The BATTLE of

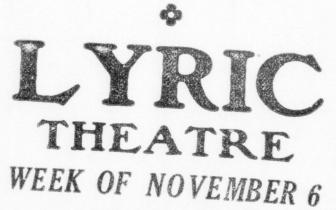

KING GEORGE V.

ON THE EVENING OF SATUR-DAY, September 2nd, the official war office film, "The Battle of the Somme," was by royal command exhibited at Windsor Castle. There were present besides His Majesty, Her Majesty the Queen, the party from the royal household and others, Captain J. C. Fairthorpe of the General Headquarters, and Lieutenant E. Distin Maddick, representing the War Office, were in charge of the film. The King expressed to them his unqualified approval of the "Battle of the Somme" pictures, and advised the British public and that of the Empire at large, to see them. Both officers in charge of the film had the honor of being presented to their majesties and receiving royal congratulations.

.The King's Advice:___

"The public should see these pictures that they may have some idea of what the army is doing and what war means."-The King.

Copies of this film have reached Canada and will be presented for public exhibition in the best theatres, under the auspices of the leading Canadian newspapers in the chief cities from coast to coast. In London this wonderful record of British heroism and of British victory will be shown under the auspices of The London Advertiser, at the Lyric Theatre, November 6 to 11, inclusive. In order that as many people as possible may see this wonderful picture, a popular price will be charged for every seat in the house-afternoons and evenings-25c.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush Kidneys and neutralize irritating acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again; there is difficulty in voiding it.

85 per cent to 12 per cent.

Owing to the insanitary condition of the buildings available, hospitals of canvas were erected, and the best results achieved from open-air treatment. There was more prose than poetry for the nurses, who frequently had to be up all night to hold their tents down in the high gales which sprang up.

In the typhus epidemic, seven nurses gave their lives in the service of the Serbians through the Scottish Women's Hospitals. Five hundred women in the old country immediately volunteered to take their places.

Hospital Work.

The advice of the Government for the using of the money where it would be most needed was to undertake some hospital work for the Allies of Belgium, Prance and Serbia, which were not equipped to deal with the problem of the wounded.

the wounded.

The first two or three months were devoted to hospital work in Belgium, after which a band of heroic women went to Serbia to help with the wounded and to fight the plague of typhus.

The particularly striking feature of these hospitals is that they are entirely officered by women. Women of ability are the administrators, the surgeons are women, and also the nurses. Where necessary, women have filled the roles of orderlies, have scrubbed, whitewashed and disinfected. Four hospital units, composed entirely of women, were sent to Serbia, and such was their success in treating the wounded and suffering that they reduced the mortality from 85 per cent to 12 per cent.

9 Points of Superiority The only way you can get a true idea of the quality and luxury of Mercury Made-in-Canada Underwear is to compare it with the highest grade imported. Mercury has nine distinct points of superiority over ordinary underwear. 1. Highest grade wool used. Soft, yet durable. Guaranteed unshrinkable 2. Exceptional elasticity. Will stand greater strain than ordinary underwear. 3. Mercury style neck. Fits snugly and comfortably. Doesn't crease or bulge like ordinary round style.

4. Shaped to the arm. Ample space provided under the arm for free movement.

5. Special system of knitting to prevent cuffs from pulling loose. 6. Inserted shoulder straps to give greater

freedom to shoulder movements. 7. Crotch closed so cannot spread open unless unbuttoned. Only one button used here, and that so placed you cannot sit on it. 8. Ribbed gusset in crotch that relieves

all tension, and makes garment remarkably easy and elastic. 9. Seams all covered, so that they present a perfectly smooth surface. COMFORT, QUALITY, LUXURY, are all united in Mercury Underwear, and prices you will admit very reasonable,

TRIBUTES OXO CUBES

The following letters have been received from Canadians who have proved the great value of OXO during the War.

OXO Cubes are handy for emergencies. They need no cooking or special preparation. An OXO Cube in a cup of hot water and a few biscuits makes a light meal which sustains for hours, while for enriching and improving stews and other dishes. OXO Cubes are simply wonderful.

In the home OXO Cubes are remarkable economisers, and in many little ways they save dollars a year.

"Complexion Secrets of an Actress"

Railway Board,

In a recently-issued volume bearing the above title, the author says: "Continuous use of grease paints, rouge and the like, had ruined my complexion. My skin was colorless, wrinkled, coarse and punctured with large pores. While abroad I heard of the virtues of mercolized wax; my first experience with this marvelous substance convinced me it was more valuable than all cosmetics combined. Now whenever my complexion begins to go wrong I get an ounce of mercolized wax at the nearest drug store, spread on a thin layer of it before retiring, washing it off next morning. The wax, after a few such treatments, seems literally to absorb the worn-out cuticle, when a brighter, healthier, younger-looking skin appears.

"For the wrinkles and enlarged pores I began using a solution of saxolite, one ounce, dissolved in a half-pint witch hazel. Bathing the face in the every day for a while soon relieved the condition most wonderfully."—Advt.

Everything In Music

YOU know, EVERYBODY knows, that Mason & Risch, Limited, manufacture and sell Pianos and Player-Pianos, and that they are distributors of the Victrola. It may NOT be generally known, however, that our London store recently taken in a large stock of small musical instruments, and it may be necessary to remind you, for a time, least, that we carry the most complete assortment of instruments of this class. For instance:

Violins from\$5.00 to \$50.00 Mouthorgans from35c to \$3.00 Accordions from\$5.00 to \$40.00 Whistles from10c to 50c

> "No merchant finds success in life, Nor ever will, until He sells the goods that won't come back To customers that will."

Remindful of this wise saying, we sell and handle nothing but the BEST in its price class. By the way, CHRISTMAS is not too far ahead to make up your mind what to send to that boy in khaki now at the front! If you want him to get his Christmas present in due time, you must send it early, for transportation is slow and parcels may meet with long delay.

Remember, then, that Christmas in the trenches is not pleasant, that MUSIC, however simple, is the sparking plug of the soldier's mental motor, and that a simple little mouthorgan or ocarina is most likely the finest gloomchaser you could send. If you want to do something for the upkeep and good cheer of that boy in khaki and his comrades send him by all means some little music-maker! You will find what suits him best in our store.

This we'l-known brand of pure wool underclothing is made on special chines, used exclusively by us.

These machines are the only ones of their kind in Canada used for making underwear.

When the agent of the British Government came to Canada, looking for underclothing for the soidlers, these were the only machines in Canada that could make the goods up to the standard of the samples he brought with him.

Now, ordinary underwear is knit-ted on circular machines, in differ-ent wisths, to suit the various sizes of the body. They are then cut into proper-sized lengths for vests, draw-ers or combinations—elseves seem to and seems sews together.

Air As a "Hair Tonic"

There is no better hair tonic, or germicide, than fresh air full of life-giving sunshine. The absence of it, together with wilful neglect, tight-fitting hats, etc., is responsible for a large share of hair ugliness and hair loss.

But fresh air and sunshine alone are not enough to correct all these evils. Nature frequently requires the aid of a preparation like "NEWBRO'S HERPICIDE."

HERPICIDE is an absolute necessity to the majority of folks. It prevents dandruff contagion, keeps the hair light and fluffy-the scalp sweet and clean.

Ugly and unsightly hair is quite unnecessary. Begin with Herpicide today. It is guaranteed by the Herpicide Company, Detroit, Michigan, and sold everywhere. Applications at the better barber shops.

joy of living—happy, giad, bright people, that Nerviline has cured of their pains, all tell the same wonderful story of its power to drive out the aches and tortures of rheumatism and kindred ills.

"My goodness, but Nerviline is a miracle-worker," writes Mrs. Charlotte Chipman, mother of a well-known family residing at Mount Pleasant. "Last month I was so crippled up with sciatica and muscular rheumatism as to be almost unable to do a bit of housework. My joints were so stiff and the muscles so frightfully sore that I even cried at times with the pain. For years we have used Nerviline in our family and I just got busy with this vonderful, good old liniment. Lots of rubbing with Nerviline with the pain. "The results in point of comfort for the men have been so satis-factory that it is very unlikely that there will be a general acceptance of coarse fabrics, as in the past. . . . It has been discovered that in using the coarse types of woollen yarus, made from wool of thick fibre and of small heat-retaining property—the men are carrying weight WITHOUT CORRESPONDING INCREASED

WARMTH

"Indeed, it is found that for warmth and comfort, BETTER RESULTS are obtained from finer fibred materials, while the freedom of movements of the limbs is very much increased.
"The recent increase in the demand for FINER YARNS FOR MILITARY GOODS will certainly be permanent."
The extra warmth of "CEETEE" The extra warmin of Challes Underclothing, which is now a recognized fact, is due to the above facts. Not only is it made from the finest and purest Australian Merino Wool, but it is knitted closer, thus producing lighter weight, with greater warmth and freedom.

family for generations being trained in this special line consequently when many of our employees joined the colors they could not be replaced, as it is impossible to secure new workers from Scotland or the Old Country owing to even a much greater need for them over there, where they are "doing their bit" by making underclothing for the Army and Navy.

We do not complain, in fact would cheerfully lose all our business if it would assist the Allies in bringing this great fight for civilization, liberty and democracy to an earlier close.

We felt it our duty, however, to frankly explain the situation to the Canadian public and ask them to order their "CEETEE" Winter Underclothing from their dealers EARLY if they wish to be sure of getting it—and to be patient with us if they do not secure it promptly

IT INCREASES OR CREATES ESTATES.

The man of means may easily increase his estate by the amount of insurance he is willing to buy. If he is worth \$25,000 it is possible for him to double the size of his estate, as he can in no other way. If a man has o estate it is of the highest importance that the largest possible amount of insurance be secured at once. It is certainly better to practice economy and self-denial, if need be, and leave a policy of at least a few thousand than to spend all and leave nothing.

The absorption of the white metal by Europe is proving a material factor in keeping the price of the metal close to the 70 cent mark, but the prospective buying promises to establish materially higher figures. A country-wide boom in silver securities seems inevitable, It should parallel the interest in copper during the past two years,

And, pursuing the policy that enabled our clients to take full advantage of the sensational movement in coppers, namely, directing attention to these issues before the great investing and trading public fully appreciated their possibilities, we recommend the silver situation closely studied.

WOMEN'S CATHOLIC CLUB OPENS FOR THE SEASON

Bishop Fallon Praises Members for Work They Are Doing.

The formal opening for the season of the Women's Catholic Club attracted a large number to St. Peter's Hall last evening, men as well as women. President Philip Pocock of the Men's Catholic Club presided during the opening program, the chief feature of which was an address by His Lordship Bishop Fallon. Bishop Fallon outlined the objects of the club, commending the members

for the good work done in the past in the way of promoting sociability in the Catholic community of London, He emphasized the fact that the club is an institution which does not belong to St. Peter's Parish alone, but to the whole ands of loaves baked every Catholic citizenship of London. In this connection, he urged the importance of increasing the membership. In conclusion, he announced that the Women's Club, of which Mrs. R. C. Barklie is president, will hold a social evening ce a week throughout the season, on
