PERE MARQUETTE CHANGES TERMINUS

New Arrangement by Which Detroit Takes the Place of Walkerville.

[G. N. W. Dispatch.] Detroit, June 8.—Detroit, instead of Walkerville, will be the terminus of the Pere Marquette Railroad, Canadian division, on and after June 27. Beginning the day named, all passenger trains each way each day will be run solid from the depot, Detroit, over the Canadian line to London and over the London line to Walkerville. These trains have been started from Walkerville and have landed their passengers there. Under the new arrangement the trains will be moved across the river on the Pere Marquette's transfer boat, landed at the C. P. R. dock, Windsor, and sent around the belt line to Walkerville Junction.

COMMITTEE PREPARE FOR COAL CONVENTION

Four Hundred Delegates Are Expected in London on June 22 and 23.

The Retail Coal Dealers' Association of Ontario will meet in the city on June 22 and 23. It was the intention of the association to meet a week earlier, but circumstances arose that made it impossible. As a result, the dates June 22 and 23 were selected. The local committee, of which Mr. William Heaman is chairman, are making the arrangements, and it is expected that the convention will be one of the most notable held by the association in Ontario. Fully four hundred delegates are expected. The list of subjects to be discussed has not been made out, but it will be ready very shortly. Mayor Beattie will give the opening address, and will welcome the visitors to the city. It is expected that a large number of American coal men will be in the city at the convention.

New York Club Homing Pigeons Released at Millbrook, Ont.

Millbrook, June 8.—One hundred and forty-six carrier and homing pigeons, belonging to different New York clubs, were liberated here this morning at 6:30 o'clock. The pigeons were sent to the Canadian Express agent here by Mr. F. C. Schmidt, of New York, with instructions to liberate them the first fine day. They came yesterday morning, and the conditions being favorable, were released this morning. Each pigeon has a ring on its leg, with the name of the club to which it belongs stamped on the same.

SHORTAGE OF MEN FOR THE MINISTRY

His Lordship Bishop Williams Drew Attention to Fact in Charge to the Synod.

WHAT IS THE CAUSE?

Bishop Fears It Is Owing to the Fact That Money Is the Main Topic in the Homes of Canada Nowadays.

In his annual charge, read at the commencement of the 3rd session of the Synod of Huron in Cronyn Hall yesterday afternoon, His Lordship Bishop Williams laid special emphasis upon the attitude of the young men toward the ministry today, and the consequent shortage of pastors to work in the various fields.

A Serious Problem.
"The supply of candidates for the ministry of the church," he said, "is a problem that always presses upon the bishops, and this must be my excuse for reverting again to the subject this year. There seems to be no attraction in the church ministry, especially for young Canadians. Why is this? Why is it that while hundreds, perhaps thousands, of young men every year go out of this diocese to the west to make money, only two or three will enter in any one year for the ministry? Is it because the atmosphere of Canadian homes is not favorable to the growth of clerical men? Generally the children take up as their life work what is most talked about in the home. Is money-making the chief end of life in Canadian homes? Or is it because the young men see that the life of a clergyman is a life of perpetual economy and sometimes of severe self-denial, and young Canadians do not like the prospect? I can understand this in the case of the sons of the clergy; the best men for the ministry, could they be, the unceasing pinch and worry of an insufficient income in their homes are sufficient and intelligible discouragements in their case. Do the laity note this fact without remedying it and direct their sons to more lucrative callings?"

Apathy of Young Men.
"Or is the apathy of our young men due to a loss of respect for the office of the clergyman and failure to appreciate the greatness and dignity of his work? I confess that there is much reason to fear that the dignity and greatness of the Christian ministry has been largely lost sight of in this country."

"There has been a tendency to look upon the clergyman as the hired servant of the congregation, and even to think that he is in the church for a living. But surely it is obvious that the vast majority of the clergy are not in the church for a living. Of course, they must live, and they have a right to their living from the people they serve. But if by 'living' is meant 'making money,' obviously the amounts of clerical stipends, fortunately or unfortunately, preclude the possibility of such a suspicion. If by 'living' is meant making as much money as they would make if they were in secular life, most of the clergy, as I showed last year, would earn 50, or even 100, per cent more than they receive in the church."

A Moral Necessity.
"No, the clergy are not in the church for a living; they enter the ministry because of a moral necessity, because they have been called of God. Each one will say: 'Woe is me if I preach not the gospel.' And, therefore, the clergy do not take themselves to be, neither are they, the servants of the congregations, but first of all servants of the Lord Jesus Christ, and not only servants, but ambassadors. Their first responsibility is to their Lord. They are trustees and stewards of the riches wherewith God has in Christ through the church endowed humanity, and for the discharge of their duties as trustees and stewards it is to God that they must render their first and chief account. Moreover, because he is an ambassador for Christ, every clergyman is called to a position of leadership as well as service, to leadership through service. He is called to be the leader of men in the highest regions of life. The moral and spiritual ideals, the moral and spiritual achievements of a whole community are largely determined by the clergyman. No other profession offers such large opportunities for leadership, influence and service to men of earnestness and force as the Christian ministry. It is right

that this ideal of the ministry should be placed before our young men, for if this conception of the ministry prevailed more widely among, who now, viewing the life of a clergyman from a distance and on the outside, consider it somewhat dull and uninteresting, would, I believe, be inspired with the idea to enter the ministry. There is no department where a man can render so much service to God and humanity, or exercise the powers of leadership comparable to the Christian ministry.

Thoughts Toward Ministry.
"Then may there not have been a failure on our part as clergy in turning the thoughts of young men towards the ministry? Is it not part of our duty and the greatest service which we can render to the church to discover for men for the ministry and turn their minds to it? It is a great thing to inspire men to live righteously and to give liberally of their means to the kingdom of God, but it is a greater thing to inspire men to give themselves to the service of Christ and his church and to the spiritual life of a parish and perhaps to a clergyman's ministry, if there is never found among the fruits of either some living agents for the ministry as well as material gifts and virtuous lives? At all events, I would press the question upon the clergy whether we should not look upon discovering men for the future ministry of the church as part of our work in a more definite sense than perhaps we have regarded it."

Rights of the Clergy.
His lordship made special mention of the rights and privileges of clergy—the vestry and church wardens. The clergyman, he pointed out, is the head of the parish in the temporal as well as the spiritual administration of it. The responsibility for success or failure of the parish rests upon him. He is the head of the parish in the temporal as well as spiritual affairs, just as the bishop is of his diocese. No work can be undertaken without his knowledge, and it is his duty to watch over the church. The responsibility for success or failure attaches to the head. In the constant of the executive of the parish he is not of the head, but may appoint one half the vestry as well as one of the church wardens.

Order of Service. This is placed under the direction of the incumbent, the selection of hymns, whether the service shall be said or sung, at what hours it shall be held, and so on.
Sunday School. Direct responsibility for the work rests upon the incumbent. It is one of the most important parts of the spiritual work, and, therefore, he is head of the school and responsible for its efficiency. Whatever help he may obtain from his congregation, he cannot divert himself of his personal responsibility. If he cannot be present to superintend the work in detail he is responsible for the men he selects to act for him.

Selection of a Curate.
"This must be by the incumbent's nomination to the parish. The vestry selected to assist the incumbent, and neither the vestry nor wardens, whose vocations are confined to the temporalities, have any choice in the matter of a right, whatever consultation the incumbent may take with them as a matter of wisdom or policy."
"The vestry exercises full control of local finances, but has no control over the services of the church or temporal affairs beyond the bounds of the parish."

Church Wardens.—Their jurisdiction, in this country at least, is entirely confined to the local temporalities of the church. They are the financial ministers of the parish, and provide the revenue for the minister and watch over and care for the church. They keep the building in repair. They with the minister, appoint the subordinate officials of the church—sexton, organist, and so on—but have no control over the service and cannot collect for outside objects. Legally, they are the servants of the incumbent and the vestry, but church wardens will not limit their activities to local finances, but will make the finances meet all demands."

The Law.
"Clergy and contiguous parishes inquire regarding the observance of what are permitted or not permitted to do in each other parishes. It may be helpful if I would explain what the law is. The law of the Anglican Church is that no Anglican clergyman may officiate in another's parish without his permission. That is based upon the clergyman's direct and personal responsibility to the bishop for a given area. This is a fundamental part of the Anglican system, but it is evident that a clergyman cannot be responsible for a given area if another is allowed to enter into it."
"Practical experience in this country has shown the wisdom of allowing a clergyman to visit and minister to

Boils and Pimples.

Whenever your complexion is unnatural, your skin in an unhealthy condition, your face covered with blotches and pimples, when boils and festering sores abound then your blood is bad. You can best clear it with that purely vegetable compound, Burdock Blood Bitters, which safely and promptly renovates the blood and invigorates the entire system.

Mr. C. A. Mussen, Bawlf, Alta., writes: "I recommend Burdock Blood Bitters as being the best blood purifier there is. About three years ago I was greatly troubled with boils and our druggist advised me to try Burdock Blood Bitters and after taking two bottles I have not had a boil or even a pimple."

Mr. J. Morehouse, Zealand Station, N.B., writes: "My face and neck were covered with pimples, and I tried all kinds of remedies, but they did me no good. I went to many doctors, but they could not cure me. I then tried Burdock Blood Bitters and I must say it is a wonderful remedy for the cure of pimples."

families attending his church, even though they reside in another clergyman's parish. He may visit them in sickness or in health, baptize in their house in case of emergency, train their children for a profession, or perform any other service. They must not be missionary or evangelical, or in any way a source of competition. To allow that would be congregational, and not according to the spirit of the Anglican Church.
"A clergyman must not seek new members of his church in another man's parish. If they seek his ministrations, let them allow the ministrations, but the initiative must come from them. Besides, if a clergyman devotes his time to the work committed to his charge he will have little time to attend to his neighbors as well."

The Late King.
Referring to the death of the King, his lordship said:
"May we not take it as one of the marks of God's blessing on the British Empire that in the critical and formative period of the over-seas dominions, when they were shaping their destinies and working out constitutions, the throne of Britain should have been occupied by two such sovereigns as Victoria the Good and Edward the Peacemaker? The devotion to the sovereign which was at first largely personal, is now devotion to what the sovereign represents—the empire—the centre of unity. Through the beneficent characters of these two sovereigns the sentiment of personal devotion has now attained such strength that it can stand the shock of the removal without being lost to the throne."
"I believe that it will be transferred to the present King unimpaired and undiminished, and that is the truest and noblest way in which his late majesty himself would have chosen for us to honor his memory."

"It will be the duty of this synod to draw up a loyal address to our new and our late King, George V., and to found sorrow for the loss sustained by the empire in the death of his august father, and our devotion in the years to come to him personally and to his throne."

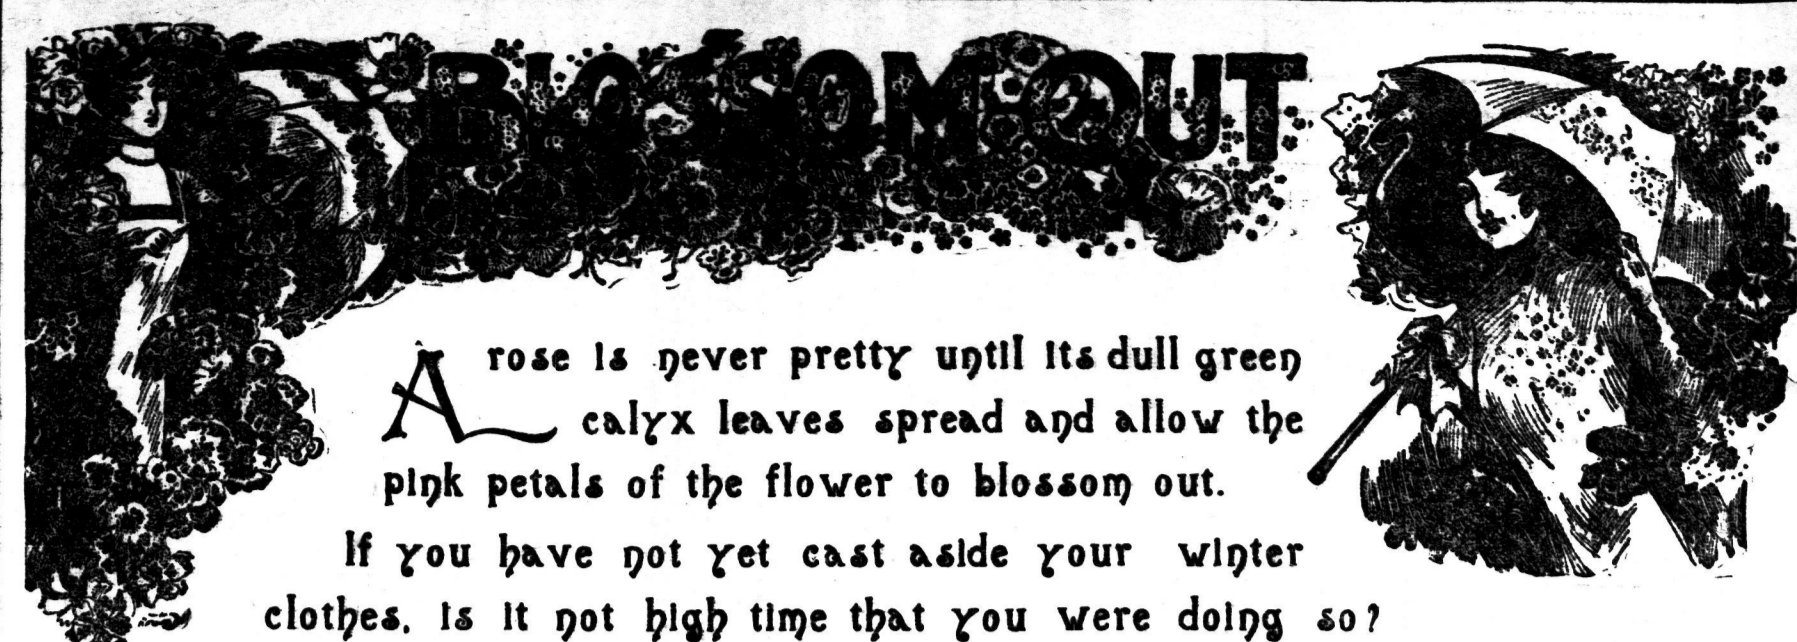

A Prosperous Year.
Bishop Williams congratulated the synod upon one of the most prosperous financial years in its history, and announced that the surplus for the year is \$67,844.
"It is," he said, "a matter of extreme gratification to me that we are enabled to pay a small bonus to some of the missionary clergy. But the surplus has exceeded our expectations, and there remains a considerable sum even after paying the bonus, and I would suggest to the synod to remember mercifully one class of beneficiaries whose voice cannot be heard in this meeting and whose allowances were small even 40 years ago, when they were fixed, and who have received no increase since. I refer to the widows of our deceased clergy. (Applause.) And I would suggest that a bonus of \$25 be paid to each widow out of the surplus."

Increase the Stipends.
"The need of increasing the stipends of the missionary clergy is great, for the cost of living is still rising, and there has been no increase in stipends for the past five years. The increase made six years ago has been more than counterbalanced by the continued increase in the cost of the necessities of life. The time has come for us to make another advance. But we ought to be careful how we make it. On the one hand, we ought not and must not make any large increase in the maximum statutory grants, for the tendency of such a policy is to discourage local effort and paralyze the missions. Nor should we change our canon as to the limits of stipends, for that would lay down a caserion system, requiring synodical legislation before we could adjust ourselves to any change in conditions. I think that the best way to secure the result is by another canvass of the missions, for that is the basis of local self-support, supplemented by the system of bonuses which we have inaugurated this year."

Live Upon Our Fathers.
"What will the next generation think of us if we fail to rise to our opportunity and leave none of our funds and institutions better than we found them, but simply live upon what our fathers left us? Depend upon it, if God has poured upon us an abundance far exceeding any in the past, it was not intended to be all squandered in good living or hoarded up in personal or family fortunes."
The M. S. C. C. apportionment he showed is \$3,000 more for 1910 than for 1895, and totals about \$17,000, so Continued on Page Twelve.

A BOY'S STRUGGLE FOR LIFE

Mr. R. J. New, of 154 Baldwin St., Toronto, says: "I can trace my son Harold's troubles to when he had the measles five years ago, from which he never really recovered. Some of the best physicians attended him, but with months of suffering he in turn contracted whooping cough, bronchitis, and then pneumonia. Months after month went by that we shall not soon forget; months of sleepless nights, fearful coughs, weakness night sweats, and my boy more and more shadow. He had no appetite, and my heart ached to see how he was wasting away. He spent one whole summer at the Lakes Home for Sick Children, and came home somewhat greatly improved, but the cold winds of October took him on his feet again. The doctor advised me to send him to Montreal, but heavy doctors had depleted my financial resources, and such a step seemed out of the question."

"At this point we tried PSYCHINE, and human life cannot describe the change that took place. No words can express the thankfulness of his mother and myself when we saw or read of his recovery, and realized that our boy was fighting his way back to life and health. PSYCHINE had mastered that which all the doctor's prescriptions had failed to do. In a few days Harold grew stronger, and all through the winter, although continually out of doors, he failed to take cold, and he put on flesh very quickly. By spring my son was completely cured, and developed into a strong, sturdy lad."

PSYCHINE is the Greatest Strength Restorer and System Builder known to medical science, and should be used for COUGHS, COLDS, WEAK LUNGS, LOSS OF APPETITE, WEARINESS.

leave the question of immortality to take care of itself. He held that the religious principle, and that its only salvation lay in an earnest search for truth.

of London now, had a fine civic edifice to its credit. There are many considerations that urge the erection of buildings in keeping with their purpose.

GOLDWIN SMITH. Goldwin Smith was a great and many-sided figure, and in relation to Canada a unique one. He belonged to two worlds and two ages: to the old world of which he was a product, and to the new world in which the last half of his life was spent; to the early Victorian age and, just as intensely, to the present day.

The buildings of London and Middlesex have long been inadequate and none too sanitary. Buildings such as those referred to would be a splendid advertisement for the city and county. Built at that point, they would be seen from all trains, and very little expenditure for the adornment of the grounds would make off of the handsomest squares in Ontario.

Goldwin Smith was a flower of old world culture transplanted into new world soil. To many this seemed an anomaly, but his removal to America was not an unnatural break in his life. It was a logical outcome of his political antecedents. He ardently sympathized with the Northern States in the civil war, and he joined with Bright and other English radicals in championing the Northern cause when official and aristocratic circles were siding with the South.

Italy and Belgium are the latest countries to enter into trade agreements with Canada. In the past three years Canada has done a good deal herself in promoting ententes cordiales, commercially speaking. Two notable men, who touched the life of this country at different points, died yesterday.

Another Paralle. For the Wells Against Scheme. T. E. Kingsmill, T. H. Smallman, C. B. Hunt, Col. J. W. Little, Col. Cartshore, Frank E. Leonard, Col. A. M. Smith, G. C. McCormick, R. J. Young, W. H. Chapman, B. J. Young, W. W. Thomson, Adam Beck, John Labatt, Thos. Baker, C. G. Rumball, R. C. R. Somerville.

Electric Housecleaning. Lightning ripped up the carpets, tore a bed apart and smashed a gas meter in a house at Poughkeepsie. It seems that this phenomenon has been observed before, but it is usually known as housecleaning.

Joint Municipal Buildings. The question of the erection of joint municipal buildings for the city and county is a live one at the present time and a very important one. The city, by being slow, lost an opportunity to have the Grand Trunk tracks elevated through London. The men then in authority on the Grand Trunk who were most favorable to track elevation are not now in the company's employment. This lesson should not be lost.

Feels Like It. Jeffries sleeps where roses blow! runs ten miles or so! punches at the bag! trains each the rag! takes a fishing trip! likes not Johnson's lip! dodges a live wire! chops and doesn't tire! breaks out in a rash! doesn't care for hash! talks of referees! works with greatest ease! says to watch his smoke! illustrates a poke! says some other things! strains one of his wings! runs ten miles and back! swats his brother Jack! this and Jeffries that! thin and Jeffries fat! looking worn and old! young and spry and bold! looking wan and pale! looking brown and hale! Jeffries! Jeffries! Wads of grief! Won't that fight be a relief!

Interrupted Obituary. William Winters fainted in the Bind. Twine flame last week and a report went around that he was dead. We were in the midst of writing his obituary when he

Commercialized. De Friend—What is that picture intended to represent? De Artist—Board and lodging for six weeks.

The Old Way Of Cleaning Silverware was to rub and scrub the article indefinitely, covering hands, table, clothes—everything—with a powdery mess. Results anything but satisfactory. The New Way Dip the pieces to be cleaned in a solution of hot water and "WONDER-SHINE" result just what you wanted without worry, labor, dust or trouble. One 25c. package of "Wonder-Shine" will last for months. All dealers sell it. Household Convenience Co., Ltd., Toronto

COULD THROW THINGS. "Doctor, my wife just hurt her voice. What can I do about it?" "Try getting home late some night." LOST THEIR CONFIDENCE. "You say she's no longer editor of the Women's Corner?" "No. She wrote so many articles on how to make over last year's hats that her readers began to suspect she was a man."

COMPARISON. Neighbor—How did that naughty little boy of yours get hurt? Ditto—That good little boy of yours hit him on the head with a brick. SENSIBLE VIEW. Highway Hans—I can't imagine why the county should have any national debt. What's the good of a mint if they can't make as much money as they want? HOLDING THE GLASS TO NATURE. "Well, what do you think of my son-in-law, now that he's married?" "It's a speaking likeness. He looks exactly as if he was going to borrow \$10 out of you."

HER SUDDEN RESOLVE. "George, you certainly must ask father's consent to our marriage." "Your father doesn't like me." "He likes me, George, and that will make it all right." "I'm afraid not. He told me quite a while ago that sooner than see you marry he would send you abroad and let you stay there a year." "Did papa say that? In Europe a year? I believe I'll take him up."

THE LIMIT FOR HIM. "The huckster who used to cheat us so," said Mrs. Eves, "has strangely grim." "Yes," replied Mrs. Naylor; "I hear he's in a peck of trouble now." "Well, I do hope that peck isn't short measure, at any rate."

NOT IN THE FAMILY. Michael McCarthy was suing the Swift Packing Company in a Kansas City court. A negro witness was called. "Did you work at the plant?" he was asked. "Yassir." "Do you know the foreman and the other officials?" "Yassir." "What were your relations with them?" "Now, look yere," said the witness. "I'm black and they're white. They ain't no relations of mine."

DA GREATA STRONGA MAN. You oughta see my Uncle Joe! When he sees strata mad. He sees da strongest man I know! When som' n treat been bad. Hees eyes eet flash like blazin' coal! PRESBYTERIAN ASSEMBLY

(Continued from Page One.) est discussion and for the expression of their opinion thereon, the clerks of the assembly met at 10 o'clock on the first day of May, 1911, in time to be considered by the general assembly of 1911, thus placing that assembly in a position to decide what steps should, under the circumstances, be taken, and that presbyteries, sessions and congregations be invited to consider at the same time the feasibility of some scheme of co-operation or federation between all Protestant churches in the Dominion of Canada.

When the vote was taken at the close of the debate this afternoon the amendment was lost by a vote of 83 to 81 for an amendment by Rev. W. C. Clark of Quebec and Mr. Brown of Winnipeg, to the effect that the basis of union be sent down to consider the rights of the people. Dr. E. Scott, Dr. D. D. McLeod, and some others also dissented.

The Debate. The union debate will stand as a feature of this assembly. It was conducted with ability and vigor. The lieutenant-governor of Nova Scotia never, in his palmyest days on the hustings, spoke more effectively than when his Celtic fire glowed as he made appeal for union. In opposition Principal Mackay spoke with even greater effect than in past years.

Dr. Patrick said the goal was the wider union of all the Protestant churches, but in the meantime the delegates from all parts of the province, declared that he had no apology to make for being a brewer, and that he recognized every brewer as a promoter of "true temperance."

This movement, he declared, "is the greatest thing that has been attempted, and the greatest that has been accomplished since the beginning of Presbyterianism." The basis is in which all three churches can unite. In Korea the problem of the church union arose, and the committee there has adopted the doctrinal basis framed by the union committee in Canada. Union is a duty wherever it is not forbidden by conscience. We, as Presbyterians, are united.

Principal Mackay said "No." Principal Patrick replied: "My friend says 'no'; he should study his confession of faith. All the Presbyterian Churches in Scotland held this view." "Will anyone challenge the doctrines which the union committee has drafted?" asked the principal. "There is in them no barrier to union. There is nothing in the basis of union at variance with the convictions of Presbyterians as expounded today. Are the doctrinal articles, as framed by the union committee, orthodox?" The late Principal McLaren was satisfied with those doctrinal statements, and what satisfied him should be satisfactory to any man." (Applause.)

Dr. Patrick deplored very much the fact that some times four or five men labored in a little village where one or two would do more and better work. "A man should have an adequate sphere in which to labor. The situation in Canada is almost intolerable. The rival churches are so near that they must unite. There is no other solution. Canada cannot play her part in the world's evangelization unless union takes place. Having to provide for such a large immigration, can we find men enough if we continue our present methods? The sooner all Christian men meet and plan to give the gospel to our incoming population the better." The subject which will now be sent down to presbyteries for their approval or disapproval will not be the abstract question of union, but the basis of union as framed by the union committee. The issue is a grave one, but it is inspiring. The Presby-

STUDENTS IN A PANIC

Norwalk, Conn., June 8.—In the burning of the main building of the overlook Selsick Military Academy before dawn today, panic seized the students and many of them leaped from windows, although others turned out in their pyjamas and valiantly fought the flames. The fire started in the tower in the centre of the main building, a wooden structure 200 feet long by 50 feet wide and spread to rear and sides. The students were aroused from their beds and many of them made their escape clad only in their night-clothing. Trunks and other belongings were thrown from the windows, and several of the students were compelled to jump from the windows of the second story, but all escaped injury. The fire ate rapidly into the centre of the old wooden structure, and it was not until the students and faculty had fought for nearly three hours that it was gotten under control.

BREWERS' CONVENTION

Henry Boutell Tells Their Prohibition Does Not Prohibit. Washington, June 8.—An attack on prohibition by Representative Henry Sherman Boutell, of Illinois, and a prediction by President Carl J. Hoster, of the United States Brewers' Association, that the time would come when the brewer would be found working with the "real and practical reformers" in the interests of temperance, were the features of the 50th annual convention of the brewers at the opening session today. Representative Boutell advocated temperance in all things, characterizing it as "closely allied and almost akin to strength." President Hoster, in his annual address to the five hundred delegates from all parts of the country, declared that he had no apology to make for being a brewer, and that he recognized every brewer as a promoter of "true temperance."

WALKED OUT WINDOW

Man in His Sleep Falls Fifty Feet to the Pavement. Toronto, June 8.—Harry Grey, whose home is at 538 Front street west, is lying in a precarious condition at the General Hospital, and his recovery is doubtful. The injured man, while wandering around in his sleep at a hotel in Barrie early yesterday morning, stepped out of a third-story window and fell to the pavement a distance of 40 feet. He was rendered unconscious, and besides receiving a fracture of the skull, it is feared that he has also sustained internal injuries. He was brought to the hospital, and the police ambulance, which had been called to the scene, found him in a state of unconsciousness. The young man went to Barrie a few weeks ago to work. Early this morning his condition was unchanged, and he had not yet regained consciousness.

Tax Collector Appointed.

Mr. Dan Patterson, of Point Edward, has been appointed village tax collector, which includes the collection of poll and dog taxes. The many friends of Miss Celia Bissel, of the woolen mills store, will regret to learn that she is at present a patient in the General Hospital, suffering from an attack of typhoid fever.

Street Car Service.

The Sarnia Street Railway Company will give a 30-minute car service from 8 to 10 o'clock tonight for the dance at Lake Huron Park.

SARNIA'S HATCHERY AN INTERESTING SPOT

Many Citizens Take in the Sights—County Council Proceedings. (Special to The Advertiser.) Sarnia, June 8.—The first sitting of the June session of the Lambton county council was held here Tuesday afternoon, with all members present, except Dr. C. O. Fairbank, of Petrolia, who is in California. Warden Auld took the chair. A number of unsigned communications were consigned to the waste-basket. Among the more important ones received was one from the secretary of the Ontario Provincial Winter Show, which is held annually at Guelph, asking the council to grant a sum to be given in prizes to the amateur exhibitors of cattle in Lambton County, as a means of encouraging the raising of better cattle.

From Mayor Johnston, of Sarnia, stating on behalf of the committee which interviewed the Provincial and Federal Governments, with a view to securing aid in the building of a bridge over the Sydenham River at Becher, that the Provincial Government would grant \$5,000, but the Federal Government could not be induced to grant any aid. Mr. Johnston inclosed a letter from Hon. Wm. Pugsley stating that a bridge wholly within the Province should be constructed by the Province or municipality.

Copies of bylaws passed by the Ennisville council, changing the boundaries of School Sections Nos. 7 and 11 in the township were received for ratification by the council. Euphemia township protesting against the changing of School Section No. 8. These were referred to the educational committee.

Euphemia Township council also notified the Sarnia County council that they will not be responsible for the maintenance of a bridge on the town line between Sarnia and Euphemia, opposite lot 23, concession 11. This will be dealt with at a later sitting of the council.

Mr. Beatty, reeve of Sarnia, gave notice of a by-law to secure aid for building a bridge over Cull drain on the northern boundary of the township. After passing a vote of thanks to Mr. J. M. Diver, who kindly loaned some beautiful plants which adorn the council chamber, the council adjourned until 10 a.m. today.

The Fish Hatchery. During the past week many of our citizens and a few visitors have availed themselves of the opportunity of visiting the fish hatchery at Point Edward, where thousands of small pickered are being hatched out daily and pass out of the glass jar containing the spawn, and pass on to the large tank, where they are later taken to the lake where they grow into large fish and are sold to perhaps the people who viewed the hatchery. In conversation with Mr. Adam Lascinger, who is always willing to explain the process of hatching, The Advertiser reporter was told that in one single jar there are 350,000 eggs, which if allowed to live for four years would furnish 150 tons of fish. Multiply this by 200, the number of jars in the hatchery containing spawn, and you have the enormous weight of 228,000 tons, or more fish than would be caught in the great lakes in 20 years.

Street Car Service. The Sarnia Street Railway Company will give a 30-minute car service from 8 to 10 o'clock tonight for the dance at Lake Huron Park.

The annual excursion to the O. A. C. Guelph, of the farmers of East and West Lambton Counties will be held on Tuesday next, June 14.

The ladies of St. Paul's Presbyterian Church will hold a lawn social on the church lawn on the evening of the 23rd of June.

THE WOMAN'S CORNER

TURBAN HAIR STYLES IN VOGUE

The turban style of dressing the hair remains in vogue. It is a very easy matter for the devotees of the turban style of hair dressing to wear a hair arrangement much the shape of a cap, which sets close to the head. It gives the appearance of a very luxuriant growth of hair, and does not lend the air of artificiality that cannot be avoided when a girl wears curls or other hirsute arrangements.

ALL AROUND THE HOME

Place a kettle of mashed potatoes and the whole shaken in a large pan of water. Chloride of lime will rid any house of vermin, as they have a horror of the odor. To remove white stains from polished wood, rub with a solution of olive oil and salt. Grease and oil on carpets can be easiest removed by applications of fuller's earth. Old felt hats may be utilized for pot litters, iron holders, polishers for waxed floors, mats on which to stand potted plants, and rounds to paste on legs of chairs and tables to prevent scratches on polished floors. A corn popper minus a handle can be utilized as a washer for small fruits, as the cover can be fastened them, and it will not slip off.

FASHIONS

Embroidered swiss flounces, lace-edged, are much used on lingerie. The general trend is toward the short skirt clearing the ground not less than three and not more than five inches. Combination undergarments are in great demand. Corset cover and drawers and corset cover and skirt are equally popular. Bell-shaped hats with wide brims are seen in great numbers. The long coat is here in many shapes and styles. French women claim that the long, graceful lines are unusually becoming. Colored handkerchiefs will be more popular than white ones. Those with dots of color on white ground or white dots on colored ground are most seen. Self-color braid trims the natural tone ponceg effectively, the smartest effects being obtained with wide silk braids rather than with the soutache so dominant last season, though soutache and raitail still have their uses.

PLAYTIME STORIES

George and Sammy were sitting on the back doorsteps with Donald, their city cousin, who had come to visit them. Donald was showing them just how his new rifle worked, and telling some wonderful shooting tales. He liked to see the boys open their eyes in astonishment, and he began to tell what great things he could do. "Let's go down to the woods and hunt for wild animals," he said as he jumped up. "I would like to kill a lion or a bear." "There aren't any lions or bears in our woods," said the boys. "Aren't there any wolves or wild-cats may be?" asked Donald. "No." The boys couldn't think of any wild things in their woods except the wild flowers that blossomed in the spring. "Aren't there any old animals on this farm that need killing?" asked Donald. "Why, yes," cried Sammy. "Mother wants the old setting hen killed. You can shoot her." From a lion to a hen was quite a come-down, but it was better than nothing, so they started for the barn. The old hen's nest was under the salis in the dark, so Donald began to poke around with the rifle to find out if she were there. The old hen didn't like this at all, and began to flutter and cackle, and flew right up into Donald's face. "Then what do you think this brave hunter did? He threw down his rifle and started to run to the house, crying and screaming for his mother. And George and Sammy wondered what he would have done if he had met a lion or a bear.

ADVERTISER PATTERNS

8670-8646—A FASHIONABLE GOWN. An unusually attractive costume is here shown. It was most effectively developed in raiin-colored henrietta, with a braided design in blue and green, and pipings of Dresden silk in the same colors. The skirt is cut in seven gores, and has a plaid insert in the side gores. The waist is made with a round yoke over bib or bertha portions, and the sleeve is composed of a cap-sleeve upper part, to which is joined a puff that is finished at the wrist with a band cuff. The waist pattern is cut in six sizes, 32, 34, 36, 38, 40, 42 inches bust measure, and requires 2 1/2 yards of 44-inch material for the 36-inch size. The skirt is cut in five sizes, 22, 24, 26, 28, 30 inches waist measure, and requires 4 1/2 yards of 44-inch material for the 24-inch size. This illustration calls for two separate patterns, and will be mailed to any address on receipt of 10c in stamps or silver.

PATTERN DEPARTMENT OF THE ADVERTISER. Please send above-mentioned pattern, as per directions given below, to: Name _____ Street Address _____ Town _____ Province _____ Measurement—Bust _____ Waist _____ Age (if child's or misses' pattern) _____

CAUTION—Be careful to inclose above illustration and send size of pattern wanted. When the pattern is bust measure you need only mark it 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When misses' or child's pattern, write only the figure representing the age. It is not necessary to write "inches or centimeters." Patterns cannot reach you in less than one week from the date of order. The price of each pattern is 10 cents in cash or in postage stamps.

PATTERN DEPARTMENT, LONDON ADVERTISER. Scrambled eggs and tomatoes are excellent, and so are eggs and chipped smoked beef, but a mixture of the three the best of all. Have ready half a cupful or two large tablespoonfuls of minced smoked beef and heat in a frying pan with one cupful of drained canned tomatoes; season with paprika, a little very finely minced onion, which is best if colored in a teaspoonful of hot butter in the pan before adding the beef and tomatoes; when smoking hot, add 12 beaten eggs whipped with a tablespoonful of cream; stir until the eggs are cooked, and pour over neat strips of toast. Sometimes a nice change is made by the addition of a little grated cheese stirred in with the eggs. This is for a large family.

She knew her West Africa, and the lad reputed of Oku was one of her clearest memories. Yet she turned back at the door, took Evelyn's letter from her pocket, copied a portion of it, and locked the original in her jewel case.

The luncheon-gong sounded as she descended the stairs to perform the duty of the interview she promised herself with the Portuguese, and, for the success of her deep-laid schemes, it was as well. Sometimes there comes to the aid of evil-doers a friend who contrives opportunities when unsuspected by the would-be victim. Rosamond embarked on a well-laid desperate enterprise, suddenly found the way smoothed by Baumgartner's wholly unexpected announcement that business considerations compelled him to leave Lochmerig forthwith.

ZAM-BUK
SAVED THIS BABY

Mrs. M. Barrett, 602 Moran St., Montreal, says: "A horrid rash came out all over my baby's face and spread until it had totally covered his scalp. It was irritating and painful, and caused the little one hours of suffering. We tried soaps and powders and salves, but he got no better. He refused his food, got quite thin and worn, and was reduced to a very serious condition. I was advised to try Zam-Buk, and did so. It was wonderful how it seemed to cool and ease the child's burning, painful skin. Zam-Buk from the very commencement seemed to go right to the spot, and the pimples and sores and the irritation grew less and less. Within a few weeks my baby's skin was healed completely. He has now not a trace of rash or eruption, or excema, or burning sore. Not only so, but cured of the tormenting skin trouble, he has improved in general health."

Zam-Buk is sold at all stores and medicine vendors, see a list or post free from Zam-Buk Co., Toronto, for price, 6 boxes for \$2.50. A certain cure for all skin diseases, cuts, burns, etc., and for piles.

WINNERS IN THE SPORTS
A Few Minor Accidents Reported —
London Street Railway Handled
the Crowds in Fine Style.

The big school picnic is over. Although postponed on several occasions through the vagaries of Jupiter Pluvius, it was carried to a successful issue yesterday afternoon, and must be reckoned as one of the best ever held by the schools of the city. The crowd is estimated between 6,000 and 7,000. Some think there were more present, while others figure the attendance somewhat less.

From early morn until late at night the youngsters entered into the day's sport with unquenchable enthusiasm. On the way down they let everybody in the city know that they had taken possession of the day, and it was distinctly their holiday. They cheered and sang and shouted to their hearts' content.

On their arrival they were started off to one of the busiest days in their careers. The sports programme was commenced in the morning and continued all afternoon with a lull in the afternoon. At noon the lunches were taken care of. The majority of the baskets were crowded, but the ravenous youngsters with appetites that would do credit to Samson, made sad havoc of this feature of the entertainment.

In the afternoon the sports programme was continued. The crowd was augmented by many thousand grown-ups, who seized the opportunity to throw off some of the restraints of business, and in spite of creaking joints and rheumatic limbs, they assisted in providing a few laughs for the kiddies.

A Beautiful Spot. Springbank never looked prettier. The grass was dry, in spite of the practically continuous downpour of the past three weeks, and was very pretty and green. The woods were more inviting. The sun shone with unobscured but altogether welcome brightness, and assisted in making the day very bright and cheerful. From every standpoint the day was ideal.

The crowds were handled with care and there were few accidents, and most of them minor to mar the day's pleasure. The guardian angel supposed to look after children in general was on duty yesterday, and although there were some narrow escapes, no serious accident was reported.

Some Accidents. A rig containing Mr. and Mrs. J. Matthews and little Leon Ridley, of Ontario street, was struck by a car at the pump-house, but the occupants were not badly injured. Wilbert O'Rourke, son of Mr. O'Rourke, 1024 Dundas street had his nose broken in a baseball game. Miss I. Livermore, daughter of W. T. Livermore, 788 Princess avenue, had her arm crushed while getting on a car at Springbank, and a number of youngsters got a ducking in the river, but none of these were serious.

The London street railway handled the crowds with quickness, and very carefully. Manager C. E. King attended to the arrangements himself, and assisted by a large staff of officials looked after the welfare of the youngsters. Every possible effort was made to avoid accidents or delays. All available cars were pressed into service, and the large throngs handled with speed.

Inspector Edwards, Chairman Gamman, Trustees W. T. Strong, J. M. E. Graham, J. L. Hunt, Dr. Wyckoff, Dr. Teasdale and others were present, and saw that the children were well taken care of. Practically all the teachers were on hand, and their presence was a great help. The school picnic has passed. Strength will not return until the blood is enriched. The blood can be enriched by no other medicine as quickly and as surely as by Dr. Williams' Pink Pills for Pale People to enrich the blood and strengthen the nerves.

How often it is that the victims of disease—fevers, measles, la grippe or any other contagious troubles are weak and ailing, even after the disease itself has disappeared. They do not pick up strength as they ought; remain listless, tired and discouraged. The reason for this is that the blood has been impoverished by the ravages of the disease through which the victim has passed. Strength will not return until the blood is enriched. The blood can be enriched by no other medicine as quickly and as surely as by Dr. Williams' Pink Pills for Pale People to enrich the blood and strengthen the nerves.

Dropsy
Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

Wilmore, Ky.

Dr. Miles' Heart Remedy has been wonderfully successful in relieving heart trouble. Its tonic effect upon the heart nerves and muscles is a great factor in assisting nature to overcome heart weakness.

DR. MILES MEDICAL CO., Toronto.

A bunch of demon athletes got together, with Charlie Graham as one and another man and Claude Brown as the other. When the orders were given they started to pull as if they wanted to yank the Masonic Temple out by the roots. Then somebody started stringing and it took several men some minutes to disentangle the wrecked athletes. The rope had come apart.

The arrangements were carried out perfectly, and there was scarcely a hitch. The schools were divided into sections, and stationed at different points on the grounds. Each section had a programme, and it was carried out in scheduled time.

The Seventh Regiment Band under the direction of Bandmaster Slatter, rendered a very fine programme of music during the day. A large number remained until late at night, and the last cars were all well filled.

The Baseball Match. The baseball match was one of the real things of the occasion. It was met, after the youngsters furnishing most of the fun, that their seniors should start something. They did.

One safe venture is that they have commenced a Marathon run to the liniment manufacturers, and that today there are more creaking joints and lame backs in the city than there was yesterday afternoon. One can almost imagine the "Navy No. 1" as the popular ballad, sung as fervently as the Knight of the Flowing Bowl warbles it after a warm session with Bacchus.

But to the game. The Demon Athletes, dressed in uniforms borrowed from the big pupils, or of the vintage of '49, strode on the field amid salvos of cheers from the ladies of the audience and caustic remarks from the small boys, who were little of the octogenarians, such as Inspector Edwards, Bill Gammage, Dr. Teasdale and others.

A Real Referee. However, they went to their task unmindful of the throng. Tom Gilleen was the referee, Marquis of Queensbury rules to govern. He wore a smile, enshrouded with a stogie. Dr. Muggan was the part-time referee for the board of game, while Dr. Bryant uncorked benders from the same side for the public school teachers. It was a great contest. Bryant pitched the "Salome" curve—there was little of it while Dr. Muggan tossed a straight ball, followed by fervent prayer. For five innings the athletes strove mightily, until Billy Ward, as representative of the Humane Society, called the athletes to rest. There were so many features that it is needless to go into them. Bill Strong gave an imitation of the human sieve, at short. John Hunt stopped a street car. Bill Gammage made a real play, and the addition of all information on the subject may be obtained from them.

Semi-Steel Fire-Pot—Not Gray Iron
A FIRE-POT of a furnace should be able to endure tremendous heat and to repel the attacks of sulphur fumes. The material commonly used for a fire-pot is gray iron. The Sunshine fire-pot is Semi-Steel.
Now, avoiding technical terms, gray iron has what may be called "open" pores. Through these "open" pores the destructive sulphur fumes attack the iron and hasten disintegration. On the other hand, Semi-Steel is a close-grained material, with a smooth-as-glass surface which practically seals or "closes" up the pores. Semi-Steel easily repels the attacks of gas fumes and thus greatly prolongs the life of the fire-pot.
A Semi-Steel fire-pot weighs 50 per cent. heavier than the same size and pattern in gray iron. It is therefore better able to endure tremendous heat.
Semi-Steel is made by an exclusive McClary process. You can only get a Semi-Steel fire-pot with a McClary furnace. That is one strong reason why you should have the Sunshine installed in your home. Our agent in your locality will tell you many other reasons. Ask him.
Remember, the Sunshine is guaranteed, by the largest makers of furnaces in British Empire, to heat your home to your entire satisfaction.

Pay a Fair Price And Get the Best
The grocer who gives the greatest number of pounds of granulated sugar for a dollar, naturally won't give "the best Montreal granulated."
The only way you can be sure of getting the best, is to insist on having
St. Lawrence Sugar
Put up by the Refinery in 20 pound Cotton Bags
The analysis of Prof. Hersey, Government Analyst, shows that "Pure St. Lawrence Granulated" contains 99-99/100 per cent. of pure cane sugar with no impurities whatever.

General Butler Has Last Call

London, June 8.—The Right Hon. Gen. Sir W. M. Francis Butler, G.C., E., K.C., B.P.C., is dead. He was born in 1828.

General Butler entered the army in 1848, and reached the rank of a lieutenant-general in 1890. He served in Canada, in the Fenian raid and Red River expedition, for which he received the Canadian general service medal. He became a captain in 1872, and served in Ashanti, for which he was mentioned in dispatches several times by Sir Garnet Wolseley, and in the House of Lords by the Duke of Cambridge. He served with Sir Garnet Wolseley in Natal, and took part in the Zulu war. He served in Egypt in 1882.

TWO VERY IMPORTANT RECOMMENDATIONS MADE

Educational Committee of County Council Wants New School Section and Agricultural Inspector.

At its meeting last evening the educational committee of the county council made two important recommendations. The members of the council are very enthusiastic regarding the proposal of Mr. J. H. Lawton, of Parkhill, to request the Government to place an agricultural representative in Middlesex County. The committee was unanimous in recommending the council to pass a resolution to this effect.

CUT OUT THE CORONER

Proposition Made at Convention of American State Medical Association. St. Louis, Mo., June 8.—The abolishment of the office of coroner was urged by Dr. E. J. Goodwin, editor of the Missouri State Medical Association Journal, before the American Medical Association in its second session here today, at which delegates from Canada are in attendance.

HILL STREET STARS WON

Lively Game of Ball on St. Mary's Diamond on Tuesday Night. St. Mary's diamond was the scene of an exciting game of baseball last night between the Hill Street Stars and Hunt's Ramblers, the former winning by the score of 7 to 7. The game was fast and exciting, the winning run being scored in the last inning on a two-base hit by D. Hill. A return game will be played on the traction diamond on Monday, June 13.

Jemmett, general manager of plaintiff, for refusal to answer certain questions during its hearing, was discovered. If the consent of Osborne & Francis is obtained defendant may examine account of Osborne & Francis and account of Frost. Jemmett to be examined as to further correspondence, etc., and his affidavit to be formed. Motion to be spoken to again on June 10.

SKEWERS GO AS MEAT

Wood Being Sold to the New York Butchers as Beef. New York, June 8.—Wholesale meat dealers of this city are selling 587,662 pounds of wood a year to the retail butchers, as meat, according to an estimate made by Clement J. Driscoll, chief of the bureau of weights and measures. The wood is in the form of skewers, which are put into the carcasses.

AMNESTY FOR CUBAN OFFENDERS.

Havana, June 8.—President George today signed the bill amending the amnesty act of 1909, through which a large number of offenders, including many public officials, who were sentenced to terms of imprisonment of less than eight years, or are awaiting trial, are released. Those benefiting by the amnesty include Lindo, coin de Sayers, who has been held on charges growing out of his conduct in office as acting secretary of public instruction, since the period of American intervention.

TWO ROYAL MOURNERS TOO UNCONVENTIONAL

Strolls About London of Alexander's Brothers Worried Scotland Yard.

London, June 7.—Scotland Yard breathed a sigh of relief at the departure of the crowned heads of Europe who attended King Edward's funeral. Although anarchists make it a rule to behave themselves in England, their only haven of refuge, yet remembering the bomb outrage in Lisbon and Madrid the police could not take chances.

People lingering about Buckingham Palace gates in the hope of seeing royalties in their gold and purple trappings were often deceived by two plainly dressed elderly men whom they mistook for minor officials as they strolled quietly out of the palace gates to their amusement.

NEWS FOR FAR EAST

Victoria, B. C., June 7.—The telegraph editor who toils in the orient must needs be good at unravelling mysteries. The messages sent by cable in skeletonized form often reach the newspaper offices of the Far East in fearful and wonderful condition, for there are many native operators. Here is an example of history in the making in the Orient.

There came to Shanghai a telegram which read: "The Crown Princess of Stockholm crownprincess daughter villagers Oekoerto Hungary dancing coachhouse upitid ballroom fire outbreak rushed exit many clothes burning roof collapsed roof collapsed burying scores 250 perished."

The name of a town at the beginning of a telegram usually indicates the source of information. The message thus contained two distinct items of news to be read as follows: "It is announced from Stockholm that the Crown Princess of Sweden has given birth to a daughter."

The villagers of Oekoerto in Hungary were holding a dance in a coach house that had been fitted up as a ballroom when a fire broke out. The dancers rushed to the exit, many with their clothes burning. Some fell and were scalded. The blazing roof collapsed, burying scores. In all 250 persons perished.

One Far Eastern telegraph editor did not see the message that way. The journal said: "It is telegraphed from Stockholm that while the Crown Princess of Sweden (Princess Margaret of Connaught) and her daughter were watching the villagers of Oekoerto in Hungary dancing in a coach house which had been fitted up as a ballroom fire broke out. The dancers rushed to the exit, and many with their clothes burning were trodden down in the panic, while the blazing roof collapsed, burying scores. Two hundred and fifty persons perished."

The thing was worse when it reached Manila. From a newspaper published in Manila the following is taken: "Shanghai, March 29.—The Crown Princess of Sweden, who was in a town in Austria to a dancing hall, about 250 persons dying in the flames. This history is made for the reader of newspapers in the Orient."

ILLINOIS CENTRAL SUES EX-OFFICERS

Charges It Has Been Defrauded of \$2,000,000 On Repair Work.

Chicago, June 7.—Charging that it has been defrauded of about \$2,000,000 on repair work in four years, the Illinois Central Railroad Company today filed suit in the circuit court for an accounting against four of its former officers. The bill, which alleges conspiracy to defraud, names the following men: Orlando S. Keith, former superintendent of transportation; Joseph E. Baker, former assistant superintendent of machinery; William Renshaw, former superintendent of machinery; John M. Taylor, former general storekeeper.

In connection with the charges the Illinois Central Railroad declares in its bill that these concerns profited in alleged overcharges on car repair work in the following amounts: The Blue Island Equipment Company, \$400,000; The American Car and Equipment Company, \$100,000; Aosterman Manufacturing Company, \$750,000; The Memphis Car Company, \$300,000.

The international car company. In addition to the suit filed against the four former officers, the railroad also filed suits for an accounting against the West Pullman Car Company and against the American Car and Equipment Company.

The filing of the suits followed on investigation by the railroad company and numerous rumors of an alleged graft "ring" in the Illinois Central Railroad. High officers of the road have stoutly denied that the alleged ring had any existence.

RID CITY OF DOGS

Swarming Mongrels of Constantinople to be Done Away With.

Paris, June 7.—To imagine Constantinople without its hordes of prowling street dogs is difficult, but the authorities of the Ottoman capital have started in earnest to rid the city of one of its most notorious features. Last year a contractor offered to pay the Turkish treasury a lump sum for the privilege of clearing the city streets of dogs. What he wanted to do with them did not transpire; perhaps he expected to recoup himself by selling the skins for gaiters. Anyhow his proposition met with no favor.

GROCCERS REORGANIZE HAVE A NEW NAME

Montreal, June 7.—The Canadian Wholesale Grocers' Association this afternoon revised its bylaws and reorganized itself as the Dominion Wholesale Grocers' Guild.

The convention was visited by E. M. Trower, secretary of the Dominion Retail Merchants' Association, and Mr. Beaudry, of Quebec, representing the provincial branch, both of whom promised the wholesalers cordial support of the retailers in their efforts to bring about better trade relations between manufacturers, wholesalers and retailers, and especially by putting an end to secret rebates and other tricky methods.

NOT THE SAME NEWTON.

Ottawa, June 8.—The following letter was today received from Government House for the press: "Several Canadian newspapers having repeated a statement originating in the United States press that Captain Newton, who has recently been divorced from his wife by a United States court, was aide-de-camp to the Governor-General, I shall be obliged if you will publish this letter, stating that Captain Deuzil Newton, for five years aide-de-camp to his Excellency the Governor-General, has never been married, is no relation, and has no knowledge of Captain Newton, whose name has been brought before public attention, through the medium of the divorce court. I have the honor to be your obedient servant. (Signed), Lanesborough, major, military secretary."

\$15,000 PRIZE FOR TWIN-SCREW AIRSHIP

New York, June 8.—Dr. J. B. Walker, of the Scientific Merchant, announces that Edwin Gould will offer a prize of \$15,000 to the first aviator who designs a twin-screw aeroplane, driven by twin motors, and capable of flying faster than the single propeller type, with which all flights have thus far been made.

CANAL TONNAGE.

Sault Ste. Marie, June 7.—Lake commerce through the canals during May was as follows: American canal, 1,587; total tonnage, 3,168,967. Canadian canal, 1,271; total tonnage, 5,369,319. The total number of passengers through both canals for the month were 2,195. In May of last year the total tonnage passing through both canals was 4,968,351. For last month the total was 8,528,286 tons. Low draft of water in the American canal was the cause for the greater tonnage in Canadian canal last month.

A PRINCESS WEDS.

Berlin, June 8.—Princess Agatha Von Ratibor, one of the most beautiful of the girls in the society of Berlin, was married to Prince Frederick William of Prussia, a second cousin of Emperor William, was married at the New Palace in Potsdam today. Dr. Dryander, the court preacher, performed the ceremony, following which the empress August Victoria placed the Prussian princess crown upon the head of the bride. The bride is the elder daughter of the Duke Von Ratibor, and is 22 years old. The prince is the third son of the late Regent of Brunswick. His two elder brothers, preferring to live abroad, Frederick was appointed by the Emperor administrator of the immense property of the regent.

VICTOR IN FIGHT WITH VICIOUS DOG

Port Huron, Mich., June 8.—Fighting as though his life depended on the encounter, Elliott Smith, 16, of this city, battled with a vicious bulldog, which had attacked him, until the animal was choked to death. The fight lasted fifteen minutes on one of the principal streets, and young Smith escaped unharmed. It is not known who owned the dog.

Montreal, June 7.—The Canadian Wholesale Grocers' Association this afternoon revised its bylaws and reorganized itself as the Dominion Wholesale Grocers' Guild.

NOT THE SAME NEWTON.

Ottawa, June 8.—The following letter was today received from Government House for the press: "Several Canadian newspapers having repeated a statement originating in the United States press that Captain Newton, who has recently been divorced from his wife by a United States court, was aide-de-camp to the Governor-General, I shall be obliged if you will publish this letter, stating that Captain Deuzil Newton, for five years aide-de-camp to his Excellency the Governor-General, has never been married, is no relation, and has no knowledge of Captain Newton, whose name has been brought before public attention, through the medium of the divorce court. I have the honor to be your obedient servant. (Signed), Lanesborough, major, military secretary."

\$15,000 PRIZE FOR TWIN-SCREW AIRSHIP

New York, June 8.—Dr. J. B. Walker, of the Scientific Merchant, announces that Edwin Gould will offer a prize of \$15,000 to the first aviator who designs a twin-screw aeroplane, driven by twin motors, and capable of flying faster than the single propeller type, with which all flights have thus far been made.

CANAL TONNAGE.

Sault Ste. Marie, June 7.—Lake commerce through the canals during May was as follows: American canal, 1,587; total tonnage, 3,168,967. Canadian canal, 1,271; total tonnage, 5,369,319. The total number of passengers through both canals for the month were 2,195. In May of last year the total tonnage passing through both canals was 4,968,351. For last month the total was 8,528,286 tons. Low draft of water in the American canal was the cause for the greater tonnage in Canadian canal last month.

A PRINCESS WEDS.

Berlin, June 8.—Princess Agatha Von Ratibor, one of the most beautiful of the girls in the society of Berlin, was married to Prince Frederick William of Prussia, a second cousin of Emperor William, was married at the New Palace in Potsdam today. Dr. Dryander, the court preacher, performed the ceremony, following which the empress August Victoria placed the Prussian princess crown upon the head of the bride. The bride is the elder daughter of the Duke Von Ratibor, and is 22 years old. The prince is the third son of the late Regent of Brunswick. His two elder brothers, preferring to live abroad, Frederick was appointed by the Emperor administrator of the immense property of the regent.

VETERANS OF PULPIT ADDRESS CONFERENCE

Methodists Hear Speeches From Four in Ministry Over Fifty Years.

[Special to The Advertiser.] Chatham, June 7.—At the London Methodist Conference this morning, Rev. N. Burwash, of Wingham; Rev. J. Green, of Strathroy; Rev. Gundy, of St. Clinton; and Dr. Thomas, who have all been in the ministry for fifty years and over, addressed the conference, giving a few of their experiences. The only one of the three now in active work. The Sunday school committee reported in favor of holding Sunday school institutes.

SCARLET FEVER AND DIPHTHERIA INCREASE

Isolation Section of Victoria Hospital Will Soon Be Filled.

Scarlet fever and diphtheria are increasing so rapidly in the city that at the present rate the new contagious hospital will soon be filled. Four new cases of scarlet fever and one of diphtheria came in yesterday, making a total of 25 scarlet fever cases and 10 of diphtheria. In addition, there are other contagious cases that are being treated, and only a dozen or so more beds are available. The outbreak in London has had in it some of the worst cases that have been seen in this city for some time. There is considerable comment among many citizens as to the cause of the outbreaks of this nature which London has had recently, and there has been some talk of asking the board of health to make an investigation.

DISTORTED HIS SERMON

A Montreal Priest Takes Action Against a French Journal.

Ottawa, June 7.—Rev. Father Varrilly, assistant priest at St. Bede's Church, this city, will take action against La Patrie, Montreal, for what he alleges to be the distortion of a sermon preached by him on the coronation oath. Father Varrilly states that the paper made him say, in reporting his sermon, that there was nothing in the oath contrary to the Roman Catholic faith. This is just the opposite to the ground he took, and he alleges he was thus reported in an English newspaper, and between the French and English-speaking Catholics.

THE ST. STEPHEN'S BANK

All the Creditors and Depositors Will Be Paid in Full.

Montreal, June 7.—Mr. John Knight, secretary of the Dominion Bankers' Association, who has been in New Brunswick in connection with the affairs of the St. Stephens Bank, states that the work of the curator has been completed, and the final voluntary winding-up of the institution will be conducted by Mr. Keasey, general manager of the Bank of New Brunswick. All the creditors and depositors of the St. Stephens Bank will be paid in full. The shareholders will be the only sufferers, but to what extent Mr. Knight could not say. The Canadian Bankers' Association may reasonably claim that the duty imposed upon it when incorporated by the Government is expeditiously performed.

TARIFF NEGOTIATIONS

Reciprocity Treaty Under Way With Italy and Belgium.

Ottawa, June 7.—It is understood that substantial progress is being made with the negotiations for better tariff relations between Canada and Italy as well as Belgium. No final steps have been taken yet to give effect to a reciprocity treaty with either country, but an announcement may be made shortly.

GOES AROUND.

Port Huron, June 7.—The Canadian steamer Strathcona, bound down with ore for Point Edward, which ran aground on Corsica shoal, Lake Huron, just east of the lightship and was cut all around about two inches, was released yesterday after lighting about 200 tons of her cargo into the Wayne Company's drydock, Point Edward, and will be followed by the Strathcona.

Women

Cannot be Strong and Healthy Unless the Kidneys are Well.

Weak, lame or aching backs are the first sign of kidney trouble. Under ordinary conditions they ought to be strong and ready to bear the heaviest load. It is hard to do housework with a weak and aching back. Backaches come from sick kidneys, and what a lot of trouble sick kidneys cause. But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Weak back is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney troubles. Doan's Kidney Pills will cure you in the same way as they have cured thousands of others.

LIFE IS ENDED

Continued From Page One.

tion. All his life he was a thinker and a clear and forceful writer, and he never lacked a medium through which to disseminate his views. His residence at different times in England, the United States and Canada made him a familiar figure in the public mind of the three countries. He signed letters to the New York Sun were many, Nov. 10, 1909, Mr. Smith announced his retirement from journalism, saying 24 to age.

He held various degrees, but preferred always to be known plainly as Goldwin Smith. He was active practically until the last. His wife died Sept. 9, 1909, at the home in Toronto, when she was 75 years old, and her husband 86. They were married in 1875. Mrs. Smith was born in Boston, the daughter of Thomas Dixon, who was a knight of the Order of the Netherlands and of the Order of the Lily. Goldwin Smith and his wife had no children.

Goldwin Smith was born at Reading, Eng., Aug. 23, 1823. His father, Richard Smith, was a physician. Goldwin inherited a good deal of property, and all his life was able to indulge his tastes.

His preparatory education was acquired at Eton. He was graduated from Magdalen College, Oxford, in 1845, and later took the degree of M. A. He gained various prizes and two scholarships. He became a fellow of University College, Oxford in 1847, and in the same year was called to the bar at Lincoln's Inn, but he never practiced law. In 1852 Oxford gave him the degree of D. C. L., and in 1896 Princeton made him an LL. D.

He was Regius professor of modern history at Oxford from 1858 to 1868, and was an active champion of the north during the American civil war. He visited this country in 1864, after having written the previous year "Does the Bible Sanction Slavery?" and "On the Morality of the Emancipation Proclamation." While in this country he made a lecturing tour and on his return to England published "England and America" and "The Civil War in America."

Removes to America. He removed to this country in 1868, and from that year until 1871 was a lecturer at Cornell University on English and constitutional history. In the latter year removing to Canada, but continuing to hold an honorary or non-resident professorship, and in his will, it is directed that his estate be handed over to Cornell, where Prof. Burt Green Wilder has for many years been engaged in an attempt to secure the brains of 100 celebrated men for study.

From 1871 to his death Mr. Smith lived in Toronto. His home here was the Grange, the oldest house in Toronto, occupying a whole city block, and an English house covered with ivy and surrounded by trees.

Mr. Smith always carried a cane, and in his walks about tapped the grass and the leaves with it. He was a spare man, with thoughtful face, slightly stooping shoulders, and in his later years white and scanty hair, but always with a keen eye. At the Grange he carried on his work as author, critic, and historian, expressing clearly the convictions he had arrived at through serious thought and study, and sticking by them. He directed his own "Moderate Liberal," and he was opposed to "party expediency" as a means by which political corruption attained its ends.

He wrote a great deal along the line of a union of Canada with the United States, a union, which he believed, would ultimately come about. For more than a generation he wrote a weekly article to the Farmers' Sun of Toronto, under the pseudonym "By-stander." He had begun newspaper work as a member of the staff of the Montreal Times. He was for long time honorary president of the Canadian Press Association, and until he was well past 80 always attended the association's annual meetings and banquets.

A Methodical Worker. He began the day's work at 9 o'clock every morning in his library, and wrote most of his articles himself, although sometimes dictating to his secretaries. He worked regularly until luncheon, and the afternoons he spent largely in reading, in the winter, and in walking about his grounds or driving in the summer. He enjoyed having friends about him, and he was a musician, an expert billiard player, and a good hand at whist. He was said to be greatly interested in charitable matters, but his gifts to such objects were never very profuse. His views on questions of religion have been abundantly put forth in letters printed in the New York Sun, and are intimated in the titles of some of his publications.

He was active in educational associations, was vice-president of the Land Law Amendment Association, and president of the Modern Language Association. Among his published works were "Irish History and Irish Character," "Lectures on Modern History," "Rational Religion and the Rationalistic Objections of the Bampton Lectures of 1851," "The Emancipation of the Southern Independence Association," "Three English Statesmen," "Essays on Reform," "The Reorganization of the University of Oxford," "The Corn Law," "Jane Austen," "The Conduct of England to Ireland," "Loyalty, Aristocracy and Jingoism," "The Political Destiny of Canada," "William Lloyd Garrison," "History of the United States," "Bay Leaves," "Translations from the Latin Poets," "Essays on Questions of the Day," "Guesses at the Riddle of Existence," "Shakespeare, the Man," "Commonwealth of Empire," "The Court of History," "The Founder of Christianity," "Lines to Religious Inquiry," and "Labor and Capital."

MUNICIPAL ABATTOIRS URGED BY RUTHERFORD

More Rigid Inspection of Cattle Needed, Says Dominion Veterinary-General.

Ottawa, June 8.—Dr. J. G. Rutherford, Dominion veterinary-general, urges the establishment of municipal abattoirs. He does not believe it practicable to extend the federal act beyond its present scope. The Federal Government, he says, should guarantee the healthfulness of meat exported from one province to another or to foreign countries, but that the provincial and municipal authorities should protect the public health by properly inspecting all meat slaughtered for the local markets. That rigid inspection is needed will appear from the record of condemned carcasses under the administration of the present federal law. During twelve months no less than 9,200 carcasses were condemned as unfit for human food. The condemned animals were afflicted with various diseases, including abscesses, tapeworms, dropsy, jaundice, lumpy jaw, pneumonia, skin diseases, tumors and erysipelas. Some 4,307 were declared unfit for food because afflicted with tuberculosis; 2,516 weak figures prominently in the records and accounts for condemnation of 5,200 carcasses. Dr. Rutherford points out that all these animals were condemned at Government-inspected packing houses, where naturally the greatest care is exercised in purchasing only sound animals and where comparatively few unsound animals would be offered for slaughter. He says: "When it is remembered that these establishments under inspection handle only animals of the best class procurable, the conditions which exist in the ordinary private slaughter house, conducted without inspection or official supervision of any kind, may readily be imagined. Boards of health and municipal authorities have been too long neglectful of the necessity for intelligent action in the matter of meat inspection. It should be remembered, however, that where packing houses slaughter both for local and export trade, all of their output is inspected under the federal law. Nevertheless, in a city like Toronto, a large proportion of meat consumed by the people is subjected only to municipal inspection. In Toronto the Federal Government keeps from eighteen to twenty inspectors constantly at work in the six establishments subject to federal inspection. As a rule, no municipality employs anything like this number of inspectors

A FAVOR TO ONTARIO

Pay Dividends on Loan Without incurring Income Tax.

Toronto, June 8.—The provincial treasurer, Hon. Col. Matheson, received a message this morning of the honorable recognition of Ontario loans by the Imperial Government in a manner that is certain to place them even higher in the list of valued securities for English investors. The province has been granted the Bank of Montreal, which acts as the agent of the Ontario Government, to pay out dividends on Ontario loan issues when they do not exceed 45 without incurring the income tax. This dividend represents an investment of about £120, which will include a large proportion of the holders of the provincial loans. These new amount to \$10,000,000, including the loan for the construction of the T. and N. O. Railway, and the later loan for the Niagara power transmission line. All holders of these bonds exceeding £120 will pay the usual income tax, which amounts to more than one shilling in the pound. This exception heretofore has applied only to dividends on Government loans, which are paid by the Bank of England, and Col. Matheson is gratified at the favor extended to this province. FELL FIFTY FEET. Toronto, June 7.—Albert Manning, aged 25 years, a painter, died this morning in St. Michael's Hospital as the result of falling 50 feet from the elevator shaft of the Simpson Knitting Company's works, Beesley street. Manning was an Englishman, not long out. He leaves a wife.

HELP AGRICULTURE IN MIDDLESEX

Proposal Made in County Council to Have a Government Representative.

ALBERT HUGHES' CASE

Alleged That He Is Not Being Properly Treated in Victoria Hospital—Special Committee Will Report.

It is altogether probable that the county of Middlesex will have an agricultural representative from the Government to further interests in this line throughout the county.

This was one of the most important matters before the council when that body resumed session yesterday afternoon at 2 o'clock.

Mr. L. H. Lawton, a member of the Parkhill high school board of education, spoke regarding the matter. It appears that the Provincial Government is placing graduates of the Ontario Agricultural College in the various counties throughout the Province. A number have already been appointed, and in their estimates for this year provision has been made for the appointment of three more.

Memorialize Government. Mr. Lawton requested the council to pass a resolution directing the Government to place a representative in Middlesex. He urged the claim of Parkhill as headquarters, but did not press the matter. He stated that Parkhill was foremost in matters of this kind, and was deserving of consideration.

The duties of this official will be to deliver lectures in the high schools to country students in attendance, to confer with the township councils and farmers, and generally to advance the interests of agriculture in the county. Night and afternoon schools would be held for farmers' sons not attending high school. Examinations will be held at the end of the year, and successful passing of the examinations will entitle the student to a year at the Ontario Agricultural College.

Mr. Lawton stated that the Government pays a salary of \$1,200 a year and all expenses.

The council members were keenly interested, and a resolution was passed in favor of the proposal. The matter was referred to the educational committee.

New School Section. Another important matter was a request from the Victoria Township for a new school section. The petitioners were represented by Mr. H. Luscombe. In this section a great many children have to fully three miles to school, those in the centre being particularly badly situated. It is proposed to cut out a section in the centre of the township to be known as school section No. 12. The matter was referred to the education committee.

Albert Hughes' Case. A warm discussion arose over the case of Albert Hughes, an unfortunate man who met with an accident some years ago, and is at present in Victoria Hospital. The county has accorded him relief from time to time. The house surgeon at Victoria Hospital refuses to operate on him, claiming that he is incurable.

Dr. Hadley Williams has offered his services to hold a consultation, perform an operation if necessary, and afford Hughes relief from his suffering. The matter was left in the hands of a special committee to deal with the case.

The report of the special committee on alterations to the courthouse and jail was tabled until after the conference with the deputation from the city on Thursday afternoon.

Mr. T. G. Meredith addressed the council for a few moments, requesting that body to put down a court carpet inside the rail in the courtroom. He stated that so much noise was made on the present floor that it was distracting for the lawyers, and almost impossible in many cases to hear the replies of the witnesses. The matter was referred to the jail committee.

Squire Chick acted as clerk in the absence of Capt. Robson. The council adjourned until one o'clock this afternoon. The early hour was chosen in order that the business of the council should be completed as the council is scheduled to visit the sanatorium at Byron at three o'clock.

LATE S. B. WESTERVELT

Brother of a Prominent Citizen of London.

A Mount Forest special to the Globe says: In the death of Mr. Samuel B. Westervelt here recently the town has lost an old and honored citizen. Previous to 1896 he had been principal of the public and of the model schools for twenty years. Some 700 school children in those years received their training from him. Upon these, as upon his younger pupils, he exerted a beneficial and lasting influence. Mr. Westervelt was of Dutch descent, his ancestors coming from Holland to New York in 1662. His grandfather came to Canada over 100 years ago, and lived on the Bay of Quinte till 1818, when he removed to the township of Chingacousy.

He the deceased was born in 1837, the year of the rebellion. After reaching manhood he turned to teaching, in which he had a useful and successful career. He was an earnest member and deacon of the Baptist Church, and a deep student and lover of the Bible. He was a strong temperance advocate and an ardent Liberal, and a sincere admirer of Mr. T. G. Meredith, who was a member of the department of agriculture, in his son.

BAPTIST CONVENTION GATHERS AT PETROLEA

Middlesex and Lambton Delegates in Force—Encouraging Reports—Officers Chosen.

[Special to The Advertiser.]

Petrolea, June 7.—The annual associational convention of the Baptist Churches of Middlesex and Lambton opened in the Baptist Church here yesterday afternoon, and in spite of the gloom of a rainy day the proceedings were carried forward with an enthusiasm that augurs well for the success of the entire three days' session. An energetic billeting committee of the Petrolea Church had all the arrangements for the entertainment of their guests in fine shape, and it was well they had, for the delegates arrived in large numbers on all trains. Yesterday was ladies' day, and both afternoon and evening were taken up with the Mission Circle and Mission Band work. The meeting opened at 2 o'clock with the president, Mrs. A. J. DeWitt, of London, in the chair, and after singing of the first hymn, "All Hail the Power of Jesus' Name," until the close there was no drag in the proceedings. After this hymn, Mrs. DeWitt, of London, read the Scripture lesson, and Mrs. Jack, of Watford, led in prayer. A hearty address of welcome from the Petrolea ladies was read by Mrs. J. B. Grimshaw, which was responded to by Mrs. A. J. Vining.

After the appointment of a nominating committee, Mrs. J. G. Taylor, of Sarnia, gave a digest of the work of the mission circle and mission bands in the association, which was very encouraging. This was followed by a duet by Mrs. E. Brown and Mrs. Scott, of London.

Warm Greetings. Greetings from the ladies of the other denominations of the town were given by Mrs. (Dr.) McNair, of the Baptist Church, Miss Lancaster, of the Methodist Church, and a written greeting from Christ Church.

Mrs. Samis, of Sarnia, conducted a very interesting "Home Mission Map Contest," and Mrs. Leckie, of Forest, gave very thoughtfully prepared paper on "Christian Stewardship."

Mrs. Thomas Woodburne, of London, then conducted a question drawer of the work of the circles and bands, which was followed by a chorus from the Petrolea Mission Band, entitled "Spread the Light Around the World," and it was very sweetly sung.

The nominating committee then brought in its report, resulting in the election of the following officers for the coming year: Hon. President—Mrs. (Rev.) Thos. Woodburne, London.

President—Mrs. (Rev.) A. J. Vining, London. Vice-President—Mrs. (Rev.) Carew, London. Directress—Mrs. Taylor, Sarnia. Assistant Directress—Mrs. (Rev.) Leckie, Forest.

Associational Secretary—Miss Watson, Sarnia. The afternoon session was closed with prayer by Miss Corning, of India. While the ladies were in session in the main auditorium, the pastors of the association held a conference in the council chamber.

Evening Session. The evening session brought a large crowd to the church. The president, Mrs. A. J. Vining, was again in the chair, and the meeting was opened with that grand old missionary hymn, "From Greenland's Icy Mountains," Mrs. W. Griffin, of Oil Springs, read the Scripture lesson, and Rev. J. B. Grimshaw offered prayer. The minutes of the afternoon session were read by Miss Watson, of Sarnia.

The directors' annual report was read by Mrs. Taylor, of Sarnia. This report was most encouraging, there being in the association 25 mission circles and 16 mission bands, which had raised during the year \$1,669.99.

A Vote From India. After an anthem by the Petrolea choir, Miss Corning, returned missionary from India, was introduced as the

first speaker. Miss Corning spoke in a clear, earnest voice, and her appeal for foreign missions stirred the hearts of all present. She dwelt more particularly on her work among the higher and lower castes of the Indian people, and their heart longing for the gospel of Christ.

Mrs. Maculpine, of Sarnia, then sang very sweetly the solo, "So I Can Wait." The address by Rev. J. E. Hawking, of Sarnia, on home missions was a strong appeal for the Christian life of Canada as the base of all missionary work at home and abroad.

Another anthem by the choir, and a vote of thanks to the Petrolea ladies, brought the first day's session to a close.

Tuesday's Meeting. The association proper opened its session this morning with better weather conditions, which add much to the success of the meetings. Following the Scripture lesson and prayer by Rev. T. Watson, of Granthurst, the annual sermon was preached by Rev. J. E. Hawking. This address was an earnest exposition of the life of faith and was heartily received. The speaker spoke of faith as the first element of greatness, and pointed out how a man grows to the dimensions of his vision or shrinks if his vision is contracted. He also spoke of endurance as the reinforcement of all Christian life and endeavor.

In the absence of the moderator, Rev. Mr. Priest, of Strathroy, the clerk occupied the chair. Rev. Messrs. Ashton, of Alvinston, and Pikey, of London, and Mr. W. C. Senior, of Toronto, were introduced to the association and made suitable replies.

Rev. Mr. Priest gave a short address on "Our Publication Work," which was followed by a spirited discussion.

Association Officers. The nominating committee, Rev. Messrs. Hawking, Watson and Walker, then presented their report. Following are the officers for the ensuing year: Moderator—Rev. W. M. Walker, B. A., London.

Secretary—Treasurer—Rev. H. C. Priest, B. A., Strathroy. Assistant Clerk—Rev. Mr. Bowen, London.

Foreign Mission Committee—Rev. H. C. Priest, B. A., Rev. H. H. Bingham, B. A., Rev. T. Meldrum, B. A.

Home Mission Committee—Rev. J. E. Hawking, Rev. J. B. Grimshaw, Mr. Dr. Ferguson, Mr. J. B. Campbell.

Representative to Grand Ligne Mission Board—Rev. W. A. Johnston, Arkona.

Representative to Western Mission Board—Rev. G. V. Collins, Oil Springs. Sunday School Secretary—Rev. J. S. Foster, Forest.

Preacher of the Annual Sermon—Rev. J. B. Grimshaw, Petrolea.

HUBBUB RAISED BY A SOCIALIST

Hoffman, in Prussian Diet, Says Elect King by Vote.

Berlin, June 8.—The Government measure increasing the royal civil list was sent to committee in the Prussian Diet yesterday, but not until the Socialist opposition to the measure had been vented with a freedom that raised a hubbub.

Herr Hoffman, speaking for the Socialists, severely criticised the Emperor's habit of living luxuriously while his majesty advised the working people to economize. When the speaker declared that all state servants, even the chief, should be elected by the people, shouts of protest were raised, and the president called Hoffman to order, charging that he was giving utterance to sentiments of high treason.

When he was permitted to continue, Herr Hoffman suggested that the King of Prussia should be paid a daily allowance when on duty in the same way as members of the Reichstag were rewarded for their services to the state.

This suggestion caused another demonstration and Hoffman was again called to order.

The measure provides for an increase in the King's annual allowance of \$500,000 with an additional sum of \$375,000 for the support of the Royal theatres. All parties of the Diet, with the exception of the Socialists, are in favor of the increase.

MORE EARTH SHOCKS.

Naples, June 8.—During the night a series of slight earth shocks were recorded by the seismographs at points in Southern Italy. The disturbances, however, were not otherwise noticeable, and today the people throughout the region that was recently shaken yesterday are calmer, in the hope that the worst is over.

"Can't Quit Coffee"

Well, that is humiliating. It's hard enough to be a slave, but infinitely worse to acknowledge the desperate condition where individual will is gone. However, there is nothing easier if you go about it in the right way. And nothing that will pay bigger dividends in health, comfort and money-making capacity.

Perhaps coffee keeps you awake nights, dulls your brain when you need the sharpest edge on your wits possible.

It's the steady, clear, original thinker whose judgment is wide awake during business hours, that makes the well-paid doer of valuable work; the chap who forges ahead on his own initiative—the successful money-maker.

If coffee gets in its deadly work for only one hour of your business day, that may be just the time when opportunity is calling the loudest. But if your judgment is cloudy from caffeine-poisoning—coffee-drinking—you may not see the opportunity or not be able to swing things your way.

To be in the best trim all the time, drop coffee entirely, and use well-made Postum. By "well-made" is meant, as the directions say, boil your Postum at least 15 minutes after boiling begins. Have it dark and rich (it won't hurt you—not even a baby)—and get the fine, snappy flavor and full food value.

Let Postum, in a word, help you quit coffee and start you on the road to every-day comfort, rousing good health and quite possibly a fortune.

Protestant Orphan's Home.
The last meeting of the board of managers of the Protestant Orphan's Home before September was held on Monday evening at the home. Everything is in a flourishing condition and applications are constantly being received for adoption. There are 41 children, 23 boys and 18 girls. Fifteen of the children were attacked by measles, but have now completely recovered. The following ladies were present: Mesdames Gregston, Spencer, Hyman, Chapman, Bowers and Miss Fraser.

A very interesting game of ball was played between Grade V. of St. Peter's and Grade V. of the Colborne street school, St. Peter's winning by a score of 5 to 4. Charles Kilgallon saved the game by his fine pitching in the last inning. The line-up of the winners was as follows: Catcher, M. Sansone; pitcher, A. Escoc; first base, W. Pet; second base, T. Kilgallon; third base, F. Sansone; shortstop, C. Kilgallon; centre field, W. Lewis; right field, M. Sansone; left field, F. Kaltenmarch. **Interesting Recital.**
A most interesting recital was given at Heintzman Hall last evening by Miss Gertrude Rennie, Amelia Dan-gerfield and Alice Christopher, piano pupils of Miss Frances; Miss Christine Armstrong, vocal pupil of Mr. Williams; and Mr. Douglas Petherston, violin pupil of Mr. Pourie. The programme was artistically rendered by the pupils, and highly appreciated by the audience.

COUNTY AND CITY WILL HOLD MEETING

Joint Municipal Building Will Be Discussed on Thursday.
The board of works and the county council will get together on Thursday afternoon next and discuss a joint municipal building.
The first question that will be settled by the members will be that of a site. The county met are committed to the present site of the county buildings, while the city council is divided between the "Y" on Richmond street and a site further east. Some prefer the present site, but so far their influence has not been very great.

PIANO BY MOTOR
Nordheimers Deliver One of Their Instruments in London by Motor Car.

Man from the remotest ages has possessed means of transit from place to place. In the primitive ages he relied solely upon the means with which nature had provided him, and for all ordinary purposes he needed no other. Mode of transit, like most things, has been entirely revolutionized. Motor vehicles have done much in this direction. The advent of the first automobile created quite a sensation, but the innovation of the motor car for the purpose of delivering pianos, which was inaugurated in this city last Saturday by the Nordheimer Piano and Music Company, Ltd., proved very unique and was the cause of much favorable comment among the large crowds that witnessed the event.

Enterprise of this nature does much towards the "boosting of London." Nordheimers, Limited, the pioneer music house of Canada, have from its inception, 70 years ago, always striven to maintain the right principles, which are the essentials for the uplifting of musical progress.
Messrs. McLaughlin-Bulek have the distinction of providing the first motor car for the delivering of the product of one of Canada's most important industries.

Haag Circus, June 17.
Your visit to the mighty Haag shows in London, afternoon and evening, June 17, will not be complete without a tour of the colossal canvas equestrian. Even though you are not a lover and admirer of blooded stock, it is claimed you will find an hour of genuine pleasure and much to interest you inspecting the droves of horses and ponies. For the last year agents have been in the different parts of the world making purchases for this department, with a result that today the Mighty Haag shows possess one of the largest, most varied and easily collections of representative members of the equine family which wealth can procure, and it is doubtful if anywhere near the like has ever been exhibited before.
Ladies and children are particularly invited to visit this horse fair, which all may safely do without escort, as uniformed and courteous attendants are always present, to look after the welfare of callers.

A proposition is on foot to establish in the ancient city of Palos, from which Columbus sailed to discover the new world, permanent agricultural and industrial exposition to increase the friendly and commercial relations between the nations of America and Spain. The value of machine guns was first exemplified in the Franco-Prussian war. The Boer war in South Africa confirmed the conclusions of the tacticians, and the Russo-Japanese war proved the correctness of their views.

MINOR ACCIDENTS AT THE SCHOOL PICNIC
Boy Had Nose Broken—Lady Had Leg Badly Crushed—Other Mishaps.

There were several minor accidents at the school picnic yesterday afternoon.
While playing baseball, Wilbert O'Rourke, son of Michael O'Rourke, 1034 Dundas street, had his nose broken. In the mix-up O'Rourke's bat struck across the nose breaking the bridge.
While attempting to board a Spring-bank car at the Park last evening, Miss M. Livermore, daughter of Mr. W. F. Livermore, 405 Avenue, had her leg badly crushed, and her knee cap smashed. A number of boys crowded her into the steps, and threw her to the walk. She was picked up, and brought to the city, in an ambulance. It was found that her left leg was bruised and cut, and the knee cap cracked.
Miss Frieda Wilkins, of Wilson street, had her ankle badly bruised. While watching the baseball game, a batted ball struck her on the ankle and it was thought for the moment that her leg was broken. However, other than a badly bruised member she is all right.

WIRE WORM IS STILL CAUSING GREAT DAMAGE
The wire worm has not yet by any means ceased its depredations on the farms of London and other townships. The farmers are worrying very little, however, for their crops almost without exception are presenting a fine appearance.
Wheat is still backward, but a period of warm weather would quickly put it in good condition.
There is little prospect of cheap hay next year and the crop will probably be about the same as last year.
Corn is very backward, due to the cold weather, but all that is necessary is warm weather.
The general outlook is optimistic and the farmers are extremely well satisfied with present appearances.

FARMERS ARE NOT WORRYING MUCH. HOWEVER, AS MOST CROPS ARE IN SPLENDID CONDITION.

SHORTAGE OF MEN
(Continued From Page Two.)
that every parish must give at least one-fifth more than last year. He strongly recommended the adoption of the duplex envelope system of collecting.
His lordship urged the clergy, particularly in cities, to adopt a common attitude and write in a common policy with respect to the discussion of public questions, and in their relations to other communions, and towards what are called joint evangelistic or other services. He urged the need of sinking differences if the church were to have its full weight and power in the formation of public opinion.
Theological Thought.
In speaking of theological thought, Bishop Williams pointed out that it never was more rapid than at the present time. A new theory is now more widely known by means of the

DUTCH SLIGHT TRIBUNAL

Fisheries Commissioners Had to Hunt Around for Decent Court Quarters.
London, June 7.—The Canadian Associated Press correspondent at The Hague writes that the Newfoundland Hague tribunal will meet four days a week, and remain in session four hours a day. At this rate the argument will not conclude before the end of August, possibly the middle of September.
A preliminary meeting was held in the Court of Arbitration Building, but the room was not sufficient for the court representatives of the contending parties, therefore, it was decided to try to get more commodious quarters. It was expected that Dutch officials would put itself out for the purpose of meeting the wishes of the peace tribunal, but it took no interest whatever in the search for more commodious quarters. Eventually, the tribunal discovered on the top flat of the parliament buildings a huge, un-gainfully, unlighted, unfurnished attic. The interested parties are in a quandary as to what to do. At the present moment they are undecided whether to take possession of the "roof garden" or apply for permission to use the Chevaliers' Hall, the headquarters of the Netherlands Knights.

BENGER'S FOOD
is for Infants and Invalids and for those whose digestive powers have become weakened by illness or advancing age.
If the digestive functions, however weak, can do any work at all they should be given work to do to the extent of their powers. In the easy process of its preparation the digestibility of Benger's can be regulated to give this work with extreme nicety.
The "British Medical Journal" says—"Benger's Food has, by its excellence established a reputation of its own."
Benger's New Borden deals with the most common doubts and difficulties which mothers have to encounter. It is sent post free on application to Benger's Food, Ltd., Outer Works, Manchester, England.
Benger's Food is sold in tins by Druggists, etc., everywhere.

MAKE YOUR OLD, OVERWORKED STOMACH YOUNG AGAIN

Mi-o-na Tablets Stop Stomach Distress in Five Minutes—Cairncross & Lawrence Guarantee It.
It is really a pitiful sight to see so many thousands of people worrying about what they can eat and what they can't eat.
Dyspeptics, they call themselves, but they stretch the imagination when they do it.
All these people need to make them healthy, cheerful and of sound appetite is a box of Mi-o-na tablets.
The stomach of a dyspeptic is over-worked and rundown. It needs help to digest the food, but more than that it needs a prescription that will cleanse, renovate, strengthen and

telegraph and press in a month than it was in a hundred years before. People do not read in many cases discriminat-ingly, and often take what they read in the press as more or less authorita-tive, not remembering, or knowing that as a rule editors give conscient-ious place to that which is novel or startling.
"The pulpit," he said, "should serve as a corrective to the press. Much of the present looseness of thought in re-gard to religion is due to these condi-tions."
The stress of controversy at the present time, he said, is around the person of Jesus, and the form of ob-jection is the claim that there is a difference between the actual Jesus of Nazareth and the ideal figure called Christ. Bishop Williams dealt at some length with various arguments and views.
"The existence of the church and the existence of the New Testament," he said, "are left without adequate ex-planation if the resurrection be denied."

Bishop's Report.
The bishop reported that 2,424 persons had been confirmed during the past year. Holy Trinity Church, Chat-ham, had the largest number, 42; All Saints, Windsor, was next, with 38.
During the year two clergymen of the diocese have been called by death, Rev. C. B. Guillemont and Rev. S. R. Ashbury. All present stood up to honor their memory as the names were called. While there have been a number of removals, they have been exceeded dur-ing the year by the ordinations and transfers into the diocese, and there are now seven more clergy engaged in active work than a year ago.
Seven church buildings were consecrated during the year, and five new churches dedicated. The former were: St. Paul's, Egremont; Trinity, Blyth; Trinity, Bismarck; St. Luke's, mission, Stratford; St. John's, Tillsonburg; St. John's, Berville, and the Church of the Ascension, Kintouh. Those dedica-ted were: St. David's, Church of the Re-green Indian Mission; Church of the Re-green Indian Mission.
