31ST YEAR

"SPRUNG ON THE PARTY WITHOUT CONSULTATION AND ON THE COUNTRY WITHOUT ENQUIRY"

—W. M. GERMAN, M. P.

Mayor Geary and the Power Situation.

Mayor Geary is first of all a politician, a disqualification for public service, which he has not yet learned properly to estimate. Otherwise he would never have "poked a hole in The World's plaint," as the literary expert of The Evening Star elegantly puts it, that the city electrical department is not up to its work. The fact is, that The World wrote a very mild article on the situation, wholly in the public interest, and the only response has been the mayor's assumption that we did not know what we were talking about. The mayor, who announced the inauguration of this city's electrical service for Dec. 27 last, should not rely so implicitly on his electrical department. Mayor Geary is quoted by The Telegram as follows:

"The commission will not have its power line tested for two or three weeks, and by that time we will not be far behind with the pumps, and not a day behind in taking power for street lighting."

Does the mayor not know the facts? The hydro-electric commission was ready to deliver power on Feb. 23, when The World announced the testing of the lines and station. Even Mayor Geary cannot afford not to read The World.

The mayor did not touch the point raised by The World yesterday that the city would be liable for the power, of which it is not able to take delivery. WHEN WILL THE CITY BE ABLE TO TAKE DELIVERY OF AND DISTRIBUTE THE POWER FOR WHICH IT IS RESPONSIBLE?

The citizens will not ask whether The World is right or not when they have to pay for power they cannot use, as may be the case from all we can hear.

A large part of the consumption of electric power depends upon the electric pumps, which should be ready now, which the mayor thinks may be ready in two months, and which other authorities say may take six.

It is a very stupid suggestion of the mayor's that The World was trying to create friction between the city electrical department and the hydro-electric commission. Business men do not have the little squabbles and frictions that politicians do, and The World can answer for Hon. Adam Beck, Hon. J. S. Hendrie and Mr. W. K. McNaught as business men. If the mayor will answer for his department.

The trouble is that there have been no relations at all. There is no friction, for the very good reason that there has been no chance for any. The mayor quite ignored this point. Perhaps he did not see his way to "poke a hole in it."

The commission, for example, was not consulted about the schedule of rates that was placed before the public. As The World is not supposed to know, will the mayor state if the commission will authorize those rates?

A very grave charge is being made on the streets, which, perhaps, the mayor will get information upon. The underground cable system is stated to have been laid, not in sections, but as one continuous system. The result of such a method is that when a break occurs, instead of cutting out the section in which the break exists, the whole system is thrown out of business. Such a break now exists SOMEWHERE in the city cable system, but the whole system must be overhauled to find it.

Mr. Kenneth L. Aitken, the chief electrical engineer, has sent a note to Mayor Geary, stating that he would welcome an enquiry by a committee of electrical experts and business men. As we are assured by the mayor that there is no friction between the city's departments and the hydro-electric commission; we do not see why the commission should not be invited to exercise its authority and make the examination and report, which we believe, in spite of Mayor Geary's assurances, is necessary.

WILFRID (a political tenderfoot): But I shall not permit you to really hang him, you know.

VETO BILL GETS SECOND READING

Premier Applied Closure—Vote Was 368 to 243—Majority of 121 Against Chamberlain's Amendment.

LONDON, March 2.—Four days of the most of the unrelenting debate ever given to a measure involving a great constitutional reform came to an end to-night when Premier Asquith applied the closure and the second reading of the veto bill was passed by a majority of 121, the vote being 368 to 243. Prior to this the house divided on Asquith's Chamberlain's amendment with a majority of 121 against it.

The figures on the veto bill were greeted with prolonged cheers, after which the bill, on the premier's motion, was sent to the committee of the whole house. This stage is likely to be deferred for some time, to enable the government to dispose of financial business. The opposition leaders are drafting an elaborate series of amendments. The appearance of Mr. Balfour in today's debate gave a temporary lull to the discussion, but his presence, and also not in the best of form, the former premier kept the interest alive, not always, however, to the complete advantage of his party. For instance, while referring to the value of the hereditary principle, he exclaimed: "Let it be our servant: let it no longer be our master." This admission was received with a burst of laughter.

Pending the committee stage of the bill, interest will now centre in the expected production next week of Lord Lansdowne's bill for the reform of the house of lords. Mr. Chamberlain's amendment which was defeated was moved on Monday last on behalf of the opposition. It was to the effect that the house would welcome the introduction of a bill which, while reforming the composition of the house of lords, maintained its importance as a second chamber, but which placed in the hands of a select chamber and offered no safeguard against grave changes made without the consent of the people.

A NATIONAL WORK.

QUEBEC, March 2.—(Special.)—The following resolution has been passed by the Canadian Mining Institute, Quebec: "The Canadian Mining Institute, in annual meeting assembled, desires to express its appreciation of the work of the commission of conservation."

"With the increased drain which is being made year by year on the natural resources of Canada, the institute appreciates the necessity of conserving, and, so far as possible, perpetuating the country's natural resources by the adoption of reasonable means to prevent waste and to encourage development along national lines."

No Truth in the Report Says Sifton

Does Not Intend to Resign His Seat to Enter Politics in Britain—Not Worrying Over Adverse Criticism

OTTAWA, March 2.—Hon. Clifford Sifton, interviewed to-night, said there was no truth in the report that he would resign his seat in the federal house and enter politics in Great Britain. He said: "I do not intend to resign my seat. There is no truth in the report at all." Asked if he thought it true the west was a solid unit for reciprocity, he said: "I don't think any one man can speak with assurance as to what the voice of the west is on that or any other question."

He is not worrying over adverse criticisms of his present attitude and speech.

WOULD FORCE AN EXTRA SESSION

Obstructionist Tactics in U. S. Senate—If Session Called, Would Probably Last From July 1 to Oct. 1.

WASHINGTON, March 2.—Democratic leaders in the house differ in their views as to the length of an extraordinary session, if the president should call one, but the estimates are that the session will continue sometime between July 1 and Oct. 1. Speaker-elect Champ Clark believes that four or five months would be ample, and that adjournment might be reported during July. Chairman Underwood of the ways and means committee of the next house, feels that an extra session could wind up its business by Sept. 1. Representative Henry of Texas, who will be one of the leaders in the next house, thinks the session might run on until Oct. 15.

Democratic leaders say the reciprocity measure is not passed by the senate at the regular session, will pass the house if the president should call an extra session. The tariff board bill is dead, according to the leading members of the senate. Shortly before 5 o'clock this afternoon the senate agreed to a motion temporarily to lay aside the bill and take up for consideration the general pension bill.

The pension appropriation bill, carried over from last session.

OUR BIG FEATURE

The Sunday World's big feature this week is a full-page article dealing with the public activities of J. L. Englehart, chairman of the T. & N. O. Railway. Mr. Englehart made a fortune in oil, and at his age was entitled to retire and enjoy the fruits of his early years of toil. He, however, chooses to give his time and brains to the people of his province in the development of the Ontario Government railway. In this he has made a success, and our article, which will be printed in colors, will be one of the best of The Sunday World series on Ontario's public men.

ANOTHER LIBERAL MEMBER DENOUNCES RECIPROCITY

Will Sifton Oppose Graham?

BROCKVILLE, March 2.—(Special.)—Hon. Clifford Sifton's sensational bolt from the Liberal party on the reciprocity pact with the United States appeals with particular interest to the riding of Brockville, in view of well-defined rumors bearing on the political future of the young Napoleon of the west. Brockville in a way regards Mr. Sifton as a resident, from the fact that he spends many months of the year at his palatial summer home on the St. Lawrence River above the town and mingles freely with the populace.

In the light of developments of the past few days, it would not be surprising if he were to desert his western representation in the house of commons and make Brockville the scene of a battle with the Hon. G. P. Graham, minister of railways and canals at the next Dominion election. Before Mr. Sifton delivered his famous speech on Tuesday, well-defined rumors, to this effect had been in circulation for a considerable time, and his stand on reciprocity has served to substantiate the story.

The ex-minister is said to be anxious to look horns with Mr. Graham on personal grounds, and it is thought that he would give the minister of railways and canals a run for his money. In the election of 1908 John Webster, the Conservative candidate, running the first time for parliamentary honors, cut down Graham's majority to almost the 150 mark. With no Conservative in the field, leaving a straight fight between Sifton and Graham, it is pretty generally conceded that the former minister of the interior would swamp his opponent, particularly so with the strong existing sentiment against reciprocity in Brockville and through the riding. Political developments in this constituency will be worth watching.

A Chance to Get Out of the Hole with Honor

For three months now the whole of Canada has been in a state of more or less excitement and more or less business dislocation by reason of the reciprocal tariff negotiations between Canada and the United States.

The World ventured to say at the time the details of the treaty were announced that there was no prospect whatever of the present congress ratifying the agreement. Barring some unforeseen stimulant applied to the senate of the United States, there is no likelihood that anything will be done to-day or to-morrow—and therefore our prophecy will be realized.

If there is one unreliable undertaking in the diplomatic and political world, it is the undertaking of the president of the United States to have some act of his ratified by congress. Especially so is this true in regard to Canada. The word of the president is not like the word of an honest man, as good as his bond. In fact, it has got to be known that the word of the president of the United States in matters of this kind, and especially in regard to Canada, is not worth the paper it is written on.

We are now to be asked to go thru several weeks or months of the same kind of excitement, of business dislocation, in the hope that a special session will be called, and that the president's undertaking will be carried out. The World has not the slightest faith in this suggestion, and we will now venture another prediction, namely, that if the president calls a special session, the Democrats, who will be in control of the lower house and who, with their alliance with the insurgent Republicans will have control of the senate, will be desirous of putting thru a general tariff reduction bill rather than a reciprocity deal with Canada.

It is this kind of a tariff revision that influential papers like The New York World will support after March 4. They will not care a fig for reciprocity then, so much as they will care for a wholesale reduction in the tariff, so as to make the cost of living cheaper. The president of the United States will therefore have an opportunity of working with them to secure the entrance of food products and other raw material into the United States free of duty. That is what the congress of the United States is for, if the people desire it. Canada is no factor, ought to be no factor, in that task.

And not for one moment should the congress of the United States or the president of the United States have a word to say in making the Canadian tariff. We will make that ourselves.

But if there has been business dislocation that we speak of in the past three months, and if that is to be continued during the special session, how much dislocation will there be for the years hereafter if we are in tariff treaty relations with them? Whenever the question of tariff readjustment comes up in Canada or the United States we will simply be at the mercy of uncertainty, and no business firm will care to take chances. In fact, the security which now prevails will disappear and widespread distrust and uncertainty will obtain. And this condition of affairs will keep us in constant hot water and restrain all enterprise in this country.

It seems to us, therefore, that Sir Wilfrid Laurier would be eminently justified in the public interest in saying after to-morrow, that, inasmuch as the president has failed to secure the ratification of the treaty signed by Messrs. Knox and Fielding, Canada washes her hands of the whole transaction.

We will get out of a tight corner to-day, and an insufferable amount of trouble hereafter, if he does so. Let Canada stand on her own bottom. Let her give the new congress a free hand to do its duty to its people.

CANADIAN NORTHERN PACIFIC PLANS.

It was stated yesterday by an official of the Canadian Northern, that contracts will be let during the next twelve months for construction on all the Canadian Northern Pacific lines and that the entire C. N. R. system in British Columbia will be ready for operation within three years. There seems to be little ground for the rumor that the C. N. R. will change the location of their terminals from Port Mann to Fort Stevenson.

Sir Wilfrid Should Have Paid the United States Back in their Own Coin, Says Wm. German, M. P.—Prosperity of Country Founded on Moderate Protection.

WOULD JEOPARDIZE THE HOME MARKET

"When any man says I am leaving my party, I say I am standing by the principles of that party, and it is the leaders who are deserting these principles."

OTTAWA, March 2.—(Special.)—William Manley German, member of parliament for Welland, was the second Liberal this week to score the government for entering into the reciprocity pact with the United States. The situation was scarcely as tense today as on Tuesday, when Mr. Sifton made his famous deliverance, but Mr. German's remarks were clear-cut, thoughtful and sincere. Like Mr. Sifton, he has been a Liberal in the public eye for over twenty years, and stated that only a matter of such overwhelming importance could induce him to break with his political associates, but unlike the member for Brandon, he has not cut entirely adrift.

Mr. German prefaced his arguments against the tariff resolution by indulging in considerable adulation of the Liberals. They had made an "honest attempt to keep the reciprocity pledge of 1891," he said, and gave them credit for "an administration that had brought prosperity to Canada." He declared, however, that "there was a general feeling throughout the country against reciprocity with the United States," and that Sir Wilfrid Laurier's "cavalier weakening of that fiscal nightmarer had made the 'treasure of Liberals throb with pride.'"

Should Pay U. S. in Its Own Coin. Mr. German endorsed the Conservative arguments against the trade pact, and thought Sir Wilfrid should have paid the United States back in its own coin: "Has he taught them the lesson which they taught us? was a pertinent question which brought Conservative applause."

Mr. German declared in favor of adequate protection, instancing the present tariff as his conception of the term. F. B. Carvell (Carlton, N.B.), gave expression to the enthusiastic reception which the trade proposition has met with in the Maritime provinces. He criticized the "leader of the eighteen" in Toronto, who condemned reciprocity, and yet financed the cotton crop which Canadian millions. He did not think Mr. Sifton spoke for the west.

W. S. Middlebro (N. Grey) could not see any analogy between free trade in England and Canada. He thought the prices of natural products would be equalized and the farmers get no advantage.

Pays a Tribute to Sifton. "I feel somewhat diffident," said Mr. German, "by reason of the fact that what it proposes to do in connection with this resolution is at variance with the views of those people with whom I have always been associated politically, and in the second place, sir, I feel it impossible for me to make an approach much less to reach, the high standard of oratory and argument which was set by my friend from Brandon (Mr. Sifton), who spoke on this question on Tuesday."

Mr. German said he owed to his constituents, to his party and to himself to give the reasons that influenced him to adopt the course he proposed to pursue. It had generally been conceded that he was a strong party man. But this was a question of substance.

What Does This Mean?

WASHINGTON, March 2.—United States Consul-General John G. Foster at Ottawa, Canada, is already here on a summons from President Taft, and a member of the Canadian Dominion Cabinet is hurrying to Washington, according to a report here, to confer with President Taft concerning possible amendments to the reciprocity pact. The summons to Washington was rumored at the capital at night after midnight, and helped to strengthen the conviction among some members of the house who have been all along holding out hope that the congress might not be called into extra session. According to the report in circulation, the Canadian cabinet member will be here to-day.

OTTAWA, March 2.—No cabinet minister has left Ottawa to-day for Washington, unless he has done so very mysteriously. Hon. W. S. Fielding is still here, and it is said he has any knowledge of Hon. M. Patterson's departure, or that of any other minister up till the closing of the house at midnight. Hon. Mackenzie King is expected to leave for Washington, but it is understood to be in connection with the match trust agreement and anti-phosphy fat patent processes.

The Smart Spring Styles for Boys and Young Men Are In

DO YOU REALIZE that Spring is just "around the corner," so to speak? The early bird and the worm is an old story, but the early buyer here is going to get the cream of the choicest and finest stock of Boys' and Young Men's Clothing ever shown by any firm between the two oceans, and that's saying much that would sound ridiculous if we did not have the garments to back it up.

Priced from \$5.00 to \$20.00 our short-pant range of suits must be seen to be appreciated, and the same can be said of our young men's range from \$10.00 to \$30.00. Furthermore, our guarantee covers every part of your transaction here, and protects your money and your interests—just the same as a Bank. During the past year we have added a new manufacturing department specially for making Boys' and Young Men's Garments correctly. The results are truly gratifying, and we know that our new lines have many pleasant surprises in store for you.

EQUIPPING PLAYGROUNDS FOR HAMILTON CHILDREN

City Asked For \$2000 For the Purpose—Tax on Cigaret Sellers —G.T.R. Men Not Satisfied.

HAMILTON, March 2.—The board of control and the representatives of the parks board and Playgrounds Association, held a conference to-day regarding playgrounds. The association asked the city for \$2000 for the purpose of equipping Wellington, John and Cannon-st., school grounds as playgrounds. The board of control and park board agreed to give \$1500 between them to the project.

The question of putting a tax of \$15 on the sellers of cigarettes came up again at the meeting of the property committee. It was decided to again recommend to the city council, a delegation of small tobacco dealers protested and urged that the young men of that city would be sent into the hotels and poolrooms for the cigarette, as they (the tobaccoists) would be unable to sell them at a profit.

Tony Rosart, aged 17, was taken into custody on a charge of stealing a horse and rig from Wesley Smith of Ryckman's Corners.

A sub-committee was appointed by the internal management committee of the board of education to go into the matter of establishing a dental and a medical department for the schools. The committee decided to recommend the board to spend \$100 for the purpose of works of art for the collegiate.

The building committee of the board of education received some startling information concerning the plans of the Canadian Northern Railway. It was to the effect that the new railway would run directly thru the Ottawa-st. school. Inspector Ballard imparted the information, and the committee decided to get busy immediately. Stewart & Wilson were accordingly instructed to prepare plans for a new school, which it was decided a short time ago to erect in the east end, and the construction of it will be gone on with as soon as possible. It will be between 18 and 20 rooms, and will be located in the district bounded by Sherman-ave., Lotteridge, Barton and Kings-streets.

The Grand Trunk strikers who are having their cases investigated here are not at all pleased with the way the hearing is being conducted. They state that Superintendent Gillen, Assistant Superintendent Bowker and Trainmaster Truesler are always in the room when the evidence is being taken, which prevents the men from speaking out. Several of the speakers described the enquiry of Judge Barron as a farce.

An outline of what the bench commission intends to do this year is published. The commissioners intend to build a big retaining wall on the bay front, south of the piers. A fine park will also be laid out, while an auxiliary set of pumps and motors for a water supply will also be installed.

At its meeting this morning the board of control again decided to award the sewer pipe contract, on which there has been so much discussion, to Sackville Hill. The trouble between the city engineer and the board over Superintendent McAndrew's increase in salary was settled by the city engineer announcing that there had been a misunderstanding. It was agreed to recommend the following grants: \$750 to the 13th and 51st Bands for concerts; \$200 to the Victoria Order of Nurses; \$50 to the Hamilton Field Battery; \$50 to the Salvation Army Band; and \$50 to the Canadian Free Library for the Blind. A. Wallace, chairman of the works committee, protested to the board about the expenses of officials sanctioned by it, and upon which he was not consulted. He said there was too much red tape about the board, and intimated that in the future he would not sign vouchers unless consulted beforehand. The mayor said that in all cases where it was possible the permission of the city council should be obtained to deputations going away.

DASTARDLY CRIME IN TOWNSHIP OF CLARKE

Married Woman Victim—Two Men Held in Bowmanville Jail For the Offence.

BOWMANVILLE, Mar. 2.—Four men went to Thos. Bradley's house in the Township of Clarke on Sunday night last about 9 o'clock, called Bradley out and said they were lost and wanted feed for two horses. Bradley had to go about forty yards to get hay for them, two men went with him and two remained in the barn. When he reached the other barn, he heard his wife screaming murder. He ran back, accompanied by the two men who went with him, but when he reached the house, the other two men had disappeared. The had made improper advances to his wife, but she managed to get away from them, and they took flight on hearing Bradley returning. The two who had accompanied him took their departure too, but about 11 o'clock two of them returned, gained admission to Bradley's house, knocked him down, and one man held him while the other raped his wife. Then the other man held Bradley, while the man who held Bradley fired, raped his wife.

Bradley came to town on Tuesday and reported the circumstances. Chief Jarvis went down and from the description given, arrested two men, named McManus, about 27 years of age, and Luther Brown, about 20. He brought them to Bowmanville jail, where they are now confined. They will appear before Magistrate Horsey to-morrow morning.

ADDRESS BY B.Y.P.U. PRESIDENT.
Rev. Dr. Williamson of St. Louis, Mo., president of the International Baptist Young People's Union, addressed the Toronto B. Y. P. U. at Westminster church last night. The address was an impressive one upon "The Task and the Power."

Rev. Dr. Webb, international secretary and Rev. Dr. Bingham, president of the Ontario B. Y. P. U., also made brief addresses.

Lord Roberts' Competition.
Inspector Hughes received yesterday a letter from Dr. Hanson, secretary of the Lord Roberts' Association in London, England, announcing a list of 25 prizes for competition among rifle associations in all parts of the empire. The first prize is a shield valued at \$750, with \$250 added and a silver medal for each member of the winning team. Inspector Hughes hopes that the Toronto Teachers' Rifle Association may win the prize.

CONSPIRACY CHARGES GO TO HIGHER COURT?

If Request of Defence is Granted Cases Will Not Come Up Until May.

The hearing of the charge of conspiracy to fraudulently secure the certificate of the treasury board of Canada which enabled the Farmers' Bank to commence business, upon which J. R. Stratton, M.P., James J. Warren, president and general manager of the Trusts and Guarantee Company, Dr. Beattie Nesbitt, C. H. Smith, and Dr. John Ferguson, Alexander Fraser, Alex. Lown and John Watson, provisional directors of the bank, have been committed for trial in a week, will not likely be heard until May. It is understood that the defence has asked the attorney-general's department to consent to the cases being heard before the assizes which open May 1 with Sir William Meredith on the bench instead of at the assizes at which Judge Winchester will preside.

It is also likely that should there be any further commitments upon any of the charges now before the police magistrate in the various bank cases there, too, will be sent on to the assizes.

Toronto City Mission.
The monthly business meeting of The Toronto City Mission board was held yesterday afternoon in the Y. M. C. A., Yonge-st. The president, Rev. Dr. John Nell, presided.

The treasurer's report showed an overdraft of over \$200, so that funds are urgently needed. Reports of the missionaries showed that useful work is being carried on by them in the most needy districts. They have found a great deal of sickness and much distress on this account, and every case being promptly assisted with provisions, coal or clothing as required. During February, 61 families were assisted, \$63.55 having been expended from the relief fund, and 800 garments sent out by the Dorcas room. All the other branches of the work are advancing and the field is widening as the city's population increases.

STRONG MOVEMENT FOR FEDERAL CHURCH UNION

Permanent Organization of Presbyterian Clergymen and Elders is Formed.

That the movement aiming at federal rather than organic union of the churches is one to be seriously reckoned with was made clear by the character of the meeting held in the Church House of New St. Andrew's, King-street, yesterday afternoon, when a permanent organization, to be known as the Presbyterian Association for the Federal Union of the Churches, was formed. The attendance was large and representative, including many elders, not only of Toronto, but outside districts. Dr. McLeod of Barris again presided, and Rev. A. H. McGillivray acted as secretary.

The statement prepared at the meeting a week ago as the basis of the movement, was adopted.

Movements Not Opposed.
A long discussion took place as to the relation of the present movement to that of organic union, which is now before the Presbyterian, Methodist and Congregational churches. It was held that the movement is in no sense antagonistic to the movement that makes for organic union. The idea behind it was explained to be the impossibility of organic union at present among the negotiating churches, and the possibility of greater good being done by a federation of all Protestant churches. "It was felt by all that federation rather than fusion was the immediate duty of the hour and that taking this step would leave the way open for any movement, even corporate union, in the day when the churches are prepared for that step," was the statement afterwards made.

An overture is to be presented at many of the presbyteries in time to the matter brought before the general assembly, which meets in Ottawa in June next.

Strong List of Officers.
The significance of the movement may be recognized by the names of the men who have accepted office in the permanent organization. The names are as follows:

Hon. President, Principal McKay, Vancouver.
Vice-presidents, Messrs. T. C. James, Charlottetown, P.E.I.; James Rodgers, Montreal, Que.; Dr. Murray McLennan, St. John, N.B.; John Penman, Paris, Ont.; J. B. Mitchell, Winnipeg, Man.; S. McLean, Moose Jaw, Sask.; W. G. Brown, Red Deer, Alta.; Judge Swanson, Kamloops, B.C.; Treasurer, E. H. McDonald, Toronto, Ont.
Joint secretaries, R. G. McBeth, Paris, Ont.; A. H. McGillivray, Weston, Ont.

Mass Meeting Planned.
Arrangements are under way for a popular meeting, to be held in the not distant future, when the possibilities of federation among the Christian churches will be presented by outstanding ministers and laymen of the churches in Toronto.

"The number of men who came from a distance, at the expense of time and means, was the best possible evidence of the interest which the churches in distant parts of the Dominion take in the matter of union," it was stated.

SIMPSON TORONTO

FIRE DID \$5300 DAMAGE

Aged Man Leaped From Window and Sprained Ankle.

One man was slightly injured by jumping from a first store window and \$5,300 damage was done by a fire which started on the stairway of 93 West Richmond-street at 8.20 yesterday afternoon. The greatest damage was on the first and second storeys of the building—Shaffer Bros., who occupy the ground floor, lost \$300 by water damage to their machinery and stock, which was saved from further damage by the quick work of the salvage corps. B. Hurtwitz, clothing maker, placed his loss at \$2,500 while Morris Goldberg, clothing manufacturer, on the floor above loses \$1,500. The latter two are insured. The damage to the building which is owned by George Clendenning was \$1,000.

The fire started on the stairway and there was considerable panic as this exit seemed to be blocked. So frightened was Samuel Taperman, employed in the Hurtwitz shop, an old man of 60 years jumped from the rear window to the ground, a distance of 20 feet. His right ankle was sprained and he was removed in the police ambulance to St. Michael's Hospital. The fire is believed to have been started by a cigar but thrown on the stairway.

WANT TO STAY IN CANADA.

KINGSTON, March 2.—(Special.)—United States Consul Johnston has been taking evidence of Canadian-born engineers who claim American citizenship, but reside in Canada. Some of them are trying to get the United States government to re-issue licenses to them, allowing them to continue their residence here. It is scarcely likely the request will be granted. Some of the captains made an appeal to Hon. Mr. Harty to take up the matter with the Dominion authorities.

MR. YOR HOPES CITY CAN USE POWER NEXT MONTH

Electrical Engineer Aitken Suggests Investigation of His Department.

"They are testing things out, and as soon as they have been thoroughly tested we will be prepared to supply power," said Mr. Aitken, chief electrical engineer of the city, at a meeting of the board of control, held last night.

Electrical matters came in for considerable discussion at yesterday's meeting of the board of control. Kenneth L. Aitken, chief electrical engineer, took exception to criticism of the conduct of his department and wrote the board expressing a willingness for an investigation by experts at any time.

"There is no need for an investigation," remarked the mayor. "Mr. Aitken is quite capable and is doing good work. The greatest of harmony exists between the hydro-electric commission and the city electrical department. Mr. Sotman and Mr. Aitken understand each other thoroughly and are working in perfect harmony."

The mayor also said that the commission had been exercising their right to inspect the work in progress in the city under the city electrical department. Both the commission and the city electrical department had been subjected to attacks, which had delayed the work, but it had been progressing very well. He assured the board that the city will be ready to take power when it is tested and ready for delivery.

"I did not feel that there was any delay on the part of the power department," said Mr. Aitken, "but I felt that the electrical pumps for the waterworks should have been ready. They have been working at them for two years and if they were ready we would be in a position to use 4000 horsepower right away."

"They are not behind the time they said it would take to complete the pumps," replied the mayor. "The commission will not have its power line tested for two or three weeks, and by that time we will not be far behind even with the pumps. We will be ready to take power when it is tested and ready for delivery."

Previous to the discussion Controller Hocken made the following motion: "That the city engineer be instructed to report if the electrical pumps for the waterworks are ready; if not, what is the cause of the delay; and also when he will have the pumps in operation."

BELL CO.'S LITTLE PLAN TO STIFLE COMPETITION

Long Distance Connections Only Allowed When Local Business Isn't Affected.

Telephone matters took up the entire day of the Dominion Railway Commission yesterday. There were applications from the Port Hope, Ingersoll, Hagersville, Blenheim and South Kent, Peoples of Forest, South Lambton, Markham and Pickering, Niagara District, Brussels, Morris and Grey and the Consolidated telephone companies to have the commission force the Bell Telephone Company to give long distance connections to them without signing up a contract to enter into competition with the Bell company in local business.

There was also an application of the Nelson Telephone Company for a revision of the terms of their contract and a reduction of the rates charged by the Bell company for making long distance connections. The existing clause shortly before six o'clock concluding the work of the commission here for the present. Judgment was reserved on the various points.

C. J. Size, general manager of the Bell company, was on the stand during the afternoon. He said that while they accepted long distance messages from companies with which they had contracts, they refused to accept messages from independent companies. "But I am not contracting company's lines but have no contract with the Bell company. That was one reason why they refused to take our business," he said, "which they had dealings."

Mr. Gamble, who represented the petitioners, contended that the Bell company's contract indicated a desire to control the operation of the independent companies outside their territory. This would prevent them extending their lines and was in direct contravention to the Ontario act.

Chairman Mabee agreed that it would be.

Wiping Out Competition. After leaving the stand, Mr. Size said that the Bell company would make contracts with any company providing it was not a competitor. The principle they acted on was that competition must be eliminated either by buying out or by some other means.

Mr. Gamble, in his argument, contended that the Bell company had violated the terms of the Ontario act and that it was the duty and clearly within the power of the commission to require the Bell company to provide long distance connections with other companies and at reasonable terms for such services.

Speaking on behalf of the Bell company, M. K. Cowan, K.C., pointed out that if the company did not take the precautions mentioned in the contract they would soon find themselves operating a long distance line only. At any rate the cream of the business would be handled by the independents while all the lean business would be left to them. The independent lines had a canvasser for business in every share holder, while the Bell company was obliged to maintain a large staff of canvassers and were in consequence under that much additional expense.

CHLOROFORMED WOMAN THEN ROBBED HOUSE

Carl Epstein and Charles Sadler Arrested on Serious Charge.

Carl Epstein, 25 years of age and residing at 112 Parliament street, was arrested last night by the police while the police are investigating their records. Mrs. Lena Miller, 19 years, is in a serious condition at her home at 1 Plymouth avenue as the result of a brutal assault committed upon her by the two men here early yesterday morning.

The men have admitted their guilt and made a confession. The crime was discovered when the woman rushed into the street about 2 o'clock this morning screaming. She told neighbors who were awakened that two men, one of whom had been staying at her home, had set upon her and forced her to unconsciously use a dose of chloroform.

An alarm was sent to the Court-street station and to the St. Andrew's Market station and Detectives Cronin and Mitchell were dispatched to the scene. Both were arrested and arraigned in police court.

Epstein pleaded guilty to administering chloroform with intent to commit an indictable offence to which Snyder pleaded not guilty. Both pleaded guilty to robbery with violence.

In his confession, Epstein declared that he had been taken to the house by the husband who is now in Syracuse, N.Y. He had stayed there and become friendly with Mrs. Miller. He told her that he had a friend a commercial traveller, who sold silk skirts and from whom she could get skirts at her own price and that he would bring the man up.

He arranged with Sadler to bring along a skirt which Sadler stole from a house where he had been rooming at 112 Parliament street, at 10:30 Wednesday night. Sadler went into the King Edward drug store and bought an ounce of chloroform, saying it was to kill a dog. Epstein waited outside. They then went to the Miller house and the woman answered the door. Epstein said he had brought his friend with the skirt and asked her to try it on. This was after 1 o'clock. She did and when she came out Epstein grasped her by the throat and declared a handkerchief saturated with the chloroform over her mouth and nose. He says that Sadler took the \$31 from her stocking and that they then took also her perian lamb coat and a revolver.

Sadler kept the coat and revolver and \$5, while Epstein took \$46. Sadler, who is a commercial traveller, says that he denies taking the money. Epstein was arrested in the west end and Sadler was arrested at the home of the woman who was robbed.

The penalties for both offences with which they are charged are life imprisonment and whipping. Magistrate Denison is not sure that he has power to try the case and the men may have to be sent on to a higher court.

MACASSA TO START MARCH 20.

The Hamilton Steamboat Company's older boat, S.S. Macassa, will be the first to venture out from Toronto harbor on the coming spring. The insurance on the boat goes into effect on March 20, and on account of the mild winter the company expect the boat will be sufficiently cleared to allow this well-known "weather" ship to make her way to Hamilton on that date. With the exception of 1908 when she broke loose on March 10, this is the earliest date the Macassa has gone into commission since her launching 20 years ago.

The Hamilton Company's other boat, S.S. Modjeska, will commence sailings from Montreal with the opening of navigation late in April.

Mayor of Belleville's Thanks. Colonel W. N. Ponton, mayor of Belleville, has written Mayor Geary of Toronto, thanking him for the manner in which the city's delegates to the board of trade convention were entertained.

LT.-COL. ROBERTSON RETIRES

Popular Commanding Officer of 48th Highlanders Steps Out in April.

Lieut.-Col. D. M. Robertson, M.V.O., who has been in command of the 48th Highlanders since April, 1906, announces that he will retire next month, in accordance with the regulations fixing the tenure of command. That the regiment has flourished under his leadership and that Col. Robertson is highly popular, is evident from the fact that he has been asked by the general officer commanding and the officers of the regiment to continue to, during the term, an offer not often made. Col. Robertson has, however, determined to retire, although it is with keen regret that he severs the pleasant relations.

A movement is under way to honor him by placing his name at the head of the list of officers as honorary lieutenant-colonel, a position made vacant by the death of Lieut.-Col. J. I. Davidson.

Col. Robertson was prominent in the organizing of the corps in 1891, and entered it as a captain. He became junior major in 1898, and in 1905 was promoted to second in command.

In 1908 Colonel Robertson took a detachment of officers and men to Aldershot for training with the 1st Gordon Highlanders, with which corps the 48th is allied.

AT MASSEY HALL

Services for Dr. Torrington of the "Redemptorist" with the Festival Chorus, orchestra and a quartet of soloists are now the music stores and Varerooms. The performance given on Tuesday night, now the only local of note announced. Lists will close March 10.

WANTS GUINEA PIGS FOR CITY LABORATORY

Will Be Used Experimentally in Fighting White Plague—Equipment to Cost \$9000.

The plans for the civic laboratory, presented by Property Commissioner Harris, puzzled the board of control at yesterday's meeting to such an extent that Dr. Hastings, medical health officer, was sent for to make some explanations. The particular portion of the plan that was not understood was labeled animal-room. This caused Controller Ward to remark that it looked as tho the medical health officer was recommending the establishment of a combination laboratory, experimental farm and zoological gardens.

Controllers Hocken and Spence were afraid that the city was starting a work which really belonged to a university.

Hastings explained that the animals to be housed in the laboratory would be guinea pigs, to be used in experiments with milk inspection for the purpose of detecting tubercules. The work to be done would be purely in the interests of the city's health and there was no intention of undertaking original research except in the case of a disease which was absolutely necessary.

The plans were approved by the board and \$9000 will be provided to fit up the laboratory.

The laboratory staff will consist of Dr. Nasmith, Dr. Fleming, an assistant chemist, cleaner and a boy. The city engineer reported that the works department had the taking over of the construction work of the filtration plant under consideration.

Robert W. King was before the board to urge the prosecution of the gas company. He expressed his willingness to become the complainant and supply his own solicitor if the city would supply counsel. He was requested to be patient until the investigation now under way is completed.

Controller Spence suggested that the city should be given half of the revenue derived by the government by the imposition of the 5 per cent. levy on all bar business over \$40 per day. It was decided to obtain copies of the bill and then decide what action should be taken on it.

CHURCH NOTES.

On Tuesday next members of Toronto Baptist Laymen's Missionary Movement will hold their annual meeting in College-street Baptist Church. The election of officers for the ensuing year will take place at this meeting. Professor McMaster will give a report of the missionary activities for 1910, and the adoption will be moved by C. J. Bodley and seconded by J. N. Shenstone. The chief speaker for the evening will be H. F. Laflamme, the executive secretary of the Laymen's Missionary Movement in Rochester, N.Y.

The Young People's Missionary Movement are arranging to hold three summer conferences during the coming season. For five years past a gathering has been held in "Whitby" and last year a meeting was opened at Knowlton, Que. This year a third convention will be held, the sessions taking place in the Woodstock, College buildings, Woodstock, Ont.

The Lorco Alumnae Association announce that the recital by Professor Michael Hamburg is to be given at Lorco Abbey on Saturday afternoon has been postponed till April.

CORNWALL FIRE BRIGADE HAVE RESIGNED IN A BODY

Had Sent Ultimatum to Council Which Failed to Meet Their Wishes.

CORNWALL, March 2.—(Special)—Cornwall's volunteer fire brigade resigned yesterday. For some time past, several years in fact, there has been friction between the brigade and the town council over the question of remuneration, and last year the brigade sent in a statement of what they required, a grant of \$700 to the brigade, \$200 to the chief, new uniforms for the brigade of 20 men and suitable sleeping quarters at the firehall.

A month or so ago they gave notice that unless some agreement was reached by March 1 the brigade would resign, and they have carried out their threat.

On the other side of the question it must be said that the council has under consideration the reorganization of the brigade on a partially paid basis, as demanded by the Fire Underwriters' Association. Their intention is to have part of the brigade composed of paid men, who will be available at all times, and the rest composed of volunteers. Sleeping accommodation will be provided for several men at the firehall. The volunteer brigade has been in existence for forty years and has always done good work when called upon.

A. F. Banks Estate. Arthur Francis Banks, late of Rowanwood-avenue, left an estate of \$91,766.48, principally in mortgages and real estate. After allowing several small bequests to relatives and charities, he leaves the income on the residue to his widow, who also gets the benefit of a \$15,000 insurance policy. At her death, the estate is to be divided among his family, and a few other relatives.

Note and Comment

The ice for the friendly games last night was all right, especially at Frost Park, where the captain has the surface always at its best.

The retirement of Tom Robertson, the former secretary of the Toronto & District Football Association the past two years, was a necessity, owing to a pressure of business, but must be a distinct loss to the game locally.

Tommy Connett, who has been a horse soldier in the States these last several years, and who holds the world's amateur record for the mile of a minute in 8-3/4 seconds, has re-entitled, and is back again with the Toronto Cavalry.

Frankie Burns, the California lightweight, surprised everybody when he knocked out Lew Powell in nineteen rounds at Frisco Monday night.

Jack Lester, another of the Innumerable boys, is preparing for a trip to Australia. He has been matched to meet Bill Lang in a boxing match on April 15, and will sail from San Francisco next week.

Altho baseball reformers have been carrying on a crusade against sharp spikes for several years, the leagues refused to consider proposed changes at the recent meetings.

Cleveland Still Leads at Buffalo.
 BUFFALO, March 2.—Keen competition in to-day's National Bowling Association tourney failed to take away the leadership from Capt. Greenfield's Cleveland bowlers. Bergmann and Shearer, a New York City team, did the best work of the day, their score of 123 placing them second to Rogers and Greenfield in the two-man division. Sauter and Sauter of Buffalo moved back to third place and Odb and Alger of Olean, N.Y., by scoring 108 to-day, take fourth place. The day in the individual class, their totals being 57 and 568 respectively, which gives them fourth and fifth place in the tourney standing. Greenfield of Cleveland is still high man in the individual event, the best score of to-day being 8 points below his record of 843 made last night.

Gray Makes a Record.
 LONDON, March 2.—George Gray, the Australian billiardist, in a game at Southampton to-day, made a new world's record at English billiards, with a run of 174. The record had previously been held by Roberts, who ran 154.

AT THE ROYAL ALEXANDRA

Walker Whitehead has at last come
into his own in "The Melting Pot,"
the powerful drama from the pen of Israel
Zangwill, in which he begins a week's
engagement at the Royal Alexandra
Theatre Monday night. The story told
is of the love of a Jew for the daugh-
ter of a Russian noble, and the suffer-
ings of the Jew's parents and closest
kin at the Kishineff riots. The Rus-
sian noble, and his wife, who has
revolutionary beliefs, has sought the
safe haven of refuge. The story and
plot of the play pictures the sufferings
of this Jew, violinist and composer,
who one day finds himself famous,
and the Russian girl, who finally for-
sakes all to wed the Jew. The story
is a tragedy, and the play is a master-
piece of the management of Lieb-
and Strathroy papers please copy.

WOULD FORCE AN
EXTRA SESSION

Continued From Page 1.
rying \$153,668,000, was then passed, and
the senate took up and quickly disposed
of the diplomatic and consular bill,
carrying about \$4,000,000. The fortifica-
tion bill, carrying \$5,000,000, required
just fifteen minutes.
This was too rapid work to suit the
plans of Senator Owen, and when the
military academy appropriation bill,
carrying \$1,800,000, was taken up, he
began a little filibuster at his own. "I
want to force an extra session," he
said. "This congress has no moral right
to pass these measures."
Along towards six, when it was an-
nounced that a recess until 8.15 would
be let, Senator Owen said he would
let the military academy bill pass.
"But," he added, "if these big
bills are to be hurried thru in this
fashion, I shall insist that every item
in each bill be separately read and
separately voted upon."
The postoffice appropriation bill was
taken up when the senate resumed
business at 8.15 p.m. Senator Owen,
who is the sponsor of the bill, said he
would support it during the afternoon,
indicating that he would continue ob-
structive tactics. Under his demand,
the postoffice bill was ordered read.
He tried also to obtain an explanation
of the various items, but Vice-Presi-
dent Sherman said he had no power to
compel members to make speeches.
The reading of the bill continued and
when Mr. Owen's attention was taken
by conversation with one of his col-
leagues, the clerk managed to get thru
about thirty pages in less than five
minutes. When Mr. Owen learned of
the clerk's rapid progress, he looked
dejected, but apparently he realized
that an objection would be useless.

WANTS THE I. C. R.

Sir Donald Mann Says C. N. R. Should
Have Government Road.
MONTREAL, March 2.—(Special).—
Sir Donald Mann, vice-president of the
Canadian Northern Railway, in refer-
ence to Sir William Mackenzie's state-
ment at Halifax re the intercolonial,
declared that he was more concerned
just now in hitching up the St. Law-
rence route with the Pacific Ocean, but
believed that when this work was done,
public opinion in the three lower pro-
vinces would demand that the I. C. R.
should be handed over to the Canadian
Northern system.
He also announced that the C. N. R.
had stippled bookkeeping instructions from
the old company, as they would not
have sufficient steamship accommoda-
tion. The number applying, he said,
was unprecedented, and of the very
best quality.

SHOT BY HER LOVER

Tragic End of Lady-in-Waiting to
Queen of Italy—Attempted Suicide.
ROME, March 2.—Princess Di Tri-
gona, a lady-in-waiting to Queen He-
lena, niece of Marquis Di San Giuliano,
the Italian minister of foreign affairs,
and cousin of Prince Di Scaloa, secre-
tary of state in the foreign office, was
murdered to-day in an hotel in this
city by Lieut. Baron Paterno, a
cavalry officer, who then shot himself.
Paterno was arrested when the room
occupied by the couple was entered by
hotel employees, but the princess was
found lying on a bed dead. She had
been stabbed in the neck and death
was almost instantaneous.
Princess Di Trigona was one of the
most beautiful ladies-in-waiting to the
queen and her death has caused a
tremendous sensation. She had been
summoned to appear before the courts
to-day in separation proceedings
brought by her husband, who claims
that the princess intended the meeting
to-day to be the parting with her
lover.

fluent importance to make every man
stop and consider what he ought to
do, for what he thought were the best
interests of the country.
Did Not Like the Proposition.
Reviewing his political career, Mr.
German referred to the election in
Welland in 1891, when the issue was
reciprocity trade with the United States,
as a "point of the national policy of the
Conservative party. At that time he
did not altogether like the proposition.
Conditions were different then; times
were not as they are now; commercial
station, and the farmers were willing
to accept almost anything as a
panacea for the evils that existed.
Mr. German pointed out that on Tues-
day the minister of agriculture had
stated that "he personally was pleased
that the Liberal party did not suc-
ceed in 1891."
He did not like to go that far, and
Mr. German added to Conservative
cheers, that he doubted if many Lib-
erals in their hearts wanted to go that
far at the present.

Prosperous Under Moderate Pro-
tection.
Continuing his argument to show
that the Liberals had abandoned recip-
rocity as part of their fiscal policy,
the member for Welland said that the
budget speech of 1897 "was for moderate
protection and a staple tariff," and
the different interests stood by that
slightly modified form of the national
policy.
At this point Mr. German declared
that he took exception with the oppo-
sition party that reciprocity meant an-
nihilation of the Canadian farmer. He
done business all his life with Ameri-
can citizens, and never found himself
impelled toward annexation. "The loy-
alty of Canada is founded on some-
thing more substantial than commer-
cialism, and something more enduring
than dollars and cents." (Liberal
cheers.)
"Having said that," added Mr.
German, "I am afraid I have said all
that will give any consolation to my
hon. friends around me." (Opposition
cheers.)
Mr. German then proceeded to pin
the government down to a policy of
protection. Mr. Fielding had reiterated
the policy adopted in 1897 and in
subsequent sessions.

Prosperous Under Moderate Pro-
tection.
"Believe, sir, that I was the very
fact that the business people of this
country found, by reason of the state-
ments of the minister of finance, that
the Liberal party as well as the Con-
servative party in this country, stood
by the tariff. He would point out how
a stability of tariff that brought
about the business conditions we have
had here lately."
"Too High a Cost to Pay."
Mr. German was in full accord with
the contention that the meat-packing
and milling industries would be in-
jured by the tariff. The minister of
finance of Canada would be able to sell
flour in a new market of one hundred
million people. He would point out
that while wheat is to enter
the United States free, the duty re-
mains on Canadian flour.
"Mr. Fisher rose at the same time
and said that the duty on wheat was
50 cents per barrel, and that the mill-
ers were therefore of equal value."

Not Losing Any Sleep Over It.
F. B. Carvell (Carleton, N.B.), who
followed Mr. German, said there was an
absence of logic in the speeches of Mr.
Sifton and Mr. German. As to the ques-
tion of reciprocity in the Liberal party
the reciprocity issue, he said, "I was
losing any sleep over that." The Lib-
eral party was big and strong enough
to treat these two gentlemen as
friends, and still members of the Lib-
eral party. Mr. Carvell said he was
favourably received in the west.
Mr. Carvell went at length into the
exports of food products to Great Brit-
ain and the United States, and he said
the whole question was whether it was
in the interests of the people of Can-
ada to have these products on the free
list, so that they could be sent into the
United States without duty. He con-
tended that it was. As to the Mar-
time Provinces, he had been led to be-
lieve that everybody there, Liberal and
Conservative, was in favour of free ac-
cess to the American markets for na-
tural products. There was not as much
manufacturing done in these provinces
as 20 years ago.

U. S. Wheat Via St. John.
A lot of nonsense had been talked
about wheat. Our wheat would go thru
the United States in future, we were
told. Yet last year, out of 26,000,000
bushels that went by the United States
19,000,000 went thru Fort William. It
was simply one-half of the wheat ex-
port shipped from St. John was Ameri-
can wheat. He then reviewed the at-
tempts of the railways to improve their
routes, and declared when these were
all completed there would be no
question as to the carrying of Cana-
dian wheat by Canadian channels.
Mr. Carvell then turned to the fruit
question, and suggested that any mem-
ber who had any objection to the free
trade in the Annapolis Valley and the
farmers what they thought of this agree-
ment. Personally he believed that it
would triple in quantity the produc-
tion of the valley.
Dealing with the general aspects of
the agreement, Mr. Carvell said that
the interests opposed to it were op-
posed to it to make out of it what he
intended a wide measure of free trade.
The opposition, he thought, was holier-
than-thou to keep their courage. As for
himself, he would be glad to see the
Annapolis Valley and the British prefer-
ence. Mr. Carvell said, was designed to
give some help to the producers and the
consumers. But opposition members
figure if the agreement did not go
thru the extra session of congress,
Mr. German believed it would not go
thru.

Nine Out of Ten Opposed.

Dealing briefly with the manner in
which, in his opinion, the agreement
of Canada. It would increase the pro-
duction at least 40 per cent.
A Counter Charge.
Mr. Carvell said that there was an
organized attempt to defeat reciprocity
by the financial and banking institu-
tions, some of the railways, and the
boards of trade of the country. In
this connection, he might remark that
the leader of the eighteen Toronto
Liberals opposed to the agreement did
not think it disloyal when he financed
the cotton crop of the United States
with the savings of the Canadian peo-
ple. These bankers, he said, would send
out of the country by millions the
savings of the people, but if a man
wanted to borrow \$200 he had to get
the endorsement of all his relatives.
Down in New Brunswick the interest
on borrowings had been put up to
seven per cent, the reason given by
the banks being that they could make
more by placing the money on call in
New York.
Mr. S. Middlebro (N. Grey), the only
straight line Conservative who has
spoken on the tariff deal this week,
made a fighting reply to Mr. Carvell,
and said that the argument by that
gentleman that the United States mar-
ket would be open to Canadian farm-
ers, by pointing out that if both
United States and Canada were ex-
porting countries, the only market
available was the one that took the
surplus of both, and in Canada's case
it was the motherland.
No Comparison Possible.
He criticized the government for not
aiding the chilled meat industry, thus
depriving Canadians of a large mea-
sure of employment in handling cattle
in the abattoirs. With regard to
wheat, if the price of wheat in the
United States was higher than in Can-
ada, there would be no question as to
the benefit to be received by the farmer.
"Even if the farmers are benefited to
some extent," he said, "it may be at
least as high for the general welfare
of the Dominion."

ONE MILLION MAY DIE
BEFORE FIRST CROP IS IN

Terrible Work of Famine and
Plague in China—Distrust of
Foreign Assistance.

PEKING, March 2.—Famine and the
plague are sweeping over China. The
known deaths from the plague number
30,000, and according to official figures
the death rate averages 200 daily. Dr.
Samuel Cochran, an American engaged
in the work of relief, writes:
"Three million people will die before
the first crop is harvested. This will
be scanty, because the people have not
the strength to till the soil, and no
ordinarily have a hand to ploughing."
The Chinese are directing their
efforts to control the plague chiefly
along the railways and frontiers, for
political reasons. Since the recent
Russian request for permission to cross
the border and quarantine Chinese
towns along the Amur, China has been
attempting to check the plague along
that frontier, but the Russian legation
says that this has been done ineffec-
tively, because there are no doctors
there who are acquainted with modern
methods of sanitation.
Japanese and Russians have both
offered assistance but only in a few
places have checks been accepted. The
Chinese not liking to receive favors
from foreigners, whose political mot-
ives they distrust.
The famine is the result of the de-
struction of the crops by a fall of six-
teen inches of rain in two days last
August, in a district where the people
ordinarily have a hand to plough exist-
ence. It is estimated that 2,000,000
people are without food and are ex-
isting on roots, grasses or anything
of natural events the laborers would
demand more wages, and the manufac-
turer, consequently, higher prices, and
in the end there would be serious dis-
ruption.
He quoted extensively from con-
gressional reports, showing that the
object of the United States is to get into
the Canadian market as entirely for
the purpose of exploitation. The desire
of the Canadian farmer on the one hand
for higher prices, and on the other
Washington administration to reduce
the cost of living on the other, pro-
duced two anomalies that could not be
reconciled.
H. H. Miller (S. Grey), moved the
adjournment. The debate will be con-
tinued on Monday, when Hon. Wm.
Templeman will speak. Sir Wilfrid
Laurier is expected to conclude the
discussion on Tuesday next.
Dr. Daniel (St. John) read a letter
he had received from Winnipeg, com-
plaining that a party of negroes who
desired to settle in western Canada,
had been turned back as undesirable.
He asked if this action had been taken
for other than racial reasons.
Hon. Frank Oliver said he was not
acquainted with parties who had been
turned back as undesirable. He said
that no instructions have been issued
by the immigration department that
excluded persons by race and color, except
in the specific cases provided for in
the statutes.
