COUNCIL ORDER LICENSE REDUCTION AFTER AN EXCITING DEBATE OF FIVE HOURS REFUSE REFERENDUM VOTE 13 TO 10

**34 LICENSES GO
IN ISSUE OF
MAY 1ST**

Council Chamber Crowded With Pro and Con Deputations and "Doubtful" Aldermen Were Evidently Carried Away by a Temperance Tide—Ald. McMurrich Fails on Compromise Amendment.

**FINAL VOTE ON THIRD READING
IS CARRIED BY 15 TO 8 MAJORITY**

How Council Voted.

On Ald. Lytle's amendment to the bylaw, to provide for submission to the people:
FOR—Controller Ward, Ald. Lytle, Chisholm, Stewart, Sanderson, Church, McBride, McMurrich, Whytock and McGhie—10.
AGAINST—Mayor Oliver, Controllers Hocken, Spence and Harrison, Ald. Foster, Hales, Bredin, Bengough, Vaughan, R. H. Graham, Keeler, J. J. Graham and Adams—13.

On Ald. Keeler's motion to suspend rules to allow third reading:
Ald. Chisholm, McGhie, Whytock and Lytle joined the reductionists, making the vote 17—6 in favor.

For final reading: Ald. McGhie and Chisholm moved for bylaw, which was carried, 15—8.

Ald. McMurrich's motions (1) to reduce number by 9 only, and (2) by 24, were defeated on same vote as on Ald. Lytle's amendment.

There will be only 110 hotels in Toronto privileged to sell liquor after May 1 of the present year, the city council last night, after a discussion of more than five hours' duration, deciding to order the board of commissioners to strike off 34 of the 144 licenses at present held. It is now for the commissioners to proceed with the preparation of a list of those hotels which they may consider to serve the public least in the matter of general accommodation, and to refuse them licenses in May, the period of annual renewal.

ALD. LYTLE
Who Moved to Refer the Question to the Electors.

The test vote, which really showed the strength of the opposing forces, was on Ald. Lytle's motion to defer the third reading of the proposed bylaw until the electors had had the question submitted to them. The line-up was:
FOR—Controller Ward, Ald. Stewart, Chisholm, Sanderson, Church, McBride, Lytle, McMurrich, Whytock and McGhie—10.
AGAINST—Mayor Oliver, Controllers Spence, Harrison and Hocken, Ald. Foster, Hales, Bredin, Bengough, Vaughan, Keeler, R. H. Graham, J. J. Graham and Adams—13.

Council Chambers Crowded.
While the final reading might have been deferred until the next meeting of the council, two weeks hence, the struggle really ended with the above vote, Ald. McGhie, Chisholm, Lytle and Whytock voting with the majority, and giving the requisite two-thirds, which permitted the introduction of the bylaw for its final reading. This ceremony, performed by Mayor Oliver, was accompanied by a burst of enthusiasm from the assembled band of temperance workers.

The council chamber during the afternoon was crowded to its utmost capacity, the available floor space and the galleries being closely packed with a demonstrative and intensely interested audience. A large deputations of ladies, actively interested in the temperance cause, occupied seats on the east side, while there was on hand a small army of clergymen and prominent blue-ribboners. There were also present many scores of citizens opposed to reduction, and the sentiments of the speakers were cheered to the echo, Mayor Oliver making little attempt to preserve the customary staid decorum of the chamber.

The attendance at the night session, while not so overwhelmingly large, was nevertheless sufficient to overtax the seating accommodation.
The Silent Vote Did It.
It was the vote given by Ald. Foster and Ald. Adams, neither of whom had previously committed himself for reduction, which turned the scale. Neither apparently thought it politic to say a word, and allowed the long debate to wind thru its weary course in silence.

After Ald. Lytle's amendment had been voted down, there came a warm discussion as to the rules of procedure. Controller Ward moved that the bylaw be not read a third time, but he said he would not insist on it. Ald. Lytle held that the motion was out of order, and was supported by the mayor, whose ideas did not appear to be of the clear-cut variety. Ald. McMurrich's view was that, unless the rules were suspended, the third reading must stand over, and this the mayor, after consulting his manual, confirmed.

**WALTER CAMPBELL DEAD
IN RAILROAD COLLISION**

Primary Cause of Wreck Was Broken Axle—Freight Crushed Into and Disabled Train.

ST. CATHARINES, Jan. 27.—(Special.)—The periodical train wreck on the Grand Trunk Railway at Merrittville occurred at a spot known as McKenzie's Crossing, only a few hundred yards distant on the easterly side of the station to-night, whereby Walter Campbell, whose home is in Mimico, lost his life, and two freight trains were badly demolished.

REFERRED CAR LINE BACK.
City Council Decides to Forward Plan of Route to Minister of Militia.

Rates Lower; Profits Larger
PETERBORO, Jan. 27.—(Special.)—Peterboro waterworks system during 1907 yielded the city a surplus of \$7000, the largest on record. The total receipts exceeded \$34,000. The system now has over 2400 consumers, and has netted a surplus of \$7000 every year since purchased by the city six years ago, while the rates have been reduced about forty per cent. from low rate charge when the plant was under private ownership.

AS IT LOOKS TO HIM.

MR. BORDEN: Come 'way from there. Don't you see it's dangerous?
WILF.: I don't see it's any more dangerous here than there.

Documents Produced Show a Suspicious Tender for Limits

Question for Hand Writing Experts is Involved—Premier's Explanation in Delivering the Papers.

OTTAWA, Jan. 27.—(Special.)—The coon came down. At the same moment the original documents in respect to the granting of certain timber limits in the northwest were laid on the table of the house this afternoon. After routine proceedings, Sir Wilfrid rose to make the statement he promised he would give "after the house shall have cooled down." The prime minister said:
"I stated the other day that I would make to-day a statement to the house with regard to the question which occupied its attention for some time last week. I have not to go back upon the position which has been taken by the government with regard to the members of the house obtaining original documents."
The motion of the hon. member for St. Antoine (Mr. Ames) having been disposed of, it has been observed that the hon. member would not renew his motion except by unanimous consent of the house. Perhaps the point of order would be raised by the hon. member, but I think it is better always to adhere to the rules of the house, and under the circumstances I have asked the minister of the interior to place upon the table of the house the originals sought for.

What Documents Disclosed.
The examination of the originals by Mr. Ames disclosed some important information. Two of three tenders for one of the timber limits are unmistakably in the same handwriting. The lowest tender is that of Angus Fraser, a barrister of Ottawa. The price named is \$1000. The second tender is for \$2500. The third is for \$7000, and is signed by W. H. Nolan, a broker of Montreal. The two tenders of Fraser and Nolan are in the same handwriting. The supposition is that the individual in whose interest the lowest tender was put in, protected himself by also putting in a second tender in collusion in the department of the interior, who was instructed to fill in the blank with an amount slightly in excess of the bona fide tender, so that by the collusion of an official the timber limit would be sure to fall to the party who had offered a sum less than one of the tenders.

Second Time Within Month.
CHICAGO, Ill., Jan. 27.—(A. P. Dispatch.)—For the second time within a month, receivers have been appointed for the Chicago and Milwaukee Electric Railroad Company. Judge Grosscup, in the United States court, made the appointments late to-day. Application of interests which are said to be favorable to the present management of the company. A receiver was also named for A. C. Frost & Co., a banking firm, which has financed the road's bond issue. Mr. Frost is president of the railroad company.

City's Population 355,726.
The 1908 directories will be ready on Friday for distribution. According to the estimate of the publishers, the population of the city is now 355,726. This figure is arrived at by multiplying the individual names by 2.34, as a probable average of family representation. There are 11,609 more names than in last year's book, which estimated the population at 323,801.

That there are numerous changes recorded is shown by reproductions of canvassers' sheets, in which, on East Adelaide-street, out of 41 names, 27 are changed; on Dundas-street, 28 changes in 42 names, and on Balmoral-avenue, 14 in 27.
By the use of better display type, it will be easier hereafter to locate the streets in the classified list, and a system of underlines improves the classified list of firms, etc.

CANNERS FORM NEW COMBINE
About 40 Companies Interested in New Association.

The Independent Cannery Association has stepped forward to take its part in the industrial affairs of Canada. Its existence dates from yesterday, when it was formed at a meeting in the King Edward, at which were represented all the canning companies left outside of the Canners, Limited, formed a couple of years ago by the amalgamation of thirty-three canning companies. Its avowed object is to fight the big trust, but it is no doubt calculated to strengthen the independent men in competing with the larger concern. As stated in the resolution the object of the association is "to meet from time to time to discuss all matters relative to the interests of canners for their mutual benefit, advantage and protection. About forty companies are interested in the new association.

CHICAGO, Jan. 27.—(Special.)—The Chicago & Milwaukee Electric Railroad is in the receiver's hands. Thirty million dollars is involved. The petitioners include the Sovereign Bank of Canada, Bail Bros. of Muncie, and Otto Hanson of Milwaukee. It is said that a financial coup was planned to stop the investigation of fraud charges against President Frost.

F. B. Lord is Dead.
NEW YORK, Jan. 27.—F. B. Lord, a well-known lawyer, died to-day.

NO MINISTER DELEGATED TO CONFER ON RADIALS
C. H. Ritchie, K.C., and James Leitch Go to Ottawa to Meet Hon. G. P. Graham.

POLITICAL DEADLOCK.
BRANTFORD, Jan. 27.—(Special.)—The political deadlock in the council was unbroken to-night after four hours session. The vote stands Conservatives 8, Liberals 8.

THE BENEFIT OF THE GEORGIAN BAY CANAL

McCool, M.P., Presents Strong Argument on the Possibilities Waterway Affords

OTTAWA, Jan. 27.—(Special.)—The Georgian Bay Canal project was discussed in the house this afternoon, on motion of Mr. McCool (Nipissing) asking for papers. Mr. McCool began by giving an interesting history of Upper Ottawa, from the time of Champlain. The routes used by the early voyagers of the Hudson Bay Co. and similar concerns had in most cases turned out to be the ones suitable for commercial purposes. Proceeding, he recited a record of previous surveys of the Georgian Bay Canal route, including the surveys of Smith, McLeod, Coulter, Fraser and Wisner, the latter estimating the cost of a 20-foot waterway at \$80,000,000, and strongly urged the commercial possibilities of the undertaking.

Mostly Open Navigation.
Mr. McCool gave figures derived from the report already published showing that the canal from Georgian Bay to Montreal, 440 miles, was made up of 37 miles of open navigation, 55 miles of improved channel and 27 miles of canal. As far as saving in time in the Georgian Bay route over the present St. Lawrence, it was calculated that a vessel using the former route could make the round trip from Port William to Montreal, discharge, reload and return in 12 days. The actual time of the voyage each way would be five days, with one day each for discharging and loading return cargo. Against this the round trip via St. Lawrence takes 21 days, with similar despatch of loading and unloading. The intention was to have a canal 22 feet deep, with locks 60 feet beam and drawing 21 feet. As for safety of route, it was incomparably greater than the present route of navigation from the head of Lake Superior to the head of ocean navigation.

Such was the progress of development in Manitoba and the Northwest in the ten years, notwithstanding the existence of three transcontinental railroads and a possible railway from Winnipeg to Hudson Bay. The quantity of grain and other farm products to be carried would overtax the transportation facilities of the country. The Grand Trunk Pacific would open up in Ontario alone, he said, sixteen million acres of excellent wheat lands. The Township of Temiskaming, which the last census contained 13,000 souls, had a population to-day of 30,000; nor was this altogether due to mining development. Settlement was proceeding apace. The fact that Sir Thomas Shaughnessy and Sir William Van

Continued on Page 6.

OTTAWA, Jan. 27.—(Special.)—Hon. G. P. Graham to-night received a telegram from Attorney-General Foy thanking him for his acceptance of the suggestion for a conference on the Hamilton Radial Bill and stating that C. H. Ritchie, K.C., and James Leitch, chairman of the Ontario Railway and Municipal Board, would come to Ottawa to-morrow.

Blenheim Widow Found Dead.

Government Should Purchase A Power Plant at the Falls

R. C. Steele, Retiring President of Board of Trade, Says Future of Province Depends on Success of Power Policy.

"The government should purchase outright one or more of the existing electric plants at Niagara Falls," said R. C. Steele, retiring president of the board of trade, in his address to the annual meeting of that body yesterday afternoon.

"Owing to the financial disturbances in the closing months of the year, a reaction set in in manufacturing and general business activity in this country, and a general stock-taking of resources is going on throughout the Dominion, which, I think, will result in ultimate benefit," said Mr. Steele.

"No country in the world has greater natural potential resources than Canada, and none in the extent of these resources, with the single exception of coal, which in the past has been the chief factor in producing motive power for our manufacturers."

"We in Canada cannot expect to compete successfully in the industrial markets of the world, or to hold our own home market, unless we make the most of our resources. The absence of coal in this province, which has been so deeply in the past, may prove a blessing in disguise, if we set resolutely to work to avail ourselves to the utmost of the electrical development possible thru unrivaled water powers."

"The passage of electric power bylaws in Toronto, so many of the western municipalities by such enormous majorities, is an endorsement of the policy of the Ontario government to secure all the benefits possible for the entire community from the great store of energy at Niagara Falls."

"Government Should Proceed. I feel that it will be necessary for the government to go still further. Recent discoveries in electrical development prove that it will be possible to distribute power from Niagara Falls practically all over the province."

"With a union of the Niagara Falls Park Commission and the hydro-electric commission, an ideal committee for handling the power when acquired by the government would be created. The union of these two bodies would insure harmony of action in the preservation of the scenic beauty of the Falls, combined with economy in further developing the potentialities of the power, as it becomes necessary."

"As to Compensation, went on Mr. Steele, 'where it is necessary to acquire private property to carry out public enterprises, the principle has been recognized that full payment should be made for properties taken over in the public interest, and we cannot take any other course, although as a matter of right or policy, we are likely to be large borrowers in the future and must maintain our public record unimpaired. At the same time, I would have the controlling present utilities against any unreasonable attitude, as while I feel sure that the government will be able to control their plants at a fair valuation and allowing the promoters a reasonable reward for their enterprise, any attempt to hold out for an exorbitant price for their properties would be very detrimental to the public interest.'"

"In the financing of development, distribution and transmission of power by the government, an estimated corporation and the municipalities, control of development and transmission and the municipalities, there would be no question of the renewal of the franchise, so that it would be unnecessary to load the annual charges with a sinking fund to pay off the entire original cost in thirty or forty years, as has been suggested, by extending the time of payment for a larger period, say a sinking fund, which would pay half the cost in twenty-five or thirty years, at the end of which period a further sinking fund could be provided for paying off the balance in a similar period."

"By such an arrangement, it would be possible to provide electrical power thruout this province at prices which would make its use practically universal in a very few years."

Havoc Wrought by Plague Almost Inconceivable

The casual observer does not know of the havoc wrought by the white plague in the homes of this city. Its work is quiet, but none the less terrible.

The public should awaken to the demand upon it for sympathy and aid. There is no doubt that the people will join in the efforts of the anti-tuberculosis societies. Much has been accomplished and complete success is certain if the people themselves will help.

The first duty of mankind is to guard in every way possible against the deadly germ. Neglect of even an ordinary cough or cold is dangerous, as the resting and sleeping germs render them more and especially receptive of the tubercular germ.

To break up a cough quickly and cure what is curable, there is no remedy so effective as a mixture of two ounces of glycerine, a half ounce of good whisky, mix thoroughly and take a teaspoonful every four hours. Five ounces of tincture of Cantharis compound can be used instead of the whisky with the same effect.

The ingredients are inexpensive and can be purchased without trouble at any good drug store. To avoid substitution of some inferior product for the Virgin Oil of Pine, it is better to purchase each separately and mix them at home.

The genuine Virgin Oil of Pine is put up for dispensing, only in half ounce round wooden cases with an engraved wrapper, showing plainly the name—Leach Chemical Company, Windsor, Leach Chemical Company, Windsor, the oil sold in bulk and cheap imitations put out to resemble Virgin Oil of Pine, and these are not intended for internal use, and when taken internally usually cause nausea.

These pine needle oils are not intended for internal use, and when taken internally usually cause nausea. The mixture is confined to the manufacture of soap and similar purposes.

For representatives on Industrial Exhibition Board: S. E. Briggs, D. O. Ellis, Geo. H. Gooderham, Noel Marshall and J. Harry Patterson.

FAST CANADIAN CRUISER FOR PACIFIC SERVICE

Will Be Properly Armed and Manned to Patrol Deep Sea Fisheries.

OTTAWA, Jan. 27.—(Special.)—In the house this afternoon, replying to Mr. Sloan (Comox Atlin), Hon. L. Brodeur said it was proposed to build a new 20 knot sea-going cruiser, properly armed and manned, to effectively patrol the deep sea fisheries of the Pacific coast. Plans and specifications were ready, and tenders would be called for very shortly.

Mr. Talbot interpreted the government's intention to build a new 20 knot sea-going cruiser, properly armed and manned, to effectively patrol the deep sea fisheries of the Pacific coast. Plans and specifications were ready, and tenders would be called for very shortly.

Hon. A. B. Aylesworth replied that the annuity of \$10,000 was not in possession of information as to the office held by the ex-chief justice of the Conservative party, and rules of the house precluded the offering of an opinion as to the propriety of his doing so.

To the question: "If the sensibility of the pensioners is not sufficient to prevent them from interfering in political matters, does the government intend to make up for the deficiency?" Mr. Aylesworth said: "The suggestion seems beyond governmental power."

Canada's Diplomatic Status. Mr. Thompson asked: "What is the status of Canada in negotiations of imperial treaties with foreign nations with reference to subjects not purely Canadian, but which, directly or indirectly, affect Canada?"

Mr. Whitford Laurier replied: "In the British constitution, changes have been taken place from time to time to meet new conditions as new nations arise. A rule which has been followed of late years has been that in all matters of treaties with the foreign countries, purely Canadian, but which directly or indirectly affect Canada, the interest of the Dominion is paramount."

Alonso Watkins. Deceased. Alonzo Watkins, for 33 years superintendent of the Horticultural Gardens, died yesterday, aged 65 years, after a long illness.

Mrs. V. E. Morden. Deceased. Mrs. V. E. Morden, widow of the late Dr. Morden, died here to-day, aged 79. Mrs. Morden was born on May 24, 1831, and was named Victoria Elizabeth in commemoration of the event. She was the fourth daughter of the late Hon. Geo. Crawford, and was actively identified with local educational and charitable institutions, and attained prominence as a writer and lecturer on her foreign travels. Dean Crawford of Halifax, N.S., is a brother.

Robert Hockley. Deceased. Mrs. Wm. Storey has received word of the death of her brother, Robert Hockley, at Newark, Ohio. Deceased was a brakeman on the B. & O., and was fatally injured by a shunting engine. He was of English birth, 43 years of age. A brother and sister in the northwest also survive.

May Have Novitiate Here. To-night meeting will be held at the De La Salle Institute to devise ways and means of erecting a novitiate for the training of young men to the Christian Brothers.

The present agitation is the outcome of the education department's recent regulations requiring all teachers in Ontario to pass the departmental examinations. As a result, when a young man becomes a Brother and is sent to the province he has to undergo the examinations, as they cannot be passed while he is in Montreal, and the rules of the order will not permit him to leave the house to try them.

A fund of \$100,000 may be asked for. Bread Upon the Waters. Because of all given the police in rounding up a number of counterfeiters years ago, George Lewis, convicted of having stolen 500 cigars, was allowed a suspension of sentence in police court yesterday morning.

Sudden Disappearance of a Toronto Driver

Edward H. Jackson Hasn't Been Seen Since Wednesday Morning Last—No Known Reason.

Edward Harry Jackson left his home at 801 Ontario-street last Wednesday morning to go to his work and has not yet returned. His wife and friends fear that he has met with some accident.

Jackson, who is 45 years of age, was a driver for Husband Bros. and Peters, fruit dealers. He is said to be of sober habits, and his employers and friends declare that there was no reason that they know of why he should be missing.

He was dressed in a dark suit, dark overcoat and peak cap. He is 5 feet 10 inches in height, weighs 145 lbs. and has a heavy dark mustache. His wife is in ill-health, and for that reason Jackson has been in the habit of spending nearly all his spare time at home. He has lived in Toronto many years.

He had about \$5 with him, but some time Jackson has dropped from sight. He makes collections for the firm, and one theory is that he has been waylaid for money others might suppose him to have.

May Have Novitiate Here. To-night meeting will be held at the De La Salle Institute to devise ways and means of erecting a novitiate for the training of young men to the Christian Brothers.

The present agitation is the outcome of the education department's recent regulations requiring all teachers in Ontario to pass the departmental examinations. As a result, when a young man becomes a Brother and is sent to the province he has to undergo the examinations, as they cannot be passed while he is in Montreal, and the rules of the order will not permit him to leave the house to try them.

A fund of \$100,000 may be asked for. Bread Upon the Waters. Because of all given the police in rounding up a number of counterfeiters years ago, George Lewis, convicted of having stolen 500 cigars, was allowed a suspension of sentence in police court yesterday morning.

Sudden Disappearance of a Toronto Driver

Edward H. Jackson Hasn't Been Seen Since Wednesday Morning Last—No Known Reason.

Edward Harry Jackson left his home at 801 Ontario-street last Wednesday morning to go to his work and has not yet returned. His wife and friends fear
