by way of Canada to Canberra, the new capital of Australia, or even to Delhi, the new capital of old India, all the while to travel on government-owned ships and trains? Some day, when the nations have laid down their arms and Imperial Britain is permitted once again to pursue the arts of peace, it is quite possible, and we would say practicable, for the little railway that began at Halifax a half century or more ago, to have grown into a great system for the development of the Empire and for its consolidation in a material sense.

As we think of the present extension and dream of these possibilities, we are reminded of a very significant fact. This extension is an extension of the government-owned principle in Canada. There are people who argue that public ownership is unsound, but whatever there may be in their contention, the fact remains that government ownership goes on increasing. It is an old story in Europe where all sorts of public franchises have been pretty well turned over to either municipal or national ownership. Since the beginning of the war, the principle has gained wider application in the Old Country than ever before.

It may be said that the extension of Government ownership in Canada is in obedience to a general tendency. What the disadvantages of Government ownership may be, society seems to think they are outweighed by the advantages and seems to believe that experience will lead to the elimination of any disadvantages that may present themselves. The efficient management of the I. C. R. at the present time has no doubt proved an important factor in removing these old time prejudices. However, this article is not intended to discuss this question, and we make mention of it simply because of the significance of so wide an extension of the principle of public ownership in Canada.

Those of our readers who have not had the opportunity of knowing much about that the Railway Department is doing with this addition to its lines, will no doubt be interested to learn some of the particulars incident to the enterprise. For the organization of an extensive new railway is no mean undertaking. It is probable that so extensive a mileage of new and unequipped railway was never before taken over by any railway and when one thinks of the task involved in providing for the locomotives, passenger cars, baggage cars, telegraph operators, station agents, train crews, and all the human and other material necessary in the conduct of railway transportation, it will be understood that the management had no small problem to solve in getting things started. Nevertheless, when we were pressed on June 1st, 1915, a little over three weeks after the first official announcement of the appointment of a General Superintendent for the National Transcontinental section, a train service was immediately set in motion all over the eleven hundred miles of new line.

The reader who is familiar with the railway map of Canada, will have in his mind's eye the route covered by the new acquisition. It includes the line which stretches from Quebec to Winnipeg and the spur which runs down from this section of main line to Port William.

It is fitting that the name "National" should be given to the premier press of the railway that has now graded, so to speak, from a sectional to a national status. The "National" is a modern express in every respect, having all the latest conveniences. It provides a tri-weekly service between Toronto and Winnipeg, and made its first trip from Toronto on July 18th. The "National" has been tersely described as a new train, by a new route, through a new country. The route traversed is via Grand Trunk, to North Bay, the Temiskaming and Northern Ontario from North Bay to Cochrane, and thence by the N. T. R. line (now C. G. R.) from Cochrane to Winnipeg. Representatives of the press were invited to participate in the inaugural trip, and judging from the reports which appeared in the various papers, the excellence of the roadbed, equipment of the train, possibilities of the country, grandeur of the scenery, created excellent impressions. It is predicted that the business so developed will, in the near future, demand a

daily service. For the present there is no through passenger service between Quebec and Winnipeg via the Government Railways main line, but the time table is so arranged as to make a through connection at the various divisional points. When the necessary rolling stock has been received, a bi-weekly through passenger service from Quebec is likely to be inaugurated.

In addition to the services mentioned might be made of the daily fast freight service between Toronto and Winnipeg, via the route of the "National," which is an indication of the freight traffic developing by the new route between the East and West—the eighth and most northerly transcontinental line.

If one couple with this extension of the Government Railway system, the immense port works that are going on at Halifax and St. John, one cannot help wondering if both are not parts of a scheme which the Government have in mind, which in its fulness it has been wise to keep in the background for the time being. We remember a remark made by the Minister of Railways at a meeting over which he presided while in Halifax a short time after the port development scheme was first promulgated. It was the first time the Halifax public had a chance to get at him and the critics of the scheme were there to try conclusions with him. One man thought he had a convincing argument when he said that there wasn't the business to make use of such an extensive terminal. The Minister quietly replied: "Our scheme will be a great failure if what we have in view does not fill those docks to overflowing with business." We have no idea what the Government had in view then, but perhaps they were only getting ready to fit up this eastern terminal for the business that the projected western extensions would occasion in the future. The late Sir Wm. Van Horne once said that we had greatly enlarged the bin without enlarging the hopper, and perhaps Mr. Cochrane knew something about the kind of hopper it would be necessary to provide at this eastern end of a railway that he then had in mind would

be the site of the new Halifax terminals one day recently and in our mind's eye we could picture the scene as it will be ten years hence. We walked past the high clock tower at our left into the great train shed, and over one of the tracks we saw the following notice board: "This train for Montreal, Winnipeg, Prince Rupert and all points in the Orient." The "Hong Kong" train was standing there ready to pull out on the stroke of the bell. Then our mind went back to the time quarter of a century ago when the late Dr. Farrell coined a phrase that has become proverbial. Speaking to an audience that had assembled to protest against the mail ships making their terminus at Portland, he put his hand to his ear and said, "Hark! Have you heard the whistle of the Hong Kong train? No, you have not heard the whistle of the Hong Kong train. Why? Because it is blowing in Portland, several hundred miles away." Now the Hong Kong train was blowing in Halifax, and the dream of Nova Scotia for many generations was realized at last. When our vision ended, we returned to our desk, but we have the faith to believe that while Winnipeg is for the time being the western terminus of the new way, that once ended abruptly we were going to say, at Riviere du Loup, the time is coming, perhaps it is not far distant, when the old "Intercolonial" will link up the uttermost ends of the earth.

This department is conducted by the Local Union, and is under the charge of an Editor appointed by them. This Editor assumes the responsibility for the statements and articles which appear in this column.

The tenth annual convention of the New Brunswick and Prince Edward Island Women's Christian Temperance Union was held in the First Baptist Church, Moncton, October 10-12th inclusive.

Many delegates were in attendance. The Corresponding Secretary's report showed 21 Unions with 500 active members and 19 honorary members.

The Treasurer's report showed receipts during year were \$1401.48; expenditures \$1075.51, balance \$325.97.

One paper was read entitled, "Value of Press Work."

All departments showed good work being done despite the crying appeal for Patriotic work for our soldiers and sailors.

The Convention speaker was Mrs. Emma Howland of Boston.

Mrs. Howland won many friends at the Convention. Her personality was most striking and her addresses very helpful and inspiring. Some of the things she spoke of were "What the White Ribbon stands for," "Advances made in Temperance Work and some of the Victories gained," "Liquor Traffic and our Responsibility."

Her presence was earnest and helpful and went far towards making the Convention a success.

Rev. W. D. Wilson, secretary of the Dominion Alliance addressed the meeting Thursday morning. He claimed that in the last twenty-six months Canada had lost more men by drink than by fighting for the Empire. A hearty vote of thanks was tendered Mr. Wilson for his splendid address.

Mrs. L. R. Hetherington, corresponding secretary, in submitting the Provincial report for 1916, said:

"After 62 years of more or less strenuous effort by the temperance people and many disappointments, a Prohibitory Law is again on the Statute Books of New Brunswick and goes into force May 1st, 1917."

In 1855 the first Prohibitory Law was placed on the Statute books, having been introduced by Hon. S. L. Tilley, afterwards Sir Leonard. There was such an uproar that Governor Manners Sutton forced the Government to resign. The election afterwards resulted in defeating the Prohibitionists and only three were elected who voted against the repeal of the law. Hon. A. R. McClellan, ex-Governor of New Brunswick was one of that noble band and is the only one living today.

Among resolutions adopted was the following one moved by Mrs. Hetherington, of Riverside.

Resolved that the provincial Women's Christian Temperance Union of N. B. and P. E. I., now in session send greetings to, and express their utmost appreciation of the noble stand taken by our ex-governor, Hon. A. R. McClellan, Riverside, over 60 years ago on the prohibition question and accompany this with a bouquet of flowers tied with the emblematic white ribbon.

This was seconded by Mrs. Perry of Summerside and carried unanimously. The following was received in reply: Riverside, 12th October, 1916.

Dear Madam: I very much appreciate the kindly reference of the W. C. T. U. to myself and the legislative action of 60 years ago, and with thanks for the very beautiful floral tribute. I remain with best wishes,

Yours respectfully,
A. R. McCLELLAN.
To Mrs. L. R. Hetherington,
W. C. T. U. Convention,
Moncton, N. E.

The following officers were elected: Pres.—Mrs. Margaret McWha, St. Stephen.

Vice-Pres.—Mrs. J. S. Perry, Summerside.

Cor. Sec.—Mrs. L. R. Hetherington, Riverside.

Rec. Sec.—Mrs. T. A. Clarke, Newcastle.

Treas.—Mrs. A. C. Lawson, Fredericton.

Sec. of L. Y. L.—Mrs. A. Laughlin, St. Stephen.

Auditor.—Mrs. W. M. Burns, Fredericton.

The president Mrs. McWha, kindly presented a gavel in white and yellow colors to the Convention and also badges for delegates to wear while attending convention.

A hearty vote of thanks was tendered the donor, by the meeting. Next year—God willing—the Union will meet in St. Stephen.

Hints and suggestions are often more efficacious than heroic measures. A man in a barber's chair had a big claw on his watch chain.

"Bear's claw?" said the barber.

"Yes."

"I suppose you killed it yourself, sir?"

"How many balls did it take to kill him?"

"None."

"My goodness, did you kill him with a knife?"

"No."

"Then—then, or—"

"I talked him to death," said the man in the chair significantly.

RECRUITING GOES

ON VERY STEADILY

Six Thousand a Month is the Present Speed

Ottawa, Oct. 19.—Recruiting in Canada is proceeding at the rate of about six thousand a month, compared with thirty thousand a year ago. In the fortnight ended October 15, 3,160 men were enlisted, compared with 3,046 in the previous two weeks. The aggregate enlistment from the start is 368,863.

From the 1st to the 15th of October Montreal again led in its enlistments. It reported 672 recruits.

By divisions the enlistments are as follows:

Military District.	Two weeks.	Grand total.
London	314	30,455
Toronto	447	82,827
Kingston-Ottawa ..	356	38,891
Montreal	672	31,951

EVERY WOMAN SHOULD HAVE A GOOD RANGE

A woman cannot be sweet tempered, smiling, and make her family happy when she is tired to death. Her work as housewife is as hard as any man's job, and her hours are much longer.

She spends most of her time in the kitchen; here she does her hardest work, and here she should have every labor-saving device invented to lift as much as possible the burden of fatigue that even the shortest day is bound to bring.

The kitchen is her workshop and she is entitled to have it equipped as efficiently as the farm or factory. It ought to be the best equipped room in the house, to make her work as light as possible, so that when she joined the rest of the family at meal time, she is not too tired to enjoy the good food she has worked so hard to prepare.

Her health and happiness, therefore, and the happiness of the household depend upon this.

If meal times are to be happy times, as they ought, the kitchen must be rightly equipped.

HACQUAIL—MYERS
A very pretty wedding took place at the Bel River Hotel on Monday morning the 16th inst., when Mary, oldest daughter of Mr. and Mrs. F. C. Myers was united in marriage to Mr. Adolphus F. Haquail of Shives Athol. The bride looked charming in a fur trimmed navy blue travelling suit with hat to match and entered the church on the arm of her father, carrying a bouquet of maiden hair fern and bridal roses. The groom was attended by his father. The Rev. E. Robichaud performed the ceremony and celebrated Nuptial High Mass. After the ceremony the wedding party repaired to the home of the bride's father, where a bountiful wedding breakfast was served, after which the newly married couple motored to Dalhousie Junction, where they took the Ocean Limited for a trip to St. John and Halifax.

The many and costly presents that the happy couple were the recipients of shows the high esteem in which they are both held by their numerous friends.
The groom is well and favorably known in Campbellton, being a valuable and trusted employee of the Shives' Lumber Co.

INFANTILE PARALYSIS
DUE TO PRIZE DOGS?
Officials of Montreal Suburb Order Destruction of Cats and Canines

Prize-winning dogs from New York, which were exhibited at a dog show about three weeks ago, are supposed to have been the medium through which started infantile paralysis in Westmount, where three or four deaths have occurred from the disease. On this basis the Westmount officials are acting, and orders were issued in that municipality that every cat and dog belonging to any family that has been affected with infantile paralysis must be destroyed forthwith.
All the Westmount schools have been closed and Dr. S. Boncher, medical health officer of Montreal, will issue a circular, advising all school commissions in Greater Montreal, Protestant and Catholic, not to allow anybody from Westmount to visit the schools, nor permit any Westmount children to attend.
