President Threatens To Take Peace Treaty Home and Lock It Up in His Desk

NO JOB HUNTERS AT QUEEN'S PARK NOW, PREMIER DRURY SAYS

Spirit of War Self-Sacrifice at Front in Public Life.

"I believe the spirit of self-sacrifice displayed during the war has come to the front in our public life, and I believe that we are going to have a clean up," said E. C. Drury, premier of Ontario, in the course of an address to the Public Economy Club of Toronto University at the Carls-Rite Hotel last night.

Mr. Drury maintained that a higher standard had already been reached in the public life of Ontario, and in this connection instanced an entirely new state of affairs at parliament buildings.

Mr. Drury traced the U.F.O. movement since its inception five years ago up to what he described as its present stage.

FARMER NIXON IS BIG DOCTOR AS PROVINCIAL SECRETARY

Greatest Ontario Problem is Also Saddest, and Mr. Nixon Will Find Economy and Efficiency in Dealing With Mental Disease Has Peculiar Relation to Ontario Doctors' Trade Union.

The juvenile of the cabinet has got the biggest job of them all. Actually he is physician-extraordinary to ten thousand demented citizens of Ontario.

ample of W. D. McPherson, who sat in Mr. Hanna's seat until the election, changed its mind, the vital public importance of the provincial secretaryship is vastly greater than anything which either Hanna or McPherson succeeded in interpreting to the province.

BRITAIN CANNOT GO ON FINANCING CIVIL WAR IN RUSSIA INDEFINITELY

Financial Burdens Too Heavy, Says Lloyd George—No Surer Way to Bolshevism at Home Than Financial Bankruptcy—Marching Into Fog in Whatever Direction Country Goes.

London, Nov. 17.—Premier Lloyd George, speaking in the house of commons today during the course of the debate on Russia, dwelt upon the complexity of the Russian problem.

NOT BRITAIN'S FAILURE.

"There are countries," he declared, "in a much better position to help Kolchak than we. These powers are next door. They are in the alliance. I do not wish to be considered as criticising them. But if there has been failure, it is not our failure."

THREE CLAIMS FOR INTERVENTION.

Dilatng upon the almost insuperable difficulties of formulating a policy when on one side there were advocates fighting like Kichak and Denikne striving to reknit and reunite powerful Russia, and on the other side border states equally anti-Bolshevist, seeking their own independence, and therefore the disintegration of Russia, the premier said:

"We are faced by three claims for intervention. The first and second are Russia and Armenia and those opposing intervention in Russia advocate intervention in Armenia. Armenia is a good cause and Britain is one and able to restore a semblance of justice and good government. But can we do all these things, considering our great burdens?"

"The third case is the Baltic provinces where the Germans are cleared out, or the peace of Europe is unsafe."

REACTIVE CRITICISM  
LAST YEAR'S LOAN

Mistake in Being Non-Taxable—  
Point to Success of New  
Flotation.

Special to The Toronto World.  
Ottawa, Nov. 17.—The success of  
the Victory Loan has revived the criti-  
cism of the non-taxable loan of last  
year. Without a war stimulus, Canada  
this year subscribed for a taxable  
loan equal to that of last year, when  
the public was misled with a strong  
patriotic desire to emulate by contribu-  
tion at home the splendid sacrifice  
of our army in the field.

If over \$800,000,000 could be sub-  
scribed under present conditions, many  
believe that a grievous mistake was  
made last year to secure a similar  
amount, and that the national reve-  
nue will suffer thereby for a long  
time. How much was lost to the  
revenue by last year's non-taxable  
loan cannot be estimated with ac-  
curacy, but it is placed by a quarter  
of a million to half a million dol-  
lars annually by well-informed people.  
The success of the present loan makes  
next year's flotation a much easier  
matter. During the next year it was  
estimated by S. C. Bovill, deputy  
minister of finance, that Canada  
would require to borrow from \$400,  
000,000 to \$500,000,000. At most, next  
year's domestic loan should not ex-  
ceed \$200,000,000.

The capital expenditures for 1919-20  
are estimated at \$69,122,445, devoted  
chiefly to harbor and railway improve-  
ments, demobilization, housing ship-  
building, land settlement and foreign  
credits. The revenue will be over three  
hundred million dollars but this will be  
required for fixed charges on the national  
debt, pensions and administrative  
requirements. For 1920-21 the extra-  
ordinary expenditure is estimated at  
\$210,000,000, made up of fifty million  
for demobilization, fifty million for land  
settlement, six million for public works  
and railways and fifty million for fore-  
ign credits. It is this sum that will  
be required in the next loan, the present  
Victory Loan and revenue will carry  
the country's financial burden until  
next November.

Borden Returns Soon.  
Sir Robert Borden is expected to re-  
turn home before the end of this month.  
He is much improved in health, and on  
his return will immediately plunge into  
cabinet reconstruction and the next  
seasonal program. At present in the  
United States, in addition to his min-  
istry, are Hon. N. W. Rowell and  
Hon. Gideon Robertson at Washington,  
and Hon. J. D. Repulse at London.  
Caider, these ministers and Lloyd  
Harris, chief of Canadian European  
trade mission, have all been in contact  
with the prime minister. With  
Lloyd Harris the prime minister con-  
sidered our European policy, the  
reorganization of the Canadian high  
commissioner's London office, and the  
minister of trade and commerce.

Offered Governorship.  
Sir George Foster on his return from  
overseas asked to be relieved of his port-  
folio. He was offered the lieutenant  
governorship of Ontario, but declined this  
appointment. Sir George Perley, high  
commissioner, desired to resign from Can-  
ada. On his retirement it is the general  
desire among industrial leaders in Can-  
ada that this office be reorganized and  
its commercial scope increased. For  
this purpose it is felt that a minister  
should be appointed to the position of  
Canada's European trade mission, but  
there must be some permanent organization  
secured, and the ministerial method of  
the reorganization of the high commis-  
sioner's London office. Those mentioned  
for the position are Sir George Perley,  
Sir Charles Gordon and Lloyd Harris.

Views, but the outcome was surprising.  
The success started with Manitoulin,  
a constituency which had been hope-  
lessly debauched by the party in  
Ontario and the general elections.  
The U.F.O. had no central organiza-  
tion and no funds. Election funds  
Mr. Drury characterized as one of the  
most crying evils in Canadian public  
life. Nobody ever knew where the  
money came from, and it was merely  
contributed a dollar each and that  
he thought, was a most healthy state  
of affairs and showed public service.  
In any case the people had at least  
realized the true responsibilities of  
citizenship.

Waterworks Public Service.  
Mr. Drury spoke of his enormous  
difficulties in forming a cabinet. It  
was a new situation for him, and he  
never would have got thru if he had  
been confronted with conditions which  
had faced him. The two old parties  
in forming cabinets. He only had one  
reputation asking for a man to be  
appointed to a cabinet position. The  
man had already gone home appointed  
in view asked him to consider the  
best men. One minister he had chosen  
thought of another one on his way  
home and wired him (Mr. Drury)  
recommending the other man. That  
was another wonderful instance of  
public service. He had not received  
a letter from one U.F.O. or Labor man  
asking for office, and he believed  
had succeeded in getting together a  
body of ministers of a high average  
standard of intelligence and outstand-  
ing integrity. They were by no means  
the old type of politician, and they  
would all make an honest attempt to  
succeed and make the country a good  
place to live in.

Professor Mavor, who introduced Mr.  
Drury, said the members of the club  
took great interest in politics, but  
were not yet politicians and could say,  
"The government is defeated, long live  
the government." They were con-  
gratulate Mr. Drury on forming a  
government because they were non-  
party people and the premier's was a  
non-party administration. It would be  
interesting to see what effect the  
change would have in the country  
generally.

A hearty vote of thanks was ac-  
corded Mr. Drury for his address.

SUNK BY FLOATING MINE  
London, Nov. 17.—A floating mine  
was responsible for the sinking last  
Wednesday of the American steamer

land, according to advices received  
here. All the members of the crew  
were saved.

YORK COUNTY AND SUBURBS

YORK  
YORK RESIDENTS  
GET A SHOCK

Temporary Halt Called in In-  
stallation of Street  
Light Service.

To the residents of York township  
who have been clamoring for months  
for house and street lights, a com-  
munication laid before York council  
yesterday, stating that a temporary  
halt had been called to the work  
of installing the services, will come as a  
distressing shock.

H. H. Cousins, general manager of  
the Toronto Hydro-Electric System,  
wrote that owing to a shortage of  
linemen and a rush of work elsewhere,  
there would be considerable delay in  
getting the services ordered by York  
township installed. The letter gave  
members of council an unpleasant  
surprise, and the solicitor was in-  
structed to urge the Hydro System to  
reconsider the question of going on  
with York township work at once.

Besides the orders already placed,  
a resolution was passed calling for the  
installation of lights on about thirty  
streets, and for both house and street  
lighting on Warren crescent, Crosby  
avenue, Jasper avenue, Cliff street,  
Langdon avenue, Chisholm avenue,  
Humbercrest boulevard, Gatwick ave-  
nue, Valley road and Arlington ave-  
nue. This streets to be supplied with  
street lights as soon as the Hydro  
people can install them are: Victoria  
boulevard, Ray avenue, Summerville  
avenue, Yarmark road, Denard, Lo-  
cust, Mahoney, Croydon, Rutherford,  
Graham, Bartonville, Sunnybray, Mt.  
street, Glendale crescent, Cobalt  
street, Hollis avenue, Brownville ave-  
nue, York Cliff, Arnold, Orville, Ex-  
jama, Gey, Burchwood, Chrysta,  
Hornor, Elmira, Hector and Cessor  
avenues.

Chief Engineer Gaby of the provincial  
Hydro system, wrote suggesting that the  
Toronto Hydro System be given the authority  
to proceed with contracts costing  
under \$500 without referring the case to  
the provincial system, and that the  
figures. This matter will be taken up  
at the next meeting.

Repairs to roads and sidewalks and  
the installation of house lighting by  
the Hydro system, were requested by  
the Roseland Ratepayers' Association. Works  
superintendent was instructed to make  
the necessary repairs.

The request for the opening of a road-  
way through Prospect cemetery, York  
avenue, was referred to the  
division of Harvie avenue, was referred to  
the solicitor.

The request for part of plans for the  
subdivision of lot 33, concession 3  
from the Bay. The matter was referred  
to the township engineer.

Twenty-four residents on Keene street  
petitioned for the installation of lights  
on that street.

A similar petition was received for  
house and sidewalk lights on Lepp avenue,  
Gunn road and other streets north of  
St. Clair and west of Weston road.

The clerk was instructed to arrange a  
credit of \$80 in favor of the village of  
Keene, and to supply on account of a bridge  
for which a contract has been let.  
Commissioner Harris of Toronto is still  
water empty into city sewer. The  
latest communication demands the seal-  
ing of the sewer on Pinehead road so  
that storm water cannot run into the  
township sewer, which empties into the  
city sewer. The sealing, he declares,  
must be done to the city engineer's sat-  
isfaction. Decision in the matter was  
reserved.

The C.P.R. wrote that the complaint  
against the alleged smoke nuisance in  
the Runnymede district would be investi-  
gated.

Commissioner Harris also asked that  
work on the Zimlin avenue water main  
be rushed so that water can be given  
to the residents of the city supply at  
North York and Weston.

Waterworks Superintendent G. Thomp-  
son recommended that the residents of  
the north Runnymede district, north of  
St. Clair, numbering about 75, be con-  
nected with the township water service.  
The township pipe line in the dis-  
trict, but Toronto has been supplying  
water direct.

WILL AFFECT ALASKANS.  
Seattle, Wash., Nov. 17.—Canada's  
embargo on coal will affect Alaskans,  
it is said, as most of the coal shipped  
to the north from the Canadian mines  
goes to southeastern Alaska.

Other reports received today were  
to the effect that the British Colum-  
bia coal operators had placed a ban  
on shipments into the state of  
Washington. Up to this time Wash-  
ington has been able to get supplies  
of coal from the mines of Vancouver  
Island and other parts of the prov-  
ince.

WHITBY FAVORS RAIL  
Bylaw to Guarantee Bonds Passed by  
an Overwhelming Ma-  
jority

Whitby town and West Whitby  
township voted yesterday on the bylaw  
to guarantee the bonds of the Toronto  
& Eastern Railway. The bylaw was  
guaranteed by a large majority. The  
majority in Whitby town for the bylaw  
was about 390.

The following resolutions were  
proposed and adopted:  
"That a candidate committee be ap-  
pointed to wait upon the city drawing  
up a slate of candidates for the board  
of education, and to co-operate with  
the Local Council of Women in the  
matter of candidates for the board of  
education only."

Mr. Nixon has become provincial  
secretary, partly because the farmers  
of Ontario were convinced that gov-  
ernment in Ontario had become pro-  
gressive and that a different problem  
and because the farming class was not  
fairly treated by those whom it clothes  
with authority. Mr. Nixon is expect-  
ed to combine his own industry with  
efficiency. How is he to do it in dealing  
with the poignant problem of the men-  
tally defective and the mentally  
broken-down, who knock at his door  
in distressing thousands? Money cost  
is a minor consideration. Somehow  
the supply of mentally-defectives and  
broken-down must be stopped, or at least  
sensibly reduced.

"Asylums" Out of Date.  
To promote that kind of efficiency,  
the trust economy would be to clear  
up the present problem in a way,  
and place the people where moral and  
intellectual tone can be recovered. Ele-  
mental that question is kin to the  
improvement of stock in which many  
a U.F.O. legislator is an expert, and  
to which young Dr. Nixon himself has  
given some beneficent attention.

and because the farming class was not  
fairly treated by those whom it clothes  
with authority. Mr. Nixon is expect-  
ed to combine his own industry with  
efficiency. How is he to do it in dealing  
with the poignant problem of the men-  
tally defective and the mentally  
broken-down, who knock at his door  
in distressing thousands? Money cost  
is a minor consideration. Somehow  
the supply of mentally-defectives and  
broken-down must be stopped, or at least  
sensibly reduced.

W. S. Wisner, eighty years of age,  
a shareholder in the Massey-Harris  
Company, was struck by a westbound  
King street car at Massey street and  
was badly injured that he died in the  
General Hospital. His widow suf-  
fered a broken collar bone and injuries  
to his head. He was unconscious  
when removed to the hospital.

Motorman Amos Raney, 41 Gwynne  
avenue, surrendered himself to the  
police of Claremont street station and  
was not held.

Mr. Wisner resided with his son at  
148 Warren road. He was formerly  
head of the Wisner Seed Drill Co. of  
Saturday while in 1891 amalgamated  
with the Massey-Harris Company. An  
inquest will be held at the morgue.

Brig-Gen. J. A. Gunn, C.M.G.,  
D.S.O., president of Gunns, Limited,  
today authorized the following state-  
ment:  
"Reports are current to the effect  
that the business of Gunns, Limited,  
has been sold to Morris & Co. There  
is no foundation for this statement.  
The control remains in the Gunn fam-  
ily, where it has been for the past  
forty-six years."

ONTARIO RETURNS

(Continued From Page 1.)  
cation of Mr. Nixon's job is behind a  
pleasant scene which presents itself  
to travelers to Muskoka over the road  
that takes Premier Drury home for  
Sunday. Approaching Orillia, you see on  
an eminence to the left, a fine brown  
brick building, set in rich lawns and  
fruitful gardens. It belongs to you as  
much as it belongs to anyone else in  
the world. What is within its walls is  
as much your concern as anybody's.

Inside that noble edifice and its an-  
nexes there sleep every eighth elev-  
en hundred mentally defective sons and  
daughters of Ontario. Outside are  
scores—perhaps hundreds—more who  
cannot secure its shelter. Mentally  
defective is a too plain phrase. The  
shorter description of the dwellers in  
the big house is "idiots." When you  
reflect that one building shelters five-  
hundredth family in Ontario, and that  
they are your wards, do you want to  
go in and see so much and so appalling  
evidence of human misfortune?

Significance of Joe Downey.  
Here is a fact about the Orillia  
Home, which you may regard as a  
pleasant surprise in an otherwise gloomy  
institution. He is in his post because  
he was a politician. He is blithe Joe  
Downey, who used to sit in the legisla-  
ture and was a newspaper man. Ask  
two questions: Why are there eleven  
hundred idiots at Orillia? Why is an  
ex-politician the superintendent of an  
asylum for those to whose mentality  
no light has ever been vouchsafed?

Answer those two questions and  
you have glimpsed something of the  
weight and complexity of the toll that  
has been thrust on young Mr. Nixon  
by the peculiar chances of an elec-  
tion campaign. At the moment, the  
prevalence of children who are born  
in Ontario, in the rocky edge of fer-  
tile Ontario—they are a final disaster  
of too rural a life. Parts of Muskoka  
and Frontenac and Hastings coun-  
ties, for example, should never have  
been settled. At the best, the settlers  
could only live fairly decently when  
numbering was open to them. It was  
always a tragedy to call their hold-  
ings "farm" with dejection, then, it  
has been reduced to a standard of ex-  
istence—it can't be called living—  
which is a cruel fate for the young men  
able by the flourishing section of On-  
tario, which waxes fat and thanks God  
it is not as others are—even as these  
children of Ontario pioneers who are  
the victims of an economy of folly for  
which they are not to blame.

Once in a while some ghastly tragedy  
happens in the black country, which  
marks the South Ontario shudder,  
not merely because of its own horror,  
but because it is obvious that the re-  
sulting crime has lifted a corner of  
the curtain of hidden misery, which  
pools of degradation, for which, as we  
are members one of another, all On-  
tario is accountable.

**POLICY OF CABINET STILL IN EMBRYO**

Government Will Make Announcement Shortly, Premier Drury Says.

"There is nothing new in it," remarked Premier Drury to the World last night when discussing a somewhat lengthy interview with him published in a Toronto afternoon paper yesterday. "All I did was to answer a few questions on the policy already laid down in our platform," Mr. Drury continued. "I could not add anything."

"The policy of the government has not, as a matter of fact, yet been considered," Mr. Drury was asked.  
Premier's Personal Views.  
"That is so," the premier replied. "Anything I have said is purely an expression of my own opinion. The policy to be pursued by the government will shortly come up for consideration by the cabinet, and there will be a definite announcement in the course of a few weeks. Further than that I cannot go now."

It was pointed out to Mr. Drury that the legislature usually met in

February, which much has been made of that point in the interview.  
"Yes," the premier said with a smile, "there is not much new in that either."  
"And the dates of the necessary elections," said The World, "have been discussed by the cabinet?"  
Looking for Gymnasium.  
"No," rejoined Mr. Drury. "As I have already said, nothing has been discussed by the cabinet yet. We are not yet worrying about the elections. They cannot very well be held this year, any way."

"Not even a gymnasium?" chimed in The World.  
As a matter of fact this was a new point raised by Mr. Drury in the interview. He said he was on the look out for a gymnasium in which his youthful and energetic cabinet could keep fit.  
"To Discuss License Board.  
"What about the Ontario license board, Mr. Drury? That is a little more interesting," asked The World.  
"That will be taken up by the cabinet in a day or two," was the premier's reply.

The World stated yesterday that this matter would be one of the first to be considered by the cabinet.  
Mr. Drury did not reach parliament buildings from his home at Crown Hill until 8:45 yesterday afternoon. He was then kept busy receiving callers. Several ministers also waited upon him including Beniah Bowman, Manning Doherty Walker Rollo, H. C. Nixon and R. H. Grant. The premier hopes to get down to real business this morning.

**COMMERCE BOARD RESUME PROBE**

Commence Investigation Into Export of Mill Feeds and Screenings.

Yesterday on the resumption of the investigation by the board of commerce into the export of screenings by the Canadian Feed Company, the cross examination of Robert Henderson, agent for the company, was continued by A. E. Hudson.  
Referring to the operations of a pool in Winnipeg, Mr. Henderson said he would not make them a bid, but Mr. Hudson tried to make witness admit that the himself had been exporting to the United States.  
Witness said that a number of commission merchants had "cut-out" to sell on the Winnipeg market. These merchants sold them to the best advantage of their customers if they could get them. Many elevators, he said, did not want to issue "shut-outs."  
At the Winnipeg conference an arrangement was made by which those present undertook to supply the U.F.O. and the Farmers' Co-operative of Quebec with 5,000 tons of standard stock feed.

"How was that gratuity arrived at?" I understand that would fill their requirements for the time being, \$30 per hour was the price paid for "un-ground." Witness would have paid more and sold it in Canada, therefore, the terminal elevators were foolish to sell at the price," he said.  
"I won't make any bid to the Consolidated or any member of that 'pool,'" emphatically declared witness, "and I have not done so since January 1918."  
Sales of Horse Feed.  
The next witness was Wallace J. Baker, manager of the Toronto branch of the Canadian Feed Company. Mr. Baker was on the stand for only a short period, during which he was questioned regarding the sale of horse feed to an Ottawa firm.  
Gerald R. Martin, manager of the Superior Beef Company, and secretary of the Brooks Elevator Company, both American corporations, was called next. The examination turned back to screenings and shorts. Mr. Martin was loth to answer a question as to certain contracts for the sale of these commodities heading that representative of competitive firms were present. Judge Robson thought the questions should be answered, but the hearing was adjourned with witness still in the box.  
Two commissioners will go to Hamilton today to attend an inquiry there. The present investigation will continue at 10:30 o'clock this morning.

**DEFENCE LEAGUE FINANCES.**

"Advices from Winnipeg Trades Council are to the effect that headquarters of the Political Defence League have received to date \$28,000," said Tom Mellille, general organizer for the league, to The World yesterday afternoon. "Of this amount \$25,000 has already been spent, leaving a balance of \$11,000 in hand."

The world's agony, its cause and cure, was the subject. The great attention throat, while the bishop painted in glowing colors how the Lord organized this world for His own glory, and the peace, joy and happiness of humanity.

### KEEN INTEREST IN GOWGANDA CAMP

Kell Property Under an Option of Two Hundred Thousand Dollars.

The rich Kell property in the township of Corkhill, Gowganda mining division, has been optioned to Ex-Governor Smith of Vermont for the sum of \$200,000. This property is about 20 miles southeast from the famous Miller Lake-O'Brien and Trethewey properties. The latter are situated at Miller lake near the township line between Haultain and Nicol.

The Kell has a very rich surface showing, consisting of a number of stringers of argenteite and native silver extending in one place over a width of 20 feet. It is the most spectacular of recent discoveries. The mineralized zone lies along a contact between diabase and quartzite. As the latter is a fragmental rock older than the diabase, its presence cannot be regarded as more than an incident. The diabase is the mother rock of the precious metal.

At Miller Lake there is great activity. The Trethewey silver mine of Cobalt has lately added to its holdings and has now three separate groups and an aggregate of twelve claims. In development to date it has spent \$150,000, and the results are very encouraging notwithstanding the fact that the series of rich veins on the Miller Lake-O'Brien have not yet been cut out by the Trethewey. On the group farther north, however, very satisfactory results have attended the operations of the company. If some of the other Cobalt companies would emulate the example of the Trethewey it would prolong their now waning lives and at the same time open up the great

resources of the silver areas. So far as we can now see Gowganda is the most promising argenteiferous field in Ontario. Diabase is the source of the metal here, the same as at Cobalt, and it may be fairly claimed that the deposits are just as rich as those of the older camp, while they extend to much greater depth. The bulk of the silver at Cobalt was found in the conglomerate, a sedimentary rock forming a comparatively thin sheet over the igneous complex beneath. When the latter was reached the phenomenal values in silver generally disappeared.

It is well known that none of the Cobalt companies have now great ore reserves. They must all go elsewhere in order to renew their growth, and the efforts that some of them are making in this direction are not likely to be successful.

In practically every mining camp in Ontario there are desirable properties, but they never arouse any interest in the Cobalt companies. Their methods must be materially changed, otherwise most of them will be out of business in a few years. As a rule they keep their ground in many directions, without giving any single property a fair trial. In the gold regions considerable development is required. The real ore body comes in at varying depth, but never less than 200 feet from the surface. Some of the biggest properties in Ontario have been turned down on surface sampling. The Nipissing is notorious for its success in dodging the good things, but the mining corporation is now running hard for second place.

S. R. Clarke.

#### TO DRILL ADANAC.

Cobalt, Nov. 17.—Following the extensive underground development at the Adanac property, arrangements are not completed to begin a thorough diamond drilling test in quest of ore. This important work will be started as quickly as possible from the 200-foot level in various directions at the northerly section of the Adanac property.

### MINING MARKET SHOWS FIRMNESS

McIntyre Advances Another Point—Peterson Lake Up on Active Buying.

Underlying firmness was shown by the mining market yesterday. Brokers report that orders are showing an encouraging increase in volume, and there is undoubtedly a real scarcity of the better class stocks at present. While there has been a good deal of inflation in other markets, gold and silver stocks have not been included so that whatever stocks may be in the store for other exchanges in coming weeks and months the mining market as a whole is on a solid foundation.

McIntyre was distinctly strong, ruling throughout the day between \$2.03 and \$2.04, and closing at the latter figure, a gain of a point over Saturday, with \$2.04 bid for more and \$2.05 asked. There is stated to be in the best class of buying of McIntyre in the past week or two. Hollinger held at \$7.20, while Dome was easier, being offered down to \$13.75 after opening at \$13.90. Lake Shore receded a point to \$1.18, and Teck-Hughes at \$1.18. Keora at 20 1/2 was slightly firmer. Stocks to finish without net change included Dome Extension at 34 1/2, Moneta at 12 1/2, Porcupine V.N.T. at 19 and West Tree at 18. Wasepika continued on offer at \$1.05.

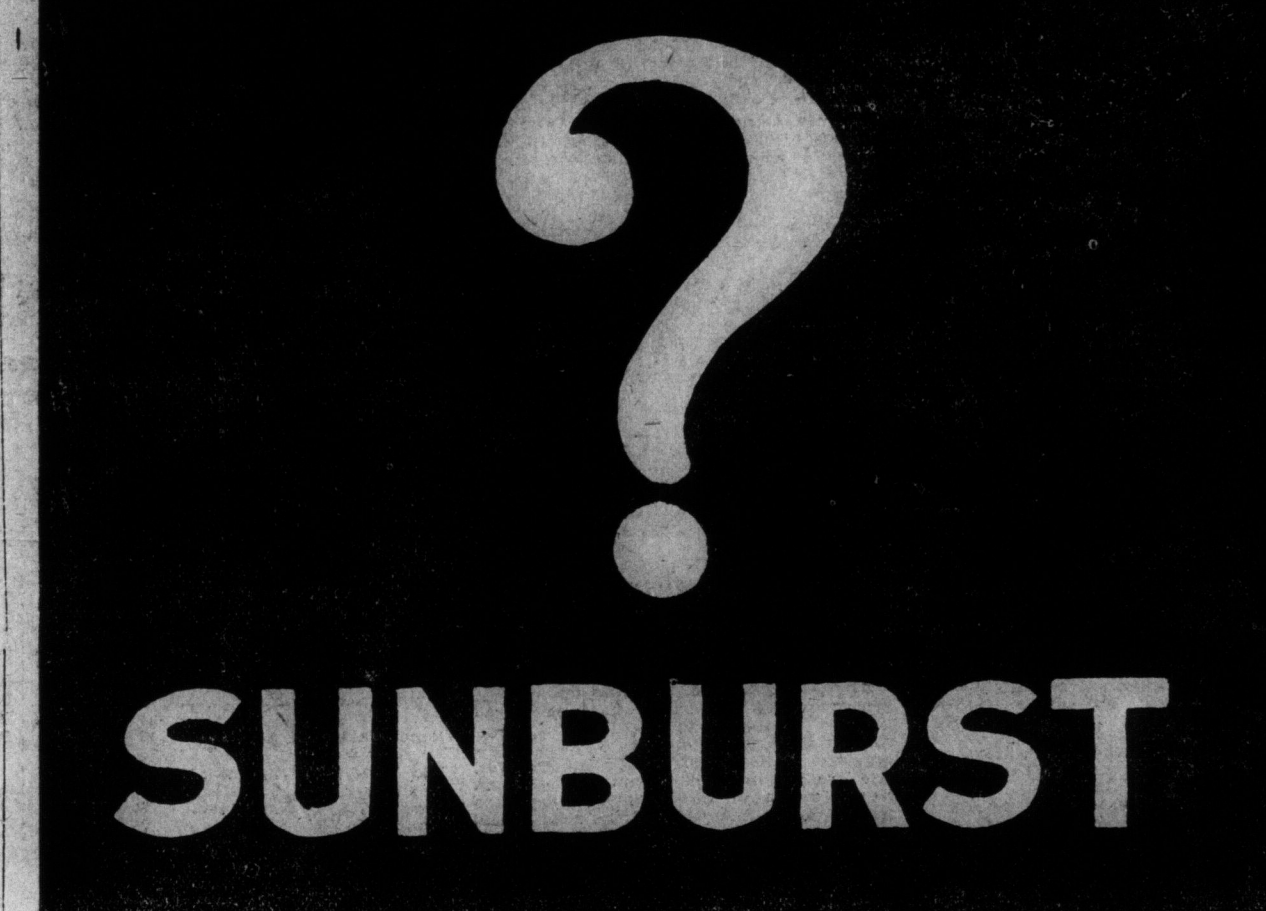

There was a renewal of active demand for Peterson Lake, the price advancing half a point to 17 1/2 on transactions of well on to 12,000 shares. There is said to be a large short interest, which may be driven in at any time. The floating supply of the stock is being gradually taken off the market. Crown Realty at 34 was up a point, and half-point gains were shown by Beaver at 41 and Le Roe at 40 1/2. Mining Corporation held at \$2, while Nipissing sold off ten points to \$1.90. Adanac at 6 and Ophir at 3 1/2 were fractionally lower. Vacuum Gas was strong, selling as high as 25, and closing at 23, a net gain of half a point.

#### SILVER SITUATION

Coleman & Reitze, New York, say: The remarkable strength in silver is due almost entirely to what must be an enormous shortage in London. Even after the settlements in that centre and Shanghai two weeks ago and the large shipments of both silver and gold to China this week, and also a minimum of business at Hong Kong and Shanghai, prices are at new high record levels. Currency demands by France, Germany and Austria have not developed, but are expected shortly and this may maintain the present phenomenal high level.

#### GENESSEE SILVER ORE.

Cobalt, Nov. 17.—Encouraging results are being gained at the 500-foot level of the Genessee Mine. It is learned that a faulted zone, about seven feet in width has been found to con-

tain average silver values of about four ounces to the ton. Considerable calcite occurs in the faulted zone.

**PRICE OF SILVER.**  
New York, Nov. 17.—Bar silver, 125 1/2.  
London, Nov. 17.—Bar silver, 69d.

**NEW CHANGE FOR MIKADO.**  
Wabigoon, Nov. 17.—It is stated that the old Mikado Mine, located on Shoal Lake, in the Rainy River district, has been taken over by Chicago interests, and preliminary arrangements are being made to commence operations during the next few months.

**TO EXPLORE MONETA.**  
Timmins, Nov. 17.—Arrangements are said to be under way to further explore the Moneta property. The point chosen for the work is understood to be in the close vicinity of the place where "float" gold ore was found recently during the work on digging a well. It is stated that the Moneta Company has a fair amount of cash available, as well as having a substantial amount of stock in its treasury.

# Buy at the Bottom—Make All the Profit—Dollar Shares—in the Heart of Porcupine—for 17c

(Par Value of Shares \$1.00)

A limited offering of GOLD CENTRE MINES at 17c a share is made until December 1st.

This is an exceptional proposition, with great possibilities for investors to come in on the ground floor.

The property is entirely surrounded by some of the greatest gold-producing mines in the world—the famous Hollinger, the McIntyre and the Dome—all now selling at nearly 50% above par.

It is better to be inside looking out than outside looking in, so DON'T LET THIS CHANCE SLIP.

#### To The Investor:

We lay the matter before you in bold, plain truth; we dare not misrepresent or withdraw.

We do not claim that the Gold Centre is a proven property nor that it is a producer, but we do claim that the mine lies in a proven area of the Porcupine Camp; in fact, in the heart of the best located properties. Surrounding Gold Centre are world winners in the gold field, among which are the famous Hollinger, the McIntyre, the Dome Extension and the Dome.

The geology is most favorable to the deposition of gold, and with honest, intelligent development work it has an unusually excellent opportunity of becoming another great Porcupine producer.

We are starting to develop this property along the same lines that were adopted in the beginning by the most successful mines in the district, and that is by a campaign of intelligent diamond drilling. This work will be under the supervision of Mr. B. M. Walton, M.E., A.I.M.E.

By doing this we expect to find and prove the existence of paying ore bodies which we believe are located at a depth in the property.

If you feel that you would like to join with practical business and mining men of years of experience in the development of this property of exceptional promise and where the funds will be expended in a conscientious and intelligent way to make the enterprise a real success in a short time, fill in the application form and mail it to us.

**COPY OF STATUTORY INFORMATION.** Filed in the Office of the Provincial Secretary for the Province of Ontario, PROSPECTUS OF GOLD CENTRE MINES, LIMITED. (No Personal Liability.) Incorporated under the Ontario Companies Act. Authorized Capital, \$2,000,000.00, divided into 2,000,000 shares of the par value of \$1.00 each. Head Office, Toronto. Directors: Morley Pughson, van der Voort, Morley, Carman, Stenographers, all of the City of Toronto, each of whom subscribed for one share of the Company's Capital Stock and became and still are the Directors of the Company. The qualification for subscription is fixed at one share. The minimum subscription upon which the Company proposes to purchase from Mr. A. C. Boyce, of Ottawa, for July paid shares of its 7, Concession 1, in the Township of Tisdale, and the north-west quarter and the north-east quarter of the south half of Lot 7, Concession 1, containing in all approximately 160 acres, hereinafter referred to, has not yet been completed, nor has any agreement been executed with reference to the purchase of the same, and it is intended to be paid in cash, shares, debenture stock or other securities to any promoter. The Letters Patent incorporating the Company authorizes the payment of a commission of 25 p.c. for subscribing to the Company. The preliminary expenses are estimated at \$1,500.00. The Auditors of the Company are Messrs. Gunn, Roberts & Co. Dated at Toronto this 6th day of October, 1919. (Since the Statutory Information has been filed, the Company has completed the purchase of the property.)

#### READ THE EXTRACTS FROM THE REPORT OF B. M. WALTON, M.E., A.I.M.E.

"These properties are especially well located, being practically in the centre of the proven and producing area of the Porcupine Camp. The E. & N. O. Railway passes directly over the property, and the electric line of the Northern Ontario Light and Power Co. passes right through the centre of the claim. Adjacent to the property on the west is the famous Hollinger, and to the east and south lie the Dome Extension and the Dome. The property is also only one claim away from the well-known McIntyre."

"The mineralized area of these claims is large, and the veins have the appearance of being strong and continuous; and, considering the fact that encouraging gold values have been found on the surface and in the shaft, I am strongly of the opinion that this property is one of the best undeveloped areas at the present time in the Porcupine district."

BEARISH FACTORS IN WALL STREET

Money Rates, Foreign Exchange and Court Decision Among Influences.

New York, Nov. 17.—The stock market was in process of further liquidation during the early and intermediate periods of today's session...

Money rates, foreign exchange, unsettled industrial situation and a long-pending court decision played their several parts in the dealings...

Call loans opened and were renewed at 13 per cent., that being the fixed quotation until the final hour...

The shorts based much of their early selling on the money market, the new low rate for sterling exchange...

Recent spectacular features in the motor, oil, steel and equipments groups registered extreme losses...

Bonds were easier, but not materially changed, except for a sharp decline in Southern Pacific bonds...

DOMINION IRON DEAL LIKELY TO GO THRU

English Interests Are Prepared To Buy 50,000 Shares.

Montreal, Nov. 17.—Impending developments respecting the proposed English interests to buy 50,000 shares of Dominion Steel...

It is understood that a meeting of the steel board has been called for Thursday, and the belief is quite general that the matter will be discussed and the deal closed.

The report has it that the cash to consummate the purchase is already here, that the steel board is favorably inclined to the proposal...

SOUTHERN PACIFIC LOSES BIG OIL LAND TRACT

Washington, Nov. 17.—The government by an opinion today in the supreme court, won its fight to have cancelled patents for six thousand acres of California oil land...

It is also said that a prominent Toronto interest in the company has given the same London interests an option on his holdings...

C. P. R. EARNINGS.

Montreal, Nov. 17.—C. P. R. earnings for the week ended November 14, were \$4,084,000, an increase over the corresponding week last year of \$97,000.

MONEY AND EXCHANGE.

London, Nov. 17.—Money, 2 1/2 per cent. Discount rates, short bills, 5 1/2 per cent. Three months' bills, 4 1/2 per cent. Gold premiums at London, 140.00.

POUND'S BIG SLUMP

New York, Nov. 17.—Sterling exchange dropped to a new level here today, falling to 4.05 1/2, as against last Saturday's 4.12 1/2 to the pound.

DOMINION IRON UP; BRAZILIAN LOWER

Toronto Market Opens Week Quietly—Bid for Petroleum Off Six Points.

Resumption of activity in Dominion Iron, with a resurgent price appreciation, and moderate liquidation of Brazilian, which brought about lower quotations...

Unless the Montreal "street" is guessing wrong, arrangements will be made in the next few days for the transfer to Dominion of a block of 50,000 shares of Dominion Iron...

Elsewhere the tendency was in the main toward slightly lower prices. Following the announcement of a coming stock issue, Canadian General Electric sold off 1 1/2 to 10 1/2...

The day's transactions: Shares, 1495; bonds, \$268,400.

## Punch Will Entertain You Today

Performances  
10, 11, 12, 2, 3, and 4 o'clock

Have you seen him yet? He has delighted thousands of boys and girls as he will delight you. He sings, he dances, he talks and laughs, in his own peculiar way, and he carries a big club, which he uses against the heads of all who come in his way. You will never see anything half as funny. Even Punch enjoys it.

He just lies down and laughs and laughs, even after he has thrown his own little baby downstairs because it cried.

And then there are

### The Marionettes

Strange little creatures, whose antics cause boys and girls and grown people, too, to scream with laughter. All these you will see if you visit the Simpson Christmas Show, Fifth Floor. Performances at 10, 11, 12, 2, 3 and 4 o'clock.
