The Glencoe Transcript.

GLENCOE, ONTARIO, CANADA, THURSDAY, NOVEMBER 10, 1921

READ THE ADS.

This issue contains many bargain offerings. Don't miss them.

Who's No. 2596

NOTICE

Notice is hereby given that I will offer for sale by public auction at 3 p. m. on Wednesday, Nov. 16th, the work on the Leithbridge Drain extension—544 feet of open drain, 1.166 feet of 14-in. tile drain, 100 feet of 10-in. tile drain. The job will be sold on the premises, north half lot 1, first range north of the Longwoods Road, Mosa. Plans and specifications of said work may be seen at the residence of the undersigned, or at the job on the day of sale.

ISAAC WATTERWORTH,
Commissioner.
Dated 7th November, 1921.

FARM WANTED

I want to hear from party having farm for sale. Give price and description. G. B. Landon, Champaign, Illinois.

STRAYED

Found—a red yearling steer. White star; pig ring in ear. Owner can have same by applying to R. G. Lovell, lot 21, Gore, Ekfrid, and paying for this notice.

FOWL WANTED

The Farmers' Co-operative of Mosa and Ekfrid will buy fowl opposite Frank Hayter's store on Tuesday, Wednesday and Thursday each week, paying the highest price. Fetch in your poultry at once.

Classes Started at Glencoe Business College

Over I. D. Kerr's Store
Tuesday, November 8

Mrs. Hewitt, who is in charge, has had ten years' experience and is capable of teaching all business subjects.

There is a decided advantage in your starting now.

Those interested in night classes, call Tuesday and Thursday evenings from seven to nine o'clock.

CENTRAL GARAGE

"FORD"

Your Profits?

IT'S ASTOUNDING how some folks'll let a habit run away with their profits. Take right now, for instance, when produce is cheap and every nickel counts, you keep on hauling in the most expensive way. You've got into the habit of doing it with horses, when a Ford One-Ton Truck would do it at half the cost, or less.

Maybe you feel that you can't afford to pay spot cash for a Ford Truck. You don't have to when you do business with us. You'll be in town on Saturday. Come in and let us talk it over.

DISTRICT AND GENERAL

Huron county has a farmer whose
bean crop averaged 40 bushels an
acre.

Thursday, November 10th, will be
Thanksgiving Day in the United
States.

At Wheatley potatoes shipped in
from the West are selling at \$1.39 to
\$2 a bag.

The Canadian Bankers' Association
offers \$5,000 reward for capture
of bandits.

Wheat sold down to \$1 a bushel on
the Chicago board of trade last week
for the first time in five years.

For wrecking a Grand Trunk train
Perry Gales has been sentenced at
Lapeer, Mich., to life imprisonment.

Poles, wire and other supplies are
being unloaded at Alvinston for
building the hydro electric line in
from Watford.

The next Prime Minister of Canada
is bound to be a Presbyterian. The
leaders of all three parties belong to
that denomination.

Six bandits held up the cashier of
the Gordon-Fagel Baking Company
at Detroit, threw red pepper in his
eyes and got away with \$4,150.

Thomas Bird, a farm hand, while
walking in to Parkhill to attend a
concert, threw red pepper in his
eyes and got away with \$4,150.

A resident of Ford sold a woman
living in Windsor a case of bottled
river water for \$40. A charge of
fraud preferred against him was dis-
missed.

George D. Irvine, B. S. A., of Dal-
keith, has been appointed a student
to R. A. Finn, 4th district representative
in Middlesex of the department of
agriculture.

Essex council passed a by-law regu-
lating the closing of the stores of
that town at 7 o'clock every evening
except Saturday and days preceding
a legal holiday.

At a barn raising in Tibury West
township the proceedings were start-
ed by prayer offered by the local An-
glican rector at the request of the
contractor for the building.

Duncan McAlpine, son of the late
Sen. McAlpine of Payne's Mills, died
at his home in Windsor last week in
his 61st year. He was a Wabash
railroad conductor for over 30 years.

The reeve of Watford sent a good
example when he issued a proclama-
tion calling on the citizens to give
thanks to Almighty God and attend
a union service on Thanksgiving Day.

Alfred Scott, a prominent farmer
of West Nisour, was found dead in
his barn near Thorndale on Monday.
He had accidentally shot himself
with a revolver which he had been
cleaning.

Three New Hamburg boys, out on
Halloween pranks, fell into a forty-
foot well, cut in nine ten feet of
water. The boys, clinging to the sides
until other comrades effected their
rescue with ropes.

The Penny Bank savings depart-
ment recently started in the Forest
public school has proven to be very
successful and the pupils are taking
a special interest in saving their
pennies. In the three weeks since
its beginning \$124.11 has been de-
posited.

They are planning to charge pe-
destrians 5 cents for walking across
the new Detroit-Windsor bridge, but
of course, if it seems too high, a
person can stay on, as he does on
the ferry, and get his money's worth
by walking back and forth several
times.

A quiet autumn wedding was so-
lennized on Wednesday, Nov. 2nd, at
the home of the bride's parents, Mr.
and Mrs. Frank Oke of Brooke, when
their only daughter, Neila, became
the bride of Russell Lovell, son of
Mr. and Mrs. T. H. Lovell, also of
Brooke.

At Silver Creek, N. Y., children at
play buried Ralph Green, four years
old, under a pile of dead leaves, at
the roadside. The horn of an ap-
proaching automobile truck caused
them to scatter. Ralph did not
move, apparently mistaking their
cries for part of the game they were
playing. The wheels of the truck
crushed him to death.

Breaking his leash, a small dog
owned by Abraham Nolan, Windsor,
rushed to the assistance of his mas-
ter when a bandit attacked him in
his yard the other night. Biting the
intruder, the dog soon forced him to
abandon his attack. Infuriated by
his failure to overpower Nolan, the
would-be-robber fired one shot at the
faithful dog, killing him instantly.
He then escaped in an auto.

BIG SPECIALS COMING

During the next few weeks lovers
of good moving pictures are to be
given rare treats indeed. Mr. Can-
ningham, the manager, has returned
from Toronto where he booked the
following high-class features: Doug-
las Fairbanks in "The Mollycoddle";
Rex Beach's "Girl from Outside";
William Farnum in "Riders of the
Purple Sage"; Jack Pickford in D.
W. Griffith's "Broken Blossoms";
"North Wind's Malice"; "Evangeli-
ne"; Wesley Barry in "Dinty";
"East Lynne"; Mary Pickford; Jack-
ie Coogan in "Peck's Bad Boy";
"Twin Beds"; and Mack Sennett's
"Down on the Farm."

Banish that awful insomnia that
worries you every night. Let your
sleep be restful and refreshing. Tan-
lac does it.—P. E. Lumley.

A man must be mighty busy when
he won't stop and watch a dog fight.

WINTER WEATHER

During the last two or three days
we have been experiencing one of
those disagreeable nor'easterly
winds that chill to the marrow, and
on Tuesday a driving storm of snow
and sleet set in which has continued
with more or less force up to time
of writing. The town snow plow
was out clearing the walks yester-
day morning. While there is every
indication that winter has set in, the
more optimistic ones are full of hope
that this is only a prelude to Indian
summer.

ATTEMPTED JAIL-BREAKING

Discovery was made at the Mid-
dlesex county jail one day last week
that three bars in the window of the
cell occupied by "Slim" Williams,
only remaining member of the Mur-
rells gang, had been sawed nearly
through. The slugs evidently cut
from the inside, had been plugged
with black soap after the manner
employed by the Murrells in their
successful getaway. It is reported
that jail attendants were tipped off
that something of the kind had been
attempted and a thorough examina-
tion resulted in the discovery. Wil-
liams and others confined in the cell
with him were at once transferred
to another ward in the jail.

Williams succeeded in having a
letter, addressed to a local news-
paper, sent out of the jail. He com-
plains that since the escape of the
Murrells "the town is a hell hole."
He says that he would rather be back
in France, and asks that arrange-
ments be made to remove him to
Kingston Penitentiary, pending trial,
as he believes he would receive better treatment
there.

BACHELOR-MILNER

The marriage took place on Satur-
day, Oct. 22 at the home of Mr. and
Mrs. W. J. Milner, Windsor, where
Walter, of their eldest daughter,
Mabelle Letta, to Walter J. Bat-
chelor of Watford, was the bride.
The ceremony was performed by Rev. E.
A. Pearson of Lincoln road church,
after which a buffet luncheon was
served by young friend of the bride.
The bride travelled in a brown
beaver-trimmed suit and smart
Foché hat. After a short honey-
moon Mr. and Mrs. Batchelor will re-
side in Watford.

Previous to her wedding the bride
was the recipient of many pretty and
useful gifts given at several showers
held in her honor by her numerous
friends in Watford and Waterville.
Also a beautiful chest of silver was
with whom she has lately been em-
ployed.

The Lambeth Cheer Community
club have been engaged to give their
popular play "Light House, Nan" in
the Glencoe Opera House on Friday
evening, Nov. 18th, for the benefit of
the hockey club. The play has the
reputation of being a "rattling good"
one and will doubtless be greeted
with a full house. Rush seats are
25c and reserved seats 50c. Plan at
Lumley's drug store. Proceeds will
be devoted to a fund for purchasing
club suits for the hockey boys.

FUNERAL OF ALEX. DOUGLAS

Wardville, Nov. 4.—The funeral
of Alex. Douglas was held this after-
noon at his late residence and was
attended by a large number of peo-
ple. Rev. Dr. Husser, pastor of the
Methodist church, conducted the ser-
vices, assisted by local clergymen.
Burial was at Mount Brydges. Pall-
bearers were Frank McGregor, Al-
pheus King, James Harold, R. J.
Petch, Will Atkinson and Peter O.
Malley.

Mr. Douglas was born July, 1837,
in Ireland, and came to Canada with
his parents seven years later and
settled in Ekfrid, where he resided
till about 22 years ago, when he
moved to Wardville. He belonged
to a family of ten, of which Mrs.
Jane Campbell of Plenty, Sask.,
survives. About 25 years ago he
was married to Miss Agnes
Goulding, who, with one son, Jack,
survives.

Mr. Douglas was one of the most
prominent and progressive citizens
of Middlesex county. For a great
many years he was license inspector
and to the last took a very active
part in temperance movements, be-
ing chairman of the local committee
during the last referendum cam-
paign. He took great interest in
municipal affairs, being for several
years a member of Ekfrid council.

He was a life-long Liberal, and
took a conspicuous part in political
conventions and elections. For sev-
eral years he was chairman of the lo-
cal Liberal committee. For 22
years he was secretary of the Glen-
coe fair board. For the past 18
years he was a member of the local
school board, being chairman until
recently, when he resigned.

He was an ardent Methodist, and
was a leading official during most of
his life, being treasurer of his
church at the time of his death. He
was a man of strong personality,
gentle in manner, and most kindly
in disposition.

He was a man of strong personality,

PREDICTS "THE GOLDEN AGE"

(Contributed Report)

The service which was held in the
opera house, Glencoe, Sunday after-
noon, October 30, under the auspices
of the Bible Students' Association,
subject "Millions Now Living Will
Never Die," was well attended and
much interest was manifested in the
lecture. The speaker said in part:

All thinking people realize that we
are passing through a great time of
trouble, which began in 1914. Bible
students for 40 years had predicted
that when we reached that year the
great time of trouble spoken of by
Daniel the prophet would begin and
that there would be no more peace
until the Prince of Peace commands
the angry nations to be still and
know that Jehovah is God. Then
through Messiah's Kingdom, shall
come peace, blessed peace. Swords
will be beaten into plowshares and
spears into pruning-hooks, and the
nations shall learn war no more.
They will have something else to
learn, for God prophesied that when
his judgments are abroad in the
earth the inhabitants of the world
shall learn righteousness.

He said we have been deceived in-
to thinking that these Gentile em-
pires, especially those prominent Eu-
ropean nations which were engaged
in the war, were engaged in a
struggle for the betterment of the
world. He said that was a mistake.
He said that the war was a prelude
to the destruction of the world.

He said that the war was a prelude
to the destruction of the world.

He said that the war was a prelude
to the destruction of the world.

He said that the war was a prelude
to the destruction of the world.

Soils and Crops

Address communications to Agri-Forum, 73 Adelaide St. West, Toronto.
Poultry Feeding Problems.

Many farmers have the wrong opinion of dry mash feeding for poultry and believe that it must be an expensive method. At first thought it seems as if the hens would gather about the hopper and eat all the time. But this is the way it works out. The hens occasionally take a bite of the mash. Then they have to drink water. The mash is dry and cannot be gorged down. After a hen has taken a few bites of mash she is ready to hunt around for other food.

The mash is not sufficiently appetizing to keep the hens from searching for other food. Hens that have been without mash might consume much more than usual when it was returned to them. But if the mash is always full they soon satisfy their appetites and then only eat at intervals. The mash hopper insures every hen an opportunity of obtaining egg-making material at some time during the day.

When hens have mash they do not need so much other grain. Enough protein can be given to the hens in the form of hard grain. If they have the mash they can eat the material needed to produce eggs. The use of mash saves enough hard grain to make it use practical. It also enables the hen to lay eggs and if the mash is made of pure protein, it will pay to use the mash. The profit with poultry is the difference between egg receipts and feed costs. A cheap ration might bring no profit because of low egg production. A well balanced ration brings eggs without eggs to sell there is no profit in the hen business, even if the feed cost is close to zero.

When there is plenty of sour milk the beef scrap or other protein in the mash can be cut in two. Some farmers find it a hard problem to feed sour milk in a sanitary manner. If the milk is placed in low dishes it is seen full of litter and very unclean. Dirty milk can be a cause of bowel trouble. It pays to place the milk in crocks on low wooden stands. These crocks can be sealed and kept free from dirt and gummy material. They are rather heavy and not easily tipped over. They are low in height so the hens can drink the milk to the bottom of the dish.

We have used galvanized pails for sour milk but the hens cannot drink to the bottom of the pail. They may root on the sides and tip the pail over. The dry mash from their bills settles in the bottom of the pails along with other dirt and some of the milk may have to be wasted when the pails are rinsed.

Some poultrymen find it a problem to keep hens from wasting every material that is served in a self-feeding hopper. The hens seem to have a mania for pulling out mash, oyster shells or grit until the hopper is emptied in the litter and much of the material wasted. This can be avoided by making a lip with a small piece of board on the front of the hopper. Then the trough of the hopper can be deep enough so the hens have to reach down for the material. If they still waste it, a piece of fine mesh poultry wire can be tacked over the opening so the birds will have to peck through the openings and only be able to obtain the material that they eat.

The clogging of dry mash hoppers is a problem if they have narrow throats. The remedy is to build them wide enough so that the mash will not often clog. Even then it is necessary to watch the hoppers occasionally and see that the mash is feeding down as it is used. A stick several feet long can be kept in a hopper that clogs and be used to break up the mash. That takes time and it pays to build the hoppers so they will seldom fail to let the mash slip down as it is used.

When old and young poultry use the same farm range it is a real problem to keep the chicks growing rapidly. The old birds crowd them from the feed hoppers and frighten them at feeding time. It pays to construct a dry mash hopper inside of an enclosure protected by slats so that the young birds can enter while the old ones are excluded. The chicks soon learn where they can feed unmolested and an improvement will be noted in their growth.

Such an enclosure can also be used for the water dishes and sour milk crocks used by the young growing stock. Of course, it is best to have them on a separate range but these small feeding yards are very useful on the general farm where all the poultry of all ages are allowed to run together.

Some breeders use wet mash and find trouble in keeping the poultry house clean and the feeding troughs in good condition. We believe that this problem can be avoided and the poultry houses kept more clean and dry if no wet mash is used. The birds grow and lay on dry mash and such mixtures save much labor and seem to keep the birds healthy. We can see no necessity of mixing up much moist feed. Of course, when there is an abundance of table scraps they can be made more appetizing to the hens if they are made into a moist mash by the addition of bran or the

second growth of kaffir or sorghum must not be fed and stock must not be allowed to run on it as it generates a deadly poison after frost.

Here are the big advantages: Plenty of green feed to tide over the period of dry pasture; easily put in with the minimum of labor; no cultivating to do; any left over after pasture becomes good again and may be cut, cured and stored for winter feed. It makes the best feed for cows as the grain is right with it. My hogs eat it green or dry, stalks and all. More green feed and more cured dry feed to the acre than any other plant or combination of plants I ever knew of.

Preparing Market Lambs.
In the mind of the packer's buyer, when he enters a pen of lambs to make a bid on the lot, is the knowledge that the consumer wants a tender, juicy, palatable piece of meat. So, according to the quality of the lot, i.e., its fitness to give this kind of meat, he makes his offer.

If there is a good proportion of wethers in the lot he will pay more because he knows they will yield a higher percentage of the choice cuts. They will be better developed than the ram lambs just where the meat is of most value. The backs will be better covered and the loins will be fuller. In ram lambs the development will be in the neck and shoulders and this is cheaper meat than the back and loin cuts. In addition the flavor of the meat from ram lambs puts it at a distinct disadvantage as compared with that of the wethers.

By the use of pure-bred rams there has been an admitted improvement effected in the quality of lambs offered on the public stockyards within the past ten years. Some districts have reached a higher standard of excellence than others. This is very clearly brought out by an analysis of the receipts at two stockyards over a period of two weeks this fall. Of the lambs offered at one yard 55 per cent. were graded "common," while at another yard only 5.5 per cent. were placed in that class. Breeding to a very large extent is responsible for the difference. The producers have profited by reason of the increase in price which the good lambs command, as indicated by the difference of \$2.40 per cwt. in favor of the lambs classed "good" for the period.

There is, however, as yet a great neglect on the part of sheep raisers in the matter of docking and castrating of male lambs. The former practice adds much to the uniform appearance of a load of lambs and at the same time minimizes the danger of ticks becoming infested with maggots due to dirty wool. One has only to watch a number of lambs gathered together to see what happens where castration is neglected. If in the field the ram lambs, in addition to not feeding themselves, constantly disturb the others and the consequence is they merely hold their own in weight where they do not fail. The same restlessness is observed in the shipping car or in the alley at the yards. The shrinkage in transit is great. As the season advances this condition becomes aggravated and the breeder who wishes to keep his lambs for a later market finds it unprofitable to do so because of the unsatisfactory gains they make. He is the loser in two ways: first, because the lambs have not made economical gains, and, secondly, because lacking quality, they bring a lower price.

How I Solved the Pasture Problem.
For the past four years we have had a long dry spell every summer. My pasture—mostly rye and rough ground, has dried up until the little grass left was fairly brittle and looked dead. What to do for green feed for cows during that period was the question. I solved that problem this year.

I had a piece of yellow clay ground too poor for corn, and no manure to spare for that piece. I had a quantity of soy-beans and some kaffir-corn seed. I plowed the piece the last of May, harrowed it once, sowed the soy-beans broadcast, broadcasted the kaffir corn over the same ground, sowed a small quantity of pulverized sheep manure fertilizer, harrowed the ground again and waited for results. I thought I might get a little green feed and at least get a growth for turning under later on.

That stuff came up and grew amazing. I began feeding from it about the middle of July, mowing off just the amount needed for a day or two at a time. I fed green feed from that piece until the last of September when the fall rains had made the pasture good again. The stock ate it clean, stalks and all.

I had only enough soy-beans for about half the piece so had kaffir corn alone on the other half. The first of October I cut the remaining kaffir corn by hand and shocked it. There were twenty-four big shocks of feed. The kaffir had grown to about four feet tall at that time and headed out with an abundance of ripe grain. I am feeding it now to the cow and notice that she gives more milk.

I learned some lessons through this experiment. Here they are for your benefit: First, I used Ita San soy-beans and they ripened too soon and shed their leaves. I shall use a much later variety next year as the object is not seed but forage. The stock, though, ate the dry beans, stems, pods and all. Also I shall try sorghum instead of kaffir corn in the combination on a small piece but shall stick to kaffir for the main piece. I have an idea sorghum will make a heavier forage and cure easier.

I might mention that where I mowed first, the kaffir grew again and got nearly two feet high by frost, so I got my cover crop after all. Caution: this

Poultry

The marketing of thin chickens is not conserving our meat supply, nor is it the most profitable method to producers. Present prices of market poultry admit of the liberal use of feeds, and the marketing of well-fleshed birds.

The best birds to flesh or fatten are those of the heavier breeds, such as Wyandottes, Rhode Island Reds and Plymouth Rocks. The light breeds, such as Leghorns, seldom pay to fatten unless they are very thin in flesh. The birds intended for fattening should be placed in a pen, or in a slatted coop. The process is not difficult if you will pay attention to a few points that are essential.

Feed very lightly for the first day that birds are in the pen, but be sure to give them a drink (milk is best). Then feed gradually whatever birds will eat and leave no waste feed in the trough. Generally the most profitable gains are made during the first four to six days feeding. Such birds will not be very fat, but may be fat enough to cook and eat well. Some markets demand fatter birds.

The most profitable gains are made on those birds which weigh from three and one-half to four (or one-half) pounds when put up to fatten.

The grains fed should be finely ground and, if possible, should be mixed with sour milk, to a consistency of pancake batter. The more milk a chicken will take the more it will gain. Milk appears to have no good substitute for fattening chickens. If you cannot get milk, then add ten to fifteen per cent. of meat meal to the ration, and mix with water. The addition of a little green food daily will help matters. Many people get better results by feeding a little salt. About one-half pound to one hundred pounds of dry grain is sufficient. The milk is best by being dissolved in water and adding a little at each feed. Be careful not to use too much.

The best grains available now are a mixture of ground barley, cornmeal, finely ground buckwheat, and shorts. Oat: are good if part of the hull is sifted out, as are also ground brewers' grains, and shorts mixed with double the quantity of sour milk. In general, feed nearly one-third shorts and what ever finely ground grains you may have about a farm.

The essentials are to select healthy birds, keep pen clean and free from vermin. If chickens do not eat all feed in fifteen minutes, remove what is left from pen, and mix ground grain with sour milk if possible.

Scientific Beekeeping.
For the advancement of beekeeping in Canada, says the late F. W. L. Sladen, in his last annual report as Dominion Apiarist, covering the year ending March 31, 1921, the great need is to educate beekeepers to replace with modern methods of management the old neglectful methods that continued to levy toll of loss, particularly in winter, from brood diseases and from old and failing drone-breeding.

Water for Farm Homes

"Say, Martha, listen to this." It was Frank Anderson who spoke. He had left the boys to finish washing the automobile before the evening meal was ready while he came in to read a letter from his brother who lived in Eastern Ontario. "Bill tells me of a neighbor's wife who has walked 5,710 miles and carried 2,000 tons of water."

"Bill must be improving in his figures," was the casual rejoinder of Mrs. Anderson. "I judge these are not Bill's figures. It seems that a survey of farm homes is being made in his county. During this survey extension men from the university who are doing the work found this woman, now sixty-five years old, who for the past fifty years has been carrying the water needed by her household from a well located six feet below the level of the kitchen floor and one hundred and forty feet away from the house. Now, after a half century they have learned that it will require an expenditure of only \$18 to pipe the water right into the poor woman's kitchen."

"Strange, isn't it—only yesterday at the community club this matter came up for discussion. Mrs. Chapman gave a ten-minute talk on the farm home water supply. Evidently, she had informed herself on the subject for among other interesting things she included a statement on the number of homes having running water. According to data gathered by government men only one home in every five has running water, while sixty-eight per cent. of the women carry the water needed in their homes from wells outside. I presume Bill's neighbor is one of these women, al-

and lost queens. Information on these matters it might be suggested, has been secured and made public by demonstration and experiment at sixteen Dominion Experimental Farms scattered throughout the country, and it may be added, by the distribution of bulletins and such reports as the one referred to. Many of the experimental problems in Canadian beekeeping relate to the simplifying of methods so as to enable the keeper to care for a larger number of colonies in a given time. In Canada a great deal of time is spent in handling bees to prevent their swarming. Long, warm, sunny days, such as we have had this year, and the heavy honey flows, develop a stronger tendency to swarm, and the swarming season lasts longer than it does in the south. In most parts of this country the swarming season continues far into the main honey flow, rendering manipulative work for the prevention of swarming particularly exacting because of the necessity of removing and afterwards replacing the supers containing the honey, in order to reach the brood chamber to carry out swarm control operations therein. The need is a reasonably certain method of preventing swarming and requiring but little labor, and that limited to certain days, making it possible for the bee-keeper to do similar work in out-apiaries in the intervening days. Successful manipulation is retarded when the old queen is left in the hive. The greater productivity of a young queen makes the colony more profitable in the succeeding year. Young queens, which can be raised from selected stock, also improve the strain of bees.

How to Grow Mushrooms Successfully.

Mushrooms are much appreciated by epicures and would be by many other people who realize the succulence and delicacy of mushrooms on toast or with steaks, if they could more easily be procured, and yet they can be freely and cheaply grown. All that is required is a little knowledge and a little trouble. In a circular published by the Dominion Experimental Farms, the Plant Pathologist, Mr. F. L. Drayton, points out that they can be grown in a cellar, an out-building or barn in which the temperature can be kept fairly uniform at between 45 and 65 deg. F., and under greenhouse benches. A little stable manure where wheat or oat straw has been used for bedding will promote the growth. The leaflet explains how the manure is to be treated and made use of. The manure can be placed on the floor and ridded up against the wall or spread on shelves, a sample of which gives in diagram. Bricks of spawn which must be broken up into ten or twelve pieces can be obtained from any reliable dealer in seeds at 35c or 50c per brick. Some "don'ts" are given in the circular, such as: don't use old manure mixed with shavings or sawdust; don't cure the manure too late, that is, when frosty weather has set in; don't plant the spawn until the temperature has been at 65 deg. for three or four days; don't overwater, and don't cover the bed with soil until the spawn has started to make a mould-like growth.

He who receives a good turn should never forget it; he who does one should never remember it.—Charron.

Nobody knows what vitamins are, but to get them into your system is easy as ABC. Simply see that milk and green vegetables are plentiful in the diet.

John Dill is in a pretty pickle and folks are treating him cool as a cucumber. Don't cure the agency for life insurance and sold all his friends' savings policies that they can't get any fun out of life and keep up their premiums at the same time.

Don't fail to whitewash a stable at least once each year; twice might be better. It not only improves the appearance inside, but expels insects, and stops any bad odor, rendering a building sweet and healthy for animals to sleep in. It is quite essential to the production of good milk. A house needs frequent applications, according to the number of hogs contained in it; a poultry house should be whitewashed the oftener the better to kill lice in cracks or other narrow crevices where vermin may harbor.

Fruit and ornamental trees should be whitewashed once each year to discourage borers and to prevent bark from cracking and peeling off. A strong solution, applied to fence posts, penetrates deep cracks, and keeps the timber in a good state of preservation. This has been proven for whenever an old house is torn down, the lath are as sound as new ones, being preserved by plaster.

Value of Whitewash.
Don't fail to whitewash a stable at least once each year; twice might be better. It not only improves the appearance inside, but expels insects, and stops any bad odor, rendering a building sweet and healthy for animals to sleep in. It is quite essential to the production of good milk. A house needs frequent applications, according to the number of hogs contained in it; a poultry house should be whitewashed the oftener the better to kill lice in cracks or other narrow crevices where vermin may harbor.

November.
November walks with weary feet. A veil of grey about her face. 'Tis winter that she goes to meet; November walks with weary feet. She calls to her in rain and sleet. And holds them in a chill embrace. November walks with weary feet. A veil of grey about her face. Yet, though so sad and desolate, She has a beauty soft and rare, A dignity of pose and gait. Yet, though so sad and desolate, No blows of a relentless Fate Can take away her regal air. Yet, though so sad and desolate, She has a beauty soft and rare. —Leslie Mary Opler.

Mother should have a kit of tools of her own, not to be borrowed by the men for use around the place.

The Welfare of the Home

Baby's First Tool, Himself—By Martha Gallaudet Waring.

When we begin the training of the baby we must never forget that the first thing he should learn to use is himself, and that his first tools should be the God-given ones of his own body—members and brain. We are apt to overlook this in fact, though ready to admit it in theory; therefore, let us glance over the beginning of this kind of training.

Frederick, with his never-failing insight into the needs of the developing child, has given us among others, the Mother-Play of "Falling-Falling." This, as well as the "Play with the Limbs" and "Pat-a-Cake" should be used with the very tiny baby as soon as he shows signs of conscious activity.

Babies always respond with pleasure to exercises with the soles of the feet pressed against the palms of the mother's hands, and to the careful moving of the arms up and down. These simple exercises begin to differentiate their members for them, thus giving them early control of their bodies. "Pat-a-Cake" comes next and then "Two Little Dicks that are Walking a Mile" played with the feet thus: "Two little dogs are walking a mile. Two little dogs are crossing a stile. Cross over, cross over, cross over."

During the first two lines lift up the baby's feet successively as though walking in the air, and for the last line cross over alternately. Next comes rolling over on the bed and pulling up by the arms, first a little, gradually all the way, before the baby tries to stand or walk. As soon, however, as he begins to pull himself up by objects, show him stable ones that will not rock or move. From then on, it is all a matter of first lessons in using his most important tool, himself.

How to Test Concrete.

Many times you have been puzzled over the failure of concrete to last satisfactorily, and maybe you were inclined to blame the concrete. Generally, however, other things have been the matter. There are a few simple tests of materials that you can make at small expense without going to a laboratory.

Tests of cement. If the cement has been carefully stored, and has no hard lumps that cannot be readily crushed with the fingers, it is probably safe to use. Of course it should be standard brand, put up in a properly labeled package. The label should state the name and address of the maker, the brand of cement, and net weight of contents.

Tests for sand and gravel. Fill a quart glass jar about one-third full of sand or gravel. Fill jar nearly full of water. Shake jar well for about one minute, rest a while, and then shake jar for another minute. Now allow jar to stand until water above the sand is clear. Note the silt, if any, above the sandy. If more than one-sixteenth of an inch of silt appears, the sand is not fit for use for permanent work.

Fill a 12-ounce prescription bottle to 4-ounce mark with sand or gravel to be tested. Now fill to 7-ounce mark with three per cent. solution of sodium hydroxide. (This may be obtained for a few cents at any drug store.) Shake bottle well, and let stand overnight. Liquid may be clear or may range from straw to dark brown in color. If darker than light straw color, material should not be used.

This test shows presence of vegetable matter which often coats grains of sand or gravel with a sort of gelatin and prevents the cement from clinging or gripping the particles and cementing them together.

Value of Whitewash.
Don't fail to whitewash a stable at least once each year; twice might be better. It not only improves the appearance inside, but expels insects, and stops any bad odor, rendering a building sweet and healthy for animals to sleep in. It is quite essential to the production of good milk. A house needs frequent applications, according to the number of hogs contained in it; a poultry house should be whitewashed the oftener the better to kill lice in cracks or other narrow crevices where vermin may harbor.

November.
November walks with weary feet. A veil of grey about her face. 'Tis winter that she goes to meet; November walks with weary feet. She calls to her in rain and sleet. And holds them in a chill embrace. November walks with weary feet. A veil of grey about her face. Yet, though so sad and desolate, She has a beauty soft and rare, A dignity of pose and gait. Yet, though so sad and desolate, No blows of a relentless Fate Can take away her regal air. Yet, though so sad and desolate, She has a beauty soft and rare. —Leslie Mary Opler.

Mother should have a kit of tools of her own, not to be borrowed by the men for use around the place.

BOOKS TURNED THE TIDE

By Isabel S. McCarty.

"How is it," asked my neighbor, Mrs. Smith, "that John and Harry have settled down on the farm?" "I'll take the credit," I replied, "of bringing the mountain to Mohammed; in other words, of bringing the farm to the boys. This is 'how about it?'" "For some time, I had noticed their growing dissatisfaction in all things pertaining to the farm routine. Rural life seemed to them one long drawn out monotony."

"The same old things year in and year out," they complained. "Same old planting, harvesting and the everlasting milking! No fun and nothing to see except growing crops. Nothing to read but the same old seed books and the jumbled-up mail-order catalogue!"

"What would you like, boys?" I asked, suddenly waking up to a tremendously serious situation. "Books!" said Harry with vehemence. "Story books! Books about boys and circus animals and birds and butterflies. With good pictures—and pretty covers," he ended passionately.

"Yes," agreed my quiet little John. "Books would make us forget at night, that we ever lived on this pesky old farm. Oh! how I wish we could have a car! Then we could get into town once in a while and feel that we were part of the big world, too."

"I made up my mind right there, that those boys should not be starved for books as long as I had the egg money for 'pin' money. I sent to the librarian in the nearest city for a list of the best books for boys, and I bought twelve, allowing each boy to choose six. Their joy in selection was well worth the price of the dozen."

"Nor shall I ever forget that first batch of books (for there were many subsequent orders). The boys read and re-read them, begging for more. "By this time, their father became interested in the matter, and rewarded them for doing some piece of farm work with a fair degree of skill, with a new book."

"Our boys' attitude toward the farm began to change and they looked with greater respect upon the farmer and his problems when they saw how the outside world depends upon the farm. "Perhaps the greatest addition to the boys' increasing library was a large volume on taxidermy, beautifully illustrated in color. To my great surprise, Harry and John brought down from the attic numerous collections of birds' nests, birds' eggs, feathers, butterflies and moths—treasures I, their mother, did not know they possessed. These, they compared for verification with the cuts in the book. Their crude attempts in stuffing three or four bird specimens caused them much merriment when they saw an illustration showing the proper method."

"Later, we permitted the boys to send several specimens of wild ducks to the taxidermist in the city. When the specimens returned beautifully and naturally 'fixed,' the boys' delight was boundless. Soon, they began experiments along approved methods in this line themselves, and with gratifying results. Now, they have quite a splendid little museum ornamenting their sectional mahogany book-case which Dad and I gave them for Christmas."

"One very important event, I must not neglect to mention. Father decided to postpone the purchase of a coveted piece of machinery and instead bought a five-passenger car. That car worked a miracle! The boys enjoyed the taste of city life which it made possible, yet the farm always looked good to them on their return trips. "Dad and I feel well repaid for our efforts. The boys have developed a keen interest in the farm, and are both planning to take the full course in the Agricultural College."

The Ladder of Fame.

When he had reached the topmost round at last. He glanced about and gaped at what he saw: The great men he had dreamed about had passed. Leaving the lamp of truth, the rod of law.

To boys he had not thought to see again— To John, his dimple aging in his chin. To Bob and Ted, who smashed the windowpane. 'Twas school again; he saw them trooping in!

They had not changed save for a few gray hairs. Had but stepped in where death had marked the way: School children filling into empty chairs. Schoolmates, a little tired, of yesterday.

—Marie Louise Hersey.

Anything to survive must serve; that is a fundamental law of life—and of business. "Tying the knot" is an old expression, and its origin is interesting. In ancient Babylon, a priest took a thread from the garment of the bride and another from the garment of the groom. These he tied into a knot and presented it to the bride as a symbol of the binding nature of the union between her and her husband.

Progress in Canada.

An increase of 30,000,000 bushels of wheat in the three prairie provinces over last year's crop, is the estimate of the Northwest Grain Dealers' Association. A wheat yield this year of around 260,000,000 bushels is probably a reasonable calculation. Other estimates of the Association are: oats, 323,655,000; barley, 44,760,000; rye, 9,958,000; flax, 5,576,000.

Cattle shipments to Great Britain from the Port of Montreal show a steady increase since the opening of navigation, and particularly since the coming into effect of the Forney Tariff Bill. The total number of vessels which has left the port this season with cattle is 62, and these carried a total of 21,817 head. There were also five vessels which carried 1,850 sheep.

A sown load of lake trout reached the town of McMurray, Alberta, recently, from the Mackenzie Basin Fisheries plant at Black Bay on Lake Athabasca, and further shipments, it is expected, will be made before the close of navigation on the big river. This is the first shipment of northern lake trout that has reached McMurray for shipment to the markets of Canada and the United States, and demonstrates one of the unbounded resources of the untapped regions which lie beyond the Athabasca.

More than two million pounds of wool were clipped from Alberta sheep this year, and 1,927,000 pounds have been shipped east for sale. Members of the Southern Alberta Wool Growers produced 1,500,000 pounds, the remainder coming from Edmonton, Lacombe, Vermilion and other points.

Special attention is being paid by British Columbia lumber exporters to the markets of Australia New Zealand, South Africa, China, British India and Egypt. Already several large orders have been secured from these countries, notably Egypt, which has made very extensive purchases of railway ties. Not a month goes by but that three or four British Columbia export lumber men leave for foreign markets on selling and investigation tours, and already this activity is producing results. Box manufacturers are also feeling the benefits of foreign markets, India having placed good orders, and Singapore now entering the list with an order for 1,000,000 boxes.

A silver lead strike has been made at Noble Five, in the Trout Lake country, British Columbia. A sample eighteen inches in thickness and averaging \$200 to the ton was brought into Revelstoke recently. The lead runs entirely across the fifteen hundred foot claim.

Twenty new horticultural societies were organized in different sections of the province of Ontario during the year 1920, making a total of 127, with a paid membership of 29,000, an increase of 9,000 over the previous year, according to the annual report of the Horticultural Societies of Ontario. In 1919 the Association expended \$7,099 in horticulture.

A large freight warehouse on the banks of the Kananistiquia River has been leased by R. C. Harvey, of Lethbridge, Alberta, to be used for feeding 10,000 sheep, which he will bring to Fort William to fatten on the screenings from the elevators. The sheep will be sent to Fort William by the trainload early in November, and Mr. Harvey is contracting for hundreds of tons of local grown hay.

Fraser, Brace and Company, contracting engineers of Montreal, have been awarded contracts for the construction works of the \$10,000,000 power development scheme at Great Falls, on the Winnipeg River, by the Manitoba Power Company, Limited. Development work is already under way, with about 400 men employed, and the probability of from 1,000 to 2,500 finding employment within a short while.

A Clever Clerk.

The proprietor of a shoe store in New England is very proud of one of his young sons who not very long ago entered the employ of his father, and this pride was much enhanced by the boy's cleverness in the matter of a pair of shoes sold to a stranger.

The lad had shown this man a satisfactory pair, but the customer said that he had not enough money with him, asking if he could let "fifty cents go over until the net day."

The boy consented, for which, after the stranger had left the shop, the father severely reprimanded the lad. "You'll never see the man again," he said in conclusion.

"Oh, yes, I will," said the youngster, "I wrapped up two shoes for the left."

Like the Old Folks.

A bachelor who is forever putting his foot in it, recently visited the proud parents of a new boy.

The mother held up the bundle for the inspection of the bachelor and asked gaily: "Tell us, now, frankly, which of us do you think he is like?"

After a careful examination of the mite the bachelor answered: "Well, Marie, of course, intelligence has not yet dawned in his face, but he's wonderfully like both of you."

Camp-fire Destroys a Forest.

A teamster hauling supplies was the cause of one of the bad forest fires in New Brunswick this past summer. He neglected to put out his fire when he made his noonday stop to boil his kettle, and in an hour afterwards the woods were aflame.

"Gerage," now used exclusively as a name for the housing for a motor vehicle, was originally used in France to denote a place for keeping boats, rolling stock, etc.

STERN REMINDERS OF RHEUMATISM

The Trouble Must be Treated Through the Blood.

Every rheumatic sufferer should realize that rheumatism is rooted in the blood and that to get rid of it it must be treated through the blood. The old belief that rheumatism was caused by cold, damp weather, is now exploded. Such weather conditions may start the pain, but it is not the cause. Liniments and outward applications may give temporary relief, but that is all they can do because they do not reach its sources in the blood. The sufferer from rheumatism who experiments with outward applications is only wasting time and money in depending upon such treatment; the trouble still remains, and it is all the time becoming more firmly rooted. Treat this disease through the blood and you will soon find relief. Dr. Williams' Pink Pills act directly on impure, weak blood; they purify and strengthen it, and so act on the cause of the rheumatism. Mr. P. J. MacPherson, R.R. No. 5, Cardigan, P.E.I., says: "About three years ago I was attacked with rheumatism. I began taking Dr. Williams' Pink Pills and soon the trouble disappeared and I am in better health than before. I also know of an old lady acquaintance who was badly crippled with rheumatism in her arms and legs, and who suffered very much. She, too, took Dr. Williams' Pink Pills and is now able to do her household work. I tell you this in the hope it may be of benefit to some other sufferer."

You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent you by mail at 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

The trouble with family trees is that many of them are shady.

HEALTH EDUCATION BY DR. J. J. MIDDLETON

Provincial Board of Health, Ontario

Dr. Middleton will be glad to answer questions on Public Health matters through this column. Address him at Spadina House, Spadina Crescent, Toronto.

In every effort directed to improvement of the public health and well-being, the question of out-door exercise must be taken into account. No matter what preventive measures are taken against disease, the physical condition of the individual, whether adult or child, is not kept in perfect condition if healthy exercise out-of-doors is not indulged in.

The question of what constitutes healthy exercise is important. There are a large number of people who seem to think that touring around in a motor car provides sufficient exercise for the average person. This is a mistake, but motoring has certain advantages. It detracts the mind from domestic cares and worries, and takes people out of doors in the fresh air.

Real physical exercise—the kind that promotes sleep at nights and stimulates the appetite, is lacking in the pleasure that a motor car offers, except in the case of the driver who may get enough exercise if something mechanical goes wrong.

Walking is one of the most beneficial exercises that can be had and yet too little of it is practiced. We hear far too much in the daily papers about

A Fine View for a Chemist.

The famous asphalt lake at Trinidad has a rival. Situated at Basque in British Columbia, is a lake that contains, not asphalt, but Epsom salts!

The salts extend to a depth of forty-one feet, and perhaps go much deeper; the miners who first stumbled upon the lake drilled to that depth and then had to stop for lack of drilling facilities. The lake covers seven acres and has a hard, crystal surface.

When the snow melts from the mountain sides the surface is covered six inches deep with water, which quickly becomes brine. Then the sun evaporates it, and all that is necessary is to score and lift off the thick crust that has formed. Spring freshets prepare another seven-acre pan, and the miners harvest a crop that they may dispose of for seventy-five dollars a ton. A few years ago the same product sold for nine dollars.

Lived 100 Years.

On last March 24 Charles Tully of Hassocks, Sussex county, England, celebrated his hundredth birthday by working a full day in his garden preparing the ground and planting potatoes. He has no difficulty in setting a garden line, for his eyesight is excellent.

In telling about his long life he said that he was first a pork butcher and afterward a farmer. At the time of his retirement from active farming he controlled 2,000 acres. This occurred when he was 80 years old.

This is his recipe for long life: Hard work in the open air, good food and enough of it, but not much at night; a nightcap of whiskey and milk, to bed not later than 10 and up by 7 in the morning if not earlier.

These are still his habits.

Of the 1,500,000 houses destroyed in Poland during the World War, nearly 500,000 have been rebuilt.

Knowledge without justice ought to be called cunning rather than wisdom.—Pato.

Minard's Liniment for Distemper.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. The Tablets are a perfect home remedy. They regulate the bowels and stomach; drive out constipation and indigestion; break up colds and simple fever and make baby healthy and happy. Concerning them, Mrs. Noble A. Fry, Esq. Secum, N.S., writes:—"I have found Baby's Own Tablets of great benefit for my children and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Does London Lead the World?

Whether New York or London leads the world in the number of population is a question which is agitating Americans as a result of the publication of the British census returns, giving London a population of 7,478,168. New York's inhabitants total, according to the latest census, 5,629,048.

The National Geographic Society questions the right of the British metropolis to claim such a large population. It points out that legally, as a municipality, "London" refers only to the area within the County of London.

"Greater London," which the census figures cover, extends over 693 square miles, an area six times that of municipal London, and more than twice that of Municipal New York.

It is pointed out that a greater New York modelled on Greater London lines, taking in all suburban cities within a radius of fifteen miles from the city centre, as the English capital does, would pass London's population within a similar area.

While London has no State limits to prevent its expansion for administrative purposes, New York halts at the Hudson River, and must continue self-contained and increase only from its internal growth.

His Hearing Restored.

The invisible ear drum invented by A. O. Leonard, which is a miniature megaphone, fitting inside the ear entirely out of sight, is restoring the hearing of hundreds of people in New York City. Mr. Leonard invented this drum to relieve himself of deafness and head noises, and it does this so successfully that no one could tell he is a deaf man. It is effective when deafness is caused by catarrh or by perforated, or wholly destroyed, natural drums. A request for information to A. O. Leonard, Suite 437, 70 Fifth Avenue, New York City, will be given a prompt reply.

Sad Mistake.

In a corner of a railway carriage was a young man studying a set of official-looking papers. Suddenly he put his hands to his head and cried aloud in his anguish. To sympathetic inquiries he explained that he had sat the previous day for a Civil Service examination. "For the essay test," he said, "we were asked to explain the advantages of keeping a diary. I have just realized that I have handed in four beautifully written pages on the advantages of keeping a diary."

MONEY ORDERS.

Send a Dominion Express Money Order. Five Dollars costs three cents.

Not Popular.

Little George Goode was standing apart from all the other happy boys, who were playing as only happy boys can.

"What's the matter, sonny?" asked a passerby. "Why don't you play with the rest of the boys?"

"They don't want me to play with 'em," replied the lonely boy bitterly.

"What's the trouble, that the other boys don't want you to play with them?" the stranger persisted.

"They've found out something about me," the lad answered, trying hard to keep back his tears.

"Was it something bad?"

"They think so. But I can't help it!" the boy defended himself.

"Come on, tell me all about it," he was urged. "Maybe I can help you."

"No, you can't help me."

"Well, tell me, anyway."

The boy hesitated for a moment, but decided to confide.

"Well, sir, the other boys say that I am softy because I'm—and he gulped hard—"I'm twins with a girl!"

Accommodation.

"I was a passenger on a train out of Edinburgh," says an American, "and became much interested in an Englishman and a Scot I saw come in."

"The Scot was in his Highland garb and the fact that he took snuff freely from a large box first attracted my attention. He offered it to others to help themselves and generally made himself very friendly. The Englishman, whom nature had gifted with an extremely large nose, joined the other travellers. He seated himself opposite the Scot, who beamed upon him and at once proffered his snuffbox."

When the Englishman declined it, the astonished Scot said:

"Ye dinna snuff!"

"No," answered the Englishman.

"Man," said the Scot, "it's a calamity for ye has wonderful accommodation for't."

Pensions paid to the old or blind, number 1,000,925 in Great Britain, and cost \$150,750,000 annually.

While driving with his father in an automobile along the Detroit River, Scout Gerald Cronk, of the 7th Windsor Troop, accidentally noticed a little boy who had been playing with some others fall off Ling's dock into the river, which is quite swift at this point. Without waiting for the car to stop, he sprang out, ran down the hill and jumped off the dock, swimming down stream toward the little fellow who was fast drifting away. He was successful in getting hold of him and soon had him ashore. With some difficulty he managed to revive the child, who was afterwards driven to his home.

Scout Robert H. Gambrell of the 1st Exeter Troop, and two other boys, decided to go to their usual swimming place, but the strength of the water, and not realizing as they should have the strength of the current which was running, entered the water. One of the boys, who was not able to swim, held his hands high above the water and followed the other two wading. For a moment the two boys who could swim lost sight of the other boy and then caught sight of him for a moment after he had fallen into a hole, which at the time was easily seven feet deep. Gambrell swam to him, caught him by his bathing suit at the shoulder and tugged him to the farther bank. The drowning boy endeavored to grip him, but Gambrell kept him under his power and finally managed to get him to safety.

While swimming with two other Scouts in the large Current River swimming pool at Port Arthur, Scout Sterling Morrison, of the 1st Port Arthur Troop, noticed that Scout James Shires was in difficulty. He plunged into the water and managed to reach Shires just as he had gone under for the second time. He grasped Shires and started for the side of the pool with him, but Shires, becoming hysterical, gripped with Morrison and succeeded in dragging him under.

At this point Scout Fred Thayne, a member of the same troop, plunged in and swam to Morrison's assistance, and the two boys then managing to get Shires to shore in safety.

Cherries were known in Asia as far back as the seventeenth century.

Windsor Castle is like a small town in itself, containing hundreds of inhabitants.

There are 25,000,000 Russians starving in the richest agricultural district under Bolshevist control.

"Cascarets" To-Night For Liver, Bowels

You're bilious! You are headachy, constipated, your eyes burn, skin is yellow, your stomach is sour, gassy, upset. No wonder you feel miserable. You need a thorough physic with "Cascarets" to-night to cleanse the stomach of sour, fermenting food and foal gases; take the excess bile from the liver and carry out of the system all the constipated poison in the bowels. Get a 10-cent box now and let "Cascarets" straighten you out by morning.

USE SLOAN'S TO WARD OFF PAIN

LITTLE aches grow into big pains unless ward off by an application of Sloan's. Rheumatism, neuralgia, stiff joints, lame back won't fight long against Sloan's Liniment.

For more than forty years Sloan's Liniment has helped thousands, the world over. You won't be an exception. It certainly does produce results. It penetrates without rubbing. Keep this old family friend always handy for instant use. Ask your neighbor.

At all drug stores—35c, 70c, \$1.40. Made in Canada.

DR. MINARD, Inventor of the Celebrated MINARD'S LINIMENT

Nothing Else is Aspirin—say "Bayer"

Warning! Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances? Accept only an unbroken "Bayer" package which contains directions worked out by physicians during 21 years and proved safe by millions for Colds, Headache, Rheumatism, Neuritis, Lumbago, and Pain. Made in Canada. All drug stores sell Bayer Tablets of "Bayer Cross."

Mrs. Rose M. Brown Gained 20 Pounds In Four Weeks Time

Declares It's Simply Astonishing To See The Wonderful Benefits She Has Derived From Tanlac—Says Terrible Headaches Have Disappeared.

"It sounds unreasonable, but I have actually gained 20 pounds in less than a month's time by taking Tanlac, and the wonderful benefit I have derived from the use of this medicine is simply astonishing," said Mrs. Rose M. Brown, 111 Third Street, Manchester, N.H.

"Why, I am so happy to be relieved of my troubles. I can really never praise this medicine enough. Up to the time I began taking Tanlac, I suffered for something over two years with a very bad form of stomach trouble."

"My appetite was so poor I could scarcely eat a thing. My stomach would be so badly bloated with gas sometimes I was almost afraid to go to bed for fear I would actually smother. I felt tired and worn out most of the time and became terribly discouraged over my condition. I often had such violent headaches I was unable to be out of bed for two or three days at a stretch."

"Four bottles of Tanlac completely restored my health and anyone can see at a glance the wonderful change that has taken place in my condition. I have a splendid appetite now and the stomach trouble has entirely disappeared. I can eat just anything I want without ever feeling a sign of

The Fly in the Ointment.

"Ah, old fellow," said Johnson to a friend, "so you are married at last. Allow me to congratulate you, for I hear you have an excellent and accomplished wife."

"I have indeed," was the reply; "she is highly accomplished. Why, sir, she is perfectly at home in literature; at home in art; at home in science—in short, at home everywhere—except—"

"Except at home?"

Mother! Clean Child's Bowels With California Fig Syrup

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works off the constipation poison, sour bile and waste out of the bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful to-day saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

HAS NO PAIN NOW

What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Baker and Mrs. Kiever.

Vancouver, B.C.—"I am pleased to say that Lydia E. Pinkham's Vegetable Compound has done me a lot of good. I can now walk about without the aid of a support and feel real strong again. A nurse advised me to take the Vegetable Compound and it certainly helped me. It seems like Heaven to be relieved after months of pain."

Mrs. H. W. BAKER, 8874 10th Ave. West, Vancouver, B.C.

Albert Co., N.B.—"I have taken Lydia E. Pinkham's medicines and they have done me a lot of good. Since then I have been able to do my housework and I have a lot of work to do as we live on a farm. Seeing your advertisement in the papers was what made me think of writing to you. I hope this may help some one else."

Mrs. Wm. B. KIEVER, Upper New Horton, Albert Co., N.B.

The reason women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends how they are helped is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

Unloyalty to the Home Town is Expensive

A farmer of Iowa has discovered that the benefits which appear on the surface as attached to the mail order plans sometimes spell disaster, and has written a very interesting story of his views in a farm paper. Here is a part of his story:

"We farmers have been awaking to the fact that we have unmistakably reached the period where we must think and plan. I am one of the slow farmers who had to be shown, and I am now giving my experience that others may profit, for knowledge is more expensive now than it was ten years ago. Twenty-nine years ago I began my career; I had an old team and \$50.00. Our furniture was mostly homemade chairs, cupboard and lounge made from dry goods boxes, neatly covered with ten-cent cretonne by my girl wife. We entered eighty acres. Being a boy of good habits, I got all needed machinery and groceries of our home merchants on credit until fall crops were sold. The first year was a wet season and I did not make enough to pay creditors. I went to each on dates of promise and explained conditions, paying as much as possible, and they all carried the balance over another year. They continued to accommodate us until I was able to by a forty acre piece of my own.

As soon as I owned these forty acres the mail order houses began sending me catalogues, and gradually I began sending my loose change to them, letting my ac-

counts stand in my home town, where I had gotten my accommodation when I needed it. We then had one of the thirtieth little villages in the state—a good line of businesses and a town full of people in all branches; merchants who were willing to help an honest fellow over who came twice a week to trade. Our little country town supported a library, high school, band, ball team and we had big celebrations every year.

A farm near a live town soon doubles in value. I sold my forty acres at a big advance and bought eighty acres, gradually adding to it until I had two hundred acres of the best land in Iowa. I then felt no need of asking favors and found it easy to patronize the mail order agents that came almost weekly to our door. I regret to say that I was the first in the county to make up a neighborhood bill and send it to a mail order house. Though we got bitten every once in a while we got in the habit of sending for stuff. Gradually our merchants lessened their stock of goods—for lack of patronage finally we began to realize that when we needed a bolt quickly for machinery, or clothing for sickness or death, we had to wait or send away for it, which wasn't so pleasant. One by one our merchants moved to places where they were appreciated, and men of less energy moved in. Gradually, our town has gone down; we have no band, no library or ball team. There is no business done in town and therefore no tax. The depot was closed for lack of travel. Go down to the depot when the freight comes in and you will see the sequel in mail order packages.

Nine years ago my farm was worth \$195 per acre; to-day I'd have a hard time to sell it at \$167 an acre. It is too far from a live town, so every farmer has said who wants to buy. He wants a place near schools and churches, where his children can have advantages. I have awakened to the fact that in helping to pull the town down I dropped \$5,600 in nine years.

The humming of telegraph wires is not caused by the wind for it is heard during dead calms. Changes of temperature, which tighten or loosen the wires, produce the sound. Some people never borrow trouble as long as they can borrow anything else.

Simplicity of Living

Canon Alexander, preaching in St. Paul's Cathedral, pleaded for simplicity of living. He said that the message for the present generation was: "Simplify your tastes. Cultivate a spirit of contentment. Reduce your necessities. Do not carry two coats. Learn to do without. In an age which is, perhaps, the most vulgar in history, beware of vulgarity."

Expense, he said, was not essential to beauty. In too many cases certain garments are chosen, not because they are beautiful, but because they cost a great deal of money, and minister to the pride of the wearer. The clouds by day, the stars by night, exceed in beauty all the gold and precious stones that can be bought to adorn the person, but they are not prized as they should be because they cannot be monopolized.

Simplicity of living would do much to lessen social discontent, which is due largely to the ostentatious display of wealth. Those who have most to spend should set an example of refinement, and not of vulgar show. Perhaps it is going too far to say that this age is the most vulgar in history, but it is certainly open to improvement in regard to the intelligent use of wealth.

WEEKLY MEDIUMS ARE BEST

At a recent convention, a well-known advertising writer of Toronto placed emphasis on the value to merchants of weekly newspaper advertising. He said that "every reader of a newspaper is a possible customer. Newspaper advertising costs less per actual thousand of people reached than any other form of publicity, not counting the prestige of your name appearing in a reputable newspaper. There never was a time in merchandising when newspaper advertising was more potent in its power to get business. Newspapers are the safest, surest and cheapest means of reaching the greatest number of people."

Every careful and observant mother knows when her child suffers from worms. She also knows that if some remedy be not speedily applied much harm will result to the infant. An excellent preparation for this purpose is Miller's Worm Powders. They drive worms from the system and set up stimulating and soothing effects, so that the child's progress thereafter is painless and satisfying.

There was less need of radical uplifters in the old days when dad lifted the boys at frequent intervals with a barrel stave.

Jr. I.—Ernest Moore.

Pr.—Neta Moore, Phyllis Gilles, Cleo Sutton, Teacher.

Because They Grow in France

Wandering on the shores of Erie
One dreary autumn day
I met a maid in tartan plaid
Watching the wavelets play.
And, peering by, just simply said:
"Why are you waiting there?"
And why do you weave the poppies
In your fair auburn hair?
She gazed far o'er the Erie wave,
Then eastward cast a glance,
And said: "I wear those in my hair
Because they grow in France."
Canada's native country,
My own dear native land;
My ancestors came from Scotland,
And I love the Scottish strand:
But the dearest soil to me
Is a mound beyond the sea
Where, scarlet poppies bloom,
In a foreign country.

—L. L. The Pines, Glencoe, Nov. 8, 1921.

ROEMMELE—MCKELLAR

The marriage was quietly solemnized at Kilmartin manse at 3 o'clock on Saturday, Nov. 6th, of Kilmartin, Elizabeth, eldest daughter of Duncan and the late Mrs. McKellar of Dunfermline, to Lorne Russell Roemmele, son of Mr. and Mrs. Adam Roemmele of Ekfrid, Rev. Mr. Robertson officiating. The bride looked charming in a smartly tailored suit of navy blue broadcloth, trimmed with black embroidery and seal collar, and costume blouse of navy satin with black and silver trimming, and hat of black panne velvet, and carrying a corsage of Ophelia roses. A dining dinner at the bride's home followed the ceremony, only the immediate friends being present. The house was charmingly arranged in white and yellow mums. The groom's gift to the bride was an onyx dinner ring with pearl setting. The young couple left mid showers of confetti for western points.

Prior to the bride's marriage a number of friends and neighbors showered her on Tuesday afternoon with many useful and valuable articles.

"Built in Canada"

Studebaker

LIGHT SIX SEDAN

BUILT complete in Studebaker factories, and with Studebaker's 69 years of experience in fine coach building behind it, the LIGHT SIX SEDAN represents the highest value in enclosed cars ever offered to the public.

The equipment is complete. There is a cow! ventilator, three piece rain vision windshield with wiper, dome light and clock. Wide plate glass windows may be lowered or raised by simply turning a handle. The finely finished body of Studebaker Blue, upholstered in gray mohair velvet plush, is mounted upon the dependable LIGHT SIX Chassis. The 40-horsepower motor is remarkably flexible and free from vibration than any other light six-cylinder motor yet produced.

You are invited to inspect this car at our Show Rooms.

TOWN AND VICINITY

Ducks are reported to be flying northward.

Ekfrid council meets Tuesday, November 15th.

Uneasy lies the head that holds the combination of a bank vault.

Guy Fawkes Day brought the first snow of the season this year—just a light blanket.

The rate of exchange between Canada and the United States is now one quart for ten dollars.

The third annual dance of the Glencoe Great War Veterans will be held tomorrow evening.

The women have the bulge on the men when it comes to hanging up the Christmas stockings.

Don't forget the chicken supper and concert in the school house of No. 1, Mossa, on Armistice night.

The Appin Baseball Club have invitations out for an informal dance at the town hall there on Nov. 18.

Now that the elections are on, about the only discreet remark a man can make is "Merry Christmas."

Jinks says there are only two jobs worth while now. One is robbing banks and the other is bootlegging. He is undecided which to choose.

High school commencement exercises have been set for Tuesday, 29th of November, 10 a.m. Hon. R. H. Gray, minister of education, is expected to be here.

The two little children of Mr. and Mrs. Archy Graham, Mossa, have been seriously ill for some days with dysentery, but were reported yesterday to be improving.

J. W. Edwards, who disposed of his hardware business here a few weeks ago, is moving on Monday to Strathroy, where he has purchased the Davis grocery business.

The public school was closed for a few days last week to allow of its being fumigated for a preventive measure on account of there being several cases of scarlet fever in the community.

Mr. and Mrs. Charles Lewitt of Detroit, formerly of Glencoe, were seriously injured a few days ago when their automobile collided with a street car. They were taken to the hospital and are recovering.

Rev. Ben H. Spence, general secretary of the Temperance Alliance, will address a meeting in the town hall, Glencoe, at 4 p.m. on Sunday, Nov. 13th. Howard Russell, one of Toronto's well-known baritone, will sing.

John P. McTavish has been in Victoria Hospital, London, for some five weeks undergoing treatment with rather slow progress. A second surgical operation was performed on Tuesday with very encouraging results.

While the Indians of Walpole Reserve are said to be predicting a severe winter, the Indians on the Saugeen Reserve, North Bruce, are predicting an open winter. You can take your choice, but we prefer to line up with the Saugeen.

At the annual thankoffering meeting of the Gordon Mission Band, Mrs. (Rev.) D. G. Paton was presented with a life member certificate of the Women's Missionary Society. Rev. C. D. Paterson, of Newbury, delivered a splendid address.

Statistics of the tobacco crop in Ontario for this year show Mossa to be the only township in Middlesex county in which growers' licenses were applied for. The estimate gives an acreage of 41, at 1,150 pounds per acre, a total of 47,150 pounds.

The ladies of St. John's church will hold an OLD ENGLISH DINNER and BAZAAR in the school room on Wednesday afternoon and evening, Nov. 23rd. The bazaar will open at 3 o'clock. Dinner will be served from 6 to 8. Dinner, 50c; children under 12 years of age, 35c.

The death occurred on Thursday, Nov. 2nd, of Donald William McEachern, youngest son of Mr. and Mrs. D. G. McEachern, North Glencoe, aged 1 year, 6 months and 11 days. The little child had been in ill health for some time. Sympathy is extended to the bereaved parents and family.

Mark Stover of Sarnia died in the hospital at London on Tuesday afternoon from injuries sustained when the motor car in which he was riding ran into an old cellar during a thick fog at Delaware on the night of Oct. 28th. William Ralph Lawrence, also of Sarnia, was almost instantly killed in the same accident.

The Presbyterian Y. P. G. held on Monday evening was very interesting. A. B. McDonald gave an address on "Paul's experiences at Jerusalem." The musical part of the program included a piano solo by Miss Margaret Morrison and a vocal solo by Miss Mayne Grant. The young people intend taking Mr. Stover's study of "His Dominion" and to follow the series of studies contained in the "Pathfinder," which is expected to be of great interest.

The Ross Mission Band held their annual thankoffering meeting in the lecture room of the Presbyterian church on Tuesday evening. Rev. James MacKay of New St. James, London, delivered a very enthusiastic address. Three life membership certificates of the Women's Missionary Society were presented by the Band to Rev. D. G. Paton from Mrs. Maria Clannahan, in memory of her husband, the late Robert Clannahan and to Mrs. J. J. Luckham and to Mrs. H. J. Jamieson.

A united thanksgiving service was held in the Glencoe Presbyterian church on Monday morning, conducted by the local ministers and Rev. Mr. Murphy of Newbury. Rev. Mr. Charlton in an address, paid high tribute to Canada's soldiers, taking for his text, "Come from the four winds, O Breath, and breathe upon these slain, that they may live." The pulpit was decorated with flags which served as a remembrance of Armistice Day. A united choir led in the service of praise.

SPECIAL NOTICES

For sale—new milch cow.—W. G. McCallum.

For sale—25-gal. gasoline drum.—R. E. Laughton, Glencoe.

Per sale—2 yearling steers.—M. C. McLean, Route 2, Glencoe.

Don't let this opportunity pass without laying in a good supply, and thereby save \$\$\$\$.—C. George.

ARRIVED IN CHINA

A letter from Shanghai, China, says:—William M. Leonard and family, after a most enjoyable ocean trip, arrived in Shanghai on Oct. 1. All are well and anticipate the trip up the grand old Yangtze for another 2,000 miles with great eagerness. The weather is beautifully warm, and old Shanghai with its teeming life and shipping makes a fascinating picture unlike anything else in the world. Mr. Leonard urges some of the Glencoe people to come and see this wonderful aspect of the East.

CHICKEN SUPPER

The Progressive U. F. O. and U. F. W. O. Club of Mossa and Ekfrid entertained about eighty of their friends to a chicken supper at the beautiful home of Mr. and Mrs. Joseph Walker, Woodgreen, on the evening of Nov. 4. Following the supper a splendid program was rendered, consisting of solos by Miss Weekes, duets by the Misses Squire and Messrs. Walker, instrumentals by Miss Weekes, the Misses Squire, Mr. Webster and the orchestra, and recitations by Messrs. George and Henderson, Walter Bolton, president of West Middlesex U. F. O. organization, occupied the chair. Mr. Bolton is an able speaker. He spoke on the principles of the United Farmers' platform and impressed on his hearers the need of living up to the principles. Harold Currie, the West Middlesex county director, was present and delivered a short address. Mr. Currie has few equals as a speaker. He is a firm believer in the organization and sees great possibilities in it if its principles are adhered to. "Equal rights to all and special privileges to none." Mr. Drummond, U. F. O. candidate, expected to attend but was unable to do so on account of illness. Mr. Bolton in his closing remarks congratulated the club on their social evening and said he and Mr. Currie would be pleased to come again.

KILMARTIN

Poppy Day tomorrow.

For the common everyday ills of mankind there is nothing to equal Tanlac.—P. E. Lumley.

Drives Asthma Before It.

The smoke or vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. Our experience with the relief-giving remedy shows how actual and positive is the succor it gives. It is the result of long study and experiment and was not submitted to the public until its makers knew it would do its work well.

THREAT OF COAL MINERS' STRIKE HANGS OVER THE UNITED STATES

**Indiana Miners Totalling 25,000 Have Already Quit Work
—General Strike Would Involve 350,000 Workmen—
Coal Shortage Not Imminent as Large Supplies Are on Hand.**

A despatch from Chicago says:—A strike of 350,000 coal miners of the principal bituminous producing fields of the country will follow enforcement of Judge Anderson's injunction against the "check-off" system, according to union officials. Already 25,000 miners have quit work in Indiana.

Frank Farrington, head of the Illinois miners, wired his chiefs that while a stoppage of the "check-off" system would be a violation of contract, he could not order a strike until it had actually occurred. It was understood he had received his instructions from headquarters in Indianapolis.

The Illinois miners will not be paid for two weeks, and until that time they will not know what action has been taken by the Illinois operators on Judge Anderson's injunction.

Illinois miners were reported ready to strike and quit work in the Central Iowa district. They were the first to go out in this state. It was not expected there would be a general

walkout before next pay day. Approximately 350,000 miners would be idle if a general strike is called. The mines of Illinois, Ohio, Pennsylvania, West Virginia, Michigan, Missouri, Kentucky, Oklahoma, Kansas, Texas, Wyoming, Iowa, and Montana would be tied up. The "check-off" system prevails in these states as well as Indiana where the miners have already gone out.

Under the "check-off" system the mine operators deduct union dues from the men's pay and turn it over to the union treasurer. Judge Anderson held money raised in this way was being used to prolong the West Virginia mine war.

Danger of a coal shortage was not regarded as serious by Chicago mine operators and coal dealers. It was estimated Chicago had a supply sufficient for two months. Supplies of both bituminous and anthracite were reported above normal, due to the industrial depression. Similar conditions, it was said, exist throughout the country.

EAST NEWFOUNDLAND SUFFERS FROM LAKE

Half a Million Dollars' Damage Done to Roads and Property.

A despatch from St. John's, Nfld., says:—The northeast gale which has swept this section of Newfoundland since Friday evening has abated. Half a million dollars' damage has been done to roads and public property. It is estimated, in addition to the loss of private property swept away or destroyed, beyond one death in St. John's from electrocution, no toll of life from the storm is known, but it is feared that loss of life was inevitable at sea.

No word has yet been heard from the small schooner which was blown out to sea with four men on board near Cape Hayden.

One story from Conception Bay tells of 12 men being forced to spend three days without food, marooned on Kelly's Island, near Bell Island, where they were trapped by the sudden rising of wind and sea. A steamer rescued them.

Sir Richard Squires, Prime Minister, has returned from a 250-mile tour to Trinity Bay. A pathway through big banks of snow, practically unknown previously at this time of year, had to be shoveled to allow the Premier's car to pass.

Wasps do good by reducing the flies and caterpillars.

South Africa sent a wreath to be placed on the tomb of the unknown United States warrior.

SPIRIT OF LEAGUE PRESENT AT ARMS CONFERENCE IN U.S. CAPITAL

A despatch from Paris says:—The idea that the League of Nations will play no part in the Washington Conference is a fallacy. It may not have an official delegation present at the deliberations, and it may not figure on the program, but it will be there just the same.

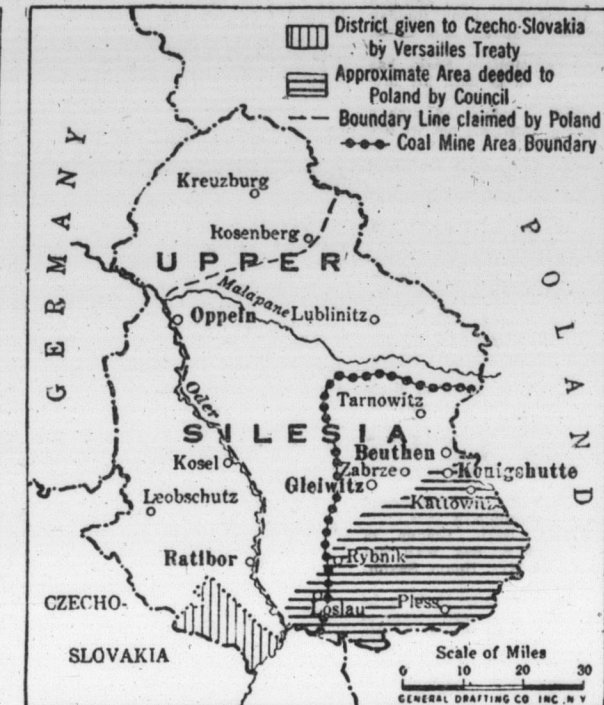

The ghost of the League they said they had killed will go to Washington to haunt the Republican chiefs of the American Government. But this ghost will not be an ordinary ghost. It will be the spirit of something which, if it does not exist in the minds of the Harding Administration, lives in the minds of those who will sit in majority about the Washington council table.

Can the dignified Mr. Balfour of England, whose enthusiasm for the League and its work stirred the representatives of the 48 nations at Geneva in September, sit down in November and forget it exists? Is the question asked here. Can the eloquent M. Viviani of France, who four weeks ago pictured the League as the greatest hope of international fraternity, shut it from his conscience two weeks

from now? Can the earnest Signor Schanzer of Italy change in a month from the ardent League worker he has been for two years? Will the taciturn Hanyaki of Japan take back the honeyed words of hope he spread upon the minutes of Geneva? Will the youthful and efficient Wellington Koo of China recant his praise of the League when he opened the second assembly, or will Jonkhoe van Karnebeck of Holland be brought to believe at Washington that for five weeks at Geneva he presided over a gathering of the dead?

The same men who represent their Governments at Geneva are going to Washington, since they are the best fitted men, both because they are students of international co-operation, and partially, at least, because their experience in League work has bettered them for the role.

And so, no matter where it comes technically in the proceedings, the question of the entry of the United States into the League will be automatically posed at all stages of the Washington Conference.

WHAT POLAND AND GERMANY GET IN UPPER SILESIA
This diagram illustrates what the Council of the League of Nations has done in dividing Upper Silesia between Germany and Poland. It gives the former the most territory and the latter the best of the industrial areas.

MALTESE HOUSE OPENED BY PRINCE

On His Way to India—New Type of Government at Malta.

A despatch from Malta says:—The Prince of Wales, on his way to India on the battle cruiser Renown, opened the new Maltese Parliament. The event marks the introduction of a new type of Government in Malta, based upon the principle of responsible self-government, subject to definite limitations laid down in the interests of imperial security.

The main principle is the establishment of two concurrent Governmental systems, one for local affairs under the complete legislative and administrative control of the Maltese people, and another for matters of imperial concern, taking orders from the Imperial Government.

Baby Dead Between Rungs of Cot

A despatch from Montreal says:—Left sleeping in its cot while its mother went out for a few minutes to a grocery store, the eight-month-old baby of Bruno Brunelle, of 8544 Dorchester street east, was found dead on her return, hanging by the neck from between the rungs of the cot.

Free TO GIRLS

Japan Honors Admiral Beatty

A despatch from Washington says:—The Emperor of Japan has ordered that the decoration of the Grand Cordon of the Rising Sun be conferred upon Admiral Earl Beatty, First Sea Lord of the British Admiralty, according to information received here.

Represents Canada's Veterans
Latest photograph of Sgt. George Richardson, V.C., who was 90 last August, and is the oldest V.C. hero in the world. He won the Victoria Cross for his services in the Indian Mutiny, and is one of the few living V.C.s who were decorated by Queen Victoria. Sgt. Richardson will lay a wreath of Maple Leaves on the grave of the United States unknown hero on Armistice Day.

Wheat Price Lowest in Six Years

A despatch from Chicago says:—What long ago used to be considered normalcy was reached on Thursday on the Chicago Board of Trade—wheat at \$1.02. The December delivery fell to that price, the lowest since 1915.

Later it fell to 99 cents, where it closed. On the Canadian market wheat also was weak, the final quotation on the December option at Winnipeg being 99½ cents. This is the lowest price reached this year and, according to local authorities, the lowest in six years.

Wheat congestion of a greater or less extent is reported all the way up from the seaboard to the head of the Lakes, and until purchases by the importing countries of Europe permit the movement of some of these supplies it appears as though there can be little relief.

The Western farmer is hard hit by the drop in prices, which cannot net him much more than 70 cents per bushel at the best.

CARL AND ZITA ON BOARD BRITISH MONITOR SAILING DOWN THE DANUBE

A despatch from Vienna says:—Carl and Zita are aboard the British river monitor, Glow Worm, of the Danube flotilla, steaming slowly down that romantic river which is famous in song and dance, towards a, to them, as yet unknown St. Helena.

With them departs also what is probably the last hope that any Hapsburg may have entertained of mounting the Hungarian throne.

In making his comic opera, yet tragic dash for the throne, Carl, in destroying all his own chances for again setting the thousand-year-old Holy St. Stephen Crown on his head, has also had some revenge—he has dethroned all the other Hapsburg aspirants.

In archducal circles the adventure of Carl is spoken of in great bitterness and characterized as "madcap folly." The chief blame is put upon former Empress Zita. Even after the fiasco there was still hope in those circles that prompt abdication by Carl might save the chances for some other member of the Hapsburg dynasty to mount the throne. Some, however, were extremely skeptical, one of the archdukes remarking to the correspondent:

"Zita will never let Carl formally abdicate and renounce his rights to the throne."

And so it has turned out, and Carl, passing down the Danube on a British warship, is still the legal king of Hungary.

The Horthy Government, it is said, has decided to proclaim the dethronization, not only of Carl, but of all the Hapsburgs, and will attempt to do this through constitutional change, dropping the "pragmatic sanction."

In this manner, Hungary, under the pressure of circumstances, emerges from a feudal monarchy into a more democratic but still kingless monarchy.

The Hungarian Cabinet has decided to comply with the Allied ultimatum to depose the Hapsburg dynasty, and has convoked the Assembly for Thursday to pass the necessary motion.

A despatch from London says:—Stubbornly refusing to abdicate upon the demand of the Hungarian Government, the former Emperor has now been forcibly deposed, according to reports received in official quarters here from Budapest.

The Provincial University.

Speaking at the University College Alumni dinner on Friday evening last, Hon. Dr. H. J. Cody told of finding, on the tour of inspection last year by the Royal Commission, students packed into what had been an old dining hall but is now a poorly ventilated classroom, of discovering a professor teaching a class in mathematics in an abandoned kitchen in the basement where there was no possible ventilation at all, and of seeing another professor teaching Greek to a group of students in a little basement room that was once a pantry.

"If," said the speaker, "the regulations of the Department of Education regarding classroom space and ventilation which are enforced in the Public and High Schools were made to apply to the provincial university, a large part of University College would be closed as unfit for educational purposes." This lamentable state of affairs cannot be remedied until more money is available for the support of the University of Toronto. It was hoped that the Report of the Royal Commission on University Finances would have been adopted by the Government of Ontario last year but, because of lack of time for its consideration, this Re-

China's Finances at Washington Conference

A despatch from Washington says:—The State Department recently called the attention of the Chinese Government to the possible serious effect upon its credit which might follow default of the \$5,500,000 loan made to it by the Continental Trust & Savings Company of Chicago. The Chinese Government decision to default on the Chicago loan defaulted also several loans advanced by Japanese institutions during the world war and so far as known here, the Japanese Government has taken no action to satisfy claims of the Japanese creditors of China.

The general financial demoralization of the debtor country, it is assumed, will be discussed in the Washington Conference, when the Chinese problems are presented for discussion.

REGLAR FELLERS—By Gene Byrnes

H. G. Wells
The famous British author, who has arrived in the United States to attend the Washington Conference on Disarmament.

SLUMP IN EXPORTS HITS CANADA'S TRADE

Commercial Enterprises of Canadians in London Suffer a Setback.

A despatch from London says:—The slump in the export trade has hit Canadian commercial enterprise in London fairly hard. A compulsory winding-up order issued some time ago against Thyne, Nicholson, and Duncan, has now been followed by the report of the official receiver, showing liabilities of \$22,000 against assets of less than \$3,000 and a total deficit of \$23,000 with regard to contributions. The company was formerly sole European agent for and owned considerable stock in the Export Association of Canada, which for a time did a big business here, and of which some thirty Canadian firms, many of them in Montreal, were members. Over a year ago the Export Association parted company with the firm, and itself continued to do business under the management of two sons of Sir Clifford Sifton. It has since closed its European offices.

The Dominion Exporters, another Canadian concern with head offices at Montreal, has also met financial disaster here. The Canada Overseas Trading Company is being re-organized, while several other Canadian enterprises have been abandoned during the past six months. On the other hand, some firms founded on a firmer basis have managed to hold out and now report improved prospects. Canadian salmon, the market for which was very flat until a month or two ago, is now, on account of the small pack this year, again quite saleable at former prices. The failure of the British apple crop has lessened the situation for the product of Canadian orchards and despite low prices and exchange difficulties Canadian grain is being sold in Liverpool much more freely than had been hoped.

Trees and Business.

It has been many a year since the forests were robbed in more beautiful colors than they have possessed this autumn, yet the glory of golds and yellows is fast passing away and nothing but the bare trunks and branches remain. The dark, ugly, gnarled sentinels of the forests will then stand in the place of the autumn beauty. Unattractive, indeed, will these barren trunks be in comparison, yet there is embodied in the roots and trunks and branches of these soldiers of the woodland the same potential power that produced the unspeakable beauty of the foliage that is now falling.

Such changes often go on in the businesses which men follow—co-operative institutions are no exception. In these organizations men become enthused during the springtime of development and the foliage of hope grows rapidly and beautiful and the undertaking is full of promise. This growth continues through the summer with every encouragement until the arrival of the fall frosts of competition, which suddenly arrests further development. When these leaves of hope take on for a moment their brilliant hues and then fall, the co-operation backslides too frequently, begin to multiply. But the cold business institution has more than likely grown in strength and power to serve. So don't forsake it simply because it has finished standing on dress parade. If it is to be of any permanent value to those who are associated in the organization then the time must come if it is not here, for the institution to get its working clothes on to buffet the storms and stand the test of a rigorous winter.

Karl Took Precautions in Quitting Refuge

A despatch from Vienna says:—An interesting incident happened at Tihany before Karl's departure. The ex-King called for the Entente officers guarding him and asked them for a certificate confirming that he had been delivered into the keeping of the great powers. Apparently Karl feared he might be captured during the journey by Little Entente troops. He was granted his request.

Lady Laurier, widow of Sir Wilfrid Laurier, former Premier of Canada, died at her Ottawa home last week. H.R.H. Prince Eric of Denmark and Prince Regé de Bourbon Parma have sailed for Canada.

Not By Accident

The Mayhew & Co. Store has won its place as 'Glencoe's Real Value Givers.' Leadership comes to a store only after it has gained the confidence of its customers. NEWBURY

Mrs. Graham returned to Toronto on Wednesday after visiting her daughter, Mrs. Moore.
Mr. and Mrs. W. O. Kraft left on Friday for a trip to Stevensville, London and St. Thomas.

Dr. B. E. Wilson of London visited his sister, Mrs. Matt. Armstrong, last week.

Miss Mary Armstrong was a delegate to the Women's Institute convention held in London last week.

Among the holiday week-end visitors were W. H. Grant and A. Grant of Windsor and Mrs. Watterworth and daughter of Glencoe, at J. G. Grant's; Mrs. Young with her daughter and son of London, at J. Telfer's; Miss Sadie Stewart and A. M. Bayne of Toronto, Miss M. G. Hayne of Hagersville and Mrs. Cameron and daughter Jessie of Glencoe, at J. G. Bayne's; Miss Dorcas Glennie of London, with her parents; Bert Crooks of Chatham, at Tom Fletcher's; Mrs. Jessie Fletcher and son Ronald, at Bruce Fletcher's.

R. H. Moore, wife and daughter Betty spent Thanksgiving Day at West Lorne.

Peter Campbell and family visited Windsor friends this week.

D. Stalker and family spent Thanksgiving with Dutton friends.

Miss Carrie Fletcher has returned home from London.

R. Barnes of Thedford visited at T. Fletcher's last week.

Mrs. George Churchill of London spent the week-end at S. Fennell's.

Ben. H. Spence will address a temperance meeting in the town hall on Sunday, Nov. 13, at 7.30 p. m. Mr. Russell of Toronto will sing.

Hugh Callan and wife of Toronto and Miss Minnie Dobbins of London were with Mrs. Lamb over the holiday.

Born—Nov. 6th, to Mr. and Mrs. James Whittington, a daughter.

Wm. Milner and wife of Walkerville spent the week-end at A. Holman's.

Jack Walker of London spent Thanksgiving at Bruce Fletcher's.

Andrew Gray of London and Will Gray and wife of Windsor spent the week-end with their mother here.

Anniversary services were held in Knox church on Sunday at 11 a. m. and 7.30 p. m. Rev. James Malcolm of Hornby, a former pastor, preached at both services. The sermon

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

THE CENTAUR COMPANY, NEW YORK CITY

CASHMERE

Mr. and Mrs. Albert Storey and son Elmer of Wardsville spent Sunday with the former's sister, Mrs. Cyrus Smith.

Basil Stiller of Melford, Sask., has returned home and is with his brother Calvin.

Calvin Stiller is indisposed with a severe attack of tonsillitis but we are glad to learn that he is some better.

Miss Rhoda Taylor of Walkerville is visiting her parents here.

Clarence Tiffin spent the holidays at A. J. Taylor's.

Meilyn Stiller of Detroit spent Sunday with his brother Calvin.

Mr. and Mrs. Earle Tunks and sons Walter and Glenn spent Thanksgiving in Bothwell with Mr. and Mrs. Allen Stiller.

The Ladies' Aid of this church are holding a poverty social at the home of Mrs. S. J. Thompson on Tuesday, Nov. 15th.

Mr. and Mrs. Allen Stiller of Bothwell spent Sunday with their son, Calvin.

Howard Gardiner is putting new siding on his house, which will add greatly to the warmth and aspect of the place.

Miss E. Hughes was indisposed with a cold for a couple of days.

Mr. and Mrs. Earle Linden of Wardsville spent Sunday with her parents, Mr. and Mrs. Henry Saylor.

The Many-purpose Oil—Both in the house and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for cuts, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horace are liable very largely to similar ailments and mishaps as afflict mankind and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

BETHEL-MACKSVILLE

Misses Susie and Grace Boyd are visiting friends at Aylmer.

Brock Hetherington, who has been in Victoria Hospital for some weeks and underwent two operations, is able to be home, but far from being well.

John Hetherington is under the doctor's care.

Mrs. Samuel Dismore, who has been sick, is slowly recovering.

Arthur Ash and Mrs. C. C. Henry attended the funeral of Wm. Hollinger of Whitevale, which took place on Monday.

A number from here attended the "at home" given by the L. O. L. brethren of Glencoe on Friday evening, and report a good time.

The early appearance of snow indicates that we may get a sleighride this winter.

The sugar beet crop is nearly all harvested and we are glad to see the end of them. The heavy teaming has made the roads almost impassable.

The wet weather, which makes the beets in a muddy condition, makes it very unpleasant for the weigh man and tare man. The high tare on the beets is trying out the good natured fellows of this section, making it very hard for some of them to control the top story.

STRATHBURN

A meeting of the Battle Hill U. F. W. O. was held at the home of Mrs. Clarence Nixon on Monday, Oct. 31. There were 17 ladies present.

Delegates were appointed to attend the executive meeting at Mount Brydges. Mrs. Nixon was appointed the new librarian. Plans were made for a chicken supper to be held in the school house on Armistice night, and it was decided to have the annual meeting on Wednesday, Nov. 16, at 2.30, at the home of Mrs. James Gilbert.

Sweet and palatable, Mother Graves' Worm Expeller is acceptable to children, and it does its work surely and promptly.

KNAPDALE

Miss Ava Weer of Wardsville is spending a few days with her cousins, Misses Nora and Geneva Stewart.

Fred Crooks of Chatham is spending his Thanksgiving holidays with Tom Fletcher of Knapdale.

Miss Carrie Fletcher has returned home again for the winter.

EKFRID STATION

The members of the Eureka Community Club of S. S. No. 4, Ekfrid, held their November meeting at the home of Mrs. Bernice Galbraith, with an attendance of over 40 members and visitors.

The president, Mrs. D. J. McLean, presided. The meeting opened with prayer, followed by all singing "The Maple Leaf." The minutes were read by the secretary, Mrs. Dunc. McTavish, and the topic "How we are benefited by meeting together" was given by Mrs. Ben. Setzler. After the business of the club was discussed a social half-hour was enjoyed by all, during which time lunch was served by the hostesses, assisted by the young ladies of the flower committee.

A hearty vote of thanks to the hostesses and the singing of "She's a Jolly good fellow" brought a very enjoyable afternoon meeting to a close. Mrs. W. P. Cornell and Mrs. G. J. Lee will act as hostesses at the next meeting, which is to be held at the home of Mrs. Cornell. At this meeting the topic, "Women in Politics" will be taken by Mrs. D. A. Campbell.

John Switzer of Walkerville spent the week-end at his home here.

Mrs. Palford and son C. M. of Detroit are visiting with Miss Annie Galbraith.

ASTHMA USE RAZ-MAH

HAS NEVER FELT THE RHEUMATISM

Since Taking "Fruit-a-tives" The Famous Fruit Medicine

P.O. Box 123, PARISBORO, N.S.
"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up.

I tried medicines I saw advertised, and was treated by doctors but the Rheumatism always came back.

In 1916, I saw in an advertisement that "Fruit-a-tives" would stop Rheumatism and took a box, and got rid of them took "Fruit-a-tives" last night for about six months and I have never felt my Rheumatism since."

JOHN E. GUILDERSON.
50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

SOUTH EKFRID

A very enthusiastic meeting of the South Ekfrid U. F. W. O. was held at the home of Mrs. S. Ughart on Thursday last, with a large number of ladies were present.

As this was the last meeting for the year, new officers were appointed for the coming year as follows: President, Mrs. James McRae; vice-president, Mrs. Crawford Allan; secretary, Mrs. Miss. Alberta McRae; directors—Mrs. Archie McRae, Miss Marie Brown, Mrs. John L. Tait, Miss Edith Ughart, Mrs. R. J. Conithard and Miss Mary B. Dunanson. Mrs. Geo. Coad was appointed delegate to Toronto.

Mrs. James McRae and Miss Alberta McRae were appointed delegates to Middlesex convention. During the meeting excellent papers were given by Mrs. James E. Treastain, Mrs. Roy Squire, Mrs. James Letbridge and Mrs. C. Allan, also a piano duet by Misses Mary B. Dunanson and Alberta McRae, and a piano solo by Miss Ella McRae. A dainty lunch was served by the hostesses. During the winter months the U. F. O. and U. F. W. O. will hold joint meetings and they expect to have interesting programs.

MIDDLEMISS

Miss Linda Battin is spending Thanksgiving with her parents here. Born Nov. 7th, to Mr. and Mrs. John F. Graham, a daughter.

Mrs. (Dr.) Huser of Wardsville preached in the Amnys Wood Methodist church here last Sunday.

Miss Margaret Richards and Miss Kathleen McNabb, who are attending the Normal school, London, are spending Thanksgiving with their parents in the village.

Jack Bowler has returned after spending several weeks in England.

Mr. and Mrs. Arthur McArthur have moved back to the village.

Everyone is looking forward to a good time at the play "The Haunted Mill" or "Con O'Ragan's Secret."

Mr. and Mrs. Ralph Perkins are spending the holidays with her mother, Mrs. Barbara Graham.

Mrs. Freeman Perkins is spending Thanksgiving with her sister, Mrs. C. L. Lucas.

Maynard Dell of Iona Station is spending Thanksgiving with his friends, Mr. and Mrs. C. H. Lucas and family.

KILMARTIN

Dr. and Mrs. Hawley and children and Robert J. McAlpine of Detroit and Mr. and Mrs. R. E. Crosby and little daughter of Highgate spent the holidays at Duncan R. McAlpine's.

Mr. and Mrs. Thomas Moore of Walkerville spent the week-end here.

Will Moore of Walkerville and Woodrow Moore of Detroit spent Thanksgiving at Joseph Moore's.

WOODGREEN

Ahem! We regret to state the rocks are still very prominent on the provincial highway.

Isaac Watterworth, who fractured a rib one day last week, is much better.

Specks and ghosts were very prominent here on Halloween.

Mrs. John Schellenberg returned to her home at Sebringville on Friday after a lengthy visit here.

Miss Amy Peters spent the holiday at her home at Mount Brydges.

Walter Clannahan of London and Charlie Clannahan of Highgate spent the holiday with their grandmother, Mrs. Andrew Clannahan.

A goodly number attended the sale of plank held at the Graham road bridge on Friday.

Mr. and Mrs. L. Mitchell, Detroit, called on friends here Sunday.

The snow storm of the last few days indicate the coming of cold weather.

A Detroit girl who was married over the telephone has been granted a divorce. She got the wrong number.

The National Crisis

"My appeal is to the whole people; to every man and woman who wants to do right by this country; to everyone who breathes the spirit of our fathers who founded this British Dominion."

—ARTHUR MEIGHEN

THE Election to be held December 6th will be the most momentous in Canadian history; for as men and women vote will depend the economic stability, the political stability and, indeed, the national stability of this country.

Today we find group striving against group, class against class, the industrial and financial structure of the country assailed by false and unsound doctrines and theories, while our great neighbour to the south has adopted a trade exclusion policy directed against Canada's vast agricultural interests.

The currencies of nearly every country in the world are depreciated. The Canadian dollar in the United States is subject to a heavy discount causing a loss of over one hundred million dollars in exchange annually.

Europe is overwhelmed with war debts—unemployment is acute—and the restoration to pre-war conditions is slow.

While Canada is in a much more favorable condition than many countries, yet there is evidence of stagnation, instability, unemployment and lack of confidence.

Taxes are heavy because of the country's efforts in the Great War, but have become burdensome on account of the misconceived policies and blunders of Governments that directed Canada's affairs prior to 1911.

These conditions are largely the direct aftermath of the war, but they must be dealt with fearlessly and constructively. This is no time to consider experimental changes, or the theories of visionaries.

This is no time for Orerar and his Free Trade policy.

This is no time for King and his wobbling "charted" policies, varying with each provincial boundary.

It is the time to cling to orderly, stable Government in the interest of all the people; to be guided by the experience of the past, proceeding upon lines that have been proven sound.

It is the time to place the destinies of Canada again in the hands of a Government led by a sane, courageous Canadian who has safely brought the country through the trying years of reconstruction, and upon whom we can rely to retain and initiate policies in the interest, not of a group or class but of all the people.

It is the time to support Arthur Meighen and his Candidates.

Meighen will lead us through
