NEWS OF THE STRANDING. Was Received at Yarmouth by Telephone From Tusket Wedge—Tugs Were Sent Out.

Yarmouth, N.S., March 12.—News of the stranding of the handsome new Alan liner Castilian on the coast of Yarmouth arrived in town today by telephone from Tusket Wedge. Tugs were at once despatched to her assistance. This afternoon Chief Officer McAfee and Purser Stewart arrived here in a boat and were landed at Little River in a boat and driven to town.

Left Portland on Saturday. The Castilian left Portland, Me., at 1 p.m. yesterday for Liverpool with a cargo consisting of 100,000 bushels of wheat and some three or four thousand tons of general Ontario provisions, such as flour, sugar, etc. She had 100 crew and 322 passengers, including 400 sheep. There were twenty cattle and 400 sheep. There were 22 crew members, eight intermediate and twenty cabin passengers.

During the night the weather was heavy and they proceeded slowly and cautiously, carefully looking out for buoys, or other signs of land.

Breakers Ahead. Suddenly tugs were seen, and at once she struck forward quite gently, the shock not being sufficient to awaken the passengers. It was 3.40 on Sunday morning when she struck. There was no confusion, and all orders were obeyed with alacrity and promptness. The engines were reversed, but the steamer held fast, swinging around till Gunnar Rock was hooped up toward the middle of the low tide when she went on, and it was found the engines would not take her off.

Her Fate Sealed. The ship was comparatively smooth. The carpenter reported that water in the two forward compartments and the boats were all got ready, but there seemed no immediate danger.

Despatched the News. About 6 o'clock the chief officer and purser were despatched to convey the news to land. They proceeded in a launch to Little River, and were there driven to Tusket Wedge, the nearest telephone office, where they communicated with William Law & Co., local agents of the Allan Line, who had tugs sent to the scene as quickly as possible. The weather, though thick, was not so bad, and it is thought here that the steamer may be saved. None of the passengers were hurt, and the crew will probably be brought ashore to-night.

Her Fate Sealed. Captain Barrett, master, was promoted from the Parisian, and is commander of the Alan fleet. This is the first voyage of the Castilian, which is 8800 tons register. She arrived on this side of the Atlantic nine days ago, touching at Halifax and going thence to Portland, where her cargo was loaded.

Refreshments Were Served. Refreshments were served, and later on in the day had luncheon. A boat had been sent to land for food and necessities, and rockets were fired at short intervals all through the day, but nothing was seen. The steaming of the wooden rafts and the cracking of the wooden awning over the deck in the dining saloon was the only sound. This was supposed to have been caused by the swelling of the grain in the forward hold.

Things Became Alarming. These things became alarming, and the ship was abandoned in every department by officers and crew, ship assistance could not be given to the latter gentleman, who thought of everybody but himself and was a power in time of

SIR WILFRED: Considering the help you're trying to give me in advancing 'Senate Reform' of course it would have been rank ingratitude to have granted prohibition and knocked out your new revenue scheme.

HON. MR. FOSTER AT WINNIPEG. Had Not Much to Say on Political Questions, But Conservative Prospects Are Good.

Winnipeg, March 12.—(Special.)—Hon. Mr. Foster left for the east yesterday. He looks well and moves about as nimbly as in his days when he waved the magic wand of office. To the World correspondent he said mining is fairly active in British Columbia. On political affairs he had not much to say. People on the coast are, he says, divided on the Corbin Railway charter.

Hon. Joseph Martin seemed to be rushing things a little too fast. Conservative prospects throughout the Dominion were very good.

What is your plan of campaign? "We will settle that when we get together at Ottawa. Wherever there is a chance we will pitch in. We were beaten in New Brunswick by Federal influence, local influence and money, and yet we got 48 per cent of the total vote."

BRITAIN'S CASE HAS BEEN STATED IN REGARD TO DISARMAMENT PROPOSAL.

IF THE CZAR IS SINCERE AND RUSSIA REALLY HAS PEACEFUL INTENTIONS GREAT BRITAIN IS READY TO MEET HER.

BUT BRITAIN IS DETERMINED THAT HER NAVAL SUPREMACY SHALL BE MAINTAINED—TWO INFLUENCES AT WORK IN RUSSIA, AND THE QUESTION IS WHETHER THE CZAR'S POLICY OR THE MORE MARITIME POLICY OF MURAVIEFF AND DE GIERS WILL PREVAIL.

New York, March 12.—The London correspondent of The Tribune says: "The proposals of the government for an increase of the navy meet with general approval, and are not likely to be seriously opposed in Parliament, though some hostility to the growing expenditure for warlike services is evinced by a section of the Radicals. The estimates, it must be admitted, are somewhat of a surprise; contrary to custom, they were not published before being introduced in the House of Commons, though the Times of the morning before managed to get hold of the substance of them. Considering the fact that after the regular ship building program of last year the government introduced a supplementary scheme for the construction of four more battleships and four cruisers, few people expected that the naval budget for this year would show an increase of nearly £3,000,000. Mr. Josephson's explanation is considered adequate, inasmuch as the demand for new ships, distinctly on the ground of the further increase of foreign navies, especially that of the United States, is not a new thing. It is as a fixed article of policy that their navy must be at least equal to those of the two nations next to them, and it is not difficult to show that this principle is being maintained and that practically what sums it thinks necessary to ask for are reasonable."

There is substantial agreement among influential men here regarding the great effort produced on the public mind by Mr. Josephson's statement of the naval mobilization last autumn, during the terms of which the Lord of the Admiralty is able to show that nothing of the sort happened; there was an occasion to hurry forward the completion of ships, no frantic haste to buy ammunition or stores at panic prices, or to employ men; ships, sailors, stores, equipments, all were ready, and it was only necessary to move them to the front. Woman's World...

Devoted Specially to the Interests of our Women Readers.

The belated pedestrian passing through the quiet, beautiful grounds of the University on Saturday night was conscious of the merry din of fish horns, gongs and lively bursts of college songs and the frequent clapping of many hands.

When the winding of fish horns, the college yell and the applause, which evidenced the satisfaction of the girls in the results, had ceased, Miss Daisy Wright, on behalf of the society, presented the retiring president, Miss Lella Kate White, with a lovely little sunburst of pearls as a slight token of the regard in which the society held her.

Over on Sumach-street the women of the Ontario Medical College for Women also made merry, with their friends, but in a different fashion. It was an open meeting of the Medical-Literary Society, and the rooms of the college were thronged with Miss MacRae, the president of the society, introduced the chairman, the popular doctor, Mrs. Hutchison, who made a charming little address and welcomed the guests.

The Musical Committee of the Woman's Post-Exhibition will meet this morning at 11 o'clock and the Hospitality Committee at 12 o'clock in the Temple Building.

The adjourned meeting of ladies held at the Normal School on Monday, the 27th inst., was held in the Citizens' Auditorium for Consumptives, will take place this afternoon at 3:30 o'clock in the examination hall.

There is a nice white-haired old gaffer who runs the east end elevator in the Yonge-street Arcade. Having occasion to go up and down at three times in one day, last week my conscience smote me for giving the old man so much extra holding.

His Neck Was Broken. The Distressing and Instantaneous Death of William O'Neill at Ingersoll.

Ingersoll, March 11.—William O'Neill, caretaker of Victoria Park, bought a load of hay on Friday. He got on the load with the farmer, and on reaching home he slid off, expecting to light on a post, then to get down quite easily and safely, but immediately he reached the post his feet touched the beveled part, and like a shot, he was thrown in such a manner as to break his neck, and causing almost instantaneous death. Deceased was a long resident of the town, and was highly respected. The funeral will take place on Monday.
