STORY OF KING EDWARD. The following story is told with reference to the King's visit to Skibo Castle early in the year. Mr. Carnegie received the King at the entrance to the castle, and said he felt honored by the visit, whereupon the King genially remarked: "Not at all. It is an honor to me to know the man who is educating the world." In the course of the evening the King asked to see Miss Carnegie. The little maid was brought into the room and the King sat her on his knee and asked for a kiss. The reply was: "Yes, certainly; would you like to see my dolls?" TALK OF LICENSE REDUCTION. To a Globe representative Mr. F. S. Spence said yesterday: "I have been quoted as seeming to favor a proposal for reducing the number of liquor licenses now in operation in Toronto. I did not advocate, nor even express, opinion upon such a policy. I definitely refused to make any suggestion as to the line of action which temperance workers ought immediately to take. No one has any right to speak for the temperance party until there has been opportunity for a full discussion of the situation, and consultation as to the best method of securing the best possible results from the magnificent victory won on Thursday last, in which the present liquor system was condemned by a majority greater, I think, than that expected by any friend of the temperance cause. When questioned concerning the effect of license reduction, I pointed out the fact that such action might do good, and yet, under certain circumstances. might have disadvantages, calling attention to the fact that mischief is being done by efforts recently made by the liquor party in Te-ronto to secure the scattering of licenses over a wider area, thus making them more convenient of access to the population at large."

PLUM PUDDINGS BY POST MANCHESTER'S NEW FAD

Valuable Trinkets Are contained It is Claimed That Food Is Not in Their Hearts.

And They Are Sent All Over the Wide | So Physical Health Culturists Are Not World by Parcel Post.

London, Dec. 9.-With the approach of Christmas, the plum pudding industry of England-which so far has not been called upon to repel any! American invasion other than that made up of consumers-is in its glory. From London tons of festive puddings find their way all over the world.

The Oxford street shop of the best known makers of plum pudding has orders for the sending of pudding to every quarter. Many are ordered as Christmas presents for friends in the United States. The puddings are packed in tins and sent by parcel post as a rule. A talk with the manager called forth some interesting informa-

"We sell about 250 tons of plum pudding each Christmas," he said.
"Roughly speaking, 82,000 puddings, averaging 7 pounds each, besides some

half million large cakes. "The old custom of putting a threepenny bit in the family pudding has developed into a very expensive fashion. Costly jewelry and charms are ion. Costly jewelry and charms are now sent concealed in the heart of the pudding. Many of our customers send small toys and ornaments to be in-We have several times dispatched diamond rings in this way to different parts of the country. A year or two ago a royal personage sent us an ornament worth £500 with instruc-tions to boil it in a pudding. It is a

rather dangerous fashion. "Postage rates for plum puddings are extraordinary. A 7-pound pudding costing \$2 sent to Rhodesia is charged the same amount for postage, while the rate for Hong Kong for the same pudding is only 50 cents. The duty of nearly 50 per cent. on plum puddings had severe headaches on the second imported into the United States has and third days, and intermittent headnow been abolished, and we are sending many to America. LIBERAL GIFTS TO HOSPITAL FUND

Contributions of Two Canadian Peers Amount to Nearly \$80,000 Yearly.

Montreal, Que., Dec. 9.-Just prior to the coronation of King Edward the news came from London that Lord Strathcona and Lord Mount Stephen had made munificent donations to King Edward's hospital fund for London, but no amounts were stated, and it was merely a matter of conjecture as to the sum given. Now, however, the veil has been lifted, and the honorary secretaries of King Edward's hospital fund acknowledge the receipt at the Bank of England of the sum of £4,094 2s 4d, "being the first quarterly dividend arising from the securities so generously given to the fund by Lord Mount Stephen and Lord Strathcona." This announcement shows that the two Canadian peers have devoted securities to this object, which for all time (at the prevailing rate of interest) will give an annual income of £16,376 13s 4d, equal to \$79,699 83. The munificence of the two famous Canadians was fittingly referred to by the Prince of Wales in a speech which he made at the general council of King Edward's hospital fund, held at York House, London, on Nov. 24, when His "Mrs. Lewis" Royal Highness said: gift was followed by the splendid endowments from Lord Strathcona and Lord Mount Stephen, who have thus extended to King Edward's fund that

Consumption is Like a Plant.

No matter how much corn falls on a bare rock, it wont grow there. Neither will consumption germs grow in perfectly healthy lungs. But it the lungs become weak and inflamed they are good soil for consumption germs, and if these enter they may take root and grow.

There is no medicine that will directly weed them out. The thing to do is to make the lungs so healthy that the germs will have to stop growing because there is nothing for them to thrive on.

The lungs must be nourished with plenty of good blood, kept pure by breathing pure air. There must be more sleep; less work and worry. Perhaps some medicine. The doctor will know.

The most important thing is nourishment. When the body is weakened by consumption, the digestive powers cannot obtain from ordidinary food enough of the elements needed to make good blood. The lack is best supplied by the use of Scott's Emulsion. It is extremely rich in the substances which make good blood, and it also helps the digestion to obtain nourishment from ordinary

Scott's Emulsion is a foodmedicine; not a stimulant; not a mere "extract" or socalled "wine" of cod liver oil. It contains the whole oil perfectly emulsified, which is the only way of preserving its valuable properties. These are united with hypophosphites of lime and soda into a combination which rapidly builds healty tissue throughout the whole body, and particularly in the lungs.

She Sent Him to Question a Conductor and Fled in a Hack.

Buffalo, Dec. 9.-R. G. Lynn, of Whitby, Ont., says the Express, met a woman known as Madam Ellen Francis, a palmist, in October. She read his palm and told him that the lines indicated that he was to be married before Christmas. Later he proposed to the palmist, and she accepted, Lynn sold his well-stocked boarding-house in Whitby and came to Buffalo with the woman. They hadn't been here four minutes before the woman disappeared and with her went about \$300 belonging to Lynn, which represented all that Lynn received for the boarding-house. Lynn registered a complaint at police

station No. 1 late last night. He is short and slender, with luxuriant gray whiskers. He said the girl had confessed to seeing 30 summers.
On the train from Whitby to Toronto Madam Francis, so Lynn says, suggested that it would be well for her to carry the funds, inasmuch as they were about to be married. At Toronto she bought tickets for Buffalo, but she neglected to get any return stubs. They arrived in Buffalo at 6:30 o'clock last night. When they got to the street Madam Francis spied a green car

BOSSES GET THEIR "POUND OF FLESH"

Hardships of Miners' Widows and Orphans

AS TOLD TO THE COMMISSION

Light on the Powder Ouestion-Price of Provisions Increased 30 Per Cent.

Scranton, Pa., Dec. 8 .- Almost the entire time of the day's session of the coal commission was taken up by the miners in presenting their side of the controversy with G. B. Markle & Co. The miners placed witnesses on the stand whose testimony went to show that the company refused to employ them because they belonged to the union, and evicted them from their homes for the same cause; that the docking system was intolerable; that the question of the men getting the ten per cent increase in wages. granted as a result of the 1900 strike, is much in doubt: the price of powder, which enters into the computation of the increase, and the size of the mine cars has increased, but the wages have not.

OPPRESSING THE WIDOW. Two Hungarian women told how the Markle Company deducted house rent from the last wages of their husbands, who were killed in the mines. and how the company attempted to get them to sign a paper which would absolve the Markles from damages for the death of the men. The women also confirmed the story told by the breaker, that the boy had to work without pay until the debt owed by the dead father was paid off.

The Markle Company were not re-presented by their own lawyers beample warning.

James Galiagher, an employe of G. B. Markle & Co., said it used to be the custom of the Markle employes to contribute \$50 to the family of a man killed in the mines and the man's fellow-workmen would lay off until the funeral. A compact was made later with the workmen, whereby the employers would pay the \$50 for the men to remain at work. Witness said the size of the mine cars had been steadily increased, but the wages paid

had not been raised. A FLURRY. There was a flurry at the afternoon session because Lawyer Ira H. Burns, of Scranton, for the independent companies, referred to the President of the United States as "Teddy Roose-velt." The remark brought out an emphatic objection from Brig.-Gen. Wilson and the general was sustained by Chairman Gray. The commissioners today made another request upon the companies to present figures as quickly as possible, and as a result the Erie Company

in the day submitted statistics the collarbone through falling from a regarding wages, hours and other data horizontal bar. The injury will not in- relative to the subject. THE POWDER QUESTION. The powder question came before the commission at the afternoon ses sion and caused considerable discussion. It was brought about by Mr. Clark asking for the recall of Paul Dunlevy, a Markle miner, who had testified at the morning session. Mr. Clark read to the witness a statement of wages submitted to him in the forenoon, which showed that months he owed the company \$4 50 for powder. Witness could not tell how it was that he was in debt and added

that in this way of thinking the ten per cent increase granted by the company in 1900 was not an increase at all. He explained that the company along with the other coal companies granted the men a reduction in the price of powder from \$2 75 and \$2 70 to \$1 50; but that the reduction in the powder was to be considered in the ten per cent increase in wages. other words, they got a 21/2-cent increase in wages and the powder reduction amounted to an increase in wages of 71/2 or 10 per cent in all. DEARER LIVING.

J. W. Rittenhouse, secretary of the Retail Grocers' Association, gave the prices for eggs, butter, meats and provisions for 1900, 1901 and 1902. The increase in prices ranged from 15 to 78 per cent, making the general average for groceries about 30 per cent higher than those of two years ago. John B. Hughes, the Scranton manager for Armour & Co., gave the wholesale prices for all meats comparing them with the prices prevailing in 1900 and 1901. that the prices of meats of all kinds have increased 23 1-3 per cent over the prices of 1900.

BREAKER BOY'S WAGES. Mrs. Andrew Chippi, the mother of the 12-year-old breaker boy, who tifled on Saturday that he had to work out the debt of his dead father, took the stand and sustained all the boy had said. She gave information through an interpreter, that the Markle Company wanted her to sign a paper waiving all rights to sue the company for the killing of her hushand in the mines. The company promised her rent and coal free six months, but she refused to sign. Upon her refusal to do so, they charged up rent and coal, and little boy was compelled to work at 4 cents an hour in the breaker, but as his wages are so small, the debt is increasing.

SQUARING ACCOUNTS. Another Hungarian woman, whose husband was killed at the same time Mrs. Chippi's husband lost his life, told precisely the same story in every way. Her son was a driver boy in the mine at 8 cents a day and for five or six months received only five dollars, the remainder of his wages being retained by the company for rent and coal. Both women received \$50 each for burial expenses from the company, but the funeral expenses in each case were greater than \$50. husbands were killed the company took out of the wages coming to them the house rent and coal bill.

London, Tuesday Dec. 9. The Vacancy in the Senate.

The death of the late Hon. John O'Donoghue leaves a vacancy in the Senate which will probably be filled by some prominent Roman Catholic in this Province. The name of Mr. Thomas Coffe of this city, has been proposed, and his appointment would find cordial approval in this community, where he has spent a lifetime. We feel a special pleasure in suggesting Mr. Coff g, as he is a veteran publisher, who has made his paper, the Catholic Record, the most successful of the kind in Canada. He stands high in the estimation of his fellowcitizens. They know him as a broadminded man, who has used his influence to promote harmony and goodfeeling among all classes and has identified himself closely with the interests of the city. Mr. Coffee has been a life-long Liberal. He is one of the most representative Roman Catholics in Ontario, and would be a credit in the Senate to his co-religionists. His long and useful career would be worthily crowned by such an honor and his experience and strong ability would make him a valuable public ser-

The former despised and tax-ridden fellah has been lifted up, the credit of the country has been restored, and its wealth and production have increased almost magically. To turn Egypt adrift almost magically. To turn Egypt adrift at this tide in her affairs would be a crime against humanity The fellaheen For the coffee's lost its flavor, And the steak that looked so tempting would be practically delivered into would fall with a crash, and the development which promises to raise Egypt into something like her former greatness would be arrested. There would be a return to the anarchy and rapacity which characterized native rule, and which the British twenty years ago stepped in to correct. France is the only nation that would welcome the change. She refused to co-operate with the British in maintaining order in Egypt, after the suppression of the outbreak in Alexandria, and left Great Britain to undertake alone the task of reconstruction. Since then she has persistently accused Great Britain of bad faith in refusing to withdraw, but this may be put down to national pique over the impolicy of the French Government in 1882, and the success of British administration. The French holders of big whiskers, "I am a peaceful citi-Egyptian bonds would be the fore- zen." Here he draws a huge revolver most defenders of British occupation, from his pocket, places it beside his knowing that native rule would spell plate and resumes: "But I intend that

The reconstruction of Egypt has been Cirected by the genius of Lord Cromer This great empire-builder is the real ruler of the country. The Khedive is the nominal head, but he is the mere puppet, pulled by the strings of British policy. Lord Cromer has ing. placed Egyptian finance on so sound a basis that it is in a position to bear the colossal burden of the Assouan dam project, the cost of which is estimated at \$125,000,000. The expenditure will be immensely reproductive, as the impounding of the river will insure regular crops on a vast area, which is rendered arid when the water in the Nile is low. An immense impetus will be given to agriculture, and it is expected that the increase in the production of cotton will make Egypt a serious rival of the United States.

The work, which dwarfs that of the Pharoahs, has been undertaken to benefit a race which has no claim on the British people. The world cannot show the equal of this benevolence on the part of a civilized power toward an inferior nation. It is by such achievements that the British race stands justified in its imperial mission.

President Shaughnessy criticised, as unjust and unwarranted, the action of the Canadian Department of Agriculture in prohibiting Minister's policy was a wise one. He situation by rescinding his previous order and accepting cattle at C. P. R. stations to be transferred to the Intercolonial for shipment to Halifax and St. John. Canada knows by experience that the British Board of Agriculture the embargo to cattle from Canadian ports if any infection appeared in shipments from this country. Hon. Sydney Fisher determined to take no chances, and his good intentions are cordially recognized by President Shaughnessy, who says in an inter-

"The Government looked at the matter from the broad standpoint of the shipment of cattle from Canada. The minister was at the tives. One was to list cattle from the infected States for export, or to wait for the action of the Imperial authorities. It was a matter for the Imperial authorities to say what action they would take, and when they shut out Portland and the State of Maine, it was obviously a very seri-ous thing for Mr. Fisher, on his own responsibility, to say that he would allow cattle to be shipped from St. John that had passed through the State of Maine. Had it been found that disease had broken out in the of a single shipment, there would have been a chorus of protests from the British cattle raisers, and the result would have been an order prohibiting all cattle shipments from Canada. For the safety of the Canadian trade, Mr. Fisher took the action he did, but that in no way alters the serious aspect of the affair, so far as this country is concerned." Political Has-Beens Making Laws.

[Montreal Star.] Persons acquainted with the Ameriean constitution might think that this Congress which is now getting to work was the one elected about a month ago. This is the way we would do it in Canada. But the fact is that this Congress is the one which was partialdefeated a month ago. These are members who were elected November, 1900, and quite a few of them were defeated at the polls at the recent elections. Still this will not prevent them from making laws and passing estimates and laying on taxes until the spring of next year, when the lately chosen Congress will get & chance to do the people's will.

THE MARKETS.

THE LOCAL MARKET.

London, Tuesday, Dec. 9. There was a slim attendance at the unsatisfactory state, which no doubt p vented many of the farmers from market-ing their produce. Should the sleighing continue until Christmas we should have some excellent markets between the resent time and that date. Grain—About a dozen loads of oats were offered, and sold at 88c to 90c per cwt. Hay and Straw-Only six loads offered today, which brought \$9 to \$950 per ton; sales were made without any difficulty, and a number of loads are wanted by the buyers, who were unable to fill their or-ders; therefore the demand should be good for the next couple of days.
Butter and Eggs-Very little offered; Saturday's prices prevail. Vegetables and Apples—The supply was light, and former prices were obtained.

Poultry—Turkeys comprised the bulk of the offerings, which sold mostly at 10c per pound wholesale; a few lots of dressed geese sold at 70 per pour d geese sold at 7c per pound.

Dressed Hogs—Between 30 and 40 on sale; most of them sold at \$7.50 per cwt; a few brought \$7.75 to \$8.

His death cury kept a downward tendency all had created a profound impression, afternoon, and at night it was 20 beof the ex-speaker. No business was transacted beyond the formal reading of two messages from the President and an arrangement to postpone the

special order of the day. Mr. Sherman (New York) then, amid profound silence, offered in a few feeling remarks, a eulogistic resolution to be spread upon the record of the House of Representatives, which was adopted, and the house adjourned in honor of the distinguished dead.

IN THE SENATE. Senator Nelson introduced a joint resolution for an amendment to the constitution so as to give Congress the power to control trusts and also a bill to' amend the Sherman anti-trust law by more stringent provisions. The provision for the amendment of the con-stitution reads: "Congress shall have power to define monopolies, or combinations, whether existing in the form of a corporation or otherwise; Congress shall also have power to license, regulate and control all corporations engaged in trade, commerce or other business among the several States or with foreign nations."

The bill for the amendment of the Sherman law makes all mergers or combinations in restraint of trade illegal, and provides punishment of the offense by a fine of \$10,000 or imprisonment for one year or both against each person engaged in the

combination. The bill also prohibits combinations in restraint of trade and all attempts to monopolize any part of the trade of the several States or territories, providing a fine of \$5,000 or imprisonment for a year in each case. Corporations engaged in interstate commerce are required to file with the Interstate Commerce Commission each year a state-ment of their business and also a statement giving the names of persons to whom stock was originally issued and the price received for it.

APPOINTMENTS CONFIRMED. Among the confirmations by the Senate were: Ministers of the United States, Arthur S. Hardy to Spain, Charles P. Bryan to Switzerland, Lesand Servia, William B. Sorsby to Bolivia, David E. Thompson to Brazil; ambassadors, Charlemagne Tower to Germany, Robert S. McCormick to Russia, Bellamy Storer to AustriaThe Mohawk River is frozen solid from Hungary; consul-generals, Edward S. shore to shore. Bragg at Hong Kong, Alfred A. Literary Notes.

"THE GIRL PROPOSITION," by George Ade. \$1 00. R. H. Russel,

George Ade's newest book, "The it, "a bunch of he and she fables," being issued from the press of R. H. Russell, New York. The volume is uniform in style with Mr. Ade's previous books, and is fully as amusing to the large class of readers who relish a little of Ade's nonsense now and then. Mr. Ade's slang is always fresh and up-to-date, and if the inevitable phrase is not handy, he simply invents one, thereby enriching to surprising degree the vocabulary of the thoughtful student of his works. The present volume contains 26 fables. all of them containing a smile to a line. The illustrations, which appear to be cut out of pine shingles with a brad awl, are by McCutcheon, Holme, Werntz and Newman.

DETERMINED TO DIE

Tied Himself to a Chair and Placed The Company Has Sold 4,021,059 of Pistol Barrel in His Mouth.

Toronto, Dec. 9.—Julius Kamm, of 168 Dovercourt road, made a most de-liberate attempt to end his life on Saturday afternoon, and the physicians in attendance upon him say that the attempt cannot result other than fatally. Kamm had been an invalid for many years, and had become very despondent. When the rest of the house-hold was out on Saturday he tied himself to a chair, and then with an oldfashioned pistol fired a shot into the roof of his mouth. The burns within his mouth show that he had placed the revolver barrel inside his mouth. When his son came home shortly after 2 o'clock he found his father in the chair unconscious, with the pistor | fertile tract, which lies largely in the in his right hand. Dr. Smuck was summoned, but was unable to revive the unconscious man. Mr. Kamm was removed to St. Michael's, where he lingered in an unconscious condition. Gangrene poisoning set in spreading rapidly. He is 57 years old, and has a wife and a grown-up family.

SALE OF HUDSON BAY LANDS

Its 7,497,777 Acres.

Ottawa, Dec. 9.—The opening up of new territory in the Northwest by the Canadian Northern Railway and the prospect of large areas being made accessible by the proposed Grand Trunk Pacific, has caused numbers of nquiries to come into the department of the interior in regard to lands owned by the great land companies n the Northwest.

The chief of these is the Hudson's Bay Company, and according to a return just made from the department this company possesses the enormous total of 7,497,777 acres, of which 4,021,-059 acres have already been allotted. The balance is unsurveyed land in the well-watered valley of the Saskatche-

It is stated that same 600,000 acres were sold prior to this year, and that the sales this season will aggregate over 300,000 acres netting the company nearly \$2,000,000 or nearly onethird of their paid capital, which is

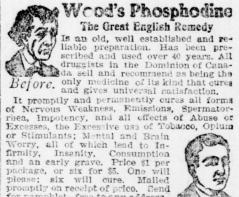

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eusta-chian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is enrirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. FATAL EXPLOSION TIED UP BY ICE IN LACHINE CANAL IN A COAL MINE

Barge Load of Coal Must Stay Four Men Were Killed and Ten All Winter—Fuel Famine At Winnipeg.

Toronto, Dec. 9.-The powerful river though the ice on the Soulanges Canal was nearly three inches thick, she pany at South Wilkesbarre. managed on Friday to force her way through it, with the large barge Henry Wilbeck in tow. The channel in Lake St. Louis is clear of ice, though the lightships have all been taken to winter quarters, and the Myra had little trouble in reaching the head of the Lachine Canal; but there she encountered heavy ice, and was four hours in making her way as far as the first bridge, half a mile down.

The consignees were communicated with from Lachine, and notified of the condition of the ice, and of the impossibility of breaking a way through it to the city. There is nothing for it but to unload the barge where she lies, at a good landing place close to the Lachine bridge. Her cargo consists of about 1,000 tons Lehigh Valley furnace size coal. The tow boat attempted to cut a way out of the canal yesterday, so that the captain has reluctantly determined to forego his determination to return to Ogdensburg for the win-ter, and will leave his boat where his trip ended in the canal.

Kirk spoke a few words of thanks and commended the students for their untiring diligence and the zeal displayed in their work. Inspector Carson responded to calls for a speech with a few well-chosen remarks. He was followed by Principal Merchant, of the Normal School, who expressed the hope that the 1902 model class would ere long be under his charge as Normal students.

Mr. Lochead closed this part of the proceedings with a few humorous remarks. At a late hour, the assembly broke up, all being well pleased with this portion of the Model School commencement exercises.

A Library for Four Dollars.

L. O'Berne.

Four dollars is a small sum with which to supply a family for a year with the best pictures and literature. 'The high-water mark of color reproduction," as Howard Pyle characterizes the exquisite color reproductions of his paintings in the December Century; history, current topics of vital interest, the best verse and fiction of

the day. The most striking successes of The Century Magazine have been made in the field of history, witness the famous Century war papers, Nicolay and Hay's Life of Lincoln, etc.; and it is to return to the field of historical literature this year. A striking series of illustrated articles on the early campaigns of the revolution, written by Professor Justin Harvey Smith, Dartmouth College, will be one of the turesque march of Arnold through the Maine woods. Important articles on the "Trusts" will be printed from time to time, not attacking or defending, but simply telling the inside history of

the great trusts and how they are conducted. Richard Whiteing, the author of that popular book, "No. 5 John Street," is to write one of the serials for The Century in 1903, "The Yellow the story of an American "schoolma'am" who marries an English duke. Another serial, by the author of "Mrs. Wiggs of the Cabbage Patch." the most popular book of the year, will be gin to appear in the December Century. Papers by "Mr. Dooley," giving his unique "opinions" on literature: new light on the lives of Edgar Allan Poe and Sir Walter Scott; richly illustrated articles on the great exchanges of the world, and the best short stores that can be procured from the leading writers, all these are coming in The Century. Beautiful tures in color will appear from time

146 Dundas Street.

Mr. Stark went directly to his side, and stood looking sternly down upon him.
"Well, sir, how do you find yourself now?" he asked, in a quick, incisive tone. "I am all right, sir; a trifle shaken, perhaps, but I shall be over that and ready for business again shortly," he answered, trying to brace himself up. "Uh; if you are sure that you are all right, perhaps you could attend to a little matter now," said his employer, laconi-

"Very well, sir; what is it?" Reynolds inquired, without a suspicion of the thun-derbolt that was in store for him.
"Will you have the goodness to inform me how you came by this document?" the publisher asked, as he held Kenneth's

fellow's face. He grew paler, if that were possible, than before, and shrank as if he had been suddenly smitten.
"I don't know; it isn't mine: I didn't have it," he began, stammeringly.
"You are a liar, as well as a thief!" |

Mr. Stark paused an instant for breath, for the more he sthought of the injury done Kenneth, the more indignant he became; but Egbert Reynolds sat before him, stricken dumb—he simply sat motionless, and stared at the letter as if there was something of horrible fascination about it.

"I am thankful that your life was spared a little while ago," the publisher went on, sternly. "I should have bewailed four fate sorely if you had gone into eternity with this terrible wrong on your soul. And now, sir, you and I will part company forever; I want no more of your service. for the young man assumed a sulky, defiant air, and did not even have the grace to express his thanks for the extra sum

It was a relief to Kenneth to have him gone, and to feel that he was freed per-

Mr. Stark sat down immediately and wrote a long letter to his old friend, Judge Reynolds, stating kindly, but plain-

NATIONAL LEAGUE MAGNATES MEET AT NEW YORK

Benefit of Their Rivals.

Thirteen Teams Are Now Left in the Six-Day Race.

BASEBALL.

NATIONAL LEAGUE MEETING. New York, Dec. 8. - The annual neeting of the National League will begin here tomorrow, and much stress is being laid on the harmony that will prevail at the yearly session of the baseball men. Realizing that a solid front must be maintained to resist the aggressiveness of the energetic American League, the proceedings are to be thickly coated with harmony. One for all and all for one, and the deuce take the American League, such seems to be the spirit with which the legislative factors of the National League are asembling here.

There are no fights in sight in the National, and the meeting promises to be tame unless, for instance, the Phil-adelphia club should voice its objecion to the New Yorks having signed Delehanty, as is said to be the case.

A president may be elected, and there

is only one name mentioned for the place, that of W. C. Temple, of Pittsbut the feeling is not universal that this is the time to have a president. Some think it would be as well to keep on with the executive commit-tee of three—Brush, Hart and Soden— while there is a war on and the game in an uncertain state. It is the general opinion, however, that Mr. Temple would make a good man for the office if he would accept, being a sportsman for sport's sake.

John I. Rogers and A. J. Reach are expected from the Quaker City in the morning. The league will settle three important points,—the arrangement of the schedule for the coming season, the question of the advisability of the continuation of the conduct of the league's business by the executive committee, or the election of a president and the election of a secretary to succeed N. E. Young, James A. Hart, of Chicago; Barney Dreyfuss, of Pitts-burg, and Chas. H. Ebbets, of Brooklyn, were at work all day on the schedule for next season. Last year the American League stole a march on the National by publishing their schedule first, but this time the Nationals will be ahead.

TO SIGN OR NOT. Providence. Dec. 8. - There is some oubt regarding the likelihood of First Baseman Cassidy returning next season. Bill Clymer, of the Louisville American Association team, claims Cassidy has signed with the team in that city for next season, but President Cressy, of this city, says he has a letter from Cassidy that will estabish a prior claim to the player's services. As the American Association is now a member of the National Association of Minor Leagues, it is thought Louisville may be forced to give up the scrappy first-sacker. Second Basely as possible and then slunk out of the room, nursing bitter malice and enmity manager of the Providence team next against Kenneth, who, he believed, had influenced Mr. Stark to disgracefully extending the providence of the providence team next season. JOCKEY CLUB STEWARDS. New York, Dec. 8 .- A meeting of the stewards of the Jockey Club was held today, August Belmona, James R.

Although the medicine business should, above all, be carried on with the utmost conscientiousness and sense of responsibility, the unfortunate fact is that in no other is there so much humbug and deception. The anxieties of the sick and their relatives are traded upon in the most shameful manner; impossible cures are promised; many preparations are abso lutely worthless, and some are positively dangerous to health.

As a consequence, all proprietary remedies are regarded with suspicion by many people, and the good suffer for the bad.

Port Huron, Mich., Dec. 8.-The Port Huron Winter Racing Club has been organized in the city with a large membership of local horsemen, and the track of the Port Huron Driving Park has been leased and will be flooded for the purpose of holding ice races. The officials are B. C. Farrand, president; E. C. Boice, treasurer, and Joseph O'Hearne, secretary. All the officials are prominent business men. Twelve hundred dollars in purses will be offered, and a number of outside horses will come to the city.

DAN PATCH CHANGES HANDS. Minneapolis, Dec. 9.-M. W. Savage, of this city, has bought Dan Patch, 1:59¼, the famous unbeaten pacer of M. E. Sturgiss, of New York, for \$60,-000. The price is said to be the highest ever paid for a pacer.

FOOTBALL.

PROFESSIONAL FOOTBALL FAILS. Pittsburg, Dec. 8.-The football season just closed probably marked the end of the professional game in this locality. The venture was not a success. Manager Berry, who was at the head of the eleven, had his troubles all season, but he stuck to his post to the last, and went down in the hole fighting. The season was a financial Rock. Joe Delehanty, who covered the failure. Berry, however, expected to come out at least even on the receipts of the game Thanksgiving Day. was disappointed, as the attendance did not come up to expectations. The people here have undoubtedly had enough of professional football and refused to patronize the games. It is not likely that a backer will be found

YACHTING.

WILL BE THE EAGLE. New York, Dec. 8. — When the new cup yacht is launched from the Herreshoffs' shop in April she will probably be christened the Eagle. The information upon which this statement is based is considered most reliable. The name will be popular, because it is representative and national. It suggests strength, speed and fearlessness. It is a good halling name, and every American yachtsman with a dash of patriotism in his veins will shout the hardest, when the Eagle, the new defender of the America's cur, gildes in fender of the 'America's cup, glides into the water. Should the Eagle survive the trials for the selection of a cup defender and meet the approval of the committee on the challenge when they come together in Newport to name the boat that will represent the club in the international races, there should

Here is the main connection between the framing and the keel of the craft. In view of the strain at this point the work has to be carried on with the utmost care, and in consequence the fitting of the keel plate is a job that cannot be accomplished un-der another week, after which the setting up of the frames will go on. Heavy forgings are being turned out in the shops for the connections to be made low down in the new yacht.

CURLING.

WINDSOR CURLERS HAPPY. Windsor, Dec. 8 .- The Windsor Curling Association has been presented with two handsome trophies to be competed for during the coming winter. D. L. Cariey, one of the best-known skips associated with the Windsor team, presented one of the trophies, the shield; the cup is the gift of the Evening Record of Windsor. The Carley trophy will be competed for under the rules of the 13-point or three-pairstane game. The playing is individual competition, each stane being laid alternately, the first player to make 13 points being declared the winner. The winner of the competition at the end of the season will have his name engraved on one of the smaller shields on the trophy and will have possession of it until it is lifted from him. At' the end of the tenth year the trophy becomes the property of the club. The Windsor Record cup is to be competed for by rinks. Sixteen rinks have already been organized for the comnetition. In addition to the Carley trophy and the Windsor Record cup, E. C. Walker, of Walkerville, has offered four rink prizes of \$25 each.

LAWN TENNIS

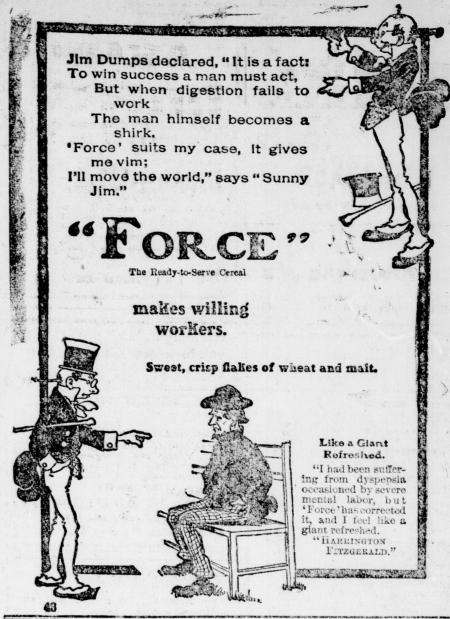

THE ENGLISHMAN WON. Tuxedo Park, N. Y., Dec. 8.—The final of the series of court tennis matches arranged between Joshua Crane, jun., of Boston, amateur cham-pion of the United States, and Cecil Fairs, better known as "Punch, professional of the Princess Club of London, and champion of England, was played off today at the Tuxedo Tennis and Racquet Club. The match which was hotly contested, "Punch" giving Crane a handicap of 15 and a bisque, resulted in a victory for the Englishman by a score of 4-6, 6-3, 10-8, 6-1. T.
