TWENTY-SEVENTH YEAR

PALMIANES WILL CONFIDE MODERATE PARTY COMES TO KNEES WITH REBELS TO END WAR

Action of U. S. Commissioners in Playing into Hands of Liberals Denounced—Threat of Use of Dynamite to Precipitate International Complications.

Havana, Sept. 26.—A meeting of the moderate national assembly was hastily called today to decide whether some way could be devised to settle the present difficulty without American intervention.

Those present included Vice-President Mendez Capote and nearly all the members of the cabinet and congress. The pent-up indignation against the American peace commissioners straightway broke forth.

The speakers shouted denunciations of the American Government, and hotly insisted that the moderate party should appeal to the powers of the world for protection.

It was declared that the government forces would fight to the death rather than submit to the terms insisted upon by the rebels, and one speaker depicted the horrors of negro domination, which would result, he said, from the acceptance of the terms.

Some of the most radical present asserted that the government had plenty of dynamite in Havana, which could be used to precipitate those international complications that accrue from the destruction of foreign property.

When this frenzy subsided, the meeting settled down to a consideration of the reopening of negotiations with the peace commissioners. It was decided that the cardinal condition of the reopening of negotiations should be that the moderates insist that the commissioners require the rebels to lay down their arms before proceeding to negotiate.

Acting-Secretary of the Interior Montalvo visited the commissioners, and acquainted them with the party's insistence on this condition, adding that if the proposition was not acceptable to the government, the moderates would refuse to lay down their arms or deliver them either to the rebels or to the commissioners.

After hearing the views of Secretary Taft, the assistant notified Mr. Taft that he would appoint a committee of six to treat for peace, but with the prior condition that the rebels lay down their arms. Secretary Taft approved of this proposal.

It was the ultimatum issued by Messrs. Taft and Bacon to these congressional methods. Secretary Taft said: "The moderates yesterday determined to force American intervention by the resignation of government officers, thus leaving affairs in our hands. President Palma chose to regard our suggestions as a demand, and he rejected them emphatically. I feel certain that a settlement of the trouble is possible only along the lines suggested by us. We informed both the moderates and the liberals that unless they were willing to listen to reason the United States must enforce a settlement. I told them that a proclamation would be issued establishing a military government in the island, but that this would continue only so long as necessary to restore order and ensure the holding of new and fair general elections. I made plain that this military government would surrender the conduct of affairs to the persons fairly elected as soon as they could fairly establish themselves."

Whatever the outcome of the negotiations, it is felt here that there will be need for all the American marines within reach as there is little confidence in the ability of the rebel leaders to control their men.

Asked why it had been decided to send federal forces to Cuba, Secretary Taft said this was in anticipation of probable trouble.

Continuing, he declared that, if necessary, landings would be made, not only at Havana and Cienfuegos, but at other points in order to police the entire island.

General Frederick Funston is expected here to-morrow.

PALMA TO TAFT.

Havana, Sept. 26.—The following is the text of President Palma's letter of yesterday to the American peace commissioners, Secretary Taft and Assistant-Secretary of State Bacon, announcing that he intends to resign the presidency, and refusing the peace terms offered to him.

"Honorable Sirs,—I have the honor to acknowledge the receipt of your note of yesterday, the 24th, in which you express in a general way your opinion and points of view, according to your own personal investigation of the cause of the present rebellion in Cuba, its state and the means to finish it, in order to re-establish peace and order and public piety in the country.

"I could raise some objections, and prove them, to your estimate of the numbers of the armed insurgents, and the sympathy to which you consider them entitled. But it is useless now to enter upon a discussion of this kind in view of the course you have adopted and your resolution to make peace, by all means.

"It is, therefore, my only purpose, in courteously replying to your note to repeat here in brief what I expressed in the conference you kindly had with me last night, namely, that I consider the conditions you understand to be necessary for the rebelling army to lay down their arms contrary to my personal dignity and the prestige of the government over which I preside, and that I accordingly decline to accept the irrevocable decision to present to congress my resignation of the office to which I was appointed by the will of the Cuban people at the last presidential elections."

30 FAMILIES BURNED OUT IN A MONTREAL SUBURB

Fire Destroys Fourteen Buildings, With Loss of \$100,000—Water Pressure Weak.

Montreal, Sept. 26.—(Special).—Fire destroyed 14 buildings, either wholly or partially, in St. Louis de Mile End this afternoon, and rendered some 30 families homeless, with a total loss of \$100,000.

It was about 2.30 p.m. when flames were seen issuing from the yard of Mme. Belanger, whose house stood at 1706 St. Lawrence street. Some children were playing there at the time, and it is supposed they were attracted to the fire, which spread to some wooden sheds, then to a large stable owned by Mr. J. P. Gauthier, and that the fire spread to the main street.

Montreal was then called on and relief sent. Both brigades worked all the afternoon, but were unable to get under control. On the west side of the street the fire continued to burn like a furnace, and the buildings there were built of brick, the roofs continued to glow like the original structures were nothing but a mass of ruins.

The fact that the water pressure was so weak that it was difficult to fight the flames was a great help to the fire.

So far as could be learned to-night, the loss was as follows: M. Paquette, \$25,000; J. B. Belanger, \$20,000; Mme. Belanger, \$10,000; G. Desautels, \$5,000; M. Desautels, \$5,000.

This does not include the losses by tenants, which would amount to \$250,000 more. The larger property-owners are well insured, and to a certain extent so are several of the tenants.

Altho 34 families have been rendered homeless, there is no special distress, each being able to find relations to house them for the night. All furniture saved, and the names of the owners were furnished, guarded by specially sworn constables.

It's Hearst and Hughes For N.Y. Governorship

Candidate of Independence League Overwhelms Opposition at Buffalo Convention—Republicans at Saratoga See No One in Race But Insurance Inquisitor.

Hearst 309  
Sulzer 124  
Dix 17  
Necessary to choose, 226

Convention Hall, Buffalo, N. Y., Sept. 27.—William Randolph Hearst has been nominated by the Democratic convention.

The voting for governor began at 1.45 a. m. Albany County led off with 9 votes for Hearst.

The vote for governor, first ballot: Hearst 309, Sulzer 124, Dix 17; necessary to a choice 226.

The announcement of the Hearst vote was received with a groan, which was quickly hushed, however, to hear the vote of the candidates.

At 1.59 a. m. Chairman Nixon declared William Randolph Hearst officially the candidate of the Democratic party for governor.

There at once began a general exodus of spectators from the hall. The others on the ticket are: For lieutenant-governor, Lewis Stuyvesant Chanler of Dutchess.

For secretary of state, John S. Whalen of Monroe.

For state comptroller, Martin H. Glynn of Albany.

For attorney-general, William S. Jackson of Erie.

Saratoga N. Y., Sept. 26.—The Republican state convention adjourned sine die at 1.23 p.m. to-day, after nominating the following state ticket:

For governor—Charles E. Hughes of New York.

For lieutenant-governor—Matthew Linn Bruce of New York (for re-election).

For secretary of state—John P. O'Brien of Dutchess (for re-election).

For comptroller—Merton E. Lewis of Monroe.

For attorney-general—Julius M. Mayer of New York (for re-election).

For state treasurer—John G. Wallenmeyer of Erie (for re-election).

For state engineer and surveyor—Henry A. Van Alstyne of Columbia (for re-election).

William Randolph Hearst was nominated by acclamation, without opposition of division of any kind, and amid notable enthusiasm.

Endorse Teddy. The platform adopted endorsed the administration of President Roosevelt, who "has fought the battles of the plain people so courageously, and whose name is an inspiration in every state campaign and heartily commended the courage and fidelity of Governor Higgins, whose administration passes into history as one of the greatest administrations of New York."

It pledges the party to a faithful enforcement of the new insurance laws and the legislation preventing corporations from making political contributions.

WATER SUPPLY FIRST.

Winnipeg May Put Off Proposed Power Program.

Winnipeg, Sept. 26.—(Special).—Cecil B. Smith of Toronto, who is to undertake the construction of the city's municipal power system, arrived last night on a special train from the east. He will meet members of the city council to-morrow morning to arrange terms and to discuss the problems of construction.

It is possible the power scheme may be postponed. It is felt that a better water supply is more urgent than cheap power, and if the city decides to go ahead with the bringing of water from Shoal Lake, the power plan will be put off on account of it involving too great a financial burden.

WON'T TELL COMMISSION WHO FOWLER SHARED WITH

ORANGEMEN WAX CRITICAL PARADE CHANGES DESIRED

Cut Out Gaudy Uniforms in Church Procession and Have Fewer But Better Bands.

Criticism fell to the lot of the Sovereign Grand Lodge, I.O.O.F. local committee, at the hands of the Centre District Orange Lodge last night, when a resolution was passed protesting against the American flag being allowed to fly over the exhibition grounds.

The members must have been in a critical mood, for even their own order did not escape. It was recommended to cut out the bands in the annual church parade, or if music was considered necessary, it must be furnished in a gaudy uniform of purple and yellow.

A reconstruction of the order of 12th of July parades was also discussed, altho no action was taken as the matter must be dealt with by the county lodge. It was suggested that the line should be uniformly four or six abreast instead of being as wide as the county society more compact and at the same time doing away with superfluous bands. This would afford an opportunity to secure superior talent, as well as add greatly to the appearance of the pageant.

SEVERN VILLAGE BURNED.

Entire Business Section Wiped Out by Fire.

Severn, Ont., Sept. 26.—At noon today fire broke out in the Severn Hotel, and before it could be gotten under control had wiped out the business section of the village. Losses and insurance are as follows:

Severn Hotel, \$250,000; insurance \$2000.  
W. H. Miller, merchant, \$3000; insurance \$5000.  
J. H. Keeler, merchant, \$3000; insurance \$2000.  
A. Keeler, butcher, \$2000; insurance \$600.  
C. Beatty, residence, \$1000; no insurance.  
Orange Hall, \$1000; insurance \$600.  
Total loss, \$22,000; insurance, \$14,200.

The Gravenhurst fire brigade arrived at 1.30 p. m. and rendered yeoman service.

DEVASTATED BY TYPHOON.

Many Towns on Luzon Island Are Wiped Out.

Manila, Sept. 26.—The Cagayan Valley, in the northern part of the island of Luzon, was devastated by a typhoon Sept. 16. Barrios, Gallaran, Arhang and Bagao were totally destroyed and other towns were seriously damaged. Cagayan is the principal tobacco section of the island, and the crops were practically destroyed. Some loss of life is believed to have been slight.

A typhoon in Lagran Province, Island of Luzon, Sept. 22, destroyed a number of roads, damaged the crops and caused about \$150,000 damage in the towns situated in the path of the storm.

C.N.R. CAR SHOPS.

Ground Broken for Works on Large Scale at Fort Rouge.

Winnipeg, Sept. 26.—(Special).—The Canadian Northern Railway has started work on its Winnipeg car shops in Fort Rouge. The report that the company will locate parking beyond the necessary shops for repairs on western lines here and that the main shops will be built in Toronto or Montreal, is not credited here.

The preparations are on a large scale.

Want the Real Gold

No Silvery-Voiced Imitators Can Persuade the Man Who Knows

Perhaps the strongest "reason why" for Semi-ready tailoring is the spasm of imitation which nearly every ready-made clothier in Canada is adopting.

Without any reorganization or change of ancient methods in their factories the imitators proclaim their product "as good as Semi-ready."

Their inferiority is quickly apparent. They do not reckon on the trait in human nature which calls for the genuine.

The buyer who can get the genuine "Semi-ready" will never be satisfied with an experimental imitation.

"Semi-ready" tailoring to-day commands higher prices than many merchant tailors can get, for it is better than they can make.

Suits labelled Semi-ready suit as high as \$30 and at \$25, \$20, \$15.

The price of each garment is fixed by the makers.

Only two places in Toronto where you can get the real Semi-ready—81 Yonge-street and 472 Queen-street west.

THE MARK OF SURETY

SPORTS OF ALL SORTS.

Officials Agreed Upon For Toronto-Tecumseh Game, Saturday.

The officials for Saturday's big game between Toronto and Tecumseh will be...

The Young Toronto Lacrosse Club will hold their annual meeting...

Steve Val, the lightning fast center forward of last year's Barrie hockey team...

Mitchell, Young Toronto's star goalkeeper, will be in the line-up...

Len Leclair, the Brockville player, has been out to practice with Peterboro...

Bruce Ridpath, the crack Marlboro hockey player, will secure a position in the Ontario team...

A meeting will likely be called soon to arrange the Toronto Bowling League schedule.

It is expected one of the best-known hockey players in the country will turn out with the local next week—Peterboro Review.

Whitford, the crack Peterboro hockey player, is reported to be going to Kenora to take the place on the Manitowishigaming line-up.

Montreal papers complained last year of the defections on the Stanley Cup when handed over to the Wanderers by Ottawa.

Stand a bottle of Port Hope Ale on its head and no sediment clouds its clear perfection.

That's how it really is

good ale —this!

Made of Highland Spring water, rich Canada malt and Kenish hops—honest, old-time good ale, this!

Port Hope Pale Ale

Ripened ale, too—'twon't you build 'em? Women like it, it builds the body.

Your dealer ought to have it in quarts and pints—be sure about the name.

THE PORT HOPE BREWING AND ICE FACTORY

Port Hope, Canada

Miss Wilson and Miss Cochrane doing excellent work in the shop and office.

The exhibits of Cotswolds and Shropshires were well contented.

John and Wm. Balson of Whitby took the Cotswold prize.

Shropshire ribbons, in Leicester, Alan Bros. of Oshawa, were the only exhibitors.

They had fine sheep.

In bacon hogs, the Yorkshires were most prominent.

There were two options signed—one the true one and the other overvaluing the amount.

Then the other \$55,000 must have gone to the bank.

"If that is true, we must have swindled out of \$55,000, and the man who got it must account for it."

There was no investigation, and our solicitor has been instructed to take the necessary steps to recover such funds.

"Have you any knowledge of this latter deal—similar to the others?"

"I don't know, but I have absolutely no discussion of re-sale in my presence."

"Did they take away both options?"

"I think so."

"What was done with the \$200,000 option?"

"I don't know, Mr. Ryan gave it to me to keep for him."

Witness explained that the purchase, further negotiations developed, which terminated finally in an agreement.

When the Price Dropped.

WON'T TELL THE COMMISSIONERS

Continued From Page 1.

ed to take the money out, but had decided to leave it there, in order to secure the additional 1 per cent interest.

"It might be thought undesirable for the I.O.F. to control the Trust Company," suggested Mr. Shepley.

"Yes, and as soon as our money is paid us we shall relinquish the stock to you," said Mr. Shepley.

"I should like to say, the Trust Company will pay a 5 per cent dividend and add \$100,000 to the surplus."

Two Options; Two Prices.

In the afternoon R. C. Levesconte, barrister, was first called.

He did not know how he got into the transaction, he knew Ryan had some limits for sale, and was looking around to see if he could find a purchaser.

Mr. Shepley wanted to see the documents, but he had no intention of buying them.

Orders taken by all newsdealers and postmasters or may be left at The World, 83 Yonge St., Toronto.

CANADIAN REPRESENTATION AT WASHINGTON.

Just now the relationship of the self-governing states of the empire to the mother country is in a fluid condition.

True to precedent the development of the Imperial fabric proceeds without reference either to theory or logic.

In this it parallels the constitution of the United Kingdom itself, which defies analysis and refuses to be bound by the conclusions of theorists.

Many observers, both British and foreign, have in their day and generation digusted imminent constitutional changes and have prophesied that the nation could not survive them.

But they came all the same, and the machinery of the state readjusted itself without any very serious friction.

The fact is that absolute arguments of the nature affected by abstract reasoners ignore altogether the personal equation furnished by the British people themselves.

In matters political and, indeed, in all affairs, great and small, compromise is the law of the national life.

fiduciary matters, the lot of a director, who has been too busy to direct, is not a joyous one.

It is not in human nature to fall to sympathize with the director who has been caught napping, but sleep is not an excuse for duty undone.

The director who intentionally has failed to direct, the punishment should and will fit the crime, but for the director who unintentionally failed to direct, the public is prepared to show some mercy.

Yet, no mercy can be shown unless the hapless director is ready to show fruits fit for repentance.

If, in failing to direct, the director has jeopardized and even lost the funds of those who trusted him, while taking care that he lost nothing himself, there is but one thing for him to do, and that is to return the money he has made.

We would go so far as to say that regret expressed for neglected trusteeship is mere idle talk, until the director's personal monetary gain is returned to those to whom it rightly belongs.

Regret is all right in its place, but regret without return is dress. Regret requires no effort, but returning the rake-off is hard.

The weak man expresses regret; the strong man cashes in.

We believe there are directors of institutions that have not passed unscathed under scrutiny of the insurance commission, who are beating about to find a course by which they may rehabilitate themselves in the confidence of their friends and their fellows.

We have charted the course, and wait for the first director to take it.

TRUST THE PARLIAMENT. The London Advertiser is in great distress about the constitution. It prints a paragraph from a recent editorial in The World respecting the great injustice being done the Province of Manitoba.

It is pleased to attribute the editorial in question to the member for South York. It seems that he is a terrible fellow to question the perfection of the B. N. A. Act.

"Mr. Maclean is asking the people of Canada to do many new and wonderful things," concludes The Advertiser, "but they draw the line at letting him throw the B. N. A. Act into the melting-pot."

Sir Wilfrid Laurier has pinched the B. N. A. Act until it is black and blue. It was he who again brought its provisions into question, if not into disrepute, by the autonomy bills of 1905.

In these assaults upon the constitution he was vigorously aided and abetted by The London Advertiser, especially in the London by-election.

But certainly, Mr. Maclean, a member of parliament, has a right to form and to express an opinion respecting this or any other act; and so, for that matter, has anyone else.

And The World is free to repeat that Canada should have her own parliament, subject to the royal veto, unfettered by acts of the Imperial parliament.

The United States is being destroyed today by the rigidity of its written, and to some extent obsolete, constitution. Let Canada develop freely along the lines of least resistance.

Public opinion is the best restraint upon the legislature. Britain has no written constitution; why is one so essential for Canada?

Every day this hard-and-fast constitution will bind closer and become more irksome. Let essentials be agreed on as to provincial rights and in unmistakable language; then let the parliament of Canada be, in fact and in spirit, the high court of the nation.

Can we not trust our parliament? THE TEXT BOOK INQUIRY. Public approval will be extended without reserve to the determination of the chairman of the government text book commission to make the enquiry complete and searching in every respect.

The proceedings so far as they have gone demonstrate the propriety and advantage of conducting such investigations in the full glare of day.

Already more good has been done to the cause of honest and straightforward dealing, and more benefit will accrue to the people than endless private commissions could have effected.

Some interesting sleighs have been cast, too, on methods and practices which only need to be known to meet with that general condemnation which is the best preventive of future misdoings.

Incidentally the sitting yesterday provided an example of the higher standard of commercial morality which undoubtedly exists in Britain. A sample of the schoolbooks in use in England was produced, and an expert witness declared "that book will last forever."

Perhaps to absolute a pronouncement, but one which will not be misunderstood. Subjected to an acid test the English paper remained unstained, while too many of the Canadian volumes turning "as brown as sugar"—presumably unrefined—condemned themselves.

One would find hope that these defective specimens of native handwork were the exception, but the result, judging from previous revelations in other lines of business, is apparently part and parcel of a prevalent lack of the moral sense in commercial affairs.

Emerson in his "English Traits" published just half a century ago, referred in eulogistic terms to the thorough characteristic of English methods, and, indeed, excellence and durability are still looked for from British work-shops.

Whether that reputation is as fully maintained as it was earned may be questionable, but that British commercial morality still reaches a high comparative standard is universally conceded. In its survival lies the best warrant for the continuance of British industries.

Dishonest practices exist there as elsewhere, but no evidence is procurable that the commercial and

Industrial community of Britain have come to regard the state and the public as the proper subjects of a general system of graft and plunder.

For the evils from which Canada and Ontario suffer, publicity is the surest remedy, and on that account Mr. Crothers' conduct of the school text book commission is not only commendable in itself but forms an admirable precedent for future chairmen to emulate.

HEARST FOR GOVERNOR. Altho no outsider can penetrate the mysteries of the federal and state politics of the United States it is quite safe to say that William Randolph Hearst owes his nomination as Democratic candidate for the governorship of New York State to the hold he has obtained on the electorate.

If the further question is asked, how that hold was obtained, different answers would doubtless be given, with more or less truth. But the main factor has certainly been the revolt of the people against the trusts and the feelings, vague perhaps, and more emotional than arguable, that have inspired them.

The important feature of the nomination is that it has been wrung from a really hostile machine in deference to the evident state of public opinion. It is a tactical move on the part of the big gang to retain the support of the independent leaguers and the chief point of interest is what are the terms which have allied Tammany Hall and the Democratic nominee.

No one has any faith in the disinterestedness of the Tammany organization, and Mr. Hearst will need to be a man of exceptional strength of character and administrative ability if he is to carry out his program. He may be the man of destiny—if he is not, one will in due time be found. Until he is, the revolt of the people against their political masters and the trusts, which control them, will not be downed.

MORE ABOUT COAL. Editor World: In your issue of Thursday, 18th inst., I notice a commendation on coal from "A Country Dealer," who seems to possess a technical and general knowledge of coal and of the situation not altogether characteristic of the average country dealer.

He says that the coal has been dumped in the dumping ground for the products of United States coal mines, and either ignorantly or good-naturedly dealers have accepted it as a bona fide coal. Unfortunately, there is too much truth in that short paragraph, but what are we to do?

I found it with a consignment of coal from one of the big line companies, as I knew I would have trouble with my customers, and was told to get it out of my hands as soon as I could; from another of the big companies thru the banishment of a Yankee representative, and was further harassed by the first big dealer, who had a large order nearly paralyzed me; so what are we to do? No use buying from brokers, they are supplied by the same source, and the only other outlet for goods even inferior. One company with a high reputation for clean coal, nicely prepared and always raised, is compelled to sell only on ground allotted by arrangement, where the output agreed upon is guaranteed, and the price determined by the consignor would not be likely to overreach the approximate limit specified.

Now, if this be true, it's a strange position for the so-called "independent" operators, without carrying control, and independent only in name, and leaves the dealer at a considerable loss, much at the mercy of the arbitrary, tyrannical dictatorship of a family compact—a principle, professing so "ethical" business, to a board of "scrubbers," who are wont to proclaim the untrammeled "virtues" of the "constitutions" of the great "Municipal Republics."

"Country Dealer," in his reference to the "reliability" of the coal, is referring to the consumers use coal circulars, mostly for blending purposes. They are seldom read unless in districts almost outside civilization, where there are no ways of burning sulphur, as advertised in "cheap coal" circulars, quite as profitable as watching its revolutions on a grate-bar, and with the inorganic forming a home in the clinker.

Buffalo and Detroit have played the mischief with the Canadian coal market, and the coal is being sold at other of these brokers' haunts on the border, but I smelt sulphur—a fact prophetic, significant! To get a "reliable" grade of coal, from some of these people would certainly be a miracle.

Children, and then office boys—sons, brothers and sons-in-law (to keep any name), inoculated with the vernacular (Yankee-bank), sent over here to lecture to the "Indians" on coal, and finding dealers who know more, practically and theoretically, about coal—hard and soft—than such representatives could ever hope to know; these fellows are made to appear simply ridiculous.

With "Country Dealer," we think the day of coal is nearing its close, but trust that if the demand for an article of commerce so valuable in the east should long continue a mutual confidence may be established, but value may be had for value given in both anthracite and bituminous coal, and the best of feeling pervade from producer to consumer.

Truly appreciating the successful efforts of The Toronto World in electing the thinking "emancipator" of the "emancipator" of daily readers in all parts of Canada, I remain, City Dealer.

STILL A BAPTIST. "World": My attention has been called to a statement in your report of the laying of the corner stone of the Tabernacle Church to the effect that we have "succeeded" from the "Church." My statement places me in a false position, so will you kindly carefully read the report of your valuable paper, and you will find that I am a duly accredited Baptist minister in full sympathy and accord with the denomination of a church that has not asked for denominational recognition.

W. H. Allen, Pastor Tabernacle Church, 22 Barton-avenue.

AT OSGOODE HALL

ANNOUNCEMENTS.

Master's Chambers. Cartwright, master, at 11 a.m. Single Court.

List of cases set down for hearing before Mr. Justice Teetzel at 11 a.m.: 1, Re McNab estate; 2, Northern Can. Co. v. McPhee; 3, Taylor v. Lindsay; 4, Robert v. South Western; 5, Robert v. South Western; 6, Beattie v. Dickson; 7, Beattie v. Dickson; 8, Harrison v. Cornell; 9, Davies v. South Western Bank; 10, Howell v. Powell; 11, Geuph & G. Railway v. G. T. Railway.

Divisional Court. Peremptory list for hearing at 11 a.m.: 1, Miller v. Beatty estate; 2, Harris v. Wright; 3, Cameron v. Ross; 4, Miller v. Beatty estate; 5, Rex v. Union Life.

Court of Appeal. Peremptory list at 1 a.m.: 1, Fairbairn v. Township of Sandwich South; 2, Re Port Arthur and Rainy River; 3, Brown v. Kennedy; 4, Culverwell v. Campbell.

She Wants the Money. Handwritten note: I have a writ against the Canadian Order of the Woodmen of the World for \$1000 upon a policy of insurance upon the life of Miss McKeen, deceased.

Wants the Lien Removed. John G. Edgar, a contractor, made a contract with houses 20 and 202 Dundas-street and some trouble arising over the payment for the work caused a mechanic's lien to be filed against the property by the owner to have the lien removed.

Need Not Answer. W. J. McGuire, compelled to answer certain questions asked him on his examination for discovery in his action against the Cobbin Manufacturing Co., a balance alleged to be due him for work done.

Met With an Accident. Wilbert Burtch, a lad ten years of age, living in Orangeville, while on an errand, was crossing John-street in that town when he was run into by a hand-car being used by employees of the C.P. & O. Railway.

Upon presenting the certificate of the Law Society as to his qualifications, William Hill Wark, was on the 26th inst. admitted to the bar of the Supreme Court of Ontario.

Three suits were launched against one of the Osgoode Hall yesterday. The company is the E. A. Bryan Company of Illinois, doing business at Toronto, Ontario. The suits are brought by W. F. Bryan, Lucy G. Bryan and E. A. Bryan to recover sums aggregating \$18,000, alleged to have been advanced.

National Trust Co. Appeal. Judgment has been reserved by the court of appeal in the action of Charles A. M. Paradis against the National Trust Company. "Father" Paradis, a colonization agent, in 1888, with some others obtained a charter to construct and operate a railway and went to the various institutions of the province, and in 1900 one Bremner represented to Paradis that he had acquired the charter of the Ontario Chartered, and as he was about to leave for England to dispose of the charter he induced Paradis to sign a contract, promising that when the charter was sold he would repay \$10,000 to Paradis. The suit is for the \$10,000.

A RARE CHILDREN'S TREAT. The Automobile Club arrangements for the children of the city, in the homes of the Boys' and Girls' orphans' homes, the Protestant Orphanage and the Protestant Home, are complete. Some 80 cars have been volunteered for the conveyance of the children, who will be called for at the various institutions about 10 o'clock. An hour later all the cars are due to meet at the guns in the Queen's Park where each child will be presented with a Union Jack. From the guns the children will be driven in procession down Queen-street-avenue to Queen-street, thence to Simcoe, down Simcoe to King-street, east to Yonge, up Yonge to Cross-street, thence to Dundas-street into High Park, thence to the Lake Shore-road, to King-down to Dufferin-street, thence to the grounds, where a plentiful luncheon will be provided and a series of games take place. Each child will receive some kind of a present in addition to the prizes given for the various institutions.

With H. Ballard, school inspector of Hamilton, stated that in his district the board sold the books to the children.

INVAULIABLE FOR NURSING MOTHERS. With nursing comes an unceasing strain on the mother's vitality. The blood is weakened. Nerves are irritable through loss of sleep. Anxiety and care break down even the strongest. Experience teaches that nothing is more helpful than Ferronze. What an appetite it brings! No blood-former or nerve tonic more potent, no medicine known that so steadily brings back the health, vigor and spirit that mothers require. It's because Ferronze nourishes, because it supplies the materials for rebuilding that it does such permanent good; 50c per box at all dealers.

Bargains for Men and Boys

The least we can say about this list of bargains is that every item in it deserves your careful perusal and after that your quick buying attention.

- Men's Clothing. 10.00 and 12.50 Suits for 6.95. Scotch tweeds—stylish patterns in browns and greys; for single suit; storm collars of Persian lamb—rich even glossy curl. Four-in-hands—pink, blue and black—neat stripes. MAIN FLOOR—QUEEN STREET.

THE T. EATON CO. LIMITED

BINDING AND PAPER USED DECLARED TO BE INFERIOR

Expert Evidence Given Before Text Book Commission—Bookbinders Reputed Work Done.

The text book commission was in session yesterday and will convene again next week. Yesterday's session was rich in results. Alex Buntin, paper manufacturer, recalled the testimony before the commission of 1897. He had tested the paper then used in the school books and found it of inferior quality. The testimony before that commission had established that the paper was not up to contract, that it contained no rag and was made of ground wood pulp instead of rags and sulphide as required. He could not understand how the commission had been able to report, as it did, that the paper was durable and of excellent quality. The testimony before W. C. Flint, a book-binder of thirty years' experience, testified that he had been for some years foreman of W. J. Gage & Co. He did not consider wire-bound books as complying with a contract calling for "properly bound books." Wire was used for cheapness, he said, but did not keep the sections together. Nothing was so satisfactory as hand-sewn books.

The improvements that he suggested would increase the cost of the books about 11-12 cents. "It costs 9 cents to bind the readers in their present style," he declared, "everything complete, and includes 2-1/2 cents for a student's copy of the book. The use of stronger end-paper would minimize the breaking away of the books."

Condemned By Union. The Toronto Bookbinders' Union had repudiated the binding of the school books, and a resolution upon the bookbinders of Toronto. He had not protested to his employers, Gage & Co., as the school books, while he was their foreman, and did not know who their contract was with the government.

J. F. Ellis of Barber & Ellis, paper manufacturer, testified that the paper used in school books should be 25 per cent rag and 75 per cent sulphide of wood, and that the paper used in the books now furnished, was inferior; it contained no rag.

W. H. Ballard, bookbinder at Brown & Co., testified that if old binders were used it would solve the problem of loose books.

James L. Hughes described the workings of the free text books system in the public schools of Toronto. It was most satisfactory. The children took good care of the books; they were rebound and thus lasted several years.

W. H. Ballard, school inspector of Hamilton, stated that in his district the board sold the books to the children.

Special New York Excursion. Thursday, Oct. 4. Tickets good 10 days, and only \$1.50 for round trip from Suspension Bridge via Lehigh Valley R.R. Take in Vanderbilt Cup Races. For tickets and Pullman call L. V. R. office, 10 East King.

Special to Hamilton Race, 1.30 p.m. Direct to Track. And rate of \$1.50 for round trip, going Sept. 25 to Oct. 2; returning Oct. 4, via Grand Trunk Railway. Secure tickets at city office, northwest corner King and Yonge-streets.

Holt, Renfrew & Co., 5 King St. East. Sole Agents for Toronto.

Money cannot buy better Coffees than Michie's finest blend Java and Mocha, 45c lb.

IMPORTANT TO YOU! FOR A SURE THING

the proper stock to buy is in the Peterson Lake Silver Cobalt Mining Company, Limited.

Because his company owns one of the largest and best locations in Ontario, in the centre of the great Nipissing Mines, and because it is surrounded by and almost in the centre of the Nova Scotia, it also carries the veins of the Nova Scotia, which has shown such good results lately.

Because the stock of this company has not yet been offered to the public, being practically a close corporation, but when it is offered, which is likely to be soon, the same sharp advance may be looked for as in the Nipissing stock.

Secure a little of this stock without delay and make quick money. This is not considered a speculation. Only a small amount can be had.

For prices and all information apply to J. CURRY COMPANY, LIMITED, Bankers and Brokers, Manning Arcade, 24 King-street, West, Toronto.

WHITE BEAR. Why pay ten cents (par value) for eight cents when you can buy from me nine and one-half (9 1/2) cent stock (i.e. eight (8) cents per share)? Only one more call of one-half (1/2) cent per share can be made on this stock, and which the company will not accept, so to make it fully paid and non-assessable, and from the present prosperous condition of the mine will not likely ever be made.

Send one (1) to one and one-half (1 1/2) per share by sending me your order. Will sell in lots of five thousand (5000) shares and up. Apply P.O. Box 162, Toronto.

KING EDWARD DOOR. Answer to C. A. Watson: The door at the main entrance to the King Edward Hotel is a revolving door, and is operated by the persons who pass thru it, except in summer, when the wings of doors are folded flat against the sides. The heavy work is done by the guards at the hotel in green with gold trimmings.

METHODIST YOUNG MEN TO HAVE CHURCH CLUBS

Forward Movement Adopted by General Conference—Minimum Salary Cut to \$750.

Montreal, Sept. 26.—(Special.)—When legislators have radical measures in hand they are apt to hold their opposition...

Whether by design or not, a number of important changes, upon which it was expected considerable opposition would have been aroused...

Brotherhood Association. A proposed department covers much the same ground as the Episcopal Church St. Andrew's Brotherhood...

Public service enterprises are then defined and declared to be a legitimate field for government control.

Such public improvements as the Erie Canal, highways and forest preservation are advocated.

Atrocities against the Jews in Russia are condemned, and sympathy is expressed for the Jews in Poland and Russia.

The final plank in the platform is the repeal of the law which prohibits the sale of liquor to the public.

Utterly flabbergasted, the learned principal sat down, gasping, "Why not? Why not?"

The point was the default of the eastern Bookroom to pay certain sums in behalf of the salaries of the Wesleyan.

Dr. Carman is thought by some to be rather arbitrary, but his impartiality is noticeable to an outsider, and but for his vigorous rule the Methodist movement might easily sit for a month.

The young people's forward movement occupied some time. Dr. F. C. Stephenson was elected secretary and raised in rank to that of general superintendent.

The new constitution takes effect next July. Dr. Sutherland and N. W. Rowell had arrived at perfect agreement on the relation of the two assistant or field secretaries.

Following are the regents of Victoria University: Justice MacLaren, Senator Cox, James Mills, L.L.D., A. E. Ames, C. D. Massey, R. A. Reeves, M. H. E. Wood, E. R. Wood, H. H. Fudger, F. J. Small, N. W. Rowell, K. C. M. Justice Britton, Revs. Dr. Pettis, Dr. Ryckman, Dr. Briggs, Dr. Withrow, Dr. Ross, Dr. Dyer, Dr. Cleaver, E. N. Baker, James Allen, Jasper Wilson, A. H. Goring, W. A. J. Irwin.

Princeton, N. J., Sept. 26.—While carrying the ball over for a touchdown in a practice game of football at Lawrenceville, John Kennedy, the captain and right half-back of the Lawrenceville eleven, was kicked in the head.

NEW YORKER ARRESTED.

Has Been Living Gaily in and Around Toronto.

At the request of William McLaughlin, chief of the New York detective department, Detective Kennedy last night arrested Maxwell H. Byrd, who gave his address as 134 Pearl-street, New York.

Byrd has been in Toronto, and has been having a fairly good time, taking in the races, theatres, etc. He was over to the Hamilton track yesterday. Tickets which he failed to cash show that he books got about \$75 of his money.

When he went to Hamilton he took with him a young woman, whose home is in Toronto Junction. He told his girl he had \$4000 "planted" somewhere. She was detained at headquarters with her father and brother came for her.

Byrd says he will go back without fighting extradition. His home is supposed to be in New York. He also had in his possession a badge, reading, "Licensed detective, State of New York, No. 207."

DEMOCRATIC CONVENTION

Continued From Page 1. minutes, John A. Dix of Washington County, a manufacturer, has also been named for governor.

The main has been marked by extreme bitterness, Mr. Hearst being arraigned and denounced roundly by a number of the speakers.

The Democratic platform first devotes several paragraphs to defining the nature of government, and then to prevent any form of favoritism.

Public service enterprises are then defined and declared to be a legitimate field for government control.

Such public improvements as the Erie Canal, highways and forest preservation are advocated.

Atrocities against the Jews in Russia are condemned, and sympathy is expressed for the Jews in Poland and Russia.

The final plank in the platform is the repeal of the law which prohibits the sale of liquor to the public.

Utterly flabbergasted, the learned principal sat down, gasping, "Why not? Why not?"

The point was the default of the eastern Bookroom to pay certain sums in behalf of the salaries of the Wesleyan.

REPUDIATES CHARGE.

Mr. Marshall Denies Connection with Orwell Hotelkeeper.

St. Thomas, Sept. 26.—David Marshall, Conservative candidate in East Elgin, has issued a statement repudiating the charge of circulating or encouraging scandal.

The charge that he paid off a hotelkeeper at Orwell to pay a sum of money to secure his assistance in blackmailing Mr. Hopburn, candidate of the Liberal party, he characterizes as false.

When he heard what had taken place in the Orwell Hotel, he expressed the hope that no one would repeat the story and took steps to prevent it becoming more public.

The official nominations take place to-morrow at Aylmer.

THEORY IN NEW YORK MYSTERY

Armenian Arrested for Murder of Brother.

New York, Sept. 26.—Aaron Tashjian, aged 22 years, was arrested to-night, charged with connection with the murder of his brother, Marhar Marhar, 36 years of age.

The arrest was made on the theory that it was the brother's body which was found dismembered in an excavation of West 36th-street Sunday.

Mrs. Josephine Benes told the police to-night that the victim was her husband, Joseph.

STRUCK BY HOIST WEIGHT.

Wm. Kilner Probably Fatally Hurt at Canada Foundry.

There is but small hope for the recovery of William Kilner, aged 40, of 340 College street, who is in St. Michael's Hospital with a compound fracture of the skull.

Kilner was working at the Canada Foundry Company yesterday afternoon when a heavy weight in connection with the hoist fell about 25 feet and struck him on the head.

Operation was performed, but last night he was very low.

CHRISTIAN SCIENTISTS AND LAW.

Editor World: I have noticed in your issue of Sept. 16 the opinion of the jury that a law should be enacted to bring Christian Scientists under subjection.

To do this would be an invasion upon the rights of a body of people who are striving to obey the law of God, actually forcing them to violate the commands and teachings of Christ Jesus, who commanded his followers, not only to preach the gospel, but to heal the sick also.

The Scriptures plainly show that this healing should be wholly spiritual, for it was some of our scribes who said that he never used nor recommended the use of drugs in healing.

Christians believe that the commands of the master are perpetual and that they must be made practically here, and now, and for all time.

It is evident that it is not the people as a whole who wish to legislate against Christian Scientists, and it is only just to say that we respect the freedom of the Christian Scientist, a large number of us, conscientiously striving to the best of their ability to relieve suffering mortals.

Therefore, to legislate against these people would interfere with their full freedom of their enjoyment of health and prevent their obeying the Scriptural command, viz.: to bear one another's burdens, and so fulfil the law of Christ. Such an enactment would prevent one Christian Scientist enjoining on another for help in time of need, and force upon him methods objectionable to him and contrary to his good judgment.

Chas. G. Manness, Publication Committee for Ontario, London, Sept. 23, 1906.

ST. KITTS MAN KILLED.

Detroit, Sept. 26.—Henry Winger, 23, cook in Gies' restaurant, fell from a second-story window in the restaurant about 2 o'clock this morning, sustaining a fracture of the skull which caused his death three hours later.

It is not known how Winger fell, as no one was with him at the time. His relatives live in St. Catharines, Ont.

SABINE RENEWS CAMPAIGN.

Francis J. Sabine, poet, and John Delaney, philosopher, appeared before the public last night as men wielding the muck rake.

It was late in the evening when the poetry was let loose in a lot on Legislative street, near Queen-street, and the audience of a scattered few seemed to find revulsion in sensational features here.

CONCERNING STREET PARADES.

Editor World: I noticed that most of the city papers had an editorial regarding the parade of the Oddfellows.

The parade of last Wednesday had taken place in the city. How is that? The parade was booked for Wednesday—they announced it as the chief attraction of the Oddfellows' convention.

VALUABLE COBALT MINES.

Editor World: The great mines of Potosi, added \$1,500,000,000 to the stores of the precious metals.

The Rand is now in the vicinity of \$1,000,000,000. The Keweenaw Peninsula has been found to contain the same values in copper.

Then there is Butte, Montana, and the Black Range district in Arizona, both important producers. The Cobalt lode gave \$25,000,000 in gold and silver.

But Cobalt may eventually head the record. Its peculiar feature is the unproved lode of a single vein of valuable values of its ores.

Generally speaking, there are one hundred times richer than the average. For this reason a very modern, ornamental, and surprisingly valuable product.

One million tons of ore at \$200 per ton would be worth \$200,000,000. The Cobalt lode is estimated to contain an aggregate of one million tons of the highest grade.

Let us assume a single vein of one million feet long, one foot wide and 500 feet deep—1000x1000x500=500,000,000 cubic feet. There are about 674 feet in the ton.

Then there are about 674 feet in the ton. Then there are about 674 feet in the ton. Then there are about 674 feet in the ton.

INDEPENDENT COMPANY, UNDETERRED BY PAST REBUFF, WILL AGAIN BACK THE MONOPOLY.

Everybody who is in close touch with political affairs in Connecticut knows that the incoming legislature is to be asked to consider the problem of telephone competition which occupied so much attention during the last session of the general assembly.

The New Haven, Connecticut, Leader, The Southern New England Telephone Co. now has a complete monopoly. The law keeps out everybody else. An independent company was refused the right to string wires and do business in Connecticut.

Defeated in the last session of the general assembly, the independent company proposes to try again and has begun effort in systematic fashion and has begun early to-day. The New Britain Herald calls attention to the extraordinary growth of the independent telephone companies.

An account of which appears in a pamphlet recently published in Providence, R.I., in the interest of the Telephone Company of Connecticut. In two years increased its subscribers from 10,000 to 20,000, so great a growth has caused it to present to the legislature its only obstacle is the great variety any business can have—its market is unlimited. When the Telephone Company began its operation, the Bell company had only 400 telephones in use; since then there has been the usual reduction in rate which every city has come with the mere threat of competition.

Now there are 48,000 telephones available in both companies. The Philadelphia Telephone Company, organized and offered by business men of standing, increased its instruments by 25 per cent within one year, having 15,000 subscribers in 1905 and 20,000 this year. The Wilmington, Del. company doubled its subscribers in one year, from 10,000 to 20,000. In Minneapolis and St. Paul, the growth was no less than 43 per cent within a year. In Los Angeles, the most widespread competition on the coast, the increase in independent telephones has been nearly as great—40 per cent.

The greatest growth in any one state has been in Ohio, where the independent telephones have 240,000 telephones to 110,000 Bell telephones, with 670 exchanges. The independent telephones in Cincinnati alone is there a monopoly. The mayor of Columbus declares that, owing to competition, the independent telephones are an absolute business necessity to-day.

With this independent development has everywhere come a reduction in the rates of the Bell companies. In Cleveland, before competition, the cost of a long distance telephone call was three cents. Today it is 1.5 cents, and both systems are making satisfactory profits. But the most striking evidence of the changes made by competition is found in the following table, compiled from the published statistics of the Bell Company of Buffalo, which covers Buffalo, Cheyenne, Niagara Falls, Lockport and other towns, there being no competition in 1901:

Per phone. 1901, 1905, 1906. Total Gross earnings ..... \$67,19 \$30,91 \$44,00. Total expenses ..... 47,47 17,73 30,00. Net income ..... 19,72 13,18 14,00.

In Grand Rapids there are now 10,447 telephones in both systems, costing the subscribers but \$4 a year more than the Bell Company. In Erie, Pa., there are 1475 connections. In Pittsburgh, before competition, each subscriber paid \$90 to the Philadelphia Telephone Company for a system of 6000 telephones. To-day, for \$85, he can secure the services of some 14,000 telephones with 34,000 connections. Such figures are surely unanswerable.

WALL STREET DEVELOPS INTO A TRADING AFFAIR

Rallies and Reactions Now of Frequent Occurrence—Cross Movements in Canadians.

World Outlook

Wednesday, Sept. 26. There were again weak and strong features in today's local stock market. There are undoubtedly valid reasons for the fluctuation of certain securities, but these are of such a nature as not to detract from some of the issues which are being disposed of.

On Wall Street

Marshall, Spader & Co. wired J. G. Edwards, King Edward Hotel, at the close of the market: Political news today indicates that the opposition to the Buffalo committee would be supported by the federal administration, and the influence of the latter on the market has been nearly discounted.

Rock Island report, analyzed, shows dividend for common stock equal to 2.10 per cent.

Light demand for stocks by loan crowd.

Eleven roads for third week of September show average increase of 17.75 per cent.

Total gold engagement against deposits, \$22,155,000, of which \$17,100,000 is to arrive.

All principal reserve cities in the United States are now below the proportion of reserve required.

City Bank has engaged \$1,900,000 in gold for import.

It is rumored that common stock of Car Foundry will be placed on a 4 per cent. dividend basis.

Bank lost to sub-treasury since Friday, \$7,702,000 thru return of U. S. deposits.

The Railway Steel Springs Company has declared a dividend of 20 per cent. on its common stock, payable Oct. 20. Books close Oct. 2, reopen Oct. 22.

Detroit United Railway Company declared annual quarterly dividend of 1 1/2 per cent., payable Nov. 1. Books close Oct. 16, and reopen Nov. 2.

The meeting of directors of United Copper Company, which was scheduled for yesterday, has been postponed until next Monday, at 3 p.m. Action on the dividends will then be taken.

At meeting of U. S. Steel Finance Committee Tuesday, discussion of the transfer of Hill ore properties to U. S. Steel under lease, was discussed in a casual way, but no definite action was taken. A meeting of the committee said he could not tell when an announcement would be made.—Down Jones.

Joseph says "On any further dip buy U. S. Steel." B. B. Dyer says Morgan issues short. Average Steels and buy B. & O.

The regular quarterly dividend of \$2 per share for the first time listed on the Paris bourse.

With the final approval of the governing committee of the stock exchange of France, the Pennsylvania Railroad's recent \$20,000,000 bonds became subject of quotation. Two other American railroads, it is understood, are already arranging to follow Pennsylvania's example.

The accumulation of strong interests going on in Southern Pacific has kept that stock by far the steadiest of any issue during the attacks on the market by the bears, and it is predicted on the assumption that the expected "bright" season is declared, it will be much more valuable than indicated heretofore.

One of the most conservative houses in the street has given to understand that, coincident with the retirement of the \$40,000,000 preferred stock of N. Y. C., there will be issued \$60,000,000 of new preferred, without the retirement clause, which stock is now in the hands of the subscribers. This new stock, with a 7 per cent. preference, is calculated, will easily be worth \$140 million, and is believed to be in close touch with Mr. Shaw, and, owing to the source of our information, we would not be at all surprised to see relief come within a comparatively short space of time.—Town Topics.
