Explanatory note

The bibliography is based on the holdings of the Main and Legal libraries of External Affairs and International Trade Canada. All items cited were in the collection when the bibliography went to publication except where otherwise noted. The categories and subject groupings were chosen (a) for their correspondence with the types of enquiries received by the Library and the concepts encountered in the literature, and (b) to provide a sufficient number of categories to make browsing the bibliography easier.

Where a researcher's interests do not match the categories exactly, the cross-references at the head of each section may be of use. Cited works which give extensive treatment to more than one topic have been listed in two or more categories as warranted. A missing or incomplete call number indicates in most cases that the document was either on order or waiting to be catalogued at the time the bibliography went to print.

Special thanks are due the cataloguing staff of External Affairs Library who called attention to many new acquisitions for inclusion in the bibliography, and to Gloria Antonetti of the Canadian Embassy Library in Mexico City who provided information about sources published in Mexico.

Avant-propos

La présente bibliographie est extraite des catalogues généraux de la bibliothèque principale et de la bibliothèque juridique d'Affaires extérieures et Commerce extérieur Canada. Tous les ouvrages cités appartenaient à ces collections au moment de la publication, sauf indication contraire. On a défini les catégories et regroupé les sujets en fonction des principaux types de demandes de renseignements reçus par la bibliothèque et des concepts qui reviennent fréquemment dans les ouvrages, en veillant à établir un nombre de subdivisions suffisantes pour la commodité de la consultation.

Les chercheurs qui ne trouvent pas précisément la catégorie qui les intéressent pourront se reporter aux renvois qui figurent au début de chaque section. De nombreuses sources traitent abondamment de plus d'un sujet, de sorte qu'on les retrouvera dans deux, trois, ou même quatre catégories. L'absence de cote ou une cote partielle indique généralement que la bibliothèque n'avait pas reçu le document commandé, ou n'en avait pas encore effectué le catalogue, au moment de la mise sous presse.

Nous souhaitons remercier de façon toute particulière les catalogueurs de la bibliothèque d'Affaires extérieures et Commerce extérieur Canada, lesquels nous ont signalé un grand nombre de nouvelles acquisitions à intégrer à la bibliographie, ainsi que Mme Gloria Antonetti, de la bibliothèque de l'Ambassade du Canada à Mexico, qui nous a fourni des renseignements au sujet d'ouvrages publiés au Mexique.
