## TAXATION TREBLED IN ELEVEN YEARS.

Mr. Fielding, the Dominion Minister of Finance, has scored another triumph. In four months between March and August he has obtained from taxation half a million more than the Conservative Government raised in the last twelve months of its administration. One recalls with interest the fact that Mr. Fielding, at the Ottawa Convention of fourteen years ago "viewed with alarm" the heavy taxation of that day. It would have been hard to convince him then that he would be the means of taking from the people in four months more than Mr. Foster took in twelve. It would, have, perhaps, been equally hard to convince him that he would be borrowing money with difficulty at four and five per cent. interest, whereas at the time of the Ottawa Convention Canadian three per cents were away above par.

## BUT THE RAKE-OFF IS SAFE.

It is reported that the Southern Alberta Irrigation Company is finding some difficulty in obtaining a head of water to irrigate its land. This company, made up of genuine English investors, has paid \$1,500,000 for concessions obtained from the Government by Hitchcock, Mc Gregor and other political favorites in the West. The political favorites turned over their concession for \$500,000 profit. Of this \$500,000 was received as a margin on a concession of 380,000 acres obtained a few weeks before, on which the speculators had not paid a cent, while \$100,000 was made by selling at \$12 an acre a quantity of land purchased from the Government a few months before at \$1. After the \$850,000 was taken by the original operators, another large profit went to a group of middlemen. Finally the enterprise was thrown on the English market where it was all taken as an irrigation proposition. Now it is a question whether it can be worked in that way at all. Should it be a failure Canadian investments in the West would be somewhat discredited in the Mother Country. Should it succeed the settler on the lands will have to pay all the rake-off obtained by the politicians and the middlemen. In any case the favorites have got their \$850,000 either out of the public domain or the innocent English investor.

## FOR OUR READERS

To Prove That Hyomel Will Cure Catarrh, Every Reader of The Planet Can Have Special Guarantee

If there is any doubt in your mind as to the power of Hy-o-mel, the medicated air treatment, to cure all catarrhal troubles, the remarkable offer made by C. H. Gunn & Co. should dispel that doubt. They give their personal guarantee with every dollar outfit of Hy-o-mel they sell, to refund the money unless it gives satisfaction. They take all the risk of cure, and no reader of the Planet can afford to suffer longer with catarrh when an offer like this is made.

With every Hy-o-mel outfit is a neat pocket inhaler, and Hy-o-mel breathed through this inhaler, reaches the most remote air-cells of the nose, throat and lungs, destroying all catarrhal germs, and soothing and healing the irritated mucous membrane.

Hy-o-mel really gives you a health-giving climate in your own home, so that when you breathe its medicated air, your nose, throat and lungs will be filled with air like that on the mountains high above the sea level, where grow balsamic trees and plants, which purify the air with their volatile antiseptic fragrance so healing to the respiratory organs.

You will notice relief and benefit from the first use of Hy-o-mel, and it will not take many days of treatment to convince you that in this remedy you have found a complete and lasting cure for all catarrhal troubles.

The social climber believes that all's well that ends well.

## On Diplomatic Mission.

London, Aug. 14.—King Edward left England yesterday for Maribed, where he will take the cure. The King will meet Emperor William at Wilhelmshafen to-day, and to-morrow will have a lengthy conference with Emperor Francis Joseph at Ischl. Much diplomatic importance attaches to these meetings.

Stomach trouble is but a symptom of, and not in itself a true disease. We think of pyrosis, heartburn, and indigestion as real diseases, yet they are symptoms, only of a certain specific Worm sickness—nothing else.

It was this fact that first corrected Dr. Shoop in the selection of that now very popular stomach remedy—Dr. Shoop's Restorative. Going direct to the stomach nerve, alone brought that source and lever to Dr. Shoop and his Restorative. With their original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, flatulence and sour complexion, try Dr. Shoop's Restorative. It will cure you and give you all that it can and will do. We sell and cheerfully recommend.

## CUP STAYS OVER LINE

American Yacht Wins Final Race  
in a Stiff Breeze.

For a Time the Canadian Boat Chal-  
lenged and Then Fell Behind—The  
Adele's Starboard Spreader Broke  
and She Lowered Sail—Winning  
Yacht to Be Sold at Auction—  
Aftermath of Canada Cup Contest.

Charlotte, Aug. 14.—The last race  
of the Canada Cup series went to the  
Seneca, the defender, yesterday mak-  
ing the third consecutive win for that  
boat, and the trophy therefore re-  
mains with the Rochester Yacht Club  
for another year. If the conditions  
of the two previous events were tame  
and monotonous, the weather yester-  
day made excitement enough for all.  
With a stiff breeze from the south-  
west blowing at the rate of ten miles,  
which increased to a heavy gale at  
the finish, the race was every oppor-  
tunity for testing the sailing ability  
and staying qualities of the boats and  
seamanship of skippers and crews.  
The start was at 11.15. Both boats  
made a very good start, Adele get-  
ting away slightly in the lead and  
with the windward position. The offi-  
cial time at the start was Adele,  
11.15.10; Seneca, 11.15.13. The course  
was a triangle of seven miles each  
side, the first leg being a beat north-  
westerly. From the weather buoy  
there was a reach northeast by east  
a half east to the eastern buoy, and  
the last leg was a run to the starting  
point.

Adele made the start under a sin-  
gle reefed mainsail with small jib and  
staysail. The defender carried whole  
sails.

Within two minutes of crossing the  
line Seneca had a lead of about a  
quarter of a mile, and continued to  
increase it for about half an hour.

The Adele began to forge ahead, and  
rapidly closed the gap until, at 12.02,  
she had gained a slight lead on the  
Seneca. The wind by this time had  
increased to 25 miles an hour and  
a big sea got up, which forced Adele  
of the pleasure craft into the harbor.  
The heavy weather seemed to call out  
all the Adele's sailing qualities. She  
held on to her advantageous weather  
position, and until over three parts of  
the first leg had been covered the  
Seneca gained very little. At 12.40 the  
Seneca had opened up on course, the  
gap, round the first half at 12.46.12,  
the Adele following at 12.52.14.

The Adele had behaved so well on the  
windward work that, with the  
favorable weather conditions, her  
backers began to hope that she might  
pull through first. This hope soon  
vanished, however, when they saw  
the Seneca's performance on the reach  
for the eastern buoy, which she round-  
ed over six minutes before the chal-  
lenger, the official time being: Seneca,  
1.35.19; Adele, 1.45.04.

At 2 p. m. the wind was 30 miles an  
hour and the Seneca was forced to  
take a reef in her mainsail. The de-  
fender was continually increasing her  
lead, and at 2.31.33 she crossed the  
line over a mile ahead of Adele, which  
did not finish the race. Adele has  
been hopelessly outclassed in every  
part of the series, and every ad-  
vantage she has gained must with jus-  
tice be ascribed to the abilities of  
Commodore Jarvis, who sailed the  
boat for all she was worth.

Yesterday the Adele got all the wind  
she wanted and a trifle more, too,  
for she carried a single reef in her  
mainsail, but even at that her rigging  
would not stand the strain, and on  
the final leg home her starboard  
spreader broke, and any possible  
chance she had was spoiled. Skipper  
Jarvis immediately rounded up, low-  
ered the Adele's mainsail and then  
after a moment started back on the  
course with only the head of her  
mainsail and the head canvas carry-  
ing her.

Five minutes later Hanan decided to  
nurse Seneca along and scandalized  
her mainsail, i. e., lowering his peak,  
and topped her boom up on the lifts,  
thus bagging her mainsail and the  
racers cropt on towards the finishing  
mark. Ten minutes later Adele  
hoisted her reefed mainsail and set  
after the leader, but Seneca's advan-  
tage was too great to overcome.

The Seneca is to be sold at auction  
next week, but the chances are that  
she will remain in the Rochester  
Yacht Club. She cost the club be-  
tween \$5,000 and \$6,000, but will be  
sold for less than a fifth of that. Vice-  
Commodore Nicholls of the R.O.Y.C.  
yesterday offered both Temeraire, the  
cup challenger of 1905, and Crusader,  
his candidate this year, for sale.

**TO BE INVESTIGATED.**

Report That Mr. Judd Will Look Into  
Escapes From Whitby Jail.

Whitby, Aug. 14.—The escape of the  
prisoners from the Whitby jail with-  
in six weeks is likely to result in  
an investigation, and in political cir-  
cles here it is whispered that Com-  
missioner Judd of London will short-  
ly have another investigation.

Some South Ontario Conservatives  
want Sheriff Paxton removed, and  
his attitude in seeking to dismiss  
Fred Clegg, the turnkey, has given  
a new impetus to the men who have  
been seeking his dismissal since the  
accession to power by the Conser-  
vative party.

The present sheriff has held office  
since the death of his father, and  
received the appointment by reason  
of his relationship to John Dryden,  
formerly member for South Ontario.

Two Motorists Hurt.

Stratford, Aug. 14.—An automobile  
owned by Dr. Deacon pitched into a  
ditch Monday night, throwing out  
W. M. Osborne and Howard A. Hig-  
gins of New York. They were hurt,  
but not seriously injured.

Editor Struck by Trolley.

New York, Aug. 14.—Fred Nye, an  
editor on The Sunday World, was  
struck by a Lexington avenue trolley  
at Monday night and received prob-  
ably fatal injuries.

### THE TRACK

#### THE FINAL DAY.

A large crowd gathered at the  
Driving Park Tuesday afternoon to  
see the result of the races. All the  
races were fast and interesting and  
much praise is due Mr. James Mas-  
sey on his success in bringing to  
the city such excellent race horses.  
On the whole the meet was a great  
success, everybody enjoying the sport  
and every horse racing on his merit.  
J. H. Glasford proved a satisfac-  
tory starter and each horseman com-  
plimented him on his excellent judg-  
ment. He got the runners away, all  
in good form, which was remarkable  
over a half mile track. His an-  
nouncements were good and his word  
undoubtedly proved an excellent start-  
er over a mile track.

## Do You Open Your Mouth

Like a young bird and gulp down what-  
ever food or medicine may be offered you?  
Or do you want to know something of the  
composition and character of that which  
you take into your stomach whether as  
food or medicine?

Most intelligent and sensible people  
now-a-days insist on knowing what they  
employ whether as food or as medicine.  
Dr. Pierce believes they have a perfect  
right to insist upon such knowledge. So he  
publishes broadcast and on each bottle  
wrapper, what his medicines are made of  
and recites former cures. This he feels  
he can well afford to do because the more  
the ingredients of which his medicines  
are made are studied and understood the  
more will their superior curative virtues  
be appreciated.

For the cure of woman's peculiar weak-  
nesses, irregularities and derangements,  
giving rise to frequent headaches, back-  
ache, dragging-down pain or distress in  
lower abdominal or pelvic region, accom-  
panied, oftentimes, with a debilitating,  
pelvic, catarrhal drain and kindred symp-  
toms of weakness, Dr. Pierce's Favorite  
Prescription is a most efficient remedy.  
It is equally effective in curing painful  
periods, in giving strength to nursing  
mothers and in preparing the system of  
the expectant mother for baby's coming,  
thus rendering childbirth safe and com-  
paratively painless. The "Favorite Pre-  
scription" is a most potent, strengthening  
tonic to the general system and to the  
organs distinctly feminine in particular.  
It is also a soothing and invigorating  
nervine and cures nervous exhaustion,  
nervous prostration, neuralgia, hysteria,  
spasms, chills or St. Vitus's dance, and  
all other nervous symptoms attendant upon  
functional and organic diseases of the  
distinctly feminine organs.

A host of medical authorities of all the  
several schools of practice, recommend  
each of the several ingredients of which  
"Favorite Prescription" is made for the  
cure of the diseases for which it is claimed  
to be a cure. You may read what they  
say for yourself by sending a postal card  
request for a free booklet of extracts  
from the leading authorities, to Dr. R. V.  
Pierce, Invalids' Hotel and Surgical In-  
stitute, Buffalo, N. Y., and it will come to  
you by return post.

It may be possible to have two

## LITERARY

The Garage is the leading  
article in the August number of  
Keith's Magazine. There are nu-  
merous styles shown, many of  
which are very ornamental.

Little Journeys with the Architect,  
which is the continuation of a series  
from the June number, deals with  
exterior, in the current number.

There are plans and elevations of  
modern designs for numerous kinds  
of dwellings, including small cottages,  
semi-detached houses and flats,  
all of which will be found most com-  
plete and conveniently planned.

The department of Decoration and  
Furnishing, which is conducted by  
Eleanor A. Cummings, Decorator,  
Brooklyn, N. Y., gives the newest  
ideas in furnishing interiors, pic-  
tures being one of the principal  
subjects discussed this month.

Published in Minneapolis by The  
Keith Publishing Co., at 15c. a copy,  
or \$1.50 per annum.

Camping Out in the Good Old  
Fashioned Way is one of the appro-  
priate articles which appear in the  
August number of What to Eat.  
It tells of easy methods of cooking  
various dishes when camping, and  
gives a list of articles that will be  
found necessary. A Home-made  
Summer Resort tells what one  
clever woman who was unable to  
leave the city did for the summer  
months.

Freezing in summer months gives  
recipes for frozen dainties that can  
be easily prepared.

There are many suggestions for  
summer entertainments and menus.  
Published by What-to-Eat Pub-  
lishing Co., Chicago, at \$1.00 per  
annum.

### Trans-Siberian Route.

Ottawa, Aug. 14.—According to a  
report from Canadian Trade Agent  
MacLean of Yokohama, the Pacific  
end of the proposed fast service, all-  
red line, will find the Russian trans-  
Siberian route a serious competitor.

Recently a traveler from Kobe, Ja-  
pan, made the trip to Glasgow by the  
Russian route in 18 1/2 days, and this  
time, it is stated, may be cut down  
to 13 days, with improved service  
and prompt connections.

The British ambassador at Tokio is  
also said to have recently made the  
trip from London to Tokio across Rus-  
sia in 21 days, although three days  
were lost between Vladivostok and  
Jenauraj. The time now taken by  
the C. P. R. route is 23 days.

### Valuable Catch.

Victoria, B. C., Aug. 14.—The schooner  
Vera of the Victoria sealing fleet,  
arrived here yesterday with a catch  
of 20 sea otter and 233 sealskins. The  
catch is the most valuable brought  
into the port for several years. Other  
skins are worth from \$800 to \$1,000,  
and in addition the sealskins will  
bring the value to \$26,000. The other  
were secured in the vicinity of the  
Cooper Islands. The schooner Casco  
was reported July 31, with 18 otter.

### Killed in Mine.

Roseland, B. C., Aug. 14.—John  
Covello, aged 38, was instantly killed  
in the White Bear shaft at 4 o'clock  
yesterday afternoon. He was riding  
in a skip and accidentally fell out  
when near the 300-foot level and went  
hurling down the shaft to the 100-foot  
level, striking against the shaft on  
the way down. His head was almost  
severed from the body.

### Boy Drowns.

Oshawa, Aug. 14.—Johnny, the 8-  
year-old son of David Mitchell, was  
drowned yesterday morning. With  
his sister and some other playmates  
he was fishing in the South Pond and  
some way fell in. The body was re-  
covered.

His parents came here from Scot-  
land about two months ago.

Time is money.

### BAD BOY BURGLARS.

Police Get Big Surprise at Hamilton  
When Tracing Desperados.

Hamilton, Aug. 14.—The city has  
had a burglar scare for the past  
month. Regularly a store was broken  
into, and it was thought a  
daring and skillful gang of desperadoes  
were at work. The police yester-  
day traced the stolen stuff to two  
little boys, so small that the officers  
were ashamed to arrest them, and  
they will be summoned to appear be-  
fore the magistrate. The stores brok-  
en into were those of Kartmark  
Bros., R. Martin, Thomas Ramsey  
and Baby and Ecclesstone. Two rifles,  
a dozen revolvers, a bushel of am-  
munition and a quantity of knives  
figures amongst the loot. It has nearly  
all been recovered. The burglaries  
were committed early in the night as  
a rule, and the stuff carried off while  
the streets were crowded. A "Jimmy"  
was used to force the doors and win-  
dows.

### NERVY DOCTOR.

Crawls Under Engine to Amputate  
Limb and Save Life.

New York, Aug. 14.—In plain view  
of two trainloads of persons bound  
for Empire City race track Monday,  
Dr. Cass of the Flower Hospital  
crawled under a locomotive attached  
to one of the trains and amputated  
the leg of Thomas Riley, whose limb  
was crushed under the driving wheels.  
Riley, who is a track walker, was  
run down opposite 46th street. It was  
impossible to extricate Riley in time  
to save his life except by amputation,  
so Dr. Cass, with a bag of instru-  
ments, crawled under the engine and  
performed the operation.

His nerve prompted the spectators  
to cheer as Riley was taken away in  
an ambulance. At the hospital it was  
said Riley stood a good chance of  
recovery.

### BOUGHT ALL DAY.

Toronto Man Crossed Lake In Open Skiff—Narrow Escape.

St. Catharines, Aug. 15.—Henry James, of Toronto, had a terrible experience on Lake Ontario on Tuesday. He was out in a small skiff at Lorne Park early in the morning and the heavy wind caught the boat and drove it far out into the lake. James was unable to make any headway towards shore and gradually drifted out into the lake. After making strenuous efforts to reach land he finally became exhausted. The boat drifted wildly on the lake, and during the entire day he was at the mercy of the waves on Lake Ontario. Just before dark Tuesday night a man named Thomas, who lives on the lake shore at a point about half way between Port Dalhousie and the Niagara River, noticed the skiff far out in the lake. There was a heavy sea on, and the occupant was so exhausted he was unable to do anything to help himself. The boat would undoubtedly have been swamped and its occupant drowned had not Mr. Thomas and his brother discovered him, and wading far out into the lake, secured the boat and brought it to land, where James was given restoratives and every aid, and finally brought around, when he was able to tell his story. He could hardly realize he had drifted across the lake. The point where he was rescued is almost directly across the lake from Toronto, and had he not been discovered when he was, darkness would soon have set in and no one would have been able to see him.

### MAY INDICT THE M. C. R.

Coroner's Strong Remarks on Essex Explosion.

Essex, Aug. 15.—J. H. Rodd, county crown attorney, is quoted as follows:

"I may possibly indict the M. C. R. for criminal negligence in this case. It is barbarous the manner in which, from the evidence heard, railways carry tons of highly explosive substances around in ordinary box-cars."

"I am having this car that exploded traced. I understand it was used as a way freight all the way from St. Thomas; that all kinds of freight was put into it and taken out."

"The law is clear, but evidently it is a dead letter. It says no highly explosive substance may be carried save in specially constructed cars. That means refrigerator cars in hot weather. The fact that the M. C. R. used a box-car makes them liable for damages."

"I will communicate with the Attorney-General and lay the facts before him, with a view to indicting prominent M. C. R. officials."

"I think this should be made a test case, in warning to all carriers or handlers of high explosives."

"The M. C. R. will seek to prove by the way bill they did not know they were handling dynamite."

"That is nonsense. The very way bill they produce is the 'dynamite form' used for nothing but high explosives."

Miss Vandervort is an accomplished soloist and has sung in some of the principal churches in New York City, and has been prevailed upon to sing in one of the city churches before leaving.

The firemen were called out by still alarm at 1.30 on Tuesday to the rear of Anderson's grocery, King street. The breakwater on the banks of the creek caught fire from some burning rubbish nearby, and before it could be extinguished about fifteen feet of the wooden structure was burned right down to the water's edge.

Miss Cookeley, milliner for the past ten years in this city, is leaving for Lethbridge, Alberta, to-day, where she intends opening a millinery store. Miss Cookeley made many friends in this city, who will regret to hear of her early departure, but she has been advised by her physician to move to one of the western towns, where it is to be hoped she will fully recover her health.

## Woman's World

REV. LOIE F. PRIOR.

One of the Few Women Ministers Who Preach to Large Congregations. The Rev. Loie F. Prior of Logansport, Ind., is a regularly ordained minister and one of the few women of the world occupying pulpits. Until recently she was pastor of the First Spiritualist church of Seattle, Wash., with one of the largest congregations in the city. She not only preaches sermons, but performs marriage ceremonies.

REV. LOIE F. PRIOR.

conducts funeral services and ministers to the wants of her congregation, like an orthodox preacher.

She is now the guest of her daughter in Logansport after having visited New Zealand, Australia, India, Egypt, Italy, England, Wales, Scotland and France. Most of her time was spent in Australia and New Zealand, where she ministered for over a year.

Her success there was so great that she will return to the antipodes.

While in Rome Rev. Prior had an audience with the pope.

She likes her work and cannot see why women would not make just as good preachers as men. She claims that a woman can move a congregation better than a man.

**Garden Lore.**

For a small bed nothing can be more striking or more satisfactory and lasting than the bulbous begonia. This grand floral gem is little known, is supposed to be difficult to grow and hard to handle. Theory and general belief in this item, as in many others, are not borne out by practice. Four to six little bulbs looking not very unlike a flattened out potato can be purchased for \$1, and, as they last indefinitely, they are far cheaper in the long run than annual purchases or planting.

The top of a bulbous begonia bulb is cup shaped and when planted should remain protruding above the ground. It seems to matter little whether the spot is sunny, half sunny or shady. They do not appear to care much about the situation, and an ever blooming bulb is yours until frost comes. Then pull them up, break off the great stems, shake out the dirt from their minute roots and toss them away on the dark closet shelf to wait for another year.

A most satisfactory shrub that will seed off any house gallantly when planted in a small place is the common snowball—the American viburnum. It is not sufficiently honored. In the present craze of strange foreign shrubs it has been allowed to sink into the background, yet whenever people see a real old fashioned country garden the snowballs in it are sure to draw expressions of delight. There is something perennially virginal about this "pure flower tree." It is a cheap shrub. Don't be extravagant about buying a large one. It grows so fast that a few seasons suffice to give you a big shrub from a small two foot plant. It is provided you take care to see that it is sturdy and vigorous at the time of planting.

The hole you make for a shrub often makes all the difference between poor growth and good. Here is a simple rule for planting your snowball and all other shrubs. "Make the hole at least twice as big all around as is necessary merely to accommodate the roots. Throw some litter—very little, however—into the bottom and jump on it to pack it tight. Now throw the top soil into the hole first and pack it around the roots of the shrub with hands and feet, bit by bit. Put the bottom soil on top, mix it with leaves, straw, manure or even ashes to make it light and porous and swamp it with water immediately after planting.

**The Care of Plumbing.**

The care of plumbing is comparatively simple, but of the greatest importance. In building, buying or renting a house the plumbing should have very careful consideration.

It is of the utmost importance that the drains from the sink or water closet should be properly trapped, which means that at some part of the pipe which you cannot see there should stand a little pool of water, which little pool must always be kept so full that it takes up all the room in the pipe and leaves no space for the bad smells.

Sometimes people grumble about bad smells, but we should be grateful for them, because they tell us so unmistakably that dirt is in some place that it should not be. They call aloud in

their own disagreeable way to us to ask us to make all things clean.

Smells mean that there is harmful dirt, and the smells that arise from dirt are often poisonous and make impure not only the air we breathe, but the water we drink.

Coppers will remove odors from the drains. Mix one pound of the crystals with one quart of water. This mixture should be kept in a bottle, tightly corked and labeled "Poison." Pour a little of this into the pipes whenever there is any smell. Let no indissoluble thing enter the pipes.

Grease chills on the sides of the pipes, and many substances stick to this greasy layer. The disagreeable smell that sometimes comes from the kitchen sink is caused by the gases, given off by this putrefying matter. Every time a closet, tub, sink or basin is used it should be thoroughly flushed.

Once a week flush all the plumbing with a boiling solution of washing soda. Use one pint of soda to every three gallons of water, allowing about two quarts to each basin, closet, sink and tub.

**For Breakfast.**

Muffins either plain or made with a mixture of cereals are among the most popular hot breads. With a good foundation recipe it is possible to give to the family a slightly different hot bread every day of one week at least.

Break three eggs in a bowl and beat until very light. Add a half teaspoonful of salt, a teaspoonful of sugar. Mix together a cupful of flour and two scant teaspoonfuls of baking powder. Add to the liquid a half cupful of plain flour, then the mixed flour and powder and two tablespoonfuls of melted butter. Beat hard then add as much more flour as may be needed to make a rather thick drop batter. Beat again, then fill buttered muffin pans two-thirds full and bake half an hour in a quick oven. This will make from fifteen to eighteen muffins, according to size and thickness.

Suppose you have made these plain muffins on Monday morning. On Tuesday in place of the first half cupful of flour substitute a scant cupful of cold boiled rice, then proceed exactly as before. On Wednesday add to the beaten eggs and milk two-thirds of a cupful of dates, stoned and cut fine, then follow the recipe as at first.

On Thursday make the plain muffin batter. Instead of pans, have the griddle hot and well greased. Grease a dozen or more rings, lay them on the griddle and almost fill them with batter. Draw to one side that they may cook through slowly. When brown turn over and brown the other side, slipping off the rings when nearly done.

**The Gas Stove.**

Do you find your gas stove a real economizer? If not, there may be some of the reasons:

Lighting burners before you are ready for them.

Baking but one thing at a time.

Heating water or cooking in uncovered vessels.

Placing small vessels upon large burners.

Using large burners when small ones would do.

Not turning out the flame before removing food.

Not lowering the flames when food is already boiling.

**A Silken Corset Bag.**

To make a corset bag, use any sort of silk preferred and just long enough to hold a corset. The bag is lined with soft white silk and interlined with cotton wool through which is sprinkled a sweet powder. Before sewing the bag together stitch on (to this outer piece of silk only) a narrow pocket of the same material to be used as a receptacle for the dainty garters. Then the bag is sewed up, finished in the usual way at the top.

**Pineapple Frappe.**

Peel a pineapple and cut it into dice, mincing these as small as possible. Cover with three heaping cups of granulated sugar and stand in a warm place for two hours. Strain through a vegetable press to extract all the juice. To this add the juice of two lemons, and one pint of water. Turn into a freezer, add the unbeaten whites of two eggs and grind to a stiff froth. Serve in chilled glasses.

**Lines Forming on Face.**

To prevent those much to be dreaded lines forming on the face, it is a good plan, after bathing with warm water and drying, to rub it all over with the ball of the thumb. This stimulates the circulation and strengthens the muscles. If there are deep lines running from the corners of the mouth to the corners of the nose lay the thumb along them and then work it from side to side.

**Orange and Rhubarb Marmalade.**

String and cut in half inch pieces five pounds pink skinned rhubarb. Divide twelve oranges in sections, removing seeds and the tough part of the skin. Put into a preserving kettle, heat slowly to the boiling point and simmer half an hour. Add four pounds of sugar, cook gently for two hours, then turn into glasses.

This people require plenty of sleep and should be careful not to overwork, and, above all, should avoid worry. Eat cereals, the sweet and starchy vegetables and fruits; drink milk and cream and abstain from tea and coffee.

If you wish to save the coal bill, sprinkle salt liberally over the coal in bin or hod. It prevents clinkers, burning to clear ashes. Salt will also freshen a half dead fire.

Blotting paper pressed to the wall with a hot flatiron will remove grease spots from wall paper.

## HELD BY BANDIT CHIEF

CAID SIR H. MACLEAN CHIEF ADVISER TO MOROCCO'S SULTAN.

Shrewd and Able Scot Victim of Treachery—Raisuli's Career—Mild-Mannered Brigand Knows Neither Fear Nor Mercy—Man Who Never Smiles—Kidnapper by Profession—Always Carries Poison.

The bandit chief Raisuli made quite a capture when he seized the chief adviser of Morocco's young and whimsical Sultan, a shrewd and able Scot who is entitled to be called Sir Henry de Vere MacLean, but who is known in Morocco as the Caid MacLean. He has been generally supposed to be the most powerful personage in Morocco next to the Sultan himself. As a young man he belonged to a British regiment stationed at Gibraltar. He became musketry instructor to the army of the ruler of Morocco and gradually worked his way into the esteem of the dusky monarch. When this Sultan died he succeeded in establishing himself in the confidence of his successor, the present Sultan, his shereefian majesty Abdul Aziz, and became the latter's most trusted counselor.

It has been said that the Caid MacLean has been to Morocco what Lord Kitchener, as sardar, was to the Egyptian army, a great organizer and disciplinarian. He is a fierce fighter like his forefathers, the highlanders of Scotland, and he has had plenty of opportunity to keep his hand in on account of the activity of the rebellious tribesmen of the Sultan's domain.

**Raisuli Makes a Vow.**

Raisuli, the Moorish brigand, or Mulai Ahmad bin Mohammed bin Abd Allah er-Raisuli, to give him his

CAID SIR HARRY MACLEAN.

full dignity, is a shereef, or direct descendant of the prophet, 38 years old. Fairly well educated, he fell into bad company, took to cattle-lifting and highway robbery, and was sent to prison for three years. In the meantime his property was sequestered, and he vowed not to cut his hair till he had secured the disgrace of the officials who had deprived him of his lands. So he took to kidnapping as a profession, and has excelled in it.

By sheer force of character and merciless severity towards his enemies, he rose to be chieftain of the confederate Kabyles. His further advancement dates from the time, three years ago, when he kidnapped Mr. Perdicaris, a wealthy American, at Tangier, and exacted a ransom of £11,000. With this he built himself a fortress on the hills above Tangier, and held almost regal state, all sorts and conditions of people thronging his court, for by this time he had been made master of the Province of Tangier.

**Levied Blackmail.**

Raisuli was a strong governor. No caravan was plundered in his jurisdiction, and Mr. Perdicaris himself advised that he should be made Pasha of Tangier, but he angered the foreign residents by kidnapping Mr. Harris, The Times' correspondent, by destroying European properties outside Tangier, by levying blackmail on the Electric Light Co., by beating people to death within a few yards of the French and German Legations, until at last a French and Spanish squadron appeared last autumn off the port with a demand for his suppression.

The Sultan wavered, assured Raisuli in a private letter of his "entire confidence and support," but sent an army to suppress him, and he was eventually attacked and driven back into the mountains, a fugitive with a few followers, while his fine fortress was ransacked. Raisuli, however, managed to gather another band of followers, and has lately been raising and plundering caravans near Lixnas, making the latter place his headquarters.

Raisuli is said to carry a small phial of poison always upon his person, as a last resort in extremity, when he might be unable to blow his brains out. His sister married a Moor of high station; a year later the Moor took another wife. Raisuli rode up his door and said, "Where is this woman you have taken to insult my sister and her family?" He suddenly caught sight of the second wife sitting under a tree in the courtyard, and instantly raised one of the two Winchester rifles he always carries with him and shot her dead.

Mr. Walter Harris, The Times' correspondent, who was Raisuli's prisoner at Zinat in June, 1903, also tells a story of Raisuli's ferocity. He says: "Only a few months before my capture he had sold one of his prisoners to a purchaser out of the victim's throat."

He knows neither fear nor compunction.

**DEIFIED ENGLISHMEN.**

British Officers Enshrined as Japanese Gods.

In the great national shrine of Yasukuni, in Tokio, the annual ceremony of formally worshipping the spirit guardians of the Japanese empire has just taken place.

There are enshrined in this national pantheon the spirits of all who have rendered notable services to their country, the latest additions being of those who laid down their lives in the late war with Russia.

Among these future gods of the Japanese race are to be found the names of three Englishmen, the commander and two officers of the ill-fated transport ship Hitachi Maru, which, with more than 1,100 soldiers, was sunk in the Japan Sea by a Russian cruiser during the early part of the war. The official tablets deifying the spirits of these three Englishmen have now been formally set up among the illustrious names on the roll of fame.

The Mikado, the Crown Prince, and all the greatest personages of the country were present, and it was curious to see his Imperial Majesty in an attitude of worship before an invisible array of divinities, including the spirits of an alien race.

It is satisfactory and significant that the first race to be so honored should be our own, and the distinction should strengthen the bonds between us and our Far Eastern allies.

Even the Japanese themselves appeared to realize that the event stood for a new interracial feeling. "That a Japanese should die for his country," says one of the leading editors of the native press, "is in the nature of things, but that foreigners should have sacrificed themselves for Japan's sake is deserving of the profoundest recognition."

## GENIUS IS DISCOVERED

STREET CAR DRIVER WHO POSSESSES PHENOMENAL VOICE.

May Prove Rival to the Great Tenor Caruso—Was Unearthed At Small Local Concert By Titled English Lady—Potts to Receive Thorough Musical Education—Parallel Case In France.

In one of the best schools of singing and music in London there is studying a young man with a phenomenal tenor voice who a few weeks ago was driving a trolley car in the little English town of Wakefield. He is poor and his instruction has been made possible by the efforts of a small band of music lovers who have gathered around him in answer to the appeal of Lady Catherine Milnes Gaskell, a talented musical authority, whose home, Thornes house, is in Wakefield. Should the expectations of his new found friends and the predictions of the voice specialists who have heard him be realized, Horace Potts, for that is the name of the new "find," will some day electrify vast audiences by the magic power of his wonderful voice.

If so, Potts' case may prove a parallel one to that of the French blacksmith, Charles Rousseliere, who two years ago was engaged by Herr Cornier of the Metropolitan opera house at a salary of \$1,600 a night. It was while Rousseliere was working at his father's trade of horseshoeing that his marvelous gift of song was discovered. He went to Paris, sang at the National conservatory, and was immediately admitted. Three years later he entered grand opera in Paris and made a phenomenal success. He refused repeatedly to leave his native country, but finally accepted the offer of the managing director of the Metropolitan.

Neither Potts himself, who is 22 years old, nor the friends of his youth realized the possibilities of his voice previous to his "discovery." To be sure, they thought he had a pleasing voice, and he frequently appeared at small local concerts and entertainments.

**His Dormant Talent.**

He was "unearthed" by a daughter of Lady Gaskell, who heard him sing

HORACE POTTS.

at a small entertainment, and, recognizing his dormant talent and great promise, carried the news to her titled mother. A few days later Potts received a dainty note from Lady Gaskell asking him to call. After hearing him sing she immediately offered to provide funds for a musical education for him if he wanted to take the step. He asked time to think it over and a fortnight later accepted the offer.

Lady Gaskell brought her protege to London and he sang before Mr. Brigel, a well known voice specialist, who became so interested that he offered to give him a three years' training free of charge. Miss Rowe, another well known London expert, declared that a great future lay before the young man. Miss Edith Sichel, the authoress, is also among those who have interested themselves in providing for Potts during the time he must spend in training.

Efforts are being made to raise \$1,500 for this latter purpose. The young man will be given a full course in voice production, the theory of music, and in several modern languages, should the plans of his well wishers be carried out.

**Pure Voices Scarce.**

Potts' gift is all the more noteworthy because of the scarcity of really pure powerful voices in England. That should have lain dormant and unexpressed for so long a time is regrettable, but those who have heard him and who are qualified to express an opinion say that it is as yet unspoiled.

Potts' voice has a wide range and experts say that he will be able to take his high G with training, and perhaps reach D. His voice is rich, mellow, and full, and Lady Gaskell declares it to be the most delightful she has ever heard.

Should Potts "make good," he will, of course, adopt a professional name by which he will be known to fame. "Potts" is good enough for a tramcar conductor, or even for a member of Parliament, but such a humble monosyllabic patronymic would never do for a great tenor.

**Transvaal Indians Revolt.**

British Indians have begun their "revolt," which takes at present the form of passive resistance, against the Transvaal law that all Asiatics must register themselves and have their fingerprints taken. Registration should have begun at Pretoria last week. So far not a single application has been made.

The Government declares that it will stand firm, but evidently there is some uneasiness as to how to deal with the problem. Unless the Indians in the Pretoria district apply before the end of the month, prosecutions

## Come and Hear The Unrivalled Nordheimer Tone

A cordial invitation is extended to you to come in and hear the unrivalled tone of the celebrated "NORDHEIMER" Piano.

Run your fingers over the scale or play a selection and listen to the beauty of the "NORDHEIMER" tone.

Piano salesmen may talk about the various mechanical contrivances of a piano until they are "Blue in the face," but all the talk in the world will not alter the tone-quality of a piano.

It is not necessary to take a "NORDHEIMER" piano to pieces and go into ecstasies over its wonderful mechanical features to prove that it possesses an unrivalled tone. It is there in reality. Your own ear tells you it is there—a tone so sweet and sympathetic, so clear and pure, and so rich and powerful—a tone that is of such rare beauty and quality that it lifts "NORDHEIMER" pianos above the commonplace and places them on a pinnacle of perfection in the musical world.

In after years you will congratulate yourself on the wisdom of your choice if the piano you buy happens to be a peerless "NORDHEIMER".

The One Price System assures a safe, satisfactory and square deal to you. Same price to all, and easy terms if you so desire.

Our Mr. R. V. Carter will visit Chatham frequently in our interests and will be pleased to furnish you with any information you may desire. Correspondence addressed to him in care of the Garner House will receive careful attention.

## COXEY IN CANADA.

Leader of the Famous Traveling Army Promises New Sensations.

Sault Ste. Marie, Ont., Aug. 13.—J. S. Coxe, leader of the famous army by that name, which in 1894 traveled on foot from Massillon to Washington, in an endeavor to force the views of the eccentric leader upon the United States Government, is a guest at the International Hotel, in the Canadian Soo. Coxe still retains the ideas that prompted his pilgrimage in 1894. He says that his visit to Northern Michigan and the Canadian side would probably have to do with something equally as interesting in the near future.

Coxey still believes that the administration of the United States Government will utterly fail, owing to a mistaken idea as to the manipulation of public utilities, such as street, telegraph and telephone services, which, he claims, should be conducted under a system of municipal ownership, of which he is the father.

## Serious Race War.

Newport, Va., Aug. 14.—By order of Governor Saxon, a company of 52 soldiers, picked from the Norfolk militia, left Norfolk Monday evening on the steamer Maryland for Onancock, Va., to quell the race war between the whites and blacks at that place. The steamer made the trip to Cape Charles in about two hours and the soldiers were taken to Onancock on the New York, Philadelphia and Norfolk Railway.

## First Destroy's Business Section.

Norfolk, Va., Aug. 14.—A large portion, if not the entire, business section of Princess Anne, Maryland, was burned out yesterday morning. It was first reported that the town had been set on fire by the result of recent troubles, but this was found to be untrue.

## Man Found Dead.

St. Thomas, Aug. 14.—Charles J. Nicholas was found dead at Port Stanley yesterday of heart failure. He was 39 years of age.

To put the brake on the wagon going down the hill is a help to the horse, when the wagon is heavily loaded. But what driver would think of applying the brake to a loaded wagon going up hill? If he did, his sensible horses would probably balk. Many a man is in the condition of pulling a load up hill with the brake set against him. When his stomach is out of order, and the allied organs of digestion and nutrition impaired in their functions, a friction is set up which has to be overcome in addition to the performance of daily duties. A foggy stomach makes a foggy brain, and the man with a disordered stomach has often to grope his way through the day's business like a man in a fog. He forgets appointments and problems seem presented to his mind "wrong end to." This condition is entirely remedied by the use of Dr. Pierce's Golden Medical Discovery. It puts the stomach and digestive nutritive system into a condition of perfect health, and gives a clear brain, a steady hand and a light step for the day's duties. Dr. Pierce's medicines do not contain alcohol or other injurious ingredients; they are not patent medicines because their ingredients are printed on the label of each bottle.

It is well to know when to accept even an unpleasant condition cheerfully.

## SMASHED BY JEROME.

Dread Secret Order Broken Up by New York Police.

New York, Aug. 14.—The secret society of the Hunchakist has been smashed by the efforts of the New York police force.

With the arrest of Kasak Jellalian on Sunday night, the end of the society became certain. This man confessed to District Attorney Jerome, the police say, that it was he who had directed the murders of Father Kaspar, whose body was cut to pieces, and the wealthy rug merchant, Tavshanlian, killed on Union square.

He furthermore stated, it is said, that he had stood by while Bedros Hampatsonian waited for the coming of the victim and pointed out the man.

It is stated that Father Hartouguean is not directly connected with the society, though he is still believed to have known a great deal of its inner workings.

When on a visit to the Armenian quarter, in Boston, Police Lieut. Petrosino of New York encountered an Armenian named Hanciojan, who furnished information which resulted in the arrest in this city of Bedros Alipejan.

The police searched the building where he lived, and in the cellar, under a coal heap, they found a number of poisoned daggers, several bombs, a quantity of poisoned bullets, revolvers, and a number of large bottles of hydrocyanic acid.

## RELIGIOUS FACTIONS.

Protestants Said to Cheer the Belfast Troops—Bisell's Statement.

LONDON, Aug. 14.—In the House of Commons yesterday, the Irish Secretary, Mr. Birrell, faced a shower of questions concerning the Belfast strike. The Irish members of Parliament wanted the troops withdrawn from Belfast, and others urged the necessity of a full enquiry into the affairs. Mr. Birrell said:

"The Government is fully alive to the urgency of this matter, and is doing all it can to secure a settlement of the most unfortunate strike."

It appears that in the trouble at Belfast, there has developed a cleavage on religious lines. The Protestants have cheered the troops, while the attacking parties apparently have been composed of Catholics.

Belfast, Aug. 14.—During the rioting Monday night, a woman and two men were killed. A recurrence of the disturbance is expected. Captured rioters are taken before the magistrates at the point of the bayonet. Some of the streets were strung with wire to entangle the cavalry, and the gas mains were cut Monday night.

## A CRUEL BLOW.

Consequence of Conference Decision May Prove Disastrous.

LONDON, Aug. 14.—(C. A. P.)—A correspondent who, The Standard says, is authorized to speak of the dominion feeling in Canada, writes to that paper respecting the all-red route. He states: "The Imperial Conference was a cruel blow of Canadian aspirations, Canada getting tired of awaiting reciprocity and being frankly annoyed by the insinuations of the enemies of the Empire in England. If the scheme is abandoned, what is Canada to think of British imperialism? The consequences to the Empire will be disastrous."

The Standard, in a long editorial, warmly demanding the establishment of the all-red route, concludes that the scheme is no sentimental vision, but a business proposition.

The Financial News, "on good authority," states that the suggested subsidy for the 25-knot service to Canada is \$2,250,000 per annum for ten years, borne equally by the respective Governments.

## Woman Burned.

Lindsay, Aug. 14.—Fire at Penelon Falls at 12:30 yesterday morning destroyed two frame houses, one owned by Mr. Thomas Lane and the other by Mr. William Pyne.

Mrs. John McGinnis, a woman of over 80, mother of Mrs. Lane, was burned to death in the fire.

The fire started apparently in Mr. Lane's kitchen, and the blaze had assumed such proportions when discovered that it was impossible to rescue Mrs. McGinnis.

Both houses were totally destroyed, with the contents.

## Exclude the Japanese.

Vancouver, B. C., Aug. 14.—The Anti-Asiatic League, formed here Monday night, sent a warm resolution to Ottawa, urging immediate action to prevent the landing of Japanese now en route.

One speaker said, let British Columbia drop out of Confederation if Ottawa refuses.

Hon. Frank Oliver comes here to-day to consider the matter.

## Sent to Kingston; Two Years.

Sturford, Aug. 14.—William Easley was yesterday sentenced to two years in Kingston penitentiary for stealing \$57 from a fellow bandster named Henry Holden. The roll of bills was found hidden beneath Easley's hat band after the search had been almost given up. He has a wife and two children in Montreal, and is a painter by trade.

## Dangers of St. Lawrence.

LONDON, Aug. 14.—(C. A. P.)—A correspondent of The Daily Graphic states, respecting Lloyd's and the reduction of insurance on vessels engaged in the St. Lawrence trade, that the underwriters consider it too much to expect them to reduce the rate until the number of casualties is reduced.

### PERRIN RIDING PLOWS SINGLE AND DOUBLE

The most popular riding plow on the Canadian market,  
specially adapted for Kent County soil. We stock  
three sizes as follows:—

No. 3 single is a general purpose plow especially useful in stubble  
or light soil, furrows nine to twelve inches in width and any depth  
up to twelve inches. Price including straight and rolling coulters \$35.

No. 18 double is the best general purpose double riding plow on  
the market, while especially adapted for stubble, it will do good work  
in sod, specially in lighter soils. It is easily worked with three horses,  
cutting two furrows of ten or eleven inches in width and of any desired  
depth up to nine inches. Price including straight and rolling coulters  
\$48.00.

No. 20 double riding plow for use generally in stubble and  
specially adapted to stoney and gravel soil, furrows same as No. 18.  
Price including straight and rolling coulters \$48.00.

We have only a few of these plows in stock and  
intending purchasers will do well to secure one. Terms  
of payment October 1st.

## THE STAGE

### ANNOUNCEMENTS.

Supplied to The Planet by Press  
Agents.

At the Brisco Opera House—  
"Peck's Bad Boy," Aug. 15.

### FAMOUS FARCE.

Before George W. Peck was elected  
Governor of Wisconsin, his high-  
est ambition seemed to be to make  
other folks happy, which he largely  
succeeded in doing, and never more  
successfully than when Fame's trumpet  
blew its cheeriest note in an-  
nouncing the advent in print of his  
"Bad Boy," upon which the farce  
comedy of "Peck's Bad Boy," which  
comes to the Brisco Opera House to-  
night, is founded by exclusive per-  
mission of his author-father. There  
have been, are, and ever will be,  
thousands of just such bad boys as  
the Governor depicts, but their pen  
portraits were never drawn until he  
epitomized them in his humorous  
creation, the quintessence of which  
has been transferred to the play re-  
ferred to, and has amused the public  
to the limit of hysterical hilarity  
for the past twenty years, during  
which time it has seen many puerile  
imitators pass into the limbo of for-  
gotten fakes. This season the scope  
of the play has been broadened so  
as to admit of the introduction of  
more of the Bad Boy's most telling  
and ludicrous practical jokes and es-  
capades, as well as of special feature  
novelties bearing the stamp of  
genuine metropolitan attractions.

## ERIEAU

Grace Gammage, who are summering  
at the Eau, spent yesterday in Blen-  
heim.

### DEATH OF W. E. LEEK

The death occurred Monday of W.  
E. Leek, at his residence, No. 481  
Talbot Street, after a week's illness,  
from spinal meningitis. Mr. Leek was  
formerly a conductor on the M. C.  
R., and afterwards with the P. M.,  
and was highly respected. He was  
born at Belle River 45 years ago,  
but had resided in St. Thomas for  
thirty years. He is survived by a  
widow, his parents, Mr. and Mrs.  
Daniel Leek, of Chatham; one brother,  
Aaron Leek, M. C. R. conductor,  
city; and four sisters, Mrs. Thomas  
Nicol, city; Mrs. Theodore Mat-  
thews, Chatham; Mrs. E. A. Rose,  
Detroit, and Mrs. Luke Thompson,  
of Montgomery, Alabama. He was  
a member of the C.M.B.A., and of  
the B. O. B. T. The funeral takes  
place Wednesday morning to the  
Holy Angels Church.—St. Thomas  
Times.

Assistance given in a cheerful  
spirit carries a kindly remembrance  
into the future.

The optimist looks forward to to-  
morrow, the pessimist sighs for yes-  
terday.
